STSS20	Pursuant to the Transfer Agreement each of the Originators has assigned and transferred without recourse (pro soluto) to the Issuer, which has purchased, in accordance with articles 1 and 4 of the Securitisation Law, all of its right, title and interest in and to the relevant Individual Portfolio. The transfer of the Receivables has been rendered enforceable against the Debtors and any third party creditors of the Originators (including any insolvency receiver of the same) through (i) the publication of a notice of transfer in the Official Gazette No. 71 Part II of 18 June 2020, and (ii) the registration of the transfer in the companies' register of Genoa on 22 June 2020 (for further details, see the section headed "Description of the Transfer Agreement" of the Prospectus (as defined below)). The true sale nature of the transfer of the Receivables and the validity and enforceability of the same is covered by the legal opinion issued by the legal counsel to the Arranger, which may be disclosed to any relevant competent authority referred to in article 29 of the Securitisation Regulation. As a general note, in this STS notification, except as (otherwise) defined or construed herein or in so far as the context otherwise required, words, expressions and capitalised terms used but not defined or construed herein shall have the meanings defined or construed in the prospectus with respect to the Lanterna Finance S.r.l. securitisation dated 30 June 2020 (the "Prospectus").	Transfer of the underlying exposures by true sale or assignment	Concise Explanation	{ALPHANUM-10000}	Article 20(1)	The STS notification shall provide a concise explanation that the transfer of the underlying exposures is made by means of true sale or transfer with the same legal effect in a manner that is enforceable against the seller or any third party.	Item 3.3 of Annex VIII.
STSS21	The Italian insolvency laws do not contain severe clawback provisions within the meaning of articles 20(2) and 20(3) of the Securitisation Regulation and the EBA Guidelines on STS Criteria. Furthermore, under the Senior Notes Subscription Agreement each of the Originators has represented that it is a credit institution (as defined in article 1.1 of Directive 2000/12/EC) with its "home Member State" (as that term is defined in article 2 of Directive 2001/24/EC on the re-organisation and winding up of credit institutions by reference to article 1.6 of Directive 2000/12/EC) in the Republic of Italy; therefore, each of the Originators would be subject to Italian insolvency laws that do not contain severe clawback provisions.	No severe clawback	Concise Explanation	{ALPHANUM-10000}	Article 20(2)	The STS notification shall provide a concise explanation on whether any of the severe clawback provisions referred to in Article 20 (2) (a) or (b) of Regulation (EU) 2017/2402 are found in the securitisation, and state whether the provisions in Article 20 (3) of Regulation (EU) 2017/2402 apply.	Item 3.3 of Annex VIII.
STSS22	Not applicable	Exemption for clawback provisions in national insolvency laws	Confirmation	{ALPHANUM-1000}	Article 20(3)	In conjunction with STSS21, where appropriate, the STS notification shall confirm whether there are no circumstances that could give rise to clawback provisions in accordance with Article 20 (1) and (2) of Regulation (EU) 2017/2402.	Item 3.3 of Annex VIII.

STSS23	The Receivables arise from Loans granted by (1) each of the Originators as lender or other banks belonging to the banking group "Gruppo Banca Carige" merged by incorporation into Banca Carige following the granting of the relevant Loan or (2) other banks not belonging to the banking group "Gruppo Banca Carige" whose Receivables were purchased by any of the Originators through the acquisition of the related branches or following subrogation (surroga) pursuant to Law no. 40 of 2 April 2007 (as subsequently amended) (for further details, see the section headed "The Portfolio" of the Prospectus). Consequently, the requirement provided for under article 20(4) of the Securitisation Regulation is met.	Transfer where the seller is not the original lender	Confirmation	{ALPHANUM-1000}	Article 20(4)	Where the seller is not the original lender, the STS notification shall provide a statement confirming that the securitisation complies with Article 20(1) to 20(3) of Regulation (EU) 2017/2402.	Item 3.3 of Annex VIII.
