If a jurisdiction requires that the offering be made by a licensed broker or dealer and the Joint Lead Managers or any affiliate of the Joint Lead Managers is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by the Joint Lead Managers or such affiliate on behalf of the Issuer in such jurisdiction.

PRIIPS Regulation / Prohibition of sales to EEA retail investors – The Class A Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA) or in France. Consequently, no key information document required by regulation (EU) no 1286/2014 (the “**PRIIPS Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Class A Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPS Regulation.

MiFID II product governance / Professional investors and ECPs only type of clients – Solely for the purposes of each manufacturer’s product approval process, the target market assessment in respect of the Class A Notes has led to the conclusion that: (i) the target market for the Class A Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Class A Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Class A Notes (a distributor) should take into consideration such manufacturer’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Class A Notes (by either adopting or refining such manufacturer’s target market assessment) and determining appropriate distribution channels.

Under no circumstances shall the following Prospectus constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the Relevant Notes in any jurisdiction in which such offer, solicitation or sale would be unlawful.

BPCE HOME LOANS FCT 2019 is a French *fonds commun de titrisation* (the “**Issuer**”) established jointly by France Titrisation (the “**Management Company**”) and Natixis (the “**Custodian**”) on the Issuer Establishment Date. The Issuer is governed by the provisions of articles L. 214-166-1 to L. 214-175, L. 214-175-1, L. 214-180 to L. 214-186, L. 231-7 and R. 214-217 to R. 214-235 of the French Monetary and Financial Code and by the Issuer regulations entered into on or before the Issuer Establishment Date between the Management Company and the Custodian (the “**Issuer Regulations**”). The purpose of the Issuer is to issue debt securities and to purchase home loan receivables from, notably, each of (i) any Banque Populaire and (ii) any Caisse d’Epargne (together, the “**Sellers**”).

On the Purchase Date (falling on the same date as the Issuer Establishment Date), the Issuer will purchase from the Sellers a portfolio of home loan receivables arising from home loan agreements (the “**Home Loan Agreements**”) entered into with certain individual borrowers domiciled in France (i.e. in Metropolitan France, Guadeloupe, Guyana (*Guyane française*), Martinique, Réunion or Saint-Martin) in relation to the acquisition, the renovation, the construction or the refinancing of a residential property and complying with the Home Loan Eligibility Criteria (the “**Purchased Home Loans**”).

The Issuer will issue on the Issue Date Class A Asset-Backed Floating Rate Notes (the “**Class A Notes**”) and Class B Asset-Backed Fixed Rate Notes (the “**Class B Notes**”, and together with the Class A Notes, the “**Notes**”). The Class A Notes will only be offered and sold (i) in France only to qualified investors (*investisseurs qualifiés*), as defined in article 2(e) of the Prospectus Regulation, and in accordance with, articles L. 411-1 and L. 411-2 of the French Monetary and Financial Code, as it may be amended from time to time and/or (ii) to non-resident investors (*investisseurs non-résidents*), to the exclusion of any individuals. The Class B Notes will not be listed and will only be subscribed by each of the Sellers. The Issuer will also issue, on the Issue Date, 2 asset-backed units (in the denomination of EUR 6,500 each) (the “**Residual Units**”).

Application has been made to the *Autorité des marchés financiers* in France (the “**AMF**”) in its capacity as competent authority pursuant to the Prospectus Regulation and pursuant to the French Monetary and Financial Code for the approval of this Prospectus for the purposes of the Prospectus Regulation. The AMF only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of either the Issuer or the quality of the Class A Notes that are the subject of this Prospectus and investors should make their own assessment as to the suitability of investing in the Class A Notes.

Application has also been made to the regulated market of Euronext in Paris (“**Euronext Paris**”) for the Class A Notes to be admitted to trading on Euronext Paris. Euronext Paris is a regulated market for the purposes of Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments, as amended.

The Class A Notes are expected on the Issue Date to be assigned an AAA(sf) rating by Fitch France SAS (“**Fitch**”) and an Aaa (sf) rating by Moody’s France SAS (“**Moody’s**”) and, together with Fitch, the “**Rating Agencies**”). A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the Rating Agencies. As of 5 July 2019, “Fitch France SAS” and “Moody’s France SAS” are registered under the Regulation 1060/2009/EC of the European Parliament and the Council of 16 September 2009 on credit rating agencies, as amended pursuant to Regulation 513/2011/EU of the European Parliament and the Council of 11 May 2011 and to Regulation 462/2013/EU of the European Parliament and of the Council of 21 May 2013 (the “**CRA Regulation**”) according to the list published by the European Securities and Markets Authority on its website (<http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>).

Each Seller has undertaken to each of the Joint Lead Managers, the Joint Arrangers, the Management Company, the Custodian and the Issuer that, during the life of the Class A Notes, it shall comply with article 6 of Regulation (EU) 2017/2402 of the European Parliament and of the Council of 12 December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation, and amending Directives 2009/65/EC, 2009/138/EC and 2011/61/EU and Regulations (EC) No 1060/2009 and (EU) No 648/2012 (the “**Securitisation Regulation**”), and therefore retain on an ongoing basis a material net economic interest in the transaction which, in any event, shall not be less than 5 per cent. At the Issue Date, such material net economic interest shall be retained by each Seller, in accordance with option (d) of article 6(3) of the Securitisation Regulation, through the subscription of the Class B Notes in relation to the proportion of the total securitised exposures for which it is the originator. Each prospective Noteholder should ensure that it complies with the implementing provisions of article 6 of the Securitisation Regulation in its relevant jurisdiction.

The Transaction Agent acting on behalf of the Sellers, as originators, intends to submit on or about the Issue Date an STS notification to ESMA in relation to the securitisation transaction described in the Transaction Documents in accordance with article 27 of the Securitisation Regulation, pursuant to which compliance with the requirements of articles 19 to 22 of the Securitisation Regulation will be notified with the intention that the securitisation transaction described in this Prospectus is to be included in the list administered by ESMA within the meaning of article 27 of the Securitisation Regulation (for further details, please see Section entitled “**REGULATORY ASPECTS**” of this Prospectus).

For a discussion of certain significant factors affecting an investment in the Notes, see Sections “RISK FACTORS” and “SUBSCRIPTION AND SALE” on pages 14 and 268 of this Prospectus.

The Class A Notes will be issued in denominations of EUR 100,000 each and will at all times be represented in book entry form (*dématérialisée*). No physical documents of title will be issued in respect of the Notes. The Class A Notes will, upon issue, be registered in the books of Euroclear France ("**Euroclear France**") (acting as central depository) which shall credit the accounts of Euroclear France account holders including Clearstream Banking, société anonyme ("**Clearstream Banking**") and Euroclear Bank S.A./N.V. ("**Euroclear**") and be admitted in the clearing systems of Euroclear France and Clearstream Banking (the "**Clearing Systems**") (see Section "TERMS AND CONDITIONS OF THE NOTES – Form, Denomination and Title").

The Notes and the Residual Units are backed by the Purchased Home Loans purchased by the Issuer on the Purchase Date.

Interest on the Class A Notes is payable on a quarterly basis by reference to successive Interest Periods. During the Amortisation Period and the Accelerated Amortisation Period, each Class A Note bears interest on the amount of its Principal Amount Outstanding at a floating interest rate to be set quarterly and which calculation will be specified in the Terms and Conditions of the Notes (see Section "TERMS AND CONDITIONS OF THE NOTES – Interest").

During the Amortisation Period and the Accelerated Amortisation Period, the Notes are subject to mandatory partial redemption on each Payment Date on a sequential basis, subject to the amounts collected from the Home Loans and from any other Assets Allocated to the Issuer and the applicable Priority of Payments, until the earlier of (i) the date on which the Principal Amount Outstanding of each Note is reduced to zero or (ii) the Final Legal Maturity Date and provided that during the Accelerated Amortisation Period, the Class B Notes will not be redeemed until the Class A Notes have been redeemed in full.

The Notes will be subject to early redemption in full on the First Optional Redemption Date or on any of the three (3) subsequent Payment Dates occurring after such First Optional Redemption Date if the Management Company receives a request in writing by the Transaction Agent on behalf of the Sellers at the latest fifteen (15) calendar days prior to the contemplated early redemption date, to redeem all (but not some only) of the Notes (see section "TERMS AND CONDITIONS OF THE NOTES" – Redemption").

On each Payment Date, payments of interest and principal due in respect of the Class B Notes will be subordinated to payments of interest and principal due in respect of the Class A Notes (see Section "TERMS AND CONDITIONS OF THE NOTES" – Redemption").

The distribution of this Prospectus and the offering or sale of the Class A Notes in certain jurisdictions may be restricted by law or regulations. Persons coming into possession of this Prospectus are required to enquire regarding, and to comply with, any such restrictions.

Each potential investor should conduct an independent investigation of the financial terms and conditions of the Notes, and an assessment of the creditworthiness of the Issuer, the risks associated with the Notes and of the tax, accounting and legal consequences of an investment in the Notes and should consult an independent legal, tax or accounting adviser to this effect.

THE LIABILITIES IN CONNECTION WITH THE NOTES ARE EXCLUSIVELY BORNE BY THE ISSUER. NEITHER THE NOTES ISSUED BY THE ISSUER NOR THE ASSETS OF THE ISSUER, ARE, OR WILL BE, GUARANTEED IN ANY WAY BY ANY OF THE SELLERS, THE SERVICERS, THE TRANSACTION AGENT OR ANY OTHER COMPANY WITHIN THE BPCE GROUP, THE DATA PROTECTION AGENT, THE MANAGEMENT COMPANY, THE CUSTODIAN, THE ACCOUNT BANK, THE PAYING AGENT, THE LISTING AGENT, THE SPECIALLY DEDICATED ACCOUNT BANK, THE INTEREST RATE SWAP COUNTERPARTY, THE JOINT ARRANGERS OR THE JOINT LEAD MANAGERS OR BY ANY OF THEIR RESPECTIVE AFFILIATES. FOR, THE NOTES ISSUED BY THE ISSUER. ONLY THE MANAGEMENT COMPANY MAY ENFORCE THE RIGHTS OF THE HOLDERS OF NOTES AGAINST THIRD PARTIES.

The Notes will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) under applicable U.S. state securities laws or under the laws of any jurisdiction. The Notes have not and will not be offered for subscription or sale in the United States of America or to or for the account or benefit of U.S. persons as defined in Regulation S of the Securities Act, save under certain circumstances where the contemplated transactions do not require any registration under the Securities Act (see Section “SUBSCRIPTION AND SALE – United States of America”).

The Sellers do not intend to retain at least 5 per cent. of the credit risk of the securitised assets for purposes of compliance with the U.S. Risk Retention Rules based on an exemption from such rules and the issuance of the Notes was not designed to comply with the U.S. Risk Retention Rules. Except with the prior written consent of the Transaction Agent (on behalf of the Sellers) (a “**U.S. Risk Retention Consent**”) and as permitted by the exemption provided under Section 20 of the U.S. Risk Retention Rules, the Notes sold on the Issue Date may not be purchased by, or for the account or benefit of, persons that are “U.S. persons” as defined in the U.S. Risk Retention Rules (“**Risk Retention U.S. Persons**”) and each purchaser of Notes, including beneficial interests therein, will, by its acquisition of a Note or beneficial interest therein, be deemed, and, in certain circumstances, will be required to represent and agree that it (1) either (i) is not a Risk Retention U.S. Person or (ii) has obtained a U.S. Risk Retention Consent from the Transaction Agent (on behalf of the Sellers), (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules, including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention Rules described herein. See below Section “REGULATORY ASPECTS” and Section “SUBSCRIPTION AND SALE – United States of America”. Any Risk Retention U.S. Person wishing to purchase Notes must inform the Issuer, the Transaction Agent on behalf of the Sellers, the Joint Arrangers and the Joint Lead Managers that it is a Risk Retention U.S. Person.

PRIIPs Regulation / Prohibition of sales to EEA retail investors – The Class A Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA) or in France. For these purposes, a retail investor means a person who is one (or more) of (i) a retail client as defined in point (11) of article 4(1) of Directive 2014/65/EU (“**MiFID II**”); (ii) a customer within the meaning of Directive 2016/97/EC (IMD), where that customer would not qualify as a professional client as defined in point (10) of article 4(1) of MiFID II or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document required by regulation (EU) no 1286/2014 (the “**PRIIPS Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Class A Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPS Regulation.

MiFID II product governance / Professional investors and ECPs only type of clients – Solely for the purposes of each manufacturer’s product approval process, the target market assessment in respect of the Class A Notes has led to the conclusion that: (i) the target market for the Class A Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Class A Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Class A Notes (a distributor) should take into consideration such manufacturer’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Class A Notes (by either adopting or refining such manufacturer’s target market assessment) and determining appropriate distribution channels.

No guarantee can be given to any potential investor with respect to the placement of the Class A Notes, as to the creation or development of a secondary market for the Class A Notes by way of their listing on the regulated market of Euronext in Paris (Euronext Paris).

Each of the Management Company and the Custodian, in their capacity as co-founders of the Issuer, assumes responsibility for the information contained in this Prospectus, as set out in Section “ENTITIES ACCEPTING RESPONSIBILITY FOR THE PROSPECTUS”.

To the knowledge of BPCE, the BPCE Information is in accordance with the facts and does not omit anything likely to affect the import of the BPCE Information.

Neither the delivery of this Prospectus, nor the offering of any of the Class A Notes shall, under any circumstances, constitute or create any representation or imply that the information (whether financial or otherwise) contained in this Prospectus regarding the Issuer, the Sellers, the Servicers, the Transaction Agent, the Data Protection Agent, the Management Company, the Custodian, the Account Bank, the Paying Agent, the Listing Agent, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Joint Arranger, the Joint Lead Managers or any other entity involved in the distribution of the Class A Notes, shall remain valid at any time subsequent to the date of this Prospectus. RISK FACTORS

The following is a summary of certain aspects of the offering of the Class A Notes and the related transactions which prospective investors should consider (together with all of the information detailed in this Prospectus) before deciding to invest in the Class A Notes.

Prospective investors in the Class A Notes should ensure that they understand the nature of such Class A Notes issued by a French debt securitisation fund (fonds commun de titrisation) and the extent of their exposure to risk, that they have sufficient knowledge, experience and access to professional advisers in order to make their own legal, tax, accounting, prudential, regulatory and financial evaluation of the merits and risks of investing in such Class A Notes and that they consider the suitability of such Class A Notes as an investment in the light of their own circumstances and financial condition.

The risks described below are some of the risks inherent in the Transaction for the Class A Noteholders, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Class A Notes may occur for other reasons and the following statements regarding the risk of investing in or holding the Class A Notes are not exhaustive.

1. RISKS RELATING TO THE ISSUER

Notes not guaranteed - Recourse limited to the Assets Allocated to the Issuer

The Class A Notes are exclusively an obligation of the Issuer. The Class A Notes are not obligations or responsibilities of, or guaranteed by the Management Company, the Custodian, the Transaction Agent, the Reserves Provider, the Account Bank, the Sellers, the Servicers, the Listing Agent, the Paying Agent, the Specially Dedicated Account Bank, the Joint Arrangers, the Joint Lead Managers, the Interest Rate Swap Counterparty, the Statutory Auditor, the Data Protection Agent or any of their respective affiliates, and none of such persons accepts any liability whatsoever in respect of any failure by the Issuer to make payment of any amount due on the Class A Notes. Furthermore, no person other than the Issuer will accept any liability whatsoever to the Class A Noteholders in respect of any failure by the Issuer to pay any amount due under the Class A Notes.

Pursuant to the Issuer Regulations, the right of recourse of the Noteholders with respect to their right to receive payment of principal and interest together with any arrears is limited to the Assets Allocated to the Issuer in proportion to their respective investment in the Class A Notes which they hold, and is subject to the applicable Funds Allocation Rules (and in particular the applicable Priority of Payments) contained therein, and also specified in Section "APPLICATION OF FUNDS".

Limited financial resources of the Issuer

The Issuer is a French securitisation debt fund (*fonds commun de titrisation*) with no capitalisation and no business operations other than the issue of the Notes and the Residual Units, the purchase of the relevant Home Loans on the Issue Date and the transactions ancillary thereto.

Accordingly, the cash flows arising from the Assets Allocated to the Issuer constitute the sole financial resources of the Issuer for the payment of principal and interest amounts due in respect of the Class A Notes.

The payments on the Purchased Home Loans by the relevant Borrowers (or any insurer under any Insurance Contracts relating to such Purchased Home Loans), the proceeds of enforcement of Ancillary Rights (as the case may be), the payments by the Interest Rate Swap Counterparty to the Issuer pursuant to the terms of the Interest Rate Swap Agreement, the payments to the Issuer of any Re-transfer Price, Rescission Amount, Indemnity Amount or Deemed Collection, the payments to the Issuer of any indemnity in respect of any Issuer's liability, losses and damages directly resulting from breaches of Sellers' obligations by the Sellers in accordance with the terms of the Home Loans Purchase and Servicing Agreement, and the other funds standing to the credit of the Issuer Accounts (including cash reserves funded or to be funded, as the case may be, by the Reserves Provider but excluding any remuneration relating to any sums standing to the credit of the Commingling Reserve Account and the General Reserve Account) are the only sources of funds available to make payments of interest on and/or

repayment of principal under the Notes and the Residual Units, always subject to, and in accordance with the Funds Allocation Rules (and in particular the applicable Priority of Payments contained therein). If such funds are insufficient to make such payments, no other assets will be available for payment of the deficiency.

In particular, but without limiting the generality of the foregoing, after the Final Legal Maturity Date, any part of the nominal value of the Class A Notes or of the interest due thereon which may remain unpaid will be automatically cancelled and extinguished, so that the Class A Noteholders after such date, shall have no right to assert a claim in this respect against the Issuer, the Management Company, the Custodian, the Transaction Agent, the Reserves Provider, the Account Bank, the Sellers, the Servicers, the Listing Agent, the Paying Agent, the Specially Dedicated Account Bank, the Joint Arrangers, the Joint Lead Managers, the Interest Rate Swap Counterparty, the Statutory Auditor, the Data Protection Agent or any of their respective affiliates, regardless of the amounts which may remain unpaid after the Final Legal Maturity Date.

Additional costs and expenses

The Issuer may face additional any fees, costs, expenses or liabilities, which would impact its ability to make pay interest or other amounts due under the Notes.

In particular, but without limiting the generality of the foregoing, if the Class A Notes are not redeemed on the First Optional Redemption Date or any of the three subsequent Payment Dates, the Issuer will be obliged to pay interest on the then outstanding Class A Notes at an increased margin until the Class A Notes are redeemed or mature. Whilst the payment obligations of the Interest Rate Swap Counterparty under the Interest Rate Swap Agreement will be increased to cover the higher Class A Margin, there will be no other additional assets receipts or other sources of funds available to the Issuer on or after the relevant First Optional Redemption Date to pay such increased Class A Margin.

In addition, indemnities that may be owed by the Issuer to other parties to the Transaction Documents or to any third parties are not subject to any cap on liability. Although those indemnities that may be owed to other parties to the Transaction Documents subordinated to the payment of interest on the Notes and shall be paid in accordance with the applicable Priority of Payments, this is not the case for indemnities that may be owed to third parties, which are not bound by the Priority of Payments.

More generally, if the Issuer is required to pay any fees, costs, expenses or liabilities, that are unusual, unanticipated and/or extraordinary in nature then, a shortfall in funds necessary to pay interest or other amounts on the Notes may occur.

2. RISKS RELATING TO THE ASSETS ALLOCATED TO THE ISSUER

Borrowers' and Home Loan Guarantors' Ability to Pay – Exposure to losses and late payments

The Issuer is exposed to the credit risk of the Borrowers and to the credit risk of the Home Loan Guarantors. If the Issuer does not receive the full amount due from the Borrowers in respect of the Purchased Home Loans, the Noteholders may receive by way of principal repayment an amount less than the face value of their Notes and the Issuer may be unable to pay, in whole or in part, interest due on the Notes.

Neither the Issuer nor any other person (including the Sellers) guarantees or warrants the full and timely payment by the Borrowers of any sums payable under the Purchased Home Loans.

The ability of a Borrower to make timely payment of amounts due under any Home Loan will mainly depend on its assets and its liabilities as well as its ability to generate sufficient income to make the required payments. Its ability to generate income may be adversely affected by a large number of factors, some of which (i) relate specifically to the Borrower itself (including but not limited to age, health, marital status, creditworthiness or employment) while others (ii) are more general in nature (such as, without limitation, changes in governmental regulations (e.g. rent control regulations), fiscal policy, local property market conditions (e.g. the supply of and demand of residential homes) or interest rates) which may impact the market value of the property.

These and other factors may have an adverse effect on the income of a particular Borrower, his/her ability to service payments under a Home Loan and/or the market value and the proceeds of any re-sale of a Property, the credit quality of any Home Loan Guarantor or his/her ability to make payment, which could trigger losses of principal on the Class A Notes and/or reduce the yield of the Class A Notes.

In addition, the Issuer is also subject to the risk of insufficient funds on any Payment Date as a result of payments being made late.

Credit enhancement mechanisms have been provided for as set out in Section “CREDIT STRUCTURE” to cover the exposure of the Issuer to losses and late payments. However, there is no guarantee that such credit enhancement mechanisms will be sufficient and that the Noteholders will ultimately receive the full principal amount of the Notes and interest thereon if uncovered losses are incurred in respect of the Home Loans.

Contractual rights to defer payments

Under the terms of certain Home Loan Agreements, the Borrowers have an express contractual right to adjust their Home Loan Instalments to their financial capacity provided that the duration of the relevant Home Loan is not increased by more than a certain limit to be agreed between the Borrower and the relevant Seller in each Home Loans Agreement, it being specified that in case of Home Loans entered into with any Caisse d’Epargne such limit shall not exceed 2 years and in case of Home Loans entered into with any Banque Populaire such limit shall not exceed 5 years. If a significant number of the Borrowers exercise such rights this could have a material impact on the receipt of interest payments and principal repayments by the Issuer which could result in a lengthening of the weighted average life of the Class A Notes and/or on the ability of the Issuer to pay amounts owed by it under the Class A Notes when due.

Considerations relating to yield and prepayment

The yield to maturity of the Notes will depend on, *inter alia*, the amount and timing of payment of principal and interest on the Home Loans (including full and partial prepayments, proceeds of enforcement of the Home Loans or repurchase by the relevant Seller of any Home Loans), the amount and timing of delinquencies and defaults on the Home Loans, the occurrence of an Accelerated Amortisation Event or Issuer Liquidation Event and the price paid by the holders of the Notes. Such yield may be adversely affected by a higher or lower than anticipated rate of prepayment on the Home Loans. Prepayments on the Home Loans may result from refinancing, sales of Properties by Borrowers voluntarily or as a result of enforcement proceedings, as well as the receipt of proceeds under the insurance policies.

The rate of prepayment of Home Loans is influenced by a wide variety of economic, social and other factors, including prevailing market interest rates, changes in tax laws (including but not limited to amendments to mortgage interest tax deductibility), local and regional economic conditions and changes in the borrowers' behaviour (including but not limited to home-owner mobility). Changes in the rate of prepayments on the Home Loans may result in changes to the amortisation profile of the Class A Notes. Accelerated pre-payments will generally lead to a reduction in the weighted average life of the Class A Notes. Because these and other relevant factors are not within the control of the Issuer, no assurance can be given as to the level of prepayments that the Portfolio will experience.

In addition, if the Sellers are required, per the terms of the Home Loans Purchase and Servicing Agreement, to repurchase a Home Loan and the attached Ancillary Rights from the Issuer because, for example, one of the Home Loans did not comply in all material respects with the Representations and Warranties related to the Home Loans, then the payment received by the Issuer for such repurchase will have the same effect as a prepayment of all the Home Loans under the Portfolio.

Accordingly, the actual yield may not be equal to the yield anticipated at the time the relevant Notes were purchased, and the expected total return on investment may not be realised. An independent decision by prospective investors in any Notes as to the appropriate prepayment assumptions should be made when deciding whether to purchase any Notes.

Unfair contract terms (*clauses abusives*)

The provisions of the French Consumer Code on unfair contract terms (*clauses abusives*) apply to the Home Loan Agreements. In a professional to consumer or nonprofessional relationship, an unfair contract term (*clause abusive*) is a term that creates a significant imbalance between the rights and obligations of the parties to the detriment of the consumer.

The French Consumer Code sets out a non-exhaustive list of clauses that are presumed to be unfair:

- (i) the "black list" relates to provisions that are always considered as unfair (i.e. the consumer does not have to establish that those provisions are indeed unfair); and
- (ii) there is a presumption that provisions included in the "grey list" are unfair, the proof that such clauses are not unfair falls on the professional.

In addition, the French Unfair Terms Committee (*Commission des clauses abusives*) regularly publishes recommendations listing provisions which, according to such committee, should be regarded as unfair terms. However, French courts are not bound by those recommendations. In any event, whether a provision is to be considered as an unfair term is determined, on a case by case basis, by the courts.

The assessment of the unfairness of a contractual provision cannot relate to the remuneration of the lender or the definition of the main purpose of the contract to the extent that such provision is stated in a clear and understandable manner.

If any Home Loan Agreement contains an unfair contract term, such term will be deemed "unwritten" (*réputée non écrite*) and is accordingly ineffective. The other provisions of such Home Loan Agreement shall remain valid to the extent such Home Loan Agreement may remain without the relevant unfair term.

If any unfair term is included in the aforementioned "black list", any Seller may also be sanctioned by an administrative fine (such fine being in a maximum amount of EUR 15,000 for a legal entity), an injunction to remove the relevant clauses from its terms and conditions and by publicity measures (by way of publication in newspapers, electronic means or billboard display).

In addition, article 1171 of the French Civil code, which was newly introduced by ordinance n° 2016-131 of 10 February 2016, and is a rule of public policy, deems as "unwritten" any clause that is contained in an adhesion contract (*contrat d'adhésion*) and creates a significant imbalance between the parties' respective rights and obligations (but the evaluation of any such imbalance does not extend to the main contract object itself or the adequacy of the consideration payable relative to the goods or services provided), regardless as to whether the contract is entered into with a consumer or not. Pursuant to article 1110 of the French Civil Code, an adhesion contract is one whose general terms and conditions are fixed in advance by one party and not open to negotiation and it cannot be excluded that the Home Loan Agreements, might be considered to qualify as such. For the purpose of the assessment of whether a clause creates an imbalance within the meaning of article 1171, there is no similar list as set out in the French Consumer Code in so far as regards unfair contract terms (*clauses abusives*) and, at the date of this Prospectus, it remains uncertain how a judge would make such assessment.

Interest rate renegotiation

The Borrowers under the Purchased Home Loans may attempt to renegotiate from time to time the interest rate prevailing on their Home Loan. Depending on the outcome of such renegotiation with the relevant Seller, such renegotiation may lead to a reduction in the interest rate on the relevant Home Loan. Such occurrences are more likely to happen in the current context of low market interest rates and no guarantee can be given as to, *inter alia*, the number of Home Loans that may experience an interest rate renegotiation, nor as to the magnitude of any such interest rate renegotiation. The variation in interest rate of any Home Loan may reduce the interest amounts received by the Issuer.

In the event that any Servicer enters into any Commercial Renegotiation, it shall ensure that the corresponding renegotiated Home Loans complies with the Home Loan Eligibility Criteria after such Commercial Renegotiation (to the exception of the Home Loan Eligibility Criteria referred to in paragraph (jj) of the definition), and otherwise it (in its capacity as Seller) shall be under the obligation to repurchase from the Issuer the relevant Purchased Home Loan or, when such repurchase is not made by the Seller for any reason, it shall indemnify the

Issuer accordingly. In this respect, the following Home Loan Eligibility Criteria has been introduced in the documentation: “(cc) the Home Loan bears a fixed interest rate equal to or greater than two per cent (2.0%) *per annum* (excluding insurance premia)”. Pursuant to the terms of the Home Loan Purchase and Servicing Agreement, any Commercial Renegotiation relating to the interest rate of the relevant Performing Home Loan may be considered as a Permitted Amendment provided that: (A) the variation of the interest rate of the relevant Performing Home Loan is in line with market practices at the time of such Commercial Renegotiation, (B) the relevant Servicer shall not accept a variation of the interest rate which it would not have accepted for its own assets similar to the Purchased Home Loans and (C) in order for the relevant Purchased Home Loan to comply with the Home Loan Eligibility Criteria referred to in paragraph (cc) of the definition after such Commercial Renegotiation, the interest rate after such Commercial Renegotiation remains equal to or greater than one point five per cent (1.5%) *per annum* (excluding insurance premia). As a consequence, any Purchased Home Loan which interest rate is reduced below this minimum following Commercial Renegotiation shall be repurchased by the relevant Seller. Such Home Loan repurchase may result in a reduction of the average life of the Class A Notes.

Geographical concentration of financed properties

The financed properties in the provisional Home Loans portfolio were located throughout France as at 31 July 2019, with the largest concentration of 18.3% of the Outstanding Principal Balance of the provisional portfolio being concentrated in the French région “Ile-de-France”. If, due to the outcome of the selection process, or due to evolution of the portfolio after the Selection Date, in particular in the case of repayment or prepayment of the Home Loans, the geographic distribution of properties becomes concentrated in certain regions, cities, towns or areas, any deterioration in the economic condition of such regions, cities, towns or areas in which the properties are located, could adversely affect the ability of the Borrowers to meet their payment obligations under the Home Loans or the market value of the properties, which could trigger losses of principal on the Class A Notes and/or reduce the yield of the Class A Notes.

Evolution of the Portfolio of Home Loans

The characteristics of the Home Loans to be transferred by the Sellers on the Issue Date may not be identical to the characteristics of the Provisional Home Loans selected as of 31 July 2019 as described in the section entitled “INFORMATION RELATING TO THE PROVISIONAL PORTFOLIO OF HOME LOANS” due to, inter alia, the exclusion of: (i) Home Loans prepaid prior to the Issue Date and (ii) Home Loans which at any time prior to the Selection Date are found not to comply with the warranties to be given in respect of the Home Loans on the Issue Date as set out in the Home Loans Purchase and Servicing Agreement.

On or after the Issue Date, the composition of the Portfolio may also change from time to time including by reason of rescission of the sale of any Home Loans which did not comply with the Home Loan Eligibility Criteria as at the Selection Date or at the relevant date specified under the Home Loan Eligibility Criteria, the repurchase by any Seller of any Purchased Home Loans and/or the repayment and the prepayments of any Home Loans and/or Commercial Renegotiations with respect to any Home Loan.

No valuation of properties except in limited circumstances; Limitations of estimations of the value of properties

In most cases and in accordance with the general practice in the French residential loan market, the Sellers do not carry out an appraisal of the market value of a property when originating the Home Loans. Subject to consistency checks or subject to the following paragraph, the value of a property in relation to a Home Loan is determined as being equal to the price paid by the relevant Borrower for the acquisition of the said property.

In limited circumstances, appraisal of value (*expertise*) of a property in relation to a Home Loan may be carried out by staff members of the Sellers or external appraiser. Even when such an appraisal is obtained, investors should be aware that such estimations of value of the property express the opinion of the relevant staff members of the Sellers or external appraisers at such time and are not guarantees of the actual market value of such property at such time or on any future date. Given that such estimations of market value are expressions of opinion, different persons could have different opinions as to the estimated market value of a property in relation to a Home Loan. Moreover, valuations seek to establish the amount that a typically motivated buyer would pay a typically motivated seller and in certain cases, may have taken into consideration the purchase price being paid by the Borrower. There can be no assurance that the property in relation to a Home Loan could in fact be re-sold to a third party purchaser

at a price which corresponds to the estimated value established by the relevant Seller (or, where applicable, an external appraiser) whether at the date of origination of a Home Loan or on any future date.

Enforcement of Home Loans Guarantees or Mortgages

Following an event of default under a Home Loan Agreement, enforcement of the relevant Home Loan Guarantee or the relevant Mortgage and recovery of the proceeds of such enforcement may not be immediate, potentially resulting in a significant delay in the recovery of amounts owed by the relevant Borrower under the relevant Home Loan.

In certain circumstances, a moratorium (or grant by a court of a delay for payment) may apply to prevent or delay enforcement. The procedure of seizure of real estate remains a long procedure under French law, which might delay the ability of the Issuer to be repaid through the sale of the property and, therefore, its ability to redeem the Class A Notes in a timely manner.

Amounts received on enforcement of the security created to secure a Home Loan, following a default under the related Home Loan, including proceeds of any sale or other disposal of the properties and the amount recovered under any Home Loan Guarantee or Mortgage could be insufficient to pay such Home Loan in full, in which case Class A Noteholders may ultimately suffer a loss.

For more information on the enforcement of Home Loans, please refer to section entitled “SPECIFIC FRENCH LEGAL ASPECTS”.

Home Loan Guarantee

Home Loans guaranteed by a Home Loan Guarantee are not necessarily secured by a mortgage. However, most of these Home Loans granted provide that the relevant Borrower undertakes not to grant a mortgage for the benefit of another creditor (*engagement de ne pas hypothéquer*) and covenants to grant a Mortgage to secure the Home Loan at the demand of the Home Loan Guarantor and/or the Lender in limited circumstances, including in case of a breach of certain of its obligations under the Home Loan Agreement. This undertaking to grant a Mortgage (*ou promesse d'hypothèque*) does not create a security interest over the relevant property until the Borrower has in fact signed a notarial deed granting a mortgage and such mortgage has been duly registered on the relevant mortgage registry. If prior to the registration of the Mortgage securing the Home Loan, another creditor of the relevant Borrower has registered a mortgage or judicial mortgage on the relevant mortgage registry, the Mortgage registered first in time would rank in priority to the Mortgage granted and registered to secure the Home Loan.

If there is a failure to pay by the underlying Borrower, the Servicer acting as agent of the Issuer shall make a demand for payment under the Home Loan Guarantee and would be exposed to the credit worthiness of the Home Loan Guarantor being either Parnasse Garanties (rated A by S&P) or CEGC (rated A by S&P). Should Parnasse Garanties or CEGC default under any of their Home Loan Guarantees, the Issuer will use its recourse against the Borrower under the relevant Home Loan Agreement. It should be noted however that each Home Loan Guarantee provides that, where the relevant default corresponds to an insured risk, the beneficiary shall first request an indemnification from the insurer.

The enforcement of any Home Loan Guarantee remains subject to the compliance with certain conditions of enforcement, some of which depend on the performance by the relevant Servicer of its obligations under the Home Loan Guarantee. In the event that any of these conditions are not complied with, the Home Loan Guarantor may refuse to pay the amount due by the relevant defaulting Borrower. To mitigate this risk, each Servicer has undertaken under the Home Loans Purchase and Servicing Agreement to refrain from carrying out any action which may adversely affect the enforcement of any Home Loan Guarantee and to take all necessary steps in order to comply with the conditions of enforcement of any Home Loan Guarantee. In the event that, following a default of any Borrower which had been granted a Home Loan secured by a Home Loan Guarantee, any Servicer calls the relevant Home Loan Guarantee and the relevant Home Loan Guarantor refuses to pay the amount due by such Borrower because the conditions of enforcement of the relevant Home Loan Guarantee have not been complied with by the relevant Servicer, such Servicer shall indemnify the Issuer up to the amount which the Home Loan Guarantor would have paid to such Servicer had the conditions of enforcement of the relevant Home Loan Guarantee been complied with. As a consequence, the investors are exposed to a credit risk *vis-à-vis* the Servicers in this respect.

Upon payment of an amount by the Home Loan Guarantor in respect of a given Home Loan, the Home Loan Guarantor will be subrogated in the rights, actions and security interest of the Seller (or, after the transfer of the relevant Home Loans on the Purchase Date) of the Issuer, in respect of that Home Loan.

Insurance Contracts

As a condition to being granted a Home Loan, Borrowers are generally required to obtain and to maintain an insurance policy to cover risks such as (i) the death (ii) the total and irreversible loss of autonomy and/or (iii) the temporary incapacity to work of the Borrower (such policies "**Payment Protection Policies**") and, where such insurance is so required, as part of its origination process, before granting such Home Loan, each Lender obtains confirmation that the relevant Borrower has subscribed the relevant Payment Protection Policies. In accordance with article L. 313-25, 7° of the French Consumer Code, borrowers are entitled to freely choose the provider of payment protection insurance linked to loans. Hence, Borrowers can freely opt for an insurance company within the BPCE Group or affiliated to the BPCE Group or outside the BPCE Group.

Although there is an obligation on Borrowers to obtain and maintain Payment Protection Policies no assurances can be given as to whether the relevant Borrowers will make effective payments of premiums or comply with other conditions to maintain these policies in full force and effect. The scope of coverage provided by the Payment Protection Policies will depend upon the specific terms and conditions (including deductibles) of the relevant policy.

Likewise, although Borrowers are required or encouraged under the Home Loan Agreements to obtain as at the relevant origination date a multi-risk home property insurance policy with respect to the Properties (such policies, a "**Property Insurance Policies**" and, together with the Payment Protection Policies, the "**Insurance Contracts**"), (i) there are, however, certain types of losses (such as losses resulting from war, terrorism, nuclear radiation, radioactive contamination, subsidence or settling of structures etc.) which may be or may become either uninsurable or not insurable on economic terms, or are otherwise not covered by the required insurance policies and (ii) no assurances can be given as to whether the relevant Borrowers will in fact take or renew any existing Property Insurance Policies, make payments of premiums or comply with other conditions to maintain Property Insurance Policies in full force and effect.

Under the Home Loans Purchase and Servicing Agreement, the Sellers assign to the Issuer the Home Loans and the related Ancillary Rights, which term includes any right or interest which the relevant Seller may have in relation to Insurance Contracts. Whether the Issuer will obtain the full benefit and right to enforce such Insurance Contracts will depend upon whether such insurance policies permit assignment, whether the policies are in full force and effect and the nature of the rights and interest of the Sellers under or in relation to such insurance policies. There is no certainty that all such Insurance Contracts have been effectively subscribed nor that they remain at all times in full force and effect, nor that any claims to insurance proceeds have or will be validly assigned to the Issuer or will in practice be available to the Issuer, and whether the Issuer will in practice obtain all relevant information about such policies, as would be necessary to claim payment directly from the relevant insurer, assuming it is entitled to do so.

In addition, the Issuer will be exposed to the ability of the relevant insurance company to make payment of claims under the Insurance Contracts if an event which gives rise to a right to payment under such Insurance Contract occurs.

Market value of the Purchased Home Loans

In the event of the occurrence of an Issuer Liquidation Event, the amounts available to redeem the Class A Notes and repay all amounts outstanding under the Class A Notes will depend on the proceeds of the sale by the Management Company of the Assets Allocated to the Issuer. There is no assurance that the market value of the Purchased Home Loans (including the related Ancillary Rights) will at any time be equal to or greater than the Principal Amount Outstanding of the Class A Notes then outstanding plus the accrued interest thereon after payment of all other amounts due by the Issuer and ranking senior to the Notes in accordance with the Accelerated Priority of Payments. In such case, the liquidation of the Issuer would not occur, and the Class A Notes would not be redeemed, notwithstanding the occurrence of an Issuer Liquidation Event.

No independent investigation - Representations and Warranties

None of the Management Company, the Custodian, the Account Bank, the Paying Agent, the Listing Agent, the Data Protection Agent, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Joint Arrangers, the Joint Lead Managers or any of their respective affiliates have made or will make any investigations or searches or verify the characteristics of any Purchased Home Loans, the Home Loan Agreements or the Borrowers or the solvency of the Borrowers, the insurers or any Home Loan Guarantor, each of them relying only on the representations made, and on the warranties given, by each Seller regarding, among other things, the Home Loans, the Home Loan Agreements and the Borrowers.

The Management Company will carry out some consistency tests on the information provided to it by the Sellers and will verify the compliance of certain of the Receivables with the Eligibility Criteria. However, the responsibility for the non-compliance of the Home Loans transferred by the Sellers to the Issuer with the Home Loan Eligibility Criteria on the Selection Date or at the relevant date specified under the Home Loan Eligibility Criteria will at all times remain with the Sellers only (and the Management Company, the Custodian, the Account Bank, the Paying Agent, the Listing Agent, the Data Protection Agent, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Joint Arrangers, the Joint Lead Managers shall under no circumstance be liable therefor) and the Management Company will therefore rely only on the representations made, and on the warranties given, by the Sellers regarding the Home Loans.

A specific rescission and indemnification procedure has been provided for in the Home Loans Purchase and Servicing Agreement to indemnify the Issuer in the case of non-conformity of one or several Purchased Home Loans with the Home Loan Eligibility Criteria (if such non-conformity is not, or not capable of being, remedied). The representations and warranties made or given by the Sellers in relation to the conformity of the Home Loans to the Home Loan Eligibility Criteria and this rescission and indemnification procedure is the sole remedy available to the Issuer in respect of the non-conformity of any Home Loan with the Home Loan Eligibility Criteria. Consequently, a risk of loss exists if such representation or warranty is breached and no corresponding indemnification payment is made by the relevant Seller. Under no circumstance may the Management Company request an additional indemnity from such Seller relating to a breach of any such representations or warranties. In addition, the Issuer will be exposed to the credit risk of the Sellers in respect of its claims for payment of any Rescission Amounts or Indemnity Amount.

To the extent that any loss arises as a result of a matter which is not covered by the representations and warranties, the loss will remain with the Issuer. In particular, none of the Sellers gives any warranty as to the ongoing solvency of the Borrowers of the Purchased Home Loans.

Article 1343-5 of the French Civil Code

Pursuant to the provisions of article 1343-5 of the French Civil Code, debtors have a right to request the competent court to postpone (*reporter*) or extend (*échelonner*) for a period of two (2) years, the payment of sums owed by them. Following such a request, the court may, by special and justified decision (*décision spéciale et motivée*), order that the sums corresponding to the postponed instalments bear interest at a reduced rate which cannot be reduced below the then applicable legal interest rate or that the payments will first reimburse the principal. In such circumstances, the Class A Noteholders are likely to suffer a delay in the repayment of the principal of the Class A Notes and the Issuer may not be in a position to pay, in whole or in part, the accrued interest in respect of the Class A Notes if a substantial part of the Portfolio of Home Loans is subject to a decision of this kind.

This risk is mitigated by the provision of liquidity from alternative sources (including the General Reserve Account), as more fully described in Section "CREDIT STRUCTURE". However, no assurance can be made as to the sufficiency of such liquidity support features, or that such features will protect the Class A Noteholders from all risk of delayed payments.

Protection of over-indebted consumers

Pursuant to article L. 711-1 of the French *Code de la consommation* (the **French Consumer Code**), a situation of over-indebtedness is characterised by the manifest impossibility (*impossibilité manifeste*), for an individual, to satisfy all its non-professional debts, whether due and payable or unmatured. The benefit of the over-indebtedness treatment process is granted to any individual, provided that such individual acts in good faith. An individual will not be considered to be acting in good faith if he has organised his own insolvency or has dissipated his assets.

The over-indebtedness process may lead *inter alia* to a suspension of on-going enforcement procedures (*procédures d'exécution forcée*), a suspension of the due date of the debts of the over-indebted individual, a rescheduling of such debts, a reduction or a cancellation of such debts, a reduction or a cancellation of the interest rates applicable thereto, a liquidation of the individual's assets or the total cancellation of all personal debts of the over-indebted individual (for further details in relation to protection of over-indebted consumers, please refer to Section "SPECIFIC FRENCH LAW ASPECTS"). Upon the application of such measures in favour of any Borrowers, the Issuer may suffer a principal loss and/or a reduction in the yield of the Home Loans, which may affect the ability of the Issuer to fulfil its obligations under the Class A Notes.

Real Estate Credit Legislation

The Home Loans are subject to the provisions of the French Consumer Code applicable to mortgage loans (*crédits immobiliers*) ("**Real Estate Credit Law**"), which imposes obligations on lenders (i) to provide certain information to borrower consumers, (ii) to grant time to consumers before the entry into of a credit transaction is definitive, (iii) comply with detailed formalistic rules with regard to the contents of the credit contract, (iv) to limit the amounts that can be requested to the borrower in case of voluntary early prepayment or in case of acceleration of the loan (whether by way of indemnity, fees or through the compounding of interest) and (iv) to notify the borrowers of the global annual effective rate (*taux annuel effectif global*) applicable to the home loans which global effective rate shall not exceed the then applicable usury rate. These rules were significantly amended by the "Loi Lagarde" n° 2010-737 dated 1 July 2010 (the "**Lagarde Law**"). Certain provisions of these amended rules are subject to debate and interpretation. There is currently no or little relevant case-law on (i) how these rules should be interpreted, (ii) what should be done in practice to comply with these rules and (iii) what sanctions would apply in case of breach of or non-compliance with these provisions.

The interpretation of these rules remains subject to the views of any competent court. Infringement of those rules could conduct in particular to (a) the full deprivation of all interest on a credit (i.e. the credit will be effectively granted on an interest free basis), (b) the assessment of a fine against the relevant lender and (c) in the case of (iv) above, if the global annual effective rate (*taux annuel effectif global*) is not notified to a borrower or is incorrect or is exceeding the then applicable usury rate, the mandatory reduction of the interest rate applicable to such home loan to a rate equal to the then applicable legal interest rate (*taux d'intérêt legal*).

If the above mentioned cases were to apply in respect of the Home Loan Agreements, this could create a restitution obligation on the relevant Seller and/or the Issuer in respect of part or all of interest amounts paid by the relevant Borrower and/or a suspension of payment of and/or reduction in the amounts of principal and/or interest due by the relevant Borrower under the relevant Loan Agreement and/or a set-off right of the Borrower in relation to such amounts.

However, the Sellers will represent and warrant that the Home Loans Agreement constitute legal, valid, binding and enforceable contractual obligations of the relevant Borrower with full recourse to the relevant Borrower (except that enforceability may be limited by (i) bankruptcy or insolvency of the Borrower or other laws relating to over-indebtedness (*surendettement*) or enforcement of general applicability affecting the enforcement rights of creditors generally or (ii) the existence of unfair contract terms (*clauses abusives*) as defined by articles L.212-1 *et seq.* of the French Consumer Code in the Home Loan Agreements (provided they would not (A) affect the right of the Issuer to purchase the Home Loan as contemplated under the Home Loan Purchase and Servicing Agreement or (B) deprive the Issuer of its rights to receive principal and to receive interest as provided for under the Home Loan) and that the Home Loan Agreement has been executed between the relevant Seller and a Borrower pursuant to the applicable provisions of the French Consumer Code applicable to mortgage loans (*crédits immobiliers*) and all other applicable legal and regulatory provisions.

