Article 405 of the CRR, Article 51 of the AIFM Regulation and Article 254 of the Solvency II Delegated Regulation

The Seller will retain, for the life of the Notes, a material net economic interest equivalent to not less than five per cent. of the securitised exposures in accordance with Article 405 of Regulation (EU) No 575/2013 of 26 June 2013 on prudential requirements for credit institutions and investment firms (the “**CRR**”) and Section 5 of Chapter III of the Commission Delegated Regulation (EU) No 231/2013 supplementing Directive 2011/61/EC (the “**AIFM Regulation**”). As of the Note Issuance Date, such interest will, in accordance with Article 405(1)(c) of the CRR and Article 51(1)(c) of the AIFM Regulation, be comprised of an interest in randomly selected exposures equivalent to not less than five per cent. of the nominal amount of the securitised exposures in the Portfolio.

Prospective Noteholders should note that requirements similar to those set out in the CRR and the AIFM Regulation are imposed on insurance and re-insurance undertakings under Article 254 of Commission Delegated Regulation (EU) 2015/35 (the “**Solvency II Delegated Regulation**”).

After the Note Issuance Date, the Seller will assist the Issuer in preparing monthly investor reports wherein relevant information with regard to the Portfolio will be disclosed publicly together with an overview of the retention of the material net economic interest by the Seller, for the purposes of which the Seller will provide the Issuer with all information reasonably required with a view to satisfying the requirements of Article 409 of the CRR and Article 52 of the AIFM Regulation.

Each prospective investor for whom the CRR is relevant is required to independently assess and determine the sufficiency of the information described under this sub-heading for the purposes of complying with Articles 405 to 410 of the CRR, Articles 51 to 56 of the AIFM Regulation and Articles 254 to 257 of the Solvency II Delegated Regulation, and none of the Issuer, the Purchaser, Santander Consumer Finance Oy (in its capacities as the Seller and the Servicer), the Joint Lead Managers or the Arranger makes any representation that the information described above is sufficient in all circumstances for such purposes. In addition, each prospective Noteholder for whom the CRR is relevant should ensure that it complies with any implementing provisions in respect of Articles 405 to 410 of the CRR in its relevant jurisdiction, each prospective Noteholder for whom the AIFM Regulation is relevant should ensure that it complies with any implementing provisions in respect of Articles 51 to 56 of the AIFM Regulation in its relevant jurisdiction and each prospective Noteholder for whom the Solvency II Delegated Regulation is relevant should ensure that it complies with any implementing provisions in respect of Articles 254 to 257 of the Solvency II Delegated Regulation in its relevant jurisdiction. Investors who are uncertain as to the requirements which apply to them in respect of their relevant jurisdiction should seek guidance from their regulator and/or independent legal advice on the issue. The Seller accepts responsibility for the information set out in this paragraph and in the preceding three paragraphs.

Bank of America Merrill Lynch, Barclays and Santander Global Corporate Banking (together, the “**Joint Lead Managers**”) will, on a best endeavours basis, subscribe and make payment for, or procure subscription of and payment for, the Class A Notes and the Class B Notes (other than any Class A Notes or Class B Notes which are purchased by the Seller) and, to the extent they subscribe for and purchase any Class A Notes or Class B Notes, may offer the Class A Notes and the Class B Notes from time to time, in negotiated transactions or otherwise. The date of this prospectus is 26 October 2016.

Each Class of the Notes will initially be in the form of a temporary global note (each a “**Temporary Global Note**”), without interest coupons attached, which, in the case of the Class A Notes, will be deposited on or about the Note Issuance Date with a common safekeeper for Clearstream Banking, société anonyme (“**Clearstream, Luxembourg**”) and Euroclear Bank S.A./N.V. (“**Euroclear**” and, together with Clearstream Luxembourg, the “**Clearing Systems**”) and in the case of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, will be deposited with a common depository for the Clearing Systems. Interests in a Temporary Global Note will be exchangeable for interests in a permanent global note (each a “**Permanent Global Note**” and, together with the Temporary Global Notes, the “**Global Notes**”), without interest coupons attached, on or after the date falling 40 calendar days after issue (the “**Exchange Date**”), upon certification as to non-U.S. beneficial ownership.

The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This simply means that the Class A Notes are intended upon issue to be deposited with a common safekeeper for one or more of the Clearing Systems and does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

The Notes will be issued in denominations of EUR 100,000. See “*NOTE CONDITIONS — Form, Denomination and Title*”.

The Notes will be governed by English law.

Any investment in the Notes does not have the status of a bank deposit and is not within the scope of the deposit protection scheme operated by the Central Bank. The Issuer is not regulated by the Central Bank by virtue of the issue of the Notes.

THE NOTES REPRESENT OBLIGATIONS OF THE ISSUER ONLY AND DO NOT REPRESENT AN INTEREST IN OR OBLIGATION OF ANY OF THE ARRANGER, THE JOINT LEAD MANAGERS, THE SELLER, THE SERVICER, THE BACK-UP SERVICER FACILITATOR, THE SWAP COUNTERPARTY, THE NOTE TRUSTEE, THE ISSUER SECURITY TRUSTEE, THE PURCHASER SECURITY TRUSTEE, THE PRINCIPAL PAYING AGENT, THE CALCULATION AGENT, THE CASH ADMINISTRATOR, THE LISTING AGENT OR ANY OF THEIR RESPECTIVE AFFILIATES OR ANY OTHER PARTY TO THE TRANSACTION DOCUMENTS (OTHER THAN THE ISSUER). NEITHER THE NOTES NOR THE UNDERLYING PORTFOLIO WILL BE INSURED OR GUARANTEED BY ANY GOVERNMENTAL AGENCY OR INSTRUMENTALITY OR BY ANY OF THE ARRANGER, THE JOINT LEAD MANAGERS, THE SELLER, THE SERVICER, THE BACK-UP SERVICER FACILITATOR, THE SWAP COUNTERPARTY, THE NOTE TRUSTEE, THE ISSUER SECURITY TRUSTEE, THE

PURCHASER SECURITY TRUSTEE, THE PRINCIPAL PAYING AGENT, THE CALCULATION AGENT, THE CASH ADMINISTRATOR, THE LISTING AGENT OR ANY OF THEIR RESPECTIVE AFFILIATES OR ANY OTHER PARTY TO THE TRANSACTION DOCUMENTS (OTHER THAN THE ISSUER) OR BY ANY OTHER PERSON OR ENTITY EXCEPT AS DESCRIBED HEREIN.

Rating Agencies

The Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes are expected, on issue, to be rated by Moody’s Investors Service Limited (“**Moody’s**”) and Fitch Ratings Ltd (“**Fitch**”) and, together with Moody’s, the “**Rating Agencies**”.

In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union (“**EU**”) and registered under Regulation (EC) No 1060/2009 (the “**CRA Regulation**”). Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU credit rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended).

Each of Moody’s and Fitch is established in the European Union and has been registered under the CRA Regulation.

Credit Ratings

It is a condition of the issue of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes that they are assigned the ratings indicated in the table on the page V of this Prospectus. The rating of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes by Fitch addresses the likelihood of (a) (i) the timely payment of interest due on the Class A Notes and the Class B Notes on each Payment Date and (ii) ultimate payment of interest due on the Class C Notes, the Class D Notes and the Class E Notes by a date that is no later than the Maturity Date and (b) the repayment of principal on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes by the Maturity Date. The rating of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes by Moody’s addresses the expected loss posed to the holders of the Class A Notes, the holders of the Class B Notes, the holders of the Class C Notes, the holders of the Class D Notes or the holders of the Class E Notes, as applicable, by the Maturity

Date. Moody's ratings address only the credit risks associated with the transaction. Other non-credit risks have not been addressed, but may have a significant effect on yield to investors.

The ratings assigned to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes do not represent any assessment of the likelihood or level of principal prepayments prior to the Maturity Date. The ratings do not address the possibility that the holders of the Class A Notes, the holders of the Class B Notes, the holders of the Class C Notes, the holders of the Class D Notes and the holders of the Class E Notes might suffer a lower than expected yield due to prepayments or amortisation or may fail to recoup their initial investments.

The ratings assigned to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes should be evaluated independently against similar ratings of other types of securities. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal by the Rating Agencies at any time.

The Issuer has not requested a rating of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes by any rating agency other than the Rating Agencies; there can be no assurance, however, as to whether or not any other rating agency will rate the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes or, if it does, what rating would be assigned by such other rating agency. The rating assigned to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes by such other rating agency could be lower than the respective ratings assigned by the Rating Agencies.

The Issuer has not requested a rating of the Class F Notes by any rating agency.

PCS Label

An application has been made to Prime Collateralised Securities (PCS) UK Limited for the Class A Notes to receive the Prime Collateralised Securities label (the "**PCS Label**") and the Seller currently expects that the Class A Notes will receive the PCS Label. However, there can be no assurance that the Class A Notes will receive the PCS Label (either before issuance or at any time thereafter) and, if the Class A Notes do receive the PCS Label, there can be no assurance that the PCS Label will not be withdrawn from the Class A Notes at a later date.

The PCS Label is not a recommendation to buy, sell or hold securities. It is not investment advice whether generally or as defined under the Markets in Financial Instruments Directive and it is not a credit rating whether generally or as defined under the CRA Regulation or Section 3(a) of the United States Securities Exchange Act of 1934 (as amended). Prime Collateralised Securities (PCS) UK Limited is not an "expert" as defined in the United States Securities Act of 1933 (as amended).

By awarding the PCS Label to certain securities, no views are expressed about the creditworthiness of these securities or their suitability for any existing or potential investor or as to whether there will be a ready, liquid market for these securities. Investors should conduct their own research regarding the nature of the PCS Label and must read the information set out in <http://www.pcsmarket.org>. Neither that website nor the contents thereof form part of this Prospectus.

On 10 December 2013, five U.S. financial regulators approved a final rule to implement Section 13 of the Bank Holding Company Act of 1956, as amended, commonly known as the Volcker Rule. Subject to certain exceptions, the Volcker Rule prohibits sponsorship of, and investment in, covered funds by "banking entities", a term that includes most internationally active banking organisations and their respective affiliates. The Volcker Rule includes as a "covered fund" any entity that would be an "investment company" but for the exemptions provided by Section 3 of the Investment Company Act of 1940, as amended (the "**Investment Company Act**"). A sponsor or adviser to a covered fund is prohibited from entering into certain "covered transactions" with that covered fund. Covered transactions include (among other things) entering into a swap transaction or guaranteeing notes if such swap or guarantee would result in a credit exposure to the covered fund.

Not all investment vehicles or funds, however, fall within the definition of a "covered fund" for the purposes of the Volcker Rule. For most non-U.S. banking entities, a non-U.S. issuer that offers its securities only to non-U.S. persons may be considered not to be a covered fund due to its offshore nature. The Issuer is organised outside of the United States, and issues and sells securities (including the Notes) only to non-U.S. persons pursuant to Regulation S. Further, its securities (including the Notes) may not be transferred to U.S. persons. Under the Volcker Rule, such an offshore vehicle would only be a "covered fund" for U.S.-based banking organisations that invest in or sponsor it. As such, the Issuer may be considered a covered fund by the non-U.S. subsidiaries of U.S.-based banks, which could impose restrictions on those entities' ability to purchase or deal in the Notes and therefore negatively affect the liquidity of the Notes. From the perspective of a banking organisation based outside of the United States, however, such an offshore vehicle is not a covered fund, and that organisation, though it may be a banking entity, may invest in securities of the Issuer without violating the Volcker Rule.

Prospective investors for whom the Volcker Rule may be relevant are required (in consultation with their advisers) to independently assess, and reach their own views on, the effect that that legislation may have on the merits and risks of an investment in the Notes.

PRIPs Regulation

The Notes are not intended to be offered or transferred to, or held by, “retail investors” for the purposes of Regulation (EU) No 1286/2014 of 26 November 2014 on key information documents for packaged retail and insurance-based investment products (the “**PRIPs Regulation**”). Accordingly, none of the Issuer, the Arranger or the Joint Lead Managers expects to be required to prepare, and none of them has prepared, or will prepare, a “key information document” in respect of the Notes for the purposes of the PRIPs Regulation.

An investment in the Notes is only suitable for financially sophisticated investors who are capable of evaluating the merits and risks of such investment and who have sufficient resources to be able to bear any losses which may result from such investment. It should be remembered that the price of securities and the income from them can go down as well as up.

Interest

On each Payment Date, interest on the Notes of each Class is payable monthly in arrear on the relevant Class Principal Amount outstanding immediately prior to the relevant Payment Date (as these terms are defined in Note Condition 4 (*Interest*)) of such Notes. With respect to the Class A Notes, the interest rate will be EURIBOR plus 0.50% per annum (subject to a floor of zero), with respect to the Class B Notes, the interest rate will be 0.167% per annum, with respect to the Class C Notes, the interest rate will be 1.60% per annum, with respect to the Class D Notes, the interest rate will be 2.40% per annum, with respect to the Class E Notes, the interest rate will be 3.30% per annum and, with respect to the Class F Notes, the interest rate will be 9.00% per annum.

– clean-up call option**

On any Payment Date on which the Aggregate Outstanding Asset Principal Amount has been reduced to less than 10% of the Aggregate Outstanding Asset Principal Amount as of the Note Issuance Date, the Seller shall have, subject to certain requirements, the option under the Auto Portfolio Purchase Agreement to repurchase all outstanding Purchased HP Contracts held by the Purchaser. The purchase price for any such repurchase shall equal the sum of (A) the Aggregate Outstanding Asset Principal Amount plus (B) any Deemed Collections owed by the Seller and other Collections received by the Seller, as Servicer, and not otherwise paid to the Issuer Collections Account and (C) any interest on the Purchased HP Contracts accrued until, and outstanding on, the Early Redemption Date (as defined in Note Condition 5.3(A)(ii) (*Early redemption*)). If the Seller exercises this repurchase option, the Purchaser shall apply the repurchase monies in repaying the Loan then outstanding and the Issuer shall apply the monies received from the Purchaser in redeeming the Notes on the Early Redemption Date. If any such withholding or deduction is imposed, the Issuer will not be obliged to pay any additional or further amounts as a result thereof.

**Optional redemption
for taxation reasons**

In the event that the Issuer is required by law to deduct or withhold certain taxes with respect to any payment under the Notes or the Purchaser is required by law to deduct or withhold certain taxes with respect to any payment under the Loan Agreement, the Notes may, at the option of the Issuer and subject to certain conditions, be redeemed in whole but not in part at their then outstanding aggregate Note Principal Amounts, together with accrued but unpaid interest (if

any) to the date (which must be a Payment Date) fixed for redemption.

Issuer Secured Assets

The Issuer's obligations to pay interest and principal in respect of the Notes will be funded primarily from the payments of interest and principal received by the Issuer from the Purchaser under the Loan Agreement. The Issuer's primary asset will be its rights under the Loan Agreement and the Issuer will only have a security interest in the Portfolio.

The obligations of the Issuer under the Notes will be secured by first ranking security interests granted to the Noteholders and the other Issuer Secured Parties (in the case of (a) below) and to the Issuer Security Trustee for the benefit of the Noteholders and the other Issuer Secured Parties (in the case of (b) and (c) below) over the Issuer Secured Assets which will include:

- (a) a pledge of (i) the Issuer's monetary claims under the Transaction Documents governed by Finnish law and (ii) the Issuer's rights in and to the Issuer Collections Account, in accordance with the Issuer Finnish Security Agreement;
- (b) security over the Issuer's rights under the Issuer Corporate Administration Agreement, in accordance with the Issuer Irish Security Deed; and

Upon the delivery by the Note Trustee of an Enforcement Notice, the Issuer Security Trustee will, subject to the terms of the Issuer Security Trust Deed, enforce or arrange for the enforcement of the security over the Issuer Secured Assets and any proceeds obtained from the enforcement of the security over the Issuer Secured Assets pursuant to the Issuer Security Documents (together with any other funds forming part of the Issuer Post-Enforcement Available

Distribution Amount) will be applied exclusively in accordance with the Issuer Post-Enforcement Priority of Payments.

THE LOAN AGREEMENT

Loan and purpose Under the terms of the Loan Agreement, the Issuer will make an advance (the “**Loan**”) to the Purchaser in an amount equal to the Aggregate Purchase Price.

The Purchaser will apply the proceeds of the Loan to pay the Seller for the Portfolio which the Seller will sell and assign to the Purchaser on the Note Issuance Date pursuant to a purchase agreement entered into between, among others, the Purchaser and the Seller (the “**Auto Portfolio Purchase Agreement**”).

Interest The amount of interest payable to the Issuer in respect of the Loan on each Payment Date shall be calculated by the Servicer, the Cash Administrator and/or the Calculation Agent, as applicable, and shall be equal to:

- (a) the Purchaser Pre-Enforcement Available Distribution Amount or the Purchaser Post-Enforcement Available Distribution Amount (as applicable), in each case, as at the immediately preceding Cut-Off Date; less
- (b) the sum of (i) the aggregate of all amounts payable by the Purchaser on such Payment Date pursuant to items (a) to (d) (inclusive) of the relevant Purchaser Priority of Payments; and (ii) the amount of principal in respect of the Loan repayable by the Purchaser on such Payment Date.

Subject to the relevant Issuer Priority of Payments, the Issuer shall, on each Payment Date, apply interest paid by the Purchaser in respect of the Loan in payment of the Issuer Swap Interest and any termination payments due and payable under the Swap Agreement (other than any Swap Subordinated Amounts), in payment of interest on each Class of Notes, in crediting the Reserve Account, in payment of amounts due to the Expenses Advance Provider, in payment of any Swap Subordinated Amounts and in payment of any remaining excess to the Purchaser, each in accordance with the relevant Issuer Priority of Payments.

Fee On each Payment Date, the Purchaser shall pay to the Issuer a fee in consideration of the making of the Loan in an amount equal to the aggregate of all amounts due and payable by the Issuer pursuant to items (a) to (c) (inclusive) of the relevant Issuer Priority of Payments.

Loan Maturity Date Unless previously repaid as described herein, the Loan will be repaid in full on the Maturity Date of the Notes, subject to the limitations set forth in Clause 18 (*Non-Petition and Limited Recourse*) of the Loan

Agreement. The Purchaser will be under no obligation to make any payment under the Loan Agreement after the Loan Maturity Date.

Amortisation

On each Payment Date, the Loan will be subject to repayment in accordance with the Purchaser Pre-Enforcement Priority of Payments.

The principal repayable to the Issuer in respect of the Loan on each Payment Date shall equal the amount of principal required by the Issuer on such Payment Date to fund the aggregate of the amounts repayable on such Payment Date by the Issuer on the outstanding Class A Notes, the outstanding Class B Notes, the outstanding Class C Notes, the outstanding Class D Notes, the outstanding Class E Notes and the outstanding Class F Notes.

**Mandatory
repayment –
clean-up call
option**

Upon the exercise by the Seller of the option under the Auto Portfolio Purchase Agreement to repurchase all outstanding Purchased HP Contracts and upon receipt of the repurchase price from the Seller, the Purchaser shall apply the repurchase monies in repaying the Loan on the Early Redemption Date and the Issuer shall apply the monies received from the Purchaser in redeeming the Notes on the Early Redemption Date.

Taxation

All payments of principal of, and interest on, the Loan and fees will be made free and clear of, and without any withholding or deduction for or on account of, tax (if any) applicable to the Loan under any applicable jurisdiction, unless such withholding or deduction is required by law. If any such withholding or deduction is imposed, the Purchaser will not be obliged to pay any additional or further amounts as a result thereof.

**Mandatory
repayment for
taxation reasons**

In the event that the Issuer exercises its option to redeem the Notes for taxation reasons, the Loan shall be repaid in full at its Loan Principal Amount, together with accrued but unpaid interest and fees (if any) to the date (which must be a Payment Date) fixed for redemption.

**Purchaser
Secured Assets**

The obligations of the Purchaser to the Issuer under the Loan Agreement and the other Purchaser Secured Parties will be secured by first ranking security interests granted to the Issuer and the other Purchaser Secured Parties (in the case of (a) below) and to the Purchaser Security Trustee for the benefit of the Issuer and the other Purchaser Secured Parties (in the case of (b) and (c) below) over the Purchaser Secured Assets, including:

- (a) a pledge over (i) the Purchased HP Contracts; (ii) the present and future claims, rights and receivables that the Purchaser has or will have against the Servicer pursuant to the Servicing Agreement and the Seller and the Subordinated Loan Provider pursuant to the Auto Portfolio Purchase Agreement; and (iii) the Financed

Vehicles, in accordance with the Purchaser Finnish Security Agreement;

- (b) security over the Purchaser's rights under the Purchaser Corporate Administration Agreement, in accordance with the Purchaser Irish Security Deed; and
- (c) security over the Purchaser's right, title and interest in, to and under (i) the Purchaser Transaction Account and any Permitted Investments purchased with funds standing to the credit of the Purchaser Transaction Account; and (ii) certain English law Transaction Documents to which it is a party, in accordance with the Purchaser Security Trust Deed.

The pledge granted in respect of the Purchased HP Contracts pursuant to the Purchaser Finnish Security Agreement shall be legally perfected by virtue of notification to the Debtors and holders of the relevant Financed Vehicles and directing the Debtors and holders of the relevant Financed Vehicles to make payments under the Purchased HP Contracts to the Issuer Collections Account.

Pursuant to the Purchaser Security Trust Deed, the Issuer will declare that, until the Discharge Date, it will hold all of its rights, title, benefits and interests as pledgee under the Purchaser Finnish Security Agreement upon trust absolutely for itself and the other Purchaser Secured Parties as beneficiaries in accordance with the Purchaser Security Trust Deed.

Following delivery by the Note Trustee of an Enforcement Notice, the relevant Purchaser Security Administrative Parties will, subject to the terms of the Purchaser Security Documents, enforce or arrange for the enforcement of the security over the Purchaser Secured Assets and any proceeds obtained from the enforcement of the security over the Purchaser Secured Assets pursuant to the Purchaser Security Documents (together with any other funds forming part of the Purchaser Post-Enforcement Available Distribution Amount) will be applied exclusively in accordance with the Purchaser Post-Enforcement Priority of Payments.

The Issuer, the Finnish Pledge Authorised Representative and the other Purchaser Secured Parties will not be able to exercise any rights in relation to the Portfolio beyond those which may be exercised by the Purchaser. The Purchaser's and the Purchaser Secured Parties' rights in relation to the Portfolio will be limited to the rights which the Seller had under the Purchased HP Contracts and applicable law to enforce those Contracts. Enforcement against a Debtor can only take place in accordance with applicable enforcement legislation and provided that, among other things, the relevant Purchased HP Contract is in default.

Limited recourse All payment obligations of the Purchaser under the Loan Agreement will be limited recourse obligations of the Purchaser to pay only the amounts available for such payment from the applicable Purchaser Available Distribution Amount in accordance with the Purchaser Priorities of Payments.

THE PORTFOLIO, SERVICING AND COLLECTIONS

**The Portfolio:
Purchased HP
Contracts** The Portfolio consists of HP Contracts executed by certain debtors as borrowers (the “**Debtors**”) for the purpose of financing the acquisition of the Financed Vehicles (including the right to payment under such HP Contracts and the title to the Financed Vehicles until all such payments have been made in full).

The Portfolio will be transferred to the Purchaser on the Purchase Date pursuant to the Auto Portfolio Purchase Agreement.

The aggregate of the Principal Amount of the HP Contracts in the Portfolio as at the Purchase Cut-Off Date was Euro 607,199,725.09.

**Servicing of the
Portfolio** The Portfolio will be administered, collected and enforced by Santander Consumer Finance Oy, in its capacity as Servicer and on behalf of the Purchaser and others, under a servicing agreement with, *inter alios*, the Purchaser (the “**Servicing Agreement**”) dated on or before the Note Issuance Date, and, upon termination of the appointment of the Servicer following the occurrence of a Servicer Termination Event, by a substitute servicer appointed pursuant to the provisions of the Servicing Agreement.

Under the terms of the Servicing Agreement, Santander Consumer Finance, S.A. will act as the back-up servicer facilitator (the “**Back-Up Servicer Facilitator**”). Pursuant to that agreement, if, so long as the Servicer is Santander Consumer Finance Oy:

- (a) the unsecured, unsubordinated debt obligations of Santander Consumer Finance, S.A. cease to have long-term ratings of at least “Baa3” by Moody’s or “BBB-” by Fitch; and/or
- (b) Santander Consumer Finance, S.A. ceases to control the Servicer,

the Back-Up Servicer Facilitator will (unless Banco Santander S.A. or one of its Affiliates has long-term ratings of at least “Baa3” by Moody’s or “BBB-” by Fitch and retains or assumes control of the Servicer) (i) select within 60 days a bank or financial institution meeting the requirements set out in the Servicing Agreement and willing to assume the duties of a successor servicer in the event that a Servicer Termination Notice is delivered, (ii) review the information provided to it by the Servicer under the Servicing Agreement, (iii) enter into

appropriate data confidentiality provisions and (iv) notify the Servicer if it requires further assistance.

For these purposes, “**control**” means the power, direct or indirect (A) to vote more than 50 per cent. of the securities having ordinary voting power for the election of directors of the Servicer, or (B) to direct or cause the direction of the management and policies of the Servicer whether by contract or otherwise.

**Servicer Termination
Event**

“**Servicer Termination Event**” shall mean the occurrence of any of the following events:

- (a) the Servicer fails to remit to the Issuer any Collections received by it or to make any payment required to be made by the Servicer to the Purchaser pursuant to the Servicing Agreement, in each case, on or within three Business Days after the date when such payment is required to be made in accordance with the Servicing Agreement or, if no such due date is specified, the date of demand for payment, provided, however, that a delay or failure to make such a remittance or payment will not constitute a Servicer Termination Event if such delay or failure is caused by an event beyond the reasonable control of the Servicer, an act of God or other similar occurrence;
- (b) the Servicer fails to perform any of its obligations (other than those referred to in paragraph (a) above) owed to the Purchaser under the Servicing Agreement and such failure is materially prejudicial to the interests of the Noteholders (as determined by the Note Trustee) and continues for (i) five Business Days in the case of failure by the Servicer to deliver any Monthly Report when due or (ii) 30 calendar days in the case of any other failure to perform, in each case after the date on which the Note Trustee gives written notice thereof to the Purchaser, the Issuer and the Servicer or the Servicer otherwise has notice or actual knowledge of such failure (whichever is earlier), provided, however, that, subject to paragraph (g) below, a delay or failure to perform any obligation will not constitute a Servicer Termination Event if such delay or failure is caused by an event beyond the reasonable control of the Servicer, an act of God or other similar occurrence;
- (c) any of the representations and warranties made by the Servicer with respect to or in the Servicing Agreement or any Monthly Report or any information transmitted is false or incorrect in a manner which is materially prejudicial to the interests of the Noteholders (as determined by the Note Trustee);
- (d) the Servicer becomes subject to Insolvency Proceedings;

"Collections" shall mean, with respect to any Purchased HP Contract:

On the fifth Business Day falling after each Cut-Off Date, the amount of Collections transferred from the Issuer Collections Account to the Issuer Transaction Account in excess of the aggregate amount payable by the Purchaser to the Issuer under the Loan Agreement (taking into account the applicable Purchaser Priority of Payments) on the immediately following Payment Date shall be transferred by the Servicer from the Issuer Transaction Account to the Purchaser Transaction Account and, for the avoidance of doubt, such excess will form part of the Purchaser Pre-Enforcement Available Distribution Amount or Purchaser Post-Enforcement Available Distribution Amount, as applicable.

On each Payment Date, the remaining Collections standing to the credit of the Issuer Transaction Account shall (i) be applied *pro tanto* against the Purchaser's obligation to pay interest, principal, fees and any other amounts to the Issuer under the Loan Agreement on such Payment Date and thereafter (ii) form part of the Issuer Pre-Enforcement Available Distribution Amount or the Issuer Post-Enforcement Available Distribution Amount, as applicable, and will be applied in accordance with the relevant Issuer Priority of Payments.

Deemed Collections

Pursuant to the Auto Portfolio Purchase Agreement, the Seller has undertaken to pay to the Purchaser (or to its order) as a Deemed Collection the Outstanding Principal Amount (or the affected portion thereof) of any Purchased HP Contract (plus accrued and unpaid interest) if such Purchased HP Contract becomes a Disputed HP Contract, such Purchased HP Contract is rescheduled or modified other than in accordance with the Servicing Agreement or certain other events occur. In accordance with the terms of the Auto Portfolio Purchase Agreement, in certain circumstances the receipt by the Purchaser of a Deemed Collection will result in the relevant Purchased HP Contract being automatically re-assigned to the Seller on the next Payment Date following the payment of the Deemed Collection.

"Deemed Collection" shall mean, in relation to any Purchased HP Contract, an amount equal to:

(a) the Outstanding Principal Amount of such Purchased HP Contract (or, as the context may require, the affected portion of such Outstanding Principal Amount, in each case before giving effect to an event described in this definition), plus accrued and unpaid interest on such Outstanding Principal Amount (or, as applicable, such portion) as of the date when the Seller makes payment to the Issuer Collections Account with respect to such Deemed Collection, if:

- (i) such Purchased HP Contract becomes a Disputed HP Contract (irrespective of any subsequent court determination in respect thereof);
- (ii) such Purchased HP Contract is rescheduled (including any extension of its maturity date) or otherwise substantially modified (in each case, other than as a result of a Payment Holiday or otherwise in accordance with the Servicing Agreement or the Credit and Collection Policy or applicable law, provided that any extension of the maturity date of any Purchased HP Contract to a date falling more than ten months after its maturity date as at the Purchase Date or, if earlier, to a date later than 30 November 2023 shall result in a Deemed Collection with respect to that Purchased HP Contract); or
- (iii) such Purchased HP Contract is cancelled or otherwise ceases to exist for any reason other than full payment by the Debtor to the Seller or the Purchaser, bankruptcy or insolvency of the Debtor or statutes of limitation,

and, in the case of (i) above, the Seller does not cure such event or condition within 60 calendar days after the day it receives notice from the Purchaser (or the Servicer on its behalf) or otherwise obtains knowledge of such event or condition; and

(b) the amount of any reduction of the Outstanding Principal Amount of such Purchased HP Contract or any accrued and unpaid interest or any other amount owed by a Debtor with respect to such Purchased HP Contract, due to:

- (i) any set-off against the Seller or the Purchaser (as the case may be) due to a counterclaim of the Debtor, or any set-off or equivalent action against the relevant Debtor by the Seller;

- (ii) any discount or other credit in favour of the Debtor (for the avoidance of doubt, the granting of a Payment Holiday to a Debtor shall not be classified as a credit); or
- (iii) any final and conclusive decision by a court or similar authority with binding effect on the parties, based on any reason.

**Defaulted HP

Any Purchased HP Contract (which is not a Disputed HP Contract) which has (a) Instalments thereunder at least 180 calendar days overdue for the preceding Collection Period (provided, however, that any Instalment which has been deferred during a Payment Holiday shall to that extent not be treated as overdue) or (b) been written-off by the Servicer in accordance with the Credit and Collection Policy (a **"Defaulted HP Contract"**).

ISSUER'S SOURCE OF FUNDS AND ACCOUNTS

Expenses Advance

Pursuant to the Expenses Advance Facility Agreement, the Expenses Advance Provider will make available to the Issuer an interest-bearing amortising funding advance (the **"Expenses Advance"**) denominated in Euro which will not be credit-linked to the Portfolio and which will, subject to certain conditions, be disbursed on the Note Issuance Date to provide the Issuer with the funds necessary to pay certain amounts under the Transaction Documents (including, without limitation, the fees, costs and expenses payable on the Note Issuance Date by the Issuer to the Joint Lead Managers and to other parties in connection with the offer and sale of the Notes) and certain other costs.

The Expenses Advance will be repaid in accordance with the Issuer Priorities of Payment and the Transaction Documents.

Collections Accounts

Prior to the Purchase Date, the Debtors make payments on HP Contracts into one or more bank accounts in the name of the Seller at the Collections Account Bank (the **"Seller Collections Accounts"**). On or about the Purchase Date, notices will be posted to the Debtors notifying them of the transfer of the Purchased HP Contracts to the Purchaser and of the Finnish law pledge granted by the Purchaser over the Purchased HP Contracts and certain claims and directing them to make payments under the Purchased HP Contracts to a specified account of the Issuer (the **"Issuer Collections Account"**). The funds in the Issuer Collections

Account may, in the discretion of the Servicer, be invested by the Issuer from time to time in Permitted Investments.

The Servicer will instruct the Collections Account Bank to transfer, on a monthly basis, the amount of all Collections received during the immediately preceding Collection Period and which are (after the transfer of Insurance Premium Payments to the Seller) standing to the credit of the Issuer Collections Account to the Issuer Transaction Account.

If, notwithstanding the notices to Debtors, any Collections are received and credited to any Seller Collections Account following the Purchase Date, the Servicer shall instruct the Collections Account Bank to transfer such Collections to the Issuer Collections Account within one Helsinki Banking Day after receipt (or, in the case of exceptional circumstances causing an operational delay in the transfer, within three Helsinki Banking Days after receipt).

The Servicer shall pay to the Purchaser (or to its order) interest on the amount of those Collections, for each day from and including the Helsinki Banking Day when the Seller receives those Collections to but excluding the date on which it transfers those Collections to the Issuer Collections Account, at the same rate as the effective rate of interest received by the Seller on amounts held in the Seller Collections Accounts during the relevant period. Such interest shall be payable on each Cut-Off Date.

Issuer Transaction Account

“Issuer Transaction Account” shall mean a specified account in the name of the Issuer at the Transaction Account Bank, as the same may be redesignated or replaced from time to time in accordance with the Transaction Documents. The funds in the Issuer Transaction Account will be invested by the Issuer from time to time in Permitted Investments.

Liquidity Reserve

The Class A Notes and the Class B Notes will have the benefit of a liquidity reserve in an amount equal to the Required Liquidity Reserve Amount (the “**Liquidity Reserve**”), which is designed to cover temporary shortfalls in the amounts required to pay interest on the Class A Notes and the Class B Notes and certain prior-ranking amounts, as specified in the Issuer Pre-Enforcement Priority of Payments. Pursuant to, and in accordance with, the terms of the Auto Portfolio Purchase Agreement, the Subordinated Loan Provider will make available to the Issuer and the Purchaser a loan facility denominated in Euro under which the Subordinated Loan Provider will, on the Note Issuance Date, (a) make interest-bearing amortising advances to the Issuer in order to fund the Reserve Account, (b) make interest-bearing amortising advances to the Purchaser in order to fund the Servicer Advance Reserve and (c) make available to the Purchaser on or prior to the first Payment Date an amount of Euro 274.91 (being the difference between the Aggregate Purchase Price and the Aggregate Asset Principal Amount Outstanding as of the Purchase Cut-Off Date) to provide further funds for the purpose of meeting the Purchaser’s obligations under the Purchaser Pre-Enforcement Priority of Payments on such Payment Date.

After the Note Issuance Date, the Subordinated Loan Provider shall not be required to make further advances to the Purchaser or the Issuer (other than the advance of Euro 274.91 to be made to the Purchaser on or prior to the first Payment Date).

The Issuer Subordinated Loan and the Purchaser Subordinated Loan will be repaid in accordance with the Issuer Priorities of

- (d) the Purchaser fails to pay or perform, as applicable, when and as due, any other obligation under the Loan Agreement (in the case of any payment obligation with respect to any Payment Date, to the extent the Purchaser Pre-Enforcement Available Distribution Amount as of the immediately preceding Cut-Off Date would have been sufficient to pay such amounts in accordance with the Purchaser Pre-Enforcement Priority of Payments), other than any obligation referred to in paragraph (c) of this definition, and such failure is, in the opinion of the Note Trustee, materially prejudicial to the interests of the holders of the Senior Class of Notes then Outstanding and continues for 30 calendar days after the date on which

written notice thereof is given by, or on behalf of, the Issuer to the Purchaser; or

- (e) the Purchaser fails to pay when due (subject to any applicable grace periods) (i) any amount to a Debtor or to deposit such amount with the Finnish enforcement authority on behalf of such Debtor in respect of the repossession of the relevant Financed Vehicle or (ii) any VAT to the Finnish tax authorities in relation to the resale of any Financed Vehicle following its repossession because (A) (1) the amount standing to the credit of the Servicer Advance Reserve Ledger on the day such payment is due is insufficient to make such payment and (2) either the Servicer has not made a Servicer Advance with respect to such payment or, if it has made a Servicer Advance, the Servicer Advance is insufficient to cover the amount of such payment after applying any available amount standing to the credit of the Servicer Advance Reserve Ledger towards making such payment or (B) it is not possible to make such payment by its due date (subject to any applicable grace periods) in accordance with the applicable Purchaser Priority of Payments.

Purchaser Post-Enforcement Available Distribution Amount

“Purchaser Post-Enforcement Available Distribution Amount” shall mean, with respect to any Payment Date following delivery by the Note Trustee of an Enforcement Notice, an amount equal to the sum of:

- (a) all Collections (including, for the avoidance of doubt, Deemed Collections paid by the Seller or the Servicer but excluding Insurance Premium Payments which will be transferred on a monthly basis to the Seller) transferred to the Issuer Transaction Account on the fourth Business Day falling after the immediately preceding Cut-Off Date;
- (b) any funds standing to the credit of the Purchaser Transaction Account on such Payment Date (other than any amounts referred to in (a) above and amounts received from the Issuer in accordance with item (v) of the Issuer Post-Enforcement Priority of Payments);
- (c) the proceeds of enforcement of the security over the Purchaser Secured Assets available for distribution on such Payment Date (other than amounts referred to in (a) and (b) above); and
- (d) any other amount received by the Purchaser (other than any amounts received from the Issuer in accordance with

item (v) of the Issuer Post-Enforcement Priority of Payments).

Purchaser Post-Enforcement Priority of Payments

Following delivery by the Note Trustee of an Enforcement Notice, on any Payment Date the Purchaser Post-Enforcement Available Distribution Amount shall be applied in accordance with items (a) to (f) (inclusive) of the following order of priorities and any amount received from the Issuer on such Payment Date pursuant to item (v) of the Issuer Post-Enforcement Priority of Payments shall be applied in accordance with items (g) and (h) of such order of priorities, in each case only to the extent payments of a higher priority have been made in full:

- (a) first, to pay *pari passu* with each other on a *pro rata* basis:
 - (i) any obligation of the Purchaser with respect to any taxes, including corporation and trade tax under any applicable law (if any) which is due and payable and which, pursuant to applicable law, is payable in priority to the Purchaser Secured Obligations; and
 - (ii) the fee payable to the Issuer pursuant to Clause 6.3 (*Certain fees*) of the Loan Agreement in an amount equal to the Issuer's obligations specified in item (a) of the Issuer Post-Enforcement Priority of Payments;
- (b) second, to pay *pari passu* with each other on a *pro rata* basis:
 - (i) any fees, costs, amounts in respect of taxes (including VAT but excluding, for the avoidance of doubt, any income taxes or other general taxes due and payable in the ordinary course of business), expenses, indemnity payments and other amounts due and payable to the Purchaser Security Administrative Parties under the Transaction Documents and any Receiver appointed in respect of the Purchaser pursuant to the Transaction Documents; and
 - (ii) the fee payable to the Issuer pursuant to Clause 6.3 (*Certain fees*) of the Loan Agreement in an amount equal to the Issuer's obligations specified in item (b) of the Issuer Post-Enforcement Priority of Payments;

- (c) *third*, to pay *pari passu* with each other on a *pro rata* basis:
- (i) any fees, costs, amounts in respect of taxes (including VAT but excluding, for the avoidance of doubt, any income taxes or other general taxes due in the ordinary course of business), expenses, indemnity payments and other amounts due and payable to the directors of the Purchaser (properly incurred with respect to their duties), legal advisers, tax advisers or auditors of the Purchaser, the Joint Lead Managers under the Class A Notes and Class B Notes Subscription Agreement (excluding commissions and concessions which are payable to the Joint Lead Managers under the Class A Notes and Class B Notes Subscription Agreement on the Note Issuance Date and which are to be paid by the Issuer by applying the funds disbursed to it under the Expenses Advance), the Seller under the Class C Notes, Class D Notes, Class E Notes and Class F Notes Subscription Agreement, the Corporate Administrator under the Purchaser Corporate Administration Agreement and any other amounts due and payable by the Purchaser in connection with the Purchaser's ownership of the Financed Vehicles or enforcement of the Purchased HP Contracts (excluding those payments to be made pursuant to item (d) below), in connection with the establishment, liquidation and/or or dissolution of the Purchaser or any annual return, filing, registration and registered office or other company, licence or statutory fees in Ireland; and
 - (ii) the fee payable to the Issuer pursuant to Clause 6.3 (*Certain fees*) of the Loan Agreement in an amount equal to the Issuer's obligations specified in item (c) of the Issuer Post-Enforcement Priority of Payments;
- (d) *fourth*, to pay *pari passu* with each other on a *pro rata* basis any fees (including the Servicer Fee), costs, amounts in respect of taxes (excluding, for the avoidance of doubt, any income taxes or other general taxes due in the ordinary course of business), expenses and other amounts (including any Servicer Advances) due and payable to the Servicer under the Servicing Agreement, and any such amounts due and payable to any substitute servicer (including any expenses, costs and fees incurred in the course of replacement) for the Purchased HP Contracts

which may be appointed from time to time in accordance with the Auto Portfolio Purchase Agreement or the Servicing Agreement;

- (e) *fifth*, to pay to the Issuer interest due and payable on the Loan;
- (f) *sixth*, to pay to the Issuer any principal due and payable in respect of the Loan;
- (g) *seventh*, to pay *pari passu* with each other on a *pro rata* basis (A) any amounts due and payable by the Purchaser to the Seller under the Auto Portfolio Purchase Agreement in respect of (i) any tax credit, relief, remission or repayment received by the Issuer on account of any tax or additional amount paid by the Seller, or (ii) any Deemed Collection paid by the Seller for a Disputed HP Contract which proves subsequently, as determined by a final judgment not subject to appeal, to be an enforceable Purchased HP Contract, or otherwise (including, for the avoidance of doubt, any claims of the Seller against the Issuer for breach of obligation) under the Auto Portfolio Purchase Agreement or the other Transaction Documents; and (B) first, interest (including any deferred interest) due and payable to the Subordinated Loan Provider on the Purchaser Subordinated Loan and, thereafter, outstanding principal on the Purchaser Subordinated Loan; and
- (h) *lastly*, to pay any remaining amount to the Seller as Deferred Purchase Price.

