In December 2017, the European Parliament passed the STS Regulation which will come into force on January 1, 2019. During 2018 a number of key delegated legislative

texts will be drafted. The Regulation also contains extensive requirements for the grandfathering of securitisations issued before January 1, 2019.

In line with its mission to strengthen the securitisation market as a sustainable investment and funding tool for both investors and originators, PCS has committed itself to assist all market participants in transitioning to the new regime.

To do so, PCS will, amongst other activities, provide issuers and/or investors, upon request, an STS Report setting out any discrepancies between existing securitisations or securitisations to be issued before the coming into force of the STS regime and the requirements of the law. In doing so, PCS will draw on its extensive involvement over the years with the design of the STS criteria.

We are therefore organising a series of workshops across Europe to explain:

(a) how the new STS regime works with its key aspects.

(b) how the new STS regime impacts issuers, investors and other market participants; and

(c) how the PCS STS report works.

A roadshow presentation will be held at **Dutch Securitisation Association's offices (offices of the Dutch Banking Association) 7th Floor, Gustav, Mahlerplein 29, 1082 MS Amsterdam at 15:00 hrs**, and we are delighted to invite you to attend. The PCS workshop presentation.

We look forward to seeing you on the day but if you are unable to attend the presentation in person, it will also be possible to attend by webinar (via a computer link to the visual presentation document, sound will be via your computer / headphones).

Please find attached details of how you may attend the presentation or webinar.

Please RSVP to: admin@pcsmarket.org, advising where you will be attending in person or via webinar.

Kind regards