Defences

Notwithstanding the assignment by a Seller of the relevant Purchased Home Loans, related insurance claims under any Insurance Contract (as the case may be) or rights under any Home Loan Guarantee (as the case may be), the relevant Borrowers, insurance company or Home Loan Guarantor will be entitled to exercise against the Issuer:

- (a) all rights of defence arising from their relationship with such Seller (*exceptions nées de ses rapports avec le cédant*), such as the granting of a grace period, the reduction of the debt or the rights to set-off mutual

debts that are not closely connected (*l'octroi d'un terme, la remise de dette ou la compensation de dettes non connexes*), where such rights of defence arose prior to such notice of such assignment; and

- (b) all rights of defence which are inherent to their respective debts (*exceptions inhérentes à la dette*), such as the nullity, the failure to perform, the rescission or the set-off of mutual debts that are closely connected (*la nullité, l'exception d'inexécution, la résolution ou la compensation de dettes connexes*), regardless of whether such rights of defence arose before or after such notice of such assignment.

Such defences, which may in particular, but without limitation, consist in set-off rights, may impact the principle, or the amount of, the payments expected from the Borrower under the relevant Purchased Home Loans, and adversely affect the ability of the Issuer to make payments of principal and/or interest due to the Noteholders.

Set-off by Borrowers

Contractual set-off

The Home Loan Agreements do not include any express provision granting a contractual right of set-off to a Borrower.

Legal set-off

Absent an express exclusion by the Borrower of its set-off rights, set-off may still arise in accordance with and subject to the general rules pertaining to legal set-off (*compensation légale*), as provided for by articles 1347 and 1347-1 (or, prior to 1st October 2016, article 1289) of the French Civil Code. Under French law, two claims shall extinguish by way of legal set-off if:

- (i) they are reciprocal (*réiproques*);
- (ii) both are either monetary claims or fungible between themselves (*fongibles*);
- (iii) their respective amount can be determined (*liquides*); and
- (iv) they are due and payable (*exigibles*).

However, so long as a Borrower under a Home Loan has not been notified of the transfer of such Home Loan to the Issuer, the Borrower shall remain allowed to raise a defence of set-off against such Seller based on statutory set-off. After notification of the transfer to the Borrower, such Borrower may only be entitled to invoke statutory set-off if, prior to the notification of the transfer, the above-mentioned conditions for statutory set-off were satisfied.

Set-off of closely connected debts

Rights of set-off can also arise, even if all the conditions for a statutory set-off are not met, when two or more payment obligations owed between two parties are closely connected (*dettes connexes*). This principle has been codified under new article 1348-1 of French Civil Code. The concept of closely connected claims remains undefined in the French Civil Code and French courts determine whether two debts are *dettes connexes* on a case by case basis. Claims created under a same contract are usually considered as closely connected, whereas claims created by different contracts can be considered as closely connected if they are related to the same global economic operation. The fact that a Borrower has been duly notified of the transfer of the Home Loan will not prevent such a Borrower invoking set-off based on debts between the relevant Seller and the Borrower which are *dettes connexes*. The Home Loan Agreement do not include any provision which expressly states that any right or claim of a Borrower against the original lender or a Seller is closely connected (*connexe*) to the Home Loan provided to such Borrower.

Judicial set-off

More generally, set-off can be decided by a court and, in this respect, new article 1348 of the French Civil Code provides that a judicial set-off may be granted by a court with respect to claims which are certain, even if

such claims are not liquid and/or due. Such set-off must be requested before the court and the decision to grant such a set-off is at the discretion of the court.

In respect of Home Loans, the most likely circumstances where set-off would have to be considered are when counterclaims resulting from the existence of a current account opened in the name of the Borrower with any Seller will allow such Borrower to set-off its counterclaims arising from the existence of such current account against sums due under a Home Loan. In this situation however, several French Courts of Appeal have held that there was no connection (*connexité*) of claims, notwithstanding that the instalment under the Home Loan was to be paid by way of direct debit from the funds standing to the credit of the relevant current account, considering that, in the cases at hand, the parties did not intend to inter-relate their current account relationship and the lending transaction on an economic standpoint.

In this respect, this risk is mitigated by the facts that:

- (a) the following Home Loan Eligibility Criteria that have been introduced in the Home Loans Purchase and Servicing Agreement:
 - (i) *“the Seller does not use set-off as means of payment of the amounts due and payable by the Borrower under the Home Loans”;*
 - (ii) *“the Borrower does not benefit from a contractual right of set-off pursuant to the relevant Home Loan Agreement”;*
 - (iii) *“the opening by the Borrower of a bank account dedicated to payments due under the Home Loan is not provided in the relevant contractual arrangements as a condition precedent to the originator of the Home Loan making the Home Loan available to the Borrower under the Home Loan”;*
 - (iv) *“the Borrower is not an employee of the relevant Seller (nor, if different, of the originator), provided that in case of a Home Loan granted to several co-borrowers, this Home Loan Eligibility Criteria shall apply to the main borrower (l’emprunteur principal) only”;*
 - (v) *“the Home Loan Agreement does not include any provision which expressly states that any right or claim of the relevant Seller against the relevant Borrower under the Home Loan Agreement from which the Home Loan is deriving is closely connected (connexes) to any reciprocal right or claim of the relevant Borrower against the relevant Seller under any other contractual arrangement”;*
 - (vi) *“the Home Loan is not secured by a cash deposit (gage-espèces)”;*
- (b) French banking law provides that deposits, savings and other funds of the Sellers' clients benefit from a national deposit guarantee scheme. The French deposit guarantee fund (*Fonds de garantie des dépôts et de résolution*) intervenes at the request of the French banking authority (the *Autorité de contrôle prudentiel et de résolution* “ACPR”) as soon as it finds that a credit institution (such as a Seller) is no longer able, immediately or in the short term, to repay deposits, savings and funds received from its clients. In addition, following a proposal from the ACPR, the French deposit guarantee fund (*Fonds de garantie des dépôts et de résolution*) may also intervene as a preventive measure when the situation leads the French deposit guarantee fund to fear that deposits, savings and other funds may not be available to a credit institution in the future. When, following the intervention of the French deposit guarantee fund (*Fonds de garantie des dépôts et de résolution*), the Sellers' clients have been repaid their deposits, savings and other funds, such clients would not have any claim against the Sellers under such deposits, savings and other funds.

If, notwithstanding the above considerations, a Borrower is entitled to exercise a right of set-off against sums owing to the Issuer in respect of a Purchased Home Loan (whether such set-off is imposed by operation of law, by contract or by a competent court) and as a result of any such event, the Issuer is not lawfully entitled to receive a portion of the principal amount or the entire principal amount due with respect to such Purchased Home Loan, the Home Loans Purchase and Servicing Agreement provides that the Seller which has transferred such Purchased Home Loan to the Issuer shall pay to the Issuer such portion or such principal amount as Deemed

Collections. Any Deemed Collections due in respect of any Quarterly Collection Period by a Seller with respect to Home Loans assigned to the Issuer by such Seller will be paid by such Seller on the Settlement Date following such Quarterly Collection Period, to the Issuer by way of cash settlement. Such amount will form part of the Available Distribution Amount corresponding to that Collection Period, as though such amount had been paid by the relevant Borrower in cash.

Set-off in relation to any Insurance Contract

A risk of set-off may arise if an insurer under an Insurance Contract has a claim against the Lender and that insurer could raise a set-off between such claim and a claim assigned by the Lender to the Issuer. Such risk would continue to apply notwithstanding the assignment of the claim by the Lender to the Issuer and notwithstanding a notification of the assignment of that claim to the Issuer if (i) the condition of a legal set-off are met by the two claims prior to such notification or (ii) if the claim of that insurer is closely connected (*dettes connexes*) with the claim of the Lender under the relevant Home Loan Agreement.

In particular, if the Lender acting as agent of the insurer under any Insurance Contract in order to collect, on behalf of the insurer, the insurance premium paid by the Borrowers, has failed to transfer the insurance premium to the insurer, the insurer would have a claim against the Lender and may try to set off such claim with any debt towards the Lender under the relevant Insurance Contract. Under such circumstances, the relevant insurer could be entitled to raise such set-off *vis-à-vis* any assignee of the indemnity claims under the Insurance Contract (such as the Issuer, as the case may be), based on the principles mentioned above.

Set-off risk in relation to any Home Loan Guarantees

A risk of set-off would arise if the Home Loan Guarantor had a claim against the Lender and the Home Loan Guarantor could raise a set-off between such claim and a claim assigned by the Lender to the Issuer. Such risk would continue to apply notwithstanding the assignment of the claim by the Lender to the Issuer and notwithstanding a notification of the assignment of that claim to the Issuer if (i) the condition of a legal set-off are met by the two claims prior to such notification or (ii) if the claim of the Home Loan Guarantor is closely connected (*dettes connexes*) with the claim of the Lender under the relevant Home Loan Guarantee.

In particular, if a Home Loan Guarantor was to pay to the Lender an amount further to a call under a given guarantee, which appeared thereafter undue or excessive in view of the terms of the relevant Home Loan Guarantee, the Home Loan Guarantor would have a restitution claim against the Lender. Under such circumstances, the Home Loan Guarantor could be entitled to raise such set-off to any assignee of the indemnity claims under other guarantees (such as the Issuer), based on the principles mentioned above.

3. RISK RELATED TO THIRD PARTIES

Servicing

Reliance on Servicing Procedures

The Servicers will carry out the administration, the servicing, the recovery and the enforcement of the Home Loans. Accordingly, the Noteholders are relying on the expertise, the business judgement, the practices, the capacity and the continued ability to perform of the Servicers in respect of the administration, the servicing, the recovery and the enforcement of claims against Borrowers, selling the properties and/or enforcing Ancillary Rights. Each Servicer is required to follow the Servicing Procedures, being those practices, policies and procedures consistently used by such Servicer with respect to comparable home loans that it services for itself or its affiliates.

However, there is no certainty and no representation and warranty is hereby given by any of the Management Company, the Custodian, the Sellers, the Servicers, the Transaction Agent, the Account Bank, the Paying Agent, the Listing Agent, the Data Protection Agent, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Joint Arrangers or the Joint Lead Managers that such Servicing Procedures will be sufficient for the efficient and successful servicing, administration, recovery and enforcement of the Home Loans.

The Servicers may sub-contract to third parties certain of its tasks and obligations under, the Home Loans Purchase and Servicing Agreement, which may give rise to additional risks (although the Servicers shall remain

liable for its obligations under the Home Loans Purchase and Servicing Agreement, notwithstanding such sub-contracting).

Furthermore, any material amendment to or substitution of the Servicing Procedures shall require the prior written approval of the Management Company and the Custodian. The Rating Agencies shall be informed by the Management Company of any such material amendment to or substitution of Servicing Procedures and an overview of any such substantial amendment to or substitution of Servicing Procedures will be provided to investors on a quarterly basis and within one (1) month of each Payment (provided that such information shall be reported prior to such date, if necessary to make sure that such information is reported to investors without undue delay).

Replacement of any Servicer

If any of the Banques Populaires or the Caisses d'Epargne, were to cease to act as Servicer, the processing of payments on the Purchased Home Loans and information relating to their collection could be delayed as a result. Such delays may have a negative impact on the timely payment of amounts due to the Noteholders. However, a Commingling Reserve will be funded by the Reserves Provider to guarantee the full and timely payment by the Servicers of their payment obligations towards the Issuer under the Home Loans Purchase and Servicing Agreement (for further details on the commingling risk, see paragraph "Commingling" below).

In addition, pursuant to the provisions of article L. 214-172 of the French Monetary and Financial Code, the Borrowers will need to be informed of the change or transfer of all or part of the servicing of the Purchased Home Loans to another entity.

No back-up servicer has been appointed and there is no assurance that any substitute servicer could be found.

Furthermore, it should be noted that any substitute servicer is likely to charge fees on a basis different to that of the replaced Servicer.

The Noteholders have no right to give orders or direction to the Management Company in relation to the duties and/or appointment or removal of the Servicers. Such rights are vested solely in the Management Company.

Termination of servicing mandate

An administrator (*administrateur judiciaire*) or, as applicable, the liquidator (*liquidateur judiciaire*) will have the ability, pursuant to article L. 622-13 of the Commercial Code, to require that the Home Loans Purchase and Servicing Agreement be continued. However, to the extent that, after the commencement of French insolvency proceedings against any Seller, such Seller does not perform its obligations as Servicer under the Home Loans Purchase and Servicing Agreement, then the Management Company will be entitled to terminate such mandate pursuant to the provisions of the Home Loans Purchase and Servicing Agreement.

No initial notification of assignment of Purchased Home Loans

The Home Loans Purchase and Servicing Agreement provides that the transfer of the Purchased Home Loans (and any Ancillary Rights) will be effected through an assignment of these rights by the relevant Seller to the Issuer pursuant to article L.214-169 of the French Monetary and Financial Code. The assignment will not be initially notified to the relevant Borrowers, and any relevant insurance company under any Insurance Contract and Home Loan Guarantor under any Home Loan Guarantee relating to the relevant Home Loans.

The assignment will only be notified to the relevant Borrowers, and any relevant insurance company under any Insurance Contract (if known) and Home Loan Guarantor under any Home Loan Guarantee relating to the relevant Home Loans, upon termination of the appointment of any Servicer (or from the occurrence of a Servicer Termination Event in respect of that Servicer if necessary to protect the interest of the Issuer) pursuant to the Home Loans Purchase and Servicing Agreement, and subject to the receipt from the Data Protection Agent of the Decryption Key in accordance with the terms of the Data Protection Agreement.

Until a Borrower, any relevant insurance company under any Insurance Contract (if known) or Home Loan Guarantor is so notified, the latter can discharge its obligations by making payment to the relevant Servicer.

Accordingly, the Issuer would be exposed, prior to such notification, to the credit risk of the Servicers in respect of any such payment.

Commingling

There is a risk that Available Collections be commingled with other assets of any of the Servicers upon its insolvency. This risk is addressed by the fact that the Borrowers will in such case be instructed by the Management Company (or any third party or substitute servicer) to pay any amount owed under the Purchased Home Loans into any account specified by the Management Company in the notification. However, the commingling risk will arise as long as the proceeds arising out of or in connection with the Purchased Home Loans will keep on being paid by the Borrowers to the concerned Servicer. This risk is mitigated as follows.

First, in accordance with articles L. 214-173 and D. 214-228 of the French Monetary and Financial Code, the Management Company, the Custodian, each Servicer and the Specially Dedicated Account Bank will enter into a Specially Dedicated Account Bank Agreement on or before the Issuer Establishment Date pursuant to which at least one account of such Servicer shall be identified in order to be operated as a Specially Dedicated Bank Account (*compte spécialement affecté*). As a consequence, all the amounts credited to any Specially Dedicated Bank Account shall benefit exclusively (*au bénéfice exclusif*) to the Issuer and the other creditors of the Servicer in the name of which such Specially Dedicated Bank Account has been opened shall not be entitled to claim payment over the sums credited to such Specially Dedicated Bank Account, even if such Servicer becomes subject to a proceeding governed by Book VI of the French Commercial Code or any equivalent procedure governed by any foreign law (*procédure équivalente sur le fondement d'un droit étranger*). Subject to and in accordance with the provisions of the Home Loans Purchase and Servicing Agreement, each Servicer shall in an efficient and timely manner collect, transfer and credit directly or indirectly to its Specially Dedicated Bank Account(s) all Available Collections received in respect of the Purchased Home Loans transferred by it to the Issuer.

Under the Specially Dedicated Account Bank Agreement to which it is a party and under the Home Loans Purchase and Servicing Agreement, each Servicer has undertaken to transfer to the General Account, on each Settlement Date, any amount of Available Collections collected under any Purchased Home Loan (including its Ancillary Rights) during the immediately preceding Quarterly Collection Period and standing to the credit of its Specially Dedicated Bank Account(s) as of such date.

The efficiency of the Specially Dedicated Bank Account mechanism will however be dependent upon the fact that the Specially Dedicated Account Bank agrees to comply with its undertakings to follow solely the instructions of the Management Company and cease to comply with the instructions of any Servicer following receipt of a notification to that effect.

In any case, the part of the Available Collections not credited directly to the Specially Dedicated Bank Accounts but transiting via other accounts of the Servicers will not be protected against the commingling risk by the Specially Dedicated Bank Account mechanism, as it is highly likely that an administrator (*administrateur judiciaire*) or, as applicable, liquidator (*liquidateur judiciaire*) of any Servicer will stop transferring any such amounts to its Specially Dedicated Bank Account(s).

To further mitigate the commingling risk, the Reserves Provider will, in accordance with the Reserves Cash Deposits Agreement, if the Management Company determines that the Commingling Reserve needs to be adjusted in order to comply with the Commingling Reserve Required Amount, credit the Commingling Reserve Account (A) within thirty (30) calendar days (in case of a downgrade by Moody's) or within fourteen (14) calendar days (in case of a downgrade by Fitch) following the date on which the Specially Dedicated Account Bank is downgraded below the Account Bank Required Ratings or (B) thereafter on the Settlement Date following the Calculation Date on which the Management Company makes such determination, with the necessary amounts in order for the credit standing to the Commingling Reserve Account to be at least equal to the Commingling Reserve Required Amount applicable on that date.

Reliance on Servicers for the production of Individual Servicer Reports and on the Transaction Agent for the production of Master Servicer Reports

In order for the Management Company to be aware of the amounts of Outstanding Principal Balance of the Performing Home Loans and Available Collections applicable for each Collection Period, which amounts are

necessary to make payments in accordance with the relevant Priority of Payments applicable on any Payment Date and more generally, in order to gather information in relation to the Home Loans, the Management Company relies on the Master Servicer Reports provided to it on each Information Date by the Transaction Agent, prepared on the basis of each Individual Servicer Report received by the Transaction Agent from the Servicers on each Reporting Date.

In the event of a Master Servicer Report Delivery Failure (i.e. if the Management Company does not receive, or there is a delay in the receipt of, any of the three (3) Master Servicer Reports in respect of the Quarterly Collection Period preceding a Calculation Date), the Management Company will make any calculations that are necessary to make payments in accordance with the relevant Priority of Payments applicable on the following Payment Date, on the basis of the latest information received from the Servicers or the Transaction Agent, as applicable. As a consequence, on any Payment Date, Noteholders may receive less payments of principal than what they would otherwise have received, if the Master Servicer Report Delivery Failure occurs immediately following a period in which the Available Collections were particularly low.

To mitigate this risk, (i) determinations are made in that case on the basis of the last three (3) available Master Servicer Reports delivered to the Management Company and not only the last one and (ii) in the event that on three (3) consecutive Information Dates, the Transaction Agent has not provided the Management Company, with a copy to the Custodian, with a Master Servicer Report and except if all Servicers have provided the Management Company directly, with a copy to the Custodian, with their Individual Servicer Reports, a Master Servicer Termination Event shall occur.

Additionally, upon receipt of the relevant Master Servicer Report, the Management Company shall reconcile the calculations and the actual collections, determine the applicable regularisation amount and adjust the amounts to be paid to the Class A Noteholders, the Class B Noteholders, the Residual Unitholders and the Interest Rate Swap Counterparty (as the case may be) on the next applicable Payment Date(s).

Notification of the Borrowers and ability to obtain the Decryption Key

For the purpose of accessing personal data related to the Borrowers (such as, *inter alia*, their names and addresses) provided in encrypted form to the Management Company in the Encrypted Data File and notifying the relevant Borrowers (as the case may be), the Management Company will need the Decryption Key, which will not be in its possession but under the control of BNP Paribas Securities Services, in its capacity as Data Protection Agent if it has not been replaced. Accordingly, there cannot be any assurance, in particular, as to:

- (x) the possibility to obtain in practice such Decryption Key and to read the relevant data; and
- (y) on the ability, as the case may be, of BNP Paribas Securities Services to provide the Decryption Key if it faces difficulties; and
- (z) the ability of the Management Company (or any person appointed by it) to obtain such data in time for it to validly implement the procedure of notification of the Borrowers (as the case may be) before the corresponding Home Loans become due and payable (and to give the appropriate payment instructions to the Borrowers).

As a result, the notification to the Borrowers of the assignment to the Issuer of the Home Loans in order to obtain the direct payment of sums due to the Issuer under the Home Loans may be considerably delayed. Until such notification has occurred, the Borrowers may validly pay with discharging effect to the Sellers or enter into any other transaction with regard to the Home Loans, which may affect the rights of the Issuer under the Home Loans.

That being said, it is worth noting that, pursuant to the Data Protection Agreement: in relation to paragraph (x) above, the Management Company shall on the Issuer Establishment Date and on or about each anniversary date of the Issuer Establishment Date and may, at any time, upon reasonable request, request the Data Protection Agent to test the decryption of each Encrypted Data File and, notably, test if such Encrypted Data File is capable of being decrypted and, in relation to paragraph (y) above, if BNP Paribas Securities Services faces difficulties and a Data Protection Agent Termination Event occurs, the Management Company shall, as soon as possible, terminate the appointment of the Data Protection Agent and appoint a new data protection agent.

Reliance of the Issuer on third parties

The Issuer has entered into agreements with a number of third parties, which have agreed to perform services to the Issuer on an on-going basis. In particular, but without limitation, the Management Company represents the Issuer and provides all necessary advice and assistance and know-how, whether technical or otherwise, including that which is in connection with the day to day management and administrative tasks of the Issuer and to ensure that all the rights and obligations of the Issuer under the Transaction Documents will be exercised and/or, as applicable, performed.

If the Management Company or any other relevant party providing services to the Issuer under the Transaction Documents fails to perform its obligations under the relevant agreement(s) to which it is a party, the ability of the Issuer to make payments under the Notes may be affected.

The Transaction Documents provide for the ability of the Issuer under certain circumstances to terminate the appointment of any relevant third party service provider under the relevant Transaction Documents and to replace them by a suitable successor. However, there is no guarantee or assurance that a suitable successor can be appointed or as to the financial terms on which they would agree to be appointed.

Credit risk of the parties to the Transaction Documents

The ability of the Issuer to make any principal and interest payments in respect of the Class A Notes depends, to a large extent, upon the ability of the parties to the Transaction Documents to perform their payment obligations towards the Issuer. In particular and without limiting the generality of the foregoing, the timely payment of amounts due in respect of the Class A Notes depends on (a) the ability of the Servicers to transfer to the Issuer any amount collected or recovered under in relation to the Purchased Home Loans, (b) the ability of the Sellers to meet their payment obligations under the Home Loans Purchase and Servicing Agreement, (c) the creditworthiness of the Account Bank and the Specially Dedicated Account Bank and (d) the ability of the Interest Rate Swap Counterparty to pay any Interest Rate Swap Net Amount when due to the Issuer.

Failure of any such party to make a payment as expected and when due may, if the mitigants included in the structure of the Transaction are insufficient, would affect the ability of the Issuer to make principal and interest payments in respect of the Class A Notes.

Potential Conflicts of Interest of the parties

Conflicts of interest may arise as a result of various factors involving in particular the Issuer, the Management Company, the Custodian, the Account Bank, the Paying Agent, the Listing Agent, the Data Protection Agent, the Specially Dedicated Account Bank, the Sellers, the Servicers, the Transaction Agent, the Borrowers, the Interest Rate Swap Counterparty, the Joint Arrangers, the Joint Lead Managers, their respective affiliates and the other parties named herein.

For example (but without limitation), in France, any Servicer may hold and/or service claims against the Borrowers other than the Purchased Home Loans. The interests or obligations of such Servicer in its capacities with respect to such other claims may in certain aspects conflict with the interests of the Noteholders. In this respect, it should however be noted that:

- (a) the payment of the remaining excess cash of the Issuer after payment of all other amounts by the Issuer, together with the repayment of the General Reserve Decrease Amount, pursuant to the applicable Priority of Payments, to the Reserves Provider can be considered as economic incentives for the Reserves Provider to comply with its duties under the Transaction Documents;
- (b) pursuant to the Home Loans Purchase and Servicing Agreement:
 - (i) each Servicer has undertaken to the Management Company and the Custodian that it shall devote to the performance of its obligations at least the same amount of time and attention and overall diligence that it would normally exercise for the administration, recovery and collection of its own assets similar to the Purchased Home Loans, with the due care that would

be exercised by a prudent and informed manager and, more generally, with the standard of care that it applies for its own business; and

- (ii) in the event the Issuer and any Seller are respectively the creditors of a same Borrower, and in the absence of any specific instructions from the Borrower in respect of a payment made by the said Borrower to the creditors, such Servicer has undertaken to allocate the amounts paid by the Borrower between the receivables owed to it (or any other third party for which it is acting as agent) and the receivables owed to the Issuer, in accordance with the practices and allocation rules it would usually apply for its own receivables.

BPCE or related entities in the BPCE Group are involved in this transaction under the following capacities: Joint Arrangers, Joint Lead Manager, Custodian, Sellers, Servicers, Account Bank, Specially Dedicated Account Bank, Transaction Agent, Reserves Provider, Interest Rate Swap Counterparty and Home Loan Guarantors. Conflicts of interest may exist or may arise as a consequence of entities of the BPCE Group having different roles in this transaction, although some of these entities are organised in such a manner as to avoid any potential conflict of interest.

In addition, pursuant to Article 318-13 of the AMF General Regulations, the Management Company shall maintain and operate effective organisational and administrative arrangements with a view to taking all reasonable steps designed to identify, anticipate, manage and monitor conflicts of interest in order to prevent them from adversely affecting the interests of the Issuer and the Noteholders and the Residual Unitholders.

All of the aforementioned parties may engage in commercial relationships, in particular, be lender, provide general banking, investment and other financial services to the Borrowers and other parties and take part in other securitisation transactions. In such relationships the aforementioned parties are not obliged to take into account the interests of the Noteholders. Accordingly, because of these relationships, potential conflicts of interest may arise out of the transaction.

4. RISKS RELATING TO THE CLASS A NOTES

Rights to payment that are senior to or *pari passu* with payments on the Class A Notes

Certain amounts payable by the Issuer to third parties such as the Management Company, the Custodian, the Account Bank, the Paying Agent, the Listing Agent, the Data Protection Agent, the Specially Dedicated Account Bank, the Servicers, the Transaction Agent and the Interest Rate Swap Counterparty rank in priority to, or *pari passu* with, payments of interest and, as applicable, principal on the Class A Notes. The payment of such amounts will reduce the amount available to the Issuer to make payments of interest and, as applicable, principal on the Class A Notes.

No assurances can be given regarding the amount of any such reduction or its impact on the Class A Notes.

Risk of early redemption in full – Impact on yield

The Management Company shall be entitled to declare the dissolution of the Issuer and liquidate the Issuer in one single transaction in case of the occurrence of any of the Issuer Liquidation Events.

If any of these events occur, the Notes may be redeemed earlier than would otherwise have been the case. This, in combination with an issue price on the Notes above par, may have an adverse effect on the investment yield of the Notes as compared with the expectations of investors.

Risk that the Class A Notes might not be redeemed on the First Optional Redemption Date or any of the three subsequent Payment Dates

The Class A Notes may not be redeemed on the First Optional Redemption Date or any of the three subsequent Payment Dates if the Sellers or any other authorised purchaser do not agree with the Management

Company, according to the provisions of the Home Loans Purchase and Servicing Agreement for the re-assignment of all Purchased Home Loans then held by the Issuer.

If this occurs, the average maturity of the Class A Notes will be longer than expected and is estimated to be 3,10 years, based on the hypothesis of a 15% CPR, as mentioned in Section "WEIGHTED AVERAGE LIFE OF THE CLASS A NOTES AND ASSUMPTIONS" below.

Investors who had anticipated that the Class A Notes would be redeemed on the First Optional Redemption Date or any of the three subsequent Payment Dates will not receive redemption proceeds on the date they had anticipated and may be locked into holding their investment in the Class A Notes for a longer duration than they had anticipated. The fact that the Class A Notes are not redeemed on any of these Payment Dates may have an adverse effect on the market value and/or liquidity of the Class A Notes. However, this is mitigated by the fact that the Class A Margin after the First Optional Redemption Date will be twice the level of the initial Class A Margin and that investors would as a consequence receive greater interest payments after the First Optional Redemption Date in the event that the Class A Notes would not be redeemed on the First Optional Redemption Date or any of the three (3) subsequent Payment Dates.

For further details, please refer to "LIQUIDATION OF THE ISSUER, CLEAN-UP OFFER AND RE-PURCHASE OF THE HOME LOANS" and "Condition 4 (Redemption) - (f) Early redemption in full on the First Optional Redemption Date or on any of the three (3) subsequent Payment Dates".

Credit enhancement and liquidity support mechanisms provide only limited protection

Credit enhancement and liquidity mechanisms established in respect of the Issuer through the issue of the Class B Notes and the Residual Units, the constitution of the General Reserve, the possibility to use principal to pay interest on the Class A Notes due to the combined nature of the Priority of Payments and the excess margin (a part of which is reliant on the Interest Rate Swap Counterparty paying the Interest Rate Swap Net Amounts, as the case may be) provide only limited protection to the Class A Noteholders. Although the credit enhancement and the General Reserve is intended to reduce the effect of delinquent payments or losses incurred in respect of the Purchased Home Loans, the amount of such liquidity support and credit enhancement is limited and, if reduced to zero (0), the Class A Noteholders will suffer from late payments or losses. As a consequence, the credit enhancement mechanisms might not be sufficient in the event of late payments or will directly bear the risk of loss in respect of interest and principal.

Interest-related matters

No default interest

In the event that on any applicable Payment Date, the amounts available to make payments of interest or principal in respect of the Class A Notes by the Issuer after payment of any amounts ranking in priority, are insufficient to pay in full any amount of interest or principal which is then due and payable in respect of the Class A Notes, such unpaid amount will not accrue default interest until full payment.

Such risk is mitigated by the fact that the failure by the Issuer to pay any amount of interest due and payable on the Class A Notes in accordance with the Conditions, where non-payment continues for a period of five (5) Business Days, will constitute an Accelerated Amortisation Event.

However, no assurance can be given that the Issuer will have sufficient resources on a Payment Date or on the Final Legal Maturity Date to pay any deferred amount calculated as being due on the Class A Notes.

Market Disruption

The rate of interest in respect of the Class A Notes for each Interest Period contains provisions for the calculation of such underlying rates based on rates given by various market information sources and Condition 3 (Interest) contains an alternative method of calculating the underlying rate should any of those market information sources, including the EURIBOR, be unavailable. The market information sources might become unavailable for various reasons, including suspensions or limitations on trading, events which affect or impair the ability of market participants in general, or early closure of market institutions. These could be caused by *force majeure* events

impacting the publishers of the market information sources, market institutions or market participants in general, or unusual trading, or matters such as currency changes. In such case, the Terms and Conditions of the Class A Notes provides that the Management Company shall determine the applicable rate based on quotations from several banks or, failing which, by applying a fixed rate based on the rate which applied in the previous period when EURIBOR was available.

The outcome of such alternative determination methods cannot be foreseen and could be materially different, and possibly result in the Class A Noteholders received a materially different, possibly lower, interest amount than what would have been received had the EURIBOR been available.

Potential Reform of EURIBOR determinations

In June 2016, the European Union adopted Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the “**Benchmark Regulation**”). The Benchmark Regulation entered into force on 20 June 2016 with the majority of its provisions applying since 1 January 2018. It provides that administrators of benchmarks in the European Union generally must be authorized by or registered with regulators no later than 1 January 2020, and that they must comply with a code of conduct designed primarily to ensure reliability of input data, governing issues such as conflicts of interest, internal controls and benchmark methodologies. The Benchmark Regulation could have a material impact on the Notes, in particular, if the methodology or other terms of EURIBOR are changed in order to comply with the requirements of the Benchmark Regulation.

Furthermore, EURIBOR is subject to ongoing national and international regulatory reforms. Some of these reforms are already effective while others are still to be implemented. Following the implementation of any such reforms, the manner of the administration of such benchmarks may change with the result that they may perform differently than in the past, or their calculation method may be revised, or they could be eliminated entirely, or there could be other consequences that cannot be predicted.

Investors should note that in case of any change in the definition, methodology, or formula for EURIBOR, or other means of calculating EURIBOR, the consent of the Noteholders will not be required. If the Noteholders decide to oppose to it by a two-third majority vote cast at a Noteholders’ Meeting convened at the request of one or more Noteholders holding at least one-thirtieth of the outstanding Notes in accordance with Condition 7(d)(i), the Management Company will follow the Reference Rate Determination Process, as described further in “*Discontinuity of EURIBOR*” below.

These initiatives may impact in the future the determination of EURIBOR for the purposes of the Class A Notes and the Interest Rate Swap Agreement, and this may result in a decrease in EURIBOR rates and/or have an adverse impact on the liquidity or the market value of the Class A Notes.

Discontinuity of EURIBOR

Pursuant to the Terms and Conditions of the Notes, if a EURIBOR Discontinuity Event occurs, the Management Company will, as soon as reasonably practicable and after discussion with the Transaction Agent, follow the Reference Rate Determination Process and appoint a Rate Determination Agent, who will determine a replacement rate for the EURIBOR as well as any necessary changes to the business day convention, the definition of business day, the interest rate determination date, the day count fraction and any method for calculating the replacement rate, including any adjustment factor needed to make such replacement rate comparable to EURIBOR. Any of the foregoing determinations or actions by the Rate Determination Agent (or, as the case may be, the Alternative Rate Determination Agent or the Final Rate Determination Agent), could result in adverse consequences for the rate of interest of the Class A Notes. Any such consequences could have adverse effect on the value and marketability of, and return on, such Notes. To mitigate this risk, the Rating Agencies shall be notified of the contemplated Replacement Rate, Alternative Replacement Rate, Final Replacement Rate, as applicable, concomitantly with the notice made to the Class A Noteholders and referred to as the Replacement Rate Notice, Alternative Replacement Rate Notice or Final Replacement Rate, respectively and the replacement of the EURIBOR by such replacement rate shall not result, in the reasonable opinion of the Management Company, in the downgrading or the withdrawal of any of the ratings of the Class A Notes, or that the said replacement limits such downgrading.

Investors should note that the Replacement Rate and the Other Determinations determined in respect of the Class A Notes in accordance with the Reference Rate Determination Process may differ from the ones determined in respect of the Interest Rate Swap Transaction in accordance with the fall-back provisions of the Interest Rate Swap Agreement and that any such mismatch may result in the Available Distribution Amount being insufficient to make the required payments on the Class A Notes.

Interest rate risk – Interest rate hedging

The Purchased Home Loans bear a fixed interest rate but the Issuer will pay interest on the Class A Notes issued in connection with its acquisition of such Purchased Home Loans based on the EURIBOR. The Issuer will hedge this interest rate risk by entering into an Interest Rate Swap Agreement with the Interest Rate Swap Counterparty.

Insufficiency of funds

During periods in which floating rate payments payable by the Interest Rate Swap Counterparty under the Interest Rate Swap Agreement are less than the fixed rate payments payable by the Issuer under the Interest Rate Swap Agreement, the Issuer will be obliged under the Interest Rate Swap Agreement to make a net payment to the Interest Rate Swap Counterparty. The Interest Rate Swap Counterparty's claims for payment (including certain termination payments required to be made by the Issuer upon a termination of the Interest Rate Swap Agreement) under the Interest Rate Swap Agreement will rank higher in priority than payments on the Class A Notes. If a net payment under the Interest Rate Swap Agreement is due to the Interest Rate Swap Counterparty on a Payment Date, the then Available Distribution Amount may be insufficient to make such net payment to the Interest Rate Swap Counterparty and, in turn, interest and principal payments to the Class A Noteholders, so that the Noteholders may experience delays and/or reductions in the interest and principal payments on the Class A Notes.

Credit risk of the Interest Rate Swap Counterparty

During periods in which floating rate payments payable by the Interest Rate Swap Counterparty under the Interest Rate Swap Agreement are greater than the fixed rate payments payable by the Issuer under the Interest Rate Swap Agreement, the Issuer will be more dependent on receiving net payments from the Interest Rate Swap Counterparty in order to make interest payments on the Class A Notes. If in such a period the Interest Rate Swap Counterparty fails to pay any amounts when due under the Interest Rate Swap Agreement, the Available Distribution Amount may be insufficient to make the required payments on the Class A Notes and the Class A Noteholders may experience delays and/or reductions in the interest and principal payments on the Class A Notes. The Issuer is therefore exposed to the credit risk of the Interest Rate Swap Counterparty (for further details on the risk linked to the opening of resolution procedures in relation to the Interest Rate Swap Counterparty, please refer to risk factor entitled “European Bank Recovery and Resolution Directive and Single Resolution Mechanism” below).

To mitigate such risk, in the event that the Interest Rate Swap Counterparty suffers a rating downgrade below the required ratings, the Issuer may terminate any relevant Interest Rate Swap Agreement if the Interest Rate Swap Counterparty fails, within a set period of time, to take certain actions intended to mitigate the effects of such downgrade. Such actions may include the Interest Rate Swap Counterparty collateralising its obligations under the Interest Rate Swap Agreement, transferring its obligations to a replacement interest rate swap counterparty having the required ratings or procuring that an entity with the required ratings becomes a co-obligor with or guarantor of the Interest Rate Swap Counterparty. However, in the event the Interest Rate Swap Counterparty is downgraded below the required ratings there can be no assurance that a co-obligor, guarantor or replacement interest rate swap counterparty will be found or that the amount of collateral provided will be sufficient to meet the Interest Rate Swap Counterparty's obligations (see the Section "DESCRIPTION OF THE INTEREST RATE SWAP AGREEMENT").

Risk of termination of the Interest Rate Swap Agreement

The Management Company and the Interest Rate Swap Counterparty may also terminate the Interest Rate Swap Agreement upon the occurrence of certain termination events further described in Sub-Section “Certain other cases of termination” in Section "DESCRIPTION OF THE INTEREST RATE SWAP AGREEMENT”.

In the event that the Interest Rate Swap Agreement is terminated by either party:

- (a) then, depending on the total losses and costs incurred in connection with the termination of the swap (including but not limited to loss of bargain, cost of funding and losses and costs incurred as a result of termination, liquidating, obtaining or re-establishing any hedge or related trading position), a termination payment may be due to the Issuer or to the Interest Rate Swap Counterparty. Any such termination payment could be substantial;
- (b) the Issuer will endeavour but may not be able to enter into a replacement interest rate swap agreement with a replacement interest rate swap counterparty immediately or at a later date. If a replacement interest rate swap counterparty cannot be contracted, the Issuer will no longer be hedged against interest rate risk and the amount available to pay principal of and interest on the Class A Notes will be reduced if the floating rate applicable to the Class A Notes exceeds the fixed rate the Issuer would have been required to pay the Interest Rate Swap Counterparty under the terminated Interest Rate Swap Agreement.

In these circumstances, the Available Distribution Amount may be insufficient to make the required payments on the Notes and the Noteholders may experience delays and/or reductions in the interest and principal payments on the Notes.

5. RISKS RELATING TO OTHER SELECTED FRENCH LAW ASPECTS

Transfer of receivables and hardening period

The hardening period (*période suspecte*) is a period of time the duration of which is determined by the bankruptcy judge upon the judgement recognising that the cessation of payments (*cessation des paiements*) of the insolvent company has occurred. The hardening period commences on a date which can be set at up to eighteen (18) months prior to the date of such judgement. Article L. 632-1 of the French Commercial Code provides *inter alia* that transactions carried out during the hardening period and in respect of which the obligations of the insolvent company notably exceeds (*n'excèdent pas notablement*) the obligation of its counterparty shall be automatically null and void and article L. 632-2 of the French Commercial Code provides *inter alia* for a potential nullity of acts carried out during the hardening period which are onerous (*actes à titre onéreux*) if the counterparty of an insolvent company was aware, at the time of conclusion of such acts, that such company was unable to pay its debts due with its available funds (*en état de cessation des paiements*).

Pursuant to article L. 214-169 of the French Monetary and Financial Code:

- (a) the assignment of Home Loans by such Seller shall remain valid (*conserve ses effets*), notwithstanding the state of cessation of payments (*l'état de cessation des paiements*) of the Seller on the Purchase Date or the commencement of any proceeding governed by Book VI of the French Commercial Code or any equivalent proceeding governed by any foreign law (*procédure équivalente sur le fondement d'un droit étranger*) against any Seller after the Purchase Date;
- (b) the provisions of article L. 632-2 of the French Commercial Code shall not apply to payments made by the Issuer or to any acts against remuneration received by the Issuer or to its benefit (*ne sont pas applicables aux paiements reçus par un organisme de financement, ni aux actes à titre onéreux accomplis par un organisme de financement ou à son profit*) to the extent such payments and such acts are directly connected with the transactions made pursuant to Article L. 214-168 of the French Monetary and Financial Code (*dès lors que ces paiements ou ces actes sont directement relatifs aux opérations prévues à l'article L. 214-168*).

Based on (a) and (b) above, the rules pertaining to the nullity of acts concluded during the hardening period (*période suspecte*) provided for in articles L. 632-2 of the French Commercial Code will not apply in respect of the transfer of the Home Loans by the Sellers to the Issuer. Although it cannot be excluded based on (a) above that article L. 214-169 of the French Monetary and Financial Code would also exclude the application of L. 632-1 of the French Commercial Code to such transfer, this remains subject to debate given that only article L. 632-2 is explicitly mentioned by article L. 214-169 of the French Monetary and Financial Code. It can therefore not be

excluded that said article L. 632-1 could still entail the nullity of a transfer carried out during the hardening period if the obligations of a Seller were held to notably exceed (*excédent notablement*) the obligations of the Issuer.

Impact of the hardening period on French law cash deposits

The General Reserve Initial Cash Deposit and the Commingling Reserve are governed by articles L. 211-36 *et seq.* of the French Monetary and Financial Code being the applicable rules of French law implementing directive 2002/47/EC of the European Parliament and of the Council of 6 June 2002 on financial collateral arrangements (the “**Directive**”).

Article L. 211-40 of the French Monetary and Financial Code states that the provisions of book VI of the French Commercial Code (pertaining to insolvency proceedings as a matter of French law) shall not impede (“*ne font pas obstacle*”) the application of article L. 211-38 of the French Monetary and Financial Code. This provision should lead to the conclusion that the rules pertaining to the nullity of acts concluded during the hardening period (*période suspecte*) (as provided for in articles L. 632-1 and L. 632-2 of the French Commercial Code) will not apply in respect of guarantees governed by said article L. 211-38. The hardening period (*période suspecte*) is a period of time the duration of which is determined by the bankruptcy judge upon the judgement recognising that the cessation of payments (*cessation des paiements*) of the insolvent company has occurred. The hardening period commences on a date which can be set at up to eighteen (18) months prior to the date of such judgement.

Given the provisions of the Directive it is reasonable to consider that article L. 211-40 of the French Monetary and Financial Code will exclude application of articles L. 632-1, I, 6° of French Commercial Code, which provides for an automatic nullity of security interest granted during the hardening period to secure past obligations of a debtor and, therefore, that the General Reserve Initial Cash Deposit and the Commingling Reserve, would not be void on the basis of said article L. 632-1, I, 6° of the French Commercial Code.

Although, it cannot be excluded that article L. 211-40 of the French Monetary and Financial Code does not intend to overrule article L. 632-2 of the French Commercial Code, which provides for a potential nullity of acts which are onerous (*actes à titre onéreux*) if the counterparty of the Borrower was aware, at the time of conclusion of such acts, that the Borrower was unable to pay its debts due with its available funds (*en état de cessation des paiements*), pursuant to article L. 214-169 of the Monetary and Financial Code, the provisions of article L. 632-2 of the French Commercial Code shall not apply to payments made by the Issuer or to any acts against remuneration received by the Issuer or to its benefit (*ne sont pas applicables aux paiements reçus par un organisme de financement, ni aux actes à titre onéreux accomplis par un organisme de financement ou à son profit*) to the extent such payments and such acts are directly connected with the transactions made pursuant to Article L. 214-168 of the Monetary and Financial Code (*dès lors que ces paiements ou ces actes sont directement relatifs aux opérations prévues à l'article L. 214-168*). In the case at hand, should the General Reserve Initial Cash Deposit and/or the Commingling Reserve be considered as directly connected with the acquisition of Home Loans by the Issuer (a matter of fact on which there is, to date, no court decision), article L. 632-2 of the French Commercial Code would not be deemed applicable. Should it not be the case, it cannot be excluded that nullity of the General Reserve Initial Cash Deposit or the Commingling Reserve could be sought, if the Issuer was aware, at the time where the General Reserve Initial Cash Deposit and/or the Commingling Reserve were constituted (or the subject of an increase), that BPCE was unable to pay its debt due with its available funds (*en état de cessation des paiements*).

6 RISKS RELATING TO DATA PROTECTION ASPECTS

Under Law N°78-17 of 6 January 1978 (as amended) relating to the protection of personal data (Loi relative à l'informatique, aux fichiers et aux libertés) (the “French Data Protection Law”) the processing of personal nominative data relating to individuals has to comply with certain requirements. In addition, EU 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (the “**GDPR**”, together with the “**French Data Protection Law**”, the “**Data Protection Requirements**”) has come into force in all EU Member States on 25 May 2018. Although a number of basic existing principles remain the same as in the French Data Protection Law, the GDPR introduces new obligations on data controllers and rights for data subjects, including, among others (i) accountability and

transparency requirements, which require data controllers to demonstrate and record compliance with the GDPR and to provide more detailed information to data subjects regarding processing; (ii) enhanced data consent requirements, which includes “explicit” consent in relation to the processing of sensitive data; (iii) obligations to consider data privacy as any new products or services are developed and limit the amount of information collected, processed, stored and its accessibility; (iv) constraints on using data to profile data subjects; (v) providing data subjects with personal data in a useable format on request and erasing personal data in certain circumstances; and (v) reporting of breaches without undue delay (72 hours where feasible).

A breach of the Data Protection Requirements may result in corrective measures, sanctions from the *Commission nationale de l'informatique et des libertés*, criminal offences or, from the civil perspective, indemnity claims. Depending on the requirement considered, the author of the breach can be sentenced to significant fines of up to the greater of EUR 20,000,000 or 4% of its worldwide turnover). Additionally, pursuant to article 37 ter of the French Data Protection Law, if several individuals suffer a damage from the relevant breach, they may launch a class action, the purpose of which is to ensure the cessation of such breach and/or obtain the indemnification of such damage.