On each Payment Date following the service of an Enforcement Notice by the Note Trustee, the Collections standing to the credit of the Issuer Transaction Account shall be applied *pro tanto* against the Purchaser's obligation to pay interest, principal, fees and any other amounts due to the Issuer under the Loan Agreement on such Payment Date in accordance with the Purchaser Post-Enforcement Priority of Payments.

Issuer Event of Default An "**Issuer Event of Default**" shall occur when:

- (a) the Issuer becomes subject to Insolvency Proceedings;
- (b) the Issuer fails to pay on any Payment Date or the Maturity Date, as applicable, any principal then due and payable in respect of any Notes and such failure continues for five Business Days, provided that such a failure to pay with respect to the Class F Notes or, prior to the Maturity Date, with respect to the Class A Notes, the Class B Notes, the

Class C Notes, the Class D Notes or the Class E Notes will only constitute an Issuer Event of Default if the Issuer Pre-Enforcement Available Distribution Amount as of the immediately preceding Cut-Off Date would have been sufficient to pay such amount in full in accordance with the Issuer Pre-Enforcement Priority of Payments;

- (c) the Issuer fails to pay on any Payment Date or the Maturity Date, as applicable, any interest then due and payable in respect of the Senior Class of Notes then Outstanding;
- (d) the Issuer fails to pay or perform, as applicable, when and as due, any other obligation under the Transaction Documents (in the case of any payment obligation with respect to any Payment Date, to the extent the Issuer Pre-Enforcement Available Distribution Amount as of the immediately preceding Cut-Off Date would have been sufficient to pay such amounts in accordance with the Issuer Pre-Enforcement Priority of Payments), other than any obligation referred to in paragraphs (b) and (c) of this definition and any obligation to pay the Expenses Advance Provider or the Subordinated Loan Provider under item (t) of the Issuer Pre-Enforcement Priority of Payments, and such failure is, in the opinion of the Note Trustee, materially prejudicial to the interests of the holders of the Senior Class of Notes then Outstanding and continues for 30 calendar days after the date on which the Note Trustee gives written notice thereof to the Issuer; or
- (e) a Purchaser Event of Default occurs which has not been waived in accordance with the Transaction Documents.

Issuer Post-Enforcement Available Distribution Amount

“Issuer Post-Enforcement Available Distribution Amount” shall mean, with respect to any Payment Date following the delivery by the Note Trustee of an Enforcement Notice, an amount equal to the sum of:

- (a) the amount standing to the credit of the Issuer Transaction Account representing interest, principal, fees and any other amounts payable by the Purchaser pursuant to the Loan Agreement on such Payment Date (taking into account the Purchaser Post-Enforcement Priority of Payments);
- (b) any funds standing to the credit of the Issuer Transaction Account on such Payment Date (other than amounts referred to in (a) above);
- (c) any amounts received or to be received by the Issuer or the Principal Paying Agent on behalf of the Issuer under the

Swap Agreement on or before and with respect to the Payment Date immediately following such Cut-Off Date (excluding any collateral posted by the Swap Counterparty in the Swap Collateral Account and/or in any other account for this purpose, under any Credit Support Annex and any interest thereon, but including (i) any amount of such collateral retained by the Issuer in accordance with the Swap Agreement following termination of the Swap Transaction to the extent not applied to put in place a replacement swap transaction and (ii) any amount received by the Issuer by way of any premium paid by any replacement swap counterparty to the extent not applied to pay any termination payment under such Swap Agreement being replaced);

- (d) any funds standing to the credit of the Reserve Account on such Payment Date;
- (e) the proceeds of enforcement of the security over the Issuer Secured Assets available for distribution on such Payment Date (other than amounts referred to in (a), (b), (c) and (d) above); and
- (f) any other amount received by the Issuer.

**Issuer Post-
Enforcement Priority
of Payments**

Following the delivery by the Note Trustee of an Enforcement Notice, on any Payment Date the Issuer Post-Enforcement Available Distribution Amount shall be applied in the following order towards fulfilling the payment obligations of the Issuer, in each case only to the extent payments of a higher priority have been made in full:

- (a) *first*, to pay any obligation of the Issuer with respect to any taxes including corporation and trade tax under any applicable law (if any) which is due and payable and which, pursuant to applicable law, is payable in priority to the Issuer Secured Obligations;
- (b) *second*, to pay *pari passu* with each other on a *pro rata* basis any fees, costs, amounts in respect of taxes (including VAT but excluding, for the avoidance of doubt, any income taxes or other general taxes due and payable in the ordinary course of business), expenses, indemnity payments and other amounts due and payable to the Note Trustee and the Issuer Security Trustee under the Transaction Documents and any Receiver appointed in respect of the Issuer pursuant to the Transaction Documents;

- (c) *third*, to pay *pari passu* with each other on a *pro rata* basis any fees, costs, amounts in respect of taxes (including VAT but excluding, for the avoidance of doubt, any income taxes or other general taxes due in the ordinary course of business), indemnity payments, expenses and other amounts due and payable to the directors of the Issuer (properly incurred with respect to their duties), legal advisers or auditors of the Issuer, the Rating Agencies (including any ongoing monitoring fees), the Agents under the Agency Agreement, the Corporate Administrator under the Issuer Corporate Administration Agreement, the Custodian under the Custody Agreement, the Transaction Account Bank under the Transaction Account Bank Agreement, the Collections Account Bank under the Issuer Collections Account Agreement, the Joint Lead Managers under the Class A Notes and Class B Notes Subscription Agreement (excluding commissions and concessions which are payable to the Joint Lead Managers under the Class A Notes and Class B Notes Subscription Agreement on the Note Issuance Date and which are to be paid by the Issuer by applying the funds disbursed to it under the Expenses Advance), the Seller under the Class C Notes, Class D Notes, Class E Notes and Class F Notes Subscription Agreement, the other Purchaser Secured Parties under the indemnity granted by the Issuer pursuant to Clause 21.7 (*Issuer Indemnity*) of the Purchaser Security Trust Deed, the relevant stock exchange on which the Notes may be listed, any listing agent, any intermediary between the Issuer, the Noteholders and the relevant stock exchange, and any other amounts due from the Issuer in connection with the liquidation or dissolution of the Issuer or any annual return, filing, registration and registered office or other company, licence or statutory fees in Ireland;
- (d) *fourth*, to pay (A) the Issuer Swap Interest to the Swap Counterparty in accordance with the Swap Agreement (if any) and (B) any termination payments due and payable to the Swap Counterparty under the Swap Agreement (other than any Swap Subordinated Amounts);

- (a) the Issuer will pay to the Swap Counterparty on each Payment Date the Issuer Swap Interest, being a fixed rate of 0.197 per cent. per annum, applied to the Swap Notional Amount; and
- (b) the Swap Counterparty will pay to the Issuer on each Payment Date a floating rate equal to EURIBOR as set by the calculation agent under the Swap Transaction in respect of the Interest Period immediately preceding such Payment Date plus a margin equal to 0.50 per cent. per annum (subject to a floor of zero), applied to the Swap Notional Amount.

RISK FACTORS

The following is a summary of certain factors which prospective investors should consider before deciding to purchase the Notes. The following statements are not exhaustive; prospective investors are requested to consider all the information in this Prospectus (including “*LEGAL MATTERS — FINLAND*”), make such other enquiries and investigations as they consider appropriate and reach their own views prior to making any investment decisions.

The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and, in the light of their own financial circumstances and investment objectives, reach their own views prior to making any investment decision.

The Issuer believes that the following factors may be relevant to it and its business. All of these factors involve contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

Credit aspects of the Transaction and other considerations relating to the Notes

Liability under the Notes, limited recourse

The Notes represent obligations of the Issuer only, and do not represent obligations of, and are not guaranteed by, any other person or entity. In particular, the Notes do not represent obligations of, and will not be guaranteed by, any of the Seller, the Servicer, the Back-Up Servicer Facilitator, the Purchaser, the Note Trustee, the Purchaser Security Trustee, the Issuer Security Trustee, the Principal Paying Agent, the Calculation Agent, the Cash Administrator, the Arranger, the Joint Lead Managers, the Listing Agent, the Swap Counterparty or any of their respective Affiliates or any Affiliate of the Issuer or any other party (other than the Issuer) to the Transaction Documents or any other third person or entity other than the Issuer. No person other than the Issuer will accept any liability whatsoever to the Noteholders in respect of any failure by the Issuer to pay any amount due under the Notes.

Prior to the delivery by the Note Trustee of an Enforcement Notice, all payment obligations of the Issuer under the Notes constitute exclusive obligations to pay out on each Payment Date the Issuer Pre-Enforcement Available Distribution Amount determined as of the Cut-Off Date immediately preceding such Payment Date in accordance with the Issuer Pre-Enforcement Priority of Payments. After the delivery by the Note Trustee of an Enforcement Notice, all payment obligations of the Issuer under the Notes constitute exclusive obligations to pay out on each Payment Date the Issuer Post-Enforcement Available Distribution Amount as at such Payment Date in accordance with the Issuer Post-Enforcement Priority of Payments. If, following enforcement of the security over the Issuer Secured Assets, the proceeds of such enforcement prove ultimately insufficient, after payment of all claims ranking in priority to amounts due under the Notes, to pay in full all principal and interest and other amounts whatsoever due in respect of the Notes, any shortfall arising will be extinguished and the Noteholders will neither have any further claim against the Issuer in respect of any such amounts nor have recourse to

any other person for the loss sustained. **The enforcement of the security over the Issuer Secured Assets by the Issuer Security Trustee is the only remedy available to the Noteholders for the purpose of recovering amounts payable in respect of the Notes.** Such assets and proceeds of the Issuer will be deemed to be “ultimately insufficient” at such time as no further assets of the Issuer are available and no further proceeds can be realised therefrom to satisfy any outstanding claim of the Noteholders, and neither assets nor proceeds will be so available thereafter.

The Issuer’s primary asset will be its rights under the Loan Agreement and the related security created by the Purchaser. Neither the Issuer nor the Noteholders will have any direct interest in the Portfolio, although the Issuer will share in the benefit of a security interest created by the Purchaser over its rights to the Purchased HP Contracts. **The Finnish Pledge Authorised Representative, the Issuer and the other Purchaser Secured Parties will not be able to exercise any rights in relation to the Portfolio beyond those which may be exercised by the Purchaser. The Purchaser’s and the Purchaser Secured Parties’ rights in relation to the Portfolio will be limited to the rights which the Seller had under the Purchased HP Contracts and applicable law to enforce the Purchased HP Contracts. Enforcement against a Debtor can only take place if, among other things, the relevant Purchased HP Contract is in default.**

Non-existence of the Purchased HP Contracts

If any of the Purchased HP Contracts has not come into existence at the time of their transfer to the Purchaser under the Auto Portfolio Purchase Agreement, or are subject to any encumbrances, there is a risk that such transfer would not result in the Purchaser acquiring title to the Purchased HP Contract or (in the case of any encumbrances) that the Purchaser would acquire the Seller’s title to the Purchased HP Contract subject to any such encumbrances. These risks will be mitigated by the fact that the Purchaser, pursuant to the terms of the Auto Portfolio Purchase Agreement, retains the right to bring indemnification claims against the Seller, but no other person, against the risk that the Purchased HP Contracts do not exist or cease to exist without encumbrance. The Seller has also agreed in the Auto Portfolio Purchase Agreement that, if a Purchased HP Contract proves not to have been legally valid as of the Purchase Date, the Seller will repurchase such Purchased HP Contract at a repurchase price equal to the Outstanding Principal Amount of such Purchased HP Contract plus accrued and unpaid finance charges and certain other amounts.

Limited resources of the Issuer

The Issuer is a special purpose financing entity with no business operations other than the issue of the Notes and entering into the Transaction Documents including the Loan Agreement.

Therefore, the ability of the Issuer to meet its obligations under the Notes will depend, *inter alia*, upon its receipt of:

- (a) payments of principal and interest and certain other payments received under the Loan Agreement;
- (b) payments (if due) from the Swap Counterparty under the Swap Agreement;

- (c) interest earned on the Issuer Secured Accounts; and
- (d) payments (if any) under the other Transaction Documents in accordance with the terms thereof.

Other than the foregoing, the Issuer will have no funds available to meet its obligations under the Notes.

If there is a shortfall between the interest and/or principal amounts payable by the Purchaser to the Issuer in respect of the Loan under the Loan Agreement and the amounts payable by the Issuer on the Notes, then the Noteholders may not, depending on what other sources of funds are available to the Issuer and the Purchaser, receive the full amount of interest and/or principal which would otherwise be due and payable on the Notes.

Limited resources of the Purchaser

The Purchaser is a special purpose financing entity with no business operations other than acquiring, owning and collecting and financing the Portfolio and entering into the Transaction Documents.

Therefore, the ability of the Purchaser to meet its obligations under the Loan Agreement will depend, *inter alia*, upon its receipt of:

- (a) payments of principal and interest received under the Purchased HP Contracts;
- (b) Deemed Collections (if due) and certain other payments received from the Seller under the Auto Portfolio Purchase Agreement;
- (c) interest earned on the Purchaser Transaction Account;
- (d) amounts paid by any third party upon the resale of Defaulted HP Contracts or the disposal of Financed Vehicles; and
- (e) payments (if any) under the other Transaction Documents in accordance with the terms thereof.

Other than the foregoing, the Purchaser will have no funds available to meet its obligations under the Loan Agreement. For a discussion of certain factors which may adversely affect the amounts received by the Purchaser and therefore the Issuer's ability to make payments on the Notes, please see "*RISK FACTORS - Amounts available to make payment on the Notes may be reduced as a result of counter-claims Obligors have against the Dealer or the Seller*", "*RISK FACTORS - Risk of losses on the Portfolio*" and "*RISK FACTORS - Risk of early repayment*".

Subordination

The Issuer's obligations under the Swap Agreement will be secured by the Issuer Secured Assets and such obligations (excluding termination payments due to the Swap Counterparty because of (i) an event of default under the Swap Agreement where the Swap Counterparty is the defaulting party or (ii) an additional termination event under such Swap Agreement as a result of a Ratings

Downgrade of the Swap Counterparty) will rank, in respect of payment and security following the delivery by the Note Trustee of an Enforcement Notice, in priority to payments of interest and principal due on the Notes. The senior ranking of the Swap Agreement may result in insufficient funds being available to make required payments of interest and/or principal on the Notes.

Interest Rate Risk

Payments made to the Seller by any Debtor under a HP Contract comprise monthly amounts calculated with respect to a fixed interest rate which may be different from EURIBOR (and therefore payments made by the Purchaser to the Issuer under the Loan Agreement will reflect these fixed interest rate receipts). However, payments of interest on the Class A Notes are calculated with respect to EURIBOR plus the applicable margin (subject to a floor of zero). To ensure that the Issuer will not be exposed to any material interest rate discrepancy in respect of the Class A Notes, the Issuer and the Swap Counterparty have entered into the Swap Agreement under which on each Payment Date the Issuer will make payments to the Swap Counterparty based on a fixed rate of 0.197% per annum, applied to the Swap Notional Amount. The Swap Counterparty will pay to the Issuer on each Payment Date an amount calculated on the basis of the product of (i) the Class A Notes Interest (ii) the Swap Notional Amount, which is equal to the Aggregate Outstanding Note Principal Amount for the Class A Notes on the immediately preceding Payment Date (after the making of all payments on such date) and (iii) the actual number of days in the applicable Interest Period in respect of which payment is being made divided by 360.

A default by the Swap Counterparty of its obligations under the Swap Agreement may lead to the Issuer not having sufficient funds to meet its obligations to pay interest on the Class A Notes and/or, in turn, other Classes of Notes. See “*CREDIT STRUCTURE — Swap Agreement*” and “*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Swap Agreement*”.

Swap Agreement

If the Swap Counterparty defaults in respect of its obligations under the Swap Agreement which results in a termination of the Swap Agreement, prior to the service by the Note Trustee of an Enforcement Notice or the redemption in full of the Class A Notes, the Issuer may enter into a replacement arrangement with another appropriately rated entity. A failure to enter into such a replacement arrangement may result in the downgrading of the rating or ratings of the Class A Notes and/or other Classes of Notes. If a replacement arrangement is put in place, its terms may be less favourable than those in the original arrangement due, for example, to changes in economic conditions. See “*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Swap Agreement*”.

Swap termination payments

If the Swap Agreement terminates, the Issuer may be obliged to pay a termination payment to the Swap Counterparty. The amount of any termination payment will be based on the market value of the terminated swap based on market quotations of the cost of entering into a swap with the same terms and conditions that would have the effect of preserving the respective full payment obligations of the parties (or based upon loss in the event that market quotation cannot be determined). There can be no assurance that the Issuer will have sufficient funds available to make any termination payment under the Swap Agreement or that the Issuer, following

termination of the Swap Agreement, will have sufficient funds to make subsequent payments to the Noteholders in respect of the Class A Notes and/or, in turn, other Classes of Notes.

Except where the Swap Counterparty has caused the Swap Agreement to terminate by its default or an Additional Termination Event (as defined in the Swap Agreement) occurs under the Swap Agreement as a result of a Ratings Downgrade of the Swap Counterparty, any termination payment in respect of the Swap Agreement due from the Issuer will rank in priority to payments of interest due on the Notes. Therefore, if the Issuer is obliged to make a termination payment to the Swap Counterparty or to pay any other additional amount as a result of the termination of the Swap Agreement, this may reduce or otherwise adversely affect the amount of funds which the Issuer has available to make payments on the Notes.

If the Swap Agreement terminates, there can be no assurance that the Issuer will be able to enter into a replacement swap agreement with a replacement swap counterparty with the Required Rating, to prevent the downgrading of the then current rating or ratings of the Notes by the Rating Agencies.

Insolvency of Swap Counterparty

In the event of the insolvency of the Swap Counterparty, the Issuer will be treated as a general creditor of the Swap Counterparty. Consequently, the Issuer will be subject to the credit risk of such Swap Counterparty. To mitigate this risk, under the terms of the Swap Agreement, in the event that the relevant ratings of the Swap Counterparty fail to meet the relevant Required Ratings, the Swap Counterparty will, in accordance with the terms of the Swap Agreement, be required to elect to take certain remedial measures within the applicable time frame stipulated in the Swap Agreement (at its own cost) which may include providing collateral for its obligations under the Swap Agreement, arranging for its obligations under the Swap Agreement to be transferred to an entity with the relevant Required Ratings, or procuring another entity with the Required Ratings to become co-obligor or guarantor, as applicable, in respect of its obligations under the Swap Agreement. However, no assurance can be given that, at the time that such actions are required, sufficient collateral will be available to the Swap Counterparty or that another entity with the Required Ratings will be available to become a replacement swap counterparty, co-obligor or guarantor or that the Swap Counterparty will be able to take the requisite other action.

Priorities of payment in Swap Counterparty's insolvency

There is uncertainty as to the validity and/or enforceability of a provision which (based on contractual and/or trust principles) subordinates certain payment rights of a creditor to the payment rights of other creditors of its counterparty upon the occurrence of insolvency proceedings relating to that creditor. In particular, recent cases have focused on provisions involving the subordination of a swap counterparty's payment rights in respect of certain termination payments upon the occurrence of insolvency proceedings or other default on the part of such counterparty. Such provisions are similar in effect to the terms included in the Transaction Documents relating to the subordination of certain payments under the Swap Agreement.

The Supreme Court of the United Kingdom in *Belmont Park Investments Pty Limited (Respondent) v BNY Corporate Trustee Services Limited and Lehman Brothers Special Financing Inc* [2011] UKSC 38 unanimously upheld the decision of the Court of Appeal in upholding the

validity of similar post-enforcement “flip” priorities of payment, stating that, provided that such provisions formed part of a commercial transaction entered into in good faith which did not have, as its predominant purpose or one of its main purposes, the deprivation of the property of one of the parties on bankruptcy, the anti-deprivation principle was not breached by such provisions. On that basis, such provisions would be enforceable as a matter of English law.

In contrast, the U.S. Bankruptcy Court for the Southern District of New York in *Lehman Brothers Special Financing Inc. v. BNY Corporate Trustee Services Limited (in re Lehman Brothers Holdings Inc.)* Adv. Pro. No. 09-1242-JMP (Bankr. S.D.N.Y. May 20, 2009) examined a “flip” clause and held that such a provision, which seeks to modify a creditor’s position in a priority of payments when that creditor files for bankruptcy, is unenforceable under the U.S. Bankruptcy Code. Judge Peck acknowledged that this had resulted in the U.S. courts coming to a decision “directly at odds with the judgement of the English Courts”. While BNY Corporate Trustee Services Limited filed a motion for, and was granted leave to, appeal with the U.S. Bankruptcy Court, the case was settled before the appeal was heard. On 26 June 2016, Judge Shelley Chapman in the same court disagreed with Judge Peck and ruled in a different group of cases commenced by the Lehman Brothers Chapter 11 debtors that a series of flip clauses were enforceable for several reasons, including the protection of those clauses by provisions in the U.S. Bankruptcy Code known as “safe harbors”. This ruling is not final and remains subject to possible appeal.

Therefore, English and U.S. courts may potentially take different approaches to “flip” clauses, which (were the Issuer to need to rely upon such a provision) may adversely affect the Issuer’s ability to make payments on the Notes. There also remains the issue whether in respect of foreign insolvency proceedings relating to a creditor located in a foreign jurisdiction, an English court will exercise its discretion to recognise the effects of the foreign insolvency proceedings, whether under the Cross Border Insolvency Regulations 2006 or any similar common law principles. Given the current state of U.S. law, this is likely to be an area of continued judicial uncertainty, particularly in respect of multi-jurisdictional insolvencies.

If a creditor of the Issuer (such as the Swap Counterparty) or a related entity becomes subject to insolvency proceedings in any jurisdiction outside England and Wales, and it is owed a payment by the Issuer (such as a termination payment due under a Swap Agreement which has been subordinated as a result of that Swap Counterparty’s insolvency), a question arises as to whether the insolvent creditor or any insolvency official appointed in respect of that creditor could successfully challenge the validity and/or enforceability of subordination provisions included in the English law governed transaction documents (such as a provision relating to the ranking of the Swap Counterparty’s payment rights under the Swap Agreements). In particular, based on the 2009 decision of the U.S. Bankruptcy Court referred to above, there is a risk that such subordination provisions would not be upheld under U.S. bankruptcy law. More generally, there can be no assurance that such subordination provisions would be upheld under the insolvency laws of any relevant jurisdiction outside England and Wales.

Given the general relevance of the issues under discussion in the judgments referred to above and that the Transaction Documents include terms providing for the subordination of certain payments under the Swap Agreements, there is a risk that the final outcome of the dispute in such judgments (including any recognition action by the English courts) may result in negative rating pressure in respect of the Notes. If any rating assigned to any of the Notes is lowered, the market value of such Notes may reduce.

Non-petition

The Issuer Security Trustee and the other Issuer Secured Parties (or any other person acting on behalf of any of them) shall not be entitled to take any action or commence any proceedings against the Issuer to recover any amounts due and payable by the Issuer under the Transaction Documents except as permitted in the Transaction Documents and shall not be entitled to take any action or commence any proceedings or petition a court for the liquidation of the Issuer, nor enter into any arrangement, examinership, reorganisation or insolvency proceedings in relation to the Issuer, whether under the laws of Ireland or other applicable bankruptcy laws until two years and one day after the payment or extinguishment of all Issuer Secured Obligations of the Issuer.

Non-availability of subordinated loans or other support payments

After the Note Issuance Date, the Issuer will not be entitled to any further drawings under the Issuer Subordinated Loan to fill or refill the Liquidity Reserve up to the Required Liquidity Reserve Amount or otherwise to make payments in respect of principal or interest on the Notes. See “*CREDIT STRUCTURE — Subordinated Loans*”.

Ratings of Class A Notes, Class B Notes, Class C Notes, Class D Notes and Class E Notes

Each rating assigned to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes by the Rating Agencies takes into consideration the structural and legal aspects associated with the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes, as applicable, and the Portfolio, the credit quality of the Portfolio and the extent to which the Debtors' payments under the Purchased HP Contracts are adequate to make the payments required under the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes, as applicable, as well as other relevant features of the structure, including, *inter alia*, the credit quality of the Swap Counterparty, the Transaction Account Bank, the Seller and the Servicer. Each Rating Agency's rating reflects only the view of that Rating Agency. In particular, the ratings of the Class A Notes, the Class B Notes, the Class C Notes, the

Class D Notes and the Class E Notes by Fitch address the likelihood of (a) (i) the timely payment of interest due on the Class A Notes and the Class B Notes on each Payment Date and (ii) ultimate payment of interest due on the Class C Notes, the Class D Notes and the Class E Notes by a date that is no later than the Maturity Date and (b) the repayment of principal on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes by the Maturity Date. The ratings of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes by Moody's address the expected loss posed to the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders or the Class E Noteholders, as applicable, by the Maturity Date. Moody's ratings address only the credit risks associated with the transaction. Other non-credit risks have not been addressed, but may have a significant effect on yield to investors.

The Issuer has not requested a rating of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes by any rating agency other than the Rating Agencies. However, rating organisations other than the Rating Agencies may seek to rate the Notes and, if such "shadow ratings" or "unsolicited ratings" are lower than the comparable ratings assigned to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes by the Rating Agencies, such shadow or unsolicited ratings could have an adverse effect on the value of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes. Future events, including events affecting the Swap Counterparty, the Transaction Account Bank, the Seller and the Servicer, could also have an adverse effect on the rating of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and/or the Class E Notes.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the rating organisation. The ratings assigned to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes should be evaluated independently from similar ratings on other types of securities. There is no assurance that the ratings will continue for any period of time or that they will not be lowered, reviewed, suspended or withdrawn by the Rating Agencies. In the event that the ratings initially assigned to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes by the Rating Agencies are subsequently withdrawn or lowered for any reason, no person or entity is obliged to provide any additional support or credit enhancement to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes.

Resolutions of Noteholders

The Note Conditions provide for resolutions of Noteholders of each Class to be passed by a vote taken and passed at a Meeting of the Noteholders or by a written resolution. Each Noteholder is subject to the risk of being outvoted. As resolutions properly adopted are binding on all Noteholders of such Class, certain rights of such Noteholders against the Issuer under the Note Conditions may be amended, reduced or even cancelled.

Resolutions of the Senior Class of Notes will bind holders of the other Classes of Notes, save where they relate to a Reserved Matter. However, holders of the other Classes of Notes may not bind holders of the Senior Class of Notes. Any Extraordinary Resolution involving a Reserved Matter that is passed by the holders of one Class of Notes shall not be effective unless it is sanctioned by an Extraordinary Resolution of the holders of each of the other Classes of Notes then Outstanding. Subject to the foregoing, any resolution passed at a Meeting of Noteholders

(other than an Extraordinary Resolution involving a Reserved Matter), duly convened and held in accordance with the Note Trust Deed, shall be binding upon all Noteholders, regardless of Class.

The Notes and the Note Trust Deed also provide that the Note Trustee may agree, or may direct the Issuer Security Trustee or the Purchaser Security Trustee to agree, without the consent of the Noteholders:

- (a) (i) to any modification of the Notes and the Transaction Documents, or the waiver or authorisation of certain breaches or proposed breaches of the Notes or any of the Transaction Documents, which, in the opinion of the Note Trustee, will not be materially prejudicial to the interests of the holders of the Senior Class of Notes, (ii) to any modification which, in the opinion of the Note Trustee, is of a formal, minor or technical nature or is to correct a manifest error or (iii) to any modification which has been certified by the Servicer as being necessary (A) for the purposes of complying with, or implementing or reflecting, any change in the criteria of one or more of the Rating Agencies which may be applicable from time to time, (B) for the purposes of complying with any changes in the requirements of Article 405 of the CRR or Article 51 of the AIFM Regulation after the Note Issuance Date, (C) for the purposes of enabling the Notes to be (or to remain) listed on the Irish Stock Exchange or any other stock exchange on which the Notes are listed, (D) for the purposes of enabling the Issuer or any of the other Issuer Secured Parties to comply with FATCA (or any voluntary agreement entered into with a taxing authority in relation thereto), (E) for the purposes of enabling the Issuer to comply with the provisions of Rule 17g-5 of the Securities Exchange Act of 1934, (F) for the purpose of complying with any changes in the requirements of the CRA Regulation after the Note Issuance Date, including as a result of the adoption of regulatory technical standards in relation to the CRA Regulation or regulations or official guidance in relation thereto, (G) for the purposes of enabling the Issuer and/or the Swap Counterparty to comply with any obligation which applies to it under EMIR, (H) for as long as the Class A Notes are intended to be held in a manner which will allow for Eurosystem eligibility (the criteria in respect of which are currently set out in the Guideline (EU) 2015/510 of the European Central Bank (the “**ECB**”) of 19 December 2014 on the implementation of the Eurosystem monetary policy framework (ECB/2014/60), recast (the “**2015 Guideline**”)), for the purposes of maintaining such eligibility and (I) for the purposes of enabling the transactions effected by the Transaction Documents to constitute a transfer of significant credit risk within the meaning of Article 243(2) of the CRR, provided, in the case of limbs (iii)(B), (C), (D), (E), (F), (G), (H) and (I) above and, in some circumstances, in the case of limb (iii)(A) above, that, *inter alia*, such modification has been notified to the Rating Agencies and, based upon such notification, the Servicer is not aware that the then current ratings of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes would be adversely affected by such modification; and
- (b) subject to certain conditions in the Note Trust Deed being complied with, to the substitution of the Issuer for another entity.

The Transaction Documents provide that, subject to certain conditions, the Note Trustee shall agree, without the consent of the Noteholders, to the substitution of the Seller, the Servicer and/or the Subordinated Loan Provider for another entity which acquires all or substantially all of the automotive finance business of the Seller, the Servicer and/or the Subordinated Loan Provider and the amendment of certain of the Transaction Documents in connection therewith.

Enforcement by the Note Trustee and the Issuer Security Trustee

The Note Trustee will act as the representative of the Noteholders and, as such, is able to claim and enforce or procure the enforcement of the rights of all the Noteholders. A Noteholder will not have an individual right to pursue and enforce its rights under the Note Conditions against the Issuer, except in limited circumstances where (i) a specified percentage of Noteholders instruct the Note Trustee to take any such action and the Note Trustee fails to do so (or fails to so instruct the Issuer Security Trustee) within a reasonable period and the failure is continuing or (ii) (as determined by a court of competent jurisdiction in a decision not subject to appeal) applicable law requires that the Noteholders exercise their rights individually and not through the Note Trustee.

Upon enforcement of the security for the Notes by the Issuer Security Trustee, the proceeds of such enforcement may be insufficient, after payment of all other claims ranking in priority to and *pari passu* with amounts due under the Notes, to pay in full all principal and interest due on the Notes.

Limited secondary market liquidity and market value of Notes

Although application will be made to the Irish Stock Exchange for the Notes to be admitted to the Official List and traded on its regulated market, there is currently a limited secondary market for the Notes. There can be no assurance that a secondary market for the Notes will provide the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders or the Class F Noteholders as applicable, with liquidity of investment, or that it will continue for the whole life of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes. Potential investors in the Notes should be aware of the prevailing global credit market conditions and the level of liquidity in the secondary market for instruments similar to the Notes. Such secondary markets have, in the recent past, experienced severe disruptions resulting from reduced investor demand for asset-backed securities and increased investor yield requirements for those securities. As a result, the secondary markets for asset-backed securities have recently experienced extremely limited liquidity. These conditions may return in the future. Limited liquidity in the secondary market may have a severe adverse effect on the market value of asset-backed securities, especially those securities that are more sensitive to prepayment or credit risk and those securities that have been structured to meet the investment requirements of limited categories of investors. Consequently, any purchaser of the Notes must be prepared to hold such Notes for an indefinite period of time or until final redemption or maturity of such Notes. The market values of the Notes are likely to fluctuate. Any such fluctuation may be significant and could result in significant losses to investors in the Notes. In addition, the forced sale into the market of asset-backed securities held by structured investment vehicles, hedge funds, issuers of collateralised debt obligations and any other entities experiencing funding difficulties could adversely affect an investor's ability to sell, and/or the price an investor receives for, the Notes in the secondary market. Neither the Joint Lead Managers nor the Seller is under any obligation to assist in the resale of the Notes.

Significant investor

Santander Consumer Finance Oy will, on the Note Issuance Date, purchase all the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, and may purchase certain of the Class A Notes and the Class B Notes, and may retain or sell some or all of such Notes in the secondary market in individually negotiated transactions at variable prices (which may, in turn,

affect the liquidity and price of such Notes in the secondary market). Significant concentrations of holdings of certain Classes of the Notes in one investor may therefore occur. Please refer to the section entitled “*SUBSCRIPTION AND SALE*” for further information.

Eurosystem eligibility

The Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes are not intended to be Eurosystem eligible and, at the date of this Prospectus, are not Eurosystem eligible. This means that those Notes are not expected to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem (“**Eurosystem eligible collateral**”) at any or all times during their life.

The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This means that the Class A Notes are intended upon issue to be deposited with one of Euroclear or Clearstream, Luxembourg and does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria set out in the 2015 Guideline. In addition, the Servicer will, for as long as the Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility, make loan-level data available in such manner as is required by the ECB to comply with the Eurosystem eligibility criteria, subject to applicable Irish data protection rules.

In addition, pursuant to the Guideline of the ECB of 26 November 2012 amending Guideline ECB/2011/14 on monetary policy instruments and procedures of the Eurosystem (ECB/2012/25), for asset-backed securities to become or to remain eligible for Eurosystem monetary policy operations, the Eurosystem requires comprehensive and standardised loan-level data on the pool of cash flow generating assets underlying an asset-backed security to be submitted by the relevant parties in the asset-backed security, as set out in annex 8 (loan level data reporting requirements for asset-backed securities) of the 2015 Guideline. Non-compliance with provision of loan-level data will lead to suspension of or refusal to grant eligibility to the asset-backed security transaction in question.

If the Class A Notes do not satisfy the criteria specified by the ECB, or if the Servicer fails to submit the required loan-level data, the Class A Notes will not be eligible collateral for the Eurosystem. None of the Issuer, the Joint Lead Managers or the Arranger give any representation, warranty, confirmation or guarantee to any investor in the Class A Notes that the Class A Notes will, either upon issue, or at any or at all times during their life, satisfy all or any requirements for Eurosystem eligibility and be recognised as Eurosystem eligible collateral. Any potential investor in the Class A Notes should make its own conclusions and seek its own advice with respect to whether or not the Class A Notes constitute Eurosystem eligible collateral.

Economic conditions in the Euro-zone

In recent times, concerns relating to credit risks (including those of sovereigns and those of entities which are exposed to sovereigns) have periodically intensified. In particular, concerns have been raised with respect to recent economic, monetary and political conditions in the Euro-zone. If such concerns return and/or such risks increase or such conditions deteriorate (including as may be demonstrated by any relevant credit rating agency action, any default or restructuring

of indebtedness by one or more states or institutions and/or any changes to, including any break-up of, the Euro-zone), then these matters may cause severe stress in the financial system generally and/or may adversely affect one or more of the parties to the Transaction Documents (including the Seller and the Servicer) and/or significant numbers of Debtors under the Purchased HP Contracts. No assurance can be given as to the likelihood or potential impact of any of the matters described above and, in particular, no assurance can be given that such matters would not adversely affect the rights of the Noteholders, the market value of the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

UK's exit from the European Union

On 23 June 2016, a referendum was held in the UK to decide on the UK's membership of the European Union. The UK vote was to leave the European Union. There are a number of uncertainties in connection with the future of the UK and its relationship with the European Union and the negotiation of the UK's exit terms is likely to take a number of years. It is not currently possible to determine the impact that the referendum, the UK's departure from the European Union and/or any related matters may have on the business of the Transaction Parties and their ability to perform their obligations under the Transaction Documents or on macroeconomic conditions across the European Union more generally (and, in turn, the ability of Debtors to satisfy their respective obligations under the Purchased HP Contracts). Such uncertainty may persist even when the timing and terms of the UK's exit from the European Union are clearer. As such, notwithstanding the limited connection of the Notes, the Transaction Parties and the Purchased HP Contracts to the UK, no assurance can be given that such matters would not adversely affect the ability of the Issuer to satisfy its obligations under the Notes and/or the market value and/or the liquidity of the Notes in the secondary market.

Regulatory initiatives may result in increased regulatory capital requirements and/or decreased liquidity in respect of the Notes

In Europe, the US and elsewhere there is increased political and regulatory scrutiny of the asset-backed securities industry. This has resulted in a raft of measures for increased regulation, including, without limitation, the recast Capital Requirements Directive (Directive 2013/36/EU) and the CRR (together, "**CRD IV**"), Directive 2011/61/EC (the "**Alternative Investment Fund Managers Directive**" or "**AIFMD**") and Commission Delegated Regulation (EU) 2015/35 (the "**Solvency II Delegated Regulation**"), which are currently at various stages of implementation and which may have an adverse impact on the regulatory capital charge to certain investors in securitisation exposures and/or the incentives for certain investors to hold asset-backed securities, and may thereby affect the liquidity of such securities. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Joint Lead Managers, the Seller or any other party to the Transaction Documents makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment on the Note Issuance Date or at any time in the future.

Article 405 of the CRR places an obligation on a credit institution or investment firm (each, an "**Affected Investor**") that is subject to CRD IV which assumes exposure to the credit risk of a securitisation (as defined in Article 4 of the CRR) to ensure that the originator, sponsor or original lender has explicitly disclosed that it will retain a material net economic interest equivalent to not less than five per cent. of the securitised exposures. Failure to comply with one or more of the requirements set out in Article 405 of the CRR may result in the imposition of a penal capital

charge on the securitisation investments acquired by an Affected Investor. Similar requirements are imposed on alternative investment fund managers under Article 51 of the AIFM Regulation and on insurance and re-insurance undertakings under Article 254 of the Solvency II Delegated Regulation.

Investors should therefore make themselves aware of the requirements of Articles 405 to 410 of the CRR, Articles 51 to 56 of the AIFM Regulation and Articles 254 to 257 of the Solvency II Delegated Regulation, where applicable to them, in addition to any other regulatory requirements applicable to them with respect to their investment in the Notes.

With respect to the commitment of the Seller to retain a material net economic interest in the securitisation as contemplated by Article 405 of the CRR and Article 51 of the AIFM Regulation, the Seller will retain, for the life of the Notes, such material net economic interest, in accordance with Article 405(1)(c) of the CRR and Article 51(1)(c) of the AIFM Regulation, by its retention of randomly selected “**exposures**” (i.e. HP Contracts), equivalent to not less than five per cent. of the nominal amount of the “**securitised exposures**” (i.e. the Purchased HP Contracts) at the Note Issuance Date, where such exposures would otherwise have been securitised in the securitisation, and where the number of potentially securitised exposures is no fewer than 100 at origination. The outstanding balance of the retained exposures will be reduced over time by, amongst other things, amortisation, allocation of losses and defaults on the underlying HP Contracts.

