IMPORTANT NOTICE – UK AFFECTED INVESTORS

From 1 January 2021, relevant UK-established or UK-regulated persons are subject to the Prospectus Regulation as it forms part of the domestic law of the UK as “retained EU law” by virtue of the European Union (Withdrawal) Act 2018, as amended (the **EUWA**), and as amended by the Securitisation (Amendment) (EU Exit) Regulations 2019 (the **Securitisation EU Exit Regulations**, and as may be further amended, the **UK Securitisation Regulation**). Article 5 of the UK Securitisation Regulation places certain conditions on investments in a “securitisation” (as defined in the UK Securitisation Regulation) (the **UK Due Diligence Requirements**) by an “institutional investor” (as defined in the UK Securitisation Regulation). The UK Due Diligence Requirements also apply to investments by certain consolidated affiliates, wherever established or located, of such institutional investors which are CRR firms (as defined by article 4(1)(2A) of Regulation (EU) No 575/2013, as it forms part of the domestic law of the UK by virtue of the EUWA) (such affiliates, together with all such institutional investors, **UK Affected Investors**). The UK Securitisation Regulation regime is currently subject to a review, which is likely to result in further changes being introduced in the UK in due course. Therefore, some divergence between EU and UK regimes exists already and the risk of more divergence in the future between EU and UK regimes cannot be ruled out.

Neither the Seller nor any other party to the transaction described in this Prospectus will retain or commit to retain a 5 per cent. material net economic interest with respect to this transaction in accordance with the UK Securitisation Regulation or makes or intends to make any representation or agreement that it or any other party is undertaking or will undertake to take or refrain from taking any action to facilitate or enable the compliance by UK Affected Investors with the UK Due Diligence Requirements, or to comply with the requirements of any other law or regulation now or hereafter in effect in the UK in relation to risk retention, due diligence and monitoring, credit granting standards or any other conditions with respect to investments in securitisation transactions by UK Affected Investors. The arrangements described in section 3.4.3 and section 4.2 of the Additional Information to be included with respect to Asset-backed Securities and elsewhere in this Prospectus have not been structured with the objective of ensuring compliance with the requirements of the UK Securitisation Regulation by any person.

Failure by a UK Affected Investor to comply with the UK Due Diligence Requirements with respect to an investment in the Notes offered by this Prospectus may result in regulatory sanctions being imposed by the competent authority of such UK Affected Investor (including the imposition of a higher regulatory capital charges on that investment).

The UK Securitisation Regulation also includes criteria and procedures in relation to the designation of securitisations as simple, transparent and standardised, or STS, within the meaning of article 18(1) of the UK Securitisation Regulation (**UK STS**). The transaction described in this Prospectus is not intended to be designated as a UK STS securitisation for the purposes of the UK Securitisation Regulation. Pursuant to article 18(3) of the UK Securitisation Regulation as amended by the Securitisation EU Exit Regulations, a securitisation which meets the requirements for an STS-Securitisation for the purposes of Regulation (EU) 2017/2402 of the European Parliament and of the Council of 12 December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation, and amending Directives 2009/65/EC, 2009/138/EC and 2011/61/EU and Regulations (EC) No 1060/2009 and (EU) No 648/2012 (the **EU Securitisation Regulation**), which is notified to the European Securities and Markets Authority (**ESMA**) in accordance with the applicable requirements before the expiry of the period of two years specified in article 18(3) of the Securitisation EU Exit Regulations, as amended from time to time, and which is included in the ESMA List may be deemed to satisfy the “STS” requirements for the purposes of the UK Securitisation Regulation. No assurance can be provided that this transaction does or will continue to meet the STS requirements or to qualify as an STS-Securitisation under the EU Securitisation Regulation or pursuant to article 18(3) of the UK Securitisation EU Exit Regulations at any point in time.

Prospective UK Affected Investors are themselves responsible for analysing their own regulatory position, and should consult their own advisers in this respect and should consider (and where appropriate, take independent

advice on) the application of the UK Securitisation Regulation or other applicable regulations and the suitability of the Notes for investment.

The Arranger is not responsible for any obligation of the Seller or the Issuer for compliance with the requirements (including existing or ongoing reporting requirements) of the EU Securitisation Regulation or any corresponding national measures which may be relevant or the UK Securitisation Regulation.

RISK FACTORS

1. RISKS DERIVED FROM THE SECURITIES

1.1. Related to the underlying assets

1.1.1. **Balloon exposure**

41.18% of the Initial Receivables amounting to 57.45% of the Outstanding Balance of the Initial Receivables are Balloon Loans (whilst 58.82% of the Initial Receivables amounting to 42.55% of the Outstanding Balance of the Initial Receivables are Amortising Loans).

Under the terms of the Balloon Loans, the Borrowers are offered the possibility of settling the final Balloon Instalment by the delivery of the Vehicle financed under the relevant Balloon Loan.

For these purposes:

Amortising Loan shall mean a Loan amortising on the basis of fixed monthly instalments of equal amounts throughout the term of the Loan, up to and including maturity.

Balloon Loan shall mean a Loan with a balloon payment, amortising on the basis of equal monthly instalments, but with a substantial portion of the outstanding balance under the Loan being repaid in a single lump sum at maturity (the **Balloon Instalment**).

Outstanding Balance of the Initial Receivables means at any time and with respect to any Initial Receivable, the principal amounts due and uncollected together with the principal amounts of the Initial Receivables not yet due.

For balloon loans in general a direct residual value risk would arise when the value of a financed asset at the time of disposal depends on the realisation value of such financed asset.

However, as further explained in section 2.2.D) of the Additional Information, in connection with the Balloon Loans under which the Borrower has chosen Option #1 or Option #4, which allow the Borrower to return the financed Vehicle to the Seller as payment of the Balloon Instalment, thus settling the Balloon Loan in full without paying in cash the Balloon Instalment, the Seller and PSAG Automóviles Comercial España, S.A. (**PSAG**) entered into, on 26 November 2019, an agreement whereby the latter, or any third party appointed by it, is contractually bound to repurchase the relevant Vehicle within a maximum term of forty-five (45) calendar days since its return date, for a purchase price that is equal to the initially agreed Balloon Instalment (the **Global Agreement**).

Nevertheless, it should be noted that a condition for the Borrower to exercise Option #1 or Option #4 (which allow the Borrower to return the financed Vehicle to the Seller and settle the Balloon Loan without paying in cash the Balloon Instalment), is that the Borrower must physically return the relevant Vehicle. Therefore, the Fund will bear the risk of delay by the Borrower in returning the Vehicle.

In addition, in accordance with a marketing action promoted by PSAG and addressed to the concessionaires of the Peugeot, Citroën and DS brands (the **Marketing Action**) initiated in 2020, PSAG, with the consent of the Seller, has offered the concessionaires adhered to such Marketing Action (the **Adhered Concessionaires**) the possibility to acquire the Vehicles returned by the Borrowers in accordance with Option #1 or Option #4 of the Balloon Loans. In such case, the relevant Adhered Concessionaire shall acquire the relevant Vehicle upon return thereof by the

Borrower but in any case on or before the maturity date of the Balloon Loan, for a purchase price that is equal to the initially agreed Balloon Instalment.

Under the Marketing Action, only the payment of the purchase price (equal to the initially agreed Balloon Instalment) by the Adhered Concessionaire on or before maturity of the relevant Balloon Loan will be deemed to be the exercise of the purchase option. Therefore, in case that the Adhered Concessionaire does not pay such purchase price on or before maturity of the relevant Balloon Loan (even when the relevant Adhered Concessionaire has expressed its intention to repurchase the relevant Vehicle), the purchase option will be deemed not exercised.

In such case, PSAG will be obliged to repurchase the vehicle in accordance with the provisions and subject to the terms and conditions of the Global Agreement indicated above. Therefore, the Fund would not be subject to a risk of non-payment of the purchase price by the Adhered Concessionaires to the Marketing Action. However, if PSAG defaults in its obligation to repurchase the Vehicles under the Global Agreement for any reason whatsoever (including in case of insolvency of PSAG), the Fund would bear the direct residual risk of the Vehicles, which would be equal to the Balloon Instalment (i.e. the risk that the market price of the relevant Vehicle is lower than the Balloon Instalment without having recourse to the Borrower). In such event, the Servicer should have the necessary resources to manage the sale of those returned Vehicles directly and without the involvement of PSAG. However, it should be noted that in such scenario (i) the Servicer may have to operate a significantly higher volume of Vehicles (considering that the majority of Balloon Loans mature in 2024 and 2025), and (ii) the Vehicles will be Used Vehicles, which have a higher depreciation than New Vehicles. This risk must be considered within the context of technological disruption in the vehicle sector

The financial information of PSAG is summarised in section 3.5.2 of the Additional Information.

The estimated exposure of the Fund to PSAG under the Global Agreement is 19.30% of the Outstanding Balance of the Receivables (assuming that no Adhered Concessionaires exercise their option to repurchase any Vehicles in the terms described above). The Balloon Instalment represents (i) 80.55% of the Outstanding Balance of the Receivables arising from Balloon Loans, and (ii) 46.28% of the financed Vehicles as a percentage of the Outstanding Balance of the Receivables. The full description of this calculation, together with relevant additional information about (i) PSAG, (ii) the Balloon Loans, and (iii) the Global Agreement, can be found in section 2.2.D) of the Additional Information and in the table included in section 2.2.2.5.2 of the Additional Information.

Finally, the initially agreed purchase price (which equals the Balloon Instalment) is calculated by PSAG prior to the execution of each Balloon Loan between the Seller and the relevant Borrower. The methodology used by PSAG in order to calculate such purchase price is a key factor, particularly in the event of repossession of a Vehicle by the Fund pursuant to the policies described in section 2.2.7.6 of the Additional Information.

1.1.2. Risk of payment default by the Borrowers

Noteholders and other creditors of the Fund shall bear the risk of payment default by the Borrowers of the Receivables pooled in the Fund. In particular, in case that the losses under the Receivables in the Aggregate Portfolio were higher than the credit enhancements described in the Additional Information, this could potentially negatively affect the payment of principal and/or interest under the Notes and/or the Start-Up Expenses Loan Agreement.

The Seller shall accept no liability whatsoever for the Borrower's default of principal, interest or any other amount due under the Receivables. Pursuant to article 348 of the Spanish Commercial Code published by virtue of the Royal Decree of 22 August 1885 (*Real Decreto de 22 de agosto de 1885 por el que se publica el Código de Comercio*) (the **Commercial Code**) and article 1529 of the

Spanish Civil Code, approved by Royal Decree of 24 July 1889 (*Real Decreto de 24 de julio de 1889 por el que se publica el Código Civil*) (the **Civil Code**), the Seller will only be liable *vis-à-vis* the Fund for the existence and lawfulness of the Receivables, on the terms set out in this Prospectus and the Transaction Documents, as well as for the legal status under which the transfer is effected. The Seller will have no responsibility nor warrants the successful outcome of the transaction and no guarantees will be granted by any public or private entity, including the Management Company, the Seller, and any of their affiliate companies or investee companies; the Seller does not undertake to repurchase the Receivables except in the cases foreseen in section 2.2.9 of the Additional Information.

The tables with historical information of delinquency, defaults and recovery rates of PSA Financial Services auto loan portfolio are displayed in section 2.2.7.7 of the Additional Information. The estimated cash flows displayed in section 4.10 of the Securities Notes have been calculated with (i) a cumulative default rate of 1.64%, (ii) with an average recovery rate of 52.05% at twenty-four (24) months. The weighted average rate of Defaulted Receivables and the average rate of recoveries are consistent with respect to the information on the Defaulted Receivables and recoveries data of a similar portfolio to the Preliminary Portfolio. The aforementioned cumulative default rate corresponds to an annual default rate of 0.65% and a cumulative loss rate of 0.79% in the 5.06% constant prepayment rate (**CPR**) scenario, as provided in section 4.10 of the Securities Note.

The table below shows the historical performance of a similar portfolio of auto loans originated by the Seller with the aim to inform potential investors of the performance of the auto loan portfolio.

For the purposes of this Prospectus, a "**similar portfolio**" means a portfolio of loans with comparable characteristics to the selected loans that complies with most of the Eligibility Criteria set out in section 2.2.8(ii) and (iii) of the Additional Information¹.

The situation of payments in arrears by number of days and in percentage terms as of December 2021 was as follows:

Delays in Payments	0 days	Up to 30 days	Between 31 and 60 days	Between 61 and 90 days	Above 90 Days
New Vehicle (standard and balloon)	97.6%	0.7%	0.4%	0.2%	1.1%
Used Vehicle (standard)	97.0%	0.9%	0.5%	0.2%	1.4%

For clarification purposes, the information detailed in the table above (regarding payments in arrears by the Borrowers) reflects the length of the payment delays on the whole auto loan portfolio managed by the Seller at the specified date.

The table below includes the accumulated gross loss ratio for auto loans in percentage terms for New Vehicles and Used Vehicles over the annual generated loans. For Loans originated in 2020 and 2021, the accumulated ratio of delinquency is zero, given that there are yet no unpaid amounts with an age equal to or longer than twelve 12 months.

¹ The similar portfolio is prepared based on the historical loan data of the Seller and applying certain filters in connection with the type of borrower (in this case, only individuals), type of vehicle (new vehicle and used vehicle) and type of loan (amortising loan or balloon loan) so it is comparable with the Loans included in the Portfolio (although they may not fulfil all the Eligibility Criteria). Default rates and recovery rates in the similar portfolio are calculated weighting the loans granted to new vehicles and the loans granted to used vehicles over the total similar portfolio.

<i>Origination year</i>	<i>Originated amount (EUROS)</i>	<i>to 12 months</i>	<i>to 24 months</i>

2019	721,607,835.53	0.40%	1.23%
2020	505,692,011.25	0.37%	NA
2021	428,931,366.30	NA	NA

2018	145,777,731.39	0.36%	1.25%
2019	141,429,212.22	0.56%	1.60%
2020	105,728,340.87	0.55%	NA
2021	133,009,104.27	NA	NA

General economic conditions and other factors (including, without limitation, those described in section 1.1.3 of the Risk Factors) such as finalisation or loss of subsidies under the Loans or rises of interest rates, may have an impact on the ability of Borrowers to meet their payment obligations under the Loans.

A deterioration in economic conditions resulting in increased unemployment rates, consumer and commercial insolvency filings, a decline in the strength of national and local economies, inflation and other results negatively impacting household incomes could have an adverse effect on the ability of Borrowers to meet their payment obligations under their respective Loans and, ultimately, the ability of the Fund to make timely payments under the Notes.

Unemployment, loss of income, sickness (including any sickness leaves in connection with an epidemic), divorce and other similar factors may also lead to an increase in delinquencies and insolvency filings by the Borrowers, which may in turn have an adverse effect on the ability of the Borrowers to meet their payment obligations under their respective Loans and, ultimately, the ability of the Fund to make timely payments under the Notes.

In light of the scenarios described in section 4.10 of the Securities Note, it is not expected that the Notes incur losses given (i) the different subordination between the different Classes of Notes (except for the Class F Notes) and (ii) the additional credit enhancement provided by the available excess spread.

Notwithstanding this, prospective investors in the Notes should be aware that the Notes may incur losses irrespective of the credit enhancement provided by the subordination among the different Classes of Notes and/or available excess spread.

1.1.3. Risk of deterioration of the economic outlook due to COVID-19 and the war between Russia and Ukraine

On 30 January 2020, the World Health Organization declared that the officially named coronavirus Covid-19 outbreak constituted a public health emergency of international concern. This novel coronavirus (SARS-CoV-2) and related respiratory disease (coronavirus disease Covid-19) has spread throughout the world, including the Kingdom of Spain. This outbreak led to disruptions in the economies of nations, resulting in restrictions on travel, imposition of quarantines and prolonged closures of workplaces. These circumstances have led to volatility in the capital markets and may lead to volatility in or disruption of the credit markets at any time.

The full impact of the outbreak on business operations, particularly for the travel, financial services and professional services industries, manufacturing facilities and supply chains remains to be seen. We cannot predict the time that it will take to fully recover from the disruptions derived from Covid-19 or any similar future Covid-19 or other epidemic infectious disease outbreak.

No Loans in the Preliminary Portfolio have been under the effects of a Covid-19 Moratorium. Additionally, under section 2.2.8(iii)(28) of the Additional Information, the Seller has represented that no Covid-19 Moratoriums have been granted or requested in respect of the Loans at the time of their assignment to the Fund.

Whilst as of the date of this Prospectus the deadline for requesting (i) Covid-19 Legal Moratoriums (as defined in section 3.7.1.7 of the Additional Information) was 30 March 2021 and (ii) Covid-19 Contractual Moratoriums (as defined in section 3.7.1.7 of the Additional Information) was 31 March 2021, and therefore no further Covid-19 Moratoriums (as defined in section 3.7.1.7 of the Additional Information) could be requested by the Borrowers, it cannot be discarded that further extensions or new Covid-19 Moratoriums or Moratoriums in general are approved after the Date of Incorporation of the Fund. If that is the case, the Borrowers (and eventually their guarantors) could request such extended or new Covid-19 Moratoriums or in general Moratoriums. This could entail a temporary reduction and/or postponement of cash flows under the Loans and, ultimately, the Available Funds to pay the amounts due under the Notes, and consequently a decrease in the average yield and an increase in the duration and final maturity of the Notes. This risk will be borne by the Fund and, consequently, the Noteholders, since, in accordance with sections 2.2.9 and 3.7.1.7 of the Additional Information, the Seller will neither replace nor repurchase such Receivables affected after the effective date of their assignment to the Fund by any further extensions or new Covid-19 Moratoriums or in general any Moratoriums.

In addition, throughout 2021, the Russian military build-up along the border of Ukraine has escalated tensions between the Russian Federation (**Russia**) and Ukraine and strained bilateral relations. These events have continued in 2022 with Russia commencing a full-scale military invasion of Ukraine on 24 February 2022.

Following the invasion of Ukraine, the European Union, the member countries of the North Atlantic Treaty Organization (NATO), and other countries and organizations have imposed sanctions on Russia (including some Russian entities and individuals) affecting multiple sectors - particularly the financial sector, public debt, capital markets, exports and imports, air transport, maritime transport, trade in certain products, payment systems, etc. In turn, Russia has reciprocally implemented sanctions on some of these countries generally impacting the same sectors.

Additionally, given the exporting nature of Russia's economy (especially in the raw materials and fuels markets), it is not possible to foresee the effect of such conflict on the European Union economy and Spanish economy. Particularly, the first weeks of the conflict have led to an abrupt increase in the price of electricity and fuels, which may have a direct impact on inflation and probably an increase in interest rates and problems in the supply of raw materials and energy, the

impact of which on the Spanish economy is unknown and difficult to measure. This could trigger a rise in the Spanish unemployment rate and, consequently, a potential reduction of the income received by certain Borrowers, thus affecting their ability to fulfil their payment obligations under the Loans.

According to the ECB (report “ECB staff macroeconomic projections for the euro area – March 2022”, in section “Growth and inflation projections for the euro area”), the combination of an increase in global risk together with the disruption of the energy supply will have an impact on the euro zone real GDP. In this context, the base scenario of a GDP growth of 3.7% and an HICP inflation (Harmonized Index of Consumer Prices) rate of 5.1% for 2022 has two additional scenarios (denominated “adverse” and “severe”) depending on the conflict duration. Under those additional scenarios, the real GDP growth would be 2.5% and 2.3% respectively and the HICP inflation rate would be 5.9% and 7.1% respectively.

According to the Bank of Spain in their article “Quarterly Report on the Spanish Economy. Economic Bulletin 1/2022 – Macroeconomic Projections for the Spanish Economy (2022-2024) – April 2022”, it is expected that, during the year 2022, the Spanish GDP increases by 4.5%, whilst the inflation rate stands at 7.5%.

Whilst as of the date of this Prospectus it is not possible to foresee the full impact of the above factors in the global, national or local economy, and consequently the effects they may have on the Fund and the Notes, the remaining effects of the Covid-19 outbreak and the continuation of the Russia-Ukraine conflict may affect in particular: (i) the ability of some Borrowers to make full and timely payments of principal and/or interests under their Loans; (ii) the ability of the Seller to originate Loans and assign Additional Receivables during the Revolving Period or under any other circumstance as required in the Transaction Documents; and (iii) third parties ability to perform their obligations under the Transaction Documents to which they are a party (including any failure arising from circumstances beyond their control).

1.1.4. Risk of enforcement of reservation of title provisions and other risks related to possession of the Vehicles

As set out in section 2.2 of the Additional Information, all Loan Agreements contain reservation of title provisions (*reserva de dominio*) securing the Receivables. The inclusion of a reservation of title provision would grant the Seller, as creditor, a right of retention of the ownership (*dominio*) over the financed Vehicle under the Loan until such Loan is repaid in full.

However, certain risks may arise in connection with the ability of the Servicer, in the name and on behalf of the Fund, to enforce the reservation of title provisions against third parties. These risks may affect the ability of the Fund (acting through the Servicer) to benefit from these provisions and, eventually, enforce its rights under the Loan Agreements.

Enforceability risk: Issues in connection with enforceability of reservation of title provisions may affect the ability of the Fund to recover amounts due and, ultimately, a reduction of the Available Funds to meet the payment obligations of the Fund (including principal and/or interest under the Notes). A summary of the main risks relating to the enforceability of the reservation of title provisions is included below.

Benefits of priority and exclusion. Right of separation

In accordance with article 16.5 of Law 28/1998, of 13 July, on instalment sales of movable assets (*Ley 28/1998, de 13 de julio, de Venta a Plazos de Bienes Muebles*) (the **Retail Instalment Sales Act**), if the Loan Agreements have been formalised as a private document following the official form or as a Public Document, the Fund, as holder of the Receivables, would be able to benefit from

the preferences and priorities foreseen in articles 1922.2 and 1926.1 of the Civil Code (as described in section 2.2.7.6(i) of the Additional Information).

In addition, only if the Loan Agreement has been registered with the Register of Instalment Sales of Movable Properties (*Registro de Venta a Plazos de Bienes Muebles*), the Fund will have a right of separation over the Vehicle in the event of insolvency of the Borrower (or, if applicable, the relevant owner thereof), as described in section 2.2.7.6(ii) of the Additional Information.

Failure to comply with any of the requirements above would affect the position of the Fund under the Loan Agreements, and ultimately the ability of the Servicer, acting on behalf of the Fund, to recover any amounts due thereunder. This would cause a reduction in the Available Funds, and thus the ability of the Fund to meet its payment obligations (including principal and/or interest under the Notes).

Enforceability against third parties

In order for reservation of title provisions to be enforceable *vis-à-vis* third parties (including other creditors of the Borrowers), it will be necessary to register them in the Register of Instalment Sales of Movable Properties. In accordance with the Retail Instalment Sales Act, only agreements that follow the official form can be registered with the Register of Instalment Sales of Movable Properties.

Non-registration of a reservation of title provision in the Register of Instalment Sales of Movable Properties would imply that the reservation of title provision included in the Loan Agreement would only be effective between the parties to the Agreement (i.e., the Fund and the Borrower), and therefore it would be unenforceable against third parties, including other creditors of the Borrower or good faith purchasers of the Vehicle (who would be considered as having validly acquired the Vehicle affected by the non-registered reservation of title provision, without prejudice to Seller's right to claim damages against the Borrower arising from his/her failure to comply with the non-disposal obligation).

In the event that the reservation of title provision was not registered with the Register of Instalment Sales of Movable Properties and the Vehicle was sold to a good faith purchaser or acquired by any other creditor of the Borrower, the reservation of title provision would not be enforceable against any such new holder of the Vehicle.

In any case, the reservation of title provision could be registered with the Register of Instalment Sales of Movable Properties and the Vehicle at any time after the execution of the relevant Loan Agreement, including, without limitation, in case of impairment in the credit quality of the Borrower.

However, should the reservation of title provision not be registered with the Register of Instalment Sales of Movable Properties, the remedies available to the Servicer, acting on behalf of the Fund, to recover any amounts due under the Loan Agreements could be negatively affected.

Available proceedings

There are several court and out-of-court proceedings available to the Servicer, acting on behalf of the Fund, in case of breach under any Loan Agreement.

If the Loan Agreement is registered with the Register of Instalment Sales of Movable Properties, the Fund (acting through the Servicer) will be able to initiate the out-of-court enforcement proceeding envisaged in article 16.2 of the Retail Instalment Sales Act. In that case, the Fund (acting through the Servicer) will be entitled to request the competent notary public the payment of the amount due

or the delivery of the possession of the relevant Vehicle and the relevant Borrower will then have three (3) business days to either pay the amounts due or deliver the possession of the Vehicle.

Additionally, if the Loan Agreement has been formalised as a Public Document, the Servicer, acting on behalf of the Fund, may also initiate an enforcement court proceeding (*acción ejecutiva*) and foreclose on the security or even attach (*embargar*) other assets of the Borrower. For these purposes, **Public Document** means either a public deed (*escritura pública*) or a commercial deed (*póliza*) as those are defined in the Civil Code and the Civil Procedure Act.

If the Loan Agreement is not executed as a Public Document nor in an official form registered with the Register of Instalment Sales of Movable Properties, the Servicer, acting on behalf of the Fund, will have to commence declarative proceedings for the recognition of the amounts that are due and payable under the Loan Agreement and in order to subsequently be able to commence enforcement action of the potential ruling against the assets of the Borrower. In addition, the Fund will not be able to seek restitution or possession of the Vehicle.

These proceedings are summarised in section 2.2.7.6 of the Additional Information.

Treatment in case of insolvency

The treatment of the Fund, as holder of the Receivables, in case of an insolvency proceeding of the Borrower, will depend on the way the Loan Agreement is formalised.

According to scholars and the Spanish Supreme Court (*Tribunal Supremo*) case law, if the Loan Agreement is formalised either (i) as a Public Document or (ii) as a private agreement that has been registered with the Register of Instalment Sales of Movable Properties, the credit rights held by the Fund will be considered privileged credit rights, with priority over the collateral proceeds from the sale of the Vehicle and, subject to legal automatic stays and exceptions (i.e., if the asset is needed to continue the business, the stay of the enforcement action until a composition agreement among the creditors (*convenio de acreedores*) is reached or one year has elapsed since the declaration of insolvency without liquidation having been opened), the Fund may also seek repossession thereof.

In any case, as mentioned above, if the Loan Agreement has been registered with the Register of Instalment Sales of Movable Properties, the Fund will have a right of separation over the Vehicle in the event of insolvency of the Borrower (or, if applicable, the relevant owner thereof), as described in section 2.2.7.6(ii) of the Additional Information.

On the other hand, if the Loan Agreement is formalised in a private document that has not been registered with the Register of Instalment Sales of Movable Properties the credit rights held by the Fund will be considered ordinary credit rights, ranking *pari passu* with the rest of ordinary creditors.

Other related risks: The Vehicles financed under the Loans will remain in possession of the Borrowers, who may in fact instigate the loss of the Vehicles, without prejudice to the resulting liability that they might incur.

Likewise, due to the movable nature of the assets registered in the Register of Instalment Sales of Movable Properties, although from a legal point of view the protection is similar to that provided by the registration of real estate in the Land Registry, the level of protection may be lower in practice.

Status of the Loan Agreements: On the Date of Incorporation, all the Loan Agreements have been formalised as a private agreement following the official form. However, only Loan Agreements representing 59.19% of the Outstanding Balance of Receivables have reservation of title provisions registered in the Register of Instalment Sales of Movable Properties. There are no Loan Agreements formalised as a Public Document.

1.1.5. Receivables prepayment risk

Borrowers may prepay the Outstanding Balance of the Receivables, in the terms set out in the relevant Loan Agreement from which the Receivables arise.

Upon termination of the Revolving Period, this prepayment risk shall pass onto the Noteholders monthly on each Payment Date through the partial redemption of the Notes, to the extent applicable in accordance with the provisions of section 4.9.2.1 of the Securities Note.

Early repayment of the Receivables in rates higher than expected will cause the Fund to make payments of principal on the Notes earlier than expected and will shorten the maturity of the Notes. If principal is paid on the Notes earlier than expected due to prepayments on the Receivables (such prepayments occurring at a time when interest rates are lower than interest rates that would otherwise be applied if such prepayments had not been made or made at a different time), Noteholders may not be able to reinvest the principal in a comparable security with an effective interest rate equivalent to the interest rate on the Notes. Similarly, if principal payments on the Notes are made later than expected due to slower than expected prepayments or payments on the Receivables, Noteholders may lose reinvestment opportunities. Noteholders will bear all reinvestment risk resulting from receiving payments of principal on the Notes earlier than expected.

1.1.6. Risk of concentration depending on the depreciation of the value of the Vehicles

Two circumstances can cause a reduction of the Vehicles' recovery value:

(i) Distribution of New Vehicles and Used Vehicles. Depreciation

As detailed in section 2.2.2.3.1 of the Additional Information, 87.29% of the Outstanding Balance of the Receivables in the Preliminary Portfolio corresponds to New Vehicles and the remaining 12.71% corresponds to Used Vehicles.

As detailed in section 2.2.2.3.15 of the Additional Information, the largest concentration by year of origination of the Receivables in the Preliminary Portfolio is as follows (as a percentage of the Outstanding Balance of the Receivables): year 2020 (25.19%) and year 2021 (40.10%), altogether representing 65.29%. For the year 2022 the percentage of the Outstanding Balance of the Receivables is 7.35%.

With regard to depreciation of the Vehicles, (i) New Vehicles suffer a depreciation after their registration which represents approximately 10-12% of their value and (ii) any Vehicles suffer an average monthly depreciation of approximately 1% (monthly) of their value during the first two years, 3% (monthly) for the third year, and 5% (monthly) for the fourth and subsequent years.

It should be noted that the weighted average age of the Used Vehicles at the time of origination of the Loans is sixteen (16) months (1.3 years).

For the purposes of this Prospectus:

New Vehicles means any Vehicle of the Peugeot, Citroën or DS brand with no previous owner that has been registered (*matriculado*) for the first time or less than 12 months have elapsed since its registration (*matriculación*), and is sold for the first time by a Peugeot Dealer, a Citroën Dealer or a DS Dealer pursuant to a purchase contract and financed pursuant to a Loan.

Used Vehicles means a Vehicle of any brand and model that, on its date of purchase, either it does not have a previous owner and more than 6 months have elapsed since its registration (*matriculación*) or has had at least one prior owner and has been sold by a Peugeot Dealer, a Citroën Dealer or a DS Dealer and financed pursuant to a Loan Agreement.

(ii) Distribution of the Loan over the value of the Vehicle

Loans representing 29.77% of the total Outstanding Balance of the Receivables have an initial loan to value ratio of more than 90%, of which Loans representing 13.44% of the total Outstanding Balance of the Receivables have a ratio equal to 100%. This loan to value ratio may be adversely affected by the depreciation of the value of New Vehicles and Used Vehicles. However, it is partially reduced by the ordinary and early repayment of the Loans.

The circumstances described above constitute a risk of impairment of the recovery value in the event of enforcement of the security over the Vehicles (following a payment default under any Loan Agreement). If the proceeds received were not sufficient to repay in full the Loan, the resulting loss will cause a reduction of the Available Funds to meet the payment obligations of the Fund (including principal and/or interest under the Notes).

1.1.7. Interest rate risk

The Receivables comprised in the Aggregate Portfolio include and will include interest payments calculated at interest rates and periods, which are different from the interest rates and periods applicable to the interest due under the Floating Rate Notes.

The weighted average interest rate of (i) the Notes is 0.69% (assuming an EURIBOR 1-month rate of -0.542% on 20 May 2022 for the Floating Rate Notes), and (ii) the Initial Receivables is 6.68%, as described in section 2.2.2.3.16 of the Additional Information. Additionally, the weighted average margin applicable under the Floating Rate Notes is 0.565%.

The Fund expects to meet its payment obligations under the Floating Rate Notes primarily with the collections received from the Receivables. However, the interest component of such Collections may have no correlation to the floating rate applicable to the Floating Rate Notes from time to time.

To provide a hedge against the possible variance between the fixed rates of interest received from the Non-Defaulted Receivables and the rate of interest under the Floating Rate Notes calculated by reference to 1-Month EURIBOR, the Fund will enter into an interest rate swap transaction (the **Interest Rate Swap Transaction**) on the Date of Incorporation with Banco Santander, S.A. (the **Swap Counterparty**). The terms of the Interest Rate Swap Agreement will include rating requirements which are described in more detail at 3.4.8.1 of the Additional Information below.

Accordingly, the Fund may in certain circumstances depend upon payments made by the Swap Counterparty in order to have sufficient funds available to make payments of interest on the Floating Rate Notes. If the Swap Counterparty fails to pay any amounts when due under the Interest Rate Swap Transaction, the Available Funds may be insufficient to make the interest payments on the Floating Rate Notes and the Noteholders may experience delays and/or reductions in the interest payments due to be received by them.

In the event of early termination of the Interest Rate Swap Transaction, including any termination upon failure by the Swap Counterparty to perform its obligations, the Fund will use its best endeavours to, but cannot guarantee that it will be able to, find a replacement Swap Counterparty. In such circumstances, there is no assurance that the Fund will be able to meet its payment obligations under the Notes in full or even in part.

As the notional amount of the Interest Rate Swap Transaction with respect to which payments due from the Swap Counterparty will be determined will be calculated by reference to the Outstanding Balance of the Non-Defaulted Receivables, and it does not consider the Outstanding Balance of the Defaulted Receivables, the Interest Rate Swap Transaction may not fully mitigate the interest rate risk borne by the Fund.

Additionally, if the Interest Rate Swap Transaction is early terminated, then the Fund may be obliged to pay the amount determined pursuant to the Interest Rate Swap Agreement to the Swap Counterparty. Except in certain circumstances, such amount due to the Swap Counterparty by the Fund will rank in priority to payments due on the Notes. Any additional amounts required to be paid by the Fund as a result of the termination of the Interest Rate Swap Transaction (including any extra costs incurred if the Fund cannot immediately enter into one or more, as appropriate, replacement interest rate swap transactions), may also rank in priority to payments due on the Notes. Therefore, if the Fund is obliged to pay an amount determined pursuant to the Interest Rate Swap Agreement to the Swap Counterparty or to pay any other additional amount as a result of the termination of the Interest Rate Swap Transaction, this may reduce the Available Funds to meet the payment obligations of the Fund (including principal and/or interest under the Notes). For further details, see sections 3.4.7 and 3.4.8.1 of the Additional Information.

1.1.8. Geographical concentration risk

As detailed in section 2.2.2.3.18 of the Additional Information, the Autonomous Communities having the largest concentrations of Borrowers under the Receivables in the Preliminary Portfolio is as follows (as a percentage of the Outstanding Balance of the Receivables): Catalonia (20.74)%, Andalusia (20.19)% and Valencia (14.67)% and, altogether representing 55.59% of the Outstanding Balance of the Receivables in the Preliminary Portfolio.

Any significant event (political, social, pandemics, natural disasters, etc.) occurring in these Autonomous Communities could adversely affect the creditworthiness of the corresponding Borrowers and their capacity to repay the Loans when due.

1.1.9. Seasoning concentration risk

As detailed in section 2.2.2.3.8 of the Additional Information, (i) 40.10% of the Outstanding Balance of the Receivables in the Preliminary Portfolio was originated in 2021, (ii) 25.19% of the Outstanding Balance of the Receivables in the Preliminary Portfolio was originated in 2020, and (iii) 15.19% of the Outstanding Balance of the Receivables in the Preliminary Portfolio was originated in 2019.

Likewise, as shown in section 2.2.2.3.12 of the Additional Information, (i) 38.94% of the Outstanding Balance of the Receivables in the Preliminary Portfolio has a seasoning of 0-12 months, and (ii) 29.82% of the Outstanding Balance of the Receivables in the Preliminary Portfolio has a seasoning of 12-24 months.

Given the origination concentration indicated above, it is possible that the Loans have not yet deployed their potential delinquency. An increase in the delinquency of the Loans may reduce the Available Funds to meet the payment obligations of the Fund (including principal and/or interest under the Notes).

1.2. Related to the nature of the securities

1.2.1. Subordination risk

As set out in section 4.6.3.1 of the Securities Note, during the Revolving Period and the Pro-Rata Redemption Period, the ordinary redemption of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be *pari passu* and *pro-rata* without preference or priority amongst themselves in accordance with the Pre-Enforcement Priority of Payments set out in section 3.4.7 of the Additional Information.

Once the Pro-Rata Redemption Period (i) has ended or (ii) has been terminated upon the occurrence of a Subordination Event, the Sequential Redemption Period will start. During the Sequential Redemption Period, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be redeemed sequentially in accordance with the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 of the Additional Information so that the Principal Target Redemption Amount will be applied: (i) in the first place to redeem the Class A Notes until their redemption in full; (ii) in the second place to redeem the Class B Notes until their redemption in full; (iii) in the third place to redeem the Class C Notes until their redemption in full; (iv) in the fourth place to redeem the Class D Notes until their redemption in full; and (v) in the fifth place to redeem the Class E Notes until their redemption in full.

Conversely, Class F Notes shall be redeemed on each Payment Date for an amount equal to the Class F Notes Target Amortisation Amount in accordance with the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 of the Additional Information.

As a result, during the Sequential Redemption Period

- **Class A Notes:** will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes and shall benefit from 22.00% of subordination of the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, as the case may be.
- **Class B Notes:** will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, and shall benefit from 16.20% of subordination of the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, as the case may be.
- **Class C Notes:** will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class D Notes, the Class E Notes and the Class F Notes, and shall benefit from 11.00% of subordination of the Class D Notes, the Class E Notes and the Class F Notes, as the case may be.
- **Class D Notes:** will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class E Notes and the Class F Notes and shall benefit from 4.20% of subordination of the Class E Notes and the Class F Notes, as the case may be.
- **Class E Notes:** will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class F Notes and shall benefit from 0.84% of subordination of the Class F Notes, as the case may be.
- **Class F Notes:** will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and payment of interest and the repayment of principal thereunder are subordinated to those of the Class A Notes, the Class B Notes, the Class C Notes, the Class

D Notes and the Class E Notes. Notwithstanding, the Class F Notes will amortise with the available excess spread for an amount equal to the Class F Notes Target Amortisation Amount, until the Class F Notes are fully redeemed. Once the Class F Notes are fully redeemed, the subordination of such Class F Notes will no longer apply.

