PRIME COLLATERALISED SECURITIES (PCS) UK LIMITED

9<sup>th</sup> April 2020

**Analyst: Robert Leach – +44 (0) 203 440 3745**

**This is the STS Term Master Checklist for STS Term Verifications.**

**This STS Term Checklist must be read together with the PCS Procedures Manual and the PCS Term Evidentiary Standards Manual. This document is based upon the materials received by PCS as at the date of this document. Any references in this document are to the Prospectus unless otherwise stated.**

**PCS comments in this STS Term Master Checklist are based on PCS' interpretation of the STS Regulation (the "Regulation") informed by (a) the text of the Regulation itself, (b) the EBA guidelines and recommendations issued in accordance with Article 19(2) of the Regulation (the "EBA Guidelines") and (c) any relevant national competent authorities' interpretation of the STS criteria to the extent known to PCS.**

**It is important that the reader of this checklist reviews and understands the disclaimer referred to on the following page.**

**9<sup>th</sup> April 2020**

## STS Disclaimer

Neither an STS Verification, nor a CRR Assessment, nor an LCR Assessment is a recommendation to buy, sell or hold securities. None are investment advice whether generally or as defined under Markets in Financial Instruments Directive (2004/39/EC) and none are a credit rating whether generally or as defined under the Credit Rating Agency Regulation (1060/2009/EC).

PCS UK and PCS EU are authorised respectively by the UK Financial Conduct Authority and the French *Autorité des Marchés Financiers* as third parties verifying STS compliance pursuant to article 28 of the Regulation (EU) 2017/2402 of the European Parliament and of the Council of 12 December 2017 (the "**STS Regulation**").

Neither CRR Assessments or LCR Assessments are endorsed or regulated by any regulatory and/or supervisory authority nor, other than as set out above, are the PCS Association or either of its subsidiaries, PCS UK and PCS EU, regulated by any regulator and/or supervisory authority including the Belgian Financial Services and Markets Authority, the United Kingdom Financial Conduct Authority, the French *Autorité des Marchés Financiers* or the European Securities and Markets Authority.

By assessing the STS or CRR status of any securities or financing, neither the PCS Association nor PCS UK nor PCS EU express any views about the creditworthiness of these securities or financings or their suitability for any existing or potential investor or as to whether there will be a ready, liquid market for these securities or financings. Equally, by completing (either positively or negatively) any STS or CRR status assessment of certain instruments, no statement of any kind is made as to the value or price of these instruments or the appropriateness of the interest rate they carry (if any).

In the provision of any STS Verification or CRR Assessment or LCR Assessment, PCS has based its decision on information provided directly and indirectly by the originator or sponsor of the relevant securitisation. Specifically, it has relied on statements made in the relevant prospectus or deal sheet, documentation and/or in certificates provided by, or on behalf of, the originator or sponsor in accordance with PCS' published procedures for the relevant PCS verification or assessment. You should make yourself familiar with these procedures to understand fully how any PCS service is completed. These can be found in the PCS website [www.pcsmarket.org](http://www.pcsmarket.org) (the "**PCS Website**"). Neither the PCS Association nor PCS UK nor PCS EU undertake their own direct verification of the underlying facts stated in the prospectus, deal sheet, documentation or certificates for the relevant instruments and the completion of any STS Verification or CRR Assessment or LCR Assessment is not a confirmation or implication that the information provided to it by or on behalf of the originator or sponsor is accurate or complete.

The PCS entities take reasonable measures to ensure the quality and accuracy of the information on the PCS Website. However, neither the PCS Association nor PCS UK nor PCS EU can be held liable in any way for the inaccuracy or incompleteness of any information that is available on or through the PCS Website. In addition, neither the PCS Association nor PCS UK nor PCS EU can in any way be held liable or responsible for the content of any other website linked to the PCS Website.

To understand the meaning and limitations of any STS Verification you must read the General Disclaimer that appears on the PCS Website.

When entering any of the "Transaction" sections of the PCS Website, you will be asked to declare that you are allowed to do so under the legislation of your country. The circulation and distribution of information regarding securitisation instruments (including securities) that is available on the PCS Website may be restricted in certain jurisdictions. Persons receiving any information or documents with respect to or in connection with instruments (including securities) available on the PCS Website are required to inform themselves of and to observe all applicable restrictions.

## Prime Collateralised Securities (PCS) STS Verification

Individual(s) undertaking the assessment	Robert Leach
Date of Verification	7 April 2020
<b>The transaction to be verified (the “Transaction”)</b>	<b>SILVER ARROW S.A., in respect of its Compartment Silver Arrow UK 2020-1</b>
Issuer	SILVER ARROW S.A.
Originator	Mercedes-Benz Financial Services UK Limited
Lead Manager(s)	Commerzbank Aktiengesellschaft
Transaction Legal Counsel	Clifford Chance LLP
Rating Agencies	Moody's and DBRS
Stock Exchange	Luxembourg Stock Exchange
Closing Date	9 April 2020

**PCS confirms that all checklist points have been verified as detailed in the associated comment box in the checklist below.**

**A summary of the checklist points by article is set out in the table on the next page together with a reference to summary headings of the respective article contents. To examine a specific article section from the list below in further detail, please click on the article description in the table below to be taken directly to the relevant section of the detailed checklist.**

	<b>Article 20 - Requirements relating to simplicity</b>	
	20.1. The title to the underlying exposures shall be acquired by the SSPE by means of a true sale or assignment or transfer with the same legal effect in a manner that is enforceable against the seller or any other third party. The transfer of the title to the SSPE shall not be subject to severe clawback provisions in the event of the seller's insolvency.	
	<b>STS criteria</b>	
	1. The title to the underlying exposures shall be acquired by the SSPE by means of a true sale or assignment or transfer with the same legal effect in a manner that is enforceable against the seller or any other third party.	
	<b>Verified?</b>	<b>Yes</b>
	<b>PCS Comment</b>	
	<p>See Prospectus, <i>OVERVIEW OF THE PRINCIPAL TRANSACTION SA UK 2020-1 DOCUMENTS</i>.</p> <p>1. <b>RECEIVABLES PURCHASE AGREEMENT</b></p> <p>On the Issue Date, MBFS will sell to the Issuer and the Issuer will purchase from MBFS all right, title and interest of MBFS in the Portfolio. Such sale is made by way of absolute assignment and, accordingly, MBFS with full title guarantee and (in respect of any Receivable governed by Northern Irish law) as beneficial owner will assign to the Issuer all of its rights, title and interest in and to each Receivable included in the Portfolio, including to the fullest extent possible under applicable law, all Ancillary Rights related to such Receivable but excluding the Excluded Amounts.</p> <p>Assignment by the Seller to the Issuer of the benefit of the Receivables included in the Portfolio will take effect in equity only because no notice of the assignment will be given to Obligor. The assignment will be perfected following the occurrence of certain Obligor Notification Events.</p> <p><i>"True sale" is not a legal concept but a rating agency creation.</i></p> <p><i>The essence of a "true sale" is that the property in the securitised assets has legally moved from the originator/seller to the SSPE in such a way that the SSPE's ownership will be recognised as a matter of law, including and especially in the case of the insolvency of the originator/seller. In a "true sale" the insolvency officer and creditors of the insolvent originator/seller are not able to satisfy the claims of the originator/seller's creditor out of the proceeds of the securitised assets. Following a "true sale" there is no legal device by which the assets can automatically revert to the originator/seller's ownership. Such automatic reversion is associated with security interests and anathema to a "true sale".</i></p> <p><i>This is clearly stated in the wording of the Regulation (20.1). The expression "transfer to the same effect" indicates that, as long as the conditions in the preceding paragraph are met, the Regulation does not seek to limit the type of legal devices which can be used to effect such transfer of title.</i></p> <p><i>The issue of "true sale" is separate from the issue of "clawback". "Clawback" refers to legal processes through which, in the insolvency of the seller of an asset, an insolvency officer is entitled to reverse the sale – even in cases where a "true sale" has taken place.</i></p> <p><i>All European jurisdictions, to PCS' knowledge, have rules allowing for clawbacks. Clawbacks are usually rules to avoid a company heading towards insolvency from "defrauding" its existing creditors either by selling assets at very low prices (to friends and relations) or unfairly preferring certain creditors over others.</i></p> <p><i>The Regulation (20.1) therefore does not require STS "true sales" to be clawback proof since this would mean that no European securitisation could ever be STS. It does require the sale not to be subject to "severe clawback". The Regulation does not define "severe clawback" but gives an example (20.2) where a clawback happens for no reasons. The Regulation (20.3) also explicitly excludes from the definition of "severe clawback" the traditional European basis for such devices which all come under the general category of "preferences".</i></p> <p><i>PCS further notes that the examples (20.2 and 20.3) refer to the insolvency law of a jurisdiction and therefore believes that clawback risk is to be assessed on a jurisdictional basis rather than on a transactional basis. Finally, PCS does not believe and nor is there any evidence that the legislators or regulatory authorities are seeking to craft a higher standard than that which has been used for decades by the market and was the basis for the legislative text.</i></p> <p><i>Based on the above considerations, PCS believes that transfers from jurisdictions meeting the following criteria – absent any other indications – shall not fall within the definition of "severe clawback":</i></p> <ul style="list-style-type: none"> <li>• <i>Clawback requires an unfair preference "defrauding" creditors;</i></li> </ul>	

<ul style="list-style-type: none"> <li>• <i>Clawback puts the burden of proof on the insolvency officer or creditors – in other words it cannot be automatic nor require the purchaser to prove their innocence.</i></li> </ul> <p><i>Since “severe clawback” is a jurisdictional concept, in analysing this issue PCS will therefore first seek to determine the Originator’s jurisdiction for the purposes of insolvency law. This would be its centre of main interest or “COMI”.</i></p> <p><i>The second step would be to determine whether the relevant COMI contains severe claw back provisions in its insolvency legislation. Although the determination of a COMI can be a technically fraught analysis of international conflicts of law, PCS notes that in the vast majority of securitisations there is no real issue as the COMI is self-evident.</i></p> <p><i>In the case of the Transaction, title to the assets is transferred by means of an equitable or beneficial assignment.</i></p> <p><i>The legal opinions from Clifford Chance LLP, Tughans Solicitors LLP, and CMS LLP, collectively confirm that an equitable assignment of the beneficial interest meets the definition of “true sale” outlined above.</i></p> <p><i>In the case of Mercedes-Benz Financial Services UK Limited, a finance company situated in the United Kingdom, the COMI is considered the United Kingdom. United Kingdom insolvency law provides for clawback in the cases of preferences and transactions at an undervalue and require the insolvency officer to prove that case. Therefore, and as confirmed by the Opinions, the transfer is not, in our opinion, subject to “severe clawback”.</i></p>
<p><b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b></p> <p><b>True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))</b></p> <p>16. The criterion specified in Article 20(1) aims to ensure that the underlying exposures are beyond the reach of, and are effectively ring-fenced and segregated from, the seller, its creditors and its liquidators, including in the event of the seller’s insolvency, enabling an effective recourse to the ultimate claims for the underlying exposures.</p> <p>22. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:</p> <p>(a) how to substantiate the confidence of third parties with respect to compliance with Article 20(1): it is understood that this should be achieved by providing a legal opinion. While the guidance does not explicitly require the provision of a legal opinion in all cases, the guidance expects a legal opinion to be provided as a general rule, and omission to be an exception;</p> <p>(b) the triggers to effect the perfection of the transfer if assignments are perfected at a later stage than at the closing of the transaction.</p>
<p><b>EBA Final non-ABCP STS Guidelines</b></p> <p><b>4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))</b></p> <p><b><i>True sale, assignment or transfer with the same legal effect</i></b></p> <p>10. For the purposes of Article 20(1) of Regulation (EU) 2017/2402 and in order to substantiate the confidence of third parties, including third parties verifying simple, transparent and standardised (STS) compliance in accordance with Article 28 of that Regulation and competent authorities meeting the requirements specified therein, all of the following should be provided:</p> <p>(a) confirmation of the true sale or confirmation that, under the applicable national framework, the assignment or transfer segregate the underlying exposures from the seller, its creditors and its liquidators, including in the event of the seller’s insolvency, with the same legal effect as that achieved by means of true sale;</p> <p>(b) confirmation of the enforceability of the true sale, assignment or transfer with the same legal effect referred to in point (a) against the seller or any other third party, under the applicable national legal framework;</p> <p>(c) assessment of clawback risks and re-characterisation risks</p> <p>11. The confirmation of the aspects referred to in paragraph 10 should be achieved by the provision of a legal opinion provided by qualified external legal counsel, except in the case of repeat issuances in standalone securitisation structures or master trusts that use the same legal mechanism for the transfer, including instances in which the legal framework is the same.</p> <p>12. The legal opinion referred to in paragraph 11 should be accessible and made available to any relevant third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402 and any relevant competent authority from among those referred to in Article 29 of that regulation.</p>

