This is an LCR Assessment. The LCR Assessment only covers the LCR rules which apply as at April 2020 not the current applicable LCR rules as at today.

As the securitisation is structured as a master trust programme, all notes issued from time to time under the programme are ultimately backed by the same residential mortgage loans comprising the portfolio from time to time, and benefit from the same structural terms and conditions documented under the same programme level transaction documents currently in effect. In 2019, the programme was updated to more closely align the portfolio and the programme level transaction documents with the requirements of a simple, transparent and standardised non-ABCP transaction pursuant to the CRR Regulation. Accordingly, the following considers the facts and terms of the programme at the time of issuance of the notes, taking into account the facts and terms of the programme at the time of this checklist.

This LCR Assessment must be read together with the PCS Procedures Manual and the PCS Term Evidentiary Standards Manual. This document is based upon the materials received by PCS as at the date of this document. Any references in this document are to the base prospectus dated 7 October 2019 unless otherwise stated.

It is important that the reader of this checklist reviews and understands the disclaimer referred to on the following page.