Based on these assumptions:

- (i) the Class A Notes to Class E Notes shall redeem from 28 January 2023 to 28 June 2026; and
- (ii) Class F Notes shall start to redeem from 29 August 2022 to 28 February 2025.

There is no certainty that these subordination rules shall protect any Class of Notes from the risk of loss. The materiality of this risk is further developed in section 3.4.7 of the Additional Information.

1.2.2. Notes Euroeligibility risk

The Class A Notes are intended to be held in a manner which will allow be recognised as eligible collateral for Eurosystem monetary policy and Intraday credit operations by the Eurosystem (**Eurosystem Eligible Collateral**). This does not necessarily mean that the Class A Notes shall be recognised as Eurosystem eligible collateral either upon issue or at any or all times during their life. Such recognition will, *inter alia*, depend upon satisfaction of the Eurosystem eligibility criteria set out in the Guideline of the European Central Bank (the **ECB**) of 19 December 2014 on the implementation of the Eurosystem monetary policy framework (ECB/2014/60) (recast) as amended and applicable from time to time (the **Guideline**), including compliance with loan-by-loan reporting in a prescribed format and manner. It should be noted that, with effect from 1 October 2021 (but subject to certain transitional provisions), amended Eurosystem rules apply to loan-by-loan reporting whereby loan-level reporting is made via an ESMA-authorized securitisation repository in compliance with article 7 of the EU Securitisation Regulation.

If the Class A Notes do not satisfy the criteria specified by the ECB, or if the Servicer fails to submit the required loan-level data, the Class A Notes will not be eligible collateral for the Eurosystem.

None of the Fund, the Management Company, the Seller or the Arranger gives any representations, warranty, confirmation or guarantee to any potential investor in the Class A Notes will, either upon issue, or at any time or at all times during their life, satisfy all or any requirements for Eurosystem eligibility and be recognised as Eurosystem Eligible Collateral for any reason whatever. Any potential investor in the Class A Notes should make its own conclusions and seek its own advice with respect to whether or not the Class A Notes constitute Eurosystem Eligible Collateral.

1.2.3. Yield and duration risk

Several calculations, such as the average yield, duration and final maturity of the Notes in each Class (assuming a CPR of 3.86%, 5.06% and 6.26% – which is consistent with the historical information provided by the Seller) contained in section 4.10 of the Securities Note are subject to a number of hypotheses, *inter alia*, estimates of prepayment rates and delinquency rates that may not be fulfilled.

These calculations are influenced by a number of economic and social factors such as Covid-19 pandemic, macroeconomic instability caused by the Ukraine conflict, market interest rates, the Borrowers' financial circumstances and the general level of economic activity, preventing their predictability. Please refer to section 1.1.3 of the Risk Factors for further information regarding the risk of deterioration of the economic outlook due to COVID-19 and the war between Russia and Ukraine.

No guarantee can be given as to the level of prepayments (in part or in full) that the Receivables may experience. Early repayment of the Receivables in rates higher than expected will cause the Issuer to make payments of principal on the Notes earlier than expected and will shorten the maturity of such Notes.

1.2.4. Early redemption of the Notes

1.2.4.1. Occurrence of a Clean-Up Call Event or Tax Call Event

In accordance with section 4.4.3.2 of the Registration Document, the Seller will have the right (but not the obligation) to instruct the Management Company to carry out the Early Liquidation of the Fund and the Early Redemption of the Notes in whole (but not in part):

- (i) upon the occurrence of a Clean-Up Call Event; or
- (ii) upon the occurrence of a Tax Call Event,

provided that, in case of the Clean-up Call Event, Seller can only exercise this right to the extent that there are sufficient Available Funds to redeem the Rated Notes in full.

Upon the exercise by the Seller of a Seller's Call following the occurrence of a Clean-Up Call Event or a Tax Call Event, the Seller shall repurchase all outstanding Receivables at the Final Repurchase Price calculated in accordance with section 4.4.3.2 of the Registration Document.

Any potential investor in the Class F Notes should be aware that the exercise by the Seller of a Seller's Call upon the occurrence of a Clean-up Call Event may result in the Principal Amount Outstanding of Class F Notes, if any, not being redeemed in full.

Furthermore, in case of exercise by the Seller of a Seller's Call upon the occurrence of a Tax Call Event, the Final Repurchase Price payable by the Seller may be lesser than the purchase price of the Receivables paid by the Fund to the Seller in accordance with section 3.3.3 of the Additional Information and, therefore, might not be sufficient to repay the Principal Amount Outstanding of all the Notes in full.

If the Notes are redeemed earlier than expected due to the exercise by the Seller of a Seller's Call, such early redemption occurring at a time when interest rates are lower than interest rates that would otherwise be applied if such early redemption had not been made or made at a different time, Noteholders may not be able to reinvest the principal in a comparable security with an effective interest rate equivalent to the interest rate on the Notes. Noteholders will bear all reinvestment risk resulting from the redemption of the Notes earlier than expected.

That being said, there is no guarantee that, upon the occurrence of a Clean-up Call Event and/or Tax Call Event, the Seller shall exercise the right to request the Management Company to carry out the Early Liquidation of the Fund and the Early Redemption of the Notes.

1.2.4.1.1 *Occurrence of a Regulatory Call Event*

Additionally, in accordance with section 4.9.2.3 of the Securities Note, upon the occurrence of a Regulatory Call Event, the Seller will have the right (but not the obligation) to request the Management Company to redeem in full (but not in part) on any Payment Date thereafter the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes (while the Class A Notes and the Cash Reserve shall not be affected) in accordance with the Pre-Enforcement Priority of Payments (as amended by the Pre-Enforcement Regulatory Call Priority of Payments or

the Seller Loan Priority of Payments, as applicable) or the Post-Enforcement Priority of Payments (as amended by the Post-Enforcement Regulatory Call Priority of Payments).

In that case, once the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes are redeemed in full, the Class A Notes shall benefit from subordination of the Seller Loan (which will be granted by the Seller to repay the Class B, the Class C, the Class D, the Class E and the Class F) instead of the redeemed subordinated Notes, and from the collateralisation of all Receivables which prior to the exercise by the Seller of the option above backed all Classes of Notes.

1.2.5. Risk relating to benchmarks

The interest payable on the Floating Rate Notes, payments to be made in respect of the Interest Rate Swap Transaction and interest payable on the Start-Up Expenses Loan Agreement are determined by reference to EURIBOR, the calculation and determination of which is subject from 1 January 2018 to Regulation (EU) No. 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the **Benchmarks Regulation**) published in the Official Journal of the EU on 29 June 2016, entered into force on 30 June 2016 and is applied from 1 January 2018.

The Benchmark Regulation applies to “contributors”, “administrators” and “users of” benchmarks (such as EURIBOR) in the EU, and, *inter alia*, (i) requires benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of “benchmarks” and (ii) bans the use of benchmarks of unauthorised administrators.

Separately, the working group on euro risk free-rates for the euro area has published a set of guiding principles and high level recommendations for fallback provisions in, amongst other things, new euro denominated cash products (including asset-backed securities) referencing EURIBOR. The guiding principles indicate, among others, that continuing to reference EURIBOR in relevant contracts (without robust fall-back provisions) may increase the risk to the euro area financial system. On 11 May 2021, the working group on euro risk-free rates published its recommendations on EURIBOR fall-back trigger events and fall-back rates. Investors should be aware that the market is continuing to develop such alternative reference rates and further changes or recommendations may be introduced.

Although EURIBOR has been reformed in order to comply with the terms of the Benchmarks Regulation, it is not possible to ascertain as of the date of this Prospectus what will be the impact of these initiatives on the determination of EURIBOR in the future, how such changes may impact the determination of EURIBOR for the purposes of the Floating Rate Notes, the Interest Rate Swap Transaction and the Start-Up Expenses Loan Agreement, whether this will result in an increase or decrease in EURIBOR rates or whether such changes will have an adverse impact on the liquidity or the market value of the Floating Rate Notes. Ongoing international and/or national reform initiatives and the increased regulatory scrutiny of benchmarks generally could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any applicable regulations or requirements. Such factors may discourage market participants from continuing to administer or contribute to benchmarks, trigger changes in the rules or methodologies used in respect of benchmarks and/or lead to the disappearance of benchmarks.

As provided in section 4.8.4 of the Securities Notes, changes in the manner of administration of EURIBOR could result in the base rate on the Floating Rate Notes or the Start-Up Expenses Loan Agreement changing from EURIBOR to an Alternative Base Rate under certain circumstances broadly related to EURIBOR dysfunction or discontinuation. This Alternative Base Rate will be

proposed by a Rate Determination Agent appointed by the Management Company (acting on the advice of the Seller) and, subject to certain conditions being satisfied, it will be implemented in substitution of EURIBOR or the then current Reference Rate, as the new Reference Rate applicable of the Floating Rate Notes.

Any of the above changes could have a material adverse effect on the value of and return on the Floating Rate Notes or the Start-Up Expenses Loan Agreement.

2. RISKS DERIVED FROM THE ISSUER'S LEGAL NATURE AND OPERATIONS

2.1. Related to the Issuer's nature, financial situation or activity

2.1.1. Forced replacement of the Management Company

If the Management Company is declared insolvent or its authorisation to operate as a management company of securitisation funds is revoked, notwithstanding the effects of such insolvency described in section 3.7.2.3 of the Additional Information, it shall find a substitute management company for the Fund.

If four (4) months have elapsed from the occurrence of the event determining the substitution and no new management company has been found willing to take over the management of the Fund, the Management Company shall early liquidate the Fund, and the Notes shall be subject to early redemption in accordance with section 4.4.3.1 of the Registration Document.

2.1.2. Limitation of actions

Noteholders and other creditors of the Fund shall have no recourse whatsoever against Borrowers who have defaulted on their payment obligations under the Loans, or against the Seller. Any such rights shall lie with the Management Company, representing the Fund.

Noteholders and all other creditors of the Fund shall have no recourse whatsoever against the Management Company other than in case of breach by the Management Company of its obligations or failure to comply with the provisions of this Prospectus, the Deed of Incorporation and the other Transaction Documents. Those actions shall be resolved in the relevant ordinary declaratory proceedings depending on the amount claimed.

In particular, Noteholders and all other creditors of the Fund shall have no recourse whatsoever against the Fund or against the Management Company in the following scenarios:

- (i) Payment default of amounts due by the Fund resulting from the existence of Receivable default or prepayment,
- (ii) Breach by the Seller or the counterparties of their obligations under the corresponding Transaction Documents entered into by the Management Company for and on behalf of the Fund, or
- (iii) Shortfall of the financial hedging transactions for servicing the Notes.

2.1.3. Inexistence of meeting of creditors

Article 21(10) of the EU Securitisation Regulation provides that the transaction documentation shall include clear provisions that facilitate the timely resolution of conflicts between different classes of investors.

Whilst the Deed of Incorporation does not contemplate Noteholders having voting rights or the ability to call creditors' meetings in the terms of article 37 of Law 5/2015, of 27 April, on the Promotion of Enterprise Funding (**Law 5/2015**), pursuant to article 26.1.a) of Law 5/2015, the Management Company, as legal representative of the Fund, is legally required to protect the interest of the Noteholders and other creditors of the Fund and ensure that the Fund is operated in accordance with the provisions of the Deed of Incorporation. Under Law 5/2015, and the general principles of Spanish law, in case of conflicts between different classes of Noteholders, the Management Company, where appropriate, will make a decision on the relevant issue to ensure timely resolution of such conflict. Under Spanish law, the Management Company would generally be required to give preference to the holders of the most senior Class of Notes.

The ability to defend the Noteholders' interests depends on the resources of the Management Company, which, under article 26 of Law 5/2015, shall act with maximum due diligence and transparency in the defence of the interests of the Noteholders and the creditors.

In addition, the Noteholders will have no recourse against the Management Company, other than for (i) non-performance of its duties or (ii) non-compliance with the provisions of the Deed of Incorporation, the rest of the Transaction Documents and the applicable laws and regulations (those duties including, among others, exercising and enforcing all the rights and remedies of the Fund under the Transaction Documents to which the Fund is a party). The Management Company is however not responsible for any of the Fund's liabilities.

2.2. Related to legal and regulatory risks

2.2.1. EU Securitisation Regulation: simple, transparent and standardised securitisation

On 12 December 2017, the European Parliament adopted the EU Securitisation Regulation which applies to the fullest extent to the Notes.

The transaction envisaged under this Prospectus is intended to qualify as a simple, transparent and standardised securitisation (*STS-securitisation*, within the meaning of article 18 of the EU Securitisation Regulation). Consequently, the transaction meets, as at the date of this Prospectus, the requirements of articles 19 to 22 of the EU Securitisation Regulation and, on or about the Date of Incorporation (and in any case within fifteen (15) calendar days from the Date of Incorporation), the Originator will submit an STS notification to the ESMA Register of STS notifications for the purposes of article 27(5) of the EU Securitisation Regulation. The Management Company, by virtue of a delegation by the Originator, shall notify CNMV – in its capacity as competent authority – of the submission of such mandatory STS Notification from the Originator to ESMA, and attaching such notification.

For these purposes, the Seller has appointed Prime Collateralised Securities (PCS) EU SAS (PCS), as a verification agent authorised under article 28 of the EU Securitisation Regulation, in connection with an assessment of the compliance with the requirements of articles 19 to 22 of the EU Securitisation Regulation. It is important to note that the involvement of PCS as the authorised verification agent is not mandatory and the responsibility for compliance with the EU Securitisation Regulation remains with the relevant institutional investors, the Originator and Fund, as applicable in each case. The STS Verification will not absolve such entities from making their own assessments with respect to the EU Securitisation Regulation, and the STS Verification cannot be relied on to determine compliance with the foregoing regulations in the absence of such assessments by the relevant entities.

No assurance can be provided that the securitisation transaction described in this Prospectus will receive the STS Verification (either before issuance or at any time thereafter), and if the securitisation transaction described in this Prospectus does not receive the STS Verification, this

shall not, under any circumstances, affect the liability of the Originator and the Fund in respect of their legal obligations under the EU Securitisation Regulation, nor shall it affect the obligations imposed on institutional investors as set out in article 5 of the EU Securitisation Regulation.

None of the Fund, the Reporting Entity, the Arranger or any other party to the Transaction Documents makes any representation or accepts any liability for (i) the inclusion of the securitisation transaction in the ESMA Register of STS notifications for the purposes of article 27 of the EU Securitisation Regulation or (ii) the securitisation transaction to qualify as an STS-securitisation under the EU Securitisation Regulation at any point in time.

Non-compliance with the status of an STS-securitisation may result in higher capital requirements for investors, as well as in various administrative sanctions and/or remedial measures being imposed on the Fund or the Originator. Any of such administrative sanctions and/or remedial measures may affect the ability of the Fund to fulfil its payment obligations under the Notes.

Finally, since 1 January 2021, the EU Securitisation Regulation forms part of the domestic law of the UK by virtue of the EUWA. None of the Seller (as originator) or the Fund (as SSPE) under the UK Securitisation Regulation are actively seeking to comply with the requirements of the UK Securitisation Regulation. UK investors should be aware of this and should note that their regulatory position may be affected. The Transaction will not be a UK STS Transaction and will therefore not be notified to the UK Financial Conduct Authority for that purpose.

It is expected that the execution of the public deed (*escritura pública*) of incorporation of the Fund and issue of the Notes (the **Deed of Incorporation**) and, thus the date of incorporation of the Fund will be 26 May 2022 (the **Date of Incorporation**).

The Deed of Incorporation will be drafted in Spanish.

The Deed of Incorporation of the Fund may be amended in accordance with the provisions of article 24 of Law 5/2015, i.e., if the Management Company has the consent of all Noteholders and other creditors (excluding non-financial creditors) of the Fund. However, these consents will not be necessary if in the opinion of CNMV the proposed amendment is of minor relevance, which the Management Company will be responsible for documenting and evidencing.

Once CNMV verifies the compliance of the legal requirements for the amendment of the Deed of Incorporation, the Management Company will execute the relevant public deed (*escritura pública*) of amendment and file an authorised copy with CNMV for incorporation into the relevant public register. Any amendment to the Deed of Incorporation will be communicated by the Management Company to the Rating Agencies and published by the Management Company in accordance with the provisions set out in section 4 of the Additional Information.

The Deed of Incorporation of the Fund may also be amended at the request of CNMV.

The Management Company represents that the content of the Deed of Incorporation will not contradict that of the Prospectus and that the Deed of Incorporation will coincide with the draft public deed (*escritura pública*) that has been submitted to CNMV in connection with the registration of this Prospectus.

4.4.2. Period of activity of the Fund

It is expected that the life of the Fund runs from the Date of Incorporation until the Legal Maturity Date of the Fund (i.e. 28 February 2032, subject to the Modified Following Business Day Convention), unless the Fund is early liquidated or cancelled in accordance with the provisions of sections 4.4.3 and 4.4.4 below.

4.4.3. Early Liquidation of the Fund

4.4.3.1. Mandatory early liquidation of the Fund

The Management Company shall proceed to carry out the early liquidation of the Fund (the **Early Liquidation of the Fund**) and, hence, the early redemption of the whole (but not part) of the Notes (the **Early Redemption of the Notes**) upon the occurrence of any of the following events:

- (i) if, as stated in article 33 of Law 5/2015, four (4) months have elapsed since the occurrence of an event giving rise to the mandatory replacement of the Management Company due to a declaration of insolvency thereof, or
- (ii) in the event of revocation of the authorisation of the Management Company,

in either case, without a new management company having been found that is prepared to take over management of the Fund and that is appointed pursuant to section 3.7.2 of the Additional Information.

In order for the Management Company to carry out the Early Liquidation of the Fund, and therefore, the Early Redemption of the Notes, the Management Company shall sell the Receivables and any remaining assets of the Fund in accordance with the provisions below.

Pre-emptive right of the Seller to acquire the Receivables

Upon the occurrence of any of the events indicated in paragraphs (i) and (ii) above, the Seller will have the right, but not the obligation, to repurchase the outstanding Receivables at the time of early liquidation of the Fund at a price equal to the Final Repurchase Price (as defined below).

In order for the Seller to exercise this right, the Management Company shall notify in writing to the Seller that the Early Liquidation of the Fund will be carried out immediately and in any case within thirty (30) Business Days from the occurrence of any of the events indicated in paragraphs (i) and (ii) above.

Upon receiving such notification, the Seller will have a period of five (5) Business Days from the date on which it receives such notification to communicate its decision to repurchase or not the Receivables at the Final Repurchase Price.

If the Seller confirms its decision to repurchase the Receivables, the transfer of the Receivables to the Seller must be completed within fifteen (15) Business Days from the date on which the Seller communicates such decision.

For the avoidance of doubt, under no circumstances will the Seller have an obligation to repurchase any of the Receivables in the above events.

Sale of the Receivables to third parties

In case the Seller decides not to exercise its right of repurchase the Receivables in accordance with the provisions of the preceding section, the Management Company shall request binding bids from at least three (3) entities, at its sole discretion, among those active in the purchase and sale of similar assets.

The Management Company shall be entitled to obtain any valuation reports it deems necessary from any one or several specialised entities in order to assess the value of the Receivables. The Management Company shall set out the terms and conditions of the bidding process (including, without limitation, the information to be provided to the bidders and deadline to submit the bids) in the manner it considers best to maximise the value of the Receivables.

The highest bid received from the entities referred to above shall be accepted by Management Company and will determine the value of the Receivables. If no relevant offer is received from any third parties, then the Receivables shall remain as assets to the Fund, without prejudice to the possibility of the Management Company to start a new bidding process for the sale of the Receivables.

Common provisions

The purchase price paid by the Seller or the third party will be paid in the Treasury Account and shall form part of the Available Funds to be applied in accordance with the Post-Enforcement Priority of Payments set out in section 3.4.7.3 of the Additional Information.

The Management Company shall be entitled to sell the Receivables even if the holders of any of the Classes of Notes suffer a loss.

For the above purposes, the payment obligations under the Notes on the Early Redemption Date shall mean the Principal Amount Outstanding of the Notes on that date plus the unpaid accrued interest to that date, amounts that to all legal effects will be deemed past due and payable (*líquido, vencido y exigible*) on the Early Redemption Date.

The above procedure does not entitle the automatic liquidation of the underlying receivables for the purposes of article 21.4 of the EU Securitisation Regulation.

Notice of the liquidation of the Fund will be provided to CNMV by publishing the appropriate relevant fact communication (*comunicación de otra información relevante*) and thereafter to the Rating Agencies and the Noteholders in the manner set out in section 4.2.3 of the Additional Information, at least thirty (30) Business Days in advance to the Early Redemption Date.

4.4.3.2. Early liquidation of the Fund at the Seller's initiative

The Seller will have the right (but not the obligation) to instruct the Management Company to carry out the Early Liquidation of the Fund and the Early Redemption of the Notes in whole (but not in part):

- (i) upon the occurrence of a Clean-up Call Event; or
- (ii) upon the occurrence of a Tax Call Event,

provided that, in case of the Clean-up Call Event, the Seller can only exercise this right to the extent that there are Available Funds sufficient to redeem the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes (the **Rated Notes**) in full.

Upon the exercise by the Seller of a Seller's Call following the occurrence of a Clean-Up Call Event or a Tax Call Event, the Seller shall repurchase all outstanding Receivables at the Final Repurchase Price (as this term is defined below).

In order for the Seller to exercise any of these rights, the Seller and the Management Company, as applicable, shall take the following actions:

- (i) the Seller shall provide written notice to the Management Company communicating the occurrence of a Clean-up Call Event or a Tax Call Event and requesting the Management Company to carry out the Early Liquidation of the Fund and the Early Redemption of the Notes in whole (but not in part) and its intention to repurchase the Receivables at their Final Repurchase Price;
- (ii) the Management Company shall then inform the Rating Agencies and the Noteholders in accordance with section 4 of the Additional Information, not less than thirty (30) Business Days in advance of the relevant Early Redemption Date, by publishing the appropriate relevant fact communication (*comunicación de otra información relevante*) with CNMV (the **Early Redemption Notice**);
- (iii) the Final Repurchase Price shall be paid by the Seller to the Fund on or before the Early Redemption Date by crediting the Treasury Account;
- (iv) the transfer of the Receivables to the Seller must be completed within thirty (30) Business Days from the date of the Early Redemption Notice; and
- (v) the Final Repurchase Price shall form part of the Available Funds and be applied in accordance with the Post-Enforcement Priority of Payments set out in section 3.4.7.3 of the Additional Information.

For these purposes:

Clean-Up Call Event means, at any time, the aggregate Outstanding Balance of the Receivables falling below 10% of the Outstanding Balance of the Receivables on the Date of Incorporation.

Tax Call Event means any event after the Date of Incorporation as a consequence of which the Fund is or becomes at any time required by law to deduct or withhold, in respect of any payment under any of the Notes, any present or future taxes, levies or governmental charges, regardless of their nature, which are imposed under any applicable legal system or in any country with competent jurisdiction, or for the account of, any political subdivision thereof or government agency authorised to levy taxes.

Final Repurchase Price means the repurchase price of the Receivables which shall be equal to the sum of:

- (i) the aggregate Outstanding Balance of the Receivables comprised in the Aggregate Portfolio (other than Defaulted Receivables and Delinquent Receivables) as at the immediately preceding Determination Period; plus
- (ii) for any Defaulted Receivables and Delinquent Receivables, the aggregate Final Determined Amount as at the immediately preceding Determination Period; plus
- (iii) any interest on the Receivables to be repurchased (other than Defaulted Receivables and Delinquent Receivables) accrued until, and outstanding on, the immediately preceding Determination Period.

Aggregate Portfolio means, on any given date, all the Initial Receivables and the Additional Receivables assigned by the Seller to the Fund up to such date, pursuant to the Master Sale and Purchase Agreement.

Final Determined Amount means, in relation to any Delinquent Receivable or to any Defaulted Receivable, the Outstanding Balance of such Delinquent Receivable or Defaulted Receivable at the immediately preceding Determination Period minus an amount equal to any IFRS9 Provisioned Amount for such Delinquent Receivable or Defaulted Receivable. For the avoidance of doubt, for the purposes of calculating the Final Determined Amount, the Outstanding Balance of each Defaulted Receivable shall be taken as at the last day of the immediately preceding Determination Period, after deducting from the Defaulted Amount any realised principal recoveries already received by the Fund or by the Servicer in respect of such Defaulted Receivable but deducting from such recoveries any amounts returned or to be returned to the Borrower arising from returns of receivables.

Defaulted Amount means the Outstanding Balance of the Defaulted Receivable(s).

Early Redemption Date means the date on which the early redemption of the Notes takes place, which does not need to be a Payment Date.

IFRS9 Provisioned Amount means, with respect to any Delinquent Receivable, any amount that constitutes any expected credit loss for such Delinquent Receivable as determined by the Seller in accordance with IFRS9 or any such equivalent financial reporting standard promulgated by the International Accounting Standards Board in order to replace IFRS9.

Determination Period means (i) prior to a mandatory Early Liquidation of the Fund, each period commencing on (but excluding) a Determination Date and ending on (and including) the immediately following Determination Date, provided that the first Determination Period will commence on (and including) the Initial Assignment Cut-Off Date and will end on (and including) the Determination Date immediately preceding the First Payment Date, or (ii) following a mandatory Early Liquidation of the Fund, any such period as determined by the Management Company.

IFRS9 means the International Financial Reporting standard 9 issued by the International Accounting Standards Board (IASB) in July 2014, which introduced an “expected credit loss” (ECL) framework for the recognition of impairment. Under such reporting standard, impairment of loans is recognised -on an individual or collective basis- in three stages:

- Stage 1: when credit risk has not increased significantly since initial recognition.
- Stage 2: when credit risk has increased significantly since initial recognition.
- Stage 3: when the loan’s credit risk increases to the point where it is considered credit impaired.

4.4.4. Cancellation of the Fund

Cancellation of the Fund shall take place:

- (i) upon full repayment of the Receivables pooled therein;
- (ii) upon full repayment of all the obligations of the Fund towards its creditors;
- (iii) as a consequence of the completion of the Early Liquidation process set out in section 4.4.3.1 and 4.4.3.2 above;

- (iv) upon reaching the Legal Maturity Date;
- (v) if any of the provisional credit ratings of the Rated Notes are not confirmed as final (unless such provisional ratings are upgraded) by the Rating Agencies on or prior the Disbursement Date (for clarification purposes, the Notes will not be disbursed until the confirmation or upgrading of the provisional ratings of the Rated Notes); and
- (vi) if the Management and Subscription Agreement is terminated in accordance with the provisions of section 4.2.3 of the Securities Note at any time prior to the disbursement of the Notes.

Upon the occurrence of any of the events described above, the Management Company shall inform CNMV and the Rating Agencies, in the manner provided for in section 4.2.3 of the Additional Information and shall initiate the relevant formalities for the cancellation of the Fund.

4.4.5. Actions for the cancellation of the Fund

In the scenarios described in sections 4.4.3.1, 4.4.3.2, and 4.4.4(i) to (iv) of the Registration Document, the Management Company, on behalf of the Fund, shall take the following actions:

- (i) Terminate or cancel those contracts not necessary for the liquidation of the Fund.
- (ii) Carry out the Early Redemption of all of the Notes pursuant to section 4.4.3.1 and section 4.4.3.2 above for an amount equal to the Principal Amount Outstanding of the Notes on the Early Redemption Date, plus accrued and unpaid interest from the last Payment Date to the Early Redemption Date, less any tax withholding and free of any expenses for the Noteholder. All such amounts will, for all legal purposes, be deemed liquid, due and payable on the Early Redemption Date.
- (iii) Apply all the amounts obtained from the sale of the Receivables towards payment of the various obligations, in the form, amount and order of priority established in the Post-Enforcement Priority of Payments described in section 3.4.7.3 of the Additional Information.
- (iv) Once the Fund has been liquidated and all scheduled payments have been made pursuant to the Post-Enforcement Priority of Payments contemplated in section 3.4.7.3 of the Additional Information, if there is any remainder (including any judicial or notary proceedings pending settlement as a result of payment default by any Borrower) (all in accordance with the provisions of section 3.7.1 of the Additional Information), such remainder (including the continuation and/or proceeds from such proceedings) will be for the benefit of the Seller.

In any case, the Management Company, acting on behalf of the Fund, shall not cancel the Fund until it has liquidated the Receivables and any other remaining Fund assets and distributed the Fund's assets, following the Post-Enforcement Priority of Payments provided for in section 3.4.7.3 of the Additional Information.

- (v) Within six (6) months from the liquidation of the Receivables and any other remaining assets of the Fund and the distribution of the Available Funds, and always prior to the Legal Maturity Date, the Management Company will execute a deed (*acta*) before a notary public declaring: (a) the cancellation of the Fund as well as the grounds for such termination, (b) the procedure followed for notifying the Noteholders and CNMV, and (c) the terms of the distribution of the Available Funds following the Post-Enforcement Priority of Payments provided for in section 3.4.7.3 of the Additional Information. In addition, the Fund will

comply with any such further administrative steps as may be applicable at that time. The Management Company will submit such deed (*acta*) to CNMV.

In the scenarios described in sections 4.4.4(v) and 4.4.4(vi) of the Registration Document on or before the Disbursement Date, the Management Company, on behalf of the Fund, shall take the following actions:

- (i) Terminate the incorporation of the Fund and the issue of the Notes.
- (ii) Terminate the purchase of the Initial Receivables;
- (iii) Terminate or cancel the Transaction Documents executed by the Management Company on behalf of the Fund, except for the Start-Up Expenses Loan Agreement, out of which the incorporation and issue expenses incurred by the Fund shall be paid.

- (v) Within one (1) month from the cancellation, execute before a notary public a deed (*acta*) declaring the cancellation of the Fund and the grounds therefore and submit it to the CNMV, IBERCLEAR, AIAF and the Rating Agencies.

In addition, in the scenarios foreseen in sections 4.4.4(v) and 4.4.4(vi) of the Registration Document, (x) the obligation of the Fund to pay the price for the acquisition of the Initial Receivables will be extinguished, and (y) the Management Company will be obliged to reimburse the Seller any rights that may have accrued to the Fund under the Initial Receivables.

There is no knowledge of the existence of any other relationship involving direct or indirect ownership or control between the aforementioned legal persons that participate in the securitisation transaction described in this Prospectus.

In addition, it should be noted that certain parties to the transaction documents (the **Transaction Parties**) have engaged in, and may in the future engage in, investment banking and/or commercial banking or other services for the Fund, the Seller or its affiliates and the Management Company in the ordinary course of their businesses. Other Transaction Parties may also perform multiple roles. Accordingly, conflicts of interest may exist or arise as a result of or in connection with parties having previously engaged, or in the future engaging in transactions with other parties, having multiple roles or carrying out other transactions for third parties. The Transaction Parties may be replaced by one or more new parties. It cannot be excluded that such a new party could also have a potential conflicting interest, which might ultimately have a negative impact on the ability of the Fund to perform its obligations in respect of the Notes.

In particular, the Arranger is part of global investment banking and securities and investment management firms that provide a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and high-net-worth individuals. The Arranger and its affiliates may play various roles in relation to the offering of the Notes. To the maximum extent permitted by applicable law, the duties of the Arranger and/or its affiliates in respect of the Notes are limited to the relevant contractual obligations set out in the Transaction Documents (if any) and, in particular, no advisory or fiduciary duty is owed to any person. None of the Arranger or its affiliates shall have any obligation to account to the Fund, any Transaction Party or any Noteholder for any profit as a result of any other business that it may conduct with either the Fund or any Transaction Party.

The Arranger may assist clients and counterparties in transactions related to the Notes (including assisting clients in future purchases and sales of the Notes and hedging transactions). The Arranger expects to earn fees and other revenues from these transactions.

Nothing in the Transaction Documents shall prevent any of the Transaction Parties from rendering services similar to those provided for in the Transaction Documents to other persons, firms or

companies or from carrying on any business similar to or in competition with the business of any of the Transaction Parties.

Accordingly, conflicts of interest may exist or may arise as a result of parties to this transaction:

- (i) having previously engaged or in the future engaging in transactions with other Transaction Parties;
- (ii) having multiple roles in this transaction; and/or
- (iii) carrying out other roles or transactions for third parties.

To the maximum extent permitted by applicable law, neither the Arranger nor any of its affiliates are restricted from entering into, performing or enforcing its rights in respect of the Transaction Documents, the Notes, or the interests described above and may otherwise continue or take steps to further or protect any of those interests and its business even where to do so may be in conflict with the interests of Noteholders, and in so doing may act in its own commercial interests and without notice to, and without regard to, the interests of any such person.

On the Date of Incorporation the Management Company, in the name and on behalf of the Fund, shall enter into a management and subscription agreement with, amongst others, the Seller and the Arranger (the **Management and Subscription Agreement**).

In accordance with the Management and Subscription Agreement, on the Subscription Date, the Seller will subscribe for and purchase all the Notes.

The issuance of the Notes and the obligations of the Seller to subscribe for and purchase all the Notes are subject to the fulfilment of several conditions precedents, among others, the receipt by the Arranger of a confirmation from the Management Company on the Subscription Date that no Material Adverse Change has occurred in respect of itself or the Fund.

The Arranger may give a termination notice to the Management Company at any time before 14.00 CET on the Disbursement Date upon occurrence of certain events, including, without limitation:

- (i) Breach of obligations: any Party (other than the Arranger) fails to perform any of its obligations under the Management and Subscription Agreement; in particular, in case that the Seller elects not to, or otherwise fails to, subscribe for and purchase all the Notes by the end of the relevant time limit.
- (ii) Force majeure: since the date of the Management and Subscription Agreement there has been, in the reasonable opinion of the Arranger in consultation with the Seller and the Management Company, an event that could not be foreseen or, even if foreseen, is inevitable rendering it impossible to perform the subscription or disbursement of the Notes pursuant to article 1105 (*force majeure*) of the Civil Code.

The **Subscription Period** will begin at 10.00 CET on the Subscription Date and will end on the same day at 12.00 CET.

Subscription Date means the immediately preceding Business Day to the Disbursement Date.

4.2.4. Volcker Rule

Under section 619 of the U.S. Dodd-Frank Act and the corresponding implementing rules (the **Volcker Rule**), U.S. banks, non-U.S. banks with U.S. branches or agencies, companies that control U.S. banks, and their U.S. and non-U.S. affiliates (collectively, the **Relevant Banking Entities** as defined under the Volcker Rule) are prohibited from, *inter alia*, acquiring or retaining any ownership interest in, or acting as sponsor in respect of, certain investment entities referred to in the Volcker Rule as covered funds, except as may be permitted by an applicable exclusion or exception from the Volcker Rule. In addition, in certain circumstances, the Volcker Rule restricts Relevant Banking Entities from entering into certain credit exposure related transactions with covered funds.

None of the Issuer, the Arranger or the Management Company has made any determination as to whether the Issuer would be a “covered fund” for the purposes of the Volcker Rule. If the Issuer was considered as a “covered fund”, the price and liquidity of the market for the Notes may be materially and adversely affected.

There is limited interpretative guidance regarding the Volcker Rule, and implementation of the regulatory framework for the Volcker Rule is still evolving, including through revisions to the Volcker Rule that were issued on 25 June 2020 and become effective on 1 October 2020. The Volcker Rule's prohibitions and lack of interpretive guidance could negatively impact the liquidity and value of the Notes. Any entity that is a “Relevant Banking Entity” and is considering an investment in the Notes should consider the potential impact of the Volcker Rule, including the recent revisions, in respect of such investment and on its portfolio generally. Each purchaser must determine for itself whether it is a Relevant Banking Entity. None of the Issuer, the Arranger or the

Management Company makes any representation regarding the ability of any purchaser to acquire or hold the Notes, now or at any time in the future.

4.3. **Legislation under which the securities have been created**

The Notes are issued in accordance with the laws of Spain, and particularly in accordance with the legal provisions set out in:

- (i) Law 5/2015;
- (ii) the Securities Market Act, where applicable;
- (iii) Royal Decree 1310/2005;
- (iv) Royal Decree 878/2015; and
- (v) any such other legal and regulatory provisions as may be in force and applicable from time to time.

In addition, the requirements set out in the EU Securitisation Regulation shall apply to the Fund and the Notes.

This Securities Note has been prepared in accordance with the Prospectus Regulation and following Annex 15 of the Prospectus Delegated Regulation.

4.4. **Indication as to whether the securities are in registered or bearer form and whether the securities are in certificated or book-entry form**

The Notes will be exclusively represented by book-entries (*anotaciones en cuenta*) in accordance with the provisions of Law 5/2015 and Royal Decree 878/2015.

The Notes will be created by virtue of their corresponding book-entry and will be made out to the bearer.

The Deed of Incorporation will produce the effects provided for in article 7 of the Securities Market Law. In accordance with article 7 of the Securities Market Law, the denomination, number of units, nominal value and other characteristics and conditions of the Notes represented in book-entry form are those included in the Deed of Incorporation and this Prospectus.

The Noteholders will be identified as such (for their own account or that of third parties) as registered in the book-entry register maintained by Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A. (**IBERCLEAR**) (and its participant entities), with its registered office being in Madrid, at Plaza de la Lealtad 1, 28014, which has been appointed as the entity in charge of the book-entry registry (*entidad encargada del registro contable*) of the Notes.

For these purposes, **Noteholders** or **holders** means any and all holders of any of the Notes in accordance with the applicable laws and regulations (including, without limitation, Royal Decree 878/2015 and the relevant regulations of IBERCLEAR).

As described in section 4.6.3.1 of the Securities Note, during the Sequential Redemption Period, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will cease to redeem on a pro-rata basis, if applicable, and will switch to redemption on a sequential basis until the liquidation of the Fund. There is however no assurance whatsoever that the subordination rules shall protect Noteholders from the risk of loss.

For these purposes, **Sequential Redemption Period** means the period starting from (and including) the Payment Date immediately following the occurrence of a Subordination Event, and ending on (and including) the earlier of (i) the Legal Maturity Date; (ii) the Payment Date on which the Rated Notes are redeemed in full; or (iii) the Early Redemption Date.

Special consideration regarding interest payments of the Class E Notes and the Class F Notes:

Interest payments of the Class E Notes and the Class F Notes are placed seventh (7th) and ninth (9th) in the Pre-Enforcement Priority of Payments, respectively. However, upon the occurrence of a Class E and Class F Notes Interest Deferral Trigger, interest payments of the Class E Notes and the Class F Notes would be deferred and therefore would be placed eleventh (11th) and twelfth (12th) in the Pre-Enforcement Priority of Payments, respectively.

