**This is the STS Term Master Checklist for STS Term Verifications.**

**This STS Term Checklist must be read together with the PCS Procedures Manual and the PCS Term Evidentiary Standards Manual. This document is based upon the materials received by PCS as at the date of this document. Any references in this document are to the Prospectus unless otherwise stated.**

**PCS comments in this STS Term Master Checklist are based on PCS' interpretation of the STS Regulation (the "Regulation") informed by (a) the text of the Regulation itself, (b) the EBA guidelines and recommendations issued in accordance with Article 19(2) of the Regulation (the "EBA Guidelines") and (c) any relevant national competent authorities' interpretation of the STS criteria to the extent known to PCS.**

**It is important that the reader of this checklist reviews and understands the disclaimer referred to on the following page.**

**31<sup>st</sup> July 2020**

## STS Disclaimer

Neither an STS Verification, nor a CRR Assessment, nor an LCR Assessment is a recommendation to buy, sell or hold securities. None are investment advice whether generally or as defined under Markets in Financial Instruments Directive (2004/39/EC) and none are a credit rating whether generally or as defined under the Credit Rating Agency Regulation (1060/2009/EC).

PCS UK and PCS EU are authorised respectively by the UK Financial Conduct Authority and the French *Autorité des Marchés Financiers* as third parties verifying STS compliance pursuant to article 28 of the Regulation (EU) 2017/2402 of the European Parliament and of the Council of 12 December 2017 (the "**STS Regulation**").

Neither CRR Assessments or LCR Assessments are endorsed or regulated by any regulatory and/or supervisory authority nor, other than as set out above, are the PCS Association or either of its subsidiaries, PCS UK and PCS EU, regulated by any regulator and/or supervisory authority including the Belgian Financial Services and Markets Authority, the United Kingdom Financial Conduct Authority, the French *Autorité des Marchés Financiers* or the European Securities and Markets Authority.

By assessing the STS or CRR status of any securities or financing, neither the PCS Association nor PCS UK nor PCS EU express any views about the creditworthiness of these securities or financings or their suitability for any existing or potential investor or as to whether there will be a ready, liquid market for these securities or financings.

Equally, by completing (either positively or negatively) any STS or CRR status assessment of certain instruments, no statement of any kind is made as to the value or price of these instruments or the appropriateness of the interest rate they carry (if any).

In the provision of any STS Verification or CRR Assessment or LCR Assessment, PCS has based its decision on information provided directly and indirectly by the originator or sponsor of the relevant securitisation. Specifically, it has relied on statements made in the relevant prospectus or deal sheet, documentation and/or in certificates provided by, or on behalf of, the originator or sponsor in accordance with PCS' published procedures for the relevant PCS verification or assessment. You should make yourself familiar with these procedures to understand fully how any PCS service is completed. These can be found in the PCS website [www.pcsmarket.org](http://www.pcsmarket.org) (the "**PCS Website**"). Neither the PCS Association nor PCS UK nor PCS EU undertake their own direct verification of the underlying facts stated in the prospectus, deal sheet, documentation or certificates for the relevant instruments and the completion of any STS Verification or CRR Assessment or LCR Assessment is not a confirmation or implication that the information provided to it by or on behalf of the originator or sponsor is accurate or complete.

The PCS entities take reasonable measures to ensure the quality and accuracy of the information on the PCS Website. However, neither the PCS Association nor PCS UK nor PCS EU can be held liable in any way for the inaccuracy or incompleteness of any information that is available on or through the PCS Website. In addition, neither the PCS Association nor PCS UK nor PCS EU can in any way be held liable or responsible for the content of any other website linked to the PCS Website.

To understand the meaning and limitations of any STS Verification you must read the General Disclaimer that appears on the PCS Website.

When entering any of the "Transaction" sections of the PCS Website, you will be asked to declare that you are allowed to do so under the legislation of your country. The circulation and distribution of information regarding securitisation instruments (including securities) that is available on the PCS Website may be restricted in certain jurisdictions. Persons receiving any information or documents with respect to or in connection with instruments (including securities) available on the PCS Website are required to inform themselves of and to observe all applicable restrictions.

## Prime Collateralised Securities (PCS) STS Verification

Individual(s) undertaking the assessment	Robert Leach
Date of Verification	31 July 2020
<b>The transaction to be verified (the “Transaction”)</b>	<b>ECONOMIC MASTER ISSUER PLC, Issue of Series 2020-1, Class A1 and A2</b>
Issuer	ECONOMIC MASTER ISSUER PLC
Originator	Coventry Building Society
Lead Manager(s)	HSBC Bank plc, Lloyds Bank Corporate Markets plc
Transaction Legal Counsel	Dentons UK and Middle East LLP
Rating Agencies	Fitch, Moody’s
Stock Exchange	London Stock Exchange
Closing Date	31 July 2020

**PCS confirms that all checklist points have been verified as detailed in the associated comment box in the checklist below.**

**A summary of the checklist points by article is set out in the table on the next page together with a reference to summary headings of the respective article contents. To examine a specific article section from the list below in further detail, please click on the article description in the table below to be taken directly to the relevant section of the detailed checklist.**

Article	Summary of article contents	Checklist Points	
<b>Article 20 – Simplicity</b>			
20(1)	<a href="#">True sale</a>	1, 2	✓
20(2)	<a href="#">Severe clawback (part 1)</a>	2	✓
20(3)	<a href="#">Severe clawback (part 2)</a>	2	✓

<b>Article 20 - Requirements relating to simplicity</b>		
<p>20.1. The title to the underlying exposures shall be acquired by the SSPE by means of a true sale or assignment or transfer with the same legal effect in a manner that is enforceable against the seller or any other third party. The transfer of the title to the SSPE shall not be subject to severe clawback provisions in the event of the seller's insolvency.</p>		
<b>STS criteria</b>		
<p>1. The title to the underlying exposures shall be acquired by the SSPE by means of a true sale or assignment or transfer with the same legal effect in a manner that is enforceable against the seller or any other third party.</p>		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<p>See Prospectus, <i>RISK FACTORS</i>.</p> <p>LEGAL AND REGULATORY RISKS RELATING TO THE STRUCTURE AND THE NOTES</p> <p>The Seller will initially retain legal title to the Mortgage Loans</p> <p>The sale of the English Mortgage Loans and their Related Security to the Issuer (until transfer of legal title) will take effect in equity only. The sale of the Scottish Mortgage Loans and their Related Security to the Issuer will be given effect by Scottish Declarations of Trust by the Seller. In each case, this means that legal title to the Mortgage Loans and their Related Security will remain with the Seller until such time as certain additional steps have been taken including the giving of notices of the sale to the Borrowers and, in the case of Scottish Mortgage Loans, the granting, delivery and registration of assignments of standard securities. In addition, it may not be possible for there to be a legal assignment or assignment of the benefit of those Insurance Policies in relation to which the Issuer has acquired only an equitable interest or interest as beneficiary under a Scottish Declaration of Trust.</p> <p>See Prospectus, <i>ASSIGNMENT OF THE MORTGAGE LOANS AND RELATED SECURITY</i>.</p> <p>Transfer of Title to the Mortgage Loans to the Issuer</p> <p>The English Mortgage Loans will be sold by the Seller to the Issuer by way of equitable assignment. The Scottish Mortgage Loans will be sold by the Seller to the Issuer by way of Scottish Declaration of Trust under which the beneficiary's interest in such trust will be vested in the Issuer. In relation to the Scottish Mortgage Loans, references in this document to a "sale" or "equitable assignment" of Mortgage Loans or Mortgage Loans having been "sold" are to be read as references to the making of such Scottish Declaration of Trust. Such beneficiary's interest (as opposed to the legal title) cannot be registered or recorded in HM Land Registry or the Registers of Scotland. As a result, legal title to the Mortgage Loans and their Related Security will remain with the Seller until legal assignments (in relation to English Mortgage Loans) or assignments (in relation to Scottish Mortgage Loans) are delivered by the Seller to the Issuer and notice of the sale is given by the Seller to the Borrowers. Legal assignment or assignment (as appropriate) of the Mortgage Loans and their Related Security (including, where appropriate, their registration or recording in the relevant property register) to the Issuer will be deferred and will only take place in the limited circumstances described below.</p> <p><i>"True sale" is not a legal concept but a rating agency creation.</i></p> <p><i>The essence of a "true sale" is that the property in the securitised assets has legally moved from the originator/seller to the SSPE in such a way that the SSPE's ownership will be recognised as a matter of law, including and especially in the case of the insolvency of the originator/seller. In a "true sale" the insolvency officer and creditors of the insolvent originator/seller are not able to satisfy the claims of the originator/seller's creditor out of the proceeds of the securitised assets. Following a "true sale" there is no legal device by which the assets can automatically revert to the originator/seller's ownership. Such automatic reversion is associated with security interests and anathema to a "true sale".</i></p> <p><i>This is clearly stated in the wording of the Regulation (20.1). The expression "transfer to the same effect" indicates that, as long as the conditions in the preceding paragraph are met, the Regulation does not seek to limit the type of legal devices which can be used to effect such transfer of title.</i></p> <p><i>The issue of "true sale" is separate from the issue of "clawback". "Clawback" refers to legal processes through which, in the insolvency of the seller of an asset, an insolvency officer is entitled to reverse the sale – even in cases where a "true sale" has taken place.</i></p> <p><i>All European jurisdictions, to PCS' knowledge, have rules allowing for clawbacks. Clawbacks are usually rules to avoid a company heading towards insolvency from "defrauding" its existing creditors either by selling assets at very low prices (to friends and relations) or unfairly preferring certain creditors over others.</i></p>		

The Regulation (20.1) therefore does not require STS “true sales” to be clawback proof since this would mean that no European securitisation could ever be STS. It does require the sale not to be subject to “severe clawback”. The Regulation does not define “severe clawback” but gives an example (20.2) where a clawback happens for no reasons. The Regulation (20.3) also explicitly excludes from the definition of “severe clawback” the traditional European basis for such devices which all come under the general category of “preferences”.

PCS further notes that the examples (20.2 and 20.3) refer to the insolvency law of a jurisdiction and therefore believes that clawback risk is to be assessed on a jurisdictional basis rather than on a transactional basis. Finally, PCS does not believe and nor is there any evidence that the legislators or regulatory authorities are seeking to craft a higher standard than that which has been used for decades by the market and was the basis for the legislative text.

Based on the above considerations, PCS believes that transfers from jurisdictions meeting the following criteria – absent any other indications – shall not fall within the definition of “severe clawback”:

- Clawback requires an unfair preference “defrauding” creditors;
- Clawback puts the burden of proof on the insolvency officer or creditors – in other words it cannot be automatic nor require the purchaser to prove their innocence.

Since “severe clawback” is a jurisdictional concept, in analysing this issue PCS will therefore first seek to determine the Originator’s jurisdiction for the purposes of insolvency law. This would be its centre of main interest or “COMI”.

The second step would be to determine whether the relevant COMI contains severe claw back provisions in its insolvency legislation. Although the determination of a COMI can be a technically fraught analysis of international conflicts of law, PCS notes that in the vast majority of securitisations there is no real issue as the COMI is self-evident.

In the case of the Transaction, title to the assets is transferred by means of an equitable or beneficial assignment.

The legal opinions from Dentons UK and Middle East LLP confirm that an equitable assignment and a Scottish assignment of the beneficial interest meets the definition of “true sale” outlined above.

In the case of Coventry Building Society, a building society situated in the United Kingdom, the COMI is considered the United Kingdom. United Kingdom insolvency law provides for clawback in the cases of preferences and transactions at an undervalue and require the insolvency officer to prove that case. Therefore, and as confirmed by the Opinions, the transfer is not, in our opinion, subject to “severe clawback”.

#### **EBA Final non-ABCP STS Guidelines – statements on *background and rationale***

##### **True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))**

16. The criterion specified in Article 20(1) aims to ensure that the underlying exposures are beyond the reach of, and are effectively ring-fenced and segregated from, the seller, its creditors and its liquidators, including in the event of the seller’s insolvency, enabling an effective recourse to the ultimate claims for the underlying exposures.

22. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:

- (a) how to substantiate the confidence of third parties with respect to compliance with Article 20(1): it is understood that this should be achieved by providing a legal opinion. While the guidance does not explicitly require the provision of a legal opinion in all cases, the guidance expects a legal opinion to be provided as a general rule, and omission to be an exception;
- (b) the triggers to effect the perfection of the transfer if assignments are perfected at a later stage than at the closing of the transaction.

#### **EBA Final non-ABCP STS Guidelines**

##### **4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))**

###### ***True sale, assignment or transfer with the same legal effect***

10. For the purposes of Article 20(1) of Regulation (EU) 2017/2402 and in order to substantiate the confidence of third parties, including third parties verifying simple, transparent and standardised (STS) compliance in accordance with Article 28 of that Regulation and competent authorities meeting the requirements specified therein, all of the following should be provided:

- (a) confirmation of the true sale or confirmation that, under the applicable national framework, the assignment or transfer segregate the underlying exposures from the seller, its creditors and its liquidators, including in the event of the seller’s insolvency, with the same legal effect as that achieved by means of true sale;
- (b) confirmation of the enforceability of the true sale, assignment or transfer with the same legal effect referred to in point (a) against the seller or any other third party, under the applicable national legal framework;
- (c) assessment of clawback risks and re-characterisation risks

11. The confirmation of the aspects referred to in paragraph 10 should be achieved by the provision of a legal opinion provided by qualified external legal counsel, except in the case of repeat issuances in standalone securitisation structures or master trusts that use the same legal mechanism for the transfer, including instances in which the legal framework is the same.

12. The legal opinion referred to in paragraph 11 should be accessible and made available to any relevant third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402 and any relevant competent authority from among those referred to in Article 29 of that regulation.

<b>Article 20 - Requirements relating to simplicity</b>		
<p>20.2. For the purpose of paragraph 1, any of the following shall constitute severe clawback provisions:</p> <p>(a) provisions which allow the liquidator of the seller to invalidate the sale of the underlying exposures solely on the basis that it was concluded within a certain period before the declaration of the seller's insolvency;</p> <p>(b) provisions where the SSPE can only prevent the invalidation referred to in point (a) if it can prove that it was not aware of the insolvency of the seller at the time of sale.</p>		
<b>STS criteria</b>		
<b>Verified?</b>	<b>Yes</b>	
<b>PCS Comment</b>		
<i>Neither provision applies as COMI is UK.</i>		
<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		
<b>True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))</b>		
<p>17. The criterion in Article 20(2) is designed to ensure the enforceability of the transfer of legal title in the event of the seller's insolvency. More specifically, if the underlying exposures sold to the SSPE could be reclaimed for the sole reason that their transfer was effected within a certain period before the seller's insolvency, or if the SSPE could prevent the reclaim only by proving that it was unaware of the seller's insolvency at the time of transfer, such clauses would expose investors to a high risk that the underlying exposures would not effectively back their contractual claims. For this reason, Article 20(2) specifies that such clauses constitute severe clawback provisions, which may not be contained in STS securitisation.</p>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))</b>		
<b><i>True sale, assignment or transfer with the same legal effect</i></b>

(c) assessment of clawback risks and re-characterisation risks.		
11. The confirmation of the aspects referred to in paragraph 10 should be achieved by the provision of a legal opinion provided by qualified external legal counsel, except in the case of repeat issuances in standalone securitisation structures or master trusts that use the same legal mechanism for the transfer, including instances in which the legal framework is the same.		
12. The legal opinion referred to in paragraph 11 should be accessible and made available to any relevant third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402 and any relevant competent authority from among those referred to in Article 29 of that regulation.

<b>Article 20 - Requirements relating to simplicity</b>		
<p>20.5. Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the transaction, the triggers to affect such perfection shall, at least include the following events:</p> <p>(a) severe deterioration in the seller credit quality standing;</p> <p>(b) insolvency of the seller; and</p> <p>(c) unremedied breaches of contractual obligations by the seller, including the seller's default.</p>		
<b>STS criteria</b>		
<p>4. Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the transaction, the triggers to effect such perfection shall, at least include the following events:</p> <p>(a) severe deterioration in the seller credit quality standing;</p> <p>(b) insolvency of the seller; and</p> <p>(c) unremedied breaches of contractual obligations by the seller, including the seller's default.</p>		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<p>See Prospectus, <i>NON RATING TRIGGERS TABLE</i>.</p> <p>Perfection Trigger Event</p> <p>(a) delivery of an Enforcement Notice;</p> <p>(b) Insolvency Event in relation to the Seller;</p> <p>(c) a breach of obligations by the Seller (or the Servicer on behalf of the Seller) under the Transaction Documents where (i) the failure, if capable of remedy, has not been remedied within 90 calendar days, and (ii) any of the Rating Agenceis then rating the Notes has confirmed that the then current ratings of the Notes will be withdrawn, downgraded or qualified as a result of such breach, provided that no Perfection Trigger Event Shall occur under this paragraph (c) if the Seller has delivered a certificate to the Note Trustee and the Security Trustee that the occurrence of such event will not result in the loss of the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the Securitisation Regulation) in respect of any Series or Class of Notes then outstanding which are intended to satisfy the STS Requirements. The Seller may amend this paragraph (c) so long as the Seller delivers a certificate to the Note Trustee and the Security Trustee that such amendment does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the EU Securitisation Regulation) in respect of any Series or Class of Notes then outstanding which are intended to satisfy the STS Requirements;</p> <p>(d) (with certain caveats) termination of the Seller's role as Servicer under the Servicing Agreement;</p> <p>(e) the Seller and/or the Issuer being required to perfect legal title to the Mortgage Loans by an order of a court of competent jurisdiction, a change in law occurring after the Programme Date, or by a regulatory authority of which the Seller is a member or any organisation whose members comprise (but are not necessarily limited to) mortgage lenders with whose instructions it is customary for the Seller to comply;</p> <p>(f) the Security created under or pursuant to the Deed of Charge or any material part of that security being, in the opinion of the Security Trustee, in jeopardy; and</p> <p>(g) if the Seller determines, as at any date, that its CET1 Ratio has fallen below 6.00%.</p> <p>See Prospectus, <i>GLOSSARY</i>.</p> <p>Insolvency Event</p> <p><i>Criterion 4 requires two steps:</i></p> <ul style="list-style-type: none"> <li>• <i>To determine whether the transfer of the assets is by means of an unperfected assignment; and</i></li> <li>• <i>If it is, whether the transaction contains the requisite triggers.</i></li> </ul>		

*In the absence of any definition of “an assignment perfected at a later stage” in the Regulation or the EBA Guidelines and without additional views from the UK Financial Conduct Authority it is not possible to determine with finality whether an English equitable assignment is “unperfected” within the meaning of the Regulation – as distinguished from the meaning of the English rules of equity. PCS believes there are good reasons why the Regulation’s term of “an assignment perfected at a later stage” does not encompass an English equitable assignment.*

*However, this is not a question that is required to be answered in the case of the Transaction since, even if equitable assignments are unperfected assignments as defined in the Regulation, the requirements of the criterion are met by the Transaction.*

*PCS has measured the trigger events against the EBA Guidelines.*

*20.5(a)*

*No absolute definition of “severe deterioration” can be given, but clearly the Regulation is seeking to avoid requiring a “hair trigger” deterioration. In other words, an originator could provide a “hair trigger” deterioration if it wanted to. Therefore, the rule does not require an originator or investor to weigh carefully the severity of the trigger so long as it meets the requirements of the EBA Guidelines to be related to the seller’s credit standing, be observable and related to financial health.*

*The trigger provided in the Transaction meets these requirements.*

*20.5(b)*

*The insolvency trigger is in the Transaction.*

*20.5(c)*

*The Regulation refers to “unremedied breaches of contractual obligations by the seller, including the seller’s default”.*

*PCS notes that neither the Regulation nor the EBA Guidelines specify which contractual obligations are targeted. One can assume that this cannot possibly mean any seller contractual obligation since most financial institutions have millions of contractual obligations under tens of thousands of contracts. It is not conceivable that, in order to protect a securitisation, a transfer could be required resulting from a trivial breach of a totally unrelated contractual provision (e.g. to keep the walls painted on a leased property unconnected to the transaction).*

*PCS also notes that the Regulation clearly does not say “any breaches of contractual obligations”. Therefore, the Regulation must be aiming at an undefined sub-set of contractual obligations. In the absence of any indication in the Regulation or EBA Guidelines as to what this sub-set may be, PCS concludes, until clarification may be provided, that it is up to the originator to define which sub-set of obligations should trigger a possible perfection.*

*PCS does believe though that the Regulation must be interpreted in a purposive manner – as evidenced by the EBA Guidelines. Therefore, the sub-set of obligations selected by the originator cannot be capricious but should have some connection with the risks that would be run by investors if the seller should encounter a problem prior to perfection of the title.*

*The unremedied breach trigger is in the Transaction.*

**EBA Final non-ABCP STS Guidelines – statements on *background and rationale***

**True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))**

20. The objective of the criterion in Article 20(5) is to minimise legal risks related to unperfected transfers in the context of an assignment of the underlying exposures, by specifying a minimum set of events subsequent to closing that should trigger the perfection of the transfer of the underlying exposures.

22. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:

(a) how to substantiate the confidence of third parties with respect to compliance with Article 20(1): it is understood that this should be achieved by providing a legal opinion. While the guidance does not explicitly require the provision of a legal opinion in all cases, the guidance expects a legal opinion to be provided as a general rule, and omission to be an exception;

(b) the triggers to effect the perfection of the transfer if assignments are perfected at a later stage than at the closing of the transaction.

**EBA Final non-ABCP STS Guidelines**

**4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))**

***Severe deterioration in the seller credit quality standing***

13. For the purposes of Article 20(5) of Regulation (EU) 2017/2402, the transaction documentation should identify, with regard to the trigger of ‘severe deterioration in the seller credit quality standing’, credit quality thresholds that are objectively observable and related to the financial health of the seller.

***Insolvency of the seller***

14. For the purposes of Article 20(5) of Regulation (EU) 2017/2402, the trigger of ‘insolvency of the seller’ should refer, at least, to events of legal insolvency as defined in national legal frameworks.

<b>5</b>	<b>Legislative text</b>		<a href="#">BACK TO TABLE OF CONTENTS</a>
	<b>Article 20 - Requirements relating to simplicity</b>		
	20.6. The seller shall provide representations and warranties that, to the best of its knowledge, the underlying exposures included in the securitisation are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect.		
	STS criteria		
	5. The seller shall provide representations and warranties that, to the best of its knowledge, the underlying exposures included in the securitisation are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect.		
	<b>Verified?</b>		<b>Yes</b>

<p>See Prospectus, <i>OVERVIEW OF MORTGAGE PORTFOLIO AND SERVICING</i>.</p> <p>Repurchase of the Mortgage Loans</p> <p>The Seller may also, in accordance with the terms of the Transaction Documents and the Conditions, offer to repurchase Mortgage Loans and their Related Security:</p> <p>(a) in order to effect any permitted redemption of any Notes; and</p> <p>(b) where such Mortgage Loans are at least two months in arrears,</p> <p>provided, in each case, that the Mortgage Portfolio will continue to meet the Portfolio Criteria immediately following such repurchase.</p> <p>Consideration for Repurchase</p> <p>Consideration payable by the Seller in respect of the repurchase of the Mortgage Loans will be an amount (not less than zero) equal to the Current Balance thereof as at the date of completion of such repurchase.</p> <p>See Prospectus, <i>ASSIGNMENT OF THE MORTGAGE LOANS AND RELATED SECURITY</i>.</p> <p>General ability to repurchase</p> <p>In order to effect any permitted redemption of any Notes in accordance with the terms of the Transaction Documents and the Conditions, the Seller may from time to time offer to repurchase:</p> <p>(a) randomly selected Mortgage Loans and their Related Security from the Issuer for a purchase price equal to the Current Balance of the relevant Mortgage Loans; and</p> <p>(b) any Mortgage Loan and its Related Security where such Mortgage Loan is at least two months in arrears,</p> <p>provided, in each case, that the Mortgage Portfolio will continue to meet the Portfolio Criteria immediately following such repurchase. The Issuer will be required to accept any such offer.</p> <p>Repurchase price</p> <p>The repurchase price payable for each Mortgage Loan repurchased by the Seller in accordance with the Mortgage Sale Agreement is an amount (not less than zero) equal to the Current Balance thereof as at the date of completion of such repurchase. The repurchase proceeds received by the Issuer will be applied (i) as Principal Receipts in accordance with the relevant Pre-Enforcement Principal Priority of Payments or, (ii) in the case of Accrued Interest and Arrears of Interest, as Revenue Receipts and in accordance with the Pre-Enforcement Revenue Priority of Payments (see "Credit Structure and Cashflows"), or (iii) in relation to repurchases made in accordance with the Seller's Note Permitted Repurchase Procedure, to make repayments on the Seller's Note.</p> <p>Repurchase of the Mortgage Loans</p> <p>The Seller's rights and obligations to sell Mortgage Loans and their Related Security to the Issuer and/or repurchase Mortgage Loans and their Related Security from the Issuer pursuant to the Mortgage Sale Agreement, do not constitute active portfolio management for the purposes of Article 20(7) of the Securitisation Regulation.</p> <p>See Prospectus, <i>GLOSSARY</i>.</p>		

**"Seller's Note Permitted Repurchase Procedure"**

The procedure pursuant to which the Seller may, at any time, give written notice to the Issuer that the Seller intends to repurchase the Mortgage Loans (selected at random by the Servicer) with an aggregate Current Balance less than or equal to the Seller's Note Permitted Principal Repayment Amount. The Issuer shall apply the proceeds of such repurchase exclusively towards redemption of the Principal Amount Outstanding of the Seller's Note (provided that the Principal Amount Outstanding of the Seller's Note may not, after such repurchase and reduction, be less than the Minimum Seller's Note Amount).

