BASE PROSPECTUS DATED 16 JUNE 2022

MARZIO FINANCE S.R.L.

(*incorporated with limited liability under the laws of the Republic of Italy*)

€ 10,000,000,000 Asset Backed Notes Programme

Under the € 10,000,000,000 Asset Backed Notes Programme (the "**Programme**") described in this Base Prospectus (as defined below) Marzio Finance S.r.l., a *società a resposabilità limitata* incorporated under the laws of the Republic of Italy (the "**Issuer**"), subject to compliance with the Securitisation Law (as defined below) and all relevant laws, regulations and directives, may from time to time issue limited recourse asset-backed notes (the "**Notes**").

The aggregate nominal amount of the Notes outstanding under the Programme will not at any time exceed € 10,000,000,000.

The Notes may be issued in series (each a "**Series**") and each Series may consist of: (i) class A limited recourse asset-backed notes (the "**Class A Notes**" or the "**Senior Notes**"); (ii) class B limited recourse asset-backed notes (the "**Class B Notes**" or the "**Mezzanine Notes**" and, together with the Class A Notes the "**Rated Notes**"); and (iii) class J limited recourse asset-backed notes (the "**Class J Notes**" or the "**Junior Notes**").

Each Series will be issued, in the context of a single transaction, for the purpose of financing the purchase of a single Portfolio of Receivables, pursuant to articles 1 and 5 of the Italian law no. 130 of 30 April 1999 (the "**Securitisation Law**"), in accordance with the Programme Receivables Purchase Agreement executed on 21 July 2017, as amended and restated from time to time, pursuant to which the Issuer shall purchase Portfolios of Receivables from the Originator, subject to certain conditions set forth therein (each a "**Transaction**").

Each Series may be issued without the consent of the holders of any outstanding Notes, subject to certain conditions. Notice of, *inter alia*, the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes and the relevant maturity date which are applicable to each Series will be set out in the final terms applicable to the relevant Series (the "**Final Terms**").

The Rated Notes of each Series will bear interest on their Principal Amount Outstanding from and including the relevant Issue Date (as specified in the applicable Final Terms) at the rate set out in the relevant Final Terms in respect of such Series. The Junior Notes of each Series will have a remuneration equal to the Variable Return, if any, (as defined in the Junior Notes Conditions). Interest in respect of the Notes will accrue on a daily basis and will be payable in arrears in Euro on each relevant Payment Date in accordance with the relevant Priority of Payments. The first Payment Date in respect of the Notes of any Series will be specified in the applicable Final Terms for such Series.

The principal source of payment of interest and Variable Return and of repayment of principal on the Notes, with reference to each Series, will be the collections and recoveries made in respect of monetary claims and connected rights arising out of the Receivables deriving from the Loan Agreements entered into by IBL - Istituto Bancario del Lavoro S.p.A., as Originator, and the relevant Borrowers, included in the relevant Portfolio purchased by the Issuer from the Originator in the context of each Transaction.

By virtue of the operation of article 3 of the Securitisation Law, the Programme Documents and each Series Document, with reference to each Transaction the Issuer's rights, title and interest in and to the relevant Portfolio purchased by the Issuer under each such Transaction, any monetary claim accrued by the Issuer in the context of such Transaction, the relevant collections and the financial assets purchased through such collections (the "**Issuer's Series Segregated Assets**") will be segregated from all other assets of the Issuer (including, for the avoidance of doubt, any other Portfolio purchased by the Issuer in the context of the Programme). Therefore, any cash-flow deriving therefrom (to the extent identifiable) will be exclusively available, both prior to and following a winding up of the Issuer, to satisfy the obligations of the Issuer to the Noteholders of the relevant Series, to the Other Issuer Creditors of the relevant Transaction and to any other creditors of the Issuer in the context of such Transaction in respect of any costs, fees and expenses in relation to the relevant Transaction, in priority to the Issuer's obligations to any other creditors.

This Base Prospectus (the "**Base Prospectus**") constitutes a "*base prospectus*" for the Rated Notes, for the purpose of the listing and issuing rules of the Luxembourg Stock Exchange and article 8 of Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 (as amended, supplemented or superseded from time to time, the "**Prospectus Regulation**"), and the relevant implementing measures in Luxembourg, and a *"Prospetto Informativo"*, for both the Rated Notes and the Junior Notes, for the purposes of article 2, sub-section 3, of the Securitisation Law. This Base Prospectus has been approved by the *Commission de Surveillance du Secteur Financier* (the "**CSSF**"), as competent authority under the Prospectus Regulation for the purpose of the admission to trading of the Rated Notes on the regulated market of the Luxembourg Stock Exchange. CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation and any such approval of the Base Prospectus by the CSSF should not be considered as an endorsement of the quality of the securities that are subject of this Base Prospectus and the Issuer and the CSSF shall give no undertaking as to the economic and financial soundness of the transaction or the quality or solvency of the Issuer, in accordance with article 6(4) of *loi du 16 juillet 2019 relative aux prospectus pour valeurs mobilières* - Investors should make their own assessment as to the suitability of investing in the securities.

The CSSF has neither approved or reviewed any information relating to the Junior Notes, as only the Rated Notes will be listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange.

This Base Prospectus is valid for 12 months, from 16 June 2022 to 16 June 2023. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Each Transaction under the Programme is intended to be qualified as a STS-securitisation within the meaning of article 18 of Regulation (EU) no. 2017/2402 of the European Parliament and of the Council of 12 December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation, and amending Directives 2009/65/EC, 2009/138/EC and 2011/61/EU and Regulations (EC) No 1060/2009 and (EU) No 648/2012 and its relevant technical standards (the "**EU Securitisation Regulation**"). Consequently, each Transaction carried out under the Programme meeting the requirements of articles 19 to 22 of the EU Securitisation Regulation, will be notified on or about the relevant Issue Date by the Originator, to be included in the list published by ESMA referred to in article 27(5) of the EU Securitisation Regulation. The Originator will use the service of Prime Collateralised Securities EU SAS ("**PCS**"), as a third party verifying the STS compliance, authorised under article 28 of the EU Securitisation Regulation in connection with the STS Verification and the CRR Assessment. It is expected that the STS Verification and the CRR Assessment prepared by PCS will be available on the PCS website (https://pcsmarket.org/sts-verification-transactions/) together with a detailed explanation of its scope at https://pcsmarket.org/disclaimer/. For the avoidance of doubt, such PCS website and the contents thereof do not form part of this Base Prospectus. **No assurance can be provided that each Transaction will or will continue to qualify as an STS-securitisation under the EU Securitisation Regulation on the relevant Issue Date or at any point in time in the future**. None of the Issuer, the Originator, the Co-Arrangers, the Subscribers and the Representative of the Noteholders or any other party to the Transaction Documents makes any representation or accepts any liability for the relevant Transaction to qualify as an STS-securitisation under the EU Securitisation Regulation on the relevant Issue Date or at any point in time in the future.

Each prospective Noteholder is required to independently assess and determine the sufficiency of the information described in this Base Prospectus for the purposes of complying with article 5 of the EU Securitisation Regulation, and none of the Issuer, IBL Banca (in any capacity), the Co-Arrangers, the Subscribers or any other party to the Transaction Documents, makes any representation that the information described in this Base Prospectus is sufficient in all circumstances for such purposes. In addition, each prospective Noteholder should ensure that it complies with any implementing provisions in respect of article 5 of the EU Securitisation Regulation. Investors who are uncertain as to the requirements which apply to them in respect of their relevant jurisdiction

should seek guidance from their regulator. Any material net economic interest to be maintained in the context of each Transaction will be determinted as at each Issue Date in accordance with article 6 of the EU Securitisation Regulation.

From 1 January 2021, relevant UK-established or UK-regulated persons are subject to the EU Prospectus Regulation as it forms part of the domestic law of the UK as "retained EU law" by virtue of the European Union (Withdrawal) Act 2018, as amended (the "**EUWA**"), and as amended by the Securitisation (Amendment) (EU Exit) Regulations 2019 (the "**Securitisation EU Exit Regulations**", and as may be further amended, the "**UK Securitisation Regulation**"). Article 5 of the UK Securitisation Regulation places certain conditions on investments in a "securitisation" (as defined in the UK Securitisation Regulation) (the "**UK Due Diligence Requirements**") by an "institutional investor" (as defined in the UK Securitisation Regulation). The UK Due Diligence Requirements also apply to investments by certain consolidated affiliates, wherever established or located, of such institutional investors which are CRR firms (as defined by article 4(1)(2A) of Regulation (EU) No 575/2013, as it forms part of the domestic law of the UK by virtue of the EUWA) (such affiliates, together with all such institutional investors, "**UK Affected Investors**"). The application of the UK Securitisation Regulation is also subject to the temporary transitional relief being available in certain areas. The UK Securitisation Regulation regime is currently subject to a review, which is likely to result in further changes being introduced in the UK in due course. Therefore, some divergence between EU and UK regimes exists already and the risk of more divergence in the future between EU and UK regimes cannot be ruled out.

None of the Issuer, the Originator, the Co-Arrangers, the Subscribers and the Representative of the Noteholders or any other party to the Transaction Documents will retain or commit to retain a 5 per cent. material net economic interest with respect to the Securitisation in accordance with the UK Securitisation Regulation or makes or intends to make any representation or agreement that it or any other party is undertaking or will undertake to take or refrain from taking any action to facilitate or enable the compliance by UK Affected Investors with the UK Due Diligence Requirements, or to comply with the requirements of any other law or regulation now or hereafter in effect in the UK in relation to risk retention, due diligence and monitoring, credit granting standards or any other conditions with respect to investments in securitisation transactions by UK Affected Investors.

Failure by a UK Affected Investor to comply with the UK Due Diligence Requirements with respect to an investment in the Notes offered by this Base Prospectus may result in regulatory sanctions being imposed by the competent authority of such UK Affected Investor (including the imposition of a higher regulatory capital charges on that investment).

Prospective UK Affected Investors are themselves responsible for analysing their own regulatory position, and should consult their own advisers in this respect and should consider (and where appropriate, take independent advice on) the application of the UK Securitisation Regulation or other applicable regulations and the suitability of the Notes for investment.

None of the Co-Arrangers or the Subscribers is responsible for any obligation of the Seller or the Issuer for compliance with the requirements (including existing or ongoing reporting requirements) of the EU Securitisation Regulation or any corresponding national measures which may be relevant or the UK Securitisation Regulation.

The issuance of the Notes was not designed to comply with the U.S. Risk Retention Rules other than the exemption under Section 20 of the U.S. Risk Retention Rules, and no other steps have been taken by the Issuer, the Originator, the Co-Arrangers, the Subscribers or any of their affiliates or any other party to accomplish such compliance.

In respect of any Series issued under the Programme, at least two rating agencies shall assign a rating to the Senior Notes and/or Mezzanine Notes of the relevant Series as specified in the applicable Final Terms, provided that such rating agencies are established (i) in the European Union and registered under Regulation (EC) No. 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended by Regulation (EU) No. 513/2011 of the European Parliament and of the Council of 11 May 2011 and by Regulation (EU) No. 462/2013 of the European Parliament and of the Council of 21 May 2013 (the "**EU CRA Regulation**"), (ii) in the UK and registered under EU CRA Regulation, as it forms part of domestic law of the United Kingdom by virtue of the EUWA (the "**UK CRA Regulation**"), and included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the website of the European Securities and Markets Authority (currently located at the following website address http://www.esma.europa.eu/page/List-registered-and-certified-CRAs. For the avoidance of doubt, such website does not constitute part of this Base Prospectus (the "**ESMA Website**").

In case the Rated Notes will be rated by Moody's, its general meaning of each relevant long-term debt single rating is as follows (data have been taken out from Moody's website). Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.
Aaa - Obligations rated **Aaa** are judged to be of the highest quality, subject to the lowest level of credit risk.
Aa - Obligations rated **Aa** are judged to be of high quality and are subject to very low credit risk.
A - Obligations rated **A** are considered upper – medium – grade and are subject to low credit risk.
Baa - Obligations rated **Baa** are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
Ba - Obligations rated **Ba** are judged to have speculative elements and are subject to substantial credit risk.
B - Obligations rated **B** are considered speculative and are subject to high credit risk.
Caa Obligations rated **Caa** are judged to be speculative of poor standing and are subject to very high credit risk.
Ca Obligations rated **Ca** are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.
C Obligations rated **C** are the lowest rated and are typically in default, with little prospect for recovery of principal or interest.

In case the Rated Notes will be rated by DBRS, its general meaning of each relevant long-term debt single rating is as follows (data have been taken out from DBRS's website). The below provide an opinion on the risk of default. That is, the risk that an issuer will fail to satisfy its financial obligations in accordance with the terms under which an obligation has been issued. Ratings are based on quantitative and qualitative considerations relevant to the issuer, and the relative ranking of claims. Rating categories below may contain subcategories (high) and (low). The absence of either a (high) or (low) designation indicates the rating is in the middle of the category.

AAA - Highest credit quality. The capacity for the payment of financial obligations is exceptionally high and unlikely to be adversely affected by future events.
AA - Superior credit quality. The capacity for the payment of financial obligations is considered high. Credit quality differs from **AAA** only to a small degree. Unlikely to be significantly vulnerable to future events.
A - Good credit quality. The capacity for the payment of financial obligations is substantial, but of lesser credit quality than **AA**. May be vulnerable to future events, but qualifying negative factors are considered manageable.
BBB - Adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.
BB – Speculative, non-investment-grade credit quality. The capacity for the payment of financial obligations is uncertain. Vulnerable to future events.
B Highly speculative credit quality. There is a high level of uncertainty as to the capacity to meet financial obligations.
CCC / **CC** / **C -** Very highly speculative credit quality. In danger of defaulting on financial obligations. There is little difference between these three categories, although **CC** and **C** ratings are normally applied to obligations that are seen as highly likely to default, or subordinated to obligations rated in the **CCC** to **B** range. Obligations in respect of which default has not technically taken place but is considered inevitable may be rated in the **C** category.
D -When the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods, a downgrade to **D** may occur. DBRS may also use SD (Selective Default) in cases where only some securities are impacted, such as the case of a "distressed exchange".

In case the Rated Notes will be rated by Scope, Scope's general meaning of each relevant long-term debt single rating is as follows (data have been taken out from Scope's website, "Rating Definitions – Credit Rating and Ancillary Services")
AAA -Ratings at the **AAA** level reflect an opinion of exceptionally strong credit quality.
AA - Ratings at the **AA** level reflect an opinion of very strong credit quality.
A - Ratings at the **A** level reflect an opinion of strong credit quality.
BBB -Ratings at the **BBB** level reflect an opinion of good credit quality.
BB Ratings at the **BB** level reflect an opinion of moderate credit quality.

B -Ratings at the **B** level reflect an opinion of weak credit quality.
CCC -Ratings at the **CCC** level reflect an opinion of very weak credit quality.
CC- Ratings at the **CC** level reflect an opinion of extremely weak credit quality.
C- Ratings at the **C** level reflect an opinion of exceptionally weak credit quality.

A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, revision or withdrawal at any time by the assigning rating organisation.

As at the date of this Base Prospectus, payments of interest and other proceeds in respect of the Notes to be issued may be subject to withholding or deduction for or on account of Italian substitute tax, in accordance with Legislative Decree No. 239 of 1 April 1996 ("**Decree 239**") and any related regulations. Upon the occurrence of any withholding or deduction for or on account of tax from any payments under the Notes of any Class, neither the Issuer nor any other person shall have any obligation to pay any additional amount(s) to any holder of Notes of any Class. For further details see the section entitled "*Taxation*".

The Notes of any Series will be limited recourse obligations solely of the Issuer. In particular, the Notes of any Series will not be obligations or responsibilities of, or guaranteed by, any of the Originator, the Master Servicer, the Servicer, the Back-up Servicer, the Representative of the Noteholders, the Calculation Agent, the Back-up Calculation Agent, the Collection Account Bank, the Transaction Bank, the Investment Account Bank, the Cash Manager, the Principal Paying Agent, the Italian Paying Agent, the Listing Agent, the Corporate Servicer, the relevant Subscriber(s), the Co-Arrangers, the Series Swap Counterparty (if any), the Programme Administrator, the Quotaholder or any of their respective affiliates or any other party (other than the Issuer) to the Transaction Documents. Furthermore, none of such persons accepts any liability whatsoever in respect of any failure by the Issuer to make payment of any amount due on the Notes of any Series.

With reference to each Series of Notes, as of the relevant Issue Date of such Series, the Notes will be held in dematerialised form on behalf of the ultimate owners by Monte Titoli for the account of the relevant Monte Titoli Account Holders. Monte Titoli shall act as depository for Euroclear and Clearstream. The Notes will at all times be evidenced by book-entries in accordance with the provisions of article 83-bis of the Financial Laws Consolidation Act and the regulation issued jointly by the Bank of Italy and the *Commissione Nazionale per le Società e la Borsa* on 13 August 2018, as subsequently amended and supplemented. No physical document of title will be issued in respect of the Notes.

Before the relevant maturity date, the Notes of each Series will be subject to mandatory and/or optional redemption in whole or in part in certain circumstances (as set out in Condition 8 (*Redemption, purchase and cancellation*)). Unless previously redeemed in full in accordance with the Conditions, the Notes of each Series will be redeemed on the relevant Final Maturity Date. Save as provided in the Conditions, with reference to each Series, the Notes of each Class will be subject to mandatory redemption in full (or in part *pro rata*) on the First Payment Date and on each Payment Date thereafter in accordance with the Conditions, in each case if on such dates there are sufficient Series Available Funds which may be applied for this purpose in accordance with the relevant Priority of Payments.

Programme Amount

Up to €10,000,000,000 aggregate principal amount of Notes issued by the Issuer under the Programme outstanding at any time.

Programme Purchase Termination	The Programme will terminate on the earlier of (i) December 2050, (ii) the date on which all the Notes outstanding under the Programme have been redeemed in full or cancelled, and (iii) the date of delivery of a Programme Purchase Termination Notice (the "**Programme Maturity Date**"). and provided that the Issuer has provided to the Representative of the Noteholders:

(a) a certificate signed by the Issuer to the effect that the obligation to make a Tax Deduction or the imposition resulting in the total amount payable in respect of such Portfolio ceasing to be receivable by the Issuer cannot be avoided by taking measures reasonably available to the Issuer and not prejudicial to its interests as a whole; and

(b) a certificate signed by the Issuer confirming that the Issuer will, on the relevant Payment Date, have the funds not subject to the interests of any other person required to redeem in whole (but not in part) the Notes of the relevant Series pursuant to the Rated Notes Conditions, the Junior Notes Conditions and the Programme Intercreditor Agreement and any amount required to be paid under the Post Enforcement Priority of Payments in priority to or *pari passu* with the Notes of such Series,

the Issuer may, subject to as provided in the Conditions, redeem in whole (but not in part) the Notes of all Series then outstanding at their Principal Amount Outstanding together with accrued and unpaid interest up to and including the relevant Payment Date.

Final Maturity Date

The Final Maturity Date for the Notes of each Series will be the date specified in the applicable Final Terms.

Unless previously redeemed in full, the Notes of each Series are due to be repaid in full at their Principal Amount Outstanding on the relevant Final Maturity Date. The Notes of

any Series, to the extent not redeemed in full on their relevant Final Maturity Date, shall be cancelled.

Segregation of the Portfolio

By virtue of the operation of Article 3 of the Securitisation Law, the Programme Documents and the Series Documents, with reference to each Transaction, the Issuer's rights, title and interest in and to the relevant Portfolio purchased by the Issuer under each Transaction, any monetary claim accrued by the Issuer in the context of each such Transaction, the relevant collections and the financial assets purchased through such collections (the "**Issuer's Series Segregated Assets**") will be segregated from all other assets of the Issuer (including, for the avoidance of doubt, any other Portfolio purchased by the Issuer in the context of the Programme). Therefore, any cash-flow deriving therefrom (to the extent identifiable) will be exclusively available, both prior to and following a winding up of the Issuer, to satisfy the obligations of the Issuer to the Noteholders of the relevant Series, to the Other Issuer Creditors of the relevant Transaction and to any other creditor of the Issuer in respect of any costs, fees and expenses in relation to the relevant Transaction.

The Issuer's Series Segregated Assets in respect of each Transaction may not be seized or attached in any form by creditors of the Issuer (including for the avoidance of doubts, noteholders and the Issuer's other creditors in respect of the other Transaction carried out by the Issuer under the Programme) other than the Noteholders of the relevant Transaction, until full discharge by the Issuer of its payment obligations under the relevant Series of Notes or cancellation thereof. Pursuant to the terms of the Programme Intercreditor Agreement and the Mandate Agreement, the Issuer has empowered the Representative of the Noteholders, following the service of a Transaction Acceleration Notice or upon failure by the Issuer to promptly exercise its rights under the Transaction Documents, to exercise all the Issuer's Rights, powers and discretion under such Transaction Documents taking such action in the name and on behalf of the Issuer as the Representative of the Noteholders may deem necessary to protect the interests of the Issuer, the Noteholders of the relevant Series of Notes and the Other Issuer Creditors in respect of the Portfolio and the Issuer's Rights. Italian law governs the delegation of such power.

In addition, in respect of each Transaction, security over certain monetary rights of the Issuer arising out of the Series Documents will be granted by the Issuer in favour of the Representative of the Noteholders pursuant to the Series Deed of Pledge and the Series Deed of Charge (if any) for the benefit of the Noteholders of the relevant Series and the Other Issuer Creditors.

Transaction Acceleration Events

If any of the following events (each, a "**Transaction Acceleration Event**") occurs in respect of each Series of Notes issued under the Programme:

(i) *Non-payment of principal:*

the Issuer defaults in the payment of the amount of principal on the relevant Final Maturity Date, as due and payable on the Most Senior Class of Notes of such Series then outstanding, and such default is not remedied within a period of five Business Days from the due date thereof; or

(ii) *Non-payment of interest:*

the Issuer defaults in the payment of the amount of interest on a Payment Date, as due and payable on the Most Senior Class of Notes of such Series then outstanding, and such default is not remedied within a period of five Business Days from the due date thereof; or

(iii) *Programme Purchase Termination Event: Insolvency of the Issuer and Unlawfulness*

A Programme Purchase Termination Event under Condition 12.5.1 (*Insolvency of the Issuer*) or 12.5.2 (*Unlawfulness*) has occurred and the Representative of the Noteholders and/or the Programme Administrator has delivered a Programme Purchase Termination Notice,

then the Representative of the Noteholders shall, in each case subject to being indemnified and/or secured in satisfaction, serve a Transaction Acceleration Notice on the Issuer declaring the Notes of such Series to be due and repayable, whereupon they shall become so due and repayable, following which all payments of principal and interest due in respect of such Notes shall be made according to the Post Enforcement Priority of Payments and on such dates as the Representative of the Noteholders may determine.

Following the delivery of a Transaction Acceleration Notice, the Issuer may (subject to the consent of the Representative of the Noteholders), or the Representative of the Noteholders may (or shall if so requested by an Extraordinary Resolution of the holders of the Most Senior Class of Notes of such Series then outstanding) direct the Issuer to, dispose of the Portfolio under the relevant Transaction, subject to the terms and conditions of the Programme Intercreditor Agreement.

The occurrence of a Transaction Acceleration Event in relation to the Notes of one or more Series (other than the Transaction Acceleration Event under (iii) above) shall not constitute *per se* the occurrence of a Transaction Acceleration Event in relation to the Notes of all Series then outstanding under the Programme.

Programme Purchase Termination Event

If any of the following events (each, a "**Programme Purchase Termination Event**") occurs in respect of the Programme:

(i) *Insolvency of the Issuer:*

an Insolvency Event occurs with respect to the Issuer; or

(B) the Originator becomes subject to any *amministrazione straordinaria*, *liquidazione coatta amministrativa* or a resolution tool (*misura di risoluzione*) pursuant to article 20 of Legislative Decree No. 180 of 16 November 2015 or any other applicable bankruptcy proceedings in any jurisdiction or the whole or any substantial part of the assets of the Originator are subject to a *pignoramento* or similar procedure having a similar effect; or

(iv) *Winding up of the Originator:*

an order is made or an effective resolution is passed for the winding up, liquidation or dissolution in any form of the Originator;

(v) *Termination of IBL Banca's appointment as Servicer*

the Issuer has terminated the appointment of IBL Banca as Servicer following the occurrence of a

Servicer's Termination Event set forth in Clause 4 of the Programme Servicing Agreement, except for the Servicer Termination Event set forth in Clause 4.1.5 of the Programme Servicing Agreement,

then the Programme Administrator and/or the Representative of the Noteholders shall serve a Programme Purchase Termination Notice on the Issuer.

Upon the service of a Programme Purchase Termination Notice, the Issuer shall refrain from purchasing any additional Portfolio and from making any further issue of Series of Notes under the Programme.

In particular, in respect of any Series:

(i) no Noteholder (nor any person on its behalf, other than the Representative of the Noteholders, where appropriate) is entitled, otherwise than as permitted by the relevant Transaction Documents, to direct the Representative of the Noteholders to enforce the security created pursuant to the relevant Series Deed of Pledge or the Series Deed of Charge (if any) or take any proceedings against the Issuer to enforce such security;

(iii) until the date falling two years and one day after the date on which the Notes of all Series issued under the Programme have been redeemed in full or cancelled in accordance with their terms and conditions, no Noteholder (nor any person on its behalf, other than the Representative of the Noteholders when so directed by an Extraordinary Resolution of the Noteholders of all Series then outstanding and only if the representative(s) of the noteholders of all other securitisations undertaken by the Issuer, if any, have been so directed by the appropriate resolutions of their respective noteholders in accordance with the relevant transaction documents) shall initiate or join any person in initiating an Insolvency Event in relation to the Issuer; and

(iv) no Noteholder shall be entitled to take or join in the taking of any corporate action, legal proceedings or other procedure or step which would result in the Priority of Payments not being complied with.

Limited recourse obligations of the Issuer

Notwithstanding any other provision of the relevant Series Documents and the Programme Documents, all obligations of the Issuer to the Noteholders of any Series are limited in recourse as set out below:

(i) each Noteholder will have a claim only in respect of the relevant Series Available Funds and at all times only in accordance with the applicable Priority of Payments and will not have any claim, by operation of law or otherwise, against, or recourse to, (a) the Issuer's other assets or its contributed capital, and (b) the Portfolio purchased under any other Transaction and the Series Available Funds of such Transaction;

(ii) sums payable to each Noteholder in respect of the Issuer's obligations to such Noteholder shall be limited to the lesser of (a) the aggregate amount of all sums due and payable to such Noteholder; and (b) the relevant Series Available Funds, net of any sums which are payable by the Issuer in accordance with the Priority of Payments in priority to or *pari passu* with sums payable to such Noteholder; and

(iii) if the Servicer has certified to the Programme Administrator and the Representative of the Noteholders that there is no reasonable likelihood of there being any further realisations in respect of the Issuer's Segregated Assets of the relevant Transaction or the security created pursuant to the relevant Series Deed of Pledge or the Series Deed of Charge (if any) (whether arising from judicial enforcement proceedings, enforcement of the security or otherwise) which would be available to pay unpaid amounts outstanding under the relevant Series Documents and the Programme Administrator or the Representative of the Noteholders has given notice on the basis of such certificate in accordance with the Conditions and the relevant Final Terms that there is no reasonable likelihood of there being any further realisations in respect of such Issuer's Segregated Assets or the security created pursuant to the relevant Series Deed of Pledge or the Series Deed of Charge (if any) (whether arising from judicial enforcement proceedings, enforcement of the security or otherwise) which would be available to pay amounts outstanding under such Series Documents, the Noteholders shall have no further claim against the Issuer in respect of any such unpaid amounts and such unpaid amounts shall be cancelled and deemed to be discharged in full.

The Organisation of the Noteholders and the

The Organisation of the Noteholders shall be established upon and by virtue of each issuance of a Series of Notes and shall

Pursuant to the Rules of the Organisation of the Noteholders (attached to the Conditions of the Notes), for as long as any Note of any Series is outstanding, there shall at all times be a Representative of the Noteholders in respect of any such Series. The appointment of the Representative of the Noteholders, as legal representative of the Organisation of the Noteholders, is made by the Noteholders subject to and in accordance with the Rules of the Organisation of the Noteholders, except for the initial Representative of the Noteholders appointed at the time of establishment of the Programme in respect of all Series of Notes to be issued thereunder, who is appointed by the relevant Subscriber(s) under the relevant Series Subscription Agreement. Each Noteholder of any Series is deemed to accept such appointment.
Selling restrictions of the Notes	The Notes will be subject to certain selling restrictions, as set out in the Series Subscription Agreement. In particular, the Notes: (a) may not be offered or sold within the United States, subject to certain exceptions; and (b) may be sold in other jurisdictions (including the Republic of Italy and other Member States of the European Economic Area) only in compliance with applicable laws and regulations.
Listing and admission to trading	Application has been made to the *Commission de Surveillance du Secteur Financier* (the "**CSSF**") for the approval of this Base Prospectus as a base prospectus in compliance with the Prospectus Regulation. Application has also been made for the Rated Notes of each Series issued under the Programme to be listed on the official list of and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange. No application has been made to list the Junior Notes on any stock exchange.
Rating	The Class A Notes and the Class B Notes (if any) of each Series will have a rating assigned by at least two Rating Agencies, as specified in the relevant Final Terms. No rating shall be assigned to the Junior Notes of any Series. ***A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by each Rating Agency.***
STS-Securitisation	Each Transaction under the Programme is intended to be qualified as a simple, transparent and standardised ("**STS**") securitisation within the meaning of article 18 of Regulation (EU) no. 2402 of 12 December 2017 (the "**EU Securitisation Regulation**"). Consequently, each Transaction under the Programme, is expected to meet, as at the relevant Issue Date, the requirements of articles 19 to 22 of the EU Securitisation Regulation and to be notified to ESMA by the

Originator so as to be included in the list published by ESMA referred to in article 27, paragraph 5, of the EU Securitisation Regulation. The STS notification will be available for download on the website of ESMA. ESMA has, in accordance with Articles 27(6) and (7) of the EU Securitisation Regulation developed and published on 16 July 2018 a final draft regulatory technical standard specifying the information that the originators, sponsors and SSPEs are required to provide in order to comply with their STS notification requirements. As of the date hereof, such regulatory technical standard still has to be adopted by the European Commission. ESMA is obliged to maintain on its website a list of all securitisations which the originators and sponsors have notified as meeting the STS requirements in accordance with Article 27(5) of the EU Securitisation Regulation. For this purpose, ESMA has set up a register on an interim basis under https://www.esma.europa.eu/policy-activities/securitisation/simple-transparent-and-standardised-sts-securitisation. According to ESMA, a more established register is to be launched in due course and placed on the dedicated section of its website under https://registers.esma.europa.eu/publication/. The Originator will use the service of PCS as a third party verifying STS compliance, authorised under article 28 of the EU Securitisation Regulation in connection with the STS Verification, the CRR Assessment. It is expected that the STS Verification and the CRR Assessment prepared by PCS will be available on the PCS website (https://www.pcsmarket.org/sts- verification-transactions/) together with a detailed explanation of its scope at https://www.pcsmarket.org/disclaimer. For the avoidance of doubt, such PCS website and the contents thereof do not form part of this Base Prospectus. **No assurance can be provided that each Transaction under the Programme will continue to qualify as an STS-securitisation under the EU Securitisation Regulation at any point in time in the future**. None of the Issuer, the Originator, the Co-Arrangers, the Subscribers, the Representative of the Noteholders, or any other party to the Transaction Documents makes any representation or accepts any liability for each Transaction under the Programme to qualify as an STS-Securitisation under the EU Securitisation Regulation at any point in time in the future. Furthermore, it should be noted that as at the date of this Base Prospectus the Notes are not expected to satisfy the requirements stemming from article 13 of the LCR Delegated Regulation.

Euro-system eligibility: form and settlement systems of the Class A Notes

The Class A Notes of each Series are intended to be held in a manner which would allow Euro-system eligibility pursuant to and for the purposes of the Guideline (EU) 2015/510 of the European Central Bank of 19 December 2014 (the "**Guideline**"). This means that the Class A Notes are intended upon issue to be held in dematerialized form, settled and evidenced as book entries with Monte Titoli S.p.A. ("**Monte Titoli**") - acting as depository for Euroclear and Clearstream - that constitutes a securities settlement system ("**SSS**") which has been positively assessed as eligible pursuant to the

Eurosystem User Assessment Framework. However, this does not necessarily mean that the Class A Notes will be recognised as eligible collateral for the purposes of the Guideline by the Euro-system either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of all the Euro-system eligibility criteria provided for by the Guideline. It is expected that the Mezzanine Notes and the Junior Notes will not satisfy the Euro-system eligibility criteria provided for by the Guideline.

Governing Law The Notes of all Series will be governed by Italian Law.

Material Net Economic Interest in the Securitisation Under the terms of the Programme Intercreditor Agreement, the Originator has undertaken to the Issuer and the Representative of the Noteholders that it will retain on the relevant Issue Date of each Series of Notes and maintain on an on-going basis at least 5 per cent. of net economic interest in accordance with the Retention and Transparency Rules.

4. TRANSFER OF THE PORTFOLIO

In respect of each Transaction, the principal source of payment of interest and of repayment of principal on the Notes of any Series will be collections and recoveries made in respect of the relevant Portfolio which will be purchased by the Issuer by using the funds deriving from the issuance of such Series of Notes, in accordance with the provisions of the Programme Receivables Purchase Agreement and the relevant Transfer Agreement.

The Portfolio of each Transaction will be assigned and transferred to the Issuer without recourse (*pro soluto*) against the Originator in the case of a failure by any of the Debtors to pay amounts due under the relevant Receivables, in accordance with the Securitisation Law and subject to the terms and conditions of the Programme Receivables Purchase Agreement and the relevant Transfer Agreement entered into in respect of the purchase of the relevant Portfolio.

The Purchase Price in respect of the Portfolio of each Transaction will be equal to the sum of all Individual Purchase Prices of the Receivables included in such Portfolio and will be paid on the Issue Date of the relevant Series of Notes (as specified in the applicable Final Terms for such Series) using the net proceeds of the issue thereof.

The Issuer has also established the Quota Capital Account with IBL Banca for the purpose of depositing its quota capital.

Eligible Institution

"**Eligible Institution**" means any depository institution organised under the laws of any state which is a member of the European Union or of the United States:

a) with a "Baa2" long-term rating by Moody's or, in the event of a depository institution which does not have a long-term rating by Moody's, a "P-2" short-term rating by Moody's.

b) with respect to DBRS the rating at least equal to "BBB (high)" being:

(1) in case a public or private rating has been assigned by DBRS, the higher of (I) the rating one notch below the institution's COR (if assigned), and (II) the long-term senior unsecured debt rating or deposit rating; or

(2) in case a long-term COR has not been assigned by DBRS, the higher of the relevant institution's issue rating, long-term senior unsecured debt rating or deposit rating; or

(3) in case a public or private rating has not been assigned by DBRS, a DBRS Minimum Rating; and

c) if rated by Scope, whose long-term and short term bank issuer ratings are rated at least, respectively, "BBB" and “S-2” by Scope, provided that a rating by Scope is (a) the public or subscription rating assigned by Scope or, if there is no public or subscription rating, (b) the private rating assigned by Scope or the internal credit assessment made by Scope,

or such other rating or ratings as may be agreed by the relevant Rating Agency from time to time as would maintain the then current ratings of the Notes.

For clarification, the DBRS rating is (a) the public rating assigned by DBRS or, if there is no public DBRS rating, then (b) the private rating assigned by DBRS. In the event of a depository institution which does not have a private rating nor a public rating from DBRS, then for DBRS the Eligible Institution will mean a depository institution whose DBRS Minimum Rating is at least BBB(high).