#### **4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))**

##### ***True sale, assignment or transfer with the same legal effect***

10. For the purposes of Article 20(1) of Regulation (EU) 2017/2402 and in order to substantiate the confidence of third parties, including third parties verifying simple, transparent and standardised (STS) compliance in accordance with Article 28 of that Regulation and competent authorities meeting the requirements specified therein, all of the following should be provided:

(a) confirmation of the true sale or confirmation that, under the applicable national framework, the assignment or transfer segregate the underlying exposures from the seller, its creditors and its liquidators, including in the event of the seller's insolvency, with the same legal effect as that achieved by means of true sale;

(b) confirmation of the enforceability of the true sale, assignment or transfer with the same legal effect referred to in point (a) against the seller or any other third party, under the applicable national legal framework;

(c) assessment of clawback risks and re-characterisation risks.

11. The confirmation of the aspects referred to in paragraph 10 should be achieved by the provision of a legal opinion provided by qualified external legal counsel, except in the case of repeat issuances in standalone securitisation structures or master trusts that use the same legal mechanism for the transfer, including instances in which the legal framework is the same.

12. The legal opinion referred to in paragraph 11 should be accessible and made available to any relevant third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402 and any relevant competent authority from among those referred to in Article 29 of that regulation.

Article 20 - Requirements relating to simplicity		
20.2. For the purpose of paragraph 1, any of the following shall constitute severe clawback provisions: (a) provisions which allow the liquidator of the seller to invalidate the sale of the underlying exposures solely on the basis that it was concluded within a certain period before the declaration of the seller's insolvency; (b) provisions where the SSPE can only prevent the invalidation referred to in point (a) if it can prove that it was not aware of the insolvency of the seller at the time of sale.		
STS criteria		
Verified?	Yes	
PCS Comment		
COMI is in the UK. The UK does not have severe clawback provisions. See comment under checklist point 1.		
EBA Final non-ABCP STS Guidelines – statements on background and rationale		
True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))		
17. The criterion in Article 20(2) is designed to ensure the enforceability of the transfer of legal title in the event of the seller's insolvency. More specifically, if the underlying exposures sold to the SSPE could be reclaimed for the sole reason that their transfer was effected within a certain period before the seller's insolvency, or if the SSPE could prevent the reclaim only by proving that it was unaware of the seller's insolvency at the time of transfer, such clauses would expose investors to a high risk that the underlying exposures would not effectively back their contractual claims. For this reason, Article 20(2) specifies that such clauses constitute severe clawback provisions, which may not be contained in STS securitisation.		
EBA Final non-ABCP STS Guidelines		
4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))		
True sale, assignment or transfer with the same legal effect		
10. For the purposes of Article 20(1) of Regulation (EU) 2017/2402 and in order to substantiate the confidence of third parties, including third parties verifying simple, transparent and standardised (STS) compliance in accordance with Article 28 of that Regulation and competent authorities meeting the requirements specified therein, all of the following should be provided: (a) confirmation of the true sale or confirmation that, under the applicable national framework, the assignment or transfer segregate the underlying exposures from the seller, its creditors and its liquidators, including in the event of the seller's insolvency, with the same legal effect as that achieved by means of true sale; (b) confirmation of the enforceability of the true sale, assignment or transfer with the same legal effect referred to in point (a) against the seller or any other third party, under the applicable national legal framework; (c) assessment of clawback risks and re-characterisation risks.		
11. The confirmation of the aspects referred to in paragraph 10 should be achieved by the provision of a legal opinion provided by qualified external legal counsel, except in the case of repeat issuances in standalone securitisation structures or master trusts that use the same legal mechanism for the transfer, including instances in which the legal framework is the same.		
12. The legal opinion referred to in paragraph 11 should be accessible and made available to any relevant third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402 and any relevant competent authority from among those referred to in Article 29 of that regulation.

	<b>Article 20 - Requirements relating to simplicity</b>	
	<p>20.5. Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the transaction, the triggers to effect such perfection shall, at least include the following events:</p> <p>(a) severe deterioration in the seller credit quality standing;</p> <p>(b) insolvency of the seller; and</p> <p>(c) unremedied breaches of contractual obligations by the seller, including the seller's default.</p>	
	<b>STS criteria</b>	
	<p>4. Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the transaction, the triggers to effect such perfection shall, at least include the following events:</p> <p>(a) severe deterioration in the seller credit quality standing;</p> <p>(b) insolvency of the seller; and</p> <p>(c) unremedied breaches of contractual obligations by the seller, including the seller's default.</p>	
	<b>Verified?</b>	Yes
	<b>PCS Comment</b>	
	<p>See Prospectus, <i>PORTFOLIO AND SERVICING</i>.</p> <p>Obligor Notification Events: Transfer of the legal title to the relevant Purchased Receivables will be completed on the occurrence of a Servicer Termination Event or Severe Deterioration Event.</p> <p>See Prospectus, <i>MASTER DEFINITIONS SCHEDULE</i>.</p> <p>"Obligor Notification Event" means a Servicer Termination Event or a Severe Deterioration Event has occurred.</p> <p>"Servicer Termination Event" means the occurrence of any of the following events:</p> <p>(a) the Seller or the Servicer is Insolvent;</p> <p>(b) the Seller or the Servicer fails to make any payment or deposit required by the terms of the relevant Transaction SA UK 2020-1 Document within five (5) Business Days of the date such payment or deposit is required to be made;</p> <p>(c) the Seller or the Servicer fails to perform any of its material obligations under the Receivables Purchase Agreement and/or the Servicing Agreement (other than a payment or deposit required), and such breach, if capable of remedy, is not remedied within twenty (20) Business Days of written notice from the Issuer or the Security Trustee; or</p> <p>(d) any representation or warranty in the Receivables Purchase Agreement or in the Servicing Agreement or in any report provided by the Seller or the Servicer is materially false or incorrect, and such inaccuracy, if capable of remedy, is not remedied within twenty (20) Business Days of written notice from the Issuer or the Security Trustee and has a Material Adverse Effect in relation to the Issuer.</p> <p>"Severe Deterioration Event" means all or any part of the property, business, undertakings, assets or revenues of the Seller having an aggregate value in excess of £60,000,000 having been attached as a result of any distress, execution or diligence being levied or any encumbrancer taking possession or similar attachment and such attachment having not been lifted within 30 days, unless such event will not materially prejudice the ability of the Seller to observe or perform its obligations under the Transaction Documents or the enforceability or collectability of the Purchased Receivables.</p> <p><i>Criterion 4 requires two steps:</i></p> <ul style="list-style-type: none"> <li>• To determine whether the transfer of the assets is by means of an unperfected assignment; and</li> <li>• If it is, whether the transaction contains the requisite triggers.</li> </ul> <p><i>In the absence of any definition of "an assignment perfected at a later stage" in the Regulation or the EBA Guidelines and without additional views from the UK Financial Conduct Authority it is not possible to determine with finality whether an English equitable assignment is "unperfected" within the meaning of the Regulation – as distinguished from the meaning of the English rules of equity. PCS believes there are good reasons why the Regulation's term of "an assignment perfected at a later stage" does not encompass an English equitable assignment.</i></p>	

However, this is not a question that is required to be answered in the case of the Transaction since, even if equitable assignments are unperfected assignments as defined in the Regulation, the requirements of the criterion are met by the Transaction.

PCS has measured the trigger events against the EBA Guidelines.

20.5(a)

No absolute definition of “severe deterioration” can be given, but clearly the Regulation is seeking to avoid requiring a “hair trigger” deterioration. In other words, an originator could provide a “hair trigger” deterioration if it wanted to. Therefore, the rule does not require an originator or investor to weigh carefully the severity of the trigger so long as it meets the requirements of the EBA Guidelines to be related to the seller’s credit standing, be observable and related to financial health.

The trigger provided in the Transaction meets these requirements.

20.5(b)

The insolvency trigger is in the Transaction.

20.5(c)

The Regulation refers to “unremedied breaches of contractual obligations by the seller, including the seller’s default”.

PCS notes that neither the Regulation nor the EBA Guidelines specify which contractual obligations are targeted. One can assume that this cannot possibly mean any seller contractual obligation since most financial institutions have millions of contractual obligations under tens of thousands of contracts. It is not conceivable that, in order to protect a securitisation, a transfer could be required resulting from a trivial breach of a totally unrelated contractual provision (e.g. to keep the walls painted on a leased property unconnected to the transaction).

PCS also notes that the Regulation clearly does not say “any breaches of contractual obligations”. Therefore, the Regulation must be aiming at an undefined sub-set of contractual obligations. In the absence of any indication in the Regulation or EBA Guidelines as to what this sub-set may be, PCS concludes, until clarification may be provided, that it is up to the originator to define which sub-set of obligations should trigger a possible perfection.

PCS does believe though that the Regulation must be interpreted in a purposive manner – as evidenced by the EBA Guidelines. Therefore, the sub-set of obligations selected by the originator cannot be capricious but should have some connection with the risks that would be run by investors if the seller should encounter a problem prior to perfection of the title.

The unremedied breach trigger is in the Transaction.

#### **EBA Final non-ABCP STS Guidelines – statements on *background and rationale***

##### **True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))**

20. The objective of the criterion in Article 20(5) is to minimise legal risks related to unperfected transfers in the context of an assignment of the underlying exposures, by specifying a minimum set of events subsequent to closing that should trigger the perfection of the transfer of the underlying exposures.

22. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:

(a) how to substantiate the confidence of third parties with respect to compliance with Article 20(1): it is understood that this should be achieved by providing a legal opinion. While the guidance does not explicitly require the provision of a legal opinion in all cases, the guidance expects a legal opinion to be provided as a general rule, and omission to be an exception;

(b) the triggers to effect the perfection of the transfer if assignments are perfected at a later stage than at the closing of the transaction.