For these purposes, **Class E and Class F Notes Interest Deferral Trigger** means a Cumulative Loss Ratio higher than 1.35%.

4.6.3.1. Pre-Enforcement Priority of Payments

4.6.3.1.1 *During the Revolving Period*

vested on the Management Company, who, pursuant to article 26.1.f) of Law 5/2015, must have in place procedural and organisational measures to prevent potential conflicts of interests.

The Management Company will be liable to the Noteholders and other creditors of the Fund for all damages caused thereto by a breach of its obligations. It will be liable for the penalties applicable thereto pursuant to the provisions of Law 5/2015.

The obligations of the Seller and of the other entities participating in the transaction are limited to those included in the corresponding Transaction Documents to which each of them is a party, the most significant ones being described in this Prospectus and in the Deed of Incorporation.

All matters, disputes, actions and claims concerning the Fund, or the Notes issued and that may arise during the operation or liquidation thereof, whether among the Noteholders or between the Noteholders and the Management Company, will be submitted to the courts of the city of Madrid, waiving any other forum to which the parties may be entitled.

Any interest due and unpaid under the Notes will not accrue any additional interest or default interest and will not be added to the Principal Amount Outstanding of the Notes.

4.8.2. Interest rate

The interest rate applicable to the Notes (the **Interest Rate**) for each Interest Accrual Period (as defined below) will be:

- (i) in respect of the Class A Notes, a floating rate equal to the Reference Rate plus a margin of 0.60 per cent. per annum, provided that, if such rate of interest falls below 0 (zero), the applicable rate of interest shall be equal to 0 (zero) (the **Class A Interest Rate**);
- (ii) in respect of the Class B Notes, a floating rate equal to the Reference Rate plus a margin of 1.80 per cent. per annum, provided that, if such rate of interest falls below 0 (zero), the applicable rate of interest shall be equal to 0 (zero) (the **Class B Interest Rate**);
- (iii) in respect of the Class C Notes, a floating rate equal to the Reference Rate plus a margin of 2.50 per cent. per annum, provided that, if such rate of interest falls below 0 (zero), the applicable rate of interest shall be equal to 0 (zero) (the **Class C Interest Rate**);

- (iv) in respect of the Class D Notes, a floating rate equal to the Reference Rate plus a margin of 4.25 per cent. per annum, provided that, if such rate of interest falls below 0 (zero), the applicable rate of interest shall be equal to 0 (zero) (the **Class D Interest Rate**);
- (v) in respect of the Class E Notes, a floating rate equal to the Reference Rate plus a margin of 5.25 per cent. per annum, provided that, if such rate of interest falls below 0 (zero), the applicable rate of interest shall be equal to 0 (zero) (the **Class E Interest Rate**); and
- (vi) in respect of the Class F Notes, a fixed rate equal to 6.75 per cent., per annum (the **Class F Interest Rate**).

On each Reference Rate Determination Date, the Management Company shall determine the Interest Rate applicable to the Floating Rate Notes for the relevant Interest Accrual Period (based on the information provided by the EURIBOR Provider). For the Fixed Rate Notes, the Interest Rate applicable on each Reference Rate Determination Date shall be the Class F Interest Rate.

The Management Company shall notify the Interest Rate of the Floating Rate Notes to the Paying Agent at least one (1) Business Day in advance of each Payment Date (or such other date as agreed between the Management Company and the Paying Agent from time to time). The Management Company will also communicate this information to AIAF and IBERCLEAR.

The Interest Rate of the Floating Rate Notes for subsequent Interest Accrual Periods shall be communicated to Noteholders within the deadline and in the manner set out in sections 4.2.1 and 4.2.3 of the Additional Information.

4.8.3. Reference Rate

The reference rate (the **Reference Rate**) for the purpose of calculating the Interest Rate applicable to the Floating Rate Notes will be determined in accordance with the following provisions or, following a Base Rate Modification Event, in accordance with section 4.8.4 below:

- (i) The Euro-Zone interbank offered rate (**EURIBOR**) for the one-month Euro deposits (except for the Initial Interest Accrual Period) which appears on REUTERS screen in the page EURIBOR01 which appear on the relevant page in the menu BTMM EU or (A) such other page as may replace the REUTERS-EURIBOR01 page for similar service for the purpose of displaying such information or (B) if that service ceases to display similar information, such other page or such equivalent service that displays this information (or, if more than one, the one which is used by the Paying Agent) or may replace the REUTERS-EURIBOR01 page (the **Screen Page**) at or about 11.00 CET on the Reference Rate Determination Date.

By way of exception, the Reference Interest Rate for the Initial Interest Accrual Period will be from the result of the linear interpolation of the 1-month EURIBOR rate and the 3-month EURIBOR rate quoted at approximately 11:00 CET on the Date of Incorporation, considering the number of calendar days of the Initial Interest Accrual Period, according to the following formula:

$$R = E_2 + \left[\frac{E_3 - E_2}{d_3 - d_2} \right] \times (d_t - d_2)$$

Where:

R is the Reference Rate for the Initial Interest Accrual Period;

d_1 is number of calendar days of the Initial Interest Accrual Period;

d_2 is the number of calendar days corresponding to the 1-month EURIBOR;

d_3 is the number of calendar days corresponding to the 3-month EURIBOR;

E_2 is the 1-month EURIBOR rate; and

E_3 is the 3-month EURIBOR rate.

- (ii) The Reference Rate shall be determined two (2) TARGET2 Business Days prior to the first day of the relevant Interest Accrual Period, except for the Initial Interest Accrual Period, which shall be determined on the Date of Incorporation (each, a **Reference Rate Determination Date**).
- (iii) If the name, definition, methodology, formula or any other form of calculation related to the EURIBOR were modified (including any modification or amendment derived from or made for the purposes of compliance with the Benchmark Regulation), without such modification being considered a Base Rate Modification Event, the modifications shall be considered to be applicable to the Reference Rate relating to EURIBOR without the need to modify the Transaction Documents or to notify the Noteholders. References herein and in the Transaction Documents to EURIBOR shall be deemed made as such rate has been amended, modified or replaced from time to time.
- (iv) If the Screen Page is unavailable at such time for Euro deposits for the relevant period, then the rate for any relevant period shall be determined in accordance with section 4.8.4 of the Securities Note below.

The EURIBOR Provider shall communicate to the Management Company by email, before 12.00 CET on the relevant Reference Rate Determination Date, the Reference Rate, including the supporting documentation for such calculations.

As at the date of this Prospectus, EURIBOR is provided and administered by the European Money Markets Institute (**EMMI**). EMMI is included on the register of administrators and benchmarks established and maintained by ESMA pursuant to article 36 of the Benchmark Regulation.

4.8.4. **Fall-back provisions**

- (i) Notwithstanding anything to the contrary, the following provisions will apply if the Management Company, in the name and on behalf of the Fund (acting on the advice of the Seller) determines that any of the following events (each a **Base Rate Modification Event**) has occurred:
 - (1) the original Reference Rate ceasing to be published for a period of at least 5 Business Days or ceasing to exist; or
 - (2) a public statement by the EURIBOR administrator that it has ceased or will cease publishing EURIBOR permanently or indefinitely (in circumstances where no successor EURIBOR administrator has been appointed that will continue publication of EURIBOR); or
 - (3) a public statement by the supervisor of the EURIBOR administrator that EURIBOR has been or will be permanently or indefinitely discontinued; or

- (4) a public statement by the supervisor of the EURIBOR administrator informing that EURIBOR may no longer be used or that its use is subject to restrictions or adverse consequences, either generally or in respect of the Floating Rate Notes or the Start-Up Expenses Loan; or
- (5) the making of a public statement by or on behalf of the supervisor of the administrator of the EURIBOR that (I) the EURIBOR is or will be (or is or will be deemed by such supervisor to be) no longer representative of its relevant underlying market, and (II) such representativeness will not be restored (as determined by such supervisor); or
- (6) it has become unlawful for the Paying Agent, the EURIBOR Provider, the Swap Calculation Agent, the Fund or other party to calculate any payments due to be made using the original Reference Rate;

provided that the Base Rate Modification Event shall be deemed to occur (A) in the case of sub-paragraph (1) above, on the date of cessation of publication for a period of at least 5 Business Days or ceasing to exist, (B) in the case of sub-paragraphs (2) and (3) above, on the date of the cessation of publication of the EURIBOR or the discontinuation of the EURIBOR, as the case may be, (C) in the case of subparagraph (4) above, on the date of the prohibition of use of the EURIBOR, (D) in the case of sub-paragraph (5) above, on the date with effect from which the EURIBOR will no longer be (or will be deemed by the relevant supervisor to no longer be) representative of its relevant underlying market and which is specified in the relevant public statement, and, in each case, not the date of the relevant public statement, and (E) in the case of sub-paragraph (6) above, on the date in which such unlawfulness is communicated by the relevant party.

- (ii) Following the occurrence of a Base Rate Modification Event, the Management Company, in the name and on behalf of the Fund (acting on the advice of the Seller) will inform the Seller and the Swap Counterparty of the same and will appoint a rate determination agent to carry out the tasks referred to in this section 4.8.4 (the **Rate Determination Agent**).
- (iii) The Rate Determination Agent shall determine an alternative base rate (the **Alternative Base Rate**) to replace EURIBOR as the Reference Rate of the Floating Rate Notes and the Start-Up Expenses Loan Agreement and those amendments to the Transaction Documents to be made by the Management Company, in the name and on behalf of the Fund, as necessary or advisable to facilitate such change (the **Base Rate Modification**), provided that no such Base Rate Modification will be made unless the Rate Determination Agent has determined and confirmed to the Management Company in writing (such certificate, a **Base Rate Modification Certificate**) that:
 - (1) such Base Rate Modification is being undertaken due to the occurrence of a Base Rate Modification Event and, in each case, such modification is required solely for such purpose and it has been drafted solely to such effect; and
 - (2) such Alternative Base Rate is:
 - (A) a base rate published, endorsed, approved or recognised by the relevant regulatory authority or any stock exchange on which the Notes are listed, or any relevant committee or other body established, sponsored or approved by any of the foregoing; or

- (B) a base rate utilised in a material number of publicly-listed new issues of Euro-denominated asset-backed floating rate notes prior to the effective date of such Base Rate Modification; or
- (C) a base rate utilised in a publicly-listed new issue of Euro-denominated asset-backed floating rate notes where the originator of the relevant assets is the Seller or an affiliate of its group; or
- (D) such other base rate as the Rate Determination Agent reasonably determines (and in relation to which the Rate Determination Agent has provided reasonable justification of its determination to the Management Company),

provided that, for the avoidance of doubt, (I) in each case, the change to the Alternative Base Rate will not, in the Management Company's opinion, be materially prejudicial to the interest of the Noteholders and the Start-Up Expenses Loan Provider, (II) for the avoidance of doubt, the Management Company may propose an Alternative Base Rate on more than one (1) occasion provided that the conditions set out in this paragraph (iii) are satisfied, and (III) the Alternative Base Rate shall fulfil the Benchmark Regulation.

By subscribing the Notes, each Noteholder acknowledges and agrees with any amendments to the Transaction Documents made by the Management Company, in the name and on behalf of the Fund, which may be necessary or advisable in order to facilitate the Base Rate Modification.

- (iv) Any such Base Rate Modification shall not be carried out unless:
 - (1) the Interest Rate Swap Transaction is amended to align the Reference Rates applicable under the Floating Rate Notes and the Interest Rate Swap Transaction and such amendment takes effect at the same time as the Base Rate Modification takes effect;
 - (2) the Seller pays (or arranges for the payment of) all fees, costs and expenses (including legal fees) properly incurred by the Management Company and each other applicable party including, without limitation, any of the Transaction Parties, in connection with such modifications. For the avoidance of doubt, such costs shall not include any amount in respect of any reduction in the interest payable to a Noteholder or any change in the amount due to the Swap Counterparty or any change in the mark-to-market value of the Interest Rate Swap Transaction; and
 - (3) with respect to each Rating Agency, the Management Company has notified such Rating Agency of the proposed modification and, in the Management Company's reasonable opinion, formed on the basis of due consideration and consultation with such Rating Agency (including, as applicable, upon receipt of a written confirmation from an appropriately authorised person at such Rating Agency), such modification would not result in (I) a downgrade, withdrawal or suspension of the then current ratings assigned to the Floating Rate Notes by such Rating Agency, or (II) such Rating Agency placing the Floating Rate Notes on a negative watch (or equivalent).
- (v) When implementing any modification pursuant to this section 4.8.4, the Rate Determination Agent, the Management Company and the Originator, as applicable, shall

act in good faith and (in the absence of gross negligence or wilful misconduct), shall have no responsibility whatsoever to the Noteholders or any other party.

- (vi) If a Base Rate Modification is not made as a result of the application of paragraph (iv) above, and for so long as the Management Company (acting on the advice of the Seller) considers that a Base Rate Modification Event is continuing, the Management Company may or, upon request of the Originator, must, initiate the procedure for a Base Rate Modification as set out in this section.
- (vii) Any modification pursuant to this section must comply with the rules of any stock exchange on which the Notes are from time to time listed or admitted to trading and may be made on more than one occasion.
- (viii) As long as a Base Rate Modification is not deemed final and binding in accordance with this section, the Reference Rate applicable to the Floating Rate Notes will be equal to the last Reference Rate available on the relevant applicable Screen Page pursuant to paragraph 4.8.4(i) above.
- (ix) This section shall be without prejudice to the application of any higher interest under applicable mandatory law.

The Management Company, when carrying out the actions foreseen in this section, can seek assistance and advice from external advisors (financial advisors, legal advisors, etc.). 4.8.5. Calculations of Notes interest amount

The interest payable under each Note on each Payment Date for each Interest Accrual Period will be carried out in accordance with the following formula:

$$I = P \cdot R / 100 \cdot d / 360$$

Where:

I = Interest to be paid per Note on a given Payment Date, rounded (if necessary) to the second decimal place, with 0.005 being rounded upwards.

P = Principal Amount Outstanding of the Notes on the Determination Date preceding such Payment Date.

R = Nominal interest rate expressed as a percentage.

d = Number of calendar days actually elapsed in each Interest Accrual Period.

4.8.6. Time limit for the validity of claims to interest and repayment of principal

Interest on the Notes will be paid until their full redemption on each Payment Date according to the Pre-Enforcement Priority of Payments specified in section 3.4.7.2 of the Additional Information or, if applicable, according to the Post-Enforcement Priority of Payments contained in section 3.4.7.3 of the Additional Information, provided that the Fund has sufficient Available Funds.

In the event that, on a Payment Date, the Fund is totally or partially unable to pay the interest accrued on the Notes according to the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable, set out in sections 3.4.7.2 or 3.4.7.3 of the Additional Information, respectively, the amounts that the Noteholders do not receive will be paid on the following Payment Date on which the Fund has sufficient Available Funds to do so at the relevant Interest Rate for each Note in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable. Amounts deferred will not accrue additional interest (ordinary interest or default interest) nor will be added to the Principal Amount Outstanding of the Notes.

The Fund, through its Management Company, may not defer the payment of interest on the Notes beyond the Legal Maturity Date of the Fund (subject to the Modified Following Business Day Convention). Upon liquidation of the Fund (including on the Legal Maturity Date), following final distribution of the Available Funds, the Noteholders shall have no further claim against the Fund in respect of any unpaid amounts and such unpaid amounts shall be discharged in full.

4.8.7. Payment dates and interest periods

The **Modified Following Business Day Convention** shall apply to all Notes, where if a Payment Date or the Legal Maturity Date is not a Business Day, the relevant date shall be postponed to the next day that is a Business Day unless in case that it would thereby fall into the next calendar month, in which event such date shall be deemed to be the immediately preceding Business Day.

For these purposes:

TARGET2 Business Day means a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer System (TARGET2) is open.

The term of the Notes will be divided into successive interest accrual periods comprising the calendar days that have actually elapsed between each Payment Date (each, a **Interest Accrual Period**). Each Interest Accrual Period will begin on (and including) the previous Payment Date and end on (but excluding) such Payment Date. As an exception:

- (i) the initial Interest Accrual Period will begin on (and including) the Disbursement Date and will end on (but excluding) the First Payment Date (the **Initial Interest Accrual Period**); and
- (ii) the last Interest Accrual Period will begin on (and including) the last Payment Date prior to liquidation of the Fund and will end on (but excluding) the Notes Maturity Date.

In the event that, on a Payment Date, the Fund is totally or partially unable to pay the interest accrued on the Notes in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable, set out in sections 3.4.7.2 or 3.4.7.3 of the Additional

In any case, the Fund cannot defer the payment of interest on the Notes beyond the Legal Maturity Date.

Withholding, contributions or taxes now or hereafter applicable to the principal, interest or returns on the Notes will be the sole responsibility of the Noteholders, and the amount thereof will be deducted by the Management Company, on behalf of the Fund, through the Paying Agent in the manner provided by law.

Payment will be made through the Paying Agent, which will use IBERCLEAR and its participating institutions to distribute the amounts to the Noteholders in accordance with their established procedures. Payment of interests and redemption of principal will be notified to the Noteholders in the events and with the notice established for each situation described in 4.2.1 of the Additional Information.

Each and every one of the Notes of each Class will be repaid in the same amount by means of a reduction in the nominal value of each Note.

4.9.2. Date and forms of redemption

The final maturity of the Notes will take place on the date on which they are fully redeemed or on the Legal Maturity Date of the Fund (subject to the Modified Following Business Day Convention) (the **Notes Maturity Date**), without prejudice to the early redemption of the Notes prior to the Legal Maturity Date of the Fund in accordance with section 4.4.3 of the Registration Document or, with respect to the Class B Notes, Class C Notes, Class D Notes, Class E Notes or Class F Notes, upon exercise by the Seller of a Seller's Call following the occurrence of a Regulatory Call Event.

The Notes will be redeemed by reducing their nominal value on each Payment Date after the Revolving Period End Date (except as described in section 4.6.3.1.1 of the Securities Note) until their full redemption in accordance with the redemption rules set out in section 4.9.2.1 below and following the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable, set out in sections 3.4.7.2 and 3.4.7.3 of the Additional Information, respectively, and provided that there are sufficient Available Funds for such purposes.

4.9.2.1. Redemption of the Notes

4.9.2.1.1 *During the Revolving Period*

During the Revolving Period, the Noteholders will only receive payments of interest on the Notes on each Payment Date and will not receive any principal payment, except as described in section 4.6.3.1.1 of the Securities Note.

For these purposes:

Revolving Period means the period starting on Date of Incorporation (excluded) and ending on the Revolving Period End Date (included).

Revolving Period End Date means the earlier of the following dates:

- (i) the Payment Date falling on 28 December 2022; and
- (ii) the date on which a Revolving Period Early Termination Event occurs.

Revolving Period Early Termination Event means the occurrence of any of the following events on any Determination Date during the Revolving Period:

- (i) on each of the two (2) Determination Dates immediately preceding the two (2) immediately preceding Payment Dates, the Outstanding Balance of the Non-Defaulted Receivables is less than 90.00% of the Principal Amount Outstanding of the Rated Notes; or
- (ii) The Cumulative Loss Ratio exceeds the relevant percentage set out below on the Determination Date immediately preceding the following Payment Dates:
 - a. Between the Date of Incorporation (included) and 28 September 2022 (included): 0.35%, and
 - b. Between 28 September 2022 (excluded) and 28 December 2022 (included): 0.55%,
- (iii) the Cash Reserve is not funded up to the Required Level of the Cash Reserve after paying or retaining the relevant amounts required to be paid or retained in priority by the Fund on such date in accordance with the Pre-Enforcement Priority of Payments; or
- (iv) an Insolvency Event occurs in respect of the Seller; or
- (v) the Seller breaches any of the representations and warranties in respect of itself envisaged in paragraph (i) of section 2.2.8 of the Additional Information; or
- (vi) the audit reports on the Seller's financial statements show qualifications, which in the opinion of CNMV, could affect the Additional Receivables; or

- (vii) the Principal Amount Outstanding of the Rated Notes on the preceding Determination Date is higher than the sum of (i) the Outstanding Balance of the Non-Defaulted Receivables on the Determination Date, (ii) the Outstanding Balance of the Additional Receivables to be acquired on that Payment Date, and (iii) the remaining Principal Account balance on that Payment Date after payment of the purchase price related to the Receivables Principal of the Additional Receivables; or
- (viii) a Subordination Event occurs; or
- (ix) the Global Agreement is terminated or cancelled, or its term expires, or the terms and conditions thereof are materially modified in a way that it is detrimental to the transaction.

Delinquency Ratio means the aggregate Outstanding Balances of the Delinquent Receivables divided by the aggregate Outstanding Balances of the Receivables, expressed as a percentage.

4.9.2.1.2 *During the Pro-Rata Redemption Period*

During the Pro-Rata Redemption Period, and for so long as no Subordination Event has occurred, the ordinary redemption of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be *pari passu* and *pro-rata* without preference or priority amongst themselves holding the tenth (10th) place in the Pre-Enforcement Priority of Payments as set out in section 3.4.7.2 of the Additional Information, and will take place only to the extent that there are sufficient Available Funds after satisfaction of limbs a. and b. of paragraph (10) of section 3.4.7.2.2 of the Additional Information.

This redemption will be made in an amount equal to the Pro-Rata Target Redemption Amount, as detailed in section 4.6.3.1 of this Securities Note.

The Class F Notes shall be redeemed in accordance with the Class F Notes Target Amortisation Amount in accordance with the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 of the Additional Information. Once Class F Notes are fully redeemed, the subordination of such Class F will no longer apply.

4.9.2.1.3 *During the Sequential Redemption Period*

During the Sequential Redemption Period, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be redeemed sequentially in accordance with the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 of the Additional Information so that the Principal Target Redemption Amount will be applied:

- (i) in the first place to redeem the Class A Notes until their redemption in full,
- (ii) in the second place to redeem the Class B Notes until their redemption in full,
- (iii) in the third place to redeem the Class C Notes until their redemption in full,
- (iv) in the fourth place to redeem the Class D Notes until their redemption in full, and
- (v) in the fifth place to redeem the Class E Notes until their redemption in full.

Class F Notes shall be redeemed on each Payment Date for an amount equal to the Class F Notes Target Amortisation Amount in accordance with the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 of the Additional Information.

During the Sequential Redemption Period:

- (i) the Class A Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes;
- (ii) the Class B Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, but subordinated to the Class A Notes;
- (iii) the Class C Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class D Notes, the Class E Notes and the Class F Notes, but subordinated to the Class A Notes and the Class B Notes;
- (iv) the Class D Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class E Notes and the Class F Notes, but subordinated to the Class A Notes, the Class B Notes and the Class C Notes;
- (v) the Class E Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class F Notes, but subordinated to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes; and
- (vi) the Class F Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves, provided that the Class F Notes will amortise with the available excess spread for an amount equal to the Class F Notes Target Amortisation Amount. Once the Class F Notes are fully redeemed, the subordination of such Class F Notes will no longer apply.

The occurrence of any of the following events in respect of any Determination Date prior to the Legal Maturity Date shall constitute a subordination event (each, a **Subordination Event**):

- (i) an Insolvency Event occurs in respect of the Seller; or
- (ii) The Cumulative Loss Ratio exceeds the relevant percentage set out below on the Determination Date immediately preceding the following Payment Dates:
 - a. Between the Date of Incorporation (included) and 28 September 2022 (included): 0.35%
 - b. Between 28 September 2022 (excluded) and 28 December 2022 (included): 0.55%
 - c. Between 28 December 2022 (excluded) and 28 March 2023 (included): 0.75%
 - d. Between 28 March 2023 (excluded) and 28 June 2023 (included): 0.95%
 - e. Between 28 June 2023 (excluded) and 28 September 2023 (included): 1.15%
 - f. as of 28 September 2023 (excluded): 1.35%; or
- (iii) the three-month average Delinquency Ratio as of the preceding Determination Date is higher than 5%; or
- (iv) the cumulative Defaulted Receivables are equal to or higher than 100% of the sum of the Principal Amount Outstanding of the Class D Notes, Class E Notes and the Class F Notes at the Date of Incorporation; or

- (v) the Outstanding Balance of the Receivables included in the Aggregate Portfolio arising from Loans granted to the same Borrower, as at the immediately preceding Determination Date, is equal to, or higher than 2% of the Outstanding Balance of the Aggregate Portfolio; or
- (vi) the Seller defaults in the performance or observance of any of its obligations under any of the Transaction Documents to which it is a party (unless such default(s) is/are remedied within the earlier of five (5) Business Days or the following Purchase Date); or
- (vii) an Event of Replacement of the Servicer occurs; or
- (viii) a Swap Counterparty Downgrade Event occurs and none of the remedies provided for in the Interest Rate Swap Agreement are put in place within the term required thereunder;
- (ix) the Seller exercises a Seller's Call;
- (x) a Clean-Up Call Event occurs.

For the purposes of this section:

Cumulative Loss Ratio means, as of the Determination Date immediately preceding any Payment Date, the ratio, expressed as a percentage, between:

- (i) the sum of the Defaulted Amount of all Receivables that have become Defaulted Receivables from the Initial Assignment Cut-Off Date until the end of the corresponding Determination Period, reduced by the total amount of Principal Recoveries received during such period in respect of such Receivables, and
- (ii) the sum of (a) the Outstanding Balance of all the Receivables purchased by the Issuer as of the Initial Assignment Cut-Off Date and (b) the Outstanding Balance of all the Additional Receivables on the date of their respective assignment.

For the avoidance of doubt, for the purpose of calculating the numerator of the above ratio, the Outstanding Balance of each Defaulted Receivable shall be taken as at the last day of the Determination Period during which the relevant Receivable became a Defaulted Receivable.

Initial Assignment Cut-Off Date means 16 May 2022. Notwithstanding the assignment of the Initial Receivables will take place on the Initial Assignment Date, the Seller and the Management Company have agreed that the assignment of the Initial Receivables to the Fund will have economic effects from (and including) the Initial Assignment Cut-Off Date.

Insolvency Event means, with respect to any person or entity:

- (i) the declaration of insolvency (*declaración de concurso*), including the filing of any request for the declaration of voluntary or mandatory insolvency (*concurso voluntario o necesario*) or the taking or passing of any resolution approving such filing and/or the filing of an application under the Second Book (*Libro Segundo*) bis of Insolvency Law and/or the filing of a request for judicial homologation (*homologación judicial*) under articles 606 et seq. of the Insolvency Law;
- (ii) such person or entity falling into any of the categories set out in article 363 of the Spanish Companies Act which would require it to be dissolved, once the deadline of two (2) months set out in article 367 of the Spanish Companies Act to remedy the cause of dissolution has elapsed;

- (iii) any event with respect to itself which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in the paragraphs above;
- (iv) such person or entity being unable or admitting its inability to pay its debts as they fall due;
- (v) such person or entity being deemed, or being declared by a court of competent jurisdiction, to be insolvent or unable to pay its debts as they fall due under Spanish law or under the laws applicable to its jurisdiction of incorporation; or
- (vi) such person or entity suspending or threatening (by way of written notice) to suspend making payments on its debts as a whole generally as they fall due.

Seller's Call means the exercise by the Seller of its right to instruct the Management Company to redeem of the Notes (or the relevant Classes of Notes) in full (but not in part) following a Clean-up Call Event, a Tax Call Event or a Regulatory Call Event.

4.9.2.1.4 *Early Redemption of all the Notes issued*

Upon the occurrence of any of the events set out in section 4.4.3 of the Registration Document, the Management Company shall carry out the Early Liquidation of the Fund and, thus, the Early Redemption of all Notes issued, and distribute the Available Funds in accordance with the Post-Enforcement Priority of Payments set out in section 3.4.7.3 of the Additional Information.

In case of Early Redemption of the Notes pursuant to section 4.4.3 of the Registration Document:

- (i) the Class A Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes;
- (ii) the Class B Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes, but subordinated to the Class A Notes;
- (iii) the Class C Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class D Notes, the Class E Notes and the Class F Notes, but subordinated to the Class A Notes and the Class B Notes;
- (iv) the Class D Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class E Notes and the Class F Notes, but subordinated to the Class A Notes, the Class B Notes and the Class C Notes;
- (v) the Class E Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves and in priority to the Class F Notes, but subordinated to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes; and
- (vi) the Class F Notes will rank *pari passu* and *pro-rata* without preference or priority amongst themselves.

4.9.2.2. Legal Maturity Date

The Legal Maturity Date of the Fund and consequently the final redemption of the Notes is 28 February 2032 (subject to the Modified Following Business Day Convention). Final redemption of the Notes on the Legal Maturity Date shall be made subject to the Post-Enforcement Priority of Payments set out in section 3.4.7.3 of the Additional Information.

4.9.2.3. Optional redemption upon the occurrence of a Regulatory Call Event

Upon the occurrence of a Regulatory Call Event, the Seller will have the right (but not the obligation) to request the Management Company to redeem in full (but not in part) on any Payment Date thereafter the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes (while the Class A Notes and the Cash Reserve shall not be redeemed), in accordance with the Pre-Enforcement Priority of Payments (as amended by the Pre-Enforcement Regulatory Call Priority of Payments or the Seller Loan Priority of Payments, as applicable) or the Post-Enforcement Priority of Payments (as amended by the Post-Enforcement Regulatory Call Priority of Payments). In this scenario, the Fund will continue to exist until its cancellation pursuant to section 4.4.4 of the Registration Document.

For these purposes, **Regulatory Call Event** means:

- (i) any enactment or implementation of, or supplement or amendment to, or change in any applicable law, policy, rule, guideline or regulation of any competent international, European or national body (including the European Central Bank, the Prudential Regulation Authority or any other competent international, European or national regulatory or supervisory authority) or the application or official interpretation of, or view expressed by any such competent body with respect to, any such law, regulation, rule, policy or guideline; or
- (ii) a notification by or other communication from an applicable regulatory or supervisory authority being received by the Seller with respect to the transactions contemplated by the Transaction Documents,

which, in either case, occurs on or after the Date of Incorporation and results in, or would in the reasonable opinion of the Seller result in, (a) a material adverse change in the rate of return on capital of the Fund and/or the Seller or (b) materially increasing the cost or materially reducing the benefit for the Seller of the transactions contemplated by the Transaction Documents.

For clarification purposes, the declaration of a Regulatory Call Event will not be prevented by the fact that, prior to the Date of Incorporation, the event constituting such Regulatory Call Event was:

- (i) announced or contained in any proposal (whether in draft or final form) for a change in the laws, regulations, applicable regulatory rules, policies or guidelines (including any accord, standard, or recommendation of the Basel Committee on Banking Supervision), as officially interpreted, implemented or applied by the European Central Bank, the Prudential Regulation Authority or the European Union; or
- (ii) incorporated in any law or regulation approved and/or published but the effectiveness or application of which is deferred, in whole or in part, beyond the Date of Incorporation, provided that the application of the EU Securitisation Regulation and the applicable legislation shall not constitute a Regulatory Call Event, but without prejudice to the ability of a Regulatory Call Event to occur as a result of any implementing regulations, policies or guidelines in respect thereof announced or published after the Date of Incorporation; or
- (iii) express in any statement by an official of the competent authority in expert meetings or other discussions in connection with such Regulatory Call Event (but without receipt of an official interpretation or other official communication); or
- (iv) the competent authority has issued any notification, taken any decision or expressed any view with respect to any individual transaction, other than the transaction. Accordingly, such proposals, statements, notifications or views will not be considered when assessing

the rate of return on capital of the Fund and/or Seller or an increase of the cost or reduction of benefits to the Seller of the transactions contemplated by the Transaction Documents immediately after the Date of Incorporation.

In order for the Seller to exercise the Seller's Call upon the occurrence of a Regulatory Call Event, the Seller and the Management Company, as applicable, shall take the following actions:

- (i) the Seller shall provide written notice to the Management Company communicating the occurrence of a Regulatory Call Event and requesting the Management Company to redeem the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes in whole (but not in part);
- (ii) the Seller advance to the Fund the Seller Loan as further described below and in section 3.4.4.2 of the Additional Information; and
- (iii) the Management Company shall then inform the Rating Agencies and the Noteholders in accordance with section 4 of the Additional Information, not less than thirty (30) Business Days in advance to the specified date for the redemption (the **Regulatory Call Early Redemption Date**), by publishing the appropriate relevant fact communication (*comunicación de otra información relevante*) with CNMV (the **Regulatory Redemption Notice**).

On or before the Regulatory Redemption Notice is published, the Management Company shall notify the Noteholders that:

- (i) the Regulatory Call Event is continuing and cannot be avoided by taking reasonable measures; and
- (ii) the Fund shall have the necessary funds on the Regulatory Call Early Redemption Date to discharge its outstanding liabilities in respect of all the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes in full (in whole but not in part) after making the payments ranking in priority to or *pari passu* therewith, in accordance with the Pre-Enforcement Priority of Payments (as amended by the Pre-Enforcement Regulatory Call Priority of Payments or the Seller Loan Priority of Payments, as applicable) or the Post-Enforcement Priority of Payments (as amended by the Post-Enforcement Regulatory Call Priority of Payments), as applicable.

Upon exercise by the Seller of the Seller's Call following the occurrence of a Regulatory Call Event, the Seller shall advance to the Fund the Seller Loan in an amount equal to the Seller Loan Advance Amount (as defined below) in accordance with section 3.4.4.2 of the Additional Information.

The Seller Loan Advance Amount shall form part of the Available Funds and applied in accordance with the Pre-Enforcement Priority of Payments (as amended by the Pre-Enforcement Regulatory Call Priority of Payments or the Seller Loan Priority of Payments, as applicable) or the Post-Enforcement Priority of Payments (as amended by the Post-Enforcement Regulatory Call Priority of Payments), as applicable.

The total amount to be advanced by the Seller to the Fund under the Seller Loan (the **Seller Loan Advance Amount**) on the relevant Payment Date shall be equal to:

- (i) in respect of principal:

- (1) the aggregate Outstanding Balance of the Receivables at the end of the immediately preceding Determination Period (other than in respect of the Defaulted Receivables or Delinquent Receivables); plus
 - (2) outstanding credit balance of the Cash Reserve; plus
 - (3) for Defaulted Receivables and Delinquent Receivables, the Final Determined Amount; minus
 - (4) the Principal Amount Outstanding of the Class A Notes, after giving effect to the redemptions due on such Payment Date.
- (ii) In respect of interest, any interest on the Receivables (other than Defaulted Receivables or Delinquent Receivables) accrued until, and outstanding on, the Regulatory Call Early Redemption Date.

The relevant Transaction Parties have agreed to, following the Regulatory Call Early Redemption Date, promptly execute and deliver all instruments, notices and documents and take all further action that the Fund or the Seller may reasonably request including, without limitation, agreeing all necessary modifications, waivers and additions to the Transaction Documents required provided that no such modifications, waivers and additions are materially prejudicial to the interests of the holders of the Class A Notes then outstanding.

For the avoidance of doubt, if the Seller exercises the Seller's Call following the occurrence of a Regulatory Call Event, the Class A Notes shall benefit from the subordination of the Seller Loan (which will be granted by the Seller to repay the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and Class F Notes) instead of the redeemed subordinated Notes, and from the collateralisation of all Receivables which prior to the exercise by the Seller of the option above backed all Classes of Notes.

4.10. Indication of investor yield and calculation method

The average yield, duration and final maturity of the Notes depend on several factors, of which the most significant are the following:

- (i) The repayment schedule for each of the Loans established in the corresponding Loan Agreements.
- (ii) The ability of the Borrowers to totally or partially early repay the Loans and the speed with which this early repayment takes place during the life of the Fund. Thus, the early repayment of the Loans by the Borrowers, subject to ongoing changes, and estimated in this Prospectus through several assumptions regarding the behaviour of the future CPR, which will directly influence the speed of the redemption of the Notes, and, therefore, the average life and duration of the Notes.
- (iii) The interest rates applicable to the Loans, which will cause the amount to be paid in each instalment to vary.
- (iv) A payment default by the Borrowers regarding payment of the Loan instalments.

In order to calculate the tables included in this section, the following hypothetical values, taking into consideration the Initial Receivables, have been assumed for the factors described:

- (i) regarding the Receivables:

- a. each of the Receivables complies with the representations and warranties made in in section 2.2.8(ii) and 2.2.8(iii) of the Additional Information;
 - b. no Receivable will be replaced by the Seller in accordance with section 2.2.9 of the Additional Information;
 - c. the weighted average interest rate of the Receivables is 6.68% (weighted average interest rate of the Preliminary Portfolio);
 - d. a cumulative default rate of 1.64%, with an average recovery rate of 52.05% at (24) months. The average recovery rate is the proportion of the Outstanding Balance of the Defaulted Receivables recovered after twenty-four (24) months. The weighted average rate of Defaulted Receivables and the average rate of recoveries are consistent with respect to the information on the Defaulted Receivables and recoveries data of a similar portfolio³ to the Preliminary Portfolio (see section 1.1.1 of Risk Factors for the description of a “similar portfolio”). The aforementioned cumulative default rate corresponds to an annual default rate of 0.65% and a cumulative loss rate of 0.79 % in the 5.06% CPR scenario;
- (ii) the disbursement of the Notes takes place on the Disbursement Date;
 - (iii) the CPRs (3.86%, 5.06% and 6.26%) hold constant over the life of the Notes; the CPRs are consistent with respect to the information with the CPR data of a similar portfolio to the Preliminary Portfolio;
 - (iv) the weighted average margin of the Floating Rate Notes on the Disbursement Date is equal to 0.64% and the weighted average interest rate of the Notes on the Disbursement Date is equal to 0.69% (under the assumption that EURIBOR 1-month was -0.542% on 20 May 2022);
 - (v) the interest rate applicable to the Start-Up Expenses Loan will be equal to EURIBOR 1-month (as this is defined in section 3.4.4.1 of the Additional Information) plus a margin of 2.92% (assuming that EURIBOR 1-month was -0.542% on 20 May 2022);
 - (vi) a negative interest is charged on the Fund Accounts at a rate equal to the daily €STR less 0.03%, regardless the benchmark remains positive, negative or equal to zero;
 - (vii) the estimated annual Ordinary Expenses of the Fund are equal to the result of applying an annual rate of 0.13% on the Outstanding Balance of the Receivables, which, during the first year, will amount to NINE HUNDRED THIRTY FOUR THOUSAND FOUR HUNDRED EIGHTY NINE EUROS AND FORTY CENTS (€ 934,489.40);
 - (viii) the first interest payment date under the Notes is the First Payment Date;
 - (ix) no Subordination Event occurs (except for the Clean-Up Call Event);
 - (x) there is no Early Liquidation of the Fund by application of a Tax Call Event or a Regulatory Call Event has occurred but there is an Early Liquidation of the Fund on the Payment Date immediately following the first occurrence of a Clean-up Call Event;

³ The similar portfolio is prepared based on the historical loan data of the Seller and applying certain filters in connection with the type of borrower (in this case, only individuals), type of vehicle (new vehicle and used vehicle) and type of loan (amortising loan or balloon loan) so it is comparable with the Loans included in the Portfolio (although they may not fulfil all the Eligibility Criteria). Default rates and recovery rates in the similar portfolio are calculated weighting the loans granted to new vehicles and the loans granted to used vehicles over the total similar portfolio.