Article 406 of the CRR places an obligation on credit institutions or investment firms that are subject to CRD IV, before investing in a securitisation and thereafter, to analyse, understand and stress test their securitisation positions, and monitor on an ongoing basis and in a timely manner performance information on the exposures underlying their securitisation positions. Similar requirements are imposed on alternative investment fund managers under Article 53 of the AIFM Regulation. After the Note Issuance Date, the Seller (in its capacity as Servicer) will prepare monthly investor reports wherein relevant information with regard to the Purchased HP Contracts will be disclosed publicly together with an overview of the retention of the material net economic interest by the Seller for the purposes of Article 409 of the CRR and Article 52 of the AIFM Regulation.

Where the relevant retention requirements are not complied with in any material respect and there is negligence or omission in the fulfilment of the due diligence obligations on the part of a credit institution or investment firm that is investing in the Notes, a proportionate additional risk weight of no less than 250 per cent. of the risk weight (with the total risk weight capped at 1,250 per cent.) which would otherwise apply to the relevant securitisation position shall be imposed on such credit institution or investment firm, progressively increasing with each subsequent infringement of the due diligence provisions. Noteholders to whom CRD IV applies should make themselves aware of the provisions of CRD IV and make their own investigation and analysis as to the impact of CRD IV on any holding of Notes. In addition, Noteholders to whom Article 54 of the AIFM Regulation or Article 254 of the Solvency II Delegated Regulation applies should make themselves aware of the provisions of the AIFM Regulation and/or the Solvency II Delegated Regulation (as applicable) and make their own investigation and analysis as to the impact of the AIFM Regulation and/or the Solvency II Delegated Regulation on any holding of Notes.

It should be noted that there is no certainty that references to the retention obligations of the Seller in this Prospectus will constitute explicit disclosure (on the part of the Seller) or adequate due

diligence (on the part of the Noteholders) for the purposes of Article 405 of the CRR, Article 51 of the AIFM Regulation or Article 254 of the Solvency II Delegated Regulation.

If, for any reason, this transaction does not comply with the foregoing requirements of the CRR, the AIFM Regulation or the Solvency II Delegated Regulation, the ability of the Noteholders to sell their Notes, and/or the price investors receive for the Notes in the secondary market, may be adversely affected.

Relevant investors are required to independently assess and determine the sufficiency of the information described in this Prospectus and in any servicer and/or investor reports made available and/or provided to investors for the purposes of complying with CRD IV and none of the Issuer, the Joint Lead Managers, the Seller or any other party to the Transaction Documents makes any representation that any such information is sufficient in all circumstances for such purposes.

There can be no guarantee that the regulatory capital treatment of the Notes for investors will not be affected by any future implementation of, or any changes to, CRD IV or other regulatory or accounting changes.

The regulatory capital framework published by the Basel Committee on Banking Supervision (the “**Basel Committee**”) in 2006 (the “**Basel II Framework**”) has not been fully implemented in all participating countries. The implementation of the framework in relevant jurisdictions may affect the risk weighting of the Notes for investors who are or may become subject to capital adequacy requirements that follow the framework.

In the European Union, CRD IV has implemented the changes to the Basel II Framework proposed by the Basel Committee (such changes being commonly referred to as “**Basel III**”), which included new capital and liquidity requirements intended to reinforce capital standards and to establish minimum liquidity standards for credit institutions. In particular, the changes refer to, amongst other things, new requirements for the capital base held by credit institutions, measures to strengthen the capital requirements for counterparty credit exposures arising from certain transactions and the introduction of a leverage ratio as well as short-term and longer-term standards for funding liquidity (referred to as the “**Liquidity Coverage Ratio**” and the “**Net Stable Funding Ratio**”). Based on Article 460 of the CRR, on 17 January 2015, the Commission Delegated Regulation (EU) 2015/61 of 10 October 2014 to supplement Regulation (EU) No 575/2013 of the European Parliament and the Council with regard to liquidity coverage requirement for Credit Institutions (the “**LCR Regulation**”) was published in the Official Journal of the European Union. It sets out assumed inflow and outflow rates to better reflect actual experience in times of stress. Further, it defines specific criteria for assets to qualify as high quality liquid assets, the market value of which shall be used by credit institutions for the purposes of calculating its Liquidity Coverage Ratio. As the LCR Regulation is relatively new, the criteria for high quality liquid assets are not entirely consistent with recent market standards and, given the lack of guidance on the interpretation of the LCR Regulation, no assurance can be given whether the Notes qualify as high quality liquid assets and the Issuer makes no representation whether such criteria are met by the Notes. The Liquidity Coverage Ratio under the LCR Regulation became effective on 1 October 2015 with the introduction of an initial minimum requirement of 60%, which rose from 1 January 2016 to 70% and will rise from 1 January 2017 to 80% and from 1 January 2018 to 100%. The Net Stable Funding Ratio is expected to come into force as of January 2018.

The changes approved by the Basel Committee and other changes being considered may have an impact on incentives to hold the Notes for investors that are subject to requirements that follow the revised framework and, as a result, they may affect the liquidity and/or value of the Notes.

Also, the Basel Committee published, on 11 December 2014, its revisions to the Basel securitisation framework which focuses on revisions to the amount of regulatory capital banks must hold for exposures to securitisations in light of the role played by securitisation exposures during the financial crisis, hierarchies of approaches to calculating risk weights and the risk drivers used in each approach. This framework, which will come into effect in January 2018, forms part of the Basel Committee's Basel III agenda to reform regulatory standards.

Implementation of, and amendments to, the Basel II and Basel III frameworks may affect the regulatory capital and liquidity treatment of the Notes.

Investors should consult their own advisers as to the regulatory capital requirements in respect of the Notes and as to the consequences to and effect on them of any changes to the Basel II Framework (including the Basel III changes described above) and the relevant implementing measures. No predictions can be made as to the precise effects of such matters on any investor or otherwise. There can be no guarantee that the regulatory capital treatment of the Notes for investors will not be affected by any future changes to the Basel II Framework or CRD IV. The Issuer is not responsible for informing Noteholders of the effects of the changes which will result for investors from revisions to the Basel II Framework or CRD IV. Significant uncertainty remains around the implementation of these initiatives. In general, prospective investors should consult their own advisers as to the regulatory capital requirements in respect of the Notes and as to the consequences to and effect on them of any changes to the Basel II Framework (including the Basel III changes described above) and the relevant implementing measures. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

CRA Regulation

The CRA Regulation was amended by Regulation (EU) No 462/2013 of 21 May 2013, following a review of the CRA Regulation and the CRA Regulation, as amended, entered into force on 20 June 2013. The amendments to its provisions increase the regulation and supervision of credit rating agencies by the European Securities and Markets Authority ("**ESMA**"), but also impose new obligations on issuers, originators and sponsors of securities which have an EU element. Under Article 8b of the CRA Regulation (as amended), the issuer, originator and sponsor of structured finance instruments ("**SFI**") established in the European Union must jointly publish certain information about those SFI on a specified website set up by ESMA. This includes information on: the credit quality and performance of the underlying assets of the SFI, the structure of the securitisation transaction, the cash flows and any collateral supporting a securitisation exposure, and any information that is necessary to conduct comprehensive and well-informed stress tests on the cash flows and collateral values supporting the underlying exposures.

On 26 January 2015, the Commission Delegated Regulation (EU) 2015/3 of 30 September 2014 came into force containing regulatory technical standards ("**RTS**") adopted by the European Commission to implement provisions of CRA Regulation (as amended). The RTS specify (i) the information that the issuer, originator and SFI established in the European Union must jointly disclose on the ESMA website, (ii) the frequency with which this information is to be updated and (iii) the presentation of this information by means of standardised disclosure templates. The RTS

will apply only with effect from 1 January 2017. In relation to SFIs issued between the date of entry into force of the RTS and the date of their application, the issuer, originator and sponsor are only required to comply with the reporting requirements in relation to the SFIs which are still outstanding at the date of application of the RTS. At the date of this Offering Circular, there remains uncertainty as to what the consequences would be for the Issuer, related third parties and investors resulting from any potential non-compliance by the Issuer with CRA Regulation (as amended) upon application of the reporting obligations.

Additionally, the CRA Regulation (as amended) has introduced a requirement that issuers or related third parties of SFIs solicit two independent ratings for their obligations and should consider appointing at least one rating agency having less than a 10% market share. Where the issuer or a related third party does not appoint at least one credit rating agency with no more than 10% market share, this must be documented. Fitch and Moody's have been engaged to rate all Classes of Notes (other than the Class F Notes) and this decision has been documented. As there is no guidance on the requirements for any such documentation there remains some uncertainty whether the Issuer's documentation efforts will be considered sufficient for these purposes and what the consequences of any non-compliance may be for investors in the Notes.

Common Reporting Standard (CRS)

The Organisation for Economic Co-operation and Development (the "OECD") released the common reporting standard framework in February 2014 as a result of the G20 members endorsing a global model of automatic exchange of information in order to increase international tax transparency. On 21 July 2014, the Standard for Automatic Exchange of Financial Account Information in Tax Matters was published by the OECD and this includes the Common Reporting Standard ("CRS" or the "Standard"). The goal of the Standard is to provide for the annual automatic exchange between governments of financial account information reported to them by local Financial Institutions (as defined in the Standard) ("FIs") relating to account holders who are tax resident in other participating jurisdictions. Directive 2014/107/EU on Administrative Cooperation in the Field of Taxation ("DAC II") implements CRS in a European context and creates a mandatory obligation for all Member States of the European Union to exchange financial account information, starting with the 2016 calendar year, by 2017. The Irish Revenue Commissioners will issue regulations to implement the requirements of DAC II into Irish law and have indicated that Irish FIs (such as the Issuer) will be obliged to make a single return in respect of CRS and DAC II. The Issuer will have to provide the name, address and tax identification number of, and certain other information with respect to, certain Noteholders to the Irish Revenue Commissioners who will then exchange this information with the tax authorities of other participating jurisdictions. Failure by an Irish FI to comply with its CRS and DAC II obligations may result in an Irish FI being deemed to be non-compliant in respect of its CRS obligations and monetary penalties may be imposed on a non-compliant FI under Irish CRS legislation.

Derivative regulation

On 16 August 2012, the European Market Infrastructure Regulation (EU No. 648/2012) came into force ("EMIR"). EMIR introduces certain requirements in respect of derivative contracts, which will apply primarily to financial counterparties ("FCs"), such as investment firms, credit institutions, insurance companies, amongst others, and non-financial counterparties ("NFCs") which are entities established in the EU which are not FCs. NFCs whose transactions in OTC derivative contracts exceed EMIR's prescribed clearing threshold ("NFC+s") are generally subject to more

stringent requirements under EMIR than NFCs whose transactions in OTC derivative contracts do not exceed such clearing threshold (the calculation of which excludes contracts objectively measurable as reducing risks directly relating to the NFC's commercial activity or treasury financing activity) ("**NFC-s**").

Even though the Issuer will enter into the Swap Transaction or any replacement swap transaction as an NFC and solely to reduce risks directly relating to its commercial activity or treasury financing activity, the relevant clearing threshold could be exceeded on a consolidated basis pursuant to Article 10(3) EMIR to the extent the Issuer forms part of the Seller's group and consequently becomes an NFC+.

Broadly, EMIR's requirements in respect of derivative contracts are (i) mandatory clearing by FCs and NFC+s of OTC derivative contracts declared subject to the clearing obligation through an authorised central counterparty (a "**CCP**") (the "**Clearing Obligation**"); (ii) risk mitigation techniques in respect of uncleared OTC derivative contracts; and (iii) reporting and record-keeping requirements in respect of all derivative contracts. These requirements are described in more detail below.

To date, ESMA has proposed certain classes of interest rate derivatives and certain classes of credit derivatives to be subject to the clearing obligation. In relation to interest rate derivatives, the Delegated Regulation containing the regulatory technical standards on central clearing for such derivatives came into effect on 21 December 2015. The first clearing obligations came into effect on 21 June 2016, whilst the remainder will be phased in over a period of three years depending on the category of counterparty. In addition, certain FCs and NFC+s will need to comply with the "frontloading" requirement and clear those classes of OTC derivatives that are subject to the clearing obligation before the clearing obligation takes effect. While it is not currently clear that the Swap Transaction or any replacement swap transaction will form part of a class of OTC derivatives that will be declared subject to the Clearing Obligation, this cannot be excluded. Thus, as of the date hereof, there is a risk that the Issuer will be subject to the Clearing Obligation in respect of the Swap Transaction or any replacement swap transaction. If the Clearing Obligation applies to the Issuer amendments may be required to the Swap Agreement and to the Transaction to allow the Issuer to post collateral, amongst other consequences. Should the Issuer be thus required to post collateral, the Swap Transaction is likely to become more expensive for the Issuer and/or the Issuer may not have sufficient funds to post the required collateral.

The Issuer is required to apply certain risk mitigation techniques in relation to timely confirmation, portfolio reconciliation and dispute resolution that are applicable to OTC derivatives contracts that are not cleared by a CCP to the Swap Agreement or replacement swap transaction.

Further, the Issuer is required to deliver certain information about the Swap Agreement or any replacement swap transaction to a registered or recognised trade repository.

EMIR also imposes a record-keeping requirement pursuant to which counterparties, such as the Issuer, must keep records of any derivative contract they have concluded and any modification for at least five years following the termination of the contract.

The Issuer will require assistance to be able to comply with its EMIR obligations.

The EU regulatory framework and legal regime relating to derivatives is set not only by EMIR but also by a new Directive and Regulation containing a package of reforms to the existing Markets in Financial Instruments Directive (Directive 2004/39/EC), collectively referred to as ("**MiFID II**"). MiFID II was formally adopted by the European Parliament, and was published in the Official Journal of the European Union on 12 June 2014. In particular, MiFID II will require certain standardised transactions between FCs and NFC+s in sufficiently liquid OTC derivatives to be executed on a trading venue which meets the requirements of the MiFID II regime. MiFID II will apply from 3 January 2018. While it is not currently clear that the Swap Agreement or any replacement swap transaction will form part of a class of OTC derivatives that will be declared subject to the MiFID II trading obligation, this possibility cannot be excluded, and the Issuer could therefore become subject to the trading obligation to the extent that it exceeds the EMIR clearing threshold on a consolidated basis in future.

Regulatory changes under the Dodd-Frank Act may affect the liquidity of the Notes

Similar to EMIR in the EU, the United States ("**US**") adopted the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "**Dodd-Frank Act**"), which, among other things, implements new regulation of the derivatives market as it relates to the US financial markets. Under the Dodd-Frank Act, regulation of the derivatives market is split between two agencies, the Commodity Futures Trading Commission (the "**CFTC**") which has jurisdiction over the "swap" market, and the SEC which has jurisdiction over the "security-based swap" market. Similar to EMIR, many of the key regulations implementing the Dodd-Frank Act have only recently become effective, have not yet become effective or, in some cases, have not yet been published or finalised. Accordingly, it is uncertain how the regulation of the derivatives market under the Dodd-Frank Act will impact swaps of the type to be entered into by the Issuer. However, based on the cross-border guidance which has been finalised by the CFTC with respect to "swaps" and by the SEC with respect to "security-based swaps", transactions that are entered with counterparties that are US persons (as defined under the applicable CFTC or SEC rules) will be subject to the Dodd-Frank Act requirements. In many instances the Dodd-Frank Act requirements, although addressing similar issues, may impose materially different requirements than those under EMIR. Thus, compliance with both regulatory schemes may create difficulty or challenges for counterparties that find themselves subject to both regulatory schemes. As a result, parties to swaps of the types to be entered into by the Issuer may find it easier and more efficient to choose to only transact with parties subject to the same regulatory scheme. The difficulties posed by the differing regulatory schemes have already started to bifurcate the market based on the application of the different regulatory schemes. Accordingly, it may be more difficult, expensive or riskier (from a credit and/or diversification perspective) for the Issuer to replace, novate or amend the terms of the Swap Agreement should that become necessary in the future.

Tax treatment of the Purchaser in Finland

VAT is normally charged in Finland at a standard rate of 24% and applied to most sales of goods and provisions of services.

The sale of the Purchased HP Contracts and any repossession of the Financed Vehicles will qualify for VAT exemption in Finland as a consequence of the Servicer having initially acquired the Purchased HP Contracts for its VAT exempt business. The services provided by the Servicer under the Servicing Agreement are expected to be exempted from Finnish VAT. As the Purchaser is registered for VAT in Finland, VAT may become payable by the Purchaser under the margin

taxation scheme in connection with the resale of the Financed Vehicles to individuals. The margin taxation scheme, if applicable, will require that VAT is payable by the Purchaser on the resale of the Financed Vehicles by reference to the difference between the sales price and the repossession value attributed to the Financed Vehicles (i.e. the realised profit margin). Under the margin taxation scheme, VAT may be calculated and accounted for on a monthly basis or per each resold Financed Vehicle.

Any payments made under the Purchased HP Contracts are not subject to withholding tax in Finland.

Finnish advance tax ruling

The Finnish Corporate Tax Office has on 31 August 2016 issued an advance tax ruling (decision number/journal number A1188/3880/2016) to the Purchaser. According to the advance tax ruling, a permanent establishment will not be created for the Purchaser in Finland for Finnish income tax purposes if the Purchaser acquires the Purchased HP Contracts from the Seller in a manner set out in this Prospectus and if the Portfolio subsequent to the acquisition will be administered, collected and enforced by the Seller in its capacity as Servicer and on behalf of the Purchaser under the Servicing Agreement. The advance tax ruling is binding and final.

Legal structure

Failure to perfect the sale and assignment of the Purchased HP Contracts or the security over the Portfolio may prevent the Purchaser or the Purchaser Secured Parties from enforcing its or their rights in respect of the Purchased HP Contracts or the security over the Portfolio

In order to make the sale of the Purchased HP Contracts and the pledge of the Purchaser's right, title and interest in the Purchased HP Contracts in favour of the Purchaser Secured Parties effective in relation to third parties, notifications of such sale and subsequent pledge must be sent to the Debtors and the holders of the Financed Vehicles with an instruction to make the payments under the Purchased HP Contracts directly to the Issuer Collections Account. Further, the Finnish Transport Safety Agency must be notified of the transfer of title to the Financed Vehicles. Such notifications will be posted to Debtors and the holders of the Financed Vehicles on or about the Purchase Date and to the Finnish Transport Safety Agency on or prior to the date falling seven days after the Purchase Date.

In the event that a notice were not to have been served on a Debtor and/or the holder of the relevant Financed Vehicle and/or the Finnish Transport Safety Agency, the transfer of the Seller's right, title and interest in the corresponding Purchased HP Contract to the Purchaser and/or the pledge of the Purchaser's right, title and interest in the corresponding Purchased HP Contract in favour of the Purchaser Secured Parties would not be considered duly perfected, and, in such case, there would be a risk that the transfer and/or the pledge would not be deemed effective in relation to third parties, in which case the transfer and/or the pledge over that Purchased HP Contract would be unenforceable or the order of priority of such rights against third parties could be adversely affected.

Other Security Interests created under the Purchaser Security Documents and Issuer Security Documents may be adversely affected by the failure to perfect the security arrangements

Generally, a security arrangement can only be properly perfected, and its priority retained, through certain actions undertaken by the secured party and/or the grantor of the security and/or through restricting the control of the grantor of the security to the security assets. The security arrangements may not be perfected if any relevant party fails, is unable to or is not permitted or required to take the actions required to be taken to perfect any of these security arrangements. Any failure to perfect the Security Interests created under the Purchaser Security Documents or the Issuer Security Documents may result in the invalidity of such Security Interests or adversely affect the priority of such Security Interests against third parties, in which case the relevant secured party may be unable to effectively enforce or realise its security over the relevant assets.

Amounts available to make payment on the Notes may be reduced as a result of counter-claims Debtors have against the Dealer or the Seller

Following the Purchase Date, a Debtor will be entitled to invoke the same objections and defences relating to a Purchased HP Contract against the Purchaser (or any party having a security interest in the Purchased HP Contracts) as the Debtor was entitled to invoke against the Seller on or prior to the Purchase Date or against the relevant Dealer on or prior to the date on which the Seller purchased the relevant Purchased HP Contract from the relevant Dealer. In the event that a Debtor has a claim against the Seller or the relevant Dealer, the Debtor may be allowed to set-off the amount of such claim against any amount outstanding under the relevant Purchased HP Contract if the Debtor had such a claim before the Debtor was notified of (or otherwise became or should have become aware of) the transfer of the Purchased HP Contract by the Seller or, respectively, the Dealer. Claims which a Debtor may have against a Dealer may include, for example, claims for mis-selling of, or defects in, the relevant Financed Vehicle. Such claims may arise as a result of incomplete or inaccurate information being provided in respect of a Financed Vehicle at the point of sale and/or as a result of faulty design, manufacture or maintenance of the Financed Vehicle, and similar claims may arise in respect of multiple Financed Vehicles or an entire class of Financed Vehicles (for example, it is alleged that a significant number of models manufactured by members of the Volkswagen corporate group contain software which produces anomalous results in emissions and fuel consumption tests).

A Debtor who is a consumer under Finnish law is, pursuant to chapter 7, section 39 of the Finnish Consumer Protection Act, able to direct against the Seller in respect of any claim the Debtor may have against the Dealer of the relevant Financed Vehicle as a result of the purchase of the Financed Vehicle from the Dealer. Pursuant to a Finnish Supreme Court ruling, non-consumer Debtors may also in some circumstances be entitled to invoke similar claims against the Seller. Therefore, following the Purchase Date, the Purchaser will be exposed to the same liability in respect of such claims (in case of consumers, also including claims pursued in the form of a class action) as the Dealer of the relevant Financed Vehicle under the relevant sales contract and any applicable law of sales, e.g. claims arising from a defect or other manufacturing irregularity with respect to a Financed Vehicle. However, non-contractual claims, such as, for example, claims relating to a personal injury, cannot be brought against the Purchaser, even if such injury were caused by, or in connection with, the use of a Financed Vehicle. The Debtor can, furthermore, only bring monetary claims against the Purchaser, and not claims for specific performance, and the Purchaser's liability is limited to the amount the Seller and, after the Purchase Date, the Purchaser has received from the relevant Debtor in connection with the relevant Financed Vehicle, meaning that the Purchaser's liability can never exceed the total amount payable under the relevant Purchased HP Contract.

One of the Eligibility Criteria is that each Purchased HP Contract is not subject to any right of revocation, set-off or counter-claim or warranty claim of the Debtor or any other right of objection. If any Purchased HP Contract failed to comply with the Eligibility Criteria as at the Purchase Cut-Off Date and if such non-compliance constitutes a Seller Asset Warranty Breach, the Seller will be required to repurchase such Purchased HP Contract for an amount equal to at least the then Outstanding Principal Amount of such Purchased HP Contract. See “*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Auto Portfolio Purchase Agreement*”.

While the Purchaser’s liability will be limited to the extent described above, the right of Debtors to invoke objections and defences that were available against the Seller, and the right of Debtors to direct against the Seller claims that the Debtor may have against the Dealer of the relevant Financed Vehicle, may adversely affect the Purchaser’s ability to meet its obligations to the Issuer, which could result in a shortfall of funds available to make payments on the Notes.

Unsuccessful enforcement of Purchased HP Contracts may result in a shortfall of funds available to make payments on the Notes

Each Purchased HP Contract provides for retention of the title to the relevant Financed Vehicle until all payments under the Purchased HP Contract have been made in full. In the event of a Debtor’s default on a Purchased HP Contract, the Purchaser (or any party having a security interest in the Purchased HP Contract) may have to enforce the Purchased HP Contract through repossession of the relevant Financed Vehicle. If for any reason the Purchaser (or any party having a security interest in the Purchased HP Contract) (with the aid of the Servicer) is unable to enforce the Purchased HP Contract against the defaulting Debtor, or repossess the relevant Financed Vehicle but receives proceeds of sale upon repossession which are lower than the outstandings, the Purchaser may not be able to meet its obligations to the Issuer, which could result in a shortfall of funds available to make payments on the Notes.

Collection of payments from a Debtor who is a natural person may further be restricted under Finnish law, which requires that certain personal items and a protected portion i.e. the amount needed for the livelihood of the Debtor and his or her family, is left outside of execution. Such protected portion is dependent on the personal circumstances and includes, among other things, certain social subsidies and usually two-thirds of any wages, salaries, pensions, unemployment benefits and sickness or parental benefits and five-sixth of any business income of the Debtor.

Repossession of the Financed Vehicles may be delayed or prevented because of regulatory restrictions

Enforcement of Purchased HP Contracts and repossession of Financed Vehicles are subject to the provisions of the Enforcement Code and the Act on Hire Purchases as well as, in the case of consumers, the Consumer Protection Act, the application of which may delay or prevent enforcement of the Purchased HP Contracts and repossession of the Financed Vehicles and which regulate the amounts that are credited in favour of the Debtor and in favour of the repossessing party in accordance with a statement of accounts required to be made in connection with any repossession.

Where a Debtor is a consumer under the Finnish Consumer Protection Act, enforcement of the Purchased HP Contract and the repossession of the relevant Financed Vehicle in the event of a

default by the Debtor is subject to the following restrictions under chapter 7, section 33 of the Consumer Protection Act:

- (a) both:
 - (i) one month or more must have passed since the date on which payment should have been made and the payment remains outstanding; and
 - (ii) the defaulted amount due for payment must amount to at least ten per cent. or, if the amount due includes several instalments, at least five per cent. of the total amount of the original credit or constitute the creditor's entire remaining claim; or
- (b) six months or more must have passed since the date on which payment should have been made and the defaulted payment must remain outstanding, in whole or in significant part,

and, in each case, repossession must not be unreasonable because of the Debtor's personal force majeure under chapter 7, section 34 of the Consumer Protection Act.

Approximately 82.5% of the Purchased HP Contracts have been granted to Debtors who are consumers under Finnish law.

Where a Debtor is not a consumer under the Consumer Protection Act, enforcement of the Purchased HP Contract and the repossession of the relevant Financed Vehicle in the event of a default by the Debtor is subject to the following restrictions under section 2 of the Act on Hire Purchases:

- (a) 14 calendar days or more must have passed since the date on which payment should have been made and the payment remains outstanding; and
- (b) the defaulted amount due for payment must amount to at least ten per cent. or, if the amount due includes several instalments, at least five per cent. of the total amount of the original credit or constitute the creditor's entire remaining claim,

and repossession must not be unreasonable because of the Debtor's personal force majeure and the Debtor must not have made full payment of the amounts outstanding under the Purchased HP Contract prior to the repossession taking place.

Approximately 17.5% of the Purchased HP Contracts have been granted to Debtors who are companies or otherwise not classified as consumers under Finnish law.

Finally, repossession of the Finance Vehicle may be delayed or prevented in the event that a third party has a right of retention over the Financed Vehicle. The right of retention means that a service provider who has stored a Financed Vehicle or prepared or carried out any reparation, maintenance or similar work on a Financed Vehicle has the right to hold the Financed Vehicle in its possession until the services have been paid for in full.

Finnish rules on personal force majeure may delay or prevent repossession of Financed Vehicles

In the event that a Debtor defaults on a Purchased HP Contract, there is a risk that the relevant Financed Vehicle could not be repossessed, or that repossession could be significantly delayed, due to mandatory provisions regarding personal force majeure contained in the Act on Hire Purchases and the Consumer Protection Act, which may result in the Purchaser not having sufficient funds to meet all of its obligations to the Issuer and in a shortfall of funds available for making payments under the Notes.

In respect of Debtors who are consumers, chapter 7, section 34 of the Consumer Protection Act prohibits enforcement of the Purchased HP Contracts and, accordingly, repossession of the Financed Vehicles by the Purchaser (or any party having a security interest in the Purchased HP Contracts) upon default by a Debtor if the default is due to the illness or unemployment of the Debtor or to another comparable circumstance which is beyond the Debtor's control, except where, considering the duration of the delay of payments and the other circumstances, this would be perceptibly unreasonable to the Purchaser. In respect of Debtors who are not consumers, the Act on Hire Purchases prohibits enforcement in the event that repossession would be unreasonable, considering the Debtor's financial difficulties resulting from illness, unemployment or other particular circumstances beyond the Debtor's control, and the Debtor pays any amount due for payment, including interest, and reimburses the costs caused by the delay of payment, before the repossession has been implemented.

Further, in respect of all Debtors, the Finnish enforcement authority may postpone enforcement and repossession proceedings for a maximum of four months in the event that it is perceived that the financial difficulties of a Debtor result from personal force majeure reasons specified above and such difficulties can be presumed to be temporary, except where this would prejudice the Purchaser's rights to the relevant Financed Vehicle or would otherwise unreasonably violate the rights of the Purchaser.

In the event of insolvency or debt reorganisation, repossession of Financed Vehicles may be delayed or prohibited due to mandatory provisions of Finnish law.

Debtors may become subject to insolvency or debt reorganisation proceedings which may result in a delay or prevention in the enforcement of Purchased HP Contracts and the repossession of the relevant Financed Vehicles.

The primary insolvency proceedings for corporate entities under Finnish law are bankruptcy (fi: "*konkurssi*") or corporate reorganisation (fi: "*yrittysaneeraus*") proceedings. In the event of bankruptcy of a corporate Debtor, the bankruptcy estate is vested with the right to elect whether or not to remain bound by the Purchased HP Contract. If the estate chooses to continue the Purchased HP Contract, the bankruptcy estate will have to make full payment of any unpaid amounts due under the Purchased HP Contract and will continue to exercise the Debtor's rights and obligations thereunder, and the Purchaser will not be entitled to repossess the Financed Vehicle. However, if the bankruptcy estate resolves to terminate the Purchased HP Contract, the Purchaser may repossess the relevant Financed Vehicle, in which case a statement of accounts shall be prepared in accordance with the Act on Hire Purchases. See "*RISK FACTORS — Repossession of Financed Vehicles may require down payments to the Debtors and result in a shortfall of funds available to make payments on the Notes*".

In the event of a corporate reorganisation of a corporate Debtor repossession may be prohibited by mandatory provisions of law. Pursuant to the Act on Company Reorganisation, after the

commencement of company reorganisation proceedings against a Debtor, repossession of Financed Vehicles from that Debtor is prohibited and any repossession proceedings that have already been initiated are stayed and resale of already repossessed Financed Vehicles prohibited until the restructuring programme has been approved by the court or the company reorganisation proceedings have been terminated. The restructuring programme, once approved by the court having jurisdiction over the Debtor, may adjust the terms and conditions of the Purchased HP Contract, such as by postponing the maturity or reducing the interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle at the time of commencement of the company reorganisation proceedings. Similarly, for a Debtor that is subject to the resolution regime for financial institutions, the resolution authority may suspend the termination of the HP Contracts or adjust the terms and conditions of the Purchased HP Contract, such as by postponing the maturity or reducing the interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle.

In the event of adjustment of the debts of a Debtor who is a natural person, repossession may be prohibited by mandatory provisions of law. Pursuant to the Act on the Adjustment of the Debts of a private individual, after the commencement of debt adjustment proceedings against a Debtor, repossession of any Financed Vehicle from that Debtor is prohibited and any repossession proceedings that have already been initiated are stayed and resale of already repossessed Financed Vehicles prohibited until the adjustment programme has been approved by the court or the application for debt adjustment denied. The adjustment programme, once approved by the court having jurisdiction over the Debtor, may adjust the terms and conditions of the Purchased HP Contract, such as by postponing maturity or reducing interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle at the time of commencement of the debt adjustment proceedings.

Repossession of Financed Vehicles may require down payments to the Debtors and result in a shortfall of funds available to make payments on the Notes

When repossessing a Financed Vehicle, the Purchaser (or the Finnish Pledge Authorised Representative if the repossession is made by it) (with the aid of the Servicer) will, pursuant to the Act on Hire Purchases and the Consumer Protection Act, be required to agree with the Debtor a statement of accounts, failing which the statement of accounts may be drawn up and imposed on the parties by the Finnish enforcement authority.

In the case of a Debtor who is a consumer, in the statement of accounts, the value of the relevant Financed Vehicle at the time of repossession (assuming reasonable maintenance and repair) shall be credited in favour of the Debtor. Correspondingly, (i) the total amount outstanding under the Purchased HP Contract, reduced by such portion of the interest and other credit costs as are attributable to the time between the repossession and the initial final maturity date of the Purchased HP Contract; (ii) default interest on the delayed payments, (iii) direct expenses caused by the repossession; and (iv) any compensation to which the Purchaser may be entitled for maintenance or repair of the Financed Vehicle, shall be credited in favour of the Purchaser. If the total amount credited in favour of the relevant Debtor exceeds the total amount credited in favour of the Purchaser, the relevant Financed Vehicle may be repossessed only provided that the difference is paid to the Debtor or deposited with the Finnish enforcement authority in favour of the Debtor. Where the total amount credited in favour of the relevant Debtor is less than the total amount credited in favour of the Purchaser, the Purchaser may, in addition to repossession of the

Financed Vehicle, claim compensation only for such difference. Such difference constitutes an unsecured claim against the Debtor.

In the case of a Debtor who is not a consumer, in the statement of accounts, the value of the relevant Financed Vehicle at the time of repossession (assuming reasonable maintenance and repair) shall be credited in favour of the Debtor. Correspondingly, (i) the total unpaid amount that, at the time of repossession, is due for payment under the Purchased HP Contract; (ii) the total unpaid amount that, at the time of repossession, is not yet due for payment under the Purchased HP Contract multiplied by an amount equal to (A) the cash price of the Financed Vehicle, divided by (B) the total amounts payable under the Purchased HP Contract; (iii) such interest and compensation for insurance premiums that the Purchaser may be entitled to; (iv) costs for the repossession; and (v) any compensation to which the Purchaser may be entitled for maintenance or repair of the Financed Vehicle, shall be credited in favour of the Purchaser. If the total amount credited in favour of the relevant Debtor exceeds the total amount credited in favour of the Purchaser, the relevant Financed Vehicle may be repossessed only provided that the difference is paid to the Debtor or deposited with the Finnish enforcement authority in favour of the Debtor. Where the total amount credited in favour of the relevant Debtor is less than the total amount credited in favour of the Purchaser, the Purchaser may, in addition to repossession of the Financed Vehicle, claim compensation only for such difference. Such difference constitutes an unsecured claim against the Debtor.

Further, if, upon repossession of a Financed Vehicle, the relevant Debtor within 14 calendar days of presentation of the statement of accounts pays the amount which stands to credit in favour of the Purchaser, the repossessed Financed Vehicle must be returned to the possession of the relevant Debtor.

There is a risk that the provisions on statement of accounts and the required down payment could delay or prevent enforcement of Purchased HP Contracts, which may result in the Purchaser not having sufficient funds to meet all of its obligations to the Issuer and in a shortfall of funds available for payments under the Notes.

However, where the Purchaser is required by law or otherwise to pay (i) any amount to the Debtor or to deposit such amount with the Finnish enforcement authority on behalf of the Debtor in respect of the repossession of the relevant Financed Vehicle and/or (ii) any VAT to the Finnish tax authorities in relation to the resale of any Financed Vehicle following its repossession, pursuant to the Servicing Agreement the Servicer may, in its sole discretion, make a Servicer Advance in an amount equal to the amount payable by the Purchaser, to the extent that the Servicer reasonably believes that the amount of such Servicer Advance will be subsequently repaid by the Purchaser. The Servicer will make any Servicer Advance it has elected to make by way of paying, on behalf of the Purchaser, the relevant amount owed by the Purchaser to the Debtor or the Finnish tax authorities, as applicable, by no later than the date on which such amount is due and payable. If the Servicer elects not to make a Servicer Advance, the payments which the Purchaser is required by law to make will be funded by the Servicer Advance Reserve.

The Purchaser's title to the Financed Vehicles is restricted under Finnish law

While legal title to each Financed Vehicle is vested with the Purchaser under the Purchased HP Contracts, the Purchaser is not, prior to the repossession of a Financed Vehicle, entitled to sell or otherwise dispose of the Financed Vehicle, whether voluntarily or involuntarily, or to pledge or

create other encumbrances over the Financed Vehicles on a stand-alone basis separately from the claims against the Debtors under the Purchased HP Contracts. In the event of the enforcement of claims of a creditor, including those of the Issuer, against the Purchaser or in the event of the insolvency of the Purchaser, only the Purchased HP Contracts, but not the Financed Vehicles separately from the claims against the Debtors under the Purchased HP Contracts, may be realised to settle the Purchaser's obligations.

In the event of the Seller's insolvency, collections received by the Seller may not be available to the Purchaser, resulting in a shortfall of funds available to make payments on the Notes

On or about the Purchase Date, the Seller will notify the Debtors of the transfer of the Purchased HP Contracts to the Purchaser and will direct the Debtors to make payments under the Purchased HP Contracts to the Issuer Collections Account. If, notwithstanding the notification to Debtors, any Collections are received and credited to any Seller Collections Account following the Purchase Date, the Servicer shall instruct the Collections Account Bank to transfer such Collections to the Issuer Collections Account within one Helsinki Banking Day after receipt (or, in the case of exceptional circumstances causing an operational delay in the transfer, within three Helsinki Banking Days after receipt). However, to the extent that the Servicer fails to make transfers of such Collections to the Issuer Collections Account and the Seller becomes subject to bankruptcy or company reorganisation proceedings, Collections received in the Seller Collections Account may be commingled with the Seller's other funds and may not be available for the Purchaser to meet its obligations to the Issuer, which may lead to a shortfall of funds available to make payments on the Notes.

Commercial risks

Reliance on representations and warranties

If the Portfolio does not correspond, in whole or in part, to the representations and warranties made by the Seller in the Auto Portfolio Purchase Agreement, the Purchaser has certain rights of recourse against the Seller, including, for example, requiring the Seller to repurchase the affected Purchased HP Contracts under Clause 23.2 (*Mandatory Repurchase*) of the Auto Portfolio Purchase Agreement at a repurchase price equal to the aggregate of (i) the Outstanding Principal Amount of such Purchased HP Contract; (ii) an amount equal to all other amounts due from the relevant Debtor in respect of the relevant Purchased HP Contract as at the date of the repurchase; (iii) unpaid interest or finance charges (as applicable) accrued but not yet due and payable in respect of the relevant Purchased HP Contract as at the date of the repurchase; and (iv) an amount equal to the reasonable costs incurred by the Purchaser in relation to such repurchase, less an amount equal to any interest or finance charges (as applicable) not yet accrued but paid in advance to the Purchaser in respect of such Purchased HP Contract. These rights are not collateralised with respect to the Seller. Consequently, a risk of loss exists in the event that any representation or warranty of the Seller is breached. This could potentially cause the Issuer to default under the Notes.

Reliance on administration and collection procedures

The Servicer will carry out the administration, collection and enforcement of the Portfolio in accordance with the Servicing Agreement, the Purchased HP Contracts and applicable law. However, if a Debtor has defaulted under a Purchased HP Contract, the Servicer will not be able to enforce such a loan against the Debtor in its own name, although under the Servicing Agreement it has agreed to assist the Purchaser in relation to the enforcement of Purchased HP Contracts. The Purchaser or the Purchaser Security Trustee, as applicable, would be the party which would formally enforce the claim.

Accordingly, the Noteholders are relying on the business judgment and practices of the Servicer when enforcing claims against the Debtors, including taking decisions with respect to enforcement in respect of the Portfolio. See “*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Servicing Agreement*” and “*CREDIT AND COLLECTION POLICY*”.

Replacement of the Servicer

If the appointment of the Servicer is terminated, the Issuer may appoint a substitute servicer pursuant to the Servicing Agreement. Further, any substitute servicer may charge a servicing fee on a basis different from that of the Servicer. Both the failure to appoint a replacement servicer in the event that the Servicer can no longer perform its agreed function and/or the charging by a substitute servicer of a servicing fee greater than that charged by the Servicer may result in a shortfall in funds available to make payments on the Notes. See “*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Auto Portfolio Purchase Agreement*” and “*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Servicing Agreement*”.

Under the terms of the Servicing Agreement, Santander Consumer Finance, S.A. will act as the back-up servicer facilitator (the “**Back-Up Servicer Facilitator**”). Pursuant to that agreement, if, so long as the Servicer is Santander Consumer Finance Oy:

- (a) the unsecured, unsubordinated debt obligations of Santander Consumer Finance, S.A. cease to have long-term ratings of at least “Baa3” by Moody’s or “BBB-” by Fitch; and/or
- (b) Santander Consumer Finance, S.A. ceases to control the Servicer,

the Back-Up Servicer Facilitator will (unless Banco Santander S.A. or one of its Affiliates has long-term ratings of at least “Baa3” by Moody’s or “BBB-” by Fitch and retains or assumes control of the Servicer) (i) select within 60 days a bank or financial institution meeting the requirements set out in the Servicing Agreement and willing to assume the duties of a successor servicer in the event that a Servicer Termination Notice is delivered, (ii) review the information provided to it by the Servicer under the Servicing Agreement, (iii) enter into appropriate data confidentiality provisions and (iv) notify the Servicer if it requires further assistance.