*The EBA Guidelines set out seven devices to repurchase securitised assets which are not to be considered indicative of "active portfolio management". To the extent that a transaction only contains some or all of those seven devices and does not provide any other form of repurchase, then the STS criterion will be met.*

*If the transaction should contain a repurchase device that is not included in the EBA's list, then an analysis will need to be conducted as to whether this additional device offends against the principles set out in the EBA Guidelines (15.a and b) as defining "active portfolio management".*

**EBA Final non-ABCP STS Guidelines – statements on *background and rationale***

**Eligibility criteria for the underlying exposures, active portfolio management (Article 20(7))**

24. Consistently with this objective, the active portfolio management of the exposures in the securitisation should be prohibited, given that it adds a layer of complexity and increases the agency risk arising in the securitisation by making the securitisation's performance dependent on both the performance of the underlying exposures and the performance of the management of the transaction. The payments of STS securitisations should depend exclusively on the performance of the underlying exposures.

**EBA Final non-ABCP STS Guidelines**

**4.2 Eligibility criteria for the underlying exposures, active portfolio management (Article 20(7))**

***Active portfolio management***

15. For the purposes of Article 20(7) of Regulation (EU) 2017/2402, active portfolio management should be understood as portfolio management to which either of the following applies:

- (a) the portfolio management makes the performance of the securitisation dependent both on the performance of the underlying exposures and on the performance of the portfolio management of the securitisation, thereby preventing the investor from modelling the credit risk of the underlying exposures without considering the portfolio management strategy of the portfolio manager;
- (b) the portfolio management is performed for speculative purposes aiming to achieve better performance, increased yield, overall financial returns or other purely financial or economic benefit.

16. The techniques of portfolio management that should not be considered active portfolio management include:

- (a) substitution or repurchase of underlying exposures due to the breach of representations or warranties;
- (b) substitution or repurchase of the underlying exposures that are subject to regulatory dispute or investigation to facilitate the resolution of the dispute or the end of the investigation;
- (c) replenishment of underlying exposures by adding underlying exposures as substitutes for amortised or defaulted exposures during the revolving period;
- (d) acquisition of new underlying exposures during the 'ramp up' period to line up the value of the underlying exposures with the value of the securitisation obligation(e) repurchase of underlying exposures in the context of the exercise of clean-up call options, in accordance with Article 244(3)(g) of Regulation (EU) 2017/2401;
- (f) repurchase of defaulted exposures to facilitate the recovery and liquidation process with respect to those exposures;
- (g) repurchase of underlying exposures under the repurchase obligation in accordance with Article 20(13) of Regulation (EU) 2017/2402.

<b>Eligibility criteria for the underlying exposures, active portfolio management (Article 20.7)</b>		
<p>25. Revolving periods and other structural mechanisms resulting in the inclusion of exposures in the securitisation after the closing of the transaction may introduce the risk that exposures of lesser quality can be transferred into the pool. For this reason, it should be ensured that any exposure transferred into the securitisation after the closing meets the eligibility criteria, which are no less strict than those used to structure the initial pool of the securitisation.</p> <p>26. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:</p> <p>(a) the purpose of the requirement on the portfolio management, and the provision of examples of techniques which should not be regarded as active portfolio management: this criterion should be considered without prejudice to the existing requirements with respect to the similarity of the underwriting standards in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, which requires that all the underlying exposures in a securitisation be underwritten according to similar underwriting standards;</p> <p>(b) interpretation of the term 'clear' eligibility criteria;</p> <p>(c) clarification with respect to the eligibility criteria that need to be met with respect to the exposures transferred to the SSPE after the closing.</p>		
EBA Final non-ABCP STS Guidelines		
4.2 Eligibility criteria for the underlying exposures, active portfolio management (Article 20.7)		
<i>Eligibility criteria to be met for exposures transferred to the SSPE after the closing of the transaction</i>		

18. For the purposes of Article 20(7) of Regulation (EU) 2017/2402, 'meeting the eligibility criteria applied to the initial underlying exposures' should be understood to mean eligibility criteria that comply with either of the following:

(a) with regard to normal securitisations, they are no less strict than the eligibility criteria applied to the initial underlying exposures at the closing of the transaction;

(b) with regard to securitisations that issue multiple series of securities including master trusts, they are no less strict than the eligibility criteria applied to the initial underlying exposures at the most recent issuance, with the results that the eligibility criteria may vary from closing to closing, with the agreement of securitisation parties and in accordance with the transaction documentation.

19. Eligibility criteria to be applied to the underlying exposures in accordance with paragraph 18 should be specified in the transaction documentation and should refer to eligibility criteria applied at exposure level.

9	<b>Legislative text</b>	<a href="#">BACK TO TABLE OF CONTENTS</a>
<b>Article 20 - Requirements relating to simplicity</b>		
<p>20.8. The securitisation shall be backed by a pool of underlying exposures that are homogeneous in terms of asset type, taking into account the specific characteristics relating to the cash flows of the asset type including their contractual, credit risk and prepayment characteristics. 	<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		
	<b>No resecuritisation (Article 20(9))</b>		
31. The objective of this criterion is to prohibit resecuritisation subject to derogations for certain cases or for resecuritisation as specified in Regulation (EU) 2017/2402. This is a lesson learnt from the financial crisis, when resecuritisations were structured into highly leveraged structures in which notes of lower credit quality could be re-packaged and credit enhanced, resulting in transactions whereby small changes in the credit performance of the underlying assets had severe impacts on the credit quality of the resecuritisation bonds. The modelling of the credit risk arising in these bonds proved very difficult, also due to high levels of correlations arising in the resulting structures.			
32. The criterion is deemed sufficiently clear and does not require any further clarification.			
<b>EBA Final non-ABCP STS Guidelines</b>

<b>STS criteria</b>		
17. Pursuant to underwriting standards that are no less stringent than those that the originator or original lender applied at the time of origination to similar exposures that are not securitised.		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<i>See point 16 above.</i>		
<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		
<b>Underwriting standards (Article 20(10))</b>		
<p>37. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(a) the term 'similar exposures', with reference to requirements specified in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402;</p> <p>(b) the term 'no less stringent underwriting standards': independently of the guidance provided in these guidelines, it is understood that, in the spirit of restricting the 'originate-to-distribute' model of underwriting, where similar exposures exist on the originator's balance sheet, the underwriting standards that have been applied to the securitised exposures should also have been applied to similar exposures that have not been securitised, i.e. the underwriting standards should have been applied not solely to securitised exposures;</p>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>4.4 Underwriting standards, originator's expertise (Article 20(10))</b>		
<b><i>No less stringent underwriting standards</i></b>		
23. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, the underwriting standards applied to securitised exposures should be compared to the underwriting standards applied to similar exposures at the time of origination of the securitised exposures.		
24. Compliance with this requirement should not require either the originator or the original lender to hold similar exposures on its balance sheet at the time of the selection of the securitised exposures or at the exact time of their securitisation, nor should it require that similar exposures were actually originated at the time of origination of the securitised exposures.

<b>STS criteria</b>		
<p>18. The underwriting standards pursuant to which the underlying exposures are originated and any material changes from prior underwriting standards shall be fully disclosed to potential investors without undue delay.</p>		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<p>See Prospectus, <i>THE MORTGAGE LOANS AND THE MORTGAGE PORTFOLIO</i>.</p> <p><b>THE MORTGAGE LOANS</b></p> <p>Lending Criteria</p> <p>It should be noted that the Lending Criteria have changed over time and not all Mortgage Loans in the Mortgage Portfolio will have been originated under these terms. However, the lending criteria relevant to the origination of the Mortgage Loans in the Mortgage Portfolio were substantially similar to those set out below and any such changes over time have not affected the homogeneity (as determined in accordance with Article 20(8) of the Securitisation Regulation) of the loans comprising the Mortgage Portfolio. Any material change to the Lending Criteria after the date of this Base Prospectus which would affect the homogeneity (as determined in accordance with Article 20(8) of the Securitisation Regulation) of the loans comprising the Mortgage Portfolio or which would materially affect the overall credit risk or the expected average performance of the Mortgage Portfolio will (to the extent such change affects the Mortgage Loans included in the Mortgage Portfolio from time to time) be disclosed (along with an explanation of the rationale for such changes being made) to investors by the Seller without undue delay.</p> <p><i>Although somewhat confusingly drafted, the EBA Guidelines make clear that the part of the criterion referring to changes from prior underwriting is a future event criterion. It applies changes in underwriting criteria that occur post-closing. In other words, it cannot be either met or failed at the outset of the transaction. But if, at a later stage, it is not met, then the Originator will need to inform ESMA and the STS status of the securitisation will be lost.</i></p> <p><i>Therefore, as a technical matter, this criterion is not applicable at the closing of a transaction. However, PCS will nevertheless look to see if there is a covenant on the part of the originator to comply in the future with this requirement whilst noting at the same time that the absence of any such covenant – although possibly unsettling for some investors – would not invalidate the STS status of the transaction at closing.</i></p>		
<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>		
<b>Underwriting standards (Article 20(10))</b>		
<p>37 (c) clarification of the requirement to disclose material changes from prior underwriting standards to potential investors without undue delay: the guidance clarifies that this requirement should be forward-looking only, referring to material changes to the underwriting standards after the closing of the securitisation. The guidance clarifies the interactions with the requirement for similarity of the underwriting standards set out in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, which requires that all the underlying exposures in securitisation be underwritten according to similar underwriting standards;</p>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>4.4 Underwriting standards, originator's expertise (Article 20(10))</b>		
<b>Disclosure of material changes from prior underwriting standards</b>		
<p>25. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, material changes to the underwriting standards that are required to be fully disclosed should be understood to be those material changes to the underwriting standards that are applied to the exposures that are transferred to, or assigned by, the SSPE after the closing of the securitisation in the context of portfolio management as referred to in paragraphs 15 and 16.</p>		
<p>26. Changes to such underwriting standards should be deemed material where they refer to either of the following types of changes to the underwriting standards:</p>		

(a) changes which affect the requirement of the similarity of the underwriting standards further specified in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402;

(b) changes which materially affect the overall credit risk or expected average performance of the portfolio of underlying exposures without resulting in substantially different approaches to the assessment of the credit risk associated with the underlying exposures.

27. The disclosure of all changes to underwriting standards should include an explanation of the purpose of such changes.

28. With regard to trade receivables that are not originated in the form of a loan, reference to underwriting standards in Article 20(10) should be understood to refer to credit standards applied by the seller to short-term credit generally of the type giving rise to the securitised exposures and proposed to its customers in relation to the sales of its products and services.