#### **EBA Final non-ABCP STS Guidelines**

##### **4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))**

###### ***Severe deterioration in the seller credit quality standing***

13. For the purposes of Article 20(5) of Regulation (EU) 2017/2402, the transaction documentation should identify, with regard to the trigger of ‘severe deterioration in the seller credit quality standing’, credit quality thresholds that are objectively observable and related to the financial health of the seller.

###### ***Insolvency of the seller***

14. For the purposes of Article 20(5) of Regulation (EU) 2017/2402, the trigger of ‘insolvency of the seller’ should refer, at least, to events of legal insolvency as defined in national legal frameworks.

5	<b>Legislative text</b>	<a href="#">BACK TO TABLE OF CONTENTS</a>

	<b>STS criteria</b>	
	8. Exposures transferred to the SSPE after the closing of the transaction shall meet the eligibility criteria applied to the initial underlying exposures.	
	<b>Verified?</b>	Yes
	<b>PCS Comment</b>	
	Not applicable (no revolving period).	
	<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>	
	<b>Eligibility criteria for the underlying exposures, active portfolio management (Article 20.7)</b>	
	25. Revolving periods and other structural mechanisms resulting in the inclusion of exposures in the securitisation after the closing of the transaction may introduce the risk that exposures of lesser quality can be transferred into the pool. For this reason, it should be ensured that any exposure transferred into the securitisation after the closing meets the eligibility criteria, which are no less strict than those used to structure the initial pool of the securitisation.	
	26. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:	
	(a) the purpose of the requirement on the portfolio management, and the provision of examples of techniques which should not be regarded as active portfolio management: this criterion should be considered without prejudice to the existing requirements with respect to the similarity of the underwriting standards in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, which requires that all the underlying exposures in a securitisation be underwritten according to similar underwriting standards;	
	(b) interpretation of the term 'clear' eligibility criteria;	
	(c) clarification with respect to the eligibility criteria that need to be met with respect to the exposures transferred to the SSPE after the closing.	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>4.2 Eligibility criteria for the underlying exposures, active portfolio management (Article 20.7)</b>	
	<i>Eligibility criteria to be met for exposures transferred to the SSPE after the closing of the transaction</i>	
	18. For the purposes of Article 20(7) of Regulation (EU) 2017/2402, 'meeting the eligibility criteria applied to the initial underlying exposures' should be understood to mean eligibility criteria that comply with either of the following:	
	(a) with regard to normal securitisations, they are no less strict than the eligibility criteria applied to the initial underlying exposures at the closing of the transaction;	
	(b) with regard to securitisations that issue multiple series of securities including master trusts, they are no less strict than the eligibility criteria applied to the initial underlying exposures at the most recent issuance, with the results that the eligibility criteria may vary from closing to closing, with the agreement of securitisation parties and in accordance with the transaction documentation.	
	19. Eligibility criteria to be applied to the underlying exposures in accordance with paragraph 18 should be specified in the transaction documentation and should refer to eligibility criteria applied at exposure level.	

9	Legislative text	<a href="#">BACK TO TABLE OF CONTENTS</a>

	See point 14 above.		
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>		
	<b>No resecuritisation (Article 20(9))</b> 31. The objective of this criterion is to prohibit resecuritisation subject to derogations for certain cases or for resecuritisation as specified in Regulation (EU) 2017/2402. This is a lesson learnt from the financial crisis, when resecuritisations were structured into highly leveraged structures in which notes of lower credit quality could be re-packaged and credit enhanced, resulting in transactions whereby small changes in the credit performance of the underlying assets had severe impacts on the credit quality of the resecuritisation bonds. The modelling of the credit risk arising in these bonds proved very difficult, also due to high levels of correlations arising in the resulting structures. 32. The criterion is deemed sufficiently clear and does not require any further clarification.		
EBA Final non-ABCP STS Guidelines			

16	Legislative text		<a href="#">BACK TO TABLE OF CONTENTS</a>
	Article 20 - Requirements relating to simplicity		
	20.10. The underlying exposures shall be originated in the ordinary course of the originator's or original lender's business pursuant to underwriting standards that are no less stringent than those that the originator or original lender applied at the time of origination to similar exposures that are not securitised.

	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>		
	Underwriting standards (Article 20(10)) 33. The objective of the criterion specified in the first subparagraph of Article 20(10) is to prevent cherry picking and to ensure that the exposures that are to be securitised do not belong to exposure types that are outside the ordinary business of the originator, i.e. types of exposures in which the originator or original lender may have less expertise and/or interest at stake. This criterion is focused on disclosure of changes to the underwriting standards and aims to help the investors assess the underwriting standards pursuant to which the exposures transferred into securitisation have been originated.		
EBA Final non-ABCP STS Guidelines			

17	Legislative text	<a href="#">BACK TO TABLE OF CONTENTS</a>
	<b>Article 20 - Requirements relating to simplicity</b>	
	20.10. The underlying exposures shall be originated in the ordinary course of the originator's or original lender's business pursuant to underwriting standards that are no less stringent than those that the originator or original lender applied at the time of origination to similar exposures that are not securitised.	
	<b>STS criteria</b>	
	17. Pursuant to underwriting standards that are no less stringent than those that the originator or original lender applied at the time of origination to similar exposures that are not securitised.	
	<b>Verified?</b>	<b>Yes</b>
	<b>PCS Comment</b>	
	See Prospectus, 3. ELIGIBILITY CRITERIA (a) such Receivable has been randomly selected;	
	<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>	
	<b>Underwriting standards (Article 20(10))</b>	
	37. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:	
	(a) the term 'similar exposures', with reference to requirements specified in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402;	
	(b) the term 'no less stringent underwriting standards': independently of the guidance provided in these guidelines, it is understood that, in the spirit of restricting the 'originate-to-distribute' model of underwriting, where similar exposures exist on the originator's balance sheet, the underwriting standards that have been applied to the securitised exposures should also have been applied to similar exposures that have not been securitised, i.e. the underwriting standards should have been applied not solely to securitised exposures;	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>4.4 Underwriting standards, originator's expertise (Article 20(10))</b>	
	<b><i>No less stringent underwriting standards</i></b>	
	23. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, the underwriting standards applied to securitised exposures should be compared to the underwriting standards applied to similar exposures at the time of origination of the securitised exposures.	
	24. Compliance with this requirement should not require either the originator or the original lender to hold similar exposures on its balance sheet at the time of the selection of the securitised exposures or at the exact time of their securitisation, nor should it require that similar exposures were actually originated at the time of origination of the securitised exposures.	

18	Legislative text	<a href="#">BACK TO TABLE OF CONTENTS</a>
	<b>Article 20 - Requirements relating to simplicity</b>	
	The underwriting standards pursuant to which the underlying exposures are originated and any material changes from prior underwriting standards shall be fully disclosed to potential investors without undue delay.	
	<b>STS criteria</b>	
	18. The underwriting standards pursuant to which the underlying exposures are originated and any material changes from prior underwriting standards shall be fully disclosed to potential investors without undue delay.	
	<b>Verified?</b>	Yes
	<b>PCS Comment</b>	
	<p>See Prospectus, <i>COMPLIANCE WITH ARTICLE 7 OF THE SECURITISATION REGULATION</i>.</p> <p>Compliance with Article 7 of the Securitisation Regulation</p> <p>(a) pursuant to the Servicing Agreement the Servicer has undertaken to (on behalf of the Reporting Entity):</p> <p>(vi) disclose without delay any material changes from Servicer's prior underwriting policies and servicing collection procedures, to the extent required under Article 20(10) of the Securitisation Regulation and the Transaction SA UK 2020-1 Documents.</p> <p><i>Although somewhat confusingly drafted, the EBA Guidelines make clear that the part of the criterion referring to changes from prior underwriting is a future event criterion. It applies changes in underwriting criteria that occur post-closing. In other words, it cannot be either met or failed at the outset of the transaction. But if, at a later stage, it is not met, then the Originator will need to inform ESMA and the STS status of the securitisation will be lost.</i></p> <p><i>Therefore, as a technical matter, this criterion is not applicable at the closing of a transaction. However, PCS will nevertheless look to see if there is a covenant on the part of the originator to comply in the future with this requirement whilst noting at the same time that the absence of any such covenant – although possibly unsettling for some investors – would not invalidate the STS status of the transaction at closing.</i></p>	
	<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>	
	<b>Underwriting standards (Article 20(10))</b>	
	37 (c) clarification of the requirement to disclose material changes from prior underwriting standards to potential investors without undue delay: the guidance clarifies that this requirement should be forward-looking only, referring to material changes to the underwriting standards after the closing of the securitisation. The guidance clarifies the interactions with the requirement for similarity of the underwriting standards set out in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, which requires that all the underlying exposures in securitisation be underwritten according to similar underwriting standards;	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>4.4 Underwriting standards, originator's expertise (Article 20(10))</b>	
	<b>Disclosure of material changes from prior underwriting standards</b>	
	25. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, material changes to the underwriting standards that are required to be fully disclosed should be understood to be those material changes to the underwriting standards that are applied to the exposures that are transferred to, or assigned by, the SSPE after the closing of the securitisation in the context of portfolio management as referred to in paragraphs 15 and 16.	
	26. Changes to such underwriting standards should be deemed material where they refer to either of the following types of changes to the underwriting standards:	
	(a) changes which affect the requirement of the similarity of the underwriting standards further specified in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402;	
	(b) changes which materially affect the overall credit risk or expected average performance of the portfolio of underlying exposures without resulting in substantially different approaches to the assessment of the credit risk associated with the underlying exposures.	
	27. The disclosure of all changes to underwriting standards should include an explanation of the purpose of such changes.	

<p>28. With regard to trade receivables that are not originated in the form of a loan, reference to underwriting standards in Article 20(10) should be understood to refer to credit standards applied by the seller to short-term credit generally of the type giving rise to the securitised exposures and proposed to its customers in relation to the sales of its products and services.</p>
---

19	<b>Legislative text</b>	<a href="#">BACK TO TABLE OF CONTENTS</a>
	<b>Article 20 - Requirements relating to simplicity</b>	
	<p>In the case of securitisations where the underlying exposures are residential loans, the pool of loans shall not include any loan that was marketed and underwritten on the premise that the loan applicant or, where applicable intermediaries, were made aware that the information provided might not be verified by the lender.</p>	
	<b>STS criteria</b>	
	<p>19. In the case of securitisations where the underlying exposures are residential loans, the pool of loans shall not include any loan that was marketed and underwritten on the premise that the loan applicant or, where applicable intermediaries, were made aware that the information provided might not be verified by the lender.</p>	
	<b>Verified?</b>	<b>Yes</b>
	<b>PCS Comment</b>	
	<p><i>Not applicable.</i></p>	
	<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>	
	<b>Underwriting standards (Article 20(10))</b>	
	<p>34. The objective of the criterion specified in the second subparagraph of Article 20(10) is to prohibit the securitisation of self-certified mortgages for STS purposes, given the moral hazard that is inherent in granting such types of loans.</p>	
	<p>37 (d) the scope of the criterion with respect to the specific types of residential loans as referred to in the second subparagraph of Article 20(10) and to the nature of the information that should be captured by this criterion;</p>	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>4.4 Underwriting standards, originator's expertise (Article 20(10))</b>	
	<b>Residential loans</b>	
	<p>29. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, the pool of underlying exposures should not include residential loans that were both marketed and underwritten on the premise that the loan applicant or intermediaries were made aware that the information provided might not be verified by the lender.</p>	
	<p>30. Residential loans that were underwritten but were not marketed on the premise that the loan applicant or intermediaries were made aware that the information provided might not be verified by the lender, or become aware after the loan was underwritten, are not captured by this requirement.</p>	
	<p>31. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, the 'information' provided should be considered to be only relevant information. The relevance of the information should be based on whether the information is a relevant underwriting metric, such as information considered relevant for assessing the creditworthiness of a borrower, for assessing access to collateral and for reducing the risk of fraud.</p>	
	<p>32. Relevant information for general non-income-generating residential mortgages should normally be considered to constitute income, and relevant information for income-generating residential mortgages should normally be considered to constitute rental income. Information that is not useful as an underwriting metric, such as mobile phone numbers, should not be considered relevant information.</p>