STSS24	The transfer of the Receivables has been rendered enforceable against the Debtors and any third party creditors of the relevant Originator (including any insolvency receiver of the same) through (i) the publication of a notice of transfer in the Official Gazette No. 71 Part II of 18 June 2020, and (ii) the registration of the transfer in the companies' register of Genoa on 22 June 2020 (for further details, see the section headed "Description of the Transfer Agreement" of the Prospectus); therefore, the requirements of article 20(5) of the Securitisation Regulation are not applicable.	Transfer performed by means of an assignment and perfected at a later stage	Concise Explanation	{ALPHANUM-10000}	Article 20(5)	Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the securitisation, the STS notification shall provide a concise explanation on how and whether that perfection is effected at least through the required minimum pre-determined event triggers as listed in Article 20(5) of Regulation (EU) 2017/2402. Where alternative mechanisms of transfer are used, the STS notification shall confirm that an insolvency of the originator would not prejudice or prevent the SSPE from enforcing its rights.	Item 3.3 of Annex VIII.
STSS25	Under the Warranty and Indemnity Agreement each of the Originators has represented and warranted that, as at the Transfer Date, each Receivable is fully and unconditionally owned and available directly to such Originator and, to the best of its knowledge, is not subject to any lien (pignoramento), seizure (sequestro) or other charge in favour of any third party (except any charge arising from the applicable mandatory law) or otherwise in a condition that can be foreseen to adversely affect the enforceability of the transfer of the Receivables under the Transfer Agreement and is freely transferable to the Issuer (for further details, see the section headed "The Portfolio" of the Prospectus).	Representations and warranties	Concise Explanation	{ALPHANUM-10000}	Article 20(6)	The STS notification shall provide a concise explanation on whether there are representations and warranties provided by the seller that the underlying exposures included in the securitisation are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect.	Item 2.2.8 of Annex VIII.
STSS26	The disposal of Receivables from the Issuer is permitted solely following the delivery of a Trigger Notice, in accordance with Condition 12 (Actions following the delivery of a Trigger Notice) and with the relevant provisions of the Intercreditor Agreement, provided that the Originators under the Transaction Documents have certain option rights connected with the purchase of single Receivables or, as the case may be, the Portfolio. Therefore, none of the Transaction Documents provide for (i) a portfolio management which makes the performance of the Securitisation dependent both on the performance of the Receivables and on the performance of the portfolio management of the Transaction, thereby preventing any investor in the Notes from modelling the credit risk of the Receivables without considering the portfolio management strategy of the Servicers; or (ii) a portfolio management which is performed for speculative purposes aiming to achieve better performance, increased yield, overall financial returns or other purely financial or economic benefit. In addition, there are no exposures that can be sold to the Issuer after the Issue Date (for further details, see the sections headed "Description of the Transfer Agreement" and "Description of the Intercreditor Agreement" of the Prospectus).	Eligibility criteria which do not allow for active portfolio management of the underlying exposures on a discretionary basis	Concise Explanation	{ALPHANUM-10000}	Article 20(7)	The STS notification shall provide concise explanation that: - the underlying exposures transferred from, or assigned by, the seller to the SSPE meet predetermined, clear and documented eligibility criteria which do not allow for active portfolio management of those exposures on a discretionary basis; - the selection and transfer of the underlying exposures in the securitisation is based on clear processes which facilitate the identification of which exposures are selected for or transferred into the securitisation and that they do not allow for their active portfolio management on a discretionary basis.	Item 2.2.2 and 2.2.13 of Annex VIII.
STSS27	Pursuant to the Warranty and Indemnity Agreement each Originator has represented and warranted that, as at the Transfer Date, the Receivables are homogeneous in terms of asset type, taking into account the specific characteristics to the cash flows of the asset type including their contractual, credit-risk and prepayment characteristics, given that: (i) the Receivables have been originated by the Originators (or, as the case may be, the other banks indicated under field number STSS23 above), as lender, in accordance with loan disbursement policies which apply similar approaches to the assessment of credit risk associated with the Receivables; (ii) the Receivables have been serviced by the Originators according to similar servicing procedures; (iii) the Receivables arise from Loans granted to SME and therefore fall in the asset type named "credit facilities, including loans and leases, provided to any type of enterprise or corporation" provided under article 1(a)(iv) of the Commission Delegated Regulation (EU) 2019/1851 (the "Commission Delegated Regulation on Homogeneity") and meet the homogeneity factors set out under article 2(3)(a)(i) and 2(3)(b)(ii) of the Commission Delegated Regulation on Homogeneity (i.e. obligors are micro-, small- and medium-sized enterprises and the obligors are resident in the same jurisdiction). In addition, under the Warranty and Indemnity Agreement each of the Originators has represented and warranted that (i) as at the Transfer Date, the Receivables comprised in the Portfolio contain obligations that are contractually binding and enforceable with full recourse to the Debtors and, where applicable, the Guarantors; (ii) the Loans provide for a repayment through constant instalments as determined in the relevant Loan Agreement; and (iii) as at the Transfer Date, the Portfolio does not comprise any transferable securities, as defined in point (44) of article 4(1) of Directive 2014/65/EU (for further details, see the sections headed "The Portfolio" of the Prospectus).	Homogeneity of assets	Detailed Explanation	{ALPHANUM}	Article 20(8)	The STS notification shall provide a detailed explanation as to the homogeneity of the pool of underlying exposures backing the securitisation. For that purpose the originator and sponsor shall refer to the EBA RTS on homogeneity (Commission Delegated Regulation (EU) [...]), and shall explain in detail how each of the conditions specified in the Article 1 of the RTS are met.	Item 2.2.7 of Annex VIII.
