This is the Provisional STS Term Master Checklist for STS Term Verifications.

This Provisional STS Term Master Checklist must be read together with the PCS Procedures Manual and the PCS Term Evidentiary Standards Manual. This document is based upon the draft materials received by PCS as at the date of this document. Any references in this document are to the prospectus unless otherwise stated.

This Provisional STS Term Master Checklist is not the final STS Term Verification and is based on the draft documents and information provided to PCS by or on behalf of the originator as of the date of this assessment.

PCS comments in this Provisional STS Term Master Checklist are based on PCS' interpretation of the STS Regulation (the "Regulation") informed by (a) the text of the Regulation itself, (b) the EBA guidelines and recommendations issued in accordance with Article 19(2) of the Regulation (the "EBA Guidelines") and (c) any relevant national competent authorities interpretation of the STS criteria to the extent known to PCS.

It is anticipated at the date of this Provisional STS Term Master Checklist a Final STS Term Master Checklist for STS Term Verification will be made available at or around closing of the transaction. However, such Final STS Term Master Checklist for STS Term Verifications will be based upon the final materials received by PCS and will only be made available on a fully ticked basis if no material adverse changes have been made to the transaction or the relevant material which, upon becoming known to PCS, would not adversely change our analysis. Therefore, no guarantees can be provided that such Final STS Term Master Checklist for STS Term Verification will be made available on a fully ticked basis.

It is important that the reader of this checklist reviews and understands the disclaimer referred to on the following page. Note that all comments on the disclaimer relate to both Provisional STS Term Checklist for STS Term Verifications and the Final STS Term Checklist for STS Term Verifications.

## STS Disclaimer

Neither an STS Verification, nor a CRR Assessment, nor an LCR Assessment is a recommendation to buy, sell or hold securities. None are investment advice whether generally or as defined under Markets in Financial Instruments Directive (2004/39/EC) and none are a credit rating whether generally or as defined under the Credit Rating Agency Regulation (1060/2009/EC).

PCS EU and PCS UK are authorised respectively by the French Autorité des Marchés Financiers and by the United Kingdom Financial Conduct Authority as third-parties verifying STS compliance pursuant to article 28 of Regulation (EU) 2017/2402 (the “STS Regulation”).

Currently, none of the activities involved in providing an CRR Assessment are endorsed or regulated by any regulatory and/or supervisory authority nor are the PCS Association or PCS EU regulated by any regulator and/or supervisory authority including the Belgian Financial Services and Markets Authority, the United Kingdom Financial Conduct Authority, the French Autorité des Marchés Financiers or the European Securities and Markets Authority.

By assessing the CRR status of any securities or financing, neither the PCS Association nor PCS UK nor PCS EU express any views about the creditworthiness of these securities or financings or their suitability for any existing or potential investor or as to whether there will be a ready, liquid market for these securities or financings.

Equally, by completing (either positively or negatively) any CRR status assessment of certain instruments, no statement of any kind is made as to the value or price of these instruments or the appropriateness of the interest rate they carry (if any).

In the provision of any CRR Assessment, PCS has based its decision on information provided directly and indirectly by the originator or sponsor of the relevant securitisation. Specifically, it has relied on statements made in the relevant prospectus or deal sheet, documentation and/or in certificates provided by, or on behalf of, the originator or sponsor in accordance with PCS’ published procedures for the relevant PCS verification or assessment. You should make yourself familiar with these procedures to understand fully how any PCS service is completed. These can be found at <https://pcsmarket.org/> (the “PCS Website”). Neither the PCS Association nor PCS UK nor PCS EU undertake their own direct verification of the underlying facts stated in the prospectus, deal sheet, documentation or certificates for the relevant instruments and the completion of any CRR Assessment is not a confirmation or implication that the information provided to it by or on behalf of the originator or sponsor is accurate or complete.

The PCS entities take reasonable measures to ensure the quality and accuracy of the information on [www.pcsmarket.org](http://www.pcsmarket.org). However, neither the PCS Association nor PCS UK nor PCS EU can be held liable in any way for the inaccuracy or incompleteness of any information that is available on or through the PCS Website. In addition, neither the PCS Association nor PCS UK nor PCS EU can in any way be held liable or responsible for the content of any website linked to the PCS Website.

To understand the meaning and limitations of any CRR Assessment you must read the General Disclaimer that appears on the PCS Website.

When entering any of the “Transaction” sections of the PCS Website, you will be asked to declare that you are allowed to do so under the legislation of your country. The circulation and distribution of information regarding securitisation instruments (including securities) that is available on the PCS Website may be restricted in certain jurisdictions. Persons receiving any information or documents with respect to or in connection with instruments (including securities) available on the PCS Website are required to inform themselves of and to observe all applicable restrictions.

In addition, any amounts held by the servicer as a result of its collection of payments in respect of the credits assigned under the Securitisation Law will not form part of the servicer's insolvency estate.</p> <p>"True sale" is not a legal concept but a rating agency creation.</p> <p>The essence of a "true sale" is that the property in the securitised assets has legally moved from the originator(s)/seller to the SSPE in such a way that the SSPE's ownership will be recognised as a matter of law, including and especially in the case of the insolvency of the originator(s)/seller. In a "true sale" the insolvency officer and creditors of the insolvent</p>	

originator/seller are not able to satisfy the claims of the originator/seller's creditor out of the proceeds of the securitised assets. Following a "true sale" there is no legal device by which the assets can automatically revert to the originator/seller's ownership. Such automatic reversion is associated with security interests and anathema to a "true sale".