Pursuant to the provisions of the relevant Transaction Documents, personal data regarding the Borrowers will be included in an Encrypted Data File and transmitted to the Management Company and the Decryption Key to decrypt such documents will be delivered by each Seller or the Transaction Agent on its behalf to the Data Protection Agent. The Decryption Key will only be released to the Management Company or the person designated by the Management Company for this purpose in certain limited circumstances (See Section “DESCRIPTION OF THE DATA PROTECTION AGREEMENT”). The Data Protection Agent will also carry out some tests from time to time, and for such purpose receive the Encrypted Data File, decrypt the same to verify whether such files are not unreadable, partially empty or corrupted, and destroy the data immediately after having carried out such test. In view of its autonomy in defining the purposes and means of the processing of personal data, and as it is now the most generic view to consider that encrypted data would still constitute personal data given the possibility to reverse the encryption process, the Management Company will act as a data controller, and the Data Protection Agent will act as a processor of the Management Company.

Under the Transaction Documents, the respective rights and obligations of any party in connection with the provision or the use of or access to information under the Transaction Documents are expressed to be subject and without prejudice to the obligation of such party to comply with the applicable Data Protection Requirements and each party to the Transaction Documents has undertaken to comply therewith when exercising such rights or performing such obligations. However, at today’s date, there is no case law, publication or guidelines from a court or other competent authority available confirming the above and the traditional view on the manner and procedures for the processing of personal data that underly an assignment of loan receivables to be in compliance with the GDPR. Therefore, certain aspects of the implementation of the Data Protection Requirements in the context of securitisation transactions remain unclear and subject to interpretation and It can not be excluded that some of the parties to the Transaction may have to take further steps to comply with the Data Protection Requirements which may result in the need to amend the provisions of certain Transaction Documents in the future.

7. RISKS RELATING TO TAXATION

Withholding pursuant to the U.S. Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code (“**FATCA**”) impose a reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to a non-U.S. financial institution (a “**foreign financial institution**”, or “**FFI**” (as defined by FATCA)) unless such FFI (i) becomes a “**participating FFI**” by entering into an agreement with the U.S. Internal Revenue Service (“**IRS**”) to provide the IRS with certain information in respect of its account holders and investors or (ii) is otherwise exempt from, or in deemed compliance with, FATCA.

The FATCA withholding regime applies to certain U.S.-source payments, including interest and dividends. The FATCA withholding regime also applies to certain “**foreign passthru payments**” (a term not yet defined) made two years after the date on which applicable final U.S. Treasury Regulations defining “foreign passthru payments” are issued. Withholding on foreign passthru payments could potentially apply (no earlier than two years

after the date on which applicable final U.S. Treasury Regulations defining “foreign passthru payments” are issued) to payments in respect of (i) any Class A Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are materially modified after the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payments are filed with the U.S. Federal Register and (ii) any Class A Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an “**IGA**”). Pursuant to FATCA and the “Model 1” IGA released by the United States, an FFI in a Model 1 IGA jurisdiction could be treated as a reporting financial institution (a “**Reporting FI**”) not subject to withholding under FATCA on any payments it receives. Further, under the terms of the Model 1 IGA, an FFI in a Model 1 IGA jurisdiction generally would not be required to withhold under FATCA or an IGA (or any law implementing an IGA) from payments it makes. On 14 November 2013, the United States and France signed an IGA largely based on the Model 1 IGA. This IGA was ratified by the French parliament on 29 September 2014.

The Issuer may be classified as an FFI and a Reporting FI under the IGA between the United States and France. As a Reporting FI, the Issuer would not be required to enter into an agreement with the IRS, but may instead be required to register with the IRS and comply with any French legislation that is implemented to give effect to the French IGA, including a requirement to provide information regarding direct and indirect U.S. investors in the Issuer to the French tax authorities, which would provide such information to the U.S. tax authorities. As such the Issuer does not expect to suffer any withholding under FATCA on payments it receives or to be required to make any FATCA withholding with respect to payments on the Class A Notes. There can be no assurance, however, that the Issuer will in the future not suffer withholding under FATCA on payments it receives or be required to withhold under FATCA from payments it makes.

If an amount in respect of FATCA withholding were to be deducted or withheld either from amounts due to the Issuer or from interest, principal or other payments made in respect of the Class A Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Class A Notes, be required to pay additional amounts as a result of the deduction or withholding. As a result, investors may receive less interest or principal than expected.

FATCA is particularly complex. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Class A Notes.

8. RISKS RELATING TO REGULATORY CONSIDERATIONS

Simple, Transparent and Standardised (“STS”) Securitisation

The securitisation transaction described in this Prospectus aims to fulfil the requirements of articles 19 up to and including 22 of the Securitisation Regulation in order for it to qualify as an STS securitisation and the Transaction Agent acting on behalf of the Sellers, as originators, intends to submit on or about the Issue Date an STS notification to ESMA in relation to the securitisation transaction described in the Transaction Documents in accordance with article 27 of the Securitisation Regulation. No assurance can be provided that the securitisation transaction described in this Prospectus does or continues to qualify as an “STS” securitisation under the Securitisation Regulation.

Non-compliance with such status may result in higher capital requirements for investors and pursuant to the terms of the Commission delegated regulation 2018/1620 of 13 July 2018, which shall apply from 30 April 2020, the Class A Notes may no longer qualify as a Level 2B securitisation. Furthermore, non-compliance could result in various administrative sanctions and/or remedial measures being imposed on the Issuer or the Sellers which may be payable by the Issuer or the Sellers. The payments to be made by the Issuer, as the case may be, in respect of any such administrative sanctions and/or remedial measures would not be subject to the Priority of Payments and, accordingly, the payment of interest and/or principal under the Notes may be adversely affected.

No representation or assurance by any of the Issuer, the Sellers, the Servicers, the Transaction Agent, the Management Company, the Custodian, the Account Bank, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Joint Arrangers, the Joint Lead Managers, the Paying Agent, the Listing Agent or any of their respective affiliate is given with respect to (i) the compliance of the securitisation transaction described in the Transaction Documents with the requirements of articles 19 up to and including 22 of the Securitisation Regulation or (ii) the inclusion of the securitisation transaction described in the Transaction Documents in the list administered by ESMA within the meaning of article 27(5) of the Securitisation Regulation, (iii) the fact that the securitisation transaction described in the Transaction Documents does or continues to comply with the Securitisation Regulation, and (iv) the fact that this securitisation transaction qualifies as an "STS securitisation" under the Securitisation Regulation and will continue to qualify as such in the future until the date on which all Notes have been redeemed.

European Market Infrastructure Regulation, Securities Financing Transactions Regulation and MiFIDII

Regulation (EU) No 648/2012 of the European Parliament and of the Council of 4 July 2012 on OTC derivatives, central counterparties and trade repositories, known as the European Market Infrastructure Regulation ("**EMIR**") came into force on 16 August 2012 and was recently amended by Regulation (EU) 2019/834 of the European Parliament and of the Council of 20 May 2019 which came into force on 17 June 2019.

EMIR provides certain requirements in respect of "over the counter" ("**OTC**") derivative contracts applying to financial counterparties ("**FCPs**"), such as investment firms, credit institutions, insurance companies and alternative investment funds (other than securitisation special purpose entities, like the Issuer) and certain non-financial counterparties ("**Non-FCPs**"). Such requirements include, amongst other things, the mandatory clearing of certain OTC derivative contracts (the "**Clearing Obligation**") through an authorised central counterparty ("**CCP**"), the reporting of OTC derivative contracts to a trade repository (the "**Reporting Obligation**"), margin posting and certain risk mitigation requirements in relation to derivative contracts which are not centrally cleared.

The Reporting Obligation applies to all types of counterparties and covers the entry into, modification or termination of cleared and non-cleared derivative contracts which were entered into (i) before 12 February 2014 and which remain outstanding on that date, or (ii) on or after 12 February 2014. The details of all such derivative contracts are required to be reported to a trade repository. It will therefore apply to the Interest Rate Swap Agreement and any replacement Interest Rate Swap Agreement.

Under EMIR, OTC derivative contracts entered into by Non-FCPs whose positions exceed a specified threshold (such entities, "**Non-FCPs+**", and together with FCPs, the "**In-scope Counterparties**") and FCPs entities (and/or third country equivalent entities) that are not cleared by a CCP may be subject to margining requirements unless certain exemptions apply. However, on the basis that the Issuer is a Non-FCP- (being a Non-FCP entity whose positions do not exceed the specified threshold), OTC derivative contracts that are entered into by the Issuer would not be subject to any margining requirements.

EMIR has been amended by Regulation (EU) No 2015/2365 of 25 November 2015 which was published in the Official Journal of the European Union on 23 December 2015 and took effect as of 12 January 2016 known as the Securities Financing Transactions Regulation ("**SFTR**"). The SFTR introduces certain requirements in respect of OTC derivative contracts applying to financial counterparties ("**SFTR FCPs**"), such as investment firms, credit institutions and insurance companies and certain non-financial counterparties ("**SFTR Non-FCPs**"). Such requirements include, amongst other things, the reporting of each "Securities Financing Transaction" that has been concluded between SFTR FCPs and SFTR Non-FCPs, together with any modification or termination of a Securities Financing Transaction, to a trade repository (the "**SFTR Reporting Obligation**"). The definition of Securities Financing Transaction could potentially include the credit support agreements. The requirements also include an obligation to disclose certain information before counterparties (including SFTR FCPs and SFTR Non-FCPs) can reuse financial instruments (but not cash) received as collateral from 13 July 2016, which obligation applies irrespective of whether the transaction is a "Securities Financing Transaction".

EMIR has further been amended by Securitisation Regulation, which provides that the Clearing Obligation shall not apply with respect to OTC derivative contracts that are concluded by a securitisation special purpose entity in connection with a securitisation provided that: (i) such securitisation complies with each of the criteria for an STS Securitisation, (ii) the OTC derivative contract is used only to hedge interest rate or currency mismatches under the securitisation; and (iii) the arrangements under the securitisation adequately mitigate

counterparty credit risk with respect to the OTC derivative contracts concluded by the securitisation special purpose entity in connection with the securitisation. Accordingly, as long as the securitisation transaction described in this Prospectus complies with the requirements of articles 19 up to and including 22 of the Securitisation Regulation and qualifies as an STS Securitisation, the Clearing Obligation will not apply to the Interest Rate Swap Agreement.

The EU regulatory framework and legal regime relating to derivatives is set not only by EMIR or the Securitisation Regulation but also by the directive and regulation which have been adopted by the European Parliament and of the European Council and published in the Official Journal of the European Union on 12 June 2014 which amend the existing Markets in Financial Instruments Directive 2004/39/EC (together known as "**MiFID II**"). MiFID II took effect on 3 January 2018 and now applies within Member States.

Prospective investors should be aware that the regulatory changes arising from the Securitisation Regulation, EMIR and MiFID II may in due course significantly raise the costs of entering into derivative contracts and may adversely affect the Issuer's ability to engage in transactions in OTC derivatives.

As a result of such increased costs or increased regulatory requirements, investors may receive less interest or return, as the case may be. Investors should be aware that such risks are material and that the Issuer could be materially and adversely affected thereby. As such, investors should consult their own independent advisers and make their own assessment about the potential risks posed by the Securitisation Regulation, EMIR, technical standards made thereunder (including the regulatory technical standards and implementing technical standards adopted by the European Commission in relation with EMIR) and MiFID II, in making any investment decision in respect of the Notes.

ECB Purchase Transaction

Between 21 November 2014 and 19 December 2018 the Eurosystem conducted net purchases of asset-backed securities under the asset-backed securities purchase programme (ABSPP) in line with the ECB's objective to maintain the price stability in the euro area and, also, to help enterprises across Europe to enjoy better access to credit, boost investments, create jobs and thus support the overall economic growth. As from January 2019, the Eurosystem no longer conducts net purchases, but continues to reinvest redemptions from securities held in the ABSPP portfolio. The termination of these purchase transactions could have an adverse effect on the volatility in the financial markets and economy generally and on the secondary market value of the Notes and the liquidity in the secondary market for the Class A Notes.

Eurosystem Eligibility

The Class A Notes to be issued under the Transaction are intended to be held in a manner which will allow Eurosystem eligibility.

This means that the Class A Notes to be issued under the Transaction are intended upon issue to be deposited with one of Euroclear or Clearstream, Luxembourg as common safekeeper but does not necessarily mean nor imply any guarantee that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem either upon issue or at any or all times during their life.

Such recognition will, inter alia, depend upon satisfaction of the Eurosystem eligibility criteria. Such criteria may be amended by the European Central Bank from time to time or new criteria may be added and such amendments or additions may render the Class A Notes non eligible to the Eurosystem monetary policy and intraday credit operations, as no grandfathering would be guaranteed. If the new requirements are not met, this may cause the Class A Notes of any Note Series to be non-eligible to the Eurosystem monetary policy operations.

If the Class A Notes do not or cease to satisfy the criteria specified by the European Central Bank, there is a risk that the Class A Notes will not be eligible collateral for Eurosystem. Neither the Issuer, the Management Company, the Custodian, the Account Bank, the Paying Agent, the Listing Agent, the Data Protection Agent, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Joint Arrangers, the Joint Lead Managers, the Sellers, the Servicers, the Transaction Agent nor any of their respective affiliates nor any other party gives any representation, warranty, confirmation or guarantee to any investor in the Class A Notes that the Class A Notes to be issued under the Transaction will, either upon issue, or at any or all times during their life, satisfy all or any requirements for Eurosystem eligibility and be recognised as Eurosystem eligible collateral. Any

potential investor in the Class A Notes should make their own conclusions and seek their own advice with respect to whether or not the Class A Notes to be issued under the Transaction constitute Eurosystem eligible collateral.

European Bank Recovery and Resolution Directive

The BRRD, the stated aim of which is to provide supervisory authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimize taxpayers' contributions to bank bail-outs and/or exposure to losses has been formally transposed into French law by the French Separation Law, as amended and supplemented by the 2015 Order, which, among other provisions, gave various resolution powers to the resolution board of the ACPR (together: the "**French Resolution Regime**"). Such resolution powers include:

- (a) the appointment by the ACPR of a provisional administrator, it being specified that any contractual provision providing that such appointment triggers an event of default would be void;
- (b) (i) the transfer to a third party of all or part of one or several business units (*branches d'activités*) of the French bank or the French investment firm; and/or (ii) the transfer to a bridge institution (*établissement-relais*), a third party, an asset management vehicle wholly or partially owned by one or more public authorities, or the deposit guarantee and resolution fund (*fonds de garantie des dépôts et de résolution*) of all or part of its assets, rights and obligations (each such measure being referred to herein as a "**Transfer**"). It is further provided that in case of Transfer, outstanding agreements relating to the business, assets, rights or obligations so transferred shall remain executory and may not be terminated nor give rise to any set off merely as a result of such Transfer, notwithstanding any contractual or statutory provisions to the contrary;
- (c) the suspension of close-out netting rights in relation to any contracts entered into by the credit institution (*établissement de crédit*) until 0:00 (midnight) at the latest on the business day following the day of publication of the decision, of the ACPR;
- (d) a bail-in (*mesure de renflouement interne*) of all or part of the credit institution's or the investment firm's liability under which the ACPR may decide to exercise write-down or conversion powers; and/or
- (e) a modification or an amendment to the contractual terms if a contract to which the credit institution or the investment firm is a party (including a financial contract)

If at any time any resolution powers would be used by the *Autorité de contrôle prudentiel et de résolution* under the French Resolution Regime or, as applicable, the Single Resolution Board or any other relevant authority in relation to the Sellers, the Servicers, the Reserves Provider, the Account Bank, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Data Protection Agent and the Paying Agent or otherwise, this could adversely affect the proper performance by each of the Sellers, the Servicers, the Reserves Provider, the Account Bank, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Data Protection Agent and the Paying Agent under the Transaction Documents and result in losses to, or otherwise affect the rights of, the Noteholders and/or could affect the market value and the liquidity of the Class A Notes and/or the credit ratings assigned to the Class A Notes.

For further details on resolution measures provided under the BRRD and the French Resolution Regime please refer to Section "REGULATORY ASPECTS - European Bank Recovery and Resolution Directive and Single Resolution Mechanism".

- (ii) within a period of thirty (30) calendar days and with the prior approval of the Custodian (such approval not to be unreasonably withheld or delayed, and provided that, if the Management Company considers, having regards to the interest of the Noteholders and Residual Unitholders, that the Custodian is holding or delaying its consent unreasonably, the Management Company shall be entitled to set aside the opinion of the Custodian), replace the Servicer with any entity fit for that purpose (such replacement servicer being appointed with respect to the Purchased Home Loans whose servicing is the responsibility of such Servicer only), in accordance with article L. 214-172 of the French Monetary and Financial Code, it being provided that any other Servicer in respect of which no Individual Servicer Termination Event and no event which could, through the passage of time or the giving of a notice, become an Individual Servicer Termination Event, has occurred, may be appointed as a replacement servicer.

For the avoidance of doubt, the occurrence of an Individual Servicer Termination Event with respect to a Servicer shall not in itself constitute an Individual Servicer Termination Event with respect to the other Servicers.

Following the occurrence of a Master Servicer Termination Event as set out above, the Management Company shall:

- (i) immediately send a Notification of Control to the Specially Dedicated Account Bank (with a copy to the Custodian and each Servicer) with the effect of preventing it from implementing any further debit instruction from all Servicers with respect to their respective Specially Dedicated Bank Accounts; and
- (ii) within a period of thirty (30) calendar days and with the prior approval of the Custodian (such approval not to be unreasonably withheld or delayed, and provided that, if the Management Company considers, having regards to the interest of the Noteholders and Residual Unitholders, that the Custodian is holding or delaying its consent unreasonably, the Management Company shall be entitled to set aside the opinion of the Custodian), replace all Servicers with any entity or entities fit for that purpose, in accordance with article L. 214-172 of the French Monetary and Financial Code.

Upon termination of the appointment of any Servicer (or from the occurrence of a Servicer Termination Event in respect of that Servicer if necessary to protect the interest of the Issuer) pursuant to the Home Loans Purchase and Servicing Agreement, and subject to the receipt from the Data Protection Agent of the Decryption Key in accordance with the terms of the Data Protection Agreement, the Management Company shall, as soon as possible upon receipt of such Decryption Key and at the latest within thirty (30) calendar days of such receipt (or shall instruct any substitute servicer or any third party appointed by it, following prior information of the Custodian, to) (i) notify the relevant Borrowers, and any relevant insurance company under any Insurance Contract (if known) and Home Loan Guarantor under any Home Loan Guarantee relating to the relevant Home Loans, of the assignment of the relevant Home Loans to the Issuer and (ii) instruct the relevant Borrowers, insurance company and Home Loan Guarantor, to pay any amount owed by them under the relevant Purchased Home Loans, Insurance Contract or Home Loan Guarantee (as applicable) into any account specified by the Management Company (or the relevant third party or substitute servicer) in the notification.

In accordance with articles L. 214-173 and D. 214-228 of the French Monetary and Financial Code and pursuant to the terms of the Specially Dedicated Account Bank Agreement, at least one bank account specially dedicated (*compte spécialement affecté*) to the benefit of the Issuer has been opened by each Servicer with the Specially Dedicated Account Bank (the “**Specially Dedicated Bank Accounts**”).

Interest Rate Swap Counterparty

Initial Interest Rate Swap Counterparty

NATIXIS, a *société anonyme*, incorporated under the laws of France, whose registered office is located at 30, avenue Pierre Mendès France, 75013 Paris (France), registered with the Trade and Companies Registry of Paris (France) under number 542 044 524, licensed as a credit institution (*établissement de crédit*) with the status of bank (*banque*) by the *Autorité de Contrôle Prudentiel et de Résolution*, acting through its London Branch located at Cannon Bridge House, 25 Dowgate Hill, London EC4R 2YA, United Kingdom.

Ratings of the Interest Rate Swap Counterparty by Moody's and termination of the Interest Rate Swap Agreement

A termination by reasons of Change of Circumstances (as defined in the Interest Rate Swap Agreement) under the Interest Rate Swap Agreement entitling the Management Company to terminate (without being obliged to) the Interest Rate Swap Agreement will occur if (A) the Moody's Qualifying Transfer Trigger Requirements apply and thirty (30) or more Business Days have elapsed since the last time the Moody's Qualifying Transfer Trigger Requirements did not apply and (B) at least one Moody's Eligible Replacement has made a Firm Offer (as defined in the Interest Rate Swap Agreement) after that would, assuming the occurrence of an early termination, qualify as a Replacement Value (as defined in the Interest Rate Swap Agreement) and remain capable of becoming legally binding upon acceptance.

A termination by reasons of Event of Default (as defined in the Interest Rate Swap Agreement) under the Interest Rate Swap Agreement entitling the Management Company to terminate (without being obliged to) the Interest Rate Swap Agreement will occur if the Moody's Collateral Trigger Requirements apply and

the Interest Rate Swap Counterparty has failed to transfer collateral as required pursuant to the Collateral Annex.

Ratings of the Interest Rate Swap Counterparty by Fitch and termination of the Interest Rate Swap Agreement

Following the occurrence of a Fitch Collateral Trigger Event, the provision of additional collateral or credit support to the Issuer under the Interest Rate Swap Agreement; if at any time the Interest Rate Swap Counterparty is required to provide collateral in respect of any of its obligations under the Interest Rate Swap Agreement following a credit ratings downgrade of the Interest Rate Swap Counterparty, in accordance with the terms of the Interest Rate Swap Agreement, the amount of collateral (if any) that, from time to time, (i) the Interest Rate Swap Counterparty is obliged to transfer to the Issuer or (ii) the Issuer is obliged to return to the Interest Rate Swap Counterparty, shall be calculated in accordance with the terms of the Interest Rate Swap Agreement.

Following the occurrence of a Fitch Replacement Trigger Event, an obligation of the Interest Rate Swap Counterparty to use commercially reasonable efforts for its obligations under the Interest Rate Swap Agreement to be transferred to or guaranteed by an entity with the ratings required pursuant to the Interest Rate Swap Agreement.

Furthermore, a failure of the Interest Rate Swap Counterparty to comply with such requirements within the required time frame will constitute a Change of Circumstances (as defined in the Interest Rate Swap Agreement) with the Interest Rate Swap Counterparty being the sole Affected Party (as defined in the Interest Rate Swap Agreement) and all transactions being Affected Transactions (as defined in the Interest Rate Swap Agreement). Accordingly, in such circumstances, the Management Company will be entitled to terminate the Interest Rate Swap Agreement.

Certain other cases of termination

The Interest Rate Swap Counterparty may terminate the Interest Rate Swap Agreement upon the occurrence of either of the following events (such list not being exhaustive):

- (a) if the Issuer fails to make a payment under the Interest Rate Swap Agreement when due and such failure is not remedied after the notice of such failure being given;
- (b) if any amendment to the Transaction Documents is made without the prior consent of the Interest Rate Swap Counterparty, (i) where such amendment has or could have a material adverse effect on the interests of the Interest Rate Swap Counterparty under the Interest Rate Swap Agreement or under the relevant Transaction Documents or (ii) if any Funds Allocation Rules are amended; or
- (c) if the Class A Notes are to be redeemed early in accordance with Condition 4(f), Condition 4(g) or Condition 4(h). The Management Company may terminate the Interest Rate Swap Agreement upon the occurrence of either of the following events (such list not being exhaustive):
 - (i) the Interest Rate Swap Counterparty fails to make a payment under the Interest Rate Swap Agreement when due and such failure is not remedied after the notice of such failure being given;

- (ii) the Interest Rate Swap Counterparty fails to perform any other obligation pursuant to the Interest Rate Swap Agreement and such failure is not remedied after the notice of such failure being given;
- (iii) any representation made by the Interest Rate Swap Counterparty under the Interest Rate Swap Agreement proves to have been incorrect in any material respect when made or repeated, or ceases to be correct;
- (iv) the Interest Rate Swap Counterparty becomes insolvent;
- (v) any event capable of resulting in any security interest or guarantee granted in favour of the Issuer in respect of one or more transactions becoming void, unenforceable or ceasing to exist or any failure to comply with, or any breach of, a representation or an obligation under the relevant security interest or guarantee (in each case, after the expiry of the applicable cure period), or certain event mentioned in the Interest Rate Swap Agreement affecting a third party which has guaranteed one or more transactions; or
- (vi) if performance of the Interest Rate Swap Agreement becomes illegal.

receivables arising from home loans denominated in Euros granted pursuant to the Home Loan Agreements entered into with Borrowers. For the avoidance of doubt, when a Home Loan which is granted in relation to a property is composed of several separate tranches further to several separate drawings and each such tranche is secured by the same Mortgage, the term "Home Loan" refers to all relevant tranches of such Home Loan, and calculation under each Transaction Document to be made in relation to such Home Loan shall be made on an aggregate basis, and in order for that Home Loan to comply with the Home Loan Eligibility Criteria, each such tranches shall comply therewith.

"Home Loan Agreement" means a loan agreement entered into between any Seller and a Borrower in order to acquire, to renovate, to build or to refinance a property, being a residential (and not a commercial) property.

Pursuant to the Home Loans Purchase and Servicing Agreement, each Seller will represent and warrant in respect of the Home Loans such Seller transfers to the Issuer on the relevant Purchase Date that such Home Loans satisfy the Home Loan Eligibility Criteria as of the Selection Date or, as applicable, on the relevant date specified in the relevant Home Loan Eligibility Criteria.

The **"Outstanding Principal Balance"** of a given Home Loan shall be on any date, the remaining amount of principal to be paid by the relevant Borrower under the relevant Home Loan.

Purchase Price

General

The aggregate **"Purchase Price"** to be paid by the Issuer to each Seller for the purchase of the Home Loans shall be equal to the sum of the **"Principal Component Purchase Price"** of the Home Loans and the **"Interest Component Purchase Price"** of the Home Loans, being respectively (i) an amount equal to the aggregate of the Initial Principal Balance, as of the Selection Date, of the Home Loans to be purchased on the Purchase Date and (ii) an amount equal to the aggregate of the accrued but unpaid interest of such Home Loans on the Selection Date (excluded).

Home Loans

The Principal Component Purchase Price of the Home Loans to be purchased by the Issuer on the Purchase Date shall be paid on the Issuer Establishment Date by the Issuer to each Seller, by debiting the General Account (to the extent, as the case may be, not paid by way of set-off) outside any applicable Priority of Payments.

The Interest Component Purchase Price of the Home Loans shall be paid by debiting the General Account on the first Payment Date following the Purchase Date and/or, as the case may be, each Payment Date thereafter, in accordance with, and subject to, the applicable Priority of Payments.

As it is agreed between the parties to the Home Loans Purchase and Servicing Agreement that the effective date (*date de jouissance*) with respect to the assignment of the Home Loans shall be the Selection Date (included), each Seller will transfer to the Issuer on the first Settlement Date, an amount equal to the aggregate of all the collections received under all the Home Loans sold by it to the Issuer between the Selection Date (included) and the Issuer Establishment Date (excluded).

Rescission and indemnity in case of non-conformity

Under the Home Loans Purchase and Servicing Agreement, if the Management Company, any Seller or the Transaction Agent becomes aware that any of the representations or warranties given or made by such Seller in relation to the conformity of any Purchased Home Loans to the Home Loan Eligibility Criteria was false or incorrect in any material respect by reference to the facts and circumstances existing on the Selection Date or, as applicable, on the relevant date specified in the relevant Home Loan Eligibility Criteria or in the event that, for any reason whatsoever, the Transfer Document executed by such Seller in respect of the assignment of such Purchased Home Loan is not or ceases to be effective, the Management Company, the relevant Seller or the Transaction Agent (as the case may be) will promptly inform the other parties to the Home Loans Purchase and Servicing Agreement. Such breach will be corrected by the Seller, by (i) to the extent possible, taking any appropriate steps and as soon as practicable, to rectify the breach by no later than the second Payment Date following the date on which the Management Company or the Seller, as applicable, has become aware of the relevant non-compliance or (ii) if the relevant breach cannot be rectified, implementing one of the below remedies, by no later than the second Payment Date following the date on which the Management Company or the Seller, as applicable, has become aware of the relevant non-compliance:

- (a) by the rescission (*résolution*) of the sale of the relevant Purchased Home Loan, provided that such rescission shall only occur subject to the payment by the relevant Seller to the Issuer of a rescission amount equal to (i) the then Outstanding Principal Balance of such Purchased Home Loan as at the Determination Date immediately preceding the date of rescission, plus (ii) any unpaid amounts of interest, expenses and other ancillary amounts (excluding, for the avoidance of doubt, any insurance premium and administrative and handling fees (*frais de dossier*)) relating to such Purchased Home Loan as at the Determination Date immediately preceding the date of rescission and plus (iii) any accrued interest under such Purchased Home Loan during the period from and excluding the preceding Determination Date to, and excluding such date of rescission (a “**Rescission Amount**”); or
- (b) should the relevant breach be such that the sale of the relevant Purchased Home Loan will be deemed not to have occurred or the rescission is not possible, by paying to the Issuer an indemnity equal to (i) the then Outstanding Principal Balance of such Purchased Home Loan as at the Determination Date immediately preceding the date of indemnification, plus (ii) any unpaid amounts of interest, expenses and other ancillary amounts (excluding, for the avoidance of doubt, any insurance premium and administrative and handling fees (*frais de dossier*)) relating to such Purchased Home Loan as at the Determination Date immediately

preceding the date of indemnification and plus (iii) any accrued interest under such Purchased Home Loan during the period from and excluding the preceding Determination Date to, and excluding such date of indemnification (an “**Indemnity Amount**”).

Once a rescission or indemnification has occurred in accordance with the above, any collections received by the Issuer (if any) after such rescission or indemnification in relation to the relevant Purchased Home Loans will be repaid by the Issuer to the relevant Seller outside any Priority of Payments and shall not constitute Available Collections.

The remedies above are the sole remedy available to the Issuer in respect of the non compliance of any Home Loan or Ancillary Rights with the Home Loan Eligibility Criteria or in the event that, for any reason whatsoever, the Transfer Document executed by such Seller in respect of the assignment of such Purchased Home Loan is not or ceases to be effective. Under no circumstances may the Management Company request an additional indemnity from any Seller relating to the non compliance of any Home Loan or Ancillary Rights with the Home Loan Eligibility Criteria or in the event that, for any reason whatsoever, the Transfer Document executed by such Seller in respect of the assignment of such Purchased Home Loan is not or ceases to be effective. In particular, the Sellers give no warranty as to the ongoing solvency of Borrowers. Furthermore, the representations, warranties and undertakings of the Sellers shall not entitle the Noteholders to assert any claim directly against the Sellers, the Management Company having the exclusive competence under article L. 214-183 of the French Monetary and Financial Code to represent the Issuer as against third parties and in any legal proceedings.

Deemed Collections

If, in relation to any Purchased Home Loan assigned by a Seller, any decrease in the principal amount of such Purchased Home Loan has arisen as a result of any set-off (whether such set-off is imposed by operation of law, by contract or by a competent court) and as a result of any such event, the Issuer is not lawfully entitled to receive (i) a portion of the principal amount or (ii) the entire principal amount due with respect to such Purchased Home Loan, then such Seller will pay to the Issuer such portion or such principal amount as deemed collections, each, “**Deemed Collections**”.

Any Deemed Collections due in respect of any Quarterly Collection Period by a Seller with respect to Home Loans assigned to the Issuer by such Seller will be determined by the Management Company on each Calculation Date and paid by such Seller on the Settlement Date following such Quarterly Collection Period, to the Issuer by way of cash settlement. In the event that, any Deemed Collection has arisen as a result of any set-off imposed by contract and as a consequence a Rescission Amount or an Indemnity Amount has been paid to the Issuer in relation to the relevant Purchased Home Loan in accordance with paragraph “Rescission and indemnity in case of non-conformity” above, no Deemed Collection will be due in respect of such Home Loan.

Re-transfers

Pursuant to the Home Loans Purchase and Servicing Agreement and in accordance with, and subject to the provisions of article L. 214-183 of the French Monetary and Financial Code:

- (a) if it is in the interest of the Noteholders and the Residual Unitholders, the Management Company may (but shall not be under the obligation to) offer to any Seller to repurchase Purchased Home Loans transferred by it to the Issuer which have become entirely due (*échues*) or have been entirely accelerated (*déchues de leur terme*), provided that such Seller shall in any case be free to accept or refuse such offer. Any such repurchase shall take

place on a Re-transfer Date and the repurchase price of the Purchased Home Loans repurchased by any Seller shall be equal to the Re-transfer Price;

- (b) any Seller may, for as long as it also acts as Servicer of the Home Loans it has transferred to the Issuer, (but shall not be under the obligation to) request to repurchase Purchased Home Loans which raise management and/or operational issues for such Seller or the corresponding Servicer, provided that the Management Company shall in any case be free to accept or refuse such request, considering the interest of the Noteholders and the Residual Unitholders. Any such repurchase shall take place on a Re-transfer Date and the repurchase price of the Purchased Home Loans repurchased by the relevant Seller shall be equal to the Re-transfer Price; and
- (c) in the event that any Servicer enters into any Commercial Renegotiation which is not a Permitted Amendment, the corresponding Seller shall repurchase the corresponding Home Loan within two calendar months following the date on which the modification was notified by a party to the other (or within such delay otherwise agreed with the Management Company) for a price equal to the Re-transfer Price.

Once the re-transfer of any Purchased Home Loans has occurred, any collections received by the Issuer (if any) after the Re-transfer Date in relation to such Home Loans will be repaid to the relevant Seller, outside of the relevant Priority of Payments.

For the avoidance of doubt, re-transfers of Purchased Home Loans by the Issuer shall only occur in the circumstances pre-defined above or in case of liquidation of the Issuer, and in any such case of re-transfer, the Management Company shall not carry out any active management of the portfolio of Purchased Home Loans on a discretionary basis (meaning, (a) a management that would make the performance of the securitisation dependent both on the performance of the Purchased Home Loans and on the performance of the portfolio management of the securitisation or (b) a management performed for speculative purposes aiming to achieve better performance, increased yield, overall financial returns or other purely financial or economic benefit).

“Re-transfer Price” means the price to be paid by any Seller to the Issuer for the retransfer of that Home Loan, which shall be equal to:

- (a) with respect to a Performing Home Loan: the aggregate of (i) the then Outstanding Principal Balance of such Home Loan as at the Determination Date preceding the relevant Re-transfer Date (as applicable before any commercial renegotiation); plus (ii) any amount due and capitalised under such Purchased Home Loan during the period from and excluding to the preceding Determination Date to, and excluding such Re-transfer Date (as applicable before any commercial renegotiation); and plus (iii) any unpaid outstanding amount of interest, expenses and other ancillary amounts but excluding any insurance premium and administrative and handling fees (*frais de dossier*) relating to such Home Loan as at the Determination Date immediately preceding the relevant Re-transfer Date; and
- (b) with respect to any Defaulted Home Loan secured by a Mortgage, the product of:

- (i) the fair market value of assets having similar characteristics to the relevant Purchased Home Loans (expressed in percentage); and
- (ii) the aggregate of: (i) the then Outstanding Principal Balance of such Home Loan as at the Determination Date preceding the relevant Re-transfer Date (as applicable before any commercial renegotiation); plus (ii) any amount due and capitalised under such Purchased Home Loan during the period from and excluding to the preceding Determination Date to, and excluding such Re-transfer Date (as applicable before any commercial renegotiation); and plus (iii) any unpaid outstanding amount of interest, expenses and other ancillary amounts but excluding any insurance premium and administrative and handling fees (*frais de dossier*) relating to such Home Loan as at the Determination Date immediately preceding the relevant Re-transfer Date;

provided that, except if additional information are provided by the Seller to the Management Company for the purposes of the establishment of the Re-transfer Price, such “fair market value” will be considered as being equal to one hundred per cent. (100%); and

- (c) with respect to any Defaulted Home Loan secured by a Home Loan Guarantee, the positive difference between:
 - (i) the aggregate of: (i) the then Outstanding Principal Balance of such Home Loan as at the Determination Date preceding the relevant Re-transfer Date (as applicable before any commercial renegotiation); plus (ii) any amount due and capitalised under such Purchased Home Loan during the period from and excluding to the preceding Determination Date to, and excluding such Re-transfer Date (as applicable before any commercial renegotiation); and plus (iii) any unpaid outstanding amount of interest, expenses and other ancillary amounts but excluding any insurance premium and administrative and handling fees (*frais de dossier*) relating to such Home Loan as at the Determination Date immediately preceding the relevant Re-transfer Date; and
 - (ii) any indemnity amount paid to the Issuer by the relevant Servicer in the event that, following a default of the relevant Borrower, and following the call made by such Servicer of the relevant Home Loan Guarantee, the relevant Home Loan Guarantor has refused to pay the amount due by such Borrower because the conditions of enforcement of the relevant Home Loan Guarantee had not been complied with by the relevant Servicer.

On or prior to the Issuer Establishment Date, the Issuer, represented by the Management Company, will enter into an interest rate swap agreement (the "**Interest Rate Swap Agreement**") with Natixis (the "**Interest Rate Swap Counterparty**"), which will be governed by the 2013 *Fédération Bancaire Française* (FBF) master agreement relating to transactions on forward financial instruments (*convention-cadre FBF relative aux opérations sur instruments financiers à terme* or the "**FBF Master Agreement**") as amended by a supplementary schedule and confirmed by one written swap confirmation (the "**Swap Confirmation**").

Purpose of the Interest Rate Swap Agreement

The purpose of the Interest Rate Swap Agreement is to enable the Issuer to hedge in an appropriate manner the risk of a difference between the EURIBOR-based floating rate applicable for the relevant Interest Period (on each relevant Payment Date) with respect to the Class A Notes and the fixed interest rate payments received in respect of the Purchased Home Loans.

Notional Amount

In accordance with the Interest Rate Swap Agreement, the "**Notional Amount**" shall be, on any Payment Date, equal to the lesser of:

- (i) the aggregate of the Principal Amount Outstanding of the Class A Notes on the immediately preceding Payment Date after giving effect to the applicable Priority of Payments (or the Issue Date in respect of the first Payment Date) as determined by the Management Company; and
- (ii) the Outstanding Principal Balance of the Performing Home Loans on the Determination Date immediately preceding such Payment Date (or in case of the first Payment Date, the Selection Date).

Payments under the Interest Rate Swap Agreement

Pursuant to the Interest Rate Swap Agreement, on each Payment Date, the Interest Rate Swap Counterparty shall pay to the Issuer the swap floating amount (the "**Floating Amount**") and the Issuer shall pay to the Interest Rate Swap Counterparty the swap fixed amount (the "**Fixed Amount**"). On each Payment Date, a set-off shall be made between the Floating Amount and the Fixed Amount so that the relevant party will only pay to the other party the net swap amount (if positive) resulting from such set-off (the "**Interest Rate Swap Net Amount**").

The Interest Rate Swap Counterparty, acting as "Agent" under the Interest Rate Swap Agreement will calculate the Interest Rate Swap Net Amount due and

payable on each Payment Date on the basis of the data provided by the Management Company as set out in the definition of Notional Amount.

The Interest Rate Swap Net Amount, when payable by the Issuer, will be paid by the Issuer to the Interest Rate Swap Counterparty on the relevant Payment Date in accordance with the applicable Priority of Payments.

The Floating Amount shall, on any Payment Date in respect of the Interest Period ending on such Payment Date, be an amount equal to the product of (A) the number of days in the relevant Interest Period divided by 360, (B) the greater between: (x) zero and (y) the aggregate of (i) EURIBOR (as defined in the Interest Rate Swap Agreement and determined for such Interest Period ending on such Payment Date in accordance with the Conditions of the Class A Notes) and (ii) the Class A Margin, both for the relevant Interest Period and (C) the relevant Notional Amount of the Interest Rate Swap Transaction.

If the definition, methodology, or formula for EURIBOR, or other means of calculating EURIBOR, is changed, references to EURIBOR in the Interest Rate Swap Agreement shall be to EURIBOR as changed.

The Fixed Amount shall be equal to the product of (i) the Interest Rate Swap Fixed Rate, (ii) the Notional Amount, (iii) the number of days in the relevant Interest Period (for the avoidance of doubt, in the case of the first Payment Date only, starting on the Issue Date) divided by 360,

where the "**Interest Rate Swap Fixed Rate**" means the fixed rate determined on or about 24 October 2019 and not greater than 0.60% *per annum*.

Such recognition will, *inter alia*, depend upon satisfaction of the Eurosystem eligibility criteria.

Modifications to the Transaction

Modification of the elements contained in the Prospectus

The Management Company and the Custodian may agree to any modification of the elements contained in the Prospectus, except in the case of a transfer of the management further to a withdrawal of the licence of the Management Company, in respect of which the decision is taken solely by the Custodian.

Modification of the Transaction Documents

The Management Company and the Custodian, acting in their capacity as founders of the Issuer, may agree to amend from time to time the provisions of the Issuer Regulations or any other Transaction Documents, provided that:

- (a) other than for amendments of a minor or mere technical nature or made to correct a manifest error, and, unless otherwise consented to or directed by the Noteholders (in accordance with the Conditions) and the Residual Unitholders (acting unanimously), amendments to the Issuer Regulations or to any other Transaction Documents shall be made provided that the Rating Agencies have received prior notice of any amendment and that such amendment shall not result, in the reasonable opinion of the Management Company, in the placement on “negative outlook” or as the

case may be on “rating watch negative” or on “review for possible downgrade”, or the downgrading or the withdrawal of any of the ratings of the Class A Notes or that such amendment limits such downgrading or avoids such withdrawal;

- (b) any Amendment to the Financial Characteristics of the Class A Notes shall require the prior approval of the Class A Noteholders (by a decision of the general assembly of the relevant Masse or of the sole holder of the Class A Notes, as the case may be);
- (c) any Amendment to the Financial Characteristics of the Class B Notes issued by the Issuer shall require the prior approval of the Class B Noteholders (by a decision of the general assembly of the Masse or of the sole holder of the Class B Notes, as the case may be);

If it is required, in the reasonable opinion of the parties to the Transaction Documents, that the Transaction Documents be amended or supplemented after the date hereof, in order to comply with the Securitisation Regulation and/or any of its implementation measures, the parties to the Transaction Documents shall cooperate in good faith to amend and/or supplement the Transaction Documents without undue delay. Any reasonable and justified fees and expenses incurred in relation to any such amendment and/or supplement of the Transaction Documents shall be borne by BPCE.

In the case of a conflict between the decisions taken by the different Masses of Notes and/or between the decisions taken by the Masses of Notes and the Residual Unitholders, the Management Company shall act in accordance with the decision of the Most Senior Class of Notes Outstanding unless such decision would result in an Amendment to the Financial Characteristics of another Class of Notes (including those of a junior rank) or of the Residual Units issued by the Issuer. In such a case, and unless the holders affected by such decision agree to such Amendment to the Financial Characteristics, the Management Company shall not be bound to act pursuant to such decisions and shall incur no liability for such inaction.

Any modification of any of the provisions of the Transaction Documents which is made in order (a) to obtain or maintain the eligibility of the Class A Notes to the Eurosystem legal framework related to monetary policy, (b) for the Transaction to be able to qualify as a simple, transparent and standardised securitisation in accordance with the provisions of Regulation 2017/2402 of the European Parliament and of the Council dated 12 December 2017 relating to transparent and standardised securitisation transactions (the “**Securitisation Regulation**”) and the related regulatory technical standards and implementing technical standards, (c) to comply with any new requirement received from the Rating Agencies in relation to their rating methodology, (d) to comply with the LCR Delegated Regulation as amended by the provisions of Regulation 2017/2402 of the European Parliament and of the Council dated 12 December 2017 relating to transparent and

In addition, for the avoidance of doubt, notwithstanding the above provisions and notwithstanding the potential Amendment to the Financial Characteristics of the Class A Notes, the potential Amendment to the Financial Characteristics of the Class B Notes and potential Amendment to the Financial Characteristics of the Residual Units that would be triggered by any change in the definition, methodology, or formula for EURIBOR, or other means of calculating EURIBOR, (including any amendment to a Transaction Document as a result of such change), or any modification to the way of determining the Class A Notes Interest Rate implemented in accordance with the Reference Rate Determination Process, such modification will not require to call a Noteholders’ Meeting for the Class A Noteholders or the Class B Noteholders or to consult the Residual Unitholders.

Any amendment to the relevant Transaction Documents shall require the prior consent of the Interest Rate Swap Counterparty:

- (i) where such amendment has or could have a material adverse effect on the interests of the Interest Rate Swap Counterparty under the Interest Rate Swap Agreement or under the relevant Transaction Documents; or
- (ii) if any Funds Allocation Rules are amended.

Notwithstanding the provisions set out in the sections “Modification of the elements contained in the Prospectus” and “Modification of the Transaction Documents” above, the Management Company will, under all circumstances, act in the interest of the Noteholders and the Residual Unitholders.

Performance of the Obligations of the Management Company

The Management Company will, under all circumstances, act in the interest of the Noteholders and of the Residual Unitholders. Accordingly, the Management Company may not agree to an amendment or a waiver of a Transaction Document if the Management Company considers, in its discretion (after consulting, if it deems necessary, the Noteholders of other Classes and/or the Residual Unitholders in accordance with the applicable Conditions), that such amendment or waiver is detrimental to the interest of some of the Noteholders or the Residual Unitholders.

In general, the Management Company will give priority to the interests of the holders of the Most Senior Class of Notes Outstanding such that:

- (1) the Management Company will give priority to the interests of the Class A Noteholders in the event of a conflict between the interests of the Class A Noteholders on the one hand and the Class B Noteholders and/or the Residual Unitholder(s) on the other hand; and
- (2) if there are no Class A Notes outstanding, the Management Company will give priority to the interests of the Class B Noteholders in the event of a conflict between the interests of the Class B Noteholders on the one hand and the Residual Unitholders on the other hand,

provided always that, pursuant to Condition 7, in the case of a conflict between the decisions taken by the different Masses of Notes and/or between the decisions taken by the Masses of Notes and the Residual Unitholders, the Management Company shall act in accordance with the decision of the Most Senior Class of Notes Outstanding unless such decision would result in an Amendment to the Financial Characteristics of another Class of Notes (including those of a junior rank) or of the Residual Units issued by the Issuer. In such a case, and unless the holders affected by such decision agree to such Amendment to the Financial Characteristics, the Management Company shall not be bound to act pursuant to such decisions and shall incur no liability for such inaction.

The Management Company irrevocably waives all its rights of recourse against the Issuer with respect to the contractual liability of the Issuer. In particular, the Management Company will have no recourse against the Issuer or the Assets Allocated to the Issuer in respect of a default in the payment, for whatever reason, of the fees due to the Management Company.

- (e) the Custodian having previously and expressly approved such sub-contract, delegation, agency or appointment and the identity of the relevant entity, provided that such approval may not be refused without a material and justified reason,

provided that notwithstanding such sub-contracting, delegation, agency or appointment, the Management Company shall continue to be bound to comply with its obligations to the Noteholders, the Residual Unitholders and the Custodian pursuant to the Issuer Regulations.