STSS28	Under the Warranty and Indemnity Agreement each Originator has represented and warranted that, as at the Transfer Date, the Portfolio does not comprise any securitisation positions (for further details, see the sections headed "The Portfolio" of the Prospectus).	Underlying Exposure Obligations: no re securitisation	Confirmation	{ALPHANUM-1000}	Article 20(9)	The STS notification shall confirm that the underlying exposures do not include any securitisation positions and that the notified securitisation is therefore not a re-securitisation.	Item 2.2.2 and 2.2.13 of Annex VIII.
STSS29	Under the Warranty and Indemnity Agreement each Originator has represented and warranted that: (i) the Receivables have been originated by the Originator (or, as the case may be, the other banks indicated under field number STSS23 above) in the ordinary course of its business; (ii) as at the Transfer Date, the Receivables comprised in the Portfolio have been selected by the Originator (or, as the case may be, the other banks indicated under field number STSS23 above) in accordance with credit policies that are not less stringent than the credit policies applied by the Originator (or, as the case may be, the other banks indicated under field number STSS23 above) at the time of origination to similar exposures that are not assigned under the Securitisation; (iii) the Originator (or, as the case may be, the other banks indicated under field number STSS23 above) has assessed the Debtors' creditworthiness in compliance with the requirements set out in article 8 of Directive 2008/48/EC. In addition, there are no exposures that can be sold to the Issuer after the Issue Date in respect of which any of the Originators should fulfil the obligation to disclose without undue delay any material changes from prior underwriting standards (for further details, see the sections headed "The Portfolio" of the Prospectus).	Soundness of the underwriting standard	Detailed Explanation	{ALPHANUM}	Article 20(10)	The STS notification shall provide a detailed explanation: - as to whether the underlying exposures were originated in the lender's ordinary course of business and whether the applied underwriting standards were no less stringent than those applied at the same time of origination to exposures that were not securitised. - as to whether the underwriting standards and any material changes from prior underwriting standards have been or will be fully disclosed to potential investors without undue delay. - on how securitisations where the underlying exposures are residential loans, the pool of underlying exposures meet the requirement of the second paragraph of Article 20(10) of Regulation (EU) 2017/2402. - as to whether an assessment of the borrower's creditworthiness meets the requirements set out in Article 8 of Directive 2008/48/EC or paragraphs 1 to 4, point (a) of paragraph 5, and paragraph 6 of Article 18 of Directive 2014/17/EU or, where applicable, equivalent requirements in third countries.	Item 2.2.7 of Annex VIII.
STSS30	Each Originator is a bank duly incorporated under the laws of the Republic of Italy as a società per azioni and registered in the register of Banks held by the Bank of Italy pursuant to article 13 of the Banking Law. Originator/Lender Expertise	Detailed Explanation	{ALPHANUM}	Article 20(10)	The STS notification shall provide a detailed explanation as to whether the originator or original lender have expertise in originating exposures of a similar nature to those securitised.	Item 2.2.7 of Annex VIII.

