hereof. No person other than the Issuer (or in the case of SFS Italia, Zenith Service S.p.A. or The Bank of New York Mellon SA/NV, Milan Branch, solely to the extent described above) makes any representation, express or implied, or accepts any responsibility, with respect to the accuracy or completeness of any of the information in this Prospectus.

Save for the parties accepting responsibility for the information included in this Prospectus as stated above, no other party to the Transaction Documents accepts responsibility for such information.

#### Limited recourse

The Notes will constitute direct and limited recourse obligations solely of the Issuer backed by the Portfolio. In particular, the Notes will not be obligations or responsibilities of, or guaranteed by, SFS Italia (in any capacity), the Representative of the Noteholders, the Calculation Agent, the Account Bank, the Paying Agent, the Cash Manager, the RSF Reserve Advance Provider, the Corporate Servicer, the Quotaholder, the Back-Up Servicer Facilitator, the Arranger, the Joint Lead Managers or any other party. Furthermore, none of such persons accepts any liability whatsoever in respect of any failure by the Issuer to make payment of any amount due on the Notes.

By virtue of the operation of Article 3 of the Securitisation Law and the Transaction Documents, the Issuer's rights, title and interest in and to the Portfolio, the Collections, the Recoveries, the Eligible Investments, the other Securitisation Assets and any other rights arising in favour of the Issuer under the Transaction Documents and, more generally, in respect of the Securitisation are segregated (costituiscono patrimonio separato) under Italian law from all other assets of the Issuer and from the assets relating to any other securitisation transaction carried out by it and will only be available, both before and after a winding-up of the Issuer, to satisfy the obligations of the Issuer to the Noteholders, the Other Issuer Secured Creditors and any Connected Third Party Creditor.

By holding the Notes, the Noteholders will agree that the Available Distribution Funds will be applied by the Issuer in accordance with the applicable Priority of Payments.

#### Other business relations

In addition to the interests described in this Prospectus, prospective noteholders should be aware that the Arranger, the Joint Lead Managers and its related entities, associates, officers or employees (each a Relevant Entity) may be involved in a broad range of transactions including, without limitation, banking, dealing in financial products, credit, derivative and liquidity transactions, investment management, corporate and investment banking and research in various capacities in respect of the Notes, the Issuer or any party to the Transaction Documents, both on their own account and for the account of other persons. As such, each Relevant Entity may have various potential and actual conflicts of interest arising in the ordinary course of its business. For example, a Relevant Entity's dealings with respect to the Notes, the Issuer or any other party to the Transaction Documents may affect the value of the Notes as the interests of this Relevant Entity may conflict with the interests of a Noteholder, and that Noteholder may suffer loss as a result. To the maximum extent permitted by applicable law, no Relevant Entity is restricted from entering into, performing or enforcing its rights in respect of the Transaction Documents or the interests described above and may continue or take steps to further or protect any of those interests and its business even where to do so may be in conflict with the interests of Noteholders. The Relevant Entities may in so doing act without notice to, and without regard to, the interests of the Noteholders or any other person.

#### Selling Restrictions

The distribution of this Prospectus and the offering of the Notes in certain jurisdictions may be restricted by law and by the Transaction Documents, in particular, as provided by and described in the Subscription Agreements. Persons into whose possession this Prospectus (or any part of it) comes are required by the Issuer to inform themselves about, and to observe, any such restrictions. Neither this Prospectus nor any

part of it constitutes an offer, and may not be used for the purpose of an offer, to sell any of the Notes, or a solicitation of an offer to buy any of the Notes, by anyone in any jurisdiction or in any circumstances in which such offer or solicitation is not authorised or is unlawful.

This Prospectus is not intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by the Issuer that any recipient of this Prospectus should purchase any of the Notes. Each investor contemplating purchasing Notes should make its own independent investigation of the Portfolio and of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer.

To the fullest extent permitted by law, neither the Arranger nor any of the Joint Lead Managers accepts any responsibility whatsoever for the contents of this Prospectus or for any other statement, made or purported to be made by the Arranger or any of the Jont Lead Managers or on its behalf, in connection with the Issuer or SFS Italia or the issue and offering of the Notes.

The Notes may not be offered or sold directly or indirectly, and neither this Prospectus nor any other prospectus, form of application, advertisement, other offering material or other information relating to the Issuer or the Notes may be issued, distributed or published in any country or jurisdiction, except under circumstances that will result in compliance with all applicable laws, orders, rules and regulations. For a further description of certain restrictions on offers and sales of the Notes and the distribution of this Prospectus, see the section headed "Subscription, Sale and Selling Restrictions".

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the **Securities Act**) and subject to certain exceptions, may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act). The Notes will bein bearer and dematerialised form and are subject to U.S. tax law requirements. The Notes are being offered for sale outside the United States in accordance with Regulation S under the Securities Act (see the section headed "Subscription, Sale and Selling Restrictions").

Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, MiFID II); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturers' target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (COBS), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA (UK MiFIR); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment. However, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the UK MiFIR Product Governance Rules) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

The Notes are not intended to be offered, sold or otherwise made available to any retail investor in the European Economic Area. For these purposes, a **retail investor** means a person who is one (or more) of: (a) a retail client as defined in point (11) of Article 4 (1) of MiFID II; (b) a customer within the meaning of

Directive 2002/92/EC (IMD), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) a person who is not a qualified investor as defined in the Prospectus Regulation. Accordingly, none of the Issuer or the Arranger or the Joint Lead Managers expects to be required to prepare, and none of them has prepared, or will prepare, a "key information document" in respect of the Notes for the purposes of Regulation (EU) No 1286/2014 of 26 November 2014 on key information documents for packaged retail and insurance-based investment products (the PRIIPs Regulation) and therefore offering or selling the Notes or otherwise making them available to any retail investor in the European Economic Area may be unlawful under the PRIIPs Regulation.

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (the UK). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Commission Delegated Regulation (EU) 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended by the European Union (Withdrawal Agreement) Act 2020) (EUWA); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA (the UK Prospectus Regulation). Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the UK PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

#### IMPORTANT NOTICE – UK AFFECTED INVESTORS

From 1 January 2021, relevant UK-established or UK-regulated persons are subject to the EU Prospectus Regulation as it forms part of the domestic law of the UK as "retained EU law" by virtue of the European Union (Withdrawal) Act 2018, as amended (the **EUWA**), and as amended by the Securitisation (Amendment) (EU Exit) Regulations 2019 (the Securitisation EU Exit Regulations, and as may be further amended, the UK Securitisation Regulation). Article 5 of the UK Securitisation Regulation places certain conditions on investments in a "securitisation" (as defined in the UK Securitisation Regulation) (the UK Due Diligence Requirements) by an "institutional investor" (as defined in the UK Securitisation Regulation). The UK Due Diligence Requirements also apply to investments by certain consolidated affiliates, wherever established or located, of such institutional investors which are CRR firms (as defined by Article 4(1)(2A) of Regulation (EU) No 575/2013, as it forms part of the domestic law of the UK by virtue of the EUWA) (such affiliates, together with all such institutional investors, UK Affected Investors). The application of the UK Securitisation Regulation is also subject to the temporary transitional relief being available in certain areas. The UK Securitisation Regulation regime is currently subject to a review, which is likely to result in further changes being introduced in the UK in due course. Therefore, some divergence between EU and UK regimes exists already and the risk of more divergence in the future between EU and UK regimes cannot be ruled out.

Neither the Seller nor any other party to the transaction described in this Prospectus will retain or commit to retain a 5 per cent. material net economic interest with respect to the Securitisation in accordance with the UK Securitisation Regulation or makes or intends to make any representation or agreement that it or any other party is undertaking or will undertake to take or refrain from taking any action to facilitate or enable the compliance by UK Affected Investors with the UK Due Diligence Requirements, or to comply with the requirements of any other law or regulation now or hereafter in effect in the UK in relation to risk retention, due diligence and monitoring, credit granting standards or any other conditions with respect to investments in securitisation transactions by UK Affected Investors.

Failure by a UK Affected Investor to comply with the UK Due Diligence Requirements with respect to an investment in the Notes offered by this Prospectus may result in regulatory sanctions being imposed by the competent authority of such UK Affected Investor (including the imposition of a higher regulatory capital charges on that investment).

Prospective UK Affected Investors are themselves responsible for analysing their own regulatory position, and should consult their own advisers in this respect and should consider (and where appropriate, take independent advice on) the application of the UK Securitisation Regulation or other applicable regulations and the suitability of the Notes for investment.

None of the Arranger or the Joint Lead Managers is responsible for any obligation of the Seller or the Issuer for compliance with the requirements (including existing or ongoing reporting requirements) of the EU Securitisation Regulation or any corresponding national measures which may be relevant or the UK Securitisation Regulation.

#### Potential conflicts of interest of the Joint Lead Managers

Banco Santander, S.A., being affiliated with the Seller, is acting as a Joint Lead Manager and Arranger in connection with this Securitisation. Banco Santander, S.A. will have only those duties and responsibilities expressly agreed to by it in the Transaction Documents to which it is a party and will not, by virtue of its or any of its affiliates' acting in any other capacity, be deemed to have any other duties or responsibilities or be deemed to be held to a standard of care, other than as expressly provided therein. Banco Santander, S.A., as Joint Lead Manager and Arranger in connection with this Securitisation, may enter into business dealings from which it may derive revenues and profits without any duty to account therefore in connection with this Securitisation.

BofA Securities Europe S.A. and UniCredit Bank AG are acting as Joint Lead Managers in connection with this Securitisation.

The Joint Lead Managers and/or their affiliates may play various roles in relation to the Notes and they may also become beneficial owners of any Note.

To the maximum extent permitted by applicable law, the duties of the Joint Lead Managers and/or their affiliates in respect of the Notes are limited to the relevant contractual obligations set out in the Transaction Documents (if any) and, in particular, no advisory or fiduciary duty is owed to any person.

None of the Joint Lead Managers or their affiliates will, by virtue of its or any of its affiliates' acting in any other capacity, be deemed to have any other duties or responsibilities or be deemed to be held to a standard of care, other than as expressly provided in the Transaction Documents to which it is a party.

None of the Joint Lead Managers or their affiliates shall have any obligation to any party to the Securitisation or any Noteholder for any profit as a result of any other business that it may conduct with any other party to the Securitisation.

The Joint Lead Managers may assist clients and counterparties in transactions related to the Notes (including assisting clients in future purchases and sales of the Notes and hedging transactions). The Joint Lead Managers expect to earn fees and other revenues from these transactions. If any of the Joint Lead Managers and/or their affiliates becomes a beneficial owner of any Note, it will exercise the rights associated with such Note in its own discretion, which may or may not be in accordance with the best interest of other holders of the Notes.

Each Joint Lead Manager in the course of its business may act independently of any other Joint Lead Manager.

#### Benchmarks Regulation (Regulation (EU) 2016/1011)

Interest amounts payable in respect of the Notes will be calculated by reference to EURIBOR as specified in the Conditions. As at the date of this Prospectus, EURIBOR is provided and administered by the European Money Markets Institute (EMMI). As at the date of this Prospectus, EMMI is authorised as benchmarks administrator and is included on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) pursuant to Article 36 of Regulation (EU) 2016/1011 (the EU Benchmarks Regulation). The EU Benchmarks Regulation could have a material impact on the Notes, in particular, if the methodology or other terms of the "benchmarks" are changed in order to comply with the requirements of the EU Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmarks. Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation reforms in making any investment decision with respect to the Notes.

#### In accordance with Fitch's rating definitions:

- (a) 'AA' ratings denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events;
- (b) 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings;
- (c) 'BBB' ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity; and
- (d) 'BB' ratings indicate an elevated vulnerability to default risk, particularly in the event of adverse changes in business or economic conditions over time; however, business or financial flexibility exists that supports the servicing of financial commitments.

#### In accordance with DBRS' long-term rating scale:

- (a) 'AA' ratings denote superior credit quality. The capacity for the payment of financial obligations is considered high. Credit quality differs from AAA only to a small degree. Unlikely to be significantly vulnerable to future events;
- (b) A' ratings denote good credit quality. The capacity for the payment of financial obligations is substantial, but of lesser credit quality than AA. May be vulnerable to future events, but qualifying negative factors are considered manageable; and

(c) 'BBB' ratings denote adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.

#### STS-securitisation

The Securitisation is intended to qualify as an STS Securitisation within the meaning of Article 18 of the EU Securitisation Regulation. It is understood that the declaration of a Regulatory Call Event will not be prevented by the fact that, prior to the Issue Date (i) the event constituting any such Regulatory Call Event was announced or contained in any proposal (whether in draft or final form) for a change in the laws, regulations, applicable regulatory rules, policies or guidelines (including any accord, standard, or recommendation of the Basel Committee on Banking Supervision), as officially interpreted, implemented or applied by the European Central Bank, the Prudential Regulation Authority or the European Union, or incorporated in any law or regulation approved and/or published but the effectiveness or application of which is deferred, in whole or in part, beyond the Issue Date, or expressed in any statement by any official of the competent authority in expert meetings or other discussions in connection with such Regulatory Call Event or (ii) the competent authority has issued any notification, taken any decision or expressed any view with respect to any individual transaction, other than the Securitisation. Accordingly, such proposals, statements, notifications or views will not be taken into account when assessing the capital treatment of the Notes or the capital relief afforded by the Notes for the Seller or its affiliates or an increase of the cost or reduction of benefits to the Seller or its affiliates of the Securitisation immediately after the Issue Date.

## 3. THE PORTFOLIO, THE SERVICING AND THE CASH MANAGEMENT ARRANGEMENTS

#### The Portfolio

The Receivables purchased on the First Purchase Date and to be purchased from time to time by the Issuer on each Subsequent Purchase Date are and will be monetary receivables arising out of Auto Loan Contracts (contratti di finanziamento per l'acquisto di autoveicoli), being loans granted by the Seller to Debtors for the purchase of Cars.

Each Receivable offered for purchase to the Issuer in accordance with the provisions of the Master Receivables Transfer Agreement must satisfy, on the relevant Selection Date and/or Purchase Date, the Eligibility Criteria set out in the Master Receivables Transfer Agreement. In order for a Receivable to satisfy the Eligibility Criteria (i) the Auto Loan Contract from which that Receivable arises must meet the Contracts Eligibility Criteria; (ii) any Receivable must meet the Receivables Eligibility Criteria. In addition, on each Purchase Date, the purchase of any Receivable, when aggregated with all other Performing Receivables and after taking into account all Receivables to be purchased on such Purchase Date, shall not cause the Portfolio to breach any of the Global Portfolio Limits.

None of the assets backing the Notes is itself an asset-backed security or other securitisation position, and the Securitisation is also not a "synthetic" securitisation, in which risk transfer would be achieved through the use of credit derivatives or other similar financial instruments.

**Purchase Price** 

The Purchase Price of each Receivable sold by the Seller to the Issuer for the Receivables included in the relevant Transfer Offer shall be equal to the aggregate of (a) the Individual Interest Component Purchase Price and (b) the Individual Principal Component Purchase Price of the relevant Receivable and shall be paid by the Issuer in accordance with the terms below.

On the Issue Date, the Principal Component Purchase Price of the Initial Receivables, being equal to Euro 749,999,550.82, will be paid to the Seller out of the net proceeds of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes by crediting the relevant Principal Component Purchase Price into the Seller Account.

On the First Payment Date, the Interest Component Purchase Price of the Initial Receivables, being equal to Euro 1,980,217.81, will be paid to the Seller on the First Payment Date – in accordance with the Pre-Enforcement Principal Priority of Payments and subject to the provisions of the Master Transfer Agreement and the Conditions – through the Available Distribution Amounts applicable for such payment in accordance with the applicable Priority of Payments. The Purchase Price of any Additional Receivables transferred to the Issuer on any Subsequent Purchase Date will be paid to the Seller on the Payment Date immediately falling after the relevant Subsequent Purchase Date , in accordance with the Pre-Enforcement Principal Priority of Payments, out of the Available Distribution Amounts, subject to and in accordance with the applicable Priority of Payments.

Representations and Warranties

Under the Master Receivables Transfer Agreement, the Seller has given certain representations and warranties in favour of the Issuer in

relation to, *inter alia*, itself and the Receivables and has agreed to indemnify the Issuer in respect of, *inter alia*, those Receivables which do not comply with any such representation and warranty and certain costs, expenses and liabilities of the Issuer incurred in connection with the purchase and ownership of the Receivables.

#### Servicing of the Portfolio

Pursuant to the Servicing Agreement, the Servicer has agreed to administer, service and collect all cash payments in respect of the Portfolio on behalf of the Issuer. The receipt of the cash collections in respect of the Portfolio is the responsibility of the Servicer.

The Servicer shall ensure proper segregation of the Issuer's accounting and property from its own activities and assets, and the Servicer, as entity responsible for the collection of the Receivables and payment services (soggetto incaricato della riscossione dei crediti dei servizi di cassa e pagamento), shall be responsible for verifying that the transactions to be carried out within the Securitisation comply with the provisions of the Securitisation Law, and are consistent with the contents of the Prospectus.

The Servicer has opened the Servicer Collection Account with the Servicer Collection Account Bank, for the purposes of Article 3, paragraph 2-ter of the Securitisation Law. remaining on the Expenses Account (or procure that the same are applied) to pay any such known expenses not yet paid and any expenses falling due after such Payment Date.

#### **General Reserve**

The General Reserve will be funded by the Issuer as at the Issue Date by using the proceeds deriving from the issuance of the Class E Notes To such end, on the Issue Date an amount equal to Euro 10,500,000 will be credited into the General Reserve Account as General Reserve Required Amount.

The General Reserve Account shall be credited on each Payment Date in accordance with the applicable Priority of Payment with such amount that would ensure that the amount standing to the credit of the General Reserve Account is equal to the General Reserve Required Amount applicable on that Payment Date.

The General Reserve Account shall be closed once the amounts standing to the credit thereof have been fully withdrawn following the redemption in full of all of the Rated Notes or following the delivery of a Trigger Notice, in accordance with the provisions of the Cash Allocation, Management and Payment Agreement.

#### **RSF** Reserve

Following the occurrence of a RSF Reserve Funding Trigger Event, the RSF Reserve Advance Provider will establish the RSF Reserve by crediting to the RSF Reserve Account an amount equal to the Required Replacement Servicer Fee Reserve Amount.

The RSF Reserve will be used by the Issuer to cover amounts required to pay the servicing fee due to the Successor Servicer.

Following the appointment of any Successor Servicer under the Servicing Agreement and the funding of the RSF Reserve, funds will be applied from such RSF Reserve outside the applicable Priority of Payments to pay amounts due to the replacement servicer.

If, however, the RSF Reserve Advance Provider fails to comply with its funding obligations for any reason, such amounts due to the replacement servicer will instead be paid pursuant to the applicable Priority of Payments.

## Principal Deficiency Ledger

The Issuer has established and will maintain with the Calculation Agent 1 (one) principal deficiency ledger (the **Principal Deficiency Ledger**), comprising the following 4 (four) principal deficiency subledgers: (i) a principal deficiency sub-ledger in respect of the Class A Notes (the **Class A Principal Deficiency Sub-Ledger**); (ii) a principal deficiency sub-ledger in respect of the Class B Notes (the **Class B Principal Deficiency Sub-Ledger**); (iii) a principal deficiency sub-ledger in respect of the Class C Notes (the **Class C Principal Deficiency Sub-Ledger**); and (iv) a principal deficiency sub-ledger in respect of the Class D Notes (the **Class D Principal Deficiency Sub-Ledger**).

On each Calculation Date prior to the delivery of a Trigger Notice or the redemption of the Notes in accordance with Condition 6.1 (*Final redemption*), Condition 6.3 (*Redemption for Issuer Tax Event*) or Condition 6.4 (*Early redemption at the option of the Issuer*), the Calculation Agent will record:

- (a) any Principal Addition Amounts; and
- (b) the aggregate Outstanding Balance of any Receivable that has become a Defaulted Receivable during the last day of the immediately preceding Collection Period, such amount being calculated as at the relevant Default Date (the **Defaulted Amounts**),

as a debit to the Principal Deficiency Ledger in the following order:

- (a) first, to the Class D Principal Deficiency Sub-Ledger so long as, and to the extent that, the debit balance of the Class D Principal Deficiency Sub-Ledger is less than the Principal Amount Outstanding of the Class D Notes;
- (b) second, to the Class C Principal Deficiency Sub-Ledger so long as, and to the extent that, the debit balance of the Class C Principal Deficiency Sub-Ledger is less than the Principal Amount Outstanding of the Class C Notes;
- (c) third, to the Class B Principal Deficiency Sub-Ledger so long as, and to the extent that, the debit balance of the Class B Principal Deficiency Sub-Ledger is less than the Principal Amount Outstanding of the Class B Notes; and
- (d) fourth, to the Class A Principal Deficiency Sub-Ledger so long as, and to the extent that, the debit balance of the Class A Principal Deficiency Sub-Ledger is less than the Principal Amount Outstanding of the Class A Notes.

After the adjustment of the Principal Deficiency Ledger on each Calculation Date and by reference to the adjusted amounts standing to the debit of the Principal Deficiency Ledger, on each Payment Date the Interest Available Distribution Amounts will be applied in accordance with items (k) (eleventh), (l) (twelfth), (m) (thirteenth), (n) (fourteenth) and (o) (fifteenth) of the Pre-Enforcement Interest Priority of Payments: (a) in an amount equal to the aggregate of the Principal Addition Amounts which have been recorded as a debit on the Principal Deficiency Ledger on any preceding Payment Date and which have not previously been cured in accordance with the Pre-Enforcement Interest Priority of Payments (which amount shall be applied in sequential order), (b) towards any debit against the Class A Principal Deficiency Sub-Ledger, (c) towards any debit against the Class B Principal Deficiency Sub-Ledger, (d) towards any debit against the Class C Principal Deficiency Sub-Ledger, (e) towards any debit against the Class D Principal Deficiency Sub-Ledger, and, in each case, such amounts will, for the avoidance of doubt, thereupon

become Principal Available Distribution Amounts.

### Available Distribution Amounts

Available Distribution Amounts means, in relation to each Payment Date, the aggregate of all: (i) Interest Available Distribution Amounts; and (ii) Principal Available Distribution Amounts.

**Interest Available Distribution Amounts** means, in respect of any Payment Date, the aggregate of the following amounts (without double counting):

- (a) the interest components received by the Issuer in respect of the Purchased Receivables (other than Defaulted Receivables) comprised in the Portfolio during the immediately preceding Collection Period, net of any amount allocated pursuant to item (i) of the Principal Available Distribution Amounts in respect of such Payment Date;
- (b) the income received in respect of the Eligible Investments (if any) made using funds standing to the credit of the Issuer Accounts, following liquidation thereof on the immediately preceding Eligible Investments Maturity Date;
- (c) the General Reserve as at the immediately preceding Payment Date after making payments due under the Pre-Enforcement Interest Priority of Payments on that date (or, in respect of the First Payment Date, the General Reserve as at the Issue Date), with the exception of (i) the Legal Final Maturity Date, (ii) the Payment Date on which there will be sufficient Available Distribution Amounts (including the General Reserve) to redeem in full the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, and (iii) the Payment Date following the delivery of a Trigger Notice;
- (d) all amounts of positive interest accrued and paid on the Issuer Accounts, other than the Expenses Account, during the immediately preceding Collection Period, net of any applicable withholding or expenses;
- (e) payments made to the Issuer by any other party to the Transaction Documents during the immediately preceding Collection Period, excluding those amounts constituting Principal Available Distribution Amount and excluding any RSF Reserve Funding Advances;
- (f) any amounts received by the Issuer under the Interest Rate Swap Agreement and, only to the extent that an Interest Rate Swap Provider Default occurs, or when the early termination has been designated as a consequence of a "Termination Event" (as this term is defined in the Interest Rate Swap Agreement) in which the Interest Rate Swap Provider is the "Affected Party" (as this term is defined in the Interest Rate Swap Agreement) and the Interest Rate Swap Agreement is early terminated, the following amounts: (i) any amounts

held by the Issuer as collateral; or (ii) if the amount determined pursuant to Section 6 (e) of the ISDA Master Agreement in case of early termination is payable by the Issuer to the Interest Rate Swap Provider and the amounts held by the Issuer as collateral are higher than such amount, the amount of collateral held which exceeds the amount payable to the Interest Rate Swap Provider. For the avoidance of doubt, the amount determined pursuant to Section 6 (e) of the ISDA Master Agreement in case of early termination shall be paid by the Issuer to the Interest Rate Swap Provider using the collateral amounts held by the Issuer. In the event that such collateral amounts are not sufficient, the amount determined pursuant to Section 6 (e) of the ISDA Master Agreement in case of early termination (or the part of that amount not covered by the collateral held by the Issuer) shall be paid according the Pre-Enforcement Interest Priority of Payments or the Post-Enforcement Priority of Payments, as applicable;

- (g) the Interest Component Purchase Price received by the Issuer in relation to the sale and/or repurchase of any Receivables (other than Defaulted Receivables) made during the immediately preceding Collection Period;
- (h) any Recoveries, including any purchase price received in relation to the sale of any Defaulted Receivables, received by the Issuer in respect of any Defaulted Receivables during the Collection Period immediately preceding such Calculation Date:
- (i) any Principal Available Distribution Amounts to be allocated in or towards provision of the Interest Available Distribution Amounts on such Payment Date in accordance with the Pre-Enforcement Principal Priority of Payments and the Transaction Documents;
- (j) on the Regulatory Call Early Redemption Date only, the Seller Loan Interest Redemption Amount;
- (k) the principal components received by the Issuer in respect of the Purchased Receivables described under item (a) of the Principal Available Distribution Amounts, in the amount needed and available so as to recover any funds erroneously allocated in or towards provision of the Principal Available Distribution Amounts on any preceding Payment Date and not yet recovered pursuant to this item; and
- (l) any other amount standing to the credit of the Collection Account as at the end of the Collection Period immediately preceding the relevant Calculation Date, but excluding those amounts constituting Principal Available Distribution Amounts.