"**DBRS Minimum Rating**" means:

(a) if a Fitch long term public rating, a Moody’s long term public rating and an S&P long term public rating (each, a Public Long Term Rating) are all available at such date, the DBRS Minimum Rating will be the DBRS Equivalent Rating of such Public Long Term Rating remaining after disregarding the highest and lowest of such Public Long Term Ratings from such rating agencies (provided that if such Public Long Term Rating is under credit watch negative, or the equivalent, then the DBRS Equivalent Rating will be considered one notch below) (for this purpose, if more than one Public Long Term Rating has the same highest DBRS Equivalent Rating or the same lowest DBRS Equivalent Rating, then in each case one of such Public Long Term Ratings shall be so disregarded);

(b) if the DBRS Minimum Rating cannot be determined under (a) above, but Public Long Term Ratings by any two of Fitch, Moody’s and S&P are available at such date, the DBRS Minimum Rating will be the DBRS Equivalent Rating of the lower of such Public Long Term Rating (provided that if such Public Long Term Rating is under credit watch negative, or the equivalent, then the DBRS Equivalent Rating will be considered one notch below); and

(c) if the DBRS Minimum Rating cannot be determined under (a) and (b) above, but Public Long Term Ratings by any one of Fitch, Moody’s and S&P are

available at such date, then the DBRS Minimum Rating will be the DBRS Equivalent Rating of such Public Long Term Rating (provided that if such Public Long Term Rating is under credit watch negative, or the equivalent, then the DBRS Equivalent Rating will be considered one notch below).

If at any time the DBRS Minimum Rating cannot be determined under subparagraphs (a) to (c) above, then a DBRS Minimum Rating of "C" shall apply at such time.

"**DBRS Equivalent Rating**" has the meaning given to such term in Condition 2 (*Definitions*).

Eligible Investments

"**Eligible Investments**" means:

(A) euro-denominated senior dematerialised unsubordinated debt financial instruments but excluding for the avoidance of doubt credit linked notes and money market funds, or

(B) account or deposit with a maturity date falling not later than the next succeeding Eligible Investments Maturity Date, held with an Eligible Institution,

provided that, in all cases: (i) such investments are immediately repayable on demand, disposable without penalty or have a maturity date falling on or before the next following Eligible Investments Maturity Date; (ii) such investments provide a fixed principal amount at maturity (such amount not being lower than the initially invested amount), and (iii) the debt securities or other debt instruments are issued by, or fully and unconditionally guaranteed on an unsubordinated basis by, an institution whose unsecured and unsubordinated debt obligations have the following ratings (or such other rating or ratings as may be agreed by the relevant Rating Agency from time to time as would maintain the then current ratings of the Notes):

(1) with respect to Moody's ratings, either: (i) with a "Baa2" long-term rating by Moody's or, in the event of a depository institution which does not have a long-term rating by Moody's, a "P-2" short-term rating by Moody's; or (ii) such other lower rating being compliant with the criteria established by Moody's from time to time;

(2) with respect to DBRS ratings, either: (i) "R-1(low)" by DBRS in respect of short-term debt and "BBB (high)" by DBRS in respect of long-term debt; or (ii) otherwise, which has the following ratings from at least 2 of the following rating agencies: (a) at least "A" by Fitch; (b) at least "A" by Standard & Poor's; (c) at least "A2" by Moody's; and

provided that, in any event, (a) the Eligible Investments set out above will have a maturity of less than or equal to one month, and (b) none of the Eligible Investments set out above may consist, in whole or in part, actually or potentially, of (i) credit-linked notes or similar claims resulting from the transfer of credit risk by means of credit derivatives nor may any amount available to the Issuer in the context of the Securitisation otherwise be invested in any such instruments at any time, or (ii) asset-backed securities, irrespective of their subordination, status or ranking, or (iii) swaps, other derivative instruments, or synthetic securities or any other instrument from time to time specified in the European Central Bank monetary policy regulations applicable from time to time.

"**Eligible Investments Maturity Date**" means, in respect of each Transaction, in relation to Eligible Investments (if any) deriving from the investment of the relevant Series Available Funds to be distributed on a certain Payment Date, the day falling on the second Business Day immediately preceding such Payment Date.

RISK FACTORS

Investing in the Notes involves certain risks. The following section is a description of the material risk factors known as of the date of this Base Prospectus in relation to the issue of the Notes of which prospective noteholders should be aware. Prospective noteholders should make their own independent valuation of all of the risk factors and should also read the detailed information set forth elsewhere in this Base Prospectus, in the Programme Documents, in the applicable Final Terms and in the Series Documents of the relevant Transaction and reach their own views prior to making an investment decision.

CATEGORY OF RISK FACTOR 1: RISK FACTORS RELATING TO THE ISSUER

Issuer's ability to meet its obligations under the Notes

The Notes of any Series will be limited recourse obligations solely of the Issuer.

In particular, with reference to each Transaction, the ability of the Issuer to meet its obligations in respect of the Notes of the relevant Series will be dependent on (i) the receipt by the Issuer of collections and recoveries made on its behalf by the Master Servicer and/or the Servicer from the relevant Portfolio, (ii) the amounts standing to the credit of the relevant Liquidity Reserve Account and Additional Reserve Account; and (iii) any other amounts received by the Issuer pursuant to the provisions of the other relevant Series Documents to which it is a party (including the relevant Series Swap Agreement, if any). The performance by such parties of their respective obligations under the relevant Series Documents is dependent on the solvency of each relevant party. Consequently, with reference to each Transaction, there is no assurance that, over the life of the Notes of the relevant Series (whether on the relevant Final Maturity Date, upon redemption by acceleration of maturity following the service of a Transaction Acceleration Notice or otherwise), there will be sufficient funds to enable the Issuer to pay interest on such Notes or to repay such Notes in full.

If there are not sufficient funds available to the Issuer to pay in full all principal, interest and other amounts due in respect of such Notes, then the relevant Noteholders will have no further claims against the Issuer in respect of any such unpaid amounts. Following the service of a Transaction Acceleration Notice, the only remedy available to the relevant Noteholders and the relevant Other Issuer Creditors is the exercise by the Representative of Noteholders of the Issuer's Rights. In this circumstance, there is no assurance that the net proceeds of the realisation of the Issuer’s Rights will be sufficient to pay all amounts due to the relevant Noteholders after making payments to the other creditors of the Issuer ranking prior thereto. In particular, in the event of a shortfall in such proceeds, the Issuer will not be obliged to pay to the relevant Noteholders and its other creditors any residual amount which has not been paid by the Issuer after application of such proceeds and, in addition, the other assets of the Issuer will not be available for such payments.

Each Portfolio which will be purchased under the Programme will be exclusively comprised of Loans which were/are "performing" as at the relevant Valuation Date (see "The Portfolios"). There can be no guarantee that (i) the Debtors will continue to perform under the Loans; (ii) the Employers/Pension Authorities will continue to perform under the Salary Assignments and the Payment Delegations; or (iii) the Insurance Companies will perform their obligations under the Insurance Policies.

It should be noted that economic conditions may affect the ability of the Debtors and/or the Employers/Pension Authorities to repay the Loans and/or the Insurance Companies to make payments under the Insurance Policies.

The recovery of overdue amounts in respect of the Loans (and/or other claims comprised in the Portfolio) will be affected by the length of enforcement proceedings in respect of the Loans (and/or other claims comprised in each Portfolio), which in the Republic of Italy can take a considerable amount of time

depending on the type of action required and where such action is taken. Factors which can have a significant effect on the length of the proceedings include the following: (i) certain courts may take longer than the national average to enforce the (and/or other claims comprised in each Portfolio) and (ii) more time will be required for the proceedings if it is necessary first to obtain a payment injunction (*decreto ingiuntivo*) or if the Debtor or any Employer/Pension Authority and/or Insurance Company raises a defence or counterclaim to the proceedings.

Such credit and liquidity risks will be mitigated, with reference to each Transaction, by the availability of the relevant Liquidity Reserve and Additional Reserve and, with respect to the relevant Class A Notes, by the credit support provided by the relevant Class B Notes and Class J Notes, and with respect to the relevant Class B Notes, by the credit support provided by the relevant Class J Notes.

There can be no assurance that the levels of credit support and the liquidity support provided by the subordination of the Notes and by the funds of the Liquidity Reserve and the Additional Reserve will be adequate to ensure punctual and full receipt of amounts due under the Notes.

By virtue of the operation of Italian law, with reference to each Transaction the rights, title and interests of the Issuer in and to the relevant Portfolio, any monetary claim accrued by the Issuer in the context of such Transaction, the relevant collections and the financial assets purchased through such collections will be segregated from all other assets of the Issuer (including, for the avoidance of doubt, any other Portfolio purchased in the context of the Programme). Therefore, any cash-flow deriving therefrom (to the extent identifiable) will be exclusively available, both prior to and following a winding up of the Issuer, to satisfy the obligations of the Issuer to the Noteholders of the relevant Series, the Other Issuer Creditors of such Transaction and any other creditor of the Issuer in respect of any costs, fees and expenses in relation to such Transaction.

With reference to each Transaction, each Other Issuer Creditor has undertaken in the Programme Intercreditor Agreement not to petition or commence proceedings for a declaration of insolvency (nor join any such petition or proceedings) against the Issuer until the date falling two years and one day after the date on which the Notes of the relevant Series have been redeemed in full or cancelled in accordance with their terms and conditions.

Credit risk on IBL Banca (acting as Servicer) and the other parties to the Series Documents relating to the relevant Transaction

With reference to each Transaction, the ability of the Issuer to make payments in respect of the Notes of the relevant Series will depend to a significant extent upon the due performance by IBL Banca (acting as Servicer) and the other parties to the relevant Transaction Documents of their respective obligations under such Series Documents to which they are parties. In particular, without limiting the generality of the foregoing, the timely payment of amounts due on the Notes will depend on the ability of the Servicer to service the relevant Portfolio and to recover the amounts relating to the relevant Defaulted Receivables (if any). With reference to each Transaction, the performance of such parties of their respective obligations under the relevant Series Documents is dependent, *inter alia*, on the solvency of each relevant party.

Furthermore, the Issuer's ability to make payments in respect of the Notes of any Series may depend on the performance by the Originator of its obligations under the Programme Warranty and Indemnity Agreement. In particular, in the event that the Originator becomes subject to insolvency or similar proceedings, it would no longer be in a position to meet its indemnification obligations to the Issuer under the Programme Warranty and Indemnity Agreement. In addition, in such case, any payments made by the Originator as indemnity or as repurchase price under the Programme Warranty and Indemnity Agreement, or as indemnity for the renegotiation of the Receivables comprised in the Portfolio purchased in the context of each Transaction under the Programme Servicing Agreement or as repurchase price of the such Receivables, respectively, may be subject to ordinary claw back regime under Italian Law (for further details see the section "*Selected Aspects of Italian Law*").

The ability of the Issuer to meet its obligations under the Notes of any Series is dependent on the performance of other parties to the relevant Transaction.

The timely payment of amounts due on the Notes of any Series will depend on the performance of other Issuer's counterparties, including, without limitation, the ability of the Back-up Servicer, the Calculation Agent, the Corporate Servicer, the Cash Manager, the Paying Agents and the Account Banks to duly perform their obligations under the relevant Transaction Documents. In addition, the ability of the Issuer to make payments under the Notes of any Series may depend to an extent upon the due performance by the Originator of its obligations under the the Programme Receivables Purchase Agreement and the relevant Transfer Agreement in respect of the relevant Portfolio. The performance of such parties of their respective obligations under the relevant Transaction Documents may be influenced by the solvency of each relevant party.

Replacement of the Master Servicer and/or of the Servicer

In order to mitigate the servicing risk in respect of each Portfolio, the Back-up Servicer has been appointed by the Issuer pursuant to the Programme Back-up Servicing Agreement and has undertaken to act as substitute of the Master Servicer in case of termination of the appointment of the Master Servicer and/or of the Servicer under the Programme Servicing Agreement. In particular, after termination of the appointment of the Master Servicer and/or of the Servicer under the Programme Servicing Agreement, the Back-up Servicer has undertaken to service each Portfolio purchased in the context of each Transaction and assumes and/or performs the duties and obligations of the Master Servicer and/or of the Servicer on the same terms provided for in the Programme Servicing Agreement. However, it is not certain that, in the events provided under the Programme Servicing Agreement, the Back-Up Servicer will be able to replace at once the Master Servicer and/or of the Servicer in the performance of its duties under the Programme Servicing Agreement, which could affect the proceeds of the Portfolios available to the Issuer to make payments under the Notes.

Commingling Risk

The Issuer may be subject to the risk that, in the event of insolvency of IBL Banca, acting as Servicer, with reference to each Transaction, the relevant Collections and/or the amounts received in respect of the relevant Portfolio then held by such entity are lost. The risk is mitigated in a number of ways.

First, the Law Decree No. 91/2014 introduced certain specific segregation and bankruptcy provisions dealing with the bank accounts of the servicer (or of the sub-servicers) for the deposit of the collections of the securitised receivables (the “Servicer Accounts”). Such new provisions established that sums credited in the Servicer Accounts can be seized and attached by the creditors of the Servicer only within the limit of the amounts exceeding the sums collected and due to the SPV in respect of the securitised receivables. Moreover pursuant to such new provisions, if the servicer (or the sub-servicers) is subject to any insolvency proceeding, then the securitised collections deposited (both prior to and during such proceeding) into the relevant Servicer Accounts will not be subject to suspension of payments and will be immediately repaid to the relevant issuer, without the need to file any petition in the relevant insolvency proceeding and outside of any distribution plan. Prospective investors should however be aware that, as at the date of this Base Prospectus, the new provisions of the Securitisation Law introduced by Law Decree Competititivà have never (or rarely) been tested in any case law, or specified in any further regulation and could be in conflict with or superseded by the provisions relating to the bail-in and the other resolution tools implemented in Italy pursuant to the BRRD (i.e. Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014).

Moreover, the Issuer has taken certain actions, such as requiring the Servicer to procure that the any amounts collected and/or recovered in respect of the Receivables comprised in the Portfolio purchased in the context of each Transaction are: (i) collected and credited to bank accounts (established in the name of the Servicer and/or managed by the Servicer) which are maintained separate from other funds belonging to the Servicer and/or third parties, and (ii) are transferred to the Collection Account of the

Issuer opened in the context of such Transaction (which shall at all times be maintained with an Eligible Institution, other than if maintained with the Collection Account Bank) on the Business Day following the relevant date of receipt of the relevant Collections by the Servicer.

Issuer an unsecured creditor of the Originator

The Issuer will rely on the fact that the Originator has assumed the obligation to indemnify and hold harmless the Issuer for any losses, liabilities, damages, costs, actions and proceedings (each a "**Claim**") by virtue of the mechanism of the *accollo liberatorio* pursuant to article 1273 of the Italian Civil Code and on the further representations and warranties given by the Originator in the Programme Warranty and Indemnity Agreement and in each Transfer Agreement. These remedies of the Issuer in respect of the occurrence of a Claim and/or a breach of a representation and warranty which materially and adversely affects the value of a Receivable will be the requirement that the Originator indemnifies the Issuer for the damages deriving therefrom – or repurchase the relevant Receivable in accordance with, and subject to, the terms and conditions of the Programme Warranty and Indemnity Agreement. There can be no assurance that the Originator will have the financial resources to honour such obligations.

Limitations on cross-liability between Transactions

By virtue of the operation of article 3 of the Securitisation Law, the Programme Documents and Series Documents relating to each Transaction, the Issuer's Series Segregated Assets will be segregated from all other assets of the Issuer (including, for the avoidance of doubt, any other Portfolio purchased by the Issuer in the context of the Programme). Therefore, any cash-flow deriving therefrom (to the extent identifiable) will be exclusively available, both prior to and following a winding up of the Issuer, to satisfy the obligations of the Issuer to the Noteholders of the relevant Series, to the Other Issuer Creditors of the relevant Transaction and to any other creditor of the Issuer in respect of any costs, fees and expenses in relation to the relevant Transaction. In addition, the assets relating to each Transaction will not be available to the holders of Notes issued to finance any purchase of any other Portfolio under the Programme or to general creditors of the Issuer.

Payment Delegation

The Payment Delegations relating to each Portfolio have been issued by the relevant Debtors in favour of IBL Banca (*i.e.* the relevant Employers pay the portion of salary or pension object of Payment Delegation to IBL Banca in repayment of the relevant DP Loans).

In the event of bankruptcy or other insolvency proceeding of the Originator, the Delegations of Payment can be terminated. As a result, in order for the Issuer to be entitled to receive the relevant quotas of the wages or salaries or pensions from the Employers of the relevant Debtors in discharge of the payment obligations under the relevant Loans, it would be necessary that (i) such Debtors issue new Delegations of Payment in favour of the Issuer, and (ii) the Employers accept such new Delegations of Payment, subject to the requirements and limits provided for by general law provisions and by the applicable Circulars of the Minister of Treasury.

In this respect, it has to be noted that the Debtors and the Employers are under no obligation to execute a new Payment Delegation and accept them, respectively, so this result in the failure of or the delay in processing of payments on the Receivables and ultimately could adversely affect payment of interest and principal on the Notes.

Eligible Investments

Funds on deposit in certain Accounts may be invested in Eligible Investments by the Issuer through the Cash Manager, pursuant to the Cash Allocation Management and Payment Agreement. The investments must have appropriate ratings corresponding to the term of the investment, as provided by the Eligible Investment definition. However, it may be that, irrespective of any such rating, such investments will be

irrecoverable due to the insolvency or default of the relevant debtor in respect of the investment. In the event any of the investments are irrecoverable the Issuer would have less funds available to it to make payments under the Notes which could affect whether or not Noteholders are repaid in full.

Please also see for further details the section named “The Accounts”.

CATEGORY OF RISK FACTOR 2: RISK FACTORS RELATING TO THE NOTES

Investment in the Notes is only suitable for certain investors

Structured securities, such as the Notes, are sophisticated financial instruments, which can involve a significant degree of risk. Prospective investors in any Class of the Notes should ensure that they understand the nature of such Notes and the extent of their exposure to the relevant risks. Such prospective investors should also ensure that they have sufficient knowledge, experience and access to professional advice to make their own legal, tax, accounting and financial evaluation of the merits and risks of an investment in the Notes and that they consider the suitability of such Notes as an investment in light of their own circumstances and financial condition.

Investment in the Notes is only suitable for investors who (i) have the requisite knowledge and experience in financial and business matters to evaluate such merits and risks of an investment in the Notes; (ii) have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of their financial situation; (iii) are capable of bearing the economic risk of an investment in the Notes; and (iv) recognise that it may not be possible to dispose of the Notes for a substantial period of time, if at all.

Prospective Noteholders should not rely on or construe any communication (written or oral) of the Issuer, the Originator, the Co-Arrangers, the Subscribers or any other Transaction Party as investment advice or as a recommendation to invest in the Notes, it being understood that information and explanations related to the Conditions shall not be considered to be investment advice or a recommendation to invest in the Notes. No communication (written or oral) received from the Issuer, the Originator, the Co-Arrangers, the Subscribers or any other Transaction Party shall be deemed to be an assurance or guarantee as to the expected results of an investment in the Notes.

If an investor does not properly assess the nature of the Notes and the extent of its exposure to the relevant risks before making its investment decision, it may suffer losses.

Therefore, prospective Noteholders should make their own independent decision whether to invest in the Notes and whether an investment in the Notes is appropriate or proper for them, based upon their own judgment and upon advice from such advisers as they may deem necessary.

Interest rate risk

With reference to each Transaction, the Issuer may issue Notes whose floating rate interest is linked to EURIBOR and expects to meet its obligations under the Notes of the relevant Series primarily from the relevant Collections in respect of the Receivables, which may have no correlation to EURIBOR. To protect from a situation where EURIBOR increases to the extent that such Collections are no longer sufficient to cover the Issuer’s obligations under the Rated Notes of such Series, the Issuer may execute, on or around the Issue Date of the relevant Series and in relation to such Series, an interest rate swap transaction (or an interest rate option or any other agreement having the same interest rate hedging economic and financial purpose) with the relevant Series Swap Counterparty/ies. However, should any of the Series Swap Agreements be terminated for any reason, no assurance can be given that similar protection could be obtained.

Italian consumer protection legislation

All of the Loans are consumer loans and are regulated by, amongst other things: (i) articles 121 to 126 of the Consolidated Banking Act and (ii) Italian Legislative Decree No. 206 of 6 September 2005 (the "**Consumer Code**"). The following risks, amongst others, could arise in relation to a consumer loan contract:

(i) pursuant to article 125-*sexies*, paragraph 1, of the Consolidated Banking Act, borrowers under consumer loancontracts have the right to prepay any consumer loan without penalty and with the additional right to a *pro rata* reduction in the aggregate costs and interest of the loan. It should, however, be noted that, in the event ofprepayment by the borrower, the lender, under certain circumstances, is entitled to a compensation equal to 1 per cent. of the prepaid amount of the consumer loan if the residual duration of the consumer loan is longer than one year, or equal to 0.5 per cent. of the same amount, if shorter; in any case, no prepayment penalty shallbe due (i) if the repayment has been made under an insurance contract intended to provide a credit repaymentguarantee; or (ii) in the case of overdraft facilities; or (iii) if the repayment falls within a period for which the borrowing rate is not a fixed rate; or (iv) if the prepaid sum is equal to the total outstanding amount of the relevant consumer loan and is equal to or less than Euro 10,000.

The provisions of article 125-*sexies* of the Consolidated Banking Act have been recently amended by Law Decree no. 73 of 25 May 2021, as converted into Law no. 106 of 23 July 2021 (the so-called Sostegni-*bis* Decree). Pursuant to the Sostegni-bis Decree, the consumer loan agreements shall clearly indicate the criteria applicable for such interest and cost reduction, being a linear proportional reduction or a reduction based on the loan amortised cost. Unless otherwise specified in the relevant consumer loan agreement, a reduction based on the loan amortised cost would apply. Save for any different agreement between the lenders and the relevant credit intermediaries, the lenders would have a recourse against such credit intermediaries for the recovery of an amount equivalent to the portion of the credit intermediaries' fees reimbursed to the borrowers as a result of the prepayment.

The amendments to article 125-*sexies* of the Consolidated Banking Act introduced by the Sostegni-bis Decree would apply to the consumer loan agreements executed after the entry into force of conversion law. Any prepayment relating to consumer loan agreements entered into prior to such date would continue to be governed by the previous provisions of article 125-*sexies*, as well as by the Bank of Italy's regulations applicable at the time of the relevant prepayment;

(ii) pursuant to article 125-*septies* of the Consolidated Banking Act, debtors of consumer loans are entitled to exercise against the assignee of any lender under a consumer loan contract, any defense (including set-off) which they had against the original lender, in derogation of the provisions of article 1248 of the Italian Civil Code (that means the debtors have such right even if they have accepted the assignment or have been given written notice thereof and if the transfer has been made enforceable against them). In this respect, it must be noted that article 4, paragraph 2 of the Securitisation Law provides that debtors of securitised receivables are not entitled to exercise any right of set-off against the securitisation special purpose vehicle for any claims they have towards the originator which have arisen after the date of completion of the enforceability formalities of the transfer of such receivables to the securitisation company as provided for under the Securitisation Law. However, it is unclear whether the provisions contained in article 4, paragraph 2 of the Securitisation Law in relation to set-off rights of the assigned debtors also prevails on article 125-*septies* of the Consolidated Banking Act, considering the special nature of the latter (*i.e.* provisions aimed at protecting the category of consumers). For this purpose, under the Programme Warranty and Indemnity Agreement the Originator has agreed to indemnify the Issuer, with reference to each Transaction, in respect of any reduction in amounts received by the Issuer in respect of the relevant Receivables as a result of the exercise by any Debtor and/or any Employer of a right of set-off (except for set-off made in respect of the Management Fee, for which a cash reserve has been created, and will be maintained, on the relevant Management Fee Reserve Account according to the terms of the Transaction Documents). In addition, under the terms of the Programme Warranty and Indemnity Agreement, the Originator has agreed to indemnify the Issuer in respect of any set-off made by the Debtor

pursuant to article 125-*septies* of the Consolidated Banking Act; Moreover the Originator has represented to the Issuer that, with reference to each Transaction, no bank accounts and/or deposit accounts have been opened by the Debtors with it;

(iii) in addition, Article 33 of the Consumer Code provides that any clause in a consumer contract which contains a material imbalance between the rights and obligations of the consumer under the contract is deemed to be unfair and is not enforceable against the consumer whether or not the consumer's counterparty acted in good faith. The Originator has represented and warranted in the Warranty and Indemnity Agreement that the Loan Agreements comply with all applicable laws and regulations.

Changes or uncertainty in respect of Euribor and/or other interest rate benchmark may affect the value of payment of interest under the Rated Noted

The Rated Notes are linked to the Euro Interbank Offered Rate ("**EURIBOR**"). EURIBOR and other indices which are deemed "benchmarks" ("**Benchmarks**") are the subject of recent national, international and other regulatory guidance and proposals for reform, including IOSCO's proposed Principles for Financial Benchmarks (July 2013) (the "**IOSCO Benchmark Principles**") and the EU's Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmarks Regulation**"). The Benchmarks Regulation would apply to "contributors", "administrators" and "users of" Benchmarks in the EU, and would, among other things, (i) require benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of Benchmarks and (ii) ban the use of Benchmarks of unauthorised administrators. Some of these reforms are already effective while others are still to be implemented. In addition, on 13 February 2019, the Italian Government approved the Legislative Decree no 19 dated 13 February with the aim of harmonizing the Italian legislation to the Benchmark Regulation. These reforms may cause such Benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to a Benchmark.

Any of the international, national or other reforms (or proposals for reform) or the general increased regulatory scrutiny of Benchmarks could increase the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements.

Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks. The disappearance of a Benchmark or changes in the manner of administration of a Benchmark could result in adjustment to the terms and conditions, early redemption, discretionary valuation by the Calculation Agent, delisting (if listed) or other consequence in relation to Notes linked to such Benchmark. Any such consequence could have a material adverse effect on the value of and return on any such Notes.

Limited nature of credit ratings assigned to the Rated Notes

The credit ratings assigned to the Rated Notes of any Series reflects the Rating Agencies' assessment only in relation to a likelihood of timely payment of interest and the ultimate repayment of principal on or before the relevant Final Maturity Date, not that such payments will be paid when expected or scheduled. These ratings are based, among other things, on the Rating Agencies' determination of the value of the Portfolios, the reliability of the payments on the Portfolios and the availability of credit enhancement.

The ratings do not address, among others, the following:

- the possibility of the imposition of Italian or European withholding tax; or
- the marketability of the Rated Notes, or any market price for the Rated Notes; or
- whether an investment in the Senior Notes is a suitable investment for the Noteholder.

The Rating Agencies may lower their ratings or withdraw their ratings if, in the sole judgment of the Rating Agencies, the credit quality of the Rated Notes of any Series has declined or is in question. If any rating assigned to the Rated Notes of any Series is lowered or withdrawn, the market value of such Rated Notes may be affected.

Yield and payment considerations: performance of the underlying Loans

With reference to each Transaction, the amount and timing of the receipt of the relevant Collections on the Receivables and the courses of action to be taken by the Master Servicer and/or the Servicer with respect to the servicing, administration, collection, operation and restructuring of and other recoveries on the Receivables, as well as other events outside the control of the Master Servicer, the Servicer and the Issuer, will affect the performance of the relevant Portfolio and the weighted average life of the Notes of the relevant Series. The weighted average life of the Notes of any Series will be affected by the timing and amount of receipts in respect of the Receivables comprised in the Portfolio purchased in the context of such Series, which will be influenced by the courses of action to be followed by the Servicer and/or the Master Servicer with respect to the Receivables and decisions to alter such courses of action from time to time, as well as by economic, geographic, social and other factors including, *inter alia*, the availability of alternative financing and local, regional and national economic conditions. Settlement or sales of Receivables comprised in each Portfolio earlier or later or for different amounts than anticipated may significantly affect the weighted average life of the Rated Notes issued to finance such Portfolio. With reference to each Transaction, the stream of principal payments received by a Noteholder may not be uniform or consistent, no assurance can be given as to the yield to maturity which will be experienced by a purchaser of any Notes and the yield to maturity may be adversely affected by higher or lower rates of delinquency and default on the Receivables comprised in the relevant Portfolio.

Subordination

In respect of the obligation of the Issuer to pay interest and to repay principal on the Notes of each Series, the Conditions provide that: (i) the Class A Notes will rank *pari passu* and *pro-rata* without any preference or priority among themselves for all purposes, but in priority to the Class B Notes (if any) and to the Class J Notes; (ii) the Class B Notes (if any) will rank *pari passu* and *pro-rata* without any preference or priority among themselves for all purposes, but in priority to the Class J Notes and subordinated to the Class A Notes; and (iii) the Class J Notes will rank *pari passu* and *pro-rata* without any preference or priority among themselves for all purposes, but subordinated to the Class A Notes and the Class B Notes (if any).

As long as, in respect of each Series, any Class A Note is outstanding, unless notice has been given to the Issuer declaring such Class A Notes due and payable, the Class B Notes of such Series and the Class J Notes of such Series shall not be capable of being declared due and payable and the relevant Class A Noteholders shall be entitled to determine the remedies to be exercised. Remedies pursued by the Class A Noteholders of any Series could be adverse to the interests of the relevant Class B Noteholders and the Class J Noteholders.

Potential Conflict of Interests

IBL Banca, acts as Originator, Co-Arranger, Servicer, Calculation Agent, Cash Manager, Collection Account Bank, Programme Administrator and Corporate Servicer in respect of the Programme and each relevant Transaction. Conflicts of interests may potentially exist or may arise as a consequence of the

various roles covered by IBL Banca in this Programme and in any single Transaction. The Originator, in particular, may hold and/or service claims against the Debtors other than the Receivables.

Save as described above, so far as the Issuer is aware there are no other interests, including conflicting ones, of any natural and legal persons involved in the issue of the Rated Notes that are material to the issue of the Rated Notes.

Conflict of interest may exist or may arise as a result of any party to each Transaction (a) having previously engaged or in the future engaging in transactions with other parties to such Transaction, (b) having multiple roles in such Transaction, and/or (c) carrying out other transactions for third parties.

Conflict of interest may influence the performance by the parties to the Programme of their respective obligations and ultimately affect the interests of the Noteholders.

Individual Noteholders have limited enforcement rights

The protection and exercise of the Noteholders' rights against the Issuer in respect of the Notes is one of the duties of the Representative of the Noteholders.

The Conditions and the Rules of the Organisation of the Noteholders limit the ability of individual Noteholders to bring individual actions, commence proceedings (including proceedings for a declaration of insolvency) against the Issuer in certain circumstances by conferring on the meeting the power to determine in accordance with the Rules of the Organisation of the Noteholders on the ability of any Noteholder to commence any such individual actions. Accordingly, individual Noteholders may not, without breaching the Conditions, be able to commence proceedings or take other individual remedies against the Issuer unless a meeting has approved such action by way of an Extraordinary Resolution in accordance with the provisions of the Rules of the Organisation of the Noteholders.

Noteholders' directions and resolutions following delivery of a Transaction Acceleration Notice

Following the delivery of a Transaction Acceleration Notice and in accordance with the Conditions, the Representative of the Noteholders may (or shall if so requested by an Extraordinary Resolution of the holders of the Most Senior Class of Notes of the relevant Series) direct the Issuer to dispose of the relevant Portfolio under the relevant Transaction, it being understood that no provisions shall require the automatic liquidation of the relevant Portfolio as stated in article 21(4) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria.

In addition, at any time after a Transaction Acceleration Notice has been delivered, the Representative of the Noteholders may or shall (if so directed by an Extraordinary Resolution of the Most Senior Class of the Noteholders of the relevant Series) take such steps and/or institute such proceedings against the Issuer as it may think fit to ensure repayment of the Notes of the relevant Series and payment of accrued but unpaid interest thereon in accordance with the Post-Enforcement Priority of Payments. The directions of the Most Senior Class of Noteholders in such circumstances may adversely affect the interests of the other Classes of Noteholders.

Limited rights

The protection and exercise of the rights of the Noteholders of each Series against the Issuer and the preservation and enforcement of the security under the Notes of the relevant Series is one of the duties of the Representative of the Noteholders.

The Conditions and the Programme Intercreditor Agreement contain provisions requiring the Representative of the Noteholders to have regard, with reference to each Transaction, to the interests of both the relevant Noteholders and the relevant Other Issuer Creditors provided that if, in the opinion of the Representative of the Noteholders, there is a conflict between their interests, the Representative of the Noteholders will have regard solely to the interests of the relevant Noteholders. In addition, the

Conditions and the Programme Intercreditor Agreement contain provisions requiring the Representative of the Noteholders to have regard, with reference to each Transaction, to the interests of the holders of each Class of Notes as regards all powers, authorities, duties and discretion of the Representative of the Noteholders as if they formed a single class (except where expressly provided otherwise) but requiring the Representative of the Noteholders, in the event of a conflict between the interests of the holders of different Classes of Notes, to have regard only to the interests of the holders of the Most Senior Class of Notes then outstanding.

In some circumstances, in respect of each Series, the relevant Notes may become subject to early redemption. Early redemption of the Notes of a Series in some cases may be dependent upon receipt by the Representative of the Noteholders of a direction from, or resolution of, a specified proportion of the relevant Noteholders or a specified proportion of a specified Class of Noteholders of such Series. If the economic interest of a Noteholder represents a relatively small proportion of the majority and its individual vote is contrary to the majority vote, its direction or vote may be of no practical effect and, if a determination is made by the requisite majority of the Noteholders to redeem the Notes, the minority Noteholders may face early redemption of the Notes against their will.

Expected maturity of the Rated Notes

The Issuer will redeem the Rated Notes at their Principal Amount Outstanding, plus any accrued but unpaid interest, on the applicable Final Maturity Date (as specified in the applicable Final Terms). In accordance with the mandatory redemption provisions applicable to the Notes of any Series, as specified in Condition 8.2 (*Mandatory Redemption*), if, on any Payment Dates, there are sufficient Series Available Funds, full redemption of the Rated Notes of such Series is expected to be achieved. There can be no assurance, however, that redemption in full, or at all, will be achieved on such Payment Dates.

In particular, the redemption in full of the Rated Notes may be achieved prior to such dates as a result of the occurrence of circumstances in which the Loan Agreements may be terminated (by prepayment, early termination or otherwise) prior to their scheduled redemption dates.

Euro System Eligibility

The Class A Notes are intended to be issued in a manner which will allow for participation in the Eurosystem liquidity scheme. However, there is no guarantee the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon the Class A Notes satisfying the Eurosystem eligibility criteria (as amended from time to time).

In this respect, it should be noted that in accordance with their policies, neither the ECB nor the central banks of the Eurozone will confirm the eligibility of the Class A Notes for the above purpose prior to their issuance or to their rating and listing and if the Rated Notes are accepted for such purpose, the relevant central bank may amend or withdraw any such approval in relation to the Rated Notes at any time. The assessment and/or decision as to whether the Class A Notes qualify as eligible collateral for Eurosystem monetary policy and intra-day credit operations rests with the relevant central bank.

CATEGORY OF RISK FACTORS 3: RISK FACTORS RELATED TO THE SERIES SWAP AGREEMENT (IF ANY)

Risk connected to the termination of the Series Swap Agreement

Should the Series Swap Counterparty in respect of such Series, fail to provide the Issuer with all amounts owing to the Issuer (if any) on any payment date under the relevant Series Swap Agreement, then the Issuer may have insufficient funds to make payments of principal and interest on the Rated Notes of the relevant Series. However, prospective investors' attention is drawn to the fact that if the Issuer is not able to make payments of interest due on the Rated Notes of a Series, such non-payment could constitute a

Transaction Acceleration Event under such Notes and cause the Representative of the Noteholders to serve to the Issuer a Transaction Acceleration Notice in respect of all Notes of such Series.

Each of the Series Swap Counterparties will be entitled, under certain circumstances, to terminate the Series Swap Agreement if (i) it is obliged to gross up payments following any withholding or deduction for or on account of any taxes or (ii) it receives a payment in respect of which an amount is required to be deducted or withheld for or on account of any taxes.

Each Series Swap Agreement will contain certain limited termination events and events of default which will entitle either party to terminate the relevant Series Swap Agreement. For instance, the Issuer may terminate a Series Swap Agreement, *inter alia*, if the relevant Series Swap Counterparty is downgraded below certain rating thresholds set out in the relevant Series Swap Agreement and the Series Swap Counterparty fails to take such action as it is required in the Series Swap Agreement to remedy such downgrade.