<p>21. The originator or original lender shall have expertise in originating exposures of a similar nature to those securitised.</p>		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<p>See Prospectus, THE SELLER, THE SERVICER, THE CASH MANAGER, THE FIRST ACCOUNT BANK AND THE VFN REGISTRAR. COVENTRY BUILDING SOCIETY</p> <p>The Society has significantly more than 5 years' experience in the origination, underwriting and servicing of mortgage loans similar to those to be included in the Mortgage Portfolio.</p>		
<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		
<b>Underwriting standards (Article 20(10))</b>		
<p>36. The objective of the criterion specified in the fourth subparagraph of Article 20(10) is for the originator or original lender to have an established performance history of credit claims or receivables similar to those being securitised, and for an appropriately long period of time.</p>		
<p>37 (f) identification of criteria on which the expertise of the originator or the original lender should be determined:</p>		
<p>(i) when assessing if the originator or the original lender has the required expertise, some general principles should be set out against which the expertise should be assessed. The general principles have been designed to allow a robust qualitative assessment of the expertise. One of these principles is the regulatory authorisation: this is to allow for more flexibility in such qualitative assessments of the expertise if the originator or the original lender is a prudentially regulated institution which holds regulatory authorisations or permissions that are relevant with respect to origination of similar exposures. The regulatory authorisation in itself should, however, not be a guarantee that the originator or original lender has the required expertise;</p>		
<p>(ii) irrespective of such general principles, specific criteria should be developed, based on specifying a minimum period for an entity to perform the business of originating similar exposures, compliance with which would enable the entity to be considered to have a sufficient expertise. Such expertise should be assessed at the group level, so that possible restructuring at the entity level would not automatically lead to non-compliance with the expertise criterion. It is not the intention of such specific criteria to form an impediment to the entry of new participants to the market. Such entities should also be eligible for compliance with the expertise criterion, as long as their management body and senior staff with managerial responsibility for origination of similar exposures, have sufficient experience over a minimum specified period.</p>		
<p>38. It is expected that information on the assessment of the expertise is provided in sufficient detail in the STS notification.</p>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>4.4 Underwriting standards, originator's expertise (Article 20(10))</b>		
<b>Similar exposures</b>		
<p>22. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, exposures should be considered to be similar when one of the following conditions is met:</p>		
<p>(a) the exposures belong to one of the following asset categories referred to in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402:</p>		
<p>(i) residential loans secured with one or several mortgages on residential immovable property, or residential loans fully guaranteed by an eligible protection provider among those referred to in Article 201(1) of Regulation (EU) No 575/2013 qualifying for credit quality step 2 or above as set out in Part Three, Title II, Chapter 2 of that regulation;</p>		
<p>(ii) commercial loans secured with one or several mortgages on commercial immovable property or other commercial premises;</p>		
<p>(iii) credit facilities provided to individuals for personal, family or household consumption purposes;</p>		

- (iv) auto loans and leases;
- (v) credit card receivables;
- (vi) trade receivables;

(b) the exposures fall under the asset category of credit facilities provided to micro-, small-, medium-sized and other types of enterprises and corporates including loans and leases, as referred to in Article 2(d) of the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, as underlying exposures of a certain type of obligor;

(c) where they do not belong to any of the asset categories referred to in points (a) and (b) of this paragraph and as referred to in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous for the purposes of Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, the underlying exposures share similar characteristics with respect to the type of obligor, ranking of security rights, type of immovable property and/or jurisdiction.

*Criteria for determining the expertise of the originator or original lender*

34. For the purposes of determining whether an originator or original lender has expertise in originating exposures of a similar nature to those securitised in accordance with Article 20(10) of Regulation (EU) 2017/2402, both of the following should apply:

(a) the members of the management body of the originator or original lender and the senior staff, other than the members of the management body, responsible for managing the originating of exposures of a similar nature to those securitised should have adequate knowledge and skills in the origination of exposures of a similar nature to those securitised;

(b) any of the following principles on the quality of the expertise should be taken into account:

- (i) the role and duties of the members of the management body and the senior staff and the required capabilities should be adequate;
- (ii) the experience of the members of the management body and the senior staff gained in previous positions, education and training should be sufficient;
- (iii) the involvement of the members of the management body and the senior staff within the governance structure of the function of originating the exposures should be appropriate;
- (iv) in the case of a prudentially regulated entity, the regulatory authorisations or permissions held by the entity should be deemed relevant to origination of exposures of a similar nature to those securitised.

35. An originator or original lender should be deemed to have the required expertise when either of the following applies:

(a) the business of the entity, or of the consolidated group to which the entity belongs for accounting or prudential purposes, has included the originating of exposures similar to those securitised, for at least five years;

(b) where the requirement referred to in point (a) is not met, the originator or original lender should be deemed to have the required expertise where they comply with both of the following:

- (i) at least two of the members of the management body have relevant professional experience in the origination of exposures similar to those securitised, at a personal level, of at least five years;
- (ii) senior staff, other than members of the management body, who are responsible for managing the entity's originating of exposures similar to those securitised, have relevant professional experience in the origination of exposures of a similar nature to those securitised, at a personal level, of at least five years.

36. For the purposes of demonstrating the number of years of professional experience, the relevant expertise should be disclosed in sufficient detail and in accordance with the applicable confidentiality requirements to permit investors to carry out their obligations under Article 5(3)(c) of Regulation (EU) 2017/2402.

<b>PCS Comment</b>		
<p>See Prospectus, <i>ASSIGNMENT OF THE MORTGAGE LOANS AND RELATED SECURITY</i>.</p> <p>Representations and warranties</p> <p>(II) no Mortgage Loan is considered by the Seller as being in default within the meaning of Article 178(1) of Regulation (EU) No.575/2013 (the "CRR"), as further specified by the Delegated Regulation on the materiality threshold for credit obligations past due developed in accordance with Article 178 of the CRR and by the European Banking Authority Guidelines on the application of the definition of default developed in accordance with Article 178(7) of the CRR;</p> <p>See Prospectus, <i>THE MORTGAGE LOANS AND THE MORTGAGE PORTFOLIO</i>.</p> <p><b>THE MORTGAGE LOANS</b></p> <p>Other characteristics</p> <p>The Mortgage Loans do not include: (i) any Mortgage Loans that, at the time of origination, were marketed and underwritten on the premise that the Mortgage Loan applicant or, where applicable, intermediaries were made aware that the information provided by the Mortgage Loan applicant might not be verified by the Seller or an affiliate of the Seller; or (ii) at the time of selection for inclusion in the portfolio any exposures in default within the meaning of Article 178(1) of Regulation (EU) No 575/2013..</p>		
<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>		
<b>No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>		
<p>39. The objective of the criterion in Article 20(11) is to ensure that STS securitisations are not characterised by underlying exposures whose credit risk has already been affected by certain negative events such as disputes with credit-impaired debtors or guarantors, debt restructuring processes or default events as identified by the EU prudential regulation. Risk analysis and due diligence assessments by investors become more complex whenever the securitisation includes exposures subject to certain ongoing negative credit risk developments. For the same reasons, STS securitisations should not include underlying exposures to credit-impaired debtors or guarantors that have an adverse credit history. In addition, significant risk of default normally rises as rating grades or other scores are assigned that indicate highly speculative credit quality and high likelihood of default, i.e. the possibility that the debtor or guarantor is not able to meet its obligations becomes a real possibility. Such exposures to credit-impaired debtors or guarantors should therefore also not be eligible for STS purposes.</p> <p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(a) Interpretation of the term 'exposures in default': given the differences in interpretation of the term 'default', the interpretation of this criterion should refer to additional guidance on this term provided in the existing delegated regulations and guidelines developed by the EBA, while taking into account the limitation of scope of that additional guidance to certain types of institutions;</p>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>		
<b>Exposures in default</b>		
<p>37. For the purposes of the first subparagraph of Article 20(11) of Regulation (EU) 2017/2402, the exposures in default should be interpreted in the meaning of Article 178(1) of Regulation (EU) 575/2013, as further specified by the Delegated Regulation on the materiality threshold for credit obligations past due developed in accordance with Article 178 of that Regulation, and by the EBA Guidelines on the application of the definition of default developed in accordance with Article 178(7) of that regulation.</p>		

38. Where an originator or original lender is not an institution and is therefore not subject to Regulation (EU) 575/2013, the originator or original lender should comply with the guidance provided in the previous paragraph to the extent that such application is not deemed to be unduly burdensome. In that case, the originator or original lender should apply the established processes and the information obtained from debtors on origination of the exposures, information obtained from the originator in the course of its servicing of the exposures or in the course of its risk management procedure or information notified to the originator by a third party.

<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		
<b>No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>		
<p>39. The objective of the criterion in Article 20(11) is to ensure that STS securitisations are not characterised by underlying exposures whose credit risk has already been affected by certain negative events such as disputes with credit-impaired debtors or guarantors, debt-restructuring processes or default events as identified by the EU prudential regulation. Risk analysis and due diligence assessments by investors become more complex whenever the securitisation includes exposures subject to certain ongoing negative credit risk developments. For the same reasons, STS securitisations should not include underlying exposures to credit-impaired debtors or guarantors that have an adverse credit history. In addition, significant risk of default normally rises as rating grades or other scores are assigned that indicate highly speculative credit quality and high likelihood of default, i.e. the possibility that the debtor or guarantor is not able to meet its obligations becomes a real possibility. Such exposures to credit-impaired debtors or guarantors should therefore also not be eligible for STS purposes.</p> <p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(b) Interpretation of the term 'exposures to a credit-impaired debtor or guarantor': the interpretation should also take into account the interpretation provided in recital 26 of Regulation (EU) 2017/2402, according to which the circumstances specified in points (a) to (c) of Article 24(9) of that regulation are understood as specific situations of credit-impairedness to which exposures in the STS securitisation may not be exposed. Consequently, other possible circumstances of credit-impairedness that are not captured in points (a) to (c) should be outside the scope of this requirement. Moreover, taking into account the role of the guarantor as a risk bearer, it should be clarified that the requirement to exclude 'exposures to a credit-impaired debtor or guarantor' is not meant to exclude (i) exposures to a credit-impaired debtor when it has a guarantor that is not credit impaired; or (ii) exposures to a non-credit-impaired debtor when there is a credit-impaired guarantor;</p> <p>(c) Interpretation of the term 'to the best knowledge of': the interpretation should follow the wording of recital 26 of Regulation (EU) 2017/2402, according to which an originator or original lender is not required to take all legally possible steps to determine the debtor's credit status but is only required to take those steps that the originator/original lender usually takes within its activities in terms of origination, servicing, risk management and use of information that is received from third parties. This should not require the originator or original lender to check publicly available information, or to check entries in at least one credit registry where an originator or original lender does not conduct such checks within its regular activities in terms of origination, servicing, risk management and use of information received from third parties, but rather relies, for example, on other information that may include credit assessments provided by third parties. Such clarification is important because corporates that are not subject to EU financial sector regulation and that are acting as sellers with respect to STS securitisation may not always check entries in credit registries and, in line with the best knowledge standard, should not be obliged to perform additional checks at origination of any exposure for the purposes of later fulfilling this criterion in terms of any credit-impaired debtors or guarantors;</p>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>		
<b><i>Exposures to a credit-impaired debtor or guarantor</i></b>		
<p>39. For the purposes of Article 20(11) of Regulation (EU) 2017/2402, the circumstances specified in points (a) to (c) of that paragraph should be understood as definitions of credit-impairedness. Other possible circumstances of credit-impairedness that are not captured in points (a) to (c) should be considered to be excluded from this requirement.</p>		

40. The prohibition of the selection and transfer to SSPE of underlying exposures 'to a credit-impaired debtor or guarantor' as referred to in Article 20(11) of Regulation (EU) 2017/2402 should be understood as the requirement that, at the time of selection, there should be a recourse for the full securitised exposure amount to at least one non-credit-impaired party, irrespective of whether that party is a debtor or a guarantor. Therefore, the underlying exposures should not include either of the following:

- (a) exposures to a credit-impaired debtor, when there is no guarantor for the full securitised exposure amount;
- (b) exposures to a credit-impaired debtor who has a credit-impaired guarantor.

