STSS20	True Sale. Title to the Receivables are acquired from the Transferor by the Issuer by means of a receivables sale agreement, governed by Spanish law, (the "Receivables Sale Agreement") with the effect of a true sale and in a manner that it is enforceable against the Transferor. Pursuant to clause 2 of the Receivables Sale Agreement, subject to certain conditions, the Transferor may offer from time to time (during the Revolving Period) Receivables to the Issuer by means of an offer (the "Offers"). On the assumption that each Offer is accepted in accordance with its terms, the contract constituted by such Offer and its acceptance will be effective to fully transfer to the Issuer: (i) all of the Transferor's rights, title and interest in and to the Receivables to which such Offer relates on the terms and conditions of the Receivables Sale Agreement and such Offer; and (ii) all of the Transferor's rights, title and interest in and to the relevant Collections as and when such Collections come into existence. As a matter of Spanish law, such transfer is a true sale (see paragraphs 3.2 and 3.3 of Part C (Statement of Opinion) of the Clifford Chance Madrid opinion). Notification of the transfer of the Receivables to their relevant Obligors occurs upon the occurrence of certain specified events set out in clause 9.4 and Schedule 3 of the Receivables Sale Agreement although it is not necessary to notify the Obligors in order for the title to the Receivables to transfer to the Issue. Likewise, Clause 9.2 sets out that not later than the forty-fifth calendar day following each Transfer Date, the document by virtue of which the transfer of Receivables is made will be raised to the status of public document before a Spanish notary so that the transfer of the receivables is effective against third parties. Under Spanish law (as reflected in paragraph 3.1 of Part C (Statement of Opinion) of the Clifford Chance Madrid opinion), the obligations of the Transferor under the Receivables Sale Agreement are enforceable against it. Schedule 6, Part 3 of the Receivables Sale Agreement also includes representations on enforceability and effectiveness of the transfer at paragraph 1 (Eligibility) and the definition of "Eligible UPL Agreement" and paragraph 2 (Assignment effective). Legal opinions. Paragraphs 3.1 to 3.3 of Part C (Statement of Opinion) of the Clifford Chance Madrid opinion confirm the true sale acquisition and enforceability. Disclosure. The prospectus includes disclosure on the sale mechanics (see the prospectus section "Title to the Securitised Portfolio"), notification events (see the prospectus section "Title to the Securitised Portfolio") and relevant representations and warranties (see the prospectus section "Title to the Securitised Portfolio") set out in the Receivables Sale Agreement.	Transfer of the underlying exposures by true sale or assignment	Concise Explanation	{ALPHANUM-10000}	Article 20(1)	The STS notification shall provide a concise explanation that the transfer of the underlying exposures is made by means of true sale or transfer with the same legal effect in a manner that is enforceable against the seller or any third party.	Item 3.3 of Annex VIII.
STSS21	The Transferor is incorporated in Spain and the Transferor has its registered office and its centre of main interests in Spain, therefore Spain will be the relevant jurisdiction for the purposes of the applicable insolvency law. Spanish insolvency law provides for clawback provisions as described in paragraph 4.7 of the Clifford Chance Madrid Opinion which specifies that under Article 71.1 of the Spanish Insolvency Law, if a declaration of insolvency (declaracion de concurso) is made in relation to a company, the court may, on the application of the insolvency administrators (or, should the insolvency administrators have not applied for it within two months following to the date of the formal request of a creditor to do so, on the application of such creditor), set aside any transaction which is found to be detrimental for the insolvency estate entered into by the company within the 2 years period preceding the declaration of insolvency. As generally outlined in the Clifford Chance Madrid Opinion (paragraph 3.3 of Part C (Statement of Opinion), if a liquidator or administrator is appointed in relation to the Transferor, neither the liquidator nor the administrator nor any creditor of the Transferor would be able to contest successfully or avoid or have set aside any transfer referred to in paragraph 3.2 of the Clifford Chance Madrid Opinion (which is subject to the reservation set out in paragraph 4.7 of the Clifford Chance Madrid Opinion). Therefore, the transfer is not subject to "severe clawback provisions".	No severe clawback	Concise Explanation	{ALPHANUM-10000}	Article 20(2)	The STS notification shall provide a concise explanation on whether any of the severe clawback provisions referred to in Article 20 (2) (a) or (b) of Regulation (EU) 2017/2402 are found in the securitisation, and state whether the provisions in Article 20 (3) of Regulation (EU) 2017/2402 apply.	Item 3.3 of Annex VIII.