If a Series Swap Agreement is terminated for any reason, the Issuer may be required to pay an amount to the relevant Series Swap Counterparty as a result of the termination. Following such termination, any payments by the Issuer to the Series Swap Counterparty will be made in accordance with the applicable Priority of Payments.

Insolvency of the Series Swap Counterparty

This section refers to the relevant Series Swap Counterparty and to any replacement counterparty.

If the relevant Series Swap Counterparty was to be subject to a resolution process under Directive 2014/59/EU of the European Parliament and the Council providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms, as implemented in relevant country, such process might have an impact on the liabilities owed (as the case may be) by such Series Swap Counterparty to the Issuer under the Series Swap Agreement.

In addition, if a bankruptcy or other insolvency proceeding or a liquidation procedure were to be opened in the relevant country with respect to the relevant Series Swap Counterparty, such procedure might have an impact on the payment of the liabilities owed (as the case may be) by such Series Swap Counterparty to the Issuer under the Series Swap Agreement.

In the circumstances described above, the Issuer may not receive some or all of any amount due to it from the Series Swap Counterparty under the Series Swap Agreement which would adversely affect the Issuer's ability to meet its payment obligations including those due to Noteholders.

Tax risks relating to the Series Swap Agreement

The Series Swap Counterparty will be obliged to make payments under the Series Swap Agreement without any withholding or deduction of taxes unless required by law. If any such withholding or deduction is required by law, the Series Swap Counterparty will be required to pay such additional amount as is necessary to ensure that the net amount actually received by the Issuer will equal the full amount that the Issuer would have received had no such withholding or deduction been required (unless the relevant withholding or deduction relates to a FATCA Withholding Tax (as defined in the Series Swap Agreement). The Series Swap Agreement will provide, however, that in case of a Tax Event (as defined in the Series Swap Agreement), the Series Swap Counterparty may transfer its rights and obligations to another of its offices, branches or affiliates to avoid the relevant Tax Event. If the Series Swap Counterparty is unable to transfer its rights and obligations under the Series Swap Agreement to another office, branch or affiliate, it will have the right to terminate the relevant transaction. Upon such termination, the Issuer or the Series Swap Counterparty may be liable to make a termination payment to the other party. See the risk factor "Termination of the Series Swap Agreement" above.

Ratings downgrade of the Series Swap Counterparty

In the event that the Series Swap Counterparty is downgraded below certain levels as set out in the Series Swap Agreement, the Issuer may terminate the Series Swap Agreement if the Series Swap Counterparty fails to take (or fails to make endeavours to take, as applicable in accordance with the terms of the Series Swap Agreement) certain remedial measures within the timeframes stipulated in the Series Swap Agreement. Such remedial measures may include providing collateral for its obligations under the Series Swap Agreement, arranging for its obligations under the Series Swap Agreement to be transferred to an entity with the required ratings (or guaranteed by an entity with the required ratings) or procuring another entity with the required ratings to become guarantor in respect of its obligations under the Series Swap Agreement. However, in the event the Series Swap Counterparty is downgraded there can be no assurance that a guarantor or replacement swap counterparty will be found or that the amount of collateral provided will be sufficient to meet the Series Swap Counterparty's obligations. Unless one or more comparable replacement interest rate caps are entered into, the Issuer may have insufficient funds to make payments due on the Notes, and the Rated Notes may also be downgraded.

Risks relating to replacement swap agreements

If a replacement swap agreement is entered into following termination of the initial Series Swap Transaction, this may be on terms less favourable to the Issuer and therefore may mean that reduced amounts are available for distribution by the Issuer to the Secured Creditors (including, inter alia, the Noteholders). The Issuer may not be able to enter into a replacement swap agreement with a replacement swap counterparty immediately or at a later date. If a replacement swap counterparty cannot be found, the risk of a difference between the rate of interest to be received by the Issuer on the Receivables and the rate of interest payable by the Issuer on the Rated Notes will not be hedged, and so the funds available to the Issuer to pay any interest on the Notes may be insufficient. In these circumstances, the holders of Notes may experience delays and/or reductions in the interest payments to be received by them, and the Rated Notes may also be downgraded.

Veto rights of the Series Swap Counterparty

In the event that a Series Swap Agreement is entered into in respect of a Transaction with a Series Swap Counterparty, certain veto rights may be provided in favour of such Swap Counterparty in the relevant Series Intercreditor Agreement. In such circumstance, in the event that there is a conflict between the interests of such Series Swap Counterparty and the interests of the Noteholders of the relevant Series, the Representative of the Noteholders shall follow the instructions of the Series Swap Counterparty exercising the relevant veto rights.

Conflict of interest may influence the performance by the parties to the Programme of their respective obligations and ultimately affect the interests of the Noteholders.

CATEGORY OF RISK FACTORS 4: RISK FACTORS RELATED TO THE PORTFOLIO

Claw back of the sales of the Receivables

A transfer, pursuant to Article 4 of the Securitisation Law and article 67 of the Bankruptcy Law, may be subject to a claw-back action by a judicial liquidator of the transferor: (i) if the sale is not undervalued, within three months following the transfer if: (a) the transferor was insolvent at the time of the transfer; and (b) the liquidator can prove that the transferee was, or ought to have been, aware of such insolvency; or (ii) if the sale is undervalued, within six months following the transfer if: (a) the transferor was insolvent at the time of the transfer; and (b) the transferee cannot prove that it was not, or ought not to have been, aware of such insolvency.

Accordingly, if the Originator was insolvent at the date of the execution of the Programme Receivables Purchase Agreement and the relevant Transfer Agreement with reference to the First Portfolio or at the time of the relevant Transfer Agreement with reference to each additional Portfolio, and the Issuer was,

or ought to have been, aware of such insolvency, the transfer may, in certain circumstances, be subject to claw-back by a liquidator of the Originator.

Insurance coverage

All Loan Agreements are assisted by an Insurance Policy issued by leading insurance companies approved by the Originator. There can be no assurance that the insured losses will be covered in full for the benefit of the Issuer. Any loss incurred which is not covered (or which is not covered in full) by the relevant Insurance Policy could adversely affect the value of the Receivables and the ability of the Issuer to recover the full amount due under the relevant Loan.

Bank Recovery and Resolution Directive

On 15 May 2014, the Council of the European Union approved the Directive 2014/59/EC establishing a framework for the recovery and resolution of credit institutions and investment firms and amending Council Directive 82/891/EEC, and Directives 2001/24/EC, 2002/47/EC, 2004/25/EC, 2005/56/EC, 2007/36/EC, 2011/35/EU, 2012/30/EU and 2013/36/EU, and Regulations (EU) No. 1093/2010 and (EU) No. 648/2012, of the European Parliament and of the Council (the "**BRRD**"). On 12 June 2014 the BRRD was published in the Official Journal of the European Union and on 2 July 2014 it entered into force.

The aim of the BRRD is to lay down rules and procedures relating to the recovery and resolution of banks and investment firms by providing supervisory national authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimise taxpayers' exposure to losses.

The BRRD applies, *inter alia*, to (i) credit institutions, (ii) investments firms, and (iii) financial institutions that are established in the European Union when the financial institution is a subsidiary of a credit institution or investment firm and is covered by the supervision of the parent undertaking on a consolidated basis.

A resolution authority will only be permitted to use resolution powers and tools in relation to an institution if all the conditions set out in Article 32 of the BRRD for resolution are satisfied. Such resolution powers and tools may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest.

The main resolution tools referred to in the BRRD are (a) the sale of business tool, (b) the bridge institution tool, (c) the asset separation tool and (d) the bail-in tool, which can be applied individually or in any combination by the relevant resolution authority.

Member States were required to adopt and publish by 31 December 2014 the laws, regulations and administrative provisions necessary to comply with the BRRD, with the exception of the bail-in power which applies from 1 January 2016 at the latest.

The BRRD has been implemented in Italy through the adoption of two Legislative Decrees: (a) Legislative Decree No. 180/2015 which implements the BRRD in Italy, and (b) Legislative Decree No. 181/2015 which amends the Consolidated Banking Act and deals principally with recovery plans, early intervention and changes to the creditor hierarchy. Such Legislative Decrees were published on the Official Gazette on 16 November 2015 and entered into force on the same date, save for: (i) the bail-in tool, which applies from 1 January 2016; and (ii) the "depositor preference" to deposits other than those protected by the deposit guarantee scheme and those of individuals and small and medium enterprises, which applies from 1 January 2019.

BRRD may apply to some parties to the Transaction Documents. It should be noted that the powers set out in the BRRD may impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. Given the recent enactment of the Bank Recovery and Resolution Directive in Italy, as at the date of this Base Prospectus it is not possible to precisely assess the potential impact of the BRRD, and the abovementioned legislative Decrees on each Transaction.

Settlement of the over-indebtedness crisis (*sovraindebitamento*) under Law No. 3/2012 and the Code of Business Crisis and Insolvency

Under Italian Law No. 3 of 27 January 2012 ("*Disposizioni in materia di usura e di estorsione, nonché di composizione delle crisi da sovraindebitamento*") (the "**Law No. 3/2012**"), in order to remedy situations in which a debtor is definitively not able to fully and timely fulfil its obligations ("*sovraindebitamento*"), a debtor may enter into a debt restructuring agreement ("**Settlement Agreement**") in the context of the settlement procedure provided for therein ("**Settlement Procedure**").

In the event that a Debtor will obtain to be admitted to a Settlement Procedure, such circumstance may adversely and materially affects the ability of the Master Servicer and/or the Servicer to recover the overdue amounts in respect of the Receivables owed by such Debtor.

Moreover, the Italian Parliament with Legge Delega No. 155/2017, on 12 January 2019, pursuant to the Legislative Decree no. 14 of 12 January 2019, has also approved a new code of business crisis and insolvency (the "***Code of Business Crisis and Insolvency***") which sets out inter alia general rules applicable to the restructuring arrangements.

Pusuant to article 57 of the Code of Business Crisis and Insolvency, a favourable vote of creditors representing at least 60% of the relevant claims is required for the approval of the draft restructuring arrangement. Subject to certain conditions, the draft arrangement may provide for a moratorium on payments due to those creditors not adhering to such arrangement for a period of up to one year. A judge could also award an automatic stay of up to 120 days with respect to the enforcement actions over the assets of the relevant debtor. Any restructuring agreement entered into in connection with a Debtor could accordingly restrict the rights of the Originator or Issuer to enforce against the relevant Debtor.

Compounding of interest (*anatocismo*)

There is a risk that the capitalisation of interest payable under the Loans on a quarterly basis may not comply with the requirements of article 1283 of the Italian Civil Code. There is inconsistent case law on this subject. However, if challenged by Debtors this could have a negative effect on the returns generated by the Issuer from the Loans and affect the ability of the Issuer to make payments under the Notes.

Under the Warranty and Indemnity Agreement, the Originator has undertaken to indemnify and hold harmless the Issuer for any losses, costs and expenses that may be incurred by the Issuer in connection with any challenge in respect of the interest on interest.

For further information kindly see the section entitled "Selected aspects of Italian law – Compounding of interest".

It should be noted that paragraph 2 of Article 120 of the Consolidated Banking Act, concerning compounding of interest accrued in the context of banking transactions, has been amended by Law No. 147 of 27 December 2013. In particular, such Law (become effective on 1 January 2014), seems to remove the possibility for compounding of interest. In this respect, Law Decree No. 91 of 24 June 2014 converted into law by Law No. 116 of 11 August 2014 (the "**Decree No. 91**"), has amended and replaced paragraph 2 of Article 120 of the Consolidated Banking Law, stating that the C.I.C.R. has to establish the methods and criteria of compounding of interest accrued in the context of the transactions regulated under Title VI of the Consolidated Banking Act with a periodicity of not less than one year. On 3 August 2016 the C.I.C.R. has issued such regulation.

Therefore, in the event that any of such losses, costs, and expenses arise, the Issuer could receive less collections on the Receivables than expected and, therefore may have insufficient amounts to repay in full principal and pay interest on the Notes. This would be particularly true if the Originator would default under its payments obligations under the Warranty and Indemnity Agreement (please also see in this respect the section "*Credit risk on IBL Banca (acting as Servicer) and the other parties to the Series Documents relating to the relevant Transaction"*).

Italian Usury Law

The interest payments and other remuneration paid by the Debtors under the Loans are subject to Italian law No. 108 of 7 March, 1996, as amended from time to time (the "Usury Law"), which introduced legislation preventing lenders from applying interest rates equal to or higher than certain rates. In addition, even where the applicable rates are not exceeded, interest and other advantages and/or remuneration may be held to be usurious if certain circumstances arise. The provision of usurious interest, advantages or remuneration has the same consequences as non-compliance with the usury rates.

If the Loans are found to contravene the Usury Law, the Debtors might be able to claim relief on any interest previously paid and oblige the Issuer to accept a reduced rate of interest, or potentially no interest on the relevant Loan. In such cases, the ability of the Issuer to maintain scheduled payments of interest and principal on the Notes may be adversely affected. For further information kindly see the section entitled "Selected aspects of Italian law – Italian usury law".

The Originator has represented and warranted to the Issuer in the Warranty and Indemnity Agreement that the provisions of the Loan Agreements comply with the Italian usury provisions. However, in the event that any of these representations and warranties were found to be untrue and/or any of such claims or counterclaim would be raised by the Debtors, the Issuer could receive less collections on the Receivables than expected and, therefore may have insufficient amounts to repay in full principal and pay interest on the Notes. This would be particularly true if the Originator would default under its payments obligations under the Warranty and Indemnity Agreement (please also see in this respect the section "*Credit risk on IBL Banca (acting as Servicer) and the other parties to the Series Documents relating to the relevant Transaction"*).

No independent investigation in relation to the Receivables

The Issuer is subject to the risk that, should any Receivable result to be defective, the cash-flows available to the Issuer could not be sufficient to make in full all payments due in respect of the Notes.

In fact, the Issuer has entered into the Programme Receivables Purchase Agreement with the Originator only on the basis of, and upon reliance on, the representations and warranties made by the Originator under the Programme Warranty and Indemnity Agreement. Neither the Issuer, nor the Co-Arrangers, the Subscribers or any other party to the Programme (other than the Originator) has carried out any due diligence in respect of the Receivables and the relevant Loan Agreements. More generally, none of the Issuer, the Co-Arrangers, the Subscribers nor any other party to the Transaction Documents (other than the Originator) has undertaken or will undertake any other investigation, searches or other actions to verify the details of the Receivables sold by the Originator to the Issuer, nor has any of such persons undertaken, nor will any of them undertake, any investigations, searches or other actions to establish the creditworthiness of any Debtor.

The only remedies of the Issuer in respect of the occurrence of a breach of a representation and warranty which materially and adversely affects the value of a Receivable will be the requirement that the Originator indemnifies the Issuer for the damages deriving therefrom or alternatively, at its option, repurchases the relevant Receivable. In particular, the indemnification obligations under the Programme Warranty and Indemnity Agreement are unsecured claims of the Issuer and no assurance can be given that the Originator will pay the relevant amounts if and when due.

CATEGORY OF RISK FACTOR 5: MACRO ECONOMIC AND MARKET RISK

Covid-19 pandemic and possible similar future outbreaks may affect the ability of the Issuer to satisfy its obligations under the Notes

The Covid-19 outbreak has had, and continues to have, a material impact on businesses around the world and the economic environments in which they operate. There are a number of factors associated with the outbreak and its impact on global economies that could have a material adverse effect on (among other things) the profitability, valuation and/or marketability of the Notes.

The Covid-19 outbreak has caused disruption to a number of jurisdictions, including Italy, which have implemented certain restrictions with a resultant significant impact on economic activity in those jurisdictions. These restrictions are being determined by the governments of individual jurisdictions (including through the implementation of emergency powers) and impacts (including the timing of implementation and any subsequent lifting of restrictions) may vary from time to time. It remains unclear how this will evolve through 2022 and thereafter and, therefore, a Noteholder bears the risk that the market price of the Notes falls as a result of the general development of the market or that the Issuer will not be able to satisfy its obligations under the Notes such that the Noteholder may bear a loss in respect of its initial investment.

Limited Secondary Market and liquidity risk

There is not at present an active and liquid secondary market for the Rated Notes of any Series. The Senior Notes have not been, and will not be, registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States.The offering of the Notes will be made pursuant to the exemption from registration provided under Regulation S of the Securities Act. No person is obliged or intends to register the Notes under the Securities Act or any state securities laws. Offers and sales of the Notes will be subject to significant restrictions on resale. In this respect, please refer to the section headed "*Subscription, Sale and Selling Restrictions*".

Although application has been made to the Luxembourg Stock Exchange for the Rated Notes of any Series to be admitted to the official list and trading on its regulated market, there can be no assurance that a secondary market for any of the Notes of any Series will develop or, if a secondary market does develop, that it will provide the holders of the Notes of any Series with liquidity of investments or that any such liquidity will continue for the life of such Notes. Consequently, any purchaser of Notes of any Series must be prepared to hold such Notes until the relevant Final Maturity Date.

In addition, illiquidity means that a Noteholder may not be able to find a buyer to buy its Notes readily or at a price that will enable the Noteholder to realise a desired yield. Illiquidity can have a severe adverse effect on the market value of the Notes and cause significant fluctuations in market value which could result in significant losses to an investor. Any sale of the Notes by the Noteholders in any secondary market which may develop may be at a discount to the original purchase price of those Notes. In addition, whilst these market conditions persist, an investor in the Notes may not be able to sell or acquire credit protection on its Notes readily.

Risk connected with the Political and economic developments in the Republic of Italy

The financial condition, results of operations and prospects of the Republic of Italy and companies incorporated in the Republic of Italy may be adversely affected by events outside their control, namely European law generally, any conflicts in the region or taxation and other political, economic or social developments in or affecting the Republic of Italy generally. Most of the Debtors, in fact, consists of public-sector employees and pensioners (whose retirement income comes almost entirely from a state pension), so that the relevant Portfolios are particularly exposed to the public sector. This concentrated exposure to the health of the public sector implies that in a scenario of collapse of such sector, the Loans, such as the ability of the Issuer to make payments under the Notes may be affected.

Risks connected with the political and economic decisions of EU and Euro-zone countries and the United Kingdom leaving the European Union (Brexit) may affect the performance of the Securitisation

Concerns relating to credit risk (including that of sovereigns and of those entities which have exposure to sovereigns) persist, in particular with respect to current economic, monetary and political conditions in the Euro-zone. If such conditions further deteriorate (including as may be demonstrated by any relevant credit rating agency action, any default or restructuring of indebtedness by one or more states or institutions and/or any exit(s) by any member state(s) from the European Union and/or any changes to the Euro-zone), then these matters may cause further severe stress in the financial system generally and/or may adversely affect the Issuer, any of the other Transaction Parties and/or the Debtors.

Pursuant to a referendum held in June 2016, the UK has voted to leave the European Union ("**EU"**) and, on 29 March 2017, the UK Government invoked article 50 of the Lisbon Treaty and officially notified the EuropeanUnion of its decision to withdraw from the European Union. This commenced the formal two-year process of negotiations regarding the terms of the withdrawal and the framework of the future relationship between the UK and the European Union (the "**Article 50 Withdrawal Agreement"**). On 31 January 2020 the UK and the European Union finalised and ratified the Article 50 Withdrawal Agreement. Part Four of the Article 50 Withdrawal Agreement provided for a transition period which ended on 31 December 2020. The UK left the EU on 31 January 2020 at 11 pm, and the transition period has ended on 31 December 2020 at 11 pm. As a result, the Treaty on the European Union and the Treaty on the Functioning of the European Union have ceasedto apply to the UK. The UK is also no longer part of the European Economic Area. The EU-UK Trade and Cooperation Agreement (the "**Trade and Cooperation Agreement"**) which governs the relations between the EU and the UK following the end of the transition period and which had provisional application pending completion of ratification procedures, entered into force on 1 May 2021.

The European Union (Withdrawal) Act 2018 (as amended by the European Union (Withdrawal Agreement) Act 2020) and secondary legislation made under powers provided in this Act ensure that there is a functioning statute book in the UK. While the UK introduced a temporary permission regime to allow EEA firms to continue to do business in the UK for a limited period of time, once the passporting regime fell away, the majority of EEA states have not introduced similar transitional regimes. The Trade and Cooperation Agreement is only part of the overall package of agreements reached on 24 December 2020. Other supplementing agreements included a series of joint declarations on a range of important issues where furthercooperation is foreseen, including financial services. The declarations state that the EU and the UK will discusshow to move forward with equivalence determinations in relation to financial services. It should be noted thateven if equivalence arrangements for certain sectors of the financial services industry are agreed, market accessis unlikely to be as comprehensive as the market access that the UK enjoyed through its EU membership.

The exit of the United Kingdom from the European Union, and the possibility that other European Union countries could hold similar referendums to the one held in the United Kingdom and/or call into question their membership of the European Union or prolonged periods of uncertainty connected to these eventualities couldhave significant negative impacts on global economic conditions and the stability of international financial markets. These could include further falls in equity markets, a further fall in the value of the Euro and, morein general, increase in financial markets volatility, reduction of global markets liquidities.

This may affect receipts on the Loans. If the timing and payment of the Loans is adversely affected by any of the risks described in this paragraph, thenpayments on the Notes could be reduced and/or delayed and could ultimately result in losses on the Notes.

Geographic concentration risks

The Loans have been granted to Debtors who, as at the execution date of the relevant Loan Agreement, were resident in Italy. A deterioration in economic conditions resulting in increased unemployment rates, consumerand commercial bankruptcy filings, a decline in the strength of national and local economies,

inflation and other results that negatively impact household incomes could have an adverse effect on the ability of the Debtors to make payments on the Loans and result in losses on the Notes.

Loans comprised in the Portfolio may also be subject to geographic concentration risks within certain regions of Italy. To the extent that specific geographic regions in Italy have experienced, or may experience in the future, weaker regional economic conditions (due to local, national and/or global macroeconomic factors) than other regions in Italy, a concentration of the Loans in such a region may exacerbate the risks relating to the Loans described in this section.

Impact of Russia-Ukraine war

The Russia-Ukraine war started in February 2022 with the attack and invasion of Ukraine by Russia. The extent of the consequences of this war with regard to energy price increases and inflation as a whole on the one hand and trade restrictions and sanctions on the other hand, but also counter-reactions and the duration of such a conflict are not foreseeable at this time. This conflict could have significant adverse effects on European economy, the inflation and the stability of international financial markets. Should any of these circumstances occur, the performance of the Portfolio may deteriorate and, as result, the amounts payable under the Notes might be affected.

CATEGORY OF RISK FACTOR 6: RISKS RELATING TO THE REGULATORY FRAMEWORK AND SECURITISATION REGULATION

Regulatory initiatives may result in increased regulatory capital requirements and/or decreased liquidity in respect of the Notes

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the asset-backed securities industry. This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may have an adverse impact on the regulatory capital charge to certain investors in securitisation exposures and/or the incentives for certain investors to hold asset-backed securities, and may thereby affect the liquidity of such securities. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Co-Arrangers, the Subscribers or any other Transaction Party makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment in the Notes on the Issue Date or at any time in the future.

Investors should note in particular that the Basel Committee on Banking Supervision ("**BCBS**") has approved aseries of significant changes to the Basel framework for prudential regulation (such changes being referred toby the BCBS as Basel III, and referred to, colloquially, as Basel III in respect of reforms finalised prior to 7 December 2017 and Basel IV in respect of reforms finalised on or following that date). The Basel III and Basel IV reforms, which include revisions to the credit risk framework in general and the securitisation framework in particular, may result in increased regulatory capital and/or other prudential requirements in respect of securitisation positions. The BCBS continues to work on new policy initiatives. National implementation of the Basel III and Basel IV reforms may vary those reforms and/or their timing. It should also be noted that changes to prudential requirements have been made for insurance and reinsurance undertakings through participating jurisdiction initiatives, such as the Solvency II framework in Europe.

These changes may affect the regulatory treatment applicable to the Notes. Investors in the Notes are responsible for analysing their own regulatory position and prudential regulation treatment applicable to the Notes and should consult their own advisers in this respect.

Non-compliance with the EU Securitisation Regulation or the UK Securitisation Regulation, as applicable, may have an adverse impact on the regulatory treatment of the Notes and/or decrease liquidity of the Notes

The EU Securitisation Regulation applies in general (subject to certain grandfathering) from 1 January 2019. The EU Securitisation Regulation establishes certain common rules for all securitisations that fall within its scope (including recast of pre-1 January 2019 risk retention and investor due diligence regimes). However, some legislative measures necessary for the full implementation of the EU Securitisation Regulation regime have not yet been finalised and compliance with certain requirements is subject to the

application of transitional provisions. In addition, some uncertainty remains in relation to the interpretation of some of these requirements and what is or will be required to demonstrate compliance to national regulators.

The UK Securitisation Regulation (which largely mirrors, with some adjustments, the EU Securitisation Regulation) applies in the UK (subject to the temporary transitional relief being available in certain areas) from the end of the transition period in the Brexit process at the start of 2021.

The EU Securitisation Regulation and/or the UK Securitisation Regulation requirements will apply to the Notes. As such, certain European-regulated institutional investors or UK-regulated institutional investors, which include relevant credit institutions, investment firms, authorised alternative investment fund managers, insurance and reinsurance undertakings, certain undertakings for the collective investment of transferable securities and certain regulated pension funds (institutions for occupational retirement provision), are required to comply under article 5 of the EU Securitisation Regulation or article 5 of the UK Securitisation Regulation, as applicable, with certain due diligence requirements prior to holding a securitisation position and on an ongoing basis while holding the position. Among other things, prior to holding a securitisation position, such institutional investors are required to verify under their respective EU or UK regime certain matters with respect to compliance of the relevant transaction parties with credit granting standards, risk retention and transparency requirements and, on transactions notified as EU STS or UK STS, compliance of that transaction with the EU or UK STS requirements, as applicable. If the relevant European- or UK-regulated institutional investor elects to acquire or holds the Notes having failed to comply with one or more of these requirements, as applicable to them under their respective EU or UK regime, this may result in the imposition of a penal capital charge on the Notes for institutional investors subject to regulatory capital requirements or a requirement to take a corrective action, in the case of a certain type of regulated fund investors. Aspects of the requirements of the EU Securitisation Regulation and the UK Securitisation Regulation and what is or will be required to demonstrate compliance to national regulators remain unclear. Prospective investors should therefore make themselves aware of the requirements applicable to them in their respective jurisdictions and are required to independently assess and determine the sufficiency of the information described in this Base Prospectus generally for the purposes of complying with such due diligence requirements under the EU Securitisation Regulation and any corresponding national measures which may be relevant or the UK Securitisation Regulation, as applicable.

Prospective investors should be aware that under the Securitisation it has not been contractually agreed to comply with the transparency requirements of the UK Securitisation Regulation. Prospective investors should also note that there can be no assurance that the information in this Base Prospectus or to be made available to investors in accordance with article 7 of the EU Securitisation Regulation will be adequate for any prospective institutional investors to comply with their due diligence obligations under the EU Securitisation Regulation or the UK Securitisation Regulation.

Prospective investors in the Notes are responsible for analysing their own regulatory position, and should consult their own advisers in this respect.

Default Risk in relation to the EU Securitisation Regulation

In the event that IBL Banca breaches its undertaking to retain on an ongoing basis a material net economic interest in the Securitisation of not less than 5% in accordance with the requirements of the EU Securitisation Regulation the transaction would cease to be compliant with the EU Securitisation Regulation which may result in penalties including fines, other administrative sanctions and possibly criminal sanctions being imposed and would also affect the liquidity of the Notes. In this regard, potential noteholders should note that it is expected that IBL Banca will use the Notes retained by it as collateral for secured funding purposes in a manner permitted under the EU Securitisation Regulation. It is possible that the transaction may cease to satisfy the requirements of article 6 of the EU Securitisation Regulation should the enforcement of that security or any consequences arising from those dealings result in IBL Banca ceasing to retain the requisite level of material net economic interest in the Securitisation.

The STS designation impacts on regulatory treatment of the Notes

Each Transaction is intended to qualify as a simple, transparent and standardised (**STS**) securitisation withinthe meaning of article 18 of the EU Securitisation Regulation. Consequently, each Transaction meets, as at the date of this Base Prospectus, the requirements of articles 19 to 22 of the EU Securitisation Regulation (the "**EU STS Requirements**") and, prior to each Issue Date, will be notified by the Originator to be included in the list published by ESMA referred to in article 27(5) of the EU Securitisation Regulation (the "**STS Notification"**). Pursuant to article 27(2) of the EU Securitisation Regulation, the STS Notification includes an explanation by the Originator of how each of the EU STS Requirements has been complied with in the Securitisation. The STS Notification will be available for download on the ESMA website (being, as at the date of this Base Prospectus, https://registers.esma.europa.eu/publication/searchRegister?core=esma_registers_stsre) (the "**ESMA STS Register"**).

The Notes can also qualify as STS under Regulation (EU) 2017/2402 as it forms part of domestic law of the United Kingdom by virtue of the EUWA (the "**UK Securitisation Regulation"**) until maturity, provided that the Notes remain on the ESMA STS Register and continue to meet the EU STS Requirements.

The Originator has used the service of Prime Collateralised Securities (PCS) EU SAS ("**PCS"**), as a third party verifying STS compliance authorised under article 28 of the EU Securitisation Regulation, in connection withan assessment of the compliance of the Notes with the EU STS Requirements (the "**STS Verification"**) and to prepare an assessment of compliance of the Notes with the relevant provisions of article 243 of the CRR (the "**CRR Assessment"** and, together with the STS Verification, the "**STS Assessments"**). It is expected that the STS Assessments prepared by PCS will be available on the PCS website (being, as at the date of this Base Prospectus, https://pcsmarket.org/sts-verification-transactions) together with a detailed explanation of its scope at https://pcsmarket.org/disclaimer/. For the avoidance of doubt, this PCS website and the contents thereof do not form part of this Base Prospectus.

It is important to note that the involvement of PCS as an authorised verification agent is not mandatory and the responsibility for compliance with the EU Securitisation Regulation (or, if applicable, the UK Securitisation Regulation) remains with the relevant institutional investors, originators and issuers, as applicable in each case. The STS Assessments will not absolve such entities from making their own assessment with respect to the EU Securitisation Regulation (or, if applicable, the UK Securitisation Regulation) and the STS Assessments cannot be relied on to determine compliance with the foregoing regulations in the absence of such assessments by the relevant entities.

It is not an indication of the suitability of the Notes for any investor and/or a recommendation to buy, sell or hold Notes. Institutional investors that are subject to the due diligence requirements of the EU Securitisation Regulation or the UK Securitisation Regulation need to make their own independent assessment and may not solely rely on the STS Assessments, the STS Notification or other disclosed information.

None of the Issuer, the Co-Arrangers, the Subscribers or any other party to the Transaction Documents makes any representation or accepts any liability for the Securitisation to qualify as an STS-securitisation under the EU Securitisation Regulation and/or the UK Securitisation Regulation at any point in time.

The Originator intends to rely on an exemption from U.S. Risk Retention

The U.S. Risk Retention Rules came into effect on 24 December 2016 and generally require the "sponsor" of a "securitization transaction" to retain at least 5 per cent. of the "credit risk" of "securitized assets", as such terms are defined in the U.S. Risk Retention Rules, and generally prohibit the sponsor from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the credit risk that the sponsor is required to retain. The U.S. Risk Retention Rules also provide for certain exemptions from the risk retention obligation that they generally impose.

Each Transaction will not involve risk retention by the Originator for the purposes of the U.S. Risk Retention Rules, but rather will be made in reliance on the safe harbor exemption for certain non-U.S. transactions set forth in the U.S. Risk Retention Rules. Such non-U.S. transactions must meet certain

requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the securities are issued) of all classes of securities issued in the securitisation transaction are sold or transferred to U.S. Persons (in each case, as defined in the U.S. Risk Retention Rules and referred to in this Base Prospectus as "**Risk Retention U.S. Persons**") or for the account or benefit of Risk Retention U.S. Persons; (3) neither the sponsor nor the issuer of the securitisation transaction is organised under U.S. law, is a branch or office of an entity organized under U.S. law, or is a branch or office of a non-U.S. organized entity located in the United States; and (4) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

Each Transaction provides that the Notesof of the relevant Series may not be purchased by Risk Retention U.S. Persons. Prospective investors should note that whilst the definition of "U.S. person" in the U.S. Risk Retention Rules is substantially similar to the definition of "U.S. person" in Regulation S, the definitions are not identical and persons who are not "U.S. persons" under Regulation S may be "U.S. persons" under the U.S. Risk Retention Rules.

Each holder of a Note or a beneficial interest therein acquired in the primary offering by its acquisition of a Note or a beneficial interest in a Note, will be deemed, and, in certain circumstances, will be required to represent to the Issuer, the Originator, the Co-Arrangers and the relevant Subscriber(s) that it (1) is not a Risk Retention U.S. Person, (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the safe harbor exemption for non-U.S. transactions set forth in the U.S. Risk Retention Rules described herein).

There can be no assurance that the exemption of the U.S. Risk Retention Rules regarding non-U.S. transactions will be available. Failure of each Transaction to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) could give rise to regulatory action which may adversely affect the Notesof of any Series. Furthermore, the impact of the U.S. Risk Retention Rules on the securitisation market generally is uncertain, and a failure by a transaction to comply with the risk retention requirements of the U.S. Risk Retention Rules could negatively affect the market value and secondary market liquidity of the Notes of any Series.

The Originator makes no representation to any prospective investor or purchaser of the Notes and none of the Subscribers, the Co-Arrangers or any of their respective affiliates takes any responsibility whatsoever as to whether the transactions described in this Base Prospectus comply as a matter of fact with the U.S. Risk Retention Rules on each Issue Date or at any time in the future. Investors should consult their own advisers as to the U.S. Risk Retention Rules. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

Volcker Rule may restrict the ability of relevant individual prospective purchaser to invest in the Notes

The Issuer is being structured so as not to constitute a "covered fund" for purposes of the regulations adopted to implement Section 619 of the Dodd-Frank Act (such statutory provision together with such implementing regulations, the "**Volcker Rule**").

The Volcker Rule generally prohibits "banking entities" broadly defined to include U.S. banks, bank holding companies and foreign banking organisations, together with their respective subsidiaries and other affiliates) from (i) engaging in proprietary trading in financial instruments, (ii) acquiring or retaining any "ownership interest" in, or in "sponsoring" a "covered fund" and (iii) entering into certain transactions with such funds subject to certain exemptions and exclusions.

An "ownership interest" is defined widely and may arise through a holder's exposure to the profits and losses of the "covered fund", as well as through certain rights of the holder to participate in the selection or removal of an investment advisor, investment manager, or general partner, trustee, or member of the board of directors of the "covered fund". A "covered fund" is defined widely, and includes any issuer which would be an investment company under the Investment Company Act of 1940, but is exempt from

registration solely in reliance on section 3(c)(1) or 3(c)(7) of that act, subject to certain exemptions provide by the Volcker Rule's implementing regulations.

Not all investment vehicles or funds, however, fall within the definition of a "covered fund" for the purposes of the Volcker Rule. For example, for most non-U.S. banking entities, a non-U.S. issuer that offers its securities only to non-U.S. persons may be considered not to be a "covered fund. Additionally, the Issuer should not be a "covered fund" for the purposes of the regulations adopted to implement Section 619 of the Volcker Rule, and also should be able to rely on an exemption from the definition of investment company under Section 3(c)(5)(A) of the Investment Company Act, although there may be additional exclusions or exemptions available to the Issuer. However, if the Issuer is deemed to be a "covered fund", the provisions of the Volcker Rule and its related regulatory provisions, will severely limit the ability of "banking entities" to hold an "ownership interest" in the Issuer or enter into certain credit related financial transactions with the Issuer and this could adversely impact the ability of the banking entity to enter into new transactions with the Issuer and may require amendments to certain existing transactions and arrangements. "Ownership interest" is defined to include, among other things, interests arising through a holder's exposure to profits and losses in the covered fund or through any right of the holder to participate in the selection of an investment manager or advisor or the board of directors of such covered fund.