	STS criteria	
	21. The originator or original lender shall have expertise in originating exposures of a similar nature to those securitised.	
	<b>Verified?</b>	<b>Yes</b>
	<b>PCS Comment</b>	
	<p>See Prospectus, <i>THE SELLER, THE SERVICER AND THE SUBORDINATED LENDER</i>.</p> <p><b>BUSINESS AND ORGANISATION OF MBFS</b></p> <p>Description of the Seller and the Servicer</p> <p>MBFS is a finance company incorporated in England and Wales, authorised and regulated by the Financial Conduct Authority. MBFS is a wholly-owned subsidiary of Daimler AG, the parent organisation responsible for all Daimler products and services worldwide (see corporate structure chart below). MBFS has been supporting Daimler UK Group sales in the United Kingdom for over 25 years. Since October 2009 the Daimler brands in the United Kingdom encompass Mercedes-Benz, smart, Mitsubishi Fuso and Setra. Sales partners for automotive financial services are the Daimler automobile dealerships. MBFS has originated and serviced auto-loans for more than five years, being exposures similar to the Purchased Receivables. The Servicer has expertise in servicing – and has well-documented and adequate policies, procedures and risk-management controls relating to the servicing of – the portfolio and the wider MBFS portfolio.</p> <p><i>An entity originating assets similar to those securitised for at least five years is deemed, according to the EBA Guidelines to have “expertise”.</i></p>	
	<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>	
	<b>Underwriting standards (Article 20(10))</b>	
	36. The objective of the criterion specified in the fourth subparagraph of Article 20(10) is for the originator or original lender to have an established performance history of credit claims or receivables similar to those being securitised, and for an appropriately long period of time.	
	37 (f) identification of criteria on which the expertise of the originator or the original lender should be determined:	
	(i) when assessing if the originator or the original lender has the required expertise, some general principles should be set out against which the expertise should be assessed. The general principles have been designed to allow a robust qualitative assessment of the expertise. One of these principles is the regulatory authorisation: this is to allow for more flexibility in such qualitative assessments of the expertise if the originator or the original lender is a prudentially regulated institution which holds regulatory authorisations or permissions that are relevant with respect to origination of similar exposures. The regulatory authorisation in itself should, however, not be a guarantee that the originator or original lender has the required expertise;	
	(ii) irrespective of such general principles, specific criteria should be developed, based on specifying a minimum period for an entity to perform the business of originating similar exposures, compliance with which would enable the entity to be considered to have a sufficient expertise. Such expertise should be assessed at the group level, so that possible restructuring at the entity level would not automatically lead to non-compliance with the expertise criterion. It is not the intention of such specific criteria to form an impediment to the entry of new participants to the market. Such entities should also be eligible for compliance with the expertise criterion, as long as their management body and senior staff with managerial responsibility for origination of similar exposures, have sufficient experience over a minimum specified period.	
	38. It is expected that information on the assessment of the expertise is provided in sufficient detail in the STS notification.	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>4.4 Underwriting standards, originator’s expertise (Article 20(10))</b>	
	<b>Similar exposures</b>	
	22. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, exposures should be considered to be similar when one of the following conditions is met:	

- (a) the exposures belong to one of the following asset categories referred to in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402:
- (i) residential loans secured with one or several mortgages on residential immovable property, or residential loans fully guaranteed by an eligible protection provider among those referred to in Article 20(1) of Regulation (EU) No 575/2013 qualifying for credit quality step 2 or above as set out in Part Three, Title II, Chapter 2 of that regulation;
  - (ii) commercial loans secured with one or several mortgages on commercial immovable property or other commercial premises;
  - (iii) credit facilities provided to individuals for personal, family or household consumption purposes;
  - (iv) auto loans and leases;
  - (v) credit card receivables;
  - (vi) trade receivables;
- (b) the exposures fall under the asset category of credit facilities provided to micro-, small-, medium-sized and other types of enterprises and corporates including loans and leases, as referred to in Article 2(d) of the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, as underlying exposures of a certain type of obligor;
- (c) where they do not belong to any of the asset categories referred to in points (a) and (b) of this paragraph and as referred to in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous for the purposes of Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, the underlying exposures share similar characteristics with respect to the type of obligor, ranking of security rights, type of immovable property and/or jurisdiction.
- Criteria for determining the expertise of the originator or original lender*
34. For the purposes of determining whether an originator or original lender has expertise in originating exposures of a similar nature to those securitised in accordance with Article 20(10) of Regulation (EU) 2017/2402, both of the following should apply:
- (a) the members of the management body of the originator or original lender and the senior staff, other than the members of the management body, responsible for managing the originating of exposures of a similar nature to those securitised should have adequate knowledge and skills in the origination of exposures of a similar nature to those securitised;
- (b) any of the following principles on the quality of the expertise should be taken into account:
- (i) the role and duties of the members of the management body and the senior staff and the required capabilities should be adequate;
  - (ii) the experience of the members of the management body and the senior staff gained in previous positions, education and training should be sufficient;
  - (iii) the involvement of the members of the management body and the senior staff within the governance structure of the function of originating the exposures should be appropriate;
  - (iv) in the case of a prudentially regulated entity, the regulatory authorisations or permissions held by the entity should be deemed relevant to origination of exposures of a similar nature to those securitised.
35. An originator or original lender should be deemed to have the required expertise when either of the following applies:
- (a) the business of the entity, or of the consolidated group to which the entity belongs for accounting or prudential purposes, has included the originating of exposures similar to those securitised, for at least five years;
- (b) where the requirement referred to in point (a) is not met, the originator or original lender should be deemed to have the required expertise where they comply with both of the following:
- (i) at least two of the members of the management body have relevant professional experience in the origination of exposures similar to those securitised, at a personal level, of at least five years;
  - (ii) senior staff, other than members of the management body, who are responsible for managing the entity's originating of exposures similar to those securitised, have relevant professional experience in the origination of exposures of a similar nature to those securitised, at a personal level, of at least five years.
36. For the purposes of demonstrating the number of years of professional experience, the relevant expertise should be disclosed in sufficient detail and in accordance with the applicable confidentiality requirements to permit investors to carry out their obligations under Article 5(3)(c) of Regulation (EU) 2017/2402.

	<p>See Prospectus, <i>DESCRIPTION OF THE PORTFOLIO</i>.</p> <p>3. ELIGIBILITY CRITERIA</p> <p>(c) the Obligor in respect of such Receivable:</p> <p>(vi) does not have a credit assessment indicating, based on the Credit and Collection Policy, a significant risk that contractually agreed payments will not be made;</p> <p>(g) such Receivable is not a Defaulted Receivable, a Redelivery PCP Contract or a Voluntarily Terminated Receivable;</p> <p>See Prospectus, <i>MASTER DEFINITIONS SCHEDULE</i>.</p> <p>"Defaulted Receivable" means any Purchased Receivable in respect of which:</p> <p>(a) on the Determination Date falling on the last day of a Collection Period, the Obligor will, on the Determination Date relating to the immediately preceding Collection Period, be three (3) or more (not necessarily consecutive) instalments in arrears provided that, for the purposes of determining whether an instalment is in arrears, the payment of an instalment within five (5) calendar days of the due date shall not be treated as an instalment in arrears, or, if earlier,</p> <p>(b) the Purchased Receivable has been declared defaulted in accordance with the Credit and Collection Policy.</p> <p>See underlying transaction documents: Incorporated Terms Memorandum.</p> <p>APPENDIX 3</p> <p>SELLER STS WARRANTIES</p> <p>As of the Purchase Date the Seller represents and warrants the following:</p> <p>6. none of the Purchased Receivables was as at the Cut-off Date an exposure in default within the meaning of Article 178(1) of Regulation (EU) No 575/2013 or an exposure to a credit-impaired debtor or guarantor, who, to the best of the Originator's knowledge:</p>	
	<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>	
	<p><b>No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b></p> <p>39. The objective of the criterion in Article 20(11) is to ensure that STS securitisations are not characterised by underlying exposures whose credit risk has already been affected by certain negative events such as disputes with credit-impaired debtors or guarantors, debt restructuring processes or default events as identified by the EU prudential regulation. Risk analysis and due diligence assessments by investors become more complex whenever the securitisation includes exposures subject to certain ongoing negative credit risk developments. For the same reasons, STS securitisations should not include underlying exposures to credit-impaired debtors or guarantors that have an adverse credit history. In addition, significant risk of default normally rises as rating grades or other scores are assigned that indicate highly speculative credit quality and high likelihood of default, i.e. the possibility that the debtor or guarantor is not able to meet its obligations becomes a real possibility. Such exposures to credit-impaired debtors or guarantors should therefore also not be eligible for STS purposes.</p> <p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p>	

<p>(a) Interpretation of the term 'exposures in default': given the differences in interpretation of the term 'default', the interpretation of this criterion should refer to additional guidance on this term provided in the existing delegated regulations and guidelines developed by the EBA, while taking into account the limitation of scope of that additional guidance to certain types of institutions;</p>
<p><b>EBA Final non-ABCP STS Guidelines</b></p>
<p><b>4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b></p> <p><i>Exposures in default</i></p> <p>37. For the purposes of the first subparagraph of Article 20(11) of Regulation (EU) 2017/2402, the exposures in default should be interpreted in the meaning of Article 178(1) of Regulation (EU) 575/2013, as further specified by the Delegated Regulation on the materiality threshold for credit obligations past due developed in accordance with Article 178 of that Regulation, and by the EBA Guidelines on the application of the definition of default developed in accordance with Article 178(7) of that regulation.</p> <p>38. Where an originator or original lender is not an institution and is therefore not subject to Regulation (EU) 575/2013, the originator or original lender should comply with the guidance provided in the previous paragraph to the extent that such application is not deemed to be unduly burdensome. In that case, the originator or original lender should apply the established processes and the information obtained from debtors on origination of the exposures, information obtained from the originator in the course of its servicing of the exposures or in the course of its risk management procedure or information notified to the originator by a third party.</p>