***To the best of the originator's or original lender's knowledge***

41. For the purposes of Article 20(11) of Regulation (EU) 2017/2402, the 'best knowledge' standard should be considered to be fulfilled on the basis of information obtained only from any of the following combinations of sources and circumstances:

- (a) debtors on origination of the exposures;
- (b) the originator in the course of its servicing of the exposures or in the course of its risk management procedures;
- (c) notifications to the originator by a third party;
- (d) publicly available information or information on any entries in one or more credit registries of persons with adverse credit history at the time of origination of an underlying exposure, only to the extent that this information had already been taken into account in the context of (a), (b) and (c), and in accordance with the applicable regulatory and supervisory requirements, including with respect to sound credit granting criteria as specified in Article 9 of Regulation (EU) 2017/2402. This is with the exception of trade receivables that are not originated in the form of a loan, with respect to which credit-granting criteria do not need to be met.

<b>STS criteria</b>		
26. Or has undergone a debt-restructuring process with regard to his non-performing exposures within three years prior to the date of transfer or assignment of the underlying exposures to the SSPE, except if:		
<b>Verified?</b>	<b>Yes</b>	
<b>PCS Comment</b>		
<i>See point 24 above.</i>		
<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		
<b>No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>		
<p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(d) Interpretation of the criterion with respect to the debtors and guarantors found on the credit registry: it is important to interpret this requirement in a narrow sense to ensure that the existence of a debtor or guarantor on the credit registry of persons with adverse credit history should not automatically exclude the exposure to that debtor/guarantor from compliance with this criterion. It is understood that this criterion should relate only to debtors and guarantors that are, at the time of origination of the exposure, considered entities with adverse credit history. Existence on a credit registry at the time of origination of the exposure for reasons that can be reasonably ignored for the purposes of the credit risk assessment (for example due to missed payments which have been resolved in the next two payment periods) should not be captured by this requirement. Therefore, this criterion should not automatically exclude from the STS framework exposures to all entities that are on the credit registries, taking into account that this would unintentionally exclude a significant number of entities given that different practices exist across EU jurisdictions with respect to entry requirements of such credit registries, and the fact that credit registries in some jurisdictions may contain both positive and negative information about the clients;</p>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>		
<b><i>Exposures to credit-impaired debtors or guarantors that have undergone a debt-restructuring process</i></b>		
42. For the purposes of Article 20(11)(a) of Regulation (EU) 2017/2402, the requirement to exclude exposures to credit-impaired debtors or guarantors who have undergone a debt-restructuring process with regard to their non-performing exposures should be understood to refer to both the restructured exposures of the respective debtor or guarantor and those of its exposures that were not themselves subject to restructuring. For the purposes of this Article, restructured exposures which meet the conditions of points (i) and (ii) of that Article should not result in a debtor or guarantor becoming designated as credit-impaired.

<b>Credit registry</b>		
<p>43. The requirement referred to in Article 20(11)(b) of Regulation (EU) 2017/2402 should be limited to exposures to debtors or guarantors to which both of the following requirements apply at the time of origination of the underlying exposure:</p> <ul style="list-style-type: none"> <li>(a) the debtor or guarantor is explicitly flagged in a credit registry as an entity with adverse credit history due to negative status or negative information stored in the credit registry;</li> <li>(b) the debtor or guarantor is on the credit registry for reasons that are relevant to the purposes of the credit risk assessment.</li> </ul>		

30	<b>Legislative text</b>	<a href="#">BACK TO TABLE OF CONTENTS</a>
<b>Article 20 - Requirements relating to simplicity</b>		
<p>20.11. The underlying exposures shall be transferred to the SSPE after selection without undue delay and shall not include, at the time of selection, exposures in default within the meaning of Article 178(1) of Regulation (EU) No 575/2013 or exposures to a credit-impaired debtor or guarantor, who, to the best of the originator's or original lender's knowledge:</p> <p>(a) has been declared insolvent or had a court grant his creditors a final non-appealable right of enforcement or material damages as a result of a missed payment within three years prior to the date of origination.</p> <p>or has undergone a debt-restructuring process with regard to his non-performing exposures within three years prior to the date of transfer or assignment of the underlying exposures to the SSPE, except if:</p> <p>(i) a restructured underlying exposure has not presented new arrears since the date of the restructuring which must have taken place at least one year prior to the date of transfer or assignment of the underlying exposures to the SSPE; and</p> <p>(ii) the information provided by the originator, sponsor and SSPE in accordance with points (a) and (e)(i) of the first subparagraph of Article 7(1) explicitly sets out the proportion of restructured underlying exposures, the time and details of the restructuring as well as their performance since the date of the restructuring;</p> <p>(b) was, at the time of origination, where applicable, on a public credit registry of persons with adverse credit history or, where there is no such public credit registry, another credit registry that is available to the originator or original lender;</p> <p>(c) has a credit assessment or a credit score indicating that the risk of contractually agreed payments not be made is significantly higher than for comparable exposures held by the originator which are not securitised.</p>		
<b>STS criteria</b>		
30. (c) has a credit assessment or a credit score indicating that the risk of contractually agreed payments not be made is significantly higher than for comparable exposures held by the originator which are not securitised.		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<i>See point 24 above.</i>		
<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>		
<b>No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>		
<p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(e) Interpretation of the term 'significantly higher risk of contractually agreed payments not being made for comparable exposures': the term should be interpreted with a similar meaning to the requirement aiming to prevent adverse selection of assets referred to in Article 6(2) of Regulation (EU) 2017/2402, and further specified in the Article 16(2) of the Delegated Regulation specifying in greater detail the risk retention requirement in accordance with Article 6(7) of Regulation (EU) 2017/24027, given that in both cases the requirement (i) aims to prevent adverse selection of underlying exposures and (ii) relates to the comparison of the credit quality of exposures transferred to the SSPE and comparable exposures that remain on the originator's balance sheet. To facilitate the interpretation, a list is given of examples of how to achieve compliance with the requirement.</p>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>		
<b><i>Risk of contractually agreed payments not being made being significantly higher than for comparable exposures</i></b>		
<p>44. For the purposes of Article 20(11)(c) of Regulation (EU) 2017/2402, the exposures should not be considered to have a 'credit assessment of a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than for comparable exposures held by the originator which are not securitised' when the following conditions apply:</p> <p>(a) the most relevant factors determining the expected performance of the underlying exposures are similar;</p>		

(b) as a result of the similarity referred to in point (a) it could reasonably have been expected, on the basis of indications such as past performance or applicable models, that, over the life of the transaction or over a maximum of four years, where the life of the transaction is longer than four years, their performance would not be significantly different.

45. The requirement in the previous paragraph should be considered to have been met where either of the following applies:

(a) the underlying exposures do not include exposures that are classified as doubtful, impaired, non-performing or classified to the similar effect under the relevant accounting principles;

(b) the underlying exposures do not include exposures whose credit quality, based on credit ratings or other credit quality thresholds, significantly differs from the credit quality of comparable exposures that the originator originates in the course of its standard lending operations and credit risk strategy.

31	<b>Legislative text</b>	<a href="#">BACK TO TABLE OF CONTENTS</a>
<b>Article 20 - Requirements relating to simplicity</b>		
20.12. The debtors shall at the time of transfer of the exposures, have made at least one payment, except in the case of revolving securitisations backed by exposures payable in a single instalment or having a maturity of less than one year, including without limitation monthly payments on revolving credits.		
<b>STS criteria</b>		
31. The debtors shall at the time of transfer of the exposures, have made at least one payment, except in the case of revolving securitisations backed by exposures payable in a single instalment or having a maturity of less than one year, including without limitation monthly payments on revolving credits.		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
See Prospectus, <i>ASSIGNMENT OF THE MORTGAGE LOANS AND RELATED SECURITY</i> . Representations and warranties (s) each Borrower has made at least one Monthly Payment;		
<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		
<b>At least one payment made (Article 20(12))</b>		
41. STS securitisations should minimise the extent to which investors are required to analyse and assess fraud and operational risk. At least one payment should therefore be made by each underlying borrower at the time of transfer, since this reduces the likelihood of the loan being subject to fraud or operational issues, unless in the case of revolving securitisations in which the distribution of securitised exposures is subject to constant changes because the securitisation relates to exposures payable in a single instalment or with an initial legal maturity of an exposure of below one year. 42. To facilitate consistent interpretation of this criterion, its scope and the types of payments referred to therein should be further clarified.		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>4.6 At least one payment made (Article 20(12))</b>		
<b>Scope of the criterion</b>		
46. For the purposes of Article 20(12) of Regulation (EU) 2017/2402, further advances in terms of an exposure to a certain borrower should not be deemed to trigger a new 'at least one payment' requirement with respect to such an exposure.		
<b>At least one payment</b>		
47. For the purposes of Article 20(12) of Regulation (EU) 2017/2402, the payment referred to in the requirement according to which 'at least one payment' should have been made at the time of transfer should be a rental, principal or interest payment or any other kind of payment.		

32	<b>Legislative text</b>	<a href="#">BACK TO TABLE OF CONTENTS</a>
<b>Article 20 - Requirements relating to simplicity</b>		
<p>20.13. The repayment of the holders of the securitisation positions shall not have been structured to depend predominantly on the sale of assets securing the underlying exposures. This shall not prevent such assets from being subsequently rolled-over or refinanced.</p> <p>The repayment of the holders of the securitisation positions whose underlying exposures are secured by assets the value of which is guaranteed or fully mitigated by a repurchase obligation by the seller of the assets securing the underlying exposures or by another third party shall not be considered to depend on the sale of assets securing those underlying exposures.</p>		
<b>STS criteria</b>		
<p>32. The repayment of the holders of the securitisation positions shall not have been structured to depend predominantly on the sale of assets securing the underlying exposures.</p>		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<p>See Prospectus, <i>THE MORTGAGE LOANS AND THE MORTGAGE PORTFOLIO</i>.</p> <p>THE MORTGAGE LOANS</p> <p>Repayment Terms</p> <p>Borrowers typically make payments of interest on, and repay principal of, their Mortgage Loans using one of the following methods:</p> <ul style="list-style-type: none"> <li>• Repayment Loans: the Borrower makes monthly payments of both interest and principal so that, when the Mortgage Loan matures, the Borrower will have repaid the full amount of the principal of the Mortgage Loan.</li> <li>• Interest Only Loans: the Borrower makes monthly payments of interest but not of principal; when the Mortgage Loan matures, the entire principal amount of the Mortgage Loan is still outstanding and the Borrower must repay that amount in one lump sum. Where Mortgage Loans are interest only, proof is required that a suitable repayment mechanism has been put in place.</li> <li>• Part and Part Loans: the Borrower is required to repay part of the principal amount of the Mortgage Loan by making monthly payments of both interest and principal and to repay the remaining part of the principal amount of the Mortgage Loan in one lump sum when the Mortgage Loan matures.</li> </ul> <p>Lending Criteria</p> <p>(i) Loan – Repayment Methods</p> <p>From December 2012, owner occupier mortgages have only been granted on a capital and interest repayment basis. However, the Seller and its affiliates may originate Interest Only Mortgage Loans and Part and Part Mortgage Loans at a subsequent time.</p> <p><i>Although there was some uncertainty over the status of interest-only mortgages, this has been definitively cleared up by the EBA Guidelines specific statement that this criterion was not designed to capture these products. In particular, we note that the presence of an amortisation plan setting out payments by means of monthly instalments is clearly not compatible with a repayment predominantly dependent on the sale of the assets securing the underlying exposures.</i></p> <p><i>In this transaction all of the loans are repayment loans, therefore, none of the assets in the pool display any predominant reliance on the sale of the assets.</i></p>		
<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		

**No predominant dependence on the sale of assets (Article 20(13))**

43. Dependence of the repayment of the holders of the securitisation positions on the sale of assets securing the underlying exposures increases the liquidity risks, market risks and maturity transformation risks to which the securitisation is exposed. It also makes the credit risk of the securitisation more difficult for investors to model and assess.

44. The objective of this criterion is to ensure that the repayment of the principal balance of exposures at the contract maturity – and therefore repayment of the holders of the securitisation positions – is not intended to be predominantly reliant on the sale of assets securing the underlying exposures, unless the value of the assets is guaranteed or fully mitigated by a repurchase obligation.

45. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:

(a) the term 'predominant dependence' on the sale of assets securing the underlying exposures should be further interpreted:

(i) when assessing whether the repayment of the holders of the securitisation positions is or is not predominantly dependent on the sale of assets, the following three aspects should be taken into account: (i) the principal balance at contract maturity of underlying exposures that depend on the sale of assets securing those underlying exposures to repay the balance; (ii) the distribution of maturities of such exposures across the life of the transaction, which aims to reduce the risk of correlated defaults due to idiosyncratic shocks; and (iii) the granularity of the pool of exposures, which aims to promote sufficient distribution in sale dates and other characteristics that may affect the sale of the underlying exposures.