APPLICATION OF FUNDS

FUNDS ALLOCATION RULES

Pursuant to the Issuer Regulations, the Management Company make appropriate calculation and give appropriate instructions to the Custodian and the Account Bank in order to ensure that all allocations, distributions and payments required under the rules pertaining to the Funds Allocation Rules (*règles d'affectation de sommes recues par l'organisme*) set out in the Issuer Regulations, including without limitation, the Priorities of Payments, are made in a timely manner and in accordance with such Funds Allocation Rules and Priority of Payments during the Amortisation Period and, as the case may be, the Accelerated Amortisation Period and on the Issuer Liquidation Date.

PRIORITY OF PAYMENTS DURING THE AMORTISATION PERIOD

On each Payment Date falling within the Amortisation Period, the Management Company shall apply the Available Distribution Amount standing to the credit of the General Account (and calculated on the Calculation Date preceding such Payment Date), towards the following payments or provisions in the following order of priority but in each case only to the extent that all payments or provisions of a higher priority due to be paid or provided for on such Payment Date have been made in full:

- (1) payment on a *pro rata* basis and *pari passu* basis of the Issuer Expenses then due and payable by the Issuer to each relevant creditor;

- (6) if a Servicer Termination Event referred to in paragraph (h) of the definition of “Servicer Termination Event” has occurred and is continuing, transfer into the Commingling Reserve Account with the necessary amount in order for the Commingling Reserve to be at least equal to the Commingling Reserve Required Amount applicable on the previous Settlement Date ;
- (7) payment *pari passu* and *pro rata* of the Class B Notes Interest Amount then due and payable to the Class B Noteholders in respect of the Interest Period ending on such Payment Date;
- (8) payment to the Reserves Provider of the General Reserve Decrease Amount (if positive);
- (9) payment to the Sellers or to the Transaction Agent, on behalf of each relevant Seller of the portion of the Interest Component Purchase Price due and remaining unpaid on such Payment Date;
- (10) only once the Class A Notes have been redeemed in full, payment to Class B Noteholders, on *pari passu* and *pro rata* basis, of the aggregate amount of Class B Notes Amortisation Amount in respect of all Class B Notes, due and payable on that Payment Date, until the full and definitive redemption of the Class B Notes;
- (11) payment to the Interest Rate Swap Counterparty of the Interest Rate Swap Subordinated Termination Payment due and payable by the Issuer (if any);

- (12) in or towards payment of any reasonable and duly documented fees and expenses (other than the Issuer Expenses) as well as any indemnities as the case may be incurred by the Issuer in connection with the operation of the Issuer pursuant to the relevant terms of the Transaction Documents to which the Issuer is party and then due and payable by the Issuer to the relevant creditors of such fees, expenses and indemnities; and
- (13) payment of the remaining credit balance of the General Account to the Residual Unitholders, on *pari passu* and *pro rata* basis, as interest under the Residual Units.

PRIORITY OF PAYMENTS DURING THE ACCELERATED AMORTISATION PERIOD AND ON THE ISSUER LIQUIDATION DATE

On any Payment Date falling within the Accelerated Amortisation Period, and on the Issuer Liquidation Date, the Management Company shall apply the Available Distribution Amount standing to the credit balance of the General Account as calculated on the Calculation Date preceding such Payment Date, towards the following payments or provisions in the following order of priority but in each case only to the extent that all payments or provisions of a higher priority due to be paid or provided for on such Payment Date have been made in full:

- (1) payment on a *pro rata* basis and *pari passu* basis of the Issuer Expenses then due and payable by the Issuer to each relevant creditor;
- (2) payment of the Interest Rate Swap Net Amount due and payable by the Issuer to the Interest Rate Swap Counterparty (if any) and/or of any Interest Rate Swap Senior Termination Payment then due and payable to the relevant Interest Rate Swap Counterparty under the Interest Rate Swap Agreement;
- (3) payment *pari passu* and *pro rata* of the Class A Notes Interest Amount then due and payable to the Class A Noteholders in respect of the Interest Period ending on such Payment Date;
- (4) payment to the Class A Noteholders, on *pari passu* and *pro rata* basis, of the aggregate amount of Class A Notes Amortisation Amount in respect of all Class A Notes, due and payable on that Payment Date, until the full and definitive redemption of the Class A Notes;
- (5) repayment to the Reserves Provider of any part of the General Reserve Cash Deposit not otherwise repaid;
- (6) only once the Class A Notes have been redeemed in full, payment *pari passu* and *pro rata* of the Class B Notes Interest Amount then due and payable to the Class B Noteholders in respect of the Interest Period ending on such Payment Date;
- (7) payment to the Sellers or to the Transaction Agent, on behalf of each relevant Seller of the portion of the Interest Component Purchase Price due and remaining unpaid on such Payment Date;
- (8) payment to the Class B Noteholders on *pari passu* and *pro rata* basis of the aggregate amount of Class B Notes Amortisation Amount in respect of all Class B Notes, due and payable on that Payment Date, until the full and definitive redemption of the Class B Notes;
- (9) payment of any Interest Rate Swap Subordinated Termination Payment then due and payable;
- (10) in or towards payment of any reasonable and duly documented fees and expenses (other than the Issuer Expenses) as well as any indemnities as the case may be incurred by the Issuer in connection with the operation of the Issuer pursuant to the relevant terms of the Transaction Documents to which the Issuer is party and then due and payable by the Issuer to the relevant creditors of such fees, expenses and indemnities; and
- (11) on the Issuer Liquidation Date, repayment to the Residual Unitholders of the nominal amount of the Residual Units and payment on a *pro rata* basis of the Liquidation Surplus.

DEFERRAL

If on any applicable Payment Date, the Available Distribution Amount is not sufficient to pay, transfer or redeem any amount then due and payable (including, without limitation, any amount of principal or interest in respect of any class of Notes) or to be transferred or to be redeemed, such unpaid amount shall constitute arrears which will become due and payable by the Issuer on the next following Payment Date, at the same rank, but in priority to the payment of the amounts of same nature in the applicable Priority of Payments and to the extent of the Available Distribution Amount. Such unpaid amount will not accrue default interest until full payment. For the avoidance of doubt, the failure by the Issuer to pay in full any amount of interest due and payable on the Class A Notes in accordance with the Conditions, where non-payment continues for a period of five (5) Business Days, will constitute an Accelerated Amortisation Event.

PAYMENTS OUTSIDE THE PRIORITIES OF PAYMENTS

The Management Company shall make the following payments on any relevant date (which does not need to be a Payment Date) whenever applicable from the relevant Issuer Account:

- (1) payment by the Issuer to the Transaction Agent (on behalf of the Sellers) on the Initial Establishment Date of the Principal Component Purchase Price of the Home Loans purchased by the Issuer (to the extent, as the case may be, not paid by way of set-off);
- (2) payment by the Issuer to the Transaction Agent (on behalf of the Sellers) on the Issue Date of the Issuance Premium Amount;
- (3) repayment to the relevant Seller of the collections received by the Issuer (if any) in relation to the relevant Purchased Home Loans from and including the Determination Date immediately preceding the date of rescission or indemnification;
- (4) repayment to the relevant Seller of the collections received by the Issuer (if any) in relation to the relevant Purchased Home Loans from and including the Re-transfer Selection Date immediately preceding the relevant Re-transfer Date;
- (5) repayment by the Issuer to the Reserve Provider on each Payment Date of any Commingling Reserve Decrease Amount (if any);
- (6) payment by the Issuer to the Reserve Provider on each Settlement Date of any positive remuneration of the Issuer Cash standing on the Commingling Reserve Account and the General Reserve Account (if any); and
- (7) repayment by the Issuer to the Interest Rate Swap Counterparty on any Payment Date of any amount of collateral in accordance with the Interest Rate Swap Agreement; and
- (8) payment by the Issuer to the replacement Interest Rate Swap Counterparty of any Replacement Swap Premium in accordance with the Issuer Regulations.

RETURN OF SWAP COLLATERAL

On any Payment Date, any amount of collateral credited to the Interest Rate Swap Collateral Accounts due to be retransferred by the Issuer to the Interest Rate Swap Counterparty, pursuant to the terms and conditions of the Interest Rate Swap Agreement will be transferred directly to the Interest Rate Swap Counterparty, outside of any Priority of Payments.

REPLACEMENT SWAP PREMIUM

Upon termination of the Interest Rate Swap Agreement and the entry of the Issuer into a replacement Interest Rate Swap Agreement, any Replacement Swap Premium payable by the Issuer to such replacement Interest Rate Swap Counterparty will be paid by the Issuer directly to such replacement Interest Rate Swap Counterparty,

outside of any Priority of Payments, by using the Interest Rate Swap Termination Amount payable by the outgoing Interest Rate Swap Counterparty to the Issuer or, to the extent that such amount is unpaid by the outgoing Interest Rate Swap Counterparty, by using any Interest Rate Swap Collateral Liquidation Amount.

MASTER SERVICER REPORT DELIVERY FAILURE

In the event of a Master Servicer Report Delivery Failure, the Management Company will make any calculations that are necessary to make payments in accordance with the relevant Priority of Payments applicable on the following Payment Date, on the basis of the latest information received from the Servicers or the Transaction Agent, as applicable. In particular:

- (a) the Outstanding Principal Balance of the Performing Home Loans as at the Determination Date preceding such Calculation Date; and
- (b) the Available Collections arisen during the Quarterly Collection Period preceding such Calculation Date,

will be determined on the basis of the last Master Servicer Report received, including the last available amortisation schedule contained in such Master Servicer Report and using, as prepayment default and recovery rates assumptions, the average prepayment rates, default rates and recovery rates calculated by the Management Company on the basis of the last three (3) available Master Servicer Reports delivered to the Management Company, provided that upon receipt of the relevant Master Servicer Report, the Management Company shall reconcile the calculations and the actual collections, determine the applicable regularisation amount and adjust the amounts to be paid to the Class A Noteholders, the Class B Noteholders, the Residual Unitholders and the Interest Rate Swap Counterparty (as the case may be) on the next applicable Payment Date(s).

RATING

Class A Notes

It is a condition precedent to the issuance of the Class A Notes on the Issue Date that the Class A Notes are assigned an AAA(sf) rating by Fitch and an Aaa (sf) rating by Moody’s.

There is no assurance that any such ratings will continue for any period of time or that they will not be reviewed, revised, qualified, suspended or withdrawn entirely by either or both of the Rating Agencies as a result of changes in or unavailability of information or if, in the judgment of the Rating Agencies, circumstances so warrant. If the ratings initially assigned to the Class A Notes by the Rating Agencies are subsequently lowered, qualified, suspended or withdrawn, for any reason, no person or entity is obliged to provide any additional support or credit enhancement to the Class A Notes and the market value of the Class A Notes may be adversely affected and/or the ability of the holders of Class A Notes to sell such Class A Notes may be adversely affected. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the Rating Agencies. As of 5 July 2019, “Fitch France SAS” and “Moody’s France SAS” are registered under the CRA Regulation 1060/2009/EC of the European Parliament and the Council of 16 September 2009 on credit rating agencies, as amended pursuant to Regulation 513/2011/EU of the European Parliament and the Council of 11 May 2011 and to Regulation 462/2013/EU of the European Parliament and of the Council of 21 May 2013 (the “**CRA Regulation**”) according to the list published by the European Securities and Markets Authority on its website (<http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>).

Rating Procedure

The principles governing the rating procedure of the Class A Notes are defined in APPENDIX II of this Prospectus.

PAYING AGENCY AGREEMENT

According to the provisions of the Paying Agency Agreement, provision is made for, amongst other things, the payment of principal and interest in respect of the Class A Notes by the Paying Agent.

DESCRIPTION OF THE ASSETS ALLOCATED TO THE ISSUER

GENERAL CHARACTERISTICS OF THE ASSETS ALLOCATED TO THE ISSUER

The Assets Allocated to the Issuer by the Management Company mainly comprise all Home Loans assigned to the Issuer on the Purchase Date by the Sellers pursuant to the terms of the Home Loans Purchase and Servicing Agreement and which have not been retransferred, or been the subject of a transfer rescission (the “**Purchased Home Loans**”) and any Ancillary Rights attached to the Purchased Home Loans.

The Assets Allocated to the Issuer by the Management Company also include:

- (a) any amounts standing from time to time to the credit of the Issuer Accounts (excluding the Interest Rate Swap Collateral Accounts); and
- (b) any other rights transferred or attributed to the Issuer under the terms of the Transaction Documents.

ALLOCATION OF THE CASH FLOWS GENERATED BY THE ASSETS ALLOCATED TO THE ISSUER

The cash flows generated by the Assets Allocated to the Issuer are allocated by the Management Company exclusively to the payment of all amounts due by the Issuer, pursuant to the applicable Funds Allocation Rules (including, without limitation, the relevant Priority of Payments).

RETRANSFER OF HOME LOANS AND RESCISSION OF ASSIGNMENT

Pursuant to articles L. 214-169 and L. 214-183 of the French Monetary and Financial Code, the Issuer may assign the Purchased Home Loans only:

- (a) if it is in the interest of the Noteholders and the Residual Unitholders and such Purchased Home Loans have become entirely due (*échues*) or have been entirely accelerated (*déchues de leur terme*), according to the provisions of the Home Loans Purchase and Servicing Agreement (see Section “DESCRIPTION OF THE HOME LOANS PURCHASE AND SERVICING AGREEMENT AND THE RESERVES CASH DEPOSIT AGREEMENT”);
- (b) if any Seller has exercised its option to repurchase certain Purchased Home Loans which raise management and/or operational issues according to the provisions of the Home Loans Purchase and Servicing Agreement (see Section “DESCRIPTION OF THE HOME LOANS PURCHASE AND SERVICING AGREEMENT AND THE RESERVES CASH DEPOSIT AGREEMENT”);
- (c) if any Servicer enters into any Commercial Renegotiation which is not a Permitted Amendment (see Section “DESCRIPTION OF THE HOME LOANS PURCHASE AND SERVICING AGREEMENT AND THE RESERVES CASH DEPOSIT AGREEMENT”);
- (d) in the case of liquidation of the Issuer (see Section “LIQUIDATION OF THE ISSUER, CLEAN-UP OFFER AND RE-PURCHASE OF THE RECEIVABLES AND THE RESERVES CASH DEPOSIT AGREEMENT”).

Pursuant to the Home Loans Purchase and Servicing Agreement, the assignment of Home Loans may be rescinded in case of non-conformity of the Home Loans with the Home Loan Eligibility Criteria (see Section “DESCRIPTION OF THE HOME LOANS PURCHASE AND SERVICING AGREEMENT AND THE RESERVES CASH DEPOSIT AGREEMENT – Failure to conform and remedies”).

INFORMATION RELATING TO THE PROVISIONAL PORTFOLIO OF HOME LOANS

General

The following section sets out the aggregated information relating to the provisional portfolio of Home Loans complying with the Home Loan Eligibility Criteria selected by the Sellers as at the close of business on 31 July 2019.

The size of the selected portfolio will be smaller than the size of the provisional portfolio due to inter alia (i) the application of the Home Loan Eligibility Criteria and the Portfolio Conditions as at the Selection Date, (ii) the scheduled payment and prepayments made in respect of such Home Loans between 31 July 2019 and the Selection Date and (iii) the alignment of the size of the selected portfolio with the nominal amount of the Class A Notes, Class B Notes and the Residual Units to be issued on the Issue Date. The information contained in this section will not be updated to reflect any decrease in the size of the Portfolio of Purchased Home Loans from that of the provisional portfolio.

Homogeneity

The provisional portfolio satisfies the homogeneous conditions of Article 1(a), (b), (c) and (d) of the Commission Delegated Regulation of 28 May 2019 supplementing Regulation (EU) 2017/2402 of the European Parliament and of the Council with regard to regulatory technical standards on the homogeneity of the underlying exposures in securitisation (the *Homogeneity Commission Delegated Regulation*). The Home Loans of the provisional portfolio (i) have been underwritten according to similar underwriting standards which apply similar approaches to the assessment of credit risk associated with the Home Loans and without prejudice to Article 9(1) of the Securitisation Regulation (as described in Section “ORIGINATION AND UNDERWRITING PROCEDURES (CREDIT GUIDELINES)” of this Prospectus) (ii) are serviced according to similar servicing procedures with respect to monitoring, collection and administration of Home Loans (as described in Section “SERVICING PROCEDURES”), (iii) fall within the same asset category, being that of “residential loans secured with one or several mortgages on residential immovable property or residential loans fully guaranteed by an eligible protection provider among those referred to in Article 201(1) of Regulation (EU) No 575/2013 qualifying for the credit quality step 2 or above as set out in Part Three, Title II, Chapter 2 of that Regulation” and (iv) are homogeneous with reference to the homogeneity factors set forth in article 2(1)(c) of the Homogeneity Commission Delegated Regulation, since, in accordance with the Home Loan Eligibility Criteria (g), the Home Loans were granted to finance the acquisition, renovation, building or refinancing of the main residence of the Borrower, being a property located in France; and therefore “in one jurisdiction only” for the purposes of said article 2(1)(c).

External verification of a sample of Home Loans

Article 22(2) of Securitisation Regulation requires that: “A sample of the underlying exposures shall be subject to external verification prior to issuance of the securities resulting from the securitisation by an appropriate and independent party, including verification that the data disclosed in respect of the underlying exposures is accurate.” On 12 December 2018 the European Banking Authority issued guidance on the STS criteria for non-ABCP securitisation stating that, for the purposes of Article 22(2) of Regulation (EU) 2017/2402, confirmation that this verification has occurred and that no significant adverse findings have been found should be disclosed.

Accordingly, an independent third party has performed on or about September 2019 an agreed upon procedures review on a statistically sample randomly selected out of the Sellers eligible home loans pool (in existence on 31 March 2019) in the framework of this securitisation transaction. The size of the sample has been determined on the basis of a confidence level of 99% and a maximum accepted error rate of 1%. The pool agreed-upon procedures review includes (i) the review of 33 loan characteristics of the sample of selected Home Loans as of 30 June 2019, which include but are not limited to the outstanding principal amount, the interest rate, the loan purpose, the occupancy type, the country of the property, the security type, the original valuation amount of the property, the guarantor name, the originator name, the instalment amount, the maturity date and the borrower’s debt ratio and (ii) the compliance of the provisional portfolio with certain eligibility criteria as of 31 July 2019 disclosed in Section “STATISTICAL INFORMATION RELATING TO THE PROVISIONAL PORTFOLIO OF HOME LOANS”. This independent third party has also performed agreed upon procedures in order to re-calculate: (i) the projections of weighted average life of the Class A Notes set out in Section “WEIGHTED AVERAGE LIFE

OF THE CLASS A NOTES AND ASSUMPTIONS” and (ii) the stratification tables disclosed in Section “INFORMATION RELATING TO THE PROVISIONAL PORTFOLIO OF HOME LOANS” in respect of the exposures of the provisional portfolio, and to verify the accuracy of these two relevant sections. The third party undertaking the review has reported the factual findings to the parties to the engagement letter. The third party undertaking the review only accepts a duty of care to the parties to the engagement letters governing the performance of the agreed upon procedures and to the fullest extent permitted by law shall have no responsibility to anyone else in respect of the work it has performed or the reports it has produced save where terms are expressly agreed.

The Sellers have confirmed in the Home Loans Purchase and Servicing Agreement that no significant adverse findings have been found by such third party during its review.

Statistical Information relating to the provisional portfolio of Home Loans

On 31 July 2019 and for the purposes of this Prospectus, the provisional portfolio comprised 20,349 Home Loan Agreements for an aggregate Outstanding Principal Balance of EUR 1,331,006,672. The average Outstanding Principal Balance by Home Loan Agreement of the provisional portfolio was EUR 65,409, a weighted average seasoning of the selected Home Loan Agreements (as of their date of origination) of 61.8 months and a weighted average remaining term to maturity of 166.2 months, all weighted average being weighted by the Outstanding Principal Balance of the selected receivables.

The statistical information set out in the following tables shows the characteristics of the provisional portfolio of Home Loan Agreements selected by the Sellers on close of business on 31 July 2019 (columns of percentages may not add up to 100% due to rounding). The Home Loans arising from the Home Loan Agreements of the provisional portfolio complied on such date with the Home Loan Eligibility Criteria set out in the section “DESCRIPTION OF THE HOME LOANS PURCHASE AND SERVICING AGREEMENT AND THE RESERVES CASH DEPOSIT AGREEMENT”.

The portfolio of the Home Loans to be transferred by the Sellers to the Issuer on the Issuer Establishment Date will be selected, firstly, among this provisional portfolio in a manner that will not be adverse to the Issuer and so that the selected portfolio will comply with the Home Loan Criteria as at the Selection Date, as the case may be, the relevant date specified in the Home Loan Eligibility Criteria. Secondly, if the size of the provisional portfolio meeting the Home Loan Eligibility Criteria is not at least equal to the expected Principal Outstanding Balance of the Notes as at the Issue Date, additional receivables will be randomly selected on the Selection Date from a pool of receivables complying with the Home Loan Eligibility Criteria and selected in accordance with the same methodology as the provisional portfolio. Therefore, the characteristics of the Purchased Home Loans on the Issuer Establishment Date may differ from the provisional portfolio of the receivables selected on 31 July 2019 due to inter alia scheduled payments and prepayments, delinquencies and defaults. The composition of the portfolio of Purchased Home Loans will change after the Issuer Establishment Date as a result of the amortisation of the Purchased Home Loans, any prepayments, any losses related to the Purchased Home Loans, any retransfer or rescission of Purchased Home Loans or renegotiations entered into by the Servicer in accordance with the Servicing Procedures.

These differences could result in faster or slower repayments or greater losses on the Notes than what would have been the case based on the portfolio of Purchased Home Loans as of the Issuer Establishment Date.

The Investor Reports (with a description of the Purchased Home Loans) are and will be published by the Management Company on its website (www.france-titrisation.fr).

HISTORICAL PERFORMANCE DATA

The historical information and the other information set out below represent the historical experience of the Sellers. None of the Management Company, the Custodian, the Account Bank, the Paying Agent, the Listing Agent, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Joint Arrangers or the Joint Lead Managers has undertaken or will undertake any investigation, review or searches to verify the historical information. Because this historical information was extracted for the period from January 2010 to July 2019, a significant number of Home Loans purchased by the Issuer may not have arisen from a Home Loan Agreement being part of the provisional portfolio of Home Loan Agreements. In addition, the future performance of the Purchased Home Loans might differ from this historical information and such differences might be significant.

General

The information presented in this section have been prepared based on BPCE's internal records and provide historical performances based on both static and dynamic formats covering a period of at least (5) years for substantially similar home loans receivables than to those being securitised by means of the securitisation transaction described in the Transaction Documents.

In order for the below data to cover home loans substantially similar to those being securitised by means of the securitisation transaction described in the Transaction Documents, BPCE has extract-ed historical performances of Home Loans considering the following criteria:

- the Home Loan is denominated in Euro;
- the Borrower is an individual;
- the property is located in Metropolitan France or French overseas departments;
- the Home Loan is secured by a Home Loan Guarantee or a first ranking Mortgage;
- the originator of the Home Loan is a Seller in the securitisation transaction described in the Transaction Documents; and
- all Home Loans have been underwritten according to similar underwriting standards than the Home Loans being securitised and are (or were) serviced according to similar servicing pro-cedures than the Home Loans being securitised.

The historical performance data has been extracted starting from January 2010 until July 2019.

Actual performance may be influenced by a variety of economic, social, geographic and other factors beyond the control of BPCE. It may also be influenced by changes in the Sellers' origination and servicing policies.

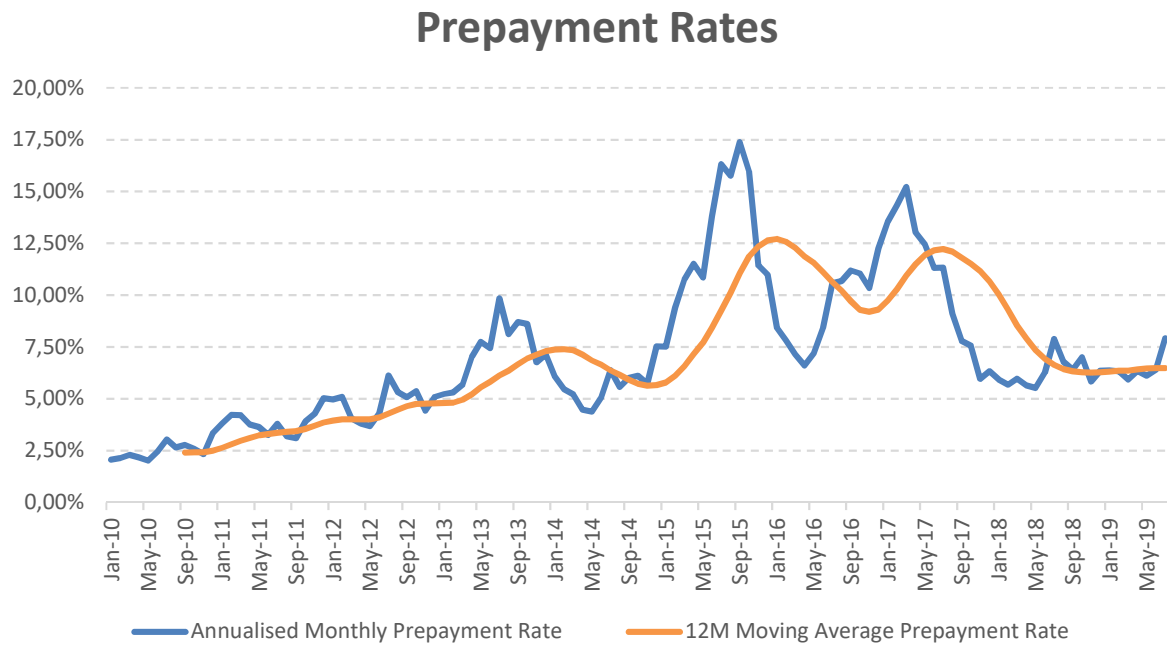

There can be no assurance that the future experience and performance of the Purchased Home Loans will be similar to the historical performance set out in the graphs below.

The notion of "Defaulted Home Loans" used in this section refers to any Home Loans (i) which have been accelerated pursuant to the Sellers' collection and servicing procedures or (ii) in respect of which the related Borrower has an internal credit rating equal to "restructuration" (RX) or "litigation" (CX) or (iii) in respect of which more than five (5) Home Loan instalments remain unpaid past their respective due date.

Prepayment Rates

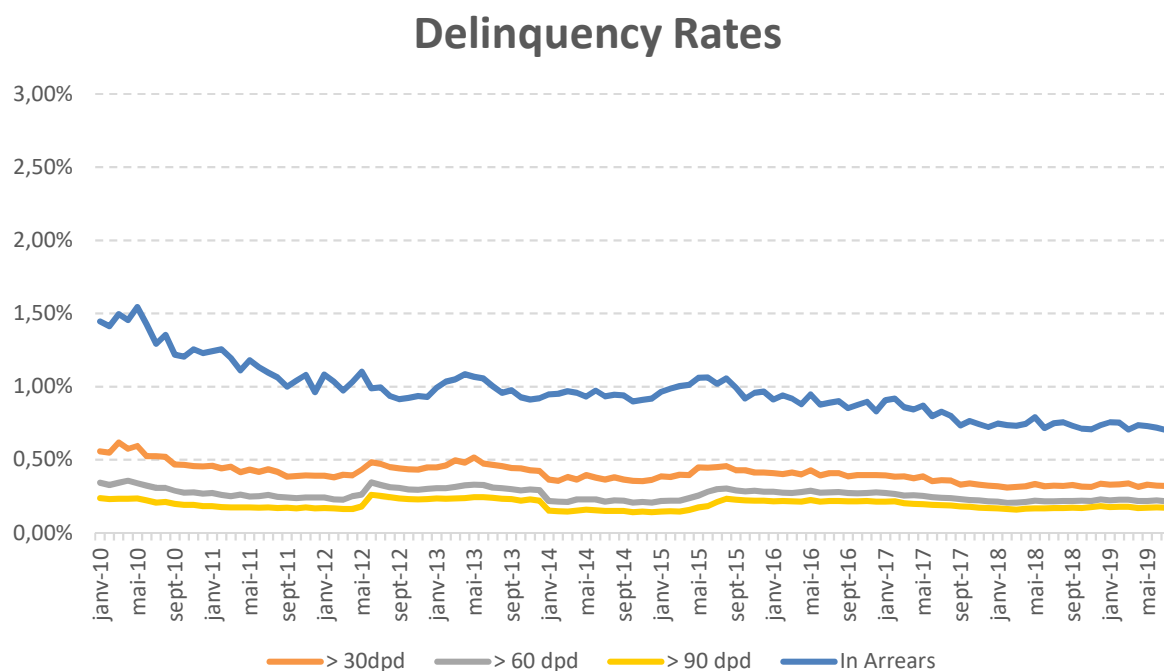

The Annualised Monthly Prepayment Rate is calculated on any particular month as the ratio between (i) the aggregate prepayments (including partial and total prepayments) received in such month and (ii) the aggregate Outstanding Principal Balance of all Home Loans at the beginning of this month (net of any Defaulted Home Loans), multiplied by 12 and expressed as a percentage.

The 12M Moving Average Prepayment Rate is calculated as the 12 months moving average of the Annualised Monthly Prepayment Rate.

Delinquency Rates

The delinquency graph shows delinquencies calculated on any particular month as the ratio between (i) the aggregate Outstanding Principal Balance of all delinquent Home Loans other than the Defaulted Home Loans, in respect to the respective overdue bucket in such month, and (ii) the aggregate Outstanding Principal Balance of all Home Loans at the beginning of this month (net of any Defaulted Home Loans), expressed as a percentage.

Dynamic Default and Loss Rates

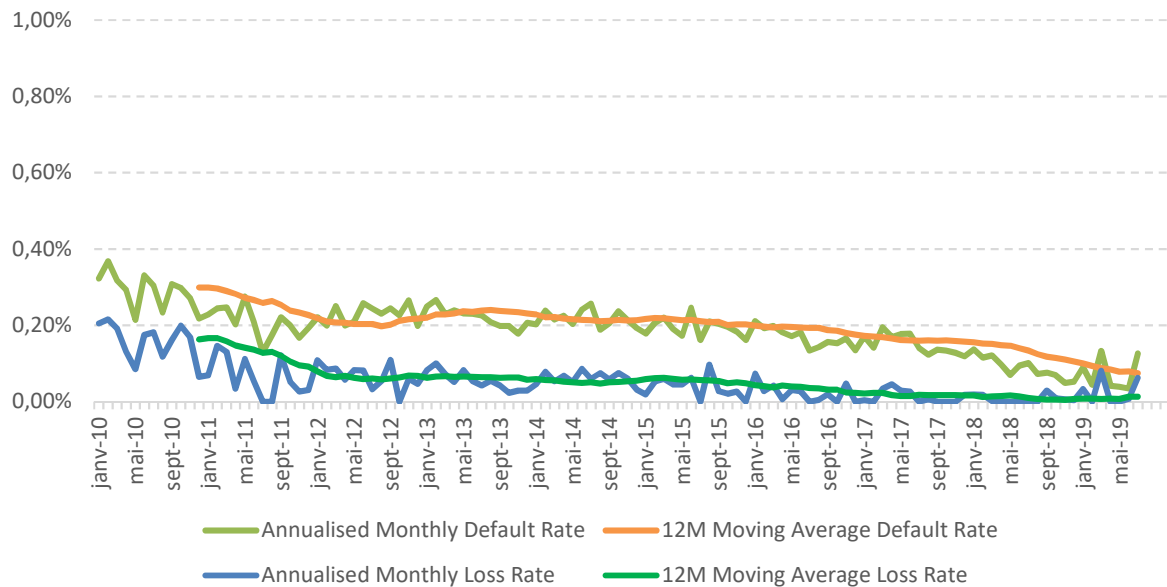

The Annualised Monthly Default Rate is calculated on any particular month as the ratio between (i) the aggregate amount due (including principal, interest and fees) on all Home Loans which became Defaulted Home Loans in such month and (ii) the aggregate Outstanding Principal Balance of all Home Loans at the beginning of this month (net of any Defaulted Home Loans), multiplied by 12 and expressed as a percentage.

The 12M Moving Average Default Rate is calculated as the 12 months moving average of the Annualised Monthly Default Rate.

The Annualised Monthly Loss Rate is calculated on any particular month as the ratio between (i) the positive difference between (aa) the aggregate amount due (including principal, interest and fees) on all Home Loans which became Defaulted Home Loans in such month and (bb) the total amount recovered in such month and (ii) the aggregate Outstanding Principal Balance of all Home Loans at the beginning of this month (net of any Defaulted Home Loans), multiplied by 12 and expressed as a percentage.

The 12M Moving Average Loss Rate is calculated as the 12 months moving average of the Annualised Monthly Loss Rate.

Dynamic Default and Loss Rates

Cumulative Default Rates (static)

The default data shows in a quarterly vintage format defaults resulting from loan's acceleration (*déchéance du terme*) pursuant to the Sellers' servicing and collection policy.

For a generation of Home Loans (being all Home Loans which were originated during the same quarter), the Cumulative Default Rate in respect of that generation and a specific subsequent quarter is calculated as the ratio between: (i) the aggregate amount due (including principal, interest and fees) on all Home Loans which became Defaulted Home Loans (at the time of acceleration) between their quarter of origination and the relevant subsequent quarter, and (ii) the aggregate Outstanding Principal Balance of these Home Loans when originated.

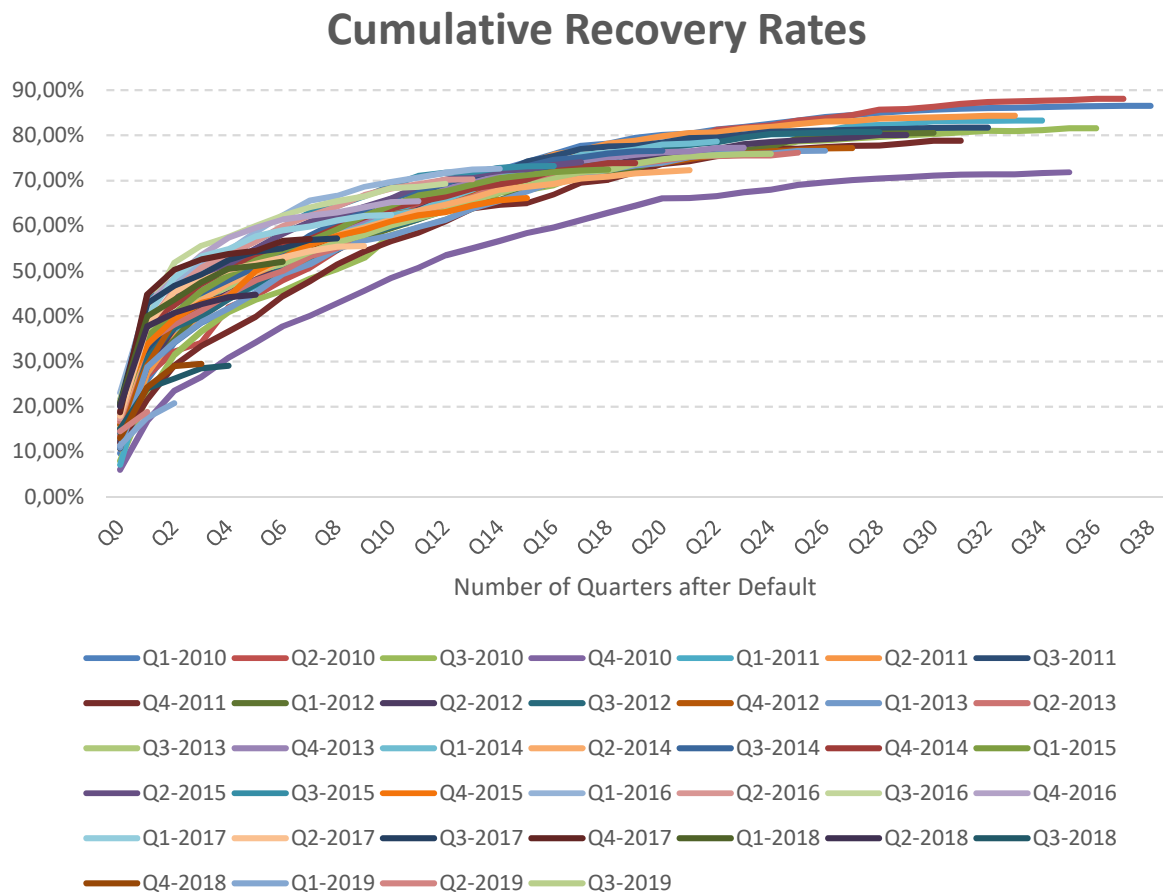

Cumulative Default Rates

Cumulative Recovery Rates (static)

The recovery data shows in a quarterly vintage format recoveries on loans accelerated (*déchu du terme*) pursuant to the Sellers' servicing and collection policy.

For a generation of Defaulted Home Loans (being all Home Loans which became Defaulted Home Loans during the same quarter), the Cumulative Recovery Rate in respect of a subsequent quarter is calculated as the ratio between: (i) the cumulative recoveries between the quarter when the Home Loans became Defaulted Home Loans and the relevant subsequent quarter, and (ii) the aggregate amount due (including principal, interest and fees) on these Defaulted Home Loans (at the time of acceleration).

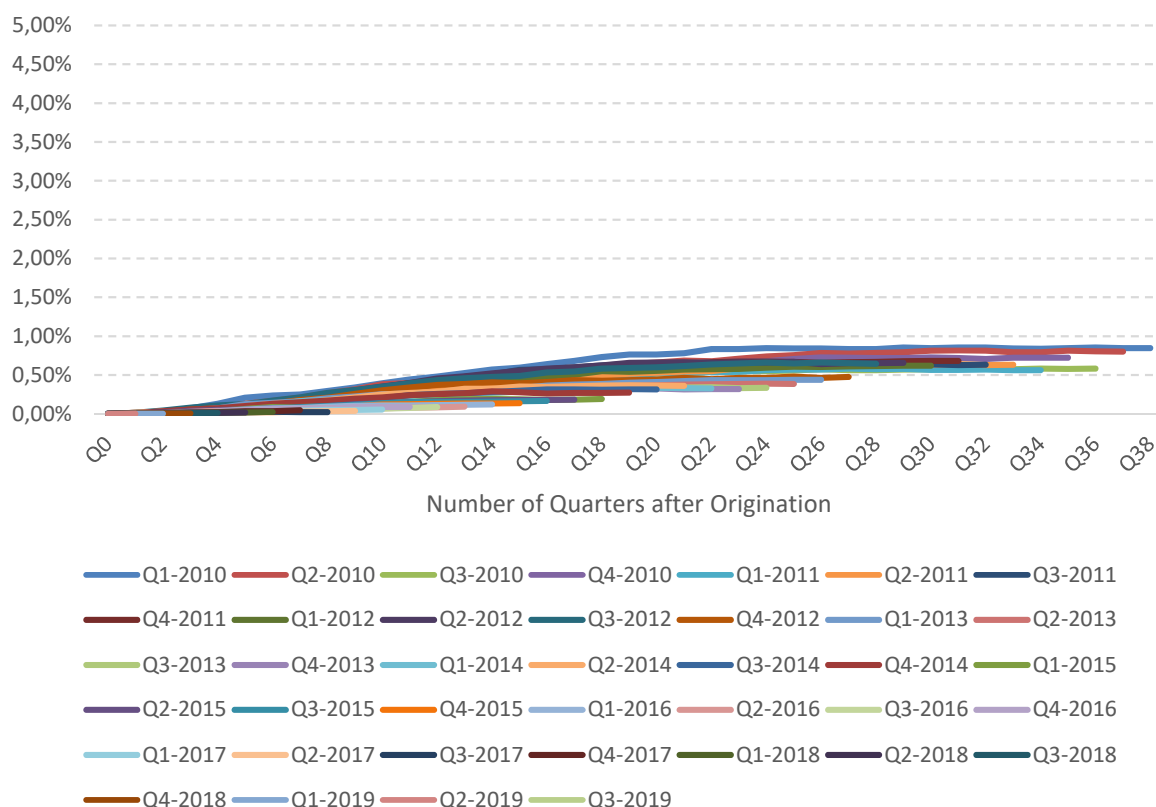

Cumulative Losses Rate (static)

The loss data shows in a quarterly vintage format losses resulting from loan's acceleration (*déchéance du terme*) pursuant to the Sellers' servicing and collection policy.

For a generation of Home Loans (being all Home Loans which were originated during the same quarter of origination), the Cumulative Losses Rate in respect of that generation and a specific subsequent quarter is calculated as the ratio between: (i) the positive difference between (aa) the aggregate amount due (including principal, interest and fees) on all Home Loans which became Defaulted Home Loans (at the time of acceleration) and (bb) the amounts recovered on the same vintage of the origination between their quarter of origination and the relevant subsequent quarter, and (ii) the aggregate Outstanding Principal Balance of these Home Loans when originated.

DESCRIPTION OF THE HOME LOANS PURCHASE AND SERVICING AGREEMENT AND THE RESERVES CASH DEPOSIT AGREEMENT

I. PURCHASE OF THE HOME LOANS

INTRODUCTION

Pursuant to the Home Loans Purchase and Servicing Agreement, each Seller may transfer Home Loans to the Issuer on the Purchase Date.

PROCEDURE

The procedure for the purchase of Home Loans from the Sellers on the Purchase Date is as follows:

1. at the latest on the Purchase Date, each Seller may offer Home Loans randomly selected on the Selection Date, which satisfy individually the Home Loan Eligibility Criteria as at the Selection Date or, as applicable, on the relevant date specified under the Home Loan Eligibility Criteria for purchase by the Issuer on the Purchase Date, by providing the Management Company with an executed but not dated Transfer Document complying with the requirements of article D. 214-227 of the French Monetary and Financial Code, together with an Electronic File identifying and individualising the said Home Loans (a **“Home Loans Purchase Offer”**). Each Seller shall also ensure by coordinating with the Transaction Agent, that the Home Loans offered for sale by such Seller do not prevent all Home Loans offered for sale to the Issuer to comply with the Portfolio Conditions. The time necessary between the Selection Date and the Purchase Date has been determined based on the technical constraints of the Sellers’ IT systems, without any undue delay;
2. in connection with any Home Loans Purchase Offer, each Seller will make representations and warranties in favour of the Management Company with respect to the compliance of the corresponding Home Loans with the Home Loan Eligibility Criteria as at the Selection Date or, as applicable, on the relevant date specified under the Home Loan Eligibility Criteria. Any Home Loans Purchase Offer will constitute an irrevocable binding offer made by the relevant Seller, with respect to the sale and transfer of the relevant Home Loans together with the corresponding Ancillary Rights, to the Management Company;
3. on receipt of any Home Loans Purchase Offer, the Management Company shall verify (i) on the basis of the information provided to it by the relevant Seller in the said Home Loans Purchase Offer and to the extent that such information enables the Management Company to perform the said verification, that the Home Loans which are offered for purchase on the Purchase Date comply with the applicable Home Loan Eligibility Criteria and (ii) whether the conditions precedent to the purchase of Home Loans on the Purchase Date are fulfilled; and
4. on the Purchase Date, the Management Company shall mark its acceptance of any Home Loans Purchase Offer in respect of certain Home Loans by countersigning the Transfer Document upon delivery of the same by the Sellers and dating such Transfer Document as of the Purchase Date. The Management Company shall provide to the Transaction Agent a copy of each duly signed Transfer Document and the original of the relevant duly signed Transfer Document will be delivered to and kept by the Custodian.

For the avoidance of doubt, no Home Loans shall be acquired on the Purchase Date, if none of the Home Loans included in the Home Loans Purchase Offers received by the Issuer satisfies the Home Loan Eligibility Criteria as at the Selection Date or, as applicable, on the relevant date specified under the Home Loan Eligibility Criteria or if the conditions precedent as set out above are not fulfilled.

ASSIGNMENT OF THE HOME LOANS AND ANCILLARY RIGHTS

The assignment of the Home Loans subject to any Home Loans Purchase Offer shall take effect between the Issuer and the relevant Seller and be enforceable against third parties (for the avoidance of doubt, including, without limitation, the Borrowers) at the date affixed by the Management Company on the relevant Transfer Document upon its delivery by each Seller, irrespective of the date on which the said Home Loans came into

existence or their maturity or due date, without any further formalities being required, and irrespective of the law governing the said Home Loans or the debtor's place of residence (*quelle que soit la date de naissance, échéance ou exigibilité des créances, sans qu'il soit besoin d'autre formalité, et ce quelle que soit la loi applicable aux créances et la loi du pays de résidence des débiteurs*) in accordance with the provisions of articles L. 214-169 and D. 214-227 of the French Monetary and Financial Code.

In accordance with article L. 214-169 of the French Monetary and Financial Code:

- (a) the assignment of Home Loans by such Seller shall remain valid (*conserve ses effets*), notwithstanding the state of cessation of payments (*l'état de cessation des paiements*) of the Seller on the Purchase Date or the commencement of any proceeding governed by Book VI of the French Commercial Code or any equivalent proceeding governed by any foreign law (*procédure équivalente sur le fondement d'un droit étranger*) against any Seller after the Purchase Date;
- (b) the Ancillary Rights shall be transferred to the Issuer together with the Home Loans to which they are attached, and such transfer shall be enforceable against third parties (for the avoidance of doubt, including, without limitation, the Borrowers), without any further formality; and
- (c) the provisions of article L. 632-2 of the French Commercial Code shall not apply to payments made by the Issuer or to any acts against remuneration received by the Issuer or to its benefit (*ne sont pas applicables aux paiements reçus par un organisme de financement, ni aux actes à titre onéreux accomplis par un organisme de financement ou à son profit*) to the extent such payments and such acts are directly connected with the transactions made pursuant to Article L. 214-168 of the French Monetary and Financial Code (*dès lors que ces paiements ou ces actes sont directement relatifs aux opérations prévues à l'article L. 214-168*).

PURCHASE PRICE OF THE HOME LOANS

The Purchase Price of the Home Loans transferred to the Issuer on the Purchase Date will be equal to the sum of the Principal Component Purchase Price (equal to the aggregate of the Initial Principal Balance, as at the Selection Date, of the Home Loans to be purchased on the Purchase Date) and the Interest Component Purchase Price (equal to the aggregate of the accrued but unpaid interest of such Home Loans on the Selection Date (excluded)).

In respect of each Seller, the Principal Component Purchase Price of the Home Loans to be purchased by the Issuer on the Purchase Date shall be paid on the Issuer Establishment Date by the Issuer to the Transaction Agent, on behalf of each relevant Seller, by debiting the General Account (to the extent, as the case may be, not paid by way of set-off), provided that the Transaction Agent will then redistribute such Principal Component Purchase Price to the relevant Seller.