	<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>	
	<b>No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>	
	39. The objective of the criterion in Article 20(11) is to ensure that STS securitisations are not characterised by underlying exposures whose credit risk has already been affected by certain negative events such as disputes with credit-impaired debtors or guarantors, debt-restructuring processes or default events as identified by the EU prudential regulation. Risk analysis and due diligence assessments by investors become more complex whenever the securitisation includes exposures subject to certain ongoing negative credit risk developments. For the same reasons, STS securitisations should not include underlying exposures to credit-impaired debtors or guarantors that have an adverse credit history. In addition, significant risk of default normally rises as rating grades or other scores are assigned that indicate highly speculative credit quality and high likelihood of default, i.e. the possibility that the debtor or guarantor is not able to meet its obligations becomes a real possibility. Such exposures to credit-impaired debtors or guarantors should therefore also not be eligible for STS purposes.	
	40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:	
	(b) Interpretation of the term 'exposures to a credit-impaired debtor or guarantor': the interpretation should also take into account the interpretation provided in recital 26 of Regulation (EU) 2017/2402, according to which the circumstances specified in points (a) to (c) of Article 24(9) of that regulation are understood as specific situations of credit-impairedness to which exposures in the STS securitisation may not be exposed. Consequently, other possible circumstances of credit-impairedness that are not captured in points (a) to (c) should be outside the scope of this requirement. Moreover, taking into account the role of the guarantor as a risk bearer, it should be clarified that the requirement to exclude 'exposures to a credit-impaired debtor or guarantor' is not meant to exclude (i) exposures to a credit-impaired debtor when it has a guarantor that is not credit impaired; or (ii) exposures to a non-credit-impaired debtor when there is a credit-impaired guarantor;	
	(c) Interpretation of the term 'to the best knowledge of': the interpretation should follow the wording of recital 26 of Regulation (EU) 2017/2402, according to which an originator or original lender is not required to take all legally possible steps to determine the debtor's credit status but is only required to take those steps that the originator/original lender usually takes within its activities in terms of origination, servicing, risk management and use of information that is received from third parties. This should not require the originator or original lender to check publicly available information, or to check entries in at least one credit registry where an originator or original lender does not conduct such checks within its regular activities in terms of origination, servicing, risk management and use of information received from third parties, but rather relies, for example, on other information that may include credit assessments provided by third parties. Such clarification is important because corporates that are not subject to EU financial sector regulation and that are acting as sellers with respect to STS securitisation may not always check entries in credit registries and, in line with the best knowledge standard, should not be obliged to perform additional checks at origination of any exposure for the purposes of later fulfilling this criterion in terms of any credit-impaired debtors or guarantors;	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>	
	<b><i>Exposures to a credit-impaired debtor or guarantor</i></b>	
	39. For the purposes of Article 20(11) of Regulation (EU) 2017/2402, the circumstances specified in points (a) to (c) of that paragraph should be understood as definitions of credit-impairedness. Other possible circumstances of credit-impairedness that are not captured in points (a) to (c) should be considered to be excluded from this requirement.	
	40. The prohibition of the selection and transfer to SSPE of underlying exposures 'to a credit-impaired debtor or guarantor' as referred to in Article 20(11) of Regulation (EU) 2017/2402 should be understood as the requirement that, at the time of selection, there should be a recourse for the full securitised exposure amount to at least one non-credit-impaired party, irrespective of whether that party is a debtor or a guarantor. Therefore, the underlying exposures should not include either of the following:	

- (a) exposures to a credit-impaired debtor, when there is no guarantor for the full securitised exposure amount;
- (b) exposures to a credit-impaired debtor who has a credit-impaired guarantor.

***To the best of the originator's or original lender's knowledge***

41. For the purposes of Article 20(11) of Regulation (EU) 2017/2402, the 'best knowledge' standard should be considered to be fulfilled on the basis of information obtained only from any of the following combinations of sources and circumstances:

- (a) debtors on origination of the exposures;
- (b) the originator in the course of its servicing of the exposures or in the course of its risk management procedures;
- (c) notifications to the originator by a third party;
- (d) publicly available information or information on any entries in one or more credit registries of persons with adverse credit history at the time of origination of an underlying exposure, only to the extent that this information had already been taken into account in the context of (a), (b) and (c), and in accordance with the applicable regulatory and supervisory requirements, including with respect to sound credit granting criteria as specified in Article 9 of Regulation (EU) 2017/2402. This is with the exception of trade receivables that are not originated in the form of a loan, with respect to which credit-granting criteria do not need to be met.

	<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>	
	<b>No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>	
	<p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(d) Interpretation of the criterion with respect to the debtors and guarantors found on the credit registry: it is important to interpret this requirement in a narrow sense to ensure that the existence of a debtor or guarantor on the credit registry of persons with adverse credit history should not automatically exclude the exposure to that debtor/guarantor from compliance with this criterion. It is understood that this criterion should relate only to debtors and guarantors that are, at the time of origination of the exposure, considered entities with adverse credit history. Existence on a credit registry at the time of origination of the exposure for reasons that can be reasonably ignored for the purposes of the credit risk assessment (for example due to missed payments which have been resolved in the next two payment periods) should not be captured by this requirement. Therefore, this criterion should not automatically exclude from the STS framework exposures to all entities that are on the credit registries, taking into account that this would unintentionally exclude a significant number of entities given that different practices exist across EU jurisdictions with respect to entry requirements of such credit registries, and the fact that credit registries in some jurisdictions may contain both positive and negative information about the clients;</p>	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>	
	<b>Exposures to credit-impaired debtors or guarantors that have undergone a debt-restructuring process</b>	
	<p>42. For the purposes of Article 20(11)(a) of Regulation (EU) 2017/2402, the requirement to exclude exposures to credit-impaired debtors or guarantors who have undergone a debt-restructuring process with regard to their non-performing exposures should be understood to refer to both the restructured exposures of the respective debtor or guarantor and those of its exposures that were not themselves subject to restructuring. For the purposes of this Article, restructured exposures which meet the conditions of points (i) and (ii) of that Article should not result in a debtor or guarantor becoming designated as credit-impaired.</p>

	<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>	
	<b>No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>	
	<p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(e) Interpretation of the term 'significantly higher risk of contractually agreed payments not being made for comparable exposures': the term should be interpreted with a similar meaning to the requirement aiming to prevent adverse selection of assets referred to in Article 6(2) of Regulation (EU) 2017/2402, and further specified in the Article 16(2) of the Delegated Regulation specifying in greater detail the risk retention requirement in accordance with Article 6(7) of Regulation (EU) 2017/2402, given that in both cases the requirement (i) aims to prevent adverse selection of underlying exposures and (ii) relates to the comparison of the credit quality of exposures transferred to the SSPE and comparable exposures that remain on the originator's balance sheet. To facilitate the interpretation, a list is given of examples of how to achieve compliance with the requirement.</p>	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</b>	
	<b>Risk of contractually agreed payments not being made being significantly higher than for comparable exposures</b>	
	<p>44. For the purposes of Article 20(11)(c) of Regulation (EU) 2017/2402, the exposures should not be considered to have a 'credit assessment of a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than for comparable exposures held by the originator which are not securitised' when the following conditions apply:</p> <p>(a) the most relevant factors determining the expected performance of the underlying exposures are similar;</p>	

(b) as a result of the similarity referred to in point (a) it could reasonably have been expected, on the basis of indications such as past performance or applicable models, that, over the life of the transaction or over a maximum of four years, where the life of the transaction is longer than four years, their performance would not be significantly different.

45. The requirement in the previous paragraph should be considered to have been met where either of the following applies:

(a) the underlying exposures do not include exposures that are classified as doubtful, impaired, non-performing or classified to the similar effect under the relevant accounting principles;

(b) the underlying exposures do not include exposures whose credit quality, based on credit ratings or other credit quality thresholds, significantly differs from the credit quality of comparable exposures that the originator originates in the course of its standard lending operations and credit risk strategy.

	<b>Article 20 - Requirements relating to simplicity</b>	
	20.12. The debtors shall at the time of transfer of the exposures, have made at least one payment, except in the case of revolving securitisations backed by exposures payable in a single instalment or having a maturity of less than one year, including without limitation monthly payments on revolving credits.	
	<b>STS criteria</b>	
	31. The debtors shall at the time of transfer of the exposures, have made at least one payment, except in the case of revolving securitisations backed by exposures payable in a single instalment or having a maturity of less than one year, including without limitation monthly payments on revolving credits.	
	<b>Verified?</b>	<b>Yes</b>
	<b>PCS Comment</b>	
	See Prospectus, <i>DESCRIPTION OF THE PORTFOLIO</i> .	
	3. ELIGIBILITY CRITERIA	
	(c) the Obligor in respect of such Receivable:	
	(vii) has made at least one scheduled monthly payment in respect of the Receivable;	
	<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>	
	<b>At least one payment made (Article 20(12))</b>	
	41. STS securitisations should minimise the extent to which investors are required to analyse and assess fraud and operational risk. At least one payment should therefore be made by each underlying borrower at the time of transfer, since this reduces the likelihood of the loan being subject to fraud or operational issues, unless in the case of revolving securitisations in which the distribution of securitised exposures is subject to constant changes because the securitisation relates to exposures payable in a single instalment or with an initial legal maturity of an exposure of below one year.	
	42. To facilitate consistent interpretation of this criterion, its scope and the types of payments referred to therein should be further clarified.	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>4.6 At least one payment made (Article 20(12))</b>	
	<b>Scope of the criterion</b>	
	46. For the purposes of Article 20(12) of Regulation (EU) 2017/2402, further advances in terms of an exposure to a certain borrower should not be deemed to trigger a new 'at least one payment' requirement with respect to such an exposure.	
	<b>At least one payment</b>	
	47. For the purposes of Article 20(12) of Regulation (EU) 2017/2402, the payment referred to in the requirement according to which 'at least one payment' should have been made at the time of transfer should be a rental, principal or interest payment or any other kind of payment.

	<b>Article 20 - Requirements relating to simplicity</b>	
	<p>20.13. The repayment of the holders of the securitisation positions shall not have been structured to depend predominantly on the sale of assets securing the underlying exposures. This shall not prevent such assets from being subsequently rolled-over or refinanced.</p> <p>The repayment of the holders of the securitisation positions whose underlying exposures are secured by assets the value of which is guaranteed or fully mitigated by a repurchase obligation by the seller of the assets securing the underlying exposures or by another third party shall not be considered to depend on the sale of assets securing those underlying exposures.</p>	
	<b>STS criteria</b>	
	32. The repayment of the holders of the securitisation positions shall not have been structured to depend predominantly on the sale of assets securing the underlying exposures.	
	<b>Verified?</b>	Yes
	<b>PCS Comment</b>	
	<p>See Prospectus, <i>OVERVIEW OF THE PRINCIPAL TRANSACTION SA UK 2020-1 DOCUMENTS</i>.</p> <p>1. RECEIVABLES PURCHASE AGREEMENT</p> <p>Rebate Payment in respect of Redelivery PCP Receivables and Voluntarily Terminated Receivables</p> <p>Following the Redelivery PCP/VT Payment Date, the Seller will determine the amount of any related PCP/VT Deficit Amount and pay to the Issuer, by way of rebate of the Purchase Price relating to the relevant Purchased Receivable, an amount equal to the PCP/VT Deficit Amount in respect of such Purchased Receivable.</p> <p>The Seller is not obliged to make such a payment in respect of any Financing Contract subject to Early Settlement.</p> <p>See Prospectus, <i>MASTER DEFINITIONS SCHEDULE</i>.</p> <p>"PCP/VT Deficit Amount" means:</p> <p>(a) in relation to a Redelivery PCP Receivable, an amount equal to that Redelivery PCP Receivable less the net Vehicle Sale Proceeds paid to the Issuer pursuant to clause 6.2 (Vehicle Sale Proceeds) of the Receivables Purchase Agreement and any End of Contract Fees recovered from Obligors; and</p> <p>(b) in relation to a Voluntarily Terminated Receivable, an amount equal to that Voluntarily Terminated Receivable less the net Vehicle Sale Proceeds paid to the Issuer pursuant to clause 6.2 (Vehicle Sale Proceeds) of the Receivables Purchase Agreement.</p> <p>"Redelivery PCP Contract" means a PCP Contract under which the Obligor opts to make full and final settlement of a PCP Contract by redelivery to the Seller of the Vehicle in lieu of making a final payment and acquiring legal title to the Vehicle in accordance with the related PCP Contract.</p> <p>"Redelivery PCP Receivable" means any Purchased Receivable arising under a Redelivery PCP Contract in respect of which the Vehicle at the time that the PCP Contract becomes a Redelivery PCP Contract (i) has not been previously repossessed by the Seller or (ii) is not excessively damaged, recorded as stolen or with an outstanding insurance interest recorded against such Vehicle;</p> <p>"Voluntarily Terminated Receivable" means a Purchased Receivable in relation to which a Voluntary Termination has been exercised.</p>	
	<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>	
	<p><b>No predominant dependence on the sale of assets (Article 20(13))</b></p> <p>43. Dependence of the repayment of the holders of the securitisation positions on the sale of assets securing the underlying exposures increases the liquidity risks, market risks and maturity transformation risks to which the securitisation is exposed. It also makes the credit risk of the securitisation more difficult for investors to model and assess.</p> <p>44. The objective of this criterion is to ensure that the repayment of the principal balance of exposures at the contract maturity – and therefore repayment of the holders of the securitisation positions – is not intended to be predominantly reliant on the sale of assets securing the underlying exposures, unless the value of the assets is guaranteed or fully mitigated by a repurchase obligation.</p> <p>45. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p>	