For these purposes, “**control**” means the power, direct or indirect, (A) to vote more than 50 per cent. of the securities having ordinary voting power for the election of directors of the Servicer, or (B) to direct or cause the direction of the management and policies of the Servicer, whether by contract or otherwise.

No independent investigation and limited information

None of the Joint Lead Managers, the Arranger, the Note Trustee, the Purchaser Security Administrative Parties, the Issuer Security Trustee, the Purchaser or the Issuer has undertaken or will undertake any investigations, searches or other actions to verify the details of the Portfolio or to establish the creditworthiness of any Debtor or any other party to the Transaction Documents. Each such person will rely solely on the accuracy of the representations and warranties given by the Seller to the Purchaser on the Purchase Date in the Auto Portfolio Purchase Agreement in respect of, inter alia, the Debtors and the Purchased HP Contracts, including, without limitation, any security interests in the Financed Vehicles. The monetary benefit of all such representations and warranties given to the Purchaser will be pledged by way of security by the Purchaser to the Purchaser Secured Parties under the Purchaser Finnish Security Agreement.

The Seller is obliged to provide the Purchaser, the Issuer and the Issuer Security Trustee with financial or other information that it may have on each individual Debtor or the Purchased HP Contracts only as set out in the relevant Transaction Documents and as permitted by applicable laws.

Further, none of the Joint Lead Managers, the Arranger, the Note Trustee, the Purchaser Security Administrative Parties, the Issuer Security Trustee, the Purchaser or the Issuer will have any right to inspect the internal records of the Seller.

The primary remedy of the Purchaser for breaches of any warranty with respect to, inter alia, the enforceability of the Purchased HP Contracts, the absence of material litigation with respect to the Seller, the transfer of free title to the Purchaser and the compliance of the Purchased HP Contracts with the Eligibility Criteria will be to require the Seller to repurchase the affected

Purchased HP Contract for a repurchase price equal to the then Outstanding Principal Amount of such Purchased HP Contract (or the affected portion thereof) plus accrued and unpaid interest thereon and certain other amounts. With respect to breaches of warranties under the Auto Portfolio Purchase Agreement generally, the Seller is obliged to indemnify the Purchaser against any Losses directly resulting from such breaches.

Risk of losses on the Portfolio

If the Purchaser does not receive the full amount due from the Debtors in respect of the Purchased HP Contracts, the Noteholders are at risk of receiving less than the face value of their Notes and interest payable thereon. Consequently, the Noteholders are exposed to the credit risk of the Debtors. Neither the Seller, the Purchaser nor the Issuer guarantees or warrants the full and timely payment by the Debtors of any sums payable under the Purchased HP Contracts. The ability of any Debtor to make timely payments of amounts due under the relevant HP Contracts will mainly depend on his or her assets and liabilities as well as his or her ability to generate sufficient income to make the required payments. The Debtors' ability to generate income may be adversely affected by a large number of factors. There is no assurance that the present value of the Purchased HP Contracts will at any time be equal to or greater than the principal amounts outstanding of the Notes. In addition, there can be no assurance as to the future geographical distribution of the Debtors or the Financed Vehicles within Finland and its effect, in particular, on the rate of amortisation of the Purchased HP Contracts. Consequently, any deterioration in the economic condition of Finland where Debtors and Financed Vehicles are located could have an adverse effect on the ability of the Debtors to repay the loans and the ability of the Security Trustee to sell the Financed Vehicles and could trigger losses in respect of the Notes or reduce their yield to maturity. Furthermore, although the Debtors are located throughout Finland, these Debtors may be concentrated in certain locations, such as densely populated or industrial areas. Any deterioration in the economic condition of the area in which the Debtors are located (or any deterioration in the economic condition of other areas) may have an adverse effect on the ability of the Debtors to make payments under the Purchased HP Contracts. A concentration of the Debtors in such area may therefore result in a greater risk that the Noteholders will ultimately not receive the full principal amount of the Notes and interest thereon than if such concentration had not been present. The rate of recovery upon a Debtor default may itself be influenced by various economic factors, such as the level of interest rates from time to time, and tax, legal and other factors, such as fluctuations in the value of the Financed Vehicles (including, without limitation, fluctuations arising due to changes in market perception of the Financed Vehicles, including as a result of latent defects thought to affect multiple Financed Vehicles or an entire class of Financed Vehicles (such as those it is alleged affect a significant number of models manufactured by members of the Volkswagen corporate group due to software which produces anomalous results in emissions and fuel consumption tests)). There might be various risks involved in the sales of used vehicles which could significantly influence the amount of proceeds generated from the sale, e.g. damage and high mileages, less popular configuration (engine, colour etc.), oversized special equipment, large numbers of homogeneous types of vehicles in short time intervals, general price volatility in the used vehicles market or seasonal impact on sales. Circumstances may also arise where the Debtors suspend or set-off payments due under the HP Contract to the Purchaser to the extent of any claim it has in respect of the purchased Financed Vehicle (please see "RISK FACTORS - Amounts available to make payment on the Notes may be reduced as a result of counter-claims Obligors have against the Dealer or the Seller" for further information on the Purchaser's set-off risk).

The risk to the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders and the Class E Noteholders that they will not receive the maximum amount due to them under, respectively, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes (as stated on the cover page of this Prospectus) is mitigated, (i) in the case of the Class A Notes, by the subordination of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes to the Class A Notes, (ii) in the case of the Class B Notes, by the subordination of the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes to the Class B Notes, (iii) in the case of the Class C Notes, by the subordination of the Class D Notes, the Class E Notes and the Class F Notes to the Class C Notes, (iv) in the case of the Class D Notes, by the subordination of the Class E Notes and the Class F Notes to the Class D Notes and (v) in the case of the Class E Notes, by the subordination of the Class F Notes to the Class E Notes, as well as by the amounts credited to the Reserve Account which will be available on any Payment Date to meet certain obligations of the Issuer, including its obligations under the Class A Notes, and the Class B Notes (but not any other Class of Notes) in accordance with the Issuer Pre-Enforcement Priority of Payments.

However, there is no assurance that the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders or the Class F Noteholders will receive for each Class A Note, Class B Note, Class C Note, Class D Note, Class E Note or Class F Note, as applicable, the total initial Note Principal Amount plus interest as stated in the Note Conditions nor that the distributions and amortisations which are made will correspond to the monthly payments originally agreed upon in the underlying HP Contracts.

Balloon HP Contracts may result in higher losses

The Purchased HP Contracts may be structured as Balloon HP Contracts with a substantial portion of the original principal amount under the receivable required to be repaid in a single instalment at maturity. By deferring the repayment of a substantial portion of the principal amount of the receivable until its final maturity date, the impact of non-payment of the final instalment under a Balloon HP Contracts will be greater than under a receivable where all instalments are of equal size (assuming both receivables have the same term). Approximately 47.5% of the Purchased HP Contracts (as at the Purchase Cut-Off Date) were Balloon HP Contracts.

Subordination

The Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes will be subject to greater risk because of subordination.

No payments of interest or principal will be made on any Class of the Notes until all of the Issuer's fees and expenses that, in accordance with the Issuer Priorities of Payments, rank ahead of such payments on the Notes and which are then due are paid in full. In addition:

- (a) the Class B Notes will bear a greater risk of loss than the Class A Notes because:
 - (i) prior to the service of an Enforcement Notice, no payments of interest will be made on the Class B Notes until all amounts of interest on the Class A Notes then due have been paid in full and no payments of principal will be made on the Class B Notes until all amounts of principal on the Class A Notes then due have been paid in full; and

- (ii) following the service of an Enforcement Notice, no payments of interest or principal will be made on the Class B Notes until all amounts of interest and principal on the Class A Notes have been paid in full;
- (b) the Class C Notes will bear a greater risk of loss than the Class A Notes and the Class B Notes because:
 - (i) prior to the service of an Enforcement Notice, no payments of interest will be made on the Class C Notes until all amounts of interest and, following the occurrence of a Principal Deficiency Trigger Event, principal on the Class A Notes and the Class B Notes then due have been paid in full and no payments of principal will be made on the Class C Notes until all amounts of interest and principal on the Class A Notes and the Class B Notes then due have been paid in full; and
 - (ii) following the service of an Enforcement Notice, no payments of interest or principal will be made on the Class C Notes until all amounts of interest and principal on the Class A Notes and the Class B Notes have been paid in full;
- (c) the Class D Notes will bear a greater risk of loss than the Class A Notes, the Class B Notes and the Class C Notes because:
 - (i) prior to the service of an Enforcement Notice, no payments of interest will be made on the Class D Notes until all amounts of interest and, following the occurrence of a Principal Deficiency Trigger Event, principal on the Class A Notes, the Class B Notes and the Class C Notes then due have been paid in full and no payments of principal will be made on the Class D Notes until all amounts of interest and principal on the Class A Notes, the Class B Notes and the Class C Notes then due have been paid in full; and
 - (ii) following the service of an Enforcement Notice, no payments of interest or principal will be made on the Class D Notes until all amounts of interest and principal on the Class A Notes, the Class B Notes and the Class C Notes have been paid in full;
- (d) the Class E Notes will bear a greater risk of loss than the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes because:
 - (i) prior to the service of an Enforcement Notice, no payments of interest or principal will be made on the Class E Notes until all amounts of interest and principal on the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes then due have been paid in full; and
 - (ii) following the service of an Enforcement Notice, no payments of interest or principal will be made on the Class E Notes until all amounts of interest and principal on the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes have been paid in full; and

- (e) the Class F Notes will bear a greater risk of loss than the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes because:
 - (i) prior to the service of an Enforcement Notice, no payments of interest or principal will be made on the Class F Notes until all amounts of interest and principal on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes then due have been paid in full; and
 - (ii) following the service of an Enforcement Notice, no payments of interest or principal will be made on the Class F Notes until all amounts of interest and principal on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes have been paid in full.

Limited availability of the Liquidity Reserve in respect of interest due on the Class A Notes and the Class B Notes

Prior to the delivery by the Note Trustee of an Enforcement Notice, in the event of shortfalls under the Purchased HP Contracts, amounts from the Liquidity Reserve may only be drawn to reduce shortfalls with respect to interest due under the Class A Notes and the Class B Notes and higher ranking obligations in accordance with the Issuer Pre-Enforcement Priority of Payments.

Risk of early repayment

In the event that the Purchased HP Contracts are prematurely terminated or otherwise settled early, the Noteholders will (barring the loss of some or all of the Purchased HP Contracts) be repaid the principal which they invested, but will receive interest for a shorter period than that provided in the respective HP Contracts. Under the Finnish Consumer Protection Act, Debtors who are consumers have a statutory right for early repayment of the HP Contract without needing to pay interest or other costs under the HP Contract for the remaining contract time. The rate of early termination under the HP Contracts cannot be predicted and is influenced by a wide variety of factors, including personal financial circumstances, issues with the vehicles, prevailing interest rates, the buoyancy of the auto finance market, the availability of alternative financing, local and regional economic conditions.

The yield to maturity of any Note of each Class will depend on, inter alia, the amount and timing of payment of principal and interest on the Purchased HP Contracts and the price paid by the Noteholder for such Note. On any Payment Date on which the Aggregate Outstanding Asset Principal Amount has been reduced to less than 10% of the Aggregate Outstanding Asset Principal Amount as of the Note Issuance Date, the Seller may, subject to certain conditions (including that the proceeds distributable as a result of such repurchase will be at least equal to the aggregate of (i) the then Class A Principal Amount plus accrued interest thereon, (ii) the then Class B Principal Amount plus accrued interest thereon, (iii) the then Class C Principal Amount plus accrued interest thereon, (iv) the then Class D Principal Amount plus accrued interest thereon and (v) the then Class E Principal Amount plus accrued interest thereon, together with all amounts ranking prior thereto according to the Issuer Pre-Enforcement Priority of Payments), repurchase all Purchased HP Contracts which have not been sold to a third party and the proceeds from such repurchase shall constitute Collections and the payments of interest and principal in accordance with the applicable Issuer Priority of Payments on such Payment Date will lead to an early redemption of the then-outstanding Classes of Notes (see Note Condition 5.3 (*Early redemption*)).

This may adversely affect the yield on each then-outstanding Class of Notes and, in the case of the Class F Notes, may result in a principal shortfall.

In addition, the Issuer may, subject to certain conditions, redeem all of the Notes if under applicable law the Issuer or Purchaser is required to make a deduction or withholding for or on account of tax (see Note Condition 5.4 (*Optional redemption for taxation reasons*)). This may adversely affect the yield on each Class of Notes.

Weighted average life of the Notes

The weighted average life of the Notes is volatile. The prepayment rates cannot be predicted as they are influenced by a wide variety of economic and other factors, including the buoyancy of the vehicle finance market, model changes, marketing campaigns, the financing and local and regional economic conditions.

The Class A Notes will be redeemed in an amount equal to the excess, if any, of the Class A Principal Amount over the Class A Target Principal Amount as of each Cut-Off Date, the Class B Notes will be redeemed in an amount equal to the excess, if any, of the Class B Principal Amount over the Class B Target Principal Amount as of each Cut-Off Date, the Class C Notes will be redeemed in an amount equal to the excess, if any, of the Class C Principal Amount over the Class C Target Principal Amount as of each Cut-Off Date, the Class D Notes will be redeemed in an amount equal to the excess, if any, of the Class D Principal Amount over the Class D Target Principal Amount as of each Cut-Off Date, the Class E Notes will be redeemed in an amount equal to the excess, if any, of the Class E Principal Amount over the Class E Target Principal Amount as of each Cut-Off Date and the Class F Notes will be redeemed in an amount equal to the excess, if any, of the Class F Principal Amount over the Class F Target Principal Amount as of each Cut-Off Date, in accordance with the relevant Issuer Priority of Payments.

If prepayment rates of the Purchased HP Contracts are slower than expected and the Issuer Available Distribution Amount is insufficient to pay an amount equal to the excess, if any, of the Class A Principal Amount over the Class A Target Principal Amount as of each Cut-Off Date to the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders and the Class F Noteholders will not receive principal payments until shortfalls in principal payments to the Class A Noteholders have been made up.

If prepayment rates of the Purchased HP Contracts are slower than expected and the Issuer Available Distribution Amount is insufficient to pay an amount equal to the excess, if any, of the Class B Principal Amount over the Class B Target Principal Amount as of each Cut-Off Date to the Class B Noteholders, the Class C Noteholders, the Class D Noteholders, the Class E Noteholders and the Class F Noteholders will not receive principal payments until shortfalls in principal payments to the Class B Noteholders have been made up. If prepayment rates of the Purchased HP Contracts are slower than expected and the Issuer Available Distribution Amount is insufficient to pay an amount equal to the excess, if any, of the Class C Principal Amount over the Class C Target Principal Amount as of each Cut-Off Date to the Class C Noteholders, the Class D Noteholders, the Class E Noteholders and the Class F Noteholders will not receive principal payments until shortfalls in principal payments to the Class C Noteholders have been made up. If prepayment rates of the Purchased HP Contracts are slower than expected and the Issuer Available Distribution Amount is insufficient to pay an amount equal to the excess, if any, of the Class D Principal Amount over the Class D Target Principal Amount as of each Cut-Off Date

to the Class D Noteholders, the Class E Noteholders and the Class F Noteholders will not receive principal payments until shortfalls in principal payments to the Class D Noteholders have been made up. If prepayment rates of the Purchased HP Contracts are slower than expected and the Issuer Available Distribution Amount is insufficient to pay an amount equal to the excess, if any, of the Class E Principal Amount over the Class E Target Principal Amount as of each Cut-Off Date to the Class E Noteholders, the Class F Noteholders will not receive principal payments until shortfalls in principal payments to the Class E Noteholders have been made up.

Risk of late payment due to deferral of Purchased HP Contracts

Under the Servicing Agreement, the Servicer may, in specific circumstances in accordance with the Credit and Collection Policy and in its sole discretion, grant a deferral of the date on which certain payments are due under the Purchased HP Contracts. This results in a risk of late payment of instalments due under the Purchased HP Contracts.

Creditworthiness of parties to the Transaction Documents

The ability of the Issuer to meet its obligations under the Notes will be dependent on the performance of the duties of each party to the Transaction Documents.

No assurance can be given that the creditworthiness of any of the parties to the Transaction Documents, including, without limitation, the Servicer, will not deteriorate in the future. Such a deterioration could affect any such party's performance of its respective obligations under the Transaction Documents. In particular, in the case of the Servicer, any such deterioration could affect the administration, collection and enforcement of the Purchased HP Contracts by the Servicer in accordance with the Servicing Agreement.

Sharing with other creditors

The proceeds of enforcement and collection of the security over the Issuer Secured Assets created by the Issuer in favour of the Issuer Security Trustee will be used in accordance with the Issuer Post-Enforcement Priority of Payments to satisfy claims of all Issuer Secured Parties thereunder. The claims of certain creditors will be settled ahead of those of the Noteholders in accordance with the Issuer Post-Enforcement Priority of Payments.

Preferred creditors and floating charges under Irish law

Under Irish law, upon the insolvency of an Irish incorporated company (such as the Issuer or the Purchaser), when applying the proceeds of assets subject to fixed security which may have been realised in the course of a liquidation or receivership, the claims of a limited category of preferential creditors will take priority over the claims of creditors holding the relevant fixed security. These preferred claims include the remuneration, costs and expenses properly incurred by an examiner of the company (which may include any borrowing made by any examiner to fund the company's requirements for the duration of his appointment) which have been approved by the Irish courts. See "*Examinership*".

The holder of a fixed security over the book debts of an Irish incorporated company (which would include the money standing to the credit of the accounts of the Issuer or the Purchaser) may be required by the Irish Revenue Commissioners, by notice in writing from the Irish Revenue

Commissioners, to pay to them sums equivalent to those which the holder of the fixed security thereafter receives in payment of debts due to it by the company. Where the holder of the security has given notice to the Irish Revenue Commissioners of the creation of the security within 21 calendar days of its creation, the holder's liability is limited to the amount of certain outstanding Irish tax liabilities of the company (including liabilities in respect of value added tax) arising after the issuance of a notice by the Irish Revenue Commissioners to the holder of fixed security.

The Irish Revenue Commissioners may also attach any debt due to an Irish tax resident company by another person in order to discharge any liabilities of the company in respect of outstanding tax whether the liabilities are due on its own account or as an agent or trustee. The scope of this right of the Irish Revenue Commissioners has not yet been considered by the Irish courts and it may override the rights of holders of security (whether fixed or floating) over the debt in question.

In relation to the disposal of assets of an Irish tax resident company which are subject to security, a person entitled to the benefit of the security may be liable for tax in relation to any capital gains made by the company on a disposal of those assets on exercise of the security.

The essence of a fixed charge is that the person creating the charge does not have liberty to deal with the assets which are the subject matter of the security in the sense of disposing of such assets or expending or appropriating the moneys or claims constituting such assets and, accordingly, if and to the extent that such liberty is given to the Issuer or the Purchaser, any security constituted by the Issuer Security Documents and the Purchaser Security Documents, respectively, may operate as a floating, rather than a fixed charge.

In particular, the Irish courts have held that, in order to create a fixed charge on hire purchase contracts, it is necessary to oblige the chargor to pay the proceeds of collection of the hire purchase contracts into a designated bank account and to prohibit the chargor from withdrawing or otherwise dealing with the monies standing to the credit of such account without the consent of the chargee.

Depending on the level of control actually exercised by the chargor, it is possible that security created by the Issuer and the Purchaser pursuant to the Issuer Security Documents and the Purchaser Security Documents, respectively, would be regarded by the Irish courts as creating a floating charge. Under Irish law, floating charges have certain weaknesses, including the following:

- (a) they have weak priority against purchasers (who are not on notice of any negative pledge contained in the floating charge) and chargees of the assets concerned and against lien holders, execution creditors and creditors with rights of set-off;
- (b) they rank after certain preferential creditors, such as claims of employees and certain taxes on winding up;
- (c) they rank after certain insolvency remuneration expenses and liabilities;
- (d) the examiner of a company has certain rights to deal with the property covered by floating charges; and
- (e) they rank after fixed charges.

Examinership

Examination is a court procedure available under the Companies Act 2014 (as amended) to facilitate the survival of Irish companies in financial difficulties.

The Issuer, the directors of the Issuer, a contingent, prospective or actual creditor of the Issuer, or shareholders of the Issuer holding, at the date of presentation of the petition, not less than one-tenth of the voting share capital of the Issuer are each entitled to petition the court for the appointment of an examiner. The examiner, once appointed, has the power to set aside contracts and arrangements entered into by the company after his appointment and, in certain circumstances, can avoid a negative pledge given by the company prior to his appointment. Furthermore, the examiner may sell assets which are the subject of a fixed charge. However, if such power is exercised, the examiner must account to the holders of the fixed charge for the amount realised and discharge the amount due to the holders of the fixed charge out of the proceeds of the sale.

During the period of protection, the examiner will formulate proposals for a compromise or scheme of arrangement to assist the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the Irish High Court when at least one class of creditors has voted in favour of the proposals and the Irish High Court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement.

In considering proposals by the examiner, it is likely that secured and unsecured creditors would form separate classes of creditors. In the case of the Issuer, if the Issuer Security Trustee represented the majority in number and value of claims within the secured creditor class (which would be likely given the restrictions agreed to by the Issuer in the Note Conditions), the Issuer Security Trustee would be in a position to reject any proposal not in favour of the Noteholders. The Issuer Security Trustee would also be entitled to argue at the Irish High Court, being the relevant court for the purposes of the Irish Companies Act 2014 (as amended), hearing at which the proposed scheme of arrangement is considered that the proposals are unfair and inequitable in relation to the Noteholders, especially if such proposals included a writing down of the value of amounts due from the Issuer to the Noteholders or resulted in Noteholders receiving less than they would have if the Issuer were to be wound up. The primary risks to the holders of Notes if an examiner were appointed to the Issuer are as follows:

- (a) the potential for a compromise or scheme of arrangement being approved involving the writing down or rescheduling of the debt due from the Issuer to the Noteholders as secured by the Issuer Security Documents;
- (b) the potential for the examiner to seek to set aside any negative pledge in the Transaction Documents prohibiting the creation of security or the incurring of borrowings by the Issuer to enable the examiner to borrow to fund the Issuer during the protection period; and
- (c) in the event that a scheme of arrangement is not approved and the Issuer subsequently goes into liquidation, the examiner's remuneration and expenses (including certain borrowings incurred by the examiner on behalf of the Issuer and approved by the Irish

High Court) will take priority over the monies and liabilities which from time to time are or may become due, owing or payable to each of the Noteholders under the Notes or the other Transaction Documents and which are secured by the security granted pursuant to the Issuer Security Documents.

The foregoing considerations equally apply to the Purchaser.

Centre of Main Interests

The Issuer has its registered office in Ireland. As a result, there is a rebuttable presumption that its centre of main interests (“**COMI**”) is in Ireland and consequently that any main insolvency proceedings applicable to it would be governed by Irish law. In the decision of the Court of Justice of the European Union (“**ECJ**”) in relation to Eurofood IFSC Limited, the ECJ restated the presumption in the EUIR that the place of a company’s registered office is presumed to be the company’s COMI and stated that the presumption can only be rebutted if “factors which are both objective and ascertainable by third parties enable it to be established that an actual situation exists which is different from that which locating it at the registered office is deemed to reflect”. As the Issuer has its registered office in Ireland, has Irish directors, is registered for tax in Ireland and has an Irish corporate services provider, the Issuer does not believe that factors exist that would rebut this presumption, although this would ultimately be a matter for the relevant court to decide, based on the circumstances existing at the time when it was asked to make that decision. If the Issuer’s COMI is not located in Ireland, and is held to be in a different jurisdiction within the European Union, main insolvency proceedings may not be opened in Ireland.

Irish tax risks

Changes in Irish Tax Laws

Changes in Irish tax laws may adversely impact the business of the Issuer and the value of the Noteholders’ investment.

Each of the Issuer and Purchaser are treated as a securitisation vehicle which is taxed pursuant to section 110 of the Irish Taxes Consolidation Act 1997 (the “**TCA**”). There is no guarantee that the tax treatment of an Irish securitisation company will not change in the future. The tax deductibility of the Purchaser’s and/or Issuer’s interest costs will depend on the applicability of section 110 of the TCA and the current practice of the Irish Revenue Commissioners in relation thereto. Any change to these rules may have an impact on Noteholders.”

Interest payments on the Notes and under the Loan Agreement may be subject to Irish withholding tax if there is a change in Irish tax law or if the various exemption conditions set forth under “**TAXATION — Taxation in Ireland — Withholding tax**” are not fulfilled. The Issuer is not obliged to gross up or otherwise compensate Noteholders for withholding taxes incurred. In addition, the Purchaser is not obliged to gross up or otherwise compensate the Issuer for withholding taxes incurred. This may, therefore, affect the return that Noteholders receive on the Notes.

Other risks

The Issuer believes that the risks described above are the principal risks inherent in the transaction for the Noteholders, but the inability of the Issuer to pay interest, principal or other

amounts on or in connection with the Notes may occur for other reasons and the Issuer does not represent that the above statements regarding the risks of holding the Notes are exhaustive. Although the Issuer believes that the various structural elements described in this Prospectus lessen some of these risks for the Noteholders, there can be no assurance that these measures will be sufficient to ensure payment to Noteholders of interest, principal or any other amounts on or in connection with the Notes on a timely basis or at all.

CREDIT STRUCTURE

Purchased HP Contract interest rates

The Purchased HP Contracts include (i) level payment contracts under which Instalments are calculated on the basis of (approximately) equal monthly periods during the life of each loan and (ii) Balloon HP Contracts under which the final Instalment may be substantially higher than the previous Instalments. Each Instalment is comprised of a portion allocable to interest and a portion allocable to principal under the relevant HP Contract.

Cash collection arrangements

Payments by the Debtors under the HP Contracts are due on a monthly basis on the same day each month (subject to business day adjustment). Under the majority of the HP Contracts, the Debtor can choose the date each month on which payments are to be made.

The majority of Debtors have payment dates falling throughout the month, with the most popular payment dates falling on the first, fifteenth, sixteenth, thirtieth and thirty-first, if applicable.

Prior to the Purchase Date, the Debtors make payments on HP Contracts into one or more Seller Collections Accounts. On or about the Purchase Date, the Seller will notify Debtors of the transfer of the HP Contracts to the Purchaser and the pledge granted in respect of the Purchased HP Contracts pursuant to the Purchaser Finnish Security Agreement. Such pledge shall be legally perfected by virtue of such notification and directing the Debtors to make payments under the Purchased HP Contracts to the Issuer Collections Account.

All Collections paid into the Issuer Collections Account will be transferred to the Issuer Transaction Account on a monthly basis in accordance with the provisions of the Servicing Agreement (other than Insurance Premium Payments, which will be transferred on a monthly basis to the Seller).

On the fifth Business Day following each Cut-Off Date, any Collections transferred from the Issuer Collections Account to the Issuer Transaction Account representing Insurance Premium Payments will be transferred to the Seller for its own account, in accordance with the Servicing Agreement.

On the fifth Business Day following each Cut-Off Date, the remaining amount of Collections in excess of the aggregate amount payable by the Purchaser to the Issuer under the Loan Agreement (taking into account the applicable Purchaser Priority of Payments) on the immediately following Payment Date shall be transferred by the Servicer from the Issuer Transaction Account to the Purchaser Transaction Account and, for the avoidance of doubt, such excess shall form part of the Purchaser Pre-Enforcement Available Distribution Amount or the Purchaser Post-Enforcement Available Distribution Amount, as applicable, and will be applied in accordance with the relevant Purchaser Priority of Payments.

On each Payment Date, the remaining Collections standing to the credit of the Issuer Transaction Account shall (i) be applied *pro tanto* against the Purchaser's obligation to pay interest, principal, fees and any other amounts to the Issuer under the Loan Agreement on such Payment Date (taking into account the applicable Purchaser Priority of Payments) and thereafter (ii) form part of the Issuer Pre-Enforcement Available Distribution Amount or the Issuer Post-Enforcement

Available Distribution Amount, as applicable, and will be applied in accordance with the relevant Issuer Priority of Payments.

If, notwithstanding the notification to Debtors, any Collections are received and credited to any Seller Collections Account following the Purchase Date, the Servicer shall instruct the Collections Account Bank to transfer such Collections to the Issuer Collections Account within one Helsinki Banking Day after receipt (or, in the case of exceptional circumstances causing an operational delay in the transfer, within three Helsinki Banking Days after receipt). The Servicer shall pay the Purchaser interest on the amount of those Collections, for each day from (and including) the Helsinki Banking Day on which the Seller receives those Collections to (but excluding) the date on which it transfers those Collections to the Issuer Collections Account, at the same rate as the effective rate of interest received by the Seller on amounts held in the Seller Collections Accounts during the relevant period. Such interest shall be payable on each Cut-Off Date. See "*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Servicing Agreement*".

The Servicer will keep ledgers which, among other things, identify all amounts paid into the Purchaser Transaction Account, the Issuer Collections Account, the Issuer Transaction Account and the Reserve Account and the amount standing to the credit of the Servicer Advance Reserve Ledger.

If at any time a Ratings Downgrade has occurred with respect to the Transaction Account Bank, the Issuer will be required, within 30 calendar days after the Ratings Downgrade, to transfer any amounts credited to the Issuer Secured Accounts, at the cost of the Transaction Account Bank, to an alternative bank with at least the Required Ratings. The alternative bank will need to (i) enter into a Transaction Account Agreement prior to the transfer and (ii) accede to the Security Trust Deed.

Issuer Pre-Enforcement Available Distribution Amount and Issuer Pre-Enforcement Priority of Payments

The Issuer Pre-Enforcement Available Distribution Amount will be calculated as at each Cut-Off Date with respect to the Collection Period ending on such Cut-Off Date for the purpose of determining, *inter alia*, the amount to be applied under the Issuer Pre-Enforcement Priority of Payments on the immediately following Payment Date.

The amounts to be applied under the Issuer Pre-Enforcement Priority of Payments will vary during the life of the transaction as a result of possible variations in amounts received by the Issuer from the Purchaser under the Loan Agreement and certain costs and expenses of the Issuer. The effect of such variations could lead to drawings, and the replenishment of such drawings, from the Reserve Account.

The Issuer Pre-Enforcement Available Distribution Amount will, pursuant to the Note Conditions and the Issuer Security Trust Deed, be applied as of each Payment Date in accordance with the Issuer Pre-Enforcement Priority of Payments as set out in Note Condition 2.3 (*Issuer Pre-Enforcement Priority of Payments*).

The amount of interest and principal payable under the Notes on each Payment Date will depend primarily on the amounts received by the Issuer from the Purchaser pursuant to the Loan Agreement and certain costs and expenses of the Issuer.

Payments to satisfy amounts due to third parties (other than pursuant to the Transaction Documents) and payable in connection with the Issuer's business may be made from the Issuer Transaction Account and the Reserve Account other than on a Payment Date.

Purchaser Pre-Enforcement Available Distribution Amount and Purchaser Pre-Enforcement Priority of Payments

The Purchaser Pre-Enforcement Available Distribution Amount will be calculated as at each Cut-Off Date with respect to the Collection Period ending on such Cut-Off Date for the purpose of determining, *inter alia*, the amount to be applied under the Purchaser Pre-Enforcement Priority of Payments on the immediately following Payment Date.

The amounts to be applied under the Purchaser Pre-Enforcement Priority of Payments will vary during the life of the transaction as a result of possible variations in the amount of Collections and certain costs and expenses of the Purchaser.

The amount of interest and principal payable under the Loan Agreement on each Payment Date will depend primarily on the amount of Collections received in respect of the Purchased HP Contracts during the Collection Period immediately preceding such Payment Date and certain costs and expenses of the Purchaser. The amount of Collections received in respect of the Purchased HP Contracts will vary during the life of the Notes as a result of, *inter alia*, the level of delinquencies, defaults, repayments and prepayments in respect of the Purchased HP Contracts.

The Purchaser Pre-Enforcement Available Distribution Amount will be applied as of each Payment Date in accordance with the Purchaser Pre-Enforcement Priority of Payments.

Payments to satisfy amounts due to third parties (other than pursuant to the Transaction Documents) and payable in connection with the Purchaser's business may be made from the Purchaser Transaction Account other than on a Payment Date.

Deferred Purchase Price

On each Payment Date, the Deferred Purchase Price will be paid to the Seller in accordance with, and subject to, the relevant Purchaser Priority of Payments.

Issuer Post-Enforcement Priority of Payments

Following the delivery by the Note Trustee of an Enforcement Notice and prior to the full discharge of all Issuer Secured Obligations, any amounts payable by the Issuer will be paid out in accordance with the Issuer Post-Enforcement Priority of Payments set out in Note Condition 2.4 (*Issuer Post-Enforcement Priority of Payments*).

Purchaser Post-Enforcement Priority of Payments

Following the delivery by the Note Trustee of an Enforcement Notice and prior to the full discharge of all Purchaser Secured Obligations, any amounts payable by the Purchaser will be paid out in accordance with the Purchaser Post-Enforcement Priority of Payments.

Liquidity Reserve

The Issuer will establish and maintain the Reserve Account for the purpose of holding the Liquidity Reserve, which comprises a liquidity reserve in an amount up to the Required Liquidity Reserve Amount, which is designed to cover temporary shortfalls in the amounts required to pay interest on the Class A Notes and the Class B Notes and certain prior-ranking amounts, as specified in the Issuer Pre-Enforcement Priority of Payments.

On the Note Issuance Date, an amount of Euro 5,707,000 (being the initial Required Liquidity Reserve Amount) will be credited to the Reserve Account.

Prior to delivery by the Note Trustee of an Enforcement Notice:

- (a) the amount standing to the credit of the Liquidity Reserve as of the Cut-Off Date immediately preceding any Payment Date will be available to meet items (a) to (f) (inclusive) of the Issuer Pre-Enforcement Priority of Payments; and
- (b) if and to the extent that the Issuer Pre-Enforcement Available Distribution Amount on any Payment Date exceeds the amounts required to meet the items ranking higher than item (g) in the Issuer Pre-Enforcement Priority of Payments, the excess amount will be applied to credit the Liquidity Reserve, up to the Required Liquidity Reserve Fund Amount.

Pursuant to the Note Conditions, the Required Liquidity Reserve Amount will be equal to:

- (a) on the Note Issuance Date, EUR 5,707,000;
- (b) on each Cut-Off Date falling after the Note Issuance Date (prior to the occurrence of an event listed in paragraph (c) below), an amount equal to 1.00% of the aggregate of Class A Principal Amount and Class B Principal Amount as at such Cut-Off Date; and
- (c) zero, following the earliest of:
 - (i) the Cut-Off Date on which the aggregate outstanding Loan Principal Amount is zero;
 - (ii) the Cut-Off Date falling immediately prior to the Payment Date on which the Class A Notes and the Class B Notes will be redeemed in full; and
 - (iii) the Cut-Off Date falling immediately prior to the Maturity Date,

provided that:

- (A) until the occurrence of an event listed in paragraph (c) above, the Required Liquidity Reserve Amount shall not be less than 0.15% of the aggregate of the initial Class A Principal Amount and initial Class B Principal Amount; and
- (B) until the occurrence of an event listed in paragraph (c)(ii) and/or paragraph (c)(iii) above, if a Liquidity Reserve Shortfall occurred on the preceding Payment Date, the Required Liquidity Reserve Amount shall not be less than the Required Liquidity Reserve Amount as of the Cut-Off Date immediately preceding that Payment Date.

Swap Agreement

The interest rate payable by the Issuer with respect to the Class A Notes is calculated as the sum of EURIBOR and the applicable margin (subject to a floor of zero) as set out in the Note Conditions. The HP Contracts bear interest at fixed rates. The Issuer has hedged this interest rate basis exposure in respect of the Class A Notes by entering into the Swap Agreement with the Swap Counterparty.

Under the Swap Agreement, on each Payment Date the Issuer will make payments to the Swap Counterparty based on a fixed rate of 0.197 per cent. per annum, applied to the Swap Notional Amount. The Swap Counterparty will pay a floating rate equal to EURIBOR, as set by the calculation agent under the Swap Transaction in respect of the Interest Period immediately preceding such Payment Date, plus a margin equal to 0.50 per cent. per annum (subject to a floor of zero), applied to the Swap Notional Amount. See “*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Swap Agreement*”.

The Swap Counterparty will be obliged under the terms of the Swap Agreement to post collateral into the Swap Collateral Account in accordance with the terms of the Swap Agreement. Prior to a Ratings Downgrade of the Swap Counterparty, and pursuant to the terms of the Swap Agreement, the amount of collateral to be posted by the Swap Counterparty will be equal to an estimation of the amount (if any) that would be payable to the Issuer in the event of a termination of the Swap Agreement which will generally be based on the costs of entering into a replacement swap agreement (as determined by the Swap Counterparty acting in good faith and in a commercially reasonable manner).

Pursuant to the Swap Agreement, if and so long as the short-term (if applicable) or long-term unsecured, unsubordinated and unguaranteed debt obligations of the Swap Counterparty (or its guarantor) are assigned a rating lower than the Required Ratings or any such rating is withdrawn by any Rating Agency, then the Swap Counterparty (at its own cost) shall do the following:

In the case of Moody's, if the Swap Counterparty (or its guarantor) ceases to have the Moody's Qualifying Collateral Trigger Rating, it:

- (a) shall post collateral on each Business Day for its obligations in accordance with the provisions of the Swap Agreement; and
- (b) may, within 30 calendar days, (i) obtain a guarantee of its obligations under the Swap Agreement from a third party with the Required Ratings; (ii) transfer all of its rights and obligations under the Swap Agreement to a third party with the Required Ratings; or (iii) take any further action to maintain the then current rating of the Class A Notes (subject to confirmation from the Rating Agencies that such action will not affect the then current ratings of the Class A Notes).

In the case of Moody's, if the Swap Counterparty (or its guarantor) ceases to have the Moody's Qualifying Transfer Trigger Rating, it:

- (a) shall post collateral on each Business Day for its obligations in accordance with the provisions of the Swap Agreement; and

- (b) shall, within 30 calendar days, (i) obtain a guarantee of its obligations under the Swap Agreement from a third party with the Required Ratings; (ii) transfer all of its rights and obligations under the Swap Agreement to a third party with the Required Ratings; or (iii) take any further action to maintain the then current rating of the Class A Notes (subject to confirmation from the Rating Agencies that such action will not affect the then current ratings of the Class A Notes).

In the case of Fitch, if the Swap Counterparty (or its guarantor) ceases to have the Fitch First Trigger Required Rating, it:

- (a) shall post collateral on each Business Day for its obligations in accordance with the provisions of the Credit Support Annex; or
- (b) may, within 14 calendar days, (i) obtain a guarantee of its obligations under the Swap Agreement from a third party with the Required Ratings; or (ii) transfer all of its rights and obligations under the Swap Agreement to a third party with the Required Ratings.

In the case of Fitch, if the Swap Counterparty (or its guarantor) ceases to have the Fitch Second Trigger Required Rating, it:

- (a) shall post collateral on each Business Day for its obligations in accordance with the provisions of the Credit Support Annex; and
- (b) shall, within 30 calendar days, (i) obtain a guarantee of its obligations under the Swap Agreement from a third party with the Required Ratings; or (ii) transfer all of its rights and obligations under the Swap Agreement to a third party with the Required Ratings.

Failure by the Swap Counterparty to comply with the aforementioned requirements will entitle the Issuer to terminate the Swap Agreement in accordance with the conditions thereof. Where the Swap Counterparty provides collateral in accordance with the provisions of the Credit Support Annex, such collateral or interest thereon will not form part of the Issuer Pre-Enforcement Available Distribution Amount or the Issuer Post-Enforcement Available Distribution Amount (other than collateral amounts retained by the Issuer following the designation of an early termination date under the Swap Agreement). See *“OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Swap Agreement”* and *“Termination of the Swap”*.

Swap Collateral Account

No amount may be withdrawn from the Swap Collateral Account or any other account used for the purpose of holding collateral passed by the Swap Counterparty in accordance with the Credit Support Annex, other than (i) to effect the return of excess collateral or payment of interest earned on the collateral to the Swap Counterparty (which return or payment shall be effected by the transfer of such excess or interest amount directly to the Swap Counterparty without deduction for any purpose and outside the relevant Issuer Priority of Payments) or (ii) following the termination of the Swap Agreement where an amount is owed by the Issuer to the Swap Counterparty (for the avoidance of doubt, after any close out netting has taken place), to pay the Swap Counterparty or (iii) following the termination of the Swap Agreement where an amount is owed by the Swap Counterparty to the Issuer (for the avoidance of doubt, after any close out netting has taken place), to be retained by the Issuer in accordance with the Swap Agreement.