This is clearly stated in the wording of the Regulation (20.1). The expression "transfer to the same effect" indicates that, as long as the conditions in the preceding paragraph are met, the Regulation does not seek to limit the type of legal devices which can be used to effect such transfer of title.

The issue of "true sale" is separate from the issue of "clawback". "Clawback" refers to legal processes through which, in the insolvency of the seller of an asset, an insolvency officer is entitled to reverse the sale – even in cases where a "true sale" has taken place.

All European jurisdictions, to PCS' knowledge, have rules allowing for clawbacks. Clawbacks are usually rules to avoid a company heading towards insolvency from "defrauding" its existing creditors either by selling assets at very low prices (to friends and relations) or unfairly preferring certain creditors over others.

The Regulation (20.1) therefore does not require STS "true sales" to be clawback proof since this would mean that no European securitisation could ever be STS. It does require the sale not to be subject to "severe clawback". The Regulation does not define "severe clawback" but gives an example (20.2) where a clawback may occur. The Regulation (20.3) also explicitly excludes from the definition of "severe clawback" the traditional European basis for such devices which all come under the general category of "preferences".

PCS further notes that the examples (20.2 and 20.3) refer to the insolvency law of a jurisdiction and therefore believes that clawback risk is to be assessed on a jurisdictional basis rather than on a transactional basis.

Finally, PCS does not believe and nor is there any evidence that the legislators or regulatory authorities are seeking to craft a higher standard than that which has been used for decades by the market and was the basis for the legislative text.

Based on the above considerations, PCS believes that transfers from jurisdictions meeting certain criteria – absent any other indications – shall not fall within the definition of "severe clawback".

- Clawback requires an unfair preference "defrauding" creditors;
- Clawback puts the burden of proof on the insolvency officer or creditors – in other words it cannot be automatic nor require the purchaser to prove their innocence.

Since "severe clawback" is a jurisdictional concept, in analysing this issue PCS will therefore first seek to determine the Originator's jurisdiction for the purposes of insolvency law. This would be its centre of main interest or "COMI" or its "home member state".

The second step would be to determine whether the relevant COMI and/or "home member state" contains severe claw back provisions in its insolvency legislation. Although the determination of a COMI can be a technically fraught analysis of international conflicts of law, PCS notes that in the vast majority of securitisations there is no real issue as the COMI is self-evident.

The Originator is incorporated in Portugal and it is authorised as a credit institution to operate in Portugal, as confirmed in the Prospectus.

*Portuguese insolvency law provides for clawback in the cases of preferences and transactions at an undervalue and require the insolvency officer to prove that case. See in this respect the following statements in Prospectus Section headed "SELECTED ASPECTS OF LAWS OF THE PORTUGUESE REPUBLIC RELEVANT TO THE RECEIVABLES AND THE TRANSFER OF THE RECEIVABLES":*

Assignment of credits

Under the Securitisation Law, the sale of credits for securitisation is carried out by way of assignment of credits. In this context, the following should be noted: (...)

(c) Assignment and Insolvency

Unless an assignment of credits is effected in bad faith or entails wilful misconduct with a view to hampering the interests of creditors that fulfil the criteria set in Articles 610 and 612 of the Portuguese Civil Code (impugnação pauliana), such assignment under the Securitisation Law cannot be challenged for the benefit of the assignor's insolvency estate and any payments made to the assignor in respect of credits assigned prior to a declaration of insolvency will not form part of the assignor's insolvency estate even when the term of the credits

falls after the date of declaration of insolvency of the assignor. In addition, any amounts held by the servicer as a result of its collection of payments in respect of the credits assigned under the Securitisation Law will not form part of the servicer’s insolvency estate.>>.

The legal opinion of the transaction counsel confirmed that the assignment from the Originator to the Issuer meets the definition of “true sale” outlined above. Therefore, and as generally outlined in the Prospectus and in the Portuguese legal opinion, the transfer is not, in our view, subject to “severe clawback”.

The Republic of Portugal does not contemplate severe clawback provisions for securitisation transactions. It is noted, however, that in a future insolvency scenario /resolution procedure involving the Originator and/or the group to which it belongs, although its home member state is in Portugal, it cannot be excluded that insolvency laws of other jurisdictions (e.g. those of the relevant parent company) may become applicable to an insolvency procedure affecting the Originator. PCS believes that, in such case, however, the prospect that such laws would be recognised as applicable to a possible claw-back action aimed at the recovery of the Receivables back from the Issuer is remote, particularly due to the strength of the true sale assignment and to the segregation of the Receivables as outlines in the Prospectus and confirmed in the legal opinion.