Principal Available Distribution Amounts means in respect of any

Payment Date, the aggregate of the following amounts (without double counting):

- (a) the principal components received by the Issuer in respect of the Purchased Receivables (other than Defaulted Receivables) comprised in the Portfolio during the immediately preceding Collection Period and net of any amount allocated pursuant to item (k) of the Interest Available Distribution Amounts in respect of such Payment Date;
- (b) the amounts allocated under items (k) (eleventh), (l) (twelfth), (m) (thirteenth), (n) (fourteenth) and (o) (fifteenth) of the Pre-Enforcement Interest Priority of Payments out of the Interest Available Distribution Amounts;
- (c) the amounts actually credited to and/or retained in, on the immediately preceding Payment Date, the Collection Account under items (i) (first) and (iii) (third), of the Pre-Enforcement Principal Priority of Payments, if any;

- (f) on the Calculation Date immediately preceding the Cancellation Date, the balance standing to the credit of the Expenses Account at such date;
- (g) in respect of the earlier of (i) the Legal Final Maturity Date, (ii) the Payment Date on which there will be sufficient Available Distribution Amounts (including the General Reserve) to redeem in full the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, and (iii) the Payment Date following the delivery of a Trigger Notice, all amounts standing to the credit of the General Reserve Account;
- (h) on the Regulatory Call Early Redemption Date only, the Seller Loan Principal Redemption Amount, which will be applied solely in accordance with item (e) (*fifth*) of the Pre-Enforcement Principal Priority of Payments on such Regulatory Call Early Redemption Date; and
- (i) the interest components received by the Issuer in respect of the Purchased Receivables (other than Defaulted

Receivables) described under item (a) of the Interest Available Distribution Amounts, in the amount needed and available so as to recover any funds erroneously allocated in or towards provision of the Interest Available Distribution Amounts on any preceding Payment Date and not yet recovered pursuant to this item.

#### 5. OTHER PRINCIPAL TRANSACTION DOCUMENTS

#### **Intercreditor Agreement**

Pursuant to the Intercreditor Agreement, the Other Issuer Secured Creditors have agreed, *inter alia*, to the cash flow allocation of the proceeds in respect of the Portfolio.

Under the Intercreditor Agreement, the Other Issuer Secured Creditors have acknowledged the rights and obligations of the Issuer and the Representative of the Noteholders under the Conditions, the Rules and the other Transaction Documents and the Issuer will covenant to the Other Issuer Secured Creditors in the terms set out in the Conditions.

In addition, under the Intercreditor Agreement, the Issuer has granted a mandate to the Representative of the Noteholders, pursuant to which, *inter alia*, following service of a Trigger Event Notice, the Representative of the Noteholders shall be authorised under Article 1723, second paragraph, of the Italian Civil Code, to exercise, in the name of the Issuer but in the interest and for the benefit of the Noteholders and the Other Issuer Secured Creditors, all the Issuer's contractual rights arising out of the Transaction Documents to which the Issuer is a party and in respect of the Portfolio, including the right to sell it in whole or in part, in the interest of the Noteholders and the Other Issuer Secured Creditors.

Under the Intercreditor Agreement, the Seller has undertaken that it will:

- (a) retain at the origination and maintain (on an ongoing basis) a material net economic interest of at least 5 (five) per cent. in the Securitisation through an interest in randomly selected exposures, in accordance with option (c) of Article 6, paragraph 3, of the EU Securitisation Regulation and the applicable Regulatory Technical Standards and of article 6(3) of the UK Securitisation Regulation (as such article is interpreted and applied on the date hereof and not taking into account any relevant national measures). Such interest in randomly selected exposures has been and will be equivalent to no less than 5 per cent. of the nominal value of the securitised exposures as at each relevant Purchase Date;
- (b) not change the manner in which the net economic interest set out above is held until the Notes are redeemed or repaid in full, save as permitted by the EU Securitisation

Regulation and the applicable Regulatory Technical Standards and by the UK Securitisation Regulation (as such article is interpreted and applied on the date hereof and not taking into account any relevant national measures);

- (c) disclose that it continues to fulfil the obligation to maintain the material net economic interest in the Securitisation in accordance with Article 6(3)(c) of the EU Securitisation Regulation and give relevant information to the Noteholders, prospective transferee of the Notes and the competent authorities in this respect on a monthly basis through the Sec Reg Investor Report to be prepared by the Calculation Agent pursuant to the Cash Allocation, Management and Payments Agreement;
- (d) notify to the Noteholders any change to the manner in which the material net economic interest set out above is held;
- (e) not to split the material net economic interest held by it amongst different types of retainers; such material net economic interest is not to be subject to any credit-risk mitigation or hedging, in accordance with Article 6, paragraph 3, of the EU Securitisation Regulation and the applicable Regulatory Technical Standards and article 6(3) of the UK Securitisation Regulation (as such article is interpreted and applied on the date hereof and not taking into account any relevant national measures).

Pursuant to the Intercreditor Agreement the Seller has been designated as Reporting Entity in accordance with Article 7, paragraph 2, of the EU Securitisation Regulation. In addition, each of the Issuer and the Seller have agreed that the Seller is designated as first contact point for investors and competent authorities pursuant to the third sub-paragraph of article 27(1) of the EU Securitisation Regulation.

## Quotaholder's Agreement

Pursuant to the Quotaholder's Agreement to be entered into on or about the Issue Date between the Issuer, the Representative of the Noteholders and the Quotaholder, the Quotaholder (i) will assume certain undertakings with respect to, *inter alia*, the exercise of its voting rights in the Issuer, and (ii) will undertake not to dispose of its interest in the Issuer.

## **Deed of Assignment**

Pursuant to the English Deed of Assignment, the Issuer has granted, *inter alia*, an English law assignment by way of security of all the Issuer's right, title, benefit and interest from time to time in and to the Interest Rate Swap Agreement, in favour of the Representative of the Noteholders for itself and as security trustee for the Noteholders and the Other Issuer Secured Creditors.

## Interest Rate Swap Agreement

In order to hedge its interest rate exposure in relation to its floating rate interest obligations under the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes and appropriately mitigate the interest rate risk connected therewith pursuant to article 21(2) of the EU Securitisation Regulation, the Issuer entered into the Interest Rate Swap Agreement with the Interest Rate Swap Provider in the form of an ISDA 2002 Master Agreement (together with the schedule thereto, the relevant credit support annex and the relevant confirmations).

# Corporate Services Agreement

Pursuant to the Corporate Services Agreement, the Corporate Servicer has agreed to provide the Issuer with certain corporate administrative services including the maintenance of corporate books and of accounting and tax registers, in compliance with reporting requirements relating to the Receivables.

#### RISK FACTORS

Investing in the Notes involves certain risks. Moreover the Notes are complex instruments which involve a high degree of risk and are suitable for purchase only by sophisticated investors which are capable of understanding the risk involved. In particular the Notes should not be purchased by or sold to individuals and other non-expert investors. As such, investors should make their own assessment as to the suitability of investing in the securities.

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with the Notes are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may, exclusively or concurrently, occur for other unknown reasons at the date of this Prospectus. While the various structural elements described in this Prospectus are intended to lessen some of these risks for the holders of the Senior Notes and Mezzanine Notes, there can be no assurance that these measures will be sufficient or effective to ensure payment to the holders of the Senior Notes and Mezzanine Notes of interest and repayment of principal on such Senior Notes and Mezzanine Notes on a timely basis or at all. Additional risks and uncertainties not presently known to the Issuer or that it currently believes to be immaterial could also have a material impact on its business operations.

The following is a description of certain aspects of the issue of the Notes of which prospective Noteholders should be aware. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision.

## <u>CATEGORY OF RISK FACTORS 1: RISK FACTORS RELATED TO THE ISSUER'S FINANCIAL</u> AND REGULATORY SITUATION

Issuer's ability to meet its obligations under the Notes, reliance on third parties and liquidity and credit risks

The ability of the Issuer to meet its obligations in respect of the Notes will be dependent on the timely payment of amounts due under the Auto Loan Contracts by the Obligors and on the due performance of the other parties to the Transaction Documents of their respective obligations. The inability of any such third parties to provide their services to the Issuer may ultimately affect the Issuer's ability to make payments on the Notes. In particular, the Issuer is subject to the risk of, amongst other things (a) delay arising between the receipt of payments due from the relevant Obligor and the scheduled payment dates, (b) default in payment by the Obligors and (c) the failure by the Servicer to collect or recover sufficient funds in respect of the Purchased Receivables in order to enable the Issuer to discharge all amounts payable under the Notes in full as they fall due.

Indeed, wthout limitation, the payment by the Issuer of amounts due on the Notes depends on receipt by the Issuer of the Available Collections and Recoveries from the Servicer in respect of the Portfolio and any other amounts to be received by the Issuer pursuant to the terms of the other Transaction Documents. As such, if any Obligor defaults under or in respect of the relevant Auto Loan Contract(s) and, after the exercise by the Servicer of available remedies in respect of the Auto Loan Contract(s), the Issuer does not receive the full amount due from those Obligors, then the Noteholders may receive by way of principal repayment an amount lower than the face value of the Notes, and the Issuer may be unable to pay in full interest due on the Notes.

Moreover, the Issuer relies upon the due performance of the Seller of its obligations under the Master Receivables Transfer Agreement and the ability of the Servicer to service the Portfolio in accordance with its obligations under the Servicing Agreement. If events occur which give the Issuer the right to terminate the appointment of the Servicer under the Servicing Agreement, it is necessary for the Issuer to appoint a Successor Servicer (see section headed "Description of the Transaction Documents – Servicing Agreement"). There can be no assurance that a Successor Servicer (a) will be found, or (b) will be willing to accept such appointment at the conditions of the Servicing Agreement, or (c) will be able to assume and perform the obligations of the Servicer.

In addition to the above, to mitigate the impact on the Securitisation's cashflows in the event that a Successor Servicer is appointed and the relevant servicing fee due to it is greater than that charged by the Servicer, pursuant to the Intercreditor Agreement Santander Consumer Finance has agreed to fund a RSF Reserve upon the occurrence of an RSF Reserve Funding Trigger Event. Any replacement servicer fee due to the Successor Servicer will be paid directly from such RSF Reserve rather than requiring the application of funds pursuant to the applicable Priority of Payments. For further details, see the section headed "Description of the Transaction Documents - The Intercreditor Agreement"

Furthermore, in some circumstances (including following the delivery of a Trigger Event Notice), the Representative of the Noteholders could attempt to sell the Portfolio to third parties (for further details, see the section headed "Description of the Transaction Documents - The Intercreditor Agreement"). In such cases, there is no assurance that a purchaser could be found nor that the proceeds of the sale of the Portfolio would be sufficient to pay in full all amounts due to the Noteholders.

These risks are in part addressed in relation to the Rated Notes by the credit support provided by (i) subordination of the Junior Notes; and (ii) the General Reserve.

There can be, however, no assurance that the levels of credit and liquidity support provided will be adequate to ensure timely and full payment of all amounts due under the Senior Notes and the Mezzanine Notes.

### Enforcement of certain Issuer's rights may be prevented by the statute of limitations

Certain rights of the Issuer under the Transaction Documents may become barred under statutes of limitation by operation of law. In particular, there is a possibility that the one year statute of limitation period set out in Article 1495 of the Italian Civil Code could be held to apply to some or all of the representations and warranties given by the Seller in the Master Receivables Transfer Agreement, on the ground that such provisions may not be derogated from by the parties to a sale contract ("contratto di compravendita") (such as the Master Receivables Transfer Agreement).

However, the parties to the Master Receivables Transfer Agreement have acknowledged and agreed that the representations and warranties given by the Seller thereunder were given as a separate and independent guarantee (which is in addition to those provided for by law) and, accordingly, the provisions of Articles 1495 et seq. of the Italian Civil Code are not applicable in respect thereto.

### Receivables of unsecured creditors of the Issuer

Pursuant to Article 3 of the Securitisation Law and the Transaction Documents, the Issuer's rights, title and interest in and to the Portfolio, any monetary claim accrued by the Issuer in the context of the Securitisation, the relevant collections and the financial assets purchased through such collections are segregated under the Securitisation Law from all other assets of the Issuer and will only be available to satisfy the obligations of the Issuer to the Noteholders, the Other Issuer Secured Creditors and any Connected Third Party Creditors in the order of priority set out in the Conditions, subject to the terms of the Intercreditor Agreement.

The Issuer is unlikely to have a large number of creditors unrelated to this Securitisation or any other Further Securitisation because (i) the corporate object of the Issuer as contained in its bylaws (*statuto*) is limited and

(ii) under the Conditions, the Issuer has undertaken to the Noteholders, *inter alia*, not to engage in any activity which is not incidental to or necessary in connection with the Securitisation, any activities which the Transaction Documents provide for or envisage that the Issuer may engage in or which is necessary in connection with or incidental to the Transaction Documents, or any Further Securitisation. Accordingly, the Issuer is less likely to have creditors who would claim against it other than the ones related to the Securitisation or the Further Securitisations (carried out pursuant to Condition 3 (*Covenants - Further Securitisations*)), if any, the Noteholders and the Other Issuer Secured Creditors (all of whom have agreed to non-petition provisions contained in the Transaction Documents) and the other third parties creditors in respect of any fees, costs, and expenses incurred in relation to any such securitisations and in order to preserve the corporate existence of the Issuer, to maintain it in good standing and to comply with applicable legislation.

Nonetheless, there remains the risk that the Issuer may incur unexpected expenses payable to Connected Third Party Creditors (which rank ahead of all other items in each of the Priorities of Payments) which means that the funds available to the Issuer for purposes of fulfilling its payment obligations under the Notes could be reduced.

Moreover, the Conditions contain provisions stating, and each of the Other Issuer Secured Creditors has undertaken in the Intercreditor Agreement, that no Noteholder or Other Issuer Secured Creditor will petition or begin proceedings for a declaration of insolvency against the Issuer.

However, there can be no assurance that each and every Noteholder and Other Issuer Secured Creditor will honour its contractual obligation not to petition or begin proceedings for a declaration of insolvency against the Issuer. Moreover, under Italian law, any creditor of the Issuer who has a valid and unsatisfied claim may file a petition for the declaration of insolvency of the Issuer.

Nonetheless, if any insolvency proceedings were to be commenced against the Issuer, no creditors other than the Representative of the Noteholders on behalf of the Noteholders, the Other Issuer Secured Creditors and any Connected Third Party Creditor would have the right to claim in respect of the Receivables, even in the event of insolvency of the Issuer; however, there can in any event be no assurance that the Issuer would be able to meet all of its obligations under the Notes.

### Commingling risk

The Issuer is subject to the risk that certain Collections may be lost or frozen in case of insolvency of the Account Bank or the Servicer.

Indeed, although Article 3, paragraphs 2-bis and 2-ter, of the Securitisation Law provides that the sums credited to the accounts opened in the name of the Issuer or the Servicer with an Italian account bank (whether before or during the relevant insolvency proceeding of such account bank) will not be subject to suspension of payments or will not be deemed to form part of the estate of the relevant account bank/servicer and shall be immediately and fully repaid to the Issuer, without the need to file any petition (domanda di ammissione al passivo o di rivendica) and wait for the distributions (riparti) and the restitutions of sums (restituzioni di somme), such provisions of the Securitisation Law have not been the subject of any official interpretation and to date they have been commented by a limited number of legal commentators. Consequently, there remains a degree of uncertainty with respect to the interpretation and application thereof.

Prospective Noteholders should note that for the purpose of mitigating such commingling risk, certain action have been taken, namely: (i) the undertaking of the Servicer to transfer into the Collection Account opened in the name of the Issuer with the Account Bank any amount paid by any Obligor in respect of the Portfolio within two Business Days from the date of receipt of such amount by the Servicer into a bank account in the name of the Servicer (and, in case the relevant payments by the Obligors are made through postal bulletin (bollettino postale), the correspondent undertaking of the Servicer to transfer into a bank account in the name

of the Servicer any amount paid by any Obligor into the Servicer's postal account no later than the second Business Day following the date of receipt); (ii) following the occurrence of a Notification Event, the Issuer's right to notify each Obligor the transfer of the relevant Purchased Receivable to the Issuer and instruct each Obligor to make any payment in respect of the relevant Purchased Receivable directly to the Collection Account, and (iii) if, *inter alia*, the appointment of SFS Italia as Servicer is terminated, each Obligor, upon notification by the Issuer, shall make any payment in respect of the relevant Purchased Receivable directly into the Collection Account.

## Credit Risk on the Seller and the other parties to the Transaction Documents

The ability of the Issuer to make payments in respect of the Notes will depend to a significant extent upon the due performance by the Seller and the other parties to the Transaction Documents of their respective various obligations under the Transaction Documents to which they are a party. In particular, without limiting the generality of the foregoing, the timely payment of amounts due on the Notes will depend on the ability of the Servicer to service the Portfolio and to recover the amounts relating to Defaulted Receivables (if any), as well as the continued availability of hedging under the Interest Rate Swap Agreement. Prospective Noteholders should note that the Interest Rate Swap Agreement may be terminated by the Interest Rate Swap Provider if, *inter alia*, a Trigger Notice is served. In addition, the ability of the Issuer to make payments under the Notes may depend to an extent upon the due performance by the Seller of its obligations under the Master Receivables Transfer Agreement in respect of the Portfolio. The performance by the parties to the Transaction Documents of their respective obligations under the relevant Transaction Documents may be influenced on the solvency of each relevant party.

It is not certain that a Successor Servicer could be found to service the Portfolio in the event that the Servicer becomes insolvent or its appointment under the Servicing Agreement is otherwise terminated. Any delay or inability to appoint a Back-up Servicer or a Successor Servicer may affect payments on the Notes. On the other hand, if such a Successor Servicer is found it is not certain whether such Successor Servicer would service the Portfolio on the same terms as those provided for in the Servicing Agreement. The ability of the Back-up Servicer (if appointed) or any Successor Servicer to fully perform the required services will depend, *inter alia*, on the information, software and record available to it at the time of its appointment. The Back-up Servicer will, *inter alia*, (i) need to satisfy the requirements of a successor servicer provided for by the Servicing Agreement; (ii) undertake to enter into an agreement substantially in the form of the Servicing Agreement; and (iii) assume all the duties and obligations applicable to it as provided for by the Transaction Documents.

Moreover, under the Intercreditor Agreement, Santander Consumer Finance has undertaken to act as Back-up Servicer Facilitator with the task of selecting the Back-up Servicer on behalf of the Issuer.

In addition to the above, to mitigate the impact on the Securitisation's cashflows in the event that a Successor Servicer is appointed and the relevant servicing fee due to it is greater than that charged by the Servicer, pursuant to the Intercreditor Agreement Santander Consumer Finance has agreed to fund a RSF Reserve upon the occurrence of an RSF Reserve Funding Trigger Event. Any replacement servicer fee due to the Successor Servicer will be paid directly from such RSF Reserve rather than requiring the application of funds pursuant to the applicable Priority of Payments.

#### **Interest Rate Risk**

The Receivables comprised in the Portfolio include and will include interest payments calculated at interest rates and times which are different from the interest rates and times applicable to the interest due in respect of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes.

The Issuer expects to meet its floating rate payment obligations under the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes primarily from the payments relating to the Collections and the Recoveries. However, the interest component in respect of such payments may have no

correlation to the EURIBOR rate from time to time applicable in respect of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes.

To protect the Issuer from a situation where EURIBOR increases to such an extent that the Collections and the Recoveries are not sufficient to cover the Issuer's obligations under the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, the Issuer has entered into the Interest Rate Swap Agreement with the Interest Rate Swap Provider, which shall at all times be (or its credit support provider shall at all times be) an institution rated in accordance with the provisions of the Interest Rate Swap Agreement, to hedge the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes against certain risks arising as a result of the interest rate mismatch between the fixed rate of interest received by the Issuer in respect of the Receivables and the floating rate of interest payable by the Issuer under the Senior Notes and the Mezzanine Notes.

Accordingly, the Issuer may in certain circumstances depend upon payments made by the Interest Rate Swap Provider in order to have sufficient Available Distribution Amounts to make payments of interest on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes. If the Interest Rate Swap Provider fails to pay any amounts when due under the Interest Rate Swap Agreement, the Available Distribution Amounts may be insufficient to make the interest payments on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes and the Noteholders may experience delays and/or reductions in the interest payments due by them.

In the event of early termination of the Interest Rate Swap Agreement, including any termination upon failure by the Interest Rate Swap Provider to perform its obligations, the Issuer will use its commercially reasonable efforts (but it will not guarantee) to find a replacement Interest Rate Swap Provider. However, in such case, there is no assurance that the Issuer will be able to meet its payment obligations under the Class A Notes and/or the Class B Notes and/or the Class C Notes and/or the Class D Notes and/or the Class E Notes in full or even in part.

Prospective Noteholders should also note that, if the Interest Rate Swap Agreement is early terminated, then the Issuer may be obliged to pay the amount determined pursuant to Section 6 (e) of the ISDA Master Agreement to the Interest Rate Swap Provider. Except in certain circumstances, such amount due to the Interest Rate Swap Provider by the Issuer will rank in priority to payments due on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes. Any additional amounts required to be paid by the Issuer as a result of the termination of the Interest Rate Swap Agreement (including any extra costs incurred if the Issuer cannot immediately enter into one or more, as appropriate, replacement interest rate swap agreements), may also rank in priority to payments due on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes. Therefore, if the Issuer is obliged to pay the amount determined pursuant to Section 6 (e) of the ISDA Master Agreement to the Interest Rate Swap Provider or to pay any other additional amount as a result of the termination of the Interest Rate Swap Agreement, this may affect the funds which the Issuer has available to make payments on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes. The interest rate risk on the Class E Notes is not hedged. This does not affect the Issuer capabilities to face its liabilities on such Class E Notes, based on its subordinate position and the limited size of such Class E Notes. For further details, see the paragraph "Description of the Interest Rate Swap Agreement".

# Changes or uncertainty in respect of Euribor may affect the value or payment of interest under the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes

Interest rates and indices which are deemed to be "benchmarks" (including EURIBOR) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on the Class A Notes, the Class B Notes, the Class D Notes and the Class E Notes. The EU Benchmarks Regulation was

published in the Official Journal of the EU on 29 June 2016 and has applied since 1 January 2018. The EU Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. It, among other things, (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation could have a material impact on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, in particular, if the methodology or other terms of the "benchmark" are changed in order to comply with the requirements of the EU Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the following effects on certain "benchmarks": (i) discourage market participants from continuing to administer or contribute to the "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark"; or (iii) lead to the disappearance of the "benchmark". Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes (which are linked to EURIBOR).

While (i) an amendment may be made under Condition 5.3 (Fallback provisions) to change the base rate on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes from EURIBOR to an Alternative Base Rate under certain circumstances broadly related to EURIBOR dysfunction or discontinuation and subject to certain conditions being satisfied, (ii) the Issuer (or the Servicer on its behalf) is under an obligation to appoint a Rate Determination Agent which must be the investment banking division of a bank of international repute and which is not an affiliate of the Seller to determine an Alternative Base Rate in accordance with Condition 5.3 (Fallback provisions), and, (iii) subject to the Interest Rate Swap Provider's agreement, an amendment may be made under Article 27.20 (Additional modifications and waivers) of the Rules of the Organisation of the Noteholders to change the base rate that then applies in respect of the Interest Rate Swap Agreement for the purpose of aligning the base rate of the Interest Rate Swap Agreement to the Reference Rate of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes following a Base Rate Modification, there can be no assurance that any such amendments will be made or, if made, that they (a) will fully or effectively mitigate all relevant interest rate risks or result in an equivalent methodology for determining the interest rates on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes and the Interest Rate Swap Agreement or (b) will be made prior to any date on which any of the risks described in this risk factor may become relevant.

It is a condition of any Base Rate Modification that upon any change to the Reference Rate of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes the parties to the Interest Rate Swap Agreement shall negotiate in good faith the possibility to adjust the relevant rate applicable under the Interest Rate Swap Agreement, or that any amendment or a modification to the Interest Rate Swap Agreement to align the Reference Rate applicable under the Class A Notes, the Class B Notes, the Class D Notes and the Class E Notes and the Interest Rate Swap Agreement takes effect at the same time as the Base Rate Modification takes effect.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation reforms in making any investment decision with respect to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes.

# <u>CATEGORY OF RISK FACTORS 2: RISK FACTORS RELATED TO THE NATURE OF THE NOTES</u>

## Noteholders cannot rely on any person other than the Issuer to make payments to Noteholders on the Notes

The Notes will be limited recourse obligations solely of the Issuer backed by the Portfolio and the other Securitisation Assets and will not be the responsibility of, or be guaranteed by, any other entity. In particular, the Notes will not be obligations or responsibilities of, or guaranteed by, any Transaction Party (including, without limitation, the Arranger and/or the Joint Lead Managers) or any other person except the Issuer. Furthermore, none of such persons accepts any liability whatsoever in respect of any failure by the Issuer to make any payment of any amount due under the Notes.

## Limited sources of payments to Noteholders, subordination and credit enhancement

The Issuer's principal asset is the Portfolio. The Issuer will not have as of the Issue Date any significant assets for the purpose of meeting its obligations under the Securitisation, other than the Portfolio, the Available Collections derived therefrom and its rights under the Transaction Documents.

Payments of interest and repayment of principal under the Notes are subject to certain subordination and ranking provisions.

In particular, in respect of the obligation of the Issuer to pay interest on the Notes prior to the delivery of a Trigger Notice or the redemption of the Notes in accordance with Condition 6.1 (*Final redemption*), Condition 6.3 (*Redemption for Issuer Tax Event*) or Condition 6.4 (*Early redemption at the option of the Issuer*):

- (a) the Class A Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class Z Notes;
- (b) the Class B Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class C Notes, the Class D Notes, the Class E Notes and the Class Z Notes, but subordinated to the Class A Notes;
- (c) the Class C Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class D Notes, the Class E Notes and the Class Z Notes, but subordinated to the Class A Notes and the Class B Notes;
- (d) the Class D Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class E Notes and the Class Z Notes, but subordinated to the Class A Notes, the Class B Notes and the Class C Notes;
- (e) the Class E Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class Z Notes, but subordinated to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes; and
- (f) the Class Z Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves, but subordinated to the Class A Notes, Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes.