- (xi) the first Payment Date on which the Notes are redeemed is: (a) in respect of the Notes other than the Class F Notes, 28 January 2023; and (b) in respect of the Class F Notes, 29 August 2022;
- (xii) as of the Date of Incorporation, none of the Borrowers from which the Receivables arise has been granted a Covid-19 Moratorium in respect of his/her Loan;
- (xiii) no Class E and Class F Notes Interest Deferral Trigger has occurred; and
- (xiv) the structure incorporates a swap fixed rate of 1.07% per annum with monthly payments.

The above hypotheses arise from the historical information provided by the Seller and that are reasonable for the portfolio of Receivables.

Assuming that the Management Company, acting on behalf of the Fund, proceeds to the Early Liquidation of the Fund, and following the instructions of the Seller, as established by section 4.4.3.2 of the Registration Document upon the occurrence of a Clean-Up Call Event, the average life, maturity and internal rate of return (IRR) of the Notes would be the following for a CPR of 3.86%, 5.06% and 6.26%, respectively:

(Remainder of page intentionally left blank)

The average life of each Class of Notes is subject to factors largely outside the control of the Fund, the Seller and the Management Company and, consequently, no assurance can be given that the assumptions and the estimates above will prove in any way to be realistic and they must therefore be viewed with considerable caution.

The Management Company states that the information in the tables below is for information purposes only and that the amounts reflected therein do not represent a specific payment obligation of the Fund to third parties on the referred dates or periods. The data has been prepared under the assumption of a repayment rate of the Loans on a constant basis during the life of the Fund, subject to constant changes.

The tables included below show the debt service for each Class of Notes for CPR of 5.06%, which are consistent with the Cash Flow Model provided by Intex. Tables for different scenarios are not included, given that differences in average lives are not significant.

No meeting of Noteholders or other creditors of the Fund shall be established in the Deed of Incorporation.

4.12. Resolutions, authorisations and approvals by virtue of which the securities have been created and/or issued**4.12.1. Corporate resolutions****(i) Resolutions to create the Fund, acquire the Receivables and issue of the Notes:**

The chief executive officer (*consejero delegado*) of the Management Company, in its resolutions passed on 3 February 2022 approved, amongst others: (i) to incorporate the Fund; (ii) to acquire the Receivables to be pooled in the Fund, and (iii) to issue the Notes.

(ii) Resolution to assign the Receivables:

The Board of Directors of the Originator, at its meeting held on 24 March 2022, approved, amongst others, the assignment of the Receivables owned by the Seller, once or several times, to the Fund.

4.12.2. Registration by CNMV

In accordance with the provisions of article 22.1.d) of Law 5/2015, as a condition precedent for the incorporation of the Fund, this Prospectus has to be approved by and registered with CNMV.

This Prospectus has been registered in the official registers of CNMV on 24 May 2022.

The Management Company and the Seller will grant the Deed of Incorporation of the Fund before the Subscription Date of the Notes.

The Management Company represents that the contents of the Deed of Incorporation will be consistent with the draft of the Deed of Incorporation delivered to CNMV, and in no case will the terms of the Deed of Incorporation contradict, modify, alter or invalidate the rules set out in this Prospectus.

The Management Company will submit:

- (i) a PDF-format copy of the Deed of Incorporation to CNMV for filing with the Official Registers, and
- (ii) a copy of the Deed of Incorporation to IBERCLEAR.

4.13. The issue date of the securities

Issue of the Notes shall be effected under the Deed of Incorporation on the Date of Incorporation.

4.13.1. Group of potential investors

The offering of the Notes is aimed at qualified investors for the purposes of article 39 of Royal Decree 1310/2005 and article 2(e) of the Prospectus Regulation, i.e. for descriptive purposes and not limited to legal persons authorised or regulated to operate in financial markets, including credit institutions, investment services companies, insurance companies, collective investment institutions and their management companies, pension funds and their management companies, other authorised or regulated financial entities, etc.

By subscribing the Notes, each Noteholder agrees to the terms of the Deed of Incorporation and this Prospectus.

4.13.2. MIFID II/MIFIR and PRIIPS

The regulatory framework established by Directive 2014/65/UE of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (**MIFID II**) and by Regulation 600/2013/UE of the European Parliament and of Council of 15 May 2014 on markets in financial instruments and amending Regulation (EU) No 648/2012 (**MIFIR**) was mainly implemented in Spain through Royal Decree 14/2018, of 28 September and Royal Decree 1464/2018, of 21 December. The potential investors in the Notes must carry out their own analysis on the risks and costs which MIFID II/MIFIR or their future technical standards may imply for the investment in Notes.

The Notes shall not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**). For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client as defined in point (11) of article 4(1) of MIFID II; (ii) a customer within the meaning of Directive (EU) 2016/97, of the European Parliament and of the Council of 20 January 2016 on insurance distribution (the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of article 4(1) of MIFID II or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document (*KID*) required by Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for package retail and insurance-based investment products (the **EU PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

For the above purposes, the term **offer** includes communication in any form and by any means, of sufficient information on the terms of the offer and on the Notes offered, such as enables an investor to decide whether to purchase or subscribe for the Notes.

By subscribing for the Notes, each Noteholder agrees to the terms of the Deed of Incorporation and this Prospectus.

4.13.3. UK MIFIR and UK PRIIPS

The potential investors in the Notes must carry out their own analysis on the risks and costs which UK MiFIR or their future technical standards may imply for the investment in Notes.

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client, as defined in point (8) of article 2 of Regulation (EU) No 2017/565 as it forms part of the domestic law of the UK by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the FSMA and any rules

or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of article 2(1) of Regulation (EU) No 600/2014 as it forms part of the domestic law of the UK by virtue of the EUWA; or (iii) not a qualified investor as defined in article 2 of the Prospectus Regulation as it forms part of the domestic law of the UK by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014, as it forms part of the domestic law of the UK by virtue of the EUWA (the **UK PRIIPS Regulation**), for offering or selling the notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPS Regulation.

For the above purposes, the term **offer** includes communication in any form and by any means, of sufficient information on the terms of the offer and on the Notes offered, such as enables an investor to decide whether to purchase or subscribe for the Notes.

By subscribing for the Notes, each Noteholder agrees to the terms of the Deed of Incorporation and this Prospectus.

4.13.4. Disbursement date and form

The **Disbursement Date** will be 31 May 2022.

The disbursement of the Notes will be made in accordance with the Management and Subscription Agreement.

The issue price of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes will be at par.

On the Disbursement Date, the Seller will pay to the Fund on or before 15:00 am CET the subscription price of the Notes by crediting the Treasury Account. However, under the Management and Subscription Agreement, the Seller will have the right to set-off the payment of the subscription price of the Notes against the payment obligations of the Fund vis-à-vis the Seller that are due and payable on the Disbursement Date (including, without limitation, any Acquisition Amount to be paid by the Fund to the Seller for the purchase of the Initial Receivables).

On the Disbursement Date, the Paying Agent will book the Notes to the account or accounts in Iberclear designated by the Billing and Delivery Agent on a delivery free of payment basis.

4.14. Restrictions on free transferability of securities

The Notes shall be freely transferred by any means allowed by law and in accordance with AIAF standards and procedures. The ownership of each Note will be transferred by book-entry transfer. The registration of the transfer in favour of the acquirer in the book-entry register will have the same effects as the transfer (*entrega*) of the Notes and, as from such time, the transfer may not be challenged by third parties.

4.15. If different from the Issuer, identity, and contact data of the securities offeror and (or person applying for admission of securities to trading)

Not applicable.

The Management Company will also, on behalf of the Fund, request the inclusion of the issue of the Notes in IBERCLEAR so that clearing and settlement may be carried out under the operating rules established (or that may be approved in the future) by IBERCLEAR regarding securities admitted to trading on AIAF and represented by book-entries.

The Management Company undertakes to complete the registration of the issue of all the Notes on AIAF within thirty (30) calendar days from the Disbursement Date once the corresponding authorisations have been obtained.

The Management Company, in the name and on behalf of the Fund, confirms that it is aware of the requirements and conditions for the listing, maintenance and de-listing of securities with AIAF in accordance with applicable regulations as well as the requirements of its governing bodies, and the Management Company undertakes to comply with them.

In the event that the Management Company fails to meet the thirty (30) calendar days deadline for the admission of the Notes to trading, it undertakes to:

- (i) publish an inside information communication (*comunicación de información privilegiada*) or other relevant fact communication (*comunicación de otra información relevante*) with CNMV,
- (ii) to make an announcement in the EU Securitisation Repository for the purposes of article 7 of the EU Securitisation Regulation, and
- (iii) make the corresponding announcement in the daily bulletin of AIAF or in any other media generally accepted by the market which guarantees adequate dissemination of the information, in time and content,

where it shall communicate the reasons for such breach and the new date for admission of the Notes to trading, without prejudice to the possible liability of the Management Company if the breach is due to reasons attributable to it.

It is not expected that there will be an agreement with any entity to provide liquidity for the Notes during the term of the issue.

5.2. Paying agent and depository institutions

5.2.1. **Paying Agent**

The Management Company, on behalf of the Fund, will appoint BNPP as Paying Agent.

The Management Company, in the name and on behalf of the Fund, shall enter into a paying agency agreement with BNPP (the **Paying Agency Agreement**) to service the issue of the Notes, the most significant terms of which are summarised in section 3.4.8.2 of the Additional Information.

Such provisional ratings remain in force as of the date of this Prospectus.

Failure by the Rating Agencies to confirm any of the provisional credit ratings of the Rated Notes as final (unless such provisional ratings are upgraded) on or prior to the Disbursement Date will be immediately reported to CNMV and made public as provided in section 4 of the Additional Information. This circumstance will result in the cancellation of the incorporation of the Fund, the termination of the issue of the Notes and the purchase of the Initial Receivables and the termination of all Transaction Documents executed by the Management Company on behalf of the Fund (except for the Start-Up Expenses Loan Agreement).

7.3.2. Ratings considerations

The meaning of the ratings assigned to the Notes by the Rating Agencies can be reviewed at those Rating Agencies' websites, respectively:

- (i) www.moodys.com; and
- (ii) www.dbrsmorningstar.com.

The ratings assigned by the Rating Agencies do not constitute an evaluation of the likelihood of Borrowers prepaying principal, nor indeed of the extent to which such payments differ from what was originally forecasted and should not prevent potential investors from conducting their own analysis of the Notes to be acquired. The ratings are not by any means a rating of the level of actuarial performance.

The abovementioned credit ratings are intended purely as an opinion and should not prevent potential investors from conducting their own analyses of the securities to be acquired.

The Rating Agencies may revise, suspend or withdraw the final ratings assigned at any time, based on any information that may come to their notice. Those events, which shall not constitute early liquidation events of the Fund, shall forthwith be notified to both CNMV and the Noteholders, in accordance with the provisions of section 4.1 of the Additional Information.

7.3.2.1. Registration of Rating Agencies

- (i) On 31 October 2011, Moody's was registered and authorised by the ESMA as *European Union Credit Rating Agencies* in accordance with the provisions of the CRA Regulation.
- (ii) On 14 December 2018, DBRS was registered and authorised by ESMA as *European Union Credit Rating Agencies* in accordance with the provisions of the CRA Regulation.

For these purposes, **CRA Regulation** means Regulation (EC) no. 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as subsequently amended

7.3.2.2. Description of each Rating Agency ratings

7.3.2.2.1 *Moody's*

Moody's global long-term rating scale appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

- (i) **Aaa (sf)**: Obligations rated Aaa are judged to be of the highest quality, subject to the lowest level of credit risk.
- (ii) **Aa (sf)**: Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.
- (iii) **A (sf)**: Obligations rated A are judged to be upper-medium grade and are subject to low credit risk.
- (iv) **Baa (sf)**: Obligations rated Baa are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
- (v) **Ba (sf)**: Obligations rated Ba are judged to be speculative and are subject to substantial credit risk.
- (vi) **B (sf)**: Obligations rated B are considered speculative and are subject to high credit risk.
- (vii) **Caa (sf)**: Obligations rated Caa are judged to be speculative of poor standing and are subject to very high credit risk.
- (viii) **Ca (sf)**: Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.
- (ix) **C (sf)**: Obligations rated C are the lowest rated and are typically in default, with little prospect for recovery of principal or interest.

7.3.2.2.2 *DBRS*

The DBRS® long-term rating scale provides an opinion on the risk of default. That is, the risk that an issuer will fail to satisfy its financial obligations in accordance with the terms under which an obligation has been issued. All rating categories other than AAA and D also contain subcategories “(high)” and “(low)”. The absence of either a “(high)” and “(low)” designation indicates the rating is in middle of the category. Descriptions on the meaning of each individual relevant rating are as follows:

- (i) **AAA (sf)**: Highest credit quality. The capacity for the payment of financial obligations is exceptionally high and unlikely to be adversely affected by future events.
- (ii) **AA (sf)**: Superior credit quality. The capacity for the payment of financial obligations is considered high. Credit quality differs from AAA only to a small degree. Unlikely to be significantly vulnerable to future events.
- (iii) **A (sf)**: Good Credit quality. The capacity for the payment of financial obligations is substantial, but of lesser credit quality than AA. May be vulnerable to future events, but qualifying negative factors are considered manageable.

- (iv) **BBB (sf)**: Adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.
- (v) **BB (sf)**: Speculative, non-investment-grade credit quality. The capacity for the payment of financial obligations is uncertain. Vulnerable to future events.
- (vi) **B (sf)**: Highly speculative credit quality. There is a high level of uncertainty as to the capacity to meet financial obligations.
- (vii) **CCC / CC / C (sf)**: Very highly speculative credit quality. In danger of defaulting on financial obligations. There is little difference between these three categories, although CC and C ratings are normally applied to obligations that are seen as highly likely to default or subordinated to obligations rated in the CCC to B range. Obligations in respect of which default has not technically taken place but is considered inevitable may be rated in the C category.
- (viii) **D (sf)**: When the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods, a downgrade to D may occur. DBRS® may also use SD (Selective Default) in cases where only some securities are impacted, such as the case of a “distressed exchange”. See Default Definition for more information.

ADDITIONAL INFORMATION TO BE INCLUDED IN RELATION TO ASSET-BACKED SECURITIES

(Annex 19 of the Prospectus Delegated Regulation)

1. THE SECURITIES

1.1. **A statement that a notification has been, or is intended to be communicated to ESMA, as regards simple, transparent and standardised securitisation ('STS') compliance, where applicable**

The securitisation transaction described in this Prospectus is intended to qualify as a simple, transparent and standardised securitisation (STS securitisation) within the meaning of article 18 of the EU Securitisation Regulation. Consequently, on or about the Date of Incorporation (and in any case within fifteen (15) calendar days from the Date of Incorporation), PSA Financial Services, as Originator, will submit an STS notification to the ESMA Register of STS notifications in accordance with article 27 of the EU Securitisation Regulation (the **STS Notification**), pursuant to which compliance with the requirements of articles 19 to 22 of the EU Securitisation Regulation shall be notified to ESMA with the intention that the securitisation transaction described in this Prospectus is included in the ESMA Register of STS notifications for the purposes of article 27(5) of the EU Securitisation Regulation.

The Management Company, by virtue of a delegation by the Originator, shall notify CNMV in its capacity as competent authority of the submission of such mandatory STS Notification to ESMA, attaching such notification.

1.2. **STS compliance**

None of the Management Company, on behalf of the Fund, the Seller (in its capacity as originator), the Arranger or any other party to the Transaction Documents gives any explicit or implied representation or warranty as to (i) the inclusion of this securitisation transaction in the list administered by ESMA within the meaning of article 27(5) of the EU Securitisation Regulation, and (ii) whether this securitisation transaction shall be recognised or designated as “STS” or “simple, transparent and standardised” within the meaning of article 18 of the EU Securitisation Regulation after the date of notification to ESMA.

The status of the STS Notification is not static and investors should conduct their own research regarding the status of the STS Notification on the ESMA Register of STS notifications.

The Seller, as originator, shall be responsible for the fulfilment of the requirements of articles 19 to 22 of the EU Securitisation Regulation and shall immediately notify ESMA and inform its competent authority when the transaction no longer meets the requirements of articles 19 to 22 of the EU Securitisation Regulation.

1.3. **Third-Party Verification**

The Seller, as originator, has used the services of PCS, as a Third-Party Verification Agent (STS), in connection with the STS Verification. It is expected that the STS Verification prepared by PCS:

- (i) will be issued on or prior to the Date of Incorporation of the Fund, and

- (ii) will be available for investors on PCS's website (<https://www.pcsmarket.org/sts-verification-transactions/>) together with a detailed explanation of its scope at <https://www.pcsmarket.org/disclaimer>.

The STS Verification is not a recommendation to buy, sell or hold securities, is not investment advice whether generally or as defined under MiFID II and is not a credit rating whether generally or as defined under the CRA Regulation or Section 3(a) of the United States Securities Exchange Act of 1934 (as amended from time to time, the **Exchange Act**). PCS is not an "expert" as defined in the Securities Act.

PCS is not a law firm and nothing in the STS Verification constitutes legal advice in any jurisdiction. PCS is authorised by the *Autorité des Marchés Financiers* (AMF) in France, pursuant to Article 28 of the EU Securitisation Regulation, to act as a third-party verifying STS compliance. This authorisation covers STS Verifications in the European Union.

By providing the STS Verification in respect of any securities, PCS does not express any views about the creditworthiness of the Notes or their suitability for any existing or potential investor or as to whether there will be a ready, liquid market for the Notes. Investors should conduct their own research regarding the nature of the STS Verification and must read the information set out in <http://pcsmarket.org>. In the provision of the STS Verification, PCS has based its decision on information provided directly and indirectly by the Seller. PCS does not undertake its own direct verification of the underlying facts stated in the Prospectus, deal sheet, documentation or certificates for the Notes and the completion of the STS Verification is not a confirmation or implication that the information provided by or on behalf of the Seller as part of the STS Verification is accurate or complete.

In completing an STS Verification, PCS bases its analysis on the STS criteria appearing in Articles 20 to 22 of the EU Securitisation Regulation together with, if relevant, the appropriate provisions of Article 43. Unless specifically mentioned in the STS Verification, PCS relies on the English version of the EU Securitisation Regulation. In addition, Article 19(2) of the EU Securitisation Regulation requires the European Banking Authorities, from time to time, to issue guidelines and recommendations interpreting the STS criteria. The European Banking Authority (EBA) has issued the EBA STS Guidelines for Non-ABCP Securitisations. The task of interpreting individual STS criteria rests with national competent authorities (NCAs). Any NCA may publish or otherwise publicly disseminate from time to time interpretations of specific criteria (**NCA Interpretations**). The STS criteria, as drafted in the EU Securitisation Regulation, are subject to a potentially wide variety of interpretations. In compiling an STS Verification, PCS uses its discretion to interpret the STS criteria based on (a) the text of the EU Securitisation Regulation, (b) any relevant guidelines issued by EBA and (c) any relevant NCA Interpretation. There can be no guarantees that any regulatory authority or any court of law interpreting the STS criteria will agree with the interpretation of PCS. There can be no guarantees that any future guidelines issued by the EBA or NCA Interpretations may not differ in their approach from those used by PCS in interpreting any STS criterion prior to the issuance of such new guideline or interpretation. In particular, guidelines issued by EBA are not binding on any NCA. There can be no guarantees that any interpretation by any NCA will be the same as that set out in the EBA guidelines and therefore used, prior to the publication of such NCA Interpretation, by PCS in completing an STS Verification. Although PCS will use all reasonable endeavours to ascertain the position of any relevant NCA as to STS criteria interpretation, PCS cannot guarantee that it will have been made aware of any NCA Interpretation in cases where such interpretation has not been officially published by the relevant NCA. Accordingly, the provision of an STS Verification is only an opinion by PCS and not a statement of fact. It is not a guarantee or warranty that any national competent authority, court, investor or any other person will accept the STS status of the relevant securitisation.

All PCS services speak only as of the date on which they are issued. PCS has no obligation to monitor (nor any intention to monitor) any securitisation which is the subject of any STS Verification. PCS has no obligation and does not undertake to update any STS Verification to account for (a) any change of law or regulatory interpretation or (b) any act or failure to act by any person relating to those STS criteria that speak to actions taking place following the close of any transaction such as, without limitation, the obligation to continue to provide certain mandated information.

It is expected that the STS Verification prepared by PCS, together with detailed explanations of its scope, will be available on the website of PCS ([https:// pcsmarket.org/sts-verification-transactions/](https://pcsmarket.org/sts-verification-transactions/)).

There can be no assurance that the securitisation transaction described in this Prospectus will receive the STS Verification and if the securitisation transaction described in this Prospectus does not receive the STS Verification, this shall not, under any circumstances, affect the liability of the Seller and the Fund in respect of its legal obligations under the EU Securitisation Regulation, nor shall it affect the obligations imposed on institutional investors as set out in article 5 of the EU Securitisation Regulation.

Investors should conduct their own research regarding the nature of the STS Verification and must read the information available in www.pcsmarket.org. In the provision of STS Verification, PCS bases its decision on information provided directly and indirectly by the Seller as originator. For the avoidance of doubt, the PCS website and the contents thereof do not form part of this Prospectus.

1.4. The minimum denomination of an issue

The Fund, which is represented by the Management Company, will be incorporated with the Initial Receivables that the Seller will assign to the Fund on the Date of Incorporation, the principal amount of which will be equal to or slightly lower than SEVEN HUNDRED MILLION EUROS (€ 700,000,000), which is equal to the Principal Amount Outstanding of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes as of the Date of Incorporation.

The Fund shall issue the Class F Notes with an aggregate nominal value of FIVE MILLION NINE HUNDRED THOUSAND EUROS (€ 5,900,000), which shall be used to fund the Cash Reserve up to the Initial Cash Reserve Amount, which will be deposited in the Treasury Account.

1.5. Confirmation that the information relating to an undertaking/obligor not involved in the issue has been accurately reproduced from the information published by the undertaking/obligor

Not applicable.

2. THE UNDERLYING ASSETS

2.1. Confirmation that the securitised assets backing the issue have characteristics that demonstrate the capacity to produce funds to service any payments due and payable on the securities

The Seller confirms that the flows of principal, ordinary interest and any other amounts generated by the Receivables are sufficient to meet the payments due and payable under the Notes in accordance with the contractual nature thereof.

However, in order to cover any eventual payment defaults of the Borrowers, credit enhancements will be put in place in order to increase the security or regularity of the payments of the Notes, and which are described in section 3.4.2 of this Additional Information. Such credit enhancements, however, may prove to be insufficient in exceptional circumstances.

Not all the Notes issued have the same risk of default.

2.2. **Assets backing the issue**

A) **Receivables**

The Fund will pool in its assets the Receivables arising from Loans granted by the Seller to Borrowers, who are individuals resident in Spain as of the date of execution of the relevant Loan Agreement, for the financing of the acquisition of New Vehicles or Used Vehicles, which have been granted pursuant to Law 16/2011, of 24 June, on consumer credit agreements (**Law 16/2011**) (and, with respect to the Additional Receivables, pursuant to Law 16/2011 and/or any other relevant regulations applicable from time to time).

The Loans from which the Receivables arise are Amortising Loans and Balloon Loans:

- (i) **Amortising Loans** are Loans amortising on the basis of fixed monthly instalments of equal amounts throughout the term of the relevant Loan, up to and including maturity.
- (ii) **Balloon Loans** are Loans with a balloon payment, amortising on the basis of equal monthly instalments, but with a Balloon Instalment.

The characteristics and requirements to be met by the Receivables to be assigned to the Fund are described in the sections below and in the Deed of Incorporation.

B) **Maximum Receivables Amount**

The maximum amount of the Outstanding Balance of the Receivables pooled in the Fund on the Initial Assignment Date will be equal to or slightly lower than SEVEN HUNDRED MILLION EUROS (€ 700,000,000) (the **Maximum Receivables Amount**), equivalent to the aggregate nominal amount of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes.

C) **Collateral**

All the Loan Agreements from which the Loans included in the Preliminary Portfolio arise have a reservation of title provision (*cláusula de reserva de dominio*) and have been executed as a private agreement (*contrato privado*) following the official form. However, not all those reservation of title provisions are registered with the Register of Instalment Sales of Movable Properties (*Registro de Venta a Plazos de Bienes Muebles*), as further described in section 2.2.2.3.7 of the Additional Information.

The legal nature, effects and enforcement process under Spanish law of the reservation of title provisions, as well as the differences between (i) the formalisation of the Loan Agreement as a private document in the official form or as a Public Document, and (ii) its registration in the Register of Instalment Sales of Movable Properties, are described in section 2.2.7.6 of the Additional Information.

D) **Further description of the Balloon Loans**

Options of the Borrowers at maturity

Under the Balloon Loans, PSA Financial Services offers the Borrower the following four (4) options at maturity of the Loan for the payment of the Balloon Instalment:

- (i) Option #1: the Borrower (i) returns the relevant Vehicle as payment of the Balloon Instalment as provided by Option #4 below, without paying the Balloon Instalment in cash and (ii) enters with the Seller into a new financing transaction in similar terms for the acquisition of another Vehicle. Such new financing will be considered a new financing transaction between the Seller and the Borrower.
- (ii) Option #2: the Borrower: (i) keeps the relevant Vehicle; and (ii) requests to the Seller a refinancing of the Balloon Instalment. Such refinancing will be considered a new financing transaction between the Seller and the Borrower. With regard to the payment of the Balloon Instalment to the Fund, according to the disbursement mechanics of such new financing transaction between the Seller (as lender), and the Borrower (as debtor) an amount equal to the Balloon Instalment shall be credited by the Seller in favour of the Fund, on behalf of the Borrower, in order to repay and cancel the Balloon Loan.
- (iii) Option #3: the Borrower: (i) keeps the relevant Vehicle; and (ii) pays in cash the Balloon Instalment.
- (iv) Option #4: the Borrower (i) returns the relevant Vehicle as payment of the Balloon Instalment and final repayment of the Balloon Loan, without paying in cash the Balloon Instalment. Therefore, the payment by the relevant Borrower of the Balloon Instalment is made by means of the delivery of the Vehicle.

As described above, in all Options #1 to #4 exercised by the Borrower, the relevant Balloon Loan is contractually set to be amortised at its agreed maturity.

In addition, the new financing transactions foreseen in Option #1 or Option #2 are considered as different financing transactions between the Seller and the relevant Borrower and therefore, outside the perimeter of the Fund (unless those new financing transactions assigned to the Fund as Additional Receivables).

Conditions that the Borrowers shall fulfil in order to select Options #1 or #4

For those options involving the return of the Vehicle by the relevant Borrower (i.e. Option #1 and Option #4), the Balloon Loans establish a number of conditions that must be fulfilled by the relevant Borrower:

- (i) the Borrower shall authorise the Seller to: (i) arrange for the sale of the relevant Vehicle and (ii) use the proceeds of such sale to amortise the Balloon Instalment;
- (ii) none of prior instalments under the Balloon Loan, nor any other obligations thereunder, shall be due and not paid; and
- (iii) fulfilment of certain additional conditions and certain several elements of the Vehicle shall be observed at the moment of its delivery, e.g.: (i) mileage below the agreed threshold (ii) certain Vehicle's features shall be in good standing (tires, electric and mechanic components, etc.); (iii) maintenance of the Vehicle must have followed the agreed manual; and (iv) the Vehicle's permit must be signed together with the transfer documentation, and must be free and clear of charges, liens and encumbrances as well as fines, taxes, and any other charges (other than reservation of title provisions in favour of the Seller).

If these conditions are not fulfilled by the relevant Borrower, then Option #1 or Option #4 (that involve the return of the financed Vehicle) cannot be chosen - being exclusively available to the Borrower Option #2 or Option #3.

Repurchase of the Vehicles in case Option #1 or Option #4 is chosen by the Borrowers

In case that the Borrowers opt for Option #1 or Option #4 under the Balloon Loans (which implies the return of the Vehicles as final repayment of the Balloon Loan, without paying in cash the Balloon Instalment), the Vehicles will be repurchased by either:

- (i) the relevant Adhered Concessionaire, in case it had exercised its purchase option under the Marketing Action; or
- (ii) PSAG, which would be obliged to repurchase the relevant Vehicle in accordance with the terms of the Global Agreement.

The purchase price paid by the relevant Adhered Concessionaire or PSAG (as applicable) under the Marketing Action or the Global Agreement (which, in both cases, will be equal to the Balloon Instalment under the relevant Balloon Loan) will then be transferred by the Seller in favour of the Fund and will be applied towards payment of the Balloon Instalment (and hence towards the full repayment of the Balloon Loan).

The terms and conditions of the repurchase obligation of PSAG under the Global Agreement and the repurchase option of the Adhered Concessionaires under the Marketing Action are summarised below.

Repurchase obligation of PSAG under the Global Agreement. Terms and conditions of the Global Agreement

Pursuant to the Global Agreement, PSAG undertakes *vis-à-vis* the Seller to purchase the relevant Vehicle in case that the Borrowers under the Balloon Loans choose either Option #1 or Option #4 described above, for a purchase price equal to the guaranteed value (*valor final garantizado*) of the Vehicle indicated in the Balloon Loan Agreement.

In this regard, the Global Agreement envisages certain terms and conditions in connection with the compliance by PSAG of its obligation to repurchase the relevant Vehicles. In particular, but without limitation, under the Global Agreement:

- (i) PSAG agrees to calculate the repurchase price of the Vehicles financed under a Balloon Loan at the time of entering into each Balloon Loan Agreement.
- (ii) The repurchase price of the Vehicle under the Global Agreement is equal to the amount of relevant Balloon Instalment under the Balloon Loan.
- (iii) PSAG guarantees to PSA Financial Services the repurchase of the Vehicles returned by the Borrowers in case that the relevant Borrowers choose Option #1 or Option #4 at maturity of the Balloon Loan. For such purposes, the Borrower must deliver the relevant Vehicle to the same concessionaire where such Vehicle was originally sold (or a substitute concessionaire indicated by PSAG).
- (iv) PSAG is contractually bound to repurchase the Vehicle within 45 calendar days since the date of its return by the Borrower in the relevant concessionaire.
- (v) Independently from the obligation to repurchase the vehicle, the Seller shall pay to PSAG the amounts derived from the depreciation of the Vehicle returned by the Borrower due to, among others, (i) excess mileage; (ii) repairs; (iii) liens, charges and encumbrances; or (iv) any other circumstances affecting the price of the Vehicle as foreseen in the conditions for exercising Option #1 or Option #4 under the Balloon Loan), irrespective of the fact that the

relevant Borrower has paid such amounts to the Seller. Additionally, in the event that a Vehicle is delivered to PSAG within the maximum contractual term of 45 calendar days without the complete documentation for the disposal of the Vehicle by PSAG, the final guaranteed price shall be adjusted depending on the time elapsed between the date of delivery of the Vehicle and the date of delivery of the complete documentation, on a basis of -0.5% per month during the first three months and on a basis of -1.5% per month since the fourth month. These percentages will be applied over the sum of (i) the free manufacturing price (*precio franco de fábrica*) and (ii) the options and accessories of the new vehicle.

The payment of these amounts by the Seller to PSAG shall be made within 15 days from the payment of the purchase price by PSAG to the Seller, regardless of the success of the corresponding claim from the Seller vis-à-vis the relevant Borrower under the relevant Balloon Loan. For clarification purposes, the payment by PSAG of the purchase price to the Seller shall not be affected in any way by the obligation of the Seller to pay the relevant depreciation amounts, either in connection with the same Balloon Loan or in connection with any other Balloon Loans.

The term of the Global Agreement is one year from its execution date (i.e. 26 November 2019), but is automatically extended for subsequent periods of one calendar year (i.e. from 1 January to 31 December) unless one of the parties thereto requests its termination with at least one (1) month's prior request to the other party. The Global Agreement does not include any early termination provisions.

Upon termination of the Global Agreement, PSAG shall have no obligation to purchase new Vehicles financed by means of Balloon Loans; however, PSAG will still be bound to purchase any Vehicles financed by means of Balloon Loans prior to the termination date of the Global Agreement.

The Global Agreement is governed under Spanish law and the Courts of the city Madrid have jurisdiction to settle any disputes arising therefrom.

Finally, as of the date of the registration of this Prospectus, the Seller and PSAG have complied with the terms and conditions of the Global Agreement since its formalisation (i.e. November 26, 2019), without incidences.

Repurchase option of the Adhered Concessionaires under the Marketing Action. Other relevant data about the Marketing Action

In July 2020, PSAG and PSA Financial Services initiated a marketing action addressed to the concessionaires of the Peugeot, Citroën and DS brands (the **Marketing Action**) for an initial duration of three (3) months and which has been extended since then on a quarterly (during 2020) or semi-annual basis (from 2021 onwards). Pursuant to the Marketing Action, PSA Financial Services offers the concessionaires adhered to such Marketing Action (the **Adhered Concessionaires**) the possibility to acquire the Vehicles returned by the Borrowers in accordance with Option #1 or Option #4 of the Balloon Loans.

If the Adhered Concessionaire exercises its option to repurchase the Vehicle under the Marketing Action, the purchase price of the Vehicle will be equal to the relevant Balloon Instalment under the Balloon Loan. In such case, the relevant Adhered Concessionaires shall acquire the relevant Vehicle upon return by the Borrower but in any case on or before the maturity date of the Balloon Loan.

In accordance with the Marketing Action:

- (i) the Adhered Concessionaire must communicate to PSAG its decision to exercise the option to repurchase the Vehicle in accordance with the Marketing Action at any time until and including the maturity date of the Balloon Loan; and
- (ii) only the payment of the purchase price of the Vehicle by the Adhered Concessionaire on or before maturity of the relevant Balloon Loan will be deemed to be the exercise of the repurchase option of the Adhered Concessionaire.

In case that the Adhered Concessionaire does not pay the purchase price of the Vehicle on or before maturity of the relevant Balloon Loan, the repurchase option of the Adhered Concessionaire will be deemed not exercised. In such case, and given that the repurchase option of the Adhered Concessionaire under the Marketing Action is independent from the obligation of PSAG to repurchase the Vehicle under the Global Agreement, PSAG would be obliged to repurchase the Vehicle subject to the terms and conditions of the Global Agreement.

With regard to the payment of the purchase price by the Adhered Concessionaire, the latter can use any of the following methods:

- (i) up to 15 calendar days prior to the maturity date of the Balloon Loan, by drawing a credit facility entered into with PSA Financial Services; or
- (ii) within the prior 15 calendar days and until the maturity date of the Balloon Loan, by means of (A) set-off under a netting account opened with PSA Financial Services or (B) by bank transfer to the account indicated by PSA Financial Services.

In addition, in the event that an Adhered Concessionaire decides to exercise the repurchase option under the Marketing Action and the Vehicle has suffered any “depreciation” in its value, such as (i) mileage above the agreed threshold; (ii) standing of a number of Vehicle’s features (tires, electric and mechanic components, etc.); (iii) deficient maintenance of the Vehicle, the Adhered Concessionaire is still required to pay PSA Financial Services the purchase price of the Vehicle in full. However, subsequently and independently from the obligation of the Adhered Concessionaire to pay such purchase price, the Seller may be required to pay to the Adhered Concessionaire the amounts corresponding to such depreciation.

For the avoidance of doubt, in the event that the Adhered Concessionaire paid the purchase price of the Vehicle:

- (i) by means of drawdown by the relevant Adhered Concessionaire under the credit facility entered into with PSA Financial Services described in limb (i) above, the date on which the drawdown is made in accordance with the credit agreement entered into with the relevant Adhered Concessionaire will be understood as the date of “receipt” by PSA Financial Services of the relevant amounts for the purposes of section 3.4.6 of the Additional Information;
- (ii) by means of set-off under the netting account opened with PSA Financial Services described in limb (ii)(A) above, the date on which the relevant annotation is made in the netting account for an amount equal to the purchase price of the Vehicle in accordance with the netting account agreement entered into between the Adhered Concessionaire and PSA Financial Services will be understood as the date of “receipt” by PSA Financial Services of the relevant amounts for the purposes of section 3.4.6 of the Additional Information; and

- (1) by means of transfer to the bank account indicated by PSA Financial Services described in limb (ii)(B) above, the date on which the amount equal to the purchase price of the Vehicle is credited to the relevant bank account indicated by PSA Financial Services will be understood as “receipt” by PSA Financial Services of the relevant amounts for the purposes of section 3.4.6 of the Additional Information.

Summary of payments under the Global Agreement and the Marketing Action and their treatment in the transaction

As described in section 3.3.2.3 of the Additional Information, the scope of the assignment of the Receivables in favour of the Fund shall cover any amounts due by PSAG or the Adhered Concessionaire in accordance with the Global Agreement or the Marketing Action. However, it shall in no event cover any obligations of the Seller thereunder. Therefore, any payment obligations of the Seller under the Global Agreement or the Marketing Action (including, without limitation, the obligation to pay any depreciation amounts to PSAG or the Adhered Concessionaire) shall be borne by the Seller and shall not be transferred to the Fund.

Therefore:

- (i) With regard to payments under the Global Agreement

Pursuant to the Deed of Incorporation and the Master Sale and Purchase Agreement:

- (a) Any payments received by the Seller in relation to the purchase price of the Vehicle (equal to the Balloon Instalment) will be transferred to the Fund as part of the collections under the Receivables arising from the relevant Balloon Loan and will therefore be part of the Available Funds.
- (b) Conversely, any obligations of the Seller to pay PSAG any amounts due under the Global Agreement (including, without limitation, any depreciation amounts) is not assigned to the Fund and therefore shall remain at all times with the Seller.