The Interest Component Purchase Price of the Home Loans shall be paid to the Sellers or to the Transaction Agent, on behalf of each relevant Seller, by debiting the General Account on the first Payment Date following the Purchase Date and/or, as the case may be, each Payment Date thereafter, in accordance with, and subject to, the applicable Priority of Payments, provided that, if paid to the Transaction Agent, on behalf of each relevant Seller, the Transaction Agent will then redistribute such and Interest Component Purchase Price to the relevant Seller.

As it is agreed between the parties to the Home Loans Purchase and Servicing Agreement that the effective date (*date de jouissance*) with respect to the assignment of the Home Loans shall be the Selection Date (included), each Seller will transfer to the Issuer, on the first Settlement Date, an amount equal to the aggregate of all the collections received under all the Home Loans sold by it to the Issuer between the Selection Date (included) and the Issuer Establishment Date (excluded).

BREACH OF WARRANTIES AND REPRESENTATIONS IN RELATION TO THE HOME LOANS

GENERAL

When consenting to acquire any Home Loans on the Purchase Date, the Issuer will take into consideration, as an essential and determining condition for its consent (*condition essentielle et déterminante de son consentement*), the conformity of those Home Loans with the Home Loan Eligibility Criteria as at the Selection Date or, as applicable, on the relevant date specified under the Home Loan Eligibility Criteria.

The Management Company will carry out consistency checks on the information provided to it by the relevant Seller in order to test through a computer-based process the compliance of the Home Loans with the Home

Loan Eligibility Criteria. Such checks will be undertaken in the manner, and as often as is necessary to ensure the fulfilment by the relevant Seller of its obligations as set out in the Home Loans Purchase and Servicing Agreement, the protection of the interests of the Noteholders with respect to the Assets Allocated to the Issuer, and, more generally, in order to satisfy its legal and regulatory obligations. However, each Seller will remain liable for the compliance by each Home Loan transferred by it to the Issuer with the Home Loan Eligibility Criteria.

NON-COMPLIANCE OF THE HOME LOANS WITH THE HOME LOAN ELIGIBILITY CRITERIA

Under the Home Loans Purchase and Servicing Agreement, if the Management Company, any Seller or the Transaction Agent becomes aware that any of the representations or warranties given or made by such Seller in relation to the conformity of any Purchased Home Loans to the Home Loan Eligibility Criteria was false or incorrect in any material respects by reference to the facts and circumstances existing on the Selection Date or, as applicable, on the relevant date specified in the relevant Home Loan Eligibility Criteria or in the event that, for any reason whatsoever, the Transfer Document executed by such Seller in respect of the assignment of such Purchased Home Loan is not or ceases to be effective, the Management Company, the relevant Seller or the Transaction Agent (as the case may be) will promptly inform the other parties to the Home Loans Purchase and Servicing Agreement. Such breach will be corrected by the Seller, by (i) to the extent possible, taking any appropriate steps and as soon as practicable, to rectify the breach by no later than the second Payment Date following the date on which the Management Company or the Seller, as applicable, has become aware of the relevant non-compliance or (ii) if the relevant breach cannot be rectified, implementing one of the below remedies, by no later than the second Payment Date following the date on which the Management Company or the Seller, as applicable, has become aware of the relevant non-compliance:

- (a) by the rescission (*résolution*) of the sale of the relevant Purchased Home Loan, provided that such rescission shall only occur subject to the payment by the relevant Seller to the Issuer of the Rescission Amount; or
- (b) should the relevant breach be such that the sale of the relevant Purchased Home Loan will be deemed not to have occurred or the rescission is not possible, by paying to the Issuer an indemnity equal to the Indemnity Amount.

Once a rescission or indemnification has occurred in accordance with the above, any collections received by the Issuer (if any) after such rescission or indemnification in relation to the relevant Purchased Home Loans will be repaid by the Issuer to the relevant Seller outside any Priority of Payments and shall not constitute Available Collections.

LIMITS OF THE REPRESENTATIONS AND WARRANTIES OF THE SELLERS

The remedies set out in Section " NON-COMPLIANCE OF THE HOME LOANS WITH THE HOME LOAN ELIGIBILITY CRITERIA" above are the sole remedy available to the Issuer in respect of the non compliance of any Home Loan or Ancillary Rights with the Home Loan Eligibility Criteria or in the event that, for any reason whatsoever, the Transfer Document executed by such Seller in respect of the assignment of such Purchased Home Loan is not or ceases to be effective. Under no circumstances may the Management Company request an additional indemnity from any Seller relating to the non compliance of any Home Loan or Ancillary Rights with the Home Loan Eligibility Criteria or in the event that, for any reason whatsoever, the Transfer Document executed by such Seller in respect of the assignment of such Purchased Home Loan is not or ceases to be effective. In particular, the Sellers give no warranty as to the ongoing solvency of Borrowers. Furthermore, the representations, warranties and undertakings of the Sellers shall not entitle the Noteholders to assert any claim directly against the Sellers, the Management Company having the exclusive competence under article L. 214-183 of the French Monetary and Financial Code to represent the Issuer as against third parties and in any legal proceedings.

The non-compliance and rescission of the transfer of any Purchased Home Loan shall not affect in any manner the validity of the transfer of the other Purchased Home Loans which complied with the Home Loan Eligibility Criteria.

OTHER REPRESENTATIONS AND WARRANTIES OF THE SELLERS RELATING TO THE HOME LOANS

Under the Home Loans Purchase and Servicing Agreement, each Seller will also represent and warrant on the Purchase Date that:

- (a) **Selection of the Home Loans:** it has not selected the Home Loans to be transferred to the Issuer with the aim of rendering losses on the Purchased Home Loans, measured over the life of the transaction, or over a maximum of 4 years where the life of the transaction is longer than 4 years, higher than the losses over the same period on comparable home loan receivables held on its balance sheet;
- (b) **Information provided to the Issuer:** all information which is provided by each Seller to the Issuer with respect to the Home Loans and their Ancillary Rights pursuant to the terms of this Agreement are, in all material respects, true, accurate and complete and do not omit any facts which would render such information misleading in any material respect;
- (c) **Ownership of each Home Loan:** the relevant Seller has full title to the Home Loans and the related Ancillary Rights immediately prior to their assignment and the status and enforceability of neither the Purchased Home Loans nor the related Ancillary Rights are subject to, either in whole or in part, any assignment, delegation or pledge, attachment, warranty claims, set-off nor encumbrance of whatever type, in particular any rights of third parties, or otherwise in a condition, that can be foreseen to adversely affect the enforceability of the assignment of the Home Loans or any related Ancillary Right to the Issuer;
- (d) **Transfer of title:** upon execution of each Transfer Document, the Issuer will become the sole creditor and owner of each Home Loan being the subject of that Transfer Document;
- (e) **Identification of the Purchased Home Loans:** the information contained in the Transfer Document (*Acte de Cession de Créances*) signed by it and the Electronic File deemed to be an integral part thereof do not contain any statement which is untrue, misleading or inaccurate in any material respect or omits to state any fact or information the omission of which makes the statements therein untrue, misleading or inaccurate in any material respect and that the Electronic File deemed to be an integral part of each Transfer Document (*Acte de Cession de Créances*), and delivered by the relevant Seller to the Management Company on the Purchase Date, contains all information as are necessary for the purposes of identifying and individualising (*désigner et individualiser*) without any possible ambiguity each of the Purchased Home Loans transferred thereunder; and
- (f) **Credit-granting criteria:**
 - (i) it has applied to the Home Loans to be transferred by it to the Issuer the same sound and well-defined criteria for credit-granting which it applies to non-securitised Home Loans. To that end, the same clearly established processes for approving and, where relevant, amending, renewing and refinancing Home Loans has been applied;
 - (ii) such Seller has effective systems in place to apply those criteria and processes in order to ensure that credit-granting is based on a thorough assessment of the obligor's creditworthiness taking appropriate account of factors relevant to verifying the prospect of the obligor meeting his obligations under the Home Loan Agreement; and
 - (iii) as French licensed credit institutions, such Seller has applied the requirements set out in Article 8 of Directive 2008/48/EC or paragraphs 1 to 4, point (a) of paragraph 5, and paragraph 6 of Article 18 of Directive 2014/17/EU when assessing the credit worthiness of the relevant Borrower.

PORTFOLIO CONDITIONS

As of the Selection Date, the Home Loans offered for sale to the Issuer shall comply with the LTV Criteria, the RWA Limit and the Borrower Concentration (together the "**Portfolio Conditions**"), where:

- (a) "**LTV Criteria**" refers to the following loan-to-value (LTV) portfolio limits:

- (1) the weighted average of the Current LTV and the weighted average of the Current Indexed LTV of the Home Loans offered for sale by all Sellers and benefiting from Home Loan Guarantees does not exceed eighty per cent (80%); and
- (2) the weighted average of the Current LTV and the weighted average of the Current Indexed LTV of the Home Loans offered for sale by all Sellers and benefiting from Mortgages does not exceed eighty per cent (80%).
- (b) **“RWA Limit”** refers to the following limit: the weighted average of the Home Loans risk weights under the Standardised Approach (as defined in the Capital Requirements Regulations) is equal to or smaller than 40%; and
- (c) **“Borrower Concentration”** refers to the following limit: the aggregate Outstanding Principal Balance of the Home Loans granted to a single Borrower and offered for sale by all Sellers on the Purchase Date is lower than an amount equal to two per cent. (2%) of the aggregate Outstanding Principal of all the Home Loans offered for sale by all Sellers on the Purchase Date.

The compliance of the Home Loans offered for sale to the Issuer with the Portfolio Conditions will be a condition precedent to the transfer of the Home Loans to the Issuer on the Purchase Date.

ANCILLARY RIGHTS

The payment of principal, interest, expenses and ancillary rights owed by the Borrowers may be secured, as the case may be, by Ancillary Rights.

In accordance with article L. 214-169 V 3° of the French Monetary and Financial Code, the assignment of the Home Loans by the delivery of the Transfer Document automatically extends to the security, guarantees and other ancillary rights, including mortgages and such transfer shall be enforceable against third parties (for the avoidance of doubt, including, without limitation, the Borrowers), without any further formality (*la remise du bordereau entraine de plein droit le transfert des sûretés, des garanties et des autres accessoires attachés à chaque créances, y compris les sûretés hypothécaires, [...] de même que l’opposabilité de ce transfert aux tiers sans qu’il soit besoin d’autre formalité*); accordingly the Ancillary Rights (if any) shall be transferred to the Issuer together with the Home Loans to which they are attached.

GENERAL RESERVE

Under the Home Loans Purchase and Servicing Agreement, the Reserves Provider has undertaken to guarantee the performance of the Purchased Home Loans, up to an amount equal to, on the Issuer Establishment Date, the General Reserve Initial Cash Deposit Amount, in accordance with and subject to the provisions of the Reserve Cash Deposits Agreement.

Under the performance guarantee referred to above, the financial obligations (*obligations financières*) of the Reserves Provider towards the Issuer will consist in the obligation to make a payment to the Issuer if and to the extent where the Issuer is not able to make any of the following payments on any relevant Payment Date:

- (A) during the Amortisation Period: any of the payments set out in paragraphs (1), (2) and (3) of the Normal Priority of Payments; and
- (B) during the Accelerated Amortisation Period: any of the payments set out in paragraphs (1) to (4) of the Accelerated Priority of Payments,

on the basis of the funds available to it on such date, provided that in any case, whatever the amount of any such payments which the Issuer would not be able to make, the amount of the corresponding financial obligation (*obligation financière*) of the Reserves Provider under its performance guarantee shall be equal to the minimum of (i) the amount of that payment and (ii) the amount of the General Reserve Cash Deposit still outstanding as of the date on which that financial obligation (*obligation financière*) becomes due and payable pursuant to the performance guarantee referred to above, so that the aggregate of all financial obligations (*obligations financières*)

of the Reserves Provider under its performance guarantee will never exceed the amount of the General Reserve Initial Cash Deposit.

In accordance with articles L. 211-36 and L. 211-38 to L. 211-40 of the French Monetary and Financial Code and with the provisions of the Reserve Cash Deposits Agreement, as security for the full and timely payment of its financial obligations (*obligations financières*) under such performance guarantee, the Reserves Provider will make, on the Issuer Establishment Date, the General Reserve Initial Cash Deposit with the Issuer by way of full transfer of title (*remise de sommes d'argent en pleine propriété à titre de garantie*).

The General Reserve Initial Cash Deposit will be equal to the General Reserve Required Amount applicable on the Issuer Establishment Date and will constitute the balance of the initial amount standing to the credit of the General Reserve Account.

On each Payment Date during the Amortisation Period, the General Reserve Account will be, as applicable, replenished so that the amount standing to the credit of the General Reserve Account is equal to the General Reserve Required Amount applicable on that Payment Date, by the transfer of monies from the General Account to the General Reserve Account, in accordance with and subject to the applicable Priority of Payments.

On each Settlement Date during the Amortisation Period and on the Settlement preceding the first Payment Date of the Accelerated Amortisation Period, the General Reserve Account shall be debited in full by the transfer of all monies standing to its credit (save any sums corresponding to remuneration credited by the Account Bank during the immediately preceding Quarterly Collection Period which shall be transferred to any bank account of the Reserves Provider on each Settlement Date) to the General Account and the corresponding monies will then be applied to the payment of any and all sums owed by the Issuer, in accordance with and subject to the applicable Priority of Payments.

The General Reserve will be released to the Reserves Provider as reimbursement of the General Reserve Cash Deposit, if and to the extent not otherwise reimbursed, to the extent of available funds and in accordance with and subject to the relevant Priority of Payments. In particular, but without limitations, no repayments will be made under the General Reserve Cash Deposit until all other amounts owed by the Issuer and ranking higher in the relevant Priority of Payments have been paid.

 - (ii) the corresponding Seller shall be under the obligation to repurchase from the Issuer the relevant Purchased Home Loan, for a repurchase price equal to the Re-transfer Price (provided that for the purpose of the calculation of the Re-transfer Price, the forgiveness, reduction or cancellation of any amount due under such Purchased Home Loan pursuant to such Commercial Renegotiation shall not be taken into account);
 - (iii) sub-paragraphs (a)(ii) to (a)(iv) above shall apply *mutatis mutandis* to such a repurchase by the relevant Seller; and
 - (iv) such repurchase of the relevant Purchased Home Loan shall take place within two calendar months following the date on which the modification was notified by a party to the other (or within such delay otherwise agreed with the Management Company).

Once the repurchase of any Purchased Home Loans has occurred, any collections received by the Issuer (if any) after the Re-transfer Date in respect of such Home Loans will be repaid to the relevant Seller, which repurchased such Home Loans, outside of the relevant Priority of Payments.

For the avoidance of doubt, re-transfers of Purchased Home Loans by the Issuer shall only occur in the circumstances pre-defined above or in case of liquidation of the Issuer, and in any such case of re-transfer, the Management Company shall not carry out any active management of the portfolio of Purchased Home Loans on a discretionary basis (meaning, (a) a management that would make the performance of the securitisation dependent both on the performance of the Purchased Home Loans and on the performance of the portfolio management of the securitisation or (b) a management performed for speculative purposes aiming to achieve better performance, increased yield, overall financial returns or other purely financial or economic benefit).

DEEMED COLLECTIONS

If, in relation to any Purchased Home Loan assigned by a Seller, any decrease in the principal amount of such Purchased Home Loan has arisen as a result of any set-off (whether such set-off is imposed by operation of law, by contract or by a competent court) and as a result of any such event, the Issuer is not lawfully entitled to receive (i) a portion of the principal amount or (ii) the entire principal amount due with respect to such Purchased Home Loan, then such Seller will pay to the Issuer such portion or such principal amount as deemed collections, each, "**Deemed Collections**".

Any Deemed Collections due in respect of any Quarterly Collection Period by a Seller with respect to Home Loans assigned to the Issuer by such Seller will be determined by the Management Company on each Calculation Date and paid by such Seller on the Settlement Date following such Quarterly Collection Period, to the Issuer by way of cash settlement. In the event that, any Deemed Collection has arisen as a result of any set-off imposed by contract and as a consequence a Rescission Amount or an Indemnity Amount has been paid to the Issuer in relation to the relevant Purchased Home Loan in accordance with paragraph "Non-compliance of the Home Loans with the Home Loan Eligibility Criteria" above, no Deemed Collection will be due in respect of such Home Loan.

II. SERVICING OF THE HOME LOANS

APPOINTMENT OF THE SERVICERS

In accordance with the provisions of article L. 214-172 of the French Monetary and Financial Code and the provisions of the Home Loans Purchase and Servicing Agreement, each Seller will continue to be in charge of the administration, the recovery and the collection of the Purchased Home Loans transferred by it to the Issuer and the corresponding Ancillary Rights transferred by it to the Issuer, in its capacity as Servicer.

DUTIES OF THE SERVICERS

STANDARD OF CARE AND SERVICING PROCEDURES

Each Servicer has undertaken to the Management Company and the Custodian that it will devote to the performance of its obligations under the Home Loans Purchase and Servicing Agreement at least the same amount of skill, time and attention and overall diligence that it would normally exercise for the administration, the recovery and the collection of its own assets similar to the Purchased Home Loans and Ancillary Rights and with the due care that would be exercised by a prudent and informed servicer.

In performing its obligations under the Home Loans Purchase and Servicing Agreement in relation to the administration, the recovery and the collection of the Purchased Home Loans, each Servicer will strictly comply with the provisions of the Home Loans Purchase and Servicing Agreement, the provisions of the Home Loan Agreements and the Servicing Procedures.

Any material amendment to or substitution of the Servicing Procedures shall require the prior written approval of the Management Company and the Custodian. The Rating Agencies shall be informed by the Management Company of any such material amendment to or substitution of Servicing Procedures and an overview of any such material amendment to or substitution of Servicing Procedures will be provided to investors on a quarterly basis and within one (1) month of each Payment (provided that such information shall be reported prior to such date, if necessary to make sure that such information is reported to investors without undue delay).

In addition, pursuant to the provisions of the Home Loans Purchase and Servicing Agreement, each Servicer has represented and warranted that its business has included the servicing of receivables of a nature similar to the Purchased Home Loans transferred by it to the Issuer in its capacity as Seller, for at least five (5) years prior to the Issuer Establishment Date.

COLLECTION OF THE PURCHASED HOME LOANS

On each Home Loan Instalment Due Date and in respect of each Purchased Home Loan, each Servicer has undertaken to collect the Home Loan instalment from the relevant Borrower by direct debit from the bank account on which such Servicer is authorised by the relevant Borrower to collect such Home Loan instalment as from the execution of the corresponding Home Loan Agreement. Upon the effective termination of the appointment of any Servicer under the Home Loans Purchase and Servicing Agreement, and unless otherwise expressly instructed by the Management Company, the corresponding Servicer has undertaken to immediately stop sending to the Borrowers direct debit requests in respect of the Purchased Home Loans and such direct debit shall be cancelled. If the collection of the said Purchased Home Loan cannot be performed by the relevant Servicer in accordance with the above, for any reason whatsoever (in particular in the case where the direct debit has been cancelled), the relevant Servicer has undertaken to use its best efforts (*obligation de moyens*) to collect the corresponding Home Loan instalment by any other appropriate means as provided by the Servicing Procedures.

Each Servicer shall ensure that it, in an efficient and timely manner, collects, transfers and credits all Available Collections paid in relation to any Collection Period in respect of the Purchased Home Loans transferred by it to the Issuer, directly or indirectly to at least one bank account opened by it with the Specially Dedicated Account Bank and specially dedicated (*compte spécialement affecté*) to the benefit of the Issuer, in accordance with articles L. 214-173 and D. 214-228 of the French Monetary and Financial Code (the “**Specially Dedicated Bank Accounts**”).

Subject to and in accordance with the provisions of the Home Loans Purchase and Servicing Agreement, each Servicer shall in an efficient and timely manner collect, transfer and credit directly or indirectly to its Specially Dedicated Bank Account(s) all Available Collections received in respect of the Purchased Home Loans transferred by it to the Issuer, provided that each Servicer has undertaken vis-à-vis the Issuer:

- (i) that all Home Loans instalments paid by the Borrowers by direct debit shall be either (1) credited directly to its Specially Dedicated Bank Account(s), provided that such amounts will include any amount of insurance premium or services fees paid by the relevant Borrower, as applicable (such amount of insurance premium or services fees to be repaid to the relevant Seller by the Management Company in accordance with the provisions of the Specially Dedicated Bank Account Agreement), or (2) credited to another of its bank accounts and transferred on the same day to its Specially Dedicated Bank Account(s), provided that such transferred amounts shall not include any amount of insurance premium or services fees paid by the relevant Borrower, as applicable; and
- (ii) to transfer to its Specially Dedicated Bank Account(s), as soon as possible and at the latest on the Business Day following receipt, any other amount of Available Collections standing to the credit of any other of its bank accounts, provided that such amount shall not include any amount of insurance premium or services fees paid by the relevant Borrower, as applicable.

Each Servicer has undertaken to transfer to the General Account, on each Settlement Date, any amount of Available Collections collected under any Purchased Home Loan (including its Ancillary Rights) during the immediately preceding Quarterly Collection Period and standing to the credit of its Specially Dedicated Bank Account(s) as of such date.

Each Servicer has further undertaken to pay to the General Account no later than on each Settlement Date, any amount relating to any Purchased Home Loan (including its Ancillary Rights) collected in respect of the Quarterly Collection Period immediately preceding such Payment Date that has not otherwise been transferred from its Specially Dedicated Bank Account(s) to the General Account, in case of failure or incapacity by the relevant Specially Dedicated Account Bank to comply with its instructions or to make such transfers or otherwise.

For the avoidance of doubt, as neither any insurance premium nor any services fees related to any Purchased Home Loans are being assigned to the Issuer, the Issuer will have no right whatsoever on amounts collected in respect of any such insurance premium or services fees, notwithstanding the fact that any such amounts are being credited to a Specially Dedicated Bank Account.

CUSTODY OF THE DOCUMENTS

Pursuant to the provisions of the Home Loans Purchase and Servicing Agreement and in accordance with the provisions of article L. 214-183, II and D. 214-229, 2° of the French Monetary and Financial Code and regulations with respect to data protection and bank secrecy rules and the terms of the Home Loans Purchase and Servicing Agreement, each Servicer (i) is responsible for the custody of the Contractual Documents relating to the Purchased Home Loans transferred by it to the Issuer and (ii) has established and will maintain appropriate documented custody procedures in addition to an independent internal ongoing control of such procedures.

Pursuant to the provisions of the Home Loans Purchase and Servicing Agreement and in accordance with the provisions of article D. 214-229, 3° of the French Monetary and Financial Code, the Custodian shall ensure, on the basis of a statement (*déclaration*) of each Servicer, that appropriate documented custody procedures have been set up. This statement (*déclaration*) shall enable the Custodian to check if each Servicer has established appropriate documented custody procedures allowing the safekeeping (*garantissant la réalité*) of the Purchased Home Loans transferred by it to the Issuer, their security interest (*sûretés*) and their related ancillary rights (*accessoires*) (including the Ancillary Rights) and that such Purchased Home Loans are collected for the sole benefit of the Issuer. Each Servicer shall keep the relevant Contractual Documents in such a manner that they are materially identified and distinguishable at the regular address of such Servicer and can be delivered to the Custodian on first demand from the Management Company or the Custodian in compliance with the applicable (i) bank secrecy rules and (ii) data protection rules.

INFORMATION

Pursuant to the terms of the Home Loans Purchase and Servicing Agreement, each Servicer has agreed to provide the Transaction Agent with certain information relating to payments received under the Purchased Home Loans sold by such Servicer (in its capacity as Seller) and any other payment (including recovery amounts) received on the Purchased Home Loans during each Monthly Collection Period necessary for the Transaction Agent to be able to prepare the corresponding Master Servicer Report. In that respect, the Servicer will provide the Transaction Agent with its Individual Servicer Report on each Reporting Date. The Transaction Agent shall prepare the Master Servicer Report and will provide the Management Company with such Master Servicer Report on each Information Date.

The Transaction Agent has further agreed to provide the Management Company and/or the Custodian, as applicable, with all information that may reasonably be requested by it in relation to the Purchased Home Loans or that the Management Company or the Custodian, as applicable, may reasonably deem necessary in order to fulfil its obligations, provided that such request aims to ensure that:

- (i) the Transaction Agent complies with its obligations, as defined in the Home Loans Purchase and Servicing Agreement;
- (ii) the interests of the Noteholders and the Residual Unitholders are protected;
- (iii) the Transaction Agent and each Servicer can perform its legal and regulatory task defined by the relevant provisions of any applicable laws and/or regulations; or
- (iv) the Management Company is able to comply with its obligations under Article 7 of the Securitisation Regulation.

The Transaction Agent may request any additional information to any Servicer provided that such request aims to ensure that:

- (i) such Servicer complies with its obligations, as defined in the Home Loans Purchase and Servicing Agreement;
- (ii) the interests of the Noteholders and the Residual Unitholders are protected;
- (iii) such Servicer can perform its legal and regulatory task defined by the relevant provisions of any applicable laws and/or regulations; or
- (iv) the Management Company is able to comply with its obligations under Article 7 of the Securitisation Regulation.

and each relevant Servicer shall then provide such information to the Transaction Agent.

The Transaction Agent shall receive on each Management Reporting Date, one Monthly Management Report for each Seller concerning the preceding Monthly Collection Period that the Management Company shall provide it with.

Each Servicer will promptly notify the occurrence of a Servicer Termination Event to the Transaction Agent, the Management Company and the Custodian upon becoming aware of the same and the Rating Agencies shall promptly be informed by the Management Company of such occurrence.

Before pricing, the Transaction Agent, on behalf of the Sellers, as originators, has made available:

- (i) a liability cash flow model through Bloomberg and/or Moody's Analytics and/or any other relevant modelling platform, which precisely represents the contractual relationship between the Purchased Home Loans and the payments flowing between the Sellers, the Transaction Agent, the Noteholders, other third parties and the Issuer (the **Cash Flow Model**);

- (ii) in relation to exposures substantially similar to the pool of Home Loans to be transferred to the Issuer on the Purchase Date, historical data covering a period of at least five (5) years on static and/or dynamic format including recovery performance, delinquency and default data.

Furthermore, pursuant to the Home Loans Purchase and Servicing Agreement, the Transaction Agent on behalf of the Sellers has undertaken to:

- (i) make available to the Management Company, the relevant information in respect of the Sellers, the Servicers or the Purchased Home Loans, as are necessary for the Management Company to be in a position to comply with its duties under the second paragraph of sub-section “Additional Information and Transparency Requirements” of this Prospectus, it being specified that all information transmitted by the Transaction Agent in accordance with this paragraph (i) shall be accurate and complete in all material respect and shall be provided (a) in relation to the obligations of the Management Company set out under item (2) and (3) of the second paragraph of sub-section “Additional Information and Transparency Requirements”, within one month of each Determination Date preceding a Payment Date or (b) in relation to the obligations of the Management Company set out under item (4), (5) and (6) of the second paragraph of sub-section “Additional Information and Transparency Requirements”, without delay upon becoming aware of them, in each case without prejudice to the French banking secrecy requirements provided for in article L. 511-33 of the French Monetary and Financial Code and the Data Protection Requirements;
- (ii) make available the Cash Flow Model through Bloomberg and/or Moody’s Analytics and/or any other relevant modelling platform, to the relevant Noteholders on an ongoing basis and to potential investors upon request; and
- (iii) more generally, use reasonable commercial endeavours (obligation de moyens) to make available all other information that may reasonably be requested by the Management Company in respect of any request made by Bloomberg and/or Moody’s Analytics and/or any other relevant modelling platform.

REPAYMENT

In relation to any repayment in full of all amounts payable by any Borrower under the relevant Home Loan Agreement:

- (i) at the request of such Borrower (or any agent acting on the Borrower’s behalf), the relevant Servicer will prepare a final account statement in order to allow such Borrower to redeem its Home Loan provided that such statement shall take into account all arrears, penalties, prepayment penalties and charges owed by such Borrower under the relevant Home Loan Agreement; and
- (ii) the relevant Servicer, together with the Management Company, if necessary, shall execute such receipt, discharge or release of any relevant guarantee attached to the Home Loans or securing the payment of such Home Loans and any such other or further agreement, document, instrument or deed of satisfaction regarding the corresponding Home Loan(s) and/or any relevant guarantee attached to the Home Loans or securing the payment of such Home Loans as the relevant Servicer considers to be necessary or advisable.

SUB-CONTRACTS

In accordance with and subject to the provisions of the Home Loans Purchase and Servicing Agreement, any Servicer may appoint any third party in order to carry out all or any administrative part of its obligations under the Home Loans Purchase and Servicing Agreement. However, the Issuer shall have no liability to the appointed third party whatsoever in relation to any cost, claim, charge, damage or expense suffered or incurred by said third party and each Servicer will remain responsible to the Management Company for the administration, the recovery and the collection of the Purchased Home Loans and the Ancillary Rights, being liable for the actions of any such delegate.

COMMINGLING RESERVE

The Commingling Reserve is made available to protect the Issuer against the risk of delay or default of any Servicer in its financial obligations under the Home Loans Purchase and Servicing Agreement to transfer the Available Collections to the Issuer. For the avoidance of doubt, no provision of the Home Loans Purchase and Servicing Agreement shall be interpreted as implying joint or several obligation(s) between any of the Servicers.

Pursuant to the Reserves Cash Deposits Agreement, the Reserves Provider has agreed to be jointly and severally liable (*co-débiteur solidaire*) for the full and timely payment by the Servicers of their payment obligations towards the Issuer under the Home Loans Purchase and Servicing Agreement, within the limit of an amount standing at any time to the credit of the Commingling Reserve Account and undertaken to, if the Management Company determines that the Commingling Reserve needs to be adjusted in order to comply with the Commingling Reserve Required Amount, credit the Commingling Reserve Account:

- (i) within thirty (30) calendar days (in case of a downgrade by Moody's) or within fourteen (14) calendar days (in case of a downgrade by Fitch) following the date on which the Specially Dedicated Account Bank is downgraded below the Account Bank Required Ratings; or
- (ii) thereafter on the Settlement Date following the Calculation Date on which the Management Company makes such determination,

with the necessary amounts in order for the amount standing to the credit of the Commingling Reserve Account to be at least equal to the Commingling Reserve Required Amount applicable on that date, as a guarantee for its financial obligations as joint and several debtor (*co-débiteur solidaire*), pursuant to articles L. 211-36 and L. 211-38 to L. 211-40 of the French Monetary and Financial Code (*remise de sommes d'argent en pleine propriété à titre de garantie*).

The Commingling Reserve Account shall be credited and debited as described in Section "DESCRIPTION OF THE ISSUER ACCOUNTS".

In the event of a breach by any Servicer of its payment obligations towards the Issuer under the Home Loans Purchase and Servicing Agreement, the payment obligations of the Reserves Provider under the Reserves Cash Deposits Agreement in its capacity as joint and several debtor (*co-débiteur solidaire*) for the full and timely payment by the Servicers of their payment obligations towards the Issuer under the Home Loans Purchase and Servicing Agreement shall become immediately due and payable and the Management Company will be entitled to set-off the restitution obligations of the Issuer under the Commingling Reserve against the breached financial obligations of the Reserves Provider, up to the lowest of (a) the unpaid amount of Available Collections arisen during such Quarterly Period which are under the responsibility of such Servicer and which is calculated by the Management Company on the basis of the relevant Master Servicer Reports; and (b) the amount then standing to the credit of the Commingling Reserve Account, in accordance the article L. 211-38 of the French Monetary and Financial Code, and to apply the corresponding funds as part of the Available Distribution Amount in accordance with the Priority of Payments applicable on the immediately following Payment Date, without the need to give prior notice of intention to enforce the Commingling Reserve (*sans mise en demeure préalable*).

Under the Reserve Cash Deposits Agreement, it has been expressly agreed that, as long as the Servicers meet their financial obligations (*obligations financières*) under the Home Loans Purchase and Servicing Agreement (failing which the above provisions shall apply), the Commingling Reserve shall not be included in the Available Distribution Amount nor be applied to cover any payments due in accordance with and subject to the applicable Priority of Payments and that, under no circumstance shall the Commingling Reserve be used to cover any Borrowers' defaults.

On any Payment Date, the Commingling Reserve will be released and reimbursed by the Issuer to the Reserves Provider (outside any Priority of Payments) for an amount equal to the applicable Commingling Reserve Decrease Amount provided that, until the earlier of the date on which all Class A Notes have been redeemed in full and the Issuer Liquidation Date, no Servicer Termination Event referred to in paragraph (g) of the definition of "Servicer Termination Event" has occurred (save if the Management Company has received since then a Master Servicer Report on any Subsequent Information Date) and no Issuer Liquidation Event has occurred.

Any amount standing to the credit of the Commingling Reserve Account on the earlier of (i) the date on which all Class A Notes have been redeemed in full and (ii) the Issuer Liquidation Date, shall be released and retransferred directly to the Reserves Provider in accordance with and subject to the Reserves Cash Deposits Agreement.

COMMERCIAL RENEGOTIATIONS

In accordance with applicable laws and regulations, any Servicer will be responsible for responding to requests from Borrowers for Commercial Renegotiations of the contractual terms of the Home Loan Agreements.

The Issuer has authorised each Servicer to enter into the following amendments in respect of the Purchased Home Loans transferred by it (in its capacity as Seller) to the Issuer, as long as they are done in accordance with and subject to the Servicing Procedures (each a ***Permitted Amendment***):

- (i) any correction of a manifest error;
- (ii) any amendment which is of a formal, minor or technical nature;
- (iii) any cancellation of interest (for the avoidance of doubt, not including any amount of principal nature) and/or fees due by a Borrower under any Performing Home Loan in the context of an amicable recovery process (*recouvrement amiable*) in accordance with the Servicing Procedures for an amount which does not exceed an equivalent of six (6) months of scheduled interest;
- (iv) any cancellation of any prepayment that has been announced by the relevant Borrower in accordance with the provisions of the Home Loan Agreement but cancelled thereafter;
- (v) any increase or decrease of the amount of Home Loan instalments relating to a Performing Home Loan pursuant to the contractual rights of the relevant Borrower provided for under the corresponding Home Loan Agreement, provided that, in case of a decrease, such decrease of the amount of Home Loan instalments does not result in the duration of the relevant Home Loan being increased by more than two (2) years, in case of Home Loans entered into with any Caisse d'Epargne and five (5) years, in case of Home Loans entered into with any Banque Populaire;
- (vi) any spreading or postponement of an instalment over a period of no more than twelve (12) months or in the spreading or postponement of a maximum of twelve (12) Home Loan instalments over the residual maturity of the Home Loan in relation to any Performing Home Loan;
- (vii) any Commercial Renegotiation resulting in any extension of the maturity date of any Performing Home Loan up to thirty-six (36) months from the initial contractual maturity date of the relevant Home Loan (taking into account, any extension of the maturity date of such Performing Home Loan already consented to the Borrower, as the case may be, following the exercise by such Borrower of its contractual rights under the corresponding Home Loan Agreement referred to in paragraphs (v) or (vi) above);
- (viii) any Commercial Renegotiation relating to the interest rate of the relevant Performing Home Loan;
- (ix) any Commercial Renegotiation which leads to the corresponding Purchased Home Loan(s) being prepaid, whether in whole or in part (provided that, for the avoidance of doubt, any corresponding amount shall be treated by relevant Servicer); or
- (x) any Commercial Renegotiation which results in the increase of the Outstanding Principal Balance of the corresponding Purchased Home Loan for an amount equal to the fees due and payable to the relevant Servicer as a result of the Commercial Renegotiation (it being specified that, for the avoidance of doubt, the fact that following a Commercial Renegotiation, the Outstanding Principal Balance of any Home Loan may be increased by an amount equal to the fees due and payable to the relevant Servicer as a result of the Commercial Renegotiation shall not be considered as a possibility to redraw such Home Loan),

provided that:

- (a) in each case:
- the relevant Purchased Home Loans comply with the Home Loan Eligibility Criteria after such Commercial Renegotiation (to the exception of the Home Loan Eligibility Criteria referred to in paragraph (jj) of the definition);
 - the initial repayment type (amortising or linear) and the repayment frequency of the Home Loan would not change after such Commercial Renegotiation;
 - such Commercial Renegotiation would not result in the decrease of the Outstanding Principal Balance of the corresponding Purchased Home Loan otherwise than as a result of an effective payment of principal to the Issuer; and
 - the relevant Servicer has agreed to preserve all the Ancillary Rights referred to in paragraph (a) of the definition of “Ancillary Rights” which secure the payment of the renegotiated Purchased Home Loans.
- (b) in relation to item (viii) above, (A) the variation of the interest rate of the relevant Performing Home Loan is in line with market practices at the time of such Commercial Renegotiation, (B) the relevant Servicer shall not accept a variation of the interest rate which it would not have accepted for its own assets similar to the Purchased Home Loans and (C) in order for the relevant Purchased Home Loan to comply with the Home Loan Eligibility Criteria referred to in paragraph (cc) of the definition after such Commercial Renegotiation, the interest rate after such Commercial Renegotiation remains equal to or greater than one point five per cent (1.5%) *per annum* (excluding insurance premia).

In the event that any Servicer wishes to enter into any Commercial Renegotiation which is not a Permitted Amendment, such Seller shall repurchase the corresponding Purchased Home Loan(s) as set out in the Home Loans Purchase and Servicing Agreement. If such corresponding Purchased Home Loan(s) is (are) not repurchased by such Seller for any reason, such Servicer shall pay to the Issuer, as indemnification for such breach, within two (2) calendar months following the date on which the modification was notified by a party to the other (or within such delay otherwise agreed with the Management Company), an amount equal to the Re-transfer Price that would have been paid by the Seller to the Issuer in respect of such Purchased Home Loan should the repurchase of such Purchased Home Loan been made by the Seller in accordance with section “REPURCHASE OF THE PURCHASED HOME LOANS” above. Once an indemnification has been paid by the Servicer in accordance with the above, any collections received by the Issuer (if any) in relation to the relevant Purchased Home Loans from and including the Determination Date falling before the date of indemnification, will be repaid by the Issuer to the relevant Servicer outside any Priority of Payments and shall not constitute Available Collections.

Pursuant to the provisions of the Home Loans Purchase and Servicing Agreement, no Servicer Termination Event shall arise from a Commercial Renegotiation which is not a Permitted Amendment by a Servicer in relation to a Purchased Home Loan, provided that such Purchased Home Loan has been repurchased or an indemnification for such breach has been paid, by the relevant Servicer, in accordance with the above paragraph.

PRE-LITIGATION PROCESS

In the event that any Borrower fails to pay any amount in relation to a Purchased Home Loan, the relevant Servicer shall comply in all material respects with the Servicing Procedures. In taking any action in relation to any Borrower, no Servicer shall deviate from the Servicing Procedures unless it has obtained prior written instructions from the Management Company and the Custodian setting forth the action to be taken in relation to any such Borrower.

In accordance with the terms and conditions of the Servicing Procedures, any Servicer may declare that a Purchased Home Loan has become a Defaulted Home Loan.

JUDICIAL PROCEEDINGS

If a Purchased Home Loan has become a Defaulted Home Loan, or if a complaint is made to the court pursuant to article 1343-5 of the French Civil Code in relation to any payment made under any Purchased Home Loan, the Borrower is referred to the consumer over-indebtedness committee (*commission de surendettement*) or under any other similar procedure as defined by any regulations in force, or a renegotiation of the Home Loan Agreement is imposed by a competent administrative, regulatory or judicial authority, the relevant Servicer will be entitled to participate in the working out of a contractual plan for the resolution of the dispute and/or make propositions to the relevant Borrower in the context of such contentious renegotiation.

Any Servicer may delegate to any entity or person designated by the Management Company and the Custodian, the compulsory recovery of a Purchased Home Loan, in accordance with the Servicing Procedures and to the extent permitted by law.

In accordance with the Servicing Procedures, any Servicer may write off a Defaulted Home Loan, in respect of which the costs relating to the recovery of such Defaulted Home Loan, the legal proceedings against potential guarantors and the enforcement of potential Ancillary Rights will exceed the expected proceeds (after deduction of any legal costs) resulting from such judicial recovery procedure.

ENFORCEMENT OF THE ANCILLARY RIGHTS

Each Servicer shall proceed to the exercise and, where applicable, the enforcement of the Ancillary Rights corresponding to the Purchased Home Loans transferred by it to the Issuer; in accordance with the provisions of the Servicing Procedures, subject to any applicable legislative or regulatory provisions.

The benefit of the Ancillary Rights shall be transferred by each Seller to the Issuer in accordance with, and subject to, the provisions of the Home Loans Purchase and Servicing Agreement. Accordingly, all the amounts received in respect of the Ancillary Rights (including where such amounts result from the exercise or the compulsory enforcement of such Ancillary Rights) shall be credited by each Servicer to its Specially Dedicated Bank Account and will form part of the Available Collections of the corresponding Collection Period, during which such amounts will be effectively received.

Pursuant to the provisions of the Home Loans Purchase and Servicing Agreement, each Servicer has undertaken to refrain from carrying out any action which may adversely affect the enforcement of any Home Loan Guarantee and to take all necessary steps in order to comply with the conditions of enforcement of any Home Loan Guarantee.

In the event that, following a default of any Borrower which had been granted a Home Loan secured by a Home Loan Guarantee, any Servicer calls the relevant Home Loan Guarantee in accordance with the Servicing Procedures and the relevant Home Loan Guarantor refuses to pay the amount due by such Borrower because the conditions of enforcement of the relevant Home Loan Guarantee have not been complied with for any reason, the relevant Servicer shall indemnify the Issuer up to the amount which the Home Loan Guarantor would have paid to the Servicer had the conditions of enforcement of the relevant Home Loan Guarantee been complied with. For the avoidance of doubt, the Servicer does not guarantee the payment of the relevant amount by the Home Loan Guarantor.

TERMINATION OF THE SERVICING MANDATE

Each Servicer has undertaken not to request the termination of its mandate under the Home Loans Purchase and Servicing Agreement, so that the administration, the recovery and the collection of the Home Loans will be carried out and continued by the same servicers until the Issuer Liquidation Date.

Following the occurrence of an Individual Servicer Termination Event in relation to any Servicer, the Management Company shall:

- (i) immediately send a Notification of Control to the Specially Dedicated Account Bank (with a copy to the Custodian and the relevant Servicer) with the effect of preventing it from implementing any further debit instruction from such Servicer with respect to its Specially Dedicated Bank Account; and
- (ii) within a period of thirty (30) calendar days and with the prior approval of the Custodian (such approval not to be unreasonably withheld or delayed, and provided that, if the Management Company considers, having regards to the interest of the Noteholders and Residual Unitholders, that the Custodian is holding or delaying its consent unreasonably, the Management Company shall be entitled to set aside the opinion of the Custodian), replace such Servicer with any entity fit for that purpose (such replacement servicer being appointed with respect to the Purchased Home Loans whose servicing is the responsibility of such Servicer only), in accordance with article L. 214-172 of the French Monetary and Financial Code, it being provided that any other Servicer in respect of which no Individual Servicer Termination Event and no event which could, through the passage of time or the giving of a notice, become an Individual Servicer Termination Event, has occurred, may be appointed as a replacement servicer.

For the avoidance of doubt, the occurrence of an Individual Servicer Termination Event with respect to a Servicer shall not in itself constitute an Individual Servicer Termination Event with respect to the other Servicers.

Following the occurrence of a Master Servicer Termination Event, the Management Company shall:

- (i) immediately send a Notification of Control to the Specially Dedicated Account Bank (with a copy to the Custodian and each Servicer) with the effect of preventing it from implementing any further debit instruction from all Servicers with respect to their respective Specially Dedicated Bank Accounts; and
- (ii) within a period of thirty (30) calendar days and with the prior approval of the Custodian (such approval not to be unreasonably withheld or delayed, and provided that, if the Management Company considers, having regards to the interest of the Noteholders and Residual Unitholders, that the Custodian is holding or delaying its consent unreasonably, the Management Company shall be entitled to set aside the opinion of the Custodian), replace all Servicers with any entity or entities fit for that purpose, in accordance with article L. 214-172 of the French Monetary and Financial Code.

The entity(ies) appointed pursuant to the two paragraphs (ii) above, whether relating to an Individual Servicer Termination Event or a Master Servicer Termination Event, will be referred to as the “**New Servicer(s)**”. The termination of the appointment of any Servicer will become effective as soon as any New Servicer has effectively started to carry out its duties. It has been further agreed that the Custodian, in its capacity as co-founder of the Issuer, shall (a) assist the Management Company in replacing any Servicer and (b) use its best commercial efforts to replace any existing Servicer.

Upon termination of the appointment of any Servicer(s) (or from the occurrence of a Servicer Termination Event in respect of any Servicer (including, as the case may be, from the occurrence of a Master Servicer Termination Event) if necessary to protect the interest of the Issuer) pursuant to the Home Loans Purchase and Servicing Agreement, and subject to the receipt from the Data Protection Agent of the Decryption Key in accordance with the terms of the Home Loans Purchase and Servicing Agreement, the Management Company shall, as soon as possible upon receipt of such Decryption Key and at the latest within thirty (30) calendar days of such receipt (or shall instruct any substitute servicer or any third party appointed by it, following prior information of the Custodian) to (x) notify the relevant Borrowers, and any relevant insurance company under any Insurance Contract (if known) and or Home Loan Guarantor under any Home Loan Guarantee relating to the relevant Purchased Home Loans, of the assignment of the relevant Home Loans to the Issuer and (y) instruct the relevant Borrowers, insurance company and Home Loan Guarantor, to pay any amount owed by them under the relevant Purchased Home Loans into any account specified by the Management Company (or the relevant third party or substitute servicer) in the notification.

If the appointment of any Servicer is terminated following the occurrence of a Servicer Termination Event, such Servicer shall transfer to any New Servicer appointed by the Management Company all necessary information (including the Contractual Documents under its custody) and registrations, in order to effectively transfer the servicing functions relating to the Purchased Home Loans.

III. TRANSACTION AGENT

Main tasks of the Transaction Agent

Pursuant to the Home Loans Purchase and Servicing Agreement, each Seller and each Servicer will appoint BPCE as its agent (*mandataire*) in relation to the provision of certain services (the “**Transaction Agent**”). The Transaction Agent will in particular:

- (a) assume the general representation of each Seller and each Servicer towards the Issuer, the Management Company and the Custodian;

 - (ii) the Transaction Agent, in the name and on behalf of each Seller and each Servicer, will be entitled to agree to, and execute, without the Transaction Agent obtaining the prior agreement of the Sellers or the Servicers, any amendment, modification, alteration, waiver or supplement to the Transaction Documents and all other related documents necessary for the implementation of the same:

IV. MISCELLANEOUS

GOVERNING LAW

The Home Loans Purchase and Servicing Agreement shall be governed by French law and all claims and disputes arising in connection therewith shall be subject to the exclusive jurisdiction of the competent courts in commercial matters within the jurisdiction the *Cour d'Appel* of Paris.