(i) no types of securitisations should be excluded ex ante from the compliance with this criterion and from the STS securitisation as long as they meet all the requirements specified in the guidance. For example, this criterion does not aim to exclude leasing transactions and interest-only residential mortgages from STS securitisation, provided they comply with the guidance provided and all other applicable STS requirements. However, it is expected that commercial real estate transactions, or securitisations where the assets are commodities (e.g. oil, grain, gold), or bonds whose maturity dates fall after the maturity date of the securitisation, would not meet these requirements, as in all these cases it is expected that the repayment is predominantly reliant on the sale of the assets, that other possible ways to repay the securitisation positions are substantially limited, and that the granularity of the portfolio is low.

46. With respect to the exemption provided in the second subparagraph of Article 20(13) of Regulation (EU) 2017/2402, it should be ensured that the entity providing the guarantee or the repurchase obligation of the assets securing the underlying exposures is not an empty-shell or defaulted entity, so that it has sufficient loss absorbency to exercise the guarantee of the repurchase of the assets.

EBA Final non-ABCP STS Guidelines

**4.7 No Predominant dependence on the sale of assets**

***Predominant dependence on the sale of assets***

48. For the purposes of Article 20(13) of Regulation (EU) 2017/2402, transactions where all of the following conditions apply, at the time of origination of the securitisation in cases of amortising securitisation or during the revolving period in cases of revolving securitisation, should be considered not predominantly dependent on the sale of assets securing the underlying exposures, and therefore allowed:

(a) the contractually agreed outstanding principal balance, at contract maturity of the underlying exposures that depend on the sale of the assets securing those underlying exposures to repay the principal balance, corresponds to no more than 50% of the total initial exposure value of all securitisation positions of the securitisation;

(b) the maturities of the underlying exposures referred to in point (a) are not subject to material concentrations and are sufficiently distributed across the life of the transaction;

(c) the aggregate exposure value of all the underlying exposures referred to in point (a) to a single obligor does not exceed 2% of the aggregate exposure value of all underlying exposures in the securitisation.

49. Where there are no underlying exposures in the securitisation that depend on the sale of assets to repay their outstanding principal balance at contract maturity, the requirements in paragraph 48 should not apply.

***Exemption provided in the second subparagraph of Article 20(13) of Regulation (EU) 2017/2402***

50. The exemption referred to in the second subparagraph of Article 20(13) of Regulation (EU) 2017/2402 with regard to the repayment of holders of securitisation positions whose underlying exposures are secured by assets, the value of which is guaranteed or fully mitigated by a repurchase obligation of either the assets securing the underlying exposures or of the underlying exposures themselves by another third party or parties, the seller or the third parties should meet both of the following conditions:

(a) they are not insolvent;

(b) there is no reason to believe that the entity would not be able to meet its obligations under the guarantee or the repurchase obligation.

<p>21.2. The interest rate and currency risks arising from the securitisation shall be appropriately mitigated and any measures taken to that effect shall be disclosed.</p>		
<b>STS criteria</b>		
<p>34. The interest rate...risks arising from the securitisation shall be appropriately mitigated.</p>		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<p>See Prospectus, <i>THE SWAP AGREEMENTS</i>.</p> <p>The Interest Rate Swap Agreement</p> <p>The Issuer will be required to enter into an Interest Rate Swap Agreement with respect to the Current Balance of the Fixed Rate Mortgage Loans sold to the Issuer under the Mortgage Sale Agreement multiplied by the Funding Note Percentage. Fixed Rate Mortgage Loans will pay a fixed rate of interest for a period of time. The purpose of the Interest Rate Swap is to mitigate the Issuer's interest rate risk with respect to the Fixed Rate Mortgage Loans and to provide for the Issuer to receive from any Interest Rate Swap Counterparty amounts which will enable it to meet interest payments due on certain Notes. In return for such amounts, the Issuer will pay to any Interest Rate Swap Counterparty amounts based on the rates of interest on the relevant portfolio of Fixed Rate Mortgage Loans in the Mortgage Portfolio. The Interest Rate Swap will properly mitigate the interest rate risk present in the transaction in the context of the Notes.</p> <p><i>Clearly and explicitly, "appropriate" hedging does not require "perfect" hedging. This is confirmed by the EBA Guidelines which require the hedges to cover a "major share" of the risk from an "economic perspective". However, the definition of "appropriate" hedging or a "major share" of the risk will always contain an element of subjectivity and must be analysed on a case-by-case basis. The fact that the Regulation was crafted by the legislators to recognise existing high-quality European securitisations rather than raise the bar to a level not previously encountered, together with the common-sense approach of the EBA, leads to the conclusion that transactions considered adequately hedged by common investor and rating agency consensus should be held to meet this criterion. This still requires an analysis of the matter. Since PCS is not a quantitative analysis provider or a credit rating agency, our verification is based on a second-hand analysis which focuses on:</i></p> <ul style="list-style-type: none"> <li>• <i>A statement in the Prospectus or other document setting out the boundary conditions of the hedging. This should state in effect how far the hedging stretches and under what scenario's it will break. For example, if interbank rates rise above X%. This will provide a common-sense feel for whether, at first glance, the hedging is reasonable.</i></li> <li>• <i>Risk Factors section of the prospectus to check that no statements refer to the risks of "unhedged positions". This is based on the legal requirement to disclose any relevant information to investors. If the originator or its advisers believed that the hedging in a transaction was unusually light, this should be disclosed in the Risk Section.</i></li> <li>• <i>The "pre-sale" report from a recognised credit rating agency (if used) so as to identify any issues with hedging. Again, rating agencies as credit specialists should highlight in their analysis any substantial and unusual hedging risks.</i></li> </ul> <p><i>In the case of the Transaction, payments from the mortgage loans represent mostly fixed rate payments, while the notes are floating rate. An interest rate swap is used in the Transaction to mitigate fixed-to-floating interest rate risk, covering the period during which the underlying assets have fixed rates. Information provided in the transaction documents indicate that interest rate risk has been appropriately mitigated.</i></p>		
<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>		
<b>Appropriate mitigation of interest-rate and currency risks (Article 21 (2))</b>		
<p>49. The objective of this criterion is to reduce any payment risk arising from different interest-rate and currency profiles of assets and liabilities. Mitigating or hedging interest-rate and currency risks arising in the transaction enhances the simplicity of the transaction, since it helps investors to model those risks and their impact on the credit risk of the securitisation investment.</p>		
<p>50. It should be clarified that hedging (through derivative instruments) is only one possible way of addressing the risks mentioned. Whichever measure is applied for the risk mitigation, it should, however, be subject to specific conditions so that it can be considered to appropriately mitigate the risks mentioned.</p>		

51. One of these conditions aims to prohibit derivatives that do not serve the purpose of hedging interest-rate or currency risk from being included in the pool of underlying exposures or entered into by the SSPE, given that derivatives add to the complexity of the transaction and to the complexity of the risk and due diligence analysis to be carried out by the investor. Derivatives hedging interest-rate or currency risk enhance the simplicity of the transaction, since hedged transactions do not require investors to engage in the modelling of currency and interest-rate risks.

52. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:

- (a) conditions that the measures should comply with so that they can be considered to appropriately mitigate the interest-rate and currency risks;
- (b) clarification with respect to the scope of derivatives that should and should not be captured by this criterion;
- (c) clarification of the term 'common standards in international finance'.

#### **EBA Final non-ABCP STS Guidelines**

##### **5.1 Appropriate mitigation of interest-rate and currency risks (Article 21(2))**

###### ***Appropriate mitigation of interest-rate and currency risks***

51. For the purposes of Article 21(2) of Regulation (EU) 2017/2402 in order for the interest-rate and currency risks arising from the securitisation to be considered 'appropriately mitigated', it should be sufficient that a hedge or mitigation is in place, on condition that it is not unusually limited with the effect that it covers a major share of the respective interest-rate or currency risks under relevant scenarios, understood from an economic perspective. Such a mitigation may also be in the form of derivatives or other mitigating measures including reserve funds, over collateralisation, excess spread or other measures.

52. Where the appropriate mitigation of interest-rate and currency risks is carried out through derivatives, all of the following requirements should apply:

- (a) the derivatives should be used only for genuine hedging of asset and liability mismatches of interest rates and currencies, and should not be used for speculative purposes;
- (b) the derivatives should be based on commonly accepted documentation, including International Swaps or Derivatives Association (ISDA) or similar established national documentation standards;
- (c) the derivative documentation should provide, in the event of the loss of sufficient creditworthiness of the counterparty below a certain level, measured either on the basis of the credit rating or otherwise, that the counterparty is subject to collateralisation requirements or makes a reasonable effort for its replacement or guarantee by another counterparty.

53. Where the mitigation of interest-rate and currency risks referred to in Article 21(2) of Regulation (EU) 2017/2402 is carried out not through derivatives but by other risk-mitigating measures, those measures should be designed to be sufficiently robust. When such risk-mitigating measures are used to mitigate multiple risks at the same time, the disclosure required by Article 21(2) of Regulation (EU) 2017/2402 should include an explanation of how the measures hedge the interest-rate risks and currency risks on one hand, and other risks on the other hand.

An early repayment charge may be payable in respect of these Mortgage Loans for a set period of time, which generally corresponds with the term of the fixed interest rate.</li> <li>• Discount Variable Rate Mortgage Loans: Mortgage Loans which allow the Borrower, for a set period of time or for the life of the Mortgage Loan, to pay interest at a specified discount to the CBS Standard Variable Rate or the Issuer Variable Rate, as the case may be. At the end of the discounted period, generally these Mortgage Loans convert to a Variable Rate Mortgage Loan. An early repayment charge may be payable in respect of these Mortgage Loans for a set period of time, which generally corresponds with the term of the discounted interest rate.</li> <li>• Capped (Variable Rate) Mortgage Loans: Variable Rate Mortgage Loans which have a rate of interest which will not increase above a specified rate for a certain period of time. At the end of the period, generally these Mortgage Loans convert to a Variable Rate Mortgage Loan. An early repayment charge may be payable in respect of these Mortgage Loans for a set period of time.</li> <li>• Variable Rate Mortgage Loans: Mortgage Loans subject to a rate of interest linked to the CBS Standard Variable Rate or the Issuer Standard Variable Rate, as the case may be, for the life of the Mortgage Loan or until an alternative product that the Borrower qualifies for is selected by the Borrower. Variable Rate Mortgage Loans will not usually have an early repayment charge.</li> <li>• Flexx Rate Mortgage Loans: Mortgage Loans subject to a CBS Flexx Rate or an Issuer Flexx Rate, as the case may be, for the life of the Mortgage Loan or until an alternative product that the Borrower qualifies for is selected by the Borrower. Flexx Rate Mortgage Loans will not usually have an early repayment charge.</li> </ul>		
<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>		

**Referenced interest payments (Article 21 (3))**

53. The objective of this criterion is to prevent securitisations from making reference to interest rates that cannot be observed in the commonly accepted market practice. The credit risk and cash flow analysis that investors must be able to carry out should not involve atypical, complex or complicated rates or variables that cannot be modelled on the basis of market experience and practice.

54. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:

- (a) the scope of the criterion (by specifying the common types and examples of interest rates captured by this criterion);
- (b) the term 'complex formulae or derivatives'.

**EBA Final non-ABCP STS Guidelines****5.2 Referenced interest payments (Article 21 (3))*****Referenced rates***

57. For the purposes of Article 21(3) of Regulation (EU) 2017/2402, interest rates that should be considered to be an adequate reference basis for referenced interest payments should include all of the following:

- (a) interbank rates including the Libor, Euribor and other recognised benchmarks;
- (b) rates set by monetary policy authorities, including FED funds rates and central banks' discount rates;
- (c) sectoral rates reflective of a lender's cost of funds, including standard variable rates and internal interest rates that directly reflect the market costs of funding of a bank or a subset of institutions, to the extent that sufficient data are provided to investors to allow them to assess the relation of the sectoral rates to other market rates.