- (ii) With regard to payments under the Marketing Action

Pursuant to the Deed of Incorporation and the Master Sale and Purchase Agreement:

- (a) Any payments received by PSA Financial Services in relation to the purchase price of the Vehicle (equal to the Balloon Instalment) will be transferred to the Fund as part of the collections Receivables arising from the relevant Balloon Loan and will therefore be part of the Available Funds. In particular:
 - (1) In case that the Adhered Concessionaire decides to pay the purchase price of the Vehicle with a drawdown under the credit facility entered into with the Seller, the Seller shall transfer the amount corresponding to the purchase price of the Vehicle to the Fund as part of the collections under the Receivables.
 - (2) In case that the Adhered Concessionaire decides to pay the purchase price of the Vehicle by means of set-off under a netting account opened with the Seller, the Seller shall transfer an amount equivalent to the purchase price to the Fund as part of the collections under the Receivables.
 - (3) In case that the Adhered Concessionaire decides to pay the purchase price of the Vehicle by means of transfer to the bank account indicated by the Seller, the Adhered Concessionaire shall transfer the relevant amount to the bank

account indicated by the Seller and the Seller shall in turn transfer an amount equivalent to such purchase price to the Fund as part of the collection under the Receivables.

- (b) Conversely, any Seller's obligation to pay to the Adhered Concessionaire any amounts due by the Seller under the Marketing Action (including, without limitation, any depreciation amounts) is not assigned to the Fund and therefore shall remain at all times with the Seller.

Origination years of Balloon Loans

All of the Balloon Loans from which the corresponding Receivables to be transferred to the Fund arise have been originated from the year 2016 (included) onwards.

Historic data of options selected by Borrowers

The following table shows the historic data of the Seller regarding the options chosen by debtors of Balloon Loans since year 2017:

	Option #1	Option #2	Option #3	Option #4	Total
2017	9%	29%	42%	21%	100%
2018	15%	23%	33%	29%	100%
2019	18%	16%	34%	32%	100%
2020	20%	21%	32%	26%	100%
2021	22%	26%	35%	17%	100%

Legal background applicable to the repurchase obligation by PSAG or the Adhered Concessionaires – STS requirements

The EU Securitisation Regulation and the relevant EBA guidelines on the STS criteria for non-ABCP securitisation (EBA/GL/2018/09) set out a legal background for the repurchase obligation by a third party in the following terms:

- (i) Article 20.13 of the EU Securitisation Regulation establishes that *“The repayment of the holders of the securitisation positions shall not have been structured to depend predominantly on the sale of assets securing the underlying exposures. This shall not prevent such assets from being subsequently rolled-over or refinanced.”*

As per the “predominance” mentioned in such provision, the EBA guidelines on the STS criteria for non-ABCP securitisation (EBA/GL/2018/09) in section 4.6 (No predominant dependence on the sale of assets (article 20(13))) has laid out the characteristics that establish the “predominance” test.

- (ii) Moreover, second paragraph of article 20.13 of the EU Securitisation Regulation establishes an exception for a securitisation transaction not being considered dependant on the sale of assets: *“The repayment of the holders of the securitisation positions whose underlying exposures are secured by assets the value of which is guaranteed or fully mitigated by a repurchase obligation by the seller of the assets securing the underlying exposures or by another third party shall not be considered to depend on the sale of assets securing those underlying exposures.”*

Moreover, the EBA guidelines on the STS criteria for non-ABCP securitisation (EBA/GL/2018/09) in paragraph 50 (Exemption provided in the second subparagraph of

article 20(13) of the EU Securitisation Regulation) has established that the seller and the third party shall meet two conditions: (a) they are not insolvent; (b) there is no reason to believe that the entity would not be able to meet its obligations under the guarantee or the repurchase obligation.

For more information about STS requirements, please see section 1.1. of the Additional Information above, regarding the intention of the securitisation transaction described in this Prospectus to qualify as an STS securitisation.

Accounting of the Balloon Loans

From an accounting perspective, all the receivables arising from the Balloon Loans (including the Balloon Instalment) were recorded by the Seller, at the time of entering into each relevant Loan Agreement, as an existing receivable (*derecho de crédito presente*) and therefore is a credit right that can be assigned to the Fund in accordance with articles 15 and 16 of Law 5/2015.

Estimated exposure to PSAG

The estimated exposure of the Fund to PSAG under the Global Agreement can be calculated considering the following parameters:

- (i) Percentage of the Receivables in the Preliminary Portfolio that arise from a Balloon Loan, as per the stratification table in section 2.2.2.5.1 below.
- (ii) Percentage of the Balloon Instalment in the Balloon Loans within the Preliminary Portfolio.

As of the Portfolio Cut-Off Date: (x) the current amount of the Balloon Instalments in the Preliminary Portfolio is € 392,303,010, and (y) the Outstanding Balance of the Receivables arising from Balloon Loans in the Preliminary Portfolio is €487,024,840. Therefore, the proportion of Balloon Instalments out of the Outstanding Balance of Receivables arising from the Balloon Loans in the Preliminary Portfolio is 80.55%.

- (iii) Aggregate percentage of Option #1 and Option #4 selected by the debtors from 2016 to 2022 (weighted average by number of loans), as per the data on the behaviour of debtors of this type of product that is available to the Seller. As described above, the exercise by the Borrower of Option #1 and Option #4 involve the return of the Vehicle, triggering the purchase undertaking by PSAG in the terms explained above.

The summary of these three parameters is the following:

Balloon Loans as % of the Outstanding Balance of the Receivables in Preliminary Portfolio		Balloon Instalments as % of Outstanding Balance of the Receivables arising from Balloon Loans in the Preliminary Portfolio		Debtors' behaviour From 2016 to 2021 (Option #1 + Option #4)		Exposure to PSAG
57.45%	x	80.55%	x	41.71%	=	19.30%

Accordingly, the estimated exposure to PSAG under the Global Agreement is 19.30% of the Preliminary Portfolio.

Financial data of PSAG for the financial years 2020 and 2021 (in EUR) without qualifications.

PSAG's main business purpose is (i) selling, repairing and maintaining vehicles (ii) selling spare parts and accessories (iii) the renting of vehicles and (iv) selling products and services in connection with vehicle activities.

The following financial information of PSAG for the financial years 2020 and 2021 is included in section 3.5.B) below:

- (i) Balance sheet; and
- (ii) Income statement.

Criteria of PSAG for identifying the final guaranteed values

From an operating point of view, PSAG schedules a quarterly meeting of its “*residual values committee*”. The participants in such meetings are the main business areas, together with the management of Peugeot, Citroën and DS, the management of the VO area and the management of the control area. The Seller is invited to attend such meetings as a “listening guest”, attending the management, sales and marketing area. Such “*residual values committee*” periodically establishes the values of the vehicles to be financed under a balloon structure.

PSAG internally calculates the amounts of the final guaranteed values for each Balloon Loan, considering the characteristics of the relevant financed Vehicle. As foreseen in the Global Agreement, PSAG conducts this valuation “*considering the statistical reports that are available, that establish the percentages or depreciation by years and models, and taking into account the convenience of providing a sufficient margin between the final guaranteed value and the future market price, therefore allowing to reduce as much as possible the impairments caused by downside fluctuations (not foreseen) in the market price for used vehicles*”.

Judicial actions in the event of enforcement against PSAG

In the event that PSAG defaults in its obligation to purchase the relevant Vehicles financed with a Balloon Loan under the Global Agreement, then the Fund would have, among others, the following legal courses of action:

- (i) *First*: a court ordinary, declarative process. However, in the event of PSAG's bankruptcy, this course of action would be substituted by a communication of credits (*comunicación de créditos*).
- (ii) *Second*: court enforcement process of the ruling obtained in the court ordinary declarative process.

E) Consumer Protection Law and linked contracts under the Law 16/2011

The Fund is exposed to the credit risk of the Borrowers, who are individuals resident in Spain. Some of the Borrowers may be acting as consumers for non-business purposes.

Borrowers qualifying as consumers benefit from the protective provisions of Royal Legislative Decree 1/2007, of 16 November, approving the consolidated text of the General Law for the Defence of Consumers and Users and other complementary laws (the **Consumer Protection Law**) and Law 16/2011.

If a Loan Agreement is entered into with a consumer within the meaning of article 3 of the Consumer Protection Law and/or article 2 of the Law 16/2011, the provisions on consumers' rights and linked contracts may apply to the Loan Agreement.

In addition, there is an increasing tendency in recent years for Spanish borrowers to file claims against financial institutions, including allegations that certain provisions included in the agreements entered into between such financial institutions and the consumers are unfair (*abusivas*).

In addition, there is a strong trend in Spanish case law that leans towards declaring the unfairness of many standard clauses regularly used by financial institutions in the consumer financing market.

Such case law is not static and has changed over time, in certain instances as a consequence of new legal developments and/or the change of position of higher courts; this, in some instances, has led to a variety of different decisions by courts on similar issues from time to time and, ultimately, uncertainty amongst lower courts, borrowers and lenders on the outcome of the disputes.

In relation to the above, the main consequence of a clause in a consumer loan being declared unfair by a court is that such clause will be considered null and void. In practice, this implies that the loan agreement will have to be interpreted as if the clause had never been in the loan agreement, whilst the rest of the clauses in the loan agreement will remain binding for the parties, provided the loan agreement can survive without the unfair clause.

In case of enforcement, if the court assesses the existence of any unfair clause in the loan agreement, the judge will (i) declare the inadmissibility of the enforcement (if the nullity of the clause precludes the enforcement) or (ii) accept enforcement omitting the application of the unfair clause (if the absence of such clause does not preclude the lender initiating enforcement proceedings).

Clauses under challenge can be divided into two main groups:

- (i) clauses with financial content; and
- (ii) clauses that trigger an event of default and early termination events.

Challenges on clauses with financial content generally affect the loan's ability to generate income (or the amount thereof), whilst clauses governing events of default and early termination clauses are likely to affect the lender's ability to accelerate the loan and recover amounts due through a specific foreclosure or enforcement proceedings.

If a clause generating income for the Fund is declared null and void, the Fund will no longer be allowed to apply such clause and it will be required to return to the borrower all amounts unduly collected by the Fund as a result of application of such clause with financial content.

On the other hand, if a clause triggering an event of default or early termination is declared null and void, the Fund will forego (or limit) its rights to access foreclosure or enforcement proceeding.

Thus, there exists a risk that, should a claim alleging the abusiveness of any of these clauses be made, they end up being declared unfair by the Spanish courts.

Any Spanish court judgment declaring the unfairness of a clause of a loan may instigate other borrowers in similar contracts to initiate claims based on similar grounds.

This could create potential liabilities and, eventually, affect the Fund's ability to generate income, which in turn, if subject to mass litigation, could have a material adverse effect on the Fund's business and financial condition.

2.2.1. Legal jurisdiction by which the pool of assets is governed

The Loan Agreements and the Receivables are governed by Spanish law.

In particular, the securitised Receivables are governed by the Spanish banking regulations and, specifically and where applicable, by:

- (i) Law 16/2011 (and regarding the Additional Receivables, Law 16/2011 or any other relevant regulations applicable from time to time);
- (ii) Circular 8/1990 of Bank of Spain, of 7 September, on transparency of transactions and protection of customers;
- (iii) Order EHA/2899/2011, of 28 October, on transparency and protection for customers of banking services;
- (iv) Circular 5/2012, of 27 June, of Bank of Spain, for credit entities and providers of payment services, on transparency of banking services and responsible granting of loans, where applicable;
- (v) the Consumer Protection Law; and
- (vi) Law 7/1998, of 13 April, on General Contracting Conditions (**Law 7/1998**).

2.2.2. General characteristics of the Borrowers, Receivables and the economic environment, as well as any global statistical data referred to the securitised assets

2.2.2.1. Assignment

The total Outstanding Balance of the Receivables to be assigned to the Fund on the Initial Assignment Date (the **Initial Receivables**) will be equal to the Maximum Receivables Amount, i.e., SEVEN HUNDRED MILLION EUROS (€ 700,000,000) or an amount slightly lower but as close as possible to that amount. The assignment of the Initial Receivables to the Fund will have legal effects from the Date of Incorporation and will be documented by means of the Master Sale and Purchase Agreement (which will include a list of the Initial Receivables assigned to the Fund).

Notwithstanding the assignment of the Initial Receivables will take place on the Initial Assignment Date, the Seller and the Management Company have agreed that the assignment of the Initial Receivables to the Fund will have economic effects from (and including) the Initial Assignment Cut-Off Date. Therefore, any amounts collected under the Receivables corresponding to the Fund (whether for principal, interest or others) as well as any interest accrued on the Receivables on or after the Initial Assignment Cut-Off Date shall belong to the Fund.

Any Receivables (either the Initial Receivables or the Additional Receivables) to be offered by the Seller to the Fund on the Date of Incorporation (in respect of the Initial Receivables) or the relevant Purchase Date (in respect of the Additional Receivables) will be randomly selected (in the case of the Initial Receivables, from the Preliminary Portfolio), and shall meet the Eligibility Criteria set out in section 2.2.2.8 of the Additional Information.

The preliminary loan portfolio from which the Initial Receivables shall be selected (the **Preliminary Portfolio**) comprises SEVENTY SEVEN THOUSAND SEVEN HUNDRED EIGHTY ONE (77,781) Loans, with a total Outstanding Balance as of 18 April 2022 (the **Portfolio Cut-Off Date**) of EIGHT HUNDRED FORTY SEVEN MILLION SEVEN HUNDRED THIRTY TWO THOUSAND FOUR HUNDRED EIGHTY FIVE EUROS AND SEVEN CENTS

(€ 847,732,485.07). These are Loans originated from the year 2016 (included) and with no grace period for the repayment of principal or interest, with constant instalments and initial terms ranging from 12 months to 96 months, and with an average current financed amount of FOURTEEN THOUSAND TWO HUNDRED THIRTY TWO EUROS (€ 14,232).

Any Additional Receivables to be offered by the Seller to the Fund on each relevant Assignment Date will be existing eligible receivables held by the Seller as at the relevant Assignment Date and shall meet the Eligibility Criteria set out in section 2.2.2.8 of the Additional Information.

The Borrowers under the Loans from which the Receivables arise are individuals resident in Spain as of the date of execution of the relevant Loan Agreement.

2.2.2.2. Review of the selected assets securitised through the Fund upon being established

Deloitte, S.L. has reviewed a sample of the 547 randomly selected loans out of the Preliminary Portfolio from which the Initial Receivables shall be selected. Additionally, Deloitte, S.L. has verified the data disclosed in the following stratification tables in respect of the Preliminary Portfolio.

The results, applying a confidence level of at least 99%, are set out in a special securitisation report prepared by Deloitte, S.L. for the purposes of complying with article 22.2 of the EU Securitisation Regulation. The Originator confirms that no significant adverse findings have been detected.

The Management Company has requested from CNMV the exemption to submitting the special securitisation report according to second paragraph of article 22.1.c) of Law 5/2015.

None of the Fund, the Management Company, the Arranger, the Paying Agent or any other party to the Transaction Documents other than the Seller has undertaken or will undertake any investigation, search or other action to verify the details of the Receivables and the Loan Agreements or to establish the creditworthiness of the Borrowers. The Seller will not assign to the Fund any loans in respect of which issues are detected while carrying out the audit.

For these purposes, Value means:

- New Vehicles: the purchase price provided by the system according to brand, model, options, accessories and discounts as applicable.
- Used Vehicles: the purchase price established by each relevant car dealer according to its own criteria. When assessing a request to finance any Used Vehicle, the Seller inspects databases such as GANVAM, EUROTAX, and AUTOBIZ in order to verify that the price offered by the relevant dealer (according to its brand and model, as well as other features such as equipment, age and mileage) is within a reasonable range.

2.2.2.7. Additional Receivables

After the Date of Incorporation, on each Assignment Date during the Revolving Period, the Fund will purchase Additional Receivables to compensate the reduction in the Outstanding Balance of the Receivables pooled in the Fund up to the maximum amount equal to the Principal Target Redemption Amount on the Determination Date preceding the relevant Payment Date, provided that the Seller has sufficient Additional Receivables to be assigned to the Fund meeting the Eligibility Criteria on the Assignment Date. For the avoidance of doubt, the payment of the portion of the Acquisition Amount relating to Receivables Principal of the relevant Additional Receivables will be made on the Purchase Date immediately following the relevant Assignment Date on which the Additional Receivables were assigned in favour of the Fund.

2.2.2.7.1 *Revolving Period*

The Revolving Period will start on Date of Incorporation (excluded) and will end on the Revolving Period End Date (included). During the Revolving Period the Fund shall purchase Additional Receivables on each Assignment Date in accordance with the preceding paragraph.

2.2.2.7.2 *Early termination of the Revolving Period*

The Revolving Period will be definitely early terminated following the occurrence of a Revolving Period Early Termination Event as described in section 4.9.2 of the Securities Note.

⁴ GNV vehicles are vehicles using natural gas.

⁵ Essence vehicles are vehicles using gasoline.

2.2.2.7.3 *Acquisition Amount of the Additional Receivables*

The Additional Receivables shall be assigned for an amount equal to the Acquisition Amount as described in section 3.3.2.1(iii) of the Additional Information.

2.2.2.8. Eligibility Criteria

In order to be assigned to, and be acquired by, the Fund, on the respective Assignment Date, the Initial Receivables and the Additional Receivables, respectively, must meet both the Individual Eligibility Criteria and the Global Eligibility Criteria (jointly, the **Eligibility Criteria**) set out below.

2.2.2.8.1 *Individual Eligibility Criteria*

Each Receivable shall, on the Initial Assignment Cut-Off Date (for the Initial Receivables) or its relevant Assignment Date (for the Additional Receivables), as applicable, comply with all the representations and warranties established in paragraphs (ii) and (iii) of section 2.2.8 below (collectively, the **Individual Eligibility Criteria**).

2.2.2.8.2 *Global Eligibility Criteria*

In addition to the Individual Eligibility Criteria, the Receivables assigned to the Fund as a whole must, on the Initial Assignment Cut-Off Date (for the Initial Receivables) or its relevant Assignment Date (for Additional Receivables) (assuming for these purposes that the relevant Additional Receivables to be purchased on the relevant Assignment Date have been assigned to the Fund), comply with the following global eligibility criteria (the **Global Eligibility Criteria**):

- (i) That the Outstanding Balance of the Non-Defaulted Receivables corresponding to Loans financing the acquisition of Used Vehicles does not exceed 20% of the total Outstanding Balance of the Non-Defaulted Receivables.
- (ii) That the weighted average interest rate of the Non-Defaulted Receivables is higher than 6%.
- (iii) That the Outstanding Balance of the Receivables corresponding to the same Borrower does not exceed 0.05% of the total Outstanding Balance of the Non-Defaulted Receivables.
- (iv) That the Outstanding Balance of the Receivables corresponding to Balloon Loans does not exceed 58% of the total Outstanding Balance of the Non-Defaulted Receivables.
- (v) That the Balloon Instalments corresponding to Balloon Loans do not exceed 50% of the total Outstanding Balance of the Non-Defaulted Receivables.
- (vi) That the Outstanding Balance of the Receivables corresponding to Balloon Loans with a final guarantee value (*Valor Final Garantizado*) between 55% and 70% of the Vehicle's purchase price does not exceed 38% of the total Outstanding Balance of the Non-Defaulted Receivables.

For the purposes of the calculation of each one of the Global Eligibility Criteria:

- (i) the Outstanding Balance of Non-Defaulted Receivables that have been already assigned to the Fund shall be calculated as of the immediately preceding Determination Date, and
- (ii) the Outstanding Balance of the Additional Receivables shall be calculated as of the corresponding Acceptance Date.

2.2.3. Legal nature of the assets

The Receivables securitised by means of their assignment to the Fund are credit rights arising from Loans granted by the Seller to Borrowers, who are individuals resident in Spain as of the date of execution of the relevant Loan Agreements for the financing of the acquisition of New Vehicles or Used Vehicles, which have been granted pursuant to Law 16/2011 (and, with respect to the Additional Receivables, pursuant to Law 16/2011 and/or any other relevant regulations applicable from time to time).

Some of the Loan Agreements from which the Receivables arise include personal guarantees by co-owners of the Vehicles. In addition, all of the Loan Agreements contain a reservation of title clause as described in section 3.4.6.1.3 of the Additional Information.

The Receivables will be directly assigned to the Fund, upon being sold by the Seller and acquired by the Fund, on the terms set out in section 3.3 of this Additional Information. The assignment of the Receivables is governed by Spanish common law (*ley española común*), i.e., articles 1526 et seq. of the Civil Code.

2.2.4. Expiration or maturity date(s) of assets

Each of the selected Loans matures in accordance with its particular terms and conditions, as set out in the relevant Loan Agreement, without prejudice to the partial monthly repayment instalments.

The Borrowers may prepay all or part of the Outstanding Balance of the Receivables arising from the Loans at any time during the term of the Loans, ceasing the accrual of interest on the prepaid portion as from the repayment date.

The maturity date of any Receivable assigned to the Fund will be in no event later than 15 February 2030 (the **Final Maturity Date**).

2.2.5. Amount of the Receivables

The Receivables assigned by the Seller to the Fund will have an Outstanding Balance equal to or slightly lower than SEVEN HUNDRED MILLION EUROS (€ 700,000,000), equivalent to the nominal value of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes.

The Preliminary Portfolio from which the Receivables to be assigned on the Initial Assignment Date (i.e. the Date of Incorporation) will be extracted is described in section 2.2.2.1 of the Additional Information above.

Receivables arising from Loans with arrears will not be assigned to the Fund.

2.2.6. Loan to value ratio or level of collateralisation

The Loans comprising the Preliminary Portfolio are not secured by real estate mortgage security (*garantía hipotecaria*); therefore, the information concerning the loan-to-value ratio does not apply.

2.2.7. The method of origination or creation of assets, and for loans and credit agreements, the principal lending criteria and an indication of any loans which do not meet these criteria and any rights or obligations to make further advances

The Loans comprising the Preliminary Portfolio have been originated by PSA Financial Services according to its usual analysis and assessment credit risk procedures for the origination of loans

granted to Borrowers, who are individuals resident in Spain for the financing of the acquisition of New Vehicles and Used Vehicles (**PSA Financial Services Policies**).

In this regard:

- (i) 100% of the Outstanding Balance of the Receivables complies with the current PSA Financial Services Policies contained in this section.
- (ii) The Additional Receivables to be assigned to the Fund will be granted in accordance with the PSA Financial Services Policies described in this section.
- (iii) The Seller undertakes to disclose to the Management Company without delay any material change in the PSA Financial Services Policies. Any material changes in the underwriting standards after the date of this Prospectus that affect the Additional Receivables will be fully disclosed to investors and potential investors, as an extraordinary notice, pursuant to sections 4.2.1 and 4.2.2 of the Additional Information.

2.2.7.1. Loans origination criteria and procedures

(i) Presentation of the Operations Department

The main tasks of the Operations Department are to capture applications (for special operations: employees, fleets, etc.), to automatically issue a report on unapproved applications based on Risk Area criteria, to validate application attachments, the order in which to pay such transactions to the car dealers, the necessary steps to digitalise essential documents for reporting purposes and the handling of additional collateral.

(ii) Application decision-making process

The request at source is “filtered” by product. For instance, traditional facilities for credit sale loans (**VAC**), including loans for the purchase of new vehicles (**VN**) and second-hand or used vehicles (**VO**) are granted for a maximum term of 96 months. Consequently, no loan exceeding this timeframe will be accepted.

However, as a consequence of the current economic downturn and a constant search for efficiency within PSA Financial Services, extra measures have been adopted in the last few years in relation to existing products. These measures include the need to approve an exception at a higher decision-making level and the automatic rejection system implemented since 2017, which has registered 3.3% in VN, 6.1% in VO and 5.5% for companies in 2021, over the percentage of applications received during the year. Exceptions for these groups are usually approved after sufficient additional collateral is obtained in the Manager or Supervisor’s opinion.

The operations decision-making process is backed up by two interconnected computer systems: OPV (*Outil Point Vente*), a system to capture point-of-sale applications, and GP (*Gestion Provisoire*), the system used to handle acceptance applications, where a report is issued for all operations.

The process involved until a decision is reached on an application may be summarised into the following stages:

- (1) Operation captured at OPV (*Outil Point Vente*). The car dealer directly completes this capture; only if the car dealer has no OPV (*Outil Point Vente*) will the application be forwarded to the Operations Department for processing.

- (2) Scoring: Sherloc (a decision-making system connected to GP (*Gestion Provisoire*)) will be used to calculate the client's scoring, based on the outcome of external Equifax/Experian database consultations and our own client file (EKIP); the necessary filters will be used to end up with an automatic approval or rejection of the application or, otherwise, to leave the application pending "under examination" in order to be manually evaluated.

If an application does not pass the study stage, the analyst will evaluate the application's feasibility based on available information and any additional data required, and will decide whether to approve, condition or reject it; the decision adopted and its reasons will be logged into the system, as well as the documents used for approval, to be included in the operation file. In either case, the car dealer may see what decision was made through the OPV (*Outil Point Vente*).

- (3) Validation and Uploading.
- (4) Payment to the car dealer: Once applications have been approved and validated, we proceed to pay for the transaction. If the Car Dealers have an advance payment facility line, they may request payment of the operation before it has been validated.

In 2021, operations captured in the Operations Department's centralised capture area registered an average of 1%. In turn, the following average percentage figures were obtained in 2021 for automatic acceptance: VN, 62.2%, VO, 40% and SMEs, 29.2%, over the total percentage of applications received.

(iii) Handling and filing of additional collateral:

In addition to solvency guarantees (properties, endorsements, etc.) PSA Financial Services may request in each case, during the acceptance process, depending on the characteristics of each loan application, facility agreement clauses that foresee the prohibition of disposal by the client of the financed asset and a reservation of title (*pacto de reserva de dominio*) in favour of PSA Financial Services at the Register of Instalment Sales of Movable Properties (*Registro de Venta a Plazo de Bienes Muebles*), throughout the life of the loan.

This reservation of title obligation may be triggered at different times during the operation's life:

- (1) upon formalisation of the facility transaction, as a condition for its acceptance; or
- (2) when an unexpected risk situation arises throughout the transaction's life, either due to existing default or generated losses.

In the first case, a requirement to provide this collateral may be automatically triggered by the system, depending on the parameters established in the decision-making system; if the scale foresees this collateral as a condition, i.e. from the very moment the product is directly defined by the Marketing & Products Service; or as an additional condition manually applied by the analysts in charge of accepting the loan application.

In the second case, if this collateral was not already required upon acceptance, it is automatically triggered depending on existing default, the seniority of the debt and the time transpired under the operation.

The following essential criteria will trigger a reservation of title process:

- (3) Criteria exclusively applied to VN natural persons (consumers and freelance workers):
 - Contracts assigned a red scoring.
 - Contracts executed for longer than 12 months, where the debt holder is foreign.
 - If the debt holder is under 22 and the contract is executed for longer than 12 months.
- (4) Criteria exclusively applied to VN retail legal persons:
 - Any contracts signed by a company incorporated less than 3 years before the execution of the agreement.
- (5) Common criteria applied to natural persons (consumers and freelance workers) and retail legal persons:
 - **VN:**
 - Contracts with financed capital of more than € 14,900.
 - If manually imposed, as a condition for acceptance.
 - If the condition is defined in the financial product.
 - If the car dealer or agent has activated the doubtful clientele indicator.
 - If the contract is entitled to “DTXA” accounting status (debt left unpaid between 90 and 150 calendar days).
 - If the contract bears the following recovery profiles: DDR (rapid deterioration) or INCE (uncertain).
 - **VO: Reservation** of title will be logged upon initial default or at the request of the Risk Management, in a letter addressed to the Contract Processing Department.

Any reservation of title not registered at the Register of Instalment Sales of Movable Properties will be contractually valid, but is only enforceable *inter partes*.

PSA Financial Services has defined the criteria explained above, governing any registration; this means that a reservation of title may be also upheld vis-à-vis third parties in high-risk cases:

- (1) By preventing a vehicle transfer to a third party.
- (2) By allowing to sue as necessary in order to lift any liens levied by third parties over the vehicles.
- (3) By improving our position in the debt holder’s insolvency.

- (4) By allowing the transferor to be criminally prosecuted for a *de facto* disposal of the vehicle.
- (5) Through entitlement to the special summary proceedings foreseen in article 16 of the Retail Instalment Sales Act.

PSA Financial Services, during the acceptance process, may request any collateral it deems appropriate to secure the successful outcome of the financing operation.

2.2.7.2. Risk study

2.2.7.2.1 *Introduction*

For each application received the client's solvency will be examined, to determine whether or not it is eligible for the loan. The procedure provides guidelines for this examination. Procedures applicable to both natural and legal persons specify the documentation that clients need to submit to confirm their solvency.

Scoring is based on three types of variables, related to:

- (i) the borrower's personal circumstances (age, marital status, etc.);
- (ii) vehicle details (seniority for an Used Vehicle, segment/brand, etc.); and
- (iii) details of the financing transaction (retail sale price, down payment, length, etc.).

The consultation of external databases is essential when deciding on a transaction. The scoring system is complemented with a set of rules.

Our assessment models classify clients into three score zones:

- (i) Green zone: automatic acceptance.
- (ii) Orange zone: subject to examination and manually decided by the Operations Department.
- (iii) Red zone: this partly entails an automatic dismissal (basically for applicants included in default bureaus), and the rest is manually reviewed.

There are basically three reasons for a manual dismissal:

- (i) a track record of default is previously detected, through external companies or in-house;
- (ii) the client lacks payment capacity to cover the loan; and
- (iii) a lack of solvency or sufficient collateral.

The decision-making system is processed through a common application for all Joint Ventures, known as Sherloc. This system is centralised in Paris for all scoring systems used by subsidiaries/branch offices, through a software tool. Consequently, any change in the system must be carried out and validated by the Head Office.

Following the procedures of each Joint Venture, Score-Card, i.e. the score assigned by the scoring system, efficacy is periodically checked and, each month, changes may be made to the decision-making system in order to optimise risk supervision.

Furthermore, the quality of automatic and manual acceptance systems is surveyed through the company's Risk Committees and the Risk Head Quarters in Paris.

For these purposes, **Joint Venture** means any entities incorporated with the purpose of formalising the cooperation between Stellantis group and Banco Santander group.

2.2.7.2.2 Documents required from clients

In addition to the loan application, covering the applicants' personal details, all contractual parties must provide the following:

- (i) A photocopy of the signatories' identity card (DNI)/ tax identification number (NIF);
- (ii) A contract signed by all the parties;
- (iii) Vehicle certification;
- (iv) Direct bank debit details; and
- (v) A signed LOPD (*Data Protection Law*) Annex.

Moreover, depending on the client's profile, the following information is required:

- (i) Natural person employees:
 - (1) A photocopy of their last payslip, which is mandatory in all cases.
 - (2) In the analyst's opinion, any other document may be requested for manual acceptance that is deemed necessary to issue an adequate report, such as: various recent payslips, bank account details, detailed labour history (particularly for foreigners with questionable background), photocopy of the applicant's lease agreement, Real Estate Tax (IBI), photocopy of the applicant's employment contract, etc.
 - (3) Analysts are suggested a percentage amount over client income, capped at 40% in a monthly loan payment/monthly income ratio. The total debt held by our clients is not systematically analysed. Details of other debts are not available at source. Payslips and all other documents are exhaustively verified upon validation by fraud detection and document manipulation experts.
- (ii) Natural person freelance workers:
 - (1) A stamped copy of the applicant's Personal Income Tax (IRPF) statement.
- (iii) Legal persons:
 - (1) Company incorporation deed (*escritura de constitución*) or registered details of its incorporation.
 - (2) Updated powers of attorney held by the signatories, or registered details of such powers of attorney.
 - (3) Corporate Income Tax statement/Balance Sheet filed for the last ended financial year and Profit & Loss Account.

If additional collateral has been requested in the form of real estate, proprietary documents will be required, such as the latest bill paid for Real Estate Tax (IBI), ownership deeds or updated extracts from the Land Registry.

If the client's labour history has been requested as a requirement, it must be confirmed as submitted.

2.2.7.2.3 *Credit Scoring description and use*

PSA Financial Services uses Credit Scoring for all VAC (Sale on Credit) applications. This scoring has been in use since 1990 and was developed in-house, whether for VN, VO or companies, based on statistical studies.

This scoring is backed up by three types of variables related to:

- (i) the borrower's personal circumstances (age, marital status, etc.);
- (ii) vehicle details (seniority if VO, segment/brand, etc.); and
- (iii) details of the financing transaction (retail sale price, down payment, length, etc.).

It will be essential to consult external databases when making a decision on a transaction.

Our decision-making systems progressively adapt, both in terms of Scoring and scale range.

The scoring system is complemented with a filtering system. A combination of scoring and filtering constitute the decision-making system, classifying applications into three scoring categories: Green (the best), Orange and Red (the worst). All green zone applications are automatically accepted by the system.

Results of the scoring application and automatic acceptance process are supervised each month. The main indicators are:

- (i) Follow-up on scoring losses;
- (ii) Quality of scoring discrimination and its most important variables;
- (iii) Follow-up on recently generated default (early alert), in terms of scoring and other variables;
- (iv) Risk and acceptance level by point of sale; and
- (v) Global follow-up on the quality of demand and production.

The decision-making system is handled through Sherlock, the common application for the PSA Group.

2.2.7.2.4 *Behaviour scoring*

PSA Financial Services has a behaviour scoring system in place for EKIP contracts (i.e. the system used to manage the accounts of retail instalment sales clients), obtained by analysing a contract's default in relation to its duration and its acceptance scoring.

It is recurrently used throughout the transaction, as a fundamental part of the collection management process.

2.2.7.2.5 *Evaluation of borrower creditworthiness*

In order to evaluate our clients' short and medium-term financial solvency, the following criteria are generally taken as guidance:

- (i) For natural persons:
 - (1) The applicant must generate monthly income above the minimum wage.
 - (2) The loan payment/income ratio must be below 40%.
 - (3) The applicant must have been employed for more than 2 years.
 - (4) In the absence of any of the foregoing, sufficient additional collateral must always be obtained in each case.
 - (5) If our analyst requires a property title to secure solvency for the loan, the spouse must co-sign as a guarantor.
- (ii) For companies:
 - (1) For companies incorporated less than 3 years ago or which, albeit with longer seniority, have proprietary equity of under € 30,000, a bank guarantee (*aval*) will be necessary (subject to justified exceptions) that enjoys the necessary solvency based on the risk inherent to the transaction.
 - (2) Bad debt "bureaux" (Asnef/Equifax, Badexcug/Experian and RAI) should always be consulted to obtain background details on all members of the applicant company. This consultation involves checking the default track record of the company (debt left unpaid for 60 or 90 calendar days, in each case) and its members, and is therefore not related to financial data. Financial data (Balance Sheet and P&L Account) will be analysed further to extracts from the commercial registry, Informa or the company's Corporate Income Tax statement, mainly.

These criteria are generally taken into account, based on the documents submitted by our clients (indicated in 2.2.7.2.2 above). All original documents should be provided to the car dealer, which will take care of the necessary photocopies. In this way, the authenticity of the documents submitted is ensured, to a large extent.

2.2.7.2.6 *Databases consulted when analysing a loan application*

Default databases of ASNEF/Equifax and Badexcug/Experian (clients with a ">60 calendar days" default track record) are systematically consulted for each application received. This consultation checks any negative payment information available on the various parties involved in a transaction. However, an ASNEF/Equifax project and a similar one between Badexcug/Experian are currently at an implementation stage (and not operative for the moment), which would allow a future consultation of positive information on the payment history of the parties involved.

In all cases, historic internal databases are also consulted.

The Bank of Spain's Central Office for Risks is periodically consulted in relation to large clients for whom an outstanding risk has been previously reported. In these cases, information on these clients' outstanding risks may be obtained from other financial institutions and banks.

The price bases for Used Vehicles (Ganvam) are automatically and systematically consulted by our validators, in order to avoid the risk of over-charging.

Other databases, such as Informa or the Registry of Unpaid Loans (RAI), are sometimes consulted if, for instance, information or confirmation is necessary on the official statements (balance sheet) of a loan applicant company.

Furthermore, each captured application also involves our Hunter sector fraud tool (supplied with information from brand financial institutions) and the Confirma fraud tool (supplied by multiproduct financial institutions). Both tools cross-reference various application fields for potential fraud alerts, allowing the detection of possible attempted fraud.

2.2.7.3. Case Examination. Approval Process

Applications are directly approved by the GP (*Gestion Provisoire*) system, and is subject to the highest security standards. Only authorised persons may approve transactions, depending on the level of their entrusted duties.

2.2.7.4. Volume Data and Processing Times

In late 2007, several risk prevention measures were adopted to exhaustively control the risk inherent to our accepted demand. As a result of a highly selective reporting effort, PSA Financial Services has been able to maintain a balance in the risk undertaken without negatively impacting our sales activity. These measures may be summarised as follows:

- (i) More anti-fraud checks (particularly to verify employment), which have allowed us to maintain fraud losses at a historical minimum (just 0.023% files in 2021).
- (ii) More Registry verifications of client properties: this will depend on the analyst's opinion but particularly applies to certain risk groups (basically in the red zone) and especially for foreigners, freelance workers/industrial vehicles, construction sectors, loans requested for a very long term, and senior VO.
- (iii) Manual treatment of risk niches detected in our automatic acceptance.
- (iv) Restrictions on the main risk niches, particularly in VO, submitting an approval from higher decision-making levels.
- (v) Analysis of initial default (analyst feedback).

All these measures have entailed high exhaustive control of all automatically dismissed applications, which have remained under 4.3% in 2021.

2.2.7.4.1 Average processing time of facility applications

A report is immediately issued in all automatically approved applications (56.34% of all applications). However, applications subject to a manual report involve the following average time between capture and approval:

- (i) For natural persons: one (1) day maximum.
- (ii) For companies: two (2) calendar days maximum.

2.2.7.4.2 *Volume of applications*

The volume of applications received in 2021 totalled 65,375 applications from natural persons and 11,437 from companies. This volume is irregular over the year, with very noticeable seasonality.

2.2.7.4.3 *Dismissed applications*

In 2021, the dismissal rate of loan applications for natural persons was 8.9% and 16.5% for legal persons; the usual reasons for non-acceptance were lack of payment capacity and solvency of the loan applicants. PSA Financial Services has instructions in place as guidance in the acceptance process, which seek to limit the risk undertaken.