**Article 20.1** [...] The transfer of the title to the SSPE shall not be subject to severe clawback provisions in the event of the seller's insolvency.  
**Article 20.2** For the purpose of paragraph 1, any of the following shall constitute severe clawback provisions:  
 (a) provisions which allow the liquidator of the seller to invalidate the sale of the underlying exposures solely on the basis that it was concluded within a certain period before the declaration of the seller's insolvency;  
 (b) provisions where the SSPE can only prevent the invalidation referred to in point (a) if it can prove that it was not aware of the insolvency of the seller at the time of sale..  
**Article 20.3.** For the purpose of paragraph 1, clawback provisions in national insolvency laws that allow the liquidator or a court to invalidate the sale of underlying exposures in case of fraudulent transfers, unfair prejudice to creditors or of transfers intended to improperly favour particular creditors over others, shall not constitute severe clawback provisions.

<b>2</b>	<b>STS Criteria</b> 2. The transfer of the title to the SSPE shall not be subject to severe clawback provisions in the event of the seller's insolvency.	<b>Verified?</b> <b>YES</b>
	<b>PCS Comments</b> See point 1 above.  A legal opinion has been provided and sufficient comfort is reached that the transfer would not be subject to a “severe clawback” if Portuguese insolvency proceedings are opened in respect of the Originator.	

**Article 20.4.** Where the seller is not the original lender, the true sale or assignment or transfer with the same legal effect of the underlying exposures to the seller, whether that true sale or assignment or transfer with the same legal effect is direct or through one or more intermediate steps, shall meet the requirements set out in paragraphs 1 to 3.

<b>PCS Comments</b>		

Notification is not required to perfect the transfer of the exposures of this transaction. This is confirmed in the Legal Opinion and in the Prospectus Section headed “SELECTED ASPECTS OF LAWS OF THE PORTUGUESE REPUBLIC RELEVANT TO THE RECEIVABLES AND THE TRANSFER OF THE RECEIVABLES”:

Assignment of credits

Under the Securitisation Law, the sale of credits for securitisation is carried out by way of assignment of credits. In this context, the following should be noted:

(a) Notice to Debtors

In general, and as provided in the Portuguese Civil Code (Código Civil), an assignment of credits is effective against the relevant debtor after notification of assignment is made to such debtor or in cases where the assignment is accepted by the debtor. The Portuguese Civil Code does not require any specific formality for such notification to be made to the debtor.

An exception to this general rule applies when the assignment of credits is made under the Securitisation Law, as the assignment will become effective vis-à-vis the respective debtors, once it is effective between the assignor and assignee, if the assignor is either the Portuguese State, the Social Security, a credit institution, a financial company, an insurance company, a pension fund or pension fund manager. Additionally, the CMVM may authorise the extension of the aforementioned rule in certain duly justified cases, when the entity that has a relationship with the debtors is also the servicer of the credits. In those cases, there is no requirement to notify the relevant debtor since such assignment is effective in relation to any third party from the moment it becomes effective between assignor and assignee. (...).

**Article 20.6.** The seller shall provide representations and warranties that, to the best of its knowledge, the underlying exposures included in the securitisation are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect.

**STS Criteria**

5. The seller shall provide representations and warranties that, to the best of its knowledge, the underlying exposures included in the securitisation are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect.

Receivables Sale Agreement

a) Eligible Receivables

Each of the Receivables arising under each Receivables Contract is an “Eligible Receivable” that complies with all of the following:

(ii) is not, to the best of the Originator’s knowledge, the subject of any dispute, right of set-off, counterclaim, defence or claim existing or pending against the Originator;

(iii) is legally and beneficially solely owned by the Originator, is not subject, either totally or partially, to any lien, assignment, charge or pledge to any third parties or are otherwise in a condition that could be foreseen to adversely affect the enforceability of the sale to the Issuer, free from any adverse claims in favour of any person other than the Originator (including, without limitation, one which has not been, in part or in whole, pledged, mortgaged, charged, assigned, discounted, subrogated or seized or attached or transferred in any way and is otherwise free and clear of any liens or other encumbrances);

See also the following statement in the same Section "Receivables Sale Agreement":

#### Effectiveness of the Assignment

The sale and assignment of the Initial Receivables Portfolio or each Additional Receivables Portfolio or any Substitute Receivables, as applicable, on the Closing Date, on each relevant Additional Purchase Date or on any Substitution Date, together with the Related Security, as applicable, by the Originator to the Issuer in accordance with the terms of the Receivables Sale Agreement will be effective to transfer the full, unencumbered benefit of and right, title and interest (present and future) to the Initial Receivables Portfolio, each Additional Receivables Portfolio or any Substitute Receivables, as applicable, to the Issuer.

**Article 20.7.** The underlying exposures transferred from, or assigned by, the seller to the SSPE shall meet pre-determined, clear and documented eligibility criteria which do not allow for active portfolio management of those exposures on a discretionary basis. The EBA Guidelines set out seven devices to repurchase securitised assets which are not to be considered indicative of "active portfolio management". To the extent that a transaction only contains some or all of those seven devices and does not provide any other form of repurchase, then the STS criterion will be met. If the transaction should contain a repurchase device that is not included in the EBA's list, then an analysis will need to be conducted as to whether this additional device offends against the principles set out in the EBA Guidelines (15.a and b) as defining "active portfolio management".