In respect of the obligation of the Issuer to repay principal on the Notes prior to the delivery of a Trigger Notice or the redemption of the Notes in accordance with Condition 6.1 (*Final redemption*), Condition 6.3 (*Redemption for Issuer Tax Event*) or Condition 6.4 (*Early redemption at the option of the Issuer*):

- (a) before the Sequential Redemption Period:
  - (i) the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class E Notes and the Class Z Notes;
  - (ii) the Class E Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves but subordinated to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes and in priority to the Class Z Notes;
  - (iii) the Class Z Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves but subordinated to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes:
- (b) during the Sequential Redemption Period:
  - (i) the Class A Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class Z Notes;
  - (ii) the Class B Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class C Notes, the Class D Notes, the Class E Notes and the Class Z Notes, but subordinated to the Class A Notes;
  - (iii) the Class C Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class D Notes, the Class E Notes and the Class Z Notes, but subordinated to the Class A Notes and the Class B Notes;
  - (iv) the Class D Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class E Notes and the Class Z Notes, but subordinated to the Class A Notes, the Class B Notes and the Class C Notes;
  - (v) the Class E Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class Z Notes, but subordinated to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes; and
  - (vi) the Class Z Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves, but subordinated to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes,

in each case, out of the Principal Available Distribution Amounts in accordance with the Pre-Enforcement Principal Priority of Payments; *provided that* the Class E Notes and the Class Z Notes will be repaid out of the Interest Available Distribution Amounts in accordance with the Pre-Enforcement Interest Priority of Payments.

In respect of the obligation of the Issuer to pay interest and repay principal on the Notes following the delivery of a Trigger Notice or in case of the redemption of the Notes in accordance with Condition 6.1 (Final redemption), Condition 6.3 (Redemption for Issuer Tax Event) or Condition 6.4 (Early redemption at the option of the Issuer):

(a) the Class A Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class Z Notes;

- (b) the Class B Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class C Notes, the Class D Notes, the Class E Notes and the Class Z Notes, but subordinated to the Class A Notes;
- (c) the Class C Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class D Notes, the Class E Notes and the Class Z Notes, but subordinated to the Class A Notes and the Class B Notes;
- (d) the Class D Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class E Notes and the Class Z Notes, but subordinated to the Class A Notes, the Class B Notes and the Class C Notes;
- (e) the Class E Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves and in priority to the Class Z Notes, but subordinated to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes; and
- (f) the Class Z Notes will rank *pari passu* and *pro rata* without preference or priority amongst themselves, but subordinated to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes.

As a result, to the extent that any losses are suffered by any of the Noteholders, such losses will be borne firstly by the Noteholders which rank more junior in the applicable Priority of Payments and secondly by the other Noteholders in accordance with their ranking in such Priority of Payments

#### Limited recourse nature of the Notes

The Notes will be limited recourse obligations solely of the Issuer. The Noteholders will receive payment in respect of principal and interest on the Senior Notes and the Mezzanine Notes and Variable Return (if any) on the Class Z Notes only if and to the extent that the Issuer will have sufficient Available Distribution Funds to make such payment in accordance with the applicable Priority of Payments. If there are not sufficient Available Distribution Funds available to the Issuer to pay in full any amounts due in respect of the Notes, then the Noteholders will have no further claims against the Issuer in respect of any such unpaid amounts. Other than as provided for in the Transaction Documents, the Issuer and the Representative of the Noteholders will have no recourse to the Seller or any other entity. In this respect, the net proceeds of the realisation of the Portfolio may be insufficient to pay all amounts due to the Noteholders after making payments to other creditors of the Issuer ranking prior thereto. In the event of a shortfall in such proceeds, the Issuer will not be obliged to pay, and the other assets of the Issuer will not be available for payment of, such shortfall, all claims in respect of which shall be extinguished.

In this regard, prospective investors in the Notes should note that, pursuant to the Conditions and the Intercreditor Agreement, the Noteholders and the Other Issuer Secured Creditors have acknowledged and agreed to be bound by the limited recourse and non-petition provisions set out thereunder. For further details, see the sections headed "Terms and Conditions of the Notes" and "Description of the Transaction Documents – Intercreditor Agreement".

## Investment in the Notes is only suitable for certain investors

Structured securities, such as the Notes, are sophisticated instruments, which can involve a significant degree of risk. Prospective investors in any Class of Notes should ensure that they understand the nature of the Notes and the extent of their exposure to the relevant risk. Prospective investors should also ensure that they have sufficient knowledge, experience and access to professional advice to make their own legal, tax, accounting and financial evaluation of the merits and risks of investment in the Notes and that they consider the suitability of the Notes as an investment in light of their own circumstances and financial condition.

Investment in the Notes is only suitable for investors who (i) have the requisite knowledge and experience in financial and business matters to evaluate such merits and risks of an investment in the Notes; (ii) have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of their financial situation; (iii) are capable of bearing the economic risk of an investment in the Notes; and (iv) recognise that it may not be possible to dispose of the Notes for a substantial period of time, if at all.

Prospective investors should not rely on or construe any communication (written or oral) of the Issuer, the Seller, the Arranger, the Joint Lead Managers or any other Transaction Party as investment advice or as a recommendation to invest in the Notes, it being understood that information and explanations related to the Conditions shall not be considered to be investment advice or a recommendation to invest in the Notes. No communication (written or oral) received from the Issuer, the Seller, the Arranger, the Joint Lead Managers or any other Transaction Party shall be deemed to be an assurance or guarantee as to the expected results of an investment in the Notes.

If an investor does not properly assess the nature of the Notes and the extent of its exposure to the relevant risks before making its investment decision, it may suffer losses.

Therefore, prospective investors in the Notes should make their own independent decision whether to invest in the Notes and whether an investment in the Notes is appropriate or proper for them, based upon their own judgement and upon advice from such advisers as they may deem necessary.

The above constitutes a risk given the nature of the Notes as complex financial instruments. In addition to the disclaimer contained in the Prospectus – by which prospective investors should NOT rely solely on the information provided under this Prospectus in order to assess the feasibility of their investment – this specific risk factor is aimed at underlying the potential losses an investor may suffer if it invests in the Notes without appropriate independent counseling.

## Lack of liquidity in the secondary market

There is not at present an active and liquid secondary market for the Notes. The Notes will not be registered under the Securities Act and will be subject to significant restrictions on resale in the United States.

Although an application has been made to list on the official list of the Luxembourg Stock Exchange and to admit to trading on its regulated market the Senior Notes and the Mezzanine Notes (the **Listed Notes**), there can be no assurance that a secondary market for the Listed Notes will develop or, if a secondary market does develop in respect of the Listed Notes, that it will provide the holders of such Listed Notes with liquidity of investments or that it will continue until the final redemption and/or cancellation of such Listed Notes. Consequently, any purchaser of the Listed Notes may be unable to sell such Listed Notes to any third party and it may therefore have to hold the Listed Notes until final redemption and/or cancellation thereof.

Limited liquidity in the secondary market may continue to have an adverse effect on the market value of the asset backed securities, especially those securities that are more sensitive to prepayment, credit or interest rate risk and those securities that have been structured to meet the requirements of limited categories of investors. Consequently, whilst these market conditions persist, an investor in the Notes may not be able to sell or acquire credit protection on its Notes readily and market values of the Notes are likely to fluctuate. Any of these fluctuations may be significant and could result in significant losses to an investor.

# Yield, prepayment, weighted average life of the Notes and subrogation considerations are influenced by a number of factors

The yield to maturity, the amortisation plan and the weighted average life of the Notes will depend upon, *inter alia*, (i) the amount and timing of repayment of principal (including prepayments and sale proceeds arising on enforcement of an Auto Loan Contract) on the Auto Loan Contracts and (ii) the exercise of the optional redemption rights of the Issuer pursuant to Condition 6.3 (*Redemption, Purchase and Cancellation* 

- Redemption for Issuer Tax Event) or Condition 6.4 (Redemption, Purchase and Cancellation - Early redemption at the option of the Issuer) or Condition 6.5 (Redemption, Purchase and Cancellation - Optional redemption for regulatory reasons). Such yield and/or weighted average life may be adversely affected by a higher or lower than anticipated rate of prepayments on the Auto Loan Contract, since under the terms of each Auto Loan Contracts (and pursuant to article 125-sexies of the Italian Banking Act), the Debtor is allowed to prepay, in whole or in part and at any time, the Auto Loan before its scheduled final payment date. As such, (i) the rate of prepayment of Auto Loan Contract cannot be predicted and is influenced by a wide variety of economic, social and other factors, including prevailing consumer and ordinary loans market interest rates and margins offered by the banking system, the availability of alternative financing and local and regional economic conditions, and (ii) the actual average life of the Senior Notes and the Mezzanine Notes is, therefore, impossible to predict exactly, provided that the Senior Notes and the Mezzanine Notes may also mature earlier than the expected average life.

Moreover, with respect to the subrogation, Article 120-quater of the Italian Banking Act provides that, in respect of a loan, overdraft facility or any other financing granted by a bank or financial intermediary, the relevant borrower can exercise the subrogation, even if the borrower's debt towards the lender is not due and payable or a term for repayment has been agreed for the benefit of the creditor. The borrower shall not bear any expenses or commissions in connection with the subrogation. Furthermore, if the subrogation is not perfected within 30 (thirty) business days from the date on which the original lender has been requested to cooperate for the conclusion of the subrogation, the original lender shall indemnify the borrower for an amount equal to 1 per cent. of the loan or facility granted, for each month or fraction of month of delay. The original lender has the right to ask for indemnification from the subrogating lender, in case the latter is to be held liable for the delay in the conclusion of the subrogation.

The impact of the above on the yield to maturity and the weighted average life of the Senior Notes and Mezzanine Notes cannot be predicted. As such, the stream of principal payments received by a Noteholder may not be uniform or consistent and no assurance can be given as to the yield to maturity which will be experienced by a holder of any Senior Note and/or Mezzanine Note.

## Limited nature of credit ratings assigned to the Rated Notes and effect on the market value of the Rated Notes of reduction or withdrawal of the assigned ratings

The credit ratings which will be assigned to the Rated Notes by the Rating Agencies on the Issue Date reflects the Rating Agencies' assessment only of the likelihood of payment of interest in a timely manner, pursuant to the Conditions and the Transaction Documents, and the ultimate repayment of principal on or before the Legal Final Maturity Date, not that such repayment of principal will be paid when expected or scheduled. These ratings are based, among other things, on the Rating Agencies' determination of the value of the Portfolio, the reliability of the payments on the Portfolio and the availability of credit enhancement.

The ratings do not address the following:

- (a) the likelihood that the principal will be redeemed on the Rated Notes, as expected, on the scheduled redemption dates;
- (b) possibility of the imposition of Italian or European withholding taxes;
- (c) the marketability of the Rated Notes, or any market price for the Rated Notes; or
- (d) whether an investment in the Rated Notes is a suitable investment for a Noteholder.

A rating is not a recommendation to purchase, hold or sell the Rated Notes. There is no assurance that any such ratings will continue for any period of time or that they will not be reviewed, revised, suspended or withdrawn entirely by any of the Rating Agencies as a result of occurrence of future events such as any deterioration of the Portfolio, unavailability or the delay in the delivery of information, the failure by the

parties to the Transaction Documents to perform their obligations under the Transaction Documents and revision, suspension or withdrawal of the unsecured, unsubordinated and unguaranteed debt rating of third parties involved in the Securitisation, which could have an adverse impact on the credit ratings of the Rated Notes.

The rating of the Rated Notes may nevertheless be subject to revision or withdrawal at any time by the assigning Rating Agency. Moreover, in the event of downgrading of the unsecured, unsubordinated and unguaranteed debt rating of third parties involved in the Securitisation, there is no guarantee that the Issuer will be in a position to secure a replacement for the relevant third party or there may be a significant delay in securing such a replacement and, consequently, the rating of the Rated Notes may be affected.

In addition, EU regulated investors (such as investment firms, insurance and reinsurance undertakings, UCITS funds and certain hedge fund managers) are restricted from using a rating for regulatory purposes issued by a credit rating agency established in the European Union and registered under the EU CRA Regulation, unless such ratings are issued by a credit rating agency established in the EU and registered under the EU CRA Regulation (and such registration has not been withdrawn or suspended) or such rating is provided by a credit rating agency not established in the European Union which is certified under the EU CRA Regulation. Furthermore, UK regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the UK and registered under the UK CRA Regulation, unless such rating is provided by a credit rating agency not established in the UK but is endorsed by a credit rating agency established in the UK and registered under the UK CRA Regulation or such rating is provided by a credit rating agency not established in the UK which is certified under the UK CRA Regulation. The list of registered and certified rating agencies published by European Securities and Markets Authority on its website in accordance with the EU CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated European Securities and Markets Authority's list.

### Assignment of unsolicited ratings may affect the market value of the Rated Notes

The Issuer has not requested a rating of the Rated Notes by any rating agency other than the Rating Agencies. However, credit rating agencies other than the Rating Agencies could seek to rate the Rated Notes and, if such unsolicited ratings are lower than the comparable ratings assigned to the Rated Notes by the Rating Agencies, those shadow ratings could have an adverse effect on the value of the Rated Notes. For the avoidance of doubt and unless the context otherwise requires, any references to "ratings" or "rating" in this Prospectus are to ratings assigned by the specified Rating Agencies only.

## Individual Noteholders have limited enforcement rights

Pursuant to the Transaction Documents, the Representative of the Noteholders is responsible for implementing the resolutions of the meeting of the Noteholders and for protecting the Noteholders' common interest *vis-à-vis* the Issuer and is entitled to exercise, following the service of a Trigger Event Notice, the contractual rights of the Issuer under the Intercreditor Agreement in accordance with the terms of the Transaction Documents. Moreover, the protection and exercise of the Noteholders' rights against the Issuer and the preservation and enforcement of the security under the Notes is one of the duties of the Representative of the Noteholders to the extent provided by the Transaction Documents. Only the Representative of the Noteholders may pursue the remedies available under the general law or under the Transaction Documents.

In such respects, the Rules limit the ability of individual Noteholders to commence proceedings against the Issuer by giving the meeting of the organisation of the Noteholders the power to decide whether a Noteholder may commence any such individual actions.

#### The Representative of the Noteholders and potential conflicts of interest

Conflict of interest may exist or may arise as a result of any Transaction Party (i) having previously engaged or in the future engaging in transactions with other parties to the Securitisation, (ii) having multiple roles in the Securitisation, and/or (iii) carrying out other transactions for third parties.

Indeed, under the Securitisation (i) SFS Italia acts as Seller, Servicer, Cash Manager and Junior Notes Subscriber; (ii) BNYM acts as Account Bank and Paying Agent; and (iii) Zenith as Corporate Servicer, Representative of the Noteholders and Calculation Agent. In addition, SFS Italia may hold and/or service receivables arising from loans other than the Receivables and providing financial services to the Debtors. Even though under the Servicing Agreement, SFS Italia as Servicer has undertaken to act in the interest of the Noteholders, it cannot be excluded that, in certain circumstances, a conflict of interest may arise with respect to other relationships with the Debtors.

The Conditions and the Intercreditor Agreement contain provisions requiring the Representative of the Noteholders to protect the interests of all the Issuer Secured Creditors, but, notwithstanding the foregoing, the Representative of the Noteholders is required (in accordance with the terms of the Transaction Documents) to have regard only to: (A) the interest of the holders of the Most Senior Class of Notes if, in the Representative of the Noteholders' opinion, there is a conflict between the interests of the Noteholders of any Class, as the case may be, and the interests of any Other Issuer Secured Creditor (or any combination of them); and (B) subject to (A) above, the interests of the Issuer Secured Creditor to whom any amounts are owed appearing highest in the applicable Priority of Payments.

## Noteholders' directions following the service of a Trigger Notice or in case of early redemption of the Notes

Following the occurrence of a Trigger Event, the Representative of the Noteholders shall, pursuant to the Conditions, serve a Trigger Event Notice to the Issuer declaring the Notes to be due and repayable, whereupon the Notes shall become immediately due and repayable at their Principal Amount Outstanding and all payments due to be made by the Issuer will be made in accordance with the Post-Enforcement Priority of Payments. To such end, the Representative of the Noteholders may take such steps and/or institute such proceedings against the Issuer as it may think fit to ensure said payments.

In a number of circumstances, the Notes may become subject to early redemption which may be dependent upon receipt by the Representative of the Noteholders of a direction from, or a resolution passed by, a certain majority of Noteholders. If the economic interest of a Noteholder represents a relatively small proportion of the majority and its individual vote is contrary to the majority vote, its direction or vote may be ignored and, if a determination is made by certain of the Noteholders to redeem the Notes, such minority Noteholders may face early redemption of the Notes held by them.

## Noteholders' directions following the service of a Trigger Notice

Following the delivery of a Trigger Notice and in accordance with the Terms and Conditions, the Issuer (or the Representative of the Noteholders on its behalf) may (with the consent of an Extraordinary Resolution of the Most Senior Class of Noteholders) or shall (if so directed by an Extraordinary Resolution of the Most Senior Class of Noteholders) dispose of the Portfolio or any part thereof in accordance with the provisions of the Intercreditor Agreement, it being understood that no provisions shall require the automatic liquidation of the Portfolio pursuant to Article 21(4) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria.

In addition, at any time after a Trigger Notice has been served, the Representative of the Noteholders may (with the consent of an Extraordinary Resolution of the Most Senior Class of Noteholders) or shall (if so directed by an Extraordinary Resolution of the Most Senior Class of Noteholders) take such steps and/or institute such proceedings against the Issuer as it may think fit to ensure repayment of the Notes and payment

of accrued but unpaid interest thereon in accordance with the Post-Enforcement Priority of Payments. The directions of the Most Senior Class of Noteholders in such circumstances may be adverse to the interests of the other Classes of Noteholders.

### **Resolutions of the Noteholders**

Prospective Noteholders should note that Noteholders' resolutions properly adopted in accordance with the Rules of the Organisation of the Noteholders are binding on all Noteholders, including Noteholders who did not attend and vote at the relevant Meeting and Noteholders who voted in a manner contrary to the Meeting. Therefore certain rights of each Noteholder against the Issuer under the Conditions may be limited pursuant to any such Resolution.

In particular, pursuant to the Rules of the Organisation of the Noteholders, any resolution (other than one involving a Basic Term Modification) that is passed by the Most Senior Class of Noteholders shall be binding on the other Classes of Notes irrespective of the effect thereof on their interests. As such, prospective Noteholders should note that these provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant Meeting and Noteholders who voted in a manner contrary to the Meeting.

### CATEGORY OF RISK FACTORS 3: RISK FACTORS RELATED TO THE PORTFOLIO

## No independent investigation in relation to the Receivables

None of the Issuer, the Representative of Noteholders, the Arranger, the Joint Lead Managers or any other Transaction Party (other than the Seller) has undertaken, or will undertake, any investigations, searches or other actions to verify the details of the Receivables comprised in the Portfolio or to establish the creditworthiness of any Obligor. Each such person will rely solely on representations and warranties given by the Seller under the Master Receivables Transfer Agreement in respect of, *inter alia*, the Receivables, the Obligors, the Ancillary Rights, the Auto Loans and the Auto Loan Contracts as of each Selection Date (and repeated on the relevant Purchase Date).

The only remedies of the Issuer in respect of the occurrence of a breach of the representations and warranties materially affecting the Receivables will be the partial termination of the Master Receivables Transfer Agreement and the payment by the Seller of an amount equal to the sum of (i) the Outstanding Balance in respect of the relevant Affected Receivables, (ii) accrued and outstanding interest, and (iii) any Arrears Amounts relating to those Affected Receivables as of the Determination Date preceding the Non-Conformity Repurchase Date (see section headed "Description of the Transaction Documents – Master Receivables Transfer Agreement"). In the event of a claim for loss by the Issuer against the Seller for breach of a representation and warranty, there is no assurance that the Seller will have the resources to indemnify the Issuer.

### **Performance of Auto Loan Contracts**

The Portfolio is exclusively comprised of, and shall exclusively comprise, Receivables arising from Auto Loan Contracts which were performing (*crediti in bonis*) as at the relevant Selection Date (see section headed "*The Portfolio*"). There can be no guarantee that the Obligors will continue to perform their respective obligations under the Auto Loan Contracts. The recovery of amounts due in relation to non-performing Auto Loan Contracts is, *inter alia*, dependent on the effectiveness and duration of enforcement proceedings in the Republic of Italy.

Moreover, the recovery of overdue amounts in respect of the Auto Loans will be affected by the length of enforcement proceedings in respect of the Auto Loans, which in the Republic of Italy can take a considerable amount of time depending on the type of action required and where such action is taken. Factors which can have a significant effect on the length of the proceedings include the following: (i) certain courts may take

longer than the national average to enforce the Auto Loans, and (ii) more time will be required for the proceedings if it is necessary first to obtain a payment injunction (*decreto ingiuntivo*) or if any Debtor/Borrower raises a defence or counterclaim to the proceedings.

#### **Insurance Policies**

Any indemnity paid by the relevant Insurance Company to the relevant Debtor as beneficiary under any Insurance Policy may be used by the relevant Debtor to pay the amounts due in relation to the relevant Receivables. There can be no guarantee that the Insurance Companies will perform their respective obligations under the relevant Insurance Policy.

#### **Recoveries under the Auto Loan Contracts**

Following default by a borrower under an Auto Loan Contract, the Servicer will be required to take steps to recover the sums due under the Auto Loan Contract in accordance with its credit and collection policies and the Servicing Agreement. See "The Servicing Agreement" and "Underwriting and Servicing Procedures" below.

Such steps could include an out-of-court settlement; however, legal proceedings may be taken against the borrower if the Servicer is of the view that the potential recovery would exceed the costs of the enforcement measures. In such event, due to the complexity of and the time involved in carrying out legal or insolvency proceedings against the borrower and the possibility for challenges, defences and appeals by the borrower, there can be no assurance that any such proceedings would result in the payment in full of outstanding amounts under the relevant Auto Loan Contract.

In the Republic of Italy, a lender which has received a judgment against a debtor in default may enforce the judgment through a forced sale of the debtor's (or guarantor's) goods (*pignoramento mobiliare*) or real estate assets (*pignoramento immobiliare*), if the lender has previously been granted a court order or injunction to pay amounts in respect of any debt or unperformed obligation.

The average length for a forced sale of a debtor's goods, from the court order or injunction of payment to the final sharing-out, is about three years. The average length of time for a forced sale of a debtor's real estate asset, from the court order or injunction of payment to the final sharing-out, is between six and seven years. In the medium-sized central and northern Italian cities it can be significantly less, whereas in major cities or in southern Italy the duration of the procedure can significantly exceed the average.

Estimates of the cost for the enforcement of security interests have to be made on a case by case basis. The creditor is required to pay, in advance, the expenses of the judicial enforcement proceeding (including the fees of the expert appointed by the court to appraise the assets subject to enforcement).

## Servicing of the Portfolio

The Portfolio will be serviced by SFS Italia as Servicer of the Securitisation. Consequently, the net cash flows from the Portfolio may be affected by decisions made, actions taken and the Servicing Procedures adopted by the Servicer.

To address this risk, the Servicing Agreement provides that (i) the Servicer will carry out the servicing activities according to the highest professional standards of skill and diligence in the collection and recovery of securitised receivables similar to the Purchased Receivables in the interest of the Issuer and the Representative of the Noteholders; (ii) in the event that the Servicer has to face a situation that is not expressly envisaged in the Servicing Procedures, it shall act in a commercially prudent and reasonable manner and in the interest of the Issuer, the Representative of Noteholders, the Noteholders and the Other Issuer Secured Creditors. In addition, amendments to the Servicing Procedures may be made only in the limited circumstances provided for under the Servicing Agreement; (iii) in case of payments made by direct

debit, amounts paid by Debtors are paid into the Servicer Collection Account and, in the case of payments through postal bulletin (*bollettino postale*), amounts paid by Debtors are paid into the Servicer Postal Account and then transferred by the Servicer from the Servicer Postal Account to the Servicer Collection Account (in any case by no later than the second Business Day following the date of receipt); and (iv) the Servicer has undertaken to transfer all the Available Collections and Recoveries to the Collection Account by no later than the second Business Day following receipt of such amounts.

Nevertheless, under the Servicing Agreement the Servicer has the power to renegotiate the terms of the Auto Loan Contracts corresponding to Purchased Receivables, within the limits set out thereunder (for further details, see the section headed "Description of the Transaction Documents - Servicing Agreement").

#### **Used Car Risk**

Certain of the Auto Loan Contracts giving rise to Receivables are in relation to Used Cars. Historically, the risk of non-payment of Auto Loans in relation to Used Cars is greater than in relation to Auto Loans for the purchase of New Cars.

### **Principal Deficiency Ledger**

If, upon default by the Borrowers and the exercise by the Issuer or the Servicer of all available remedies under the Loans, the relevant Receivables deriving from such Loans are classified as Defaulted Receivables, the Issuer will be obliged to record any principal deficiencies in the Principal Deficiency Ledger.

If there are insufficient funds available as a result of such principal deficiencies, then one or more of the following consequences may ensue:

- (a) the Issuer's interest and other net income may not be sufficient, after making the payments to be made in priority thereto, to pay, in full or at all, interest due on the Senior Notes, the Mezzanine Notes and/or the Junior Notes;
- (b) there may be insufficient funds to redeem the Senior Notes, the Mezzanine Notes and/or the Junior Notes at their face value unless, prior to the Final Maturity Date, the Issuer's interest and other net income is sufficient, after making other payments to be made in priority thereto, to reduce to nil the debit provision in the Principal Deficiency Ledger; and
- (c) if the aggregate debit balances, notwithstanding any reduction as aforesaid, exceed the aggregate face of the value of the Mezzanine Notes and the Junior Notes, the Senior Noteholders may not receive by way of principal repayment the full face value of their Senior Notes.