The non-formalisation rate (approved applications eventually not formalised) was 17.1%⁶ in 2021.

2.2.7.5. Recovery process for non-performing loans

All collection proceedings, whether amicable or contentious, are entrusted to the recoveries manager at PSA Financial Services.

Specifically, an amicable settlement by phone within 1 to 65 calendar days since the default date is directly carried out at the *Plataforma Telefónica Sur Madrid* (South Madrid Call Centre), physically located on the same facilities and locally reporting to the recoveries manager.

The management of PSA Financial Services works on the entire family of loan products for Retail, Fleets and Car Dealer Risk, once sales representatives are considered to have completed their work (in this last case).

Furthermore, the management of PSA Financial Services (specifically as a sub-process of the Contentious Department) will supervise and ensure that all failed operations are adequately handled, in order to study and propose a sale loss (if any).

Starting in December 2015, PSA Financial Services launched a Recovery WEB (EWR) allowing its clients to continue to individually handle their procedure at any time. Through this website, the client may pay the debt with a credit card, process a payment agreement and contact PSA Financial Services, whether directly or by scheduling an appointment with the company.

For more than 20 years, PSA Financial Services has been committed to using specialised processes and remedies that guarantee the quality of collection management, adapting the resources assigned according to the moment in time and economic scenario, thus guaranteeing controlled risk costs.

Throughout the transaction, a behaviour scoring policy is followed, whether automatically when identifying campaigns or manually by using SAS-type statistic tools.

In addition to behaviour scoring, which is activated upon initial default under the loan, and acceptance scoring, PSA Financial Services' prioritisation criteria are based on debt seniority and the outstanding risk of the file. These variables are used to design our collection strategy, by risk levels and subject to an overall target-based working strategy.

The table below shows the various management levels in the collection process.

⁶ Data not yet mature due to delays in vehicle deliveries (microchips crisis).

Management Levels	Mission
Self-Management Service	The client handles its own management through the website (EWR), using payment gateways, with client guidance through vocal IVR instructions.
Payment by phone, current South Madrid Call Centre	To reinstate clients in temporary financial distress into the regular payment circuit, with continued good relations. All steps are carried out by phone, texting, letters and e-mail.
Pre-contentious or Personalised Management	Personalised management will be used to regularise default. If regularisation is not possible, the client is redirected to Field Collection.
Contentious Collection	To recover as much unpaid debt as possible after the file is carried to losses. At this stage, if the client is solvent, legal proceedings usually begin. If it is not solvent, external companies are used to reach an amicable settlement with the client over a certain period of time.
Field Collection	This horizontal system is used at any time in the process, to regularise default. If this channel is not feasible over a reasonable period of time, another type of solution may be negotiated with the client (delivery of the vehicle, etc.)
Special Measures and Fraud	A horizontal system triggered in high-risk situations and in DDR (rapid deterioration) alerts, prioritising potential fraud cases.

These different management levels guarantee that various types of default receive specific treatment:

- (i) New automatic submissions to the bank.
- (ii) Client calls (with varying call lists depending on client complexity, characteristics and payment experience: re-offending borrowers, unkept promises, new clients, two payment defaults, etc.).
- (iii) All clients receive individual calls: each Personalised Management operator is assigned an individual portfolio.
- (iv) Client visits (personal contact). If the problem is not resolved with a credit payment or debt refinancing, the financed vehicles are eventually recovered (very often in an amicable manner).
- (v) Legal action.

All collection management is target-based; these targets must be met at each management level.

Level-one amicable collection by phone is carried out through a company call centre, using PSA Group in-house technology, to guarantee:

- (i) The management of calls on hold.
- (ii) Optimised operator time.

- (iii) Line and operator behaviour statistics.
- (iv) Flexibility when using technical and human resources.

This call centre has been in use since 1990. In June 1997, all activity was centralised.

Personalised management uses databases with basic client details and the necessary management tools to ensure continuous supervised management.

The personalised management team was formed in 2003 and consists of experienced collection managers ascribed to the risk management area. It brings together senior managers with the greatest negotiation potential.

Mobile offices are used for field collection, to guarantee:

- (i) That these collection managers are separate, both in geographical and organisational terms.
- (ii) Process uniformity and rationalised tasks.
- (iii) Low management costs.
- (iv) That information is available for a single common procedure applied to all management centres (optimised information flow between telephone management and field management).
- (v) Paperless procedure.
- (vi) A common tool to plan each operator's work.
- (vii) Back-up provided by two external recovery companies and on-site processing.

Specific technology is used for collection (generally speaking, the CCI tool used to handle recovery calls), both for the call centre and for pre-contentious management. The Exped III system is used to follow up on contentious collection. The call centre specifically uses Genesys and Alcatel technology.

The field management team is made up of highly experienced staff, nearly all of whom have more than ten years' work experience.

All cases are forwarded from a management centre/type to another management centre/type, either automatically or as decided by the operator. Management levels by seniority are itemised below:

Day	Action
D	Receipt of 1 st non-payment
D+1	– Based on an analysis of the client's payment behaviour:
An amicable self-service phase for a client leaving an occasional bill unpaid	– A second submission is automatically sent to the bank depending on the file scoring (no automatic submission is triggered for rapidly deteriorating or reoffending debtors)

Day	Action
	<ul style="list-style-type: none"> – A text message/email is generated to report the debt, inviting the client to pay through the recovery website (EWR)
<p>D+2</p> <p>The contract is handled through the call centre, for outgoing and incoming calls. A text message and email are sent to locate and report to a client</p>	<ul style="list-style-type: none"> – If the bank account balance is sufficient: <ul style="list-style-type: none"> – A new submission is manually sent to the bank, only at the client's request and in very specific cases. – An informative email is sent to the client, claiming bill payment rejection fees and default interest. – If there is insufficient balance in the account: <ul style="list-style-type: none"> – A letter of payment is issued (to be submitted to the bank) and initial phone contact made.
<p>Between D+2 and D+65</p> <p>The same applicable in the previous phase. Transition to a higher level should be avoided</p>	<ul style="list-style-type: none"> – Amicable negotiations by phone (promises to pay + follow-up)
<p>Between D+2 and D+65</p> <p>The case of a reoffending client will be individually handled depending on debt risk and seniority, in order to avoid the transaction's deterioration and default</p>	<ul style="list-style-type: none"> – An individual portfolio of reoffending clients is handled by phone, at level one of this personalised management, or if the operator (based on field-redirection criteria) considers that the case should be forwarded to Field Collection.
<p>Between D+66 and D+90</p> <p>Personalised management depending on debt risk and seniority, to avoid the transaction's deterioration and default</p>	<ul style="list-style-type: none"> – An individual portfolio is handled by phone, at level two of this personalised management, or if the operator (based on field-redirection criteria) considers that the case should be forwarded to Field Collection.
<p>Between D+91 and D+120</p> <p>Like in the previous phase</p>	<ul style="list-style-type: none"> – An individual portfolio is handled by phone, at level three of this personalised management, or if the operator (based on field-redirection criteria) considers that the case should be forwarded to Field Collection.
<p>Between D+121 and D+150</p> <p>Like in the previous phase</p>	<ul style="list-style-type: none"> – An individual portfolio is handled by phone, at level four of this personalised management, or if the operator (based on field-redirection criteria) considers that the case should be forwarded to Field Collection.

Day	Action
At any time, but usually between D+65 and D+150	– Field Collection Management.
If 150 calendar days have elapsed since the initial non-payment	– Court proceedings are filed or an amicable contentious procedure is followed.

In short, the standard time for amicable handling through the call centre is 1 to 65 calendar days; 66 to 150 calendar days if the procedure is amicable but personalised for each senior operator; and, for more than 150 calendar days in a contentious case, either in court with legal counsel or amicably (with legal counsel or in-house). Field collection may take part at any point in this process.

2.2.7.5.1 *Supervision of outstanding debt accounts*

Several supervision reports are drawn up for outstanding debt, of which the most important are:

- (i) “Stock Unpaid” or “stock of outstanding debt”.
- (ii) A monthly report issued by the recoveries management, including the most important information on all collection management centre activity (amongst others).
- (iii) A complete system of graphic management through Obeya Recoveries, which aggregates a variety of indicators in all sub-processes and teams.
- (iv) Specific “Tableau de Bord” for recoveries.

Asset Sales (Repossessed Units):

PSA Financial Services is entitled to sell its recovered vehicles in two cases:

- (i) If the vehicle has been amicably handed over by the client as part of a debt negotiation process.
- (ii) If the vehicle has been recovered through an ongoing lawsuit.

Vehicle recovery takes place either through our collection operators (amicable process) or through attorneys in charge of court claims or external recovery companies (contentious). The Seller’s sale procedure depends on the offers obtained. This sale process begins when PSA Financial Services has all the necessary documentation.

At present, sales are generally completed through “MOTRADA” on-line auctions.

In all cases, the vehicle is appraised by an external appraiser.

Once the necessary approval is obtained, the unit will be sold during the same month of approval.

Only upon confirmation of payment will the vehicle be withdrawn from the associated car dealer’s facilities.

2.2.7.6. Special consideration relating to the legal effects and remedies available to the creditor under a loan agreement including a reservation of title provision

Loan agreements including a reservation of title provision may be:

- (a) formalised as a Public Document or as a private document;
- (b) drafted following the official form or not; and
- (c) registered with the Register of Instalment Sales of Movable Properties (and therefore in the Vehicles Register of the Spanish General Traffic Directorate) or not.

In addition, in connection with limb (c) above, only those loan agreements drafted following the official form (formalised either as a Public Document or as a private agreement) can be registered with the Register of Instalment Sales of Movable Properties.

Furthermore, in general, upon breach by the borrower of its obligations under a loan agreement including a reservation of title provision, the creditor may elect between (i) declaring the acceleration of the loan agreement and claim payment of all amounts due thereunder; (ii) claiming exclusively the unpaid amounts.

The legal regime, effects and protections for the creditor in case of a breach of a loan agreement with a reservation of title provision may vary depending on the features listed above.

A summary of the legal regime, effects and protections for the creditor in loan agreements with a reservation of title provision depending on each of these features is included below:

- (i) *Reservation of title provision included in a loan agreement formalised as a private document and not following the official form.*

Benefits and preferences

The creditor under a loan agreement formalised as a private document not following the official form will not be able to benefit from the preferences and priorities foreseen in (x) article 1922.2 of the Civil Code, by virtue of which credits secured with a security over a relevant asset will enjoy preference up to the value of the asset and (y) article 1926.1 of the Civil Code, by virtue of which, if two or more co-existing credits over certain movable assets, a credit secured with a security over such asset will exclude the remaining credits up to the value of the secured asset, nor will be able to benefit from the right of separation in case of insolvency of the owner of the vehicle.

Effectiveness against third parties

Loan agreements formalised as a private document not following the official form will only be effective between the parties to the loan agreement. Good-faith purchasers (*adquirentes de buena fe*) of the vehicle could argue that they were not aware of the existence of a reservation of title over the vehicle, and consequently the reservation of title provisions will not be enforceable against such good-faith purchasers.

Available proceedings

The creditor will only be entitled to initiate a declarative court proceeding for the recognition of its right to receive payment under the loan agreement prior to initiating an enforceable action against the assets of the borrower.

Such declarative court proceedings will commence with the filing of a claim (*demanda*) and the reply (*contestación*) of the borrower. After this, there will be a preliminary hearing (*audiencia previa*) where all the formal or procedural issues will be discussed. At this moment, the parties will request the application of the relevant means of evidence.

The next step will be the trial (*juicio*) where the witnesses and experts pose their arguments and will conclude with the court ruling (*sentencia*). In the event that the ruling was in favour of the creditor, if the borrower does not comply with the obligations of the ruling, the creditor will be able to request the enforcement of the ruling and the corresponding seizure of the assets (including the vehicle). In case the borrower does not comply with the obligations of the ruling or appeals it, the creditor will still be able to request the provisional enforcement of the ruling.

Declarative court proceedings would normally take significantly longer than a notarial or court enforcement proceeding (generally, not less than one year and a half and up to two to three years to finalise the proceeding if there are appeals – even more depending on the court workload).

- (ii) *Reservation of title provision included in a loan agreement formalised as a private document following the official form.*

Benefits and preferences

Benefits and preferences of the creditor under a loan agreement formalised as a private document following the official form will depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- (1) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, the benefits and preferences of the creditor under the loan agreement will be those described in paragraph (i) above.
- (2) If the loan agreement has been registered with the Register of Instalment Sales of Movable Properties, the creditor will have a right of separation over the vehicle in the event of insolvency of the vehicle owner. In such case, the vehicle will not be included in the insolvency estate (*masa activa*) of the owner and therefore will not be taken into account when assessing the assets held by the owner of the vehicle to pay the amounts due to his/her creditors. However, it will be possible to include in such insolvency estate any excess after repayment of the amounts due to the creditor under the loan agreement. In addition, the creditor would also enjoy the preference and priority set out in articles 1922.2 and 1926.1 of the Civil Code explained in section (i) above.

Effectiveness against third parties

The effectiveness against third parties of a loan agreement formalised as a private document following the official form will depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- (1) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, it will only be effective between the parties to the loan agreement, as described in paragraph (i) above.
- (2) If the loan agreement has been registered with the Register of Instalment Sales of Movable Properties, the loan agreement will be effective against third parties. This

means that a good-faith purchaser (*adquirente de buena fe*) will not be able to argue that it was not aware of the reservation of title provision over the vehicle, and thus this reservation of title provision will be enforceable against such good-faith purchaser.

Available proceedings

The proceedings available to the creditor under a loan agreement formalised as a private document following the official form will depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- (1) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, the only proceedings available to the creditor would be the declarative court proceedings described in paragraph (i) above.
- (2) If the agreement has been registered with the Register of Instalment Sales of Movable Properties, the proceedings available to the creditor would be (A) the declarative court proceeding described in paragraph (i) above; and (B) the notarial enforcement proceeding described below. In addition, it would also enjoy the additional protections in case of sale of the secured asset to a third party explained below.

In particular, in case of breach of a loan agreement registered with the Register of Instalment Sales of Movable Properties, the creditor may initiate the enforcement proceeding against the secured asset set out in article 16.2 of Retail Instalment Sales Act. It should be noted that these proceedings can only be used by the creditor to enforce against the assets covered by the reservation of title provision and not against any other assets of the borrower.

A summary of the proceeding set out in article 16.2 of the Retail Instalment Sales Act is included below:

- A. The creditor, through a notary public of (x) the place where the assets covered by the reservation of title provision are located, or (y) the place where payment should be made or (z) the place of the borrower's address, will claim the relevant payment from the borrower, indicating the total amount claimed and the cause of early termination the secured obligation. In addition, the borrower will be advised that, in case of failure to comply with the relevant obligation, the creditor will proceed to enforce against the secured assets pursuant to the provisions of such article 16.2 of the Retail Instalment Sales Act. Unless otherwise agreed, the amount payable by the borrower (*cantidad líquida, vencida y exigible*) will be the amount specified in the certificate issued by the creditor, provided that it has been verified, through a notary public, that it has been calculated by the creditor in accordance with the relevant loan agreement and that such amount reflects the accounting books of the creditor.
- B. The borrower, within three (3) Business Days following the date on which he/she received such claim demand shall pay the amount claimed or will deliver the possession of the secured assets to the creditor or to the person designated by the creditor in the claim demand.
- C. If the borrower fails to pay within the above mentioned three-business-day period, but voluntarily delivers the possession of the secured assets, such

secured assets will be sold at a public auction with the intervention of a notary public.

The rules set out in article 1872 of the Civil Code, the Notarial Act and any complementary provisions, as well as the standards regulating the professional activity of public notaries will apply to such public auction. Without prejudice to the foregoing, the creditor may opt for the award of the assets in lieu of payment without the need to attend the public auction. In this case, the provisions of item E of this section will apply.

- D. Should the borrower fail to pay the amount claimed and to deliver the possession of the secured assets, the creditor may request from the competent court the protection of its rights through enforcement action or repossession of the secured assets in accordance with articles 250.1.10 and 250.1.11 of the Civil Procedure Act.
- E. In case of acquisition by the creditor of the assets delivered by the borrower in lieu of payment, if the value of the secured assets at the time of their delivery to the creditor, according to the reference tables or indexes of depreciation established in the relevant loan agreement, was (x) lower than the claimed amount, the creditor will have a claim against the borrower for the outstanding amount; (y) higher than the claimed amount, the borrower will have a claim against the creditor for the excess amount.

In the event that no mechanism for the calculation of such depreciation has been agreed in the loan agreement, the relevant parties must justify such depreciation in the relevant declarative court proceeding (*procedimiento declarativo*).

- F. In case of sale of the asset in a public auction, if the value of the asset according to the award price at the auction was (x) lower than the claimed amount, the creditor will have a claim against the borrower for the outstanding amount; (y) higher than the claimed amount, the borrower will have a claim against the creditor for the excess amount.

In the event that the assets subject to a reservation of title provision registered in the Register of Instalment Sales of Movable Properties, are in possession of a third party other than the original borrower (including, for the avoidance of doubt, a good-faith purchaser (*adquirente de buena fe*)), the following will apply:

- 1. The third party possessor of the secured assets (including a good-faith purchaser) will be required through a notary public, to pay the claimed amount or deliver the possession of the secured assets within three (3) Business Days.
- 2. If the third party possessor of the secured assets (including a good-faith purchaser) pays the claimed amount to the creditor, he/she will be subrogated into the contractual position of the creditor against the original borrower. If the asset is delivered, all enforcement measures, whether processed before a notary public or in court, will be followed and any excess after full satisfaction of the amounts due to the creditor will be handed over to the purchaser (or any other party in possession of the asset). If the party in possession of the asset fails to pay or to deliver such assets, the provisions of items D et seq. above will apply.

- (iii) *Reservation of title provision included in a loan agreement formalised as a Public Document and not following the official form.*

Benefits and preference

If the loan agreement has been formalised as a Public Document and not following the official form, the creditor will enjoy the preference and priority set out in articles 1922.2 and 1926.1 of the Civil Code, as described in section (i) above. However, as indicated in section (i) above, the creditor will not have the right of separation described in section (ii) above.

Effectiveness against third parties

Loan agreements formalised as a Public Document not following the official form will only be effective between the parties to the loan agreement, in the terms described in section (i) above.

Available proceedings

If the loan agreement has been documented in a Public Document, it will be considered as an enforceable title (*titulo ejecutivo*) according to article 517.2 of the Civil Procedure Act (provided that the requirements set out in the Civil Procedure Act have been complied with).

In such case, the following proceedings would be available to the creditor:

- (1) The declarative court proceedings described in section (i) above.
- (2) The enforcement court proceedings. The enforcement court proceedings will commence with the filing with the court of an enforcement claim (*demanda ejecutiva*), to which the borrower can oppose on the basis of limited grounds, and the subsequent resolution of the court ordering the seizure of the assets of the borrower (including, without limitation, the secured assets, in case these are still held by the borrower).

- (iv) *Reservation of title provision included in a loan agreement formalised as a Public Document and following the official form.*

Benefits and preference

Benefits and preferences of the creditor under a loan agreement formalised as a Public Document following the official form will depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- (1) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, the creditor will enjoy the preference and priority set out in articles 1922.2 and 1926.1 of the Civil Code, as described in section (i) above. However, the creditor will not be able to benefit from the right of separation in case of insolvency of the owner of the vehicle described in section (ii) above.
- (2) If the loan agreement has been registered with the Register of Instalment Sales of Movable Properties, the creditor will enjoy the benefits and preferences set out in articles 1922.2 and 1926.1 of the Civil Code and it will benefit from the right of

separation in case of insolvency of the owner of the vehicle described in section (ii) above.

Effectiveness against third parties

The effectiveness of a loan agreement that is formalised as a Public Document following the official form will depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- (1) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, it will only be effective between the parties to the loan agreement, as described in paragraph (i) above.
- (2) If the loan agreement has been registered with the Register of Instalment Sales of Movable Properties, the loan agreement will be effective against third parties. This means that a good-faith purchaser (*adquirente de buena fe*) will not be able to argue that it was not aware of the reservation of title provision over the vehicle, and thus this reservation of title provision will be enforceable against such good-faith purchaser.

Available proceedings

If the loan agreement has been documented in a Public Document, it will be considered as an enforceable title (*título ejecutivo*) according to article 517.2 of the Civil Procedure Act (provided that the requirements set out in the Civil Procedure Act have been complied with). In such case, the proceedings available to the creditor would depend on whether or not the loan agreement has been registered with the Register of Instalment Sales of Movable Properties:

- (1) If the loan agreement has not been registered with the Register of Instalment Sales of Movable Properties, the proceedings available to the creditor will be those envisaged in section (iii) above (i.e., the declarative court proceedings and the enforcement court proceedings).
- (2) If the loan agreement has been registered with the Register of Instalment Sales of Movable Properties, the creditor will be able to initiate, in addition to any of the proceedings envisaged in paragraph (1) above, the notarial enforcement proceeding described in section (ii) above.

None of the Fund, the Management Company, the Arranger, the Paying Agent, nor any other person has undertaken or will undertake any investigations, searches or other actions to verify the information concerning the Loans or the Receivables or to establish the creditworthiness of any Borrower or any other party to the Transaction Documents. Each such person will rely solely on the accuracy of the representations and warranties given by the Seller to the Fund in the Master Sale and Purchase Agreement and the Deed of Incorporation in respect of, among other things, itself, the Loans, the Receivables, the Borrowers and the Loan Agreements and which have been reproduced in this section 2.2.8 of the Additional Information.

Should any of the Receivables not comply with the any of the Eligibility Criteria as of the Initial Assignment Cut-Off Date or the relevant Assignment Date (as applicable), the Seller will be required to remedy such breach or replace the relevant Receivables in accordance with the terms and conditions set out in section 2.2.9 of the Additional Information.

Additionally, any breach of the representations and warranties of the Seller in respect of itself included in paragraph (i) of this section 2.2.8 will be considered a Revolving Period Early Termination Event as per section 4.9.2.1.1 of the Securities Note.

The Seller is under no obligation to, and will not, provide the Arranger, the Fund or the Management Company with financial or other personal information specific to individual Borrowers and the Loan Agreements from which the Receivables arise.

Should the Seller fails to comply with appropriate remedial action under the terms set out in section 2.2.9 of the Additional Information this may have an adverse effect on the value of the Receivables and, ultimately, on the ability of the Fund to make payments under the Notes.

For these purposes:

Transaction Documents means the Deed of Incorporation, the Master Sale and Purchase Agreement, the Start-Up Expenses Loan Agreement, the Reinvestment Agreement, the Management and Subscription Agreement, the Paying Agency Agreement, the Seller Loan (if any) and the Interest Rate Swap Agreement.

Master Sale and Purchase Agreement means the master receivables sale and purchase agreement to be entered into on the Date of Incorporation by the Management Company, for and on behalf of the Fund, and the Seller, by virtue of which the Receivables shall be assigned to the Fund.

Loan Agreement means the loan agreements entered into with the Borrowers by virtue of which the Loans are granted in favour of the Borrowers in accordance with the terms thereof.

Ancillary Rights means, with respect to each Receivable: (a) any ancillary rights including without limitation any security interests, guarantees or indemnities (whether over real or personal property and including, but not limited to, reservation of title provisions); and (b) any rights or compensations corresponding to the Seller under any insurance policy (including Optional Supplementary Services).

Optional Supplementary Services means the complementary services to the Loan Agreements and related to, if applicable, insurance policies that provide an additional guarantee over the financial transaction or the financed asset, which are Ancillary Rights to the Receivables arising from the execution of the Loan Agreement or the acquisition of the Vehicle.

2.2.9. Remedial actions in connection with the Receivables

If at any time after the Incorporation Date, the Seller (as Seller or Servicer) or the Management Company detects or otherwise becomes aware that any Receivable was not in compliance as of the Initial Assignment Cut-Off Date or the relevant Assignment Date with the Eligibility Criteria, the Seller agrees, subject to the Management Company's consent, to proceed forthwith to remedy such failure, and provided that such remedy is not possible, to replace or redeem the affected Receivable by automatically terminating the assignment of the affected Receivable, subject to the following rules:

- (i) The party becoming aware of the existence of a non-conforming Receivable, whether the Seller (as Seller or Servicer) or the Management Company, will notify such circumstance to the other party. The Seller will have up to fifteen (15) Business Days from such notice to proceed to remedy such circumstance if capable of being remedied or to replace the non-conforming Receivable.
- (ii) Replacement will be made for the Outstanding Balance of the Receivable plus accrued and unpaid interest and any other amount owed to the Fund until the date on which the relevant non-conforming Receivable is replaced.

In order to proceed with the replacement, the Seller will notify the Management Company of the characteristics of the Receivable proposed to be assigned satisfying the Eligibility Criteria, and having similar characteristics to those of the non-conforming Receivable (in terms of purpose, term, interest rate and outstanding balance). When replacing a Receivable, the Seller must attest that the new Receivable conforms to the Eligibility Criteria. Once the Management Company has verified the suitability of the terms of the new Receivable, the Seller shall proceed to replace the non-conforming Receivable and will assign the new Receivable or Receivables.

Once a month, the replacement of the Receivables shall be communicated to CNMV by delivering the following documents: (i) via CIFRADOC, a list of Receivables that have been assigned to the Fund up to such date; and (ii) a statement by the Management Company and signed by the Seller that such Receivables meet all the Eligibility Criteria for their assignment to the Fund.

- (iii) If any non-conforming Receivable is not replaced or capable of being replaced in accordance with the procedure set out in paragraph (ii) of this section, the Seller will proceed to automatically terminate the assignment of the non-conforming Receivable. The termination will take place by means of the cash repayment by the Seller to the Fund in an amount equal to the relevant Outstanding Balance of the Receivable, plus any accrued and unpaid interest, and any other amount that might correspond to the Fund until such date. Such amount will be paid by the Seller into the Treasury Account.
- (iv) In the event of replacement or termination of the assignment of non-conforming Receivables, the Seller will be vested with all rights attached to those non-conforming Receivables accruing from the relevant termination date.

For the avoidance of doubt, the Seller will not replace, repurchase or redeem Receivables that are affected by Covid-19 Moratoriums or any other Moratoriums after their assignment to the Fund.

2.2.10. A description of any relevant insurance policies relating to the assets. Any consultation with one insurer must be disclosed if it is material to the transaction

Under each Loan Agreement, Borrowers are offered the possibility to subscribe (subject to the fulfilment of the conditions specified at each moment) Optional Supplementary Services related to insurance policies that provide an additional guarantee to the Loan (such insurances are, in any case, considered Ancillary Rights).

The types of insurance that constitute Ancillary Rights are the following:

(i) Monthly payment auto insurance:

Monthly payment auto insurance is designed for individuals who finance the purchase of New Vehicles. There are two types of monthly payment auto insurance available: (1) full insurance with excess (*con franquicia*), and (2) full insurance without excess (*sin franquicia*).

In case of total loss of the Vehicle due to accident, fire or theft, the Vehicle is covered by the insurance company's indemnification (a) up to the value of the Vehicle as new in the first and second year or (b) up to the market value of the Vehicle in the subsequent years.

The Fund will be the beneficiary of the corresponding payments by the insurance company under the relevant insurance policy.

This insurance becomes effective from the date of delivery of the relevant Vehicle.

In addition to the insurance policy, the Borrower executes with the Seller a document separate from the Loan Agreement, containing special payment conditions and which provides that the insurance premia are not financed by the Seller.

Insurance premia are paid by the Borrower on a monthly basis.

(ii) Credit insurance (CPI):

Credit insurance is designed to guarantee the repayment of the outstanding balance of the Loan as of the date of the occurrence of the insured event (excluding unpaid amounts) in case of death, permanent and absolute disability and temporary disability of the Borrower.

Credit insurance is available to individuals and self-employed persons, of legal age, who may not reach the age of 65 during the financing period.

The Fund will be the beneficiary of the corresponding payments by the insurance company under the relevant insurance policy.

The credit insurance becomes effective from the date of execution of the Loan Agreement.

The Borrower shall enter into an insurance policy, as a separate document from the Loan Agreement.

Credit insurance premia are paid by the Borrowers on a monthly basis and are not financed by the Seller. The Borrowers may cancel the insurance policy at any time. In the event of payment default by the Borrower under the insurance policy, the Seller will pay to the insurance company the insurance premia until the third payment default, when the cancellation of the insurance policy will be communicated to the Borrower.

(iii) Auto protection insurance:

Auto protection insurance is designed to release the Borrower from payment of all or part of the outstanding balance of the Loan in the event of total loss of the Vehicle due to accident, fire or theft, in addition to compensating the Borrower for any financial losses that he/she may suffer in such cases, and assisting him/her in the acquisition of a new vehicle.

Auto protection insurance is available for individuals and self-employed persons.

The Fund will be the beneficiary of the corresponding payments made by the insurance company under the relevant insurance policy.

Auto protection insurance is a supplementary insurance, so the actual indemnification received from the insurance company will depend on the type of car insurance:

- (1) *Third party insurance:* the indemnification paid by the insurance company is equal to the outstanding balance of the Loan. The corresponding payment is transferred to the Fund as a collection (and therefore, will form part of the Available Funds);
- (2) *Fully comprehensive insurance:* the indemnification paid by the insurance company is equal to the lesser of (1) the outstanding balance of the Loan or (2) the difference between the market value of the Vehicle (as per the tables provided by GANVAM, EUROTAX, and AUTOBIZ) and the amount indemnified by the insurance company.

The auto protection insurance becomes effective from the date of execution of the Loan Agreement.

The Borrower shall enter into an insurance policy, as a separate document from the Loan Agreement.

Auto protection insurance premia are paid by the Borrowers on a monthly basis and are not financed by the Seller.

Section 2.2.2.4 of the Additional Information detail the Loan Agreements included in the Preliminary Portfolio that benefit from the insurance policies described in the preceding sections..

 - (2) The portion corresponding to the payment of Receivables Accrued Interest for each of the Receivables shall be paid by the Fund to the Seller, regardless of the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments of the Fund, on the Payment Date after the collection date on which the amounts delivered by the Servicer to the Fund in relation to the amounts received from the Borrowers corresponding to such Receivables Accrued Interest during the immediately preceding Determination Period are reconciled.

Consequently, the Fund shall pay to the Seller on each Payment Date an amount equal to the amounts paid by the Borrowers during the immediately preceding Determination Period corresponding to Receivables Accrued Interest for each of the Receivables as the purchase price related to the Receivables Accrued Interest. The Seller shall not receive any interest for the postponement of the payment of the purchase price related to the Receivables Accrued Interest.

- (ii) The Seller does not assume the risk of payment default of the Receivables and, therefore, does not assume any liability for the payment default by the Borrowers, whether for principal, interest or any other amount due under the Loan Agreements, nor does it assume the effectiveness of the guarantees or security granted as security thereof, if any. Furthermore, the Seller will not in any other manner whatsoever guarantee directly or indirectly the success of the transaction or give any security or enter into any repurchase or replacement agreements as regards the Receivables, except as described in section 2.2.9 of this Additional Information.
- (iii) The notification regime to the Borrowers is regulated under section 3.7.1.12 of the Additional Information.

3.3.2.3. Scope of the assignment

The assignment of the Receivables will confer to the Fund the right to receive any payments for principal amount, ordinary interest and all Ancillary Rights in accordance with the provisions of article 1528 of the Civil Code. For the avoidance of doubt, the assignment of the Receivables in favour of the Fund will not comprise any obligations of the Seller under the Loan Agreements or any other documents (including, without limitation, the Global Agreement or the Marketing Action). As a result, the assignment of the Receivables will confer the Fund the right to receive the following amounts under the Loans:

- (i) all amounts of principal under the Loans;
- (ii) all amounts accrued as ordinary interest on the Loans (excluding, for the avoidance of doubt, default interest);
- (iii) any other amounts, assets or rights that might be received, if applicable, by the Seller in the form of the auction price or the amount determined by virtue of a court decision, or as a result of the disposal or use of the assets awarded or, as a result of such enforcements, from the provisional administration and possession of the assets during the enforcement proceedings;
- (iv) all rights, compensations or indemnification claims that might arise in favour of the Seller, as well as those arising from Ancillary Rights related to the Receivables (excluding fees), including payments by guarantors or under insurance policies, if any, assigned to the Fund by the Seller;
- (v) all amounts due by the Adhered Concessionaires as payment of the purchase price of the Vehicles under the Marketing Action; and
- (vi) all other amounts due by PSAG under the Global Agreement in connection with the Receivables and the Vehicles.

All these rights shall accrue to the benefit of the Fund (i) in respect of the Initial Receivables, from (and including) the Initial Assignment Cut-Off Date; and (ii) in respect of the Additional Receivables, from (and including) the relevant Assignment Date.

Any payments made by the Borrowers in respect of fees for claims of unpaid instalments, fees for subrogation, fees for early redemption or cancellation and any other fees (including fees for opening, study and information, where appropriate) or expenses will not be assigned to the Fund and will therefore continue to correspond to the Seller.

The rights of the Fund resulting from the assignment of the Receivables are linked to the payments made by the Borrowers under the Loans from which such Receivables arise and, therefore, are directly affected by the evolution, delays, pre-payments and any other incident related to such Loans. Bank expenses arising from the collection of payment defaults and expenses arising from pre-judicial, judicial or contentious proceedings will be borne by the Servicer, notwithstanding the Servicer's reimbursement right *vis-à-vis* the Fund provided for in section 3.7.1.8 of the Additional Information.

In order to be able to assign Additional Receivables, the Seller's latest financial statements shall be audited and registered with CNMV and the auditor's report shall have no qualification.

With regard to potential insolvency of the Seller:

- (i) The Seller may be declared insolvent and insolvency of the Seller could affect its contractual relationship with the Fund, in accordance with the provisions of the Insolvency Law.
- (ii) The assignment of the Receivables will not be subject to claw-back other than by an action brought by the Seller's receivers, in accordance with the provisions of the Insolvency Law and after proving the existence of fraud in the transaction, as set out in article 16.4 of Law 5/2015. The Seller has its place of business office in Spain. Therefore, and unless proof in the contrary, it is presumed that the centre of main interests is Spain.
- (iii) In the event that the Seller is declared insolvent, in accordance with the Insolvency Law, the Fund, represented by the Management Company, shall have the right of separation with respect to the Receivables, on the terms provided in articles 239 and 240 of the Insolvency Law. Consequently, the Fund shall be entitled to obtain from the insolvent Seller the resulting Receivables amounts from the date on which the insolvency is declared, being those amounts considered Fund's property and must therefore be transferred to the Fund, represented by the Management Company.
- (iv) This right of separation would not necessarily extend to the cash received and kept by the insolvent Seller on behalf of the Fund before that date, given the essential fungible nature of money.

Notwithstanding the above, both this Prospectus and the Deed of Incorporation provide for certain mechanisms in order to mitigate such effects. Please refer to section 3.4.2.1 of this Additional Information.

The credit enhancements included in the structure of the Fund are as follows:

3.4.2.1.1 *Cash Reserve*

The Cash Reserve mitigates the credit risk due to payment default under the Loans. The Cash Reserve is further described in section 3.4.2.2 of this Additional Information.

3.4.2.1.2 *Interest Rate Swap Transaction*

The Interest Rate Swap Transaction mitigates the interest rate risk arising from the floating nature of the interest rate applicable to the Floating Rate Notes and the fixed nature of the interest rate applicable under the Non-Defaulted Receivables. The main terms and conditions of the Interest Rate Swap Transaction and the Interest Rate Swap Agreement are described in section 3.4.8.1 of this Additional Information.

The Fund has not entered into and will not enter into any kind of hedging instrument or derivative transaction save as expressly permitted by article 21(2) of the EU Securitisation Regulation.

The Initial Receivables do not include derivatives and the Additional Receivables shall not include derivatives.

Additionally, there is no currency risk given that both the Receivables and the Notes are denominated in the same currency (euros).

3.4.2.2. Cash Reserve

3.4.2.2.1 *Use of the Cash Reserve*

The Cash Reserve will form part of the Available Funds and will be applied on each Payment Date until the Required Level of the Cash Reserve is equal to Zero Euros (0.00€) to comply with the payment obligations of the Fund in accordance with the Pre-Enforcement Priority of Payments.

3.4.2.2.2 *Funding of the Cash Reserve*

On the Disbursement Date, the Cash Reserve will be initially funded with the proceeds from the disbursement of the Class F Notes in an amount equal to the Initial Cash Reserve Amount (as defined below).

On each Payment Date following the Disbursement Date, the Cash Reserve will be funded in an amount equal to the Required Level of the Cash Reserve (as defined below), provided that there are Available Funds pursuant to the Pre-Enforcement Priority of Payments.

3.4.2.2.3 *Adjustment of the Required Level of the Cash Reserve*

The required level of the Cash Reserve (the **Required Level of the Cash Reserve**) shall be equal to:

- (i) On the Disbursement Date, FIVE MILLION NINE HUNDRED THOUSAND EUROS (€ 5,900,000), equivalent to 0.843% of the Principal Amount Outstanding of the Rated Notes as of the Disbursement Date (the **Initial Cash Reserve Amount**).
- (ii) Subject to (iii) below, on each Payment Date after the Disbursement Date, the higher of:
 - (1) 0.425% of the Principal Amount Outstanding of the Rated Notes as of the Disbursement Date; and
 - (2) the lower of the following amounts:
 - (A) 0.843% of the Principal Amount Outstanding of the Rated Notes as of the immediately preceding Determination Date; or
 - (B) the Initial Cash Reserve Amount.
- (iii) Zero euros (€ 0.00), following the earlier of:
 - (1) the Legal Maturity Date;
 - (2) the Payment Date on which the Non-Defaulted Receivables have been repaid in full;
 - (3) the Payment Date on which the Rated Notes are redeemed in full; or
 - (4) the Payment Date following the delivery of an Early Redemption Notice.

3.4.2.3. Subordination of the Notes

After the occurrence of a Subordination Event, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be redeemed sequentially in accordance with

the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 of the Additional Information so that:

- (i) the Class B Notes will not be further redeemed for so long as the Class A Notes have not been redeemed in full;
- (ii) the Class C Notes will not be further redeemed for so long as the Class A Notes and the Class B Notes have not been redeemed in full;
- (iii) the Class D Notes will not be further redeemed for so long as the Class A Notes, the Class B Notes and the Class C Notes have not been redeemed in full; and
- (iv) the Class E Notes will not be further redeemed for so long as the Class A Notes, the Class B Notes, Class C Notes and the Class D Notes have not been redeemed in full.