PCS has reviewed the repurchase devices set out in the Prospectus and these are considered acceptable within the context of the EBA final guidelines.

Receivables Sale Agreement

Representations and Warranties

The Originator will, under the Receivables Sale Agreement, in addition to other representations and warranties as to matters of fact and law (including as to matters relating to insolvency), make the following representations and warranties in favour of the Issuer on the Initial Portfolio Determination Date and on Closing Date, in respect of the Initial Receivables Portfolio, on each Additional Portfolio Determination Date and each Additional Purchase Date, in respect of the Additional Receivables Portfolio, and on any Substitute Receivables Determination Date and Substitution Date (in respect of the Substitute Receivables): [...]

In accordance with the terms of the Receivables Sale Agreement, the Originator will make certain representations and warranties in respect of the Initial Receivables Portfolio, any Additional Receivables Portfolio and any Substitute Receivables, including statements to the following effect which together constitute the "Eligibility Criteria": [...]

This criterion is a future event criterion. In other words, it cannot be either met or failed at the outset of the transaction. But if, at a later stage, it is not met, then the Originator will need to inform ESMA and the STS status of the securitisation will be lost. Therefore, as a technical matter, this criterion is not applicable at the closing of a transaction. However, PCS will nevertheless look to see if there is a covenant on the part of the originator to comply in the future with this requirement.

**Article 20.8.** The securitisation shall be backed by a pool of underlying exposures that are homogeneous in terms of asset type, taking into account the specific characteristics relating to the cash flows of the asset type including their contractual, credit risk and prepayment characteristics. A pool of underlying exposures shall only comprise one asset type. The underlying exposures shall contain obligations that are contractually binding and enforceable, with full recourse to debtors and, where applicable, guarantors.

See Prospectus, CHARACTERISTICS OF THE RECEIVABLES.

## Other characteristics

The Receivables are homogeneous for the purposes of Article 20(8) of the EU Securitisation Regulation, on the basis that all the Receivables in the Initial Receivables Portfolio: (i) have been underwritten by the Originator in accordance with similar underwriting standards applying similar approaches with respect to the assessment of a potential Obligor's credit risk; (ii) are entered into substantially on the terms of similar standard documentation for Consumer Loans; (iii) are serviced by the Servicer pursuant to the Receivables Servicing Agreement in accordance with the same servicing procedures with respect to monitoring, collections and administration of cash receivables generated from the loans; and (iv) form one asset category, namely Consumer Loans granted to Obligors with residence in Portugal for personal, family or household consumption purposes.

See Prospectus, OVERVIEW OF CERTAIN TRANSACTION DOCUMENTS.

## Receivables Servicing Agreement

The Originator will also make the following representations and warranties in relation to compliance with its Lending Criteria:

(iii) Any changes to the Lending Criteria over time have not affected the homogeneity of the Receivables Portfolio (as determined in accordance with Article 20(8) of the EU Securitisation Regulation and Articles 1(a)(v), (b), (c) and (d) and 2(4)(b) of Commission Delegated Regulation 2019/1851); and

(iv) Any material change to the Lending Criteria after the date of the Receivables Sale Agreement which would affect the homogeneity (as determined in accordance with Article 20(8) of the EU Securitisation Regulation and Articles 1(a)(v), (b), (c) and (d) and 2(4)(b) of Commission Delegated Regulation 2019/1851) of the Receivables Portfolio, or which would materially affect the overall credit risk or the expected average performance of the Receivables Portfolio, or any other material change to the Lending Criteria after the date of this Agreement which is required to be disclosed under Article 20(10) of the EU Securitisation Regulation, will (to the extent such change affects the Receivables Portfolio from time to time) be disclosed (along with an explanation of the rationale for such changes being made) to investors and the Rating Agencies by the Originator without undue delay.

The definition of "homogeneity" in the Regulation is also the subject of a Regulatory Technical Standard ("RTS"). Being set out in an RTS, rather than a guideline or recommendation issued by the EBA, the definition of "homogeneity" is legally binding on all regulatory authorities.

Such RTS has been formally adopted by the European Commission on 28 May 2019. In interpreting the expression, PCS has based itself on the text of the Regulation, its knowledge of the intent of the legislators – including, crucially, the legislators belief that the STS Regulation was justified by the excellent performance of most "plain vanilla" European securitisations and the draft RTS adopted by the European Commission.

Based on the above, it seems clear to PCS that the Regulation would not seek to exclude from the STS category securitisations that have performed extremely well and are universally considered "homogenous" by market participants. This does not exonerate any transaction from being analysed against this criterion but does set the background for such analysis.

Turning, for guidance, to the RTS adopted by the European Commission, in principle, four elements require examination: (a) "similar underwriting standards", (b) "similar servicing standards", (c) "same asset class" and (d) "relevant risk factors". Consumer loans are though considered sufficiently homogeneous and do not need to meet a specific homogeneity factor.