STSS31	The Portfolio has been selected on the Valuation Date and transferred to the Issuer on the Transfer Date. Under the Warranty and Indemnity Agreement each Originator has represented and warranted that, as at the Transfer Date, the Portfolio does not include Receivables qualified as exposure in default within the meaning of article 178, paragraph 1, of Regulation (EU) No. 575/2013 or as exposures to a credit-impaired debtor or guarantor, who, to the best of each Originator's knowledge: (i) has been declared insolvent or had a court grant his creditors a final non-appealable right of enforcement or material damages as a result of a missed payment within three years prior to the date of origination or has undergone a debt-restructuring process with regard to his non-performing exposures within three years prior to the Signing Date, except if: (A) a restructured underlying exposure has not presented new arrears since the date of the restructuring, which must have taken place at least one year prior to the Signing Date; and (B) the information provided by the Originator in accordance with points (a) and (e)(i) of the first subparagraph of article 7(1), of the Securitisation Regulation explicitly sets out the proportion of restructured underlying exposures, the time and details of the restructuring as well as their performance since the date of the restructuring; or (ii) was, at the time of origination, where applicable, on a public credit registry of persons with adverse credit history available to the relevant Originator (or, as the case may be, the other banks indicated under field number STSS23 above); or (iii) has a credit assessment or a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than the ones of comparable exposures held by the Originator which have not been assigned under the Transaction (for further details, see the sections headed "The Portfolio" of the Prospectus). Please consider in this regard that: (1) around 32% of the Principal Amount Outstanding of the Portfolio is composed by secured receivables; (2) all the Loans comprised in the Portfolio are amortising, so that the relevant Principal Amount Outstanding as at the Final Maturity Date will be equal to 0. The Portfolio does not comprise Loans with bullet payment of principal or payment of a large final instalment so called "maxi rata finale"; and (3) the pool of exposure has a high granularity (for further details, see the section the "The Portfolio" of the Prospectus). Item 3.4.1 of Annex VIII.
STSS34	Under the Intercreditor Agreement each Originator has undertaken to retain, on an on-going basis, a material net economic interest of not less than 5 (five) per cent. in the Securitisation (calculated for each Originator with respect to the Receivables comprised in the relevant Individual Portfolio pursuant to article 3(2) of the Regulatory Technical Standards on risk retention requirements), in accordance with option (d) of article 6(3) of the Securitisation Regulation and the applicable Regulatory Technical Standards (for further details, see the section headed "Regulatory Disclosure and Retention Undertaking" of the Prospectus). These explanations shall in particular indicate which entity retains the material net economic interest and which option is used for retaining the risk including: (1) vertical slice in accordance with Article 6(3)(a) of Regulation (EU) 2017/2402; (2) seller's share in accordance with Article 6(3)(b) of Regulation (EU) 2017/2402; (3) randomly-selected exposures kept on balance sheet, in accordance with Article 6(3)(c) (3) of Regulation (EU) 2017/2402; (4) first loss tranche in accordance with Article 6(3)(d) of Regulation (EU) 2017/2402; (5) first loss exposure in each asset in accordance with Article 6(3)(e) of Regulation (EU) 2017/2402. Moreover, there is no currency risk since (i) under the Warranty and Indemnity Agreement, each Originator has represented and warranted that all Loan Agreements are denominated in Euro (or granted in a currency other than Euro and converted into Euro) and do not contain provisions which allow for the conversion into another currency, and (ii) pursuant to the Conditions, the Notes are denominated in Euro (for further details, see the sections headed "Transaction Overview" and "Terms and Conditions of the Notes" of the Prospectus).	Mitigation of Interest rates (IR) and currency risks (FX) Risks	Concise Explanation	{ALPHANUM-10000}	Article 21(2)	The STS notification shall provide a concise explanation as to whether the interest rates and currency risks are appropriately mitigated and that measures are taken to mitigate such risks and confirm that such measures are available to investors. STSS38	(i) under the Warranty and Indemnity Agreement, each Originator has represented and warranted that pursuant to the Loan Agreements, the interest calculation methodologies related to the Mortgage Loans are based on or generally used sectoral rates reflective of the cost of funds, and do not refer to complex formulae or derivatives; and (ii) the Rate of Interest applicable to the Notes is calculated by reference to EURIBOR (for further details, see Condition 5.2 (Interest - Rate of Interest) of the Prospectus); therefore, any referenced interest payments under the Receivables and the Notes are based on generally used market interest rates and do not reference complex formulae or derivatives.	Referenced interest payments based on generally used interest rates	Concise Explanation	{ALPHANUM-10000}	Article 21(3)	The STS notification shall explain in a concise manner whether and how any referenced interest payments under the securitisation assets and liabilities are calculated by reference to generally used market interest rates or generally used sectoral rates reflective of the cost of funds.
