Field codes are highlighted in amber where: - field is left blank; or - field is equal to "Unconfirmed"; or - field has errors in format.		A concise explanation on how: - the underlying exposures transferred from, or assigned by, the seller to the SSPE meet predetermined, clear and documented eligibility criteria which do not allow for active portfolio management of those exposures on a discretionary basis; - the selection and transfer of the underlying exposures in the securitisation is based on clear processes which facilitate the identification of which exposures are selected for or transferred into the securitisation and that they do not allow for their active portfolio management on a discretionary basis.	Article 20(6)	Concise Explanation	Section 2 of Annex 19 of Commission Delegated Regulation (EU) 2019/980
N56	STSS26	M	Underlying exposures selection processes explanation	The disposal of Receivables is permitted only in the following circumstances: (A) from the Originator to the Issuer, in the context of the transfer of Subsequent Portfolios during the Revolving Period, (B) from the Issuer to the Originator, in case of any misrepresentation of the Originator pursuant to the terms and conditions of the Master Receivables Purchase Agreement, (C) from the Issuer to Compass, in the context of the repurchase of the Portfolio in case of exercise of the Clean-up Option or the Tax Call Option or in the context of the repurchase of individual Receivables pursuant to the terms and conditions specified in the Servicing Agreement (provided that (i) the repurchase option on the individual Receivables shall not be exercised by Compass for speculative purposes aimed at achieving a better performance for the Securitisation; (ii) in case of the Defaulted Receivables, such option may be exercised by Compass only to the extent that the repurchase is aimed at facilitating the recovery and liquidation process with respect to those Defaulted Receivables, (iii) in case of individual Receivables other than the Defaulted Receivables, such option may be exercised by Compass in extraordinary circumstances only and in any case without prejudice to the interests of the Noteholders, and (iv) in any event the aggregate Outstanding Principal, as at the relevant date of exercise of the repurchase option, of the Receivables subject to repurchase shall not exceed 2 per cent. of the aggregate Outstanding Principal, as the relevant Valuation Date, of the Receivables comprised in the Portfolio, (D) from the Issuer (or the Representative of the Noteholders on its behalf) to third parties in the context of the disposal of the Portfolio following the delivery of a Trigger Notice (provided that the Originator shall have a pre-emption right in accordance with the provisions of the Intercreditor Agreement), and (E) from the Issuer (or the Servicer on its behalf) to third parties in the context of the sale of individual Defaulted Receivables pursuant to the terms of the Servicing Agreement. Therefore, none of the Transaction Documents provide for (i) a portfolio management which makes the performance of the Securitisation dependent both on the performance of the Receivables and on the performance of the portfolio management of the Securitisation, thereby preventing any investor in the Notes from modelling the credit risk of the Receivables without considering the portfolio management strategy of the Servicer; or (ii) a portfolio management which is performed for speculative purposes aiming to achieve better performance, increased yield, overall financial returns or other purely financial or economic benefit. Accordingly, the Transaction Documents do not allow for active portfolio management of the Consumer Loans comprising the pool on a discretionary basis (for further details, see the sections of the Prospectus headed "The Master Receivables Purchase Agreement", "The Servicing Agreement", "The Other Transaction Documents - the Intercreditor Agreement" and "The Portfolio - Eligibility Criteria").	(TEXT-10000)	Confirmation and concise explanation on how the selection and transfer of the underlying exposures in the securitisation is based on clear processes which facilitate the identification of which exposures are selected for or transferred into the securitisation and that they do not allow for their active portfolio management on a discretionary basis pursuant to Article 20(7) of Regulation (EU) 2017/2402. N58	STSS27	M	Homogeneity of assets explanation	The Initial Portfolio satisfies and each Subsequent Portfolio is expected to satisfy the homogeneous conditions of article 20(8) of the EU Securitisation Regulation and the applicable Regulatory Technical Standards. In addition, under the Master Receivables Purchase Agreement the Originator has represented and warranted that (i) each of the Receivables derives from duly executed Consumer Loan Agreements; (ii) each Consumer Loan Agreement and each other agreement, deed or document relating thereto is valid and constitutes binding and enforceable obligations, with full recourse to the Debtors; and (iii) as at the relevant Valuation Date and as at the relevant Legal Effective Date, the Initial Portfolio does not, and the Subsequent Portfolio will not, comprise any transferable securities, as defined in point (44) of article 4(1) of Directive 2014/65/EU.