## <u>CATEGORY OF RISK FACTORS 4: RISKS RELATED TO OTHER LEGAL C</u>ONCERNS

### Limited interpretation of the Securitisation Law

As at the date of this Prospectus, limited interpretation of the application of the Securitisation Law has been issued by any Italian governmental or regulatory authority. Consequently, it is possible that such authorities may issue further regulations relating to the Securitisation Law or to the interpretation thereof, the impact of which cannot be predicted by the Issuer or any other party as at the date of this Prospectus. The above constitutes a risk given that a different interpretation of the Securitisation Law may impose on the parties to the transaction additional requirements and thus ultimately affect the operation of and/or the return expected on the transaction.

### Italian Usury Law has been subject to different interpretations over the time

Italian Law no. 108 of 7 March 1996 (the **Usury Law**) introduced legislation preventing lenders from applying interest rates higher than those deemed to be usurious (**Usury Rates**). Usury Rates are set on a quarterly basis by a decree issued by the Italian Treasury.

With a view to limiting the impact of the application of the Usury Law to Italian loans executed prior to its entering into force, the Italian Government has specified with Law Decree number 394 of 29 December 2000 (Decree 394/2000) converted into law by the Italian Parliament with Law no. 24 of 28 February 2001, that interest rate is usurious if it is higher than the legal limit in force at the time at which it is promised or agreed, in any form, regardless of the time at which payment is made. However, it should be noted that few commentators and some lower court decisions have held that, irrespective of the principle set out in the Usury Law, as interpreted by Law 24/2001, if an interest originally agreed at a rate falling below the then applicable usury limit were, at a later date, to exceed the usury limit from time to time in force, such interest should nonetheless be reduced to the then applicable usury limit. Such opinion seems confirmed by the Italian Supreme Court (Cass. Sez. I, 11.01.2013, number 602 and Cass. Sez. I, 11.01.2013, number 603), which stated that an automatic reduction of the applicable interest rate to the Usury Rates applicable from time to time shall apply to the loans.

In addition, even where the applicable Usury Rates are not exceeded, interest and other advantages and/or remuneration may be held to be usurious if: (i) they are disproportionate to the amount lent (taking into account the specific circumstances of the transaction and the average rate usually applied for similar transactions) and (ii) the person who paid agreed to pay was in financial and economic difficulties. The provision of usurious interest, advantages or remuneration has the same consequences as non-compliance with the Usury Rates.

Law 24/2001 was challenged before the Italian Constitutional Court on the grounds that it would not comply with the provisions of the Constitution. In February 2002, the Constitutional Court confirmed that under Decree 394/2000, the reference point in considering whether a rate is usurious or not is the date of execution of the relevant loan agreement.

The Italian Supreme Court, under decision number 350/2013, as confirmed by decision number 23192/2017 and number 19597/2020, has clarified that the default interest rates are relevant and must be taken into account when calculating the aggregate remuneration of any given financing for the purposes of determining its compliance with the applicable Usury Rates. Such interpretation is in contradiction with the current methodology for determining the Usury Rates, considering that the relevant surveys aimed at calculating the applicable average rate never took into account the default interest rates.

Prospective investors should know that the Seller has represented in the Master Receivables Transfer Agreement that the Receivables comprised in the Portfolio comply with applicable Italian laws, among which are comprised those relating to usury.

# Rules on compounding of interest (anatocismo) have been subject to different interpretation over the time

Pursuant to Article 1283 of the Italian civil code, in respect of a monetary claim or receivable, accrued interest may be capitalised after a period of not less than six months only (i) under an agreement entered into after the date on which it has become due and payable or (ii) from the date when any legal proceedings are commenced in respect of that monetary claim or receivable. Article 1283 of the Italian civil code allows derogation from this provision in the event that there are recognised customary practices (*usi*) to the contrary. Banks and other financial institutions in the Republic of Italy have traditionally capitalised accrued interest on a three monthly basis on the grounds that such practice could be characterised as a customary practice (*uso normativo*). However, a number of judgements from Italian courts (including the judgements from the Italian Supreme Court (*Corte di Cassazione*) no. 2374/1999, no. 2593/2003, no. 21095/2004 as confirmed by judgment no. 24418/2010 of the same Court) have held that such practices may not be defined as customary practices (*uso normativo*).

As a consequence thereof, the challenge by any Debtor of the practice of capitalising interest and the upholding of such interpretation of the Italian civil code in judgments of the other courts of the Republic of Italy could have a negative effect on the returns generated from the Auto Loan Contracts.

It should be noted that paragraph 2 of Article 120 of the Italian Banking Act, concerning compounding of interest accrued in the context of banking transactions, has been amended by Article 17-bis of Law Decree no. 18 of 14 February 2016 (as converted into law by Law no. 49 of 8 April 2016), providing that interest (other than defaulted interest) shall not accrue on capitalised interest. Paragraph 2 of Article 120 of the Italian Banking Act also requires the *Comitato Interministeriale per il Credito e il Risparmio* (CICR) to establish the methods and criteria for the compounding of interest. Decree no. 343 of 3 August 2016 of the CICR, implementing paragraph 2 of Article 120 of the Italian Banking Act, has been published in the Official Gazette no. 212 of 10 September 2016. Given the novelty of this new legislation and in the absence of any jurisprudential interpretation, the impact of such new legislation may not be predicted as at the date of this Prospectus.

The Seller has represented in the Master Receivables Transfer Agreement that the Receivables comprised in the Portfolio comply with applicable Italian laws, among which are comprised those relating to compounding of interest (*anatocismo*).

#### Risk of claw back

Assignments of receivables made under the Securitisation Law are subject to claw-back (*revocatoria fallimentare*) (i) pursuant to article 166, first paragraph, of the Italian Insolvency Code, if the adjudication of insolvency of the relevant originator is made within 6 (six) months from the purchase of the relevant portfolio of receivables, provided that the value of the receivables exceeds the sale price of the receivables for more than 25 (twenty-five) per cent. and the issuer is not able to demonstrate that it was not aware of the insolvency of such originator, or (ii) pursuant to article 166, paragraph 2, of the Italian Insolvency Code, if the adjudication of insolvency of the relevant originator is made within 3 (three) months from the purchase of the relevant portfolio of receivables, and the insolvency receiver of such originator is able to demonstrate that the issuer was aware of the insolvency of the originator.

In such respect, pursuant to the Master Receivables Transfer Agreement the Seller has delivered certain standard solvency certificates to the Issuer in respect of the transfer of each Portfolio made thereunder, but ultimately the Seller's solvency cannot be assured throughout the life of the securitision which this Prospectus refers to and an insolvency declaration of the Seller may therefore have adverse effects on the present securitisation.

According to Article 4 of the Securitisation Law, payments made by an assigned debtor to the Issuer may not be subject to any claw-back action or ineffectiveness according to, respectively, Articles 166 and 164, first paragraph, of the Italian Insolvency Code.

All other payments made to the Issuer by any Transaction Party in the one year/sixth months suspect period prior to the date on which the petition for admission to judicial liquidation (*liquidazione giudiziale*) of the relevant party is filed may be subject to claw-back action according to Article 166 paragraphs 1 or 2, as applicable, of the Italian Insolvency Code. The relevant payment may be set aside and clawed back if the receiver gives evidence that the recipient of the payments had knowledge of the state of insolvency when the payments were made. The question as to whether or not the Issuer had actual or constructive knowledge of the state of insolvency at the time of the payment is a question of fact with respect to which a court may in its discretion consider all relevant circumstances.

# There is no assurance that the Class A Notes will be recognised as eligible collateral for ECB liquidity and/or open market transactions

The Class A Notes have been structured in a manner so as to allow Eurosystem eligibility. However, this

does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria and, in accordance with its policies, will not be given prior to issue of the Class A Notes. If the Class A Notes are accepted for such purposes, Eurosystem may amend or withdraw any such approval in relation to the Class A Notes at any time. In the event that the Class A Notes are not recognised (or cease to be recognised) as an eligible collateral for Eurosystem operations, the holders of the Class A Notes would not be able to access the ECB funding. In such case, there is no assurance that the holders of the Class A Notes will find alternative sources of funding or, should such alternative sources be found, these will be at equivalent economic terms compared to those applied by the ECB. In the absence of suitable sources of funding, the holders of the Class A Notes may ultimately suffer a lack of liquidity. Neither the Issuer, nor the Arranger or any other Transaction Party (i) gives any representation or warranty as to whether Eurosystem will ultimately confirm that the Class A Notes are eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem for such purpose; and (ii) will have any liability or obligation in relation thereto if the Class A Notes are at any time deemed ineligible for such purposes.

# Regulatory initiatives may result in increased regulatory capital requirements and/or decreased liquidity in respect of the Notes

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the asset-backed securities industry. This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may have an adverse impact on the regulatory capital charge to certain investors in securitisation exposures and/or the incentives for certain investors to hold asset-backed securities, and may thereby affect the liquidity of such securities. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Arranger, the Joint Lead Managers or any other party of the Securitisation makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment in the Notes on the Issue Date or at any time in the future.

Investors should note in particular that the Basel Committee on Banking Supervision (BCBS) has approved a series of significant changes to the Basel framework for prudential regulation (such changes being referred to by the BCBS as Basel III, and referred to, colloquially, as Basel III in respect of reforms finalised prior to 7 December 2017 and Basel IV in respect of reforms finalised on or following that date). The Basel III/IV reforms, which include revisions to the credit risk framework in general and the securitisation framework in particular, may result in increased regulatory capital and/or other prudential requirements in respect of securitisation positions. The BCBS continues to work on new policy initiatives. National implementation of the Basel III/IV reforms may vary those reforms and/or their timing. It should also be noted that changes to prudential requirements have been made for insurance and reinsurance undertakings through participating jurisdiction initiatives, such as the Solvency II framework in Europe.

These changes may affect the regulatory treatment applicable to the Notes. Investors in the Notes are responsible for analysing their own regulatory position and prudential regulation treatment applicable to the Notes and should consult their own advisers in this respect.

In particular, relevant investors are required to independently assess and determine the sufficiency of the information described above for the purposes of complying with any relevant requirements and none of the Issuer, the Representative of Noteholders, the Seller, the Arranger, the Joint Lead Managers or any other party to the Transaction Documents makes any representation that the information described above is sufficient in all circumstances for such purposes.

Prospective investors should therefore make themselves aware of the changes and requirements described above (and any corresponding implementing rules of their regulator), where applicable to them, in addition to any other applicable regulatory requirements with respect to their investment in the Notes. The matters described above and any other changes to the regulation or regulatory treatment of the Notes for some or all

investors may negatively impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market. For further details, see the risk factors entitled "EU Securitisation Regulation has introduced new requirements some of which are not yet in final form", "Investors' compliance with the due diligence requirements under the EU Securitisation Regulation and UK Securitisation Regulation" and "Limited nature of credit ratings assigned to the Rated Notes and effect on the market value of the Rated Notes of reduction or withdrawal of the assigned ratings", respectively, below and above.

#### The STS designation impacts on regulatory treatment of the Notes

The Securitisation is intended to qualify as a STS-Securitisation. Consequently, the Securitisation meets, as at the date of this Prospectus, the EU STS Requirements.

The Notes can also qualify as STS under the UK Securitisation Regulation until maturity, provided the Notes remain on the ESMA STS Register and continue to meet the EU STS Requirements. SFS Italia has used the service of PCS, as a third party veryfing STS compliance authorized under Article 28 of the EU Securitisation Regulation so as to assess the compliance of the Securitisation with the EU STS Requirements (the STS Verification) and to prepare an assessment of compliance of the Notes with the relevant provisions of Article 243 and Article 270 of the CRR (the CRR Assessment and, together with the STS Verification, the STS Assessments).

It is important to note that the involvement of PCS as an authorised third party veryfing STS compliance is not mandatory and the responsibility for compliance with the EU Securitisation Regulation or, if applicable, the UK Securitisation Regulation) remains with the relevant institutional investors, originators and issuers, as applicable in each case. The STS Assessments will not absolve such entities from making their own assessment and assessments with respect to the EU Securitisation Regulation or, if applicable, the UK Securitisation Regulation) and the STS Assessments cannot be relied on to determine compliance with the foregoing regulations in the absence of such assessments by the relevant entities. In addition, SFS Italia has not used the service of PCS, as a third party veryfing STS compliance authorized under Article 28 of the EU Securitisation Regulation, to prepare an assessment of compliance of the Notes with Article 7 and Article 13 of Commission Delegated Regulation (EU) 2015/61 of 10 October 2014 (the LCR Regulation); therefore, the relevant entities shall make their own assessments with respect to such provisions of the LCR Regulation. Furthermore, the STS Assessments are not an opinion on the creditworthiness of the Notes nor on the level of risk associated with an investment in the Notes. It is not an indication of the suitability of the Notes for any investor and/or a recommendation to buy, sell or hold Notes. Institutional investors that are subject to the due diligence requirements of the EU Securitisation Regulation or the UK Securitisation Regulation need to make their own independent assessment and may not solely rely on the STS Assessments, the STS Notification or other disclosed information.

No assurance can be provided that the Securitisation does or will continue to qualify as an STS-securitisation under the EU Securitisation Regulation as at the date of this Prospectus or at any point in time in the future. The STS status of a transaction is not static and investors should verify the current status of the Securitisation on the ESMA STS Register. None of the Issuer, the Seller, the Reporting Entity, the Arranger, the Joint Lead Managers, the Representative of the Noteholders or any other party to the Transaction Documents makes any representation or accepts any liability for the Securitisation to qualify as an STS-securitisation under the EU Securitisation Regulation as at the date of this Prospectus nor at any point in time in the future.

Non-compliance with the status of an STS-securitisation may result in higher capital requirements for investors, as well as in various administrative sanctions and/or remedial measures being imposed on the Issuer or the Seller. Any of such administrative sanctions and/or remedial measures may affect the ability of the Issuer to fulfil its payment obligations under the Notes.

EU Secutitisation Regulation has introduced new requirements some of which are not yet in final form

On 12 December 2017, the European Parliament adopted Regulation (EU) 2017/2402 (i.e. the EU Securitisation Regulation) which applies from 1 January 2019. The main content of such regulation forms part of domestic law of the United Kingdom by virtue of the EUWA (the UK Securitisation Regulation). The EU Securitisation Regulation creates a single set of common rules for European "institutional investors" (as defined in the EU Securitisation Regulation) as regards (i) risk retention, (ii) due diligence, (iii) transparency, and (iv) the underwriting criteria for loans to be comprised in securitisation pools. Such common rules replace the existing provisions in CRR, the AIFM Regulation and the Solvency II Regulation and introduce similar rules for UCITS management companies as regulated by the UCITS Directive and institutions for occupational retirement provisions falling within the scope of Directive (EU) 2016/2341 or an investment manager or an authorised entity appointed by an institution for occupational retirement provisions pursuant to Article 32 of Directive (EU) 2016/2341.

The risk retention, transparency, due diligence and underwriting criteria requirements described above apply in respect of the Notes. Investors should therefore make themselves aware of such requirements (and any corresponding implementing rules made at the national level), where applicable to them, in addition to any other regulatory requirements applicable to them with respect to their investment in the Notes. Prospective investors are required to independently assess and determine the sufficiency of the information contained in this Prospectus or made available by the Issuer and the Seller for the purposes of complying with any relevant requirements and none of the Issuer, the Seller, the Reporting Entity, the Arranger, the Joint Lead Managers, the Representative of the Noteholders or any other party to the Transaction Documents makes any representation that such information is sufficient in all circumstances for such purposes (for further details, see risk factor "Investors' compliance with the due diligence requirements under the EU Securitisation Regulation and UK Securitisation Regulation" herein below in this section).

# Investors' compliance with the due diligence requirements under the EU Securitisation Regulation and UK Securitisation Regulation

Investors should be aware of the due diligence requirements under Article 5 of the EU Securitisation Regulation or Article 5 of the UK Securitisation Regulation that apply to institutional investors with an EU or UK nexus (including credit institutions, authorised alternative investment fund managers, investment firms, insurance and reinsurance undertakings, institutions for occupational retirement provision and UCITS funds). Amongst other things, such requirements restrict an institutional investor (other than the originator, sponsor or original lender) from investing in securitisation positions unless, prior to holding the securitisation position:

- (a) such institutional investor has verified that:
  - (i) for certain originators, certain credit-granting standards were met in relation to the origination of the underlying exposures;
  - (ii) the risk retention requirements set out in Article 6 of the EU Securitisation Regulation or UK Securitisation Regulation are being complied with; and
  - (iii) information required by Article 7 of the EU Securitisation Regulation or UK Securitisation Regulation has been made available; and
- (b) such institutional investor has carried out a due diligence assessment which enables it to assess the risks involved, which shall include at least (among other things) the risk characteristics of its securitisation position and the underlying exposures of the securitisation, and all the structural features of the transaction that can materially impact the performance of its securitisation position.

In addition, under Article 5(4) of the EU Securitisation Regulation or UK Securitisation Regulation, an institutional investor (other than the originator, sponsor or original lender) holding a securitisation position shall at least establish appropriate written procedures that are proportionate to the risk profile of the

securitisation position and, where relevant, to the institutional investor's trading and non-trading book, in order to monitor, on an ongoing basis, compliance with its due diligence requirements and the performance of the securitisation position and of the underlying exposures.

Depending on the approach in the relevant EU Member State, failure to comply with one or more of the due diligence requirements may result in penalties including fines, other administrative sanctions and possibly criminal sanctions. In the case of those institutional investor subject to regulatory capital requirements, penal capital charges may also be imposed on the securitisation position (i.e., notes) acquired by the relevant institutional investor.

The institutional investor's due diligence obligations described above apply in respect of the Notes. Relevant institutional investor are required to independently assess and determine the sufficiency of the information contained in this Prospectus for the purposes of complying with Article 5 of the EU Securitisation Regulation or UK Securitisation Regulation and any corresponding national measures which may be relevant to investors. None of the Issuer, SFS Italia (in any of its capacities under the EU Securitisation Regulation or UK Securitisation Regulation), the Arranger, the Joint Lead Managers or any other Party to the Transaction Documents makes any representation that the information described above is sufficient in all circumstances for such purposes.

Aspects of the requirements and what is or will be required to demonstrate compliance to national regulators remain unclear and are still evolving. Prospective investors who are uncertain as to the requirements that will need to be complied with in order to avoid the consequences of the non-compliance should seek guidance from their regulator.

Each institutional investor that is required to comply with Article 5 of the EU Securitisation Regulation or UK Securitisation Regulation is required independently to assess and determine the sufficiency of the information described in this Prospectus and which may otherwise be made available to investors for the purposes of its initial and ongoing compliance with Article 5 of the EU Securitisation Regulation or UK Securitisation Regulation. Although the Seller will produce quarterly investor reports and the Issuer may make announcements from time to time in accordance with applicable law or regulation or the terms of the Notes, none of the Issuer, the Arranger, the Joint Lead Managers or any of the other transaction parties (i) makes any representation that the information described above or elsewhere in this Prospectus or which may otherwise be made available to such investors or to which such investors are entitled (if any) is sufficient for such purposes, (ii) shall have any liability to any actual or prospective investor or any other person with respect to the insufficiency of such information or any failure of the transactions contemplated herein to comply with or otherwise satisfy the requirements of Article 5 of the EU Securitisation Regulation or UK Securitisation Regulation or any other applicable legal, regulatory or other requirements; or (iii) shall have any obligation (including, but not limited to, the provision of additional information) to enable compliance by relevant investors with the requirements of Article 5 of the EU Securitisation Regulation or UK Securitisation Regulation or any other applicable legal, regulatory or other requirements. Investors who are affected should therefore be aware that should they determine at any time, whether for their initial investment or as a result of changes following the end of the transitional period for reporting under Article 7 of the EU Securitisation Regulation or UK Securitisation Regulation or otherwise, that they have insufficient information in order to comply with their own due diligence obligations under Article 5 of the EU Securitisation Regulation or UK Securitisation Regulation, there is no obligation on the Issuer or any other party (including, for the avoidance of doubt, the Arranger and/or the Joint Lead Managers) to provide further information to meet such insufficiency.

#### The Seller intends to rely on an exemption from U.S. Risk Retention requirements

Section 941 of the Dodd-Frank Act amended the Exchange Act to generally require the "securitizer" of a "securitization transaction" to retain at least 5 per cent. of the "credit risk" of "securitized assets", as such terms are defined for purposes of that statute, and generally prohibit a securitizer from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the credit risk that the

securitizer is required to retain. Final rules implementing the statute (the **U.S. Risk Retention Rules**) came into effect on 24 December 2016 with respect to non-RMBS securitisations. The U.S. Risk Retention Rules provide that the securitizer of an asset backed securitisation is its sponsor. The U.S. Risk Retention Rules also provide for certain exemptions from the risk retention obligation that they generally impose.

The Seller does not intend to retain at least 5 per cent. of the credit risk of the Issuer for the purposes of the U.S. Risk Retention Rules, but rather intends to rely on an exemption provided for in Section \_\_\_.20 of the U.S. Risk Retention Rules regarding non-U.S. transactions. Such non-U.S. transactions must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the securities are issued) of all classes of securities issued in the securitization transaction are sold or transferred to U.S. persons (in each case, as defined in the U.S. Risk Retention Rules) or for the account or benefit of U.S. persons (as defined in the U.S. Risk Retention Rules and referred to in this Prospectus as Risk Retention U.S. Persons); (3) neither the sponsor nor the issuer is organised under U.S. law or is a branch located in the United States of a non-U.S. entity; and (4) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

The Seller has advised the Issuer that it has not acquired, and it does not intend to acquire more than 25 per cent. of the assets from an affiliate or branch of the Seller or the Issuer that is organised or located in the United States.

The Notes provide that they may not be purchased by Risk Retention U.S. Persons except with the express written consent of the Seller in the form of a U.S. Risk Retention Waiver and where such purchase falls within the exemption provided for in Section \_.20 of the U.S. Risk Retention Rules. Prospective investors should note that the definition of "U.S. person" in the U.S. Risk Retention Rules is different from the definition of "U.S. person" under Regulation S. The definition of U.S. person in the U.S. Risk Retention Rules is excerpted below. Particular attention should be paid to clauses (b) and (h), which are different than comparable provisions from Regulation S.

Under the U.S. Risk Retention Rules, and subject to limited exceptions, "U.S. person" means any of the following:

- (a) any natural person resident in the United States;
- (b) any partnership, corporation, limited liability company, or other organisation or entity organised or incorporated under the laws of any State or of the United States;
- (c) any estate of which any executor or administrator is a U.S. person (as defined under any other clause of this definition):
- (d) any trust of which any trustee is a U.S. person (as defined under any other clause of this definition);
- (e) any agency or branch of a foreign entity located in the United States;
- (f) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition);
- (g) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated, or (if an individual) resident in the United States; and
- (h) any partnership, corporation, limited liability company, or other organisation or entity if:

- (i) organised or incorporated under the laws of any foreign jurisdiction; and
- (ii) formed by a U.S. person (as defined under any other clause of this definition) principally for the purpose of investing in securities not registered under the Securities Act;

Consequently, the Notes may not be purchased by any person except for (a) persons that are not Risk Retention U.S. Persons or (b) persons that have obtained a U.S. Risk Retention Waiver from the Seller and where such purchase falls within the exemption provided for in Section \_.20 of the U.S. Risk Retention Rules. Each holder of a Note or a beneficial interest acquired in the initial syndication of the Notes, by its acquisition of a Note or a beneficial interest in a Note, will be deemed to represent to the Issuer, the Seller, the Arranger and the Jont Lead Managers that it (1) either (i) is not a Risk Retention U.S. Person or (ii) it has obtained a U.S. Risk Retention Waiver, (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention Rules described herein).

The Seller has advised the Issuer that it will not provide a U.S. Risk Retention Waiver to any investor if such investor's purchase would result in more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the securities are issued) (as determined by fair value under US GAAP) of all Classes of Notes to be sold or transferred to Risk Retention U.S. Persons on the Issue Date.

Failure on the part of the Seller to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) could give rise to regulatory action against the Seller which may adversely affect the Notes and the ability of the Seller to perform its obligations under the Transaction Documents. Furthermore, a failure by the Seller to comply with the U.S. Risk Retention Rules could negatively affect the value and secondary market liquidity of the Notes.

None of the Arranger, the Joint Lead Managers, the Seller, the Issuer or any of their affiliates makes any representation to any prospective investor or purchaser of the Notes as to whether the transactions described in this Prospectus comply as a matter of fact with the U.S. Risk Retention Rules on the Issue Date or at any time in the future. Investors should consult their own advisors as to the U.S. Risk Retention Rules. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

#### The Bank Recovery and Resolution Directive may apply to some parties to the Transaction Documents

As a result of the Banking Recovery and Resolution Directive 2014/59/EU of 15 May 2014 (the "BRRD"), it is possible that a credit institution or investment firm with its head office in an EEA State and/or certain group companies could be subject to certain resolution actions in that State. The BRRD - implemented in Italy through the adoption of two Legislative Decrees by the Italian Government, namely, Legislative Decrees No. 180/2015 and 181/2015, both of which were published in the Italian Official Gazette (Gazzetta Ufficiale) on 16 November 2015 - is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system. The BRRD also provides for a Member State as a last resort, after having assessed and exploited said resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

The BRRD applies, *inter alia*, to (i) credit institutions, (ii) investments firms, and (iii) financial institutions that are established in the European Union when the financial institution is a subsidiary of a credit institution or investment firm and is covered by the supervision of the parent undertaking on a consolidated basis.

In June 2019, Directive ((EU) 2019/879) ("BRRD II") entered into force and it became applicable on 28 December 2020. BRRD II amends the BRRD by, amongst other matters, providing EU Member States with the power to ensure that their resolution authorities have the power to suspend payment or delivery obligations and enforcement action by secured creditors, including an exemption to include a contractual recognition of bail-in clause in certain circumstances and introducing requirements on the contractual recognition of resolution stay powers, as well as changes related to the revision of the existing minimum requirements for own funds and eligible liabilities with a view to calibrating them with the total loss absorbing capacity standard.

Any such resolution or action may affect the ability of any relevant entity to satisfy its obligations under the Transaction Documents and there can be no assurance that Noteholders will not be adversely affected as a result

## Volcker Rule may restrict the ability of relevant individual prospective purchaser to invest in the Notes

The Issuer is being structured so to not constitute a "covered fund" for purposes of the regulations adopted to implement Section 619 of the Dodd-Frank Act (such statutory provision together with such implementing regulations, the **Volcker Rule**).