Where the Swap Counterparty provides collateral in accordance with the provisions of the Credit Support Annex, such collateral or interest thereon will not form part of the Issuer Pre-Enforcement Available Distribution Amount or the Issuer Post-Enforcement Available Distribution Amount (other than collateral amounts applied in satisfaction of termination payments due to the Issuer following the designation of an early termination date under the Swap Agreement). See “*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Swap Agreement*” and “*THE SWAP COUNTERPARTY*”.

Credit enhancement

As, on the Note Issuance Date, the average interest rate under the Purchased HP Contracts exceeds the average weighted interest rate of the Notes, it is expected that the Issuer Pre-Enforcement Available Distribution Amount on each Payment Date will exceed the amounts required to pay the Class A Notes Interest, the Class B Notes Interest, the Class C Notes Interest, the Class D Notes Interest, the Class E Notes Interest and the Class F Notes Interest and the items ranking higher than such amounts in the Issuer Pre-Enforcement Priority of Payments and that, over the life of the Transaction, the sum of the Issuer Pre-Enforcement Available Distribution Amounts will exceed the amounts needed to pay items (a) to (s) in the Issuer Pre-Enforcement Priority of Payments and to repay the Class A Principal Amount, the Class B Principal Amount, the Class C Principal Amount, the Class D Principal Amount, the Class E Principal Amount in full and the Class F Principal Amount.

Prior to the delivery by the Note Trustee of an Enforcement Notice:

- (a) the Class A Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal, of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes (save that payments of interest on the Class B Notes and, prior to the occurrence of a Principal Deficiency Trigger Event, the Class C Notes and the Class D Notes will not be subordinated to payments of principal on the Class A Notes) and through the Liquidity Reserve;
- (b) the Class B Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal, of the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes (save that, prior to the occurrence of a Principal Deficiency Trigger Event, payments of interest on the Class C Notes and the Class D Notes will not be subordinated to payments of principal on the Class B Notes) and through the Liquidity Reserve;
- (c) the Class C Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal, of the Class D Notes, the Class E Notes and the Class F Notes (save that, prior to the occurrence of a Principal Deficiency Trigger Event, payments of interest on the Class D Notes will not be subordinated to payments of principal on the Class C Notes);
- (d) the Class D Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal, of the Class E Notes and the Class F Notes; and

- (e) the Class E Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal, of the Class F Notes.

Following the delivery by the Note Trustee of an Enforcement Notice:

- (a) the Class A Notes have the benefit of credit enhancement provided through the subordination, both as to payment of principal and interest and on enforcement of the security over the Issuer Secured Assets, of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes;
- (b) the Class B Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal and on enforcement of the security over the Issuer Secured Assets, of the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes;
- (c) the Class C Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal and on enforcement of the security over the Issuer Secured Assets, of the Class D Notes, the Class E Notes and the Class F Notes;
- (d) the Class D Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal and on enforcement of the security over the Issuer Secured Assets, of the Class E Notes and the Class F Notes;
- (e) the Class E Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal and on enforcement of the security over the Issuer Secured Assets, of the Class F Notes; and
- (f) any amount standing to the credit of the Reserve Account will be included in the Issuer Post-Enforcement Available Distribution Amount and applied on the next Payment Date in accordance with the Issuer Post-Enforcement Priority of Payments.

Subordinated Loans

The Subordinated Loan Provider has (a) made available to the Issuer on or prior to the Purchase Date an advance in the principal amount of Euro 5,707,000, which has been utilised for the purpose of funding the Reserve Account (up to the amount of the Required Liquidity Reserve Amount as at the Note Issuance Date), (b) made available to the Purchaser on or prior to the Purchase Date an advance in the principal amount of Euro 100,000, which has been utilised for the purpose of funding the Servicer Advance Reserve and (c) agreed to make available to the Purchaser on or prior to the first Payment Date an amount of Euro 274.91 (being the difference between the Aggregate Purchase Price and the Aggregate Asset Principal Amount Outstanding as of the Purchase Cut-Off Date) to provide further funds for the purpose of meeting the Purchaser's obligations under the Purchaser Pre-Enforcement Priority of Payments on such Payment Date.

After the Note Issuance Date, the Subordinated Loan Provider shall not be required to make further advances to the Purchaser or the Issuer (other than the advance of Euro 274.91 to be made to the Purchaser on or prior to the first Payment Date).

The obligations of the Issuer under the Issuer Subordinated Loan are subordinated to the obligations of the Issuer under the Notes and, following the delivery by the Note Trustee of an Enforcement Notice, rank against the Notes and all other obligations of the Issuer in accordance with the Issuer Post-Enforcement Priority of Payments.

The obligations of the Purchaser under the Purchaser Subordinated Loan are subordinated to the obligations of the Purchaser under the Loan and, following the delivery by the Note Trustee of an Enforcement Notice, rank against the Loan and all other obligations of the Purchaser in accordance with the Purchaser Post-Enforcement Priority of Payments.

Prior to the delivery by the Note Trustee of an Enforcement Notice, interest under the Issuer Subordinated Loan and the Purchaser Subordinated Loan will be payable by the Issuer and the Purchaser, respectively, monthly in arrear on each Payment Date, subject to and in accordance with the Issuer Pre-Enforcement Priority of Payments and the Purchaser Pre-Enforcement Priority of Payments, respectively.

The principal amount outstanding and unpaid on the Issuer Subordinated Loan will be repaid by the Issuer out of reductions in the amount of the Required Liquidity Reserve Amount in accordance with the Issuer Pre-Enforcement Priority of Payments. The principal amount outstanding and unpaid on the Purchaser Subordinated Loan will be repaid by the Purchaser in accordance with the relevant Purchaser Priority of Payments following redemption in full of the Notes together with any accrued but unpaid interest thereon.

Expenses Advance

The Expenses Advance Provider will make available to the Issuer on or prior to the Note Issuance Date an interest-bearing amortising Expenses Advance in the principal amount of Euro 1,200,000, which is not credit-linked to the Portfolio and which will, subject to certain conditions, be disbursed on the Note Issuance Date for the purpose of providing the Issuer with the funds necessary to pay certain amounts payable by it under the Transaction Documents (including, without limitation, the fees, costs and expenses payable on the Note Issuance Date to the Joint Lead Managers and to other parties in connection with the offer and sale of the Notes) and certain other costs.

The Expenses Advance will be repaid in 24 instalments on each Payment Date following the Note Issuance Date. The Expenses Advance will be subject to partial repayment, early repayment or optional repayment in specific circumstances and subject to certain conditions.

The obligations of the Issuer under the Expenses Advance are subordinated to the obligations of the Issuer under the Notes and, following the delivery by the Note Trustee of an Enforcement Notice, rank against the Notes and all other obligations of the Issuer in accordance with the Issuer Post-Enforcement Priority of Payments.

Prior to the delivery by the Note Trustee of an Enforcement Notice, interest under the Expenses Advance will be payable by the Issuer monthly in arrear on each Payment Date, subject to and in accordance with the Issuer Pre-Enforcement Priority of Payments.

See “*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Expenses Advance Facility Agreement*”.

- (A) The Notes will be in bearer form and each Class of the Notes will be initially issued in the form of a temporary global note (each a “**Temporary Global Note**”) which will be delivered on or prior to the Note Issuance Date in the case of the Class A Notes to a common safekeeper for Clearstream Banking, société anonyme (“**Clearstream, Luxembourg**”) and/or Euroclear Bank S.A./N.V. (“**Euroclear**”) and, together with Clearstream, Luxembourg, the “**Clearing Systems**”) to be held under the new safekeeping structure and which will be registered in the name of a nominee of the common safekeeper and in the case of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, with a common depository for the Clearing Systems. Whilst any Note is represented by a Temporary Global Note, payments of principal, interest and any other amount payable in respect of such Note due prior to the Exchange Date (as defined below) will be made only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.
- (B) On and after the date (the “**Exchange Date**”) which is 40 calendar days after a Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein for interests in a permanent global note of the same Class (each a “**Permanent Global Note**”) against certification of beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note is improperly withheld or refused.
- (C) Payments of principal, interest or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg without any requirement for certification.

1.2 Denomination

The Notes will be issued in the denomination of EUR 100,000.

1.3 Title

- (A) Subject as provided below, title to the Notes will pass upon delivery and the bearer of any Note shall (except as otherwise required by law) be treated as its absolute owner for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing thereon or

any notice of any previous loss or theft thereof) and no person shall be liable for so treating such holder.

- (B) For so long as any Notes are represented by a Temporary Global Note or a Permanent Global Note (each a “**Global Note**”) held on behalf of Euroclear and/or Clearstream, Luxembourg, as the case may be, each person (other than Euroclear or Clearstream, Luxembourg, as the case may be) who is for the time being shown in the records of the relevant Clearing System as the holder of a particular amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg, as the case may be, as to the amount of Notes standing to the account of any person shall be conclusive evidence for all purposes) shall be treated by the Issuer, the Note Trustee and the Agents as the holder of such amount of such Notes for all purposes, save with respect to the payment of principal or interest on the principal amount of such Notes (and the expressions “**holder**” and “**Noteholder**” and related expressions shall be construed accordingly).
- (C) Transfers of beneficial interests in Global Notes will be effected by Euroclear or Clearstream, Luxembourg, as the case may be, and, in turn, by other participants and, if appropriate, indirect participants in such Clearing Systems acting on behalf of beneficial transferors and transferees of such interests. Title will pass upon registration of the transfer in the books of Euroclear or Clearstream, Luxembourg, as the case may be.
- (D) Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each an “**Accountholder**”) must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other clearing system (as the case may be) for such Accountholder’s share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by a Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the bearer of such Global Note.
- (E) Notes and interests therein may not be transferred at any time, directly or indirectly, in the United States or to or for the benefit of a U.S. person, and any such transfer shall not be recognised.

1.4 **Definitive Notes**

Upon the occurrence of an Exchange Event (as defined below), each Global Note may be exchanged for duly executed and authenticated definitive Notes without charge.

An “**Exchange Event**” will occur if:

- (A) the Note Trustee has served an Enforcement Notice (as defined in Note Condition 12 (*Events of Default*));
- (B) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 calendar days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system satisfactory to the Note Trustee is available; or
- (C) a change in law has or would cause the Issuer to become subject to adverse tax consequences which would not be suffered were the Notes in definitive form.

The Issuer will promptly give notice to Noteholders if an Exchange Event occurs. In exchange for the surrender of a Global Note, the Issuer or such other person as the Issuer may direct (the “**Exchange Agent**”) will deliver, or procure the delivery of, in full (but not in partial) exchange for such Global Note, an aggregate principal amount of duly executed and authenticated definitive Notes (having attached to them coupons in respect of interest which has not already been paid on the Global Note) equal to the outstanding principal amount of the relevant Global Note, security printed in accordance with any applicable legal and stock exchange requirements and in, or substantially in, the form set out in the Note Trust Deed.

2.5 Limited recourse and non-petition

- (A) All payment obligations of the Issuer under the Notes constitute limited recourse obligations of the Issuer and therefore the Noteholders' claim under the Notes against the Issuer shall be limited to:
- (i) in respect of amounts payable prior to the Issuer Security becoming enforceable, the Issuer Pre-Enforcement Available Distribution Amount, but only to the extent of the balance of the Issuer Pre-Enforcement Available Distribution Amount remaining after paying amounts of a higher order of priority and providing for amounts payable *pari passu* therewith in accordance with, and subject to, the Issuer Pre-Enforcement Priority of Payments; and
 - (ii) in respect of amounts payable following the Issuer Security becoming enforceable, the Issuer Post-Enforcement Available Distribution Amount, but only to the extent of the balance of the Issuer Post-Enforcement Available Distribution Amount remaining after paying amounts of a higher order of priority and providing for amounts payable *pari passu* therewith in accordance with, and subject to, the Issuer Post-Enforcement Priority of Payments.

Upon and after the enforcement of the Issuer Security and realisation of all the Issuer Secured Assets, to the extent that the actual amounts received or recovered are less than the amounts due and payable to the Noteholders and the other Issuer Secured Parties, the Issuer's obligations in respect of the unpaid amount shall be automatically extinguished and Noteholders and the other Issuer Secured Parties shall have no further claim against the Issuer. The Notes shall not give rise to any payment obligation in excess of the foregoing and recourse shall be limited accordingly.

- (B) The Transaction Account Bank shall hold all monies paid to it in the Issuer Transaction Account, the Reserve Account and the Swap Collateral Account.
- (C) The Issuer shall exercise all of its rights and obligations under the Transaction Documents with due care such that obligations under the Notes may be performed to the fullest extent possible.
- (D) None of the Note Trustee, the Issuer Security Trustee or the Noteholders shall be entitled to institute against the Issuer any action or commence any proceedings against the Issuer to recover any amounts due and payable by the Issuer under the Transaction Documents except as permitted by the provisions in the Transaction Documents.
- (E) None of the Note Trustee, the Security Trustee or the Noteholders shall be entitled to take any action or commence any proceedings or petition a court for the liquidation of the Issuer, or enter into any arrangement, examinership, reorganisation or Insolvency Proceedings in relation to the Issuer, whether under

the laws of Ireland or other applicable bankruptcy laws, until two years and one day after the payment or extinguishment of all Issuer Secured Obligations.

- (F) No recourse under any covenant, undertaking, agreement or other obligation of the Issuer contained in these Note Conditions, the Issuer Security Trust Deed or in any other Transaction Document shall be made against any shareholder, officer, agent or director of the Issuer as such, by the enforcement of any assignment, by any proceeding, by virtue of any statute or otherwise. These Note Conditions, the Issuer Security Trust Deed and each of the other Transaction Documents is a corporate obligation of the Issuer and no liability shall attach to, or be incurred by, the shareholders, officers, agents or directors of the Issuer as such, or any of them, under or by reason of any of the covenants, undertakings, agreements and other obligations of the Issuer contained herein or therein, or implied herefrom or therefrom. Any and all personal liability for breach by the Issuer of any of such covenants, undertakings, agreements or other obligations, either at law or by statute or certification, of every such shareholder, officer, agent or director shall be waived.

The provisions of this Note Condition 2.5 shall survive redemption of the Notes.

2.6 Shortfall after application of proceeds

To the extent that such assets, or the proceeds of realisation thereof, after payment of all claims ranking in priority to any Class of Notes, prove ultimately insufficient to satisfy the claims of the relevant Class of Noteholders in full, then any shortfall arising therefrom shall be extinguished and neither any such Noteholder nor the Note Trustee or the Issuer Security Trustee shall have any further claims against the Issuer. Such assets and proceeds shall be deemed to be “**ultimately insufficient**” at such time as no further assets of the Issuer are available and no further proceeds can be realised therefrom to satisfy any outstanding claim of the relevant Class of Noteholders, and neither assets nor proceeds shall be so available thereafter.

The provisions of this Note Condition 2.6 shall survive redemption of the Notes.

2.7 Enforcement of the Issuer Security

- (A) The Notes are secured by the Issuer Security.
- (B) The Issuer Security will become enforceable upon delivery by the Note Trustee of an Enforcement Notice in accordance with Note Condition 12 (*Events of Default*).
- (C) If the Issuer Security has become enforceable, subject to the Issuer Security Trustee being indemnified and/or secured and/or pre-funded to its satisfaction, the Issuer Security Trustee shall take such action as it is instructed to take by the Note Trustee in order to enforce its rights under the Issuer Security Documents.
- (D) Only the Issuer Security Trustee (acting on the instructions of the Note Trustee) may pursue the remedies available under the Issuer Security Documents to

enforce the rights of the Noteholders in respect of the security over the Issuer Secured Assets and no Noteholder is entitled to proceed against the Issuer unless (i) the Note Trustee, having become bound to do so, fails to take action against the Issuer, or fails to instruct the Issuer Security Trustee to enforce any of the Issuer Security or the Issuer Security Trustee fails to enforce any of the Issuer Security as so instructed, in each case within a reasonable time and such failure is continuing or (ii) (as determined by a court of competent jurisdiction in a decision not subject to appeal) Finnish law requires that the Noteholders exercise their rights individually and not through the Note Trustee.

- (E) Upon the Issuer Security Trustee having realised the Issuer Security and the Note Trustee having distributed the net proceeds in accordance with this Note Condition 2, neither the Issuer Security Trustee, the Note Trustee nor any Noteholder may take any further steps against the Issuer to recover any sums still unpaid and any such liability shall be extinguished.

2.8 Obligations of the Issuer only

The Notes represent obligations of the Issuer only and do not represent an interest in or obligation of the Issuer Security Trustee, the Note Trustee, any other party to the Transaction Documents or any other third party.

3. GENERAL COVENANTS OF THE ISSUER

As long as any Notes are Outstanding, the Issuer shall not be entitled, without the prior consent of the Note Trustee, to engage in or undertake any of the activities or transactions specified in Clause 6 (*Negative pledge, disposals and security interest*) and Clause 7 (*Other covenants of general application*) of the Issuer Security Trust Deed, and in particular the Issuer agrees not to:

- (A) *Negative pledge*

at any time prior to the Discharge Date, create or permit to subsist any Security Interest over any Issuer Secured Asset other than pursuant to and in accordance with the Transaction Documents;

(D) *Subsidiaries*

have any subsidiaries or any employees or premises;

(E) *Borrowings*

incur any indebtedness in respect of borrowed money whatsoever or give any guarantee in respect of indebtedness or of any obligation of any person, save as provided in the Transaction Documents;

(F) *Merger*

consolidate or merge with any other person or convey or transfer all or substantially all of its properties or assets to any other person; or

(G) *Other*

amend, terminate, discharge or exercise any powers of consent or waiver pursuant to the terms of any of the Transaction Documents to which it is a party, or permit any party to any of the Transaction Documents to which it is a party to be released from its obligations thereunder.

In giving any consent to the foregoing, the Note Trustee may require the Issuer to make such modifications or additions to the provisions of any of the Transaction Documents or may impose such other conditions or requirements as the Note Trustee may determine.

The Note Trustee shall not be responsible for monitoring, nor liable for any failure to monitor, compliance by the Issuer with the above covenants and will be entitled to rely upon certificates signed on behalf of the Issuer as to compliance.

4. **INTEREST**

4.1 **Interest calculation**

Subject to the limitations set forth in Note Condition 2.5 (*Limited recourse and non-petition*) and, in particular, subject to the Issuer Pre-Enforcement Priority of Payments and, following the delivery by the Note Trustee of an Enforcement Notice, the Issuer Post-Enforcement Priority of Payments, each Note shall bear interest on its Note Principal Amount from (and including) the Note Issuance Date until (but excluding) the day on which such Note has been redeemed in full.

4.2 **Payment Dates**

Subject to Note Condition 4.7 (*Interest deferral*), interest shall become due and payable monthly in arrear on the 25th day of each calendar month, commencing on 25 December 2016, or, if any such day is not a Business Day, on the next succeeding Business Day (each such day, a "**Payment Date**").

4.3 Interest Amount

The amount of interest payable by the Issuer in respect of each Class of Notes on any Payment Date (the “**Interest Amount**”) shall be calculated by applying the relevant Interest Rate (as defined in Note Condition 4.5 (*Interest Rate*)) to the aggregate Note Principal Amount Outstanding of such Class immediately prior to the relevant Payment Date and (in the case of the Class A Notes) multiplying the resultant figure by the actual number of calendar days in the relevant Interest Period divided by 360 and (in the case of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes) dividing the resultant figure by 12 or (in relation to the Interest Amount which is payable on the first Payment Date following the Note Issuance Date or any subsequent Interest Amount which falls to be paid in relation to a period which is longer or shorter than an Interest Period) multiplying the resultant figure by the actual number of calendar days in the relevant Interest Period divided by 360, and, in each case, rounding the result for such Class of Notes to the nearest Euro 1.0 (with Euro 0.5 being rounded upwards).

“**Class A Notes Interest**” shall mean the aggregate Interest Amount payable (including any Interest Shortfall) in respect of all Class A Notes on any date, “**Class B Notes Interest**” shall mean the aggregate Interest Amount payable (including any Interest Shortfall) in respect of all Class B Notes on any date, “**Class C Notes Interest**” shall mean the aggregate Interest Amount payable (including any Interest Shortfall) in respect of all Class C Notes on any date, “**Class D Notes Interest**” shall mean the aggregate Interest Amount payable (including any Interest Shortfall) in respect of all Class D Notes on any date, “**Class E Notes Interest**” shall mean the aggregate Interest Amount payable (including any Interest Shortfall) in respect of all Class E Notes on any date and “**Class F Notes Interest**” shall mean the aggregate Interest Amount payable (including any Interest Shortfall) in respect of all Class F Notes on any date.

4.4 Interest Period

“**Interest Period**” shall mean, in respect of the first Payment Date, the period commencing on (and including) the Note Issuance Date and ending on (but excluding) the first Payment Date and, in respect of any subsequent Payment Date, the period commencing on (and including) a Payment Date and ending on (but excluding) the immediately following Payment Date.

4.5 Interest Rate

The interest rate payable on any Note (each, an “**Interest Rate**”) shall be:

- (A) in the case of the Class A Notes, EURIBOR plus 0.50% per annum (subject to a floor of zero);
- (B) in the case of the Class B Notes, 0.167% per annum;
- (C) in the case of the Class C Notes, 1.60% per annum;
- (D) in the case of the Class D Notes, 2.40% per annum;

(E) in the case of the Class E Notes, 3.30% per annum; and

(F) in the case of the Class F Notes, 9.00% per annum.

This Note Condition 4.5 shall be without prejudice to the application of any higher interest under applicable mandatory law.

4.6 Notifications

The Calculation Agent shall, as soon as practicable on or after each Interest Determination Date, determine the Interest Period, any Interest Shortfall, the Interest Rate, the Interest Amount and Payment Date with respect to each Note and shall notify the Principal Paying Agent. The Principal Paying Agent shall notify such information (i) to the Issuer, the Note Trustee, the Cash Administrator, the Swap Counterparty and the Corporate Administrator and (ii) on behalf of the Issuer, by means of notification in accordance with Note Condition 16 (*Notices to Noteholders*), to the Noteholders and, as long as any Notes are listed on the Official List and traded on the regulated market of the Irish Stock Exchange, to the Irish Stock Exchange. In the event that such notification is required to be given to the Irish Stock Exchange, this notification shall be given no later than the close of the first Business Day following each relevant Interest Determination Date.

4.7 Interest deferral

Accrued interest not distributed on any Payment Date related to the Interest Period in which it is accrued will be an “**Interest Shortfall**” with respect to the relevant Note. An Interest Shortfall in respect of the Class B Notes (for so long as any of the Class A Notes are Outstanding), the Class C Notes (for so long as any of the Class A Notes or the Class B Notes are Outstanding), the Class D Notes (for so long as any of the Class A Notes, the Class B Notes or the Class C Notes are Outstanding), the Class E Notes (for so long as any of the Class A Notes, the Class B Notes, the Class C Notes or the Class D Notes are Outstanding) and the Class F Notes (for so long as any of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes are Outstanding) shall be deferred and shall become due and payable on the next Payment Date and on any following Payment Date (subject to Note Condition 2.5 (*Limited recourse and non-petition*)) until it is reduced to zero. Interest shall accrue on all Interest Shortfalls at the Interest Rate applicable to the Class of Notes in respect of which the Interest Shortfall arises.

5. REDEMPTION

5.1 Amortisation

Subject to the limitations set forth in Note Condition 2.5 (*Limited recourse and non-petition*), on each Payment Date prior to the delivery by the Note Trustee of an Enforcement Notice, the Notes will be subject to redemption in accordance with the Issuer Pre-Enforcement Priority of Payments sequentially in the following order:

- (A) *first*, the Class A Notes, up to the amount of the excess, if any, of the Class A Principal Amount over the Class A Target Principal Amount as of the Cut-Off Date immediately preceding that Payment Date;

redeemed or purchased and cancelled, be redeemed in full at its Note Principal Amount,

subject (in each case) to the availability of funds pursuant to the Issuer Pre-Enforcement Priority of Payments. In the event of insufficient funds pursuant to the Issuer Pre-Enforcement Priority of Payments, any Outstanding Note shall be redeemed on the next Payment Date and on any following Payment Date in accordance with and subject to the limitations set forth in Note Condition 2.5 (*Limited recourse and non-petition*) until each Note has been redeemed in full.

5.3 Early redemption

- (A) On any Payment Date on which the Aggregate Outstanding Asset Principal Amount has been reduced to less than ten per cent. of the Aggregate Outstanding Asset Principal Amount as of the Note Issuance Date, the Seller shall have the option under the Auto Portfolio Purchase Agreement to repurchase all outstanding Purchased HP Contracts held by the Purchaser (and the proceeds from such repurchase shall constitute Collections), subject to the following requirements:
 - (i) the Issuer having certified, prior to giving the notice referred to in Note Condition 5.3(A)(ii), to the Note Trustee in a certificate signed by two directors of the Issuer that the proceeds distributable as a result of such repurchase on the Early Redemption Date (as defined below) will be sufficient to redeem all of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes in full at their respective Note Principal Amounts plus pay accrued but unpaid interest thereon together with all amounts ranking prior thereto according to the Issuer Pre-Enforcement Priority of Payments;
 - (ii) the Seller having advised the Issuer and the Purchaser and the Issuer giving notice to the Note Trustee and the Noteholders in accordance with Note Condition 16 (*Notices to Noteholders*) and the Swap Counterparty of its intention to exercise the repurchase option at least 30 calendar days prior to the contemplated redemption date, which shall be a Payment Date (the “**Early Redemption Date**”); and
 - (iii) the repurchase price to be paid by the Seller being equal to the sum of (A) the then current Aggregate Outstanding Asset Principal Amount, plus (B) any Deemed Collections owed by the Seller and other Collections received by the Seller, as Servicer, and not otherwise paid to the Purchaser and (C) any interest on the Purchased HP Contracts accrued until and outstanding on the Early Redemption Date.
- (B) In the event that all of the conditions set out in Note Condition 5.3(A) are met, the Issuer may, at its option, apply the proceeds in order to redeem all (but not some only) of the Notes:

- (i) in the case of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, at their then outstanding Note Principal Amounts together with accrued but unpaid interest thereon up to the Early Redemption Date; and
 - (ii) in the case of the Class F Notes, at an amount equal to the lesser of (x) their then outstanding Note Principal Amounts together with accrued but unpaid interest thereon up to the Early Redemption Date and (y) the amount of funds available to the Issuer to fund such redemption after making all prior ranking payments pursuant to the applicable Issuer Priority of Payments.
- (C) Early redemption of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes pursuant to this Note Condition 5.3 shall not be permitted if the sum of the repurchase price determined pursuant to Note Condition 5.3(A)(iii) is not sufficient (together with any other monies included in the Issuer Pre-Enforcement Available Distribution Amount) to fully satisfy the obligations of the Issuer specified in Note Condition 5.3(A)(i).
- (D) Upon payment in full to the Noteholders of the redemption amounts specified in Note Condition 5.3(B), the Noteholders shall not receive any further payments of interest on or principal of the Notes.

5.4 Optional redemption for taxation reasons

If the Issuer or the Purchaser is or becomes at any time required by law to deduct or withhold, in respect of any payment under the Notes or the Loan, respectively, current or future taxes, levies or governmental charges, regardless of their nature, which are imposed under any applicable system of law or in any country which claims fiscal jurisdiction by, or for the account of, any political subdivision thereof or government agency therein authorised to levy taxes, the Issuer or the Purchaser, as applicable, shall immediately inform the Note Trustee and the Swap Counterparty accordingly and shall determine, within 20 calendar days of such circumstance occurring, whether it would be practicable (a) with the prior written consent of the Note Trustee, to arrange for the substitution of the Issuer in accordance with Note Condition 11 (*Substitution of the Issuer*) or of the Purchaser, as applicable, or (b) for it to change its tax residence to another jurisdiction approved by the Note Trustee. The Note Trustee shall notify the Issuer or the Purchaser (as applicable) within 15 calendar days of being so informed whether it approves any such proposed change of tax residence and shall not give approval to a proposed change of tax residence unless (i) it has received a legal opinion (in form and substance satisfactory to the Note Trustee) from a firm of lawyers of international repute (approved in writing by the Note Trustee) opining that the Issuer or the Purchaser is or will become required to make such deduction or withholding; and (ii) it has received a certificate from directors of the Issuer or the Purchaser (as applicable) stating that the obligation to make such a deduction or withholding of tax or the suffering by the Issuer or the Purchaser (as applicable) of such deduction or withholding of tax cannot be avoided or, as the case may be, will apply on the next Payment Date and cannot be avoided by the Issuer or the Purchaser (as applicable) taking reasonable endeavours. If the Issuer or the Purchaser (as applicable) determines that any of such measures would be

practicable, it shall (i) provide the Note Trustee with legal opinions in respect of such substitution in form and substance satisfactory to it; and (ii) effect such substitution or (as relevant) such change of tax residence in accordance with Note Condition 11 (*Substitution of the Issuer*) or (as relevant) such change of tax residence within 60 calendar days from such determination. If, however, the Issuer or the Purchaser (as applicable) determines within 20 calendar days of such circumstance occurring that none of such measures would be practicable or if, having determined that any of such measures would be practicable (and having certified to the Note Trustee such determination), it is unable so to avoid such deduction or withholding within such further period of 60 calendar days, then the Issuer shall be entitled at its option (but shall have no obligation) to fully redeem all (but not some only) of the Notes, upon not more than 60 calendar days' or less than 30 calendar days' notice of redemption given to the Purchaser, the Note Trustee, the Principal Paying Agent and, in accordance with Note Condition 16 (*Notices to Noteholders*), the Noteholders, at their then aggregate Outstanding Note Principal Amounts, together with accrued but unpaid interest (if any) to the date fixed for redemption. Any such notice shall be irrevocable, must specify the date fixed for redemption and must set forth a statement in summary form of the facts constituting the basis for the right of the Issuer so to redeem.

6. NOTIFICATIONS

The Principal Paying Agent shall notify the Issuer, the Note Trustee, the Swap Counterparty, the Corporate Administrator, the Cash Administrator and, on behalf of the Issuer, by means of notification in accordance with Note Condition 16 (*Notices to Noteholders*), the Noteholders and, for so long as any of the Notes are listed on the Official List and traded on the regulated market of the Irish Stock Exchange, the Irish Stock Exchange:

- (A) with respect to each Payment Date and each Class A Note, each Class B Note, each Class C Note, each Class D Note, each Class E Note and each Class F Note, of the Interest Amount determined pursuant to Note Condition 4.1 (*Interest calculation*);
- (B) with respect to each Payment Date and each Class A Note, each Class B Note, each Class C Note, each Class D Note, each Class E Note and each Class F Note, of the amount of any Interest Shortfall determined pursuant to Note Condition 4.7 (*Interest deferral*), if any;
- (C) with respect to each Payment Date, of the amount of principal on each Class A Note, each Class B Note, each Class C Note, each Class D Note, each Class E Note and each Class F Note, pursuant to Note Condition 5 (*Redemption*) to be paid on such Payment Date and, if applicable, that such Payment Date constitutes a Servicer Termination Date;
- (D) with respect to each Payment Date, of the Note Principal Amount of each Class A Note, each Class B Note, each C Class Note, each Class D Note, each Class E Note and each Class F Note and the Class A Principal Amount, the Class B Principal Amount, the Class C Principal Amount, the Class D Principal Amount,

the Class E Principal Amount and the Class F Principal Amount as from such Payment Date; and

- (E) in the event the payments to be made on a Payment Date constitute the final payment with respect to Notes pursuant to Note Condition 5.2 (*Maturity Date*), Note Condition 5.3 (*Early redemption*) or Note Condition 5.4 (*Optional redemption for taxation reasons*), of the fact that such is the final payment.

In each case, such notification shall be given by the Principal Paying Agent no later than the close of the first Business Day following the Interest Determination Date preceding the relevant Payment Date.

7. AGENTS

7.1 Appointment of Agents

The Issuer has appointed the Agents pursuant to the Agency Agreement.

7.2 Replacement of the Agents

The Issuer shall procure that, for as long as any Notes are Outstanding, there shall always be a Principal Paying Agent, a Calculation Agent and a Cash Administrator to perform the functions assigned to each of them in these Note Conditions. The Issuer may at any time, by giving not less than 30 calendar days' notice in accordance with Note Condition 16 (*Notices to Noteholders*), replace any of the Agents with one or more other banks or other financial institutions which assume such functions in accordance with the Agency Agreement.

7.3 Calculations binding

All Interest Amounts determined and other calculations and determinations made by the Principal Paying Agent and the Calculation Agent for the purposes of these Note Conditions shall, in the absence of manifest error, be final and binding.

7.4 Relationship of the Agents

In acting under the Agency Agreement and in connection with the Notes, the Agents act solely as agents of the Issuer and (to the extent provided therein) the Note Trustee and do not assume any obligations towards or relationship of agency or trust for or with any of the Noteholders.

7.5 Variation of appointment

The Issuer reserves the right (with the prior written approval of the Note Trustee) to vary or terminate the appointment of any Agent and to appoint a successor calculation agent, principal paying agent or cash administrator, at any time, having given not less than 30 calendar days' prior notice to such Agent.

7.6 Specified Offices

The initial Agents and their initial Specified Offices are listed in the Note Trust Deed and the Prospectus.

8. PAYMENTS IN RESPECT OF THE NOTES

8.1 Payments and discharge

For so long as the Notes are in the form of Global Notes:

- (A) payments of principal and interest in respect of the Notes shall be made by the Issuer, through the Principal Paying Agent, on each Payment Date to, or to the order of the holder of the relevant Global Note for subsequent transfer to the Noteholders; and
- (B) all payments made by the Issuer through the Principal Paying Agent to, or to the order of the holder of the relevant Global Note, shall discharge the liability of the Issuer under the relevant Notes to the extent of the sums so paid to the Principal Paying Agent. Any failure to make any required entries in the records of the Clearing Systems in respect of the Notes shall not affect the discharge referred to in the preceding sentence.

Payments of principal in respect of definitive Notes (if issued) will be made against presentation of the relevant Note (except where, after such payment, the unpaid principal amount of a definitive Note would be reduced to zero, in which case that payment of principal will be made against presentation and surrender of such Note and all unmatured coupons) at the specified office of any Principal Paying Agent. Payments of interest in respect of definitive Notes (if issued) will be made only against presentation and surrender of the relevant coupons at the specified office of any Principal Paying Agent. No Principal Paying Agent shall make payments on definitive Notes from within the United States or its possessions.

8.2 Subject to law

All payments in respect of the Notes are subject in each case to:

- (A) any applicable fiscal or other laws and regulations;
- (B) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the “**Code**”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto; and
- (C) any withholding or deduction required to be made pursuant to any law implementing or complying with, or introduced in order to conform to, European Council Directive 2014/107/EU, or any agreement between the European Union and any non-EU jurisdiction providing for equivalent measures.

No commissions or expenses shall be charged to the Noteholders in respect of such payments.

8.3 Payment on a non-Business Day

Notwithstanding any other term of these Note Conditions or the Transaction Documents, if any date for payment in respect of a Note falls on a day which is not a business day in the place of payment, payment shall not be made on such day but on the next succeeding business day in such place and no further interest or other payment in respect of any such delay shall be due in respect of such Note.

8.4 Partial payment

If the Principal Paying Agent makes a partial payment in respect of any Note, the partial payment will, for so long as such Note is in the form of Global Note, be effected in accordance with the rules and procedures of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion).

9. PRESCRIPTION

Claims for principal and interest in respect of the Notes shall become void unless presented for payment within a period of 10 years from the Relevant Date in respect of payment of principal and five years in respect of payment of interest. After the date on which a Note becomes void in its entirety, no claim may be made in respect thereof. In this Note Condition 9, the “**Relevant Date**” in respect of a Note is the date on which a payment in respect thereof first becomes due or (if the full amount of the monies payable in respect of all the Notes due on or before that date has not been duly received by the Principal Paying Agent or the Note Trustee on or prior to such date) the date on which, the full amount of such monies having been so received, notice to that effect is duly given to the Noteholders in accordance with Note Condition 16 (*Notices to Noteholders*).

10. TAXES

Payments in respect of the Notes shall only be made by the Issuer after the deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (collectively, “**taxes**”) under any applicable system of law or in any country which claims fiscal jurisdiction by, or for the account of, any political subdivision thereof or government agency therein authorised to levy taxes, to the extent that such deduction or withholding is required by law. The Issuer shall account for the deducted or withheld taxes with the competent government agencies and shall, upon request of a Noteholder, provide proof thereof. The Issuer is not obliged to pay any additional amounts as compensation for taxes.

11. SUBSTITUTION OF THE ISSUER

11.1 Substitution of the Issuer

If, in the determination of the Issuer, as a result of any enactment of or supplement or amendment to, or change in, the laws of any relevant jurisdiction or as a result of an official communication of previously not existing or not publicly available official interpretation, or a change in the official interpretation, implementation or application of such laws, that becomes effective on or after the Note Issuance Date any of the Issuer, the Seller, the Swap Counterparty or the Servicer would, for reasons beyond its control, and after taking reasonable measures (such measures not involving any material additional payment or other expenses):

- (A) be materially restricted from performing any of its obligations under the Notes or the Transaction Documents to which it is a party;
- (B) be required to make any tax withholding or deduction in respect of any payments on the Notes and/or the Transaction Documents to which it is a party; or
- (C) would not be entitled to relief for tax purposes for any amount which it is obliged to pay, or would be treated as receiving for tax purposes an amount which it is not entitled to receive, in each case under the Notes or the Transaction Documents,

then, without prejudice to Note Condition 5.4 (*Optional redemption for taxation reasons*), the Issuer shall immediately inform the Note Trustee accordingly and shall, in order to avoid the relevant event described in paragraph (A) or, if it determines it would be practicable, as provided in Note Condition 5.4 (*Optional redemption for taxation reasons*), to avoid the relevant event described in paragraphs (B) and (C), arrange the substitution of the Issuer with a company incorporated in another jurisdiction in accordance with the terms of the Note Trust Deed.

11.2 New Issuer

The Note Trustee may, without the consent of the Noteholders or any other Secured Creditor, subject to the conditions specified in the Note Trust Deed, concur with the Issuer as to the substitution of a new issuer in place of the Issuer as the principal debtor in respect of the Transaction Documents, the Notes and the other Issuer Secured Obligations.

11.3 Notice of substitution of Issuer

Not later than 14 calendar days after the execution of any documents required to be executed pursuant to Clause 10 (*Substitution*) of the Note Trust Deed and after compliance with any requirements under this Note Condition 11 and/or Clause 10 (*Substitution*) of the Note Trust Deed, the new issuer shall cause notice thereof to be given to the Noteholders and the other Issuer Secured Parties in accordance with Note Condition 16 (*Notices to Noteholders*) and the relevant Transaction Documents.

11.4 Change of law

In connection with any proposed substitution of the Issuer or any previous substitute, the Note Trustee may, in its absolute discretion and without the consent of the Noteholders or the other Issuer Secured Parties, agree to a change of the law from time to time governing the Notes and/or the Note Trust Deed and/or the Issuer Security Trust Deed provided that such change of law, in the opinion of the Note Trustee, would not be materially prejudicial to the interests of the holders of the Senior Class of Notes then Outstanding.

11.5 No indemnity

No Noteholder shall, in connection with any such substitution, be entitled to claim from the Issuer any indemnification or payment in respect of any tax consequence of any such substitution upon such individual Noteholder.

12. EVENTS OF DEFAULT

If an Issuer Event of Default occurs and is continuing, then the Note Trustee at its discretion may and, if so requested in writing by holders of at least 50 per cent. of the aggregate principal amount of the Senior Class of Notes Outstanding or if so directed by an Extraordinary Resolution of the holders of the Senior Class of Notes Outstanding, shall, in all cases subject to the Note Trustee having been indemnified and/or prefunded and/or provided with security to its satisfaction, give written notice (an “**Enforcement Notice**”) to the Issuer, copied to the Noteholders, the Issuer Security Trustee, the Agents, each other Issuer Secured Party and the Purchaser, declaring the Notes to be immediately due and payable, whereupon they shall become immediately due and payable at their principal amount together with accrued interest without further action or formality.

13. PROCEEDINGS

The Note Trustee may, at its discretion and without notice, institute such proceedings against the Issuer as it may think fit to recover any amounts due in respect of the Notes which are unpaid or to enforce any of its rights under the Note Trust Deed, the Note Conditions or the other Transaction Documents, but it shall not be bound to take any such proceedings (including directing the Issuer Security Trustee or the Purchaser Security Trustee) or to take any other action under the Note Trust Deed, the Notes or the other Transaction Documents, unless:

- (A) it shall have been so directed by an Extraordinary Resolution or so requested in writing by the holders of at least 50 per cent. of the aggregate principal amount of the Senior Class of Notes Outstanding; and
- (B) it shall have been indemnified and/or secured and/or prefunded to its satisfaction against all Losses to which it may therefore become liable and all costs, charges and expenses which may be incurred by it in connection therewith,

provided that the Note Trustee shall not be held liable for the consequence of taking any such action and may take such action without having regard to the effect of such action on individual Noteholders or any other Issuer Secured Party, provided that the Note Trustee shall not, and shall not be bound to, act at the request or direction of the holders of any Class of Notes other than the Senior Class.