The Volcker Rule and any similar measures introduced in another relevant jurisdiction may restrict the ability of relevant individual prospective purchasers to invest in the Notes of any Series. There is limited interpretive guidance regarding the Volcker Rule, and implementation of the regulatory framework for the Volcker Rule is still evolving. The Volcker Rule's prohibitions and lack of interpretive guidance could negatively impact the price and the liquidity of the Notes of any Series. Any entity that is a "banking entity" as defined under the Volcker Rule and is considering an investment in "ownership interests" of the Issuer should consult its own legal advisors and consider the potential impact of the Volcker Rule in respect of such investment and on its portfolio generally.

Each investor must determine for itself whether it is a "banking entity" subject to regulation under the Volcker Rule. If investment by "banking entities" in the Notes of any Series is prohibited or restricted by the Volcker Rule, this could impair the marketability and liquidity of such Notes. None of the Issuer, the Co-Arrangers, the Subscribers or any other party to the Transaction Documents makes any representation regarding (i) the status of the Issuer under the Volcker Rule or (ii) the ability of any purchaser to acquire or hold the Notes, now or at any time in the future.

CATEGORY OF RISK FACTOR 7: RISKS RELATING TO LEGAL AND REGULATORY CONCERN

European Market Infrastructure Regulation

European Regulation 648/2012 of 4 July 2012, known as the European Market Infrastructure Regulation ("**EMIR**") entered into force on 16 August 2012. Certain changes to EMIR are introduced pursuant to Regulation (EU) 2019/834 and references to "EMIR" below are construed accordingly.

Among other things, EMIR imposes on "financial counterparties" a general obligation (the **Clearing Obligation**) to clear through a duly authorised or recognised central counterparty all "eligible" OTC derivative contracts entered into with other counterparties subject to the Clearing Obligation. They must also report the details of all derivative contracts to a trade repository (the **Reporting Obligation**) and undertake certain risk-mitigation techniques in respect of OTC derivative contracts which are not cleared by a central counterparty such as timely confirmation of terms, portfolio reconciliation and compression and the implementation of dispute resolution procedures (the **Risk Mitigation Obligations**). Non-cleared OTC derivatives entered into by financial counterparties must also be marked to market and collateral must be exchanged.

Non-financial counterparties are excluded from the Clearing Obligation and certain Risk Mitigation Obligations provided that the gross notional value of all derivative contracts entered into by the non-financial counterparty and other non-financial counterparties within its "group" (as defined in EMIR), excluding eligible hedging transactions, do not exceed certain thresholds. If the Issuer is considered to be a member of such a "group" (as defined in EMIR) and if the notional value of derivative contracts

entered into by the Issuer or other non-financial counterparties within any such group exceeds the applicable threshold, the Issuer would be subject to the clearing obligation. Whilst each Series Swap Agreement entered into by the Issuer is expected to be treated as a hedging transaction and deducted from the total in assessing whether the notional value of derivative contracts entered by the Issuer or its "group", the regulator may take a different view.

If the Issuer exceeds the applicable clearing thresholds, it would also be subject to the relevant risk mitigation obligations and would be required to post collateral in respect of non-cleared OTC derivative contracts. The Issuer may be unable to comply with such requirements, which could result in the termination of the relevant Series Swap Agreement. Any termination of the relevant Series Swap Agreement as a result of non-compliance with such requirements or as a result of the Issuer becoming a financial counterparty as described above or otherwise could expose the Issuer to costs and increased interest rate risk.

It should also be noted that the Securitisation Regulation (which applied in general from 1 January 2019), among other things, makes provisions for the development of technical standards in connection with the EMIR regime specifying (i) an exemption from clearing obligations and (ii) a partial exemption from the collateral exchange obligations for non-cleared OTC derivatives, in each case for "simple, transparent and standardised" (**STS**) securitisation swaps (subject to the satisfaction of the relevant conditions). The final draft technical standards have been prepared by the European Supervisory Authorities and submitted to the European Commission in December 2018 and these are now subject to the EU political negotiation process. As a result, the time of entry into force and the date of application of the new technical standards is unknown at this point.

Prior to the relevant Issue Date, IBL Banca intends to make the STS notification. However, until the final new technical standards referred to above are in force, no assurance can be given that the Issuer will meet the applicable exemption criteria provided therein. Notwithstanding the STS designation and the ability, as a result, to rely on the exemptions from clearing and collateral exchange obligations under the EMIR regime, the expectation is that the Issuer should not be required to comply with the EMIR collateral exchange obligations and clearing requirements for the reasons outlined above (as the Issuer is expected to be a non-financial counterparty below the "clearing threshold"). The STS designation and the related forthcoming exemptions from collateral exchange obligations and clearing requirements are only likely to become relevant should the status under the EMIR of the Issuer change from non-financial counterparty below the "clearing threshold" to non-financial counterparty above the "clearing threshold" or financial counterparty and, if applicable, should the Issuer be regarded as a type that is subject to EMIR clearing requirement.

Recharacterisation of English Law fixed security interests

There is a possibility that an English court could find that the fixed security interests expressed to be created by the Series Deed of Charge governed by English law could take effect as floating charges as the description given to them as fixed charges is not determinative. If the fixed security interests are recharacterised as floating security interests, the claims of (i) the unsecured creditors (if any) of the Issuer in respect of that part of the net property of the Issuer which is ring fenced as a result of the Enterprise Act 2002 and (ii) certain statutorily defined preferential creditors of the Issuer may have priority over the rights of the Representative of the Noteholders (acting as security trustee) to the proceeds of enforcement of such security. In addition, the expenses of any administration would also rank ahead of the claims of the Representative of the Noteholders (acting as security trustee) as floating charge holder and any administrator would be free to dispose of floating charge (and fixed charge) assets without the leave of the court.

Whether the fixed security interests will be upheld as fixed security interests rather than floating security interests will depend, amongst other things, on whether the Representative of the Noteholders (acting as security trustee) has the requisite degree of control over the Issuer's ability to deal in the relevant assets and the proceeds thereof and, if so, whether such control is exercised by the Representative of the Noteholders (acting as security trustee) in practice. Where the Issuer is free to deal with the secured assets, or any proceeds received on realisation of the secured assets, without the consent of the chargee,

the court would be likely to hold that the security interest in question constitutes a floating charge, notwithstanding that it may be described as a fixed charge.

CATEGORY OF RISK FACTOR 8: RISKS RELATING TO TAX CONSIDERATION

Withholding tax under the Rated Notes

Payments of interest and other proceeds under the Notes may in certain circumstances, described in the section headed *"Taxation*" of this Base Prospectus, be subject to a Decree 239 Deduction. In such a circumstance, interest payment relating to the Notes of any Class may be subject to a Decree 239 Deduction. As at the date of this Base Prospectus, Decree 239 Deduction, if applicable is levied at the rate of 26 per cent., or such lower rate as may be applicable under the relevant double taxation treaty.

In the event that any Decree 239 Deduction or any other deduction or withholding for or on account of tax is imposed in respect of payments to Noteholders of amounts due pursuant to the Notes, the Issuer shall not be obliged to gross-up or otherwise compensate Noteholders for the lesser amounts that the same Noteholders shall receive as a result of the imposition of any such deduction or withholding, or otherwise to pay any additional amounts to any of the Noteholders.

Tax treatment of the Issuer

Taxable income of the Issuer is determined without any special rights in accordance with Italian Presidential Decree number 917 of 22 December 1986 ("**Decree 917**"). On the basis of the regulations issued by the Bank of Italy on 29 March 2000 and on 22 December 2014, which should apply to the drafting of the financial statements of the Issuer, the assets and liabilities and the costs and revenues of the Issuer in relation to the securitisation of the Receivables will be treated as off-balance sheet assets and liabilities, costs and revenues (except for overhead and general expenses and any amount that the Issuer may apply out of the relevant Series Available Funds for the payment of such overhead and general expenses). Based on the general rules applicable to the calculation of the net taxable income of a company, such taxable income should be calculated on the basis of accounting, i.e. on-balance sheet earnings, subject to such adjustments as are specifically provided for by applicable income tax rules and regulations. On this basis, no taxable income should accrue to the Issuer in the context of the Securitisation.

On 24 October 2002, the Revenue Agency – Regional Direction of Lombardy, released a private ruling with reference to some aspects of the Italian taxation of a securitisation vehicle. According to the private ruling, the Agency claimed that the net result of a securitisation transaction is taxable as issuer's taxable income "to the extent that the relevant securitisation transaction is structured in such a way that a net income is available to the vehicle after having discharged all its obligations". Moreover, the *Agenzia delle Entrate* (the "**Agency**"), with Circular number 8/E of 6 February 2003, has taken the position that only amounts, if any, available to securitisation vehicles after fully discharging their obligations to the noteholders and any other creditors of the securitisation vehicles in respect of any costs, fees and expenses in relation to securitisation transactions should be imputed for tax purposes to the securitisation vehicles. Consequently, according to the quoted position of the Agency, the Issuer should not have any taxable income if no amounts are available to the Issuer after discharging all its obligations deriving from and connected to the Securitisation.

It is however possible that the Italian Ministry of Economy and Finance or another competent authority may issue regulations, circular letters or generally binding rules relating to the Securitisation Law which might alter or affect, or that any competent authority or court may take a different view with respect to, the tax position of the Issuer, as described above.

Interest accrued on the accounts opened by the Issuer in the Republic of Italy with any Italian resident bank or any Italian branch of a non-Italian resident bank (including the Issuer Collection Account, the

Payments Account and the Expenses Account) will be subject to an advance withholding tax which is levied at the rate of 26 per cent.

Registration Tax

The transfer of the Receivables under the Programme Receivables Purchase Agreement is subject to registration tax which will be payable at a rate varying from the fixed amount of Euro 200.00 to no more than 0.5 per cent of the amount of the Receivables transferred thereunder. The fixed amount of Euro 200.00 will apply in the event that (i) the transfer is made for consideration for VAT purpose and (ii) the transaction is made for financial purposes by the parties. In the Programme Receivables Purchase Agreement IBL Banca has represented and warranted to the Issuer that it entered into such documents and made the transfer of the Receivables thereunder for financial purposes. Furthermore, in this respect the Originator has already paid as fixed amount the registration tax for each notarial transfer deed entered into in the context of the Programme as at the date of this Base Prospectus (i.e. the transfer deed for Receivables owed by public administrations, before the changes made to the Italian Securitisation Law by the Decree 145).

In addition, in respect of any Transaction, in order to mitigate the risk connected to the application of the registration tax (which could result in the Issuer not having sufficient funds to repay the Noteholders of the relevant Series), the Programme Receivables Purchase Agreement provides (and each relevant Transfer Agreement will provide) that the Originator shall bear, and shall indemnify the Issuer in respect of, any registration tax or any other tax applicable to the Programme Receivables Purchase Agreement and such Transfer Agreement.

U.S. Foreign Account Tax Compliance Withholding

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA ("**FATCA**"), a "foreign financial institution" (including entities such as the Issuer) may be required to withhold on certain payments it makes ("foreign passthru payments") to persons that fail to meet certain certification, reporting, or related requirements.

A number of jurisdictions (including Italy) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the Italian IGA, the Issuer will not be required to enter into an agreement with the IRS or withhold under FATCA from payments it makes on the Notes if it complies with the terms of the Italian IGA. However if (i) the placement of the Notes is not performed by a Reporting Italian Financial Institution (a "**RIFI**"), or (ii) the Notes are not sold by the Issuer to a RIFI, or (iii) the Notes are not subscribed for by the Issuer and are held among its assets ("*mantenute nel proprio attivo dello stato patrimoniale*"), the Issuer maybe required to register with the IRS and comply with any Italian legislation that would be implemented to give effect to such IGA.

Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register, and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the issuer).

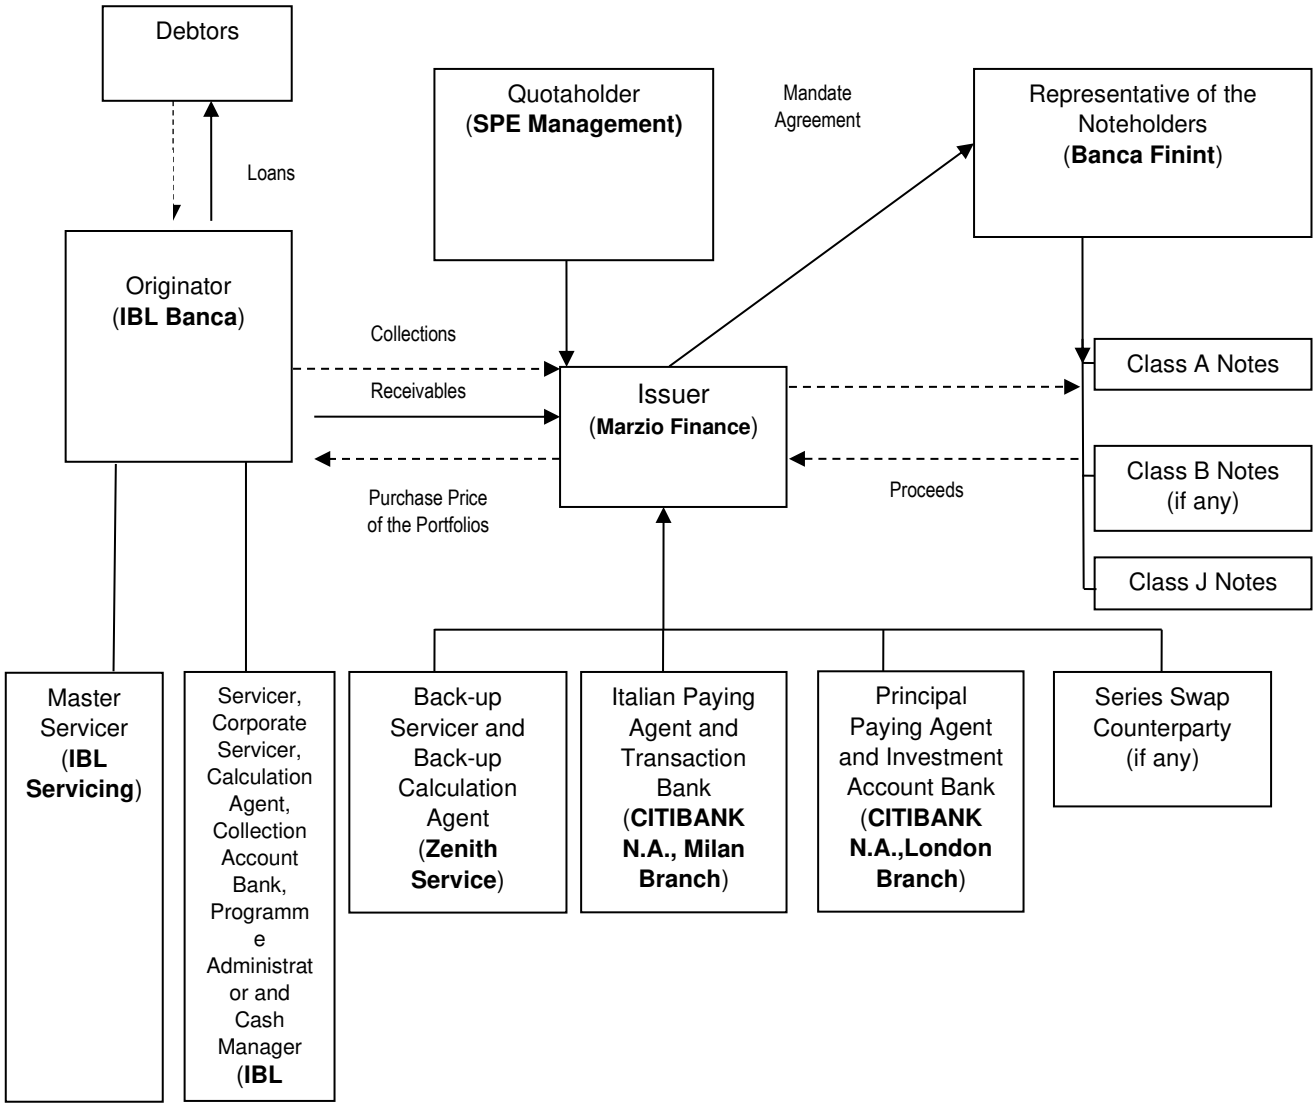
If an amount in respect of U.S. withholding tax (including under FATCA) were to be deducted or withheld from interest or principal on the Notes or other payments from a Party to this Transaction as a result of a holder's failure to comply with these rules, none of the Issuer, any paying agent or any other person

would, pursuant to the Conditions or any other Transaction Documents, be required to pay additional amounts as a result of the deduction or withholding of such tax.

EACH NOTEHOLDER OF SENIOR NOTES SHOULD CONSULT ITS OWN TAX ADVISER TO OBTAIN A MORE DETAILED EXPLANATION OF FATCA AND TO LEARN HOW FATCA MIGHT AFFECT EACH NOTEHOLDER IN ITS PARTICULAR CIRCUMSTANCE

TRANSACTION DIAGRAM

The following is a diagram showing the structure of each Transaction under the Programme as of the date hereof. It is intended to illustrate to prospective noteholders a scheme of the principal transactions contemplated in the context of the Programme and of each Transaction.



REGULATORY DISCLOSURE AND RETENTION UNDERTAKING

On 12 December 2017 the European Parliament and the European Council adopted the Regulation (EU) No. 2017/2402 (the "**EU Securitisation Regulation**"), laying down *inter alia* a general framework for securitisations, including with respect to the retention of a net economic interest in the securitisation by originators, sponsors or original lenders. The EU Securitisation Regulation was published in the Official Journal of the European Union on 28 December 2017 and it will apply to securitisations whose notes are issued on or after 1 January 2019.

Pursuant to article 6 and 7 of the EU Securitisation Regulation, originators, sponsors or original lenders shall be required, *inter alia*, to retain at least 5 per cent of net economic interest in a securitisation.

"**Retention and Transparency Rules**" means articles 6 and 7 of the EU Securitisation Regulation, the Circular No. 285 of 17 December 2013 ("*Disposizioni di Vigilanza per le Banche*") as amended from time to time, issued by the Bank of Italy, together with any applicable guidance, technical standards or related documents published by the European Banking Authority (including its predecessor, the Committee of European Banking Supervisors, and any successor or replacement agency or authority) and any delegated regulations of the European Commission in connection thereof and any other laws or regulations providing for retention and due diligence requirements in respect of securitisation transactions, as from to time applicable and/or amended or supplemented.

Please refer to the section entitled "Risk Factors" for further information on the implications of article 6 of the Securitisation Regulation.

Retention statement

The Originator, will retain, with effect from the Issue Date of each Series of Notes issued under the Programme, and maintain on an ongoing basis at least 5 per cent of net economic interest in accordance with one of the options provided for under article 6 of the EU Securitisation Regulation – as specified in the Final Terms applicable to such Series.

The method applied by IBL Banca for retaining a net economic interest in each Transaction carried out under the Programme as at the relevant Issue Date of the Notes of each Series (as specified in the Final Terms applicable to such Notes) will be compliant with the Retention and Transparency Rules.

For so long as the Notes of each Series are outstanding the Originator shall also comply with the disclosure duties specified in article 7(1)(e), sub-paragraph (iii) of the EU Securitisation Regulation. For such purpose, the Originator has undertaken to make available to the Noteholders and any prospective investors in the Notes, through the Sec Reg Investor Report, the information required by article 7(1)(e) sub-paragraph (iii) of the EU Securitisation Regulation (including, in particular, the information regarding the net economic interest from time to time held by the Originator in the Securitisation) and has undertaken to provide to the Calculation Agent all of the information needed for it to prepare the Sec Reg Investor Report. It is understood that the Sec Reg Investor Report shall be deemed to have been produced on behalf of the Originator, under the Originator's full responsibility.

IBL Banca, in its capacity as Originator, has undertaken in the Programme Intercreditor Agreement to the Issuer and the Representative of the Noteholders and will undertake in each Series Subscription Agreement to the relevant Subscriber(s) that, in respect of any Transaction and any Series of Notes issued under the Programme:

(1) it will retain at the origination and maintain on an ongoing basis at least 5 per cent of net economic interest in accordance with one of the options provided for under article 6 of the EU Securitisation Regulation (or any permitted alternative method thereafter), as specified in the applicable Final Terms, and provide adequate disclosure to the Noteholders in accordance with any applicable Retention and Transparency Rules; and

(2) it will provide adequate disclosure to the Noteholders of each relevant Series and comply with any other undertakings or requirements provided for the originators of securitisation transactions under any applicable Retention and Transparency Rules.

Furthermore, in the Programme Intercreditor Agreement, the Originator has undertaken that prospective investors will have readily available access to all information as it would be necessary to conduct comprehensive and well informed stress tests, in accordance with the Retention and Transparency Rules, as implemented from time to time.

In the light of the above, the Originator will make available on or about the Issue Date of each Series of Notes issued under the Programme, and will make available on a quarterly basis, the information required under the Retention and Transparency Rules, as implemented from time to time, which will not form part of this Base Prospectus but may be of assistance to certain categories of prospective investors before investing and which is specified under the terms of the Programme Intercreditor Agreement.

Disclosure Obligation

In accordance with the Programme Intercreditor Agreement, the Originator has been designated as "Reporting Entity", pursuant to and for the purposes of article 7(2) of the EU Securitisation Regulation.

In such capacity, the Originator, under the Programme Intercreditor Agreement, (i) has confirmed that it will make available all relevant reports and information required to be delivered to the investors in the Notes of each Series on or prior to the pricing of each Transaction pursuant to article 7(1) of the EU Securitisation Regulation by electronic means on the website of European DataWarehouse (being, as at the date of this Base Prospectus, https://editor.eurodw.eu/) and (ii) has undertaken to make available the reports and information received from the relevant parties under the Transaction Documents on an on-going basis pursuant to article 7(1) letters (a), (e), (f) and (g) of the EU Securitisation Regulation on the website of European DataWarehouse (being, as at the date of this Base Prospectus, https://editor.eurodw.eu/).

With reference to the Sec Reg Investor Report, under the Cash Allocation, Management and Payments Agreement, the Originator has undertaken to provide the Calculation Agent with all the information needed to prepare the Sec Reg Investor Report, including the information about the risk retained and information on which of the modalities provided for in Article 6(3) of the EU Securitisation Regulation has been applied. It is understood that the Sec Reg Investor Report shall be deemed to have been produced on behalf of the Originator, under the Originator's full responsibility.

Moreover, the Originator has undertaken that any of such information, following the Issue Date of each Series of Notes issued under the Programme, will:

(i) be published, on a monthly basis, on the Originator's web site (www.iblbanca.it/investorrelations) and included in the Investors Report of the relevant Transaction on the basis and to the extent of the information received by the Master Servicer in the relevant Servicer's Report. It is understood that the Investors Report shall be deemed to have been produced on behalf of the Originator, under the Originator's full responsibility, with reference to the information described in this section that the Originator has the obligation to make available to investors under the Retention and Transparency Rules;

(ii) with reference to the further information which from time to time may be deemed necessary under the Retention and Trasparency Rules in accordance with the market practice and not covered under (i) above (if any), be published on the Originator's website or through the Investor Report in accordance with paragraph (i) above.

In addition, prospective investors may request via email to the riginator at the following address securitisation@iblbanca.it any additional information in accordance with article 7 of the EU Securitisation Regulation.

Under the Programme Intercreditor Agreement, the Originator has undertaken that the retention requirement will not to be subject to any credit risk mitigation, any short position or any other hedge, within the limits of the Retention and Transparency Rules.

Investors to assess compliance

Each prospective investor is required to independently assess and determine the sufficiency of the information described above and in this Base Prospectus generally for the purposes of complying with article 5 of the EU Securitisation Regulation, each of the provisions described above and any corresponding implementing measure which may be applicable, and none of the Issuer, IBL Banca (in its capacity as Originator and Servicer) nor the Co-Arrangers, the Subscribers or any other party to the Transaction Documents makes any representation that the information described above or in this Base Prospectus generally is sufficient in all circumstances for such purposes. In addition, each prospective Noteholder should ensure that they comply with the implementing provisions in respect of the EU Securitisation Regulation.

Investors who are uncertain as to the requirements which apply to them in respect of their relevant jurisdiction, should seek guidance from their regulator.

THE PORTFOLIOS

Pursuant to the Programme Receivables Purchase Agreement, the Issuer, subject to the conditions set forth therein, shall purchase, from time to time, Portfolios of Receivables from the Originator, together with any other rights of the Originator to guarantees or security interests and any related rights that have been granted to the Originator to secure or ensure payments of any of the Receivables.

The Receivables which will be comprised in each Portfolio to be transferred under the Programme by the Originator arise out of Loan Agreements granted by the Originator to the relevant Debtors, assisted by either Salary Assignment or Payment Delegation.

According to market data, as at the end of 2021 (*Assofin reporting data*), in terms of outstanding volumes, the consumer credit market size in Italy is around Euro 111 billion (increasing 1.24% yoy), of which approximately 22 billion related to CDQ Loans (expressing the same trend). In this scenario, on an annual basis (*Assofin reporting data at 31 December 2021*), in terms of new loans disbursement, the consumer credit market size is roughly equal to Euro 72 billion (increasing 16.9% yoy), of which 6.3 billion related to the CDQ Loans (increasing 8.6% yoy).

The Receivables comprised in each Portfolio will be selected on the basis of (i) certain common objective criteria listed in Annex 1 to the Programme Receivables Purchase Agreement (the "**Common Criteria**") which shall apply to any Portfolio. Pursuant to the Programme Receivables Purchase Agreement, further objective criteria (the "**Specific Criteria**" and, together with the Common Criteria, the "**Criteria**") may be agreed between the Issuer and the Originator from time to time to supplement the Common Criteria in the selection of any Portfolio.

The information relating to any Portfolio transferred from the Originator to the Issuer pursuant to the Programme Receivables Purchase Agreement will be published, (i) on or about the relevant Transfer Date, on the website of the Originator (www.iblbanca.it/investorrelations) and (ii) within 15 days of the relevant Issue Date of each Series of Notes, on the website of European DataWarehouse (being, as at the date of this Base Prospectus, https://editor.eurodw.eu/).

Furthermore, with reference to each Transaction, Schedule 1 of the applicable Final Terms will contain tables setting out details of the relevant Portfolio derived from information provided by IBL Banca as Originator of the Receivables comprised in such Portfolio. In particular, Schedule 1 of the applicable Final Terms will set out the amount of the Receivables comprised in the relevant Portfolio. The information set out in these tables will reflect the position of the relevant Portfolio as at the relevant Valuation Date, unless otherwise specified.

With reference to each Transaction, there will always be more than 15 obligors in respect of the relevant Series of Notes issued under the Programme.

The level of collateralisation in respect of each Transaction shall be specified in the applicable Final Terms.

The Criteria

Pursuant to the Programme Receivables Purchase Agreement, the Originator will sell to the Issuer and the Issuer will purchase from the Originator all the Receivables arising from Loan Agreements which meet, as at the relevant Valuation Date, the following Common Criteria:

Common Criteria

1) are personal Loans to be reimbursed through a Salary Assignment or, alternatively, assisted by a Payment Delegation issued in favour of IBL Banca by the relevant Debtor and notified to the relevant Employer/Pension Authority and accepted by it;

2) have been granted only by IBL Banca as lender;

3) have been denominated in Euro and do not contain provisions that allow their exchange in another currency;

4) have been entirely granted by IBL Banca and in respect of which there are no obligation or possibility to make further disbursements under the relevant Loan Agreement;

5) have been granted pursuant to Loan Agreements governed by Italian Law;

6) at least one Instalment has been paid;

Company history

IBL Banca (the "**Bank**") was incorporated on 12 April 1927 as a credit institution for regional and local government employees and has been offering CDQ Loans since 1991.

Having changed its name in 1938 to "Istituto Assistenziale per il Pubblico Impiego S.p.A." and increased capital to Italian lira 255,000, the Bank took on the name "Istituto Finanziario del Lavoro S.p.A." in 1943, with share capital amounting to Italian lira 1,000,000. Thereafter, with various equity offerings, the share capital rose to Italian lira 7.0 billion in 2001 (converted into EUR 3,640,000) and then was increased to EUR 6,300,000 in 2002.

IBL Banca (under the corporate name "Istituto Finanziario del Lavoro S.p.A.") was an authorized financial intermediary pursuant to Article 106 of Consolidated Banking Act (registered under No. 621 of the General Register held by the Ufficio Italiano dei Cambi).

On 18 July 2003, IBL Banca obtained permission from the Bank of Italy to operate as a bank as of 1st January 2004, under the corporate name "Istituto Bancario del Lavoro S.p.A. - IBL Banca".

In 2004, the Bank started carrying out banking activities (including deposit taking from the public and retail lending).

In April 2009, the Bank began operating in the retail savings deposit account sector, offering both demand deposit accounts and term deposit accounts. In the same year, the Bank made another important business decision: it changed its consumer credit model from originate to distribute (i.e. the generation of loans for their subsequent sale) to originate to hold (i.e. the maintenance of loans in the Bank's portfolio) by gradually eliminating non-Recourse assignment transactions from the range of services offered to its customers. These changes led to an increase in the group's interest margin.

In 2008, following the acquisition of IFL Finanziaria S.p.A., which changed its name to IBL Family S.p.A. ("**IBL Family**"), the IBL Banca Banking Group (Gruppo Bancario IBL Banca) was formed. Between 2009 and 2012, five IBL Family outlets were transformed into branches of the Bank.

During 2010, Mr. Mario Giordano transferred his interest in the Bank's share capital to Delta 6, a company entirely owned by him. As of the date of these listing particulars, Delta 6 owns 50% of the share capital of the Bank.

On 26 November 2011, the Bank was authorised under applicable Italian law to provide certain investment services (as defined under Article 1, paragraph 5 of the Financial Laws Consolidation Act) as well as the service of custody and administration of financial instruments (as defined under Article 1, paragraph 6, letter (a) of the Financial Laws Consolidation Act).

In 2013, the Bank started offering third party insurance products through IBL Assicura S.r.l. pursuant to a strategic partnership with Zurich Insurance Group AG.

In 2017, the Bank purchased a Euro 350 million CDQ loan portfolio from Barclays Bank, with the aim of boosting the increase of the profitability for the following three to four years. At that time Barclays Bank was implementing its own strategy to exit the Italian banking market and the Bank represented, for them, the only reliable counterpart to allow the disposal of CDQ loans.

In 2018, the Bank realised a joint venture with Europa Factor S.r.l., a servicer specialised in the NPL collection process, by creating a company named Credit Factor S.p.A., 50% owned by both shareholders. Credit Factor S.p.A. is a financial company enrolled in the new register of financial intermediaries pursuant to art. 106 of the Consolidated Banking Act, with the aim of investing in the acquisition of a small ticket NPL credit portfolio.

In 2019 the Bank completed the acquisition of 70% of Finanziaria Familiare S.p.A., renamed as IBL Family, a

joint venture with real estate agent network Tecnocasa. IBL Family instigates CDQ Loans in conjunction with home-buying processes and is aimed at developing a partnership with other banking players and captive broker networks.

As at the end of 2020, IBL's commercial model involved direct distribution through its own brand (54 branches) and indirect distribution via financial advisors and bank distribution agreements. Over the past six years, growth has been fuelled by third party agents and brokers, as well as via branches, which have usually accounted for 50% of annual originations. In contrast, distribution via lenders (in partnership) has shrunk. Covid-related closures in 2020 had a limited impact on branch distribution volumes.

In 2021, the Bank completed the acquisition of Banca di Sconto S.p.A. and Banca Capasso S.p.A., two banks operating in the Region of Campania near to Caserta, with the intention of allowing the transformation of IBL Family into a bank, with Banca di Sconto S.p.A., and to develop the investing strategy in the NPL single name-large ticket and UTP, with Banca Capasso S.p.A..

The Bank group is a pioneer in the CDQ Loans sector in Italy. The group is one of the leading independent players, with significant experience in this sector, and is well-positioned to capture potential market opportunities. Through the Bank's long sector experience, it has become a product specialist in the business of CDQ Loans, with a market share of 12% as of 31 December 2021 in terms of new business (14.5% also including IBL Family new business. Source: Assofin, Consumer Credit Observatory (retail)). The Bank's management team has a strong market-based, entrepreneurial approach to the business.

Business model

The Originator is a bank authorised to carry out banking activities pursuant to article 10 of the Consolidated Banking Act and is active in Italy in the consumer credit market, and in particular in the CDQ loan market, but it has also expanded its offer with the proposal of insurance. The group offers its products and services exclusively in Italy.

In particular, the Originator operates as a vertical specialist in the sector of CDQ Loans as well as through payment delegation, an activity that represents its core business. The Bank also offers traditional banking products such as bank accounts and deposit accounts for retail and corporate customers in Italy, as well as other ancillary banking services, and provides, in limited cases, certain investment services. In addition, the Bank offers third party financial insurance products and personal lending and consumer credit products.

The Originator funds its core business mainly through its retail and corporate banking (in particular comprising mostly direct funding through deposits and, to a lesser extent, through bank accounts).

IBL Banca operates into five market segments, according to the nature of the products offered and by the channel through which these products are placed:

- Own market, into which IBL Banca operates as vertical specialist. The integration in the product chain comes from a complete coverage of the placement of own financial product channels by direct distribution of salary-backed and pension-backed loans to target clients of the bank (through its own distribution networks, credit brokerage companies or networks of qualified agents in financial activities).

In connection with this, the business policy for placing salary-backed loan products relies also on adoption of a highly developed plan of leads generation, direct marketing & telemarketing and brand awareness.

- Other's markets, in which the bank provides organisation skills (administrative servicing) and financial abilities (approving credit limits) to other market operators. In this segment, the bank acts as a specialised operator in managing all the phases of the CDQ product value chain; from the phase of support to the sales network for management, to the front office and back office activities (product processing and collection management).

- NPL market: in this context, IBL Banca entered into a joint venture agreement with Europa Factor S.r.l. with the purpose to purchases unsecured non performing financial loans, with the aim of maximizing value creation and to obtain high yields on the NPL management and acquired Banca Capasso S.p.A. with the aim of dedicating it to investment in NPE large ticket secured.

- Traditional retail and corporate banking activities: it implies the continuation of the former Banca Capasso S.p.A.'s operations to ensure business continuity and to grow its local footprint. The business will be continued by two units belonging to Banca Capasso S.p.A., namely, the retail lending and the commercial units. The retail lending unit has the same duties as Banca Capasso S.p.A.'s current lending office; the commercial unit carries out the same activities as those performed by Banca Capasso S.p.A.'s branches.

- Insurance Market: in order to diversify its own business and take opportunities arising from an "high growth" sector, IBL Banca increased its share into the equity of one of the most important Italian insurance player.

The current business model of the Group is based on strategic lines of positioning of the market promoted by the management in the course of the most recent thirty years, and is oriented toward obtaining the high levels of integration of product distribution and focus on the loans (vertical specialisation).

Products

The bank handles the placement of:

- **IBL Banca products**, in respect of CDQ loans and "Advances on TFS" (*Anticipo Trattamento di Fine Servizio*), in the event of target customers (belonging to the category of public employees, state government employees, or prominent, large-scale private companies);

- **third-party products**, for which the bank acts as intermediary - the distribution of third-party products, which includes personal loans, mortgage loans, cards and insurance policies represents a source of profitability that does not entail the assumption of risks. It also meets the need of expanding the range of solutions in order to satisfy the requirements of a diversified body of customers.

With regards to its own product, the bank offers to its clients:

- CDQ (salary and pension-backed loans and delegation of payments), which represent the core business of the Group.

- Advances on TFS (*Anticipo Trattamento di Fine Servizio*), which represent a new product provided by the bank from 2018 aimed to retirees (public and state).

With regards to third-party products, the bank offers to its client:

- Personal loans;

- Mortgage loans;
- Cards; and
- Insurance policies.

Network organisation

The placement of the products is provided through various channels: branches, third party networks and direct agreement with local governments.

Branches

Bank branches represent the channel through which the Group handles the marketing and sales directly with customers of IBL Banca as well as third-party products. In keeping with the business model promoted by IBL Banca, as of 31 December 2021 the Group's territorial network is comprised of 54 bank branches (also including Banca Capasso S.p.A. branches).

Third-party networks

Third-party networks represent the channel through which the Group manages the indirect marketing activity for its products and consist of third parties. In further detail, the Broker Channel currently consists of the following financial entities:

- exclusive financial agents;
- credit brokerage firms;
- financial intermediaries pursuant to new art. 106 of the Consolidated Banking Act. The IBL Group currently holds a minority equity interest in one intermediary pursuant to art. 106 of the Consolidated Banking Act.