The Class F Notes will amortise with the available excess spread for an amount equal to the Class F Notes Target Amortisation Amount. Once the Class F Notes are fully redeemed, the subordination of such Class F Note will no longer apply.

3.4.3. Risk retention requirement

3.4.3.1. EU Retention Requirement

The Originator will undertake in the Deed of Incorporation to retain, on an ongoing basis, a material net economic interest of at least five per cent. (5%) in the securitisation transaction described in this Prospectus in accordance with article 6(3)(c) of the EU Securitisation Regulation (“*the retention of randomly selected exposures, equivalent to not less than 5 % of the nominal value of the securitised exposures, where such non-securitised exposures would otherwise have been securitised in the securitisation, provided that the number of potentially securitised exposures is not less than 100 at origination*”) and article 7 of the Delegated Regulation (EU) 625/2014 of 13 March 2014 supplementing CRR, applicable until the new regulatory technical standards to be adopted by the Commission apply, pursuant to article 43(7) of the EU Securitisation Regulation. In addition, the Seller has undertaken that the material net economic interest held by it shall not be split amongst different types of retainers and shall not be subject to any credit-risk mitigation or hedging, in accordance with article 6(1) of the EU Securitisation Regulation.

The retention option and methodology used to calculate the net economic interest will not change, unless such change is required due to exceptional circumstances, in which case such change will be appropriately disclosed to Noteholders and published on the following website <https://www.tda-sgft.com>.

The Deed of Incorporation will include a representation and warranty and undertaking of the Originator as to its compliance with the requirements set out in articles 6(1), 6(2) and 6(3) of the EU Securitisation Regulation. In addition to the information set out herein, the Originator has undertaken to make available materially relevant information to investors so that investors are able to verify compliance with article 6 of the EU Securitisation Regulation in accordance with article 7 of the EU Securitisation Regulation, as set out in section 4.2.1 of this Additional Information. In particular, the quarterly reports shall include information about the risk retained, including information on which of the modalities of retention has been applied pursuant to paragraph 1.(e).(iii) of article 7 of the EU Securitisation Regulation.

Each prospective investor is required to independently assess and determine the sufficiency of the information described above and in this Prospectus, generally for the purposes of complying with each of the provisions described above and any corresponding implementing measure which may be

applicable. In addition, each prospective investor should ensure that they comply with the implementing provisions in respect of the EU Securitisation Regulation.

Investors who are uncertain as to the requirements which apply to them in respect of their relevant jurisdiction should seek guidance from their regulator.

3.4.3.2. US Risk Retention

Section 941 of the Dodd-Frank Act amended the Exchange Act to generally require the “*securitiser*” of a “*securitisation transaction*” to retain at least five per cent. (5%) of the “credit risk” of “*securitised assets*”, as such terms are defined for purposes of that statute, and generally prohibit a securitiser from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the credit risk that the securitiser is required to retain. Final rules implementing the statute (the **U.S. Risk Retention Rules**) came into effect on 24 December 2016 with respect to non-RMBS securitisations. The U.S. Risk Retention Rules provide that the securitiser of an asset backed securitisation is its sponsor. The U.S. Risk Retention Rules also provide for certain exemptions from the risk retention obligation that they generally impose.

The Seller does not intend to retain at least five per cent. (5%) of the credit risk of the Issuer for the purposes of the U.S. Risk Retention Rules and the issue of the Notes was not designed to comply with the U.S. Risk Retention Rules. The Seller intends to rely on an exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions. Such non-U.S. transactions must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the securities are issued) of all classes of securities issued in the securitisation transaction are sold or transferred to U.S. persons (in each case, as defined in the U.S. Risk Retention Rules) or for the account or benefit of U.S. persons (as defined in the U.S. Risk Retention Rules and referred to in this Prospectus as **Risk Retention U.S. Persons**); (3) neither the sponsor nor the issuer is organised under U.S. law or is a branch located in the United States of a non-U.S. entity; and (4) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

The Seller has advised the Issuer that it has not acquired, and it does not intend to acquire more than 25 per cent. of the assets from an affiliate or branch of the Seller or the Issuer that is organised or located in the United States.

Prior to any Notes which are offered and sold by the Issuer being purchased by, or for the account or benefit of, any Risk Retention U.S. Person, the purchaser of such Notes shall first disclose to the Seller that it is a Risk Retention U.S. Person and shall obtain the written consent of the Seller (a **U.S. Risk Retention Consent**). Prospective investors should note that the definition of “U.S. person” in the U.S. Risk Retention Rules is different from the definition of “U.S. person” under Regulation S. The definition of U.S. person in the U.S. Risk Retention Rules is excerpted below. Particular attention should be paid to clauses (ii) and (viii), which are different from the comparable provisions from Regulation S.

Under the U.S. Risk Retention Rules, and subject to limited exceptions, **U.S. person** means any of the following:

- (i) any natural person resident in the United States;
- (ii) any partnership or corporation organised or incorporated under the laws of the United States;

- (iii) any estate of which any executor or administrator is a U.S. person (as defined under any other clause of this definition);
- (iv) any trust of which any trustee is a U.S. person (as defined under any other clause of this definition);
- (v) any agency or branch of a foreign entity located in the United States;
- (vi) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition);
- (vii) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated, or (if an individual) resident in the United States; and
- (viii) any partnership, corporation, limited liability company, or other organisation or entity if:
 - organised or incorporated under the laws of any foreign jurisdiction; and
 - formed by a U.S. person principally for the purpose of investing in securities not registered under the Securities Act, unless it is organised or incorporated, and owned, by accredited investors (as defined in 17 CFR 230.501(a)) who are not natural persons, estates or trusts.

Each holder of a Note or a beneficial interest therein acquired in the initial syndication of the Notes on the Issue Date, by its acquisition of a Note or a beneficial interest in a Note, will be deemed, and, in certain circumstances, will be required to represent to the Issuer and the Seller that it (1) either (i) is not a Risk Retention U.S. Person or (ii) it has obtained a U.S. Risk Retention Consent, (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention Rules described herein).

The Seller has advised the Issuer that it will not provide a U.S. Risk Retention Consent to any investor if such investor's purchase would result in more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the securities are issued) (as determined by fair value under US GAAP) of all Classes of Notes to be sold or transferred to Risk Retention U.S. Persons on the Disbursement Date.

There can be no assurance that the requirement to request the Seller to give its prior written consent to any Notes which are offered and sold by the Issuer being purchased by, or for the account or benefit of, any Risk Retention U.S. Person will be complied with or will be made by such Risk Retention U.S. Persons.

There can be no assurance that the exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions will be available. No assurance can be given as to whether a failure by the Seller to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) may give rise to regulatory action which may adversely affect the Notes or the market value of the Notes.

Failure on the part of the Seller to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) could give rise to regulatory action against the Seller which may adversely affect the Notes and the ability of the Seller to perform its obligations under the Transaction Documents. Furthermore, a failure by the Seller to comply with the U.S. Risk Retention Rules could negatively affect the value and secondary market liquidity of the Notes.

None of the Arranger, the Seller, the Fund or any of their affiliates makes any representation to any prospective investor or purchaser of the Notes as to whether the transactions described in this Prospectus comply as a matter of fact with the U.S. Risk Retention Rules on the Issue Date or at any time in the future. Investors should consult their own advisors as to the U.S. Risk Retention Rules. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

3.4.4. Details of any financing of subordinated debt finance

3.4.4.1. Start-Up Expenses Loan Agreement

On the Date of Incorporation, the Management Company, in the name and on behalf of the Fund, will enter into a subordinated loan agreement (the **Start-Up Expenses Loan Agreement**) with PSA Financial Services (the **Start-Up Expenses Loan Provider**) for a principal amount of ONE MILLION FIVE HUNDRED THOUSAND EUROS (€ 1,500,000) (the **Start-Up Expenses Loan**), which will be used to partially finance the Initial Expenses of the Fund.

The proceeds of the Start-Up Expenses Loan will be credited to the Treasury Account before 12.00 CET on the Disbursement Date.

The Start-Up Expenses Loan will accrue an annual interest, calculated on a monthly basis, for each Interest Accrual Period, which will be equal to the Reference Rate plus 2.92% and will be paid only if the Fund has sufficient Available Funds in accordance with the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 of this Additional Information, or, where applicable, in accordance with the Post-Enforcement Priority of Payments described in section 3.4.7.3 of this Additional Information. Any interest accrued, which must be paid on a specified Payment Date, will be calculated on the basis of:

- (i) the actual calendar days existing in each Interest Accrual Period; and
- (ii) a year of three hundred and sixty (360) calendar days.

Interest due and not paid on a Payment Date will be capitalised and accrue interest at the same rate as the nominal interest rate of the Start-Up Expenses Loan and will be paid, provided that the Fund has sufficient Available Funds, on the immediately following Payment Date in accordance with the Pre-Enforcement Priority of Payments set out in section 3.4.7.2 of this Additional Information, or, where applicable, with the Post-Enforcement Priority of Payments described in section 3.4.7.3 of this Additional Information.

In the event that the annual interest of the Start-Up Expenses Loan calculated in accordance with this section is negative, such interest will be equal to zero per cent (0.00%).

The Start-Up Expenses Loan will be repaid in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments (as applicable). Any amounts of principal due and unpaid under the Start-Up Expenses Loan will not accrue default interest in favour of the Start-Up Expenses Loan Provider.

The Start-Up Expenses Loan shall be repaid by the Fund in full on the date on which the Fund is liquidated and subject to the full payment of any amounts ranking in higher priority pursuant to the

Post-Enforcement Priority of Payments. Any amount under the Start-Up Expenses Loan not paid after the liquidation of the Fund shall be cancelled and deemed as a final loss for the Start-Up Expenses Loan Provider.

Given that this Start-Up Expenses Loan is a subordinated loan, it will be postponed in ranking as regards the rest of creditors of the Fund (other than, in certain circumstances, the Swap Counterparty) pursuant to the terms of sections 3.4.7.2 and 3.4.7.3 of this Additional Information, including, but not limited to, the Noteholders.

PSA Financial Services specifically and irrevocably waives any right of set-off against the Fund that could otherwise correspond to it by virtue of any agreement entered into with the Fund.

3.4.4.2. Seller Loan

Following the occurrence of a Regulatory Call Event, and provided that the Seller has exercised the right to request the Management Company to redeem in full (but not in part) the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes (while the Class A Notes and the Cash Reserve shall not be redeemed), the Seller shall advance to the Fund a loan (the **Seller Loan**) for an amount equal to the Seller Loan Advance Amount.

The Seller Loan shall be applied by the Fund to redeem in full (but not in part) the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes in accordance with section 4.9.2.3 of the Securities Note.

The Seller Loan shall accrue a maximum annual interest of 1.53%.

The Seller Loan shall be repaid in accordance with (i) the Pre-Enforcement Priority of Payments (as amended by the Regulatory Call Priority of Payments or the Seller Loan Priority of Payments, as applicable, set out in sections 3.4.7.2 and 3.4.7.3 of the Additional Information) or, as applicable, (ii) the Post-Enforcement Priority of Payment (as amended by the Post-Enforcement Regulatory Call Priority of Payments) set out in section 3.4.7.3 of the Additional Information.

3.4.5. **Specification of any investment parameter for the investment of temporary liquidity surpluses and description of the parties responsible for such investment**

3.4.5.1. Reinvestment Agreement

3.4.5.1.1 *Opening of the Fund Accounts*

On the Date of Incorporation, the Management Company, in the name and on behalf of the Fund, will enter into a reinvestment agreement (the **Reinvestment Agreement**) with and BNPP (the **Fund Accounts Provider**) whereby the Fund Accounts Provider will open in its books the following bank accounts (the **Fund Accounts**) in the name of the Fund:

- (i) the Treasury Account;
- (ii) the Principal Account; and
- (iii) the Swap Collateral Account.

The purpose of the Reinvestment Agreement is to set out the terms and conditions of the opening of the Fund Accounts in the books of the Fund Accounts Provider and the operation of such accounts.

The common provisions applicable to all the Fund Accounts are described in section 3.4.5.1.5 below.

3.4.5.1.2 Treasury Account

Pursuant to the Reinvestment Agreement the amounts to be credited in the treasury account (the **Treasury Account**) will include, but are not limited to, the following:

- (i) On the Disbursement Date:

 - (2) the amount under the Start-Up Expenses Loan.
- (ii) On any other date:
 - (1) principal and interests on the Receivables;
 - (2) any other amounts corresponding to the Receivables, and to the disposal or use of assets awarded as a consequence of enforcement or repossession proceedings, or under provisional administration and possession of the assets during enforcement or repossession proceedings, as well as all possible rights and compensations, including those derived from any ancillary right to the Receivables, including, if applicable, those derived from reservation of title and insurance compensations, but excluding fees;
 - (3) the amount which constitutes the Cash Reserve at any time, as described in section 3.4.2.2 of this Additional Information;
 - (4) if applicable, any interests accrued from the balances credited in the Fund Accounts;
 - (5) any payment to be made by the Seller to the Fund in connection with the provisions in section 2.2.9 of the Additional Information;
 - (6) the amounts which, as the case may be, may be paid to the Fund by the Swap Counterparty under the Interest Rate Swap Transaction (other than any cash collateral to be transferred by the Swap Counterparty under the CSA and deposited in the Swap Collateral Account); and
 - (7) the amounts, if any, of interim withholdings on the return on investments to be effected on each relevant Payment Date on the Note interest paid by the Fund, until due for payment to the relevant Tax authorities.

Following the instructions of the Management Company, the amounts that are to be debited in the Treasury Account include, but are not limited to, the following:

- (i) On the Disbursement Date:
 - (1) subject to any applicable set-offs, the portion of the Acquisition Amount of the Initial Receivables related to the Receivables Principal of the Initial Receivables; and
 - (2) the Initial Expenses for the incorporation of the Fund and the issue of the Notes (provided that payments of the Initial Expenses will be made as soon as each expense becomes due and payable).

- (ii) If applicable, on each Payment Date on which amounts corresponding to Receivables Accrued Interest are to be paid by the Fund in accordance with sections 3.3.2.1 and 3.3.3.1 of the Additional Information, an amount equal to the Receivables Accrued Interest received by the Fund during the immediately preceding Determination Period, regardless of the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments of the Fund.
- (iii) On each Payment Date, the Available Funds will be applied in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable.

3.4.5.1.3 *Principal Account*

Pursuant to the Reinvestment Agreement, the account identified as the principal account (the **Principal Account**) will be credited on each Payment Date only during the Revolving Period with an amount equal to the Principal Target Redemption Amount.

Subject to the paragraph below, following the instructions of the Management Company, the amounts held at the Principal Account will be considered Available Funds and will be applied, on each Payment Date during the Revolving Period, towards making the payments envisaged in, and in accordance with, item (10) of the Pre-Enforcement Priority of Payments, as described in section 3.4.7.2 below (or, if applicable, towards making the payments envisaged in, and in accordance with, item (6) of section 3.4.7.2.3(iii) of the Additional Information).

Following the instructions of the Management Company, any amounts received by the Fund as interest accrued on the balances credited on the Principal Account will be transferred to the Treasury Account forthwithly upon receipt thereof without need to apply it in accordance with the paragraph above.

Following the instructions of the Management Company, during the Revolving Period, one (1) Business Day prior to the relevant Payment Date, an amount equal to the Principal Target Redemption Amount will be transferred from the Treasury Account to the Principal Account for its application in accordance with this section 3.4.5.1.3.

Upon termination of the Revolving Period, all amounts standing to the credit in the Principal Account will be transferred to the Treasury Account.

3.4.5.1.4 *Swap Collateral Account*

Pursuant to the Reinvestment Agreement, the account identified as the swap collateral account (the **Swap Collateral Account**) will be credited with any cash collateral to be posted by the Swap Counterparty under the Interest Rate Swap Agreement, as described in section 3.4.8.1 of the Additional Information and in the Interest Rate Swap Agreement (including, without limitation, the CSA).

In the event that the Swap Counterparty should transfer any Eligible Credit Support (as defined in the CSA) to the Fund in connection with the Interest Rate Swap Agreement, the Fund shall hold such Eligible Credit Support in the Swap Collateral Account which shall be segregated from the Treasury Account, from the Principal Account and from the general cash flow of the Fund.

Cash standing to the credit of the Swap Collateral Account (including interest) shall not be Available Funds for the Fund to make payments in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments but may be applied in accordance with the following

provisions by, or on behalf of, the Fund as follows (the "**Swap Collateral Account Priority of Payments**):

- (i) prior to the designation of a Swap Early Termination Date, in or towards:
 - (1) first, payment of any negative interest rates and fees accrued on the funds deposited in the Swap Collateral Account;
 - (2) second, payment or discharge of any "Return Amounts", "Interest Amounts", "Distributions" (each as defined in the credit support annex forming part of the Interest Rate Swap Agreement (the CSA)) owed to the Swap Counterparty;
- (ii) following the designation of a Swap Early Termination Date, where the Swap Termination Amount is payable by the Fund to the Swap Counterparty:
 - (1) first, in or towards payment of any Swap Termination Amount due to the Swap Counterparty; and
 - (2) second, where the Swap Termination Amount is discharged, the surplus of any amounts standing to the Swap Collateral Account (if any) is to be transferred to the Treasury Account to be applied as Available Funds; and
- (iii) following the designation of a Swap Early Termination Date, where the Swap Termination Amount is payable by the Swap Counterparty to the Fund, amounts standing to the Swap Collateral Account (if any) are permitted to be transferred to the Treasury Account to be applied as Available Funds.

In the event that the Fund Accounts Provider defaults in its obligations under the Reinvestment Agreement and due to such default the Fund is not able to immediately apply the collateral amounts held on such account towards any payment due to the Swap Counterparty, the amount payable by the Fund to the Swap Counterparty shall be paid according to the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable.

3.4.5.1.5 *Common provisions applicable to the Fund Accounts*

- (i) Voluntary termination by the Fund Accounts Provider

The Fund Accounts Provider may, at any time, terminate the Reinvestment Agreement by giving at least two (2) months' prior written notice to the Management Company, provided that:

- (1) another institution selected by the Management Company which has at least the following ratings: (I) the Moody's Minimum Rating, according to Moody's; and (II) the DBRS Minimum Rating, according to DBRS, replaces the Fund Accounts Provider;
- (2) notice is given to the CNMV and the Rating Agencies; and
- (3) the Rating Agencies confirm that the ratings assigned to the Rated Notes are not negatively affected.

- (ii) Voluntary termination by the Management Company

The Management Company may, at any time, substitute at its sole discretion the Fund Accounts Provider by giving at least two (2) months' prior notice to the Fund Accounts Provider, provided that:

- (1) another institution selected by the Management Company which has at least the following ratings: (I) the Moody's Minimum Rating, according to Moody's; and (II) the DBRS Minimum Rating, according to DBRS, replaces the Fund Accounts Provider;
 - (2) notice is given to the CNMV and the Rating Agencies; and
 - (3) the Rating Agencies confirm that the ratings assigned to the Rated Notes are not negatively affected.
- (iii) Rating Agencies Criteria for the Fund Accounts Provider. Downgrade event

In the event that the ratings of the Fund Accounts Provider (or of the replacing entity in which the Fund Accounts are opened) is, at any time during the life of the Notes, downgraded below the following ratings by any of the following rating agencies:

- Moody's: below a credit rating of A3 (cr) assigned by Moody's (the **Moody's Minimum Rating**); or
- DBRS: below BBB (high) according to the minimum DBRS rating (the **DBRS Minimum Rating**) which shall be the higher of:
 - a. if the institution has a long-term critical obligation rating (COR) from DBRS, a step below such COR; and
 - b. the long-term issuer rating assigned by DBRS to the Fund Accounts Provider or, if none exists, the private ratings or internal evaluations performed by DBRS,

the Servicer (with the collaboration of the Management Company, that will (i) provide its quickest and best-efforts to this end and (ii) enter into the appropriate agreements in the name and on behalf of the Fund) shall, after notifying the Rating Agencies, allow an appropriate level of guarantee to be maintained with respect to the commitments relating to the Fund Accounts, in order for the ratings given to the Rated Notes by the Rating Agencies not to be adversely affected, instruct the Management Company to transfer, within sixty (60) calendar days from the day of the occurrence of any of the abovementioned events, the Fund Accounts to an institution that has at least

- the Moody's Minimum Rating, according to Moody's; and
- the DBRS Minimum Rating, according to DBRS,

and the Management Company will arrange the highest possible return for the balance of the Fund Accounts, which may be lower, equal to or higher than that arranged with the Fund Accounts Provider (or the replacing entity in which the Fund Accounts are opened from time to time).

In this regard, the Fund Accounts Provider (or the replacing entity in which the Fund Accounts are opened) shall irrevocably agree to notify the Management Company of any change or removal of its rating given by the Rating Agencies, forthwith upon the occurrence thereof throughout the life of the Rated Notes.

All costs, expenses and taxes incurred due to the execution and formalisation of the previous options will be considered Extraordinary Expenses of the Fund or, if applicable, will be borne by the subsequent holder of the Fund Accounts.

(iv) Survival

Neither the voluntary termination of the Reinvestment Agreement by the Fund Accounts Provider nor by the Management Company will be effective until the new institution assuming the position of Fund Accounts Provider has effectively assumed its functions.

(v) Costs derived from the replacement of the Fund Accounts Provider

Any costs resulting from the voluntary termination of the Reinvestment Agreement by the Fund Accounts Provider will be considered Extraordinary Expenses of the Fund.

Likewise, any costs resulting from the voluntary termination of the Reinvestment Agreement by the Management Company will be considered Extraordinary Expenses of the Fund.

Any costs arising from the actions referred to in section (iii) above in case of rating downgrade event will be considered Extraordinary Expenses of the Fund or, if applicable, will be borne by the replacing institution assuming the position of Fund Accounts Provider.

(vi) Interest

The amounts standing from time to time to the credit of each of the Fund Accounts are not subject to cash management services or invested in investment support.

In accordance with the Reinvestment Agreement, unless a change in the remuneration of the Fund Accounts occurs, the amounts standing from time to time to the credit of each Fund Accounts accrue interest at a rate equal to the daily €STR less 0.03%, regardless the benchmark remains positive, negative or equal to zero.

Under the Reinvestment Agreement, the Fund Accounts Provider may change the remuneration in the Fund Accounts, in which case the new interest rate will be reported by the Fund Accounts Provider or, as the case may be, the Management Company, to the rest of the parties.

If the remuneration is negative this will be considered as an Ordinary Expense.

In addition, in case of termination of the Reinvestment Agreement and replacement of BNPP by a new institution, the Fund Accounts might accrue interest, thus generating potential expenses or returns.

For the purposes of this Prospectus, **€STR** means, in respect of an interest accrual period in respect of the balances standing to the credit on the Fund Accounts, the euro short-term rate equal to the overnight rate as calculated by the ECB and appearing on the relevant screen page two (2) Business Days before the date on which such interest accrual period begins. In case €STR ceases to be provided permanently or indefinitely, any mention to that reference rate shall be understood as made to the rate (inclusive of any spreads or adjustments) recommended by the ECB (or any successor administrator) in replacement of the €STR as published or provided by the administrator thereof.

3.4.6. How payments are collected in respect of the Receivables

The Servicer, as collection agent on behalf of the Fund, will collect any amounts for both principal and interest under the Loans paid by the Borrowers, as well as any other amounts corresponding to the Fund (including any amounts payable by PSAG under the Global Agreement or the Adhered

Concessionaires under the Marketing Action, as applicable), and will proceed to deposit such amounts into the Treasury Account immediately after receipt and, in any event, within two (2) Business Days from receipt.

For the avoidance of doubt, in the event that the Adhered Concessionaire paid the purchase price of the Vehicle:

- (i) by means of drawdown by the relevant Adhered Concessionaire under the credit facility entered into with PSA Financial Services, as described in section 2.2.D) above, the date on which the drawdown is made in accordance with the credit agreement entered into with the relevant Adhered Concessionaire will be understood as the date of “receipt” for the purposes of this section;
- (ii) by means of set-off under the netting account opened with PSA Financial Services described in section 2.2.D) above, the making of the relevant annotation in the netting account for an amount equal to the purchase price of the Vehicle in accordance with the netting account agreement entered into between the Adhered Concessionaire and the Vehicle will be understood as “receipt” for the purposes of this section; and
- (iii) by means of transfer to the bank account indicated by PSA Financial Services as described in section 2.2.D) above, the date on which the amount equal to the purchase price of the Vehicle is credited to the relevant bank account indicated by PSA Financial Services will be understood as “receipt” for the purposes of this section.

The Servicer will not pay, in any case, any amount to the Fund that the Servicer has not previously received from the Borrowers in respect of the Loans.

3.4.6.1. Powers of the holder of the Receivables in the case of breach by the Borrower or the Servicer of their obligations

The Servicer will apply the same level of expertise, diligence and procedures for the recovery of any amounts due and unpaid under the Receivables as it applies for the rest of loans in its portfolio.

In particular, once the relevant periods for out-of-court actions to obtain payment of unpaid amounts under the Receivables have elapsed without having recovered the relevant unpaid amounts, the Servicer will bring any legal actions required for such purposes. In any case, the Servicer will bring the aforementioned legal actions if, after having analysed the specific circumstances of the case, the Management Company, on behalf of the Fund, and in agreement with the Servicer, deems it appropriate.

The current recovery processes applied by the Servicer are included in section 2.2.7.5 of the Additional Information.

In case of payment default under the Loans, the out-of-court and court actions described in section 2.2.7.5 of the Additional Information will be initiated for the purposes of obtaining payment of any amounts due or recovering the financed Vehicles, as applicable.

3.4.6.1.1 *Action against the Servicer*

The Management Company, for and on behalf of the Fund, may take action against the Servicer where the breach of the obligation to pay principal or interest amounts and/or any other amounts due under the Loans by the Borrowers (or, if applicable, by PSAG, the Adhered Concessionaires or PSA Financial Services in relation to payments due under the Global Agreement or the Marketing Action)

does not result from default by the Borrowers (or, if applicable, PSAG, the Adhered Concessionaires or PSA Financial Services) and is attributable to the Servicer.

Notwithstanding the above, the Servicer will not be liable in case that such breach is caused by the Servicer's compliance with the servicing provisions or the instructions given by the Management Company.

3.4.6.1.2 *Actions in case of payment default under the Loans*

The Management Company, on behalf of the Fund, may take all legal actions derived from the ownership of the Receivables, in accordance with the legislation in force.

For the above purposes, the Management Company, as entity responsible for servicing and managing the Receivables pursuant to article 26.1.b) of Law 5/2015, shall grant in the Deed of Incorporation a power of attorney as broad as permitted by law in favour of the Servicer so that the latter, acting through any of its duly authorised attorneys, as instructed by the Management Company, may claim any Borrower (and if applicable any guarantor), in or out of court, payment of any amounts due under the Receivables and take legal actions against them, in addition to any other powers required for the performance of its duties as Servicer. These powers may also be granted under a separate document from the Deed of Incorporation or may be expanded and modified, if necessary, for the performance of such duties.

Additionally, the Servicer undertakes to inform the Management Company, on behalf of the Fund, on a monthly basis, of any payment defaults, early repayments and adjustments of the interest rates and maturity, and to provide timely information regarding claims, certified notices given to the Borrowers or guarantors (or PSAG, PSA Financial Services or the Adhered Concessionaires), legal actions, and any other circumstances affecting the Loans or the Receivables. Furthermore, the Servicer will provide the Management Company with all the documents that the latter might request in relation to the Loans and, in particular, the documents that the Management Company might require for the purposes of bringing any legal actions.

Except in case of application of any measures foreseen in any Moratoriums applicable and provided that the Borrowers are complying with the terms of such Moratoriums, the Servicer shall, as a general rule, commence the relevant legal proceedings if, within six (6) months from the payment default either (i) the Borrower in default fails to resume payments or (ii) the Servicer, with the Management Company's consent, fails to obtain a payment undertaking satisfactory to the interests of the Fund.

3.4.6.1.3 *Actions available to the Servicer under Loan Agreements including a reservation of title provision*

As indicated in section 2.2 of the Additional Information, Loan Agreements including a reservation of title provision may be:

- (a) formalised as a Public Document or as a private document;
- (b) drafted following the official form or not; and
- (c) registered with the Register of Instalment Sales of Movable Properties (and therefore in the Vehicles Register of the Spanish General Traffic Directorate) or not.

In addition, in connection with limb (c) above, only those Loan Agreements drafted following the official form (formalised either as a Public Document or as a private agreement) can be registered with the Register of Instalment Sales of Movable Properties.

The legal regime, effects and protections for the Fund and the actions available for the Servicer in case of a breach of a Loan Agreement with a reservation of title provision may vary depending on the features listed above.

A summary of the legal regime, effects and protections for the Fund and the actions available for the Servicer in Loan Agreements with a reservation of title provision depending on each of these features is included below:

- (i) Reservation of title provision included in a Loan Agreement formalised as a private document and not following the official form.

The Fund, as the holder of the Receivables under a Loan Agreement formalised as a private document not following the official form will not be able to benefit from the preferences and priorities foreseen in section 2.2.7.6(i).

The Servicer, on behalf of the Fund, will only be entitled to initiate a declarative court proceeding for the recognition of its right to receive payment under the Loan Agreement prior to initiating an enforceable action of the potential ruling against the assets of the Borrower (including the Vehicle).

Such declarative court proceedings will commence with the filing of a claim (*demanda*) and the reply (*contestación*) of the Borrower. After this, there will be a preliminary hearing (*audiencia previa*) where all the formal or procedural issues will be discussed. At this moment, the parties will request the application of the relevant means of evidence.

The next step will be the trial (*juicio*) where the witnesses and experts pose their arguments and will conclude with the court ruling (*sentencia*). In the event that the ruling was in favour of the Fund, if the Borrower does not comply with the obligations of the ruling, the Servicer, on behalf of the Fund, will be able to request the enforcement of the ruling and the corresponding seizure of the assets of the Borrower (including the Vehicle). In case the Borrower does not comply with the obligations of the ruling or appeals it, the Fund, acting through the Servicer, will still be able to request the provisional enforcement of the ruling.

Declarative court proceedings would normally take significantly longer than a notarial or court enforcement proceeding (generally, not less than one year and a half and up to two to three years to finalise the proceeding if there are appeals – even more depending on the court workload).

- (ii) Reservation of title provision included in a loan agreement formalised as a private document following the official form.

Benefits and preferences of the Fund as holder of the Receivables under a Loan Agreement formalised as a private document following the official form will be those described in section 2.2.7.6(ii).

In addition, the proceedings available to the Servicer, on behalf of the Fund, under a Loan Agreement formalised as a private document following the official form will depend on whether or not the Loan Agreement has been registered with the Register of Instalment Sales of Movable Properties:

- (1) If the Loan Agreement has not been registered with the Register of Instalment Sales of Movable Properties, the only proceedings available to the Servicer, acting on behalf of the Fund, would be the declarative court proceedings described in paragraph (i) above.

- (2) It the Loan Agreement has been registered with the Register of Instalment Sales of Movable Properties, the proceedings available to the Servicer, acting on behalf of the Fund, would be (A) the declarative court proceeding described in paragraph (i) above; and (B) the notarial enforcement proceeding described below. In addition, the Servicer, acting on behalf of the Fund, would also enjoy the additional protections in case of sale of the Vehicle to a third party explained below.

In particular, in case of breach of a Loan Agreement registered with the Register of Instalment Sales of Movable Properties, the Servicer, acting on behalf of the Fund, may initiate the enforcement proceeding against the Vehicle set out in article 16.2 of Retail Instalment Sales Act, and the credit rights derived from the same will correspond in any case to the Fund (except for those amounts that had not been assigned to the Fund in accordance with the provisions of this Prospectus and the Deed of Incorporation). It should be noted that these proceedings can only be used by the creditor to enforce against the assets covered by the reservation of title provision (i.e., the Vehicle) and not against any other assets of the Borrower.

A summary of the proceeding set out in article 16.2 of the Retail Instalment Sales Act is included below:

- A. The Servicer, acting on behalf of the Fund, through a notary public of (x) the place where the Vehicle is located, or (y) the place where payment should be made or (z) the place of the Borrower's address, will claim the relevant payment from the Borrower, indicating the total amount claimed and the cause of early termination the Loan. In addition, the Borrower will be advised that, in case of failure to comply with the relevant obligation, the Servicer, acting on behalf of the Fund, will proceed to enforce against the Vehicle pursuant to the provisions of such article 16.2 of the Retail Instalment Sales Act. Unless otherwise agreed, the amount payable by the Borrower (*cantidad líquida, vencida y exigible*) will be the amount specified in the certificate issued by the Servicer, acting on behalf of the Fund, provided that it has been verified, through a notary public, that it has been calculated by the Servicer in accordance with the relevant Loan Agreement and that such amount reflects the accounting books of the Servicer.
- B. The Borrower, within three (3) Business Days following the date on which he/she received such claim demand shall pay the amount claimed or will deliver the possession of the Vehicle to the Fund or to the person designated by the Servicer, acting on behalf of the Fund, in the claim demand.
- C. If the Borrower fails to pay within the above mentioned three-business-day period, but voluntarily delivers the possession of the Vehicle, such Vehicle will be sold at a public auction with the intervention of a notary public.

The rules set out in article 1872 of the Civil Code, the Notarial Act and any complementary provisions, as well as the standards regulating the professional activity of public notaries will apply to such public auction. Without prejudice to the foregoing, the Servicer, acting on behalf of the Fund, may opt for the award of the assets in lieu of payment without the need to attend the public auction. In this case, the provisions of item E of this section will apply.

- D. Should the Borrower fail to pay the amount claimed and to deliver the possession of the Vehicle, the Servicer, acting on behalf of the Fund, may request from the competent court the protection of the Fund's rights through enforcement action or repossession of the secured assets in accordance with articles 250.1.10 and 250.1.11 of the Civil Procedure Act.
- E. In case of acquisition by the Fund of the Vehicle in lieu of payment, if the value of the Vehicle at the time of their delivery to the Fund, according to the reference tables or indexes of depreciation established in the relevant Loan Agreement, was (x) lower than the claimed amount, the Fund will have a claim against the Borrower for the outstanding amount; (y) higher than the claimed amount, the Borrower will have a claim against the Fund for the excess amount.

In the event that no mechanism for the calculation of such depreciation has been agreed in the Loan Agreement, the relevant parties must justify such depreciation in the relevant declarative court proceeding (*procedimiento declarativo*).

- F. In case of sale of the asset in a public auction, if the value of the Vehicle according to the award price at the auction was (x) lower than the claimed amount, the Fund will have a claim against the Borrower for the outstanding amount; (y) higher than the claimed amount, the Borrower will have a claim against the Fund for the excess amount.

In the event that the Vehicle is in possession of a third party other than the original Borrower (including, for the avoidance of doubt, a good-faith purchaser (*adquirente de buena fe*)), the following will apply:

1. The third party possessor of the Vehicle (including a good-faith purchaser of the Vehicle) will be required through a notary public, to pay the claimed amount or deliver the possession of the Vehicle within three (3) Business Days.
2. If the third party possessor of the secured assets (including a good-faith purchaser of the Vehicle) pays the claimed amount to the creditor, he/she will be subrogated into the contractual position of the Fund against the original Borrower. If the asset is delivered, all enforcement measures, whether processed before a notary public or in court, will be followed and any excess after full satisfaction of the amounts due to the Fund will be handed over to the purchaser (or any other party in possession of the Vehicle). If the party in possession of the Vehicle fails to pay or to deliver such assets, the provisions of items D et seq. above will apply.

- (iii) Reservation of title provision included in a Loan Agreement formalised as a Public Document and not following the official form.

If the loan agreement has been formalised as a Public Document and not following the official form, the Fund will enjoy the preference and priority described in section 2.2.7.6(iii).

If the loan agreement has been documented in a Public Document, it will be considered as an enforceable title (*título ejecutivo*) according to article 517.2 of the Civil Procedure Act

(provided that the requirements set out in the Civil Procedure Act have been complied with).

In such case, the following proceedings would be available to the Servicer, acting on behalf of the Fund:

- (1) The declarative court proceedings described in section (i) above.
- (2) The enforcement court proceedings. The enforcement court proceedings will commence with the filing with the court of an enforcement claim (*demanda ejecutiva*), to which the Borrower can oppose on the basis of limited grounds, and the subsequent resolution of the court ordering the seizure of the assets of the Borrower (including, without limitation, the Vehicle, in case it is still held by the Borrower).
- (iv) Reservation of title provision included in a Loan Agreement formalised as a Public Document and following the official form.

Benefits and preferences of the Fund as holder of the Receivables under a Loan Agreement formalised as a Public Document will be those described in section 2.2.7.6(iv).

If the loan agreement has been documented in a Public Document, it will be considered as an enforceable title (*título ejecutivo*) according to article 517.2 of the Civil Procedure Act (provided that the requirements set out in the Civil Procedure Act have been complied with). In such case, the proceedings available to the Servicer, acting on behalf of the Fund, would depend on whether or not the Loan Agreement has been registered with the Register of Instalment Sales of Movable Properties:

- (1) If the Loan Agreement has not been registered with the Register of Instalment Sales of Movable Properties, the proceedings available to the Servicer, acting on behalf of the Fund, will be those envisaged in section (iii) above (i.e., the declarative court proceedings and the enforcement court proceedings).
- (2) If the Loan Agreement has been registered with the Register of Instalment Sales of Movable Properties, the Servicer, acting on behalf of the Fund, will be able to initiate, in addition to any of the proceedings envisaged in paragraph (1) above, the notarial enforcement proceeding described in section (ii) above.

- (ii) Expenses relating to the keeping of the accounting records of the Notes, for their admission to trading on any organised secondary market, and for the maintenance thereof.

- (iv) Rating Agencies fees for the monitoring and maintenance of the ratings for the Notes.
- (v) Expenses derived from the redemption of the Notes.
- (vi) Expenses related to any notices and announcements that, in accordance with the provisions of this Prospectus, must be given to the holders of outstanding Notes.

- (vi) In general, any other extraordinary expenses borne by the Fund or by the Management Company for and on behalf of the Fund.