***Complex formulae or derivatives***

58. For the purposes of Article 21(3) of Regulation (EU) 2017/2402, a formula should be considered to be complex when it meets the definition of an exotic instrument by the Global Association of Risk Professionals (GARP), which is a financial asset or instrument with features that make it more complex than simpler, plain vanilla, products. A complex formula or derivative should not be deemed to exist in the case of the mere use of interest-rate caps or floors.

<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>		
<b>Requirements in case of enforcement or delivery of an acceleration notice (Article 21(4))</b>		
<p>55. The objective of this criterion is to prevent investors from being subjected to unexpected repayment profiles and to provide appropriate legal comfort regarding their enforceability, for instances where an enforcement or an acceleration notice has been delivered.</p> <p>56. STS securitisations should be such that the required investor's risk analysis and due diligence do not have to factor in complex structures of the payment priority that are difficult to model, nor should the investor be exposed to complex changes in such structures throughout the life of the transaction. Therefore, it should be ensured that junior noteholders do not have inappropriate payment preference over senior noteholders that are due and payable.</p> <p>57. In addition, taking into account that market risk on the underlying collateral constitutes an element of complexity in the risk and due diligence analysis to be carried out by investors, the objective is also to ensure that the performance of STS securitisations does not rely, due to contractual triggers, on the automatic liquidation at market price of the underlying collateral.</p> <p>58. To facilitate consistent interpretation of this criterion, the scope and operational functioning of conditions specified under letters (a), (b) and (d) of Article 21(4) should be specified further.</p>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>5.3 Requirements in the event of enforcement or delivery of an acceleration notice (Article 21(4))</b>		
<b>Exceptional circumstances</b>		
<p>59. For the purposes of Article 21(4)(a) of Regulation (EU) 2017/2402, a list of 'exceptional circumstances' should, to the extent possible, be included in the transaction documentation.</p> <p>60. Given the nature of 'exceptional circumstances' and in order to allow some flexibility with respect to potential unusual circumstances requiring that cash be trapped in the SSPE in the best interests of investors, where a list of 'exceptional circumstances' is included in the transaction documentation in accordance with paragraph 59, such a list should be non-exhaustive.</p>		
<b>Amount trapped in the SSPE in the best interests of investors</b>		
<p>61. For the purposes of Article 21(4)(a) of Regulation (EU) 2017/2402, the amount of cash to be considered as trapped in the SSPE should be that agreed by the trustee or other representative of the investors who is legally required to act in the best interests of the investors, or by the investors in accordance with the voting provisions set out in the transaction documentation.</p> <p>62. For the purposes of Article 21(4)(a) of Regulation (EU) 2017/2402, it should be permissible to trap the cash in the SSPE in the form of a reserve fund for future use, as long as the use of the reserve fund is exclusively limited to the purposes set out in Article 21(4)(a) of Regulation (EU) 2017/2402 or to orderly repayment to the investors.</p>		

42	<b>Legislative text</b>	<a href="#">BACK TO TABLE OF CONTENTS</a>

See Prospectus, <i>THE SELLER, THE SERVICER, THE CASH MANAGER, THE FIRST ACCOUNT BANK AND THE VFN REGISTRAR</i> . COVENTRY BUILDING SOCIETY The Society has significantly more than 5 years' experience in the origination, underwriting and servicing of mortgage loans similar to those to be included in the Mortgage Portfolio.		
<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>		
<b>Expertise of the Servicer (Article 21 (8))</b>		
65. The objective of this criterion is to ensure that all the conditions are in place for the proper functioning of the servicing function, taking into account the crucial importance of servicing in securitisation and the central nature of this function within any securitisation transaction.		
66. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:		
(a) criteria for determining the expertise of the servicer;		
(b) criteria for determining well-documented and adequate policies, procedures and risk management controls of the servicer.		
67. The criteria for the expertise of the servicer should correspond to those for the expertise of the originator or the original lender. Newly established entities should be allowed to perform the tasks of servicing, as long as the back-up servicer has the appropriate experience. It is expected that information on the assessment of the expertise is provided in sufficient detail in the STS notification.		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>5.8 Expertise of the servicer (Article 21 (8))</b>		
<b>Criteria for determining the expertise of the servicer</b>		
68. For the purposes of determining whether a servicer has expertise in servicing exposures of a similar nature to those securitised in accordance with Article 21(8) of Regulation (EU) 2017/2402, both of the following should apply:		
(a) the members of the management body of the servicer and the senior staff, other than members of the management body, responsible for servicing exposures of a similar nature to those securitised should have adequate knowledge and skills in the servicing of exposures similar to those securitised;		
(b) any of the following principles on the quality of the expertise should be taken into account in the determination of the expertise:		
(i) the role and duties of the members of the management body and the senior staff and the required capabilities should be adequate;		
(ii) the experience of the members of the management body and the senior staff gained in previous positions, education and training should be sufficient;		
(iii) the involvement of the members of the management body and the senior staff within the governance structure of the function of servicing the exposures should be appropriate;		
(iv) in the case of a prudentially regulated entity, the regulatory authorisations or permissions held by the entity should be deemed relevant to the servicing of similar exposures to those securitised.		
69. A servicer should be deemed to have the required expertise where either of the following applies:		
(a) the business of the entity, or of the consolidated group, to which the entity belongs, for accounting or prudential purposes, has included the servicing of exposures of a similar nature to those securitised, for at least five years;		

(b) where the requirement referred to in point (a) is not met, the servicer should be deemed to have the required expertise where they comply with both of the following:

(i) at least two of the members of its management body have relevant professional experience in the servicing of exposures of a similar nature to those securitised, at personal level, of at least five years;

(ii) senior staff, other than members of the management body, who are responsible for managing the entity's servicing of exposures of a similar nature to those securitised, have relevant professional experience in the servicing of exposures of a similar nature to those securitised, at a personal level, of at least five years;

(iii) the servicing function of the entity is backed by the back-up servicer compliant with point (a).

70. For the purpose of demonstrating the number of years of professional experience, the relevant expertise should be disclosed in sufficient detail and in accordance with the applicable confidentiality requirements to permit investors to carry out their obligations under Article 5(3)(c) of Regulation (EU) 2017/2402.

*Exposures of similar nature*

71. For the purposes of Article 21(8) of Regulation (EU) 2017/2402, interpretation of the term 'exposures of similar nature' should follow the interpretation provided in paragraph 23 above.

Transparency of remedies and procedures, in this respect, allows investors to model the credit risk of the underlying exposures with less uncertainty. In addition, clear, timely and transparent information on the characteristics of the waterfall determining the payment priorities is necessary for the investor to correctly price the securitisation position.		
69. To facilitate consistent interpretation of this criterion, the terms ‘in clear and consistent terms’ and ‘clearly specify’ should be further clarified.		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>5.7 Remedies and actions related to delinquency and default of debtor (Article 21 (9))</b>		
<b><i>Clear and consistent terms</i></b>		
For the purposes of Article 21(9) of Regulation (EU) 2017/2402, to ‘set out clear and consistent terms’ and to ‘clearly specify’ should be understood as requiring that the same precise terms are used throughout the transaction documentation in order to facilitate the work of investors.

21.10. The transaction documentation shall include clear provisions that facilitate the timely resolution of conflicts between different classes of investors, voting rights shall be clearly defined and allocated to bondholders and the responsibilities of the trustee and other entities with fiduciary duties to investors shall be clearly identified.		
<b>STS criteria</b>		
62. The transaction documentation shall include clear provisions that facilitate the timely resolution of conflicts between different classes of investors, voting rights shall be clearly defined and allocated to bondholders		
<b>Verified?</b>		Yes
<b>PCS Comment</b>		
See Prospectus, <i>OVERVIEW OF RIGHTS OF NOTEHOLDERS</i> . Noteholders meeting provisions  <i>Although the wording of the Regulation as to what constitutes the "facilitation of timely resolution of conflicts" is very vague, the EBA Guidelines have helpfully set out the five minimum requirements that the documents should contain to meet this criterion.</i> <i>PCS notes that the Prospectus covers the five provisions detailed in the EBA Guidelines.</i>		
<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>		
<b>Resolution of conflicts between different classes of investors</b>		
70. The objective of this criterion is to help ensure clarity for securitisation noteholders of their rights and ability to control and enforce on the underlying credit claims or receivables. This should make the decision-making process more effective, for instance in circumstances where enforcement rights on the underlying assets are being exercised.		
71. To facilitate consistent interpretation of this criterion, the term 'clear provisions that facilitate the timely resolution of conflicts between different classes of investors' should be further interpreted.		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>5.8 Resolution of conflicts between different classes of investors (Article 20 (10))</b>		
<b>Clear provisions facilitating the timely resolution of conflicts between different classes of investors</b>		
73. For the purposes of Article 21(10) of Regulation (EU) 2017/2402, provisions of the transaction documentation that 'facilitate the timely resolution of conflicts between different classes of investors', should include provisions with respect to all of the following:		
(a) the method for calling meetings or arranging conference calls;		
(b) the maximum timeframe for setting up a meeting or conference call;		
(c) the required quorum;		
(d) the minimum threshold of votes to validate such a decision, with clear differentiation between the minimum thresholds for each type of decision;		
(e) where applicable, a location for the meetings which should be in the Union.		
74. For the purposes of Article 21(10) of Regulation (EU) 2017/2402, where mandatory statutory provisions exist in the applicable jurisdiction that set out how conflicts between investors have to be resolved, the transaction documentation may refer to these provisions.

<b>Article 22 - Requirements relating to transparency</b>		
22.1. The originator and the sponsor shall make available data on static and dynamic historical default and loss performance, such as delinquency and default data, for substantially similar exposures to those being securitised, and the sources of those data and the basis for claiming similarity, to potential investors before pricing. Those data shall cover a period no shorter than five years.		
<b>STS criteria</b>		
64. The originator and the sponsor shall make available data on static and dynamic historical default and loss performance, such as delinquency and default data, for substantially similar exposures to those being securitised,		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<p>See Final Terms. Static and dynamic pool data</p> <p>This section sets out, to the extent material, certain static pool information with respect to the Mortgage Loans in the Mortgage Portfolio.</p> <p>The following tables show, for each of the last six years of origination, the distribution of loans originated in that year by delinquency category as at each year end date starting in December 2014.</p> <p>Dynamic historical performance data in relation to the mortgage loans originated by the Seller was made available prior to pricing on the website of European DataWarehouse at <a href="https://editor.eurodw.eu/home">https://editor.eurodw.eu/home</a>. Such information will cover the period from 2014 to 2020. The mortgage loans which are referred to in such data are originated under, and serviced in accordance with, the same policies and procedures as the Mortgage Loans comprising the Mortgage Portfolio and, as such, it is expected that the performance of such mortgage loans, over a period of four years, would not be significantly different to the performance of the Mortgage Loans in the Mortgage Portfolio.</p> <p><i>PCS has reviewed historical static and dynamic data made available in connection with the transaction.</i></p>		
<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		
<b>Data on historical default and loss performance (Article 22(1))</b>		
72. The objective is to provide investors with sufficient information on an asset class to conduct appropriate due diligence and to provide access to a sufficiently rich data set to enable a more accurate calculation of expected loss in different stress scenarios. These data are necessary for investors to carry out proper risk analysis and due diligence, and they contribute to building confidence and reducing uncertainty regarding the market behaviour of the underlying asset class. New asset classes entering the securitisation market, for which a sufficient track record of performance has not yet been built up, may not be considered transparent in that they cannot ensure that investors have the appropriate tools and knowledge to carry out proper risk analysis.		
73. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:		
(a) its application to external data;		
(b) the term 'substantially similar exposures'.		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>6.1 Data on historical default and loss performance (Article 22(1))</b>		
<b>Data</b>		
75. For the purposes of Article 22(1) of Regulation (EU) 2017/2402, where the seller cannot provide data in line with the data requirements contained therein, external data that are publicly available or are provided by a third party, such as a rating agency or another market participant, may be used, provided that all of the other requirements of that article are met.		
<b>Substantially similar exposures</b>		
76. For the purposes of Article 22(1) of Regulation (EU) 2017/2402, the term 'substantially similar exposures' should be understood as referring to exposures for which both of the following conditions are met:		
(a) the most relevant factors determining the expected performance of the underlying exposures are similar;		