STSS22	See item STSS21	Exemption for clawback provisions in national insolvency laws	Confirmation	{ALPHANUM-1000}	Article 20(3)	In conjunction with STSS21, where appropriate, the STS notification shall confirm whether there are no circumstances that could give rise to clawback provisions in accordance with Article 20 (1) and (2) of Regulation (EU) 2017/2402.	Item 3.3 of Annex VIII.

STSS23	The Transferor is the original lender of all of the loans in the portfolio.	Transfer where the seller is not the original lender	Confirmation	{ALPHANUM-1000}	Article 20(4)	Where the seller is not the original lender, the STS notification shall provide a statement confirming that the securitisation complies with Article 20(1) to 20(3) of Regulation (EU) 2017/2402.	Item 3.3 of Annex VIII.
STSS24	The transfer of the Receivables is performed and perfected at the point of sale for each Receivable – full legal title of the Receivables is sold under Spanish law when the Offer is accepted by the Issuer. (See the prospectus section "Title to the Securitised Portfolio"). Clifford Chance Madrid's opinion confirms in paragraph 3.2 of the Clifford Chance Madrid Opinion that, on the assumption that each Offer is accepted in accordance with its terms, the contract constituted by such Offer and acceptance will be effective to fully transfer to the Purchaser: (a) all of the Transferor's rights, title and interest in and to the Receivables to which such Offer relates on the terms and conditions of the Receivables Sale Agreement and such Offer; and (b) all of the Transferor's rights, title and interest in and to the relevant Collections as and when such Collections come into existence and sets out in paragraph 4.8 (Notice of transfer of the Receivables) of Part D (Qualifications and Observations) the consequences vis a vis the borrowers of not delivering notice to the borrowers.	Transfer performed by means of an assignment and perfected at a later stage	Concise Explanation	{ALPHANUM-10000}	Article 20(5)	Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the securitisation, the STS notification shall provide a concise explanation on how and whether that perfection is effected at least through the required minimum pre-determined event triggers as listed in Article 20(5) of Regulation (EU) 2017/2402.  Where alternative mechanisms of transfer are used, the STS notification shall confirm that an insolvency of the originator would not prejudice or prevent the SSPE from enforcing its rights.	Item 3.3 of Annex VIII.
STSS25	All Receivables are transferred pursuant to the Receivables Sale Agreement on the same terms and conditions (see clause 2 of the Receivables Sale Agreement). The prospectus identifies the originator (see the sections of the prospectus entitled "Origination and Servicing Process"), and includes disclosure on the relevant representations and warranties (see the prospectus section "Title to the Securitised Portfolio").  The Transferor represents and warrants on the relevant sale date in the form of the representations and warranties set out in Part 3 of Schedule 6 of the Receivables Sale Agreement including that: (i) the UPL Agreement creates legal, valid and binding obligations between the Transferor and the relevant Obligor and is enforceable against the relevant Obligor (as of the Cut-Off Date – see definition of "Eligible UPL Agreement"); and (ii) the assignment is free of any Encumbrances (see Warranties and Repurchase described in the prospectus section "Title to the Securitised Portfolio").	Representations and warranties	Concise Explanation	{ALPHANUM-10000}	Article 20(6)	The STS notification shall provide a concise explanation on whether there are representations and warranties provided by the seller that the underlying exposures included in the securitisation are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect.	Item 2.2.8 of Annex VIII.