The Volcker Rule generally prohibits "banking entities" (which is broadly defined to include U.S. banks, bank holding companies and foreign banking organisations, together with their respective subsidiaries and other affiliates) from (i) engaging in proprietary trading in financial instruments, (ii) acquiring or retaining any "ownership interest" in, or in "sponsoring", a "covered fund" and (iii) entering into certain transactions with such funds subject to certain exemptions and exclusions.

There is limited interpretive guidance regarding the Volcker Rule, and implementation of the regulatory framework for the Volcker Rule is still evolving. The Volcker Rule's prohibitions and lack of interpretive guidance could negatively impact the liquidity and value of the Notes. Any entity that is a "banking entity" as defined under the Volcker Rule and is considering an investment in "ownership interests" of the Issuer should consult its own legal advisors and consider the potential impact of the Volcker Rule in respect of such investment and on its portfolio generally. Each investor must determine for itself whether it is a "banking entity" subject to regulation under the Volcker Rule. None of the Issuer, the Arranger or the other Transaction Parties (other than the Issuer) makes any representation regarding (i) the status of the Issuer under the Volcker Rule or (ii) the ability of any purchaser to acquire or hold the Notes, now or at any time in the future. Pursuant to the Subscription Agreements the Issuer has represented that it does not qualify as a "covered fund" as defined under Section \_\_.2(c) of the final rules promulgated under Section 619 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

The above constitutes a risk given that the potential application of the Volcker Rule to the Notes may impede or, in any case, negatively affect the transferability of the Notes and, as such, possibly the regular functioning of the transaction throughout its lifetime.

#### **EMIR**

The European Market Infrastructure Regulation EU no. 648/2012 (**EMIR**) entered into force on 16 August 2012. EMIR and the regulations made under it impose certain obligations on parties to OTC derivative contracts according to whether they are "financial counterparties" such as investment firms, alternative investment funds, credit institutions and insurance companies, or other entities which are "non-financial counterparties".

Financial counterparties will be subject to a general obligation (the Clearing Obligation) to clear through a duly authorised or recognised central counterparty all "eligible" OTC derivative contracts entered into with other counterparties subject to the Clearing Obligation. They must also report the details of all derivative

contracts to a trade repository (the **Reporting Obligation**) (in which respect the Issuer may appoint one or more reporting delegates) and undertake certain risk-mitigation techniques in respect of OTC derivative contracts which are not cleared by a central counterparty such as timely confirmation of terms, portfolio reconciliation and compression and the implementation of dispute resolution procedures (the **Risk Mitigation Obligations**). Non-cleared OTC derivatives entered into by financial counterparties must also be marked to market and collateral must be exchanged. To the extent that the Issuer becomes a financial counterparty, this may lead to a termination of the Interest Rate Swap Agreement.

Non-financial counterparties are excluded from the Clearing Obligation and certain of the Risk Mitigation Obligations provided that the gross notional value of all derivative contracts entered into by the non-financial counterparty and other non-financial counterparties within its "group" (as defined in EMIR), excluding eligible hedging transactions, do not exceed certain thresholds. If the Issuer is considered to be a member of such a "group" (as defined in EMIR) and if the notional value of derivative contracts entered into by the Issuer or other non-financial counterparties within any such group exceeds the applicable threshold, the Issuer would be subject to the clearing obligation. Whilst the Interest Rate Swap Agreement entered into by the Issuer are expected to be treated as a hedging transaction and deducted from the total in assessing whether the notional value of derivative contracts entered by the Issuer or its "group", the regulator may take a different view. If the Issuer exceeds the applicable clearing thresholds, it would also be subject to the full set of risk mitigation obligations and would be required to post collateral in respect of non-cleared OTC derivative contracts. The Issuer may be unable to comply with such requirements, which could result in the termination of the Interest Rate Swap Agreement. The Interest Rate Swap Provider may also be unable to enter into cap agreement with the Issuer. Any termination of the Interest Rate Swap Agreement as a result of non-compliance with such requirements or as a result of the Issuer becoming a financial counterparty as described above or otherwise could expose the Issuer to costs and increased interest rate risk.

Prospective investors should note that there is some uncertainty with respect to the ability of the Issuer to comply with the Clearing Obligation and the collateral exchange obligation were they to be applicable, which may (i) lead to regulatory sanctions, (ii) adversely affect the ability of the Issuer to continue to be party to the Interest Rate Swap Agreement (possibly resulting in a restructuring or termination of the Interest Rate Swap Agreement) or to enter into replacement swap agreements and/or (iii) significantly increase the cost of such arrangements, thereby negatively affecting the ability of the Issuer to hedge the interest rate risk in respect of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes. As a result, the amounts available to the Issuer to meet its obligations may be reduced, which may in turn result in investors' receiving less interest on the Notes than expected.

It should also be noted that the EU Securitisation Regulation, among other things, makes provisions for the development of technical standards in connection with the EMIR regime specifying (i) an exemption from clearing obligations and (ii) a partial exemption from the collateral exchange obligations for non-cleared OTC derivatives, in each case for "simple, transparent and standardised" (STS) securitisation swaps (subject to the satisfaction of the relevant conditions). The final draft technical standards have been prepared by the European Supervisory Authorities and submitted to the European Commission in December 2018 and these are now subject to the EU political negotiation process. As a result, the time of entry into force and the date of application of the new technical standards is unknown at this point.

On or about the Issue Date, the Seller will make the STS notification. Notwithstanding the STS designation and the ability, as a result, to rely on the exemptions from clearing and collateral exchange obligations under the EMIR regime, the expectation is that the Issuer should not be required to comply with the EMIR collateral exchange obligations and clearing requirements for the reasons outlined above (being their non-financial counterparty below the "clearing threshold" status) in any event. The STS designation and the related forthcoming exemptions from collateral exchange obligations and clearing requirements are only likely to become relevant should the status under the EMIR of the Issuer change from non-financial counterparty below the "clearing threshold" to non-financial counterparty above the "clearing threshold" or

financial counterparty and, if applicable, should the Issuer be regarded as a type that is subject to EMIR clearing requirement.

### The Seller is subject to legal proceedings

SFS Italia is subject to certain claims and is involved in a number of legal proceedings relating to the ordinary course of its business. It is difficult to predict the outcome of such claims and proceedings with certainty, and therefore liabilities related to such claims and proceedings may (although unlikely) have, in the aggregate, significant effects on the financial position or profitability of SFS Italia. This in turn may impact the transaction as SFS Italia acts, *inter alia*, as the Seller and may not be able to originate additional portofolios at its standard rates.

Besides the above, SFS Italia is involved in a legal proceedings before the Italian Administrative Court (Tar Lazio) against a fining decision issued by Italian Competition Authority (*Autorità Garante della Concorrenza e del Mercato* – "AGCM") in December 2018 (notified in January 2019), at the end of an investigation launched on 5 May 2017 against nine captive banks and related automotive groups operating in Italy in the sale of vehicles by means of financial products as well as two trade associations (Assofin "Associazione Italiana del Credito al Consumo e Immobiliare" and Assilea "Associazione Italiana Leasing").

AGCM adopted a fining decision of a total of approximately €678 million. The fine imposed against SFS Italia amounted to around € 6 million (prudently paid off by SFS Italia, despite the certainty of the legitimacy of its actions and the awareness of the groundlessness of the arguments underlying AGCM's decision). Contemporary, SFS Italia lodged an appeal before the Italian Administrative Court (Tar Lazio) in order to obtain the annulment of the decision or, subordinately, the reduction of the amount of the fine. On 24 November 2020, SFS Italia obtained the full annulment of the decision, since the Italian Administrative Court deemed the grounds raised by SFS Italia well founded. Nevertheless, the AGCM appealed against the annulment decision, but, on 3 February 2022, the Council of State (as second instance administrative tribunal) rejected the appeal confirming the annulment of the fine. The rejection of this ground was in itself considered sufficient to result in the annulment of IAA's Decision (Judgment no. 753/2022) and on 12th April there was the recovery of the fine of around € 6 million paid by SFS Italia.

It is worth noting that following AGCM fining decision, an Italian Consumers' Association (Altroconsumo) started a Class Action against the captive banks previously fined before the Court of Milan. However, since the proceeding has been resolved in favour of SFS Italia, it is reasonable to expect that the Court of Milan will file the lawsuit.

# <u>CATEGORY OF RISK FACTORS 5: RISKS RELATED TO SPECIFIC LEGAL CONCERNS – APPLICABLE CAR AND CONSUMER CREDIT LEGISLATION</u>

Risks arising from the qualification of the Auto Loans as "consumer loans": the Italian consumer protection legislation contains certain protections in favour of debtors which are applicable to the Auto Loans

The Portfolio includes Auto Loans which are "consumer loans" (i.e. loans extended to individuals (the "consumers") acting outside the scope of their entrepreneurial, commercial, craft or professional activities) and are regulated by, amongst other things: (i) Articles 121 to 126 of the Italian Banking Act; and to the extent applicable (ii) the Italian Legislative Decree No. 206 of 6 September 2005 (the **Consumer Code**).

The following risks, amongst others, could arise in relation to a consumer loan contract:

(a) pursuant to paragraphs 1 and 2 of Article 125-quinques of the Italian Banking Act, borrowers under consumer loan contracts linked to supply contracts have the right to terminate the relevant contract with the lender following a default by the supplier, provided that such default meets the conditions

set out in Article 1455 of the Italian Civil Code. In case of termination of the consumer loan contract, the lender must reimburse all instalments and sums paid by the consumer. However, the lender has the right to claim these payments from the relevant defaulting supplier. Pursuant to paragraph 4 of Article 125-quinques of the Italian Banking Act, borrowers are entitled to exercise against the assignee of any lender under such consumer loan contracts any of the defences mentioned under paragraphs 1 to 3 of the same Article, which they had against the original lender. In addition, with respect to insurance policies financed by the originators/lenders (where the premium is paid upfront by the originators to the insurance companies and then reimbursed to the originators/lenders by the borrowers as a part of the loan instalments), it is uncertain whether such insurance policies may qualify as linked contracts and, as such, would confer on the borrowers the right to terminate the relevant loan agreements or at least claim a refund of the unearned premium from the issuer in case of default of the insurance companies;

- (b) pursuant to paragraph 1 of Article 125-sexies of the Italian Banking Act, debtors under consumer loan contracts have the right to prepay any consumer loan (in whole or in part) without penalty and with the right to a *pro rata* reduction in the aggregate amount of the loan, equal to the amounts of interest and costs that should accrue until the final maturity date of such loan. In the event of prepayment by the borrower, the lender, under certain circumstances, is entitled to a compensation equal to 1 per cent. of the prepaid amount of the consumer loan if the residual duration of the consumer loan is longer than one year, and equal to 0.5 per cent. of the same amount, if shorter;
- (c) pursuant to paragraph 1 of Article 125-septies of the Italian Banking Act, borrowers are entitled to exercise, against the assignee of any lender under a consumer loan contract, any defence (including set-off) which they had against the original lender, in derogation to the provisions of Article 1248 of the Italian Civil Code (that is even if the borrower has accepted the assignment or has been given written notice thereof). This could result in debtors obtaining a right of set-off or other right of defence against the Issuer in respect of any of the Seller's obligations to the debtor. In this respect it should be noted that the Securitisation Law provides, inter alia, that, notwithstanding any provision of law providing otherwise, no set-off may be exercised by a debtor vis-à-vis the purchasing issuer grounded on claims which have arisen towards the seller after (a) the date of publication of the notice of transfer of the relevant receivables in the Official Gazette or (b) the payment of the purchase price (even partial) of the relevant receivables bearing data certain at law (data certa) (please also refer to the risk factor above headed "Commingling Risk" as to the impact that the existence of a contractual undertaking by the Seller to notify the borrowers of the assignment of the Receivables may have on the borrowers' set-off rights against the Issuer). Furthermore, in the Master Receivables Transfer Agreement the Seller has undertaken to indemnify the Issuer on demand and on a full after tax basis against any costs, damages, losses, expenses or liabilities (including, but not limited to, legal and out of pocket expenses) that are reasonable and justified and suffered by the Issuer (as shall be determined in good faith, directly or indirectly, by the Issuer) as a result of, inter alia, any dispute, claim, set-off or defence of any Obligor in respect of a payment under any Purchased Receivable (including, without limitation a defence based on a Purchased Receivable or the related Auto Loan Contract not being a legal, valid, and binding obligation of such Obligor enforceable against it in accordance with its terms);

Finally, the Auto Loans disbursed to Debtors who qualify as a "consumer" pursuant to the Italian Banking Act are regulated, *inter alia*, by Article 1469-*bis* of the Italian civil code and by the Consumer Code, which provide that any clause in a consumer contract which contains a material imbalance between the rights and obligations of the consumer under the contract, is deemed to be unfair and is not enforceable against the consumer whether or not the consumer's counterparty acted in good faith.

The Seller has represented and warranted in the Master Receivables Transfer Agreement that the Auto Loan Contracts comply with all applicable laws and regulations. Nevertheless, the application of the above

mentioned provisions cannot be completely excluded and would, consequently, have an adverse effect on the present securitisation.

## The European Court of Justice's "Lexitor" decision and subsequent Italian Constitutional Court's decision may impact the cash-flows deriving from the Portfolio

With decision no. 383 of 11 September 2019 (so-called "Lexitor"), the European Court of Justice established that, in the event of early termination of a consumer credit agreement, the customer has the right to a reduction in the total cost of the credit, including of all the costs charged to the consumer, and that the reduction must be applied in proportion to the shorter duration of the contract, as a consequence of the anticipated repayment.

With decision no. 263 of 22 December 2022, the Constitutional Court ruled on the matter of reducing the total cost of credit to consumers in the event of early repayment of the loan in the light of the "Lexitor" decision.

In particular, with the ruling in question, the Constitutional Court declared the unconstitutionality of article 11-octies, paragraph 2, of Legislative Decree no. 73 of 25 May 2021 ("Decreto Sostegni bis" - converted into Law no. 106 of 23 July 2021), in the part in which the right to a reduction due to the consumer in the event of early repayment was limited to certain types of costs incurred for financing.

The rule referred to contracts entered into after the entry into force of Legislative Decree 13 August 2010, no. 141 implementing Directive 2008/48/EC, but before the entry into force of Law no. 106 of 23 July 2021.

In this respect, the Constitutional Court held that this limitation was in contrast with European legislation and, in particular, with article 16, paragraph 1, of Directive 2008/48/EC, as interpreted by the European Court of Justice with the "Lexitor" decision.

In the light of the decision of the Constitutional Court, consumers will have the right to a proportional reduction of all costs incurred in relation to the credit agreement, even when the agreements have been entered into prior to the entry into force of Law no. 106 of 23 July 2021.

Prospective Noteholders should note that, pursuant to the Master Receivables Transfer Agreement, the Seller has undertaken to indemnify and keep the Issuer harmless from any damage, loss, claim, cost and/or expense that the Issuer has incurred or may incur as a result of the inability of the Issuer to collect or recover any Receivables due to the exercise by the Debtors of any claim or counterclaim (including by way of set-off) against the Seller.

## CATEGORY OF RISK FACTORS 6: RISK FACTORS RELATED TO TAX MATTERS

## Tax treatment of the Issuer is based on the current interpretation of the Securitisation Law

Taxable income of the Issuer is determined in accordance with Italian Presidential Decree no. 917 of 22 December 1986. Pursuant to the regulations issued by the Bank of Italy on 15 December 2015 (the 2015 Bank of Italy Provision) (Istruzioni per la redazione dei bilanci e dei rendiconti degli Intermediari finanziari, degli Istituti di pagamento, degli Istituti di Moneta Elettronica, delle SGR e delle SIM), the assets, liabilities, costs and revenues of the Issuer in relation to the securitisation of the Receivables will be treated as off-balance sheet assets, liabilities, costs and revenues. As of 2016 the Bank of Italy has issued new regulations, as amended from time to time (Il bilancio degli intermediari IFRS diversi dagli intermediary bancari) in which all the references to the special purpose vehicles incorporated for the purposes of carrying out securitisation transactions have been deleted in accordance with a general principle that special purpose vehicles should not be subject to regulatory supervision. In the lack of any specific accounting provisions and any clarification by the Bank of Italy, the market operators have nonetheless continued applying the 2015 Bank of Italy Provision, treating the assets, liabilities, costs and revenues of special purpose vehicles

incorporated pursuant to the Securitisation Law as off-balance sheet items.

Based on the general rules applicable to the calculation of net taxable income of a company, such taxable income should be calculated on the basis of the accounting, i.e. on-balance sheet, earnings, subject to such adjustments as specifically provided for by applicable income tax rules and regulations. On this basis, no taxable income should accrue to the Issuer in the context of the transfer to the Issuer of the relevant Portfolio and the Securitisation. This opinion has been expressed by scholars and tax specialists and has been confirmed by the tax authority (Circular no. 8/E issued by *Agenzia delle Entrate per la Lombardia* on 6 February 2003, Ruling no. 222 of 5 December 2003 Ruling no. 77/E of 4 August 2010 and Ruling No. 132 of March 2, 2021) on the grounds that the net proceeds generated by the Receivables may not be considered as legally available to the Issuer - insofar as any and all amounts deriving from the underlying assets of each of the securitisations are specifically destined to satisfy the obligations of such Issuer to the holders of the notes issued in the context of each such securitisation, to the other creditors of the Issuer and certain third party creditors in respect of each such securitisation in compliance with applicable law.

It is, however, possible that the Ministry of Finance or another competent authority may issue further regulations, letters or rulings relating to the Securitisation Law which might alter or affect the tax position of the Issuer as described above in respect of all or certain of its revenues and/or items of income also through the non-deduction of costs and expenses.

As confirmed by the tax authority (Ruling no. 222 issued by *Agenzia delle Entrate* on 5 December 2003), the interest accrued on the accounts held in the name of the Issuer with the Account Bank will be subject to withholding tax on account of corporate income tax. As of the date of this Prospectus, such withholding tax is levied at the rate of 26 per cent. and is to be imposed at the time of payment.

The above constitutes a risk given that new regulations, letters or rulings relating to the Securitisation Law possibly issued by the Ministry of Finance and/or other competent authorities may affect the tax position of the Issuer and thus ultimately the operation of and/or the return expected on the transaction.

#### No gross-up will be made by the Issuer in case withholding tax applies on the Notes

Payments of interest under the Notes may in certain circumstances be subject to withholding for or on account of tax. For example, according to Decree 239, any non-Italian resident beneficial owner of an interest payment relating to the Notes who is (a) either not resident, for tax purposes, in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information or (b), even if resident in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information, does not timely comply with the requirements set forth in Decree 239 and the relevant application rules in order to benefit from the exemption from substitute tax will receive amounts of interest payable on the Notes net of Italian withholding tax or substitute tax. As at the date of this Prospectus such substitute tax is levied at the rate of 26 per cent., or such lower rate as may be applicable under the relevant double taxation treaty. For further details, see the section headed "Taxation in the Republic of Italy".

In the event that substitute tax is imposed in respect of payments to the Noteholders of amounts due pursuant to the Notes, the Issuer will not be obliged to gross-up or otherwise compensate the Noteholders for the lesser amounts the Noteholders will receive as a result of the imposition of substitute tax.

### **CATEGORY OF RISK FACTORS 7: OTHER RISKS**

#### Change of Law may impact the Securitisation

The structure of the transaction and, *inter alia*, the issue of the Notes and the ratings assigned to the Rated Notes are based on Italian law and tax and administrative practice in effect at the date hereof.

In the event of any change in the law and/or tax regulations and/or their official interpretations after the Issue Date, the performance of the Securitisation and the ratings assigned to the Rated Notes may be affected. In addition, it should be noted that regulatory requirements (including any applicable retention, due diligence or disclosure obligations) may be recast or amended and there can be no assurance that any such changes will not adversely affect the compliance position of any transaction described in this Prospectus or of any party under any applicable law or regulation.

The above constitutes a risk given that a different interpretation of any law applicable to the transaction may impose on the parties to the transaction additional requirements and thus ultimately affect the operation of and/or the return expected on the transaction.

#### Political risk from the Russia – Ukraine Conflict

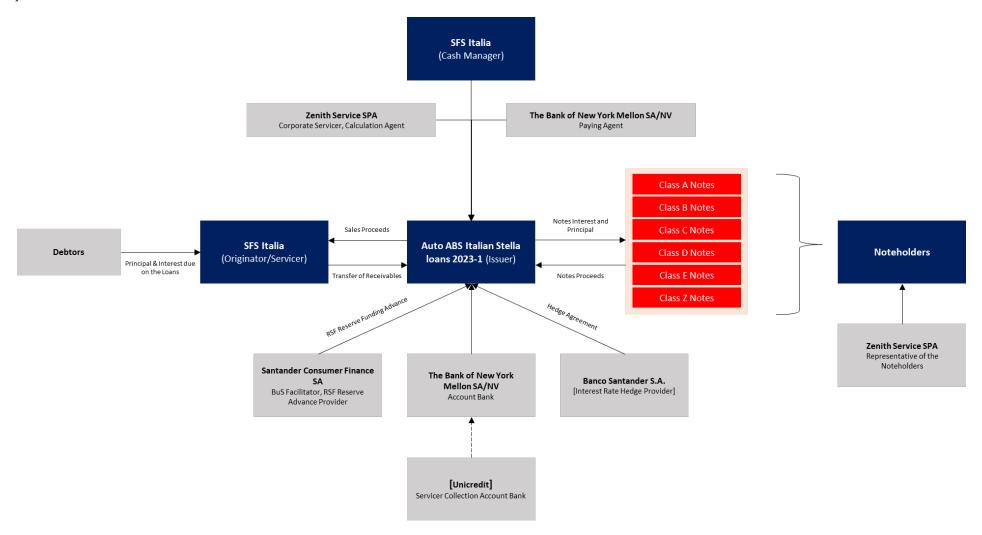

Throughout 2021, the Russian military build-up along the border of Ukraine has escalated tensions between Russia and Ukraine and strained bilateral relations. These events are continuing nowadays after Russia commencing a full-scale military invasion of Ukraine in February 2022. On 21 February 2022, Russia recognised the independence of two separatist regions within Ukraine and ordered Russian troops into these regions with a purported mission to maintain peace in the area. Following the invasion of Ukraine, the EU and countries like the United States, UK, Switzerland, Canada, Japan, Australia and some other countries have made announcements regarding imposition of sanctions and sanctions have been implemented in the meantime. As at the date of this Prospectus, it is not possible to predict the broader consequences of the invasion, which could include further sanctions, export controls and embargoes, greater regional instability, geopolitical shifts and other adverse effects on macroeconomic conditions, currency exchange rates, supply chains (including the supply of fuel from Russia) and financial markets, all of which could, either directly or indirectly, has an adverse impact on SFS Italia's business, financial condition and results of operations.

#### Inflation

In 2022-2023, inflationary pressures intensified as a result of a number of factors, including the revitalization of demand for consumer goods, labour shortages and supply chain issues, which in turn have affected fiscal and monetary policies. Among the risks that could negatively affect the economy and financial markets are (i) the increase in energy prices that can lead to further inflationary pressures; (ii) the breakdown of global supply chains; and (iii) tightening of monetary and public deficit policies. Additionally, if consumer interest rates increase substantially or if financial service providers tighten lending standards or restrict their lending to certain classes of credit, consumers may not desire or be able to obtain financing. If recent and ongoing increases in inflation in key markets persist, there could be subsequent increases in the cost of borrowing and decreased availability of affordable credit for financing.

#### TRANSACTION DIAGRAM

The following is a diagram showing the structure of the Securitisation as at the Issue Date. It is intended to illustrate to prospective noteholders the principal parties in the transaction structure as at the Issue Date.

#### THE PORTFOLIO

The Receivables purchased on the First Purchase Date and to be purchased from time to time by the Issuer on each Subsequent Purchase Date are and will be monetary receivables arising out of Auto Loans Contracts (contratti di finanziamento per l'acquisto di autoveicoli), being loans governed by Italian law and granted by the Seller to Debtors for the purchase of Cars.

Each Receivable offered for purchase to the Issuer in accordance with the provisions of the Master Receivables Transfer Agreement must satisfy, on the relevant Selection Date and/or Purchase Date, the Eligibility Criteria set out in the Master Receivables Transfer Agreement. In order for a Receivable to satisfy the Eligibility Criteria, (i) the Auto Loan Contract from which that Receivable arises must meet the Contracts Eligibility Criteria; and (ii) any Receivable must meet the Receivables Eligibility Criteria. In addition, on each Purchase Date, the purchase of any Receivable, when aggregated with all other Performing Receivables and after taking into account all Receivables to be purchased on such Purchase Date, shall not cause the Portfolio to breach any of the Global Portfolio Limits.

The purchase by the Issuer from the Seller of Additional Receivables as at the relevant Subsequent Purchase Date is subject to the satisfaction of certain conditions precedent set forth under the Master Receivables Transfer Agreement, including, among others, the circumstance that no Amortisation Event has occurred or will occur due to the proposed purchase.

The arrangements entered into or to be entered into by the Issuer on or prior to the Issue Date, taken together with the Portfolio and the structural features of the Securitisation, provide that the securitised assets backing the issue have characteristics that demonstrate capacity to produce funds to service any payments due and payable on the Notes in accordance with the Conditions. However, regard should be had both to the characteristics of the Portfolio and the other assets and rights available to the Issuer under the Securitisation and the risks to which the Issuer and the Notes may be exposed. Prospective holders of the Notes should consider the detailed information set out elsewhere in this Prospectus, including, without limitation, under the section headed "Risk Factors".

