The transfer of the Receivables has been rendered enforceable against the Originator and any third party creditors of the Originator (including any insolvency receiver of the same) through the publication of a notice of transfer in the Italian Official Gazette no. 125 of 21 October 2021. The true sale nature of the transfer of the Receivables and the validity and enforceability of the same is covered by the legal opinion issued by Chiomenti, acting as legal counsel to the Arrangers, which has been made available to PCS and may be disclosed to any relevant competent authority referred to in article 29 of Regulation (EU) 2017/2402. Furthermore, Italian insolvency laws do not contain severe clawback provisions within the meaning of articles 20 (2) and 20 (3) of Regulation (EU) 2017/2402 and the EBA Guidelines on STS Criteria. For a further explanation, reference is made to sections entitled 'Summary of Principal Documents - Transfer Agreement' of the Prospectus and the Transfer Agreement.	Transfer of the underlying exposures by true sale or assignment	Concise Explanation	{ALPHANUM-10000}	Article 20(1)	The STS notification shall provide a concise explanation on how the transfer of the underlying exposures is made by means of true sale or transfer with the same legal effect in a manner that is enforceable against the seller or any third party. STSS21	The Italian insolvency laws do not contain severe clawback provisions within the meaning of articles 20, paragraph 2, and 20, paragraph 3, of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria (please see section headed "Risk Factors – Claw back risks" of the Prospectus). For the purpose of compliance with articles 20(2) and 20(3) of the Securitisation Regulation, the Originator is a joint stock company validly incorporated under the Italian law and subject to Italian insolvency laws that do not contain severe clawback provisions. Item 3.3 of Annex 19 of Commission Delegated Regulation (EU) 2019/982
STSS23	With respect to article 20(4) of Regulation (EU) 2017/2402, the Receivables arise from Lease Contracts that have been granted exclusively by Alba Leasing, as lender. Therefore, the requirements of article 20(4) of Regulation (EU) 2017/2402 are not applicable. Transfer performed by means of an assignment and perfected at a later stage	Concise Explanation	{ALPHANUM-10000}	Article 20(5)	Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the securitisation, the STS notification shall provide a concise explanation on how and whether that perfection is effected at least through the required minimum pre-determined event triggers as listed in Article 20(5) of Regulation (EU) 2017/2402. Where alternative mechanisms of transfer are used, the STS notification shall confirm that an insolvency of the originator would not prejudice or prevent the SSPE from enforcing its rights.	Item 3.3 of Annex 19 of Commission Delegated Regulation (EU) 2019/984
STSS25	With respect to article 20(6) of Regulation (EU) 2017/2402, under the Transfer Agreement the Originator has represented and warranted that, as at the Transfer Date, the Receivables are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect. In addition, under the Transfer Agreement, the Originator has represented and warranted to the Issuer that, as of the Valuation Date, all the Receivables comply with the Criteria. For further details, see the section of the Prospectus entitled "Summary of Principal Documents - Transfer Agreement - Representations and warranties in relation to the Receivables". Item 2.2.8 of Annex 19 of Commission Delegated Regulation (EU) 2019/980
STSS26	The Receivables meet the Criteria set forth by the Transfer Agreement (for further details see the section of the Prospectus entitled "The Portfolio - Selection Criteria of the Portfolio") and none of the Transaction Documents provide for (i) a portfolio management which makes the performance of the Securitisation dependent both on the performance of the Receivables and on the performance of the portfolio management of the Securitisation, thereby preventing any investor in the Notes from modelling the credit risk of the Receivables without considering the portfolio management strategy of the Servicer, or (ii) a portfolio management which is performed for speculative purposes aiming to achieve better performance, increased yield, overall financial returns or other purely financial or economic benefit (see Clause 24 (Representation and warranties of the Originator under the Securitisation Regulation) of the Intercreditor Agreement). In particular, under the Transfer Agreement the Originator has undertaken to repurchase any of the Receivables only to the extent that the pre-determined conditions set forth under Clause 15 (Opzione di acquisto su singoli Crediti) of the Transfer Agreement, Clauses 14.4 (Opzione di riacquisto) and 14.7.2 of the Servicing Agreement are met. For further details, see the section of the Prospectus entitled "Summary of Principal Documents - Transfer Agreement" and the Servicing Agreement).	Eligibility criteria which do not allow for active portfolio management of the underlying exposures on a discretionary basis	Concise Explanation	{ALPHANUM-10000}	Article 20(7)	The STS notification shall provide concise explanation that: - the underlying exposures transferred from, or assigned by, the seller to the SSPE meet predetermined, clear and documented eligibility criteria which do not allow for active portfolio management of those exposures on a discretionary basis; - the selection and transfer of the underlying exposures in the securitisation is based on clear processes which facilitate the identification of which exposures are selected for or transferred into the securitisation and that they do not allow for their active portfolio management on a discretionary basis.	Section 2 of Annex 19 of Commission Delegated Regulation (EU) 2019/980