STSS26	The underlying exposures meet predetermined, clear and documented eligibility criteria which do not allow for active portfolio management of those exposures on a discretionary basis, see the section of the prospectus entitled "The Securitised Portfolio". Each Receivable sold to the Receivables Trustee must comply with the representations and warranties (set out at Part 3 of Schedule 6 of the Receivables Sale Agreement and summarised in the prospectus at "Title to the Securitised Portfolio"). The selection and transfer of the underlying exposures in the securitisation is based on clear processes which facilitate the identification of which exposures are selected for or transferred into the securitisation and do not constitute active portfolio management for purposes of Article 20(7) of the Securitisation Regulation.  Clauses 7, 8 and 11 of the Receivables Sale Agreement provide for repurchase obligations and options for the Transferor to repurchase Receivables from the Issuer. See the section of the Prospectus entitled "Title to the Securitised Portfolio - Warranties and Repurchase".  The Transferor has identified a portfolio of receivables (the "Provisional Securitised Portfolio") to assign and transfer to the Issuer, using a system containing defined data on each of the qualifying loans in the Transferor's overall portfolio of loans available for selection. This system allows the setting of exclusion criteria, among others corresponding to relevant Transferor Asset Warranties that the Transferor makes in the Receivables Sale Agreement in relation to the Receivables (see the section of the prospectus entitled "Title to the Securitised Portfolio – Warranties and Repurchase"), the Eligibility Criteria, the Portfolio Concentration Levels and the Portfolio Performance Trigger Events. Once the criteria have been determined, the system identifies all Receivables owned by the Transferor that are consistent with the criteria. See prospectus section entitled "The Securitised Portfolio".  For on-going sales during the Revolving Period, the Transferor selects consumer loans randomly having regard to the Eligibility Criteria and Portfolio Concentration Levels.	Eligibility criteria which do not allow for active portfolio management of the underlying exposures on a discretionary basis	Concise Explanation	{ALPHANUM-10000}	Article 20(7)	The STS notification shall provide concise explanation that:  - the underlying exposures transferred from, or assigned by, the seller to the SSPE meet predetermined, clear and documented eligibility criteria which do not allow for active portfolio management of those exposures on a discretionary basis; - the selection and transfer of the underlying exposures in the securitisation is based on clear processes which facilitate the identification of which exposures are selected for or transferred into the securitisation and that they do not allow for their active portfolio management on a discretionary basis.	Item 2.2.2 and 2.2.13 of Annex VIII.
STSS27	Homogeneity: It is confirmed that the Receivables to be sold to the Issuer satisfy the homogeneity conditions of Article 20(8) of the Securitisation regulation and the regulatory technical standards as contained in article 1(a), (b), (c) and (d) of the EBA/RTS/2018/02 (Homogeneity of the underlying exposures). The Receivables in the Securitised Portfolio: (a) have been underwritten by PFC according to similar underwriting standards which apply similar approaches to the assessment of credit risk associated with the underlying exposures; (b) are PIL Loans and POS Loans entered into substantially on the terms of similar standard documentation; and (c) are serviced by PAS pursuant to the Servicing Agreement according to similar servicing procedures with respect to monitoring, collection and administration of cash receivables generated from the Receivables; (c) fall within the same asset category, namely credit facilities provided to individuals for personal, family or household consumption purposes. No homogeneity factor is applicable for this asset category.  See the eligibility criteria set out in the Receivables Sale Agreement at Schedule 8 of the Receivables Sale Agreement and the disclosure in the prospectus at "The Securitised Portfolio".	Homogeneity of assets	Detailed Explanation	{ALPHANUM}	Article 20(8)	The STS notification shall provide a detailed explanation as to the homogeneity of the pool of underlying exposures backing the securitisation. For that purpose the originator and sponsor shall refer to the EBA RTS on homogeneity (Commission Delegated Regulation (EU) [...]), and shall explain in detail how each of the conditions specified in the Article 1 of the RTS are met.	Item 2.2.7 of Annex VIII.
STSS28	The portfolio is comprised of consumer loans based on standard form documentation, and does not include any securitisation position for the purposes of Article 20(9) of the Securitisation Regulation, any transferable securities for the purpose of Article 20(8) of the Securitisation Regulation or any derivatives for the purpose of Article 21(2) of the Securitisation Regulation. The prospectus describes the portfolio (see the prospectus section "The Securitised Portfolio" and "Title to the Securitised Portfolio").	Underlying Exposure Obligations: no re securitisation	Confirmation	{ALPHANUM-1000}	Article 20(9)	The STS notification shall confirm that the underlying exposures do not include any securitisation positions and that the notified securitisation is therefore not a re-securitisation.	Item 2.2.2 and 2.2.13 of Annex VIII.