### **Eligibility Criteria**

## Contracts Eligibility Criteria

In accordance with the Master Receivables Tranfer Agreement, the Auto Loan Contract from which each Receivable offered for purchase to the Issuer arises must meet all the following Contracts Eligibility Criteria on the relevant Selection Date and the relevant Purchase Date:

- (a) the Auto Loan Contract was executed by the Seller substantially in the form of the Seller's standard form contracts with one or several Private Debtor(s) or Commercial Debtor(s), to finance the acquisition of one New Car or one Used Car, in compliance with all applicable legal and regulatory provisions, including the Consumer Credit Legislation, usury and personal data protection (in each case, to the extent a breach of any such laws and regulations would affect the validity and/or enforceability of the relevant Receivable or any related Ancillary Right) and the Seller is the sole holder of the relevant Auto Loan Contract and of the relevant Receivables, to which, prior to and on the Purchase Date, it has full and unrestricted title:
- (b) the Auto Loan Contract was executed within the framework of an offer of credit, notwithstanding the amount of the Car financed, in accordance with applicable laws and regulations and in particular:
  - (i) if the Debtor is a Private Debtor, the applicable provisions of the Consumer Credit Legislation; and

- (ii) the applicable legislation regarding usury and personal data protection;
- (c) where the Auto Loan Contract has been executed with several Debtors, these Debtors are jointly liable (*debitori solidali*) for the full payment of the corresponding Receivable;
- (d) each Debtor was resident, or, in case of a Commercial Debtor, had its registered office, in the Republic of Italy as of the signature date of the Auto Loan Contract;
- (e) the Auto Loan Contract constitutes the legal, valid, binding and enforceable contractual obligations of the Seller and the relevant Debtor(s) and has been performed in compliance with all the applicable laws and regulations in Italy, is not contrary to any laws and regulations and public policies applicable in Italy and the relevant Receivable (including any related Ancillary Right) was originated in accordance with the applicable laws and regulations in Italy (in each case, to the extent a breach of any such laws and regulations would affect the validity and/or enforceability of the relevant Receivable or any related Ancillary Right);
- (f) the Auto Loan Contract does not contain legal flaws making it avoidable, rescindable, or subject to legal termination;
- (g) the Auto Loan Contract (i) was executed by the Seller in its ordinary course of business and pursuant to its normal procedures in respect of the acceptance of and extension of auto financing loans, (ii) within the scope of its normal or habitual credit activity and (iii) has been managed in accordance with the Servicing Procedures;
- (h) to the best of the knowledge of the Seller, the Auto Loan Contract is not subject to a termination or rescission procedure started by the Debtor;

#### Global Portfolio Limits

In accordance with the Master Receivables Transfer Agreement, on each Purchase Date, the purchase of any Receivable, when aggregated with all other Purchased Receivables and after taking into account all Receivables to be purchased on such Purchase Date (with the exception of the limit set forth under 6. below), shall not cause the Portfolio to breach any of the following limits:

- 1. the Outstanding Balance of the Performing Receivables relating to one Debtor does not exceed 0.1% of the Outstanding Balance of all Performing Receivables;
- 2. the Outstanding Balance of the Performing Receivables relating to the 10 largest Debtors does not exceed 1.0% of the Outstanding Balance of all Performing Receivables;
- 3. the average remaining maturity of all Purchased Receivables (including the Additional Receivables purchased as at the relevant Subsequent Purchase Date), weighted by their respective Outstanding Balance, is not higher than 48 months;
- 4. the Outstanding Balance of the Performing Receivables arising from Auto Loan Contracts relating to the financing to Commercial Debtors does not exceed 10.0% of the aggregate Outstanding Balance of all Purchased Receivables:
- 5. the Outstanding Balance of the Performing Receivables arising from Auto Loan Contracts relating to the financing Used Cars does not exceed 15.0% of the aggregate Outstanding Balance of all Purchased Receivables;
- 6. the average Effective Interest Rate of the Additional Receivables purchased as at the relevant Subsequent Purchase Date, weighted by their respective Outstanding Balance is greater than or equal to 7.75%;
- 7. the Outstanding Balance of the Performing Receivables relating to Auto Loan Contracts granted to Debtors located/resident in the Italian regions of Puglia, Campania, Basilicata, Calabria, Sicilia and Sardinia, does not exceed 35% of the Outstanding Balance of all Performing Receivables;
- 8. the Outstanding Balance of the Performing Receivables arising from Auto Loan Contracts whose Debtors do not pay by direct debit (R.I.D.) does not exceed 10.0% of the Outstanding Balance of all Performing Receivables;
- 9. the Outstanding Balance of Performing Receivables arising from Balloon Auto Loan Contracts does not exceed 70.0% of the aggregate Outstanding Balance of all Purchased Receivables;
- 10. the Outstanding Balance of the Performing Receivables arising from Auto Loans having an amortisation plan with two phases of constant monthly Instalments of principal and interest does not exceed 5.0% of the aggregate Outstanding Balance of all Purchased Receivables.

#### **Insurance Policies**

Certain Debtors have entered into the Insurance Policies with the Insurance Companies. Any indemnity paid by the relevant Insurance Company to the relevant Debtor as beneficiary under any Insurance Policy may be used by the relevant Debtor to pay the amounts due in relation to the relevant Receivables.

#### Primary characteristics of the Portfolio

The primary characteristics of the Portfolio as of the First Selection Date are as follows.

### Statistical Information regarding the Portfolio

The statistical information set out in the following tables shows the characteristics of the Initial Receivables arising from Auto Loan Contracts selected by the Seller on the First Selection Date (columns of percentages may not add up to 100% due to rounding). The Initial Receivables transferred by the Seller to the Issuer on the First Purchase Date has been randomly selected on the First Selection Date from a pool of Receivables complying with the Eligibility Criteria.

#### In addition:

- (a) the composition of the Portfolio shall be modified as a result of the purchase of Additional Receivables, the amortisation of the Purchased Receivables, any prepayments, any losses related to the Purchased Receivables, any retransfer or repurchase of Purchased Receivables or the renegotiations entered into by the Servicer in accordance with the Servicing Procedures; and
- (b) as some of the Purchased Receivables might be subject to the rescission and indemnification procedure provided for in the Master Receivables Transfer Agreement in case of non-conformity of such Purchased Receivables (if such non-conformity is not, or not capable of being remedied), the composition of the Portfolio will change over time.

In respect of the above, it must be noted that the Seller will represent and warrant that any Receivables transferred to the Issuer comply with the Eligibility Criteria and it is a condition precedent to each purchase of Additional Receivables by the Issuer that the Global Portfolio Limits are complied with on the immediately preceding Subsequent Selection Date (taking into account these Additional Receivables).

All the Purchased Receivables derive from Auto Loans.

Under the Auto Loans the relevant Debtor shall pay:

- (i) equal monthly instalments over the life of the relevant Auto Loan; plus
- (ii) with reference to the Balloon Auto Loan Contracts, a Balloon Instalment equal to a predetermined minimum guaranteed value/amount determined as at the outset of the Balloon Auto Loan Contract.

Under the VFG Balloon Auto Loan Contracts, the Debtors have three alternative options:

- (i) <u>OPTION A</u>: upon expiry of the Auto Loan and within the last instalment's due date, transfer the ownership of the vehicle to the same dealer from which the Debtor purchased it, in order to purchase a new vehicle; or
- (ii) <u>OPTION B</u>: within the expiry of the Auto Loan and within the last instalment's due date, pay to the Seller the amount of the Balloon Instalment and keep the vehicle; alternatively, the Debtor may request the Seller (via a letter with receipts of return to be sent within 60 days from the due date of the Balloon Instalment) to grant an extension of the Auto Loan and consequently dividing the payment of the final Balloon Instalment into several additional instalments; or
- (iii) **OPTION C**: upon expiry of the Auto Loan and within the last instalment's due date, transfer the ownership of the vehicle to the same dealer from which the Debtor purchased it, without purchasing a new vehicle.

#### **OPTION B**

Option B can be exercised by the borrowers also under the Balloon Auto Loan Contracts that are different from the VFG Balloon Auto Loan Contracts.

Pursuant to the Balloon Auto Loan Contracts, in case of exercise of Option B, the Debtor is discharged under the relevant Balloon Auto Loan Contract only upon payment to the Seller of the Balloon Instalment (provided that the Debtor has duly paid all the instalments accrued so far).

In case the payment of such Balloon Instalment is refinanced by the Debtor, the Debtor will be released of its obligation to pay the Balloon Instalment to SFS Italia only once the latest refinanced instalment has been paid by it in accordance with the new amortization plan agreed between the Debtor and the Seller upon the refinancing.

The monetary claims for the payment of the Balloon Instalment by the Borrower under the Balloon Auto Loan Contracts are existing receivables (*crediti esistenti*) – also in case the payment of such Balloon Instalment is refinanced by the Debtor - and are transferred to the Issuer under the Master Receivables Transfer Agreement. In fact, pursuant to the Ballon Auto Loan Contracts the relevant debt/loan has already been disbursed by the Seller to the Borrower and the Borrower has agreed (and is obliged) to pay it.

#### **OPTIONS A AND C**

Pursuant to the VFG Balloon Auto Loan Contracts, the obligation to pay the Balloon Instalment vis-à-vis the Seller is undertaken by the Car Dealer and therefore the Debtor is discharged of such obligation under the relevant VFG Balloon Auto Loan Contract only once all of the following conditions are satisfied:

- (i) the Debtor has elected to exercise either OPTION A or OPTION C by sending to the dealer a letter with receipt of return within 60 days from the Balloon Instalment's due date;
- (ii) the Debtor has regularly paid all the instalments accrued at the moment of the exercise by it of either OPTION A or OPTION C under the relevant VFG Balloon Auto Loan Contract;
- (iii) the Car Dealer delivers to the Debtor the relevant handover minutes and the Debtor thus pays to the Car Dealer the possible residual amount for excessive mileage and/or damages as agreed upon with the Car Dealer;
- (iv) the vehicle underwent all the maintenance activities as provided for in the maintenance plan set forth by the manufacturer;
- (v) the vehicle did not suffer damages exceeding 50% of its value; and
- (vi) the ownership of the vehicle is transferred by the borrower to the Car Dealer.

In that respect, it must be noted that:

- (a) the discharge of the Debtor for the payment of the Balloon Instalment is not dependent upon the effective sale of the vehicle and/or the amount of the proceeds of the sale of the vehicle by the Car Dealer; and
- (b) the monetary claims for the payment of the Balloon Instalment by the Car Dealer under the VFG Balloon Auto Loan Contracts are existing receivables (*crediti esistenti*) and are transferred to the Issuer under the Master Receivables Transfer Agreement. In fact, pursuant to the VFG Ballon Auto Loan Contracts the relevant debt/loan has already been disbursed by the Seller to the Borrower and

the Borrower has agreed (and is obliged) to pay it, and therefore there is only a change as to person/entity that pays such amount.

#### **Pool Audit**

Pursuant to article 22(2) of the EU Securitisation Regulation and the EBA Guidelines on STS Criteria, an external verification has been made in respect of the Initial Receivables prior to the Issue Date by an appropriate and independent party, and no significant adverse findings have been found. Such verification has confirmed: (i) on a statistical basis, the integrity and referentiality of the information provided in the documentation and in the IT systems in respect of each selected position of a representative sample of the Initial Receivables; (ii) the accuracy of the data relating to the Initial Receivables disclosed in the paragraph entitled "Stratification Tables" below; and (iii) the compliance of the data contained in the loan by loan data tape prepared by the Seller in relation to the Initial Receivables with the Eligibility Criteria that are able to be tested prior to the Issue Date.

## 2. LOAN UNDERWRITING

Underwriting process

The underwriting process is under the responsibility of the underwriting department that employs 66 HC.

The underwriting process consists of the operational management of all end-user credit applications that are sent via car dealers to the bank.

The global underwriting responsibility is separated in two main areas:

- the risk direction by the retail credit risk manager defines the acceptance policy to be applied by the underwriting department and manages the score system tool that assigns a score to all retail contracts in order to run the operational process for the loan applications.
- The operations direction by the underwriting service, under the above mentioned rules, is in charge of managing the process with main focus on the credit risk but also on the level of service, the service quality and in general on the process efficiency.

Four different underwriting teams are in charge of the process supported by the ICT tools named OPV and GP.

OPV is the front-end tool that allows the car dealer to make an appropriate offer to the customer, formalise all documents needed to be delivered or signed by the customer and send all data and scanned documents to the underwriting department.

GP supports the underwriting department to manage the controls, the approval and the pay-out of the applications by merging OPV data with complementary data provided by the SIC (external providers of credit behaviour information), anti-fraud public databank and the score issued by the scoring tool. GP also provides several preliminary checks regarding anti-money laundering, conflicts of interest, payment rejection register and others.

The GP manages the credit approval powers with regard to the amount and score level according to the approved mandates.

There are two separated credit analysis teams dedicated to B2B and B2C customers. They are mainly in charge of checking the document accuracy, their coherence with the registered data and providing the credit analysis and the credit decisions.

A third team named "Dealer Service" is in charge of two missions:

- dealer assistance: providing the assistance to salesman during the underwriting process by phone and web chat channels;
- credit data check: providing the control of the documents accuracy, their coherence with the registered data of the applications which are automatically approved by the score system.

The fourth team is the middle office. It is in charge of the liquidation of the financing contracts and the registrations and liquidations of the financial leasing contracts.

The procedure for the origination and the assessment of a loan application until its approval or decline is as follows:

| Stages of the underwriting process              | Controls performed by | Description   |
|---|-----------------------|---|

The decision is sent to the dealer by the system. |

## 3. RISK ASSESSMENT

## **Origination sources**

The channels of acquisition of SFS Italia are as follows:

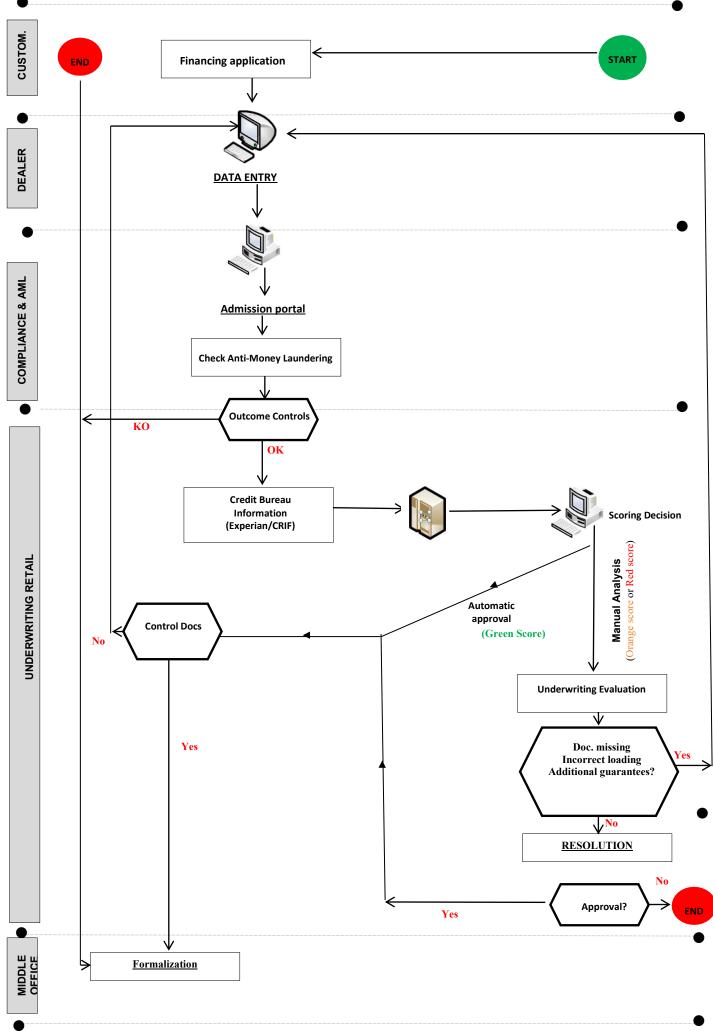

- 1. retail network owned by the Stellantis (referred to as "own network");
- 2. dealer network of eleven brands (Peugeot, Citroën, DS, Opel, Abarth, Fiat, Lancia, Alfa Romeo, Fiat Professional, Jeep and Maserati);
- 3. sub-network of brands (authorised repair centres, known as 'agents');
- 4. 'white label' network, i.e. dealers not directly linked to a Stellantis Group brand; and
- 5. selling online channel.

These subjects load the applications on the front-office portal and require the customer the necessary documentation. In the evaluation phase, additional documentation might be required by the Underwriting Office.

The applicant is required to provide the following documents:

| Type of client | Identity<br>document | Fiscal<br>Code | Residence<br>permit | Income<br>statement/Financial<br>statements   | Car<br>registration<br>document              | CCIAA   | Beneficial<br>owner<br>form | Privacy  |

The diagram below describes the path that follows an application with the different steps:

#### Database checks

Searches in several databases to find information on the creditworthiness of potential customers are carried out, and each database allows for different classification criteria and draws from different sources. Searches always concern potential customers and their guarantors.

Once the data from the relevant application form has been entered in the electronic information system, the system starts an automatic search in the following databases:

## > SFS Italia's database (internal information)

The analysis is carried out to check the customer's behavior in relation to any previous loans granted by SFS Italia. The main evaluation parameters include: the number of overdue payments; the analysis of the customer's past behavior over a certain period of time; the residual amount and the financed amount. No sociological data are taken into account. Scores in this database are classified under seven levels (score called "FIP" or "Fichier des Incidents de Paiement"). Even when negative, the outcome of this search does not prejudice the search in the other databases.

## > CRIF's and Experian's database (external information)

The databases are managed privately and contains information on individuals who took out loans from Italian financial institutions (banks and finance companies) in the past. These databases enable an evaluation of the total debt of the relevant individual towards the entire financial system (any unpaid instalments; the historical payment series; the loans rejected/active/required with other banks; the total exposure of the customers; the type of the contracts required by the customers).

For each database a behavioral score is assigned (Perform 2.0 or No Hit Score), to highlight the strength, performance and ultimately the creditworthiness of each customer in a single score.

## Scipafi's database (external information)

It is the public prevention system, that allows the identification of the data contained in the main documents of identity and income, with those registered in the public databases (*Agenzia delle Entrate*; *Ministero dell'Interno*; *Mistero delle Infrastrutture e dei Trasporti*; *INPS* and *INAIL*). The *Ministero dell'Economia e delle Finanze* (MEF) is the owner of the system, while *Consap S.p.A* is the management body.

#### Credit Scoring System

The credit scoring system (assignment of a score to each loan application) is managed and developed by Retail Risk Management of SFS Italia with the support of SFS Finance HQ.

The risk technical platform (the decision engine) is centralised at SFS Finance HQ.

The final system decision is based on scorecards and policy rules.

Scorecards

The credit scoring system is processed on the basis of SFS Italia's experiences. The system uses 3 scoring grids: 2 for individuals and 1 for Small Medium Enterprises.

| Development<br>overview | Individuals VIV             |                             | SME                          |
|-------------------------|-----------------------------|-----------------------------|------------------------------|
| Target Population       | Individuals / self employed | Individuals / self employed | SME                          |
| Segment                 | New Car/Leasing             | Used Car                    | New Car / Leasing / Used Car |
| Developer               | Banque PSA Finance          | Nunnatac S.r.l.             | Banque PSA Finance           |

The grids have been developed on the basis of a number of variables, which may be classified under three main categories:

- ✓ sociological (age, marital status, occupation, etc.);
- ✓ loan-related (amount, instalments, instalments/income, number of instalments, term, type of payment etc.);
- ✓ behavioural (customers'behaviour in respect of loan payments, acquired from various databases).

The result of the scorecard can be:

| Scorecard Rating | Risk Grade |
|------------------|------------|
| RED              | HIGH       |
| ORANGE           | MEDIUM     |
| GREEN            | LOW        |

The grids are redeveloped (or calibrated with a fine tuning analysis) if inconsistencies appear during the periodical monitoring. The scorecard monitoring is carried out on a half-yearly basis and it is developed by SFS HQ (with the best practices of SCF). The report is based on stability and predictive power of each scorecard and of each its variables.

## Policy Rules

The policy rule system is used to intercept any criticality on the applications, that the scorecards can not intercept.

The policy rules can be "manual review" (orange policy rules, where the application needs an analyst's intervention for approval) or "rejection policies" (red policy rules).

A summary description of each policy rule is present on the acceptance portal (called GP).

The system uses 3 sets of policy rules: 2 for individuals (33 rules for new car/leasing and 32 rules for used car) and 1 for Small Medium Enterprises (32 rules for all products).

The policy rules are constantly monitored, and if it is necessary are changed (to optimize and to streamline the admission process).

## Final Rating

Below the scheme of the final system decision (the rating of the applications):

| Scorecard Rating | <b>Policy Rules</b> | Final System | <b>Decision</b>    |  |  |
|------------------|---------------------|--------------|--------------------|--|--|
|                  | None                | GREEN        | Automatic Approval |  |  |
| GREEN            | Manual              | ORANGE 02-03 | Manual Revision    |  |  |
|                  | Reject              | RED          | Manual Reject      |  |  |
|                  | None                | ORANGE 01    | Manual Revision    |  |  |
| ORANGE 01        | Manual              | ORANGE 02-03 | Manual Revision    |  |  |
|                  | Reject              | RED          | Manual Reject      |  |  |
| DED              | None                | RED          | Manual Reject      |  |  |
| RED              | Manual              | RED          | Manual Reject      |  |  |

| Reject | RED | Manual Reject |
|--------|-----|---------------|
|--------|-----|---------------|

In SFS Italia, there is only an automatic approval and not an automatic rejection.

Each zone has a different underwriting process:

- > Green (automatic decision): a simplified analysis is made by the credit analyst on order to verify the correct data entry made by the dealers;
- > Orange01/02/03 (manual decision): these ratings are due to the score of the scorecard or to an active policy rule;
- Red (manual reject decision): this rating is due to the score of the scorecard or to an active policy rule. The applications obtaining a negative score may be overridden and accepted, but the analyst has to follow a "positive override procedure" (written by the Retail Risk Management and introduced in Sept. 2016). The Underwriting Analyst with the favorable opinion of the Head Underwriting Team or the B2B/B2C Coordinators (it signature on GP), inserting the necessary reasons on the admission portal, enclosing the necessary documentary evidence or uploading possible additional guarantees, can approve these applications. The Risk Department constantly will check the level of override and the respect of the procedure.

#### Authorization levels

The following table describes the authorization levels (approved by the Board of Directors in March 2023) for SFS Italia:

|  | SCORE ≠ GREEN               | SCORE = GREEN   |
|--|-----------------------------|---|
| CREDIT ANALYST JUNIOR                            | exposure ≤ <b>60.000</b> €  |   |
| B2C SENIOR ANALYST                               | exposure ≤ <b>70.000</b> €  |   |
| B2C COORDINATOR                                  | exposure ≤ <b>100.000</b> € |   |
| B2B SENIOR ANALYST                               | exposure ≤ <b>100.000</b> € |   |
| B2B COORDINATOR                                  | exposure ≤ <b>150.000</b> € |   |
| RESPONSABILE<br>UNDERWRITING                     | exposure ≤ <b>200.000</b> € | Maximum exposure limit for automation: exposure ≤ € 60.000€ |
| HEAD OF UNDERWRITING<br>+<br>RETAIL RISK ANALYST | exposure ≤ <b>250.000</b> € |   |

In cases of absence of Head of UW, he may be replaced by:

- B2B Cooridinator, with an authority increased only for the absence period, upon notification of the Head of Underwriting Service or Director of Operations to the Retail Risk service;
- Director of Operations.

To assign a delegation level, it is necessary to follow a process described in the Retail Credit Procedure. The delegation levels are inserted in an internal portal by Retail Risk and they are actived automatically (in addition there is a policy rule that warns the analyst).

To evaluate all the applications, the Underwriting Office has to follow the credit risk procedure (called "Procedura Credito Retail"), written by the Retail Risk Management, where there are the rules to evaluate the applications. The Risk Department is the manager to control the respect of this procedure.

#### 4. MANAGEMENT OF PERFORMING LOANS AND COLLECTION PROCEDURES

Contractual Payment Methods

The payment methods of the debtors are: direct debit (more than 90%), postal payments (c. 2%) and other (less than 1%)

For postal payments, the client must go to the post office on a monthly basis to make the payment.

## **Prepayments**

Partial or full prepayments are allowed at any time during the life of the loan. For all the contracts, prepayments are subject to penalties equal to 1% of the outstanding balance of the loan if the remaining maturity is over 1 year and 0.5% if the remaining maturity is at least 1 year or less than 1 year, provided that in any case such penalty cannot exceed the amount of interest that the debtor would have paid on the loan until its final maturity date. Full prepayments are not subject to penalties if the prepayment is made in execution of a CPI insurance and if the residual loan amount is lower than 10.000,00 Euros.

Late payments and Late Collection

SFS Italia Collection Business Unit is divided in 4 teams: the Early Collection Service (12 FTEs), the Late Collection Service (16 FTEs), the Project Management (3 FTEs) and the Control and Support Service (1 FTE).

- ✓ Early Collection Team is responsible for the management of the Arrears portfolio (1-90 DPD²) and Delinquency Portfolio (91-150 DPD). The Early Collection Service is mainly responsible for Phone Collection activity from 1 to 90 DPD and it is also responsible for the Home Collection Service for 91-150 DPD perimeter.
- ✓ Late Collection Team manages the customers after the resolution of the contracts in Termination and Write Off perimeter (> 150 DPD)
- ✓ Project Management Team is responsible for the development and the deployment of new local and corporate projects for the Collection Business Unit

-

<sup>&</sup>lt;sup>2</sup> Days Past Due, according to the Old Default Definition.

✓ Control and Support Team is responsible for data analyses and reporting, in order to define and apply new strategies.

The Collection activity combines internal and external management with a risk-focused approach based on outstanding amount and Days Past Due.

In order to guarantee flexibility on the management of the portfolio and for improving results, SFS Italia outsources collection activity of retail portfolio. Providers' governance consists of weekly briefings, daily checks on operating activities, daily monitoring of the recovery trend, bi-weekly meeting for forecast on recovery results. Phone Collection Providers manage different phases up to the 90<sup>th</sup> DPD.

The Early recovery process consists of 4 main phases:

- Phase 1-30 DPD: this phase is managed by two external providers. Providers manage an account up to 30 days past due after which the account is transferred to the other external providers.
- Phase 31-60 DPD: this phase is managed by two externals agencies specialized in phone collection activity with team dedicated to SFS Portfolio.
- Phase 61-90 DPD: this phase is managed by an external agency specialized in phone collection activity with team dedicated to SFS Portfolio.
- Phase 91-150 DPD: in this phase recovery actions are performed by internal field collectors and external agencies through direct contact.