<p>(b) as a result of the similarity referred to in point (a) it could reasonably have been expected, on the basis of indications such as past performance or applicable models, that, over the life of the transaction, or over a maximum of four years, where the life of the transaction is longer than four years, their performance would not be significantly different.</p> <p>77. The substantially similar exposures should not be limited to exposures held on the balance sheet of the originator.</p>

<p>See Final Terms.</p> <p>Securitisation Regulation</p> <p>Verification of data</p> <p>The Seller has caused the Mortgage Loans included in the Mortgage Portfolio (including the data disclosed in respect of those Mortgage Loans) to be verified by one or more appropriate and independent third parties and completed on or about 4 May 2020 with respect to the Mortgage Portfolio in existence as of 31 December 2019 (the "AUP Report"). The Mortgage Portfolio has been subject to an agreed upon procedures review to review a sample of Mortgage Loans selected from the total Mortgage Portfolio as at the Cut-Off Date for certain information and confirm that the actual errors, within a total population, are contained within the range of a predetermined precision limit. The Seller also provided the relevant third party with a data file containing information on the Mortgage Portfolio to review conformity of each of the Mortgage Loans included with the Eligibility Criteria. No significant adverse findings arose from such review. This independent third party has also performed agreed upon procedures in order to verify that the stratification tables disclosed in respect of the Mortgage Loans are accurate. The third party undertaking the review only has obligations to the parties to the engagement letters governing the performance of the agreed upon procedures subject to the limitations and exclusions contained therein. The AUP Report has been filed with the US Securities and Exchange Commission on 31 July 2020 and is publicly available. The Seller has reviewed the reports of such independent third parties and is of the opinion that there were no significant adverse findings in such reports.</p> <p><i>PCS has reviewed the report on "agreed upon procedures" (AUP) commonly known as a "pool audit". PCS can confirm that this was done by an appropriate and independent third party.</i></p>		
<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>		
<b>Verification of a sample of the underlying exposures (Article 22 (2))</b>		
74. The objective of the criterion is to provide a level of assurance that the data on and reporting of the underlying credit claims or receivables is accurate and that the underlying exposures meet the eligibility criteria, by ensuring checks on the data to be disclosed to the investors by an external entity not affected by a potential conflict of interest within the transaction.		
75. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:		
<ul style="list-style-type: none"> <li>(a) requirements on the sample of the underlying exposures subject to external verification;</li> <li>(b) requirements on the party executing the verification;</li> <li>(c) scope of the verification;</li> <li>(d) requirement on the confirmation of the verification.</li> </ul>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>6.2 Verification of a sample of the underlying exposures (Article 22 (2))</b>		
<b>Sample of the underlying exposures subject to external verification</b>		
78. For the purposes of Article 22(2) of Regulation (EU) 2017/2402, the underlying exposures that should be subject to verification prior to the issuance should be a representative sample of the provisional portfolio from which the securitised pool is extracted and which is in a reasonably final form before issuance.		

**Party executing the verification**

79. For the purposes of Article 22(2) of Regulation (EU) 2017/2402, an appropriate and independent party should be deemed to be a party that meets both of the following conditions:

- (a) it has the experience and capability to carry out the verification;
- (b) it is none of the following:
  - (i) a credit rating agency;
  - (ii) a third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402;
  - (iii) an entity affiliated to the originator.

**Scope of the verification**

80. For the purposes of Article 22(2) of Regulation (EU) 2017/2402, the verification to be carried out based on the representative sample, applying a confidence level of at least 95%, should include both of the following:

- (a) verification of the compliance of the underlying exposures in the provisional portfolio with the eligibility criteria that are able to be tested prior to issuance;
- (b) verification of the fact that the data disclosed to investors in any formal offering document in respect of the underlying exposures is accurate.

**Confirmation of the verification**

81. For the purposes of Article 22(2) of Regulation (EU) 2017/2402, confirmation that this verification has occurred and that no significant adverse findings have been found should be disclosed.

69	<b>Legislative text</b>	<a href="#">BACK TO TABLE OF CONTENTS</a>
<b>Article 22 - Requirements relating to transparency</b>		
<p>22.3. The originator or the sponsor shall, before the pricing of the securitisation, make available to potential investors a liability cash flow model which precisely represents the contractual relationship between the underlying exposures and the payments flowing between the originator, sponsor, investors, other third parties and the SSPE, and shall, after pricing, make that model available to investors on an ongoing basis and to potential investors upon request.</p>		
<b>STS criteria</b>		
<p>69. The originator or the sponsor shall, before the pricing of the securitisation, make available to potential investors a liability cash flow model which precisely represents the contractual relationship between the underlying exposures and the payments flowing between the originator, sponsor, investors, other third parties and the SSPE.</p>		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<p>See Prospectus, <i>CERTAIN REGULATORY REQUIREMENTS</i>.</p> <p>Liability cashflow model</p> <p>The Seller will make available a liability cashflow model, either directly or indirectly through one or more entities which provide such liability cashflow models to investors generally, the details of which will be set out in the applicable Final Terms. The Seller will procure that such liability cashflow model (a) precisely represents the contractual relationship between the Mortgage Loans and the payments flowing between the Seller, investors in the Notes, other third parties and the Issuer, and (b) is made available to (i) prior to pricing of the notes, potential investors and (ii) on an on-going basis, investors in the Notes and to potential investors in the Notes upon request.</p>		
<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		
<b>Liability cashflow model (Article 22(3))</b>		
<p>76. The objective of this criterion is to assist investors in their ability to appropriately model the cash flow waterfall of the securitisation on the liability side of the SSPE.</p>		
<p>77. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:</p>		
<p>(a) interpretation of the term 'precise' representation of the contractual relationships;</p>		
<p>(b) implications when the model is provided by third parties.</p>		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>Liability cash flow model (Article 22(3))</b>		
<b>Precise representation of the contractual relationship</b>		
<p>82. For the purposes of Article 22(3) of Regulation (EU) 2017/2402, the representation of the contractual relationships between the underlying exposures and the payments flowing among the originator, sponsor, investors, other parties and the SSPE should be considered to have been done 'precisely' where it is done accurately and with an amount of detail sufficient to allow investors to model payment obligations of the SSPE and to price the securitisation accordingly. This may include algorithms that permit investors to model a range of different scenarios that will affect cash flows, such as different prepayment or default rates.</p>		
<b>Third parties</b>		
<p>83. For the purposes of Article 22(3) of Regulation (EU) 2017/2402, where the liability cash flow model is developed by third parties, the originator or sponsor should remain responsible for making the information available to potential investors.</p>		

70	<b>Legislative text</b>	<a href="#">BACK TO TABLE OF CONTENTS</a>

70. And shall, after pricing, make that model available to investors on an ongoing basis and to potential investors upon request.		
<b>Verified?</b>		Yes
<b>PCS Comment</b>		
<p><i>See point 69 above.</i></p> <p><i>Although technically covering the period between pricing and close, this is primarily a future event criterion. In other words, it cannot be either met or failed at the outset of the transaction. But if, at a later stage, it is not met, then the Originator will need to inform ESMA and the STS status of the securitisation will be lost. Therefore, as a technical matter, this criterion is not applicable at the closing of a transaction.</i></p> <p><i>However, PCS will nevertheless look to see if there is a covenant on the part of the originator to comply in the future with this requirement whilst noting, at the same time, that the absence of any such covenant – although possibly unsettling for some investors - would not invalidate the STS status of the transaction at closing.</i></p> <p><i>PCS notes the existence of such covenant in the Prospectus.</i></p>		
<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>		
<b>Liability cashflow model (Article 22(3))</b>		
76. The objective of this criterion is to assist investors in their ability to appropriately model the cash flow waterfall of the securitisation on the liability side of the SSPE.		
77. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:		
(a) interpretation of the term 'precise' representation of the contractual relationships;		
(b) implications when the model is provided by third parties.		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>Liability cash flow model (Article 22(3)) <i>Precise representation of the contractual relationship</i></b>		
82. For the purposes of Article 22(3) of Regulation (EU) 2017/2402, the representation of the contractual relationships between the underlying exposures and the payments flowing among the originator, sponsor, investors, other parties and the SSPE should be considered to have been done 'precisely' where it is done accurately and with an amount of detail sufficient to allow investors to model payment obligations of the SSPE and to price the securitisation accordingly. This may include algorithms that permit investors to model a range of different scenarios that will affect cash flows, such as different prepayment or default rates.		
<b><i>Third parties</i></b>		
83. For the purposes of Article 22(3) of Regulation (EU) 2017/2402, where the liability cash flow model is developed by third parties, the originator or sponsor should remain responsible for making the information available to potential investors.		

71	<b>Legislative text</b>	<a href="#">BACK TO TABLE OF CONTENTS</a>
<b>Article 22 - Requirements relating to transparency</b>		
22.4. In case of a securitisation where the underlying exposures are residential loans or car loans or leases, the originator and sponsor shall publish the available information related to the environmental performance of the assets financed by such residential loans or car loans or leases, as part of the information disclosed pursuant to point (a) of the first subparagraph of Article 7(1).		
<b>STS criteria</b>		
71. In case of a securitisation where the underlying exposures are residential loans or car loans or leases, the originator and sponsor shall publish the available information related to the environmental performance of the assets financed by such residential loans or car loans or leases, as part of the information disclosed pursuant to point (a) of the first subparagraph of Article 7(1).		
<b>Verified?</b>		<b>Yes</b>
<b>PCS Comment</b>		
<p>See Prospectus, <i>THE MORTGAGE LOANS AND THE MORTGAGE PORTFOLIO</i>.</p> <p>Environmental performance</p> <p>The administrative records of the Seller do not contain any information related to the environmental performance of the Mortgaged Property and, as such, there is no available information to be published related to the environmental performance of the Mortgaged Property.</p> <p><i>This environmental impact criterion only applies to mortgages and car loan securitisations. The EBA Guidelines though make it clear that an originator is only required to disclose information that is in its possession and captured in its internal data base or IT systems. PCS notes the statement made in the prospectus by the originator that it does not possess such information in its internal data base or IT systems.</i></p>		
<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>		
<b>Environmental performance of assets (Article 22(4))</b>		
78. It should be clarified that this is a requirement of disclosure about the energy efficiency of the assets when this information is available to the originator, sponsor or SSPE, rather than a requirement for a minimum energy efficiency of the assets.		
79. To facilitate consistent interpretation of this criterion, the term ‘available information related to the environmental performance’ should be further clarified.		
<b>EBA Final non-ABCP STS Guidelines</b>		
<b>Environmental performance of assets (Article 22(4))</b>		
<b>Available information related to the environmental performance</b>		
84. This requirement should be applicable only if the information on the energy performance certificates for the assets financed by the underlying exposures is available to the originator, sponsor or the SSPE and captured in its internal database or IT systems. Where information is available only for a proportion of the underlying exposures, the requirement should apply only in respect of the proportion of the underlying exposures for which information is available.

<b>EBA Final non-ABCP STS Guidelines</b>		

## Definitions:

**“AUP”**: the agreed upon procedures through which an external firm verifies certain aspects of the asset pool.

**“COMI”**: centre of main interest – broadly, the legal jurisdiction where the insolvency of the seller of assets will be primarily determined.

**“Issuer Notification”**: the notification provided by the originator or sponsor pursuant to article 27 of the STS Regulation.

**“Jurisdiction List”**: the list of jurisdictions where it has been determined that severe clawback provisions do not apply.

**“Legal Opinion”**: an opinion signed by a law firm qualified in the relevant jurisdiction and acting for the originator or the arranger where the law firm sets out the reasons why, in its opinion and subject to customary assumptions and qualifications, the assets are transferred in such a way as to meet the STS Criterion for “true sale” or the same type of opinion for prior sales together with an opinion on the enforceability of the underlying assets.

**“Marketing Documents”**: Documents prepared by or on behalf of the originator and used in the marketing of the transaction with potential investors.

**“Model”**: a liability cash flow model which precisely represents the contractual relationship between the underlying exposures and the payments flowing between the originator, sponsor, investors, other third parties and the SSPE.

**“Prospectus/Deal Sheet”**: the prospectus, or for a deal where no prospectus needs to be drawn up, the deal sheet envisaged by article 7.1(c) of the STS Regulation.

**“Transaction Document”**: a document entered into in relation to the transaction binding on one or more parties connected to the transaction.