14. MEETINGS OF NOTEHOLDERS; MODIFICATION

14.1 Noteholder Meetings

The Note Trust Deed contains provisions for convening joint meetings of all Noteholders or separate meetings of Noteholders on the basis of a Class or Classes of Notes to consider matters relating to the Notes, including the modification of any provision of these Note Conditions, the Note Trust Deed or the other Transaction Documents. Any such modification may be made if sanctioned by an Extraordinary Resolution. A Meeting may be convened by the Issuer or by the Note Trustee and shall be convened by the Note Trustee, (in each case subject to its being indemnified and/or prefunded and/or secured to its satisfaction), upon the request in writing of a Class or Classes of Noteholders holding not less than one-tenth of the aggregate Note Principal Amount of the Outstanding Notes of the relevant Class or Classes. The quorum at any Meeting of a particular Class or Classes of Notes convened to vote on an Extraordinary Resolution, other than relating to a Reserved Matter, will be two or more Voters (as defined in the Note Trust Deed) holding or representing more than half of the aggregate Note Principal Amount of the Outstanding Notes of the relevant Class or Classes or, at any adjourned Meeting, two or more Voters being or representing Noteholders of the relevant Class or Classes whatever the aggregate Note Principal Amount of the Notes then Outstanding so held or represented in such Class or Classes; provided, however, that certain proposals (including any proposal to change any date fixed for payment of principal or interest in respect of the Notes, to alter the amount of principal or interest payable on any date in respect of the Notes of any Class, to alter the method of calculating the amount of any payment in respect of the Notes of any Class, to change the currency of payments under the Notes, to change the quorum requirements relating to Meetings or to change the majority required to pass an Extraordinary Resolution (each, a “**Reserved Matter**”)) may only be sanctioned by an Extraordinary Resolution passed at a Meeting of Noteholders at which two or more Voters holding or representing in the aggregate not less than three-quarters or, at any adjourned Meeting, one quarter of the aggregate Note Principal Amount of the Outstanding Notes of the relevant Class or Classes form a quorum.

No Extraordinary Resolution involving a Reserved Matter that is passed by the holders of one Class of Notes shall be effective unless it is sanctioned by an Extraordinary Resolution of the holders of each of the other Classes of Notes then Outstanding.

No Extraordinary Resolution to approve any matter other than a Reserved Matter of any Class of Notes shall be effective unless it is sanctioned by an Extraordinary Resolution of the holders of the Senior Class of Notes Outstanding and any other Class of Notes then Outstanding which ranks senior to such Class (to the extent that there are Outstanding Notes ranking senior to such Class) unless the Note Trustee considers that none of the holders of the Senior Class of Notes would be materially prejudiced by the absence of such sanction. For the purposes of this Note Condition 14.1, (i) Class A Notes rank senior

to Class B Notes, Class C Notes, Class D Notes, Class E Notes and Class F Notes, (ii) Class B Notes rank senior to Class C Notes, Class D Notes, Class E Notes and Class F Notes, (iii) Class C Notes rank senior to Class D Notes, Class E Notes and Class F Notes, (iv) Class D Notes rank senior to Class E Notes and Class F Notes and (v) Class E Notes rank senior to Class F Notes.

Subject to the above:

- (A) any resolution passed at a Meeting of any Class or Classes of Noteholders, duly convened and held in accordance with the Note Trust Deed, shall be binding upon all Noteholders of such Class or Classes, whether or not present at such Meeting and whether or not voting; and
- (B) any resolution (other than a resolution in respect of a Reserved Matter) passed at a Meeting of the holders of the Senior Class of Notes Outstanding, duly convened and held as aforesaid, shall also be binding upon all the other Noteholders,

and all Classes of Noteholders shall be bound to give effect to any such resolution accordingly and the passing of any such resolution shall be conclusive evidence that the circumstances justify the passing thereof.

In addition, a resolution in writing signed by or on behalf of Noteholders holding not less than 75 per cent. of the aggregate Note Principal Amount of the Outstanding Notes of the relevant Class or Classes will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

The quorum at any Meeting of the Noteholders of any Class or Classes of Notes for all business other than voting on an Extraordinary Resolution shall be two or more Voters holding or representing in the aggregate not less than 10 per cent. of the aggregate Note Principal Amount of the Outstanding Notes of the relevant Class or Classes or, at any adjourned Meeting, two or more Voters being or representing the Noteholders of the relevant Class or Classes, whatever the aggregate Note Principal Amount of the Notes of the relevant Class or Classes then Outstanding so held or represented.

14.2 Modification and waiver

The Note Trustee may or, as set out in Note Condition 14.3 (*Additional modification and waiver*) and subject to the provisions therein, shall, without the consent or sanction of the Noteholders of any Class of Notes or any of the other Issuer Secured Parties, concur with the Issuer or any other relevant parties in making:

- (A) any modification (other than in respect of a Reserved Matter) of these Note Conditions, the Notes, the Note Trust Deed or the other Transaction Documents which, in the sole opinion of the Note Trustee, will not be materially prejudicial to the interests of the holders of the Senior Class of Notes Outstanding or,

OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS

Auto Portfolio Purchase Agreement

On the Note Issuance Date, the Purchaser will have purchased the Portfolio from the Seller in accordance with the Auto Portfolio Purchase Agreement.

To be eligible for sale to the Purchaser under the Auto Portfolio Purchase Agreement, the Portfolio and any part thereof will have to meet the eligibility criteria set out in “*ELIGIBILITY CRITERIA*” herein. Pursuant to the Auto Portfolio Purchase Agreement, the Seller represents and warrants that, as at the Purchase Cut-Off Date, each Purchased HP Contract meets such eligibility criteria.

Upon payment of the Aggregate Purchase Price for the Portfolio, the Purchaser will acquire or purport to acquire unrestricted title to any and all the Purchased HP Contracts (including legal title to the Financed Vehicles) as from the Purchase Cut-Off Date (other than any Instalments which have become due prior to or on such Purchase Cut-Off Date) in accordance with the Auto Portfolio Purchase Agreement. As a result, the Purchaser will have obtained the full economic ownership in the Portfolio, including principal and interest, and is free to transfer or otherwise dispose of the Portfolio, subject only to the contractual restrictions applying to the Purchased HP Contracts and all applicable laws.

The sale and assignment of the HP Contracts pursuant to the Auto Portfolio Purchase Agreement constitutes a sale without recourse. This means that the Seller will not bear the risk of the inability or unwillingness of any Debtors to pay the relevant Purchased HP Contracts.

Deemed Collections

If certain events (see the definition of Deemed Collections in “*CERTAIN DEFINITIONS—Deemed Collection*”) occur with respect to a Purchased HP Contract, the Seller has undertaken to pay to the Purchaser as a Deemed Collection the Outstanding Principal Amount (or the affected portion thereof) of such Purchased HP Contract (plus accrued and unpaid interest). In accordance with the terms of the Auto Portfolio Purchase Agreement, in certain circumstances the receipt by the Purchaser (or its order) of a Deemed Collection will result in the relevant Purchased HP Contract being automatically re-assigned to the Seller on the day of the payment of the Deemed Collection on a non-recourse or guarantee basis on the part of the Purchaser. The costs of such assignment will be borne solely by the Seller.

As between the Seller and the Purchaser, the risk that the amount owed by a Debtor on a Purchased HP Contract is reduced due to set-off, counterclaim, discount or other credit in favour of such Debtor has been retained by the Seller. To this end, the Seller will be deemed to receive an amount equal to the amount of such reduction, which will constitute a Deemed Collection and be payable by the Seller to the Purchaser (or its order).

When the Seller is deemed to receive any Deemed Collections during any Collection Period, it will pay the amount of those Deemed Collections to the Issuer Collections Account on or before the Cut-Off Date for such Collection Period.

Optional redemption calls

If the Aggregate Outstanding Asset Principal Amount is less than 10 per cent. of the Aggregate Outstanding Asset Principal Amount as of the Note Issuance Date, the Seller may, subject to certain requirements, demand from the Purchaser the resale and retransfer of all (but not part) of the outstanding Portfolio held by the Purchaser.

Such resale and retransfer would occur on a Payment Date specified by the Seller as the repurchase date, be at the cost of the Seller and coincide with the early redemption of the Notes. See Note Condition 5.3(A) (*Early redemption*).

Such resale and retransfer would be for a repurchase price in an amount equal to the sum of (A) the then current Aggregate Outstanding Asset Principal Amount, (B) any Deemed Collections owed by the Seller and other Collections received by the Seller, as Servicer, and not otherwise paid to the Issuer Collections Account and (C) any interest on the Purchased HP Contracts accrued until, and outstanding on, the Early Redemption Date and without any recourse against, or warranty or guarantee of, the Purchaser. The repurchase and early redemption of the Notes will be excluded if the repurchase price determined by the Seller is not sufficient to fully satisfy the obligations of the Issuer under the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, together with all amounts ranking in priority thereto according to the Issuer Pre-Enforcement Priority of Payments. The Purchaser will retransfer the Purchased HP Contracts at the cost of the Seller to the Seller upon receipt of the full repurchase price and all other payments owed by the Seller or the Servicer under the Auto Portfolio Purchase Agreement or the Servicing Agreement. The Seller and the Purchaser acknowledge that the terms agreed for such repurchase represent arm's length commercial terms for transactions of this type.

Subordinated Loans

Pursuant to the Auto Portfolio Purchase Agreement, a credit facility is made available to the Issuer and the Purchaser by the Seller as Subordinated Loan Provider. Pursuant to the terms of the Auto Portfolio Purchase Agreement, on or before the Purchase Date, the Issuer will make a drawing thereunder, the proceeds of which will be credited to the Reserve Account, and the Purchaser will make a drawing thereunder, the proceeds of which will be credited to the Servicer Advance Reserve Ledger. As of the Note Issuance Date, the outstanding amount of the Issuer Subordinated Loan is expected to amount to EUR 5,707,000. As of the Note Issuance Date, the outstanding amount of the Purchaser Subordinated Loan is expected to amount to EUR 100,000.

After the Note Issuance Date, the Subordinated Loan Provider shall not be required to make further advances to the Purchaser or the Issuer (other than the advance of Euro 274.91 to be made to the Purchaser on or prior to the first Payment Date).

Each of the Issuer and the Purchaser will pay interest on the Issuer Subordinated Loan and the Purchaser Subordinated Loan, respectively, at a rate equal to an agreed margin, to the extent funds are available for such payment in accordance with the applicable Issuer Priority of Payments and Purchaser Priority of Payments. To the extent any accrued interest is not paid on any Payment Date, that unpaid amount will be added to the principal amount of the Issuer Subordinated Loan and/or the Purchaser Subordinated Loan.

Pursuant to the Auto Portfolio Purchase Agreement: (a) the Issuer is under no obligation to pay any amounts under the Issuer Subordinated Loan unless the Issuer has received funds which may be used to make such payment in accordance with the Issuer Pre-Enforcement Priority of Payments or, following the delivery by the Note Trustee of an Enforcement Notice, the Issuer Post-Enforcement Priority of Payments; and (b) the Purchaser is under no obligation to pay any amounts under the Purchaser Subordinated Loan unless the Purchaser has received funds which may be used to make such payment in accordance with the Purchaser Pre-Enforcement Priority of Payments or, following the delivery by the Note Trustee of an Enforcement Notice, the Purchaser Post-Enforcement Priority of Payments.

Servicing and Credit and Collection Policy

The Auto Portfolio Purchase Agreement includes provisions for the Seller to act as Servicer with respect to the Portfolio in accordance with the Servicing Agreement and the Credit and Collection Policy. The Seller may not materially change the Credit and Collection Policy unless: (i) such change relates only to the origination of new HP Contracts and not to the servicing, administration or collection of any of the Purchased HP Contracts, (ii) such change would be consistent with the Servicing Agreement and the Seller determines that such change would not be reasonably likely to have a material adverse effect on the validity or Collectability of the Purchased HP Contracts or the Issuer's ability to make timely payment on the Notes or (iii) such change is required by applicable law or regulation.

Seller Asset Warranty Breach

Under the Auto Portfolio Purchase Agreement, the Seller has made, inter alia, the following representations and warranties (the "**Seller Asset Warranties**") to the Purchaser with respect to the Purchased HP Contracts on the Purchase Date:

- (a) *Compliance with Eligibility Criteria:* As at the Purchase Cut-Off Date, each Purchased HP Contract complied in all respects with the Eligibility Criteria.
- (b) *Status:* Each Purchased HP Contract was entered into on the terms of one of the standard form documents listed in the Auto Portfolio Purchase Agreement.
- (c) *Existence:* Each Purchased HP Contract is legally valid, binding and enforceable against the Debtor and effective in relation to third parties and fully transferable to the Purchaser and its assignees or successors.
- (d) *Title:* Upon the payment of the purchase price on the Purchase Date, the Purchaser will acquire the ownership of each Purchased HP Contract transferred on the Purchase Date free and clear of any Adverse Claim.
- (e) *Transfer of Purchased HP Contracts not capable of being set aside:* No public administration board, receiver, trustee in bankruptcy or any other person entrusted with such duties in relation to the Seller's assets would have the ability to overturn the transfer of any Purchased HP Contract to the Purchaser on the occurrence of any insolvency proceedings or processes in relation to the Seller.

- (f) *No Default:* So far as the Seller is aware, there is no material default, breach or violation under any Purchased HP Contract which has not been remedied or any event which, with the giving of notice and/or the making of any determination and/or the expiration of any applicable grace period, would constitute such a default, breach or violation, provided that any default, breach or violation shall be material if it affects the amount or Collectability of a Purchased HP Contract and provided further that any default, breach or violation relating to non-payment shall not be material unless it would be such as would cause the relevant Purchased HP Contract not to comply with the Eligibility Criteria.
- (g) *Insurance:* The terms of each Purchased HP Contract require the Debtor thereunder to insure the Financed Vehicle which is the subject thereof with mandatory third party motor insurance and voluntary vehicle insurance (fi: “*liikennevakuutus*”, “*autovakuutus*” or “*kasko*”) with the owner of the Financed Vehicle registered in the Vehicle Register as beneficiary.
- (h) *Fraud:* So far as the Seller is aware, each Purchased HP Contract has not been entered into or performed fraudulently.

Any matter or circumstance which is a breach of a Seller Asset Warranty will be deemed to be a “**Seller Asset Warranty Breach**” if the relevant matter or circumstance materially and adversely affects the Purchaser’s interest in the affected Purchased HP Contract (without regard to credit enhancement, if any) or the Collectability of such Purchased HP Contract and, if such matter or circumstance is capable of remedy, it has not been remedied within 30 Business Days of the Seller becoming actually aware, or being notified, of the occurrence of such Seller Asset Warranty Breach.

If a Seller Asset Warranty Breach occurs, pursuant to the Auto Portfolio Purchase Agreement, the Seller will be obliged to repurchase the affected Purchased HP Contracts at a repurchase price equal to the aggregate of:

- (i) the Outstanding Principal Amount in respect of such Purchased HP Contracts;
- (ii) an amount equal to all other amounts due from the relevant Debtors in respect of the relevant Purchased HP Contracts as at the date of the repurchase;
- (iii) unpaid interest or finance charges (as applicable) accrued but not yet due and payable in respect of the relevant Purchased HP Contracts as at the date of the repurchase; and
- (iv) an amount equal to the reasonable costs incurred by the Purchaser in relation to such repurchase,

less an amount equal to any interest or finance charges (as applicable) not yet accrued but paid in advance to the Purchaser in respect of such Purchased HP Contracts.

If a Purchased HP Contract does not exist, the Seller will not be obliged to repurchase the relevant Purchased HP Contract, but will be required to indemnify the Purchaser in an amount, as calculated by the Servicer, equal to any loss suffered by the Purchaser resulting directly from such breach of representation and warranty by the Seller.

Successor in business

The Auto Portfolio Purchase Agreement provides that any entity which replaces the Seller and/or Subordinated Loan Provider as a party to the Issuer Security Trust Deed in accordance with the terms thereof shall automatically replace the Seller and/or Subordinated Loan Provider as a party to the Auto Portfolio Purchase Agreement, and certain consequential changes may also be made to the Auto Portfolio Purchase Agreement with the approval of the Note Trustee.

The Helsinki District Court, as the court of first instance, will have non-exclusive jurisdiction to settle any disputes that may rise in connection therewith.

Servicing Agreement

Pursuant to the Servicing Agreement between the Servicer, the Note Trustee, the Finnish Authorised Pledge Representative, the Issuer, the Purchaser, the Issuer Security Trustee and the Back-Up Servicer Facilitator the Servicer has the right and duty to manage, service and administer the Portfolio, collect and, if necessary, enforce or otherwise realise the Purchased HP Contracts and pay all proceeds to the Issuer Collections Account.

Servicer's duties

In respect of the Portfolio, the Servicer acts as manager, servicer and administrator for the Purchaser, the Finnish Pledge Authorised Representative, the Issuer and the Issuer Security Trustee under the Servicing Agreement (according to their respective interests). The duties of the Servicer include the assumption of managing, servicing, collection, administrative and enforcement tasks and specific duties in respect of the Portfolio set out in the Servicing Agreement (the "**Services**") in accordance with applicable law. The Servicer will also perform certain cash management duties for the Issuer under the Servicing Agreement.

Under the Servicing Agreement, the Servicer will, inter alia, in accordance with applicable law and in consideration of the Purchaser's agreement to pay the Servicer Fee:

- (c) endeavour at its own expense to recover amounts due from the Debtors in accordance with the Credit and Collection Policy (see "*CREDIT AND COLLECTION POLICY*"). The Purchaser and the Finnish Pledge Authorised Representative will assist the Servicer in exercising all rights and legal remedies from and in relation to the Portfolio in this regard, as is reasonably necessary, and will be reimbursed by the Servicer for any costs and expenses incurred in this regard;

- (d) be authorised to grant Payment Holidays to Debtors from time to time in accordance with the Credit and Collection Policy; provided that the Servicer will not grant any Payment Holiday or any other extension of maturity of any Purchased HP Contract which would cause the final maturity date of that Purchased HP Contract to fall later than 30 November 2023, unless such Payment Holiday is mandatorily provided by law;
- (e) keep and maintain the Records in electronic or paper form and in a manner such that they are easily distinguishable from records relating to loans or collateral unrelated to the Portfolio;
- (f) keep records for taxation purposes, including for the purposes of value-added tax;

- (h) give instructions to the Transaction Account Bank for the investment in Permitted Investments of amounts on deposit from time to time in the Issuer Secured Accounts and may, in its discretion, give instructions to the Transaction Account Bank and the Collections Account Bank for the investment in Permitted Investments of amounts standing to the credit from time to time of the Servicer Advance Reserve Ledger and the Issuer Collections Account, respectively; and
- (i) for each Collection Period, prepare and deliver a Monthly Report and an Investor Report which shall, *inter alia*, contain updated information with respect to the Portfolio.

The Servicer will administer the Portfolio in accordance with the Credit and Collection Policy and give such time and attention and exercise such skill, care and diligence in servicing the Portfolio as it does in servicing HP Contracts other than the Purchased HP Contracts, subject to the provisions of the Servicing Agreement, the other Transaction Documents, the Purchased HP Contracts and applicable laws.

The Servicer will ensure that it has all required licences, approvals, authorisations, registrations and consents which are necessary or desirable for the performance of its duties under the Servicing Agreement.

Under the Servicing Agreement, the Servicer will be entitled to a fee as consideration for the performance of the Services.

Information and regular reporting

The Servicer shall keep safe and use all reasonable endeavours to maintain records in relation to each Purchased HP Contract in computer readable form. The Servicer will notify to the Purchaser, the Note Trustee and the Rating Agencies any proposed material change in its administrative or operating procedures relating to the keeping and maintaining of records. Any such material change requires the prior consent of the Note Trustee.

The Servicing Agreement requires the Servicer to prepare a Monthly Report for each Collection Period in the form and with the contents set out in Schedule 1, Part A (*Sample Monthly Report*) to the Servicing Agreement together with a certification that no Servicer Termination Event has

occurred. In particular, but without limitation, the Servicer shall, as part of the Monthly Report, calculate as of each Cut-Off Date the Issuer Pre-Enforcement Available Distribution Amount and the Purchaser Pre-Enforcement Available Distribution Amount for the immediately following Payment Date and the amounts due to the Issuer from the Purchaser under the Loan Agreement. The Servicer shall deliver such Monthly Report to the Purchaser with a copy to the Note Trustee, the Corporate Administrator, the Calculation Agent, the Cash Administrator, the Principal Paying Agent and the Back-Up Servicer Facilitator not later than 12:00 noon on the relevant Reporting Date.

Further, in accordance with the Servicing Agreement, the Servicer will prepare, on a monthly basis, an investor report (each, an “**Investor Report**”) for each Collection Period which it will provide to the Purchaser, with a copy to the Corporate Administrator, the Note Trustee, the Cash Administrator, the Principal Paying Agent, the Calculation Agent, the Back-Up Servicer Facilitator and each Rating Agency no later than 12:00 noon on the Second Business Day after the Payment Date following the Cut-Off Date on which such Collection Period ends.

Servicer Advances and Servicer Advance Reserve

Where the Purchaser is required by law or otherwise to pay (i) any amount to a Debtor or to deposit such amount with the Finnish enforcement authority on behalf of the Debtor in respect of the repossession of the relevant Financed Vehicle and/or (ii) any VAT to the Finnish tax authorities in relation to the resale of any Financed Vehicle following its repossession, the Servicer may, in its sole discretion, make a Servicer Advance in an amount equal to the amount payable by the Purchaser, to the extent that the Servicer reasonably believes that the amount of such Servicer Advance will be repaid by the Purchaser at a future time.

The Servicer will make any Servicer Advance it has elected to make by way of paying, on behalf of the Purchaser, the relevant amount owed by the Purchaser to the Debtor, the Finnish enforcement authority and/or the Finnish tax authorities, as applicable, by no later than the date on which such amount is due and payable.

The Purchaser shall repay each Servicer Advance made to the Purchaser on the Payment Date immediately following the date on which payment was made to the Debtor, the Finnish enforcement authority and/or the Finnish tax authorities, as applicable; provided that (i) if such Servicer Advance was made on or after the Cut-Off Date immediately preceding such Payment Date, the Purchaser shall repay such Servicer Advance on the second Payment Date to occur after such Cut-Off Date; and (ii) the Purchaser shall only be obliged to repay such Servicer Advance if there are sufficient funds available to the Purchaser on the relevant Payment Date, after making all prior ranking payments in accordance with the applicable Purchaser Priority of Payments, to repay such Servicer Advance in accordance with the relevant Purchaser Priority of Payments and any shortfall shall become due and payable on the next Payment Date and on any following Payment Date until it is reduced to zero.

The Servicing Agreement will provide that if the Purchaser is required by law or otherwise to make any payment to a Debtor, the Finnish enforcement authority or the Finnish tax authorities and the Servicer elects not to make a Servicer Advance in respect thereof, the Servicer shall arrange for an amount equal to the amount payable by the Purchaser to be released from the Servicer Advance Reserve in immediately available funds and applied towards such payment by no later than the date on which it is due and payable.

On or before the Note Issuance Date, the Servicer Advance Reserve will be funded through the proceeds of an advance made by the Subordinated Loan Provider to the Purchaser in an amount equal to EUR 100,000. Prior to the delivery by the Note Trustee of an Enforcement Notice, if on any Cut-Off Date the amount standing to the credit of the Servicer Advance Reserve Ledger is less than the Servicer Advance Reserve Required Amount, the Servicer Advance Reserve Ledger will be replenished on the immediately following Payment Date up to the Servicer Advance Reserve Required Amount by any funds received by the Purchaser from the Issuer in accordance with the Issuer Pre-Enforcement Priority of Payments.

On the Payment Date on which the Notes are redeemed in full, the Servicer shall arrange for any amount standing to the credit of the Servicer Advance Reserve Ledger to be released and such amount shall be applied towards repayment of the Purchaser Subordinated Loan on such Payment Date. If the Purchaser has insufficient funds to repay all amounts outstanding under the Loan Agreement in full following enforcement of the Purchaser Security, an equivalent amount of the funds standing to the credit of the Servicer Advance Reserve Ledger shall be treated as part of the Purchaser Post-Enforcement Available Distribution Amount.

Back-Up or replacement Servicer

If a Servicer Termination Event occurs, the Purchaser and/or the Issuer (with the consent of the Note Trustee) may terminate the appointment of the Seller as Servicer and appoint a qualified person as replacement Servicer, provided that the termination shall not become effective until the qualified successor servicer has been appointed.

Under the terms of the Servicing Agreement, Santander Consumer Finance, S.A. will act as the Back-Up Servicer Facilitator. Pursuant to that agreement, if, so long as the Servicer is Santander Consumer Finance Oy:

- (a) the unsecured, unsubordinated debt obligations of Santander Consumer Finance, S.A. cease to have long-term ratings of at least "Baa3" by Moody's or "BBB-" by Fitch; and/or
- (b) Santander Consumer Finance, S.A. ceases to control the Servicer,

the Back-Up Servicer Facilitator will (unless Banco Santander S.A. or one of its Affiliates has long-term ratings of at least "Baa3" by Moody's or "BBB-" by Fitch and retains or assumes control of the Servicer) (i) select within 60 days a bank or financial institution meeting the requirements set out in the Servicing Agreement and willing to assume the duties of a successor servicer in the event that a Servicer Termination Notice is delivered, (ii) review the information provided to it by the Servicer under the Servicing Agreement, (iii) enter into appropriate data confidentiality provisions and (iv) notify the Servicer if it requires further assistance.

For these purposes, "**control**" means the power, direct or indirect, (A) to vote more than 50 per cent. of the securities having ordinary voting power for the election of directors of the Servicer, or (B) to direct or cause the direction of the management and policies of the Servicer whether by contract or otherwise.

Successor in business

The Servicing Agreement provides that any entity which replaces the Servicer as a party to the Issuer Security Trust Deed in accordance with the terms thereof shall automatically replace the Servicer as a party to the Servicing Agreement, and certain consequential changes may also be made to the Servicing Agreement with the approval of the Note Trustee.

Applicable law and jurisdiction

The Servicing Agreement, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of Finland. The Helsinki District Court, as the court of first instance, will have non-exclusive jurisdiction to settle any disputes that may rise in connection therewith.

Loan Agreement

Pursuant to the terms of the Loan Agreement, the Issuer will advance to the Purchaser, on the Note Issuance Date, the Loan in an amount in Euro equal to the Aggregate Purchase Price.

The Purchaser will use the proceeds of the Loan to pay for the HP Contracts purchased by it from the Seller pursuant to the Auto Portfolio Purchase Agreement.

Payment of interest and fees in respect of the Loan will be made principally from and to the extent of Collections received in respect of the Purchased HP Contracts. Such payments of interest and fees are required to be made by the Purchaser on Payment Dates in accordance with the Purchaser Priorities of Payments. All payment obligations of the Purchaser under the Loan Agreement constitute limited recourse obligations of the Purchaser in accordance with Clause 18 (*Non-Petition and Limited Recourse*) of the Loan Agreement.

The amount of interest payable to the Issuer on each Payment Date in respect of the Loan shall be equal to:

- (a) the Purchaser Pre-Enforcement Available Distribution Amount or the Purchaser Post-Enforcement Available Distribution Amount (as applicable), in each case, as at the immediately preceding Cut-Off Date; less
- (b) the sum of (i) the aggregate of all amounts payable by the Purchaser on such Payment Date pursuant to items (a) to (d) (inclusive) of the relevant Purchaser Priority of Payments; and (ii) the amount of principal in respect of the Loan repayable by the Purchaser on such Payment Date.

The Issuer shall, on each Payment Date, apply interest paid by the Purchaser in respect of the loan, in payment of the Issuer Swap Interest, interest on each Class of Notes in crediting the Reserve Account, in payment of amounts due to the Expenses Advance Provider, in payment of any Swap Subordinated Amounts and any remaining excess to the Purchaser, each in accordance with the relevant Issuer Priority of Payments.

On each Payment Date, the Purchaser shall pay to the Issuer a fee in consideration of the making of the Loan in an amount equal to the aggregate of all amounts due and payable by the Issuer pursuant to items (a) to (c) (inclusive) of the relevant Issuer Priority of Payments.

Repayment of the principal of the Loan will be made principally from and to the extent of the Collections received in respect of the Purchased HP Contracts. The amount of principal repayable to the Issuer in respect of the Loan on each Payment Date shall equal the amount required by the Issuer to fund the aggregate of the amount of principal repayable on such Payment Date on the outstanding Class A Notes, Class B Notes, Class C Notes, Class D Notes, Class E Notes and Class F Notes. Such principal repayments will be made on each Payment Date in accordance with the Purchaser Priorities of Payments. All payment obligations of the Purchaser under the Loan Agreement constitute limited recourse obligations of the Purchaser in accordance with Clause 18 (*Non-Petition and Limited Recourse*) of the Loan Agreement.

The security granted in respect of the Purchased HP Contracts pursuant to the Purchaser Finnish Security Agreement shall be legally perfected by virtue of notification to the Debtors of such security and directing the Debtors to make payments under the Purchased HP Contracts to the Issuer Collections Account. All Collections paid into the Issuer Collections Account will be transferred to the Issuer Transaction Account in accordance with the provisions of the Servicing Agreement (other than Insurance Premium Payments which will be transferred on a monthly basis to the Seller).

On the fifth Business Day following each Cut-Off Date, any Collections transferred from the Issuer Collections Account to the Issuer Transaction Account representing Insurance Premium Payments will be transferred to the Seller for its own account, in accordance with the Servicing Agreement.

On the fifth Business Day following each Cut-Off Date, the remaining amount of Collections in excess of the aggregate amount payable by the Purchaser to the Issuer under the Loan Agreement (taking into account the applicable Purchaser Priority of Payments) on the immediately following Payment Date shall be transferred by the Servicer from the Issuer Transaction Account to the Purchaser Transaction Account and, for the avoidance of doubt, such excess shall form part of the Purchaser Pre-Enforcement Available Distribution Amount or the Purchaser Post-Enforcement Available Distribution Amount, as applicable.

On each Payment Date, the remaining Collections standing to the credit of the Issuer Transaction Account shall (i) be applied *pro tanto* against the Purchaser's obligation to pay interest, principal, fees and any other amounts to the Issuer under the Loan Agreement on such Payment Date and thereafter (ii) form part of the Issuer Pre-Enforcement Available Distribution Amount or the Issuer Post-Enforcement Available Distribution Amount, as applicable, and will be applied in accordance with the relevant Issuer Priority of Payments.

- (d) except as provided or contemplated under the Transaction Documents or the Purchased HP Contracts, the Purchaser shall not make any loans or provide any other form of credit to any person. For the avoidance of doubt, the Purchaser agrees that it will not make any further advances to Debtors in respect of the Purchased HP Contracts;
- (e) the Purchaser will not give any guarantee or indemnity to, or for the benefit of, any person in respect of any obligation of any other person or enter into any document under which the Purchaser assumes any liability of any other person;

Prior to the Loan Maturity Date, the Purchaser will only be obliged to pay amounts of interest, fees and principal to the Issuer in respect of the Loan to the extent it has funds to do so after making payments ranking in priority to amounts due on such Loan.

If, on the Loan Maturity Date, there is a shortfall between the amount of interest, fees and/or principal due on the outstanding Loan and the amount available to the Purchaser to make such payments, then that shortfall shall become immediately due and payable irrespective of whether the Purchaser has the funds to make the payments then due. Any shortfall shall be paid by the Purchaser in accordance with the relevant Purchaser Priority of Payments and subject to the limited recourse provisions set out in Clause 18 (*Non-Petition and Limited Recourse*) of the Loan Agreement.

Following enforcement of the Purchaser Security and distribution of all proceeds of such enforcement in accordance with the terms of the Purchaser Security Trust Deed and if there are no further assets available to pay any outstanding amounts due and owing by the Purchaser to the Issuer, all such outstanding amounts will be extinguished.

The ability of the Issuer to repay a Class of Notes will depend, among other things, upon payments received by the Issuer from the Purchaser in respect of the Loan.

Applicable law and jurisdiction

The Loan Agreement, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of England. The courts of England will have exclusive jurisdiction to settle any disputes that may rise in connection therewith.

Issuer Security Trust Deed

On the Note Issuance Date, the Issuer and the Issuer Security Trustee, among others, will enter into the Issuer Security Trust Deed. As continuing English law security for the payment and discharge of the Issuer Secured Obligations, the Issuer will grant in favour of the Issuer Security Trustee, for itself and on trust for the other Issuer Secured Parties, in accordance with the Issuer Security Trust Deed:

- (a) an assignment with full title guarantee of all of its rights under the Issuer Assigned Documents;
- (b) an assignment with full title guarantee of all of its right, title, benefit and interest and all claims, present and future, under the Purchaser Security Trust Deed (including its beneficial interest in the trust created by the Purchaser pursuant to the Purchaser Security Trust Deed) and including all rights to receive payment of any amount which may become payable to the Issuer thereunder and all rights to serve notices and/or make demands thereunder and/or to take such steps as are required to cause payments to become due and payable thereunder and all rights of action in respect of any breach thereof and all rights to receive damages or obtain relief in respect thereof and the proceeds of any of the foregoing;
- (c) a first fixed charge over all of the Issuer's rights in and to the Issuer Secured Accounts and any Permitted Investments purchased with funds standing to the credit of the Issuer Secured Accounts and/or the Issuer Collections Account in which the Issuer may at any time acquire or otherwise obtain any interest or benefit (including all monies, income and proceeds payable or due to become payable thereunder and all interest accruing thereon from time to time) and all rights in respect of or otherwise ancillary to such Permitted Investments; and
- (d) a first floating charge with full title guarantee over the whole of the Issuer's undertaking and all of its present and future property, assets and rights, whatsoever and wheresoever and from time to time (other than amounts standing to the credit of, or deposited in, the Issuer Share Capital Account and its rights as pledgee under the Purchaser Finnish Security Agreement).

Each of the Issuer Secured Parties which is a party to the Transaction Documents (other than the Noteholders) will agree to be bound by the provisions of the Issuer Security Trust Deed and, in particular, will agree to be bound by the Issuer Post-Enforcement Priority of Payments and the limited recourse and non-petition provisions set out within.

The Issuer Secured Assets shall be available to satisfy the Issuer's obligations under the Notes. Accordingly, recourse against the Issuer in respect of such obligations shall be limited to the Issuer

Secured Assets and the claims of the Issuer Secured Parties against the Issuer under the Transaction Documents may only be satisfied to the extent of the Issuer Secured Assets. Once the Issuer Secured Assets have been realised:

- (a) neither the Issuer Security Trustee nor any of the other Issuer Secured Parties shall be entitled to take any further steps or other action against the Issuer to recover any sums due but unpaid;
- (b) all claims in respect of any sums due but unpaid shall be extinguished; and
- (c) neither the Issuer Security Trustee nor any of the other Issuer Secured Parties shall be entitled to petition or take any other step for the winding up of the Issuer.

The security over the Issuer Secured Assets shall become enforceable in accordance with the Note Conditions following delivery by the Note Trustee of an Enforcement Notice.

Where the Swap Counterparty provides collateral in accordance with the provisions of the Credit Support Annex, such collateral or interest thereon will not form part of the Issuer Available Distribution Amount prior to or in the event of enforcement action (other than collateral amounts retained by the Issuer in accordance with the Swap Agreement following the termination of the Swap Transaction to the extent not applied to put in place a replacement swap transaction).

Successor in business

The Issuer Security Trust Deed provides that, subject to certain conditions being satisfied, the Note Trustee shall, without the consent of the Noteholders, approve the replacement of the Seller, the Servicer and/or the Subordinated Loan Provider under the Issuer Security Trust Deed (and the other Transaction Documents to which the Seller, the Servicer and/or the Subordinated Loan Provider is a party) by an entity to which all, or substantially all, of the Seller, the Servicer and/or the Subordinated Loan Provider's automotive finance business is transferred (whether by operation of law, contract or otherwise). Any such replacement may involve amendments being made to the Issuer Security Trust Deed in order to reflect the legal form of the successor entity, its jurisdiction of incorporation and/or the jurisdictions in which it is resident or conducts its business or any other aspect in which it differs from its predecessor.

Applicable law and jurisdiction

The Issuer Security Trust Deed, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of England. The Helsinki District Court, as the court of first instance, will have non-exclusive jurisdiction to settle any disputes that may rise in connection therewith.

Purchaser Security Trust Deed

On the Note Issuance Date, the Purchaser and the Purchaser Security Trustee among others, will enter into the Purchaser Security Trust Deed. As continuing security for the payment and discharge of the Purchaser Secured Obligations, the Purchaser will grant in favour of the Purchaser Security Trustee, for itself and on trust for the other Purchaser Secured Parties, in accordance with the Purchaser Security Trust Deed:

- (a) an assignment with full title guarantee of all of its rights under the Purchaser Assigned Documents;
- (b) a first fixed charge over the rights, amounts, benefits and securities standing to the credit of, or deposited in, the Purchaser Transaction Account and the indebtedness represented by it and any Permitted Investments purchased with funds standing to the credit of the Purchaser Transaction Account in which the Purchaser may at any time acquire or otherwise obtain any interest or benefit (including all monies, income and proceeds payable or due to become payable thereunder and all interest accruing thereon from time to time) and all rights in respect of or otherwise ancillary to such Permitted Investments; and
- (c) a first floating charge with full title guarantee over the whole of the Purchaser's undertaking and all of its present and future property, assets and rights, whatsoever and wheresoever and from time to time (other than amounts standing to the credit of, or deposited in, the Purchaser Share Capital Account).

Pursuant to the Purchaser Security Trust Deed, the Issuer will declare that, with effect from (and including) the date thereof until the Discharge Date, it will hold all of its rights, title, benefits and interests in its capacity as pledgee under the Purchaser Finnish Security Agreement upon trust absolutely for itself and the other Purchaser Secured Parties as beneficiaries in accordance with the Purchaser Security Trust Deed.

Pursuant to the Purchaser Security Trust Deed, the Finnish Pledge Authorised Representative will be appointed by each of the Purchaser Secured Parties (other than the Finnish Pledge Authorised Representative) to act as the authorised representative agent of each of the Purchaser Secured Parties and to exercise its rights as pledgee under the Purchaser Finnish Security Agreement as well as any other rights which a pledgee may have under Finnish law to enforce the pledge granted pursuant to the Purchaser Finnish Security Agreement, in accordance with the provisions of the Purchaser Security Trust Deed and the Purchaser Finnish Security Agreement.

Pursuant to the Purchaser Security Trust Deed, the Finnish Pledge Authorised Representative will appoint the Purchaser Security Trustee to exercise the rights granted by the Purchaser Secured Parties to the Finnish Pledge Authorised Representative as authorised representative of the Purchaser Secured Parties, in accordance with the provisions of the Purchaser Security Trust Deed.

The Purchaser Security Trust Deed contains the following negative covenants given by the Purchaser:

- (a) the Purchaser undertakes that it will not, at any time prior to the Discharge Date, create or permit to subsist any Security Interest over any Purchaser Secured Asset other than pursuant to and in accordance with the Transaction Documents; and
- (b) the Purchaser undertakes that it will not, at any time prior to the Discharge Date, dispose of (or agree to dispose of) any Purchaser Secured Asset except as expressly permitted by the Transaction Documents.

Each of the Purchaser Secured Parties will agree to be bound by the provisions of the Purchaser Security Trust Deed and, in particular, will agree to be bound by the Purchaser Priorities of Payments and the limited recourse and non-petition provisions set out within.

The Purchaser Secured Assets shall be available to satisfy the Purchaser Secured Obligations (including the Purchaser's obligations under the Loan Agreement). Accordingly, recourse against the Purchaser in respect of such obligations shall be limited to the Purchaser Secured Assets and the claims of the Purchaser Secured Parties against the Purchaser under the Transaction Documents may only be satisfied to the extent of the Purchaser Secured Assets. Once the Purchaser Secured Assets have been realised:

- (a) none of the Purchaser Secured Parties shall be entitled to take any further steps or other action against the Purchaser to recover any sums due but unpaid;
- (b) all claims in respect of any sums due but unpaid shall be extinguished; and
- (c) none of the Purchaser Secured Parties shall be entitled to petition or take any other step for the winding up of the Purchaser.