Following the guiding principles of the EBA, we note that "similar underwriting standards" must mean something like the same type of underwriting approach, looking at the same types of data points to calculate the same type of credit risk. It cannot mean "exactly the same underwriting criteria", since this would make it impossible for any securitisation ever to have a "homogenous" pool. In the Transaction, the loans were underwritten on a similar basis, they are being serviced by Banco Santander Totta "BST" on the same platform, they are a single asset class – Consumer Loans – and the loans are all originated in the same jurisdiction. PCS also takes comfort from the fact that transactions containing pools with similar characteristics have always been considered to be "homogenous" by a wide consensus of market participants.

First that the three listed conditions of credit impaired status (set out in article 20.11 (a) to (c) of the Regulation) amount to a full definition of what it means to be "credit impaired". So that it is not necessary to reflect at what the term "credit impaired" could mean above and beyond those three items.</p> <p>b. Secondly, in relation to entries in a credit registry, the EBA is very clear that the criterion should not be interpreted as excluding debtors with any entry on a credit registry. Providing further guidance, the example given in the EBA Guidelines of a credit registry entry that would not be indicative of a "credit impaired" debtor is the example of a failure to pay that can "reasonably be ignored" for the purposes of credit assessment.</p> <p>Therefore, the criterion, to be met, does not require the elimination from the pool of all debtors with any negative entry in a credit registry but only those whose entries it would not be reasonable to ignore for the purposes of credit assessments.</p> <p>Absent any further clarification from the EBA or a national competent authority regarding what it is reasonable to ignore, a judgement would still be necessary in cases where the originator does include in the pool some debtors with some negative entries in a credit registry.</p>		

	<p>In making this judgement, PCS takes comfort from the intent of the legislators – including, crucially, the legislators’ belief that the STS Regulation was justified by the excellent performance of most “plain vanilla” European securitisation. It is clear to PCS that the “credit impaired” prohibition is driven by the desire of legislators to exclude from the STS category deals generally coming under the definition of “sub-prime”. Therefore, it is unreasonable to refuse STS status to a transaction considered by universal consensus to be a “prime/plain vanilla” transaction with no “sub-prime” aspects. Indeed, this approach seems to be the rationale behind the EBA Guidelines on this matter.</p> <p>c. Thirdly, the EBA Guidelines on guaranteed obligations make it clear that the criterion is met so long as either the debtor or the guarantor are not “credit impaired”.</p>

Receivables Sale Agreement

a) Eligible Receivables

Each of the Receivables arising under each Receivables Contracts is an “Eligible Receivable” that complies with all of the following:

(x) is an amortising, interest bearing Receivable originated and arising exclusively in the Originator’s ordinary course of business with the related Eligible Obligors;

(xiii) constitutes an unconditional and irrevocable obligation of the relevant Eligible Obligor to pay the full sums of principal, interest and other amounts stated on the respective Instalment Due Dates thereof and is collectable in accordance with Article 587 paragraph 1 of the Portuguese Civil Code;

See Prospectus, CHARACTERISTICS OF THE RECEIVABLES.

The Receivables

Each Receivable arises under or in connection with Consumer Loans originated by the Originator and includes (in all cases) any amounts of insurance premia and/or initial expenses which have been financed by the Originator.

The interest rate of the Receivables comprised in the Initial Receivables Portfolio may be a variable rate of interest indexed to EURIBOR or a fixed rate of interest. The Receivables comprised in the Initial Receivables Portfolio are amortising loans with instalments of both principal and interest.

The underlying exposures are amortising consumer loans that do not depend on the sale of assets securing those underlying exposures.

EU Risk Retention Requirements

The Originator will retain on an ongoing basis during the life of the Transaction the EU Retained Interest in accordance with Article 6(1) of the EU Securitisation Regulation, as supplemented by the Delegated Regulation 2023/2175. Such retention requirement will be satisfied by the Originator retaining, in accordance with Article 6(3)(c) of the EU Securitisation Regulation, randomly selected exposures equivalent to not less than 5% of the nominal value of the securitised exposures, where such non-securitised exposures would otherwise have been securitised in the securitisation, provided that the number of potentially securitised exposures is not less than 100 at origination until the Final Legal Maturity Date.

Any change to the manner in which the EU Retained Interest is held will be notified to investors. Receivables have not been selected to be sold to the Issuer with the aim of rendering losses on the Receivables sold to the Issuer, measured over a period of 4 years, higher than the losses over the same period on comparable assets held on BST’s balance sheet.

BST (as Originator) will undertake, inter alia, to the Arranger and the Lead Manager in the Subscription Agreement that: (a) it will acquire and retain on an ongoing basis the EU Retained Interest; (b) whilst any of the Notes remain outstanding, it will not sell, hedge or otherwise mitigate its credit exposure to the EU Retained Interest; (c) there will be no arrangements pursuant to which the EU Retained Interest will decline over time materially faster than the Principal Outstanding Balance of the Receivables assigned to the Issuer; (d) it will confirm to the Issuer and the Transaction Manager, on a quarterly basis, that it continues to hold the EU Retained Interest; and (e) it will provide notice to the Issuer, the Common Representative and the Transaction Manager as soon as practicable in the event it no longer holds the EU Retained Interest.