<p>(a) the term 'predominant dependence' on the sale of assets securing the underlying exposures should be further interpreted:</p> <p>(i) when assessing whether the repayment of the holders of the securitisation positions is or is not predominantly dependent on the sale of assets, the following three aspects should be taken into account: (i) the principal balance at contract maturity of underlying exposures that depend on the sale of assets securing those underlying exposures to repay the balance; (ii) the distribution of maturities of such exposures across the life of the transaction, which aims to reduce the risk of correlated defaults due to idiosyncratic shocks; and (iii) the granularity of the pool of exposures, which aims to promote sufficient distribution in sale dates and other characteristics that may affect the sale of the underlying exposures.</p> <p>(i) no types of securitisations should be excluded ex ante from the compliance with this criterion and from the STS securitisation as long as they meet all the requirements specified in the guidance. For example, this criterion does not aim to exclude leasing transactions and interest-only residential mortgages from STS securitisation, provided they comply with the guidance provided and all other applicable STS requirements. However, it is expected that commercial real estate transactions, or securitisations where the assets are commodities (e.g. oil, grain, gold), or bonds whose maturity dates fall after the maturity date of the securitisation, would not meet these requirements, as in all these cases it is expected that the repayment is predominantly reliant on the sale of the assets, that other possible ways to repay the securitisation positions are substantially limited, and that the granularity of the portfolio is low.</p> <p>46. With respect to the exemption provided in the second subparagraph of Article 20(13) of Regulation (EU) 2017/2402, it should be ensured that the entity providing the guarantee or the repurchase obligation of the assets securing the underlying exposures is not an empty-shell or defaulted entity, so that it has sufficient loss absorbency to exercise the guarantee of the repurchase of the assets.</p>
<p>EBA Final non-ABCP STS Guidelines</p> <p><b>4.7 No Predominant dependence on the sale of assets</b></p> <p><b><i>Predominant dependence on the sale of assets</i></b></p> <p>48. For the purposes of Article 20(13) of Regulation (EU) 2017/2402, transactions where all of the following conditions apply, at the time of origination of the securitisation in cases of amortising securitisation or during the revolving period in cases of revolving securitisation, should be considered not predominantly dependent on the sale of assets securing the underlying exposures, and therefore allowed:</p> <p>(a) the contractually agreed outstanding principal balance, at contract maturity of the underlying exposures that depend on the sale of the assets securing those underlying exposures to repay the principal balance, corresponds to no more than 50% of the total initial exposure value of all securitisation positions of the securitisation;</p> <p>(b) the maturities of the underlying exposures referred to in point (a) are not subject to material concentrations and are sufficiently distributed across the life of the transaction;</p> <p>(c) the aggregate exposure value of all the underlying exposures referred to in point (a) to a single obligor does not exceed 2% of the aggregate exposure value of all underlying exposures in the securitisation.</p> <p>49. Where there are no underlying exposures in the securitisation that depend on the sale of assets to repay their outstanding principal balance at contract maturity, the requirements in paragraph 48 should not apply.</p> <p><b><i>Exemption provided in the second subparagraph of Article 20(13) of Regulation (EU) 2017/2402</i></b></p> <p>50. The exemption referred to in the second subparagraph of Article 20(13) of Regulation (EU) 2017/2402 with regard to the repayment of holders of securitisation positions whose underlying exposures are secured by assets, the value of which is guaranteed or fully mitigated by a repurchase obligation of either the assets securing the underlying exposures or of the underlying exposures themselves by another third party or parties, the seller or the third parties should meet both of the following conditions:</p> <p>(a) they are not insolvent;</p> <p>(b) there is no reason to believe that the entity would not be able to meet its obligations under the guarantee or the repurchase obligation.</p>

	<p>See Prospectus, <i>RISK FACTORS</i>.</p> <p>Interest Rate Risk/Risk of Swap Counterparty Insolvency</p> <p>Payments in respect of the Purchased Receivables made to the Seller by an Obligor under a Financing Contract comprise monthly amounts calculated with respect to a fixed interest rate which may be different to Compounded Daily SONIA, which is the rate of interest (plus a margin) payable on the Class A Notes.</p> <p>The Issuer has entered into the Swap Agreement. The purpose of the Swap Agreement is to mitigate the interest rate risk of the Issuer arising in connection with the issuance of the Class A Notes. The Swap Agreement consists of an ISDA Master Agreement, the associated schedule, a confirmation and a credit support annex.</p> <p>Pursuant to the Swap Agreement entered into by the Issuer and the Swap Counterparty (which shall be an Eligible Swap Counterparty) in relation to the Class A Notes, the Issuer will pay to the Swap Counterparty on each Payment Date an amount equal to the product of (i) the Swap Notional Amount and (ii) the Swap Fixed Rate and (iii) the Day Count Fraction.</p> <p>In return, the Swap Counterparty will pay to the Issuer on each Payment Date an amount equal to the product of (i) the Swap Notional Amount and (ii) a rate equal to Compounded Daily SONIA and (iii) the Day Count Fraction.</p> <p>See Prospectus, <i>OVERVIEW OF THE PRINCIPAL TRANSACTION SA UK 2020-1 DOCUMENTS</i>.</p> <p>11. SWAP AGREEMENT</p> <p><i>Clearly and explicitly, "appropriate" hedging does not require "perfect" hedging. This is confirmed by the EBA Guidelines which require the hedges to cover a "major share" of the risk from an "economic perspective". However, the definition of "appropriate" hedging or a "major share" of the risk will always contain an element of subjectivity and must be analysed on a case by case basis.</i></p> <p><i>The fact that the Regulation was crafted by the legislators to recognise existing high quality European securitisations rather than raise the bar to a level not previously encountered, together with the common-sense approach of the EBA, leads to the conclusion that transactions considered adequately hedged by common investor and rating agency consensus should be held to meet this criterion.</i></p> <p><i>This still requires an analysis of the matter. Since PCS is not a quantitative analysis provider or a credit rating agency, our verification is based on a second-hand analysis which focuses on:</i></p> <ul style="list-style-type: none"> <li><i>• A statement in the Prospectus or other document setting out the boundary conditions of the hedging. This should state in effect how far the hedging stretches and under what scenario's it will break. For example, if interbank rates rise above X%. This will provide a common-sense feel for whether, at first glance, the hedging is reasonable.</i></li> <li><i>• Risk Factors section of the Prospectus to check that no statements refer to the risks of "unhedged positions". This is based on the legal requirement to disclose any relevant information to investors. If the originator or its advisers believed that the hedging in a transaction was unusually light, this should be disclosed in the Risk Section.</i></li> <li><i>• The "pre-sale" report from a recognised credit rating agency (if used) so as to identify any issues with hedging. Again, rating agencies as credit specialists should highlight in their analysis any substantial and unusual hedging risks.</i></li> </ul> <p><i>In the case of the Transaction, payments from the underlying receivables include fixed rate payments, while the Class A notes are floating rate. An interest rate swap is used in the Transaction to mitigate fixed-to-floating interest rate risk. Class B and C notes are fixed rate.</i></p>	
	<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>	

#### **Appropriate mitigation of interest-rate and currency risks (Article 21 (2))**

49. The objective of this criterion is to reduce any payment risk arising from different interest-rate and currency profiles of assets and liabilities. Mitigating or hedging interest-rate and currency risks arising in the transaction enhances the simplicity of the transaction, since it helps investors to model those risks and their impact on the credit risk of the securitisation investment.

50. It should be clarified that hedging (through derivative instruments) is only one possible way of addressing the risks mentioned. Whichever measure is applied for the risk mitigation, it should, however, be subject to specific conditions so that it can be considered to appropriately mitigate the risks mentioned.

51. One of these conditions aims to prohibit derivatives that do not serve the purpose of hedging interest-rate or currency risk from being included in the pool of underlying exposures or entered into by the SSPE, given that derivatives add to the complexity of the transaction and to the complexity of the risk and due diligence analysis to be carried out by the investor. Derivatives hedging interest-rate or currency risk enhance the simplicity of the transaction, since hedged transactions do not require investors to engage in the modelling of currency and interest-rate risks.

52. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:

- (a) conditions that the measures should comply with so that they can be considered to appropriately mitigate the interest-rate and currency risks;
- (b) clarification with respect to the scope of derivatives that should and should not be captured by this criterion;
- (c) clarification of the term 'common standards in international finance'.

#### **EBA Final non-ABCP STS Guidelines**

##### **5.1 Appropriate mitigation of interest-rate and currency risks (Article 21(2))**

##### ***Appropriate mitigation of interest-rate and currency risks***

51. For the purposes of Article 21(2) of Regulation (EU) 2017/2402 in order for the interest-rate and currency risks arising from the securitisation to be considered 'appropriately mitigated', it should be sufficient that a hedge or mitigation is in place, on condition that it is not unusually limited with the effect that it covers a major share of the respective interest-rate or currency risks under relevant scenarios, understood from an economic perspective. Such a mitigation may also be in the form of derivatives or other mitigating measures including reserve funds, over collateralisation, excess spread or other measures.

52. Where the appropriate mitigation of interest-rate and currency risks is carried out through derivatives, all of the following requirements should apply:

- (a) the derivatives should be used only for genuine hedging of asset and liability mismatches of interest rates and currencies, and should not be used for speculative purposes;
- (b) the derivatives should be based on commonly accepted documentation, including International Swaps or Derivatives Association (ISDA) or similar established national documentation standards;
- (c) the derivative documentation should provide, in the event of the loss of sufficient creditworthiness of the counterparty below a certain level, measured either on the basis of the credit rating or otherwise, that the counterparty is subject to collateralisation requirements or makes a reasonable effort for its replacement or guarantee by another counterparty.