DESCRIPTION OF THE INTEREST RATE SWAP AGREEMENT

The following description of the Interest Rate Swap Agreement consists of a summary of the principal terms of the Interest Rate Swap Agreement in connection with the Class A Notes. Capitalised terms used but not otherwise defined in the following summary or elsewhere in this Prospectus shall have the meanings given to such terms in the Glossary of Defined Terms Schedule of this Prospectus or in the 2013 FBF Master Agreement.

FBF Master Agreement

On or prior to the Issuer Establishment Date, the Issuer, represented by the Management Company, will enter into an interest rate swap agreement (the "**Interest Rate Swap Agreement**") with Natixis (the "**Interest Rate Swap Counterparty**"), which will be governed by the 2013 *Fédération Bancaire Française* (FBF) master agreement relating to transactions on forward financial instruments (*convention-cadre FBF relative aux opérations sur instruments financiers à terme* or the "**FBF Master Agreement**") as amended by a supplementary schedule and confirmed by one written swap confirmation (the "**Swap Confirmation**").

Purpose of the Interest Rate Swap Agreement

The purpose of the Interest Rate Swap Agreement is to enable the Issuer to hedge in an appropriate manner the risk of a difference between the EURIBOR-based floating rate applicable for the relevant Interest Period (on each relevant Payment Date) with respect to the Class A Notes and the fixed interest rate payments received in respect of the Purchased Home Loans.

The Euro-denominated interest payments that the Interest Rate Swap Counterparty is obliged to pay to the Issuer under the Interest Rate Swap Agreement will be exclusively allocated by the Management Company to the Issuer and applied pursuant to the relevant Priority of Payments.

Swap Notional Amount

In accordance with the Interest Rate Swap Agreement, on the Issue Date, the notional amount under the Interest Rate Swap Agreement will be equal to 100 per cent. of the aggregate of the Initial Principal Amount of the Class A Notes.

On any Payment Date, the Notional Amount shall be equal to the lesser of:

- (i) the aggregate of the Principal Amount Outstanding of the Class A Notes on the immediately preceding Payment Date after giving effect to the applicable Priority of Payments (or the Issue Date in respect of the first Payment Date) as determined by the Management Company; and
- (ii) the aggregate of the Outstanding Principal Balance of the Performing Home Loans on the Determination Date immediately preceding such Payment Date (or in case of the first Payment Date, the Selection Date).

Payments under the Interest Rate Swap Agreement

Pursuant to the Interest Rate Swap Agreement, on each Payment Date, the Interest Rate Swap Counterparty shall pay to the Issuer the swap floating amount (the "**Floating Amount**") and the Issuer shall pay to the Interest Rate Swap Counterparty the swap fixed amount (the "**Fixed Amount**"). On each Payment Date, a set-off shall be made between the Floating Amount and the Fixed Amount so that the relevant party will only pay to the other party the net swap amount (if positive) resulting from such set-off (the "**Interest Rate Swap Net Amount**").

The Interest Rate Swap Counterparty, acting as "Agent" under the Interest Rate Swap Agreement will calculate the Interest Rate Swap Net Amount due and payable on each Payment Date on the basis of the data provided by the Management Company as set out in the definition of Notional Amount.

The Interest Rate Swap Net Amount, when payable by the Issuer, will be paid by the Issuer to the Interest Rate Swap Counterparty on the relevant Payment Date in accordance with the applicable Priority of Payments.

The Floating Amount shall, on any Payment Date in respect of the Interest Period ending on such Payment Date, be an amount equal to the product of (A) the number of days in the relevant Interest Period divided by 360, (B) the greater between: (x) zero and (y) the aggregate of (i) EURIBOR (as defined in the Interest Rate Swap Agreement and determined for such Interest Period ending on such Payment Date in accordance with the Conditions of the Class A Notes) and (ii) the Class A Margin, both for the relevant Interest Period and (C) the relevant Notional Amount of the Interest Rate Swap Transaction.

If the definition, methodology, or formula for EURIBOR, or other means of calculating EURIBOR, is changed, references to EURIBOR in the Interest Rate Swap Agreement shall be to EURIBOR as changed.

The Fixed Amount shall be equal to the product of (i) the Interest Rate Swap Fixed Rate, (ii) the Notional Amount, (iii) the number of days in the relevant Interest Period (for the avoidance of doubt, in the case of the first Payment Date only, starting on the Issue Date) divided by 360, where the "**Interest Rate Swap Fixed Rate**" means the fixed rate determined on or about 24 October 2019 and not greater than 0.60% *per annum*.

Insufficiency of Available Funds

In the event that, on any Payment Date, the Issuer is unable to pay to the Interest Rate Swap Counterparty the Interest Rate Swap Net Amount that is due and payable as the result of an insufficiency of available funds, the amount that is outstanding on such date will give rise to a shortfall of the Interest Rate Swap Net Amount which will be paid to the Interest Rate Swap Counterparty on the next Payment Date. Such shortfall shall not bear interest. The failure by the Issuer to pay the full amount due on such immediately following Payment Date will constitute an "Event of Default" (as defined in the Interest Rate Swap Agreement).

Return of Collateral in Excess

If the Interest Rate Swap Counterparty has posted collateral in excess of the required amount, such excess will be directly returned by the Issuer to the Interest Rate Swap Counterparty outside of the Priority of Payments.

Additional Payments

If the Issuer must at any time deduct or withhold any amount for or on account of any tax from any sum payable by the Issuer under the Interest Rate Swap Agreement, the Issuer shall not be liable to pay to the Interest Rate Swap Counterparty any such additional amount. If the Interest Rate Swap Counterparty must at any time deduct or withhold any amount for or on account of any tax from any sum payable to the Issuer under the Interest Rate Swap Agreement, the Interest Rate Swap Counterparty shall at the same time pay such additional amount as is necessary to ensure that the Issuer to which that sum is due receives a sum equal to the Interest Rate Swap Net Amount it would have received in the absence of any deduction or withholding. In such event, the Interest Rate Swap Counterparty shall be entitled to terminate the Interest Rate Swap Agreement only (i) after the parties have attempted in good faith for a period of thirty (30) days to find a mutually satisfactory solution for avoiding such deduction or withholding and (ii) in order to substitute any authorised interest rate swap counterparty(ies) having at least the Interest Rate Swap Counterparty Required Ratings.

Ratings of the Interest Rate Swap Counterparty by Moody's and Termination of the Interest Rate Swap Agreement

In this section:

The "**Moody's Collateral Trigger Requirements**" will apply to the Interest Rate Swap Agreement and so long as no relevant entity has the Moody's Qualifying Collateral Trigger Ratings.

An entity will have the "**Moody's Qualifying Collateral Trigger Ratings**" if its long-term rating from Moody's is at least "Baa1" or above or long-term counterparty risk assessment from Moody's is at least "Baa1(cr)" or above in accordance with the document entitled "Moody's Approach to Assessing Counterparty Risks in Structured Finance" (the "**Moody's 2017 Criteria**") on 26 July 2017.

So long as the Moody's Collateral Trigger Requirements apply, the Interest Rate Swap Counterparty will, at its own cost, transfer collateral pursuant to the terms of the Collateral Annex (as defined in the Interest Rate Swap Agreement).

The "**Moody's Transfer Trigger Requirements**" will apply so long as no relevant entity has the Moody's Qualifying Transfer Trigger Ratings.

An entity shall have the "**Moody's Qualifying Transfer Trigger Ratings**" if its long-term rating from Moody's is at least "Baa3" or above or long-term counterparty risk assessment from Moody's is at least "Baa3(cr)" or above in accordance with the document entitled "Moody's Approach to Assessing Counterparty Risks in Structured Finance" (the "**Moody's 2017 Criteria**") on 26 July 2017.

So long as the Moody's Transfer Trigger Requirements apply, the Interest Rate Swap Counterparty will also, at its own cost, use commercially reasonable efforts to, as soon as reasonable practicable, procure either, within thirty (30) Business Days:

- a) a Moody's Eligible Guarantee (as defined in the Interest Rate Swap Agreement) in respect of all of its present and future obligations under the Interest Rate Swap Agreement by a guarantor having at least the Moody's Qualifying Transfer Trigger Ratings; or
- b) without prejudice to the Transfer Condition (as defined in the Interest Rate Swap Agreement), a transfer to a Moody's Eligible Replacement (as defined in the Interest Rate Swap Agreement) satisfying the transfer conditions any and all of its rights and obligations with respect to the Interest Rate Swap Agreement.

Termination

A termination by reasons of Change of Circumstances (as defined in the Interest Rate Swap Agreement) under the Interest Rate Swap Agreement entitling the Management Company to terminate (without being obliged to) the Interest Rate Swap Agreement will occur if (A) the Moody's Qualifying Transfer Trigger Requirements apply and thirty (30) or more Business Days have elapsed since the last time the Moody's Qualifying Transfer Trigger Requirements did not apply and (B) at least one Moody's Eligible Replacement has made a Firm Offer (as defined in the Interest Rate Swap Agreement) after that would, assuming the occurrence of an early termination, qualify as a Replacement Value (as defined in the Interest Rate Swap Agreement) and remain capable of becoming legally binding upon acceptance.

A termination by reasons of Event of Default (as defined in the Interest Rate Swap Agreement) under the Interest Rate Swap Agreement entitling the Management Company to terminate (without being obliged to) the Interest Rate Swap Agreement will occur if the Moody's Collateral Trigger Requirements apply and the Interest Rate Swap Counterparty has failed to transfer collateral as required pursuant to the Collateral Annex.

Ratings of the Interest Rate Swap Counterparty by Fitch and Termination of the Interest Rate Swap Agreement

In this sub-section:

"**Fitch Collateral Trigger Event**" means, on any day of determination under the Interest Rate Swap Agreement, that each of the short-term issuer default rating ("**IDR**"), long-term IDR and, if assigned, the derivative counterparty rating ("**DCR**") of the Interest Rate Swap Counterparty or any Fitch Credit Support Provider from time to time in respect of Interest Rate Swap Counterparty cease to be rated at least as high as the corresponding Unsupported Minimum Counterparty Ratings.

"**Fitch Credit Support Provider**" means any guarantor of the obligations of the Interest Rate Swap Counterparty under the Interest Rate Swap Agreement.

"**Fitch Replacement Trigger Event**" means, on any day of determination under the Interest Rate Swap Agreement, that each of the short-term IDR, long-term IDR and, if assigned, the DCR of the Interest Rate Swap Counterparty (or its successor or assignee) or any Fitch Credit Support Provider from time to time in respect of the

Interest Rate Swap Counterparty ceases to be rated at least as high as the corresponding Supported Minimum Counterparty Rating.

"Unsupported Minimum Counterparty Rating" and **"Supported Minimum Counterparty Rating"** shall mean the long-term IDR, the short-term IDR or, if assigned, the DCR (as applicable) from Fitch corresponding to the then current rating of the Class A Notes as set out in the following table:

Current rating of the Class A Notes	Unsupported Minimum Counterparty Rating	Supported Minimum Counterparty Rating
AAAsf	A or F1	BBB- or F3
AA+sf, AAAsf, AA-sf	A- or F1	BBB- or F3
A+sf, Asf, A-sf	BBB or F2	BB+
BBB+sf, BBBsf, BBB-sf	BBB- or F3	BB-
BB+sf, BBsf, BB- sf	At least as high as the Class A Notes rating	B+
B+sf or below	At least as high as the Class A Notes rating	B-

For the purposes of the above table, if the Class A Notes are downgraded by Fitch as a result of the Interest Rate Swap Counterparty's failure to perform any obligation under the Interest Rate Swap Agreement, then the then current rating of the Class A Notes will be deemed to be the rating the Class A Notes would have had but for such failure.

Fitch Trigger Events

Following the occurrence of a Fitch Collateral Trigger Event, the provision of additional collateral or credit support to the Issuer under the Interest Rate Swap Agreement; if at any time the Interest Rate Swap Counterparty is required to provide collateral in respect of any of its obligations under the Interest Rate Swap Agreement following a credit ratings downgrade of the Interest Rate Swap Counterparty, in accordance with the terms of the Interest Rate Swap Agreement, the amount of collateral (if any) that, from time to time, (i) the Interest Rate Swap Counterparty is obliged to transfer to the Issuer or (ii) the Issuer is obliged to return to the Interest Rate Swap Counterparty, shall be calculated in accordance with the terms of the Interest Rate Swap Agreement.

Following the occurrence of a Fitch Replacement Trigger Event, an obligation of the Interest Rate Swap Counterparty to use commercially reasonable efforts for its obligations under the Interest Rate Swap Agreement to be transferred to or guaranteed by an entity with the ratings required pursuant to the Interest Rate Swap Agreement.

Furthermore, a failure of the Interest Rate Swap Counterparty to comply with such requirements within the required time frame will constitute a Change of Circumstances (as defined in the Interest Rate Swap Agreement) with the Interest Rate Swap Counterparty being the sole Affected Party (as defined in the Interest Rate Swap Agreement) and all transactions being Affected Transactions (as defined in the Interest Rate Swap Agreement). Accordingly, in such circumstances, the Management Company will be entitled to terminate the Interest Rate Swap Agreement.

Certain other cases of termination

The Interest Rate Swap Counterparty may terminate the Interest Rate Swap Agreement upon the occurrence of either of the following events (such list not being exhaustive):

- (a) if the Issuer fails to make a payment under the Interest Rate Swap Agreement when due and such failure is not remedied after the notice of such failure being given;

- (b) if any amendment to the Transaction Documents is made without the prior consent of the Interest Rate Swap Counterparty, (i) where such amendment has or could have a material adverse effect on the interests of the Interest Rate Swap Counterparty under the Interest Rate Swap Agreement or under the relevant Transaction Documents or (ii) if any Funds Allocation Rules are amended; or
- (c) if the Class A Notes are to be redeemed early in accordance with Condition 4(f), Condition 4(g) or Condition 4(h).

The Management Company may terminate the Interest Rate Swap Agreement upon the occurrence of either of the following events (such list not being exhaustive):

- (a) the Interest Rate Swap Counterparty fails to make a payment under the Interest Rate Swap Agreement when due and such failure is not remedied after the notice of such failure being given;
- (b) the Interest Rate Swap Counterparty fails to perform any other obligation pursuant to the Interest Rate Swap Agreement and such failure is not remedied after the notice of such failure being given;
- (c) any representation made by the Interest Rate Swap Counterparty under the Interest Rate Swap Agreement proves to have been incorrect in any material respect when made or repeated, or ceases to be correct;
- (d) the Interest Rate Swap Counterparty becomes insolvent; or
- (e) any event capable of resulting in any security interest or guarantee granted in favour of the Issuer in respect of one or more transactions becoming void, unenforceable or ceasing to exist or any failure to comply with, or any breach of, a representation or an obligation under the relevant security interest or guarantee (in each case, after the expiry of the applicable cure period), or certain event mentioned in the Interest Rate Swap Agreement affecting a third party which has guaranteed one or more transactions; or
- (f) if performance of the Interest Rate Swap Agreement becomes illegal.

Collateral Arrangements

The Issuer and the Interest Rate Swap Counterparty have entered into a Collateral Annex (as defined in the Interest Rate Swap Agreement) with respect to the Interest Rate Swap Agreement which forms part of the Interest Rate Swap Agreement, which sets out the terms on which collateral will be provided by the Interest Rate Swap Counterparty to the Issuer in the circumstances described above.

Governing Law and Jurisdiction

The Interest Rate Swap Agreement is governed by and shall be construed in accordance with French law. The parties have agreed to submit any dispute that may arise in connection with the relevant Interest Rate Swap Agreement to the exclusive jurisdiction of the competent courts of the *Cour d'Appel de Paris*.

In accordance with, and subject to, the Data Protection Agreement, on or prior to the Purchase Date, each Seller, or the Transaction Agent on behalf of the Sellers, shall encrypt using the Decryption Key communicated to the Data Protection Agent on or prior to the Issuer Establishment Date the personal data related to the Borrowers and provide it through an electronic transfer in encrypted form (the ***Encrypted Data File***) directly to the Management Company and on each Information Date, the Transaction Agent, on behalf of each Servicer, shall send through an electronic transfer an up-to-date Encrypted Data File to the Management Company together with the Master Servicer Report. For such purposes, each Servicer shall update any relevant information with respect to each Purchased Home Loan on a monthly basis to the extent that any such Purchased Home Loan remains outstanding on such date. For the avoidance of doubt, each Servicer, or the Transaction Agent on behalf of the Servicers, shall use latest available up-to-date personal data related to the Borrowers, taking into account any request received from a Borrower to exercise its data subject rights, including its right of rectification, its right to erasure or its right to restriction in relation to the personal data.

Such Encrypted Data File shall consist in an electronically readable data tape containing encrypted information such as, *inter alia*, the names and addresses of the Borrowers in respect of, (i) as at the Purchase Date, each Borrower for each Home Loan identified in the Home Loans Purchase Offer and, (ii) in relation to any Information Date, each Borrower of an outstanding Purchased Home Loan as at such date.

In the event that the Management Company has not received any Encrypted Data File within three (3) Business Days following any Information Date, it shall notify the Transaction Agent and the Custodian of such failure.

DELIVERY AND UPDATE OF THE DECRYPTION KEY

The Data Protection Agent shall hold the Decryption Key (and any new Decryption Key, as the case may be, generated by any Servicer or the Transaction Agent on its behalf) in safe custody and protect it against unauthorised access by any third parties until the Management Company requires the delivery of the Decryption Key and it shall not use the Decryption Key for its own purposes. The Management Company may request the Decryption Key to the Data Protection Agent and use (or permit the use of) the personal data contained in the Encrypted Data Files relating to the Borrowers only in the following circumstances:

- (a) upon the occurrence of a Servicer Termination Event in respect of a Servicer provided that where the Servicer Termination Event is an Individual Servicer Termination Event, the Decryption Key shall only be used to decrypt the data provided by that Servicer; or
- (b) the Management Company reasonably considers it needs to have access to such personal data in order to protect the interest of the Noteholders and Residual Unitholders or the Issuer

Following the delivery by the Data Protection Agent to the Management Company of the Decryption Key upon request from the Management Company pursuant to paragraphs (a) and (b) above, the Transaction Agent, acting in the name and on behalf of each Servicer (other than the Servicer(s) in respect of which a Servicer

Termination Event has occurred (the “**Defaulting Servicer**”)), shall (i) generate a new Decryption Key, so that such new Decryption Key is used to encrypt information for the purpose of any Encrypted Data File in accordance with sub-section “Encrypted Data Files” above and (ii) provide such new Decryption Key to the Data Protection Agent on the Information Date following the occurrence of such Servicer Termination Event.

DATA PROTECTION AGENT TERMINATION EVENTS

Each of the following events shall constitute a “**Data Protection Agent Termination Event**”:

- (a) any material representation or warranty made by the Data Protection Agent is or proves to have been incorrect or misleading in any material respect when made, and the same is not remedied (if capable of remedy) within thirty (30) Business Days after the Management Company (with copy to the Custodian) has given notice thereof to the Data Protection Agent or (if sooner) the Data Protection Agent has knowledge of the same;
- (b) the Data Protection Agent fails to comply with any of its material obligations under the Data Protection Agreement unless such breach is capable of remedy and is remedied within thirty (30) Business Days after the Management Company (with copy to the Custodian) has given notice thereof to the Data Protection Agent or (if sooner) the Data Protection Agent has knowledge of the same;
- (c) an Insolvency Event occurs in respect of the Data Protection Agent; or
- (d) at any time it is or becomes unlawful for the Data Protection Agent to perform or comply with any or all of its material obligations under the Data Protection Agreement or any or all of its material obligations under the Data Protection Agreement are not, or cease to be, legal, valid and binding and no appropriate solutions are found within ten (10) calendar days between the parties to the Data Protection Agreement to remedy such illegality, invalidity or unenforceability.

GOVERNING LAW

The Data Protection Agreement shall be governed by French law and all claims and disputes arising in connection therewith shall be subject to the exclusive jurisdiction of the competent courts in commercial matters within the jurisdiction the *Cour d'Appel* of Paris.

SPECIALLY DEDICATED ACCOUNT BANK AGREEMENT

GENERAL

In accordance with articles L. 214-173 and D. 214-228 of the French Monetary and Financial Code, each Servicer has entered into with the Management Company, the Custodian and the Specially Dedicated Account Bank a separate Specially Dedicated Account Bank Agreement (*Convention de Compte Spécialement Affecté*) pursuant to which at least one account of such Servicer shall be identified in order to be operated as a Specially Dedicated Bank Account (*compte spécialement affecté*).

OPERATION UNTIL NOTIFICATION BY THE MANAGEMENT COMPANY

Credit

The Specially Dedicated Bank Account(s) shall be credited in accordance with and subject to the provisions of the Home Loans Purchase and Servicing Agreement.

Debit

Without prejudice to the rights of the Issuer under the Specially Dedicated Account Bank Agreements, until the Management Company sends a Notification of Control to the Specially Dedicated Account Bank of the contrary, the Servicers will be granted the right to operate their respective Specially Dedicated Bank Account(s) in giving any instructions of wire transfers from its Specially Dedicated Bank Account(s), but only for the purpose of:

- (a) transferring to the General Account, on each Settlement Date, any amount of Available Collections standing to the credit of such Specially Dedicated Bank Account(s) as of such date; and
- (b) transferring to any other bank account of the relevant Servicer, any sum standing to the credit of any Specially Dedicated Bank Account but which are not sums owed to the Issuer (such as insurance premia), as soon as possible after having given evidence to the Management Company that such amounts are not owed to the Issuer.

At any time if it deems it is in the interest of the Noteholders and of the Residual Unitholders, the Management Company shall be entitled to serve without delay to the Specially Dedicated Account Bank either (i) a Notification of Control including an instruction from the Management Company to the Specially Dedicated Account Bank to transfer without delay the amounts standing to the credit of any Specially Dedicated Bank Account to any relevant Issuer Account, or (ii) a Notification of Release, substantially in the form set out in the relevant Specially Dedicated Bank Account Agreement.

In accordance with the provisions of the Specially Dedicated Account Bank Agreements, as from the receipt by the Specially Dedicated Account Bank of a Notification of Control given by the Management Company, the Specially Dedicated Account Bank shall cease to comply with the debit instructions of any Servicer and comply with the sole debit instructions given by the Management Company (or of any persons designated by it). Therefore, any debit instruction which could be given by the Servicer or by any other person designated by the Servicer following the receipt of such Notification of Control shall be deemed null and void. Furthermore, the Specially Dedicated Account Bank has undertaken *vis-à-vis* the Issuer to refuse to conform with such debit instruction given by the Servicer (including, as the case may be, any debit instruction given by the Servicer prior to the date on which such Notification of Control has been received but not yet implemented, except where such debit instruction consists in a transfer order to the General Account) or by any other person designated by the Servicer, as from the date of receipt of such Notification of Control.

REMUNERATION OF THE CASH STANDING TO THE CREDIT OF THE SPECIALLY DEDICATED BANK ACCOUNTS

The cash standing to the credit of the Specially Dedicated Bank Accounts will be remunerated at a rate as set out in the general terms and conditions of the Specially Dedicated Account Bank, save if otherwise agreed separately between the Management Company and the Specially Dedicated Account Bank, provided that if the rate so obtained is less than zero, the remuneration will be deemed equal to zero.

CHANGE OF SPECIALLY DEDICATED ACCOUNT BANK

If the Specially Dedicated Account Bank ceases to have the Account Bank Required Ratings or an Insolvency Event occurs in respect of the Specially Dedicated Account Bank, each Servicer shall terminate its Specially Dedicated Account Bank Agreement and appoint, with the prior approval of the Management Company (such approval not to be unreasonably withheld or delayed) a new specially dedicated account bank within thirty (30) calendar days and close its Specially Dedicated Bank Account(s), provided that the conditions precedent set out therein are satisfied (and in particular but without limitation that new specially dedicated bank accounts have been opened with a new specially dedicated account bank with the Account Bank Required Ratings) unless (if the Specially Dedicated Account Bank ceases to have the Account Bank Required Ratings only) the Reserves Provider has increased within thirty (30) calendar days after the downgrade of the ratings of the Specially Dedicated Account Bank below the Account Bank Required Ratings (in case of a downgrade by Moody's) or within fourteen (14) calendar days after such downgrade (in case of a downgrade by Fitch), the Commingling Reserve up to the applicable Commingling Reserve Required Amount.

Either the Specially Dedicated Account Bank or any Servicer (on giving one-month prior notice) may terminate a Specially Dedicated Account Bank Agreement, provided that the conditions precedent set out therein are satisfied (and in particular but without limitation that a new specially dedicated bank account has been opened with a new specially dedicated account bank with the Account Bank Required Ratings).

GOVERNING LAW

Each Specially Dedicated Account Bank Agreement shall be governed by French law and all claims and disputes arising in connection therewith shall be subject to the exclusive jurisdiction of the competent courts in commercial matters within the jurisdiction the *Cour d'Appel* of Paris.

The Sellers have been appointed by the Management Company as servicers (the Servicers) under the terms of the Home Loans Purchase and Servicing Agreement.

The Banque Populaire banks, created by and for entrepreneurs themselves 140 year, form today the 4th largest banking network in France and the Caisse d'Epargne, founded in 1818, constitutes today the 2nd largest banking network in France. Both networks have a leading position in the French retail market and a long experience in the origination and the servicing of home loans receivables in France.

In their capacity of Servicer, the banks will continue to carry out the administration, the servicing, the recovery and the collection of the Home Loans and the corresponding Ancillary Rights transferred to the Issuer in accordance with its customary and usual Servicing Procedures and the terms and conditions set out in the Home Loans Purchase and Servicing Agreement.

As French licensed credit institution, the banks of the two networks are subject to prudential, capital and liquidity regulation and supervision in France. They have each of them expertise in servicing Home Loans subject to well-documented and adequate policies, procedures and risk-management controls relating to the servicing of the Home Loans.

The underwriting policies and servicing procedures outlined in this section apply to all Home Loans originated and serviced by the banks of the Banques Populaires and the Caisses d'Epargne. These guidelines and procedures are reviewed annually and updated accordingly if they need changes (subject to the internal prior approvals that are required), being specified that if a change of the servicing procedures is made applicable also to the portfolio of Purchased Home Loans and the comparable segment of the Home Loans accounts owned and serviced by the Seller.

ORIGINATION AND UNDERWRITING PROCEDURES (CREDIT GUIDELINES)

Decentralised decision-making structure

The origination, underwriting and the servicing of the Home Loans is performed by BPCE Group's retails banks organised on a regional basis around the Banques Populaires and the Caisses d'Epargne. Each Banque Populaire and Caisse d'Epargne has to comply with (i) the credit policy guidelines defined by the applicable national network and (ii) with BPCE Group's credit risk policy.

Banques Populaires as well as Caisses d'Epargne distribute home loans with the aim to establish a sustainable relationship with profitable customers. Home loan is considered as a tool in order to develop cross-selling opportunities. Both networks have an excellent franchise in the French retail banking market and operate through a well-developed branch network.

Main drivers of the French residential home loans are:

- the predominance of fixed rate and of monthly amortisation (including interest and principal amount) leading to a constant instalment till maturity of the loan;
- the vast majority of loans are secured either by a mortgage or a guarantee (the latter in a growing proportion); and
- French lending policies are based on the Borrower's capability to repay rather than on the property value.

Banques Populaires and Caisses d'Epargne grant home loans through their branch networks. Under BPCE Group policy, personal interview is a mandatory prerequisite in the underwriting process.

According to the banking regulations, to healthy practices of management and to the standards of BPCE Group, the control system of every bank lies on three levels of control: two levels of permanent control and one level of periodic control.

Control lines are developed at banks level and led by BPCE divisions:

- BPCE Group Risk, Compliance and Permanent Control Division (DRCCP);
- BPCE Group General Inspection Division in charge of periodic control.

IT facilities

DRCCP has developed and maintains the BPCE Group scoring system providing a Basel II notation from 1 to 10, the lower score the higher credit quality.

Banques Populaires and Caisses d'Epargne use network dedicated systems depending on the time life of the loan:

- Underwriting: VCI for Banques Populaires and NEO for Caisses d'Epargne.
- Servicing: Evolan Loans (Sopra) for Banques Populaires and SYNCHRO (internal software) for Caisses d'Epargne.
- Litigation: Collection (Sopra) for Banques Populaires and VARIO (internal software) for Caisses d'Epargne.

Each network uses the same IT platform (iBP or ITCE). A data warehouse hosted by iBP allows BPCE to manage loans granted by Banques Populaires and Caisses d'Epargne as collateral at a centralised level.

Underwriting Policies

The home loan general lending criteria of BPCE Group primarily focus on the appreciation of the Borrower's debt repayment capacity through the combined analysis of certain key indicators listed below.

In most cases and in accordance with the general practice in the French residential loan market, Banques Populaires and Caisses d'Epargne consider the purchase price as the property value of the property, after a check of purchase price consistency with prices for comparable property. Also, in certain circumstances, an appraisal of the market value of a property may be required. But, in any case, no home loan is granted considering the sole (or even predominant) appraisal of the property.

Underwriting is based upon supporting documentation provided by prospective borrowers which is subsequently fully verified by the Banques Populaires and Caisses d'Epargne. Prior to a loan offer being made, all home loan applications are fully underwritten to make sure that they comply with BPCE's prescribed lending criteria.

In line with the EBA's guidelines, underwriting practices defined by BPCE Group provide for both financial and behavioural factors to be taken into account, such as:

- Loan amount / total credit exposures in order to prevent any excessive indebtedness of the borrowers (in particular in case of multiple loans);
- Down-payment rate: when the personal contribution of the customers does not cover at least all upfront costs (real estate agents' fees, acquisition cost, security costs, notary commission...), the underwriting will be subject to a strict credit approval delegation scheme and/or a tailored monitoring system;
- Household budget computation / debt-to-income ratio (before and after the financing/refinancing): a borrower with a DTI ratio higher than 33% must be carefully analysed in relation to the disposal income and down-payment rate. The time since the customer has been working at his/her current company is an important criterion of the risk's assessment. The delegation system must address this point;
- Total disposable income / available income per family member (*quotient familial*): each institution must set a minimum level of income freely available to a borrower after deducting credit commitments and basic living expenses, and after taking into account certain specificities (such as marital status or number of dependent children) taking into consideration regional specificities and the borrower's socio-economic group. Contractual term loan: a home loan application with a maturity exceeding 25 years shall be analysed by an underwriter with a higher level of authority (i.e. the branch manager or his line management at a minimum if the branch manager is himself the customer advisor in the loan application);
- Quality of the security package: each security interest (Mortgage on the property, Home Loan Guarantee or other) shall at least cover 100% of the initial principal balance of the home loan as well as any unpaid interests (3 up to 9 months). The use of a Home Loan Guarantee (CEGC or Parnasse Garanties (for Banques Populaires

only)) is usually preferred over a Mortgage by borrowers (generally well-known customers and with a low risk profile) owing to the lower cost. A dedicated underwriting process is run by the Home Loan Guarantor. A loan application refused by CEGC or Parnasse Garanties cannot be secured by a Mortgage without the approval of the higher delegation level (being specified that the delegation grid is more restrictive for residential mortgage loan).

Traditionally, the bank's decision whether to underwrite or not a home loan is made by the local branch and in certain cases, by the relevant regional's credit centre (depending on the level of authority of the underwriters).

All home loan underwriting decisions, whether completed at branch level or in the regional credit centres, are subject to internal monitoring by the bank in order to ensure the bank's procedures and policies regarding underwriting rules are being followed.

All new customers solicited by partnered brokers or other independent intermediaries are directed to a local branch salesperson for a discussion about the loan and a review of their loan application.

Such intermediation activities are ruled by BPCE Group guidelines stating a formal process of "*prescripteurs*" agreement under local Risk Department and Compliance Department as well as a senior manager authority.

Intermediaries are rated upon financial data, historical relationship and fees. As described above, referred customers are processed as usual customers, but are specifically monitored. Under BPCE Group's credit risk policy, local Risk Committee must report on residential loan prescription at least on an annual basis.

Pre-Acceptance Control

Prior to the acceptance of a home loan, information on the client is systematically collected from:

- (i) the National Database on Household Credit repayment Incidents (*Fichier des Incidents de Remboursements des Crédits aux Particuliers*) held by the *Banque de France*, where payment incidents are recorded on all types of non-professional loans to individuals, including unauthorised overdrafts, over-indebtedness (*surendettement*); and
- (ii) the Central Cheque Register (*Fichier Central des Chèques*) held by the *Banque de France*, the central record of (i) payment incidents involving bad cheques, (ii) bans on writing cheques imposed by banks to account holders having caused these incidents, and (iii) bans on writing cheques ordered by court; and
- (iii) the national Companies Banking Register (*Fichier Bancaire des Entreprises*) database (*FIBEN*) held by the *Banque de France* which records information pertaining to corporations and other types of businesses, including self-employed individuals, such as (i) information on bill payment incidents and risks reported by credit institutions, (ii) legal information pertaining to judgements handed down by a commercial or a civil court ruling over a commercial case, (iii) existence of legal proceedings and (iv) manager ratings (*Banque de France* awards a rating expressed as a figure to individuals exercising a management function).

If, as a result of the above searches, the client is found to be registered as a defaulting applicant, the mortgage underwriting scorecard of such client is immediately downgraded and the loan application is processed following the delegation scheme.

The relevant client relationship manager shall collect the necessary information from the general information system within the *bank*, and is responsible for the completion of the loan file and collection of all relevant documents (including, *inter alia*, salary slips, tax statements, bank statements and audited financial statements for self-employed applicants). Debts and income are verified against certain documents as set out in the bank procedures. The client relationship manager also checks whether the property price is coherent with the current market conditions and the project (an appraisal may be asked).

After the applicant has been interviewed by the local branch, the most suitable loan is proposed. All material data on the loan application is thereafter checked and kept in the Borrower's file.

CEGC

The Compagnie Européenne de Garanties et Cautions (CEGC), rated A+ (stable) by S&P, active in the French guarantee market since 1971, is the second largest player in France. CEGC is a subsidiary of BPCE. CEGC offers

guarantee services in several fields of economic activity (including without limitation guarantee of residential home loans, consumer loans, commercial loans and financing of social housing project).

If a Home Loan Guarantee is requested from CEGC, the pre-acceptance process also includes a second full underwriting and acceptance process to be undertaken by CEGC (in addition with the one performed by the bank).

This second underwriting process is relying on an independent analysis of the Borrower's file, carried out internally by CEGC, on the basis of:

- (i) an analysis of solvency of the Borrower according to pre-determined criteria and business rules defined by CEGC (including the scoring of the application) where the main variables of the analysis led by CEGC of the repayment ability of the Borrower include: saving rate, loan-to-income, loan-to-value, debt-to-income ratio, loan purpose and profession of the borrower. Analysis of the banking behavior of the Borrower alongside with internal scoring note are also a key element of the decision.
- (ii) a strict credit approval delegation authority: CEGC has established 4 level decision making scheme in function of the loan size and the potential risk, including, in ascending order of delegation: Analysts, Senior Analysts, Managers and Committees.

The guarantee premiums are paid upfront by the relevant Borrower and the contribution is proportional to the amount of his/her Home Loan.

PARNASSE GARANTIES

Parnasse Garanties (rated A+ (stable) by S&P) which launched its activity in 2014, have been created by CASDEN (part of BPCE Group) and MGEN (owned by Groupe Vyv) which are possessing respectively 80% and 20%.

The guarantee proposed by Parnasse Garanties is restricted to civil servant borrowers and to persons with an equivalent status.

PARNASSE GARANTIES has delegated the analysis of the solvency of the Borrower to the lender under very strict conditions. application analysis and granting process are directly computed through BPs underwriting system. If the customer's solvency is considered as questionable or above certain limits, the guarantee will be automatically refused. For the standard files, system computes an automatic response whether acceptation or refusal of the file or the necessity of expert's analysis (and if so, this analysis will be led by PARNASSE GARANTIES).

Since a borrower applies for a Home Loan financing from the Banques Populaires' network, the borrower's file automatically passes into CASDEN scoring system directly implemented in the underwriting system of the Banque Populaire. If the computed CASDEN score is not sufficient (red light), the file is rejected by CASDEN. In the case the file is compliant with the CASDEN scoring requirements (green light or orange light), the application file will then simultaneously into PARNASSE GARANTIES scoring system. If the borrower's files chosen by the tool are thus simultaneously compliant with both CASDEN and Parnasse Garanties minimum score and, the home loan will benefit from Parnasse garanties and the client relationship manager will propose the guarantee offer to be signed by the Borrower.

Parnasse Garanties has set up the scoring system integrated in the financing tool of Banques Populaires. For the standard files, system computes an automatic response whether acceptation or refusal of the file or the necessity of expert's analysis.

The guarantee premiums are supported by the Banques Populaires.

Only Banques Populaires' network distributes such guarantee within the BPCE Group.

Decision Process

The decision process is based on a non-automated analysis of the loan application by the client relationship manager and the approval by an authorised person as required by the authorisation system. Each client relationship manager is assigned an approval limit based, inter alia, upon its seniority, the internal credit rating of the applicant (via a scoring program developed by DRCCP, principally based on behaviour, which automatically assigns a credit rating from 1 to 10 - the lower score the higher credit quality - to a Borrower), the debt-to-income ratio of the applicant and the available income per family member (*quotient familial*).

In the event the approval limit criteria are not satisfied (such as debt-to-income ratio being above the level required, or the internal credit rating being higher than the level required), or the amount of the loan is higher than the approval limit, the decision shall be taken by a higher authority than the client relationship manager. Any decision is taken in light of objective criteria (such as, *inter alia*, type of employment, age and life insurance, debt-to-income ratio, assets and revenue of the client).

The delegation grid is implemented on a national basis within Banques Populaires' and Caisses d'Epargne's networks and is locally customised. The use of this delegation scheme is periodically reviewed by DRCCP.

Each client relationship manager must undertake a training programme conducted by each regional bank to gain or reinforce the authority to approve home loans. Each Banque Populaire and Caisse d'Epargne has established various levels of authority for its underwriters who approve home loan applications.

Once the IT file is completed, the underwriting system provides the client relationship manager with the information about the level of authority needed in order to get a final decision (Credit Committee, head of credit, branch manager or the client relationship manager).

Pre-Funding Controls

Once accepted, the home loan request file is transmitted to the central loan department of the relevant Banque Populaire or Caisse d'Epargne, which is responsible for the second level verification and disbursement of the home loans.

The central loan department staff verifies that (i) all the documents necessary for the funding of the home loan have been provided, (ii) the home loan complies with applicable laws and (iii) information provided in respect of the client or property is consistent. In the event that any documents are missing or are not legally compliant, the home loan funding process is put on hold.

During this stage, the persons in charge at such department are responsible for liaising with all relevant third parties (including, *inter alia*, any CEGC, any Parnasse Garanties (for Banques Populaires) and the relevant notary public).

The home loan offer and home loan documentation may only be issued to the client once (i) all the documents required from the borrower have been obtained, (ii) the decision for underwriting the home loan has been approved and (iii) all controls have been completed.

Upon receipt by the bank of an offer accepted by a client, such department checks the validity of the acceptance and proceeds with the funding of the home loan.

Fraud detection

In order to mitigate the risk of fraud, various procedures and anti-fraud policies have been developed by the bank's Risk and Compliance Departments for the BPCE's Group covering (i) staff training in order to explain potential risk, (ii) operational support to the bank / networks and (iii) the implementation of specific control tools to identify and prevent fraudulent loan application.

Anti-money laundering controls also contribute to fraud detection.

SERVICING PROCEDURES

Servicing

Once originated, and fully disbursed, each of Banques Populaires and Caisses d'Epargne is responsible for the administration and servicing of their respective home loans portfolios as well as the monitoring of the credit quality of the Home Loans. As French licensed credit institutions, the Servicers are subject to prudential, capital and liquidity regulation and supervision in France. They have each of them expertise in servicing Home Loans subject to well-documented and adequate policies, procedures and risk-management controls relating to the servicing of the Home Loans.

For example, branches are in charge of

- ensuring the conditions are in place for the correct payment of amounts due by the Borrowers (such as the setting-up direct debits, modifying the instalment due date...)
- the administration of the Home Loans (dealing with the voluntary prepayment instructions, all customer correspondence related to the Home Loans, issuing redemption statements upon request of the Borrowers, ...) and
- credit risk monitoring and working out the delinquent payments incurred on home loans as they manage the day-to-day risks and the commercial relationship.

Recovery process is based on (i) an accurate analysis of the debtor situation, (ii) a clear identification of the Borrower's problem, (iii) a sustained communication with the debtor, (iv) the risk reassessment, (v) remediation proposals, (vi) commitment follow-up, (vii) recovery customised actions with regards to the Borrower's behaviour.

Recovery processes are documented and the recovery performances are closely monitored.

Each client relationship managers (and the relevant centralised collection department of the bank, when involved) will follow the servicing policies defined by each network, and themselves based on the BPCE Group's servicing guidelines, which defines a minimum framework applicable to any entities of the BPCE Group and permit discretion to be exercised by the appropriate client relationship manager in certain circumstances.

The recovery process of delinquent borrowers (i.e. borrowers who are in arrears on their Home Loan or any other credit product) is divided into a number of phases. Amicable recovery is favoured within an escalating recovery actions process which is described in the first two steps described below.

Step 1 – Commercial / Amicable collection at branch level

As first point of contact, the client relationship managers at branch's level are at the heart of the administration and the servicing process for the first unpaid instalments. They remain generally responsible for dealing with overdue amounts during the first months (between 30 and 45 days depending on the Banque Populaire or Caisse d'Epargne's policy). This period of time may be shortened for sensitive files (for example in case of fraud or any situation involving specific difficulties or recidivist borrowers) or extended in the case of very small amounts being involved, or when borrowers are in arrears for the first time.

After an analysis of direct debit rejection and the customer bank account position, the client relationship manager will activate the new direct debit instruction (if possible) and/or contact the Borrowers/Joint Borrowers (calls or one-to-one approach when appropriate) with a view to find a solution and to get a commitment to pay. The actions to be undertaken by the client relationship management will be different depending on the group category of the Borrowers determined by the arrears management system (whether they are in arrears for the first time or whether they are recidivist).

Each client relationship manager is connected to an efficient arrear servicing management system of its relevant network allowing to:

- first, detect incidents and inform him of the technical reasons of the missed payments;
- then, send automatic notifications to the borrower (phone calls, mails, alerts on the home banking platform and/or SMS) to inform or remind the missing instalment and to ask the borrower a quick regularisation of its situation;
- activate automatic direct debit instructions to debit when possible the borrower bank account;
- inform the relevant Home Loan Guarantor (if any) of the situation of the Borrowers
- send to the Borrowers, if the situation is not solved, a formal collection letter (including a warning on a possible negative FICP registration and/or a notice of the potential transfer of the borrower's file to the litigation team). The tone of the letter is adjusted to reflect whether the Borrower is in arrears for the first-time or a recidivist

In any case, the late payment penalties apply when any payment is 1 day past its due date.

During this phase, solutions are sought on a purely commercial basis, especially for Borrowers who are in arrears for the first time. Depending on the conclusions of its investigations on the missed payments and the categorisation of the Borrower by the arrear management system, the client relation manager will push for a quick regularisation of the situation (for example, if the clients have some available savings), change the instalment due date (if necessary) and/or may agree in certain cases some commercial arrangements with the customers, in line with BPCE Group's guidelines, such as:

- a repayment plan for the regularisation of the arrears, through for example a spreading of the unpaid instalments or the payment in full at an agreed date; or
- payment postponement of one or several monthly scheduled instalments;

The client relationship manager will record any actions taken in the underwriting system, inform the relevant Home Loan Guarantor and will ensure a follow-up of borrowers' commitments. If a commercial arrangement is put in place, a letter is automatically sent to the borrowers confirming the term of the arrangements.

During this phase, depending on the severity of his financial difficulties, the client relationship manager may refer the borrowers to the department specialised of the management of vulnerable customers in order to help the borrowers to rearrange his financial situation in order to enable the Borrower to regularise its situation or to find appropriate solutions (declaration of over indebtedness to the relevant commission.).

If the situation is not remedied within a period between 30 and 45 days after the first missed payment (depending on the servicing procedures of each regional bank and/or circumstances of the borrower) or the Borrower does not honour the previously made commercial arrangement, one of the two actions below is triggered (depending on the loan size, repayment capacity and willingness to pay of the Borrower):

- (i) either an escalation process will take place: the relationship with the customer is therefore handed over to a collection officer in the central dedicated recovery team in the relevant regional bank ("*Unité de Recouvrement Amiable*") (usually under the authority of the credit department).(that corresponding to Step 2 below); or
- (ii) the loan is accelerated with a transfer to the litigation department (usually linked to the legal department) (that corresponding to step 3 below).

During the first month, more than two-third of delinquencies are recovered.

Step 2 - Amicable collection by centralised collection department

The goal is to reinstate the borrower as a performing customer of the branch.

During this phase, the customer file will be transferred to a dedicated collection officer in the centralised collection unit of the Banque Populaire or Caisse d'Epargne who will:

- (i) consult the electronic file of the Borrowers in order to know which measure the client relationship manager has already taken;
- (ii) analyse the Borrower's current situation, and enquire about the causes of non-payment (temporary financial difficulties, structural difficulties...) and establish if there has been a change in financial circumstances and whether the arrangement can be amended;
- (iii) reassess the repayment capacity of the Borrower;
- (iv) re-inform the Borrowers of the consequences of non-payments;
- (v) check the property price and the security package; and
- (vi) find the most appropriate solution at long term.

In certain special circumstances (e.g. unemployment, inability to work, divorce and/or death, double housing expenses, fraud cases), the Borrower is allocated to this specialised team before the end of [30 – 45] days, because this team possesses the expertise, knowledge and ability to act in the best possible and to reduce the arrears or the potential losses.

As from this phase, the local branch loses all decision authority. Negotiations and communication with the customer are adapted according to the collection's duration and customer's reactions. The collection officer will perform a thorough analysis of the Borrower's situation and re-assess the repayment capacity of the Borrower.

- If the conclusion of its analysis is positive, the collection officer might conclude a tailor-made payment arrangement with the purpose of such agreement to obtain repayment of the all overdue amounts and prevent potential future difficulties.