Contracts are allocated to internal field collectors or agencies according to their geographical area of competence.

Contracts are automatically transferred to field collectors or agencies in the following cases:

- overdue first installment in case of suspected fraud;
- files that are difficult to manage by phone.

Upon appointment, the field collectors or agencies (as the case may be) directly contact clients and a visit place in accordance with SFS Italia's officer who is responsible of the specific geographical area.

The type of collection activity, either by telephone or via internal field collectors / external agencies, depends on:

- outstanding amount
- days past due.

Operational information is shared through recovery tools (such as Col.To). Results of activities are then transferred into Ekip and the activity is supervised daily.

At the end of each bucket there is a switch of the negative positions between the agencies.

*Late Collection and Write Offs (accounts > 150 DPD)* 

After the 151st DPD all accounts pass into Termination perimeter and a registered mail is sent to the client<sup>3</sup>.

In Termination perimeter, collection activities are done by external agencies and, in case of specific characteristics, by a Law Firm.

The termination process consists of different phases: each phase has a duration of 3 or 6 months. At the end of each phase, portfolio is switched between providers. Portfolio is managed by external agencies specialized in home collection activity. The termination process ends with the writing-off of the contracts.

<sup>&</sup>lt;sup>3</sup> There is a different type of letter depending on the contract (e.g.: Termination Letter to apply the Acceleration Clause for leasing contracts, Legal Notice and Termination Letter for retail contracts).

From the 360<sup>th</sup> DPD, if there are some specific conditions, accounts can be assigned to a Law Firm that evaluates the opportunity for a judicial action.

Write Off process: an account is usually written-off by SFS Italia after 24 months (leasing product) or 48 months (loan product). There are some exception to this rule, such as fraud or full and final settlement. Positions must be Written-off are monthly analysed with the approval of the Head of Late Collection Team.

Write Off portfolio is managed by external provider (field collection activity) and after 6 months position are switched between the agencies.

provided that, if the Screen Rate (or, in the case of the Initial Interest Period, the Additional Screen Rate) is unavailable at such time for Euro deposits for the relevant period, then the rate for any relevant period (the **Reference Rate**) shall be determined in accordance with Condition 5.3 (*Fallback provisions*) below.

  - (ii) the insolvency or cessation of business of the EURIBOR administrator (in circumstances where no successor EURIBOR administrator has been appointed);

- (vii) the reasonable expectation of the Issuer (acting on the advice of the Servicer) that any of the events specified in sub-paragraphs (i), (ii), (iii), (iv), (v) or (vi) will occur or exist within six months of the proposed effective date of such Base Rate Modification.
- (b) Following the occurrence of a Base Rate Modification Event, the Issuer (acting on the advice of the Servicer) will inform the Seller, the Representative of the Noteholders and the Interest Rate Swap Provider of the same and will appoint a rate determination agent to carry out the tasks referred to in this Condition 5.3 (the **Rate Determination Agent**).
- (c) The Rate Determination Agent shall determine an alternative base rate (the Alternative Base Rate) to be substituted for EURIBOR as the Reference Rate of the Notes and those amendments to these Terms and Conditions and the Transaction Documents (except for the Interest Rate Swap Agreement, whose amendment will depend on good faith negotiation between the Issuer and the Interest Rate Swap Provider) to be made by the Issuer as are necessary or advisable to facilitate such change (the Base Rate Modification), provided that no such Base Rate Modification will be made unless the Rate Determination Agent has determined and confirmed to the Representative of the Noteholders in writing (such certificate, a Base Rate Modification Certificate) that:
  - (i) such Base Rate Modification is being undertaken due to the occurrence of a Base Rate Modification Event and, in each case, such modification is required solely for such purpose and it has been drafted solely to such effect; and
  - (ii) such Alternative Base Rate is:
    - (A) a base rate published, endorsed, approved or recognised by the relevant regulatory authority or any stock exchange on which the Notes are listed or any relevant committee or other body established, sponsored or approved by any of the foregoing);

provided that, for the avoidance of doubt (I) in each case, the change to the Alternative Base Rate will not, in the Servicer's opinion, be materially prejudicial to the interest of the Noteholders; and (II) for the avoidance of doubt, the Servicer may propose an Alternative Base Rate on more than one occasion provided that the conditions set out in this paragraph (c) are satisfied.

- (d) It is a condition to any such Base Rate Modification that:
  - (i) any amendment or modification to the Interest Rate Swap Agreement to align the Reference Rates applicable under the Notes and the Interest Rate Swap Agreement will take effect at the same time as the Base Rate Modification takes effect;
  - (ii) the Seller pays (or arranges for the payment of) all fees, costs and expenses (including legal fees) properly incurred by the Issuer, the Representative of the Noteholder and the Servicer and each other applicable party including, without limitation, any of the agents to the Issuer, in connection with such modifications. For the avoidance of doubt, such costs shall not include any amount in respect of any reduction in the interest payable to a Noteholder or any change in the amount due to the Interest Rate Swap Provider or any change in the mark-to-market value of the Interest Rate Swap Agreement;
  - (iii) with respect to each Rating Agency, the Servicer has notified such Rating Agency of the proposed modification and, in the Servicer's reasonable opinion, formed on the basis of due consideration and consultation with such Rating Agency (including, as applicable, upon receipt of oral confirmation from an appropriately authorised person at such Rating Agency), such modification would not result in (x) a downgrade, withdrawal or suspension of the then current ratings assigned to the Rated Notes by such Rating Agency or (y) such Rating Agency placing the Rated Notes on rating watch negative (or equivalent); and
  - (iv) the Issuer (or the Servicer on its behalf) provides at least 30 (thirty) days' prior written notice to the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders and the Class E Noteholders of the proposed Base Rate Modification. If the proposed Alternative Base Rate is determined by the Rate Determination Agent on the basis of paragraph (c) above and if the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders and the Class E Noteholders representing at least 10 per cent. of the aggregate Principal Amount Outstanding of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes have notified the Issuer in accordance with the notice provided above and the then current practice of any applicable clearing.
- (e) When implementing any modification pursuant to this Condition 5.3, the Rate Determination Agent, the Issuer and the Servicer, as applicable, shall act in good faith and (in the absence of gross negligence (*colpa grave*) or wilful misconduct (*dolo*)), shall have no responsibility whatsoever to the Issuer, the Noteholders or any other party.
- (f) If a Base Rate Modification is not made as a result of the application of paragraph (c) above, and for so long as the Issuer (acting on the advice of the Servicer) considers that a Base Rate Modification Event is continuing, the Servicer may or, upon request of the Seller, must, initiate the procedure for a Base Rate Modification as set out in this Condition 5.3.
- (g) Any modification pursuant to this Condition 5.3 must comply with the rules of any stock exchange on which the Notes are from time to time listed or admitted to trading and may be made on more than one occasion.

- (h) As long as a Base Rate Modification is not deemed final and binding in accordance with this Condition 5.3, the Reference Rate applicable to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be equal to the last Reference Rate available on the relevant applicable screen rate pursuant to paragraph (a) above.
- (i) Regarding any benchmark amendments, any benchmark discontinuation, any adjustment spread and any other changes to the interest calculation provisions, the Paying Agent would need to be notified at least ten Business Days prior to the first applicable Calculation Date.
- (j) The agents under the Cash Allocation, Management and Payment Agreement are not obliged to concur with the Issuer in respect of any conforming changes or amendments required as a result of a benchmark replacement, to which, in the sole opinion of such Agents, would impose more onerous obligations upon them or expose them to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to such agents 'in the Cash Allocation, Management and Payment Agreement.
- (k) This Condition 5.3 shall be without prejudice to the application of any higher interest under applicable mandatory law.

- (a) On each Interest Determination Date, the Paying Agent shall calculate the amount of interest in Euro payable on each Note of each Class of Senior Notes and Mezzanine Notes (the **Interest Amount**) and on the aggregate number of Notes of each Class of Senior Notes and Mezzanine Notes (the **Aggregate Interest Amount**) in respect of each relevant Interest Period.
- (b) The Interest Amount payable on each such Note of each Class of Senior Notes and Mezzanine Notes in respect of any Interest Period shall be calculated by (A) applying the applicable Interest Rate to the Principal Amount Outstanding of that Note of each Class of Senior Notes and Mezzanine Notes on the relevant Payment Date (or, in the case of the first Interest Period, the Issue Date) at the commencement of such Interest Period (after deducting therefrom the payments which have been made on that Payment Date); (B) multiplying the product of such calculation by the actual number of days in the relevant Interest Period; (C) dividing that amount by 360; and (D) rounding the resulting amount downward to the nearest cent. The Aggregate Interest Amount shall be calculated by multiplying the Interest Amount of each Note of each such Class of Senior Notes and Mezzanine Notes by the actual number of Notes of that Class of Senior Notes and Mezzanine Notes.
- (c) The calculation of Interest Amount and the Aggregate Interest Amount made by the Paying Agent shall (in the absence of manifest error) be final and binding upon all parties.

## 5.5 Notification of Interest Amount and Payment Date

- (a) The Paying Agent will cause (A) the Interest Amount, (B) the Aggregate Interest Amount and (C) the relevant Payment Date to be notified, on each Interest Determination Date, to the Issuer, the Representative of the Noteholders, the Calculation Agent and the Cash Manager, and, for so long as the Notes are held through Euronext Securities Milan and the Senior Notes and the Mezzanine Notes are listed on the Stock Exchange, the Paying Agent will cause (i) the Interest Amount and the Aggregate Interest Amount in respect of the Notes and (B) the relevant Payment Date to be published in accordance with Condition 14 (*Notices*).
- (b) The Interest Amount and the Payment Date may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period or in the event of manifest error.

(c) If the Notes become due and payable under Condition 10 (*Trigger Events*), the Interest Amount and the Aggregate Interest Amount shall nevertheless continue to be calculated as previously by the Paying Agent in accordance with this Condition 5, but no notification of the Interest Amount and the Aggregate Interest Amount so calculated need be made to Euronext Securities Milan, unless the Representative of the Noteholders otherwise require.

# 5.6 Determination or calculation by Representative of the Noteholders

- (a) If the Paying Agent does not at any time for any reason determine the Interest Amount for one or more Classes of Senior Notes and Mezzanine Notes in accordance with the foregoing provisions of this Condition 5, the Representative of the Noteholders (also through delegates appointed by it) shall determine the Interest Amount for the relevant Class of Senior Notes and Mezzanine Notes in the manner specified in Condition 5.4 (*Right to Interest Calculation of Interest Amount and Aggregate Interest Amount*) and notify, as required, the amounts specified in accordance with Condition 5.5 (*Right to Interest Notification of Interest Amount and Payment Date*).

The appointment of any replacement shall be subject to the prior approval of the Representative of the Noteholders (in accordance with the terms of the Transaction Documents). The Issuer shall procure that any change in the identity of the Paying Agent will be published as soon as reasonably practicable in accordance with Condition 14 (*Notices*).

The amount by which the aggregate amount of interest paid on each Class of Senior Notes and Mezzanine Notes on any Payment Date in accordance with this Condition 5 falls short of the aggregate amount of interest which otherwise would be payable on the relevant Senior Notes and Mezzanine Notes on that date shall be aggregated with the amount of, and treated for the purposes of, this Condition 5, as if it were interest due on each such Class of Senior Notes and Mezzanine Notes and, subject as provided below, payable on the next succeeding Payment Date. No interest will be payable on any amount so deferred.
- (b) If, on the Legal Final Maturity Date, or any other later date until the Cancellation Date (or on any earlier date of redemption of the relevant Class of Senior Notes and Mezzanine Notes in full), there remains any such shortfall, the amount of such shortfall will become due and payable on the Legal Final Maturity Date or any other later date until the Cancellation Date (or, in the case of any earlier redemption of the relevant Class of Senior Notes and Mezzanine Notes in full, on the date of such earlier redemption).

## 6.5 Optional redemption for regulatory reasons

- (a) Provided that no Trigger Event Notice has been served on the Issuer, upon:
  - (i) an enactment or implementation of, or supplement or amendment to, or change in, any applicable law, policy, rule, guideline or regulation of any competent international, European or national body (including the European Central Bank, the Prudential Regulation Authority, the Bank of Italy or any other competent international, European or national regulatory or supervisory authority) or the application or official interpretation of, or view

expressed by any such competent body with respect to, any such law, regulation, rule, policy or guideline; or

(ii) a notification by or other communication from an applicable regulatory or supervisory authority is received by the Seller with respect to the Securitisation,

which, in either case, occurs on or after the Issue Date and results in, or would in the reasonable opinion of the Seller (and as certified by the Seller to the Issuer and to the Representative of the Noteholders) result in, a material adverse change in the capital treatment of the Notes or the capital relief afforded by the Notes or materially increasing the cost or materially reducing the benefit of the Securitisation, in either case, for the Seller or its affiliates, pursuant to applicable capital adequacy requirements or regulations as compared with the capital treatment or relief reasonably anticipated by the Seller on the Issue Date (each of such events, a **Regulatory Call Event**), the Issuer may, on any Payment Date following the occurrence of a Regulatory Call Event (the **Regulatory Call Early Redemption Date**), redeem the Class B Notes, the Class C Notes and the Class D Notes (in whole but not in part) at their Principal Amount Outstanding (plus any accrued but unpaid interest thereon) in accordance with the Regulatory Call Priority of Payments, subject to the Issuer:

- (i) giving not less than 25 (twenty-five) days' notice to the Representative of the Noteholders (with copy to the Servicer, the Calculation Agent and the Rating Agencies) and to the Noteholders in accordance with Condition 14 (Notices) of its intention to redeem such Notes (the **Regulatory Redemption Notice**); and
- (ii) on or prior to the Regulatory Redemption Notice being given, delivering to the Representative of the Noteholders a certificate duly signed by the Issuer stating that:
  - (A) the Regulatory Call Event cannot be avoided by taking measures reasonably is continuing; and
  - (B) the Issuer will have the necessary funds (free and clear of any Security Interest of any third party) on such Payment Date to discharge its outstanding liabilities in respect of the Class B Notes, the Class C Notes and the Class D Notes (in whole but not in part) and certain payments ranking in priority to or pari passu therewith, in accordance with the Regulatory Call Priority of Payments.

If after the Issuer having redeemed the Class B Notes, the Class C Notes and the Class D Notes (in whole but not in part), there would be sufficient funds to redeem also the Class E Notes (in whole but not in part), then the Regulatory Redemption Notice would be extended also to such Class E Notes provided that such Class E Notes will be redeemed in whole but not in part.

It is understood that the declaration of a Regulatory Call Event will not be prevented by the fact that, prior to the Issue Date (i) the event constituting any such Regulatory Call Event was announced or contained in any proposal (whether in draft or final form) for a change in the laws, regulations, applicable regulatory rules, policies or guidelines (including any accord, standard, or recommendation of the Basel Committee on Banking Supervision), as officially interpreted, implemented or applied by the European Central Bank, the Prudential Regulation Authority or the European Union, or incorporated in any law or regulation approved and/or published but the effectiveness or application of which is deferred, in whole or in part, beyond the Issue Date, or expressed in any statement by any official of the competent authority in expert meetings or other discussions in connection with such Regulatory Call Event or (ii) the competent authority has issued any notification, taken any decision or expressed any view with respect to any individual transaction, other than the Securitisation. Accordingly, such proposals, statements, notifications or views will not be taken into account when assessing the capital treatment of the Notes or the capital relief afforded

- by the Notes for the Seller or its affiliates or an increase of the cost or reduction of benefits to the Seller or its affiliates of the Securitisation immediately after the Issue Date.
- (b) The Issuer may obtain the funds necessary to finance such early redemption of the Notes solely from a Seller Loan that the Seller may elect to advance to the Issuer for an amount equal to the Seller Loan Redemption Amount, in accordance with the Intercreditor Agreement.
- (c) Following the Regulatory Call Early Redemption Date, the parties to the Intercreditor Agreement have agreed to promptly execute and deliver all instruments, notices and documents and take all further action that the Issuer or the Seller may reasonably request including, without limitation, agreeing all necessary modifications, waivers and additions to the Transaction Documents required in order to, among others: (A) achieve, in respect of the parties to the Transaction Documents (other than, for the avoidance of doubt, the Seller) an equivalent economic effect as the position under the Transaction Documents on the date immediately prior to the Regulatory Call Early Redemption Date; and (B) reflect the advance by, and, without limitation, the repayment of the Seller Loan to, the Seller, provided that no such modifications, waivers and additions are materially prejudicial to the interests of the holders of the Class A Notes.

#### 6.6 Calculations and Determinations

- (a) On each Calculation Date, the Issuer shall determine (or cause the Calculation Agent to determine):
  - (i) the amount of the Available Distribution Amounts;

  - (iii) the principal payment (if any) due on each Note of each Class on the immediately following Payment Date; and

The amount of principal payable per Note of a particular Class on any Payment Date shall be an amount equal to the product of:

# PP×(D/CA)

(where "PP" is the Principal Payment payable per Calculation Amount in respect of such Class of Notes on such Payment Date, "D" is the denomination of such Notes and "CA" is the Calculation Amount in respect of such Class of Notes).

(e) If the Issuer fails to determine (or to cause the Calculation Agent to determine) any principal payment on the Notes or Principal Amount Outstanding of the Notes in accordance with the preceding provisions of this Condition 6.6, such principal payment on the Notes and Principal Amount Outstanding of the Notes shall be determined by the Representative of the Noteholders (also through delegates appointed by it) in accordance with this Condition 6.6 and each such determination or calculation shall be deemed to have been made by the Calculation Agent.

- 14.4 The Representative of the Noteholders may sanction some other method of giving notice to the Noteholders of the relevant Class if, in its opinion, such other method is reasonable having regard to market practices then prevailing and to the rules of the stock exchange on which the Notes of the relevant Class are listed and provided that notice of such other method is given to the Noteholders of the relevant Class in such manner as the Representative of the Noteholders shall require.

## 15. AMENDMENTS, WAIVERS AND CONSENTS

#### 16. DETERMINATIONS CONCLUSIVE

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of these Conditions, whether by the Calculation Agent, the Issuer, the Paying Agent or the Representative of the Noteholders shall, in the absence of manifest error, be binding on the Calculation Agent, the Issuer, the Paying Agent or the Representative of the Noteholders and on all the Noteholders and the Other Issuer Secured Creditors and (in the absence of gross negligence (*colpa grave*) or wilful default (*dolo*)) no liability to the Noteholders shall attach to the Calculation Agent, the Issuer, the Paying Agent or the Representative of the Noteholders in connection with the exercise or non-exercise by them or any of them of their powers, duties and discretions hereunder.

#### 17. NON PETITION AND LIMITED RECOURSE

- 17.1 Without prejudice to the right of the Representative of the Noteholders to exercise any of its other rights or remedies under the Transaction Documents, none of the Noteholders shall be entitled to institute against the Issuer, or join any other person in instituting against the Issuer, any reorganisation, liquidation, Insolvency Proceedings or similar proceedings until two years and one day has elapsed since the later of the day on which the Notes and all the asset backed notes issued in the context of any Further Securitisation have been paid (or cancelled) in full.
- 17.2 None of the Noteholders or any Other Issuer Secured Creditor will have any right or entitlement to the Issuer's assets other than such of the proceeds of the Portfolio and the other Securitisation Assets as are available to the Issuer for this purpose in accordance with these Conditions and the Transaction Documents. Each Noteholder and each Other Issuer Secured Creditor further acknowledges that the limited recourse nature of the Notes produces the effect under Italian law of a *contratto aleatorio* and accepts the consequences thereof, including the consequences of Article 1469 of the Italian Civil Code.

#### **17.3** If:

- (a) following the service of a Trigger Event Notice and the exercise by the Representative of the Noteholders or any other person so entitled of its rights to direct the Issuer and/or to take any action in respect of the Portfolio and any asset or amount derived therefrom; or

#### 13. NOTICE FOLLOWING ADJOURNMENT

Paragraph 8 (*Notice*) shall apply to any Meeting adjourned for want of quorum save that:

- (a) at least ten days' notice (exclusive of the day on which the notice is given and of the day on which the Meeting is to be resumed) shall be given unless the notice of the original Meeting set the date for a second call, in which case no such notice shall be necessary;

Notwithstanding the foregoing, the demand for a poll shall not prevent the continuance of the Meeting for the transaction of any business other than the question on which the poll has been demanded.

- (g) either:
- (ii) the Issuer obtains from each of the Rating Agencies written confirmation that such modification would not result in a downgrade, withdrawal or suspension of the then current ratings assigned to the Rated Notes by such Rating Agency and would not result in any Rating Agency placing the Rated Notes on rating watch negative (or equivalent) and delivers a copy of such confirmation to the Issuer and the Representative of the Noteholders; or
- (iii) the Servicer, on behalf of the Issuer, certifies in the Modification Certificate that it has notified each of the Rating Agencies of the proposed modification and in its opinion, formed on the basis of due consideration and consultation with the Rating Agencies, such modification would not result in (x) a downgrade, withdrawal or suspension of the then current ratings assigned to the Rated Notes by any Rating Agency or (y) any Rating Agency placing the Rated Notes on rating watch negative (or equivalent),

Objections made in writing other than through the clearing systems must be accompanied by evidence to the Representative of the Noteholders' satisfaction (having regard to prevailing market practices) of the relevant Noteholder's holding of the Notes.

Any modification made in accordance with this Condition 27.20 shall be binding on all Noteholders and shall be notified by the Issuer (or the Paying Agent on its behalf) without undue delay to, so long as any of the Rated Notes remains outstanding, each Rating Agency and, in any event, the Other Issuer Secured Creditors and the Noteholders in accordance with Condition 17 (*Notices*).

The Representative of the Noteholders shall not be obliged to agree to any modification which, in the sole opinion of the Representative of the Noteholders, would have the effect of (i) exposing the Representative of the Noteholders to any liability against which it has not been indemnified and/or secured and/or pre-funded to its satisfaction or (ii) increasing the obligations or duties, or decreasing the rights or protections, of the Representative of the Noteholders in the Transaction Documents and/or the Terms and Conditions.

shall not be responsible for (except as otherwise provided in the Conditions or in the Transaction Documents) making or verifying any determination or calculation in respect of the Receivables, the Notes and any other payment to be made in accordance with the Priorities of Payments;

# (1) No regard of domicile of Noteholders

shall not have regard to the consequences of any modification or waiver of these Rules, the Notes, the Conditions or any of the Transaction Documents for individual Noteholders or any relevant persons resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to, the jurisdiction of any particular territory;

## (m) Effect of amendments

shall not be under any obligation to consider the effect of any amendment of these Rules, the Conditions or any of the Transaction Documents on the financial condition of individual Noteholders or any other Transaction Party;

## (n) No disclosure of information

shall not (unless and to the extent ordered so to do by a court of competent jurisdiction) be under any obligation to disclose to any Noteholder, any Other Issuer Secured Creditor or any other person any confidential, financial, price sensitive or other information made available to the Representative of the Noteholders by the Issuer or any other person in connection with these Rules, the Notes or any other Transaction Document, and none of the Noteholders, Other Issuer Secured Creditors nor any other person shall be entitled to take any action to obtain from the Representative of the Noteholders any such information;

## (o) Rating Agencies

shall be entitled to assume, for the purposes of exercising any power, authority, duty or discretion under or in relation to the Conditions that such exercise will not be prejudicial to the interests of the Noteholders if the Rating Agencies (except for Fitch) have confirmed that the then current rating of the Notes would not be adversely affected by such exercise. Notwithstanding the foregoing, it is agreed and acknowledged by the Representative of the Noteholders and notified to the Noteholders that a credit rating is an assessment of credit and does not address other matters that may be of relevance to the Noteholders, and it is expressly agreed and acknowledged that such confirmation does not impose on or extend to the Rating Agencies any actual or contingent liability to the Representative of the Noteholders, the Noteholders or any other third party or create legal relations between the Rating Agencies and the Representative of the Noteholders, the Noteholders or any other third party by way of contract or otherwise.

Any consent or approval given by the Representative of the Noteholders under these Rules, the Notes, the Conditions or any other Transaction Document may be given on such terms and subject to such conditions (if any) as the Representative of the Noteholders thinks fit and, notwithstanding anything to the contrary contained herein, in the Conditions or in any Transaction Document, such consent or approval may be given retrospectively.

If required to do so pursuant to the provisions of the Servicing Agreement, the Representative of the Noteholders shall use its best efforts to identify and propose a Back-up Servicer, it being understood that the Representative of the Noteholders shall not, in the absence of gross negligence (*colpa grave*) or wilful default (*dolo*) on its part, be held liable if no Back-up Servicer is identified.

No provision of these Rules, the Notes, the Conditions or any Transaction Document shall require the Representative of the Noteholders to do anything which may be illegal or contrary to applicable law or regulations, or expend or risk its own funds, or otherwise incur any financial liability in the performance of any of its duties, or in the exercise of any of its powers or discretions, and the Representative of the Noteholders may refrain from taking any action if it has reasonable grounds to believe that it will not be reimbursed for any funds, or that it will not be indemnified against any loss or liability which it may incur as a result of such action.

## **30. SECURITY DOCUMENTS**

# 30.1 Exercise of rights under the Security Document

Each Noteholder hereby acknowledges and agrees that the Representative of the Noteholders has entered into (or is entitled to enter into) the English Deed of Assignment in its capacity as trustee for the benefit of the Noteholders and Other Issuer Secured Creditors and is entitled to exercise its rights and powers in relation to the English Deed of Assignment and the security created or purported to be created thereby, in each case on the terms set out in the Deed of Assignment and the other Transaction Documents. The beneficiaries of the English Deed of Assignment are referred to as the Secured Noteholders.