53. Where the mitigation of interest-rate and currency risks referred to in Article 21(2) of Regulation (EU) 2017/2402 is carried out not through derivatives but by other risk-mitigating measures, those measures should be designed to be sufficiently robust. When such risk-mitigating measures are used to mitigate multiple risks at the same time, the disclosure required by Article 21(2) of Regulation (EU) 2017/2402 should include an explanation of how the measures hedge the interest-rate risks and currency risks on one hand, and other risks on the other hand.

ELIGIBILITY CRITERIA</p> <p>(m) such Receivable is calculated using an interest rate above or equal to 0.5 per cent. and the interest rate applicable to the Receivable is fixed;</p>	
	<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>	
	<p><b>Referenced interest payments (Article 21 (3))</b></p> <p>53. The objective of this criterion is to prevent securitisations from making reference to interest rates that cannot be observed in the commonly accepted market practice. The credit risk and cash flow analysis that investors must be able to carry out should not involve atypical, complex or complicated rates or variables that cannot be modelled on the basis of market experience and practice.</p> <p>54. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(a) the scope of the criterion (by specifying the common types and examples of interest rates captured by this criterion);</p> <p>(b) the term 'complex formulae or derivatives'.</p>	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<p><b>5.2 Referenced interest payments (Article 21 (3))</b></p> <p><b>Referenced rates</b></p> <p>57. For the purposes of Article 21(3) of Regulation (EU) 2017/2402, interest rates that should be considered to be an adequate reference basis for referenced interest payments should include all of the following:</p>	

- (a) interbank rates including the Libor, Euribor and other recognised benchmarks;
  - (b) rates set by monetary policy authorities, including FED funds rates and central banks' discount rates;
  - (c) sectoral rates reflective of a lender's cost of funds, including standard variable rates and internal interest rates that directly reflect the market costs of funding of a bank or a subset of institutions, to the extent that sufficient data are provided to investors to allow them to assess the relation of the sectoral rates to other market rates.
- Complex formulae or derivatives***
58. For the purposes of Article 21(3) of Regulation (EU) 2017/2402, a formula should be considered to be complex when it meets the definition of an exotic instrument by the Global Association of Risk Professionals (GARP), which is a financial asset or instrument with features that make it more complex than simpler, plain vanilla, products. A complex formula or derivative should not be deemed to exist in the case of the mere use of interest-rate caps or floors.

DEED OF CHARGE</p> <p>Enforcement of the Security</p> <p>For the purposes of Article 21(4)(d) of the Securitisation Regulation, no provision of the Deed of Charge requires automatic liquidation upon default. The provisions of the Deed of Charge require an application of realisation proceeds (if any) obtained by the Security Trustee thereunder in a manner which satisfies the requirements of Article 21(4) of the Securitisation Regulation.</p>	
	<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>	
	<p><b>Requirements in case of enforcement or delivery of an acceleration notice (Article 21(4))</b></p> <p>55. The objective of this criterion is to prevent investors from being subjected to unexpected repayment profiles and to provide appropriate legal comfort regarding their enforceability, for instances where an enforcement or an acceleration notice has been delivered.</p> <p>56. STS securitisations should be such that the required investor's risk analysis and due diligence do not have to factor in complex structures of the payment priority that are difficult to model, nor should the investor be exposed to complex changes in such structures throughout the life of the transaction. Therefore, it should be ensured that junior noteholders do not have inappropriate payment preference over senior noteholders that are due and payable.</p> <p>57. In addition, taking into account that market risk on the underlying collateral constitutes an element of complexity in the risk and due diligence analysis to be carried out by investors, the objective is also to ensure that the performance of STS securitisations does not rely, due to contractual triggers, on the automatic liquidation at market price of the underlying collateral.</p> <p>58. To facilitate consistent interpretation of this criterion, the scope and operational functioning of conditions specified under letters (a), (b) and (d) of Article 21(4) should be specified further.</p>	
	<b>EBA Final non-ABCP STS Guidelines</b>	

### **5.3 Requirements in the event of enforcement or delivery of an acceleration notice (Article 21(4))**

#### ***Exceptional circumstances***

59. For the purposes of Article 21(4)(a) of Regulation (EU) 2017/2402, a list of 'exceptional circumstances' should, to the extent possible, be included in the transaction documentation.

60. Given the nature of 'exceptional circumstances' and in order to allow some flexibility with respect to potential unusual circumstances requiring that cash be trapped in the SSPE in the best interests of investors, where a list of 'exceptional circumstances' is included in the transaction documentation in accordance with paragraph 59, such a list should be non-exhaustive.

#### ***Amount trapped in the SSPE in the best interests of investors***

61. For the purposes of Article 21(4)(a) of Regulation (EU) 2017/2402, the amount of cash to be considered as trapped in the SSPE should be that agreed by the trustee or other representative of the investors who is legally required to act in the best interests of the investors, or by the investors in accordance with the voting provisions set out in the transaction documentation.

62. For the purposes of Article 21(4)(a) of Regulation (EU) 2017/2402, it should be permissible to trap the cash in the SSPE in the form of a reserve fund for future use, as long as the use of the reserve fund is exclusively limited to the purposes set out in Article 21(4)(a) of Regulation (EU) 2017/2402 or to orderly repayment to the investors.

	<p>See Prospectus, <i>THE SELLER, THE SERVICER AND THE SUBORDINATED LENDER</i>.</p> <p><b>BUSINESS AND ORGANISATION OF MBFS</b></p> <p>Description of the Seller and the Servicer</p> <p>MBFS is a finance company incorporated in England and Wales, authorised and regulated by the Financial Conduct Authority. MBFS is a wholly-owned subsidiary of Daimler AG, the parent organisation responsible for all Daimler products and services worldwide (see corporate structure chart below). MBFS has been supporting Daimler UK Group sales in the United Kingdom for over 25 years. Since October 2009 the Daimler brands in the United Kingdom encompass Mercedes-Benz, smart, Mitsubishi Fuso and Setra. Sales partners for automotive financial services are the Daimler automobile dealerships. MBFS has originated and serviced auto-loans for more than five years, being exposures similar to the Purchased Receivables. The Servicer has expertise in servicing – and has well-documented and adequate policies, procedures and risk-management controls relating to the servicing of – the portfolio and the wider MBFS portfolio.</p> <p><i>The EBA Guidelines provide that an entity that has serviced similar assets for at least five years will be deemed to meet the expertise criterion.</i></p>	
	<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>	
	<p><b>Expertise of the Servicer (Article 21 (8))</b></p> <p>65. The objective of this criterion is to ensure that all the conditions are in place for the proper functioning of the servicing function, taking into account the crucial importance of servicing in securitisation and the central nature of this function within any securitisation transaction.</p> <p>66. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(a) criteria for determining the expertise of the servicer;</p> <p>(b) criteria for determining well-documented and adequate policies, procedures and risk management controls of the servicer.</p> <p>67. The criteria for the expertise of the servicer should correspond to those for the expertise of the originator or the original lender. Newly established entities should be allowed to perform the tasks of servicing, as long as the back-up servicer has the appropriate experience. It is expected that information on the assessment of the expertise is provided in sufficient detail in the STS notification.</p>	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<p><b>5.8 Expertise of the servicer (Article 21 (8))</b></p> <p><b>Criteria for determining the expertise of the servicer</b></p> <p>68. For the purposes of determining whether a servicer has expertise in servicing exposures of a similar nature to those securitised in accordance with Article 21(8) of Regulation (EU) 2017/2402, both of the following should apply:</p> <p>(a) the members of the management body of the servicer and the senior staff, other than members of the management body, responsible for servicing exposures of a similar nature to those securitised should have adequate knowledge and skills in the servicing of exposures similar to those securitised;</p> <p>(b) any of the following principles on the quality of the expertise should be taken into account in the determination of the expertise:</p>	

- (i) the role and duties of the members of the management body and the senior staff and the required capabilities should be adequate;
  - (ii) the experience of the members of the management body and the senior staff gained in previous positions, education and training should be sufficient;
  - (iii) the involvement of the members of the management body and the senior staff within the governance structure of the function of servicing the exposures should be appropriate;
  - (iv) in the case of a prudentially regulated entity, the regulatory authorisations or permissions held by the entity should be deemed relevant to the servicing of similar exposures to those securitised.
69. A servicer should be deemed to have the required expertise where either of the following applies:
- (a) the business of the entity, or of the consolidated group, to which the entity belongs, for accounting or prudential purposes, has included the servicing of exposures of a similar nature to those securitised, for at least five years;
  - (b) where the requirement referred to in point (a) is not met, the servicer should be deemed to have the required expertise where they comply with both of the following:
    - (i) at least two of the members of its management body have relevant professional experience in the servicing of exposures of a similar nature to those securitised, at personal level, of at least five years;
    - (ii) senior staff, other than members of the management body, who are responsible for managing the entity's servicing of exposures of a similar nature to those securitised, have relevant professional experience in the servicing of exposures of a similar nature to those securitised, at a personal level, of at least five years;
    - (iii) the servicing function of the entity is backed by the back-up servicer compliant with point (a).
70. For the purpose of demonstrating the number of years of professional experience, the relevant expertise should be disclosed in sufficient detail and in accordance with the applicable confidentiality requirements to permit investors to carry out their obligations under Article 5(3)(c) of Regulation (EU) 2017/2402.
- Exposures of similar nature*
71. For the purposes of Article 21(8) of Regulation (EU) 2017/2402, interpretation of the term 'exposures of similar nature' should follow the interpretation provided in paragraph 23 above.

	<b>Article 22 - Requirements relating to transparency</b>	
	22.3. The originator or the sponsor shall, before the pricing of the securitisation, make available to potential investors a liability cash flow model which precisely represents the contractual relationship between the underlying exposures and the payments flowing between the originator, sponsor, investors, other third parties and the SSPE, and shall, after pricing, make that model available to investors on an ongoing basis and to potential investors upon request.	
	<b>STS criteria</b>	
	69. The originator or the sponsor shall, before the pricing of the securitisation, make available to potential investors a liability cash flow model which precisely represents the contractual relationship between the underlying exposures and the payments flowing between the originator, sponsor, investors, other third parties and the SSPE.	
	<b>Verified?</b>	Yes
	<b>PCS Comment</b>	
	See Prospectus, <i>COMPLIANCE WITH ARTICLE 7 OF THE SECURITISATION REGULATION</i> .	
	Compliance with Article 22 of the Securitisation Regulation	
	(b) has made available – via Moody's Analytics – to any potential investor in the Notes, before pricing of the Notes, an accurate model representing precisely the contractual relationship between the Purchased Receivables and the payments flowing between the Originator, the Noteholders, the Issuer and any other party to the Securitisation which contained an amount of information sufficient to allow such potential investor to price the Notes (the "Liability Cash Flow Model");	
	(c) has undertaken under the Incorporated Terms Memorandum to make available the Liability Cash Flow Model on an ongoing basis to the Noteholders – via Moody's Analytics – and, upon request, to potential investors in the Notes;	
	<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>	
	<b>Liability cashflow model (Article 22(3))</b>	
	76. The objective of this criterion is to assist investors in their ability to appropriately model the cash flow waterfall of the securitisation on the liability side of the SSPE.	
	77. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:	
	(a) interpretation of the term 'precise' representation of the contractual relationships;	
	(b) implications when the model is provided by third parties.	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>Liability cash flow model (Article 22(3))</b>	
	<b>Precise representation of the contractual relationship</b>	
	82. For the purposes of Article 22(3) of Regulation (EU) 2017/2402, the representation of the contractual relationships between the underlying exposures and the payments flowing among the originator, sponsor, investors, other parties and the SSPE should be considered to have been done 'precisely' where it is done accurately and with an amount of detail sufficient to allow investors to model payment obligations of the SSPE and to price the securitisation accordingly. This may include algorithms that permit investors to model a range of different scenarios that will affect cash flows, such as different prepayment or default rates.	
	<b>Third parties</b>	
	83. For the purposes of Article 22(3) of Regulation (EU) 2017/2402, where the liability cash flow model is developed by third parties, the originator or sponsor should remain responsible for making the information available to potential investors.	