The strategic objective for the next years is to increase the captive production through:

- the growth of the number of branches in Italy,
- the growth of the network of exclusive financial agents;
- new agreements with credit brokerage firms;
- the assessment of cherry pick acquisitions of consolidated financial intermediaries.

Commercial distribution agreements have already been signed with several banks (Banca del Fucino, Banca popolare delle Province Molisane, Banca popolare Sant'Angelo).

Agreements with local government

This is a direct channel used by the bank to place its own financial products addressed to employees of government agencies and prominent, large-scale private enterprise.

Loan application management

The process of loan application management involves the following stages:

1) Offer

2) Investigation ("Istruttoria") and Decision (authorisation)

3) Processing

4) Loan Disbursement

1. OFFER

In this stage, the distribution network carries out an initial investigation activity which involves an initial objective and subjective assessment of the customer's financing needs to determine his suitability, only subsequently is a personalized offer prepared for the particular customer. Whether the offer meets the client's financial needs. The latter makes a loan proposal to the IBL Bank.

During the first stage the distribution network carries out an initial and preliminary analysis of the formal requirements of the application and only if these requirements are met, then the substantial requirements are also analysed.

The formal requirements are:

- the applicant shall be an employee or retired person;
- if it is an employee, whether his employer meets the scoring requirements set by the bank and by the chosen Insurance Company.

The applicant must submit at least the last salary slip or pension slip which indicates the employer or the pensions agency, the assignable amount and the presence or otherwise of any other pre-existing debts (as withheld in the pay packet).

In any event, financing cannot be obtained by anyone who:

- is not in good health (as shown by a medical exam);

- is not actively working (e.g. on a leave of absence or on disciplinary leave);
- is not financially reliable considering his net cash flow and the financial obligations arising from any other loans which have been declared or resulting from an external database;
- will reach retirement age before maturity, other than in case of assignment of the fifth of the pension;

With regard to all customers who are out from those criteria, the distribution network can ask support for a thorough investigation (also called "pre-acceptance" examination) is carried out with the aim to calculate the credit scoring required by the management.

2. INVESTIGATION (*Istruttoria*) and DECISION (AUTHORIZATION)

In this stage the procedure is based on internal regulations involving an initial objective and subjective assessment of the loan application to determine the suitability of the customer by a credit scoring system implemented by the bank. The bank complies with the law and regulations on banking products and services relating to privacy and transparency, with the customer giving his consent to the use of his personal data, while the bank provides the customer with all the documentation and information on the particular characteristics of, and the risks associated with, the product, while checking the adequacy of the application itself to the customer's financial needs.

There are two different stages involved in the management of the preliminary investigation. During the first stage the bank carries out an analysis of the formal requirements of the application and only if these requirements are met, then the substantial requirements are also analysed.

The formal requirements are:

- the applicant shall be an employee or retired person;
- if it is an employee, whether his employer meets the scoring requirements set by the bank and by the chosen Insurance Company.

The applicant must submit at least the last salary slip or pension slip which indicates the employer or the pensions agency, the assignable amount and the presence or otherwise of any other pre-existing debts (as withheld in the pay packet).

In any event, financing cannot be obtained by anyone who:

- is not in good health (as shown by a medical exam);
- is not actively working (e.g. on a leave of absence or on disciplinary leave);
- is not financially reliable considering his net cash flow and the financial obligations arising from any other loans which have been declared or resulting from an external database;
- will reach retirement age before maturity, other than in case of assignment of the fifth of the pension;
- analyzes on creditworthiness are also carried out consider the amount of available assets and the amount of liabilities to determine the probability of a customer's over-indebtedness (*sovraindebitamento*).

With regard to all customers who are out from those criteria, a thorough investigation (also called "pre-acceptance" examination) is carried out with the aim to calculate the credit scoring required by the management.

The relevant factors are whether the information in the application satisfies certain quantitative and qualitative requirements both with respect to the employer and the applicant. In the case of a CDQ Loan and of a DP Loan the process of granting a loan depends on the employer (primarily) as well as the applicant as an individual. Such particular requirements (unique among products in the consumer credit sector) arise out of the legal nature of the relationship established among the lender (the bank), the borrower (the applicant) and the employer (assigned third party administration) where the lender has the right to obtain repayment of the portions of the lent sum by deductions from the employee's pay packet (assignment with recourse) made directly by the employer.
In this regard the Group has implemented an IT system that enables it, when in possession of certain information, to check the admissibility or otherwise of the application. Behind the mathematical calculation there are certain assumptions and parameters agreed by the Management that are periodically reviewed according to market trends (macro variables) and the specific consideration of the persons involved in the preliminary investigation (employer and applicant).

It is ascertained for example whether the employer meets certain size requirements (minimum number of employees), legal requirements (type of legal status: e.g. joint stock company), capital requirements (minimum level of paid up capital), performance requirements (analysis of the financial statements in relation to specific indicators) and qualitative requirements (operating in determined fields/goods or manufacturing sectors). Moreover, on the basis of periodic analyses carried out by Credit Department, the benchmarks are updated to provide indications for the correlation between certain characteristics of the company and the presumed performance expected in possible future dealings.

On the other hand investigations are carried out on the individual applicant on an ad hoc basis to estimate the risk of fraud and to assess creditworthiness. In the investigative stage the bank also examines the details of the customer to make sure there are no outstanding default situations (such as overdue or unpaid bills).

The above process then results in a positive, negative or "to be re-examined" outcome. While the first two outcomes are clear, in the third case the application is scrutinised by the Credit Department, which comes to a final conclusion as to the admissibility or otherwise of the request after further and more detailed analysis.

If the decisioning investigation is successfully completed and the customer's proposal is approved, we proceed with the subsequent improvement activities.

From a technical point of view the decision does not mean that the customer is granted a loan, but it is only a confirmation of the preliminary investigation (i.e. the fulfilment of the requirements of internal rules and the compliance with the law) so that it is possible to go ahead with the actual process that ends with the calculation and disbursement of the loan.

With the completion of this phase the compliance of the documentation submitted by the customer is verified as well as the creditworthiness of the employer as previously described and it is also verified that guarantees can be obtained (the capacity of the loan to be insured by insurance companies).

3. PROCESSING

Once the loan is approved, Branch Representative performs certain checks, acquires the guarantees and thereafter proceeds with the signing of the loan documentation and the notification of the assignment of the CDQ to the employer / pension fund.

The bank checks the contractual documentation ensuring:

- that it has reached the competent office;
- that it is authentic;
- that it is consistent with the information furnished at the time of pre-contractual offer;
- that it has been signed by the applicant in the proper way;
- that it is duly filed in the records of the applicant's loan;
- that it is compliant with the anti-money laundering legislation.

In this phase, for all financing, the bank carries out a control of the documentation produced by the customer and his identity through external databases. Moreover, for the most risky categories, through a specialized outsourcer, it retrieves appropriate documents to verify the authenticity of the product documentation - used also subsequently in the fraud prevention systems of the disbursement process - and the identity of the customer through optical checks on identity documents, through a specialised outsourcer.

Further actions are carried out by the bank, and in particular:

- the information and forms regarding insurance cover are given to the applicant;
- the contract is signed and delivered;
- notice of the contract is given to the employer/pensions agency (including any Pension Fund, if applicable).

4. LOAN DISBURSEMENT

When the processing stage has been completed and the guarantees obtained from the insurance companies, and once the contract has been received and accepted by the employer/pensions agency for the purposes of its obligations as assigned third party debtor, the bank proceeds with the final disbursement of the loan.

From the technical point of view it is only with the actual disbursement that the process of granting the loan to the customer is completed.

Disbursement of the loan is subject to the following checks:

- the official go-ahead ("benestare") or other document from which can be inferred acceptance by the employer of the obligations to which it is subject under the terms of the loan contract (first guarantee);
- the obtaining of the insurance coverage provided for in relation to the loan (second guarantee).

After the aforesaid guarantees have been obtained and before the loan can actually be paid, the bank carries out a final check to ensure that all the documents necessary in order to complete the transaction are both formally and substantially in its possession and are compliant with all the regulatory requirements

set forth under Italian Presidential Decree No. 180 of 5 January 1950, as amended and supplemented from time to time.

Fraud prevention systems of the disbursement process

In relation to loan policy and the need to mitigate the risk of fraud, the Group has set up a system of fraud controls that is in place across all the investigation processes, irrespective of the channel through which the application is received.

The system envisages four distinct lines of checks for each loan application:

- analysis and checks of the documents certifying the applicant's income;
- telephone checks with the employer;
- checks of significant information on the customer from external databases by means of the service of external specialized outsourcers;
- direct telephone checks to the customers.

The checks on documents relating to income essentially consist in verification of the formal and substantial original nature of the document submitted. Among the checks made, the bank will study the documents' fonts for example, correspondence between monthly remuneration and duties performed, correspondence of the document with other documents acquired from other customers working for the same employer, etc.

Telephone calls to the employer aim at confirming the actual existence of the employment contract in addition to checking any prejudicial factors in relation to the grant of the loan (e.g. garnishment or attachment of earnings or charges on the earnings, the absence of any disciplinary measures or proceedings, the true situation as regards any current deductions from pay, the absence of any other already notified not amortised loans). The bank takes particular care only to speak to employers on telephone numbers that it has verified or that it has taken from public databases.

Through external databases the bank also obtains other important information about the application whereby the banks check the real identity of the customer as well as the actual existence of his position as an employee or person in receipt of a pension.

Through telephone checks to the customer the bank ascertains, through predetermined interviews, any inconsistent replies from the customer that could lead to any inference of suspicious conduct. During the interview stage the bank, inter alia, also checks carefully that the information corresponds to the data on the customer acquired directly by the bank from external databases.

Collections management

The whole collection process is governed by internal regulations that are subject to continuous amendments and updates that respond to changes in the general law and regulations on the subject.

Currently the collection process is split in two macro categories of activity that break down into two operational processes:

- management of collections;
- ascertaining non-performing loans and taking credit recovery action in or out of court.

Management of collections

In this stage of the management process, all the day-to-day activities are carried out with the aim to establishing what instalments are due on the individual loans as envisaged in the payment plan and entering the payments received in the accounts while allocating them to the appropriate borrower's record.

In accordance with an express irrevocable mandate from the employee, the Administration is obliged by law as the assigned third-party debtor, to withhold the payment from the payroll and to remit the same to IBL.

The management of the collections is thus very streamlined since the relationship in the case of many borrowers who are employees of a single Administration is maintained with a single counterparty who is not only legally responsible for sending the payments, but also for providing IBL Banca with a special list indicating the names and amounts for the individual payments made.

The payments are made by the employer Administrations through bank transfers to:

1. bank account of IBL Banca totally dedicated for this purpose;

2. current account with the post office.

The monitoring of such payments occurs on a real-time basis through IBL Banca's direct link with:

- the remote-banking system;

- the Italian Post Office through protected Internet access.

With such connections in place, IBL Banca is able to monitor the current accounts daily, and to maintain a constantly updated situation on the status of the payments.

The credit monitoring area is responsible for the management of the collections and in particular it carries on the following activities:

1. Evaluation of new employers

Once the request for a CDQ/DP comes from an employee whose employer is not already registered, into IBL Banca systems, the bank collects significant information on the employer, amongst which:

- company data from public data providers, for the registration of the employer into IBL Banca systems and for the classification of the company (private, public, state-owned, Ente Poste or Ferrovie dello Stato);

- company contact details and offices in charge of making salary payments;

- further information for certain state-owned entities (i.e. INPS)

2. Management of collections

This stage of the process involves the management of the instalments that become due (i.e. identification of instalments to be paid, matching of payments with amounts due) and the identification of the loans that, for any reasons, are not in line with scheduled payments (because of missed payment or an event that triggers the payment of an insurance company).

This process also includes any necessary changes in payment plans as a result of:

- **suspension**, where there is a missed payment or a partial payment of one or more instalments consequent upon events provided for and regulated contractually. These are generally due to one of the following situations:
    - redundancy;
    - unpaid leave;
    - any reason in general that results in a reduction in pay of more than 30%.
- **deferral of starting date**, where the contractual starting date for the payment plan differs from when the deductions start to be put into effect by the assigned debtor;
- **administration changes**, where the debtor is transferred to another unit, department or office of the same employer or to another employer.

3. Reimbursement (amounts paid back to borrowers) management

Reimbursements occur in cases of:

- Payments exceeding the scheduled payment;
- interest paid notwithstanding prepayments (the employer pays the full amount due including interest not yet accrued).

In such cases IBL:

- checks the existence of the amount exceeding the scheduled payment;
- issues a reimbursement document;
- receives a copy of the reimbursement document countersigned by the client;
- records the reimbursement.

4. Prepayments

Prepayments occur in the following circumstances:

- The loan is re-financed;
- Following a written request by the client;
- Following an event which triggers a payment by the insurance company;
- the Loan is prepaid due to the early termination of the employment relationship because of payment by the employer/pensions agency of the relevant severance indemnity (*trattamento di fine rapporto*).

5. Reporting

Reports summarising information on new and existing loans, and on collections expected are periodically issued with the aim to support the collection management process.

Ascertaining non-performing loans and taking credit recovery action in or out of court

A loan that performs anomalously is one that is out of line with the payment plan as a result of:

- **arrears**, where there is failure by the borrower to perform obligations exactly. The collection manager checks on the causes of the failure to pay the sums due, which can lead to:
  - the classification of the loan as past-due and the consequent charging of interest on the delayed payment;
  - the termination of the instalment plan and the benefit of time limit, with the residual balance due in a single payment.
  - suspension of payments
- **insurance claims**, where the customer dies or the contract of employment is terminated. In such cases the Insurance Department lodges a claim with the insurance company;
- **non-performing loans**, where a borrower has arrears greater than the limits laid down in the supervisory provisions.

The checking and the management of these situations generally involves highlighting within the company which companies are defaulting and notifying them and their customers of the problems associated with non-payment (by individual correspondence, notice to perform, the allocation of a term for performance, court action and debt collection).

If the event is covered by insurance, after the event has been investigated it is reported the insurance company to make a claim for the sum due. In cases of employment contingencies there will be a preliminary check on whether the customer has moved to another employer. In such cases notification is given by the bank to the new employer so that the latter can meet the requirements for the repayment of the loan.

Arrears

The Company controls the exact status of the payments with respect to both the contractual obligations and the amounts paid by the employer Administrations, evidencing any anomalies and proceeding to activate collection through written solicitation of the payments.

The Company checks to see that the payments have been regularly made on the basis of the amortization plans, showing any past-due payments and/or positions for which payments have been suspended. Recovery procedures are activated for past-due amounts such as:

- 3 instalments unpaid.
- 1 instalment unpaid for 3 months
- The unpaid amount is more than 100 euro except for those loans with the amount of the monthly payment that is less than 100 euro.
- Instead, an active approach is taken to managing positions for which payments have been legally suspended due to the reduction of one-third or more of the borrower's monthly wage (e.g. maternity leave, leave of absence, etc.)

The management of the arrears positions takes into account (in terms of the analysis of the unpaid amounts) a grace period of 60 days with respect to the actual contractual due date provided by the amortization plan. This grace period covers a 30-day period provided by law for the payment of the

instalments by the Administrations and another 30-day period for the technical reconciliation of the collections.

Depending on the information reported by the collections area, the management of the past-due position will proceed according to one of the following approaches:

- Out-of-court proceedings to recover the credit:
    - Solicitation;
    - Warning;
- Court proceedings (litigation initiated upon the expiration of the fifth payment due and not paid):
    - Termination of instalment plan.

Whenever an instalment has not been paid, the credit monitoring area immediately arranges to contact:

- the customer:
    - to advise of the non-payment of the instalments
    - to solicit the payment;
- the Administration:
    - to advise of the non-payment of the instalments;
    - to request the settlement of the past-due amounts.

The activity takes 90 days of work consisting in making telephone calls, sending letters or sending e-mail or PEC to the customer and to the employer.

For retired people the activity is managed by an external supplier.

At the end of this 90 days period, all those contracts that are not regularized or that have not become a claim are sent to an external supplier for a 90 days period of treatment. During this period, if we don't receive:

- notice from the customer explaining the non-payment;
- notice from the Administration explaining the non-payment;
- settlement of the past-due amounts and the most recent payment due;

the external supplier will send another written notice warning the Administration and the customer to effect payment, showing that the delay will automatically result in the accrual of interest on the past-due amounts.

For those contracts that are still in arrears after this external treatment the work flow continues to:

- Internal treatment if the unpaid amount is higher than 1,500 euros
- External treatment by another supplier if the unpaid amount is less than 1,500 euros

This is the point in which the collection activities provide for advising the customer of a deadline of 30 days for effecting the payment, evidencing that the following shall occur should the payment not be received within such period:

- the instalment plan shall be annulled and the benefit of term lost
- legal proceedings shall be initiated for the recovery of the credit.

Once the 30-day period has elapsed, credit collection makes an evaluation of the files, finalised to carry out further extrajudicial collection activities or to start legal proceedings are begun if the economic situation of the customer allows it.

In this case, the credit collection area:

- sends all documentation produced to the legal office for the opening of the proceedings;
- consults monthly with the legal office regarding the status of the proceedings, and draws up a report in relation to the status of portfolio in legal cases.

The causes of the suspension provided by the laws governing loans backed by the pledge to transfer wages automatically translate into an extension of the contractual maturity of the loan. During the suspension period the loan is classified as arrears but the bank does not take any legal action against the client.

Insurance claims

The Company presents claims to the insurers in the case of the borrower's loss of employment or life, and then tracks the case to ensure the compensation is promptly paid as agreed.

Claims are filed in the event of:

1. Death of the borrower

In the event of the death of the customer prior to the contractual expiration date, the credit monitoring area will:

- classify the loan as "subject to claim", as soon as the death certificate is produced, and will then close the credit position with respect to the borrower and open a file with the insurer;
- file the loss claim with the insurer, making sure to attach:
- the request for the repayment of all instalments not yet due;
- a copy of the policy;
- a copy of the death certificate;
- gather and send the documentation needed for the insurance settlement;
- verify the regular settlement of the claim by the insurer, soliciting payment in the event of any delay.

2. Loss of the status of full-time employee

In the event of the termination of the employment relationship, the credit monitoring area will provide notice thereof to the insurance company, and ascertain the nature of the termination of the relationship which may result in:

a) the borrower being transferred to another Administration or the borrower being hired by another employer;

b) the loss of the borrower's status as a full-time employee.

In the case a), the Company will determine if the borrower:

- has been transferred to another company. If this is the case, the Company will verify that the Administration has sent to the new Administration the documentation relative to the financing so that the latter can begin withholding the loan payments from the borrower's wage and remitting them in accordance with the amortization plan;
- has advised the Administration of his being employed by another employer. The Company may also verify this directly with the borrower. In this case, the contract is provided to the new employer so that the new employer can begin withholding the loan payments from the borrower's wage and remitting them in accordance with the amortization plan

In case b), the Company will:

- classify the loan as "subject to claim";
- check to ensure that the Administration remits to the Company the severance indemnities accrued for the account of the employee and such amounts will be used to cover part of the residual debt;
- file a definitive loss claim with the insurance company, making sure to attach:
- the request for reimbursement of the loan instalments net yet due, net of the severance indemnities;
- copy of the policy;
- verify the regular settlement of the claim by the insurer, soliciting payment in the event of a delay, and once payment has been made, close the position with respect to the borrower.

Management of the non-performing loans

Considering the collection reports, the Administrations will be classified as "in default" in cases in which:

- the Company has specific information about the Administration (e.g. existence of insolvency proceedings in process);
- the Company has general information about the Administration, and in this case, the default classification needs to be authorized by senior management (such information may include the most recent internal rating, a high number of losses, and information available to the public indicating a critical situation at the Administration).

Default on the part of any organization concerned means that any further loan applications from any persons depending on the particular employer or agency will not be approved.

Workout and recovery procedures

After the bank has carried out all the activities listed above with reference to the management of arrears or after the employer has been classified as "non-performing" the bank carries out an out of court dispute resolution procedure (also through outsourcers), in order to solicit the payment by the borrowers. This procedure consists of the following activities:

(1) phone collection;

(2) mail solicit;

(3) injunctions;

In case such out of court dispute resolution procedure should fail, the bank prepares a memo for its legal advisers with the aim to evaluate a possible legal action.

Thereafter it proceeds with the following actions:

A) Workout

The Company embarks on the initiatives it deems most suitable for working out any precarious credit positions, entering into legal action or taking action out of court with respect to the principal debtor and any guarantors/co-obligors. Such action may be taken directly by the Company or through its legal advisors.

Once a position has been placed on the watchlist and the actions undertaken by credit collection area for the out-of-court recovery of the credit have been documented, the legal department will embark on the recovery proceedings admitted by the law, through mainly:

- injunctions (Articles 633 and the articles thereafter of the Code of Civil Procedure);
- injunctions to pay (Articles 474 and the articles thereafter of the Code of Civil Procedure);
- foreclosures with respect to third parties (Articles 543 and the articles thereafter of the Code of Civil Procedure);
- specific activities related to Companies that are in default (i.e. Bankuptcy or similar)

B) Reporting to senior management

The Credit Collection Department, during the Credit Committee that is held monthly generally, reports to senior management the positions it deems to be classified as "non-performing" (*sofferenza*). The Credit Committee analyses positions to be written off if there are no chance to collect the unpaid amount anymore.

It is expected that the STS Verificationand the CRR Assessment prepared by PCS will be available on the PCS website (https://pcsmarket.org/sts-verification-transactions/) together with a detailed explanation of its scope at https://pcsmarket.org/disclaimer/. For the avoidance of doubt, this PCS website and the contents thereof do not form part of this Base Prospectus. **No assurance can be provided that each Transaction qualified as STS under the Programme will or will continue to qualify as an STS-securitisation under the EU Securitisation Regulation on the relevant Issue Date of each Series of Notes or at any point in time in the future**. None of the Issuer, the Originator, the Co-Arrangers, the Subscribers, the Representative of the Noteholders, or any other party to the Transaction Documents makes any representation or accepts any liability for the Securitisation to qualify as an STS-ecuritisation under the EU Securitisation Regulation on the relevant Issue Date of each Series of Notes or at any point in time in the future. Furthermore, it should be noted that as at the date of this Base Prospectus the Notes are not expected to satisfy the requirements stemming from article 13 of the LCR Delegated Regulation.

Without prejudice to the above, prospective investors in the Notes of the relevant Series should be aware that, on the basis of the information available with respect to the EU Securitisation Regulation and related regulations and interpretations (incuding, without limitation, the EBA Guidelines on STS Criteria) and regulations and interpretations in draft form at the time of this Base Prospectus (including with regard to the risk retention requirements under article 6 of the EU Securitisation Regulation, transparency obligations imposed under article 7 of the EU Securitisation Regulation and the homogeneity criteria set out in article 20(8) of the EU Securitisation Regulation), and subject to any changes made therein after the date of this Base Prospectus:

The true sale nature of the transfer of the Receivables and the validity and enforceability of the same will be covered by the legal opinion issued by the legal counsel to the Co-Arrangers, which will be made available to PCS (or any other third party verifying STS compliance the Originator may appoint) and may be disclosed to any relevant competent authority referred to in article 29 of the EU Securitisation Regulation. Furthermore, the Italian insolvency laws do not contain severe clawback provisions within the meaning of articles 20(2) and 20(3), of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria;

(b) for the purpose of compliance with articles 20, paragraph 2 and 3 of the EU Securitisation Regulation, under the Programme Warranty and Indemnity Agreement, the Originator has represented that it is a joint stock company authorized to operate as a bank and its "centre of main interests" (as that term is used in article 3(1) of the Regulation (EU) no. 848/2015 of 20 May 2015 on insolvency proceedings) is located within the territory of the Republic of Italy; therefore, the Originator would be subject to Italian insolvency laws that do not contain severe clawback provisions;

(c) with respect to article 20, paragraph 4 of the EU Securitisation Regulation, the Receivables arise from Loan Agreements directly entered into by the Originator as lender (for further details, see the section headed "*Portfolios*"); therefore, the requirements of article 20(4) of the EU Securitisation Regulation are not applicable;

(g) for the purpose of compliance with article 20, paragraph 8 of the EU Securitisation Regulation, pursuant to the Programme Warranty and Indemnity Agreement the Originator has represented and warranted that, as at the relevant Valuation Date and as at the relevant Transfer Date, the Receivables comprised in each Portfolio will be homogeneous in terms of asset type taking into account the specific characteristics relating to the cash flows of the asset type including their contractual, credit-risk and prepayment characteristics, given that: (a) all Receivables will be originated by IBL Banca, in the Originator's ordinary course of business, based on similar loan disbursement policies which apply similar approaches to the assessment of credit risk associated with the underlying exposures; (b) all Receivables will be, serviced by IBL Banca according to the same servicing procedures; (c) all Receivables will fall within the same asset category of the regulatory technical standards named "*credit facilities to individuals for personal, family or household consumption purposes*"; and (d) the Common Criteria provide for, *inter alia*, geographic concentration in Italy. ESTIMATED WEIGHTED AVERAGE LIFE OF THE NOTES

The *Estimated Weighted Average Life* of each Series of Notes (***WAL***) refers to the estimated average amount of time that will elapse from the relevant Issue Date of such Series of Notes to the date of distribution to the investor of amounts distributed in net reduction of principal of such Series of Notes (and this is estimated on the basis of several assumptions). The weighted average life of each Series of Notes will be influenced by, *inter alia*, the actual rate at which the principal of the Receivables of each Portfolio is paid. The estimated weighted average life of each Series of Notes cannot be predicted as the actual rate at which the Receivables will be repaid, and a number of other relevant factors are unknown. The calculations of the estimated weighted average life of each Series of Notes will be set forth in the table included in the Final Terms of the relevant Series, that will be prepared on the grounds of certain assumptions including the following:

- all Receivables are duly and timely paid and there are no delinquencies or defaults in payments;
- the constant prepayment rate as per table below, has been applied to each Portfolio in homogeneous terms;
- the calculation of the weighted average life (in years) is calculated on an Actual/360 basis;
- payment of principal and interest due and payable under the Rated Notes will be received on the relevant Payment Date;
- no Transaction Acceleration Event occur in respect of the Notes of each Series;
- the Notes of each Series are not redeemed in accordance with Optional redemption pursuant to the article 14.2 of the Programme Receivables Purchase Agreement or Optional Redemption in whole for taxation reasons;
- the estimated fees and costs payable under the Transaction Documents by the Issuer in connection with each Transaction under the items from (i) to (iv) of the Pre-Enforcement Priority of Payments have been included.

The estimated weighted average life of each Series of Notes is subject to factors largely outside the control of the Issuer and consequently no assurance can be given that the assumptions and estimates in this section will prove in any way to be realistic and they must therefore be viewed with considerable caution.

The Principal Paying Agent may, at any time, request the Issuer and the Representative of the Noteholders to agree, without the consent of the Noteholders, to amend EURIBOR (any such amended rate, an "**Alternative Base Rate**") and make such other related or consequential amendments as are necessary or advisable in order to facilitate such change (any such change, a "**Base Rate Modification**") provided that the following conditions are satisfied:

        (ii) a public statement by the EURIBOR administrator that it will cease publishing EURIBOR permanently or indefinitely (in circumstances where no successor EURIBOR administrator has been appointed that will continue publication of EURIBOR);

(iii) a public statement by the supervisor of the EURIBOR administrator that EURIBOR has been or will be permanently or indefinitely discontinued or will be changed in an adverse manner;

(iv) a public statement by the supervisor of the EURIBOR administrator that means EURIBOR may no longer be used or that its use is or will be subject to restrictions or adverse consequences; or

(v) the reasonable expectation of the Principal Paying Agent that any of the events specified in sub-paragraphs (i) to (iv) above will occur or exist within 6 (six) months of the proposed effective date of such Base Rate Modification; and

(b) such Alternative Base Rate is:

(ii) the Euro Over Night Index Average (or any rate which is derived from, based upon or otherwise similar to the foregoing); or

(iii) a base rate utilised in a material number of publicly-listed new issues of Euro denominated asset backed floating rate notes prior to the effective date of such Base Rate Modification;

2. the Rating Agencies of the relevant Series have been notified of such proposed Base Rate Modification and, based on such notification, the Principal Paying Agent is not aware that the then current ratings of the Rated Notes of such Series would be adversely affected by such Base Rate Modification; and

Notwithstanding the above, no Base Rate Modification will become effective if within 30 (thirty) calendar days of the delivery of the Base Rate Modification Certificate, (i) any of the relevant Series Swap Counterparty does not consent to Base Rate Modification, or (ii) Noteholders representing at least 10 per cent. of the Principal Amount Outstanding of the Class A Notes of the relevant Series have notified the Issuer in writing (or otherwise in accordance with the then current practice of any applicable clearing system through which the Class A Notes are held) that they do not consent to the Base Rate Modification (a "**Noteholder Base Rate Consent Event**"). Objections made in writing other than through the applicable clearing system must be accompanied by evidence to the Representative of the Noteholders' satisfaction (having regard to prevailing market practices) of the relevant Noteholder's title to the Class A Notes of such Series. If a Noteholder Base Rate Consent Event occurs, the Base Rate Modification will not become effective unless a resolution of the holders of the Class A Notes of the relevant Series is passed in favour of the Base Rate Modification in accordance with the Rules of the Organisation of the Noteholders. The Principal Paying Agent, on behalf of the Issuer, will notify the Representative of the Noteholders, the relevant Series Swap Counterparties and the Noteholders in accordance with Condition 16 (*Notices*) on the date when the Base Rate Modification takes effect.

7.7 **Notification of Interest Payment Amount and Payment Date**

As soon as practicable (and in any event not later than the close of business on the relevant Determination Date), the Issuer will cause:

If the Issuer does not at any time for any reason calculate or cause the Principal Paying Agent to calculate the Interest Payment Amount for the Class A Notes and the Class B Note (if any) in accordance with Condition 7.6 (*Calculation of Interest Payment Amounts*), the Representative of the Noteholders as legal representative of the Organisation of the Noteholders shall determine (or cause to be determined) the Interest Payment Amount for the Class A Notes in the manner specified in Condition 7.6 (C*alculation of Interest Payment Amounts*). Any such determination shall be deemed to have been made by the Issuer.

8.2 Mandatory redemption

Unless previously redeemed in accordance with Condition 8.3 (*Optional Redemption*) or Condition 8.4 (*Optional Redemption in whole for taxation reasons*), the Notes of any Series will be subject to mandatory redemption in full (or in part *pro rata*) on each Payment Date, in accordance with this Condition 8 (*Redemption, Purchase and Cancellation*), if and to the extent that, on such dates, there are sufficient Series Available Funds which may be applied towards redemption of the Notes of the relevant Series, in accordance with the Pre-Enforcement Priority of Payments.

In respect of each Series of Notes, on the applicable first Payment Date and on each Payment Date thereafter, the Issuer will cause each Class A Note and Class B Note (if any) to be redeemed on such Payment Date in an amount equal to the Principal Payment Amount in respect of such Class A Note or Class B Note (as the case may be) determined on the related Calculation Date.

8.3 **Optional redemption**

Provided that no Transaction Acceleration Notice has been served on the Issuer, on any relevant Payment Date falling on or after the relevant Clean Up Option Date, the Issuer may redeem the Rated Notes (in whole but not in part) and the Junior Notes (in whole but not in part) at their Principal Amount Outstanding (plus any accrued but unpaid interest thereon), in accordance with the Post Enforcement Priority of Payments, subject to the following:

8.3.1 the Issuer has given not more than 60 days and not less than 30 days' notice to the Representative of the Noteholders and to the Noteholders in accordance with Condition 16 (*Notices*) of its intention to redeem the Notes of each Class of the relevant Series which are to be redeemed; and

8.3.2 prior to giving such notice, the Issuer has provided to the Representative of the Noteholders a certificate signed by an authorised representative of the Issuer on its behalf confirming that the Issuer will on the relevant Payment Date have the funds (free and clear of any Security Interest of any third party) required to discharge all of its outstanding liabilities in respect of (a) all such Rated Notes in accordance with this Condition, (b) any amount required to be paid under the Post Enforcement Priority of Payments in priority to or pari passu with such Rated Notes, (c) all such Junior Notes, and (d) any amount required to be paid under the Post Enforcement Priority of Payments in priority to or pari passu with such Junior Notes.

8.4 **Optional redemption in whole for taxation reasons**

Provided that no Transaction Acceleration Notice has been served on the Issuer, the Issuer may redeem in whole (but not in part) the Notes of each Class at their Principal Amount Outstanding, together with accrued and unpaid interest (and, for the Class J Notes, the Variable Return) up to and including the relevant Payment Date, on any relevant Payment Date:

8.4.1 after the date on which the Issuer is required to make any payment in respect of the Notes and the Issuer or any other person would be required to make

(a) a Tax Deduction; and/or

(b) any withholding or deduction pursuant to an agreement described in Section 1471(b) of the US Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code and any regulations or agreements thereunder or official interpretations thereof ("**FATCA Withholding Tax**"),

in respect of such payment (other than in respect of a Decree 239 Deduction); or

8.4.2 after the date of a change in the Tax law of Italy (or the application or official interpretation of such law) which would cause the total amount payable in respect of the Portfolio to cease to be receivable by the Issuer, including as a result of any of the Debtors being obliged to make a Tax Deduction in respect of any payment in relation to any Receivables,

subject to the following:

(a) the Issuer has given not more than 60 days' and not less than 30 days' notice to the Representative of the Noteholders and the Noteholders in accordance with Condition 16 (*Notices*) of its intention to redeem in whole (but not in part) of the Notes of each Class; and

(b) prior to giving such notice, the Issuer has provided to the Representative of the Noteholders:

(i) a certificate signed by an authorised representative of the Issuer on its behalf to the effect that the obligation to make a Tax Deduction or to apply the FATCA Withholding Tax or the imposition resulting in the total amount payable in respect of the Portfolio ceasing to be receivable by the Issuer cannot be avoided by taking measures reasonably available to the Issuer and not prejudicial to its interests as a whole; and

(ii) a certificate signed by an authorised representative of the Issuer on its behalf confirming that the Issuer will, on the relevant Payment Date, have the funds (free and clear of any Security Interest of any third party) required to redeem in whole (but not in part) the Notes of the relevant Series pursuant to this Rated Notes Condition, the Junior Notes Conditions and the Programme Intercreditor Agreement and required to discharge all of its outstanding liabilities in respect of any amount to be paid under the Post Enforcement Priority of Payments in priority to or *pari passu* with the Notes of such Series.

8.5 **Conclusiveness of certificates and legal opinions**

Any certificate or opinion given by or on behalf of the Issuer pursuant to Condition 8.3 (*Optional redemption*) or Condition 8.4 (*Optional redemption in whole for taxation reasons*) may be relied upon by the Representative of the Noteholders without further investigation and shall be binding on the Noteholders and the Other Issuer Creditors.

8.6 **Calculation of Principal Payment Amount and Principal Amount Outstanding**

With reference to each Transaction, on each relevant Calculation Date, the Issuer shall calculate or cause the Calculation Agent to calculate:

8.6.1 the amount of the Series Available Funds for such Transaction;

8.6.2 the Principal Payment Amount, if any, in respect of each Class of Notes of the relevant Series due on the next following Payment Date; and

8.6.3 the Principal Amount Outstanding of each Class of Notes of the relevant Series on the next following Payment Date (after deducting any principal payment due to be made on that Payment Date in relation to such Class of Note),

in accordance with these Conditions.

The principal payment amount for each Class of Notes (including the Rated Notes), as the principal redeemable amount in respect of each Class of Notes, is an amount equal to the relevant Notes Formula Redemption Amount (for each relevant Class of Notes), as set forth in Condition 2.1 (*Definitions*) (the "**Principal Payment Amount**").

Upon receipt of the information referred to in Condition 8.6.1(b) and (c) above, the Italian Paying Agent shall forthwith notify Monte Titoli.

8.7 **Calculation in case of default by the Issuer or Calculation Agent**

If the Issuer does not at any time for any reason calculate (or cause the Calculation Agent to calculate) the relevant Series Available Funds, the Principal Payment Amount in respect of each Class of Notes of the relevant Series or the Principal Amount Outstanding of each Class of Notes

of such Series in accordance with this Rated Notes Condition, such calculations shall be made in accordance with the provisions of the Programme Cash Allocation, Management and Payments Agreement and each such calculation shall be deemed to have been made by the Issuer.