See also the following definition:

"EU Retained Interest" means, in relation to the Notes, the retention on an ongoing basis by the Originator of a material net economic interest of not less than 5% in the securitisation, as required by Article 6(1) of the EU Securitisation Regulation, as supplemented by the Delegated Regulation 2023/2175. Such retention requirement will be satisfied by the Originator retaining, in accordance with Article 6(3)(c) of the EU Securitisation Regulation and Article 6 of the Delegated Regulation 2023/2175, randomly selected exposures equivalent to not less than 5% of the nominal value of the securitised exposures, where such non-securitised exposures would otherwise have been securitised in the securitisation, provided that the number of potentially securitised exposures is not less than 100 at origination until the Final Legal Maturity Date."

See Prospectus, RISK FACTORS.

**RISKS RELATING TO THE NOTES AND THE STRUCTURE****Interest rate risk**

The Issuer is subject to an interest rate risk of a mismatch between the rate of interest payable in respect of the Receivables and the rate of interest payable in respect of the Notes (except for the Class X Notes and the VFN). A part of the Initial Receivables (96.7[●]%) pays a fixed rate of interest and the remaining Initial Receivables (3.3[●]%) pay a variable rate of interest indexed to EURIBOR.

However, the Issuer's liabilities with respect to interest under the Notes (except for the Class X Notes and the VFN) are based on EURIBOR.

In order to mitigate the risk described above in relation to the Notes and to protect the Issuer and the Noteholders of the Notes against any material interest rate discrepancy, the Issuer and the Swap Counterparty will enter into the Swap Agreement.

Under the Swap Agreement, the Swap Counterparty will pay to the Issuer on each Interest Payment Date the excess (if any) of the Floating Amount (payable under the Swap Agreement) over the Fixed Amount (payable under the Swap Agreement).

Swap Transaction - this section provides details of the interest rate swap.

Clearly and explicitly, “appropriate” hedging does not require “perfect” hedging. This is confirmed by the EBA Guidelines which require the hedges to cover a “major share” of the risk from an “economic perspective”. However, the definition of “appropriate” hedging or a “major share” of the risk will always contain an element of subjectivity and must be analysed on a case by case basis.

The fact that the Regulation was crafted by the legislators to recognise existing high quality European securitisations rather than raise the bar to a level not previously encountered, together with the common-sense approach of the EBA, leads to the conclusion that transactions considered adequately hedged by common investor and rating agency consensus should be held to meet this criterion.

This still requires an analysis of the matter. Since PCS is not a quantitative analysis provider or a credit rating agency, our verification is based on a second-hand analysis which focuses on:

- A statement in the Prospectus or other document setting out the boundary conditions of the hedging. This should state in effect how far the hedging stretches and under what scenario’s it will break. For example, if interbank rates rise above X%. This will provide a common-sense feel for whether, at first glance, the hedging is reasonable.
- Risk Factors section of the Prospectus to check that no statements refer to the risks of “unhedged positions”. This is based on the legal requirement to disclose any relevant information to investors. If the originator or its advisers believed that the hedging in a transaction was unusually light, this should be disclosed in the Risk Section.

If a Revolving Period Termination Event occurs and is remedied thereafter, the Revolving Period shall not recommence as a consequence of such remedy.

See Prospectus, TERMS AND CONDITIONS OF THE NOTES.

19. Definitions

"Revolving Period Termination Event" means, on any date during the Revolving Period, one or more of the following events occurring:

- (a) an Event of Default;
- (b) a Servicer Event;
- (c) a Subordination Event;
- (d) the Principal Deficiency Ledgers not being completely reduced to zero on the immediately preceding Interest Payment Date;
- (e) tax regulations are amended in such a way that the sale and assignment of Additional Receivables proves to be excessively onerous to the Originator;
- (f) the audit reports on the Originator's annual accounts show qualifications, which could affect the Additional Receivables; and
- (g) on an Interest Payment Date, the amount standing to the credit of the Purchase Shortfall Ledger is higher than 30% of the aggregate Principal Amount Outstanding of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes;

“Subordination Event” means, in respect of any Calculation Date prior to the Final Legal Maturity Date or the early redemption of the Notes, the occurrence of any of the following events, among others:

- (a) an Insolvency Event occurs in respect of the Originator; or
- (b) the Cumulative Default Ratio, at the immediately preceding Calculation Date, is equal to or higher than:
  - (i) up to (and including) the first Interest Payment Date: [•]%;
  - (ii) from (and excluding) the first Interest Payment Date to (and including) the second Interest Payment Date: [•]%;
  - (iii) from (and excluding) the second Interest Payment Date to (and including) the third Interest Payment Date: [•]%;
  - (iv) from (and excluding) the third Interest Payment Date to (and including) the fourth Interest Payment Date: [•]%;
  - (v) from (and excluding) the fourth Interest Payment Date to (and including) the fifth Interest Payment Date: [•]%;
  - (vi) from (and excluding) the fifth Interest Payment Date to (and including) the sixth Interest Payment Date: [•]%;

  - (viii) from (and excluding) the seventh Interest Payment Date onwards: [•]%;
  - (ix) from (and excluding) the eighth Interest Payment Date to (and including) the ninth Interest Payment Date: [•]%;
  - (x) from (and excluding) the ninth Interest Payment Date onwards: [•]%; or
- (c) the Principal Deficiency Ledger has a debit balance in an amount equal to or higher than €[•] (for the avoidance of doubt, after the application of the Pre-Enforcement Interest Priority of Payments); or
- (d) the Originator defaults in the performance or observance of any of its obligations under any of the Transaction Documents to which it is a party (unless such default is remedied within 5 Business Days); or
- (e) a Servicer Event occurs; or
- (f) the Aggregate Principal Outstanding Balance, as at the immediately preceding Calculation Date, is less than 10% of the Aggregate Principal Outstanding Balance of the Initial Receivables as at the Initial Portfolio Determination Date; or
- (g) a Swap Counterparty Downgrade Event occurs and none of the remedies provided for in the Swap

See Subordination Event (b) and (c).