STSS34	Under the Intercreditor Agreement and the Senior Notes Subscription Agreement, the Originator has undertaken that it will retain with effect from the Issue Date and maintain on an ongoing basis a material net economic interest of at least 5 (five) per cent. in the Securitisation in accordance with option 3)(a) of article 6 of the Securitisation Regulation (please refer to section headed "Summary of the Principal Documents - Intercreditor Agreement" of the Prospectus)	Compliance with risk retention requirements	Concise Explanation	{LIST}	Article 21(1)	The STS notification shall provide a concise explanation as to how the originator, sponsor or original lender of a non-ABCP securitisation comply with the risk retention requirement as provided for in Article 6 of Regulation (EU) 2017/2402. These explanations shall in particular indicate which entity retains the material net economic interest and which option is used for retaining the risk including: (1) vertical slice in accordance with Article 6(3)(a) of Regulation (EU) 2017/2402; (2) seller's share in accordance with Article 6(3)(b) of Regulation (EU) 2017/2402; (3) randomly selected exposures kept on balance sheet in accordance with Article 6(3)(c) (3) of	Item 3.1 of Annex 9 and Item 3.4.3 of Annex 19 of Commission Delegated Regulation (EU) 2019/980
STSS35	Under the Transfer Agreement, the Originator has represented and warranted that (i) there is no currency risk under the Securitisation since both the Receivables and the Notes are denominated in Euro, and (ii) it has not entered into any swap or other derivative contract with the Lessees in relation to the Receivables. In addition, the Receivables have or may have (following, inter alia, renegotiations) interest payments calculated on a fixed rate basis or a floating rate basis (which may be different from the EURIBOR applicable under the Rated Notes, and may have different fixing mechanism), whilst the Rated Notes will bear interest at a rate based on the EURIBOR determined on each Interest Determination Date, subject to and in accordance with the Terms and Conditions. As a result, there could be a rate mismatch between interest accruing on the Rated Notes and on the Portfolio. No hedge transactions have been entered into between the Issuer in order to hedge the interest rate risk and as a result of such unhedged mismatch, a change in the level of the EURIBOR could adversely impact the ability of the Issuer to make payments on the Rated Notes. 93.82% of the aggregate Outstanding Principal of the Receivables as at the Valuation Date derives from Lease Contracts with a floating interest rate indexed to 1mEuribor, 3mEuribor or 6mEuribor, while only 6.18% of the aggregate Outstanding Principal of the Receivables as at the Valuation Date derives from Lease Contracts with a fixed interest rate. With reference to the floating rate Lease Contracts included in the Portfolio, the analysis of the historical gap between different Euribor indices has led to the conclusion that the basis risk of mismatch among 1mEuribor and 6mEuribor and 3mEuribor (which is the index to which interest on the Senior Notes and the Mezzanine Notes is linked) is limited and not material and would not have a negative impact on the Senior Notes and the Mezzanine Notes (also on the basis of the structural features described in paragraphs (i) and (ii) below). With reference to the fixed rate Loans included in the Portfolio, the potential risk due to the increasing interest scenario on the liability assets is in part mitigated by: (i) the analysis of the current interest rate forward curve for 3mEuribor (which is the index to which interest on the Senior Notes and the Mezzanine Notes is linked) which suggests that no hedging instrument is required on the basis that such index will remain below the weighted average fixed rate component of the Portfolio during the expected weighted average life of the Senior Notes and the Mezzanine Notes also when considering some increasing interest rate stress scenarios; (ii) the credit enhancement due to the subordination of the different Classes of Notes; (iii) the fact that the Securitisation benefits from a single priority of payments that combines interest and principal proceeds: the principal proceeds generated by the amortisation of the Portfolio can be used to cover also the interest payments due on the Senior Notes and the Mezzanine Notes. Prospective Noteholders should also note that the composition of the Portfolio and the cash flows that should derive therefrom have been appropriately evaluated and, notwithstanding the above, the Receivables have characteristics that demonstrate capacity to produce funds to service any payments due under the Notes. Although the Issuer believes that the structural features of the Securitisation and the characteristics of the Portfolio are such that the credit enhancement furnished by the above elements adequately mitigate the above described risks, there can, however, be no assurance that any such features will ensure timely and full receipt of interest amounts due under the Notes (please refer to section 'Risk Factors – Interest rate risk' of the Prospectus).