8.8 **Notice of calculation of Principal Payment Amount and Principal Amount Outstanding**

The Issuer will cause each calculation of the Principal Payment Amount and Principal Amount Outstanding in relation to each Class of Notes of the relevant Series to be notified immediately after calculation (through the Payments Report or the Post Enforcement Payments Report) to the Corporate Servicer, the Master Servicer, the Servicer, the Representative of the Noteholders, the Back-up Servicer, the Back-up Calculation Agent and each Paying Agent and will cause notice of each calculation of a Principal Payment Amount and Principal Amount Outstanding in relation to each Class of Notes of each relevant Series to be given in accordance with Condition 16 (*Notices*) not later than two Business Days prior to each Payment Date.

8.9 **Notice Irrevocable**

Any such notice as is referred to in Condition 8.3 (*Optional redemption*), Condition 8.4 (*Optional redemption in whole for taxation reasons*) and Condition 8.8 (*Notice of calculation of Principal Payment Amount and Principal Amount Outstanding*) above shall be made pursuant to Condition 16 (*Notices*) and be irrevocable and, upon the expiry of any notice pursuant to Condition 8.3 (*Optional redemption*) or Condition 8.4 (*Optional redemption in whole for taxation reasons*), the Issuer shall be bound to redeem the Rated Notes of the relevant Series in accordance with this Condition 8 (*Redemption, Purchase and Cancellation*).

8.10 **No purchase by Issuer**

The Issuer is not permitted to purchase any of the Notes at any time.

9. **NON PETITION AND LIMITED RECOURSE**

9.1 **Noteholders not entitled to proceed directly against Issuer**

Only the Representative of the Noteholders may pursue the remedies available under the general law or under the Transaction Documents to obtain payment and performance of the Obligations or enforce the Security and no Noteholder shall be entitled to proceed directly against the Issuer to obtain payment and performance of the Obligations or to enforce the Security, save as provided for in the Rules of the Organisation of the Noteholders. In particular, no Noteholder (nor any person on its behalf, other than the Representative of the Noteholders, where appropriate):

9.1.1 is entitled, save as expressly permitted by the Transaction Documents, to direct the Representative of the Noteholders to enforce the Security or take any proceedings against the Issuer to enforce the Security;

9.1.2 shall, save as expressly permitted by the Transaction Documents, have the right to take or join any person in taking any steps against the Issuer for the purpose of obtaining payment of any amount due from the Issuer to it;

9.1.3 shall be entitled, until the date falling two years and one day after the date on which all the Notes have been redeemed in full or cancelled in accordance with their terms and conditions, to cause, initiate or join any person in initiating an Insolvency Event in relation to the Issuer; and

9.1.4 shall be entitled to take or join in the taking of any corporate action, legal proceeding or other procedure or step which would result in the Priority of Payments not being complied with.

9.2 **Limited recourse obligations of Issuer**

Notwithstanding any other provision of the Programme Documents and the relevant Series Documents, all obligations of the Issuer to the Noteholders of any Series are limited in recourse as set out below:

9.2.1 each Noteholder will have a claim only in respect of the relevant Series Available Funds and at all times only in accordance with the applicable Priority of Payments and will not have any claim, by operation of law or otherwise, against, or recourse to, (a) the Issuer's other assets or its contributed capital, and (b) the Portfolio purchased under any other Transaction and the Series Available Funds of such other Transactions;

9.2.2 sums payable to each Noteholder in respect of the Issuer's obligations to such Noteholder shall be limited to the lesser of (a) the aggregate amount of all sums due and payable to such Noteholder and (b) the relevant Series Available Funds, net of any sums which are payable by the Issuer in accordance with the applicable Priority of Payments in priority to or *pari passu* with such sums payable to such Noteholder; and

9.2.3 if the Servicer has certified to the Programme Administrator and the Representative of the Noteholders that there is no reasonable likelihood of there being any further realisations in respect of the relevant Issuer's Series Segregated Assets or the Security (whether arising from judicial enforcement proceedings, enforcement of the Security or otherwise) which would be available to pay unpaid amounts outstanding under the relevant Series Documents (and the Programme Documents in respect of the relevant Transaction) or the Notes of such Series and the Representative of the Noteholders has given notice on the basis of such certificate in accordance with Condition 16 (*Notices*) that there is no reasonable likelihood of there being any further realisations in respect of the relevant Issuer's Series Segregated Assets or the Security (whether arising from judicial enforcement proceedings, enforcement of the Security or otherwise) which would be available to pay amounts outstanding under the relevant Series Documents (and the Programme Documents in respect of the relevant Transaction), the Noteholders shall have no further claim against the Issuer in respect of any such unpaid amounts and such unpaid amounts shall be cancelled and discharged in full.

10. **PAYMENTS**

10.1 **Payments through Monte Titoli**

Payment of principal, interest and Variable Return in respect of the Notes will be credited, according to the instructions of Monte Titoli, by the Italian Paying Agent on behalf of the Issuer to the accounts of the Monte Titoli Account Holders in whose accounts with Monte Titoli the Notes are held and thereafter credited by such Monte Titoli Account Holders from such aforementioned accounts to the accounts of the beneficial owners of those Notes or through Euroclear and Clearstream to the accounts with Euroclear and Clearstream of the beneficial owners of those Notes, all in accordance with the rules and procedures of Monte Titoli, Euroclear or Clearstream, as the case may be.

10.2 **Payments subject to fiscal laws**

All payments in respect of the Notes are subject in each case to any applicable fiscal or other laws and regulations. No commissions or expenses shall be charged to the Noteholders in respect of such payments.

10.3 **Payments on Business Days**

Noteholders will not be entitled to any interest or other payment in consequence of any delay after

the due date in receiving any amount due as a result of the due date not being a business day in the place of payment to such Noteholder.

10.4 **Change of Paying Agents**

The Issuer reserves the right, in accordance with the provisions of the Programme Cash Allocation, Management and Payments Agreement, at any time to vary or terminate the appointment of any Paying Agent and to appoint additional or other Italian Paying Agent and/or Principal Paying Agent in respect of all Transactions under the Programme provided that (for as long as the Rated Notes of the relevant Series are listed on the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require) the Issuer will at all times maintain a paying agent with a Specified Office in Luxembourg. The Issuer will cause at least 10 (ten) days' prior notice of any change in or addition to the paying agent or their Specified Offices to be given in accordance with Condition 16 (*Notices*).

11. TAXATION

11.1 **Payments free from Tax**

All payments in respect of the Notes will be made free and clear and without withholding or deduction (other than a Decree 239 Deduction, where applicable) for any Taxes imposed, levied, collected, withheld or assessed by applicable law unless the Issuer, the Representative of the Noteholders, any Paying Agent or any other person is required by law to make a deduction or withholding from any payment which it makes under the Notes and the Transaction Documents for or on account of any present or future taxes if and to the extent so required by any applicable law (each, a "**Tax Deduction**"). In that event the Issuer, the Representative of the Noteholders or the Paying Agent or other person (as the case may be) shall make such payments after such Tax Deduction has been made and shall account to the relevant authorities for the amount so withheld or deducted.

11.2 **No payment of additional amounts**

None of the Issuer, the Representative of the Noteholders, any Paying Agent nor any other person will be obliged to pay any additional amounts to the Rated Noteholders as a result of any such Tax Deduction.

11.3 **Taxing jurisdiction**

If the Issuer becomes subject at any time to any taxing jurisdiction other than the Republic of Italy, references in these Conditions to the Republic of Italy shall be construed as references to the Republic of Italy and/or such other jurisdiction.

11.4 **Tax Deduction not Transaction Acceleration Event**

Notwithstanding that the Representative of the Noteholders, the Issuer, the Paying Agent or any other person are required to make a Tax Deduction this shall not constitute a Transaction Acceleration Event.

12. TRANSACTION ACCELERATION EVENTS AND PROGRAMME PURCHASE TERMINATION EVENTS

12.1 **Transaction Acceleration Events**

In respect of each Series of Notes issued under the Programme, the occurrence of any of the following events shall constitute a Transaction Acceleration Event:

12.1.1 *Non-payment of principal*

the Issuer defaults in the payment of the amount of principal on the relevant Final Maturity Date, as due and payable on the Most Senior Class of Notes of such Series then outstanding, and such default is not remedied within a period of five Business Days from the due date thereof;

12.1.2 *Non-payment of interest*

12.2 **Delivery of a Transaction Acceleration Notice**

Upon the occurrence of any Transaction Acceleration Event, subject to Condition 13 (*Enforcement*), the Representative of the Noteholders shall deliver a written notice (a "**Transaction Acceleration Notice**"), without undue delay, to the Issuer and to the Noteholders in compliance with Condition 16.

12.3 **Conditions to delivery of Transaction Acceleration Notice**

Notwithstanding Condition 12.2 (*Delivery of a Transaction Acceleration Notice*) the Representative of the Noteholders shall not be obliged to deliver a Transaction Acceleration Notice unless it shall have been indemnified and/or secured to its satisfaction against all Liabilities to which it may thereby become liable or which it may incur by so doing.

12.4 **Consequences of delivery of Transaction Acceleration Notice**

Upon the delivery of a Transaction Acceleration Notice, all payments of principal, interest, Variable Return and other amounts in respect of the Notes of each Class of the relevant Series shall become immediately due and payable without further action or formality at their Principal Amount Outstanding, together with any accrued interest and shall be payable in accordance with the order of priority set out in Condition 6.2 (*Post Enforcement Priority of Payments*) and on such dates as the Representative of the Noteholders shall determine as being Payment Dates.

The occurrence of a Transaction Acceleration Event in relation to the Notes of one or more Series (other than the Transaction Acceleration Event under Condition 12.1.3 (*Programme Purchase Termination Event*) above) shall not constitute *per se* the occurrence of a Transaction Acceleration Event in relation to the Notes of all Series then outstanding under the Programme.

12.5 **Programme Purchase Termination Event**

In respect of the Programme, the occurrence of any of the following events shall constitute a Programme Purchase Termination Event:

12.5.1 *Insolvency of the Issuer*

An Insolvency Event occurs with respect to the Issuer.

12.5.2 *Unlawfulness*

It is or will become unlawful for the Issuer to perform or comply with any of its obligations under or in respect of the Notes or any of the Transaction Documents to which it is a party.

(B) the Originator becomes subject to any *amministrazione straordinaria*, *liquidazione coatta amministrativa* or a resolution tool (*misura di risoluzione*) pursuant to article 20 of Legislative Decree No. 180 of 16 November 2015 or any other applicable bankruptcy proceedings in any jurisdiction or the whole or any substantial part of the assets of the Originator are subject to a *pignoramento* or similar procedure having a similar effect.

12.5.4 *Winding-up of the Originator*

An order is made or an effective resolution is passed for the winding up, liquidation or dissolution in any form of the Originator.

12.6 **Delivery of a Programme Purchase Termination Notice**

Upon the occurrence of any Programme Purchase Termination Event, the Representative of the Noteholders and/or the Programme Administrator shall deliver a written notice (a "**Programme Purchase Termination Notice**"), without undue delay, to the Issuer, the Originator, the Representative of the Noteholders (if the notice has been sent by the Programme Administrator), the Rating Agencies and to the Noteholders in compliance with Condition 16.

12.8 **Consequences of delivery of Programme Purchase Termination Notice**

Upon the delivery of a Programme Purchase Termination Notice, the Issuer shall refrain from purchasing any additional Portfolio and from making any further issue of Series of Notes under

the Programme.

13. ENFORCEMENT

13.1 Proceedings

At any time after a Transaction Acceleration Notice has been delivered, the Representative of the Noteholders may, at its discretion and without further notice, take such steps and/or institute such proceedings as it thinks fit to enforce repayment of the Notes of the relevant Series and payment of accrued interest thereon but it shall not be bound to do so unless directed by an Extraordinary Resolution of the holders of the Most Senior Class of Notes of such Series then outstanding and only if it shall have been indemnified and/or secured to its satisfaction against all Liabilities to which it may thereby become liable or which it may incur by so doing.

13.2 Directions to the Representative of the Noteholders

The Representative of the Noteholders shall not be bound to take any action described in Condition 13.1 (*Proceedings*) and may take such action without having regard to the effect of such action on any individual Noteholder or on any Other Issuer Creditor, provided that the Representative of the Noteholders shall not, and shall not be bound to, act at the request or direction of the Noteholders of any Class of the relevant Series other than the Most Senior Class of Notes of such Series then outstanding unless:

13.2.1. to do so would not, in its sole opinion, be materially prejudicial to the interests of the Noteholders of the Classes of Notes ranking senior to such Class; or

13.2.2. (if the Representative of the Noteholders is not of that opinion) such action is sanctioned by an Extraordinary Resolution of the Noteholders of each Class ranking senior to such Class.

13.3 Sale of Portfolio

Following the delivery of a Transaction Acceleration Notice the Representative of the Noteholders shall direct the Issuer to sell the Portfolio under the relevant Transaction or a substantial part thereof only if so requested by an Extraordinary Resolution of the holders of the Most Senior Class of Notes of the relevant Series then outstanding and strictly in accordance with the instructions approved thereby.

14. THE REPRESENTATIVE OF THE NOTEHOLDERS

14.1 The Organisation of the Noteholders

The Organisation of the Noteholders shall be established upon and by virtue of the issue of the Notes of each Series under the Programme and shall remain in force and in effect until repayment in full or cancellation of the Notes of such Series. 14.2 Appointment of the Representative of the Noteholders

Pursuant to the Rules of the Organisation of the Noteholders, for as long as any Note of each Series is outstanding, there shall at all times be a Representative of the Noteholders. The appointment of the Representative of the Noteholders, as legal representative of the Organisation of the Noteholders, is made by the Noteholders subject to and in accordance with the Rules of the Organisation of the Noteholders, except for the initial Representative of the Noteholders appointed, in respect of each Series issued under the Programme, on the Issue Date of such

Series (as specified in the applicable Final Terms for such Series), which is appointed by each Subscriber under the relevant Series Subscription Agreement. Each holder of the Notes of any Series is deemed to accept such appointment.

14.3

In such circumstance, in the event that there is a conflict between the interests of such Series Swap Counterparty and the interests of the Noteholders of the relevant Series, the Representative of the Noteholders shall follow the instructions of the Series Swap Counterparty exercising the relevant veto rights.

15. PRESCRIPTION

Claims against the Issuer for payments in respect of the Notes shall be prescribed and shall become void unless made within ten years (in the case of principal) or five years (in the case of interest) from the date on which a payment in respect thereof first becomes due and payable.

Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the first date on which publication is made in the manner referred to above. It remains understood that any notice send in accordance with this Condition will be sent also for the purpose of Transparency Directive 2004/109/CEE.

16.3 Other method of giving Notice

The Representative of the Noteholders shall be at liberty to sanction some other method of giving notice to the Noteholders if, in its sole opinion, such other method is reasonable having regard to market practice then prevailing and to the rules of the stock exchange on which the Rated Notes are then listed and provided that notice of such other method is given to the Noteholders in such manner as the Representative of the Noteholders shall require.

17. NOTIFICATIONS TO BE FINAL

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of these Conditions, whether by the Principal Paying Agent, the Italian Paying Agent, the Calculation Agent, the Issuer, the Programme Administrator or the Representative of the Noteholders shall (in the absence of wilful default, gross negligence or manifest error) be binding on the Principal Paying Agent, the Italian Paying Agent, the Calculation Agent, the Issuer, the Representative of the Noteholders, the Programme Administrator and all Noteholders and (in such absence as aforesaid) no liability to the Noteholders shall attach to the Italian Paying Agent, the Principal Paying Agent, the Calculation Agent, the Issuer, the Programme Administrator or the Representative of the Noteholders in

connection with the exercise or non-exercise by them or any of them of their powers, duties and discretions hereunder.

18. TRANSFERS OF THE RECEIVABLES BY THE ISSUER TO SUBSEQUENT SPVs

Pursuant to the Programme Receivables Purchase Agreement, in respect of each Transaction, the Issuer – with the prior consent of all the Noteholders of the relevant Series issued under such Transaction – is entitled to transfer to a Subsequent SPV, in whole or in part, the Portfolio of the Receivables purchased from the Originator under such Transaction pursuant to the relevant Transfer Agreement, in accordance with the terms of the Programme Receivables Purchase Agreement and the terms of the receivables purchase agreement to be entered into for such purpose with such Subsequent SPV (the "**Subsequent SPV Receivables Purchase Agreement**").

In particular, on each date of valuation of the portfolio of Receivables to be transferred to a Subsequent SPV, the Issuer, with the cooperation of the Master Servicer and the Servicer, will select a portfolio of Receivables to be offered for the transfer to such Subsequent SPV and the Issuer will receive a purchase price for the transfer of such portfolios in accordance with the terms and conditions set out in the Subsequent SPV Receivables Purchase Agreement.

The Issuer will transfer to the relevant Subsequent SPV, together with each portfolio of Receivables, the relevant available amount of the Management Fee (if any) relating to each Receivable included in such portfolio – as calculated by the Servicer and communicated by it to the Transaction Bank – standing to the credit of the relevant Management Fee Reserve Account on the date of valuation of such Receivable.

The purchase price received from the relevant Subsequent SPV will form part of the relevant Series Available Funds and will be applied by the Issuer in accordance with the applicable Priority of Payments.

11. **ADJOURNED MEETING**

Except as provided in Article 10 (*Adjournment for lack of quorum*), the Chairman may, with the prior consent of any Meeting, and shall if so directed by any Meeting, adjourn such Meeting to another time and place, provided that – for the avoidance of doubt - such provision is applicable in respect of each separate Meeting which has been convened for resolving on a Programme Extraordinary Resolution. Minutes shall be made of all resolutions and proceedings of each Meeting. The Minutes shall be signed by the Chairman and shall be *prima facie* evidence of the proceedings therein recorded. Unless and until the contrary is proved, every Meeting in respect of which minutes have been signed by the Chairman shall be regarded as having been duly convened and held and all resolutions passed or proceedings transacted at such Meeting shall be regarded as having been duly passed and transacted. The Minutes shall be recorded in the minute book of Meetings of Noteholders maintained by the Issuer (or the Corporate Servicer on behalf of the Issuer).

23. WRITTEN RESOLUTION

A Written Resolution shall take effect as if it were an Extraordinary Resolution or, in respect of matters required to be determined by Ordinary Resolution, as if it were an Ordinary Resolution.

24. JOINT MEETINGS

Subject to the provisions of the Rules, the Rated Notes Conditions and the Junior Notes Conditions, joint Meetings of the Class A Noteholders, the Class B Noteholders (if any) and the Class J Notehodlers may be held to consider the same Ordinary Resolution or Transaction Extraordinary Resolution and the provisions of the Rules shall apply *mutatis mutandis* thereto.

25. SEPARATE AND COMBINED MEETINGS OF NOTEHOLDERS

25.1 Notwithstanding the provisions of articles 19.1 (*Matters subject of Transaction Extraordinary Resolutions*), 19.3 (*Transaction Basic Terms Modification*) and 24 (*Joint Meetings*), the following provisions shall apply in respect of Meetings where outstanding Notes belong to more than one Class:

(a) business which, in the sole opinion of the Representative of the Noteholders, affects only one Class of Notes shall be transacted at a separate Meeting of the Noteholders of such Class;

(b) business which, in the sole opinion of the Representative of the Noteholders, affects more than one Class of Notes but does not give rise to an actual or potential conflict of interest between the Noteholders of one Class of Notes and the Noteholders of any other Class of Notes shall be transacted either at separate Meetings of the Noteholders of each such Class of Notes or at a single Meeting of the Noteholders of all such Classes of Notes as the Representative of the Noteholders shall determine in its absolute discretion; and

(c) business which, in the sole opinion of the Representative of the Noteholders, affects the Noteholders of more than one Class of Notes and gives rise to an actual or potential conflict of interest between the Noteholders of one such Class of Notes and the Noteholders of any other Class of Notes shall be transacted at separate Meetings of the Noteholders of each such Class.

26. INDIVIDUAL ACTIONS AND REMEDIES

26.1 Each Noteholder has accepted and is bound by the provisions of Condition 9 (*Non petition and Limited Recourse*) of the Rated Notes Conditions or, as the case may be, Condition 9 (*Non petition and Limited Recourse*) of the Junior Notes Conditions and, accordingly, if any Noteholder is considering bringing individual actions or using other individual remedies to enforce his/her rights under the Notes, any such action or remedy shall be subject to a Meeting not passing an Ordinary Resolution objecting to such individual action or other remedy on the grounds that it is not consistent with such Condition. In this respect, the following provisions shall apply:

(a) the Noteholder intending to enforce his/her rights under the Notes and/or the Transaction Documents will notify the Representative of the Noteholders of his/her intention;

(b) the Representative of the Noteholders will, without delay, call a Meeting in accordance with these Rules at the costs of such Noteholder;

(c) if the Meeting passes an Ordinary Resolution objecting to the enforcement of the individual action or remedy, the Noteholder will be prevented from taking such action or remedy (without prejudice to the fact that after a reasonable period of time, the same matter may be resubmitted for review of another Meeting); and

(d) if the Meeting of Noteholders does not object to an individual action or remedy, the Noteholder will not be prohibited from taking such individual action or remedy.

26.2 No Noteholder will be allowed to take any individual action or remedy to enforce his/her rights under the Notes or the Transaction Documents unless a Meeting of the holders of the Most Senior Class of Notes has been held to resolve on such action or remedy in accordance with the provisions of this Article 26 (*Individual Actions and Remedies*).

26.3 No Noteholder shall be permitted to take any individual action or remedy to enforce his/her rights under the Notes or the Transaction Documents in the event that such action or remedy would cause or result in a breach of Condition 9 (*Non petition and Limited Recourse*) of the Rated Notes Conditions or, as the case may be, Condition 9 (*Non petition and Limited Recourse*) of the Junior Notes Conditions.

26.4 Save as provided in this Article 26 (*Individual actions and remedies*), only the Representative of the Noteholders may pursue the remedies available under the general law or the Transaction Documents to obtain payment of obligations or to enforce the Security and no Noteholder shall be entitled to proceed directly against the Issuer to obtain or enforce such remedies.

capable of being remedied, such certificate shall be conclusive and binding upon the Issuer, the Noteholders, the Other Issuer Creditors and any other Transaction Party.

31. EXONERATION OF THE REPRESENTATIVE OF THE NOTEHOLDERS

31.1 Limited obligations

31.2.8 shall not be liable for any failure, omission or defect in registering or filing or procuring registration or filing of or otherwise protecting or perfecting these Rules or any Transaction Document;

31.2.9 shall not be bound or concerned to examine or enquire into or be liable for any defect or failure in the right or title of the Issuer in relation to the Portfolio or any part thereof, whether such defect or failure was known to the Representative of the Noteholders or might have been discovered upon examination or enquiry or whether capable of being remedied or not;

31.2.10 shall not be under any obligation to guarantee or procure the repayment of the relevant Portfolio or any part thereof;

31.2.11 shall not be responsible for reviewing or investigating any report relating to the relevant Portfolio provided by any person;

31.2.12 shall not be responsible for or have any liability with respect to any loss or damage arising from the realisation of the relevant Portfolio or any part thereof;

31.2.13 shall not be responsible (except as expressly provided in the Conditions) for making or verifying any determination or calculation in respect of the Notes, any Portfolio or any Transaction Document;

31.2.14 shall not be under any obligation to insure the relevant Portfolio or any part thereof;

31.3 **Specific Permissions**

31.3.1 When in the Rules or any Transaction Document the Representative of the Noteholders is required in connection with the exercise of its powers, trusts, authorities or discretions to have regard to the interests of the Noteholders, the Representative of the Noteholders shall have regard to the interests of the Noteholders as a class and shall not be obliged to have regarded to the consequences of such exercise for any individual Noteholder

resulting from his or its being for any purpose domiciled, resident in or otherwise connected with or subject to the jurisdiction of any particular territory or taxing authority.

31.3.2 The Representative of the Noteholders shall, as regards the exercise and performance of the powers, authorities, duties and discretions vested in it by the Transaction Documents, except where expressly provided otherwise herein or therein and without prejudice to Rated Notes Condition 14.3 (*Veto rights of the Series Swap Counterparty*) and Junior Notes Condition 14.3 (*Veto rights of the Series Swap Counterparty*), have regard to the interests of both the Noteholders and the Other Issuer Creditors but if, in the sole opinion of the Representative of the Noteholders, there is a conflict between their interests the Representative of the Noteholders will have regard solely to the interest of the Noteholders.

31.3.3 Where the Representative of the Noteholders is required to consider the interests of the Noteholders and, in its sole opinion, there is a conflict between the interests of the Holders of different Classes of Notes, the Representative of the Noteholders will consider only the interests of the Holders of the Most Senior Class of Notes.

31.3.4 The Representative of the Noteholders may refrain from taking any action or exercising any right, power, authority or discretion vested in it under these Rules or any Transaction Document or any other agreement relating to the transactions herein or therein contemplated until it has been indemnified and/or secured to its satisfaction against any and all actions, proceedings, claims and demands which might be brought or made against it and against all costs, charges, damages, expenses and liabilities which may be suffered, incurred or sustained by it as a result. Nothing contained in the Rules or any of the other Transaction Documents shall require the Representative of the Noteholders to expend or risk its own funds or otherwise incur any financial liability in the performance of its duties or the exercise of any right, power, authority or discretion hereunder if it has grounds for believing the repayment of such funds or adequate indemnity against, or security for, such risk or liability is not reasonably assured to it.

31.4 Notes held by Issuer

The Representative of the Noteholders may assume without enquiry that no Notes are, at any given time, held by or for the benefit of the Issuer.

31.5 Illegality

No provision of the Rules shall require the Representative of the Noteholders to do anything which may be illegal or contrary to applicable law or regulations or to expend moneys or otherwise take risks in the performance of any of its duties, or in the exercise of any of its powers or discretion. The Representative of the Noteholders may refrain from taking any action which would or might, in its sole opinion, be contrary to any law of any jurisdiction or any regulation or directive of any agency of any state, or if it has reasonable grounds to believe that it will not be reimbursed for any funds it expends, or that it will not be indemnified against any loss or liability which it may incur as a consequence of such action. The Representative of the Noteholders may do anything which, in its sole opinion, is necessary to comply with any such law, regulation or directive as aforesaid.

32. RELIANCE ON INFORMATION

32.1 Advice

The Representative of the Noteholders may act on the advice of, a certificate or opinion of or any written information obtained from any lawyer, accountant, banker, broker, credit or rating agency or other expert whether obtained by the Issuer, the Representative of the Noteholders or

otherwise and shall not, in the absence of gross negligence (*colpa grave*) or wilful misconduct (*dolo*) on the part of the Representative of the Noteholders, be responsible for any loss incurred by so acting.

32.2 **Transmission of Advice**

Any opinion, advice, certificate or information referred to in Article 32.1 (*Advice*) may be sent or obtained by letter, telegram, e-mail or fax transmission and the Representative of the Noteholders shall not be liable for acting on any opinion, advice, certificate or information purporting to be so conveyed although the same contains some error or is not authentic.

32.3 **Certificates of Issuer**

The Representative of the Noteholders may call for, and shall be at liberty to accept as sufficient evidence:

32.3.1 as to any fact or matter prima facie within the Issuer's knowledge, a certificate duly signed by an authorised representative of the Issuer on its behalf;

32.3.2 that such is the case, a certificate of an authorised representative of the Issuer on its behalf to the effect that any particular dealing, transaction, step or thing is expedient; and

32.3.3 as sufficient evidence that such is the case, a certificate signed by an authorised representative of the Issuer on its behalf to the effect that the Issuer has sufficient funds to make an optional redemption under the Conditions.

and the Representative of the Noteholders shall not be bound in any such case to call for further evidence or be responsible for any loss that may be incurred as a result of acting on such certificate unless any of its officers responsible for the administration of the Securitisation shall have actual knowledge or express notice of the untruthfulness of the matters contained in the certificate.

32.4 **Resolution or direction of Noteholders**

The Representative of the Noteholders shall not be responsible for acting upon any resolution purporting to be a Written Resolution or to have been passed at any Meeting in respect whereof minutes have been made and signed or a direction of the requisite percentage of Noteholders, even though it may subsequently be found that there was some defect in the constitution of the Meeting or the passing of the Written Resolution or the giving of such directions or that for any reason the resolution purporting to be a Written Resolution or to have been passed at any Meeting or the giving of the direction was not valid or binding upon the Noteholders.

32.5 **Certificates of Monte Titoli Account Holders**

The Representative of the Noteholders, in order to ascertain ownership of the Notes, may fully rely on the certificates issued by any Monte Titoli Account Holder in accordance with the regulation issued jointly by the Bank of Italy and CONSOB on 13 August 2018, as amended from time to time, which certificates are to be conclusive proof of the matters certified therein.

32.6 **Clearing Systems**

The Representative of the Noteholders shall be at liberty to call for and to rely on as sufficient evidence of the facts stated therein, a certificate, letter or confirmation certified as true and accurate and signed on behalf of such clearing system as the Representative of the Noteholders considers appropriate, or any form of record made by any clearing system, to the effect that at

any particular time or throughout any particular period any particular person is, or was, or will be, shown its records as entitled to a particular number of Notes.

32.7 **Rating Agencies**

The Representative of the Noteholders shall be entitled to assume, for the purposes of exercising any power, authority, duty or discretion under or in relation to these Rules that such exercise will not be materially prejudicial to the interests of the Noteholders or, as the case may be, the Most Senior Class of Noteholders if any of the Rating Agencies have confirmed that the then current rating of the Rated Notes would not be adversely affected by such exercise or if the Rating Agencies have confirmed that they do not have any objection and/or any comment in respect of any such exercise. Notwithstanding the foregoing, it is agreed and acknowledged by the Representative of the Noteholders and notified to the Noteholders that a credit rating is an assessment of credit and does not address other matters that may be of relevance to the Noteholders, and it is expressly agreed and acknowledged that such confirmation does not impose on or extend to the Rating Agencies any actual or contingent liability to the Representative of the Noteholders, the Noteholders or any other third party or create legal relations between the Rating Agencies and the Representative of the Noteholders, the Noteholders or any other third party by way of contract or otherwise. If the Representative of the Noteholders, in order to exercise properly its rights or fulfil its obligations, deems it necessary to obtain the views of the Rating Agencies as to how a specific act would affect any outstanding rating of the Notes or any Class thereof, the Representative of the Noteholders may inform the Issuer, which will then obtain such views at its expense on behalf of the Representative of the Noteholders or the Representative of the Noteholders may seek and obtain such views itself at the cost of the Issuer.

32.8 **Certificates of Parties to Transaction Document**

The Representative of the Noteholders shall have the right to call for or require the Issuer to call for and to rely on written certificates issued by any party (other than the Issuer) to the Intercreditor Agreement or any other Transaction Document,

32.8.1 in respect of every matter and circumstance for which a certificate is expressly provided for under the Conditions or any Transaction Document;

32.8.2 as any matter or fact *prima facie* within the knowledge of such party; or

32.8.3 as to such party's opinion with respect to any issue

and the Representative of the Noteholders shall not be required to seek additional evidence in respect of the relevant fact, matter or circumstances and shall not be held responsible for any loss, liability, cost, damage, expense, or charge incurred as a result of having failed to do so unless any of its officers responsible for the administration of the Securitisation shall have actual knowledge or express notice of the untruthfulness of the matter contained in the certificate.

32.9 **Auditors**

The Representative of the Noteholders shall not be responsible for reviewing or investigating any Auditors' report or certificate and may rely on the contents of any such report or certificate.

33. **MODIFICATIONS**

33.1 **Modification**

The Representative of the Noteholders may from time to time and without the consent or sanction of the Noteholders concur with the Issuer and any other relevant parties in making:

33.1.1 any modification to these Rules, the Notes or to any of the Transaction Documents in relation to which its consent is required if, in the sole opinion of the Representative of the Noteholders, such modification is of a formal, minor, administrative or technical nature, is made to comply with mandatory provisions of law or is made to correct a manifest error;

33.1.2 any modification to these Rules or any of the Transaction Documents (other than in respect of a Basic Terms Modification or any provision of these Rules or any of the Transaction Documents referred to in the definition of Basic Terms Modification) in relation to which its consent is required which, in the sole opinion the Representative of the Noteholders, is not materially prejudicial to the interests of the Holders of the Most Senior Class of Notes of each Series then outstanding ; and

33.2 **Binding Notice**

Any such modification referred to in this Article 33 (*Modifications*) shall be binding on the Noteholders and, unless the Representative of the Noteholders otherwise agrees, the Issuer shall procure that such modification be notified to the Noteholders and the Other Issuer Creditors as soon as practicable thereafter in accordance with provisions of the Conditions relating to notices of Noteholders and the relevant Transaction Documents.

33.3 **Modifications requested by the Noteholders**

The Representative of the Noteholders shall be bound to concur with the Issuer and any other party in making any modifications if it directed to do so by an Extraordinary Resolution of the Most Senior Class of Noteholders or, in the case of any modification which constitutes Basic Terms Modification, of the holders of each Class of the Notes of each Series but only if it is indemnified and/or secured to its satisfaction against all Liabilities to which it may thereby render itself liable or which it may incur by so doing.

34. **WAIVER**

34.1 **Waiver of Breach**

The Representative of the Noteholders may at any time and from time to time in its sole direction, without prejudice to its rights in respect of any subsequent breach, condition, event or act, from time to time and at any time, but only if and in so far as in its sole opinion the interests of the Holders of the Most Senior Class of Notes then outstanding shall not be materially prejudiced thereby:

34.3.1 authorise or waive, on such terms and subject to such conditions (if any) as it may decide, any proposed breach or breach of any of the covenants or provisions contained in the Notes or any of the Transaction Documents; or

34.3.2 determine that any Transaction Acceleration Event or Programme Purchase Termination Event shall not be treated as such for the purposes of the Transaction Documents,

without any consent or sanction of the Noteholders.

34.2 **Binding Nature**

Any authorisation, waiver or determination referred in Article 34.1 (*Waiver of Breach*) shall be binding on the Noteholders.

34.3 **Restriction on powers**

The Representative of the Noteholders shall not exercise any powers conferred upon it by this Article 34 (*Waiver*) in contravention of any express direction by an Extraordinary Resolution of the holders of the Most Senior Class of Notes then outstanding or of a request or direction in writing made by the holders of not less than 25 per cent in aggregate Principal Amount Outstanding of the Most Senior Class of Notes then outstanding but so that no such direction or request:

34.3.1 shall affect any authorisation, waiver or determination previously given or made; or

34.3.2 shall authorise or waive any such proposed breach or breach relating to a Basic Terms Modification unless each Class of Notes has, by Extraordinary Resolution, so authorised its exercise.

34.4 **Notice of waiver**

Unless the Representative of the Noteholders agrees otherwise, the Issuer shall cause any such authorisation, waiver or determination to be notified to the Noteholders and the Other Issuer Creditors, as soon as practicable after it has been given or made in accordance with the provisions of the conditions relating to Notices and the relevant Transaction Documents.

35. **SECURITY DOCUMENTS**

35.1 **The Series Deed of Pledge and the Series Deed of Charge**

The Representative of the Noteholders shall have the right to exercise all the rights granted by the Issuer to the Noteholders pursuant to the relevant Series Deed of Pledge and the relevant Series Deed of Charge (if any). The beneficiaries of the relevant Series Deed of Pledge and the relevant Series Deed of Charge (if any) are referred to in this Article 35 (*Security Documents*) as the "**Secured Noteholders**".