70	Legislative text	<a href="#">BACK TO TABLE OF CONTENTS</a>
	<b>Article 22 - Requirements relating to transparency</b>	
	22.3. The originator or the sponsor shall, before the pricing of the securitisation, make available to potential investors a liability cash flow model which precisely represents the contractual relationship between the underlying exposures and the payments flowing between the originator, sponsor, investors, other third parties and the SSPE, and shall, after pricing, make that model available to investors on an ongoing basis and to potential investors upon request.	
	<b>STS criteria</b>	
	70. And shall, after pricing, make that model available to investors on an ongoing basis and to potential investors upon request.	
	<b>Verified?</b>	<b>Yes</b>
	<b>PCS Comment</b>	
	See Prospectus, <i>COMPLIANCE WITH ARTICLE 7 OF THE SECURITISATION REGULATION</i> .	
	Compliance with Article 22 of the Securitisation Regulation	
	(b) has made available – via Moody's Analytics – to any potential investor in the Notes, before pricing of the Notes, an accurate model representing precisely the contractual relationship between the Purchased Receivables and the payments flowing between the Originator, the Noteholders, the Issuer and any other party to the Securitisation which contained an amount of information sufficient to allow such potential investor to price the Notes (the "Liability Cash Flow Model");	
	(c) has undertaken under the Incorporated Terms Memorandum to make available the Liability Cash Flow Model on an ongoing basis to the Noteholders – via Moody's Analytics – and, upon request, to potential investors in the Notes;	
	<i>Although technically covering the period between pricing and close, this is primarily a future event criterion. In other words, it cannot be either met or failed at the outset of the transaction. But if, at a later stage, it is not met, then the Originator will need to inform ESMA and the STS status of the securitisation will be lost. Therefore, as a technical matter, this criterion is not applicable at the closing of a transaction. However, PCS will nevertheless look to see if there is a covenant on the part of the originator to comply in the future with this requirement whilst noting, at the same time, that the absence of any such covenant – although possibly unsettling for some investors - would not invalidate the STS status of the transaction at closing.</i>	
	<b>EBA Final non-ABCP STS Guidelines – statements on background and rationale</b>	
	<b>Liability cashflow model (Article 22(3))</b>	
	76. The objective of this criterion is to assist investors in their ability to appropriately model the cash flow waterfall of the securitisation on the liability side of the SSPE.	
	77. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:	
	(a) interpretation of the term 'precise' representation of the contractual relationships;	
	(b) implications when the model is provided by third parties.	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>Liability cash flow model (Article 22(3)) <i>Precise representation of the contractual relationship</i></b>	
	82. For the purposes of Article 22(3) of Regulation (EU) 2017/2402, the representation of the contractual relationships between the underlying exposures and the payments flowing among the originator, sponsor, investors, other parties and the SSPE should be considered to have been done 'precisely' where it is done accurately and with an amount of detail sufficient to allow investors to model payment obligations of the SSPE and to price the securitisation accordingly. This may include algorithms that permit investors to model a range of different scenarios that will affect cash flows, such as different prepayment or default rates.	
	<b>Third parties</b>	
	83. For the purposes of Article 22(3) of Regulation (EU) 2017/2402, where the liability cash flow model is developed by third parties, the originator or sponsor should remain responsible for making the information available to potential investors.	

71	Legislative text	<a href="#">BACK TO TABLE OF CONTENTS</a>
	<b>Article 22 - Requirements relating to transparency</b>	
	22.4. In case of a securitisation where the underlying exposures are residential loans or car loans or leases, the originator and sponsor shall publish the available information related to the environmental performance of the assets financed by such residential loans or car loans or leases, as part of the information disclosed pursuant to point (a) of the first subparagraph of Article 7(1).	
	<b>STS criteria</b>	
	71. In case of a securitisation where the underlying exposures are residential loans or car loans or leases, the originator and sponsor shall publish the available information related to the environmental performance of the assets financed by such residential loans or car loans or leases, as part of the information disclosed pursuant to point (a) of the first subparagraph of Article 7(1).	
	<b>Verified?</b>	<b>Yes</b>
	<b>PCS Comment</b>	
	<p>4. SELLER RECEIVABLES WARRANTIES</p> <p>As of the Purchase Date, the Seller represents and warrants the following:</p> <p>(i) where available to the Originator, to include the environmental performance of the Financed Vehicles in the Monthly Report.</p>	
	<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>	
	<b>Environmental performance of assets (Article 22(4))</b>	
	78. It should be clarified that this is a requirement of disclosure about the energy efficiency of the assets when this information is available to the originator, sponsor or SSPE, rather than a requirement for a minimum energy efficiency of the assets.	
	79. To facilitate consistent interpretation of this criterion, the term ‘available information related to the environmental performance’ should be further clarified.	
	<b>EBA Final non-ABCP STS Guidelines</b>	
	<b>Environmental performance of assets (Article 22(4))</b>	
	<b><i>Available information related to the environmental performance</i></b>	
	84. This requirement should be applicable only if the information on the energy performance certificates for the assets financed by the underlying exposures is available to the originator, sponsor or the SSPE and captured in its internal database or IT systems. Where information is available only for a proportion of the underlying exposures, the requirement should apply only in respect of the proportion of the underlying exposures for which information is available.	

72	Legislative text	<a href="#">BACK TO TABLE OF CONTENTS</a>
	<b>Article 22 - Requirements relating to transparency</b>	
	22.5. The originator and the sponsor shall be responsible for compliance with Article 7 of this Regulation. The information required by point (a) of the first subparagraph of Article 7(1) shall be made available to potential investors before pricing upon request. The information required by points (b) to (d) of the first subparagraph of Article 7(1) shall be made available before pricing at least in draft or initial form.	
	<b>STS criteria</b>	
	72. The originator and the sponsor shall be responsible for compliance with Article 7 of this Regulation.	
	<b>Verified?</b>	<b>Yes</b>
	<b>PCS Comment</b>	
	See Prospectus, <i>COMPLIANCE WITH ARTICLE 7 OF THE SECURITISATION REGULATION</i> . Introduction The Issuer and the Originator, as originator within the meaning of the Securitisation Regulation, have agreed that the Originator is the "reporting entity" under Article 7(2) of the Securitisation Regulation to fulfil the information requirements of Article 7(1) of the Securitisation Regulation (the "Reporting Entity"). The Reporting Entity, as originator, shall also be responsible for compliance with Article 7 of the Securitisation Regulation, pursuant to Article 22(5) of the Securitisation Regulation.	
	<b>EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i></b>	
	<b>Compliance with transparency requirements</b> 80. The objective of this criterion is to ensure that investors have access to the data that are relevant for them to carry out the necessary risk and due diligence analysis with respect to the investment decision. 81. The criterion is deemed sufficiently clear and not requiring any further clarification.

	Introduction	
	Pursuant to Article 7(1) of the Securitisation Regulation, the Originator and the Issuer shall make available to holders of a securitisation position in the Transaction, including the Noteholders, to the competent authorities referred to in Article 29 of the Securitisation Regulation and, upon request, to potential investors the following information:	
	(f) without undue delay, where point (e) does not apply, any significant event such as:	
	(i) a material breach of the obligations provided for in the documents made available in accordance with point (ii), including any remedy, waiver or consent subsequently provided in relation to such a breach;	
	(ii) a change in the structural features that can materially impact the performance of the Transaction;	
	(iii) a change in the risk characteristics of the Transaction or of the Purchased Receivables that can materially impact the performance of the Transaction;	
	(iv) where the securitisation ceases to meet the STS Requirements or where competent authorities have taken remedial or administrative actions; and	
	(v) any material amendment to Transaction SA UK 2020-1 Documents.	
	<i>All the criteria from 76 onwards are future event criteria, as to which we refer you to PCS' comment under point 75 above.</i>

See Prospectus, <i>COMPLIANCE WITH ARTICLE 7 OF THE SECURITISATION REGULATION</i> .		
Introduction		
The Issuer and the Originator, as originator within the meaning of the Securitisation Regulation, have agreed that the Originator is the "reporting entity" under Article 7(2) of the Securitisation Regulation to fulfil the information requirements of Article 7(1) of the Securitisation Regulation (the "Reporting Entity"). The Reporting Entity, as originator, shall also be responsible for compliance with Article 7 of the Securitisation Regulation, pursuant to Article 22(5) of the Securitisation Regulation.		
Compliance with Article 7 of the Securitisation Regulation		
The Reporting Entity (or the Servicer on its behalf) will make available the information required under Article 7(1) of the Securitisation Regulation and set out in points (i), (ii), (iii), (iv), (v) and (vi) above on the website of EuroABS (being, as at the date of this Prospectus, <a href="http://www.euroabs.com">www.euroabs.com</a> ), being a website that conforms to the requirement set out in Article 7(2) of the Securitisation Regulation (the "SR Website") and, following registration of any securitisation repository under Article 10 of the Securitisation Regulation, with any such securitisation repository that the Issuer appoints in relation to the Notes (the "SR Repository").		
All the criteria from 76 onwards are future event criteria, as to which we refer you to PCS' comment under point 75 above.

EBA Final non-ABCP STS Guidelines		

## Definitions:

**“AUP”**: the agreed upon procedures through which an external firm verifies certain aspects of the asset pool.

**“COMI”**: centre of main interest – broadly, the legal jurisdiction where the insolvency of the seller of assets will be primarily determined.

**“Issuer Notification”**: the notification provided by the originator or sponsor pursuant to article 27 of the STS Regulation.

**“Jurisdiction List”**: the list of jurisdictions where it has been determined that severe clawback provisions do not apply.

**“Legal Opinion”**: an opinion signed by a law firm qualified in the relevant jurisdiction and acting for the originator or the arranger where the law firm sets out the reasons why, in its opinion and subject to customary assumptions and qualifications, the assets are transferred in such a way as to meet the STS Criterion for “true sale” or the same type of opinion for prior sales together with an opinion on the enforceability of the underlying assets.

**“Marketing Documents”**: Documents prepared by or on behalf of the originator and used in the marketing of the transaction with potential investors.

**“Model”**: a liability cash flow model which precisely represents the contractual relationship between the underlying exposures and the payments flowing between the originator, sponsor, investors, other third parties and the SSPE.

**“Prospectus/Deal Sheet”**: the prospectus, or for a deal where no prospectus needs to be drawn up, the deal sheet envisaged by article 7.1(c) of the STS Regulation.

**“Transaction Document”**: a document entered into in relation to the transaction binding on one or more parties connected to the transaction.