Forbearance measures include and may combine:

- similar measure to those listed for the commercial phase
- debt restructuring consisting in a reduction of the instalment amount and an extension of the loan maturity (with in certain cases a lowering of the applicable interest rate)
- moratorium consisting in payment suspension for a certain duration and the rescheduling of instalments
- clearance plan consisting to incorporating all unpaid instalments into the instalment plan.

Also, the collection officer may seek a consensual sale of the property if the preservation of the ownership by the borrower is no longer feasible.

Borrower will return to performing status under branch management, only after a probationary period that can last from 3 months up to 15 months).

- If the conclusion of this analysis is negative, the amicable recovery phase will switch into a pre-litigation phase where the collection officer will prepare all necessary information and actions in order to:
- initiate the legal proceedings;
- provide the Borrower with a written update of all arrears information;
- inform the Home Loan Guarantor of the updated situation of the Borrower; and
- register the Borrower in the Banque de France's FICP database.

Step 3 - Litigation

When a Home Loan has at least three unpaid monthly instalments and after the out of court phase has been proven unsuccessful (for example, if the Borrower's personal situation appears too difficult for an amicable agreement to be reached or if the Borrower breaches its commitment after having negotiated a plan), the process will escalate one step further and the management of the loan will be transferred to the central litigation of the relevant bank ("*Unité de Recouvrement Contentieux*"), generally under the bank legal department authority. The loan is then accelerated and all amounts are immediately declared due and payable in full ("*déchéance du terme*"). That will engage the recovery of the full home loan amount and the enforcement of the ancillary rights. Loan files subject to litigation are managed according to the cooperativeness and situation of a borrower and also with regard to the nature of the processes required to be undertaken.

There are various remedies that each bank can undertake (depending on the cooperativeness, the situation of the Borrowers and the nature of the processes required to be completed) including:

- a consensual amicable sale of the property;
- exercise of the benefit of the Home Loan Guarantee (Parnasse Garanties or CEGC, as the case may be); or
- as a last recourse recovery procedure, foreclosure of the secured property in its capacity as mortgage (an independent expert is mandated for property valuation appraisal, which will be used as a reference to set the auction price).

The enforcement of the loan may be postponed if the Bank received convinced evidences that a regularisation of the arrears is possible in a short-term (signing of a selling mandate, legacies and bequests in process...),

The litigation team of the relevant bank also manages (directly or through the Economic Interest Grouping entity dedicated to the Caisses d'Epargne, GIE Ecureuil Credits) the over-indebtedness procedures.

At the litigation stage, the bank may for mortgage loan, grant a debt forgiveness consisting in a reduction of the total amount due, when it allows to reach the best achievable agreement.

Guaranteed home loans

At the loan origination, a contractual commitment from the Borrower exists not to grant a lien to any other creditor and to register the lien at his exclusive expense in case of default. The borrower pays a fee to the Home Loan Guarantor.

The Home Loan Guarantor guarantees the payment of the debt to the bank. Once the loan has been accelerated, the guarantee is called and the reimbursement process starts (subject to settlement of the guaranteed amount within

one month). The Home Loan Guarantor carries out the work-out of the loan (subrogation in the rights of the bank), including the registration of a judicial mortgage on the property. The foreclosure process is then carried out by the Home Loan Guarantor under the same process as for a French Mortgage.

Parnasse Garanties can be called after the loan acceleration as well as CEGC but under the additional condition of at least 4 unpaid monthly instalments (successive or not), and up to 9 unpaid monthly instalments. Under those circumstances, interests in arrears and unpaid notional amount are compensated by the Home Loan Guarantors.

Should the recovery collected by the Home Loan Guarantor is not sufficient to cover the amount due by the Borrowers, the loss is borne by the Home Loan Guarantor.

French Mortgages

At the loan's origination, the Mortgage is registered by notaries in the Land Registry held by a dedicated administration. The foreclosure process is carried out by the bank. The maximum amount recovered by the bank is the principal amount plus interests plus late payment penalties.

Under French Law, in addition to the direct recourse on the mortgaged property, the bank has a full recourse on the borrower's assets in the case the loan is not fully repaid after the sale of the property (*droit de gage général* provided for by article 2284 *et. seq* of the French Civil Code).

Sale of defaulted home loans

Considering the difficulty to recover and the size of the debt remaining due, the bank may decide to sell to third party the defaulted receivables related to French Mortgage Loans or the Guaranteed Home Loans (for the latter, only when all recourses against the Borrowers and/or the Home Loans Guarantor are exhausted).

Write-off

At the very end of the recovery process, the Borrower's file will migrate to the write-off phase if there is no longer any possibility of recovering the debt because all recourses against the Borrowers and/or the Home Loan Guarantors (as the case may be) are exhausted (confirmed after an investigation and the preparation of a bailiff's report) or if the expected proceeds will be lower than the cost of recovery. The claims outstanding will in this case be written off.

DESCRIPTION OF THE ENVIRONMENTAL EFFICIENCY OF THE PROPERTIES FINANCED BY THE HOME LOANS

Existing data on environmental performance of the properties financed by the Home Loans are not available as at the date of this Prospectus.

Works have been launched by the Transaction Agent and the Sellers to gather information on environmental performance of the properties which they finance from time to time and are still underway.

If and when the relevant information on environmental performance of the properties financed by the Home Loans becomes available, the Transaction Agent will use reasonable endeavours (*obligation de moyens*) to communicate such information to the Management Company and such information will then be set out in the Investor Report.

2.1 **BANQUE POPULAIRE BANKS AND CAISSES D'EPARGNE**

Under the cooperative banking model, cooperative shareholding customers are the focal point of the Group's governance.

The Banque Populaire banks and Caisses d'Epargne are credit institutions wholly-owned by their cooperative shareholders (via LSCs– Local Savings Companies – for the Caisses d'Epargne).

Cooperative shareholding customers – both individuals and legal entities – play an active part in the life, ambitions and development of their bank.

Being a cooperative shareholder means owning a cooperative share (not quoted on the stock exchange), representing a portion of the share capital in a Banque Populaire bank or an LSC for the Caisses d'Epargne, and playing a role in the bank's operation by taking part in Annual General Shareholders' Meetings and voting to approve the financial statements and resolutions, validating management decisions and electing Directors. Voting rights are exercised in accordance with the cooperative principle of "1 person = 1 vote", no matter how many cooperative shares are held.

Each institution is governed by a Board of Directors for the Banque Populaire banks, or a Steering and Supervisory Board and a Management Board for the Caisses d'Epargne.

2.2 **BPCE: the central institution of Groupe BPCE**

BPCE, founded by a law dated 18 June 2009, is the central institution of Groupe BPCE, a cooperative banking group. As such, it represents the credit institutions that are affiliated with it.

The affiliated institutions, within the meaning of article L. 511-31 of the French Monetary and Financial Code, are:

- (A) the Management Company will request the principal Eurozone office of each of the Reference Banks to provide a quotation of the rate at which deposits in Euros are offered by the Reference Banks in the Eurozone interbank market at approximately 11:00 am (Paris time), on such Interest Rate Determination Date to prime banks in the Eurozone interbank market for a period of three (3) months (or, in the case of the first Interest Period, the linear interpolation of three (3) and

- (2) if the Management Company is unable to determine EURIBOR in accordance with the provisions of sub-paragraph (1) above in relation to any Interest Period, the EURIBOR applicable during such Interest Period will be the EURIBOR last determined in relation thereto;
 - (3) notwithstanding sub-paragraphs (1) to (2) above, if a EURIBOR Discontinuity Event has occurred, EURIBOR shall be determined in accordance with the Reference Rate Determination Process.

“Reference Rate Determination Process” means, the below process to be followed following the occurrence of a EURIBOR Discontinuity Event with respect to EURIBOR:

- (a) the Management Company will, as soon as reasonably practicable and after discussion with the Transaction Agent, appoint a rate determination agent which is not an affiliate of BPCE Group (the **“Rate Determination Agent”**), which will determine in its sole discretion, acting in good faith, in a commercially reasonable manner, taking into account the then prevailing market practice and in accordance with the applicable laws and regulations, and after discussion with the Transaction Agent, whether a substitute or successor rate for purposes of determining the reference rate on the Interest Rate Determination Date that is substantially comparable to EURIBOR is available, provided that if the Rate Determination Agent determines that there is an industry accepted successor rate or a reference rate published or endorsed by a regulator in the European Union or the stock exchanges on which the Notes are listed, the Rate Determination Agent will use such successor rate or reference rate to determine the substitute reference rate. If the Rate Determination Agent has determined a substitute or successor rate in accordance with the foregoing (such rate, the **“Replacement Rate”**) for purposes of determining the reference rate on the Interest Rate Determination Date, the Rate Determination Agent will also determine changes (if any) to the business day convention, the definition of business day, the Interest Rate Determination Date, the day count fraction and any method for calculating the Replacement Rate or any adjustments necessary to make such Replacement Rate as comparable as possible to EURIBOR, including any Adjustment Spread (the **“Other Determinations”**), in each case in a manner that is consistent with industry-accepted practices for such Replacement Rate and such guidance promulgated by associations involved in the establishment of market standards and/or protocols in the international financial and/or debt capital markets as the Rate Determination Agent may consider relevant for such Replacement Rate, it being specified that notwithstanding anything to the contrary, the Rate Determination Agent shall aim at limiting or avoiding any

mismatch between the Replacement Rate and the Other Determinations with the replacement rate and other determinations as determined under the Interest Rate Swap Agreement, which could have otherwise occurred. The Rate Determination Agent will notify the Management Company of the foregoing as soon as reasonably practicable and the Management Company will, as soon as reasonably practicable, publish on its website and on Bloomberg the Replacement Rate, as well as the Other Determinations, notify the Class A Noteholders of such Replacement Rate and Other Determinations through the facilities of Euroclear France in accordance with Condition 8 (*Notice to Noteholders*) of the Terms and Conditions of the Notes (the “**Replacement Rate Notice**”) and notify the Interest Rate Swap Counterparty of the same;

- (b) unless Class A Noteholders representing at least 1/3rd of the Principal Amount Outstanding of the Class A Notes have notified in writing the Management Company that they oppose to the Replacement Rate and/or the Other Determinations duly justifying the reason for opposing to the Replacement Rate and/or the Other Determinations within ten (10) Business Days following the publication of the Replacement Rate Notice (the “**Replacement Rate Opposition Notice**”), the determination of the Replacement Rate and the Other Determinations by the Rate Determination Agent will (in the absence of manifest error) be final and binding on the Issuer, the Management Company, the Noteholders (for the avoidance of doubt without the need to call a Noteholders’ Meeting for the Class A Noteholders or the Class B Noteholders), the Residual Unitholders (for the avoidance of doubt without the need to consult the Residual Unitholders), the Sellers, the Transaction Agent and the Paying Agent and all references to EURIBOR in any Transaction Document (except the Interest Rate Swap Agreement) will be deemed to be references to the Replacement Rate, including any alternative method for determining such rate;
- (c) in case Class A Noteholders representing at least 1/3rd of the Principal Amount Outstanding of the Class A Notes have delivered to the Management Company a Replacement Rate Opposition Notice duly justifying the reason for opposing to the Replacement Rate and/or the Other Determinations within ten (10) Business Days following the publication of the Replacement Rate Notice by the Management Company, the Management Company shall, as soon as reasonably practicable and after discussion with the Transaction Agent, appoint a second rate determination agent which is not an affiliate of BPCE Group nor a member of the same group as the Rate Determination Agent (the “**Alternative Rate Determination Agent**”) which shall, under the same conditions and requirements, determine, after discussion with the Transaction Agent, an alternative replacement rate (such rate, the “**Alternative Replacement Rate**”) and/or the corresponding Other Determinations. The Alternative Reference Rate and/or the Other Determinations, as applicable, will be notified by the Alternative Rate Determination Agent to the Management Company as soon as reasonably practicable and the Management Company will, as soon as reasonably practicable, publish on its website and on Bloomberg the Alternative Replacement Rate, as well as the Other Determinations, notify the Class A Noteholders of such Alternative Replacement Rate and Other Determinations through the facilities of Euroclear France in accordance with Condition 8 (*Notice to Noteholders*) of the Terms and Conditions of the Notes (the “**Alternative Replacement Rate Notice**”) and notify the Interest Rate Swap Counterparty of the same;
- (d) in case (i) the Alternative Replacement Rate is the same reference rate as the Replacement Rate determined initially by the Rate Determination Agent and the Other Determinations determined by the Alternative Rate Determination Agent are substantially the same as those determined initially by the Rate Determination Agent or (ii) no notifications in writing by Class A Noteholders representing at least 1/3rd of the Principal Amount Outstanding of the Class A Notes have been received by the Management Company that they oppose to the Alternative Replacement Rate and/or the Other Determinations duly justifying the reason for opposing to the Alternative Replacement Rate and/or the Other Determinations within ten (10) Business Days following the receipt of the Alternative Replacement Rate Notice (the “**Alternative Replacement Rate Opposition Notice**”), the determination of the Alternative Replacement Rate and the Other Determinations by the Alternative Rate Determination Agent will (in the absence of manifest error) be final and binding on the Issuer, the Management Company, the Noteholders (for the avoidance of doubt without the need to call a Noteholders’ Meeting for the Class A Noteholders or the Class B Noteholders), the Residual Unitholders (for the avoidance of doubt without the need to consult the Residual Unitholders), the Sellers, the Transaction Agent and the Paying Agent and all references to EURIBOR in any Transaction Document (except the Interest

Rate Swap Agreement) will be deemed to be references to the Alternative Replacement Rate, including any alternative method for determining such rate;

- (e) in case Class A Noteholders representing at least 1/3rd of the Principal Amount Outstanding of the Class A Notes have delivered to the Management Company an Alternative Replacement Rate Opposition Notice duly justifying the reason for opposing to the Alternative Replacement Rate and/or the Other Determinations within ten (10) Business Days following the publication of the Alternative Replacement Rate Notice by the Management Company and subject to the Alternative Replacement Rate being different than the Replacement Rate determined initially by the Rate Determination Agent and/or the Other Determinations determined by the Alternative Rate Determination Agent being substantially different than those determined initially by the Rate Determination Agent, the Management Company shall, as soon as reasonably practicable and after discussion with the Transaction Agent, appoint a third rate determination agent which is not an affiliate of BPCE Group nor a member of the same group as the Rate Determination Agent or the Alternative Rate Determination Agent (the “**Final Rate Determination Agent**”) which will analyse the methodology used by the Rate Determination Agent and the Alternative Rate Determination Agent and determine, after discussion with the Transaction Agent, in its sole discretion, acting in good faith, in a commercially reasonable manner and in accordance with the applicable laws and regulations and taking into account the then prevailing market practice, which substitute reference rate between the Replacement Rate and the Alternative Replacement Rate and which Other Determinations shall apply (such rate, the “**Final Replacement Rate**”). The Final Rate Determination Agent will notify the Management Company of the Final Replacement Rate as soon as reasonably practicable and the Management Company will, as soon as reasonably practicable, publish on its website and on Bloomberg the Final Replacement Rate, as well as the Other Determinations determined by the relevant agent, notify the Class A Noteholders of such Final Replacement Rate and Other Determinations through the facilities of Euroclear France in accordance with Condition 8 (*Notice to Noteholders*) of the Terms and Conditions of the Notes (the “**Final Replacement Rate Notice**”) and notify the Interest Rate Swap Counterparty, the Class B Noteholders, the Sellers, the Transaction Agent, the Residual Unitholders and the Paying Agent of the same. provided that:

- (i) any opposition made by any Noteholder in writing must be accompanied by evidence to the Management Company’s satisfaction (having regard to prevailing market practices) of the relevant Noteholder’s holding of the Notes;
- (ii) the Rating Agencies have received prior notice of the contemplated Replacement Rate, Alternative Replacement Rate, Final Replacement Rate, as applicable, concomitantly with the Replacement Rate Notice, Alternative Replacement Rate Notice, Final Replacement Rate, respectively and the replacement of the EURIBOR by such replacement rate will not result, in the reasonable opinion of the Management Company, in the downgrading or the withdrawal of any of the ratings of the Class A Notes, unless such replacement limits such downgrading or avoids such withdrawal;
- (iii) the Replacement Rate, the Alternative Replacement Rate or the Final Replacement Rate (as applicable) will be applicable to all Class A Notes;
- (iv) as long as a substitute reference rate is not deemed final and binding in accordance with the paragraphs (a) to (e) above or in case, for any reason, no substitute reference rate is determined, EURIBOR will be equal to the last EURIBOR available on the relevant applicable screen rate;
- (v) in case, at any time after a substitute reference rate has been adopted in accordance with the foregoing, the Management Company considers that such replacement rate is no longer

substantially comparable to the reference rate or does not constitute an industry accepted successor rate, the Issuer shall re-appoint a rate determination agent (which may or may not be the same entity as any of the Rate Determination Agent, the Alternative Rate Determination Agent or the Final Rate Determination Agent) for the purposes of confirming the substitute reference rate as determined under paragraphs (a) to (e) above or determining a substitute reference rate in an identical manner as described paragraphs (a) to (e) above; and

it being specified for the avoidance of doubt that, in the case referred to in item (b)(ii) above, in the absence of said opposition by Noteholders, no EURIBOR Discontinuity Event will occur and EURIBOR shall be determined by taking into account the relevant change in the definition, methodology, or formula for EURIBOR, or other means of calculating EURIBOR;

- (b) if no recommendation required under the sub-paragraph (a) above has been made or in the case of a substitute rate, the Rate Determination Agent determines and which is recognized or acknowledged as being a customary market usage in the international debt capital market for

transactions which reference the EURIBOR, where such rate has been replaced by the Replacement Rate, the Alternative Rate or the Final Replacement Rate (as the case may be); or

- (c) if no such recommendation or option has been made (or made available), or the Rate Determination Agent determines there is no such spread, formula or methodology in customary market usage, the Rate Determination Agent, acting in good faith, determines to be appropriate.

WEIGHTED AVERAGE LIFE OF THE CLASS A NOTES AND ASSUMPTIONS

Estimates of the weighted average life of the Class A Notes contained in this Section are supplied for information only and are forward-looking statements. Such estimates are subject to risks, uncertainties and other factors and it can be expected that some or all of the assumptions underlying them may differ or may prove substantially different from the actual realised figures. Consequently, the actual results might differ from the projections and such differences might be material. Moreover, past financial performance should not be considered as a reliable indicator of future performance and prospective purchasers of the Class A Notes should be cautioned that any forward-looking statements are not guarantees of performance and that investing in the Class A Notes involves risks and uncertainties, many of which are beyond the control of the Issuer. None of the Management Company, the Custodian, the Sellers, the Servicers, the Transaction Agent, the Account Bank, the Paying Agent, the Listing Agent, the Data Protection Agent, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Joint Arrangers and the Joint Lead Managers has attempted to verify any such statements, nor does it make any representation, express or implied, with respect thereto.

The “**Weighted Average Life**” (WAL) of the Class A Notes refers to the average amount of time that will elapse from the date of issuance of a security to the date of principal redemption thereon. The weighted average lives of the Class A Notes will be influenced by, among other things, the quantum of losses relating thereto and the amount of Available Distribution Amount (which also depends on the rate of redemption of the Purchased Home Loans) available to be applied in accordance with the applicable Priority of Payments.

The actual weighted average life of the Class A Notes cannot be stated as the ultimate rate of repayment and prepayment of the Purchased Home Loans and a number of other relevant factors are unknown. However, estimates of the possible average life of the Class A Notes can be made based upon certain assumptions.

The figures contained in the following tables were prepared based on, inter alia, the characteristics of the Home Loans complying with the Home Loan Eligibility Criteria included in the provisional portfolio (the “**Provisional Portfolio**”) as at the 31st July 2019 (the “**Provisional Portfolio Reference Date**”) the provisions of Terms and Conditions of the Class A Notes and the Transaction Documents, and certain additional assumptions (the “**Modelling Assumptions**”), including:

- (a) that as of the Selection Date, the aggregate Outstanding Principal Balance of the Purchased Home Loans is €1,100,000,000 and that the amortisation schedule of the Purchased Home Loans mirrors that calculated for each Home Loan in the Provisional Portfolio as at the Provisional Portfolio Reference Date by reference to the period commencing on the Provisional Portfolio Reference Date (and assuming, inter alia, the interest payment as well as the principal payment for each Home Loan are calculated on a loan-by-loan basis assuming each Home Loan amortises monthly and according to its (i) remaining term, (ii) outstanding principal balance, (iii) applicable interest rate and (iv) amortisation type (i.e. annuity loan));
- (b) that the Selection Date is 30 September 2019, the Issue Date is 31 October 2019, the first Determination Date is 31 October 2019 and the First Optional Redemption Date is 31 October 2024;
- (c) that each Payment Date falls on the last calendar day of January, April, July or October (with no regard as to whether such week day is a Business Day), with the first Payment Date falling on 31st of January 2020;
- (d) that the Purchased Home Loans are not subject to any defaults, losses or enforcement, no Purchased Home Loans are in arrears and the Purchased Home Loans continue to perform until their redemption in full, and no Purchased Home Loans is subject to a Commercial Renegotiation;
- (e) other than in the case of the table entitled “*Assuming no Early redemption in full on First Optional Redemption Date or on any of the three subsequent Payment Dates*”, that no Home Loan is sold by the Issuer (other than, where applicable, on or immediately prior to the First Optional Redemption Date), either as a result of a re-transfer or rescission by any of the Sellers pursuant to the terms of the Home Loans Purchase and Servicing Agreement or otherwise;
- (f) in the case of the table entitled “*Assuming Early redemption in full on First Optional Redemption Date*”, the Class A Notes are redeemed at their Principal Amount Outstanding on the First Optional Redemption Date;

- (g) in the case of the table entitled "*Assuming no Early redemption in full on First Optional Redemption Date or on any of the three subsequent Payment Dates*", the Class A Notes are not redeemed as a result of the sale of the Purchased Home Loans;
- (h) that three-month EURIBOR is equal to -0.398 per cent. and no EURIBOR Discontinuity Event occurs;
- (i) that the Interest Rate Swap Fixed Rate under the Interest Rate Swap Agreement is 0.60 per cent.;
- (j) that no Accelerated Amortisation Event, no Issuer Liquidation Event (except in case of the table "*Assuming Early redemption in full on First Optional Redemption Date*" where an Issuer Liquidation Event occurs on the First Optional Redemption Date as a result of the sale of the Purchased Home Loans) and no Servicer Termination Event has occurred;
- (k) the Issuer Cash is not invested, and no remuneration is received from the Account Bank;
- (l) that no Deemed Collections, Adjusted Available Collections, Re-transfer Prices, Rescission Amounts and Indemnity Amounts are paid to the Issuer;
- (m) that no amount is debited from the Commingling Reserve;
- (n) that no Interest Rate Swap Termination Amount, Interest Rate Swap Collateral Liquidation Amount, Replacement Swap Premium and/or any Interest Rate Swap Collateral Account Surplus are paid to or by the Issuer;
- (o) subject to paragraph (r) below, that Issuer Expenses are equal to the sum of:
 - (i) variable fees equal to 0.35 per cent. per annum of the aggregate Outstanding Principal Balance of the Purchased Home Loans at the beginning of each Monthly Collection Period; and
 - (ii) fixed fees of €150,000 per annum (inclusive of VAT) (distributed equally through time);
- (p) that all collections in respect of the Purchased Home Loans arising from the Selection Date will be available in the General Account for application on each relevant Payment Date thereafter and no other amounts is standing to the credit of the General Account;
- (q) that all amounts payable, including but not limited to interest on the Class A Notes are calculated based on the actual number of days in the period and a year of 360 days, **provided that** in the case of (i), (ii) and (iii) below such amounts are calculated based on a month of 30 days and a year of 360 days:
 - (i) amortisation of the Purchased Home Loans calculated pursuant to paragraph (a) above;
 - (ii) accrual of interest on the Purchased Home Loans; and
 - (iii) Issuer Expenses calculated pursuant to paragraph (o) above;
- (r) that, as of the Issue Date, the Principal Amount Outstanding of (i) the Class A Notes is equal to €1,000,000,000, (ii) the Class B Notes is equal to €100,000,000, (iii) the Residual Units is equal to €0;
- (s) that the General Reserve Initial Cash Deposit Amount is equal to €5,000,000;
- (t) that the Interest Component Purchase Price is equal to €0 on any Payment Date;
- (u) that the Interest Rate Swap Agreement is not terminated and the Interest Rate Swap Counterparty fully complies with its obligations under the Interest Rate Swap Agreement;
- (v) that no event occurs that would cause payments on the Class A Notes to be deferred; and
- (w) that the Weighted Average Life of the Class A Notes are calculated on an Actual/365 basis.

The actual characteristics and performance of the Purchased Home Loans are likely to differ, perhaps materially, from the assumptions outlined herein (including the Modelling Assumptions), and the Modelling Assumptions outlined in this section do not profess to be an exhaustive list of assumptions employed.

The following tables are hypothetical in nature and are provided only to give a general sense of how the principal cash flows available to the Issuer might behave under various prepayment scenarios. It should be noted that the Issuer does not expect that the Purchased Home Loans will prepay at a constant rate until maturity, or that all of the Purchased Home Loans will prepay at the same rate, or that there will be no losses or delinquencies on the Purchased Home Loans or that no repurchase by the relevant Seller or any Commercial Renegotiation will occur until maturity. Any difference between the Modelling Assumptions and, *inter alia*, the actual prepayment or loss experience on the Purchased Mortgage Loans will affect the redemption profile of the Class A Notes and may cause the weighted average lives of the Class A Notes to differ (which difference could be material) from the figures in the tables for each indicated CPR.

"CPR" refers to an assumed annualised constant prepayment rate ("R") in respect of the loans and is periodicised in relation to a given Monthly Collection Period as follows:

$$1 - ((1 - R)^{(1/12)})$$

REGULATORY ASPECTS

RETENTION STATEMENT

Regulation (EU) 2017/2402 of the European Parliament and of the Council of 12 December 2017 *laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation, and amending Directives 2009/65/EC, 2009/138/EC and 2011/61/EU and Regulations (EC) No 1060/2009 and (EU) No 648/2012* (the “**Securitisation Regulation**”) lays down “a general framework for securitisation. It defines securitisation and establishes due- diligence, risk-retention and transparency requirements for parties involved in securitisations, criteria for credit granting, requirements for selling securitisations to retail clients, a ban on re-securitisation, requirements for SSPEs as well as conditions and procedures for securitisation repositories. It also creates a specific framework for simple, transparent and standardised (“**STS**”) securitisation”. Securitisation Regulation should be supplemented by technical standards that are not all finalised yet, which creates uncertainty as to the final content of such standards and the consequences thereof.

It applies to “*institutional investors*”, which include notably credit institutions, insurance and reinsurance companies and alternative investment fund managers that manage and/or market alternative investment funds in the EU, and to “*originators, sponsors, original lenders and securitisation special purpose entities*”.

The Sellers have undertaken in the Home Loans Purchase and Servicing Agreement and the Class A Notes Subscription Agreement, to comply at all times with article 6 of the Securitisation Regulation and therefore retain on an ongoing basis a material net economic interest which, in any event, shall not be less than five per cent. (5%) of the nominal value of the securitised exposures for which it is the originator. For that purpose, each Seller has undertaken:

- (a) as at the Issue Date, to ensure that such retention requirement is satisfied on an ongoing basis pursuant to option (d) of article 6(3) of the Securitisation Regulation, through the subscription of the Class B Notes in a proportion corresponding to the proportion of the total securitised exposures for which it is the originator;
- (b) that, in compliance with article 6 paragraph (1) of the Securitisation Regulation, whatever its form, the net economic interest retained for the purpose of complying with the covenant set out above, including retained positions, interest or exposures, shall not be subject to any credit risk mitigation (within the meaning of article 4 paragraph 1 sub-paragraph (57) of the Capital Requirements Regulations) or any short positions or any other hedge and shall not be sold, except to the extent permitted by the Securitisation Regulation or any implementing texts or guidelines related thereto; and
- (c) to provide to the Management Company information about the risk retained, including information on which of the modalities provided for in article 6(3) of the Securitisation Regulation has been applied, in accordance with article 6 of the Securitisation Regulation, in order for an institutional investor, prior to holding any Class A Notes, to be able to verify, in accordance with article 5 of the Securitisation Regulation, that the risk is retained in accordance with article 6 of the Securitisation Regulation and that the risk retention is disclosed to institutional investors in accordance with article 7 of the Securitisation Regulation; and
- (d) to notify the Management Company, the Custodian and the Issuer of any breach or change in the manner in which the interest is held, provided that the Management Company shall, in turn, notify the Class A Noteholders of any such breach or change.

After the Issue Date, the Management Company will prepare and disclose on each Investor Reporting Date with respect to the next Payment Date the Investor Report wherein relevant information with regard to the Home Loans will be disclosed together with a confirmation of the retention of the material net economic interest by the Sellers.

DUE DILIGENCE REQUIREMENTS UNDER THE SECURITISATION REGULATION

Investors should be aware of the due diligence requirements under article 5 of the Securitisation Regulation that apply to institutional investors with an EU nexus (including credit institutions, authorised alternative investment fund managers, investment firms, insurance and reinsurance undertakings, institutions for occupational retirement provision and UCITS funds). Amongst other things, such requirements restrict an institutional investor (other than the originator, sponsor or original lender within the meaning of the Securitisation Regulation) from investing in securitisation positions unless, prior to holding the securitisation position:

- (a) that institutional investor has verified that:
 - (i) for certain originators, certain credit-granting standards were met in relation to the origination of the underlying exposures;
 - (ii) the risk retention requirements set out in article 6 of the Securitisation Regulation are being complied with; and
 - (iii) information required by article 7 of the Securitisation Regulation has been made available; and
- (b) that institutional investor has carried out a due diligence assessment which enables it to assess the risks involved, which shall include at least (among other things) the risk characteristics of its securitisation position and the underlying exposures of the securitisation, and all the structural features of the transaction that can materially impact the performance of its securitisation position.

In addition, under article 5(4) of the Securitisation Regulation, an institutional investor (other than the originator, sponsor or original lender) holding a securitisation position shall at least establish appropriate written procedures that are proportionate to the risk profile of the securitisation position and, where relevant, to the institutional investor's trading and non-trading book, in order to monitor, on an ongoing basis, compliance with its due diligence requirements and the performance of the securitisation position and of the underlying exposures. Depending on the approach in the relevant EU Member State, failure to comply with one or more of the due diligence requirements may result in penalties including fines, other administrative sanctions and possibly criminal sanctions. In the case of those institutional investors subject to regulatory capital requirements, penal capital charges may also be imposed on the securitisation position (i.e., notes) acquired by the relevant institutional investor.

INVESTORS ARE REQUIRED TO ASSESS COMPLIANCE WITH ARTICLES 5, 6 AND 7 OF THE SECURITISATION REGULATION

Each prospective investor is required to independently assess and determine the sufficiency of the information described in this Prospectus for the purposes of complying with articles 5, 6 and 7 of the Securitisation Regulation and its own situation and obligations in this respect.

The Management Company, the Custodian, the Sellers, the Servicers, the Transaction Agent, the Account Bank, the Specially Dedicated Account Bank, the Paying Agent, the Listing Agent, the Interest Rate Swap Counterparty, the Joint Arrangers and the Joint Lead Managers make no representation or warranty that such information is sufficient in all circumstances.

Chapter 2 of the Securitisation Regulation and any other changes to the regulation or regulatory treatment of the Notes for some or all investors may negatively impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Class A Notes in the secondary market.

Investors who are uncertain as to the requirements that will need to be complied with in order to avoid the additional regulatory charges for non compliance with articles 5, 6 and 7 of the Securitisation Regulation should seek guidance from their regulator.

STS SECURITISATION

Pursuant to article 18 of the Securitisation Regulation a number of requirements must be met if the originator and the SSPE wish to use the designation 'STS' or 'simple, transparent and standardised' for securitisation transactions initiated by them. The Transaction Agent acting on behalf of the Sellers, as originators, intends to submit on or about the Issue Date an STS notification to ESMA in relation to the securitisation transaction described in the Transaction Documents in accordance with article 27 of the Securitisation Regulation, pursuant to which compliance with the requirements of articles 19 to 22 of the Securitisation Regulation will be notified with the intention that the securitisation transaction described in this Prospectus is to be included in the list administered by ESMA within the meaning of article 27 of the Securitisation Regulation.

The STS notification sent to ESMA will be available for download if deemed necessary on ESMA's website (<https://www.esma.europa.eu/policy-activities/securitisation/simple-transparent-and-standardised-sts-securitisation>). Investors should be aware that the 'STS' status of a transaction is not static and should verify the current status of the Transaction on ESMA's website.

Prospective investors will need to make their own analysis of these matters and the impact of the Securitisation Regulation (and the corresponding implementing rules of their regulator). None of the Sellers, the Servicers, the Transaction Agent, the Management Company, the Custodian, the Account Bank, the Specially Dedicated Account Bank, the Interest Rate Swap Counterparty, the Joint Arrangers, the Joint Lead Managers, the Paying Agent, the Listing Agent or any of their respective affiliates makes any representation to any prospective investor or purchaser of the Notes as to these matters on the Issue Date or at any time in the future.

NO REPRESENTATION AS TO COMPLIANCE WITH LCR DELEGATED REGULATION OR SOLVENCY II DELEGATED ACT REQUIREMENTS

Under the CRR, credit institutions and investment firms must comply with a general liquidity coverage requirement to ensure that a sufficient proportion of their assets can be made available in the short-term. Under Article 460 of the CRR, the European Commission was required to specify the detailed rules for EU-based credit institutions. The European Commission has published on 10 October 2014 the Commission Delegated Regulation 2015/61 with regard to liquidity coverage requirement (the "**LCR Delegated Regulation**") which became effective on 1 October 2015. The LCR Delegated Regulation amends Article 429 of the CRR. Its purpose is to ensure that EU credit institutions and investment firms use the same methods to calculate, report and disclose their leverage ratios which express capital as a percentage of total assets (and off balance sheet items). In particular, the LCR Delegated Regulation provides a definition of certain assets (including certain securitisation positions) that qualify as high quality assets for the purpose of computing the liquidity coverage ratio. Pursuant to the Commission delegated regulation 2018/1620 of 13 July 2018, which shall apply from 30 April 2020, most of the criteria mentioned in the LCR Delegated Regulation will be replaced by a reference to the criteria mentioned in the Securitisation Regulation, except for the criteria specific to liquidity which shall remain the ones set out in the LCR Delegated Regulation.

Likewise, Solvency II Delegated Act has introduced criteria to classify investment (including certain securitisation positions) depending on certain criteria for prudential purposes.

Investors should conduct their own due diligence and analysis to determine whether:

- (a) any of the Class A Notes qualify as high quality liquid assets for the purposes of the liquidity coverage ratio introduced by the CRR, as implemented by the LCR Delegated Regulation and national implementation measures and, if so, whether they may qualify as Level 2A or Level 2B assets as described in the LCR Delegated Regulation (whether before or after its amendment); and
- (b) any of the Class A Notes may qualify as an investment in a Type 1 or Type 2 securitisation as described in the Solvency II Delegated Act.

None of the Issuer, the Management Company, the Custodian, the Account Bank, the Paying Agent, the Listing Agent, the Data Protection Agent, the Specially Dedicated Account Bank, the Sellers, the Servicers, the Transaction Agent, the Interest Rate Swap Counterparty, the Joint Arrangers, the Joint Lead Managers or any of

their respective affiliates makes any representation to any prospective investor or purchaser of the Class A Notes as to these matters on the Issue Date or at any time in the future.

The matters described above and any other changes to the regulation or regulatory treatment of the Notes for some or all investors may impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market.

Prospective investors should therefore make themselves aware of the changes and requirements described above (and any corresponding implementing rules of their regulator), where applicable to them, in addition to any other applicable regulatory requirements with respect to their investment in the Notes.

REGULATORY REQUIREMENTS APPLYING TO THE USE OF CREDIT RATINGS

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). As of 5 July 2019, Fitch and Moody's are registered under the CRA Regulation according to the list published by the European Securities and Markets Authority (ESMA) on its website (<http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>). This list is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

EUROPEAN BANK RECOVERY AND RESOLUTION DIRECTIVE AND SINGLE RESOLUTION MECHANISM

European Union

The stated aim of the BRRD is to provide supervisory authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimize taxpayers' contributions to bank bail-outs and/or exposure to losses. The powers granted to the authorities designated by member states of the European Union to apply the resolution tools and exercise the resolution powers set forth in the BRRD ("**resolution authorities**") include the introduction of a statutory "write-down and conversion power" with respect to capital instruments and a "bail-in tool", which will give the relevant resolution authority the power to cancel all or a portion of the principal amount of, or interest on, certain other eligible liabilities, whether unsubordinated or subordinated, of a failing financial institution and/or to convert certain debt claims into another security which may itself be written down. The bail-in tool can be used to recapitalise an institution that is failing or about to fail, allowing authorities to restructure it through the resolution process and restore its viability after reorganisation and restructuring.

In addition to the bail-in tool and the write-down and conversion power, the BRRD provides resolution authorities with broader powers to implement other resolution measures with respect to distressed banks, which may include (without limitation): (i) directing the sale of the bank or the whole or part of its business on commercial terms without requiring the consent of the shareholders or complying with the procedural requirements that would otherwise apply, (ii) transferring all or part of the business of the bank to a "bridge institution" (a publicly controlled entity), (iii) transferring the impaired or problem assets to an asset management vehicle to allow them to be managed and worked-out over time, (iv) replacing or substituting the bank as obligor in respect of debt instruments, (v) modifying the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), and/or (vi) discontinuing the listing and admission to trading of financial instruments.

The SRM complements the Single Supervisory Mechanism ("**SSM**") and implements the BRRD to SSM banks with the aim of providing for a uniform framework of regulation and supervision. It ensures that, if a bank subject to the SSM faces serious difficulties, its resolution can be managed efficiently with minimal costs to

taxpayers and the real economy. The SRM, amongst others, applies to all banks in the Eurozone and other Member States that choose to participate.

France

The BRRD has been formally transposed into French law by the 2015 Order and French Separation Law which had, among other provisions, given various resolution powers to the resolution board of the ACPR.

The resolution measures decided by the ACPR in accordance with the Order and the French Separation Law (together: the "**French Resolution Regime**") may notably include:

- (a) the appointment by the ACPR of a provisional administrator, it being specified that any contractual provision providing that such appointment triggers an event of default would be void;
- (b) (i) the transfer to a third party of all or part of one or several business units (*branches d'activités*) of the French bank or the French investment firm; and/or (ii) the transfer to a bridge institution (*établissement-relais*), a third party, an asset management vehicle wholly or partially owned by one or more public authorities, or the deposit guarantee and resolution fund (*fonds de garantie des dépôts et de résolution*) of all or part of its assets, rights and obligations (each such measure being referred to herein as a "**Transfer**"). It is further provided that in case of Transfer, outstanding agreements relating to the business, assets, rights or obligations so transferred shall remain executory and may not be terminated nor give rise to any set off merely as a result of such Transfer, notwithstanding any contractual or statutory provisions to the contrary;
- (c) the suspension of close-out netting rights in relation to any contracts entered into by the credit institution (*établissement de crédit*) until 0:00 (midnight) at the latest on the business day following the day of publication of the decision, of the ACPR;
- (d) a bail-in (*mesure de renflouement interne*) of all or part of the credit institution's or the investment firm's liability under which the ACPR may decide to exercise write-down or conversion powers; and/or
- (e) a modification or an amendment to the contractual terms if a contract to which the credit institution or the investment firm is a party (including a financial contract).

U.S. RISK RETENTION RULES

Regulation RR (17 C.F.R Part 246) implementing the risk retention requirements of section 15G of the U.S. Securities Exchange Act of 1934, as amended (the "**U.S. Risk Retention Rules**") came into effect on 24 December 2016 and generally require the "securitizer" of a "securitization transaction" to retain at least 5 per cent. of the "credit risk" of "securitized assets", as such terms are defined for purposes of that statute, and generally prohibit a securitizer from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the credit risk that the securitizer is required to retain. The transaction will not involve risk retention by the Sellers for the purposes of the U.S. Risk Retention Rules and the issuance of the Notes was not designed to comply with the U.S. Risk Retention Rules, but rather intends to rely on an exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions. Such non-U.S. transactions must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the U.S. Securities Act; (2) no more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the "ABS interests" (as defined in Section 2 of the U.S. Risk Retention Rules) are issued) of all classes of ABS interests issued in the securitization transaction are sold or transferred to, or for the account or benefit of, U.S. persons (as defined in the U.S. Risk Retention Rules and referred to in this Prospectus as "**Risk Retention U.S. Persons**"); (3) neither the sponsor nor the issuer of the securitization transaction is organised under U.S. law or is a branch located in the United States of a non-U.S. entity; and (4) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

Prospective investors should note that the definition of U.S. person in the U.S. Risk Retention Rules is substantially similar to, but not identical to, the definition of U.S. person under Regulation S, and that persons who

are not "U.S. persons" under Regulation S may be U.S. persons under the U.S. Risk Retention Rules. The definition of U.S. person in the U.S. 74

Risk Retention Rules is excerpted below. Particular attention should be paid to clauses (b) and (h)(ii), which are different than the comparable provisions in Regulation S. Under the U.S. Risk Retention Rules, and subject to limited exceptions, "U.S. person" (and Risk Retention U.S. Person as used in this Prospectus) means any of the following:

- (a) any natural person resident in the United States;
- (a) any partnership, corporation, limited liability company, or other organisation or entity organised or incorporated under the laws of any State or of the United States;
- (b) any estate of which any executor or administrator is a U.S. person (as defined under any other clause of this definition);
- (c) any trust of which any trustee is a U.S. person (as defined under any other clause of this definition);
- (d) any agency or branch of a foreign entity located in the United States;
- (e) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition);
- (f) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated, or (if an individual) resident in the United States; and
- (g) any partnership, corporation, limited liability company, or other organisation or entity if:
 - (i) organised or incorporated under the laws of any foreign jurisdiction; and
 - (ii) formed by a U.S. person (as defined under any other clause of this definition) principally for the purpose of investing in securities not registered under the U.S. Securities Act.

There can be no assurance that the exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions will be available. No assurance can be given as to whether the absence of retention by the Sellers for the purposes of the U.S. Risk Retention Rules may give rise to regulatory action which may adversely affect the Notes or their market value. Furthermore, the impact of the U.S. Risk Retention Rules on the securitization market generally is uncertain, and the absence of retention by the Sellers for the purposes of the U.S. Risk Retention Rules could therefore materially and adversely affect the market value and secondary market liquidity of the Notes.

Each purchaser of Notes, including beneficial interests therein, will, by its acquisition of a Note or beneficial interest therein, be deemed to have made, and in certain circumstances will be required to make, certain representations and agreements, including that it (1) either (i) is not a Risk Retention U.S. Person or (ii) has obtained a U.S. Risk Retention Consent from the Transaction Agent (on behalf of the Sellers), (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note; and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention 75 Rules described herein). Prior to any Notes which are offered and sold by the Issuer being purchased by, or for the account or benefit of, any Risk Retention U.S. Person, the purchaser of such Notes must first disclose to the Issuer, the Transaction Agent on behalf of the Sellers, the Joint Arrangers and the Joint Lead Managers that it is a Risk Retention U.S. Person and obtain the written consent of the Transaction Agent (on behalf of the Sellers) in the form of a U.S. Risk Retention Consent.

There can be no assurance that the requirement to request the Transaction Agent (on behalf of the Sellers) to give its prior written consent to any Notes which are offered and sold by the Issuer being purchased by, or for the account or benefit of, any Risk Retention U.S. Person will be complied with or will be made by such Risk Retention U.S. Persons.

None of the Joint Arrangers, the Joint Lead Managers, the Management Company, the Custodian, the Statutory Auditor, any Seller, any Servicer, the Transaction Agent, the Interest Rate Swap Counterparty, the Paying Agent, the Data Protection Agent, the Listing Agent, the Account Bank, the Specially Dedicated Account Bank or any of their affiliates makes any representation to any prospective investor or purchaser of the Notes as to whether the transactions described in this Prospectus comply as a matter of fact with the U.S. Risk Retention Rules on Issue Date or at any time in the future. Investors should consult their own advisors as to the U.S. Risk Retention Rules. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

VOLCKER RULE

In December 2013, the banking regulators and other agencies principally responsible for banking and financial market regulation in the United States implemented the final rule under the so-called “Volcker Rule” under the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “**Dodd-Frank Act**”), which in general prohibits “banking entities” (as defined therein) from (i) engaging in proprietary trading, (ii) acquiring or retaining an ownership interest in or sponsoring any entity that would be an investment company under the Investment Company Act but for the exclusions provided in Section 3(c)(1) or 3(c)(7) thereof (i.e., “covered funds”) and (iii) entering into certain relationships with such funds. The rule, however, provides for the exclusion of certain entities from the definition of covered funds.

The Issuer is being structured with a view not to constitute, now, or immediately following the issuance of the Notes and the application of the proceeds thereof, a “covered fund” for purposes of the Volcker Rule under the Dodd-Frank Act. Although other exclusions may be available to the Issuer, this conclusion is based on the exemption from the definition of “covered fund” provided for loan securitizations, as contained in Section 10(c)(8) of the Volcker Rule. It is possible, however, that U.S. regulators could take a contrary position and determine that the Issuer should not be excluded from the definition of “covered fund” under the Volcker Rule. The general effects of the final rules implementing the Volcker Rule remain uncertain.

None of the Joint Arrangers, the Joint Lead Managers, the Management Company, the Custodian, the Statutory Auditor, any Seller, any Servicer, the Transaction Agent, the Interest Rate Swap Counterparty, the Paying Agent, the Data Protection Agent, the Listing Agent, the Account Bank, the Specially Dedicated Account Bank or any of their affiliates makes any representation to any prospective investor or purchaser of the Notes as to whether the Issuer should be excluded from the definition of “covered fund” under the Volcker Rule. Any prospective investor in the Notes, including a U.S. or non-U.S. bank or an affiliate or subsidiary thereof, should consult its own legal advisors regarding such matters and other effects of the Volcker Rule and regulatory implementation.

VERIFICATIONS BY PCS

Verifications have been requested from Prime Collateralised Securities (PCS) EU SAS (**PCS**) to verify the compliance of the securitisation transaction described in this Prospectus and in the Transaction Documents with (i) the criteria stemming from article 18, 19, 20, 21 and 22 of the Securitisation Regulation (the **STS Verifications**), (ii) several criteria of the CRR (the **CRR Assessment**) and (iii) several criteria of the LCR (the **LCR Assessment**, together with the STS Verifications and the CRR Assessment, the **PCS Services**).