35.2 **Rights of Representative of the Noteholders**

35.2.1 The Representative of the Noteholders, acting on behalf of the Secured Noteholders, shall be entitled to appoint and entrust the Issuer to collect, in the Secured Noteholders' interest and on their behalf, any amounts deriving from the pledged claims and rights, and shall be entitled to give instructions, jointly with the Issuer, to the respective debtors of the pledged claims and/or the charged assets to make the payments related to such claims to the relevant Payments Account or to any other account opened in the name of the Issuer and appropriate for such purpose;

35.2.2 The Secured Noteholders irrevocably waive any right they may have in relation to any amount deriving from time to time from the pledged claims or credited to the Series Issuer's Accounts or to any other account opened in the name of the Issuer and appropriate of such purpose which is not in accordance with the provisions of this Article 35 (*Security Documents*). The Representative of the Noteholders shall not be entitled to collect, withdraw or apply, or issue instructions for the collection, withdrawal or application of, cash deriving from time to time from the pledged claims under the relevant Series Deed of Pledge and the relevant Series Deed of Charge (if any) except in accordance with the provisions of this Article 35 (*Security Documents*) and the Programme Intercreditor Agreement.

36. **INDEMNITY**

Pursuant to the Programme Intercreditor Agreement and each Series Subscription Agreement, the Issuer shall covenant and undertake to reimburse, pay or discharge (on a full indemnity basis) upon demand, to the extent not already reimbursed, paid or discharged by the Noteholders and

FORM OF FINAL TERMS

Set out below is the form of Final Terms which will be completed for each Series of Notes issued under the Programme. Text in this section appearing in italics does not form part of the form of the Final Terms but denotes directions for completing the Final Terms.

Prohibition of sales to EEA Retail Investors – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, supplemented or superseded the "Prospectus Regulation"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

[PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

MIFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the [Notes] has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.

[UK MIFIR product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business

Sourcebook ("COBS"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]

SELECTED ASPECTS OF ITALIAN LAW

The Securitisation Law

The Securitisation Law was enacted on 30 April 1999 and was conceived to simplify the securitisation process and to facilitate the increased use of securitisation as a financing technique in Italy.

It applies to securitisation transactions involving a "true" sale (by way of non-gratuitous assignment) of receivables, where the sale is to a company created in accordance with article 3 of the Securitisation Law and all amounts paid by the debtors in respect of the receivables are to be used by the relevant company exclusively to meet its obligations under notes issued to fund the purchase of such claims and all costs and expenses associated with the securitisation transaction.

The Securitisation Law has been amended by, *inter alia*: (i) the Italian law decree (decreto-legge) No. 145 of 23 December 2013, which has been converted into law by the Italian Parliament with law No. 9 of 21 February 2014 (the "**Decree 145**"); (ii) the Italian law decree (*decreto-legge*) No. 91 of 24 June 2014, which has been converted into law by the Italian Parliament with law No. 116 of 11 August 2014 (the "**Decree 91**"); (iii) the Italian law decree (decreto-legge) No. 18 of 14 February 2016, which has been converted into law by the Italian Parliament with law No. 49 of 8 April 2016 and (iv) the Italian law No. 96 of 21 June 2017.

The Securitisation Law has been further amended by, *inter alia*, law No. 145 of 30 December 2018 and law decree No. 34 of 30 April 2019, as converted with amendments into law No. 38 of 30 June 2019 and, lastly, by the legislative decree no. 190 of 5 November 2021.

As of the date of this Base Prospectus, no interpretation of the application of the Securitisation Law has been issued by any Italian court or governmental or regulatory authority, except for (i) regulations issued by the Bank of Italy concerning, *inter alia*, the accounting treatment of securitisation transactions by special purpose companies incorporated under the Securitisation Law, such as the Issuer, and the duties of the companies which carry out collection and recovery activities in the context of a securitisation transaction, and (ii) the Legislative Decree 13 August 2010 No. 141 which has, *inter alia*, entirely replaced, as from 19 September 2010, Title V of the Consolidated Banking Act. Consequently, it is possible that such or different authorities may issue further regulations relating to the Securitisation Law or the interpretation thereof, the impact of which cannot be predicted by the Issuer as at the date of this Base Prospectus.

Ring-fencing of the assets

By virtue of the operation of Article 3 of the Securitisation Law, the assets relating to each securitisation transaction will be segregated for all purposes from all other assets of the company which performs the securitisation (the "**SPV**") (including any other assets purchased by such company pursuant to the Securitisation Law). Therefore, any cash-flow deriving therefrom (to the extent identifiable) will be exclusively available, both prior to and following a winding up of such a company, to satisfy the obligations to the Noteholders and to certain creditors claiming payment of debts incurred by the company in connection with the securitisation of the relevant receivables. In addition, the receivables relating to a particular transaction will not be available to the holders of notes issued to finance any other securitisation transaction or to general creditors of the issuer company.

Decree 91 has extended the segregation effects provided for under Article 3, paragraph 2, of the Securitisation Law. In particular it has been specified that receivables relating to each securitisation transaction, meaning the receivables towards the assigned debtors and any other claims owed to the SPV in the context of the transaction, as well as any relevant collections and financial assets purchased through the proceeds of the receivables, form separate assets from the assets of the SPV and those relating to other securitisation transactions. No actions against such segregated assets may be taken by creditors other than the holders of the securities issued to finance the purchase of the relevant receivables.

In addition, Decree 91 has inserted new paragraphs 2-*bis* and 2-*ter* in Article 3 of the Securitisation Law, pursuant to which:

- the sums standing to the credit of the SPV's accounts (i) are capable of being seized and attached only by the relevant noteholders; and (ii) can be used exclusively to satisfying the claims of such noteholders, hedging counterparty and to pay the relevant transaction's costs;

- in the event that the bank holding the SPV's accounts becomes subject to any proceedings under Title IV of the Consolidated Banking Act or any insolvency proceedings, the sums deposited on such accounts also pending such proceedings (i) are not subject to suspension of payments and (ii) will be immediately and fully returned to the SPV without the need for the filing of any petition in the relevant proceeding and outside any distribution plan;

- the sums standing to the credit of the servicer's accounts are capable of being seized and attached by the creditors of the relevant servicer (or sub-servicer, as the case may be) only within the limits of the amounts exceeding the sums collected and due to the SPV; and

- In the event that the relevant servicer (or sub-servicer, as the case may be) becomes subject to an insolvency proceeding, the sums deposited on such accounts also pending such insolvency proceeding, for an amount equal to the amounts pertaining to the SPV, will be immediately and fully returned to the relevant SPV without the need for the filing of any petition in the relevant insolvency proceeding and outside any distribution plan.

Under Italian law, however, any creditor of the Issuer would be able to commence insolvency or winding-up proceedings against the Issuer in respect of any unpaid debt.

The assignment

The assignment of the receivables under the Securitisation Law is governed by Article 58 paragraphs 2, 3 and 4 of the Consolidated Banking Act. The prevailing interpretation of this provision, which view has been strengthened by Article 4 of the Securitisation Law, is that the assignment can be perfected against the assignor, the debtors in respect of the receivables and third party creditors by way of publication of the relevant notice in the Official Gazette of the Republic of Italy and registration in the Companies Register, so avoiding the need for notification to be served on each debtor.

Pursuant to article 4, first paragraph, of the Securitisation Law, the notice of sale in the Official Gazette of the assignment of those receivables which have the characteristics set out under article 1 of Italian Law number 52 of 21 February 1991 (*i.e.* receivables arising out of contracts executed by the originator in the ordinary course of its business) may be simplified by including only information regarding the originator, the assignee and the date of assignment. As an alternative, the perfection of the assignment of such receivables may be governed by article 5, paragraphs 1, 1-bis and 2 of Italian Law number 52 of 21 February 1991, according to which the enforceability of the assignment against third parties is obtained through the payment of the relevant purchase price bearing an indisputable date (*data certa*).

According to article 4, second paragraph, of the Securitisation Law, as from the date of the publication of the notice in the Official Gazette or the payment (in whole or in part) of the purchase price for the assigned receivables bearing an indisputable date:

1) no legal action may be brought in respect of the assigned receivables or the sums derived therefrom, other than for the purposes of enforcing the rights of the holders of the notes issued for the purpose of financing the acquisition of the relevant receivables and to meet the costs of the transaction.

2) notwithstanding any provision of law providing otherwise, no set-off may be exercised by the debtors among the assigned receivables and any debtors' claims towards the originator arising after such date;

3) the assignment becomes enforceable against:

   (a) any other assignee of the originator who has failed to render its purchase of receivables enforceable against any third party prior to such date;

(b) any creditors of the originator who have not obtained, prior to the date of the publication of the notice in the Official Gazette, an attachment order (pignoramento) in respect of any of the receivables and then only to the extent of the receivables already attached;

4) the benefit of any privilege, guarantee or security interest guaranteeing or securing repayment of the assigned receivables will automatically be transferred to and perfected with the same priority in favour of the company which has purchased the receivables, without the need for any formality or annotation.

Assignments executed under the Securitisation Law are subject to revocation on bankruptcy under article 67 of the Bankruptcy Law but only in the event that the adjudication of bankruptcy of the relevant party is made within three months of the securitisation transaction or, in cases where paragraph 1 of article 67 applies, within six months of the securitisation transaction.

Claw-Back of the sale of the Receivables

The sale of the Receivables by the Originator to the Issuer may be clawed back by a receiver of the Originator under article 67, paragraphs 1(4) and 2 of the Bankruptcy Law but only in the event that the Originator was insolvent when the assignment was entered into and was executed within three months of the admission of the Originator to compulsory liquidation (liquidazione coatta amministrativa) pursuant to Title IV, Heading I, Section III of the Consolidated Banking Act or in cases where paragraphs 1(1), 1(2) and 1(3) of article 67 of the Bankruptcy Law apply, within six months of the admission to compulsory liquidation.

Claw-Back Action against the payments made to companies incorporated under the Securitisation Law

According to article 4 of the Securitisation Law, the payments made by an assigned debtor to the Issuer may not be subject to any claw-back action according to articles 67 and 65 of the Bankruptcy Law.

All other payments made to the Issuer by any party under a Transaction Document in the year/six months suspect period prior to the date on which such party has been declared bankrupt or has been admitted to the compulsory liquidation may be subject to claw-back action according to article 67 paragraphs 1 or 2, as applicable, of the Bankruptcy Law. The relevant payment will be set aside and clawed back if the receiver gives evidence that the recipient of the payments had knowledge of the state of insolvency when the payments were made. The question as to whether or not the Issuer had actual or constructive knowledge of the state of insolvency at the time of the payment is a question of fact with respect to which a court may in its discretion consider all relevant circumstances.

Italian Usury Law

The interest payments and other remuneration paid by the Debtors under the Loans are subject to Italian law No. 108 of 7 March, 1996, as amended from time to time (the "**Usury Law**"), which introduced legislation preventing lenders from applying interest rates equal to or higher than certain rates. In addition, even where the applicable rates are not exceeded, interest and other advantages and/or remuneration may be held to be usurious if certain circumstances arise. The provision of usurious interest, advantages or remuneration has the same consequences as non-compliance with the usury rates.

If the Loans are found to contravene the Usury Law, the Debtors might be able to claim relief on any interest previously paid and oblige the Issuer to accept a reduced rate of interest, or potentially no interest on the relevant Loan. In such cases, the ability of the Issuer to maintain scheduled payments of interest and principal on the Notes may be adversely affected.

In a scenario in which market rates decline, interest can be below the threshold at the outset of the financing, but result in an excess at a later stage. In this context, law decree No. 394 of 29 December, 2000 clearly states that interest is deemed usurious if it exceeds the maximum threshold set by the law at the time that the interest is agreed by the parties, "independently from the time of its actual payment". As clarified by the Italian Supreme Court in Decision No. 24,675/2017, this provision is to be taken literally – compliance with the usury threshold is relevant only at the time of execution of the contract, regardless of the time of payment and of any

subsequent change to the reference threshold. This ruling applies to contracts entered into both before and after the enactment of law No. 108/1996 and law-decree No. 394/2000.

For the risks arising from the possible presence in the Portfolios of Loan Agreements including usury rates, kindly see the section "*Risk Factors*" "*Italian Usury Law*".

Compounding of interest

Pursuant to article 1283 of the Italian civil code, in respect of a monetary claim or receivable, accrued interest may be capitalised after a period of not less than six months only (i) under an agreement subsequent to such accrual or (ii) from the date when any legal proceedings are commenced in respect of that monetary claim or receivable. Article 1283 of the Italian civil code allows derogation from this provision in the event that there are recognised customary practices ("*usi*") to the contrary. Banks and other financial institutions in the Republic of Italy have traditionally capitalised accrued interest on a three monthly basis on the grounds that such practice could be characterised as a customary practice ("*uso normativo*"). However, a number of recent judgements from Italian courts (including the judgements from the Italian Supreme Court (*Corte di Cassazione*) number 2374/99 and number 2593/2003) have held that such practices may not be defined as customary practices ("*uso normativo*").Consequently, if Debtors were to challenge this practice, it is possible that such interpretation of the Italian civil code would be upheld before other courts in the Republic of Italy and that the returns generated from the relevant Loan Agreements may be prejudiced.

It should be noted that Article 25, paragraph 3, of Legislative Decree No. 342 of 4 August 1999 ("**Law No. 342**") enacted by the Italian Government under a delegation granted pursuant to Law No. 142 of 19 February 1992 (the "**Legge Delega**") has considered the capitalisation of accrued interest (*anatocismo*) made by banks prior to the date on which it came into force (19 October 1999) to be valid. After such date, the capitalisation of accrued interest will still be possible upon the terms established by a resolution of the Interministerial Committee of Credit and Saving (C.I.C.R.) dated 9 February 2000 and published on 22 February 2000. Law No. 342 was challenged, however, before the Italian Constitutional Court on the grounds that it falls outside the scope of the legislative powers delegated under the Legge Delega.

By decision No. 425 dated 9 October 2000, the Italian Constitutional Court declared as unconstitutional on these grounds such article 25, paragraph 3, of Law No. 342. According to a ruling of the Tribunal of Bari dated 29 October 2008 the amortisation plans known as "French amortisation plans" (applied to certain type of loans in Italy, such as the Loan Agreements) are not valid, being in breach of Articles 1283 and 1284 of the Italian Civil Code. The rationale behind such ruling seems to be, *inter alia*, that the French amortisation plans would *per se* lead to apply to the relevant loan an interest rate higher than the interest rate contractually agreed between the lender and the borrower and, therefore, to increase the cost of the financing for the borrower. According to such ruling, banks which use in their loans the French amortisation plan would be in breach of Article 1283 and 1284 as the relevant rate of interest and the cost of the financing would not be clearly indicated in the relevant loan agreement. As a result, the relevant contractual interest rate may be challenged by the relevant borrower and the legal interest rate may apply.

Article 17-bis of Law Decree number 18 of 14 February 2016 (as converted into law with amendments by Law number 49 of 8 April 2016) amended article 120, paragraph 2, of the Banking Act, providing that interest (other than defaulted interest) shall not accrue on capitalised interest. Article 120, paragraph 2 of the Banking Act delegated to the CICR the establishment of the methods and criteria for compounding of interest. In this respect, the CICR, with a resolution dated 3 August 2016, substituting the resolution dated 9 February 2000, has provided, inter alia, that: (i) negative accrued interest and principal are to be accounted separately; (ii) in accordance with the new provision of article 120 of the Banking Act, interest are due as from 1 March of the year following the year of the relevant accrual. In any case, such interest shall become payable and the relevant debtor shall be considered in default only after a period of 30 days starting from the day the debtor is aware of the amount to be paid; and (iii) the debtor and the bank may agree, also in advance, to charge the interest due and payable directly to the relevant debtor's account (in such event, the charged amount shall be considered as principal amount and interest shall accrue on such amount).

For the risks arising from the possible presence in the Portfolios of Loans providing for a compounding of interest, kindly see the section "*Risk Factors*" "*Compounding of interest*".

Italian Consumer Legislation

In Italy, consumer loans are regulated by, *inter alia*: (i) articles 121 to 126 of the Consolidated Banking Act; (ii) Italian Legislative Decree No. 206 of 6 September 2005 (the "**Consumer Code**") and (iii) the regulation of the Bank of Italy dated 29 July 2009, entitled "*Trasparenza delle operazioni e dei servizi bancarie e finanziari. Correttezza delle relazioni tra intermediari e clienti*" (as amended and/or supplemented from time to time). Under the current legislation, consumer loans are only those granted for amounts lower than the maximum level set by sub-section 1 of article 122 of the Consolidated Banking Act, currently set at Euro 75,000 and higher than the minimum level set by the same sub-section, currently set at Euro 200.The following issues, amongst others, could arise in relation to a consumer loan contract:

a) pursuant to article 125-*sexies* of the Consolidated Banking Act, debtors under consumer loan contracts have the right (which cannot be waived by agreement between the parties) to prepay any consumer loan (in whole or in part) with the right to a *pro rata* reduction in the aggregate amount of the loan, equal to the amounts of interest and costs that should be accrued until the final maturity date of such loan. Pursuant to second paragraph of Article 125-*sexies*, in case of prepayment of the consumer loan, the lender has the right to receive an indemnity from the debtor that cannot exceed the following limits: (i) 1 per cent. of the early prepaid amount, should the prepayment be made more than 1 year before the final maturity date of the loan; or (ii) 0.5 per cent. of the early prepaid amount, should the prepayment be made at least 1 year or less than 1 year before the final maturity date of the loan, provided that in any case such indemnity cannot exceed the amount of interest that the debtor would have paid on the loan until its final maturity date. Furthermore, third paragraph of Article 125-*sexies* provides for specific circumstances under which such indemnity is not due by the debtor to the lender. The provisions of article 125-*sexies* of the Consolidated Banking Act have been recently amended by Law Decree no. 73 of 25 May 2021, as converted into Law no. 106 of 23 July 2021 (the so-called "**Sostegni-*bis* Decree**"). Pursuant to the Sostegni-*bis* Decree, the consumer loan agreements shall cleary indicate the criteria applicable for such interest and cost reduction, being a linear proportional reduction or a reduction based on the loan amortised cost. Unless otherwise specified in the relevant consumer loan agreement, a reduction based on the loan amortised cost would apply. Save for any different agreement between the lenders and the relevant credit intermediaries, the lenders would have a recourse against such credit intermediaries for the recovery of an amount equivalent to the portion of the credit intermediaries' fees reimbursed to the borrowers as a result of the prepayment. The amendments to article 125-*sexies* of the Consolidated Banking Act introduced by the Sostegni-*bis* Decree would apply to the consumer loan agreements executed after the entry into force of conversion law. Any prepayment relating to consumer loan agreements entered into prior to such date would continue to be governed by the previous provisions of article 125-*sexies*, as well as by the Bank of Italy's regulations applicable at the time of the relevant prepayment;

b) pursuant to article 125-*septies* of the Consolidated Banking Act, debtors of consumer loans are entitled to exercise against the assignee of any lender under a consumer loan contract, any defence (including set-off) which they had against the original lender, in derogation of the provisions of article 1248 of the Italian Civil Code (that means the debtors have such right even if they have accepted the assignment or have been given written notice thereof and if the transfer has been made enforceable against them). In this respect, it must be noted that article 4, paragraph 2 of the Securitisation Law provides that debtors of securitised receivables are not entitled to exercise any right of set-off against the securitisation special purpose vehicle for any claims they have towards the originator which have arisen after the date of completion of the enforceability formalities of the transfer of such receivables to the securitisation company as provided for under the Securitisation Law. However, it is unclear whether the provisions contained in article 4, paragraph 2 of the Securitisation Law in relation to set-off rights of the assigned debtors also prevails on article 125-septies of the Consolidated Banking Act, considering the special nature of the latter (*i.e.* provisions aimed at protecting the category of consumers);

c) pursuant to sub-section 2 of article 125-septies of the Consolidated Banking Act, there is no obligation to inform the consumer of the assignment of the rights of the lender under a consumer loan agreement when the original lender maintains the servicing of the relevant claims. In addition, regulation of the Bank of Italy dated 29 July 2009, as amended and updated from time to time (*Trasparenza delle*

operazioni e dei servizi bancarie e finanziari. Correttezza delle relazioni tra intermediari e clienti) provides that notices of assignment shall be made in accordance with, respectively, article 58 of the Consolidated Banking Act with respect to the assignment of claims required to be carried out thereunder and article 4 of the Securitisation Law with respect to the securitisation transaction of claims. Prior individual notice of the purchase of the Receivables under the Programme Receivables Purchase Agreement and each relevant Transfer Agreement was not, and will not be, given to the Debtors as the Originator will continue to service the relevant Receivables and the Debtors' payment procedure will not be subject to change. Since no notice of the assignment of the Receivables to the Issuer is being given there is a risk that Debtors who qualify as a "consumer" pursuant to the Consolidated Banking Act could raise a defence in any enforcement action taken by the Issuer in respect of the relevant Loan Agreement qualifying as "consumer loans" extended to them that the assignment of the Receivables cannot be enforced against them if the Originator does not continue to service the relevant Receivables and the Debtors' payment procedure are subject to change, until they receive formal notice of the assignment. In this respect, pursuant to the Programme Receivables Purchase Agreement and each relevant Transfer Agreement, however, the Originator has undertaken to notify to the Debtors, the Employers, the Pension Authorities, the Pension Funds and the Guarantors, at the earliest opportunity, the transfer of each Portfolio as provided for by the applicable regulations and to furnish to the Debtors, the Employers, the Pension Authorities, the Pension Funds and the Guarantors information as referred to in articles 13, paragraphs 1 and 2 of the Privacy Law and 13 and 14 of the GDPR (as applicable).

The Consumer Code has repealed articles 1469-*bis* to 1469-*sexies* of the Italian civil code, which were applicable to the Loan Agreements and substituted the regulation contained therein, with substantially the same terms. Article 33 of the Consumer Code provides that any clause in a consumer contract which contains a material imbalance between the rights and obligations of the consumer under the contract is deemed to be unfair and is not enforceable against the consumer whether or not the consumer's counterparty acted in good faith. Article 33 of Consumer Code identifies clauses which, if included in consumer contracts, are deemed to be *prima facie* unfair but which are binding on the consumer if it can be shown that such clauses were actually negotiated or that they can be considered fair in the circumstances of the relevant consumer contract. Such clauses include, amongst others, clauses which give the right to the non-consumer contracting party to (a) terminate the contract or (b) modify the conditions of the contract without reasonable cause. However, with regard to financial contracts, if there is a valid reason, the provider is empowered to modify the economic terms but must inform the consumer immediately; in this case the consumer has the right to terminate the contract.

Pursuant to article 36 of Consumer Code, the following clauses, amongst others, are considered unfair as matter of law and are null and void: (a) any clause which has the effect of excluding or limiting the remedies of the consumer in case of total or partial failure by the non-consumer contracting party to perform its obligations under the consumer contract; and (b) any clause which has the effect of making the consumer party to clauses he has not had any opportunity to consider and evaluate before entering into the consumer contract.

For the risks arising from the possible presence of Loan Agreements containing clauses violating the Consumer Code, kindly see the section "Risk Factors" "*Italian consumer protection legislation*".

Salary Assignments (*Cessioni di quinto dello stipendio*)

The granting of loans with Salary Assignment as collateral constitutes a specific type of financing offered by credit institutions. By virtue of law and of contract, a Salary Assignment requires an Employer to retain a part of the employee's salary/pension and to pay it directly to the lending institution.

The Salary Assignments are regulated by (i) the general provisions of the Italian Civil Code; and (ii) by special legislation.

The provisions of article 1260 of the Italian Civil Code state that creditors may transfer, whether for consideration or not, any claims they might have (except for those claims that are of a strictly personal nature or are not assignable under the law), even without the consent of the assigned debtor. However, the

assignment becomes enforceable towards the assigned debtor only when it is accepted by the assigned debtor or it has been notified to him/her through a notice bearing an indisputable date.

The same requirement is provided for by the Italian Presidential Decree No. 180 of 5 January 1950 ("**Decree 180**").

Special Legislation Provisions

Pursuant to the Decree 180, employees of the State, of other public entities and administrations and private employees may be granted loans which are to be repaid through the assignment of up to one fifth of their net monthly salaries and for a term of not more than 10 years.

The Decree 180 provides for a number of requirements to be met in order for the employees to be granted a loan assisted by a Salary Assignment.

Among the requirements under the Decree 180, it is provided that the risks relating to:

(a) death of the debtor; and

(b) termination of the employment contract for whatever reason,

shall be guaranteed by a specific insurance policy issued by insurance companies.

In the event of termination of the employment for whatever reason, the Salary Assignment extends to the rights to receive pension payments or other forms of indemnities.

In this respect, it has to be noted that, pursuant to the Decree 180, amounts due by the Employer to the lender under the Salary Assignment (being a portion of the Employee salary) have to be paid to the lenders within the month following the month on which they have been accrued.

Payment Delegations (*Delegazioni di pagamento*)

Under a Payment Delegation (*Delegazione di Pagamento*), the employer of the relevant borrower is obliged, by virtue of law and of contract, to retain a part of the employee's salary and to send it directly to the lending institution.

The Payment Delegations are regulated by general provisions of the Italian Civil Code, by the Decree 180 and by the provisions set under Circulars of the Minister of Treasury No. 46 of 8 August 1995 and No. 63 of 16 October 1996 and under Circulars of the Minister Economic and Financial Affairs No. 1 of 17 January 2011 and No. 2 of 15 January 2015 (collectively, the "**Circulars**").

Italian Civil Code Provisions

Article 1269 of the Italian Civil Code provides that a debtor (*delegante*) may delegate another party *(delegato*) to perform payments on his/her behalf to the relevant creditor (delegatario). In case the delegated party (*delegato*) accepts to be bound towards the creditor, this latter has a direct claim towards the delegated party.

A contract whereby one party undertakes to execute one or more legal transactions for the account of another, such as the execution of a payment, is defined as a mandate under Article 1703 of the Italian Civil Code.

Furthermore, pursuant to Article 1723, second paragraph, of the Italian Civil Code, if a mandate is granted also in the interest of a third party (other than the parties to the mandate), such mandate is irrevocable. Accordingly, the Employer, which has accepted the Payment Delegation (which constitutes a mandate to make payments on behalf of the Debtor, also in the interest of the Originator, this latter being a third party to the mandate) would be obliged thereunder to make payments to the Originator until the payment obligations of the debtor are fulfilled and the mandate is therefore extinguished.

Provision set under the Circulars

Pursuant to the Circulars, employees of the State and of other public entities and administrations may be granted loans which are to be repaid through Payment Delegations, subject to the same limits applicable in the case of Salary Assignments.

According to the Circulars, delegations of payment in connection with loans granted to public employees can be issued only subject to, *inter alia*, the lending institution to which the payments are made (the *delegatario*) having entered into a specific agreement (*Convenzione*) with the relevant public body setting out the costs to be borne by the public bodies, such costs to be equal to the costs of the human and IT resources to be used.

Rights of set-off and other rights of the Debtors

Under general principles of Italian law, the Debtors are entitled to exercise rights of set-off in respect of amounts due by them under the relevant Loan Agreement against any amounts payable by the Originator to the relevant Debtor.

The assignment of receivables under the Securitisation Law is governed by article 58, paragraphs 2, 3 and 4, of the Consolidated Banking Act. According to the prevailing interpretation of such provision, such assignment becomes enforceable against the relevant debtors as of the later of (i) the date of the publication of the notice of assignment in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*), and (ii) the date of registration of the notice of assignment in the competent companies' register. Consequently, Debtors and Employers/Pension Authorities may exercise a right of set-off against the Issuer on claims against the Originator and/or the Issuer which have arisen before the later of: (i) the publication of the notice in the Official Gazette and (ii) the registration in the competent companies' register have been completed.

In addition, as set out in paragraph "*Consumer protection legislation*" below, pursuant to article 125-septies of the Consolidated Banking Act, debtors of consumer loans (and CDQ Loans and DP Loans would qualify as such) are entitled to exercise against the assignee of any lender under a consumer loan contract, any defence (including set-off) which they had against the original lender, in derogation of the provisions of article 1248 of the Italian civil code (that means the debtors have such right even if they have accepted the assignment or have been given written notice thereof and if the transfer has been made enforceable against them). In this respect, it must be noted that article 4, paragraph 2 of the Securitisation Law (as amended by Decree 145) provides that debtors of securitised receivables are not entitled to exercise any right of set-off against the securitisation company for any claims they have vis-à-vis the relevant originator which have arisen after the date of completion of the enforceability formalities of the transfer of such receivables to the securitisation company as provided for under the Securitisation Law. However, it is unclear whether the amendments made to article 4, paragraph 2 of the Securitisation Law by Decree 145 in relation to set-off rights of the assigned debtors also prevails on article 125-septies of the Consolidated Banking Act, considering the special nature of the latter (i.e. provisions aimed at protecting the category of consumers).

For the risks arising from the possible exercise by Debtors of a setting off right, kindly see the section “Risk Factors” “*Italian consumer protection legislation*”.

The Issuer

Under the provisions of Article 5, paragraph 2, of the Securitisation Law, the standard limits and the other provisions related to the issue of securities prescribed for Italian companies (other than banks) under the Italian Civil Code (Articles from 2410 to 2420) are not applicable to the Issuer.

Attachment of Debtor's credits

Attachment proceedings may be commenced also on due and payable credits of a borrower (such as bank accounts, salary, etc.) or on borrower's movable property which is located on third party premises.

Settlement of the over-indebtedness crisis (*sovraindebitamento*) under Law No. 3/2012 Under Italian Law No. 3 of 27 January 2012 ("*Disposizioni in materia di usura e di estorsione, nonché di composizione delle crisi da sovraindebitamento*") (the "**Law No. 3/2012**"), in order to remedy to situations in which a debtor is definitively not able to fully and timely fulfil its obligations ("*sovraindebitamento*"), a debtor may enter into a

debt restructuring agreement ("**Settlement Agreement**") in the context of the settlement procedure provided for therein ("**Settlement Procedure**").

In particular, the debtor can accede to the Settlement Procedure if it:

(a) cannot be subject to the insolvency procedures provided by the Bankruptcy Law;

(b) has not benefited of any Settlement Procedure in the past three years;

(c) is subject, for circumstances chargeable to it, to the measures provided for articles 14 and 14-*bis* of Law No. 3/2012;

(d) has filed unclear documentation which does not consent to properly recognize its financial and patrimonial situation.

Pursuant to Law No. 3/2012, a Settlement Agreement may provide for a one-year period moratorium in respect of payments in favour of creditors who have not entered into the Settlement Agreement (*creditori estranei*), provided that:

(i) the debt restructuring plan is suitable to ensure payment of the relevant obligations within the relevant deadline provided for therein;

(ii) the execution of the debts restructuring plan has been entrusted to a liquidator appointed by the competent Court; and

(iii) the moratorium does not concern undistrainable (*impignorabili*) receivables.

The Settlement Agreement must be filed with the competent Court together with, inter alia, the list of all creditors of the relevant debtor.

The competent Court, in the event that the requirements provided by Law No. 3/2012 subsist, provides, by decree, that the creditors cannot commence or continue foreclosure proceedings (*azioni esecutive*) and seizures (*sequestri conservativi*) and create pre-emption rights on the assets of the debtor provided that such decree may be revoked by the competent Court in the event of actions in prejudice of the creditors or fraud against them made by the debtor.

The Settlement Agreement has to be agreed by creditors (excluding certain categories of secured creditors and the purchasers or assignees of the relevant receivables owed by the debtor which have purchased such receivables from less than one year from the date of request of the Settlement Procedure) representing at least 60 per cent. of the debtor's debts and then be approved (*omologato*) by the competent Court.

Recent main changes in Italian bankruptcy, tax and civil procedure law

The Italian Parliament adopted Law Decree No. 83 of 27 June 2015 (*Misure urgenti in materia, fallimentare, civile e processuale civile e di organizzazione e funzionamento dell'amministrazione giudiziaria*) converted into law by Law No. 132 of 6 August 2015 (the "**Decree No. 83**"), providing for some significant changes in Italian bankruptcy, tax and civil procedure law.

The main features of the reform implemented by Decree No. 83 are summarised herein below:

(a) the rules governing the deductibility for tax purposes by banks and financial intermediaries of losses and write-off relating to receivables have been amended. Under the new rules both losses deriving from assignment of receivables and losses and write-off of receivables vis-à-vis customers (*crediti verso la clientela*) are entirely deductible in the fiscal year in which they are registered in the financial statements of the aforesaid companies. This provision has shortened the timeframe previously provided for deducting losses and write-off of receivables, which was equal to five fiscal years;

(b) debt enforcement proceedings have been accelerated and simplified, and judicial sales expedited;

(c) banks and financial intermediaries holding the majority of a company's overall debt can (subject to certain conditions) restructure its indebtedness, even in the face of a significant dissenting minority financial creditor;

(d) access to new financing has been simplified, enjoying super-priority, and the removal of claw back risk for bridging loans (including shareholder loans) for a company when proposing a pre-bankruptcy creditors arrangement or debt restructuring;

(e) creditors representing 10% of overall indebtedness are now entitled to present alternative proposals to those proposed by the debtor if the company's proposals do not satisfy at least 40% of non-preferred creditors in case of liquidation or 30% in an on-going scenario. Measures have been introduced which will likely lead to greater use of controlled auctions in prepack creditor arrangements involving business sales, favouring independent investor participation. Such sales may now be completed even before court certification of the approved creditor arrangement, prioritising business continuity;

(f) a specific discipline has been provided in relation to the consequences of the termination of financial leasing contract (please see the paragraph "Italian Law on Leasing" below for more details on this provision); and

(g) a number of measures have been introduced to enhance the speed and effectiveness of bankruptcy proceedings, including the imposition of deadlines for bankruptcy trustee activities with the real threat of removal for failure to comply and the facilitation of interim distributions to creditors.

These provisions of Decree No. 83 have not been tested in any case law nor specified in any further regulation.

Law Decree No. 59/2016

The Italian Parliament has adopted the Law Decree No. 59 of 3 May 2016 (*Disposizioni urgenti in materia di procedure esecutive e concorsuali, nonchè a favore degli investitori in banche in liquidazione*) converted into law by Law No. 119 of 30 June 2016 (the "**Decree No. 59**"), providing for urgent measures on guarantees, foreclosure and insolvency proceedings and aiming at restoring damages suffered by investors of banks under liquidation.

The main features of the reform implemented by Decree No. 59 are summarised herein below:

(a) a new security interest over movable assets ("*pegno mobiliare non possessorio*") has been introduced in order to improve the businesses' access to financing;

(b) it is now possible for banks and other financial intermediaries authorised to carry out lending activities pursuant to Article 106 of the Consolidated Banking Act to agree in the financing arrangements with businesses to obtain, in case of default, title to a designated real estate asset(s) (such measure expressly provides for an exception to the general Italian rule pursuant to which a secured creditor is not allowed to repossess a pledged or mortgaged asset upon the borrower's default);

(c) certain provisions have been introduced in order to further accelerating (following the recent amendments in enforcement proceedings) credit recovery through more efficient enforcement proceedings. In particular:

  (i) no oppositions to enforcement procedures are allowed (with limited exceptions) if the sale process for the asset has already been launched;

  (ii) courts must (with no discretion) order provisional execution of an injunction order for the portion of the claim which has not been challenged by the debtor;

  (iii) a bidder in an auction may identify a third party assignee to become the owner of the asset.

(d) changes have been introduced to Italian insolvency law to facilitate certain procedural aspects by strengthening the use of online technologies to enhance interactivity within the context of hearings and creditors' meetings;

(e) a digital registry shall be set up and held by the Ministry of Justice, which includes data relating to all the compulsory expropriation, insolvency proceedings and alternative debt restructuring resolution schemes.

These provisions of Decree No. 59 have not been tested in any case law nor specified in any further regulation.

Delegation of powers to the Italian Government for the reform of corporate reorganization and Insolvency Law

On 11 October 2017 the Italian Parliament approved a law which confers powers on the Italian government for an overall reform of insolvency law and corporate reorganisation proceedings in the context of over-indebted corporate entities (the "**Delegated Legislation**").

The Delegated Legislation is the result of a review of the Italian legislative decree no. 267 of 16 March 1942 (hereinafter the "**Bankruptcy Law**") conducted by an experts' committee set up in 2015. Such review aims at introducing reform of insolvency legislation that is better suited to the current economic situation and consistent with the indications received from the European legislator.

The Delegated Legislation is inspired by the principle of an early detection and resolution of corporate insolvency also through flexible and modern reorganisation methods; in such a context, the declaration of bankruptcy (now defined as judicial liquidation, "*liquidazione giudiziale*") is considered as a last resort in absence of other options that can guarantee continuation of corporate activity.