The security over the Purchaser Secured Assets shall become enforceable following delivery by the Note Trustee of an Enforcement Notice.

- (a) the Purchased HP Contracts (including all of the Purchaser's right, title and interest to the Purchased HP Contracts and to the related Financed Vehicles, and for the avoidance of doubt any proceeds from the sale of repossessed Financed Vehicles); and
- (b) all present and future claims, rights and receivables that the Purchaser has or will have against the Servicer pursuant to the Servicing Agreement and the Seller and the Subordinated Loan Provider pursuant to the Auto Portfolio Purchase Agreement.

The Purchaser Finnish Security Agreement includes an obligation on the Purchaser to take, at its own cost, any and all actions as requested by the Finnish Pledge Authorised Representative (including, but not limited to, signing and sealing any transfer, proxy, mandate or other document and giving any such instructions or directions as the pledgees may require relating to the Purchased HP Contracts, the Financed Vehicles (including assistance in relation to the repossession and resale of any Financed Vehicles) and/or the pledged claims) to preserve, protect and defend the pledge, and the priority thereof, against any and all adverse claims.

Applicable law and jurisdiction

The Purchaser Finnish Security Agreement, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the

laws of Finland. The Helsinki District Court, as the court of first instance, will have non-exclusive jurisdiction to settle any disputes that may rise in connection therewith.

Irish Security Deeds

Pursuant to the Issuer Irish Security Deed, the Issuer has granted a first priority security interest over all its rights, powers and interest under the Issuer Corporate Administration Agreement. Such security interest will secure the Issuer Secured Obligations. The courts of Ireland will have exclusive jurisdiction to settle any disputes that may arise out of or in connection therewith.

Expenses Advance Facility Agreement

Santander Consumer Finance Oy will make available to the Issuer under the Expenses Advance Facility Agreement an interest-bearing amortising Expenses Advance which is not credit-linked to the Portfolio and will, subject to certain conditions, be disbursed on or about the Note Issuance Date to provide the Issuer with the funds necessary to pay certain amounts payable under the Transaction Documents (including, without limitation, the fees, costs and expenses payable on the Note Issuance Date to the Joint Lead Managers and to other parties in connection with the offer and sale of the Notes) and certain other costs. The Expenses Advance will be repaid in 24 instalments on each Payment Date following the Note Issuance Date.

The Issuer will pay interest on the Expenses Advance at a rate equal to EURIBOR plus an agreed margin, to the extent funds are available for such payment in accordance with the applicable Issuer Priority of Payments. To the extent any accrued interest is not paid on any Payment Date, that unpaid amount will be added to the principal amount of the Expenses Advance.

Pursuant to the Expenses Advance Facility Agreement, the Issuer is under no obligation to pay any amounts under the Expenses Advance unless the Issuer has received funds which may be used to make such payment in accordance with the Issuer Pre-Enforcement Priority of Payments or, following the delivery by the Note Trustee of an Enforcement Notice, the Issuer Post-Enforcement Priority of Payments.

Successor in business

The Expenses Advance Facility Agreement provides that any entity to which all, or substantially all, of the Expenses Advance Provider's automotive finance business is transferred (whether by operation of law, contract or otherwise) which replaces the Expenses Advance Provider as a party to the Issuer Security Trust Deed in accordance with the terms thereof shall automatically replace the Expenses Advance Provider as a party to the Expenses Advance Facility Agreement, and

certain consequential changes may also be made to the Expenses Advance Facility Agreement with the approval of the Note Trustee.

The Swap Agreement

The interest rate payable by the Issuer with respect to the Class A Notes is calculated as the sum of EURIBOR and the applicable margin (subject to a floor of zero) as set out in the Note Conditions. The HP Contracts bear interest at fixed rates. The Issuer has hedged this interest rate basis exposure by entering into the Swap Agreement with the Swap Counterparty.

On or about the Signing Date, the Issuer and the Swap Counterparty shall enter into the Swap Agreement, comprising a 1992 ISDA Master Agreement together with a schedule and credit support annex thereto and a confirmation evidencing the Swap Transaction.

Under the Swap Agreement, on each Payment Date, the Issuer will make payments to the Swap Counterparty based on a fixed rate of 0.197% per annum, applied to the Swap Notional Amount. The Swap Counterparty will pay a floating rate equal to EURIBOR as set by the calculation agent under the Swap Transaction in respect of the Interest Period immediately preceding such Payment Date, plus a margin equal to 0.50% per annum (subject to a floor of zero), applied to the Swap Notional Amount.

For information regarding the obligations of the Swap Counterparty to post collateral, see “*CREDIT STRUCTURE — Swap Agreement*” and “*The Swap Collateral Account*”.

Pursuant to the Issuer Security Trust Deed, the Issuer has created security in favour of the Issuer Security Trustee in all its present and future rights, claims and interests which the Issuer is now or becomes hereafter entitled to pursuant to or in respect of the Swap Agreement (see “*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS – Issuer Security Trust Deed*”).

Termination of the Swap Agreement

The Swap Agreement may be terminated in, inter alia, the following circumstances (each a “**Swap Early Termination Event**”):

- (a) at the option of one party to the Swap Agreement, if there is a failure by the other party to pay any amounts due and payable in accordance with the terms of the Swap Agreement and any applicable grace period has expired;
- (b) service by the Note Trustee of an Enforcement Notice on the Issuer pursuant to Note Condition 12 (*Events of Default*);

- (c) upon the occurrence of an insolvency of the Swap Counterparty or certain insolvency events with respect to the Issuer (as set out in the Swap Agreement) or the merger of the Swap Counterparty without an assumption of its obligations under the Swap Agreement;
- (d) upon the occurrence of a Tax Event, Tax Event Upon Merger or an Illegality (as defined in the Swap Agreement);
- (e) if the Swap Counterparty is downgraded and fails to comply with the requirements of the ratings downgrade provision, contained in the Swap Agreement and described above in the section entitled “*CREDIT STRUCTURE — Swap Transaction*”;
- (f) if optional redemption of the Notes in whole (and not in part) occurs pursuant to Note Condition 5.3 (*Early redemption*) or Note Condition 5.4 (*Optional redemption for taxation reasons*);
- (g) if there is an amendment to any material terms of the Transaction Documents without the prior written approval of the Swap Counterparty and/or if the Issuer Pre-Enforcement Priority of Payments or the Issuer Post-Enforcement Priority of Payments are/is amended without the prior written approval of the Swap Counterparty, such that the Issuer’s obligations to the Swap Counterparty under the Swap Agreement are further contractually subordinated to the Issuer’s obligations to any other beneficiary or the interests of the Swap Counterparty are otherwise materially prejudiced by any such amendment; and
- (h) if the additional tax representation made by the Swap Counterparty or the Issuer in Part 2(b) of the Schedule of the Swap Agreement proves to be incorrect or misleading in any material respect with respect to one or more transactions when made or repeated or deemed to have been made or repeated.

Upon the occurrence of an Early Termination Event, either the Issuer or the Swap Counterparty may be liable to make a termination payment to the other. The amount of any termination payment will be based on the market value of the terminated swap based on market quotations of the cost of entering into a swap with the same terms and conditions that would have the effect of preserving the respective full payment obligations of the parties (or based upon loss in the event that market quotation cannot be determined).

Any such termination payment could be substantial. Except where the Swap Counterparty has caused the Swap Agreement to terminate prior to its scheduled termination date by its own default or an Additional Termination Event (as defined in the Swap Agreement) has occurred under the Swap Agreement as a result of a Ratings Downgrade of the Swap Counterparty, any termination payment in respect of the Swap Agreement due by the Issuer to the Swap Counterparty will rank in priority to payments due on the Notes.

In the event that the Swap Agreement is terminated prior to its scheduled termination date, and prior to the service by the Note Trustee of an Enforcement Notice or the redemption in full of the Class A Notes, the Issuer may enter into a replacement arrangement with another appropriately rated entity. Such replacement swap must be entered into on terms acceptable to the Rating Agencies, the Issuer and the Note Trustee.

The Issuer will apply any termination payment it receives from a termination of the Swap Agreement (including, for the avoidance of doubt, any net amount due to the Issuer under such Swap Agreement in respect of an early termination date designated thereunder and discharged by way of application of the relevant amount of the Swap Collateral held by the Issuer in accordance with the Swap Agreement) to enter into a replacement swap agreement (as described above). If, following the termination of the Swap Agreement, a replacement swap is not entered into, such termination payment shall be deposited in the Issuer Transaction Account and applied to enter into any replacement swap agreement entered into at a future date. Following the application of a termination payment to enter into a replacement swap agreement, any excess amount of the termination payment remaining will constitute Issuer Pre-Enforcement Available Distribution Amounts. To the extent that the Issuer receives a premium under any replacement swap agreement, it shall apply such premium first to make any termination payment due under the related terminated swap. Any termination payment due under the terminated Swap Transaction to the Swap Counterparty shall be made in accordance with the applicable Issuer Priority of Payments and from any amount standing to the credit of the Swap Collateral Account to the extent the Issuer is not entitled to retain it and from any premium payable by any replacement swap counterparty.

Taxation

The Issuer is not obliged under the Swap Agreement to gross up payments made by it if withholding taxes are imposed on payments made under the Swap Agreement. The Swap Counterparty is always obliged to gross up payments made by it to the Issuer if withholding taxes (other than a FATCA withholding) are imposed on payments made by it to the Issuer under the Swap Agreement. The imposition of withholding taxes (other than a FATCA withholding) on payments made by the Swap Counterparty under the Swap Agreement will constitute a Tax Event or a Tax Event Upon Merger (each as defined in the Swap Agreement) and will give the Swap Counterparty the right to terminate the Swap Agreement subject to the terms thereof.

Applicable law and jurisdiction

The Swap Agreement, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of England. The courts of England will have exclusive jurisdiction to settle any disputes that may rise out of or in connection therewith.

Agency Agreement

On the Note Issuance Date, the Issuer, the Purchaser and the Note Trustee will enter into the Agency Agreement with the Principal Paying Agent, the Calculation Agent and the Cash Administrator. The Principal Paying Agent, the Calculation Agent and the Cash Administrator are appointed by the Issuer and, in certain circumstances as set out in the Agency Agreement, by the Note Trustee, to act as their agent to make certain calculations and determinations and to effect payments in respect of the Notes. In addition, the Cash Administrator is appointed by the Issuer and, in certain circumstances as set out in the Agency Agreement, the Note Trustee under the Agency Agreement to also act as their agent in providing certain cash management services such as (i) verifying the calculations undertaken by the Servicer relating to the payments to be effected on each Payment Date in accordance with the Transaction Documents, (ii) providing the Transaction Account Bank with payment instructions on behalf of the Issuer which are required to

effect payments in respect of the Notes and (iii) calculating the Issuer Available Distribution Amount and the Purchaser Available Distribution Amount if the Servicer should fail to do so along with any other payments in accordance with the Transaction Documents on each Payment Date.

The Cash Administrator shall, in addition, make each Investor Report provided to it by the Servicer publicly available on its website https://gctabsreporting.bnpparibas.com/fund_picker.do without undue delay. The Cash Administrator will also prepare and provide, on a monthly basis, a payment report which relates to the envisaged payments to be effected on the immediately succeeding Payment Date in accordance with the Transaction Documents to the Issuer and the Purchaser with copies to the Corporate Administrator, the Note Trustee, the Swap Counterparty, the Calculation Agent, the Principal Paying Agent (who will upon receipt provide copies to the Noteholders) and the Rating Agencies not later than 12.00 noon (London time) on the third Business Day prior to the Payment Date to which such payment report relates.

The Agency Agreement provides that the Issuer may terminate the appointment of any Agent with regard to some or all of its functions with the prior written consent of the Note Trustee upon giving such Agent not less than 30 calendar days' prior notice. It further provides that any Agent may at any time resign from its office by giving the Issuer and the Note Trustee not less than 30 calendar days' prior notice.

Any termination or resignation of any Agent shall become effective only upon the appointment by the Issuer (with the prior written approval of the Note Trustee) of one or more, as the case may be, banks or financial institutions in the required capacity and the giving of prior notice of such appointment to the Issuer Security Trustee and the Noteholders in accordance with the Note Conditions. The right to termination or resignation for good cause will remain unaffected. If no replacement agent is appointed within 20 calendar days of any Agent's resignation, then such Agent may itself appoint such a replacement agent in the name of the Issuer by giving (i) prior notice of such appointment to the Issuer Security Trustee and the Noteholders in accordance with the Note Conditions; and (ii) at least 30 calendar days' prior notice of such appointment to the Issuer and the Note Trustee in accordance with the Agency Agreement.

Applicable law and jurisdiction

The Agency Agreement, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of England. The courts of England will have exclusive jurisdiction to settle any disputes that may arise out of or in connection therewith.

Note Trust Deed

On the Note Issuance Date, the Issuer and the Note Trustee will enter into the Note Trust Deed. Under the terms of the Note Trust Deed, the Issuer and the Note Trustee will agree that the Notes are subject to the provisions of the Note Trust Deed. The Note Conditions and the forms of the Notes are set out in the Note Trust Deed.

The Note Trustee will agree to hold the benefit of, among other things, the Issuer's covenant to repay principal and pay interest on the Notes from time to time on trust for the Noteholders in accordance with the Transaction Documents and to apply all payments, recoveries or receipts in

respect of such covenant in accordance with the Note Conditions, the Note Trust Deed and the Agency Agreement.

In accordance with the terms of the Note Trust Deed, the Issuer will pay an annual fee to the Note Trustee for its services under the Note Trust Deed at the rate agreed between the Issuer and the Note Trustee together with payment of all costs, charges and expenses incurred by the Note Trustee in relation to the Note Trustee's performance of its obligations under the Note Trust Deed.

The Note Trustee may from time to time retire at any time upon giving not less than three calendar months' notice in writing to the Issuer without assigning any reason therefor. The retirement of the Note Trustee shall not become effective unless, inter alia, a successor to the Note Trustee has been appointed (being a Trust Corporation) in accordance with the Note Trust Deed and the same person has been appointed to be Issuer Security Trustee under the Issuer Security Trust Deed and Purchaser Security Trustee under the Purchaser Security Trust Deed. A Trust Corporation may be appointed sole trustee under the Note Trust Deed, otherwise there shall always be two trustees, one of which must be a Trust Corporation.

Applicable law and jurisdiction

The Note Trust Deed, and all contractual and non-contractual obligations arising out of or in connection with it, will be governed by, and construed in accordance with, the laws of England. The courts of England will have exclusive jurisdiction to settle any disputes that may arise out of or in connection therewith.

DESCRIPTION OF THE PORTFOLIO

The Portfolio consists of the Purchased HP Contracts originated by the Seller pursuant to the Credit and Collection Policy. See “*CREDIT AND COLLECTION POLICY*”.

The HP Contracts relate to the hire purchase of motor vehicles which are cars, vans, campers, caravans and motorcycles.

The Aggregate Outstanding Asset Principal Amount in respect of the Portfolio as at close of business on the Purchase Cut-Off Date was EUR 607,199,725.09.

The number of Purchased HP Contracts in the Portfolio as at the Purchase Date is in excess of 15,000. Each Purchased HP Contract is denominated and payable in Euro and (other than, potentially, any Purchased HP Contract in respect of which any Unallocated Overpayment has been made) has a positive outstanding balance. Each Purchased HP Contract was originated in the ordinary course of the Seller's business and in accordance with the Credit and Collection Policy. In accordance with the Eligibility Criteria, each Debtor is resident or is registered in Finland.

As at the Purchase Date, the largest aggregate Outstanding Principal Amount due from:

- (a) any corporate Debtor is equal to or less than the lesser of (i) 0.25 per cent. of the aggregate outstanding Loan Principal Amount and (ii) EUR 2,000,000;
- (b) any ten corporate Debtors is equal to or less than the lesser of (i) 0.75 per cent. of the aggregate outstanding Loan Principal Amount and (ii) EUR 7,500,000;
- (c) any individual Debtor is equal to or less than the lesser of (i) 0.25 per cent. of the aggregate outstanding Loan Principal Amount and (ii) EUR 500,000; and
- (d) any ten individual Debtors is equal to or less than 0.60 per cent. of the aggregate outstanding Loan Principal Amount.

Each Debtor has made at least one scheduled payment on their respective HP Contract which take the form of repayment loans and include balloon repayments. For financial information regarding the Purchased HP Contracts, please see “*INFORMATION TABLES REGARDING THE PORTFOLIO*”.

Typical HP Contract duration terms at point of origination are between 2 and 5 years (weighted average term at origination for the Portfolio is 56.3 months), but prepayments typically result in an effective duration of between 2 and 3 years. The weighted average down payment (equity) for loans within the Portfolio is 18.8 per cent.

For approximately 0.009 per cent. of the Purchased HP Contracts (as at close of business on 9 October 2016), the relevant Debtor has taken out a payment protection policy with AXA Partners – Credit & Lifestyle Protection and, for approximately 6.93 per cent. of the Purchased HP Contracts (as at close of business on 9 October 2016), the relevant Debtor has taken out a payment protection policy with CNP Santander Insurance DAC. The agreements between each relevant Debtor and the relevant insurer provide that the Debtor, subject to certain conditions,

may be entitled to a payment from the insurer in the case of accidental short-term disability, accidental hospitalisation, accidental death or involuntary unemployment.

The PPI Policies provide for payments of monthly premiums which are collected as an additional amount which is added to the Debtor's monthly Instalments but which is not included in the principal amount of the relevant HP Contract. The Debtor's corresponding payments in respect of the PPI Policy premium remain in the Issuer Collections Account and will be paid to the Seller on a monthly basis as these premium payments will not be sold to the Purchaser. In the event that a Debtor wishes to cancel his or her PPI policy, the monthly insurance premiums payable by the Debtor will be cancelled.

In the event of a (non-death) claim under a PPI Policy, the Debtor is obliged to inform the insurer directly, who will pay any eventual benefit claims directly to the Debtor. In the event of a death-related claim, the insurer will forward any claim proceeds to the beneficiary specified by the Debtor in the PPI Policy or, in the absence of a specified beneficiary, to the estate of the deceased.

HISTORICAL DATA

The following historical data sets out certain information in relation to the provisional entire portfolio of auto loan HP Contracts as of 30 September 2016.

1. STATIC CUMULATIVE GROSS DEFAULTS

For a generation of HP Contracts (being all HP Contracts originated during the same quarter), the cumulative gross defaults in respect of a month is calculated as the ratio of (i) the cumulative defaulted balance recorded between the month when such HP Contracts were originated and the relevant month, to (ii) the original balance of such HP Contracts. The definition of default includes HP Contracts that are written off or 180 calendar days delinquent, whichever is earlier. The cumulative defaulted balances are net of proceeds from the sale of repossessed vehicles when the sale occurs prior to the loan reaching 180 days delinquency or write-off.

2. STATIC CUMULATIVE RECOVERIES

For a generation of defaulted HP Contracts (being all HP Contracts defaulted during the same quarter), the cumulative recoveries in respect of a month is calculated as the ratio of (i) the cumulative recoveries recorded in each month following default for such HP Contracts that defaulted in the relevant period, to (ii) the gross defaulted balance of such HP Contracts that defaulted in the relevant period. Recoveries are primarily based on customer payments and proceeds on vehicle sales.

4. ANNUALISED PREPAYMENTS

At a given month, the annualised prepayment rate is calculated by raising one minus the monthly prepayment rate to the power of 12 and subtracting this number from one.

EXPECTED MATURITY AND AVERAGE LIFE OF NOTES AND ASSUMPTIONS

The expected average life of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes cannot be predicted with any degree of certainty as the actual rate at which the Purchased HP Contracts will be repaid and a number of other relevant factors are unknown.

Calculated estimates as to the expected average life of the Notes can be made based on certain assumptions. These estimates have certain inherent limitations. No representations are made that such estimates are accurate, that all assumptions relating to such estimates have been considered or stated or that such estimates will be realised.

The table below shows the expected average life of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes based on the pool amortisation profile at the Purchase Cut-Off Date and the following assumptions:

- (a) that the Purchased HP Contracts are subject to a constant rate of prepayment as shown in the table below;
- (b) that no Purchased HP Contracts are sold by the Purchaser except as contemplated in the Credit and Collection Policy;
- (c) that the Purchased HP Contracts continue to be fully performing;
- (d) that the Seller will exercise its right to repurchase the outstanding Purchased HP Contracts once the aggregate outstanding balance of such contracts falls below 10% of the aggregate outstanding balance of the Purchased HP Contracts on the Note Issuance Date in accordance with Clause 23.1 (*Optional repurchase*) of the Auto Portfolio Purchase Agreement and Note Condition 5.3(A)(i) (*Early redemption*);
- (e) that the Issuer will not exercise its right to redeem the Notes early for taxation reasons in accordance with Note Condition 5.4 (*Optional redemption for taxation reasons*);
- (f) that Balloon HP Contracts are repaid in full on maturity;
- (g) that the Note Issuance Date is 27 October 2016;
- (h) that the pool balance as at the Purchase Cut-Off Date was Euro 607,199,725.09;
- (i) that there are no Payment Holidays;
- (j) that the difference between the aggregate Note Principal Amount and the pool balance as of the Purchase Cut-Off Date will be advanced by the Seller to the Purchaser on the first Payment Date under the Purchaser Subordinated Loan;
- (k) that payments are made on the 25th day of each calendar month (subject to adjustment in accordance with the Business Day Convention); and

- (l) that the first Payment Date falls on 25 December 2016 (subject to adjustment in accordance with the Business Day Convention).

Constant Prepayment Rate in %	Expected Average Life for Class A (years)	Expected Average Life for Class B (years)	Expected Average Life for Class C (years)	Expected Average Life for Class D (years)	Expected Average Life for Class E (years)	Expected Average Life for Class F (years)

35	1.10	2.99	2.99	2.99	2.99	2.99

Assumption (a) above is stated as an average annualised prepayment rate, as the prepayment rate for one interest period may be substantially different from that for another. The constant prepayment rates shown above are purely illustrative and do not represent the full range of possibilities for constant prepayment rates.

Assumption (c) above relates to circumstances which are not predictable.

The average lives of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes are subject to factors largely outside of the Issuer's or the Purchaser's control and consequently no assurance can be given that the assumptions and estimates above will prove in any way to be realistic and they must therefore be viewed with considerable caution.

CREDIT AND COLLECTION POLICY

The following is a description of the Seller's credit and collection policies and practices with respect to HP Contracts (the "**Credit and Collection Policy**") as currently in effect. The Seller may change the Credit and Collection Policy from time to time provided that: (i) such change does not affect the Purchased HP Contracts, (ii) such change applies equally to Purchased HP Contracts and other HP Contracts and the Seller determines that such change would not be reasonably likely to have a material adverse effect on the validity or collectability of the Purchased HP Contracts or the Issuer's ability to make timely payment on the Notes or (iii) such change is required by applicable law or regulation.

Credit policies

All credit decisions follow the guidelines of the Credit Policy Manual, a document covering high-level policy, approval levels, organisation of the credit process, credit management routines, etc.

All applications are classified based on existing information, whether they are private individuals, individual enterprises or corporate clients. The Credit Policy Manual contains a set of business rules, describing policy rules and requirements for potential customers with regards to income, credit score, loan amount, terms, etc.

The Seller's risk analysis takes into consideration three types of risk:

- (a) customer risk, assessed based on the customer's character and capacity to repay each loan, among other things;
- (b) dealer risk, evaluated based on the amount of delinquencies and defaults on past applications presented by each origination source/dealer, among other things; and
- (c) product risk, considering the type of product, collateral, upfront payment, term and other business conditions.

Credit risk management

The Seller's risk management governance model is underpinned by the following Risk forums:

- (a) The Nordic Risk Department: Responsible for processing, analysing and making decisions on business proposals, and monitoring and supervising the risk of the bank's portfolio.
- (b) Local Credit Application Committee (LCAC), Finland: Comprised of the CRO Finland and the Underwriting Manager. The CEO, Finland and the Sales & Marketing Director, Finland participate upon request and need relating to the credit application in question. The LCAC is responsible for processing and resolving credit applications on all exposures related to stock financing, as well as all operations in excess of EUR 0.5 million, up to and including EUR 2 million. Applications exceeding EUR 2 million are processed in the LCAC and, if appropriate, recommended for approval to the Nordic Loan Committee (NLC). The LCAC convenes on a weekly basis and operates under a mandate provided by the NLC.

- (c) Nordic Loan Committee (NLC): Comprised of the CEO of SCB Nordic, the Nordic CRO and the CEO of Division Norway. Secretary to the Committee is the Nordic Credit Manager. The NLC is responsible for processing and resolving credit applications on all operations in excess of EUR 2 million up to and including EUR 4 million. Applications exceeding EUR 4 million are processed and, if appropriate, recommended for approval to the SCB Central Committee of the Nordics.
- (d) SCB Central Committee of the Nordics (CCC): Responsible for processing and resolving credit applications on all operations in excess of EUR 4 million up to and including EUR 10 million. Applications exceeding EUR 10 million are processed in the CCC and, if appropriate, recommended for approval to the SCF Loans Committee in Madrid.
- (e) Business Monitoring Committee (BMC): The purpose of the local BMC is to review the client and portfolio situation and evolution. The BMC convenes bi-weekly and on ad-hoc basis. Participants include the Chief Risk Officer (mandatory), the Underwriting Manager (mandatory) and the Collections Manager (mandatory). The BMC has a standard agenda and documentation, which is reviewed in each meeting. The BMC review consists of all dealers, stock finance limits and exposures greater than EUR 100,000 for both corporate and individuals. The source of public data comes from D&B (Dun & Bradstreet), where the Santander non-standardised corporate client portfolio is reviewed for any changes in rating, public payment remarks, change in paydex (payment behaviour), bankruptcy applications etc. This data is available on a client by client basis with exposure at Santander, Santander rating, D&B rating. Each client is reviewed for current and past payment behaviour at Santander. The communication between BMC and recovery management (collection) is easy and flexible as the Collections Manager is present in the BMC. Based upon the information presented in the BMC, actions are taken which can include, but are not limited to, further monitoring, termination of contract, collection department contacting client, Santander sales representative being informed or requested to provide further information, floor checks ordered, escalation to Senior Management Team (SMT) etc. The meeting minutes detail the decision for each of the clients reviewed.
- (f) Nordic Internal Control Committee (NICC): NICC is a management committee, established in accordance with the Norwegian Financial Supervisory Authority's general guidelines regarding steering and internal control and applicable Santander HQ frameworks / policies within this area. The main responsibilities of the NICC are to oversee the Seller's risk profile, including oversight of all risks, the establishment of appropriate internal control systems, and the compliance with laws, ordinances and internal regulations, as well as generally accepted practices or standards. The NICC shall ensure that proper actions are taken to manage and control risks within the Seller's risk appetite and that the operations are being conducted in compliance with governing regulations. One of the duties of the NICC is to approve policies and other steering documents from various levels within Santander and due to legal or regulatory requirements. The Seller's senior management team has the right to appoint and to replace members of the NICC. The CRO is the Committee's Chairperson. The voting members are the CEO, CRO, HR Legal & Compliance Director, T&O Director and Financial Control Director. Material changes to the credit policy are always subject to approval by NICC, the Seller's Board of Directors, and ultimately the SCF Executive Committee in Madrid. *Underwriting process*

The underwriting process is divided between Standardised and Non-Standardised exposures.

Non-Standardised Risk operations are supervised by the Underwriting team, consisting of one Underwriting Manager and two FTE Credit Analysts.

The underwriting process for Standardised Risk operations is de-centralised, according to a pre-defined credit authority structure shown below.

Decision level	Limit by application/client
Chief Risk Officer (Finland), Chief Executive Officer (Finland)	EUR < 1,000,000
UW Specialist, Underwriting Manager	EUR < 350,000 / 500,000
Sales Managers & Directors	EUR < 75,000
Caseworkers	EUR < 30,000 / 50,000 / 75,000 / 80,000

Caseworkers are responsible for reviewing credit applications received through Preview (SCF Finland's front end computer system) and for also maintaining contact with car, van, camper, caravan and motorcycle dealers. The collection of data/applications is performed automatically to Preview, or via phone, fax, mail or email.

Caseworkers are on duty between 8:00 am and 7:00 pm on working days and 10:00 am to 3:00 pm on Saturdays. Applications received by 7:00 pm on working days are normally processed the same day.

From 1 January 2016 to 31 July 2016, 65,125 applications were processed, which amounts to a weekly and daily average of 2,170 and 311 applications respectively. 91,26 per cent. of these were approved.

The cause of most rejections are due to either (a) registered payment remarks against the applicant and/or the applicant having a bad credit history with the Seller or (b) the application scoring below the minimum credit score threshold level.

Scoring system

The Seller utilises a front end system called Preview, which relies on a decision engine called PANDE (Pan Nordic Decision Engine). PANDE is the decision engine across the Nordics, a common engine for credit decisions, which collects internal and external data in a standardised Credit Case document. The decision tool is Capstone Decision Accelerator (CDA) from FICO (in May 2015 CDA has been replaced by Decision Module (DM), also from Fico). All policy rules and scorecards are configured and maintained in the CDA. Although centrally managed by Oslo for use on a Pan Nordic basis, the specific scorecard for Santander Consumer Finland was developed using Finnish auto loan performance data.

The system automatically leads the applications through a set of pre-defined rules (credit scoring), and approves them if a certain score is achieved. A higher score indicates higher expected credit

quality of an applicant. PANDE also automatically controls every application based on a variety of pre-defined policy rules covering items such as a customer's credit history, anti-money laundering, fraud and capital adequacy requirements.

Applications can receive one of three outcomes: approved, control or rejected.

Applications receiving a control outcome are referred to an underwriter for further review. The rationale for not relying only on a credit score relates to the market setup where only negative bureau data is available and the customer applies for the loan at the dealer premises. Control cases from a policy rule perspective relate to cases in which the customer is young, has negative payment remarks, has previously rejected applications, scores low, is unemployed or a student, has made an application with a low down payment or a high financed amount or falls into one or more other categories. Applications receiving a control outcome may be approved by underwriters, usually following modification of the application by, among other modifications, increasing the down payment, offering a loan for a smaller or less expensive vehicle or requiring a co-signatory.

The external data that is sourced to the credit case relates to credit record information for private individuals (checks for external payment remarks) and census bureau data (name verification, social security number verification, marital status, address, time at current address, potentially memberships in board of directors and rating of companies). For corporations, the underwriting procedure includes a review of the latest financial records, rating information, composition of the board of directors, external payment remarks and the paydex service (an indicator of how many days past due a company pays its bills on average). The data is provided electronically by Bisnode (Dun & Bradstreet) through the PANDE system.

Collection process

When a borrower enters into arrears, an automated process of reminder letters is initiated requesting payment of outstanding instalments.

Instalment due dates for HP Contracts fall throughout the month, and reminder letters are dispatched from the Seller automatically. The first reminder is dispatched when the instalment is more than 14 calendar days delinquent. It involves a late payment fee of EUR 5 together with instalment penalty interest.

If instalments are still outstanding 60 calendar days after the first due date, a notice of termination of the HP Contract is dispatched. The notice of termination involves an additional termination fee of EUR 100 for private persons and EUR 200 for corporations, and instalment penalty interest. In respect of private persons, the additional termination fee must equal the actual reasonable collection costs, if these costs are less than EUR 100.

In parallel with the automated reminder letter process, the outsourced pre-collection teams contact delinquent customers by phone and SMS before the internal team terminates and transfers the case to external collection.

The external collection agencies are paid based on the amount collected, commissions and charges. They report daily, weekly and monthly on the results of the calls, including the number of "promise to pay" agreements made.

The Risk team tracks and analyses performance of the outsourced pre-collection teams. Through active management and requesting better performance and additional resources from the outsourced team, the activity levels have continued to improve during the last 12 months.

The whole contract can be terminated when several instalments amounting to 5 per cent. of the original financed amount are delinquent, which means that, for normal auto finance contracts, this will correspond to 60 calendar days past due from the first instalment due date. At termination of the contract, invoicing and interest calculation is suspended in the Seller's systems. See "*Legal Matters – Finland – Enforcement of Purchased HP Contracts and repossession of Financed Vehicles*".

Once the loan termination has been issued, the repossession agent will repossess the asset in case the customer does not pay the amount due. The repossession is in most cases a relatively swift process (one to two months) and assistance by government authority can be requested. The asset is then returned to Santander and the official evaluation by the government agency determines the value of the vehicle. The government agency conducts a thorough assessment of the value of the collateral based on similar vehicles in the market with similar mileage, condition and estimation of repairs needed, with both parties (debtor and creditor) able to attend the valuation. In some instances the collateral is inspected physically by the government agency, in others, it is based on a full suite of photographs. Based on this value, the loss booking will be made. If the valuation is less than the outstanding balance (together with the repossession costs, default interest and certain other items), this results in a loss booking (majority of cases). However, should the valuation exceed the outstanding balance (added with the repossession costs, default interests and certain other items), the difference is returned to the customer by Santander via the government agency. Any excess balance can be collected from the customer through legal collection processes. The asset will then be sold through auction or an indirect channel (dealer), where the average time to sell from the point of repossession is approximately three months. See "*Legal Matters – Finland – Finnish rules on statement of accounts in case of repossession of Financed Vehicles*".

Of the 5,705 loan contracts which defaulted from January 2008 to June 2016, 502 contracts resulted in an official valuation which exceeded the book value of the contract at the point of default. The average excess amount for those 502 contracts was EUR 3,155.

After loss booking, the residual balance of the contract is transferred to an external debt collection agency for legal debt collection on behalf of SCF Finland.

SCF Finland conducts regular bad debt sales (twice a year, typically) where written-off debts are sold to the highest bidder through an auction process (with no forward flow agreement).

Finland is generally regarded as having a good legal environment for collection. Generally, a claim can be settled even after many years, as long as the claim is renewed continuously, i.e. the debtor is reminded of their debt through e.g. collection letters and other collection measures. Unless renewed, a claim will, generally, fall under the statute of limitations after three years. Once a court ruling has been obtained, personal debtors in Finland will be generally responsible for their debt for up to 15 years from the court ruling, i.e. the ground for execution (fi: "*ulosottoaperuste*") (exceptions to this general rule include an extension of the period up to 20 years in situations where the creditor is a private individual or the claim for compensation is based on a criminal offence for which the debtor was sentenced to prison or community service). In situations where

the debtor has substantially impeded the payment of the debt, the period may be prolonged for up to 10 years through a separate court decision. Where no court decision has been obtained, a monetary debt of a personal debtor will finally fall under the statute of limitations in 20 years from the due date of the debt.

Payment holidays

The Seller operates a policy of offering payment holidays of up to two monthly instalments per calendar year to private customers. A payment holiday can be given for up to three months if illness or unemployment can be documented. The decision to offer a payment holiday is made in accordance with internal guidelines and applicable law. These guidelines state that, subject to applicable law, the customer must be current and must have had no more than one reminder during the last three months. The underlying agreement must also have been originated more than six months before the payment holiday. During the payment holiday only interest is paid by the customer and the original contract term is extended by the amount of the payment holiday.

The granting of payment holidays is performed in accordance with internally defined procedures, including payment history checks. A fee of EUR 20 is currently charged per monthly instalment subject to a repayment holiday.

Payment plan changes

The monthly payments in respect of a contract can be reduced upon customer request. The granting of reduced monthly payments is performed in accordance with internally defined procedures and guidelines. According to these guidelines, the monthly payment can be reduced either by extending the original loan period or by increasing the residual value of the loan. The increased residual value cannot exceed the original credit policy maximum for balloon payments or the value of the vehicle.

Payment plan changes are not available simultaneously with payment holidays. Additionally, all actions which extend the original loan period cannot extend it for more than 10 months.

THE SELLER AND THE SERVICER

Incorporation and ownership

Santander Consumer Bank AS (“**SCB AS**”) is a private limited liability company based in Norway. SCB AS’s current structure was established in 2005, after Santander Consumer Finance, S.A. (“**SCF S.A.**”) acquired Elcon Finans AS and Bankia Bank AS, and merged the two companies. SCB AS is 100% owned by SCF S.A. (a subsidiary of Banco Santander, S.A.).

Following the acquisition of Elcon Finans AS, SCF S.A. demerged and sold Elcon Finans AS’s factoring business, but retained its car finance business. Following this, Bankia Bank AS was acquired and merged with Elcon Finans AS to form SCB AS.

SCB AS is a pan-Nordic concern, with branches in Sweden and Denmark, and one 100% owned subsidiary in Finland. Formal incorporation was 29 June 2001, the incorporation date of Bankia Bank AS, the formal acquiring company in the merger of Elcon Finans AS and Bankia Bank AS.

Elcon Finans AS’s core business was within the Norwegian leasing, car financing and factoring sectors, in which it had specialised since the 1960s. The company established a Swedish branch in 2000.

Bankia Bank AS was a small Norwegian bank focused entirely on credit cards. The owners developed a lean organisation with low operating costs, and it was the first bank in Norway to offer independent non-fee Visa credit cards.

In 2007, Santander established a presence in both Denmark and Finland, strengthening its position in the Nordic region. At the end of 2015, the SCB AS Nordic Group had total assets of NOK 125.5 billion and 1,410 employees.

The Seller, Santander Consumer Finance Oy (“**SCF Oy**”), is the Finnish business unit within SCB AS’s Nordic Group. SCF Oy consists of three profit areas: “Auto”, “Consumer Loans” and “Durables”. SCF Oy further acts as an insurances intermediary for Financial Insurance Company Limited, Fennia Mutual Insurance Company and Santander Insurance Europe Limited.

The Auto profit area represents a green field operation started in Finland in 2007, as well as the “Auto Retail Finance” arm of GE Money Oy, which was acquired in 2009. The Consumer Loans profit area is based upon the Consumer Loan business acquired in the GE Money Oy acquisition.

Retail finance primarily includes financing of (new and used) cars, caravans, motor homes, boats and motorcycles. Cars represent the most significant proportion of both historical and new sales and account for approximately 85.3 per cent. of new sales. Retail financing is provided to both individuals and corporate customers.

Wholesale finance includes the financing of (new and used) cars, both demo and stock vehicles for car dealers.

SCF Oy is a market leader in the car and leisure financing sector in Finland, with a current market share of 32 per cent. as of June 2016. The profit area Consumer Loans currently commands a market share of approximately 8.8 per cent..

In June 2014, SCF S.A signed a definitive agreement with GE Money Nordic Holding AB to acquire GE Capital business in the Kingdom of Norway, Sweden and Denmark (GE Money Bank AB). The acquisition took place in November 2014 after regulatory approval. Hereafter, GE Money Bank AB was renamed Santander Consumer Bank AB.

The merger between Santander Consumer Bank AS and Santander Consumer Bank AB was completed as per July 1st 2015, with Santander Consumer Bank AS the surviving entity.

The acquisition is not expected to have any material impact on SCF Oy's auto loan business or its servicing platform.

Downpayment

The Seller does not operate a rigid minimum downpayment policy, but applies minimum downpayment requirements based upon considered risk criteria. The weighted average downpayment amount for loans within the proposed securitisation portfolio is 18.8 per cent. as at close of business on 9 October 2016.

Interest rates

Interest rates for the Car & Leisure Finance products are fixed for the contract period except for stock finance, in which a fixed margin over three month EURIBOR is used. The reference rate is updated monthly.

Consumer Loans are floating rate with a fixed margin over three month EURIBOR. The reference rate is updated at the beginning of each quarter.

Instalments

HP Contracts offered by SCF Oy are, in general, offered for a maximum period of 60 months. HP Contracts are repayable in monthly instalments. Only HP Contracts with a minimum residual term of three months will be included in the Portfolio.

Insurance

The Seller requires that all Financed Vehicles are insured with fully comprehensive motor insurance. As at close of business on 9 October 2016, 100 per cent. by value of HP Contracts within the proposed portfolio have fully comprehensive insurance in place. The Seller markets motor insurance to Debtors on a voluntary basis.

The PPI Policies are also marketed on a voluntary basis to Debtors. The PPI Policies include life, unemployment and long-term illness protection. The Seller operates a revenue sharing agreement, where it retains a proportion of insurance premium revenues.

The PPI Policies provide for payments of monthly premiums which are collected as an additional amount which is added to the Debtor's monthly Instalments but which is not included in the principal amount of the relevant HP Contract. The Debtor's corresponding payments in respect of the PPI Policy premium remain in the Issuer Collections Account and will be paid to the Seller on a monthly basis as these premium payments will not be sold to the Purchaser. In the event that a

Debtor wishes to cancel his or her PPI Policy, the monthly insurance premiums payable by the Debtor will be cancelled.

In the event of a (non-death) claim under a PPI Policy, the Debtor is obliged to inform the insurer directly, who will pay any eventual benefit claims directly to the Debtor. In the event of a death-related claim, the insurer will forward any claim proceeds to the beneficiary specified by the Debtor in the PPI Policy or, in the absence of a specified beneficiary, to the estate of the deceased.