3.4.8. Details of any other agreements affecting the payments of interest and principal made to the Noteholders

3.4.8.1. Interest Rate Swap Agreement

3.4.8.1.1 *General*

On the Date of Incorporation, the Management Company, on behalf of the Fund, shall enter into an International Swaps and Derivatives Association 1992 Master Agreement (Multicurrency – Cross Border), together with the relevant Schedule, the credit support annex and the confirmation evidencing the Interest Rate Swap Transaction thereunder with the Swap Counterparty (the **Interest Rate Swap Agreement**), in order to hedge the potential interest rate exposure of the Fund in relation to its floating rate interest obligations under the Floating Rate Notes and the fixed nature of the interest rate payable under the Non-Defaulted Receivables. The Interest Rate Swap Agreement incorporates the 2006 ISDA Definitions, including Supplement no. 70 thereto, which provides for the application of certain fallback rates to the Interest Rate Swap Transaction instead of EURIBOR in certain circumstances.

The Interest Rate Swap Transaction will remain in full force and effect until the earlier of (i) the Legal Maturity Date; and (ii) the date on which the Notional Amount is reduced to zero, unless it is terminated early by one of the parties thereto in accordance with the terms of the Interest Rate Swap Agreement.

The Interest Rate Swap Transaction shall be fully terminated if the Management and Subscription Agreement is fully terminated in accordance with the provisions of section 4.2.3 of the Securities Note or if the provisional credit ratings of the Rated Notes are not confirmed as final (unless such provisional ratings are upgraded) by the Rating Agencies on or prior to the Disbursement Date.

In the event that the Interest Rate Swap Transaction is terminated by either party, the amount determined pursuant to Section 6(e) of the Interest Rate Swap Agreement in Euro may be due to the Fund or to the Swap Counterparty in accordance with the provisions thereof.

3.4.8.1.2 *Notional amount*

The notional amount of the Interest Rate Swap Transaction (the **Notional Amount**) will be calculated by reference to the Outstanding Balance of the Non-Defaulted Receivables (therefore excluding the Outstanding Balance of the Defaulted Receivables).

3.4.8.1.3 *Pre-hedge*

On 22 April 2022 (the **Pre-Hedge Transaction Date**), the Seller and the Swap Counterparty entered into a confirmation evidencing an interest rate swap transaction in order to fix the maximum interest rate that the Fund will be obliged to pay under the Interest Rate Swap Transaction (the **Pre-Hedge Transaction**) at a rate equal to 1.07% (the **Pre-Hedge Rate**).

On the Date of Incorporation, the Pre-Hedge Transaction will be transferred by the Seller in favour of the Fund by means of the granting of a novation agreement in respect of such Pre-Hedge Transaction, and such Pre-Hedge Transaction as novated will be part of the Interest Rate Swap Agreement. If, on the Date of Incorporation, the mark-to-market value of the Pre-Hedge Transaction is positive for the Seller (i.e., if the floating part of the swap payable by the Swap Counterparty is higher than the fixed part of the swap payable by the Seller), the Fund will pay in favour of the Seller

an amount equal to the mark-to-market value of the Pre-Hedge Transaction as of the Date of Incorporation (the **Pre-Hedge Novation Amount**) as a compensation for the novation of the Pre-Hedge Transaction carried out by the Seller in favour of the Fund. The Pre-Hedge Novation Amount (if any) will be considered an Initial Expense and will be paid out of the proceeds of the Start-Up Expenses Loan Agreement, in accordance with section 3.4.4.1 of the Additional Information.

Additionally, under the Pre-Hedge Transaction, the Seller had the option to reduce the fixed interest rate payable by it to a rate lower than the Pre-Hedge Rate in case that, on the date falling three Business Days before the Date of Incorporation (the **Exercise Date**), the market conditions applicable to the Pre-Hedge Transaction were more favourable than those applicable on the Pre-Hedge Transaction Date. The Seller exercised such option on the Exercise Date and therefore the final fixed interest rate payable by the Fund to the Swap Counterparty is 1.044%;. Consequently, an amended confirmation in connection with the Pre-Hedge Transaction will be entered into between the Seller and the Swap Counterparty and subsequently novated by the Seller in favour of the Fund. As the mark-to-market of the Pre-Hedge Transaction (as amended in accordance with this paragraph) will be zero on the Date of Incorporation, no Pre-Hedge Novation Amount will be payable by the Fund in favour of the Seller.

3.4.8.1.4 *Payments under the Interest Rate Swap Transaction*

For each Swap Calculation Period falling prior to the termination date of the Interest Rate Swap Transaction, the following amounts will be calculated by the Swap Calculation Agent by virtue of the Interest Rate Swap Transaction:

- (i) an amount equal to a fixed interest rate which will be equal to 1.044%:
 - (1) multiplied by the Notional Amount,
 - (2) divided by a count fraction of 360, and
 - (3) multiplied by the number of days of the relevant Swap Calculation Period,
 (the **Fund Swap Amount**); and
- (ii) an amount equal to a floating rate of 1-Month EURIBOR:
 - (1) multiplied by the Notional Amount,
 - (2) divided by a count fraction of 360, and
 - (3) multiplied by the number of days of the relevant Swap Calculation Period,
 (the **Swap Counterparty Amount**).

If 1-Month EURIBOR is below zero (0), no floor will be applied and the absolute value of the relevant negative amount will form part of the Fund Swap Amount.

After these two amounts are calculated in relation to a Swap Payment Date, the following payments will be made on that Swap Payment Date:

- (i) if the Swap Counterparty Amount for that Swap Payment Date is greater than the Fund Swap Amount for that Swap Payment Date, then the Swap Counterparty will pay an amount equal to the excess to the Fund;

- (ii) if the Fund Swap Amount for that Swap Payment Date is greater than the Swap Counterparty Amount for that Swap Payment Date, then the Fund will pay an amount equal to the excess to the Swap Counterparty; and
- (iii) if the two amounts are equal, neither party will make a payment to the other.

If, in accordance with the Interest Rate Swap Transaction:

- (i) the Swap Counterparty is obliged to make any payments in favour of the Fund, such payments will be made into the Treasury Account; and
- (ii) the Fund is obliged to make any payments in favour of the Swap Counterparty, the Management Company, on behalf of the Fund, will apply the Available Funds towards payment of such amounts in accordance with the Pre-Enforcement Priority of Payments or the Post-Enforcement Priority of Payments, as applicable.

Payments under the Interest Rate Swap Agreement will be made by either the Fund or the Swap Counterparty without any withholding or deduction of taxes unless required by law. To the extent any party to the Interest Rate Swap Transaction is required to deduct or withhold any amounts, the relevant party will, among others things and subject to certain conditions set out in the Interest Rate Swap Agreement, gross up such amounts so that the other party receives such additional amount as may be necessary to ensure that the net amount actually received by the relevant party equals the full amount it would have received had no such deduction or withholding been required.

For the purposes of this Prospectus:

Swap Payment Date means the twenty-eighth day of each month in each year commencing on the First Payment Date (which, for the avoidance of doubt, will be the first Swap Payment Date) and ending on the termination date of the Interest Rate Swap Transaction, in each case subject to adjustment in accordance with the Modified Following Business Day Convention as set out in the Interest Rate Swap Agreement.

Swap Calculation Period means (other than the first Swap Calculation Period), each period that commences on (and includes) a Swap Payment Date and ends on (but excludes) the immediately following Swap Payment Date and in respect of the first Swap Calculation Period, means the period commencing on (and including) the Disbursement Date and ending on (but excluding) the first Swap Payment Date.

3.4.8.1.5 *Swap Calculation Agent*

Banco Santander will act as Swap Calculation Agent of the Interest Rate Swap Agreement, subject to the terms of the Interest Rate Swap Agreement.

3.4.8.1.6 *Collateral*

The Interest Rate Swap Agreement will contain provisions requiring certain remedial actions to be taken if a Swap Counterparty Downgrade Event occurs in respect of the Swap Counterparty (or, as relevant, its guarantor). Such provisions may include a requirement that the Swap Counterparty must (i) post collateral; (ii) transfer the Interest Rate Swap Transaction to another entity (or, as relevant its guarantor); (iii) procure that a guarantor meeting the applicable credit rating guarantees its obligations under the Interest Rate Swap Agreement; and/or (iv) take other actions in accordance with the Interest Rate Swap Agreement.

Where the Swap Counterparty provides collateral in accordance with the provisions of the Interest Rate Swap Agreement (including the credit support annex thereto), such collateral will not form part of the Available Funds, save as expressly permitted in the section 3.4.7.2.1 above.

The Swap Counterparty may only post collateral in the form of cash under the credit support annex to the Interest Rate Swap Agreement and any such cash collateral amounts will be credited to the Swap Collateral Account. If the Swap Counterparty does not fulfil its payment obligations under the Interest Rate Swap Transaction, which gives rise to a Swap Counterparty Default, upon the termination and close-out of the Interest Rate Swap Agreement, any collateral amounts will be used in accordance with section 3.4.5.1.4 of the Additional Information.

3.4.8.1.7 *Early Termination*

The Interest Rate Swap Transaction may be terminated in accordance with its terms, irrespective of whether or not the Floating Rate Notes have been paid in full prior to such termination, upon the occurrence of certain events envisaged therein (which may include, without limitation):

- (i) certain events of bankruptcy, insolvency, receivership or reorganisation of the Swap Counterparty or the Early Liquidation of the Fund;
- (ii) failure on the part of the Fund or the Swap Counterparty to make any payment when due under the Interest Rate Swap Agreement;
- (iii) changes in law resulting in illegality;
- (iv) amendment of any material terms of the Deed of Incorporation without the prior written approval of the Swap Counterparty if such amendments affect the amount, timing and priority of any payments due from the Swap Counterparty to the Fund;
- (v) occurrence of a Swap Counterparty Downgrade Event that is not remedied within the required timeframe pursuant to the Interest Rate Swap Agreement;
- (vi) if at any time the reference rate in respect of the Floating Rate Notes is changed (including where it is fixed in the scenario contemplated by paragraph (viii) of section 4.8.4 of the Securities Note) and, as a result, it is different to the relevant reference rate applicable to the Interest Rate Swap Transaction; and
- (vii) any other event as specified in the Interest Rate Swap Agreement.

A Subordination Event shall be deemed to take place in accordance with section 4.9.2.1 of Securities Note if a Swap Counterparty Downgrade Event occurs in respect of the Swap Counterparty (or its guarantor, as applicable) and none of the remedies provided for in the Interest Rate Swap Agreement are put in place within the timeframe required thereunder.

If the Interest Rate Swap Transaction is terminated because of an event of default or a termination event specified therein, the amount determined pursuant to Section 6(e) of the Interest Rate Swap Agreement may be due to the Fund depending on market conditions at the time of termination. This amount (the **Swap Termination Amount**) will be determined by the method described in the Interest Rate Swap Agreement and could be substantial if market rates or other conditions have changed materially. The Swap Termination Amount may be based on the actual cost or market quotations provided by third parties in the market of the cost of entering into an interest rate swap transaction similar to the Interest Rate Swap Transaction and any unpaid amounts on or prior to the early termination date.

If the Interest Rate Swap Transaction is terminated prior to redemption in full of the Floating Rate Notes, the Fund will be required to enter into a transaction on similar terms with a new Swap Counterparty. Any upfront payment to any replacement Swap Counterparty under the Interest Rate Swap Agreement payable by the Fund (if any) will be paid directly to the replacement Swap Counterparty and not in accordance with the Priority of Payments.

Any costs, expenses, fees and taxes (including stamp taxes) arising in respect of any such transfer to be made by the replacement Swap Counterparty will be borne by the Swap Counterparty when such transfer is decided by the Swap Counterparty pursuant to paragraph 11(h)(ii) of the CSA.

The Management Company, in the name and on behalf of the Fund, shall use its best efforts to find a replacement Swap Counterparty upon early termination of the Interest Rate Swap Transaction, but none of the Management Company or any other party to the Transaction Documents will assume any liability for not finding such a replacement Swap Counterparty in accordance with the terms of the Transaction Documents.

3.4.8.1.8 Rating Downgrade Provision for the Swap Counterparty

In the understanding that the Notes actually obtain the provisional ratings allocated by the Rating Agencies as described in section 7.3 of the Securities Note, the Swap Counterparty shall be obliged to comply with the interest rate swap required ratings envisaged in the table below (the **Interest Rate Swap Required Ratings**) (i.e. the **First Swap Required Ratings** and the **Second Swap Required Ratings**, as applicable in accordance with the table below), which at the date of registration of this Prospectus and according with the provisional ratings allocated by the Rating Agencies to the Rated Notes would be, in particular:

Interest Rate Swap Required Ratings	DBRS	Moody's
First Swap Required Ratings	A (or above)	A3 (or above)
Second Swap Required Ratings	BBB (or above)	Baa3 (or above)

Failure by the Swap Counterparty to maintain the Interest Rate Swap Required Ratings would constitute a **Swap Counterparty Downgrade Event** which, if not remedied, would constitute an “Additional Termination Event” under the Interest Rate Swap Agreement with the Swap Counterparty being the sole “Affected Party”.

Upon the occurrence of a Swap Counterparty Downgrade Event in relation to any Rating Agency, the Swap Counterparty must:

- (i) in case of a downgrade below the First Swap Required Ratings applicable in respect of a Rating Agency, post an amount of collateral as calculated by such Rating Agency in accordance with the provisions of the CSA;
- (ii) in case of a downgrade below the Second Swap Required Ratings applicable in respect of a Rating Agency; either:
 - (a) obtain a guarantee from an institution with a credit rating that is acceptable for such Rating Agency; or

- (b) assign its rights and obligations under the Interest Rate Swap Agreement to an assignee Swap Counterparty that will have to comply with the requirements as stated in the Interest Rate Swap Agreement; or
- (iii) take such other action in order to maintain the rating of the Rated Notes, or to restore the rating of the Rated Notes to the level it would have been at immediately prior to the occurrence of such Swap Counterparty Downgrade Event.

The occurrence of a Swap Counterparty Downgrade Event which is continuing after the relevant cure period has elapsed will be considered a Revolving Period Early Termination Event and a Subordination Event under this Prospectus.

3.4.8.1.9 *Governing Law*

The Interest Rate Swap Agreement, including any non-contractual obligations arising out of or in relation thereto, are governed by, and will be construed in accordance, with English law.

3.4.8.2. Paying Agency Agreement

3.4.8.2.1 *Appointment*

The Management Company, for and on behalf of the Fund, appoints BNPP, which undertakes to be the Paying Agent in order to carry out the issue of the Notes.

3.4.8.2.2 *Obligations*

The obligations assumed by BNPP in its condition as Paying Agent include the following:

(i) Delivery of the Notes

Before 12.30 CET on the Disbursement Date, the Paying Agent will book the Notes to the account or accounts in Iberclear designated by the Billing and Delivery Agent on a free of payment basis in accordance with the provisions of the Paying Agency Agreement.

(ii) Payments made against the Fund

On each Payment Date, the Paying Agent will make the payment of any interests and/or repayment of the principal of the Notes in accordance with the appropriate instructions received from the Management Company and following the Pre-Enforcement Priority of Payments or, where applicable, Post-Enforcement Priority of Payments described in sections 3.4.7.2 and 3.4.7.3 of this Additional Information.

The instructions from the Management Company to the Paying Agent must be received by the Paying Agent three (3) Business Days in advance to the date on which the Paying Agent shall effect the corresponding payment.

Payments to be made by the Paying Agent on each Payment Date will be made through the corresponding entities participating in IBERCLEAR, in whose registers the Notes are recorded, in accordance with IBERCLEAR's procedures in force regarding this service and following the instructions provided by the Management Company.

If there are no Available Funds in the Treasury Account on a Payment Date, the Paying Agent shall immediately notify this circumstance to the Management Company in order for the Management Company to adopt the appropriate measures. In such case, the Paying

Agent will not make any payments until the relevant funds are received in the Treasury Account and it receives new instructions from the Management Company.

3.4.8.2.3 *Voluntary termination by the Paying Agent*

The Paying Agent may, at any time, terminate the Paying Agency Agreement by giving at least two (2) months' prior written notice to the Management Company, provided that:

- (i) another institution with similar financial characteristics selected by the Management Company replaces the Paying Agent;
- (ii) notice is given to CNMV and the Rating Agencies;
- (iii) the Rating Agencies confirm that the ratings assigned to the Rated Notes are not negatively affected.

3.4.8.2.4 *Voluntary termination by the Management Company*

The Management Company may, at any time, substitute at its sole discretion the Paying Agent by giving at least two (2) months' prior written notice to the Paying Agent, provided that:

- (i) another institution with similar financial characteristics selected by the Management Company replaces the Paying Agent;
- (ii) notice is given to CNMV and the Rating Agencies; and
- (iii) the Rating Agencies confirm that the ratings assigned to the Rated Notes are not negatively affected.

3.4.8.2.5 *Survival*

Neither the voluntary termination of the Paying Agency Agreement by the Paying Agent nor by the Management Company will be effective until the new institution assuming the position of Paying Agent has effectively assumed its functions.

3.4.8.2.6 *Costs derived from the replacement of the Paying Agent*

Any costs resulting from the voluntary termination of the Paying Agency Agreement by the Paying Agent or by the Management Company or from the actions referred to in section 3.4.8.2.5 above as well as any onboarding fees payable to the substitute Paying Agent will be considered Extraordinary Expenses of the Fund. For the avoidance of doubt, any fees payable to the substitute Paying Agent other than the onboarding fees will be Ordinary Expenses of the Fund.

3.4.8.2.7 *Paying Agent's fees*

As consideration for the services to be provided by the Paying Agent, the Management Company, for and on behalf of the Fund, shall pay on each Payment Date a fee agreed under the Paying Agency Agreement following the Pre-Enforcement Priority of Payments or, where applicable, the Post-Enforcement Priority of Payments described in sections 3.4.7.2 and 3.4.7.3 of the Additional Information.

The Paying Agent will be reimbursed for all reasonable out-of-pocket expenses incurred on behalf of the Fund (including legal publications, telex, mail expenses and any other similar duties, stamps

or taxes including VAT, if any) arising from the execution, performance and enforcement of the Paying Agency Agreement and its obligations thereunder.

3.6. Return on, and/or repayment of the securities linked to the performance or credit of other assets or underlying which are not assets of the issuer

Not applicable.

3.7. Management, administration and representation of the Fund and of the Noteholders

3.7.1. Servicer

The Management Company shall be responsible for the servicing and management of the Loans in accordance with article 26.1 b) of Law 5/2015. Notwithstanding, it shall be entitled to subdelegate such duties to third parties in accordance with article 30.4 of Law 5/2015, which shall not affect its responsibility.

The Management Company will appoint PSA Financial Services, as Seller of the Receivables, in the Deed of Incorporation to perform the servicing and management of the Loans. The relationship between the Servicer and the Fund will be governed by the provisions of the Deed of Incorporation.

PSA Financial Services will accept the mandate received from the Management Company to act as servicer of the Loans (the **Servicer**) and will undertake:

- (i) to carry out the servicing and management of the Receivables acquired by the Fund in accordance with the ordinary rules and procedures of servicing and management set out in the Deed of Incorporation;
- (ii) to coordinate all actions in connection with the Vehicles as provided under the Loan Agreements, the Global Agreement and the Marketing Action; in particular, to manage the return of the Vehicles by the Borrowers when applicable, and to collect any amounts payable to the Seller by PSAG or the Adhered Concessionaires under the Global Agreement or the Marketing Action corresponding to the repurchase undertaking assumed by PSAG or the exercise of the repurchase option by the relevant Adhered Concessionaire (as applicable);
- (iii) to continue to service the Loans, dedicating the same time and attention and the same level of expertise, care and diligence in their administration as it would dedicate and exercise in the administration of its own loans. In any case, it will exercise an appropriate level of expertise, care and diligence in the provision of the services foreseen in this Additional Information and in the Deed of Incorporation;
- (iv) to apply and continue to apply procedures for the servicing and management of the Loans that are, and will continue to be, in accordance with applicable laws and regulations;
- (v) to faithfully comply with the instructions given by the Management Company;
- (vi) to carry out all actions required to maintain in full force any licences, approvals, authorisations and consents that might be necessary or appropriate in relation to the performance of its services;
- (vii) to have available the equipment and personnel sufficient to carry out all its obligations; and
- (viii) to compensate the Fund for any damages it may suffer as a consequence of the failure to comply with its obligations as Servicer.

A brief description of the ordinary rules and procedures for servicing and management of the Loans governed by the Deed of Incorporation of the Fund is set out in the following sections.

3.7.1.1. Term and replacement of the Servicer

3.7.1.1.1 *Term*

The services will be provided by the Servicer from the Date of Incorporation until all obligations assumed by the Servicer in relation to such Loans are extinguished upon full repayment of the Loans, without prejudice to the possible early revocation of its mandate or its voluntary resignation.

In particular, the Servicer may voluntarily resign from its position as servicer and therefore from the servicing and management of the Receivables if permitted by laws in force from time to time. The voluntary resignation of the Servicer is subject to

- (i) prior authorisation of the Management Company;
- (ii) the Management Company having appointed a new Servicer which has effectively assumed its functions;
- (iii) the Servicer having taken all actions foreseen in section 3.7.1.1.4 below;
- (iv) the Servicer having indemnified the Fund for any damages caused to the Fund arising from its resignation and replacement; and
- (v) the rating of the Rated Notes not being adversely affected.

3.7.1.1.2 *Event of Replacement of the Servicer*

An **Event of Replacement of the Servicer** will be triggered upon the occurrence of any of the following events:

- (i) any breach of its obligations under the Deed of Incorporation, in the reasonable opinion of the Management Company, and in particular, its obligation to transfer to the Fund the amounts received by the Borrowers (or, if applicable, PSAG or the Adhered Concessionaires) within two (2) Business Days as from receipt (except if the breach is due to a force majeure); and
- (ii) an Insolvency Event occurs in respect of the Servicer.

3.7.1.1.3 *Replacement*

Upon the occurrence of an Event of Replacement of the Servicer, the Management Company, with prior notice to the Rating Agencies, may take one of the following actions (at its discretion):

- (i) replace the Servicer with another entity that, in the opinion of the Management Company, has the suitable legal and technical capacity to perform the services, provided that the rating of the Rated Notes is not adversely affected. In this regard, the Management Company, as back-up servicer facilitator, will carry out any actions required to find, select and appoint a replacement Servicer. The Management Company will carry out its best efforts to find a replacement Servicer within sixty (60) calendar days from the date of the relevant Event of Replacement of the Servicer;
- (ii) require the Servicer to subcontract, delegate or have the performance of such obligations guaranteed by another entity that, in the opinion of the Management Company, has the

suitable legal and technical capacity, provided that the rating of the Rated Notes is not adversely affected.

Notwithstanding the above, in case that the Event of Replacement of the Servicer is the occurrence of an Insolvency Event, the only possible action to be adopted by the Management Company will be the replacement of the Servicer in accordance with paragraph (i) above.

In accordance with Insolvency Law, the Fund, by acting through the Management Company, will have a right of separation in respect of the assigned Receivables, pursuant to articles 239 and 240 of the Insolvency Law. This right of separation will not necessarily extend to the money received by the Seller, in its capacity as Servicer, and kept by the latter on behalf of the Fund prior to its deposit to the relevant Fund Account, since, given its fungible nature, it could be subject to the result of the insolvency proceedings according to the majority interpretation of article 239 of the Insolvency Law.

3.7.1.1.4 Procedure

The Management Company will consider the proposals made by the Servicer both in connection with the subcontracting, delegation or appointment of the new entity acting as Servicer.

Without prejudice to the above, final decision as regards the appointment of the new entity acting as Servicer and any of the aforementioned actions will correspond to the Management Company, acting in the name and on behalf of the Fund.

Upon the occurrence of an Event of Replacement of the Servicer, the Servicer undertakes to carry out the following actions:

- (i) To make available, at the Management Company's request, a record of the personal data of the Borrowers necessary to issue collection orders to the Borrowers or serve on the Borrowers the notice referred to below (the **Personal Data Record** or **PDR**).

The communication and use of such data shall be limited and in any event subject to compliance with Organic Law 3/2018, of 5 December, on Personal Data Protection and guarantee of digital rights or law replacing, amending or implementing the same (the **Data Protection Law**), and Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (the **General Data Protection Regulation**).

- (ii) At the Management Company's prior request, to deposit the PDR before a notary public in order that it may be searched or used in due course by the Management Company in case of need in connection with the Loan servicing functions.
- (iii) To assist the Management Company using all reasonable efforts in the substitution process and, as the case may be, notify the Borrowers and the insurance companies.
- (iv) As soon as reasonably practicable, to deliver and make available to the Management Company (or any person appointed by it) the files delivered to it by the Seller (if different from the Servicer), copies of all records (including, without limitation, computer records and books of records), correspondence, and documents in its possession or under its control relating to the relevant Receivables assigned to the Fund and any sums and other assets, if any, then held by the Servicer on behalf of the Management Company.
- (v) To do such things and execute such contracts as shall require the Servicer's involvement in order for functions to be effectively transferred to the new Servicer.

The notification regime to the Borrowers is regulated under section 3.7.1.12 of the Additional Information.

3.7.1.2. Custody of agreement, deeds, documents and files

The Servicer will keep all the Loan Agreements, as well as copies of all instruments, documents and computer files related to the Loans, in safe custody and will not abandon the possession, custody or control thereof without the prior written consent of the Management Company, unless the document is necessary to commence proceedings for the enforcement of a Loan or its security.

The Servicer, acting reasonably, will at all times provide the Management Company or the duly authorised auditor of the Fund with access to such Loan Agreements, instruments, documents and records. If the Management Company so requests, the Servicer will also provide a free-of-charge copy or photocopy of any of such Loan Agreements, instruments and documents within five (5) Business Days following such request. The Servicer must act in the same way in the case of requests for information from the auditor of the Fund.

In any case, the Servicer waives the privileges which the law confers thereon in its condition as manager of collections for the Fund and of the custody of the Loan Agreements, and particularly those established in articles 1730 and 1780 of the Civil Code (regarding the retention of pledged items) and 276 of the Commercial Code (security similar to the retention of pledged items).

3.7.1.3. Collection management

The Servicer will receive on account of the Fund any amounts paid by the Borrowers, the Adhered Concessionaires, PSA Financial Services (in case it ceases to be the Servicer) or PSAG, as applicable, arising out of the Receivables, for principal, interest or Ancillary Rights, as well as for any other concept, and will proceed to deposit them into the Treasury Account immediately and in any case within two (2) Business Days following the receipt thereof.

3.7.1.4. Advance of funds

In no event will the Servicer be obliged to advance any amount that has not been previously received from the Borrowers under the Loans.

3.7.1.5. Information

The Servicer must periodically inform the Management Company and the Rating Agencies of the Borrowers' level of compliance with their obligations arising from the Loans, of the compliance by the Servicer with its obligation to deposit in the Treasury Account the amounts received from the Loans, of the recovery actions adopted in the event of payment default, and of the existence of hidden defects in, or the breach of any Eligibility Criteria by, the Loans or the Receivables.

The Servicer must prepare and deliver to the Management Company the additional information that the Management Company may reasonably request regarding the Loans, the Receivables or any rights (including any Ancillary Rights) arising from them.

In particular, the Servicer shall provide in a timely manner to the Originator, as Reporting Entity, any reports, data and other information in the correct format to fulfil the reporting requirements of article 7 of the EU Securitisation Regulation (including, *inter alia*, the information, if available, related to the environmental performance of the Vehicles).

3.7.1.6. Subrogation of the Borrower under the Loans

The Servicer will be authorised to permit subrogations in the position of the Borrower under the Loan Agreements in those cases where (i) the new Borrower has similar characteristics in terms of risk profile to those of the previous Borrower, (ii) the new Borrower conforms with the PSA Financial Services Policies described in section 2.2.7 of this Additional Information, (iii) the relevant Receivables comply with the Eligibility Criteria and (iv) it does not adversely or otherwise negatively affect the Receivables portfolio, provided in any case that the expenses arising from such subrogation are paid in full by the new Borrower (unless otherwise provided by law).

The Servicer must immediately notify the Management Company of any subrogation in the position of Borrower in accordance with the preceding paragraph.

In the event that the Servicer fails to comply with any of the provisions in this section in relation to the subrogation in the position of Borrower, the replacement procedure described in section 2.2.9 of the Additional Information shall be applicable to the relevant Loan.

The Servicer assumes the obligation to indemnify the Fund for any damage, loss or expense incurred by the Fund as a result of the Servicer's failure to comply with the obligations described in this section.

The Management Company may totally or partially limit this authorisation to the Servicer, or subject it to conditions, if such subrogations may negatively affect the ratings of the Rated Notes assigned by the Rating Agencies.

3.7.1.7. Powers and actions in relation to Loan forbearance processes

The Management Company authorises the Servicer to carry out renegotiation in the terms and conditions of the Loan Agreement without its prior consent, in accordance with and subject to the limitations described below.

The Servicer may not voluntarily:

- (i) cancel the security or guarantees securing the Receivables for other reasons than repayment if full of the Loans;
- (ii) give a waiver or settlement with respect to the Receivables;
- (iii) cancel the Receivables in whole or in part or extend them; or
- (iv) in general, carry out any act that results in a postponement of the rank of the security, or otherwise negatively affects the legal effectiveness or economic value of the security or of the Receivables.

Any renegotiation by the Servicer must comply with the following limitations:

- (i) The Outstanding Balance may not be increased under any circumstances.
- (ii) The interest rate may not be modified under any circumstances.
- (iii) Except as provided below in respect of maturity extensions, the frequency of payments of instalments under the Loan may not be changed.

- (iv) The maturity date of a particular Loan may be extended provided that the following conditions are met:
 - (1) the amount of the Outstanding Balance of the Receivables arising from the Loans which maturity is extended may not exceed 10% of the Outstanding Balance of the Initial Receivables on the Portfolio Cut-Off Date;
 - (2) the frequency of payments of interest and principal under the Loans is maintained or otherwise increased and the same repayment system is maintained; and
 - (3) the new maturity date or last repayment date of the Loan cannot exceed the Final Maturity Date.

The renegotiations of the Loans carried out in accordance with the above may only be carried out at the request of the Borrower, and the Servicer may not propose them at its own initiative.

The Servicer must immediately notify the Management Company of any renegotiation made in accordance with the preceding paragraphs, including information on the conditions of each such renegotiation. Such communication shall take place through the computer file provided by the Management Company used to update the conditions of the Loans.

In the event that the Servicer fails to comply with any of the provisions in this section in relation to the renegotiation of any of the Loans, the replacement procedure described in section 2.2.9 of the Additional Information shall be applicable to the relevant Loan.

The Servicer assumes the obligation to indemnify the Fund for any damage, loss or expense incurred by the Fund as a result of the Servicer's failure to comply with the obligations described in this section.

The limitations set out above shall not apply to the following actions, which shall be deemed to be expressly allowed:

- (i) the granting of any Moratoriums (including, for the avoidance of doubt, any Covid-19 Moratoriums); and
- (ii) those qualifying as renegotiations in accordance with Circular of the Bank of Spain 4/2017, of 27 November, on public and private financial reporting standards and models of financial statements, and in any guidelines that the EBA may issue in order to better define forbearance measures.

In addition to this, in accordance with the representation given by the Seller under section 2.2.8(iii)(28) of the Additional Information, no Receivables assigned to the Fund shall be affected by Covid-19 Moratoriums at the time of their assignment to the Fund. However, the Seller will neither replace nor repurchase Receivables affected by Covid-19 Moratoriums or any other similar measures (including any other Moratoriums of any type) after their assignment to the Fund.

For the purposes of this section:

Covid-19 Moratoriums means, jointly, Covid-19 Legal Moratoriums and Covid-19 Contractual Moratoriums.

Covid-19 Legal Moratoriums means the moratoriums foreseen in Royal Decree-Law 11/2020 (as amended by, among others, Royal Decree-Law 26/2020), together with any settlement, suspension of payments, rescheduling of the amortisation plan or other contractual amendments resulting from

or arising from mandatory provisions of law or regulation granted in connection with measures in force to tackle the effects of the Covid-19.

3.7.1.8. Exceptional expenses

On each Payment Date the Servicer will be reimbursed for all exceptional expenses incurred in the servicing of the Receivables and the Loans and which have been duly justified to the Management Company, including any expenses derived from the enforcement of the security or guarantees but expressly excluding any extrajudicial expenses.

Such exceptional expenses will be paid in accordance with the Pre-Enforcement Priority of Payments and the Post-Enforcement Priority of Payments, as applicable, set out in sections 3.4.7.2 and 3.4.7.3 of this Additional Information, respectively.

3.7.1.9. Set-off

Notwithstanding the representation made by the Seller in section 2.2.8(iii)(15) of the Additional Information, in the event that any of the Borrowers (or, if applicable, PSAG or the Adhered Concessionaires) has a liquid, due and payable credit right against the Servicer, resulting in one or more Loans being totally or partially set off against such right, the Servicer will remedy this circumstance such that the set-off does not apply, or if it this is not possible, will deposit in the Treasury Account Fund the amount which was set off plus interest due from the date of set-off until the date on which the deposit is made, calculated in accordance with the terms and conditions of the corresponding Loan.

3.7.1.10. Subcontracting

The Servicer may subcontract any of the services which it has undertaken to provide by virtue of the above provisions and of the Deed of Incorporation, except for those services that cannot be delegated pursuant to applicable law.

In no case will such subcontracting entail any additional cost or expense for the Fund or the Management Company, and it must not cause a downgrade of the rating of the Rated Notes by the Rating Agencies.

Notwithstanding any subcontracting or delegation:

- (i) the Management Company shall not be excused or released from any of its obligations under article 26.1.b) of Law 5/2015; and
- (ii) the Servicer will not be discharged or released from any of the obligations or liabilities assumed and that are legally attributable to or enforceable against the Servicer.

3.7.1.11. Liability of the Servicer and indemnity

PSA Financial Services, in its condition as Servicer:

- (i) undertakes to act with due diligence as regards the collection management for the Loans as well as the custody and servicing of the Loans and will be liable to the Fund, through its Management Company, for any damage that arises from its negligence;
- (ii) will indemnify the Fund, through its Management Company, for any damage, loss or expense it may incur due to the failure to comply with its obligations concerning collection management and/or custody and/or servicing of the Loans;
- (iii) does not assume any liability for directly or indirectly guaranteeing the success of the transaction, nor will it provide security or enter into agreements for the repurchase of the Receivables other than in accordance with the terms and conditions set out in section 2.2.9 of the Additional Information.

Neither the Noteholders nor any other creditor of the Fund shall have any direct right of action whatsoever against the Servicer. Notwithstanding the foregoing, under article 26.1.b) and 26.2 of Law 5/2015, the Management Company shall be liable to the Noteholders and other creditors of the Fund for all and any losses caused to them by a breach of its obligation to service and manage the Receivables pooled in the Fund.

3.7.1.12. Notices

The Management Company and the Seller have agreed not to notify the assignment of the Receivables in favour of the Fund to the respective Borrowers, guarantors, insurance companies, PSAG and the Adhered Concessionaires except when:

- (i) required by law, in which case notice will be made on the relevant Assignment Date; and/or
- (ii) upon the occurrence of any of the circumstances below:
 - (a) an Insolvency Event of the Servicer; or
 - (b) any other circumstance that, in the opinion of the Management Company, indicates or could reasonably indicate that an Insolvency Event of the Servicer may occur in the future; or
 - (c) any other Event of Replacement of the Servicer; or
 - (d) if the Management Company otherwise reasonably requests so, provided that such request is duly justified;

In the circumstances (i) and (ii) above, the Servicer shall (with respect to (i) above), or the Management Company may request the Servicer to (with respect to (ii) above), notify the Borrowers and, when applicable, the guarantors, insurance companies, PSAG and the Adhered Concessionaires of the transfer of the Receivables to the Fund, as well as of the fact that the payments arising therefrom will only have release effects if they are made into the Treasury Account.

However, in case that (a) the Servicer has not notified the Borrowers and, when applicable, the guarantors, insurance companies, PSAG and the Adhered Concessionaires within three (3) Business Days following (A) the Assignment Date (in case of (i) above); or (B) receipt of the request from the Management Company (in case of (ii) above, except for limb (a) thereof), and (b) in the event of

an Insolvency Event in respect of the Servicer, the Management Company itself, either directly or through a new servicer designated by it, will notify the Borrower and, when applicable, the guarantors, the insurance companies, PSAG and the Adhered Concessionaires.

In connection with (i) above, as of the date of this Prospectus, notice is required by law to Borrowers in (a) the Autonomous Community of Valencia, pursuant to Decree-Law 1/2019, of December 13, of the Consell, approving the consolidated version of the Statute of consumers and users of the Valencian Community; and to the extent required, (b) Castilla-La Mancha, pursuant to Law 3/2019, of 22 March, and (c) Comunidad Foral de Navarra, pursuant to Law 21/2019, of 4 April. For these purposes, notice is not a requirement for the validity of the assignment of the Loans.

Accordingly, the Seller will grant to the Management Company the broadest powers as required by law so that it may, in the name of the Fund, notify the Borrowers and, when applicable, the guarantors, the insurance companies, PSAG and the Adhered Concessionaires of the assignment at the time it deems appropriate.

The Seller will assume the expenses incurred in notifying the Borrowers, and, when applicable, the guarantors, insurance companies, PSAG and the Adhered Concessionaires even if notification is provided by the Management Company.

3.7.1.13. Servicer's remuneration

As consideration for being in charge of the custody, servicing and management of the Loans, the Servicer shall have the right to receive in arrears on each Payment Date a servicing fee (the **Servicer's Fee**), including, if applicable, VAT, equal to 0.125% per annum, which will accrue for the actual days in each Interest Accrual Period, and will be calculated on the basis of the sum of the Outstanding Balance of the Notes on the Determination Date corresponding to that Payment Date. Any extraordinary expenses that the Servicer might incur are included in the Servicer's Fee.

If the Fund, through its Management Company, does not pay the entire Servicer's Fee on a Payment Date due to the lack of sufficient liquidity in accordance with the Pre-Enforcement Priority of Payments, any unpaid amounts shall be added – without any kind of penalty – to the fee to be paid on the following Payment Date, but the Servicer shall not be entitled to any interest on the amounts due and not paid on a specific Payment Date.

On the other hand, the Servicer, on each Payment Date, shall be entitled to the reimbursement of all exceptional expenses incurred in connection with the administration of the Receivables, subject to their justification to the Management Company. Such expenses shall include, among others, those arising from the execution of guarantees, and they shall be paid provided that the Fund has sufficient liquidity in accordance with the Pre-Enforcement Priority of Payments.