It is also noted that:

**1)** The Purchase Shortfall Ledger will only be credited during the revolving period with any surplus amounts of the Revolving Period Replenishment Amount (after being used to purchase Additional Receivables). Following the end of the Revolving Period, any amount credited to the Purchase Shortfall Ledger will become part of the Available Principal Distribution Amount and applied towards redemption of the Principal Amount Outstanding of the Notes, in accordance with the Pre-Enforcement Principal Payment Priorities.

**2)** No Revolving Period Replenishment Amounts will remain after the Revolving Period. Such amounts will be used (during the revolving period) to (a) purchase Additional Receivables and (b) credit the Purchase Shortfall Ledger with any amounts remaining after (a). Also, in accordance with the definition of Available Principal Distribution Amount (limb (d)) the amounts credited on the Purchase Shortfall Ledger will be part of the Available Principal Distribution Amount, which means that any Revolving Period Replenishment Amounts not used to purchase additional receivables during the Revolving Period will be used (after the Revolving Period) to redeem Principal Amount Outstanding.

Servicing and Collection of Receivables

The Servicer has significantly more than 5 years of experience in the servicing of loans similar to those included in the Receivables Portfolio. The Servicer's risk management policies, procedures and controls relating to the servicing of the Receivables Portfolio (1) are well documented and adequate, and (2) have been assessed by the Originator's risk management department and validated by the Originator's risk control committee. See also underlying transaction documents, Receivables Servicing Agreement.

SCHEDULE 1

SERVICER'S REPRESENTATIONS AND WARRANTIES

PART 1

Corporate Representations and Warranties of the Servicer

The EBA Guidelines provide that an entity that has serviced similar assets for at least five years will be deemed to meet the expertise criterion.

<b>54</b>	<b><u>STS Criteria</u></b> 54. And shall have well documented and adequate policies, procedures and risk management controls relating to the servicing of exposures.	<b><u>Verified?</u></b> <b>YES</b>
	<b><u>PCS Comments</u></b> See Prospectus, OVERVIEW OF CERTAIN TRANSACTION DOCUMENTS. Receivables Servicing Agreement Servicing and Collection of Receivables The Servicer is duly licensed by the Bank of Portugal as a credit institution with registered office in Portugal. Under the terms of the Receivables Servicing Agreement, the Servicer will agree to perform its obligations with all due care, skill and diligence and in good faith and as it would if it were the owner of the Receivables acting as a prudent lender in administering the Receivables and in accordance with Servicer's Operating Procedures, the Credit and Collection Policies and enforcement policies as they apply to the Receivables Portfolio from time to time. The Servicer has significantly more than 5 years of experience in the servicing of loans similar to those included in the Receivables Portfolio. The Servicer's risk management policies, procedures and controls relating to the servicing of the Receivables Portfolio (1) are well documented and adequate, and (2) have been assessed by the Originator's risk management department and validated by the Originator's risk control committee. The EBA Guidelines specify that a servicer should be considered to meet this criterion if it is a prudentially regulated financial institution.	

**Article 21.9.** The transaction documentation shall set out in clear and consistent terms definitions, remedies and actions relating to delinquency and default of debtors, debt restructuring, debt forgiveness, forbearance, payment holidays, losses, charge offs, recoveries and other asset performance remedies

<b>55</b>	<b><u>STS Criteria</u></b> 55. **SCHEDULE 2****PROVISIONS FOR MEETINGS OF NOTEHOLDERS**

Although the wording of the Regulation as to what constitutes the “facilitation of timely resolution of conflicts” is very vague, the EBA Guidelines have helpfully set out the five minimum requirements that the documents should contain to meet this criterion.

(a) the method for calling meetings; as for method: 13. Meetings of Noteholders, 13.1 Convening, 13.2 Request from Noteholders; (b) the maximum timeframe for setting up a meeting: CRAA, 4. Notice; (c) the required quorum: CRAA, 6. Quorum; 13. Meetings of Noteholders, 13.3 Quorum; (d) the minimum threshold of votes to validate such a decision, with clear differentiation between the minimum thresholds for each type of decision: 13. Meetings of Noteholders, 13.4 Majorities; (e) where applicable, a location for the meetings which should be in the EU: CRAA, 4. Notice.

**Article 21.10.** The transaction documentation shall include clear provisions that facilitate the timely resolution of conflicts between different classes of investors, voting rights shall be clearly defined and allocated to bondholders and the responsibilities of the trustee and other entities with fiduciary duties to investors shall be clearly identified.