Origination

The Seller is the leading provider of financial services to all participants along the car distribution chain in the Finnish market, from the importer to the end customer.

This position has been achieved by following a strategy of full integration in the car market, and through establishing a comprehensive set of products specifically designed to satisfy the financial needs of all the parties involved in the value chain. Being the market leader for the last three years has allowed the company to develop strong business relationships with all market participants: importers, dealers and end customers.

The Seller's origination strategy can be summarised thus:

- (a) strong relations to the car dealer network;
- (b) agreements with all major participants in Finnish market;
- (c) full product portfolio;
- (d) stock finance used/new;
- (e) strong sales force covering all of Finland; and
- (f) dealer training.

SCF Oy employs an indirect distribution channel through co-operating Dealers. There are approximately 670 Dealers with co-operation agreements.

LEGAL MATTERS — FINLAND

The following is a general discussion of certain Finnish legal matters. This discussion does not purport to be a comprehensive description of all Finnish legal matters which may be relevant to a decision to purchase Notes. This summary is based on the laws of Finland currently in force and as applied on the date of this Prospectus, which laws are subject to change, possibly also with retroactive or retrospective effect.

Prospective investors are requested to consider all the information in this Prospectus (including “*RISK FACTORS*”), make such other enquiries and investigations as they consider appropriate and reach their own views prior to making any investment decisions.

Transfer of HP Contracts to the Purchaser

Under Finnish law and the terms and conditions of the Purchased HP Contracts, the Purchased HP Contracts may be freely transferred by way of ownership or security. A notification to each of the Debtors is, however, required in order to perfect the transfer of the Purchased HP Contracts and for such transfer to be effective against the Seller’s creditors and other third parties, including bankruptcy creditors. After the delivery of the notice, the Debtors may no longer settle their debt by payment to the Seller and subsequently claim protection of payment against the Purchaser.

Pursuant to the Auto Portfolio Purchase Agreement, the Seller has undertaken to procure that, when completed in accordance with the Auto Portfolio Purchase Agreement, the sale and transfer of the Purchased HP Contracts obtains legal perfection by virtue of a notification to be mailed to each of the Debtors on or about the Purchase Date.

As security for the loans under the Purchased HP Contracts, the Seller has retained title to the Financed Vehicles. The transfer of title to the Financed Vehicles to the Purchaser is to be perfected through notification to the holders of the vehicles. In addition, the Purchaser shall be registered as the owner of the Financed Vehicles in the Vehicle Register.

As purchaser of the Financed Vehicles, the Purchaser will not, unless it has become the holder of a Financed Vehicle through repossession, be liable for costs relating to the use, servicing or maintenance of the Financed Vehicle. However, the Purchaser may in certain circumstances incur liability for the costs of towing of the Financed Vehicle if such costs are not duly paid by the holder of the Financed Vehicle. Further, should a holder of a Financed Vehicle have failed (contrary to the terms of the relevant Purchased HP Contract) to subscribe to a mandatory traffic insurance policy (*fi: liikennevakuutus*), the Purchaser may incur secondary liability for compensation (*fi: hyvike*) corresponding to the insurance premium for such traffic insurance (and a penalty) if such compensation cannot be collected from the holder of the Financed Vehicle. From 1 January 2017, the compensation payable will include an omission fee (*fi: laiminlyöntimaksu*) and a fee that corresponds to the insurance premium (*fi: vakuutusmaksua vastaava maksu*).

Grant of security over the Portfolio by the Purchaser to the Issuer

Pursuant to the Purchaser Security Documents, the Purchaser will grant security over its assets, including the Portfolio, to the Purchaser Security Trustee for the benefit of the Purchaser Secured Parties or to the Purchaser Secured Parties, as applicable. In order to make the sale of the Purchased HP Contracts and the pledge of the Purchaser’s right, title and interest in the

Purchased HP Contracts in favour of the Purchaser Secured Parties effective in relation to third parties, notifications of such sale and subsequent pledge must be sent to the Debtors and the holders of the Financed Vehicles with instructions to make payments under the Purchased HP Contracts directly to the Issuer Collections Account. Further, the Finnish Transport Safety Agency must be notified of the transfer of title to the Financed Vehicles. Such notifications will be posted to Debtors and the holders of the Financed Vehicles on or about the Purchase Date and to the Finnish Transport Safety Agency on or prior to the date falling seven days after the Purchase Date.

Existing rights of Debtors

Following the Purchase Date, a Debtor will be entitled to invoke the same objections and defences relating to a Purchased HP Contract against the Purchaser (or any party having a security interest in the Purchased HP Contracts) as the Debtor was entitled to invoke against the Seller on or prior to the Purchase Date or against the relevant Dealer on or prior to the date on which the Seller purchased the relevant Purchased HP Contract from the relevant Dealer. In the event that a Debtor has a claim against the Seller or the relevant Dealer, the Debtor may be allowed to set-off the amount of such claim against any amount outstanding under the relevant Purchased HP Contract if the Debtor had such a claim before the Debtor was notified of (or otherwise became or should have become aware of) the transfer of the Purchased HP Contract by the Seller or, respectively, the Dealer. Claims which a Debtor may have against a Dealer may include, for example, claims for mis-selling of, or defects in, the relevant Financed Vehicle. Such claims may arise as a result of incomplete or inaccurate information being provided in respect of a Financed Vehicle at the point of sale and/or as a result of faulty design, manufacture or maintenance of the Financed Vehicle, and similar claims may arise in respect of multiple Financed Vehicles or an entire class of Financed Vehicles (for example, it is alleged that a significant number of models manufactured by members of the Volkswagen corporate group contain software which produces anomalous results in emissions and fuel consumption tests).

A Debtor who is a consumer under Finnish law is, pursuant to Chapter 7, Section 39 of the Finnish Consumer Protection Act, able to direct against the Seller any claim the Debtor may have against the Dealer of the relevant Financed Vehicle as a result of the purchase from the Dealer. Pursuant to a Finnish Supreme Court ruling, non-consumer Debtors also may in some circumstances be entitled to invoke similar claims against the Seller. Therefore, following the Purchase Date, the Purchaser will be exposed to the same liability in respect of such claims as the Dealer of the relevant Financed Vehicle under the relevant sales contract and any applicable law of sales, e.g. a claim relating to a Financed Vehicle defect. However, non-contractual claims, such as, for example, claims relating to a personal injury, cannot be brought against the Purchaser, even if such injury were caused by, or in connection with, the use of a Financed Vehicle. The Debtor can, furthermore, only bring monetary claims against the Purchaser, and not claims for specific performance, and the Purchaser's liability is limited to the amount the Seller and, after the Purchase Date, the Purchaser has received from the relevant Debtor in connection with the relevant Financed Vehicle, meaning that the Purchaser's liability can never exceed the total amount payable under the relevant Purchased HP Contract.

One of the Eligibility Criteria is that each Purchased HP Contract is not subject to any right of revocation, set-off or counter-claim or warranty claim of the Debtor or any other right of objection. If any Purchased HP Contract failed to comply with the Eligibility Criteria as at the Purchase Cut-Off Date and if such non-compliance constitutes a Seller Asset Warranty Breach, the Seller will

be required to repurchase such Purchased HP Contract for an amount equal to at least the then Outstanding Principal Amount of such Purchased HP Contract. See *“OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Auto Portfolio Purchase Agreement”*.

Enforcement of Purchased HP Contracts and repossession of Financed Vehicles

Each Purchased HP Contract provides for retention of the title to the relevant Financed Vehicle until all payments under the Purchased HP Contract have been made in full. In the event of a Debtor's default on a Purchased HP Contract, the Purchaser (or any party having a security interest in the Purchased HP Contract) may have to enforce the Purchased HP Contract through repossession of the relevant Financed Vehicle. Enforcement of Purchased HP Contracts and repossession of Financed Vehicles are subject to the provisions of the Enforcement Code and the Act on Hire Purchases as well as, in the case of consumers, the Consumer Protection Act, the application of which may delay or prevent enforcement of the Purchased HP Contracts and repossession of the Financed Vehicles and which regulate the amounts that are credited in favour of the Debtor and in favour of the repossessioning party in accordance with a statement of accounts required to be made in connection with any repossession.

Where a Debtor is a consumer under the Finnish Consumer Protection Act, enforcement of the Purchased HP Contract and the repossession of the relevant Financed Vehicle in the event of a default by the Debtor is subject to the following restrictions under Chapter 7, Section 33 of the Consumer Protection Act:

- (a) both:
 - (i) one month or more must have passed since the date on which payment should have been made and the payment remains outstanding; and
 - (ii) the defaulted amount due for payment must amount to at least ten per cent., or, if the amount due includes several instalments, at least five per cent. of the total amount of the original credit or constitute the creditor's entire remaining claim; or
- (b) six months or more must have passed since the date on which payment should have been made and the defaulted payment must remain outstanding, in whole or in significant part,

and, in each case, repossession must not be unreasonable because of the Debtor's personal force majeure under Chapter 7, Section 34 of the Consumer Protection Act.

Approximately 82.5% of the Purchased HP Contracts have been granted to Debtors who are consumers under Finnish law.

Where a Debtor is not a consumer under the Consumer Protection Act, enforcement of the Purchased HP Contract and the repossession of the relevant Financed Vehicle in the event of a default by the Debtor is subject to the following restrictions under Section 2 of the Act on Hire Purchases:

- (a) 14 calendar days or more must have passed since the date on which payment should have been made and the payment remains outstanding; and

- (b) the defaulted amount due for payment must amount to at least ten per cent., or, if the amount due includes several instalments, at least five per cent., of the total amount of the original credit, or must constitute the creditor's entire remaining claim,

and repossession must not be unreasonable because of the Debtor's personal force majeure and the Debtor must not have made full payment of the amounts outstanding under the Purchased HP Contract prior to the repossession taking place.

Approximately 17.5% of the Purchased HP Contracts have been granted to Debtors who are companies or otherwise not classified as consumers under Finnish law.

In respect of Debtors who are consumers, Chapter 7, Section 34 of the Consumer Protection Act prohibits enforcement of the Purchased HP Contracts and, accordingly, repossession of the Financed Vehicles by the Purchaser (or any party having a security interest in the Purchased HP Contracts) upon default by a Debtor if the default is due to the illness or unemployment of the Debtor or to another comparable circumstance which is beyond the Debtor's control, except where, considering the duration of the delay of payments and the other circumstances, this would be perceptibly unreasonable to the Purchaser. In respect of Debtors who are not consumers, the Act on Hire Purchases prohibits enforcement in the event that repossession would be unreasonable considering the Debtor's financial difficulties resulting from illness, unemployment or other particular circumstances beyond the Debtor's control, and the Debtor pays any amount due for payment, including interest, and reimburses the costs caused by the delay of payment, before the repossession has been implemented.

Further, in respect of all Debtors, the Finnish enforcement authority may postpone enforcement and repossession proceedings for a maximum of four months in the event that it is perceived that the financial difficulties of a Debtor result from personal force majeure reasons specified above and such difficulties can be presumed to be temporary, except where this would prejudice the Purchaser's rights to the relevant Financed Vehicle or would otherwise unreasonably violate the rights of the Purchaser.

Finally, repossession of the Finance Vehicle may be delayed or prevented in the event that a third party has a right of retention over the Financed Vehicle. The right of retention means that a service provider who has stored a Financed Vehicle or prepared or carried out any reparation, maintenance or similar work on a Financed Vehicle has the right to hold the Financed Vehicle in its possession until the services have been paid for in full.

Insolvency law

The primary insolvency proceedings for corporate entities under Finnish law are bankruptcy (fi: "*konkurssi*") or corporate reorganisation (fi: "*yrittysaneeraus*") proceedings. In the event of bankruptcy of a corporate Debtor, the bankruptcy estate is vested with the right to elect whether or not to remain bound by the Purchased HP Contract. If the estate chooses to continue the Purchased HP Contract, the bankruptcy estate will have to make full payment of any unpaid amounts due under the Purchased HP Contract and will continue to exercise the Debtor's rights and obligations thereunder, and the Purchaser will not be entitled to repossess the Financed Vehicle. However, if the bankruptcy estate resolves to terminate the Purchased HP Contract, the Purchaser may repossess the relevant Financed Vehicle, in which case a statement of accounts shall be prepared in accordance with the Act on Hire Purchases.

In the event of a corporate reorganisation of a corporate Debtor, repossession may be prohibited by mandatory provisions of law. Pursuant to the Act on Company Reorganisation, after the commencement of company reorganisation proceedings against a Debtor, repossession of Financed Vehicles from that Debtor is prohibited and any repossession proceedings that have already been initiated are stayed and resale of already repossessed Financed Vehicles prohibited until the restructuring programme has been approved by the court or the company reorganisation proceedings have been terminated. The restructuring programme, once approved by the court having jurisdiction over the Debtor, may adjust the terms and conditions of the Purchased HP Contract, such as by postponing the maturity or reducing the interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle at the time of commencement of the company reorganisation proceedings. Similarly, for a Debtor that is subject to the resolution regime for financial institutions, the resolution authority may suspend the termination of the HP Contracts or adjust the terms and conditions of the Purchased HP Contract, such as by postponing the maturity or reducing the interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle.

In the event of adjustment of the debts of a Debtor who is a natural person, repossession may be prohibited by mandatory provisions of law. Pursuant to the Act on the Adjustment of the Debts of a private individual, after the commencement of debt adjustment proceedings against a Debtor, repossession of any Financed Vehicle from that Debtor is prohibited and any repossession proceedings that have already been initiated are stayed and resale of already repossessed Financed Vehicles prohibited until the adjustment programme has been approved by the court or the application for debt adjustment denied. The adjustment programme, once approved by the court having jurisdiction over the Debtor, may adjust the terms and conditions of the Purchased HP Contract, such as by postponing maturity or reducing interest, but may adjust the principal amount only to the extent that it exceeds the value of the relevant Financed Vehicle at the time of commencement of the debt adjustment proceedings.

Finnish rules on statement of accounts in case of repossession of Financed Vehicles

When repossessing a Financed Vehicle, the Purchaser (or the Finnish Pledge Authorised Representative if the repossession is made by it) (with the aid of the Servicer) will, pursuant to the Act on Hire Purchases and the Consumer Protection Act, be required to agree with the Debtor a statement of accounts, failing which the statement of accounts may be drawn up and imposed on the parties by the Finnish enforcement authority.

In the case of a Debtor who is a consumer, in the statement of accounts, the value of the relevant Financed Vehicle at the time of repossession (assuming reasonable maintenance and repair) shall be credited in favour of the Debtor. Correspondingly, (i) the total amount outstanding under the Purchased HP Contract, reduced by such portion of the interest and other credit costs as are attributable to the time between the repossession and the initial final maturity date of the Purchased HP Contract; (ii) default interest on the delayed payments, (iii) direct expenses caused by the repossession and (iv) any compensation to which the Purchaser may be entitled for maintenance or repair of the Financed Vehicle, shall be credited in favour of the Purchaser. If the total amount credited in favour of the relevant Debtor exceeds the total amount credited in favour of the Purchaser, the relevant Financed Vehicle may be repossessed only provided that the difference is paid to the Debtor or deposited with the Finnish enforcement authority in favour of the Debtor. Where the total amount credited in favour of the relevant Debtor is less than the total amount credited in favour of the Purchaser, the Purchaser may, in addition to repossession of the

Financed Vehicle, claim compensation only for such difference. Such difference constitutes an unsecured claim against the Debtor.

In the case of a Debtor who is not a consumer, in the statement of accounts, the value of the relevant Financed Vehicle at the time of repossession (assuming reasonable maintenance and repair) shall be credited in favour of the Debtor. Correspondingly, (i) the total unpaid amount that, at the time of repossession, is due for payment under the Purchased HP Contract, (ii) the total unpaid amount that, at the time of repossession, is not yet due for payment under the Purchased HP Contract multiplied by an amount equal to (A) the cash price of the Financed Vehicle, divided by (B) the total amounts payable under the Purchased HP Contract, (iii) such interest and compensation for insurance premiums that the Purchaser may be entitled to, (iv) costs for the repossession and (v) any compensation to which the Purchaser may be entitled for maintenance or repair of the Financed Vehicle, shall be credited in favour of the Purchaser. If the total amount credited in favour of the relevant Debtor exceeds the total amount credited in favour of the Purchaser, the relevant Financed Vehicle may be repossessed only provided that the difference is paid to the Debtor or deposited with the Finnish enforcement authority in favour of the Debtor. Where the total amount credited in favour of the relevant Debtor is less than the total amount credited in favour of the Purchaser, the Purchaser may, in addition to repossession of the Financed Vehicle, claim compensation only for such difference. Such difference constitutes an unsecured claim against the Debtor.

Further, if, upon repossession of a Financed Vehicle, the relevant Debtor within 14 calendar days of presentation of the statement of accounts pays the amount which stands to credit in favour of the Purchaser, the repossessed Financed Vehicle must be returned to the possession of the relevant Debtor.

Restrictions of Purchaser's title to Financed Vehicles

While legal title to each Financed Vehicle is vested with the Purchaser under the Purchased HP Contracts, the Purchaser is not, prior to the repossession of a Financed Vehicle, entitled to sell or otherwise dispose of the Financed Vehicle, whether voluntarily or involuntarily, or to pledge or create other encumbrances over the Financed Vehicles on a stand-alone basis separately from the claims against the Debtors under the Purchased HP Contracts. In the event of enforcement of claims of a creditor, including those of the Issuer, against the Purchaser or in the event of the insolvency of the Purchaser, only the Purchased HP Contracts, but not the Financed Vehicles separately from the claims against the Debtors under the Purchased HP Contracts, may be realised to settle the Purchaser's obligations.

General consumer law considerations

Under to the Consumer Protection Act, any contractual terms that are deemed unfair from the point of view of consumers may be mitigated or set aside. Contractual terms which conflict with the mandatory provisions of the Consumer Protection Act to the detriment of the consumer are void.

Pursuant to Chapter 7 of the Consumer Protection Act, a creditor providing consumer credit must act responsibly. In particular, the creditor must:

- (a) not market credit in a manner that is likely to significantly impair a consumer's ability to carefully consider the credit;
- (b) not use the granting of credit as the main marketing tool when marketing other consumer goods;
- (c) not use additionally charged text messages or other similar messaging when marketing or granting credit or when otherwise communicating with the consumer in relation to the credit;
- (d) before concluding a credit agreement, provide the consumer with adequate and clear information to allow the consumer to assess whether the credit meets his or her needs and his or her financial situation; and
- (e) in the event of payment delays, provide the consumer with information and advice to prevent further payment difficulties and insolvency, and consider payment arrangements in a responsible manner.

Under Finnish law, the Consumer Protection Ombudsman may bring a class action on behalf of a group of consumers having a claim against the same party based on the same or similar grounds, such as, for example, a defect in similar consumer goods or the interpretation of standard contractual terms. Consumers must opt in to participate in a class action. A judgment rendered by the Court will be binding on all members of the group.

TAXATION

The following is a general discussion of certain Finnish and Irish tax consequences of the acquisition, ownership and disposition of Notes. This discussion does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws and taxation practice of Finland and Ireland currently in force and as applied on the date of this Prospectus, which are subject to change, possibly also with retroactive or retrospective effect.

PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISERS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES AND THE RECEIPT OF INTEREST THEREON, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS OF FINLAND AND IRELAND AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS OR CITIZENS.

Taxation in Finland

The following is a summary of certain Finnish tax consequences for holders of the Notes who are residents of Finland for tax purposes. The summary is based on the assumption that the issue price is equal to 100 per cent. of the principal amount of the Notes.

The summary covers only the tax consequences of the acquisition, ownership and disposition of the Notes by individuals who are residents of Finland taxed in accordance with the Finnish Income Tax Act and by Finnish limited liability companies taxed in accordance with the Finnish Business Income Tax Act. The summary does not cover situations where there are, inter alia, unrealised changes in the values of the Notes that are held for trading purposes. This summary addresses neither Finnish gift nor inheritance tax consequences. The tax treatment of each holder of the Notes partly depends on the holder's specific situation. This means that special tax consequences, which are not described below, may arise for certain categories of holders of the Notes as a consequence of, for example, the effect and applicability of foreign income tax rules or provisions contained in an applicable double taxation treaty.

Each prospective investor should consult a tax adviser as to the tax consequences relating to its particular circumstances resulting from acquisition, ownership and disposition of the Notes.

Withholding tax

There is no Finnish withholding tax (fi: *lähdevero*) applicable on payments made by the Issuer under the Notes.

However, Finland operates a system of preliminary taxation (fi: *ennakonpidätysjärjestelmä*) to secure payment of taxes in certain circumstances. In the context of the Notes, a tax of 30 per cent. would generally be deducted and withheld from all payments treated as interest or compensation comparable to interest, were such payments to be made by a Finnish paying agent to individuals. Any preliminary tax (fi: *ennakonpidätys*) will be used for the payment of the individual's final taxes (which means that they are credited against the individual's final tax liability).

Taxation of Individuals

All capital income of individuals — including capital gains — is currently taxed at a rate of 30 per cent. and 34 per cent. for capital income exceeding EUR 30,000. Capital losses arising from disposals of assets are primarily deductible from capital gains arising in the same year and the five following tax years. However, capital losses incurred during a tax year that cannot be fully deducted from capital gains may secondarily be deducted from other capital income in the same tax year. If capital losses cannot, in accordance with the procedure described above, be fully deducted in the tax year of the loss, any remaining unused capital losses can be carried forward for five tax years. Any carried forward capital loss will use the same tax procedure as any future capital loss. Accordingly, any carried forward capital loss must first be deducted from capital gains with the remainder (if any) being deducted from other capital income.

Taxation of interest

Any interest paid on the Notes whilst they are outstanding or upon redemption would constitute capital income of the individual.

Taxation upon disposal or redemption of the Notes

Individuals

A gain arising from a disposal of the Notes would constitute a capital gain for individuals. Upon a disposal of the Notes, an amount corresponding to the interest for the period from the last interest payment date to the date of disposal of the Notes should normally for tax computational purposes be deducted from the sales price in order to determine the amount that would be treated as “ordinary” capital income instead of a capital gain.

Return of capital (i.e. the principal amount of the Notes) at redemption would not trigger capital gains taxation. However, any interest paid on the Notes upon redemption will be taxed as described under “**Taxation of interest**” above.

A loss from a disposal or redemption of the Notes would constitute a tax deductible capital loss. Capital gains arising from a disposal of assets, such as the Notes, are exempted from tax provided that the sales prices of all assets sold by the individual during the calendar year do not, in the aggregate, exceed EUR 1,000. Correspondingly, capital losses are not tax deductible if the acquisition cost of all assets disposed of during the calendar year does not, in the aggregate, exceed EUR 1,000 and the aggregate sales prices do not exceed EUR 1,000.

Corporate entities

Any income received from a disposal and/or redemption of the Notes would constitute, as a general rule, part of the limited liability company's taxable business income. A limited liability company is subject to a corporate income tax, currently at the rate of 20 per cent. for its worldwide taxable income.

The acquisition cost of the Notes (including the purchase price and costs) and any sales related expenses are generally deductible for tax purposes upon disposal or redemption. Accordingly,

any loss due to disposal or redemption of the Notes would be deductible from the taxable business income.

Any interest paid on the Notes whilst they are outstanding or upon redemption would constitute part of the limited liability company's taxable business income.

Wealth taxation

No wealth taxation is applicable in Finland.

Transfer tax and VAT

Transfers of the Notes are not subject to transfer tax or stamp duty in Finland. No VAT will be payable in Finland on the transfer of the Notes.

Taxation in Ireland

The following is a summary based on the laws and practices of the Irish Revenue Commissioners currently in force in Ireland regarding the tax position of investors beneficially owning their Notes and should be treated with appropriate caution. Particular rules may apply to certain classes of taxpayers holding Notes. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of interest thereon under the laws of their country of residence, citizenship or domicile.

Withholding tax

In general, tax at the standard rate of income tax (currently 20 per cent.), is required to be withheld from payments of Irish source yearly interest. However, an exemption from withholding on interest payments exists under section 64 of the TCA for certain interest-bearing securities that are issued by a body corporate (such as the Issuer) and are quoted on a recognised stock exchange (which would include the Irish Stock Exchange) ("**quoted Eurobonds**").

Any interest paid on such quoted Eurobonds can be paid free of withholding tax provided:

1. the person by or through whom the payment is made is not in Ireland; or
2. the payment is made by or through a person in Ireland, and either:
 - (a) the quoted Eurobond is held in a clearing system recognised by the Irish Revenue Commissioners, or
 - (b) the person who is the beneficial owner of the quoted Eurobond and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to the person by or through whom the payment is made in the prescribed form.

So long as the Notes are quoted on a recognised stock exchange and are held in a recognised clearing system such as Euroclear or Clearstream, Luxembourg (or if not so held, the paying agent making payments of interest is not in Ireland), interest on the Notes can be paid without any withholding or deduction for or on account of Irish income tax, regardless of where the Noteholder is resident.

If, for any reason, the quoted Eurobond exemption referred to above does not or ceases to apply, the Issuer can still pay interest on the Notes free of Irish withholding tax provided it is a “**qualifying company**” (within the meaning of section 110 of the TCA) and provided the interest is paid to a person resident in a “**relevant territory**” (i.e. a member state of the European Union (other than Ireland) or in a country with which Ireland has signed a double taxation agreement). For this purpose, residence is determined by reference to the law of the country in which the recipient claims to be resident. This exemption from withholding tax will not apply, however, if the interest is paid to a company in connection with a trade or business carried on by it through a branch or agency located in Ireland.

In certain limited circumstances, a payment of interest by the Issuer which is considered dependent on the results of the Issuer’s business or which represents more than a reasonable commercial return can be recharacterised as a distribution subject to dividend withholding tax.

A payment of profit-dependent or excessive interest on the Notes will not be recharacterised as a distribution to which dividend withholding tax could apply where, broadly, the Noteholder is either:

- (i) resident in Ireland for tax purposes or, if not so resident, is otherwise within the charge to Irish corporation tax on that interest;
- (ii) a person subject to tax on the interest in a relevant territory which generally applies to profits, income or gains received in that territory from sources outside that territory without any reduction computed by reference to the amount of the payment;
- (iii) for so long as the Notes remain quoted Eurobonds a person which is neither a company which directly or indirectly controls the Issuer nor which is controlled by the Issuer or a third company which directly or indirectly controls the Issuer nor a person (including any connected person) (A) from whom the Issuer has acquired assets, (B) to whom the Issuer has made loans or advances, or (C) with whom the Issuer has entered into a specified agreement (as defined in section 110(1) of the TCA), where the aggregate value of such assets, loans, advances or agreements represent 75% or more of the value of the assets of the Issuer (such a person falling within this category of person being a “**Specified Person**”); or
- (iv) an exempt pension fund, government body or other person resident in a relevant territory (which is not a Specified Person) which is exempt from tax in that territory.

In certain circumstances, Irish tax will be required to be withheld at the standard rate from interest (currently 20 per cent.) on a quoted Eurobond, where such interest is collected by a bank or other agent in Ireland on behalf of any Noteholder.

Taxation of Noteholders

Notwithstanding that a Noteholder may receive interest on the Notes free of withholding tax, the Noteholder may still be liable to pay Irish income tax. Interest paid on the Notes may have an Irish source and therefore be within the charge to Irish income tax and (in the case of individuals only) the universal social charge. Ireland operates a self-assessment system in respect of income tax and any person, including a person who is neither resident nor ordinarily resident in Ireland, with Irish source income comes within its scope.

However, interest on the Notes will be exempt from Irish income tax if the recipient of the interest is resident in a relevant territory provided either (i) the Notes are quoted Eurobonds and are exempt from withholding tax as set out above and the recipient is not a resident of Ireland, or (ii) in the event of the Notes not being or ceasing to be quoted Eurobonds exempt from withholding tax, if the Issuer is a qualifying company and the interest is paid out of the assets of the qualifying company, or (iii) if the Issuer has ceased to be a qualifying company, the recipient of the interest is a company and (A) the relevant territory concerned imposes a tax that generally applies to interest receivable in that relevant territory by companies from sources outside that jurisdiction or (B) where the interest is either (1) exempted from the charge to income tax under arrangements made with the government of a territory outside Ireland having the force of law under procedures set out in section 826(1) of the TCA, or (2) would be exempted from the charge to income tax if arrangements made on or before the date of payment of the interest with the government of a territory outside Ireland that do not have force of law under procedures set out in section 826(1) of the TCA had the force of law when the interest was paid.

In addition, provided that the Notes are quoted Eurobonds and are exempt from withholding tax as set out above, the interest on the Notes will be exempt from Irish income tax if the recipient of the interest is (i) a company under the control, directly or indirectly, of persons who by virtue of the law of a relevant territory are resident in that relevant territory and those persons are not themselves under the control, whether directly or indirectly, of a person who is not resident in a relevant territory, or (ii) a company, the principal class of shares of which, are substantially and regularly traded on one or more recognised stock exchanges in Ireland or a relevant territory or a stock exchange approved by the Irish Minister for Finance.

Notwithstanding these exemptions from income tax, a corporate recipient that carries on a trade in Ireland through a branch or agency in respect of which the Notes are held or attributed, may have a liability to Irish corporation tax on the interest.

Interest on the Notes which does not fall within the above exemptions may be within the charge to Irish income tax and the universal social charge.

Capital gains tax

A holder of Notes may be subject to Irish tax on capital gains on a disposal of Notes unless such holder is neither resident nor ordinarily resident in Ireland and does not carry on a trade in Ireland through a branch or agency in respect of which the Notes are used or held.

Capital acquisitions tax

A gift or inheritance comprising of Notes will be within the charge to capital acquisitions tax if either (i) the disponer or the donee/successor in relation to the gift or inheritance is resident or ordinarily resident in Ireland (or, in certain circumstances, if the disponer is domiciled in Ireland irrespective of his residence or that of the donee/successor) or (ii) if the Notes are regarded as property situate in Ireland. Bearer notes are generally regarded as situated where they are physically located at any particular time, but the Notes may be regarded as situated in Ireland regardless of their physical location as they secure a debt due from an Irish resident debtor and they may be secured over Irish property. Accordingly, if such Notes are comprised in a gift or inheritance, the gift or inheritance may be within the charge to tax regardless of the residence status of the disponer or the donee/successor.

Stamp duty

For so long as the Issuer remains a qualifying company and the proceeds of the Notes are used in the course of the Issuer's business, no stamp duty or similar tax is imposed in Ireland on the issue (on the basis of an exemption provided for in Section 85(2)(c) of the Irish Stamp Duties Consolidation Act, 1999) on the issue, transfer or redemption of the Notes.

CRS and the implementation of FATCA in Ireland

FATCA

The foreign account tax compliance provisions contained in Sections 1471 to 1474 of the United States Internal Revenue Code and the regulations promulgated thereunder ("**FATCA**") impose a reporting regime which may impose a 30% withholding tax on certain U.S. source payments, including interest (and original issue discounts), dividends, other fixed or determinable annual or periodical gains, profits and income, made on or after 1 July 2014 and the gross proceeds from a disposition of property of a type which can produce U.S. source interest or dividends made on or after 1 January 2019 (collectively, "**Withholdable Payments**"), if paid to certain non-U.S. financial institutions (any such non-U.S. financial institution, an "**FFI**") that fail to enter into, or fail to comply with once entered into, an agreement with the U.S. Internal Revenue Service to provide certain information about their U.S. accountholders, including certain account holders that are non-U.S. entities with U.S. owners. The Issuer expects that it will constitute an FFI.

The United States and the Government of Ireland have entered into an intergovernmental agreement to facilitate the implementation of FATCA (the "**IGA**"). An FFI (such as the Issuer) that complies with the terms of the IGA, as well as applicable local law requirements, will not be subject to withholding under FATCA with respect to Withholdable Payments that it receives. Further, an FFI that complies with the terms of the IGA (including applicable local law requirements) will not be required to withhold under FATCA on Withholdable Payments it makes to accountholders of such FFI (unless it has agreed to do so under the U.S. "qualified intermediary", "withholding foreign partnership" or "withholding foreign trust" regimes). Pursuant to the IGA, an FFI is required to report certain information in respect of certain of its accountholders to its home tax authority, whereupon such information will be provided to the U.S. Internal Revenue Service. The Issuer will undertake to comply with the IGA and any local implementing legislation, but there is no assurance that it will be able to do so.

The Issuer (or any nominated service provider) shall be entitled to require Noteholders to provide any information regarding their (and, in certain circumstances, their controlling persons') tax status, identity or residency in order to satisfy any reporting requirements which the Issuer may have as a result of the IGA or any legislation promulgated in connection with the agreement and Noteholders will be deemed, by their holding of any Notes, to have authorised the automatic disclosure of such information by the Issuer (or any nominated service provider) or any other person on the Issuer's behalf to the relevant tax authorities.

The Issuer (or any nominated service provider) agrees that information (including the identity of any Noteholder) (and its controlling persons (if applicable)) supplied for the purposes of FATCA compliance is intended for use by the Issuer (or any nominated service provider) for the purposes of satisfying FATCA requirements and the Issuer (or any nominated service provider) agrees, to the extent permitted by applicable law, that it will take reasonable steps to treat such information in a confidential manner, except that the Issuer may disclose such information (i) to its officers, directors, agents and advisors, (ii) to the extent reasonably necessary or advisable in connection with tax matters, including achieving FATCA compliance, (iii) to any person with the consent of the applicable Noteholder or (iv) as otherwise required by law or court order or on the advice of its advisors.

Where the Notes are held within the Clearing Systems, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent or the common depository, given that each of the entities in the payment chain between the Issuer and the participants in the Clearing Systems is a financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes.

Prospective investors should consult their advisors about the potential application of FATCA.

CRS

The common reporting standard framework was first released by the OECD in February 2014 as a result of the G20 members endorsing a global model of automatic exchange of financial account information in order to increase international tax transparency. On 21 July 2014, the Standard for Automatic Exchange of Financial Account Information in Tax Matters was published by the OECD and this includes the text of the Common Reporting Standard ("**CRS**" or the "**Standard**"). The goal of the Standard is to provide for the annual automatic exchange between governments of financial account information reported to them by local reporting financial institutions (as defined in the Standard) ("**FIs**") relating to account holders who are tax resident in other participating jurisdictions.

Over 100 jurisdictions have committed to exchanging information under the Standard and a group of 50 countries, including Ireland, have committed to the early adoption of the CRS from 1 January 2016 (known as the "**Early Adopter Group**"), with the first data exchanges expected to take place in September 2017. All EU Member States (with the exception of Austria) are members of the Early Adopter Group.

Ireland became a signatory to the Multilateral Competent Authority Agreement on Automatic Exchange of Financial Account Information on 29 October 2014. Enabling legislation for CRS was included in Ireland's Finance Act 2014 and the Returns of Certain Information by Reporting

Financial Institutions Regulations 2015 came into effect on 31 December 2015 (the “**Irish CRS Regulations**”). The Irish CRS Regulations provide for the collection and reporting of certain financial account information by Irish FIs, being FIs that are resident in Ireland (excluding any non-Irish branch of such FIs), Irish branches of Irish resident FIs and branches of non-Irish resident FIs that are located in Ireland. Ireland has elected to adopt the “wider approach” to the Standard. This means that Irish FIs will collect and report information to the Irish Revenue Commissioners on all non-Irish and non-U.S. resident account holders rather than just account holders who are resident in a jurisdiction with which Ireland has an exchange of information agreement. The Irish Revenue Commissioners will exchange this information with the tax authorities of other participating jurisdictions, as applicable.

It is expected that the Issuer will be classified as an Irish FI for CRS purposes and will be obliged to report certain information in respect of certain of its equity holders and debt holders to the Irish Revenue Commissioners in respect of CRS. The relevant information must be reported to the Irish Revenue Commissioners by 30 June in each year, with the first CRS return due on 30 June 2017 in respect of the 2016 calendar year.

Directive 2014/107/EU on Administrative Cooperation in the Field of Taxation (“**DAC II**”) implements CRS in a European context and creates a mandatory obligation for all EU Member States (with a one year extension for Austria) to exchange certain financial account information on residents in other EU Member States on an annual basis commencing in 2017 in respect of the 2016 calendar year. The Irish Finance Act 2015 confirmed the transposition of DAC II into Irish law. The Irish Revenue Commissioners issued regulations to implement the requirements of DAC II into Irish law on 31 December 2015 and have indicated that Irish FIs (such as the Issuer) will be obliged to make a single return in respect of CRS and DAC II using the Revenue Online Service (ROS). Failure by an Irish FI to comply with its CRS or DAC II obligations may result in an Irish FI being deemed to be non-compliant in respect of its CRS or DAC II obligations and monetary penalties may be imposed on a non-compliant Irish FI under Irish legislation.

For the purposes of complying with its obligations under CRS and DAC II, an Irish FI (such as the Issuer) shall be entitled to require Noteholders to provide any information regarding their (and, in certain circumstances, their controlling persons’) tax status, identity, jurisdiction of residence, taxpayer identification number and, in the case of individual Noteholders, their date and place of birth in order to satisfy any reporting requirements which the Issuer may have as a result of CRS and DAC II and Noteholders will be deemed by their holding to have authorised the automatic disclosure of such information, together with certain financial account information in respect of the Noteholder’s investment in the Issuer (including, but not limited to, account number, account balance or value and details of any payments made in respect of the Notes) by the Issuer (or any nominated service provider) or any other person on the Issuer’s behalf to the Irish Revenue Commissioners and any other relevant tax authorities.

The Issuer (or any nominated service provider) agrees that information (including the identity of any Noteholder (and its controlling persons (if applicable)) supplied for the purposes of CRS or DAC II is intended for use by the Issuer (or any nominated service provider) for the purposes of satisfying its CRS and DAC II obligations and the Issuer (or any nominated service provider) agrees, to the extent permitted by applicable law, that it will take reasonable steps to treat such information in a confidential manner, except that the Issuer may disclose such information (i) to its officers, directors, agents and advisors, (ii) to the extent reasonably necessary or advisable in connection with tax matters, including achieving CRS and DAC II compliance, (iii) to any person

with the consent of the applicable Noteholder, or (iv) as otherwise required by law or court order or on the advice of its advisors.

Prospective investors should consult their advisors about the potential application of CRS and DAC II.

For these purposes, “**retail investor**” means (a) a retail client as defined in point (11) of Article 4 (1) of Directive 2014/65/EU or (b) a customer within the meaning of Directive 2002/92/EC, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of Directive 2014/65/EU.

ARTICLE 405 OF THE CRR AND ARTICLE 51 OF THE AIFM REGULATION

Please refer to “*RISK FACTORS — Regulatory initiatives may result in increased regulatory capital requirements and/or decreased liquidity in respect of the Notes*” for further information on the implications of Article 405 of the CRR and Article 51 of the AIFM Regulation for certain investors in the Notes.

Retention statement

The Seller will retain, for the life of the Notes, a material net economic interest equivalent to not less than five per cent. of the securitised exposures in accordance with Article 405 of the CRR and Article 51 of the AIFM Regulation. As of the Note Issuance Date, such interest will, in accordance with Article 405(1)(c) of the CRR and Article 51(1)(c) of the AIFM Regulation, take the form of randomly selected “exposures” (i.e. HP Contracts), equivalent to not less than five per cent. of the nominal amount of the “securitised exposures” (i.e. the Purchased HP Contracts) at the Note Issuance Date, where such exposures would otherwise have been securitised in the securitisation and where the number of potentially securitised exposures is no fewer than 100 at origination.

The Seller will confirm its ongoing retention of the net economic interest described above in each Monthly Report and any change to the manner in which such interest is held will be notified to the Noteholders.

Disclosure to investors

For the purposes of Article 409 of the CRR and Article 52 of the AIFM Regulation, Santander Consumer Finance Oy (in its capacity as Servicer) will, on a monthly basis after the Note Issuance Date, provide relevant information to investors in the form of each Monthly Report, including data with regard to the Purchased HP Contracts and an overview of the retention of the material net economic interest. The Seller will make each Monthly Report available to the Noteholders on its website at www.santanderconsumer.com.

Investors to assess compliance

Each prospective investor that is required to comply with the CRR and/or the AIFM Regulation is required to independently assess and determine the sufficiency of the information described above, in this Prospectus generally and in any servicer and/or investor reports made available and/or provided to investors for the purposes of satisfying the requirements of the CRR and/or the AIFM Regulation, and none of the Issuer, the Joint Lead Managers, the Seller or any other party to the Transaction Documents makes any representation that any such information is sufficient in all circumstances for such purposes. Prospective investors who are uncertain as to the requirements under the CRR and/or the AIFM Regulation which apply to them in respect of their relevant jurisdiction should seek guidance from their regulator.