PCS has been authorised by the AMF as third party verification agent pursuant to article 28 of the Securitisation Regulation. No PCS Service is a recommendation to buy, sell or hold securities. None are investment advice whether generally or as defined under MiFID II and it is not a credit rating whether generally or as defined under the CRA Regulation or Section 3(a) of the United States Securities Exchange Act of 1934 (as amended).

PCS is not a law firm and nothing in any PCS Service constitutes legal advice in any jurisdiction.

By providing any PCS Service in respect of any securities PCS does not express any views about the creditworthiness of these securities or their suitability for any existing or potential investor or as to whether there will be a ready, liquid market for these securities or financings. Investors should conduct their own research regarding the nature of the CRR Assessment, LCR Assessment or the STS Verifications and must read the information set out in <http://pcsmarket.org>. In the provision of any PCS Service, PCS has based its decision on information provided directly and indirectly by the Sellers. PCS does not undertake its own direct verification of the underlying facts stated in the Prospectus, deal sheet, documentation or certificates for the relevant instruments and the completion of any PCS Service is not a confirmation or implication that the information provided by or on behalf of the Sellers as part of the relevant PCS Service is accurate or complete.

In completing an STS Verification, PCS bases its analysis on the STS criteria appearing in articles 20 to 26 of the Securitisation Regulation (together, the **STS criteria**). Unless specifically mentioned in the STS Verification, PCS relies on the English version of the Securitisation Regulation. In addition, article 19(2) of the Securitisation Regulation requires the European Banking Authority, from time to time, to issue guidelines and recommendations interpreting the STS criteria. The EBA has issued the EBA STS Guidelines Non-ABCP Securitisations. The task of interpreting individual STS criteria rests with national competent authorities (**NCA**s). Any NCA may publish or otherwise publicly disseminate from time to time interpretations of specific criteria (**NCA Interpretations**). The STS criteria, as drafted in the Securitisation Regulation, are subject to a potentially wide variety of interpretations. In compiling an STS Verification, PCS uses its discretion to interpret the STS criteria based on (a) the text of the Securitisation Regulation, (b) any relevant guidelines issued by EBA and (c) any relevant NCA Interpretation. There can be no guarantees that any regulatory authority or any court of law interpreting the STS criteria will agree with the interpretation of PCS. There can be no guarantees that any future guidelines issued by EBA or NCA Interpretations may not differ in their approach from those used by PCS in interpreting any STS criterion prior to the issuance of such new guideline or interpretation. In particular, guidelines issued by EBA are not binding on any NCA. There can be no guarantees that any interpretation by any NCA will be the same as that set out in the EBA Guidelines and therefore used, prior to the publication of such NCA interpretation, by PCS in completing an STS Verification. Although PCS will use all reasonable endeavours to ascertain the position of any relevant NCA as to STS criteria interpretation, PCS cannot guarantee that it will have been made aware of any NCA interpretation in cases where such interpretation has not been officially published by the relevant NCA. Accordingly, the provision of an STS Verification is only an opinion by PCS and not a statement of fact. It is not a guarantee or warranty that any national competent authority, court, investor or any other person will accept the STS status of the relevant securitisation.

The task of interpreting individual CRR criteria, liquidity cover ratio (LCR) criteria as well as the final determination of the capital required by a bank to allocate for any investment or the type of assets it may put in its LCR pool rests with prudential authorities (PRAs) supervising any European bank. The CRR/LCR criteria, as drafted in the CRR, are subject to a potentially wide variety of interpretations. In compiling a CRR Assessment LCR Assessment, PCS uses its discretion to interpret the CRR/LCR criteria based on the text of the CRR, and any relevant and public interpretation by the European Banking Authority. Although PCS believes its interpretations reflect a reasonable approach, there can be no guarantees that any prudential authority or any court of law interpreting the CRR/LCR criteria will agree with the PCS interpretation. PCS also draws attention to the fact that, in assessing capital requirements and the composition of any bank's LCR pool, prudential regulators possess wide discretions.

Accordingly, when performing a CRR Assessment / LCR Assessment, PCS is not confirming or indicating that the securitisation the subject of such assessment will be allowed to have lower capital allocated to it under the CRR Regulation or that it will be eligible to be part of any bank's LCR pool. PCS is merely addressing the specific CRR/LCR criteria and determining whether, in PCS' opinion, these criteria have been met.

All PCS Services speak only as of the date on which they are issued. PCS has no obligation to monitor (nor any intention to monitor) any securitisation the subject of any PCS Service. PCS has no obligation and does not undertake to update any STS Verification, CRR Assessment or LCR Assessment to account for (a) any change of law or regulatory interpretation or (b) any act or failure to act by any person relating to those STS criteria, CRR criteria or LCR criteria that speak to actions taking place following the close of any transaction such as – without limitation – the obligation to continue to provide certain mandated information.

As regards STS Verifications, the verification by PCS does not affect the liability of the Sellers, as originators and the Issuer, as SSPE in respect of their legal obligations under the Securitisation Regulation. Furthermore, the use of such verification by PCS shall not affect the obligations imposed on institutional investors as set out in article 5 of the Securitisation Regulation. Notwithstanding PCS' verification of compliance of a securitisation with articles 19 to 22 of the Securitisation Regulation, such verification by PCS does not ensure the compliance of a securitisation with the general requirements of the Securitisation Regulation. A verification does not remove the obligation placed on investors to assess whether a securitisation labelled as 'STS' or 'simple, transparent and standardised' has actually satisfied the criteria. Investors and prospective investors must not solely or mechanistically rely on any STS notification or PCS' verification to this extent.

By designating the securitisation transaction described in the Transaction Documents as an STS securitisation, no views are expressed about the creditworthiness of the Notes or their suitability for any existing or prospective investor or as to whether there will be a ready, liquid market for the Notes.

SPECIFIC FRENCH LEGAL ASPECTS

The following is a summary limited to certain legal considerations in France relating to Mortgages, compulsory purchases and expropriation of Properties, municipal pre-emption rights and protection of over-indebted consumers. This summary is based on the laws in force as of the date of this Prospectus and is subject to any changes in law. It does not purport to be a comprehensive description of all the legal considerations which may be relevant to a decision to purchase, own or dispose of the Class A Notes. Each prospective holder or beneficial owner of Class A Notes should consult its legal adviser as to any legal considerations relating to the underlying exposures.

MORTGAGES AND LENDERS' LIENS

General

Lender's lien (privilège de prêteur de deniers) and legal mortgage (hypothèque).

A lender's lien (*privilège de prêteur de deniers*) is conferred on a creditor who lends a sum of money for the financing of the purchase of real property in accordance with articles 2324 and 2374, 2° of the French Civil Code. A mortgage (*hypothèque*) is a right to real property granted to a creditor, known as a mortgagee (*créancier hypothécaire*), by a debtor, known as the mortgagor (*constituant*), relating to real property which the latter owns or in which it has a right *in rem*, in order to secure payment of a debt owed by the mortgagor to the mortgagee. A lender's lien and a mortgage have similar legal effects. However, unlike a mortgage, the lender's lien is also subject to the specific rules of article 2374, 2° of the French Civil Code.

In the context of the refinancing of a loan, a lender's lien or mortgage granted in favour of the lender whose loan is being refinanced can be transferred to the new lender by way of subrogation up to the principal outstanding amount of the loan.

The beneficiary of a registered lender's lien or a registered mortgage will rank ahead of all unsecured creditors (*créanciers chirographaires*) of the grantor of the security but will rank after the prior ranking creditors in the context of a bankruptcy and after any claim of the manager of the condominium (*copropriété*) if the property is comprised within a condominium. Secured amounts comprise the principal amount of the loan in question as well as its related rights. It should be noted, however, that only three (3) years of interest at the contractual rate can be secured on an equal rank basis with the principal by a lender's lien or a mortgage. Upon enforcement of a lender's lien or a legal mortgage, any unpaid interest in excess of three (3) year's interest at the contractual rate is not secured by such lender's lien or legal mortgage.

If the net proceeds of sale of a property are lower than the amount necessary to repay the full amount of principal and interest outstanding in respect of the relevant Home Loan, this could result in a reduction of the receipts received by the Issuer in respect of the Home Loans and adversely impact the liquidity position of the Issuer and may adversely affect the ability of the Issuer to make payments of principal and/or interest due to the Noteholders.

Peculiarities of Lender's Lien.

Pursuant to article 2374, 2° of the French Civil Code, in order for a lender's lien to be validly created, the following two conditions must be satisfied: (a) the loan must be granted for the purchase of real property and the deed evidencing the loan (*acte d'emprunt*) must expressly stipulate the purpose for which the loan was intended; and (b) the discharge receipt (*quittance*) given by the vendor of the relevant real property must certify that, up to the principal amount of the relevant loan, the payment was made out of the moneys borrowed. Both the deed evidencing the loan and the discharge receipt must be in a notarised form (*acte authentique*).

Registration of Lender's Lien and Mortgage.

In order to be enforceable against third parties, pursuant to the provisions of article 2377 of the French Civil Code, lender's liens and mortgages must be registered at the relevant French Land and Charges Registry (*Conservation des Hypothèques* or *Livre Foncier* in respect of *Alsace Moselle*).

A lender's lien is retrospectively perfected from the date of the deed of conveyance of the relevant real property if the registration of the lien occurs within a period of two (2) months after the signing of the deed of conveyance (under article 2379 of the French Civil Code). If this deed fails to be registered within this two-month period, rules applicable to mortgages will apply to the lender's lien. Mortgages are perfected from their date of registration with the French Land and Charges Registry (*Conservation des Hypothèques* or *Livre Foncier* in respect of *Alsace Moselle*).

The registration of a lender's lien or of a mortgage in France is only valid for a limited period of time. As a general rule, a lender's lien or a mortgage is valid until the date of validity specified in the registration (under article 2434 of the French Civil Code). Where the principal of the debt secured has to be repaid on one or several fixed dates, the registration period cannot expire more than one (1) year after the last due date of the debt secured, without exceeding fifty (50) years. Where the due date of the debt secured by the lender's lien or the mortgage is not expressly fixed, the validity of the registration of the lender's lien or of the mortgage is limited to fifty (50) years. Where the due date of the debt secured by the lender's lien or the mortgage is antecedent to or concomitant with the registration, the validity of the registration of the lender's lien or of the mortgage is limited to ten (10) years.

The registration of a lender's lien or of a mortgage may be renewed if the debt is not repaid at the end of the registration period. It ceases to be effective if it is not renewed on or before the last day of its current period of effectiveness.

The formalities for the registration of a lender's lien or of a mortgage are set out in articles 2426 and 2428 of the French Civil Code. The lender's lien and the mortgage should be registered at the Land Registry situated in the geographical district where the relevant property is situated.

Enforcement of Mortgages and Lender's Liens

Mortgages and lender's liens can be enforced through a seizure of the property (*saisie immobilière*). Mortgages can also be enforced either through (i) a request for a judicial attribution or (ii) a contractual forfeiture agreement (*pacte comissoire*).

Seizure of the property

The first step is the deliverance by a bailiff (*huissier*) to the Borrower of a summons to pay with the effect of a seizure (*commandement de payer valant saisie*) which is filed at the relevant Land Registry having jurisdiction over the district in which the relevant real property is situated. The next step after the seizure of the property is to instruct a bailiff (*huissier*) to prepare a report describing the property (*procès-verbal de description*) and, then, to instruct a lawyer (*avocat*) to prepare the terms of sale at public auction (including the reserve price of the relevant real property) and the notices to be given prior to the sale and to seize the Court in charge of enforcement proceedings (*juge de l'exécution*). The Borrower may file objections against such enforcement (including the reserve price) before the Court or ask the Court to authorize the amicable sale of the property. Pursuant to article L. 322-3 of the French *Code des Procédures Civiles d'Exécution* (French Civil Enforcement Procedures Code), the Court may either (i) authorise the sale of the property through amicable sale (*vente amiable sur autorisation judiciaire*), or (ii) order the sale of the property by Court-supervised public auction (*vente aux enchères*).

If the amicable sale of the property is authorised by the Court, the Court determines a minimum price at which the amicable sale has to occur. The sale occurs by way of notarised deed (*acte authentique*), subject to the consignment of the sale's price and expenses by the purchaser for the repayment of the lender. If the Borrower fails to perform the amicable sale within a reasonable time frame, the lender may ask the judge to order the sale of the property through Court-supervised public auction.

If no bid is made at the public auction, and provided there is only one secured creditor, such secured creditor will be deemed to be the highest bidder and is thus obliged to purchase the property at the reserve price specified in the terms of the sale. However, any interested party may re-open the auction by offering to purchase the property for a sum of ten per cent. (10%) higher than the highest bid, within ten (10) days of the auction sale. The Court must then verify each creditor's claim and its respective rank (*procédure d'ordre*), with preferred

creditors ranking first. The last step is to obtain the proceeds from the *Caisse des Dépôts et Consignations* where the auction proceeds have been kept on deposit.

The procedure of seizure of real estate properties (*saisie immobilière*) has been amended by an Act (*Ordonnance n°2006-461 réformant la saisie immobilière*) dated 21 April 2006. The purpose of the amendment was to simplify the foreclosure process by encouraging amicable sales (*ventes à l'amiable*) and to reduce the duration and complexity of the process. The new legislation (articles L. 311-1 *et seq.* of the French Civil Enforcement Procedures Code), described above, only applies to seizure proceedings started after 1st January 2007.

However, the procedure of seizure of any real estate property remains a long procedure, which might delay the ability of the Issuer to be repaid through the sale of the property and, therefore, its ability to redeem the Class A Notes in a timely manner.

Droit de suite, droit de préférence

The final secured creditor's enforcement action consists of the possibility to continue to benefit from the lender's lien or mortgage, even if the property is transferred by the Borrower to a third party. This right is known as *droit de suite*. In the event of the sale of the property by the debtor, the secured creditor may have the debts owing to him satisfied from the proceeds of the sale of the property in the order of priority of the liens and mortgages encumbering such property (*droits de préférence*), in accordance with article 2461 of the Civil Code. If the secured creditor wishes to exercise this right, it must cause an order to pay to be served on the Borrower by a bailiff and, in addition, cause a notice to be served on the third party to whom the property subject to the lender's lien or mortgage was transferred with a view either to pay the debt secured by the lender's lien or mortgage granted over the property or to surrender such property in an auction sale, where a minimum bid exceeding ten per cent. (10%) of the price paid by such third party shall be made by the creditor.

Claims against notaries (*notaires*)

The Sellers have assigned to the Issuer, as Ancillary Rights any claim or right of action it may have against any notaries (*notaires*) which have responsibility for drafting notarial deeds of transfer (*acte authentique de vente*), drafting the mortgage deeds (where a new Mortgage is granted), drafting the registration details (*acte d'inscription hypothécaire*), registering with the relevant mortgage registry the transfer of title to a property and any legal mortgage or lender's lien securing a Home Loan. Under the general law, a notary may incur civil liability if damage results as a consequence of negligence (*toute faute*) committed by the notary in the exercise of his/her duties. Notaries are required to maintain professional civil liability insurance with a financially solvent insurance company. Professional liability claims against a notary would generally be covered by the insurance company of such notary and by the *Caisse Régionale de Garantie* established by the notaries in the relevant region (such *Caisse Régionale de Garantie* being itself counter-guaranteed by the *Caisse Nationale de Garantie* established by all French notaries and, as a last resort, covered by virtue of the common mutual responsibility (*solidarité*) of all notaries in France taken as a whole). Whether such recourse would actually be effective if the need arises will depend on whether the relevant notary, or failing which, the relevant insurance company or *Caisse Régionale de Garantie* would have the ability to pay the required indemnity. This may adversely affect the ability of the Issuer to make payments of principal and/or interest due to the Noteholders.

COMPULSORY PURCHASE AND EXPROPRIATION OF PROPERTIES

Under French law, any Property may at any time be compulsorily acquired by, inter alios, a local or public authority or a governmental department on public interest grounds, generally, in connection with proposed redevelopment or infrastructure projects.

In the event that all or part of a Property was to be compulsorily purchased, compensation would be payable to the relevant debtor and the occupational tenants according to their respective interests and based on the market value of the Property as agreed upon by the relevant parties. However, there is often a delay between the compulsory purchase of a property and the payment of compensation dependent on the parties' ability to agree upon the open market value of the property. Compensation in relation to compulsory purchase may be less than the open market value of the property prior to the announcement of the compulsory purchase.

Although this would not discharge the Borrower from its obligations under the relevant Home Loans, this could have an adverse effect whether on the aggregate amount of the proceeds derived from the sale of the Properties by the underlying Borrower or, if need be, on enforcement of the Ancillary Rights, and/or may delay the effective date of payment and receipt of such proceeds, and so adversely impact the aggregate principal amounts received by the Issuer in respect of the Home Loans and/or the liquidity position of the Issuer.

MUNICIPAL PRE-EMPTION RIGHTS (DROIT DE PRE-EMPTION URBAIN)

The relevant local planning authority may, in certain circumstances, exercise a right of pre-emption (droit de pré-emption urbain) when real estate properties situated within the jurisdiction of such authority are the object of a proposed sale. This pre-emption right is typically exercised when the relevant real property is needed for certain public purposes such as public or social housing, general development of a town or zone or preserving buildings of cultural interest.

The pre-emption right may be exercised by the relevant local authority within a two-month period following the notice of the contemplated sale of the relevant property to be served to the competent local authority on behalf of the seller. If the local authority exercises its pre-emption right, it may propose to purchase the property for a lower price than the price agreed with the potential purchaser. In such circumstances, the seller may (i) decide not to sell its property at all, (ii) agree to sell the property at the price proposed by the local authority or (iii) decide to proceed with the sale to the local authority but to challenge the proposed lower price, in which case the sale price will be determined by a judge. As a consequence, if the local authority purports to exercise its pre-emption right, there can be no assurance that the seller will be successful in eventually selling the property at the price originally agreed with the proposed purchaser.

Although this would not discharge the Borrower from its obligations under the relevant Home Loans, the exercise of such local authority pre-emption rights upon foreclosure could have an adverse effect whether on the aggregate amount of the proceeds derived from the sale of the Properties by the underlying Borrower or, if need be, on enforcement of the Mortgages securing Home Loans and/or may delay the effective date of payment and receipt of such proceeds and so adversely impact the aggregate principal amounts to be received by the Issuer in respect of the Home Loans and/or the liquidity position of the Issuer.

PROTECTION OF OVER-INDEBTED CONSUMERS

General

Pursuant to article L. 711-1 of the French *Code de la consommation* (the **French Consumer Code**), a situation of over-indebtedness is characterised by the manifest impossibility (*impossibilité manifeste*), for an individual, to satisfy all its non-professional debts, whether due and payable or unmatured. The benefit of the over-indebtedness treatment process is granted to any individual, provided that such individual acts in good faith. An individual will not be considered to be acting in good faith if he has organised his own insolvency or has dissipated his assets. The simple fact of being the owner of his main residence, the estimated value of which at the time the application is submitted is equal to or exceeds the aggregate amount of all the non-professional debts due or falling due of the individual, cannot prevent the over-indebtedness from being characterized.

To benefit from the over-indebtedness treatment process, a debtor shall file a request with the competent over-indebtedness committee (*commission départementale de surendettement*). After receipt of the request, the over-indebtedness committee shall make a decision on the admissibility of that request (*décision de recevabilité du dossier de surendettement*), within three months, by notifying the debtor of its refusal or notifying the debtor and its creditors and credit institutions, of the admission of the request. If, at the end of those three months, no such decision has been made, the interest rate applicable to all loans granted to the debtor is, during the three following months, equal to the legal interest rate, except otherwise decided by the judge or the committee during that period. In addition, pursuant to article L.721-4 of the French Consumer Code, before a decision is made on the admissibility of the request (*décision de recevabilité du dossier de surendettement*), the debtor may request the over-indebtedness committee to obtain from the judge the suspension and prohibition of all on-going enforcement procedures (*procédures d'exécution forcée*) and transfer of remunerations (for debts other than alimony debts), until such decision is made. If a seizure of a real estate asset has already been ordered, the decision to postpone the

forced sale must be made by the judge in charge of the seizure, and based on serious and duly justified reasons (*causes graves et justifiées*).

Pursuant to article L.722-2 *et seq.* of the French Consumer Code, if the over-indebtedness committee decides that the request of the debtor is admissible (*décision de recevabilité du dossier de surendettement*): (a) all on-going enforcement proceedings against the debtor's assets (*procédures d'exécution forcée*) and transfer of remunerations (for debts other than alimony debts) will be automatically suspended and forbidden until the decision approving the contractual settlement plan (*approbation du plan conventionnel de redressement*), the decision imposing treatment measures, the judgement deciding the personal recovery without liquidation (*rétablissement personnel sans liquidation*) or the judgement of the court deciding a personal recovery without liquidation (*rétablissement personnel sans liquidation*) or opening a proceeding of the personal recovery with liquidation (*rétablissement personnel avec liquidation*), for a maximum period of two years, provided that if a seizure of a real estate asset has already been ordered, the decision to postpone the forced sale must be made by the judge in charge of the seizure, and based on serious and duly justified reasons (*causes graves et justifiées*); (b) the debtor is forbidden to pay in whole or in part any debt other than alimony debts arisen prior to the suspension and to sell assets other than as part of a day-to-day management, except with the prior approval of the judge or to pay rent receivables in certain circumstances; (c) creditors must inform the persons in charge of the recovery of debts of the admissibility of the request and of its consequences; and (d) receivables included in the list of debts established by the commission cannot bear interest or late payment penalties from the date of admissibility until the date of implementation of treatment measures.

Depending on the income and/or assets of the debtor, pursuant to article L.712-2 and L. 724-1 of the French Consumer Code, the over-indebtedness committee will either:

- (a) attempt, to conciliate the parties to establish a contractual settlement (*plan conventionnel de redressement*) as contemplated under articles L.732-1 *et seq.* of the French Consumer Code, which can include, a deferral or a rescheduling of the debts; a reduction or a cancellation of the interest rate; a consolidation; and/or the creation or substitution of guarantees. The duration of the plan cannot exceed seven years, including in case of renewal, provided that the measures can exceed such duration if the relevant loans relates to the purchase of the debtor's principal residence and the measures avoid the need to sale the relevant residence, or if the measures make it possible for the debtor to reimburse the totality of its debts while avoiding the sale of its principal residence ; or
- (b) in the absence of conciliation or in case of failure of that conciliation process, impose, after obtaining the various parties' point of views, the measures contemplated under articles L.733-1 *et seq.* of the French Consumer Code, such as: rescheduling the debts, including by deferring the due date of some of those debts, for no more than seven years, or half of the remaining term for outstanding loans. If a loan has been accelerated, the deferral cannot exceed one half of the term remaining prior to the acceleration; allocate payments on principal first; reducing interest rates applicable to the deferred or rescheduled debts to a rate that cannot exceed the legal interest rate (and that may be lower than the legal interest rate, based on a special and justified decision (*décision spéciale et motivée*), if the situation of the debtor so requires); and/or suspending the due date of debts other than alimony debts for a period not exceeding two years, which also entails the interruption of the payment of interest in relation thereto. Only principal amounts can accrue interest during that period. The total duration of those measure cannot exceed seven years, except if they relate to the loans used to purchase of the debtor's principal residence and the measures avoid the need to sale the relevant residence, or if the measures make it possible for the debtor to reimburse the totality of its debts while avoiding the sale of its principal residence.

In accordance with article L. 733-4 of the French Consumer Code, the committee is also entitled, after consulting the various parties, to impose, pursuant to a special and justified decision (*décision spéciale et motivée*): in case of forced sale of the principal residence of the debtor financed by a mortgage loan, the reduction of that loan, to an extent which is compatible with the debtor's income and expenses, after the allocation of the sale price to the principal remaining due thereunder, and taking into account the rescheduling contemplated in (i) above; and/or the partial cancellation of the debts.

- (c) impose a personal recovery without liquidation of the individual's assets (*rétablissement personnel sans liquidation*) contemplated under articles L.741-1 *et seq.* of the French Consumer Code, if it appears that the over-indebted individual is in an irremediably compromised situation (*situation irrémédiablement compromise*) and has no assets other than furniture or assets with no value (excluding non-professional

assets absolutely necessary for its professional activity). All non-professional debts of the debtor (but for the debts excluded from the over-indebtedness treatment process as mentioned in 1. above) are then cancelled, except in case of successful contestation of such decision in front of the judge. Such personal recovery without liquidation of the individual's assets (*rétablissement personnel sans liquidation*) can also be decided by the judge in case of contestation of the measures referred to in (b) above; or

- (d) request a judge to open a personal recovery with liquidation of the individual's assets (*rétablissement personnel avec liquidation*) contemplated under articles L.741-1 *et seq.* of the French Consumer Code, if it appears that the over-indebted individual is in an irremediably compromised situation (*situation irrémédiablement compromise*) but has some assets which are worth selling. When all saleable assets of the debtor have been sold, the personal recovery with liquidation (*rétablissement personnel avec liquidation*) will trigger the cancellation of all remaining non-professional debts of the debtor.

A specific legal regime applies to individuals living in the Haut Rhin, Bas Rhin or Moselle departments. The applicable over-indebtedness committee has three (3) months to approve or not the opening of an over-indebtedness proceeding according to the individual situation.

Specific legal regime for Borrowers domiciled in the Moselle, Bas-Rhin or Haut-Rhin

In accordance with, and subject to, the provisions of article L. 670-1 of the French Commercial Code, physical persons (*personnes physiques*) (and their estate on death), who are domiciled in Moselle, Bas-Rhin or Haut-Rhin, and who are neither traders (*commerçants*), nor persons registered with the craftsmen's register (*artisans*), nor farmers (*agriculteurs*), nor persons running any other independent profession, including independent professional persons with a statutory or regulated status, if they are in good faith and in a state of evident and known insolvency (*insolvabilité notoire – situation durablement et irrémédiablement compromise*), may become the subject of the French insolvency provisions applicable to companies established in France (i.e. provisions of Titles II to VI of the Book VI of the French Commercial Code). If such proceedings are commenced in relation to Borrowers, this may result in a delay in recoveries or lower recoveries in respect of Home Loans when the relevant Borrower is subject to such proceedings.

4.46% of the Outstanding Principal Balance of the provisional portfolio of Home Loans described in Section "INFORMATION RELATING TO THE PROVISIONAL PORTFOLIO OF HOME LOANS" are Home Loans granted to Borrowers which, as at the relevant origination date, were resident in Moselle, Bas-Rhin or Haut-Rhin.

FRENCH TAXATION REGIME

The following is a summary limited to certain tax considerations in France relating to the Class A Notes that may be issued by the Issuer and specifically contains information on taxes on income from securities withheld at source. This summary is based on the laws in force as of the date of this Prospectus and is subject to any changes in law. It does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to purchase, own or dispose of the Class A Notes. Each prospective holder or beneficial owner of Class A Notes should consult its tax adviser as to the tax consequences of any investment in or ownership and disposition of the Class A Notes.

Withholding tax

Payments of interest and other income with respect to debt instruments are not subject to the withholding tax set out under article 125 A, III of the French *Code général des Impôts* (the “**French General Tax Code**”), unless such payments are made outside of France in a non-cooperative State or territory (*Etat ou territoire non-coopératif*; a “**Non-Cooperative State**”) within the meaning of article 238-0 A of the French General Tax Code. If such payments are made in a Non-Cooperative State, a 75% withholding tax is applicable, (subject (where relevant) to certain exceptions summarised below and the more favorable provisions of any applicable double tax treaty) pursuant to article 125 A, III of the French General Tax Code.

Notwithstanding the foregoing, article 125 A, III of the French General Tax Code provides that the 75% withholding tax does not apply if the issuer of the debt instrument can prove that the principal purpose and effect of the transaction is not that of allowing the payments of interest or other income to be made in a Non-Cooperative State (the “**Exception**”). Pursuant to the official doctrine of the French tax authorities (BOI-INT-DG-20-50-20140211), an issue of debt instruments is deemed to have a qualifying purpose and effect, and accordingly is able to benefit from the Exception, if such instruments are:

- (a) offered by means of a public offer within the meaning of article L. 411-1 of the French Monetary and Financial Code or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an “equivalent offer” means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (b) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system, provided that such market or system is not located in a Non-Cooperative State and that the operation of such market is carried out by a market operator, an investment services provider, or by a similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (c) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing, delivery and payments systems operator within the meaning of article L. 561-2 of the French Monetary and Financial Code, or of one or more similar foreign depositories or operators, provided that such depository or operator is not located in a Non-Cooperative State.

In the present case, application has been made to the *Autorité des Marchés Financiers* in its capacity as competent authority under French law for the Class A Notes issued on the Issue Date under the Transaction to be listed on the regulated market of Euronext in Paris (Euronext Paris), and, subject to the effective listing of each such Class A Notes, the exemption referred to in (b) above will apply. Likewise, it is intended that the Class A Notes will, upon issue, be registered in the books of Euroclear France (acting as central depository) and, subject to such effective clearing, the exemption referred to in (c) above will apply.

Consequently, under current law, all payments in respect of the Class A Notes will be made free from any withholding or deduction for or on account of any tax imposed in France.

Pursuant to articles 125 A and 125 D of the French General Tax Code, subject to certain limited exceptions, interest and assimilated income received from 1 January 2018 by individuals who are fiscally domiciled (domiciliés fiscalement) in France are subject to a 12.8% withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG (*contribution sociale généralisée*), CRDS (*contribution au remboursement de la dette sociale*) and other related contributions) are also

levied by way of withholding tax at an aggregate rate of 17.2% on interest and assimilated income paid to individuals who are fiscally domiciled (*domiciliés fiscalement*) in France. Payments of principal and interest in respect of the Class A Notes shall be made net of any withholding tax (if any) applicable to the Class A Notes in the relevant state or jurisdiction and neither the Issuer nor the Paying Agent shall be under any obligation to gross up such amounts or to pay any additional amounts as a consequence.

This remuneration, if any, will be paid on a monthly basis on each Issuer Account, provided that the remuneration of the Issuer Cash standing on the General Reserve Account or the Commingling Reserve Account shall be transferred on each Settlement Date to any bank account of the Reserves Provider (outside of any Priority of Payments).

The Issuer Cash will not be invested in any financial instruments, neither by the Account Bank nor by the Management Company.

ALLOCATION OF THE ISSUER ACCOUNTS

Each of the Issuer Accounts (other than the Interest Rate Swap Collateral Account) is exclusively allocated by the Management Company to the operation of the Issuer in accordance with the provisions of the Account Bank Agreement and the Issuer Regulations.

The Management Company is not entitled to pledge, assign, delegate or, more generally, grant any title in or right whatsoever over the Issuer Accounts to third parties. CREDIT AND DEBIT OF THE ISSUER ACCOUNTS

In accordance with the provisions of the Issuer Regulations, the Management Company will give such instructions as are necessary to the Custodian and the Account Bank to ensure that each of the Issuer Accounts is credited or, as the case may be, debited in the manner described above under Section “DESCRIPTION OF THE ISSUER ACCOUNTS — The Issuer Accounts”.

- (iv) the Management Company has previously and expressly approved such replacement and the identity of the relevant entity, provided that such approval may not be refused without a material and justified reason; and
- (v) such replacement is made in accordance with applicable laws and regulations at the time of such replacement; and

- (d) has acknowledged and agreed that, in accordance with article L. 214-175, III of the French Monetary and Financial Code, the Issuer is liable for its debts (*n'est tenu de ses dettes*) to the extent of its assets (*qu'à concurrence de son actif*) and in accordance with the rank of its creditors as provided by law (*selon le rang de ses créanciers défini par la loi*) or, pursuant to article L. 214-169 II of the French Monetary and Financial Code, in accordance with the provisions of the Issuer Regulations;

CREDIT STRUCTURE

REPRESENTATIONS AND WARRANTIES RELATED TO THE HOME LOANS

In accordance with the provisions of the Home Loans Purchase and Servicing Agreement, each Seller will give certain representations and warranties relating to the transfer of Purchased Home Loans to the Issuer, including as to the compliance of the Purchased Home Loans with the Home Loan Eligibility Criteria. Without prejudice to such representations and warranties, none of the Sellers guarantees the solvency of the Borrowers or the effectiveness of the related Ancillary Rights (see Section “DESCRIPTION OF THE HOME LOAN AGREEMENTS AND THE HOME LOANS”).

GENERAL RESERVE

General Reserve Initial Cash Deposit

Under the Home Loans Purchase and Servicing Agreement, the Reserves Provider has undertaken to guarantee the performance of the Purchased Home Loans, up to an amount equal to, on the Issuer Establishment Date, the General Reserve Initial Cash Deposit Amount, in accordance with and subject to the provisions of the Reserve Cash Deposits Agreement.

In accordance with articles L. 211-36 and L. 211-38 to L. 211-40 of the French Monetary and Financial Code and with the provisions of the Reserve Cash Deposits Agreement, as security for the full and timely payment of its financial obligations (*obligations financières*) under such performance guarantee, the Reserves Provider will make, on the Issuer Establishment Date, the General Reserve Initial Cash Deposit with the Issuer by way of full transfer of title (*remise de sommes d'argent en pleine propriété à titre de garantie*).

The General Reserve Initial Cash Deposit Amount will be equal to the General Reserve Required Amount applicable on the Issuer Establishment Date. The General Reserve Initial Cash Deposit will constitute the initial balance standing to the credit of the General Reserve Account.

Purpose of the General Reserve

The amount standing to the credit of the General Reserve Account aims to provide liquidity and a protection to the Issuer in case of weak performance of the Purchased Home Loans, as the case may be, and shall be applied by the Issuer as described below.

Functioning of the General Reserve

On each Payment Date during the Amortisation Period, the General Reserve Account will be, as applicable, replenished so that the amount standing to the credit of the General Reserve Account is equal to the General Reserve Required Amount applicable on that Payment Date, by the transfer of monies from the General Account to the General Reserve Account, in accordance with and subject to the applicable Priority of Payments.

On each Settlement Date preceding a Payment Date falling during the Amortisation Period and on the Settlement preceding the first Payment Date of the Accelerated Amortisation Period, the General Reserve Account shall be debited in full by the transfer of all monies standing to its credit to the General Account and the corresponding monies will then be applied to the payment of any and all sums owed by the Issuer, in accordance with and subject to the applicable Priority of Payments.

Release of the General Reserve

On each Payment Date during the Amortisation Period, the General Reserve Cash Deposit will be released and reimbursed to the Reserves Provider up to the amount of the applicable General Reserve Decrease Amount, to the extent of Available Distribution Amount and in accordance with and subject to the Normal Priority of Payments.

On each Payment Date during the Accelerated Amortisation Period, the amount of the General Reserve Cash Deposit still outstanding will be fully reimbursed to the Reserves Provider, if and to the extent not reimbursed pursuant to the above paragraph, to the extent of Available Distribution Amount and in accordance with and subject to the Accelerated Priority of Payments.

CREDIT ENHANCEMENT

Credit enhancement for the Class A Notes will be provided by

- (a) the excess margin, which will provide the first loss protection for the holders of the Class A Notes;
- (b) the General Reserve (subject to the specific rules pertaining to the allocation of the General Reserve);
- (c) the subordination at all times of payments of interest and principal due in respect of the Class B Notes; and
- (d) the subordination at all times of payments of interest and principal due in respect of the Residual Units.

In the event that the credit enhancement provided by the General Reserve is reduced to zero without any possibility of being further increased by debiting the General Account and the protection provided by the excess margin and the subordination of the Residual Units and the Class B Notes is reduced to zero, the Class A Noteholders will directly bear the risk of loss of principal and interest related to the Purchased Home Loans.

LIQUIDATION OF THE ISSUER, CLEAN-UP OFFER AND RE-PURCHASE OF THE HOME LOANS

Introduction

Pursuant to the Issuer Regulations and the Home Loans Purchase and Servicing Agreement, the Management Company may declare the early liquidation of the Issuer in accordance with the articles L. 214-186 and R. 214-226 of the French Monetary and Financial Code in the circumstances described below. Except in such circumstances, the Issuer would be liquidated on the Final Legal Maturity Date.

Liquidation

The Management Company shall be entitled to declare the dissolution of the Issuer and liquidate the Issuer in one single transaction in case of the occurrence of any of the following events (each an “**Issuer Liquidation Event**”):

- (a) the liquidation is in the interest of the Noteholders and the Residual Unitholders; or
- (b) the Notes and the Residual Units issued by the Issuer are held by a single holder and such holder requests the liquidation of the Issuer; or
- (c) the Notes and the Residual Units issued by the Issuer are held solely by the Sellers and the Management Company receives a request in writing by the Sellers (or the Transaction Agent on their behalf), acting unanimously, to liquidate the Issuer; or
- (d) at any time, the Outstanding Principal Balance (*capital restant dû*) of the undue (*non échues*) Performing Home Loans held by the Issuer falls below 10 per cent. of the maximum aggregate of the Outstanding Principal Balance (*capital restant dû*) of the undue (*non échues*) Performing Home Loans recorded since the Issuer Establishment Date and the Management Company receives a request in writing by the Sellers (or the Transaction Agent on their behalf), acting unanimously, to liquidate the Issuer; or
- (e) after the occurrence of a Tax Event, a general assembly resolution of the Class A Noteholders is passed or a decision of the sole holder of the Class A Notes is made, as the case may be, requesting the liquidation of the Issuer; or
- (f) on the First Optional Redemption Date or any of the three (3) subsequent Payment Dates (only) occurring after such First Optional Redemption Date the Management Company receives a request in writing by the Sellers (or the Transaction Agent on their behalf), acting unanimously, to liquidate the Issuer.

Clean-up Offer

Upon the occurrence of an Issuer Liquidation Event in the circumstances described above, pursuant to the provisions of the Home Loans Purchase and Servicing Agreement and the Issuer Regulations, the Management Company shall propose to each Seller, within the framework of a clean-up offer, to repurchase in a single transaction the Purchased Home Loans transferred by it to the Issuer and remaining among the Assets Allocated to the Issuer in accordance with the following terms and conditions.

Repurchase of the Home Loans

The repurchase price of the Purchased Home Loans comprised within the Assets Allocated to the Issuer shall be in the case of a liquidation upon the occurrence of an Issuer Liquidation Event, an amount based on the fair market value of assets having similar characteristics to the Assets Allocated to the Issuer, having regard to the sum of the Outstanding Principal Balances of the Home Loans comprised within the Assets Allocated to the Issuer.

In addition such repurchase price, taking into account for this purpose the Issuer Cash, excluding the amounts of the Commingling Reserve, must be sufficient to enable the Issuer to repay in full all amounts

outstanding in respect of the Notes after payment of all other amounts due by the Issuer and ranking senior to the Notes in accordance with the Accelerated Priority of Payments.

The repurchase of the Assets Allocated to the Issuer in the circumstances described above will take place on a Payment Date, and at the earliest on the first Payment Date following the date on which the relevant event will have been determined by the Management Company.

Each Seller will be entitled to reject any clean-up offer proposed by the Management Company. Consequently, if the sale of the Purchased Home Loans to any Seller in accordance with the conditions set out above does not occur for whatever reason, the Management Company may offer to dispose of the remaining Assets Allocated to the Issuer, to any institution qualified to acquire these Purchased Home Loans under the same terms and conditions and subject to the specific provisions of the Home Loans Purchase and Servicing Agreement.

Liquidation Procedure of the Issuer

The Management Company, pursuant to the provisions of the Issuer Regulations, shall be responsible for the liquidation procedure in the event of any liquidation of the Issuer. In this respect, it has full authority to dispose of the Assets Allocated to the Issuer.

On the Issuer Liquidation Date, the Management Company will apply the Issuer Cash (excluding the amounts of the Commingling Reserve) in accordance with and subject to the Accelerated Priority of Payments, and any amount standing to the credit of the Commingling Reserve Account upon the liquidation of the Issuer shall be released and retransferred directly to the Reserves Provider, in accordance with and subject to the Reserve Cash Deposits Agreement.

In accordance with the provisions set out in the Issuer Regulations, the Management Company shall inform of its decision to liquidate the Issuer (i) the Noteholders and the Residual Unitholders, (ii) the Rating Agencies and (iii) the AMF.

The Statutory Auditor and the Custodian shall continue to exercise their duties until the completion of the liquidation procedure of the Issuer.

MODIFICATIONS TO THE TRANSACTION

Modification of the elements contained in the Prospectus

The Management Company and the Custodian may agree to any modification of the elements contained in the Prospectus, except in the case of a transfer of the management further to a withdrawal of the licence of the Management Company, in respect of which the decision is taken solely by the Custodian.

After the listing of the Class A Notes on the regulated market of Euronext in Paris (Eurolist by Euronext Paris S.A.), any event which may have an impact on the Class A Notes and any modification of characteristic elements (*éléments caractéristiques*) contained in the Prospectus shall be made public in accordance with article 223-21 of the AMF General Regulations (*Règlement Général de l'Autorité des Marchés Financiers*).

Every significant new factor, material mistake or inaccuracy relating to the information contained in the Prospectus which may have a material impact on the valuation of the Class A Notes and which arises or is noted on a date falling between the date of the visa granted by the AMF in relation to the Prospectus and the Issue Date, shall be mentioned in a supplement to the prospectus without undue delay which, prior to its diffusion, is submitted to the approval of the *Autorité des Marchés Financiers*.

This supplement to the prospectus shall be published on the website of the Management Company and incorporated in the next Investor Report. Any such modification will be binding with respect to the Class A Noteholders within three (3) Business Days after they have been informed thereof.

- (a) other than for amendments of a minor or mere technical nature or made to correct a manifest error, and, unless otherwise consented to or directed by the Noteholders (in accordance with the Conditions) and the Residual Unitholders (acting unanimously), amendments to the Issuer Regulations or to any other Transaction Documents shall be made provided that the Rating Agencies have received prior notice of any amendment and that such amendment shall not result, in the reasonable opinion of the Management Company, in the placement on “negative outlook” or as the case may be on “rating watch negative” or on “review for possible downgrade”, or the downgrading or the withdrawal of any of the ratings of the Class A Notes or that such amendment limits such downgrading or avoids such withdrawal;
- (b) any Amendment to the Financial Characteristics of the Class A Notes shall require the prior approval of the Class A Noteholders (by a decision of the general assembly of the relevant Masse or of the sole holder of the Class A Notes, as the case may be);
- (c) any Amendment to the Financial Characteristics of the Class B Notes issued by the Issuer shall require the prior approval of the Class B Noteholders (by a decision of the general assembly of the Masse or of the sole holder of the Class B Notes, as the case may be);

If it is required, in the reasonable opinion of the parties to the Transaction Documents, that the Transaction Documents be amended or supplemented after the date hereof, in order to comply with the Securitisation Regulation and/or any of its implementation measures, the parties to the Transaction Documents shall cooperate

in good faith to amend and/or supplement the Transaction Documents without undue delay. Any reasonable and justified fees and expenses incurred in relation to any such amendment and/or supplement of the Transaction Documents shall be borne by BPCE.

SUBSCRIPTION AND SALE

SUBSCRIPTION

Subject to the terms and conditions set out in the Class A Notes Subscription Agreement, the Joint Lead Managers have agreed, subject to certain conditions precedent, to subscribe severally but not jointly and pay for, or procure the subscription and the payment for, on the Issue Date, the Class A Notes at their issue price equal to 101.008 per cent. of their Initial Principal Amount, less the commissions agreed by the Joint Lead Managers and the Issuer.

The Joint Lead Managers are the beneficiaries of certain representations, warranties and undertaking of indemnification from the Sellers and the Issuer.

In addition, the Issuer will pay to the Transaction Agent on behalf of the Sellers, on the Issue Date, the Issuance Premium Amount.

The Sellers do not intend to retain at least 5 per cent. of the credit risk of the securitised assets for purposes of compliance with the U.S. Risk Retention Rules based on an exemption from such rules and the issuance of the Notes was not designed to comply with the U.S. Risk Retention Rules. Except with the prior written consent of the Transaction Agent (on behalf of the Sellers) (a “**U.S. Risk Retention Consent**”) and as permitted by the exemption provided under Section 20 of the U.S. Risk Retention Rules, the Notes sold on the Issue Date may not be purchased by, or for the account or benefit of, persons that are “U.S. persons” as defined in the U.S. Risk Retention Rules (“**Risk Retention U.S. Persons**”) and each purchaser of Notes, including beneficial interests therein, will, by its acquisition of a Note or beneficial interest therein, be deemed, and, in certain circumstances, will be required to represent and agree that it (1) either (i) is not a Risk Retention U.S. Person or (ii) has obtained a U.S. Risk Retention Consent from the Transaction Agent (on behalf of the Sellers), (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules, including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention Rules described herein. See below Section “REGULATORY ASPECTS” and Section “SUBSCRIPTION AND SALE – United States of America”. Any Risk Retention U.S. Person wishing to purchase Notes must inform the Issuer, the Transaction Agent on behalf of the Sellers, the Joint Arrangers and the Joint Lead Managers that it is a Risk Retention U.S. Person.

None of the Joint Arrangers, the Joint Lead Managers, the Seller, the Issuer or any of their affiliates makes any representation to any prospective investor or purchaser of the Notes as to whether the transactions described in this Prospectus comply as a matter of fact with the U.S. Risk Retention Rules on the Issue Date or at any time in the future. Investors should consult their own advisors as to the U.S. Risk Retention Rules. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

Each potential investor in the Class A Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Class A Notes, the merits and risks of investing in the Class A Notes and the information contained or referred to in this Prospectus;

- (d) be able to read and understand the relevant English and, when relevant, French terminology employed in this Prospectus;
- (e) understand thoroughly the terms of the Class A Notes and be familiar with the behaviour of any indices and financial markets; and
- (f) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Furthermore, each potential investor should base its investment decision on its own and independent investigation and on the advice of its professional advisors (with whom the investor may deem it necessary to consult), be able to assess if an investment in the Notes (i) is in compliance with its financial requirements, its targets and situation (or if it is acquiring the Notes in a fiduciary capacity, those of the beneficiary); (ii) is in compliance with its principles for investments, guidelines for or restrictions on investments (regardless of whether it acquires the Class A Notes for itself or as a trustee); and (iii) is an appropriate investment for itself (or for any beneficiary if acting as a trustee), notwithstanding the risks of such investment.

All persons and institutions whose investment activities are subject to legal investments laws and regulations, regulatory capital requirements, capital adequacy rules or review by regulatory authorities should make their own judgement in determining whether and to what extent the Class A Notes constitute legal investments or are subject to investment, capital or other restrictions. Such considerations might restrict, if applicable, the market liquidity of the Class A Notes.