In accordance with the above principles, the Delegated Legislation introduces the new "preemptive and assisted reorganisation procedures" further complementing in this way the regulation of the currently existing pre-insolvency proceedings (*i.e.* restructuring proceedings under article 182*bis* and certified plans under article 67(3)(d) of the Bankruptcy Law) and insolvency proceedings (scheme of arrangements with creditors and bankruptcy). The reform of the so - called *extraordinary administration* proceedings has not been included in the scope of the Delegated Legislation and will likely require an *ad hoc* intervention.

The principal envisaged amendments to the current legal framework contained in the Delegated Legislation are as follow.

Stakeholders have long faced a difficulty in coordinating the restructuring proceedings of companies under the same group. The legislation currently in force does not provide for the opening of a single restructuring proceeding with regard to multiple affiliated companies, thus resulting in an inefficient process also compounded by the fact that different territorial courts have competence for each different single proceedings. In order to adress such issues, the Delegated Legislation provides for the introduction of a new joined proceedings for group insolvencies. More specifically, the Delegated Legislation introduces:

a) a definition of "corporate group" by reference to the criteria of direction and coordination referred to in articles 2497 et seq. and 2545 septies of the Italian Civil Code; such criteria are presumed to be met where there are controlling and controlled entities within the group pursuant to article 2359 of Italian Civil Code;

b) joined single proceedings: the possibility for companies under the same group to file a single application for approval of a debt restructuring plan agreement under article 182bis of the Bankruptcy Law or admission to an out-of-court arrangement with creditors or judicial liquidation or a court settlement agreement before a single court of law (as determined in accordance with the European principle of "center of main interests" of the debtor); hence the subsequent appointment of only one single (i) judge and (ii) court-appointed receiver with regard to a scheme of arrangement or judicial dissolution and payment of a single fund of expenses in the case of a scheme of arrangement with creditors.

c) separate resolution meetings with regard to schemes of arrangement with creditors: in case of a scheme of arrangement, separate resolutions on the proposal by the creditors of each company and the exclusion of infra-group creditors from voting in order to mitigate any "distortion" effects;

d) subordination of infra-group debt in situations described by article 2467 of the Italian Civil Code (i.e. the company has resorted to additional debt in situations where a capital contribution was instead required), with the exception of infra-group loans granted in the context of schemes of arrangement or a debt restructuring agreement under article 182*bis* of Bankruptcy Law;

e) extension of the receiver's powers with regard to solvent companies: in the event of a judicial liquidation, the power of the receiver, inter alia, to report irregularities in the management of the solvent companies of the group (*e.g.* article 2409 of the Italian Civil Code) and to request their bankruptcy in the event of insolvency.

Preemptive Proceedings

As mentioned above, the Italian legislator has worked on the assumption (shared by the European regulator and business philosophy) that the successful recovery of a business largely depends on early detection of crisis, which the entrepreneur often tends to deny.

In order to facilitate a prompt detection of crisis, on one hand the Delegated Legislation requires the entrepreneur to have in place an adequate corporate structure which can detect a crisis in a timely manner, and on the other hand, has introduced preemptive proceedings and crisis-assisted reorganisation proceedings (the "**Preemptive Proceedings**") to induce the distressed company to address the crisis early on. Such regulation however does not apply to listed and large companies on the assumption that, due to their size, these entities have adequate resources to detect the crisis and address it at an early stage.

The Preemptive Proceedings are based on a resolution of the crisis agreed with creditors and implemented through the assistance of a body of experts started by the debtor or indirectly by public creditors or corporate auditing entities. The Preemptive Proceedings - which are to be conducted in a confidential manner – provide for the following:

a) the debtor who acknowledges a state of crisis files an application with a body set up in the relevant Chamber of Commerce (the "**Committee**") in order to receive assistance in finding an agreed solution to the crisis with creditors within a maximum period of 6 months;

b) qualified public creditors (including the Tax Agency and Social Security Agency) must (i) inform the relevant debtor that its debt exposure has exceeded a significant amount and (ii) inform the supervisory entities and the Committee, in case the debtor has not addressed the problem within a 3 month period (such as by starting the Preemptive Proceedings, or by carrying out a scheme of arrangement or a debt restructuring);

c) in the event of the debtor's inaction, the above-mentioned public creditors must report to the supervisory entities and the Committee any ongoing defaults of a significant amount;

d) in addition, in all cases of inaction on the part of the debtor (and regardless of reporting by qualified public creditors) the corporate auditing bodies, auditors and auditing firms are obliged to immediately notify the administrative entities of any well-grounded indications of a crisis situation (the chartered accountant representative body shall prepare indexes to be used to establish when a company is considered to be in crisis) and, in the event of inadequate or a lack of response by these entities, the Committee;

e) during the proceedings, the debtor may apply to the relevant Court for the adoption of protective measures to enable the same to enter into negotiations protected from any action of creditors (in respect of such protective measures, the debtor may postpone the reduction of any losses pursuant to the provisions of article 182 *sexies* of the Bankruptcy Law with reference to the debt restructuring agreements and the schemes of arrangements;

f) if within six months from the start of the proceeding the relevant debtor does not adopt appropriate measures to overcome the crisis (including entering into agreements with creditors or filing a debt restructuring agreement in court or applying for an in-court composition with creditors), the Committee report the state of insolvency, (if any) to the Public Prosecutor (who will be able to file for bankruptcy where the conditions are met).

Finally, in order to encourage the use of Preemptive Proceedings, the Law provides for a system of incentives and penalties:

- Incentives:

1. for debtors who have taken action to overcome the crisis within 6 months from the first sign of its occurrence (using the assistance of the Committee or the proceedings for the approval of a debt restructuring agreement under article 182*bis* of the Bankruptcy Law, or a scheme of arrangement with creditors): (a) there will no penalty for bankruptcy as a result of fund distraction crimes and other bankruptcy offences when they have caused minor damage; (b) the action will be regarded as a mitigating circumstance with special effect for any other crimes and (c) a reduction of interest payable and penalties on tax debt;

2. for statutory auditors who immediately report to the directors well-grounded indications of a crisis and, in the event of inaction, inform the Committee: exemption from joint liability with the company directors for any damages resulting from events or omissions following their report;

- Penalties:

for qualified public creditors: loss of their priority in payment over their debt in case of failure to report to the supervisory entities and the Committee the persisting default on obligations of a significant amount by the relevant insolvent debtor.

Debt restructuring agreements pursuant to article 182bis of Bankruptcy Law and certified plans under article 67(3)(d) of the Bankruptcy Law

The amendments introduced by the Delegated Legislation aim to encourage the use of debt restructuring agreements under article 182*bis* of the Bankruptcy Law (the "**182*bis* Agreements**").

As for the certified plans under article 67(3)(d) of the Bankruptcy Law (the "**Certified Plans**"), the legislator has considered necessary to regulate more specifically their content in order to limit the possibility that these are drafted loosely.

Starting from the 182bis Agreements, the Delegated Legislation provides as follows:

a) extended application of the cram down: possibility to apply the "cram down" model envisaged in the case of arrangements with banks and financial intermediaries under article 182septies of the Bankruptcy Law to all debt restructuring agreements and moratorium agreement which do not provide for liquidation: this means that, once the creditors have been assigned to homogeneous classes based on their economic and legal position, a company may bind all creditors belonging to a certain class to complying with agreements approved by at least 75% of creditors belonging to the relevant class provided that they have been informed of the opening of negotiations and have been enabled to participate to the resolution;

b) reduction of the required quorum: reduction of the 60% quorum currently required by law for the use of such measure to 30% provided that: (a) the debtor pays creditors not adhering to the plan as their debts become due and (b) does not request protection from enforcement proceedings (see letter (c) below);

c) extension of protection: application of a debt moratorium starting from the opening and until the end of the proceedings (as of the day of this Base Prospectus it applies for only 60 days starting from the opening);

d) extension to members with unlimited liability: extension of the effects of the agreement to members with unlimited liability.

As for the certified plans, the Law merely requires that they must be in writing, bear certain date and the content is precisely determined.

Schemes of Arrangement

The Law provides for a reorganisation of the provisions on the schemes of arrangement with creditors in order to preserve business continuity and simplify proceedings. More specifically, the Delegated Legislation provides as follows:

a) marginalisation of schemes of arrangement providing for liquidation: schemes of arrangements with liquidation are only possible where: (i) there is a contribution of external resources which appreciably increases payments in favours of unsecured creditors for at least 10% and, in any case, (ii) a minimum payment of 20% of the total amount of unsecured claims is envisaged;

b) extending the powers of the relevant bankruptcy Court: the Court has the power to assess not only the legal but also the economic feasibility of a scheme of arrangement (this is a step back in respect of the "private" nature of the 2015 reform as well as of the same indications received from the Joint Sections of the Italian Supreme Court (*Corte di Cassazione a Sezioni Unite*) that will not contribute to the success of the provision);

c) qualified majorities: a majority is required not only based on the amount of debt owed but also based on the number of voting creditors if a single creditor holds unsecured debt for an amount equal to or higher than the majority of those eligible to vote; furthermore, the Delegated Legislation calls for a specific regulation on conflict of interest situations. Such choice will make it difficult to carry out typical investment operations involving the purchase of receivables from distressed/insolvent companies in order to then "control" and approve the relevant scheme of arrangement proposal;

d) the definition of a scheme of arrangement in continuity and deferment of privileged claims: it is clarified that a scheme of arrangement in continuity refers to both mixed schemes of arrangements (continuity plus disposal of non-instrumental assets); furthermore, payment of privileged creditors may be postponed up for to two years, provided that the creditors are granted voting rights;

e) super senior loans authorized by the court: super senior status of the loan would be confirmed during the proceedings and by way of execution of the plan; super senior loans are no longer permitted;

f) mandatory classification of creditors: creditors must necessarily be divided into classes if there are, among others, creditors assisted by third-party guarantees (and in other cases where there are homogeneous legal positions and economic interests that are to be identified by the Government);

g) electronic vote: the meeting of creditors is replaced by an electronic voting procedure;

h) provisional administration: in the event of obstruction by the debtor, the Court may entrust the implementation of the scheme of arrangement to a provisional administrator entrusted with powers usually belonging to a creditors' meeting (this power is currently only provided if a competing proposal is accepted);

i) termination of the scheme arrangement by the receiver: the receiver has the power to require, following the request from a creditor, that the scheme of arrangement be terminated, inter alia, for non-performance (currently, such right is recognised only to creditors);

j) mergers/demergers/transformations: in the case of extraordinary transactions (mergers, demergers and transformations), (i) the creditors' opposition is exercised in the context of the schemes of arrangement; (ii) the effects of extraordinary transactions are irreversible once executed; (iii) the right of withdrawal of shareholders is excluded in the presence of transactions affecting on the organization or financial structure of the company.

Judicial liquidation

Under the Delegated Legislation bankruptcy is defined as “judicial liquidation”, and aims at standardising and simplifying the relevant proceedings which now becomes residual if a restructuring proceedings on a going concern basis is possible (and reasonably achievable). Some of the most important changes are the following:

a) assignment of assets to creditors: the participation of creditors in the auctions of the debtors' assets is facilitated (however, certain aspects of the Delegated Legislation are not very clear on this point); to this end, a body is established which certifies “the reasonable probability of satisfaction of the debts incurred in respect of each proceeding” and which issues to the creditors who so request a debt certificate enabling them to participate to the relevant auction "in proportion to the probability of satisfaction of their credit"; the provision is presumably aiming at giving to the creditors the option to request the assignment of the debtor's assets and pay by means of their debt certificates as endorsed by the certifying body; in fact the law provides for the appointment of a “settlement and central counterparty system operator” which it is presumed to oversee such operations; the relevant proceedings however remain regulated;

b) one type of proceedings: judicial liquidation applies to every category of debtors (e.g. limited liability companies, individuals, professionals) with the sole exclusion of public entities;

c) efficiency of the proceedings: a number of further actions are planned in order to reduce the duration and cost of the procedure and make more effective and transparent the receiver’s activity as well as the process of determining the bankruptcy estate’s liabilities.

Finally, the Delegated Legislation also provides for some further measures intended to reorder and simplify over-indebtedness proceedings by prioritising business continuity and ensuring the competitiveness of asset sale auctions.

On 14 February 2019, the Legislative Decree No. 14 of 12 January 2019, which enacts the above provisions set out under the Delegated Legislation, has been published in the Official Gazette of the Republic of Italy and will enter into force on 15 August 2020 except for certain provisions relating to corporate organzation and director liabilities that entered into force as of 16 March 2019.

Regulatory Capital Framework

The regulatory capital framework published by the Basel Committee on Banking Supervision (the "**Basel Committee**") in 2006 (the "**Basel II Framework**") has not been fully implemented in all participating countries. The implementation of the framework in relevant jurisdictions may affect the risk-weighting of the Notes for investors who are or may become subject to capital adequacy requirements that follow the framework.

It should also be noted that the Basel Committee has approved significant changes to the Basel II.

Framework (such changes being commonly referred to as "**Basel III**"), including new capital and liquidity requirements intended to reinforce capital standards and to establish minimum liquidity standards for credit institutions. In particular, the changes refer to, amongst other things, new requirements for the capital base held by credit institutions, measures to strengthen the capital requirements for counterparty credit exposures arising from certain transactions and the introduction of a leverage ratio as well as short-term and longer-term standards for funding liquidity (referred to as the "**Liquidity Coverage Ratio**" and the "**Net Stable Funding Ratio**").

The Basel Committee has also published certain proposed revisions to the securitisation framework, including proposed new hierarchies of approaches for calculating risk weights and a new risk weight floor of 15%. Participating countries have been required to fully implement the new capital standards as of January 2019) and the Net Stable Funding Ratio from January 2018. The implementation of Basel III requires national legislation and therefore the final rules and the timetable for their implementation in each jurisdiction may be subject to some level of national variation. The European authorities have indicated that they support the work of the Basel Committee on the approved changes in general and the European Commission proposed to implement the changes through the CRD IV and the CRR (as defined below). It should also be noted that changes to regulatory capital requirements have been made for insurance and reinsurance undertakings

through participating jurisdiction initiatives, such as the Solvency II framework in Europe. The changes may have an impact on incentives to hold the Notes for investors that are subject to requirements that follow the revised framework and, as a result, they may affect the liquidity and/or value of the Notes.

The Basel III framework has been substantially reflected in the EU legislation by means of the agreed package consisting of the Capital Requirements Directive (Directive 2013/36/EU, also known as "**CRD IV**") and Capital Requirements Regulation (Regulation (EU) No. 575/2013, also known as "**CRR**"), the latter being directly applicable in each Member State. The adoption of these measures will allow the set-up of a Single Rule book which is the key tool in the EU to allow a level playing field, to contrast regulatory arbitrage and foster the convergence of supervisory practices. The CRD IV and the CRR were formally adopted by the European Council on 20 June 2013 and published in the Official Journal on 27 June 2013. The CRR entered into application on 1 January 2014. The CRD IV has been implemented in Italy through the Bank of Italy Circular No. 285 issued on 17 December 2013, as amended and supplemented from time to time, and Legislative Decree No. 72 of 12 May 2015 entering into force on 27 June 2015 that transposes in Italy those provisions of the CRD IV which were not implemented by means of the aforesaid Bank of Italy Circular. In addition, certain EU regulations provide for certain retention and due diligence requirements which shall be applied, or are expected to be applied in the future, with respect to various types of regulated investors (including, *inter alia*, credit institutions, investment firms or other financial institutions, authorised alternative investment fund managers, insurance and reinsurance companies and UCITS funds) who intend to invest in a securitisation transaction. Among other things, such requirements restrict a relevant investor from investing in asset-backed securities unless (i) that relevant investor is able to demonstrate that it has undertaken certain due diligence in respect of various matters including its note position, the underlying assets and (in the case of certain types of investors) the relevant sponsor or originator and (ii) the originator, sponsor or original lender in respect of the relevant securitisation has explicitly disclosed to the investor that it will retain, on an on-going basis, a net economic interest of not less than 5 (five) per cent in respect of certain specified credit risk tranches or asset exposures. Failure to comply with one or more of the requirements may result in various penalties including, in the case of those investors subject to regulatory capital requirements, the imposition of a proportional additional risk weight on the notes acquired by the relevant investor. The retention and due diligence requirements hereby described apply, or are expected to apply, in respect of the Notes.

Accounting treatment of the Receivables

On the basis of the regulations issued by the Bank of Italy on 13 March 2012, which should apply to the drafting of the financial statements of the Issuer, the accounting information relating to the securitisation of the Receivables will be contained in the Issuer's nota integrativa, which, together with the balance sheet and the profit and loss statements form part of the financial statements of Italian companies.

No severe clawback provisions

The Italian insolvency laws do not contain severe clawback provisions within the meaning of articles 20(2) and 20(3) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria.

TAXATION

SECTION UNDER TAX DEPARTMENT REVIEW

The following is a general description of current Italian law and practice relating to certain Italian tax aspects concerning the purchase, ownership and the disposal of the Notes. It does not purport to be a complete analysis of all tax issues that may be relevant to the prospective investors' decision to purchase or own the Notes or the noteholders' decision to dispose of the same and does not purport to deal with the tax consequences applicable to all categories of investor or prospective beneficial owners of the Notes, some of which may be subject to special rules. The following overview does not discuss the treatment of Notes that are held in connection with a permanent establishment or fixed base through which a non-Italian resident beneficial owner carries on business or performs professional services in Italy.

This overview is based upon tax laws and practice of Italy in effect on the date of this Base Prospectus which are subject to change, potentially retroactively.

Prospective purchasers of the Notes are advised to consult in any case their tax advisers as to the consequences under Italian tax law, under the tax laws of the country in which they are resident for tax purposes and of any other potentially relevant jurisdiction of acquiring, holding and disposing of the Notes and receiving payments of interest, principal and/or other amounts under the Notes, including in particular the effect of any state, regional or local tax laws. This overview will not be updated by the Issuer after the date of this Base Prospectus to reflect changes in laws after the date of this Base Prospectus and, if such a change occurs, the information in this could become invalid.

Income tax

Under current legislation, pursuant to the provision of article 6, paragraph 1, of the Securitisation Law and of Decree 239, as amended, payments of interest and other proceeds in respect of the Notes (hereinafter collectively referred to as "**Interest**"):

(a) will be subject to final substitute tax (*imposta sostitutiva*) at the rate of 26 per cent. in Italy if made to beneficial owners who are: (i) individuals resident in Italy for tax purposes holding Notes not in connection with entrepreneurial activity; (ii) Italian resident partnerships (other than *società in nome collettivo*, *società in accomandita semplice* or similar partnerships), *de facto* partnerships not carrying out commercial activities and professional associations; (iii) Italian resident public and private entities, other than companies, not carrying out commercial activities as their only or main purpose; (iv) Italian resident entities exempt from corporate income tax; and (v) non-Italian resident entities or persons without a permanent establishment in Italy to which the Notes are effectively connected, which are not eligible for the exemption from the *imposta sostitutiva* and/or do not timely comply with the requirements set forth in Decree 239 and the relevant application rules in order to benefit from the exemption from *imposta sostitutiva* (in each case unless the relevant Noteholder has entrusted the management of its financial assets, including the Notes, to an authorised intermediary and has opted for the *Risparmio Gestito* regime according to article 7 of Legislative Decree number 461 of 21 November 1997 - the "**Asset Management Option**"). As to non-Italian resident beneficial owners, *imposta sostitutiva* may apply at lower or nil rate under double taxation treaties entered into by Italy, where applicable.

The 26 per cent. final *imposta sostitutiva* (or, in certain cases, for treaty covered non-Italian resident beneficial owners, the lower rate provided for by the relevant applicable double tax treaty) will be generally applied by the Italian resident qualified financial intermediaries (or permanent establishments in Italy of foreign intermediaries) that will intervene, in any way, in the collection of Interest on the Notes or in the transfer of the Notes (the "**Intermediaries**" and each an "**Intermediary**").

In case the Notes are held by Noteholders mentioned above under (i) to (iii) that are engaged in a business activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax and may be deducted from the income tax due by the Noteholders;

(b) will not be subject to the *imposta sostitutiva* at the rate of 26 per cent. if made to investors who are: (i) Italian resident corporations or permanent establishments in Italy of non-resident corporations to which the Notes are effectively connected; (ii) Italian resident collective investment funds, Italian SICAVs, Italian resident pension funds subject to the regime provided for by article 17, paragraph 2, of Legislative Decree 5 December 2005, No. 252, Italian resident real estate investment funds and Italian resident SICAFs to which the provisions of Article 9 of Legislative Decree No. 44 of 4 March 2014 apply; (iii) Italian residents holding Notes not in connection with entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an Italian authorised financial intermediary and have opted for the Asset Management Option; and (iv) according to Decree 239, non-Italian resident beneficial owners of the Notes or institutional investors, even though not subject to taxation, with no permanent establishment in Italy to which the Notes are effectively connected, provided that:

1. such beneficial owners or institutional investors are respectively resident for tax purposes or established in a country included in the list of States which recognise the Italian fiscal authorities' right to an adequate exchange of information, so-called "**White List States**" (the present list of the countries allowing an adequate exchange of information is that contained in the Italian Ministerial Decree 4 September 1996, as subsequently amended and supplemented. Such Decree might be updated or amended from time to time pursuant to article 11 of Decree 239), and

2. all the requirements and procedures set forth in Decree 239 and in the relevant application rules, as subsequently amended, in order to benefit from the exemption from *imposta sostitutiva* are timely met and complied with.

Decree 239 also provides for additional exemptions from the *imposta sostitutiva* for payments of Interest in respect of the Notes made to (i) international bodies and organisations established in accordance with international agreements ratified in Italy, and (ii) Central Banks or entities, managing, *inter alia*, also the official State reserves.

To ensure payment of Interest in respect of the Notes without the application of *imposta sostitutiva*, investors indicated above sub-paragraph (b) must (i) be the beneficial owners of payments of Interest on the Notes or certain non-Italian resident institutional investors; (ii) timely deposit the Notes together with the coupons relating to such Notes directly or indirectly with an Intermediary or with a non-Italian resident entity participating in a centralised securities management system which is in contact, via telematic link, with the Ministry of Economics; and (iii) in the event of non-Italian resident beneficial owners or institutional investors being holders of the Notes, according to Decree 239, timely file with the relevant depository a self-declaration stating to be resident for tax purposes or established in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information included among the White List States (for non-Italian resident Noteholders who are institutional investors certain additional declarations should also be made). Such self-declaration – which is not requested for international bodies and organisations established in accordance with international agreements ratified in Italy and Central Banks or entities managing also official State reserves – must comply with the requirements set forth by Italian Ministerial Decree of 12 December 2001, is valid until withdrawn or revoked and must not be submitted in case that a certificate, declaration or other similar document meant for equivalent uses was previously submitted to the same depository.

Italian resident Noteholders holding Notes not in connection with entrepreneurial activity who have entrusted the management of the Notes to an authorised intermediary and have opted for the Asset Management Option are subject to a 26 per cent. annual substitutive tax (the "**Asset Management Tax**") on the increase in value of the managed assets accrued at the end of each tax year (which increase

would include any Interest accrued on the Notes during the holding period). The Asset Management Tax is applied on behalf of the taxpayer by the managing authorised intermediary.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity may be exempt from any income taxation, including the substitutive tax, on Interest if the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) structured as collective investment undertaking that meets the requirements set forth in Article 1, paragraph 100-114 of Law No. 232 of 11 December 2016 ("**2017 Budget Law**") in which the above mentioned Italian resident individuals invest.

Interest accrued on the Notes would be included in the corporate taxable income (and in certain circumstances, depending on the "status" of the Noteholders, also in the net value of production for the purposes of regional tax on productive activities - IRAP) of beneficial owners who are Italian resident corporations and permanent establishments in Italy of foreign corporation to which the Notes are effectively connected, subject to tax in Italy in accordance with ordinary tax rules.

Italian resident collective investment funds (which include *o*pen-ended or closed-ended investment fund, a SICAV or a SICAF and so-called Luxembourg investment funds regulated by article 11-*bis* of Law Decree No. 512 of 30 September 1983 – collectively, the "**Funds**") are not subject to income tax. A substitute tax of 26 per cent. is levied, in certain circumstances, to distribution made by the Funds in favour of certain categories of unit holders or shareholders.

Italian resident pension funds subject to the regime set forth by article 17, paragraph 2, of Legislative Decree 5 December 2005, No. 252 (the "**Pension Funds**") are subject to a 20 per cent. annual substitutive tax (the "**Pension Fund Tax**") on the increase in value of the managed assets accrued at the end of each tax year (which increase would include Interest accrued on the Notes during the holding period).

Where the Noteholder is an Italian resident real estate investment fund or SICAF (collectively, the "**Real Estate Funds**"), interest and other proceeds in respect of the Notes are subject to neither to imposta sostitutiva nor to any other income tax in the hands of the Real Estate Fund. A withholding tax may apply in certain circumstances at the rate of up to 26 per cent on distributions made by Italian Real Estate Funds.

Where the Notes and the relevant coupons are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any Italian intermediary (or permanent establishment in Italy of foreign intermediary) that intervenes in the payment of Interest to any Noteholder or by the Issuer and Noteholders who are Italian resident companies or permanent establishments in Italy of foreign corporations to which the Notes are effectively connected are entitled to deduct the *imposta sostitutiva* suffered from income taxes due by them.

Capital gains tax

Any capital gain realised upon the sale for consideration or redemption of the Notes would be treated as part of the taxable business income (and, in certain cases, may also be included in the taxable net value of production for IRAP purposes), subject to tax in Italy according to the relevant tax provisions, if derived by Noteholders who are:

(a) Italian resident corporations or similar commercial entities;

(b) Italian resident commercial partnerships;

(c) permanent establishments in Italy of foreign corporations to which the Notes are effectively connected; or

(d) Italian resident individuals carrying out a commercial activity, as to any capital gains realised within the scope of the commercial activity carried out.

Pursuant to Legislative Decree number 461 of 21 November 1997 ("**Decree 461**"), any capital gain realised by Italian resident individuals holding Notes not in connection with entrepreneurial activity and certain other persons upon sale for consideration or redemption of the Notes would be subject to an *imposta sostitutiva* (substitute tax) at the current rate of 26 per cent.. Under the tax declaration regime (*regime della dichiarazione*), which is the standard regime for taxation of capital gains realised by Italian resident individuals not engaged in entrepreneurial activity, *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any relevant incurred capital loss of the same nature, realised by Italian resident individual noteholders holding Notes not in connection with entrepreneurial activity pursuant to all disposals of Notes carried out during any given fiscal year. Italian resident individuals holding Notes not in connection with entrepreneurial activity must report overall capital gains realised in any tax year, net of any relevant incurred capital loss of the same nature, in the annual tax declaration to be filed with the Italian tax authorities for such year and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains of the same kind realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual noteholders holding the Notes not in connection with entrepreneurial activity may elect to pay 26 per cent. *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes (the "**Risparmio Amministrato**" regime). Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, società di *intermediazione mobiliare* (SIM) or certain authorised financial intermediaries and (ii) an express election for the *Risparmio Amministrato* regime being timely made in writing by the relevant Noteholder. Under the *Risparmio Amministrato* regime, the financial intermediary is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised at revocation of its mandate), net of any relevant incurred capital loss of the same nature, and is required to pay the relevant amount to the Italian fiscal authorities on behalf of the taxpayer. Under the *Risparmio Amministrato* regime, where a sale or redemption of the Notes results in capital loss, such loss may be deducted from capital gains of the same kind subsequently realised within the same relationship of deposit in the same tax year or in the following tax years up to the fourth. Under the *Risparmio Amministrato* regime, the Noteholder is not required to declare capital gains in its annual tax declaration and remains anonymous.

Any capital gains realised by Italian resident Noteholders holding Notes not in connection with entrepreneurial activity who have elected for the Asset Management Option will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to the Asset Management Tax to be applied on behalf of the taxpayer by the managing authorised intermediary. Under the Asset Management Option, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the Asset Management Option, the Noteholder is not required to report capital gains realised in its annual tax declaration and remains anonymous.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not engaged in an entrepreneurial activity may be exempt from Italian capital gain taxes, including the substitutive tax, on capital gains realised upon sale or redemption of the Notes, if the Notes are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) structured as collective investment undertaking that meets the requirements set forth in Article 1(100-114) of 2017 Budget Law.

Any capital gains realised by Noteholders who are Italian resident Funds are not subject to income tax. A substitute tax of 26 per cent. is levied, in certain circumstances, to distribution made by the Funds in favour of certain categories of unit holders or shareholders upon redemption or disposal of the units.

Any capital gains realised by Noteholders who are Italian resident Pension Funds, will be included in the computation of the taxable basis of Pension Fund Tax.

Any capital gains realised by Noteholders who are Real Estate Funds and Italian resident SICAFs to which the provisions of Article 9 of Legislative Decree No. 44 of 4 March 2014 apply are not subject to any substitute tax at the fund level nor to any other income tax in the hands of the fund. A withholding tax at a rate of up to 26 per cent. will be applied under certain circumstances on income realised by the participants to the Real Estate Fund on distributions or redemption of the Fund's units (where the item of income realised by the participants may include the capital gains on the Notes).

The 26 per cent. final *imposta sostitutiva* on capital gains may in certain circumstances be payable on capital gains realised upon sale for consideration or redemption of the Notes by non-Italian resident individuals or entities without a permanent establishment in Italy to which the Notes are effectively connected, if the Notes are held in Italy.

However, any capital gains realised by non-Italian residents without a permanent establishment in Italy to which the Notes are effectively connected through the sale for consideration or redemption of the Notes are exempt from taxation in Italy to the extent that the Notes are listed on a regulated market in Italy or abroad and in certain cases subject to timely filing of required documentation (in particular, a self-declaration not to be resident in Italy for tax purposes), even if the Notes are held in Italy and regardless of the provisions set forth by any applicable double tax treaty.

In case the Notes are held in Italy but are not listed on a regulated market in Italy or abroad:

(i) pursuant to the provisions of article 5 of Decree 461, non-Italian resident beneficial owners of the Notes with no permanent establishment in Italy to which the Notes are effectively connected are exempt from *imposta sostitutiva* in Italy on any capital gains realised, upon sale for consideration or redemption of the Notes, if they are resident, for tax purposes, in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information (included among the White List States, as defined above).

Exemption from Italian *imposta sostitutiva* on capital gains realised upon disposal of Notes not listed on a regulated market also applies to non-Italian residents who are (a) international bodies and organizations established in accordance with international agreements ratified in Italy; (b) certain foreign institutional investors, even though not subject to income tax or to other similar taxes, established in countries which allow an adequate exchange of information with Italy included among the White List States and (c) Central Banks or other entities, managing also official State reserves.

In such cases, if non-Italian residents without a permanent establishment in Italy to which the Notes are effectively connected hold Notes with an Italian authorised financial intermediary and elect for the Asset Management Option or are subject to the *Risparmio Amministrato* regime, in order to benefit from exemption from Italian taxation on capital gains such non-Italian residents may be required to timely file with the authorised financial intermediary an appropriate self-declaration stating that they meet the subjective requirements indicated above. Additional statements may be required for non-Italian resident Noteholders that are institutional investors;

(ii) in any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Notes are effectively connected that may benefit from a double taxation treaty with Italy, providing that capital gains realised upon sale or redemption of Notes are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon sale for consideration or redemption of Notes.

In such case, if non-Italian residents without a permanent establishment in Italy to which the Notes are effectively connected hold Notes with an Italian authorised financial intermediary and elect for

the Asset Management Option or are subject to the *Risparmio Amministrato* regime, in order to benefit from exemption from Italian taxation on capital gains such non-Italian residents may be required to file in time with the authorised financial intermediary appropriate documents which include *inter alia* a certificate of residence from the competent tax authorities of the country of residence of the non-Italian residents.

The *Risparmio Amministrato* regime is the ordinary regime automatically applicable to non-resident persons and entities in relation to Notes deposited for safekeeping or administration at Italian banks, SIMs and other eligible entities, but non-resident noteholders retain the right to waive this regime. Such waiver may also be exercised by non-resident intermediaries in respect of safekeeping, administration and deposit accounts held in their names in which third parties' financial assets are held.

Inheritance and gift tax

Inheritance and gift tax would be payable in Italy at the following rates on the transfer of the Notes by reason of death or donation, regardless of whether or not the Notes are held outside of Italy, if the deceased person or the donor were either resident or non-resident in Italy for tax purposes at the time of death or gift:

- 4 per cent. if the transfer is made to spouses and direct descendants or ancestors; in this case, the transfer is subject to tax on the value of the entire inheritance or gift exceeding Euro 1,000,000.00 for each beneficiary;

- 6 per cent. if the transfer is made to brothers and sisters; in this case, the transfer is subject to tax on the value of the entire inheritance or gift exceeding Euro 100,000.00 for each beneficiary;

- 6 per cent. if the transfer is made to relatives up to the fourth degree, to persons related by direct affinity as well as to persons related by collateral affinity up to the third degree;

- 8 per cent in all other cases.

If the transfer is made in favour of persons with severe disabilities, the tax applies on the value of the entire inheritance or gift exceeding Euro 1,500,000.00 for each beneficiary.

Transfer tax

The transfer of the Notes is not subject to any transfer tax in Italy. The transfer deed may be subject to Italian registration tax as follows: (i) public deeds and notarized deeds executed in Italy are subject to fixed registration tax at a fixed amount of Euro 200.00; (ii) private deeds are subject to registration tax at a rate of Euro 200.00 due only in case of use or voluntary registration or if the so called *caso d'uso* or *enunciazione* occurs.

Stamp duty

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 ("**Decree 201**"), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries to their clients for the Notes deposited therewith. The stamp duty applies at the current rate of 0.2 per cent.; this stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the Notes held. The stamp duty can be no lower than Euro 34.20. If the client is not an individual, the stamp duty cannot be higher than Euro 14,000.00.

Wealth Tax on securities deposited abroad

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding the Notes outside the Italian territory are required to pay an additional tax the current rate of 0.2 per cent..

This tax is calculated on the market value of the Notes at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Tax monitoring

Pursuant to Italian Law Decree No. 167 of 28 June 1990, converted by Italian Law No. 227 of 4 August 1990, as amended, individuals resident in Italy who, during the fiscal year, hold (or are beneficial owners, as defined for anti-money laundering purposes, of) investments abroad or have financial activities abroad must, in certain circumstances, disclose the aforesaid and related transactions to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return).

This obligation does not exist in case the financial assets are given in administration or management to Italian banks, SIMs, fiduciary companies or other professional intermediaries, indicated in Article 1 of the mentioned Decree 167, or if one of such intermediaries intervenes, also as a counterpart, in their transfer, provided that income deriving from such financial assets is collected through the intervention of such an intermediary.

SUBSCRIPTION, SALE AND SELLING RESTRICTIONS

The Series Subscription Agreements

On or about the Issue Date of each Series of Notes, the Issuer, the relevant Subscribers and the Representative of the Noteholders will enter into a Series Subscription Agreement under the relevant Transaction pursuant to which, *inter alia*:

Each Series Subscription Agreement is subject to a number of conditions and may be terminated by the relevant Subscriber in certain circumstances prior to payment to the Issuer of the Issue Price for the Notes of the relevant Series.

The Junior Notes Conditions

Except for Junior Notes Conditions relating to the interest payable on the Junior Notes and the early redemption of the Junior Notes through the disposal of the Portfolio purchased in the context of the relevant Transaction following full redemption of the Rated Notes of the relevant Series, the Junior Notes Conditions are the same, *mutatis mutandis*, as the Rated Notes Conditions.

Under the Rated Notes Conditions and the Junior Notes Conditions, with reference to each Transaction, the obligations of the Issuer to make payment in respect of the relevant Class B Notes (if any) are subordinated to the obligations of the Issuer to make payments in respect of the relevant Class A Notes, the Other Issuer Creditors and the other creditors of the Issuer in accordance with the applicable Priority of Payments and the obligations of the Issuer to make payment in respect of the relevant Class J Notes are subordinated to the obligations of the Issuer to make payments in respect of the relevant Class B Notes (if any). Therefore, in case of losses by the Issuer, if the Issuer is not able to fulfil in full its obligations in respect of all its creditors, the Class J Noteholders and the Class B Noteholders of the relevant Series will be respectively the first and the second creditors to bear any shortfall.