STSS29	The Receivables Sale Agreement representations include that each Receivable has been originated in accordance with the Transferor's Guidelines (see Schedule 8, para 1.2(b) of the Receivables Sale Agreement). The Guidelines are defined (see the definition in the prospectus and the Master Framework Agreement) to be the Transferor's usual policies, procedures and practices relating to the operation of its consumer loan business and therefore (1) the underlying exposures were originated in the ordinary course of the Transferor's business and (2) the underwriting standards do not differ between securitised and non-securitised Receivables. See "Origination and Servicing Process Changes to the Guidelines" in the prospectus where it is specified that any material changes from the Transferor's underwriting policies and Guidelines will be disclosed without undue delay to the extent required by Article 20(10) of the Securitisation Regulation. The Receivables are unsecured consumer loans. Accordingly, the assessment of a prospective obligor's creditworthiness is conducted in accordance with the Transferor's Guidelines aims, where appropriate, to meet the requirements set out in Article 8 of Directive 2008/48/EC (Consumer Credit Directive) as transposed in Article 14 of the Spanish Act 16/2011 of 24 June on consumer credit agreements.	Soundness of the underwriting standard	Detailed Explanation	{ALPHANUM}	Article 20(10)	The STS notification shall provide a detailed explanation: - as to whether the underlying exposures were originated in the lender's ordinary course of business and whether the applied underwriting standards were no less stringent than those applied at the same time of origination to exposures that were not securitised. - as to whether the underwriting standards and any material changes from prior underwriting standards have been or will be fully disclosed to potential investors without undue delay. - on how securitisations where the underlying exposures are residential loans, the pool of underlying exposures meet the requirement of the second paragraph of Article 20(10) of Regulation (EU) 2017/2402. -as to whether an assessment of the borrower's creditworthiness meets the requirements set out in Article 8 of Directive 2008/48/EC or paragraphs 1 to 4, point (a) of paragraph 5, and paragraph 6 of Article 18 of Directive 2014/17/EU or, where applicable, equivalent requirements in third countries.	Item 2.2.7 of Annex VIII.
STSS30	Expertise. PFC has more than five years of experience in the origination and underwriting of unsecured personal loans similar to those included in the Securitised Portfolio See the sections of the prospectus entitled "The Transferor" for additional details.	Originator/Lender Expertise	Detailed Explanation	{ALPHANUM}	Article 20(10)	The STS notification shall provide a detailed explanation as to whether the originator or original lender have expertise in originating exposures of a similar nature to those securitised.	Item 2.2.7 of Annex VIII.
STSS31	The Eligibility Criteria set out in the Receivables Sale Agreement include that the Receivables are not Defaulted Receivables and do not have any instalment due and unpaid (see Schedule 8, para 1.9 and 1.10 of the Receivables Sale Agreement and "Title to the Securitised Portfolio - Eligible Receivables" in the prospectus). The assessment of a prospective borrower's creditworthiness is conducted in accordance with the Transferor's Guidelines and, where appropriate, aims to meet the requirements set out in Article 8 of Directive 2008/48/EC (Consumer Credit Directive). As far as the Transferor is aware, having taken all appropriate steps, the Securitised Portfolio does not contain accounts which were in default or credit impaired at the time of selection or, to the best of the Transferor's knowledge were defaulted or restructured in the way described by Article 20(11)(a), (b) and (c). On this basis the Securitised Portfolio meets the requirements of Article 20(11)(a), (b) and (c).	Transferred underlying exposures without exposures in default	Detailed Explanation	{ALPHANUM}	Article 20(11)	The STS notification shall provide a detailed manner as to whether: -the transferred underlying exposures do not include, at the time of selection, defaulted exposures (or restructured exposures) as defined in Article 20(11) of the Regulation (EU) 2017 2402as applicable. - the securitisation contains any credit-impairedness at the time of securitisation as specified in Article 20(11) (a) to (c) of Regulation EU 2017/2402. - the requirements referred to in Article 20 (11) (b) of Regulation (EU) 2402/2017 are met ; - the requirements referred to in Article 20 (11) (c) are met.	Item 2.2.8 of Annex VIII.
STSS32	The Eligibility Criteria set out in the Receivables Sale Agreement include that at least one payment of principal and/or interest has fallen due and been paid (see Schedule 8, para 1.8 of the Receivables Sale Agreement and the Eligibility Criteria set out in "Title to the Securitised Portfolio - Eligible Receivables" in the prospectus).The exemption under Article 20(12) does not apply.	At least one payment at the time of transfer	Confirmation	{ALPHANUM-1000}	Article 20(12)	The STS notification shall confirm whether, at the time of transfer of the exposures, the debtors have made at least one payment.  The STS notification shall also confirm whether or not the exemption under Article 20(12) applies.	Item 3.3 and 3.4.6 of Annex VIII.
STSS33	Repayment of the Notes has not been structured to depend on the sale of the Receivables.	Repayment of the holders shall not have been structured to depend predominantly on the sale of assets.	Detailed Explanation	{ALPHANUM}	Article 20(13)	The STS notification shall provide a detailed explanation of the degree of dependence of the repayments of the holders of the securitisation position on the sale of assets securing the underlying exposures.	Item 3.4.1 of Annex VIII.