# 30.2 Rights of the Representative of the Noteholders

The Representative of the Noteholders, acting on behalf of the Secured Noteholders, shall be entitled to:

- (a) appoint and entrust the Issuer to collect, in the Secured Noteholders' interest and on their behalf, any amounts deriving from the Note Security and may instruct, jointly with the Issuer, the obligors whose obligations form part of the Note Security to make any payments to be made thereunder to the relevant Account;
- (b) procure that the accounts to which payments have been made in respect of the Note Security are operated in compliance with the provisions of the Cash Allocation, Management and Payment Agreement. For such purpose and until a Trigger Event Notice is served, the Representative of the Noteholders, acting in the name and on behalf of the Secured Noteholders, shall appoint the Issuer to manage such Accounts in compliance with the Cash Allocation, Management and Payment Agreement;
- (c) procure that all funds credited to the relevant Accounts from time to time are applied in accordance with the Cash Allocation, Management and Payment Agreement and the Intercreditor Agreement; and
- (d) procure that the funds from time to time deriving from the Note Security and the amounts standing to the credit of the relevant Accounts are applied towards satisfaction not only of the amounts due to the Secured Noteholders, but also of such amounts due and payable to any other parties that rank prior to the Secured Noteholders according to the applicable Priority of Payments set forth in the Terms and Conditions, and to the extent that all amounts due and payable to the Secured Noteholders have been paid in full, that any remaining amount be used towards satisfaction of any amounts due to any other parties that rank below the Secured Noteholders.

## 30.3 Waiver of the Secured Noteholders

The Secured Noteholders irrevocably waive any right they may have in relation to any amount deriving from time to time from the pledged receivables or credited to the Accounts which is not in accordance with the provisions of this Rule 30.

## 31. INDEMNITY

It is hereby acknowledged that the Issuer has covenanted and undertaken under the Intercreditor Agreement to reimburse, pay or discharge (on a full indemnity basis) all costs, liabilities, losses, charges, expenses (provided, in each case, that supporting documents are delivered), damages, actions, proceedings, claims and demands (including, without limitation, legal fees and any

applicable value added tax or similar tax) properly incurred by or made against the Representative of the Noteholders or by any person to whom the Representative of the Noteholders has delegated any power, authority or discretion or any appointee thereof, in relation to the preparation and execution of, the exercise or the purported exercise of, its powers, authority and discretion and performance of its duties under and in any other manner in relation to these Rules, the Conditions or any other Transaction Document, including but not limited to properly incurred legal expenses, reasonable travelling expenses and any reasonable attorney's fees, stamp, issue, registration, documentary and other taxes or duties due to be paid by the Representative of the Noteholders in connection with any action and/or legal proceedings brought against or contemplated by the Representative of the Noteholders pursuant to these Rules, the Conditions or any other Transaction Document, or against the Issuer or any other person for enforcing any obligations under these Rules, the Notes or the Transaction Documents, other than as a result of gross negligence (colpa grave) or wilful default (dolo) on the part of the Representative of the Noteholders.

#### PART 4

# THE ORGANISATION OF NOTEHOLDERS UPON SERVICE OF A TRIGGER EVENT NOTICE AND/OR OCCURRENCE OF AN ISSUER INSOLVENCY EVENT AND/OR A SPECIFIED EVENT

### 32. POWERS

Each of the Noteholders, by reason of holding the relevant Note(s), will recognise that, pursuant to the Intercreditor Agreement, the Representative of the Noteholders, has been irrevocably appointed as from the date of execution of the Intercreditor Agreement and with effect on the date on which the Notes will become due and payable following the service of a Trigger Event Notice or the occurrence of an Issuer Insolvency Event, as exclusive, true and lawful agent (mandatario esclusivo con rappresentanza), of the Noteholders and the Other Issuer Secured Creditors to, including without limitation, receive on their behalf from the Issuer any and all monies payable by the Issuer to the Noteholders and the Other Issuer Secured Creditors from and including the date on which the Notes will become due and payable, such monies to be applied in accordance with the applicable Priority of Payments.

In particular, the Representative of the Noteholders shall be authorised to:

- (a) exercise all and any of their rights under the Securitisation Law in respect of the Portfolio and the Available Collections and all amounts and/or other assets of the Issuer deriving from the Portfolio, if any;
- (b) receive on their behalf all moneys resulting from the action under (a) above or otherwise payable by the Issuer to the Noteholders and the Other Issuer Secured Creditors, such moneys to be applied by the Representative of the Noteholders in accordance with the applicable Priority of Payments;
- (c) following the occurrence of an Issuer Insolvency Event only, deal with the insolvency procedure (including the filing of any claim for payment) and to receive on their behalf from the procedure any and all monies payable by the insolvency receiver to any of the Issuer Secured Creditors and to apply such monies in accordance with the applicable Priority of Payments; and
- (d) do any act, matter or thing which it considers necessary to exercise or protect the Noteholders and the Other Issuer Secured Creditors' rights under any of the Transaction Documents.

In addition, the Representative of the Noteholders, in its capacity as true and lawful agent (mandatario con rappresentanza) of the Issuer in the interest, and for the benefit of, the Noteholders and the Other Issuer Secured Creditors pursuant to Article 1723, second paragraph of the Italian Civil Code, will be authorised, pursuant to the terms of the Intercreditor Agreement, to exercise, upon service of a Trigger Event Notice and/or occurrence of Specified Event, in the name and on behalf of the Issuer any and all of the Issuer's Rights, including the right to give directions and instructions to the relevant parties to the Transaction Documents. In particular, the Representative of the Noteholders will be entitled, until the Notes have been repaid in full or cancelled in accordance with the Conditions:

(i) to request the Account Bank to transfer all monies standing to the credit of each of the Issuer Accounts and/or the Expenses Account to replacement accounts opened for such purpose by the Representative of the Noteholders with the same or a replacement Account Bank;

- (ii) to require performance by any Issuer Secured Creditor of its obligations under the relevant Transaction Document to which such Issuer Secured Creditor is a party, to bring any legal actions and exercise any remedies in the name and on behalf of the Issuer that are available to the Issuer under the relevant Transaction Document against such Issuer Secured Creditor in case of failure to perform and generally to take such action in the name and on behalf of the Issuer as the Representative of the Noteholders may deem necessary to protect the interests of the Issuer, the Noteholders and the Other Issuer Secured Creditors in respect of the Portfolio, the Receivables, the Securitisation Assets and the Issuer's Rights;
- (iii) to instruct the Servicer in respect of the recovery of any amounts due under the Portfolio or in relation to any other Securitisation Asset and/or the Issuer's Rights;
- (iv) to take possession, as an agent of the Issuer and to the extent permitted by applicable laws, of all Available Collections (by way of a power of attorney granted under the terms of the Intercreditor Agreement) and of the Receivables and to sell or otherwise dispose of the Receivables or any of them in such manner and upon such terms and at such price and such time or times as the Representative of the Noteholders shall, in its absolute discretion, deem appropriate and to apply the proceeds in accordance with the Post-Enforcement Priority of Payments, provided however that if the amount of the monies at any time available to the Issuer or the Representative of the Noteholders for the payments above shall be less than 10% of the Principal Amount Outstanding of all Classes of Notes the Representative of the Noteholders may at its discretion invest such monies (or cause such monies to be invested) in Eligible Investments. The Representative of the Noteholders at its discretion may accumulate such Eligible Investments and the resulting income until the earlier of: (i) the day on which the accumulations, together with any other funds for the time being under the control of the Representative of the Noteholders and available for such purpose, amount to at least 10% of the Principal Amount Outstanding of all Classes of Notes; and (ii) the Business Day immediately following the service of a Trigger Event Notice or the occurrence of an Issuer Insolvency Event that would have been a Payment Date. Such accumulations and funds shall be applied to make the payments listed in the Post-Enforcement Priority of Payments; and
- (v) to distribute the monies from time to time standing to the credit of the Issuer Accounts and such other accounts as may be opened by the Representative of the Noteholders pursuant to paragraph (i) above to the Noteholders and the Other Issuer Secured Creditors in accordance with the applicable Priority of Payments.

## PART 5

# **GOVERNING LAW AND JURISDICTION**

# **Governing Law and Jurisdiction**

These Rules and any non-contractual obligations arising out of or in connection with these Rules are governed by, and will be construed and interpreted in accordance with, the laws of Italy.

All disputes arising out of or in connection with these Rules and any non-contractual obligations arising out of or in connection with these Rules, including those concerning their validity, interpretation, performance and termination, shall be exclusively settled by the Courts of Milan.

# ESTIMATED MATURITY AND ESTIMATED WEIGHTED AVERAGE LIFE OF THE SENIOR NOTES AND THE MEZZANINE NOTES

The maturity and average life of the Senior Notes and the Mezzanine Notes cannot be predicted, as the actual rate at which the Auto Loans will be repaid and a number of other relevant factors are unknown.

The weighted average life of the Senior Notes and the Mezzanine Notes refers to the average length of time (on an actual/360 basis) that will elapse from the date of issuance of the Senior Notes and the Mezzanine Notes to the date of repayment to the investors of all principal amounts due in relation to the Senior Notes and the Mezzanine Notes. The weighted average life of the Senior Notes and the Mezzanine Notes will vary according to the rate at which principal payments are received on the Purchased Receivables, which shall be determined on the basis of amortisation, scheduled principal payments, prepayments and actual collections received in respect of each Purchased Receivable; calculations as to the estimated maturity and average life of the Senior Notes and the Mezzanine Notes have been based on certain assumptions, including the following:

- (a) that the Auto-Loans are subject to a constant rate of prepayment as shown in the table below;
- (b) that no Purchased Receivables are sold by the Issuer;
- (c) that the Auto-Loans continue to be fully performing;
- (d) that Additional Receivables transferred during the Revolving Period will amortise substantially in the same way as the Initial Receivables;
- (e) that the Revolving Period will end on the Payment Date falling in January 2025 (excluded);
- (f) that no Trigger Event has occurred;
- (g) that the Clean Up Option, following the Clean Up Event, is exercised by the Seller;
- (h) that no early redemption of the Notes under the circumstances indicated under Condition 6.3 (Redemption, Purchase and Cancellation Redemption for Issuer Tax Event) or 6.5 (Redemption, Purchase and Cancellation Optional redemption for regulatory reasons) has occurred.

The estimated average life of the Senior Notes and the Mezzanine Notes are subject to factors largely outside the control of the Issuer and consequently no assurance can be given that the assumptions and estimates above will prove in any way to be realistic and they must therefore be viewed with considerable caution.

## TAXATION IN THE REPUBLIC OF ITALY

The statements herein regarding taxation are based on the laws in force in Italy as of the date of this Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following overview does not purport to be a comprehensive description of all of the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Notes are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Notes.

#### Tax treatment of Notes

Legislative Decree No. 239 of 1 April 1996, as subsequently amended (**Decree 239**), provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from Notes falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*), issued, *inter alia*, by Italian companies incorporated pursuant to the Securitisation Law.

## Italian resident Noteholders

Where an Italian resident Noteholder is (a) an individual not engaged in an entrepreneurial activity to which the Notes are connected; (b) a non-commercial partnership; (c) a non-commercial private or public institution; or (d) an investor exempt from Italian corporate income taxation (unless the Noteholders under (a), (b) or (c) above opted for the application of the *risparmio gestito regime* – see under "Capital gains tax" below), interest, premium and other income relating to the Notes, are subject to a final withholding tax, referred to as "*imposta sostitutiva*", levied at the rate of 26 per cent. In the event that the Noteholders described under (a) and (c) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a "tax on account".

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the *imposta sostitutiva*, on interest, premium and other income relating to the Notes if the Notes are included in a long term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (88-114) of Law No. 232 of 11 December 2016 (the **Budget Law 2017**) and in Article 1(211-215) of Law No. 145 of 30 December 2018 (the **Budget Law 2019**) as amended and supplemented.

Where an Italian resident Noteholder is a company or similar commercial entity, or a permanent establishment in Italy of a non-Italian resident company to which the Notes are effectively connected, and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes are not subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian corporate taxation (and, in certain circumstances, depending on the "status" of the Noteholder, also to the regional tax on productive activities (IRAP)).

Under the current regime provided by Law Decree No. 351 of 25 September 2001, converted into law with amendments by Law No. 410 of 23 November 2001 (**Decree 351**), Law Decree No. 78 of 31 May 2010, converted into Law n. 122 of 30 July 2010 and Legislative Decree No. 44 of 4 March 2014, all as amended payments of interest, premiums or other proceeds in respect of the Notes deposited with an authorised intermediary made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 or Italian real estate SICAFs (**Real Estate SICAFs**), are subject neither to

*imposta sostitutiva* nor to any other income tax in the hands of a real estate investment fund or the Real Estate SICAF.

If the investor is an Italian resident open-ended or closed-ended investment fund, a SICAF (an investment company with fixed capital) or a SICAV (an investment company with variable capital) established in Italy (together the **Fund**) and either (i) the Fund or (ii) its manager is subject to the supervision of a regulatory authority, and the relevant Notes are deposited with an authorised intermediary, interest, premium and other income accrued during the holding period on such Notes will neither be subject to *imposta sostitutiva* nor to any other income tax in the hands of the Fund. A withholding tax at a rate of 26 per cent. will apply, in certain circumstances, to distributions made by the Fund in favour of unitholders or shareholders (the **Collective Investment Fund Tax**).

Where an Italian resident Noteholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, interest, premium and other income relating to the Notes may be excluded from the taxable base of the 20 per cent. substitute tax if the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (88-98) of Budegt Law 2017 and in Article 1(211-215) of Budget Law 2019.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a decree of the Ministry of Finance (each an **Intermediary**).

An Intermediary must (a) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (b) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by the intermediary paying interest to a Noteholder (or by the Issuer should the interest be paid directly by this latter).

## Non-Italian resident Noteholders

Where the Noteholder is a non-Italian resident without a permanent establishment in Italy to which the Notes are connected, an exemption from the *imposta sostitutiva* applies provided that the non-Italian resident beneficial owner is either (a) resident, for tax purposes, in a country which allows for a satisfactory exchange of information with Italy as listed in the Italian Ministerial Decree of 4 September 1996, as amended by Ministerial Decree of 23 March 2017 and possibly further amended by future decrees issued pursuant to Article 11(4)(c) of Decree 239 (as amended by Legislative Decree No. 147 of 14 September 2015) (the **White List**); or (b) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or (c) a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) an institutional investor incorporated in a country included in the White List, even if it does not possess the status of taxpayer in its own country.

In order to ensure gross payment, non-Italian resident Noteholders must be the beneficial owners of the payments of interest, premium or other income and (a) deposit, directly or indirectly, the Notes with a resident bank or SIM or a permanent establishment in Italy of a non-Italian resident bank or SIM or with a non-Italian resident entity or company participating in a centralised securities management system which is in contact, via computer, with the Ministry of Economy and Finance and (b) file with the relevant depository, prior to or concurrently with the deposit of the Notes, a statement of the relevant Noteholder, which remains

valid until withdrawn or revoked, in which the Noteholder declares to be eligible to benefit from the applicable exemption from *imposta sostitutiva*. Such statement, which is not requested for international bodies or entities set up in accordance with international agreements which have entered into force in Italy nor in case of foreign Central Banks or entities which manage, *inter alia*, the official reserves of a foreign State, must comply with the requirements set forth by Ministerial Decree of 12 December 2001, as subsequently amended.

The *imposta sostitutiva* will be applicable at the rate of 26 per cent. (or at the reduced rate provided for by the applicable double tax treaty, if any) to interest, premium and other income paid to Noteholders who are resident, for tax purposes, in countries which do not allow for a satisfactory exchange of information with Italy or who do not comply with the above mentioned provisions.

## Capital gains tax

Any gain obtained from the sale or redemption of the Notes would be treated as part of the taxable income (and, in certain circumstances, depending on the "status" of the Noteholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Where an Italian resident Noteholder is (i) an individual holding the Notes not in connection with an entrepreneurial activity, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, any capital gain realised by such Noteholder from the sale or redemption of the Notes would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent. Noteholders may set off losses with gains.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not engaged in an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from Italian capital gain taxes, including the *imposta sostitutiva*, on capital gains realised upon sale or redemption of the Notes, if the Notes are included in a long term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(88-114) of Budget Law 2017 and in Article 1(211-215) of Budget Law 2019.

In respect of the application of *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (regime della dichiarazione), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Notes are connected, the imposta sostitutiva on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual Noteholder holding the Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. Italian resident individuals holding the Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay imposta sostitutiva on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Noteholders holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes (the *risparmio amministrato* regime). Such separate taxation of capital gains is allowed subject to (a) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries (including permanent establishments in Italy of non-Italian resident intermediaries) and (b) an express election for the *risparmio amministrato* regime being timely

made in writing by the relevant Noteholder. The depository is responsible for accounting for *imposta* sostitutiva in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Noteholder is not required to declare the capital gains in the annual tax return.

Any capital gains realised by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the so-called "risparmio gestito" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the risparmio gestito regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the risparmio gestito regime, the Noteholder is not required to declare the capital gains realised in the annual tax return.

Any capital gains realised by a Noteholder who is an Italian real estate fund to which the provisions of Decree 351, Law Decree No. 78 of 31 May 2010, converted into Law n. 122 of 30 July 2010 and Legislative Decree No. 44 of 4 March 2014, all as amended, apply or a Real Estate SICAF will be subject neither to *imposta sostitutiva* nor to any other income tax at the level of the real estate investment fund or the Real Estate SICAF, but subsequent distributions made in favour of unitholders or shareholders will be subject, in certain circumstances, to a withholding tax of 26 per cent.

Any capital gains realised by a Noteholder which is a Fund will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio. Such result will not be taxed with the Fund, but subsequent distributions in favour of unitholders of shareholders may be subject to the Collective Investment Fund Tax.

Any capital gains realised by a Noteholder who is an Italian pension fund (subject to the regime provided for by Article 17 of Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, interest, premium and other income relating to the Notes may be excluded from the taxable base of the 20 per cent. substitute tax if the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (88-98) of Budget Law 2017 and in Article 1(211-215) of Budget Law 2019.

Capital gains realised by non-Italian resident Noteholders, not having a permanent establishment in Italy to which the Notes are connected, from the sale or redemption of Notes traded on regulated markets are neither subject to the *imposta sostitutiva* nor to any other Italian income tax.

Capital gains realised by non-Italian resident Noteholders, not having a permanent establishment in Italy to which the Notes are connected, from the sale or redemption of Notes not traded on regulated markets are not subject to the *imposta sostitutiva*, provided that the effective beneficiary: (a) is resident in a country included in the White List; or (b) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (c) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) is an institutional investor which is incorporated in a country included in the White List, even if it does not possess the status of taxpayer in its own country, and a proper documentation is filed.

If the conditions above are not met, capital gains realised by said non-Italian resident Noteholders from the sale or redemption of Notes not traded on regulated markets are subject to the *imposta sostitutiva* at the current rate of 26 per cent. unless a reduced rate is provided for by an applicable double tax treaty, if any.

In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Notes are connected that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of Notes are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale or redemption of Notes.

## Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, converted with amendments into Law No. 286 of 24 November 2006, as subsequently amended, the transfers of any valuable asset (including shares, notes or other securities) as a result of death or donation are taxed as follows:

- (i) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding, for each beneficiary, €1,000,000;
- (ii) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding, for each beneficiary, €100,000; and
- (iii) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate mentioned above in (i), (ii) and (iii) on the value exceeding, for each beneficiary, €1,500,000.

## Transfer tax

Contracts relating to the transfer of securities are subject to the following registration tax: (i) public deeds and notarised deeds are subject to fixed registration tax at a rate of €200; (ii) private deeds are subject to registration tax at the same rate of €200 only in the case of use or voluntary registration or enunciazione.

# Stamp duty

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 (**Decree 201**), a proportional stamp duty applies on an annual basis to any periodic reporting communications which may be sent by an Italian based financial intermediary to a Noteholder in respect of any Notes which may be deposited with such financial intermediary to its clients. The stamp duty applies at a rate of 0.2 per cent. (it can be no lower than Euro 34.20. If the client is not an individual, and cannot be higher than Euro 14,000.00) on the market value or – if no market value figure is available – the nominal value or redemption amount of the Notes held.

The communication is deemed to be sent to the customers at least once a year, even for instruments for which it is not mandatory.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June 2012) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

## Wealth Tax on securities deposited abroad

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding the Notes outside the Italian territory are required to pay a wealth tax which applies at a rate of 0.2 per cent on the market value of the Notes at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes, if any, paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

## Automatic exchange of information

On 3 June 2003, the EU Council of Economic and Finance Ministers adopted a directive regarding the taxation of savings income ("EU Savings Directive" or the "Directive"). Under the Directive each Member State was required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to an individual resident in that other Member State.

On 10 November 2015, the EU Council Directive 2015/2060/EU, under proposal of the European Commission, repealed the EU Savings Directive which is replaced by the EU Council Directive 2011/16/EU, as amended and supplemented from time to time, on administrative cooperation in the field of taxation (the "**DAC**"). This is to prevent overlap between the EU Savings Directive and the new automatic exchange of information regime to be implemented under the DAC. The new regime under the DAC is in accordance with the Global Standard released by the Organisation for Economic Co-operation and Development in July 2014. DAC is generally broader in scope than the EU Saving Directive, although it does not impose withholding taxes.

Italy originally implemented the Directive through Legislative Decree No. 84 of 18 April 2005 ("**Decree 84**"). On 10 November 2015, as mentioned above, the Council of the European Union adopted a Council Directive repealing the EU Savings Directive in order to prevent overlap between the EU Saving Directive and the DAC. The DAC has been implemented through Legislative Decree No. 29 of 4 March 2014, as amended and supplemented from time to time, and with Ministerial Decree of 28 December 2015, as amended and supplemented from time to time, (published in the Official Gazette No. 303 of 31 December 2015). Therefore, Law No. 122 of July 2016 repealed Decree 84 accordingly.

Finally, on 25 May, 2018 the EU Council Directive 2018/822 (the **DAC 6**) has been adopted. Italy implemented the DAC6 with Decree No. 100 of July 30, 2020. Under the DAC 6 intermediaries which meet certain EU nexus criteria and taxpayers are required to disclose to the relevant Tax Authorities certain cross-border arrangements, which contain one or more of a prescribed list of hallmarks, performed from 25 June 2018 onwards.

## Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a **foreign financial institution** (as defined by FATCA) may be required to withhold on certain payments it makes (**foreign passthru payments**) to persons that fail to meet certain certification, reporting or related requirements. A number of jurisdictions including the Republic of Italy have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, such withholding would not apply prior to 1 January 2019 and Notes

issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date. Holders should consult their own tax advisers regarding how these rules may apply to their investment in Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

## General

The Senior Notes and the Mezzanine Notes are freely transferable by the Joint Lead Managers. The Junior Notes are freely transferable by the Junior Notes Subscriber. To such purpose, each of the Issuer, the Seller and the Joint Lead Managers, under the Senior Notes and Mezzanine Notes Subscription Agreement, and each of the Issuer and the Junior Notes Subscriber, under the Junior Notes Subscription Agreement, has undertaken to the Issuer that it will comply with all applicable laws and regulations in each country or

jurisdiction in which it purchases, offers, sells or delivers the relevant Notes or has in its possession, distributes or publishes such offering material, or in each case purports to do so, in all cases at its own expense. Furthermore, each of the Issuer, the Seller and the Joint Lead Managers, under the Senior Notes and Mezzanine Notes Subscription Agreement, and each of the Issuer and the Junior Notes Subscriber, under the Junior Notes Subscription Agreement, has undertaken that it will not, directly or indirectly, carry out, or purport to carry out, any offer, sale or delivery of any relevant Notes or distribution or publication of any prospectus, form of application, offering circular (including this Prospectus), advertisement or other offering material in or from any country or jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Unless otherwise herein provided, each of the Issuer, the Seller and the Joint Lead Managers, under the Senior Notes and Mezzanine Notes Subscription Agreement, and each of the Issuer and the Junior Notes Subscriber, under the Junior Notes Subscription Agreement, has undertaken that it will not take any action to obtain permission for public offering of the relevant Notes in any country where action would be required for such purpose.

On the Issue Date, the Notes may only be purchased by persons that are not "U.S. person" as defined in the U.S. Risk Retention Rules (the Risk Retention U.S. Persons). Consequently, except with the prior written consent of the Seller (a U.S. Risk Retention Consent) and where such sale falls within the exemption provided by Section \_\_.20 of the U.S. Risk Retention Rules, any Notes offered and sold by the Issuer may not be purchased by, or for the account or benefit of, any "U.S. persons" as defined in the U.S. Risk Retention Rules (Risk Retention U.S. Persons). Prospective investors should note that the definition of "U.S. person" in the U.S. Risk Retention Rules is different from the definition of "U.S. person" in Regulation S. Each purchaser of Notes, including beneficial interests therein will, by its acquisition of a Note or beneficial interest therein, be deemed, and in certain circumstances will be required, to have made certain representations and agreements, including that it (1) either (i) is not a Risk Retention U.S. Person or (ii) has obtained a U.S. Risk Retention Consent from the Seller, (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note; and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section .20 of the U.S. Risk Retention Rules).

Each of the Issuer, the Seller and the Joint Lead Managers, under the Senior Notes and Mezzanine Notes Subscription Agreement, and each of the Issuer and the Junior Notes Subscriber, under the Junior Notes Subscription Agreement, has undertaken that it will not, directly or indirectly, carry out, or purport to carry out, any offer, sale or delivery of any of the relevant Notes or distribution or publication of any prospectus, form of application, offering circular (including the Prospectus), advertisement or other offering material in or from any country or jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. - (b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), as permitted under the Prospectus Regulation; or

- (b) The expression **Prospectus Regulation** means Regulation (EU) 2017/1129.

The Notes are not intended to be offered, sold or otherwise made available to any retail investor in the European Economic Area. Accordingly, none of the Issuer or the Junior Notes Subscriber or the Joint Lead Managers expects to be required to prepare, and none of them has prepared, or will prepare, a "key information document" in respect of the Notes for the purposes of Regulation (EU) No 1286/2014 of 26 November 2014 on key information documents for packaged retail and insurance-based investment products (the **PRIIPs Regulation**).

An investment in the Notes is only suitable for financially sophisticated investors who are capable of evaluating the merits and risks of such investment and who have sufficient resources to be able to bear any losses which may result from such investment. It should be remembered that the price of securities and the income from them can go down as well as up.