Transparency under the EU Securitisation Regulation and confirmations of the Originator

The Originator confirms that it has made available, prior to pricing:

(d) data on static and dynamic historical default and loss performance covering a period of 5 years required to be made available under Article 22(1) of the EU Securitisation Regulation;

(in each case, on the SR Repository website at <https://editor.eurowdw.eu/> registered on 25 June 2021 and effective on 30 June 2021).

	<b>PCS Comments</b> See Prospectus, CHARACTERISTICS OF THE RECEIVABLES. Verification of data For the purposes of compliance with Article 22(2) of the EU Securitisation Regulation, the Originator has caused the sample of loans selected from the Initial Receivables Portfolio (and certain Eligibility Criteria to be checked against the Initial Receivables Portfolio) to be externally verified by an appropriate and independent third party. Such verification was completed to a confidence level of at least 99%. The Initial Receivables Portfolio has been subject to an agreed upon procedures review (to review, amongst other things, conformity with the Receivables Warranties (where applicable)) on a sample of loans selected from the Initial Receivables Portfolio conducted by a third-party and completed on or about [·] 2024 with respect to the Initial Receivables Portfolio in existence as at [·] 2024. No significant adverse findings arose from such review. This independent third party has also performed agreed upon procedures in order to verify that the stratification tables disclosed in respect of the underlying exposures are accurate. The third party undertaking the review only has obligations to the parties to the engagement letters governing the performance of the agreed upon procedures subject to the limitations and exclusions contained therein. See Prospectus, REGULATORY DISCLOSURES. Transparency under the EU Securitisation Regulation and confirmations of the Originator The Originator further confirms that it has obtained external verification on a sample of the underlying exposures prior to issuance, in accordance with Article 22(2). PCS has reviewed the draft report on “agreed upon procedures” (AUP) commonly known as a “pool audit”. PCS can confirm that this was done by an appropriate and independent third party.

67	<b>STS Criteria</b>	67. between the Receivables and the payments flowing between the Originator, investors, other third parties and the Issuer, and (ii) is made available to investors in the Notes on an ongoing basis and to potential investors upon request.

Although technically covering the period between pricing and close, this is primarily a future event criterion. In other words, it cannot be either met or failed at the outset of the transaction. But if, at a later stage, it is not met, then the Originator will need to inform ESMA and the STS status of the securitisation will be lost. Therefore, as a technical matter, this criterion is not applicable at the closing of a transaction. However, PCS will nevertheless look to see if there is a covenant on the part of the originator to comply in the future with this requirement whilst noting, at the same time, that the absence of any such covenant – although possibly unsettling for some investors - would not invalidate the STS status of the transaction at closing.

**Article 22.4.** In case of a securitisation where the underlying exposures are residential loans or car loans or leases, the originator and sponsor shall publish the available information related to the environmental performance of the assets financed by such residential loans or car loans or leases, as part of the information disclosed pursuant to point (a) of the first subparagraph of Article 7(1).

By way of derogation from the first subparagraph, originators may, from 1 June 2021, decide to publish the available information related to the principal adverse impacts of the assets financed by underlying exposures on sustainability factors.

22.6 By 10 July 2021, the ESAs shall develop, through the Joint Committee of the European Supervisory Authorities, draft regulatory technical standards in accordance with Articles 10 to 14 of Regulations (EU) No 1093/2010, (EU) No 1094/2010 and (EU) No 1095/2010 on the content, methodologies and presentation of information referred to in the second subparagraph of paragraph 4 of this Article, in respect of the sustainability indicators in relation to adverse impacts on the climate and other environmental, social and governance-related adverse impacts.

EU Disclosure Requirements and Designated Reporting Entity under the EU Securitisation Regulation The Designated Reporting Entity shall make available to the investors in the Notes a copy of the final Prospectus and the other final Transaction Documents and the STS Assessment on the SR Repository by no later than 15 days after the Closing Date, and any other document or information that may be required to be disclosed to the investors or potential investors in the Notes pursuant to the EU Securitisation Regulation, in a timely manner (to the extent not already provided by other parties), in each case in accordance with the reporting requirements under Article 7(1)(a) of the EU Securitisation Regulation. Pursuant to Article 22(5) of the EU Securitisation Regulation, draft versions of the STS Assessment will be made available prior to the pricing of the Notes. In addition, the Originator has undertaken to make available to investors in the Notes on the investor page of the website of BST, on an ongoing basis and to potential investors in the Notes, upon request, all information required under the first subparagraph of Article 7(1) of the EU Securitisation Regulation.

This criterion requires document disclosure within 15 days of closing and therefore is a future event criterion. In other words, it cannot be either met or failed at the outset of the transaction. But if it is not met within the specified 15-day period, then the Seller will need to inform ESMA and the STS status of the securitisation will be lost. Therefore, as a technical matter, this criterion is not applicable at the closing of a transaction. However, PCS will nevertheless look to see if there is a covenant on the part of the originator to comply in the future with this requirement.

**Article 7.1.** The originator, sponsor and SSPE of a securitisation shall, in accordance with paragraph 2 of this Article, make at least the following information available to holders of a securitisation position, to the competent authorities referred to in Article 29 and, upon request, to potential investors:
