Analyst: Daniele Vella | Contacts: +33 17 58 59 832 or +39 331 68 71 273

This is the STS Term Master Checklist for STS Term Verifications.

This STS Term Master Checklist must be read together with the PCS Procedures Manual and the PCS Term Evidentiary Standards Manual. This document is based upon the draft materials received by PCS as at the date of this document. Any references in this document are to the prospectus unless otherwise stated.

PCS comments in this STS Term Master Checklist are based on PCS' interpretation of the STS Regulation (the "Regulation") informed by (a) the text of the Regulation itself, (b) the EBA guidelines and recommendations issued in accordance with Article 19(2) of the Regulation (the "EBA Guidelines") and (c) any relevant national competent authorities interpretation of the STS criteria to the extent known to PCS.

It is important that the reader of this checklist reviews and understands the disclaimer referred to on the following page. Note that all comments on the disclaimer relate to both Provisional STS Term Checklist for STS Term Verifications and the Final STS Term Checklist for STS Term Verifications.

30 June 2020

STS Disclaimer

Neither an STS Verification, nor a CRR Assessment, nor an LCR Assessment is a recommendation to buy, sell or hold securities. None are investment advice whether generally or as defined under Markets in Financial Instruments Directive (2004/39/EC) and none are a credit rating whether generally or as defined under the Credit Rating Agency Regulation (1060/2009/EC).

PCS UK and PCS EU are authorised respectively by the UK Financial Conduct Authority and the French *Autorité des Marchés Financiers* as third parties verifying STS compliance pursuant to article 28 of the Regulation (EU) 2017/2402 of the European Parliament and of the Council of 12 December 2017 (the "**STS Regulation**").

Neither CRR Assessments or LCR Assessments are endorsed or regulated by any regulatory and/or supervisory authority nor, other than as set out above, are the PCS Association or either of its subsidiaries, PCS UK and PCS EU, regulated by any regulator and/or supervisory authority including the Belgian Financial Services and Markets Authority, the United Kingdom Financial Conduct Authority, the French *Autorité des Marchés Financiers* or the European Securities and Markets Authority.

By assessing the STS or CRR status of any securities or financing, neither the PCS Association nor PCS UK nor PCS EU express any views about the creditworthiness of these securities or financings or their suitability for any existing or potential investor or as to whether there will be a ready, liquid market for these securities or financings.

Equally, by completing (either positively or negatively) any STS or CRR status assessment of certain instruments, no statement of any kind is made as to the value or price of these instruments or the appropriateness of the interest rate they carry (if any).

In the provision of any STS Verification or CRR Assessment or LCR Assessment, PCS has based its decision on information provided directly and indirectly by the originator or sponsor of the relevant securitisation. Specifically, it has relied on statements made in the relevant prospectus or deal sheet, documentation and/or in certificates provided by, or on behalf of, the originator or sponsor in accordance with PCS' published procedures for the relevant PCS verification or assessment. You should make yourself familiar with these procedures to understand fully how any PCS service is completed. These can be found in the PCS website www.pcsmarket.org (the "**PCS Website**"). Neither the PCS Association nor PCS UK nor PCS EU undertake their own direct verification of the underlying facts stated in the prospectus, deal sheet, documentation or certificates for the relevant instruments and the completion of any STS Verification or CRR Assessment or LCR Assessment is not a confirmation or implication that the information provided to it by or on behalf of the originator or sponsor is accurate or complete.

The PCS entities take reasonable measures to ensure the quality and accuracy of the information on the PCS Website. However, neither the PCS Association nor PCS UK nor PCS EU can be held liable in any way for the inaccuracy or incompleteness of any information that is available on or through the PCS Website. In addition, neither the PCS Association nor PCS UK nor PCS EU can in any way be held liable or responsible for the content of any other website linked to the PCS Website.

To understand the meaning and limitations of any STS Verification you must read the General Disclaimer that appears on the PCS Website.

When entering any of the "Transaction" sections of the PCS Website, you will be asked to declare that you are allowed to do so under the legislation of your country. The circulation and distribution of information regarding securitisation instruments (including securities) that is available on the PCS Website may be restricted in certain jurisdictions. Persons receiving any information or documents with respect to or in connection with instruments (including securities) available on the PCS Website are required to inform themselves of and to observe all applicable restrictions.

Prime Collateralised Securities (PCS) STS Verification

Individual(s) undertaking the assessment	Daniele Vella
Date of Verification	30 June 2020
The transaction to be verified (the “Transaction”)	Lanterna Finance 3 - SMEs 2020-1
Issuer	Lanterna Finance S.r.l.
Originators and Sellers	Banca Carige S.p.A. (" Banca Carige ") Banca del Monte di Lucca S.p.A. (" BML ")
Arranger	Banca IMI S.p.A.
Transaction Legal Counsel	Orrick, Herrington & Sutcliffe (Rome)
Rating Agencies	DBRS and S&P
Stock Exchange	ExtraMOT PRO of Borsa Italiana
Target Closing Date	30 June 2020

PCS confirms that all checklist points have been verified as detailed in the associated comment box in the checklist below.

A summary of the checklist points by article is set out in the table on the next page together with a reference to summary headings of the respective article contents. To examine a specific article section from the list below in further detail, please click on the article description in the table below to be taken directly to the relevant section of the detailed checklist.

Article	Summary of article contents	Checklist Points	
Article 20 – Simplicity			
20(1)	True sale	1, 2	✓
20(2)	Severe clawback (part 1)	2	✓
20(3)	Severe clawback (part 2)	2	✓
20(4)	True sale with intermediate steps	3	✓
20(5)	Assignment perfection	4	✓
20(6)	Encumbrances to enforceability of true sale	5	✓
20(7)	Eligibility criteria and active portfolio management	6 - 8	✓
20(8)	Homogeneity, obligations of the underlying exposures, periodic payment streams, no transferable securities	9 - 14	✓
20(9)	No securitisation positions	15	✓
20(10)	Origination, underwriting standards and expertise, unverified home loans	16 - 21	✓
20(11)	No undue delay after selection, no exposures in default and to credit-impaired or insolvent debtors/quarantors, portion of restructured debtors, adverse credit history, higher pool risk	22 - 30	✓
20(12)	At least one payment made	31	✓
20(13)	No predominant dependence on the sale of asset	32	✓
Article 21 – Standardisation			
21(1)	Risk retention	33	✓
21(2)	Appropriate mitigation of interest-rate and currency risks, disclosure, no further derivatives, hedging derivatives according to common standards	34 - 39	✓
21(3)	Referenced interest payments	40	✓
21(4)	Requirements in the event of enforcement or delivery of an acceleration notice: no cash trap, sequential amortisation, no automatic liquidation	41 - 44	✓
21(5)	Non-sequential priority of payments	45	✓
21(6)	Early amortisation provisions/triggers for termination of revolving period	46 - 50	✓
21(7)	Duties, responsibilities and replacement of transaction parties	51 - 53	✓
21(8)	Expertise of the servicer	54, 55	✓
21(9)	Remedies and actions by Servicer related to delinquency and default of debtor, priorities of payments, triggers for changes, obligation to report	56 - 61	✓
21(10)	Resolution of investor conflicts and fiduciary party responsibilities and duties	62, 63	✓
Articles 22 and 7 – Transparency			
22(1)	Historical asset data	64 - 66	✓
22(2)	AUP/asset verification	67, 68	✓
22(3)	Liability cashflow model	69, 70	✓
22(4)	Environmental performance of asset	71	✓
22(5)	Responsibility for article 7 and information disclosure before pricing and 15 days after closing	72 - 75	✓
7(1)	Transparency requirements: availability of reports, documentation, underlying loan data	76 - 101	✓
7(2)	Transparency requirements: designation of responsible entity, securitisation repository	102, 103	✓

	Article 20 - Requirements relating to simplicity	
	<p>20.1. The title to the underlying exposures shall be acquired by the SSPE by means of a true sale or assignment or transfer with the same legal effect in a manner that is enforceable against the seller or any other third party. The transfer of the title to the SSPE shall not be subject to severe clawback provisions in the event of the seller's insolvency.</p>	
	STS criteria	
	<p>1. The title to the underlying exposures shall be acquired by the SSPE by means of a true sale or assignment or transfer with the same legal effect in a manner that is enforceable against the seller or any other third party.</p>	
	Verified?	Yes
	PCS Comment	
	<p>In this transaction, the rights, title and interests to the assets are assigned and transferred without recourse (<i>pro soluto</i>) by two Italian banks to an Italian SSPE.</p> <p>See "TRANSACTION OVERVIEW - 5. TRANSFER AND ADMINISTRATION OF THE PORTFOLIO - Transfer of the Portfolio", where it is stated that <<<i>Pursuant to the Transfer Agreement, each Originator has assigned without recourse (pro soluto) to the Issuer, which has purchased, in accordance with articles 1 and 4 of the Securitisation Law, the relevant Portfolio.</i>>>.</p> <p>PCS has been provided with and has reviewed the Italian law legal opinion provided by the law firm Orrick, Herrington & Sutcliffe. Confirmation of true sale i.e. enforceability of assignment, an assessment of the re-characterisation and claw-back risks are made in the Legal Opinion.</p> <p>"True sale", originally, was not a legal concept but a rating agency creation.</p> <p>The essence of a "true sale" is that the property in the securitised assets has legally moved from the originator(s)/seller to the SSPE in such a way that the SSPE's ownership will be recognised as a matter of law, including and especially in the case of the insolvency of the originator(s)/seller. In a "true sale" the insolvency officer and creditors of the insolvent originator/seller are not able to satisfy the claims of the originator/seller's creditor out of the proceeds of the securitised assets. Following a "true sale" there is no legal device by which the assets can automatically revert to the originator/seller's ownership. Such automatic reversion is associated with security interests and anathema to a "true sale".</p> <p>This is clearly stated in the wording of the Regulation (20.1). The expression "transfer to the same effect" indicates that, as long as the conditions in the preceding paragraph are met, the Regulation does not seek to limit the type of legal devices which can be used to effect such transfer of title.</p> <p>The issue of "true sale" is separate from the issue of "clawback". "Clawback" refers to legal processes through which, in the insolvency of the seller of an asset, an insolvency officer is entitled to reverse the sale – even in cases where a "true sale" has taken place.</p> <p>All European jurisdictions, to PCS' knowledge, have rules allowing for clawbacks. Clawbacks are usually rules to avoid a company heading towards insolvency from "defrauding" its existing creditors either by selling assets at very low prices (to friends and relations) or unfairly preferring certain creditors over others.</p> <p>The Regulation (20.1) therefore does not require STS "true sales" to be clawback proof since this would mean that no European securitisation could ever be STS. It does require the sale not to be subject to "severe clawback". The Regulation does not define "severe clawback" but gives an example (20.2) where a clawback may occur.</p> <p>The Regulation (20.3) also explicitly excludes from the definition of "severe clawback" the traditional European basis for such devices which all come under the general category of "preferences".</p> <p>PCS further notes that the examples (20.2 and 20.3) refer to the insolvency law of a jurisdiction and therefore believes that clawback risk is to be assessed on a jurisdictional basis rather than on a transactional basis.</p> <p>Finally, PCS does not believe and nor is there any evidence that the legislators or regulatory authorities are seeking to craft a higher standard than that which has been used for decades by the market and was the basis for the legislative text.</p> <p>Based on the above considerations, PCS believes that transfers from a jurisdiction meeting the following criteria – absent any other indications – shall not fall within the definition of "severe clawback":</p> <ul style="list-style-type: none"> Clawback requires an unfair preference "defrauding" creditors; 	

• Clawback puts the burden of proof on the insolvency officer or creditors – in other words it cannot be automatic nor require the purchaser to prove their innocence.

Since “severe clawback” is a jurisdictional concept, in analysing this issue PCS will therefore first seek to determine the originator’s jurisdiction for the purposes of insolvency law. This would be its centre of main interest (“**COMI**”) or its “**home member state**”.

The second step would be to determine whether the relevant COMI and/or “home member state” contains severe claw back provisions in its insolvency legislation.

Although the determination of a COMI can be a technically fraught analysis of international conflicts of law, PCS notes that in the vast majority of securitisations there is no real issue as the COMI is self-evident.

In this transaction the two Originators are incorporated in Italy and are authorised as banks to operate in Italy, as confirmed through a search with the Bank of Italy’s website that PCS has separately made.

See also the further details on the corporate structure and the authorisations of the two Originators in Section “THE ORIGINATORS, THE SERVICERS, THE SENIOR NOTES INITIAL SUBSCRIBERS AND THE JUNIOR INITIAL SUBSCRIBERS”.

Therefore, both their COMI and their home member state are the Republic of Italy, which does not contemplate severe clawback provisions.

Italian insolvency law provides for clawback in relation to acts made in the suspect period, provided that also other circumstances occur, such as undue preference or transactions at an undervalue, and may require the insolvency officer to prove that case. Therefore, and as generally outlined in the Italian legal opinion and more specifically in the Prospectus, §(a) and §(b) of the section “COMPLIANCE WITH STS REQUIREMENTS”, the transfer of the Receivables is not, in our view, subject to “severe clawback”.

EBA Final non-ABCP STS Guidelines – statements on *background and rationale*

True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))

16. The criterion specified in Article 20(1) aims to ensure that the underlying exposures are beyond the reach of, and are effectively ring-fenced and segregated from, the seller, its creditors and its liquidators, including in the event of the seller’s insolvency, enabling an effective recourse to the ultimate claims for the underlying exposures.

22. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:

- (a) how to substantiate the confidence of third parties with respect to compliance with Article 20(1): it is understood that this should be achieved by providing a legal opinion. While the guidance does not explicitly require the provision of a legal opinion in all cases, the guidance expects a legal opinion to be provided as a general rule, and omission to be an exception;
- (b) the triggers to effect the perfection of the transfer if assignments are perfected at a later stage than at the closing of the transaction.

EBA Final non-ABCP STS Guidelines

4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))

True sale, assignment or transfer with the same legal effect

10. For the purposes of Article 20(1) of Regulation (EU) 2017/2402 and in order to substantiate the confidence of third parties, including third parties verifying simple, transparent and standardised (STS) compliance in accordance with Article 28 of that Regulation and competent authorities meeting the requirements specified therein, all of the following should be provided:

- (a) confirmation of the true sale or confirmation that, under the applicable national framework, the assignment or transfer segregate the underlying exposures from the seller, its creditors and its liquidators, including in the event of the seller’s insolvency, with the same legal effect as that achieved by means of true sale;
- (b) confirmation of the enforceability of the true sale, assignment or transfer with the same legal effect referred to in point (a) against the seller or any other third party, under the applicable national legal framework;
- (c) assessment of clawback risks and re-characterisation risks

11. The confirmation of the aspects referred to in paragraph 10 should be achieved by the provision of a legal opinion provided by qualified external legal counsel, except in the case of repeat issuances in standalone securitisation structures or master trusts that use the same legal mechanism for the transfer, including instances in which the legal framework is the same.

	<p>12. The legal opinion referred to in paragraph 11 should be accessible and made available to any relevant third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402 and any relevant competent authority from among those referred to in Article 29 of that regulation.</p>

	EBA Final non-ABCP STS Guidelines	

4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))

True sale, assignment or transfer with the same legal effect

10. For the purposes of Article 20(1) of Regulation (EU) 2017/2402 and in order to substantiate the confidence of third parties, including third parties verifying simple, transparent and standardised (STS) compliance in accordance with Article 28 of that Regulation and competent authorities meeting the requirements specified therein, all of the following should be provided:

(a) confirmation of the true sale or confirmation that, under the applicable national framework, the assignment or transfer segregate the underlying exposures from the seller, its creditors and its liquidators, including in the event of the seller's insolvency, with the same legal effect as that achieved by means of true sale;

(b) confirmation of the enforceability of the true sale, assignment or transfer with the same legal effect referred to in point (a) against the seller or any other third party, under the applicable national legal framework;

(c) assessment of clawback risks and re-characterisation risks.

11. The confirmation of the aspects referred to in paragraph 10 should be achieved by the provision of a legal opinion provided by qualified external legal counsel, except in the case of repeat issuances in standalone securitisation structures or master trusts that use the same legal mechanism for the transfer, including instances in which the legal framework is the same.

12. The legal opinion referred to in paragraph 11 should be accessible and made available to any relevant third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402 and any relevant competent authority from among those referred to in Article 29 of that regulation.

Legislative text		BACK TO TABLE OF CONTENTS
Article 20 - Requirements relating to simplicity		
20.2. For the purpose of paragraph 1, any of the following shall constitute severe clawback provisions: (a) provisions which allow the liquidator of the seller to invalidate the sale of the underlying exposures solely on the basis that it was concluded within a certain period before the declaration of the seller's insolvency; (b) provisions where the SSPE can only prevent the invalidation referred to in point (a) if it can prove that it was not aware of the insolvency of the seller at the time of sale.		
STS criteria		
Verified?	Yes	
PCS Comment		
Clawback of the sales of the Receivables does not constitute severe clawback risks because in all cases of claw back, in addition to the “suspect period”, Italian law provides that other circumstances have to be met to allow claw back. These are, as the case may be, the purchase at undervalue and the awareness of the insolvency of the seller. See the risk factor mentioned in point 2 above.		
EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>		
True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))		
17. The criterion in Article 20(2) is designed to ensure the enforceability of the transfer of legal title in the event of the seller's insolvency. More specifically, if the underlying exposures sold to the SSPE could be reclaimed for the sole reason that their transfer was effected within a certain period before the seller's insolvency, or if the SSPE could prevent the reclaim only by proving that it was unaware of the seller's insolvency at the time of transfer, such clauses would expose investors to a high risk that the underlying exposures would not effectively back their contractual claims. For this reason, Article 20(2) specifies that such clauses constitute severe clawback provisions, which may not be contained in STS securitisation.		
EBA Final non-ABCP STS Guidelines		
4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))		
True sale, assignment or transfer with the same legal effect		
10. For the purposes of Article 20(1) of Regulation (EU) 2017/2402 and in order to substantiate the confidence of third parties, including third parties verifying simple, transparent and standardised (STS) compliance in accordance with Article 28 of that Regulation and competent authorities meeting the requirements specified therein, all of the following should be provided: (a) confirmation of the true sale or confirmation that, under the applicable national framework, the assignment or transfer segregate the underlying exposures from the seller, its creditors and its liquidators, including in the event of the seller's insolvency, with the same legal effect as that achieved by means of true sale; (b) confirmation of the enforceability of the true sale, assignment or transfer with the same legal effect referred to in point (a) against the seller or any other third party, under the applicable national legal framework; (c) assessment of clawback risks and re-characterisation risks.		
11. The confirmation of the aspects referred to in paragraph 10 should be achieved by the provision of a legal opinion provided by qualified external legal counsel, except in the case of repeat issuances in standalone securitisation structures or master trusts that use the same legal mechanism for the transfer, including instances in which the legal framework is the same.		
12. The legal opinion referred to in paragraph 11 should be accessible and made available to any relevant third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402 and any relevant competent authority from among those referred to in Article 29 of that regulation.		

Legislative text		BACK TO TABLE OF CONTENTS
Article 20 - Requirements relating to simplicity		
20.3. For the purpose of paragraph 1, clawback provisions in national insolvency laws that allow the liquidator or a court to invalidate the sale of underlying exposures in case of fraudulent transfers, unfair prejudice to creditors or of transfers intended to improperly favour particular creditors over others, shall not constitute severe clawback provisions.		
STS criteria		
Verified?		Yes
PCS Comment		
See comments to points above. Italy does not have severe clawback provisions for securitisation transactions.		
EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>		
True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))		
18. Whereas, pursuant to Article 20(2), contractual terms and conditions attached to the transfer of title that expose investors to a high risk that the securitised assets will be reclaimed in the event of the seller's insolvency should not be permissible in STS securitisations, such prohibition should not include the statutory provisions granting the right to a liquidator or a court to invalidate the transfer of title with the aim of preventing or combating fraud, as referred to in Article 20(3).		
EBA Final non-ABCP STS Guidelines		
4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))		
<i>True sale, assignment or transfer with the same legal effect</i>		
10. For the purposes of Article 20(1) of Regulation (EU) 2017/2402 and in order to substantiate the confidence of third parties, including third parties verifying simple, transparent and standardised (STS) compliance in accordance with Article 28 of that Regulation and competent authorities meeting the requirements specified therein, all of the following should be provided:		
(a) confirmation of the true sale or confirmation that, under the applicable national framework, the assignment or transfer segregate the underlying exposures from the seller, its creditors and its liquidators, including in the event of the seller's insolvency, with the same legal effect as that achieved by means of true sale;		
(b) confirmation of the enforceability of the true sale, assignment or transfer with the same legal effect referred to in point (a) against the seller or any other third party, under the applicable national legal framework;		
(c) assessment of clawback risks and re-characterisation risks.		
11. The confirmation of the aspects referred to in paragraph 10 should be achieved by the provision of a legal opinion provided by qualified external legal counsel, except in the case of repeat issuances in standalone securitisation structures or master trusts that use the same legal mechanism for the transfer, including instances in which the legal framework is the same.		
12. The legal opinion referred to in paragraph 11 should be accessible and made available to any relevant third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402 and any relevant competent authority from among those referred to in Article 29 of that regulation.

	20.4. Where the seller is not the original lender, the true sale or assignment or transfer with the same legal effect of the underlying exposures to the seller, whether that true sale or assignment or transfer with the same legal effect is direct or through one or more intermediate steps, shall meet the requirements set out in paragraphs 1 to 3.	
	STS criteria	
	3. Where the seller is not the original lender, the true sale or assignment or transfer with the same legal effect of the underlying exposures to the seller, whether that true sale or assignment or transfer with the same legal effect is direct or through one or more intermediate steps, shall meet the requirements set out in paragraphs 1 to 3.	
	Verified?	Yes
	PCS Comment	
	<p>See statement in §(c) of Section “COMPLIANCE WITH STS REQUIREMENTS”:</p> <p><i><<with respect to article 20(4) of the Securitisation Regulation, the Receivables arise from Loans granted by (1) each of the Originators as lender or other banks belonging to the banking group “Gruppo Banca Carige” merged by incorporation into Banca Carige following the granting of the relevant Loan or (2) other banks not belonging to the banking group “Gruppo Banca Carige” whose Receivables were purchased by any of the Originators through the acquisition of the related branches or following subrogation (surroga) pursuant to Law no. 40 of 2 April 2007 (as subsequently amended) (for further details, see the section headed “The Portfolio”). Consequently, the requirement provided for under article 20(4) of the Securitisation Regulation is met;>>.</i></p> <p>A description of the acquisitions made by the two Originators is made in the Section “THE PORTFOLIO”.</p> <p>The following statements in “THE PORTFOLIO” Section are also noted:</p> <p><i><<Moreover, with regard to the Receivables originated by other banks, as described above, Banca Carige and BML according to the Warranty and Indemnity Agreement have represented and warranted that, to the best of their knowledge, there is no pending litigation the effects of which could adversely affect the possibility for each transferor to transfer fully, definitively, irrevocably and without the possibility of revocation or nullity, the Receivables. Finally, the Portfolio includes only receivables which are granted: (1) by Banca Carige or any other bank belonging to the Banca Carige Group and incorporated into Banca Carige following the date in which the Loan has been granted, or (2) by BML, or (3) by other banks which do not belong to the Banca Carige Group, whose Loans have been purchased by Banca Carige or BML through the purchase of the relevant branches and as described above in this Section, or by way of subrogation in accordance with Law No. 40 of 2 April 2007, as subsequently amended.>></i></p> <p><i><<With regard to the subrogation mechanism, Banca Carige has carried out in each case a credit assessment in respect of the relevant borrower, in accordance with its credit and underwriting policies.>>.</i></p> <p>PCS has also considered the Eligibility Criteria that allowed including in the Portfolio also receivables purchased directly by the relevant originators. However, PCS received confirmation that none of those receivables were actually included in the Portfolio, and the statements contained in “THE PORTFOLIO” Section confirmed this.</p>	
	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	19. Article 20(4) specifies that, where the transfer of title occurs not directly between the seller and the SSPE but through one or more intermediary steps involving further parties, the requirements relating to the true sale, assignment or other transfer with the same legal effect, apply at each step.	
	EBA Final non-ABCP STS Guidelines	
	<p>4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))</p> <p>True sale, assignment or transfer with the same legal effect</p> <p>10. For the purposes of Article 20(1) of Regulation (EU) 2017/2402 and in order to substantiate the confidence of third parties, including third parties verifying simple, transparent and standardised (STS) compliance in accordance with Article 28 of that Regulation and competent authorities meeting the requirements specified therein, all of the following should be provided:</p> <p>(a) confirmation of the true sale or confirmation that, under the applicable national framework, the assignment or transfer segregate the underlying exposures from the seller, its creditors and its liquidators, including in the event of the seller's insolvency, with the same legal effect as that achieved by means of true sale;</p>	

- | | |
|--|--|
| | <p>(b) confirmation of the enforceability of the true sale, assignment or transfer with the same legal effect referred to in point (a) against the seller or any other third party, under the applicable national legal framework;</p> <p>(c) assessment of clawback risks and re-characterisation risks.</p> <p>11. The confirmation of the aspects referred to in paragraph 10 should be achieved by the provision of a legal opinion provided by qualified external legal counsel, except in the case of repeat issuances in standalone securitisation structures or master trusts that use the same legal mechanism for the transfer, including instances in which the legal framework is the same.</p> <p>12. The legal opinion referred to in paragraph 11 should be accessible and made available to any relevant third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402 and any relevant competent authority from among those referred to in Article 29 of that regulation.</p> |
|--|--|

4	Legislative text	BACK TO TABLE OF CONTENTS
	Article 20 - Requirements relating to simplicity	
	<p>20.5. Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the transaction, the triggers to affect such perfection shall, at least include the following events:</p> <ul style="list-style-type: none"> (a) severe deterioration in the seller credit quality standing; (b) insolvency of the seller; and (c) unremedied breaches of contractual obligations by the seller, including the seller's default. 	
	STS criteria	
	<p>4. Where the transfer of the underlying exposures is performed by means of an assignment and perfected at a later stage than at the closing of the transaction, the triggers to effect such perfection shall, at least include the following events:</p> <ul style="list-style-type: none"> (a) severe deterioration in the seller credit quality standing; (b) insolvency of the seller; and (c) unremedied breaches of contractual obligations by the seller, including the seller's default. 	
	Verified?	
	PCS Comment	
	<p>Criterion 4 requires two steps:</p> <ul style="list-style-type: none"> - To determine whether the transfer of the assets is by means of an unperfected assignment; and - If it is, whether the transaction contains the requisite triggers. <p>PCS has reached sufficient comfort that pursuant to Italian law, a direct individual notification to the obligors of the assignment of the Receivables to the Issuer is not necessary in order to perfect the transfer of the legal title to such Receivables from the Originator to the Issuer.</p> <p>In particular, it is noted that, to the extent that a notice of assignment is duly published on the Italian Official Gazette and registration with the company's register, the notification to each single Debtor is not a necessary requirement for obtaining the enforceability of the assignment vis-à-vis such Debtors.</p> <p>See in particular the following statement:</p> <p><i><<Rights of set-off of Debtors</i></p> <p><i>Under general principles of Italian law, a borrower of an SME loan is entitled to exercise rights of set-off in respect of amounts due under such loan against any amounts payable by the relevant originator to such borrower if and to the extent that such counterclaims have arisen before the publication of the notice of the assignment of the receivables in the Official Gazette pursuant to article 58, second paragraph, of the Banking Law and the registration of such sale with the competent companies' register have been made. Consequently, after (i) publication in the Official Gazette of the notice of transfer of the Portfolios to the Issuer pursuant to the Transfer Agreement and (ii) registration of the assignment in the register of companies where the Issuer is enrolled, the Debtors shall not be entitled to exercise any set-off right against their claims against each of the Originators which arises after the date of such publication and registration.</i></p> <p><i>On 24 December 2013, Decree No. 145 came into force providing expressly that, from the date of publication of the notice of transfer of the receivables in the Official Gazette, the debtors will not be entitled to set-off any claim arisen after such date with the amounts due to the special purpose vehicle in relation to the receivables. Decree No. 145 has been converted into Italian Law No. 9 of 21 February 2014.>>.</i></p> <p>Although the transfer is not notified to the borrowers, the Italian legal opinion and Prospectus confirm that such notification is not required to fully perfect the transfer of ownership in the Receivables to the SSPE. In particular, although a communication to the Borrowers is required to comply with Italian regulatory requirements, the failure to provide it would not affect the validity and effectiveness between the Originator and the Issuer of the transfers of any Receivable under the Transfer Agreement, nor their enforceability against any third party.</p>	

Accordingly, this transaction does not operate by way of an unperfected assignment and the perfection triggers are not required.

EBA Final non-ABCP STS Guidelines – statements on *background and rationale*

True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))

20. The objective of the criterion in Article 20(5) is to minimise legal risks related to unperfected transfers in the context of an assignment of the underlying exposures, by specifying a minimum set of events subsequent to closing that should trigger the perfection of the transfer of the underlying exposures.

22. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:

- (a) how to substantiate the confidence of third parties with respect to compliance with Article 20(1): it is understood that this should be achieved by providing a legal opinion. While the guidance does not explicitly require the provision of a legal opinion in all cases, the guidance expects a legal opinion to be provided as a general rule, and omission to be an exception;
- (b) the triggers to effect the perfection of the transfer if assignments are perfected at a later stage than at the closing of the transaction.

EBA Final non-ABCP STS Guidelines

4.1 True sale, assignment or transfer with the same legal effect, representations and warranties (Article 20(1)-(6))

Severe deterioration in the seller credit quality standing

13. For the purposes of Article 20(5) of Regulation (EU) 2017/2402, the transaction documentation should identify, with regard to the trigger of 'severe deterioration in the seller credit quality standing', credit quality thresholds that are objectively observable and related to the financial health of the seller.

Insolvency of the seller

14. For the purposes of Article 20(5) of Regulation (EU) 2017/2402, the trigger of 'insolvency of the seller' should refer, at least, to events of legal insolvency as defined in national legal frameworks.

5	Legislative text	BACK TO TABLE OF CONTENTS
	Article 20 - Requirements relating to simplicity	
	20.6. The seller shall provide representations and warranties that, to the best of its knowledge, the underlying exposures included in the securitisation are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect.	
	STS criteria	
	5. The seller shall provide representations and warranties that, to the best of its knowledge, the underlying exposures included in the securitisation are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect.	
	Verified?	Yes
	PCS Comment	
	<p>See the statement in §(e) of Section “COMPLIANCE WITH STS REQUIREMENTS”:</p> <p><<(e) with respect to article 20(6) of the Securitisation Regulation, under the Warranty and Indemnity Agreement each of the Originators has represented and warranted that, as at the Transfer Date, each Receivable is fully and unconditionally owned and available directly to such Originator and, to the best of its knowledge, is not subject to any lien (pignoramento), seizure (sequestro) or other charge in favour of any third party (except any charge arising from the applicable mandatory law) or otherwise in a condition that can be foreseen to adversely affect the enforceability of the transfer of the Receivables under the Transfer Agreement and is freely transferable to the Issuer (for further details, see the section headed “The Portfolio” and “Description of the Warranty and Indemnity Agreement”);>>.</p> <p>See in particular the two following R&Ws, set out in paragraphs (b)(ii) and (b)(iii) of clause 2.1 of the Warranty and Indemnity Agreement:</p> <p><<(ii) Alla Data di Conclusione, ciascun Cedente ha la piena ed incondizionata titolarità giuridica e disponibilità dei Crediti, che, per quanto a sua conoscenza, sono liberi da Vincoli (salvo eventuali privilegi o altri gravami derivanti da norme imperative di legge) e non si trovano in altra situazione prevedibilmente in grado di compromettere l’opponibilità della vendita dei Crediti ai sensi del Contratto di Cessione e sono pertanto effettivamente cedibili al Cessionario. Ciascun Cedente non ha proceduto a cedere (né a pieno titolo, né a titolo di garanzia), a dare in comunione, a trasferire o comunque ad alienare alcuno dei Crediti, né ha comunque creato o consentito che altri creassero o costituissero alcun Vincolo su uno o più Crediti.>>.</p> <p><<(iii) Ciascun Cedente è beneficiario delle Garanzie, delle Ipoteche, delle Polizze Assicurative e queste sono libere da Vincoli.>>.</p>	
	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	21. The objective of the criterion in Article 20(6), which requires the seller to provide the representations and warranties confirming to the seller’s best knowledge that the transferred exposures are neither encumbered nor otherwise in a condition that could potentially adversely affect the enforceability of the transfer of title, is to ensure that the underlying exposures are not only beyond the reach not only of the seller but equally of its creditors, and to allocate the commercial risk of the encumbrance of the underlying exposures to the seller.

	Verified?	Yes
	PCS Comment	
	<p>See the statement under §(f) of Section “COMPLIANCE WITH STS REQUIREMENTS”:</p> <p><i><<(f) for the purpose of compliance with article 20(7) of the Securitisation Regulation, the disposal of Receivables from the Issuer is permitted solely following the delivery of a Trigger Notice, in accordance with Condition 13.3 (Sale of Portfolio) and with the relevant provisions of the Intercreditor Agreement, provided that the Originators under the Transaction Documents have certain option rights connected with the purchase of single Receivables or, as the case may be, the Portfolio. Therefore, none of the Transaction Documents provide for (i) a portfolio management which makes the performance of the Securitisation dependent both on the performance of the Receivables and on the performance of the portfolio management of the Transaction, thereby preventing any investor in the Notes from modelling the credit risk of the Receivables without considering the portfolio management strategy of the Servicers; or (ii) a portfolio management which is performed for speculative purposes aiming to achieve better performance, increased yield, overall financial returns or other purely financial or economic benefit. In addition, there are no exposures that can be sold to the Issuer after the Issue Date [...].>>.</i></p> <p>See also “DESCRIPTION OF THE TRANSFER AGREEMENT - Option to repurchase individual Receivables”.</p> <p>The EBA Guidelines set out seven devices to repurchase securitised assets which are not to be considered indicative of “active portfolio management”. To the extent that a transaction only contains some or all of those seven devices and does not provide any other form of repurchase, then the STS criterion is deemed met.</p> <p>If a transaction should contain a repurchase device that is not included in the EBA's list, then an analysis will need to be conducted as to whether this additional device offends against the principles set out in the EBA Guidelines (15.a and b) as defining “active portfolio management”.</p> <p>PCS has reviewed all the repurchase devices set out in both the Transfer Agreement and the Servicing Agreement, and as summarised in the Prospectus, and these are acceptable within the context of the EBA final guidelines and its principles.</p>	
	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	Eligibility criteria for the underlying exposures, active portfolio management (Article 20(7)) 24. Consistently with this objective, the active portfolio management of the exposures in the securitisation should be prohibited, given that it adds a layer of complexity and increases the agency risk arising in the securitisation by making the securitisation's performance dependent on both the performance of the underlying exposures and the performance of the management of the transaction. The payments of STS securitisations should depend exclusively on the performance of the underlying exposures.	
	EBA Final non-ABCP STS Guidelines	
	4.2 Eligibility criteria for the underlying exposures, active portfolio management (Article 20(7)) Active portfolio management 15. For the purposes of Article 20(7) of Regulation (EU) 2017/2402, active portfolio management should be understood as portfolio management to which either of the following applies:	

- | |
|--|
| <p>(a) the portfolio management makes the performance of the securitisation dependent both on the performance of the underlying exposures and on the performance of the portfolio management of the securitisation, thereby preventing the investor from modelling the credit risk of the underlying exposures without considering the portfolio management strategy of the portfolio manager;</p> <p>(b) the portfolio management is performed for speculative purposes aiming to achieve better performance, increased yield, overall financial returns or other purely financial or economic benefit.</p> <p>16. The techniques of portfolio management that should not be considered active portfolio management include:</p> <p>(a) substitution or repurchase of underlying exposures due to the breach of representations or warranties;</p> <p>(b) substitution or repurchase of the underlying exposures that are subject to regulatory dispute or investigation to facilitate the resolution of the dispute or the end of the investigation;</p> <p>(c) replenishment of underlying exposures by adding underlying exposures as substitutes for amortised or defaulted exposures during the revolving period;</p> <p>(d) acquisition of new underlying exposures during the 'ramp up' period to line up the value of the underlying exposures with the value of the securitisation obligation(e) repurchase of underlying exposures in the context of the exercise of clean-up call options, in accordance with Article 244(3)(g) of Regulation (EU) 2017/2401;</p> <p>(f) repurchase of defaulted exposures to facilitate the recovery and liquidation process with respect to those exposures;</p> <p>(g) repurchase of underlying exposures under the repurchase obligation in accordance with Article 20(13) of Regulation (EU) 2017/2402.</p> |

	8. Exposures transferred to the SSPE after the closing of the transaction shall meet the eligibility criteria applied to the initial underlying exposures.	
	Verified?	Yes
	PCS Comment	
	The transaction is not revolving and, therefore, this requirement does not apply.	
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>	
	<p>Eligibility criteria for the underlying exposures, active portfolio management (Article 20.7)</p> <p>25. Revolving periods and other structural mechanisms resulting in the inclusion of exposures in the securitisation after the closing of the transaction may introduce the risk that exposures of lesser quality can be transferred into the pool. For this reason, it should be ensured that any exposure transferred into the securitisation after the closing meets the eligibility criteria, which are no less strict than those used to structure the initial pool of the securitisation.</p> <p>26. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:</p> <p>(a) the purpose of the requirement on the portfolio management, and the provision of examples of techniques which should not be regarded as active portfolio management: this criterion should be considered without prejudice to the existing requirements with respect to the similarity of the underwriting standards in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, which requires that all the underlying exposures in a securitisation be underwritten according to similar underwriting standards;</p> <p>(b) interpretation of the term ‘clear’ eligibility criteria;</p> <p>(c) clarification with respect to the eligibility criteria that need to be met with respect to the exposures transferred to the SSPE after the closing.</p>	
	EBA Final non-ABCP STS Guidelines	
	<p>4.2 Eligibility criteria for the underlying exposures, active portfolio management (Article 20.7)</p> <p><i>Eligibility criteria to be met for exposures transferred to the SSPE after the closing of the transaction</i></p> <p>18. For the purposes of Article 20(7) of Regulation (EU) 2017/2402, ‘meeting the eligibility criteria applied to the initial underlying exposures’ should be understood to mean eligibility criteria that comply with either of the following:</p> <p>(a) with regard to normal securitisations, they are no less strict than the eligibility criteria applied to the initial underlying exposures at the closing of the transaction;</p> <p>(b) with regard to securitisations that issue multiple series of securities including master trusts, they are no less strict than the eligibility criteria applied to the initial underlying exposures at the most recent issuance, with the results that the eligibility criteria may vary from closing to closing, with the agreement of securitisation parties and in accordance with the transaction documentation.</p> <p>19. Eligibility criteria to be applied to the underlying exposures in accordance with paragraph 18 should be specified in the transaction documentation and should refer to eligibility criteria applied at exposure level.</p>

Verified?	Yes
PCS Comment	
<p>See section headed "COMPLIANCE WITH STS REQUIREMENTS" –where it is stated as follows:</p> <p><<(g) for the purpose of compliance with article 20(8) of the Securitisation Regulation, pursuant to the Warranty and Indemnity Agreement each Originator has represented and warranted that, as at the Transfer Date, the Receivables are homogeneous in terms of asset type, taking into account the specific characteristics to the cash flows of the asset type including their contractual, credit-risk and prepayment characteristics, given that: (i) the Receivables have been originated by the Originators (or, as the case may be, the other banks indicated under paragraph (c) above), as lender, in accordance with loan disbursement policies which apply similar approaches to the assessment of credit risk associated with the Receivables; (ii) the Receivables have been serviced by the Originators according to similar servicing procedures; (iii) the Receivables arise from Loans granted to SME and therefore fall in the asset type named "credit facilities, including loans and leases, provided to any type of enterprise or corporation" provided under article 1(a)(iv) of the Commission Delegated Regulation (EU) 2019/1851 (the "Commission Delegated Regulation on Homogeneity") and meet the homogeneity factors set out under article 2(3)(a)(i) and 2(3)(b)(ii) of the Commission Delegated Regulation on Homogeneity (i.e. obligors are micro-, small- and medium-sized enterprises and the obligors are resident in the same jurisdiction). In addition, under the Warranty and Indemnity Agreement each of the Originators has represented and warranted that (i) as at the Transfer Date, the Receivables comprised in the Portfolio contain obligations that are contractually binding and enforceable with full recourse to the Debtors and, where applicable, the Guarantors; (ii) the Loans provide for a repayment through constant instalments as determined in the relevant Loan Agreement; and (iii) as at the Transfer Date, the Portfolio does not comprise any transferable securities, as defined in point (44) of article 4(1) of Directive 2014/65/EU (for further details, see the sections headed "The Portfolio" and "Description of the Warranty and Indemnity Agreement");>>.</p> <p>The definition of "homogeneity" in the Regulation is the subject of a Regulatory Technical Standard ("RTS"). Being set out in an RTS, rather than a guideline or recommendation issued by the EBA, the definition of "homogeneity" is legally binding on all regulatory authorities.</p> <p>In interpreting the expression, PCS has based itself on the text of the Regulation, its knowledge of the intent of the legislators – including, crucially, the legislators' belief that the STS Regulation was justified by the excellent performance of most "plain vanilla" European securitisations and the draft RTS adopted by the European Commission.</p> <p>Based on the above, it seems clear to PCS that the Regulation would not seek to exclude from the STS category securitisations that have performed extremely well and are universally considered "homogenous" by market participants. This does not exonerate any transaction from being analysed against this criterion but does set the background for such analysis.</p> <p><i>In the Transaction, the loan contracts were underwritten on a similar basis, they are being serviced by the relevant Originator according to similar servicing procedures, they are a single asset class – "credit facilities, including loans and leases, provided to any type of enterprise or corporation" – and are all originated in the same jurisdiction.</i></p> <p><i>PCS also takes great comfort from the fact that transactions containing pools with similar characteristics have always been considered to be "homogenous" by a wide consensus of market participants.</i></p>	
EBA Final non-ABCP STS Guidelines – statements on background and rationale	
<p>Homogeneity, obligations of the underlying exposures, periodic payment streams, no transferable securities (Article 20(8))</p> <p>27. The criterion on the homogeneity as specified in the first subparagraph of Article 20(8) has been further clarified in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402.</p>

	See the statement in §(h) of Section "COMPLIANCE WITH STS REQUIREMENTS": <<(h) for the purpose of compliance with article 20(9) of the Securitisation Regulation, under the Warranty and Indemnity Agreement each Originator has represented and warranted that, as at the Transfer Date, the Portfolio does not comprise any securitisation positions [...]>>. See also point 14 above.		
	EBA Final non-ABCP STS Guidelines – statements on background and rationale		
	No resecuritisation (Article 20(9)) 31. The objective of this criterion is to prohibit resecuritisation subject to derogations for certain cases or for resecuritisation as specified in Regulation (EU) 2017/2402. This is a lesson learnt from the financial crisis, when resecuritisations were structured into highly leveraged structures in which notes of lower credit quality could be re-packaged and credit enhanced, resulting in transactions whereby small changes in the credit performance of the underlying assets had severe impacts on the credit quality of the resecuritisation bonds. The modelling of the credit risk arising in these bonds proved very difficult, also due to high levels of correlations arising in the resulting structures. 32. The criterion is deemed sufficiently clear and does not require any further clarification.

	Article 20 - Requirements relating to simplicity	
	<p>20.10. The underlying exposures shall be originated in the ordinary course of the originator's or original lender's business pursuant to underwriting standards that are no less stringent than those that the originator or original lender applied at the time of origination to similar exposures that are not securitised.</p>	
	STS criteria	
	<p>16. The underlying exposures shall be originated in the ordinary course of the originator's or original lender's business.</p>	
	Verified?	Yes
	PCS Comment	
	<p>See the following statement in "COMPLIANCE WITH STS REQUIREMENTS", §1(i):</p> <p><i><<(i) for the purpose of compliance with article 20(10) of the Securitisation Regulation, under the Warranty and Indemnity Agreement each Originator has represented and warranted that: (i) the Receivables have been originated by the Originator (or, as the case may be, the other banks indicated under paragraph (1)(c) above) in the ordinary course of its business; (ii) as at the Transfer Date, the Receivables comprised in the Portfolio have been selected by the Originator (or, as the case may be, the other banks indicated under paragraph (1)(c) above) in accordance with credit policies that are not less stringent than the credit policies applied by the Originator (or, as the case may be, the other banks indicated under paragraph (1)(c) above) at the time of origination to similar exposures that are not assigned under the Securitisation; (iii) the Originator (or, as the case may be, the other banks indicated under paragraph (1)(c) above) has assessed the Debtors' creditworthiness in compliance with the requirements set out in article 8 of Directive 2008/48/EC; and (iv) the Originator has a more than 5 (five) year-expertise in originating exposures of a similar nature to the Receivables. In addition, there are no exposures that can be sold to the Issuer after the Issue Date in respect of which any of the Originators should fulfil the obligation to disclose without undue delay any material changes from prior underwriting standards (for further details, see the sections headed "The Portfolio");>>.</i></p>	
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>	
	<p>Underwriting standards (Article 20(10))</p> <p>33. The objective of the criterion specified in the first subparagraph of Article 20(10) is to prevent cherry picking and to ensure that the exposures that are to be securitised do not belong to exposure types that are outside the ordinary business of the originator, i.e. types of exposures in which the originator or original lender may have less expertise and/or interest at stake. This criterion is focused on disclosure of changes to the underwriting standards and aims to help the investors assess the underwriting standards pursuant to which the exposures transferred into securitisation have been originated.</p>	
	EBA Final non-ABCP STS Guidelines	

17	Legislative text	BACK TO TABLE OF CONTENTS
	Article 20 - Requirements relating to simplicity	
	20.10. The underlying exposures shall be originated in the ordinary course of the originator's or original lender's business pursuant to underwriting standards that are no less stringent than those that the originator or original lender applied at the time of origination to similar exposures that are not securitised.	
	STS criteria	
	17. Pursuant to underwriting standards that are no less stringent than those that the originator or original lender applied at the time of origination to similar exposures that are not securitised.	
	Verified?	Yes
	PCS Comment	
	See statement set out in point 16 above.	
	As for Receivables originated by other banks and Receivables that were acquired by way of subrogation (<i>surroga</i>), see also the Section "THE PORTFOLIO" and the relevant statements, as quoted under point 3 above.	
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>	
	Underwriting standards (Article 20(10))	
	37. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:	
	(a) the term 'similar exposures', with reference to requirements specified in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402;	
	(b) the term 'no less stringent underwriting standards': independently of the guidance provided in these guidelines, it is understood that, in the spirit of restricting the 'originate-to-distribute' model of underwriting, where similar exposures exist on the originator's balance sheet, the underwriting standards that have been applied to the securitised exposures should also have been applied to similar exposures that have not been securitised, i.e. the underwriting standards should have been applied not solely to securitised exposures;	
	EBA Final non-ABCP STS Guidelines	
	4.4 Underwriting standards, originator's expertise (Article 20(10))	
	<i>No less stringent underwriting standards</i>	
	23. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, the underwriting standards applied to securitised exposures should be compared to the underwriting standards applied to similar exposures at the time of origination of the securitised exposures.	
	24. Compliance with this requirement should not require either the originator or the original lender to hold similar exposures on its balance sheet at the time of the selection of the securitised exposures or at the exact time of their securitisation, nor should it require that similar exposures were actually originated at the time of origination of the securitised exposures.	

18	Legislative text	BACK TO TABLE OF CONTENTS
	Article 20 - Requirements relating to simplicity	
	The underwriting standards pursuant to which the underlying exposures are originated and any material changes from prior underwriting standards shall be fully disclosed to potential investors without undue delay.	
	STS criteria	
	18. The underwriting standards pursuant to which the underlying exposures are originated and any material changes from prior underwriting standards shall be fully disclosed to potential investors without undue delay.	
	Verified?	Yes
	PCS Comment	
	The transaction is not revolving, therefore changes to the underwriting standards which occur after the Issue Date will not be relevant. See §1(i) of section headed "COMPLIANCE WITH STS REQUIREMENTS" as quoted under point 16 above, and the statements mentioned under point 3 above.	
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>	
	Underwriting standards (Article 20(10)) 37 (c) clarification of the requirement to disclose material changes from prior underwriting standards to potential investors without undue delay: the guidance clarifies that this requirement should be forward-looking only, referring to material changes to the underwriting standards after the closing of the securitisation. The guidance clarifies the interactions with the requirement for similarity of the underwriting standards set out in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, which requires that all the underlying exposures in securitisation be underwritten according to similar underwriting standards;	
	EBA Final non-ABCP STS Guidelines	
	4.4 Underwriting standards, originator's expertise (Article 20(10)) Disclosure of material changes from prior underwriting standards 25. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, material changes to the underwriting standards that are required to be fully disclosed should be understood to be those material changes to the underwriting standards that are applied to the exposures that are transferred to, or assigned by, the SSPE after the closing of the securitisation in the context of portfolio management as referred to in paragraphs 15 and 16. 26. Changes to such underwriting standards should be deemed material where they refer to either of the following types of changes to the underwriting standards: (a) changes which affect the requirement of the similarity of the underwriting standards further specified in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402; (b) changes which materially affect the overall credit risk or expected average performance of the portfolio of underlying exposures without resulting in substantially different approaches to the assessment of the credit risk associated with the underlying exposures. 27. The disclosure of all changes to underwriting standards should include an explanation of the purpose of such changes. 28. With regard to trade receivables that are not originated in the form of a loan, reference to underwriting standards in Article 20(10) should be understood to refer to credit standards applied by the seller to short-term credit generally of the type giving rise to the securitised exposures and proposed to its customers in relation to the sales of its products and services.

	<p>See the information on the experience of both Originators, as contained in "THE ORIGINATORS, THE SERVICERS, [THE SENIOR NOTES INITIAL SUBSCRIBERS AND THE JUNIOR INITIAL SUBSCRIBERS]".</p> <p>Both originators are banks authorised in Italy, and have more than 500 years' experience (see the "historical background" for both Banca Carige and BML, contained in the Prospectus).</p> <p>See also the specific statement in §1(i) of "COMPLIANCE WITH STS REQUIREMENTS":</p> <p><i><<(i) for the purpose of compliance with article 20(10) of the Securitisation Regulation, under the Warranty and Indemnity Agreement each Originator has represented and warranted that: [...] (iv) the Originator has a more than 5 (five) year-expertise in originating exposures of a similar nature to the Receivables. [...]>>.</i></p>	
	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	<p>Underwriting standards (Article 20(10))</p> <p>36. The objective of the criterion specified in the fourth subparagraph of Article 20(10) is for the originator or original lender to have an established performance history of credit claims or receivables similar to those being securitised, and for an appropriately long period of time.</p> <p>37 (f) identification of criteria on which the expertise of the originator or the original lender should be determined:</p> <p>(i) when assessing if the originator or the original lender has the required expertise, some general principles should be set out against which the expertise should be assessed. The general principles have been designed to allow a robust qualitative assessment of the expertise. One of these principles is the regulatory authorisation: this is to allow for more flexibility in such qualitative assessments of the expertise if the originator or the original lender is a prudentially regulated institution which holds regulatory authorisations or permissions that are relevant with respect to origination of similar exposures. The regulatory authorisation in itself should, however, not be a guarantee that the originator or original lender has the required expertise;</p> <p>(ii) irrespective of such general principles, specific criteria should be developed, based on specifying a minimum period for an entity to perform the business of originating similar exposures, compliance with which would enable the entity to be considered to have a sufficient expertise. Such expertise should be assessed at the group level, so that possible restructuring at the entity level would not automatically lead to non-compliance with the expertise criterion. It is not the intention of such specific criteria to form an impediment to the entry of new participants to the market. Such entities should also be eligible for compliance with the expertise criterion, as long as their management body and senior staff with managerial responsibility for origination of similar exposures, have sufficient experience over a minimum specified period.</p> <p>38. It is expected that information on the assessment of the expertise is provided in sufficient detail in the STS notification.</p>	
	EBA Final non-ABCP STS Guidelines	
	<p>4.4 Underwriting standards, originator's expertise (Article 20(10))</p> <p>Similar exposures</p> <p>22. For the purposes of Article 20(10) of Regulation (EU) 2017/2402, exposures should be considered to be similar when one of the following conditions is met:</p> <p>(a) the exposures belong to one of the following asset categories referred to in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402:</p>	

- (i) residential loans secured with one or several mortgages on residential immovable property, or residential loans fully guaranteed by an eligible protection provider among those referred to in Article 201(1) of Regulation (EU) No 575/2013 qualifying for credit quality step 2 or above as set out in Part Three, Title II, Chapter 2 of that regulation;
 - (ii) commercial loans secured with one or several mortgages on commercial immovable property or other commercial premises;
 - (iii) credit facilities provided to individuals for personal, family or household consumption purposes;
 - (iv) auto loans and leases;
 - (v) credit card receivables;
 - (vi) trade receivables;
- (b) the exposures fall under the asset category of credit facilities provided to micro-, small-, medium-sized and other types of enterprises and corporates including loans and leases, as referred to in Article 2(d) of the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous in accordance with Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, as underlying exposures of a certain type of obligor;
- (c) where they do not belong to any of the asset categories referred to in points (a) and (b) of this paragraph and as referred to in the Delegated Regulation further specifying which underlying exposures are deemed to be homogeneous for the purposes of Articles 20(8) and 24(15) of Regulation (EU) 2017/2402, the underlying exposures share similar characteristics with respect to the type of obligor, ranking of security rights, type of immovable property and/or jurisdiction.
- Criteria for determining the expertise of the originator or original lender*
34. For the purposes of determining whether an originator or original lender has expertise in originating exposures of a similar nature to those securitised in accordance with Article 20(10) of Regulation (EU) 2017/2402, both of the following should apply:
- (a) the members of the management body of the originator or original lender and the senior staff, other than the members of the management body, responsible for managing the originating of exposures of a similar nature to those securitised should have adequate knowledge and skills in the origination of exposures of a similar nature to those securitised;
 - (b) any of the following principles on the quality of the expertise should be taken into account:
 - (i) the role and duties of the members of the management body and the senior staff and the required capabilities should be adequate;
 - (ii) the experience of the members of the management body and the senior staff gained in previous positions, education and training should be sufficient;
 - (iii) the involvement of the members of the management body and the senior staff within the governance structure of the function of originating the exposures should be appropriate;
 - (iv) in the case of a prudentially regulated entity, the regulatory authorisations or permissions held by the entity should be deemed relevant to origination of exposures of a similar nature to those securitised.
35. An originator or original lender should be deemed to have the required expertise when either of the following applies:
- (a) the business of the entity, or of the consolidated group to which the entity belongs for accounting or prudential purposes, has included the originating of exposures similar to those securitised, for at least five years;
 - (b) where the requirement referred to in point (a) is not met, the originator or original lender should be deemed to have the required expertise where they comply with both of the following:
 - (i) at least two of the members of the management body have relevant professional experience in the origination of exposures similar to those securitised, at a personal level, of at least five years;
 - (ii) senior staff, other than members of the management body, who are responsible for managing the entity's originating of exposures similar to those securitised, have relevant professional experience in the origination of exposures of a similar nature to those securitised, at a personal level, of at least five years.
36. For the purposes of demonstrating the number of years of professional experience, the relevant expertise should be disclosed in sufficient detail and in accordance with the applicable confidentiality requirements to permit investors to carry out their obligations under Article 5(3)(c) of Regulation (EU) 2017/2402.

	<p>See §1(j) of section headed "COMPLIANCE WITH STS REQUIREMENTS", where it is represented that:</p> <p><<(j) for the purpose of compliance with article 20(11) of the Securitisation Regulation, the Portfolio has been selected on the Valuation Date and transferred to the Issuer on the Transfer Date. Under the Warranty and Indemnity Agreement each Originator has represented and warranted that, as at the Transfer Date, the Portfolio does not include Receivables qualified as exposure in default within the meaning of article 178, paragraph 1, of Regulation (EU) No. 575/2013 or as exposures to a credit-impaired debtor or guarantor, who, to the best of each Originator's knowledge: (i) has been declared insolvent or had a court grant his creditors a final non-appealable right of enforcement or material damages as a result of a missed payment within three years prior to the date of origination or has undergone a debt-restructuring process with regard to his non-performing exposures within three years prior to the Signing Date, except if: (A) a restructured underlying exposure has not presented new arrears since the date of the restructuring, which must have taken place at least one year prior to the Signing Date; and (B) the information provided by the Originator in accordance with points (a) and (e)(i) of the first subparagraph of article 7(1), of the Securitisation Regulation explicitly sets out the proportion of restructured underlying exposures, the time and details of the restructuring as well as their performance since the date of the restructuring; or (ii) was, at the time of origination, where applicable, on a public credit registry of persons with adverse credit history available to the relevant Originator (or, as the case may be, the other banks indicated under paragraph (1)(c) above); or (iii) has a credit assessment or a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than the ones of comparable exposures held by the Originator which have not been assigned under the Transaction (for further details, see the sections headed "The Portfolio");>>.</p>	
	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	<p>No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</p> <p>39. The objective of the criterion in Article 20(11) is to ensure that STS securitisations are not characterised by underlying exposures whose credit risk has already been affected by certain negative events such as disputes with credit-impaired debtors or guarantors, debt restructuring processes or default events as identified by the EU prudential regulation. Risk analysis and due diligence assessments by investors become more complex whenever the securitisation includes exposures subject to certain ongoing negative credit risk developments. For the same reasons, STS securitisations should not include underlying exposures to credit-impaired debtors or guarantors that have an adverse credit history. In addition, significant risk of default normally rises as rating grades or other scores are assigned that indicate highly speculative credit quality and high likelihood of default, i.e. the possibility that the debtor or guarantor is not able to meet its obligations becomes a real possibility. Such exposures to credit-impaired debtors or guarantors should therefore also not be eligible for STS purposes.</p> <p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(a) Interpretation of the term 'exposures in default': given the differences in interpretation of the term 'default', the interpretation of this criterion should refer to additional guidance on this term provided in the existing delegated regulations and guidelines developed by the EBA, while taking into account the limitation of scope of that additional guidance to certain types of institutions;</p>	
	EBA Final non-ABCP STS Guidelines	
	<p>4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</p> <p>Exposures in default</p> <p>37. For the purposes of the first subparagraph of Article 20(11) of Regulation (EU) 2017/2402, the exposures in default should be interpreted in the meaning of Article 178(1) of Regulation (EU) 575/2013, as further specified by the Delegated Regulation on the materiality threshold for credit obligations past due developed in accordance with Article 178 of that Regulation, and by the EBA Guidelines on the application of the definition of default developed in accordance with Article 178(7) of that regulation.</p>	

<p>38. Where an originator or original lender is not an institution and is therefore not subject to Regulation (EU) 575/2013, the originator or original lender should comply with the guidance provided in the previous paragraph to the extent that such application is not deemed to be unduly burdensome. 	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	<p>No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))</p> <p>39. The objective of the criterion in Article 20(11) is to ensure that STS securitisations are not characterised by underlying exposures whose credit risk has already been affected by certain negative events such as disputes with credit-impaired debtors or guarantors, debt-restructuring processes or default events as identified by the EU prudential regulation. Risk analysis and due diligence assessments by investors become more complex whenever the securitisation includes exposures subject to certain ongoing negative credit risk developments. For the same reasons, STS securitisations should not include underlying exposures to credit-impaired debtors or guarantors that have an adverse credit history. In addition, significant risk of default normally rises as rating grades or other scores are assigned that indicate highly speculative credit quality and high likelihood of default, i.e. the possibility that the debtor or guarantor is not able to meet its obligations becomes a real possibility. Such exposures to credit-impaired debtors or guarantors should therefore also not be eligible for STS purposes.</p> <p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(b) Interpretation of the term 'exposures to a credit-impaired debtor or guarantor': the interpretation should also take into account the interpretation provided in recital 26 of Regulation (EU) 2017/2402, according to which the circumstances specified in points (a) to (c) of Article 24(9) of that regulation are understood as specific situations of credit-impairedness to which exposures in the STS securitisation may not be exposed. Consequently, other possible circumstances of credit-impairedness that are not captured in points (a) to (c) should be outside the scope of this requirement. Moreover, taking into account the role of the guarantor as a risk bearer, it should be clarified that the requirement to exclude 'exposures to a credit-impaired debtor or guarantor' is not meant to exclude (i) exposures to a credit-impaired debtor when it has a guarantor that is not credit impaired; or (ii) exposures to a non-credit-impaired debtor when there is a credit-impaired guarantor;</p> <p>(c) Interpretation of the term 'to the best knowledge of': the interpretation should follow the wording of recital 26 of Regulation (EU) 2017/2402, according to which an originator or original lender is not required to take all legally possible steps to determine the debtor's credit status but is only required to take those steps that the originator/original lender usually takes within its activities in terms of origination, servicing, risk management and use of information that is received from third parties. This should not require the originator or original lender to check publicly available information, or to</p>	

check entries in at least one credit registry where an originator or original lender does not conduct such checks within its regular activities in terms of origination, servicing, risk management and use of information received from third parties, but rather relies, for example, on other information that may include credit assessments provided by third parties. Such clarification is important because corporates that are not subject to EU financial sector regulation and that are acting as sellers with respect to STS securitisation may not always check entries in credit registries and, in line with the best knowledge standard, should not be obliged to perform additional checks at origination of any exposure for the purposes of later fulfilling this criterion in terms of any credit-impaired debtors or guarantors;

EBA Final non-ABCP STS Guidelines

4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))

Exposures to a credit-impaired debtor or guarantor

39. For the purposes of Article 20(11) of Regulation (EU) 2017/2402, the circumstances specified in points (a) to (c) of that paragraph should be understood as definitions of credit-impairedness. Other possible circumstances of credit-impairedness that are not captured in points (a) to (c) should be considered to be excluded from this requirement.

40. The prohibition of the selection and transfer to SSPE of underlying exposures 'to a credit-impaired debtor or guarantor' as referred to in Article 20(11) of Regulation (EU) 2017/2402 should be understood as the requirement that, at the time of selection, there should be a recourse for the full securitised exposure amount to at least one non-credit-impaired party, irrespective of whether that party is a debtor or a guarantor. Therefore, the underlying exposures should not include either of the following:

- (a) exposures to a credit-impaired debtor, when there is no guarantor for the full securitised exposure amount;
- (b) exposures to a credit-impaired debtor who has a credit-impaired guarantor.

To the best of the originator's or original lender's knowledge

41. For the purposes of Article 20(11) of Regulation (EU) 2017/2402, the 'best knowledge' standard should be considered to be fulfilled on the basis of information obtained only from any of the following combinations of sources and circumstances:

- (a) debtors on origination of the exposures;
- (b) the originator in the course of its servicing of the exposures or in the course of its risk management procedures;
- (c) notifications to the originator by a third party;
- (d) publicly available information or information on any entries in one or more credit registries of persons with adverse credit history at the time of origination of an underlying exposure, only to the extent that this information had already been taken into account in the context of (a), (b) and (c), and in accordance with the applicable regulatory and supervisory requirements, including with respect to sound credit granting criteria as specified in Article 9 of Regulation (EU) 2017/2402. This is with the exception of trade receivables that are not originated in the form of a loan, with respect to which credit-granting criteria do not need to be met.

	Verified?	Yes
	PCS Comment	
	See the R&W mentioned under point 24 above.	
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>	
	No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))	
	<p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(d) Interpretation of the criterion with respect to the debtors and guarantors found on the credit registry: it is important to interpret this requirement in a narrow sense to ensure that the existence of a debtor or guarantor on the credit registry of persons with adverse credit history should not automatically exclude the exposure to that debtor/guarantor from compliance with this criterion. It is understood that this criterion should relate only to debtors and guarantors that are, at the time of origination of the exposure, considered entities with adverse credit history. Existence on a credit registry at the time of origination of the exposure for reasons that can be reasonably ignored for the purposes of the credit risk assessment (for example due to missed payments which have been resolved in the next two payment periods) should not be captured by this requirement. Therefore, this criterion should not automatically exclude from the STS framework exposures to all entities that are on the credit registries, taking into account that this would unintentionally exclude a significant number of entities given that different practices exist across EU jurisdictions with respect to entry requirements of such credit registries, and the fact that credit registries in some jurisdictions may contain both positive and negative information about the clients;</p>	
	EBA Final non-ABCP STS Guidelines	
	4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))	
	<i>Exposures to credit-impaired debtors or guarantors that have undergone a debt-restructuring process</i>	
	42. For the purposes of Article 20(11)(a) of Regulation (EU) 2017/2402, the requirement to exclude exposures to credit-impaired debtors or guarantors who have undergone a debt-restructuring process with regard to their non-performing exposures should be understood to refer to both the restructured exposures of the respective debtor or guarantor and those of its exposures that were not themselves	

	subject to restructuring. For the purposes of this Article, restructured exposures which meet the conditions of points (i) and (ii) of that Article should not result in a debtor or guarantor becoming designated as credit-impaired.

	Article 20 - Requirements relating to simplicity	
	<p>20.11. The underlying exposures shall be transferred to the SSPE after selection without undue delay and shall not include, at the time of selection, exposures in default within the meaning of Article 178(1) of Regulation (EU) No 575/2013 or exposures to a credit-impaired debtor or guarantor, who, to the best of the originator's or original lender's knowledge:</p> <p>(a) has been declared insolvent or had a court grant his creditors a final non-appealable right of enforcement or material damages as a result of a missed payment within three years prior to the date of origination.</p> <p>or has undergone a debt-restructuring process with regard to his non-performing exposures within three years prior to the date of transfer or assignment of the underlying exposures to the SSPE, except if:</p> <p>(i) a restructured underlying exposure has not presented new arrears since the date of the restructuring which must have taken place at least one year prior to the date of transfer or assignment of the underlying exposures to the SSPE; and</p> <p>(ii) the information provided by the originator, sponsor and SSPE in accordance with points (a) and (e)(i) of the first subparagraph of Article 7(1) explicitly sets out the proportion of restructured underlying exposures, the time and details of the restructuring as well as their performance since the date of the restructuring;</p> <p>(b) was, at the time of origination, where applicable, on a public credit registry of persons with adverse credit history or, where there is no such public credit registry, another credit registry that is available to the originator or original lender;</p> <p>(c) has a credit assessment or a credit score indicating that the risk of contractually agreed payments not be made is significantly higher than for comparable exposures held by the originator which are not securitised.</p>	
	STS criteria	
	30. (c) has a credit assessment or a credit score indicating that the risk of contractually agreed payments not be made is significantly higher than for comparable exposures held by the originator which are not securitised.	
	Verified?	Yes
	PCS Comment	
	See the R&W mentioned under point 24 above.	
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>	
	No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))	
	<p>40. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(e) Interpretation of the term 'significantly higher risk of contractually agreed payments not being made for comparable exposures': the term should be interpreted with a similar meaning to the requirement aiming to prevent adverse selection of assets referred to in Article 6(2) of Regulation (EU) 2017/2402, and further specified in the Article 16(2) of the Delegated Regulation specifying in greater detail the risk retention requirement in accordance with Article 6(7) of Regulation (EU) 2017/2402, given that in both cases the requirement (i) aims to prevent adverse selection of underlying exposures and (ii) relates to the comparison of the credit quality of exposures transferred to the SSPE and comparable exposures that remain on the originator's balance sheet. To facilitate the interpretation, a list is given of examples of how to achieve compliance with the requirement.</p>	
	EBA Final non-ABCP STS Guidelines	
	4.5 No exposures in default and to credit-impaired debtors/guarantors (Article 20(11))	
	<i>Risk of contractually agreed payments not being made being significantly higher than for comparable exposures</i>	
	<p>44. For the purposes of Article 20(11)(c) of Regulation (EU) 2017/2402, the exposures should not be considered to have a 'credit assessment of a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than for comparable exposures held by the originator which are not securitised' when the following conditions apply:</p> <p>(a) the most relevant factors determining the expected performance of the underlying exposures are similar;</p>	

	<p>(b) as a result of the similarity referred to in point (a) it could reasonably have been expected, on the basis of indications such as past performance or applicable models, that, over the life of the transaction or over a maximum of four years, where the life of the transaction is longer than four years, their performance would not be significantly different.</p> <p>45. The requirement in the previous paragraph should be considered to have been met where either of the following applies:</p> <p>(a) the underlying exposures do not include exposures that are classified as doubtful, impaired, non-performing or classified to the similar effect under the relevant accounting principles;</p> <p>(b) the underlying exposures do not include exposures whose credit quality, based on credit ratings or other credit quality thresholds, significantly differs from the credit quality of comparable exposures that the originator originates in the course of its standard lending operations and credit risk strategy.</p>

	Article 20 - Requirements relating to simplicity	
	20.12. The debtors shall at the time of transfer of the exposures, have made at least one payment, except in the case of revolving securitisations backed by exposures payable in a single instalment or having a maturity of less than one year, including without limitation monthly payments on revolving credits.	
	STS criteria	
	31. The debtors shall at the time of transfer of the exposures, have made at least one payment, except in the case of revolving securitisations backed by exposures payable in a single instalment or having a maturity of less than one year, including without limitation monthly payments on revolving credits.	
	Verified?	Yes
	PCS Comment	
	<p>See §1(k) in section headed "COMPLIANCE WITH STS REQUIREMENTS", where it is stated that:</p> <p><< (k) for the purpose of compliance with article 20(12) of the Securitisation Regulation, under the Warranty and Indemnity Agreement, each Originator has represented and warranted that, as at the Transfer Date, the Receivables arise from Loans in respect of which at least one payment has been made by the relevant Debtor for whatever reason;>>.</p> <p>It is also noted that the payment of a first instalment is also one of the eligibility criteria (see Transfer Agreement, Annex 1, as amended on 15 June 2020).</p> <p>The following R&W contained in the Warranty and Indemnity Agreement is also noted:</p> <p><<(vi) I Crediti derivano da Mutui in relazione ai quali, alla Data di Conclusione, almeno un pagamento è stato effettuato a qualsiasi titolo dal relativo Debitore.>></p>	
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>	
	At least one payment made (Article 20(12))	
	<p>41. STS securitisations should minimise the extent to which investors are required to analyse and assess fraud and operational risk. At least one payment should therefore be made by each underlying borrower at the time of transfer, since this reduces the likelihood of the loan being subject to fraud or operational issues, unless in the case of revolving securitisations in which the distribution of securitised exposures is subject to constant changes because the securitisation relates to exposures payable in a single instalment or with an initial legal maturity of an exposure of below one year.</p> <p>42. To facilitate consistent interpretation of this criterion, its scope and the types of payments referred to therein should be further clarified.</p>	
	EBA Final non-ABCP STS Guidelines	
	4.6 At least one payment made (Article 20(12))	
	Scope of the criterion	
	<p>46. For the purposes of Article 20(12) of Regulation (EU) 2017/2402, further advances in terms of an exposure to a certain borrower should not be deemed to trigger a new 'at least one payment' requirement with respect to such an exposure.</p>	
	At least one payment	
	<p>47. For the purposes of Article 20(12) of Regulation (EU) 2017/2402, the payment referred to in the requirement according to which 'at least one payment' should have been made at the time of transfer should be a rental, principal or interest payment or any other kind of payment.</p>	

32	Legislative text	BACK TO TABLE OF CONTENTS
	Article 20 - Requirements relating to simplicity	
	<p>20.13. The repayment of the holders of the securitisation positions shall not have been structured to depend predominantly on the sale of assets securing the underlying exposures. This shall not prevent such assets from being subsequently rolled-over or refinanced.</p> <p>The repayment of the holders of the securitisation positions whose underlying exposures are secured by assets the value of which is guaranteed or fully mitigated by a repurchase obligation by the seller of the assets securing the underlying exposures or by another third party shall not be considered to depend on the sale of assets securing those underlying exposures.</p>	
	STS criteria	
	32. The repayment of the holders of the securitisation positions shall not have been structured to depend predominantly on the sale of assets securing the underlying exposures.	
	Verified?	Yes
	PCS Comment	
	<p>PCS notices that the underlying exposures are SME receivables. A portion of those receivables is made of unsecured loans, and in this case there's clearly no reliance on the sale of any asset. A second portion of the Receivables is made of loans that are secured by mortgages on real estate assets. In this respect, see the statement contained in §1(l) of "COMPLIANCE WITH STS REQUIREMENTS":</p> <p><i><<(l) for the purpose of compliance with article 20(13) of the Securitisation Regulation, under the Warranty and Indemnity Agreement, each Originator has represented and warranted as at the Transfer Date that, in order to determine the creditworthiness of the relevant Debtor, the Originator (or, as the case may be, the other banks indicated under paragraph (1)(c) above) has not based its assessment predominantly on the possible sale of the relevant Real Estate Asset following the enforcement of the relevant Mortgage; therefore, the repayment of the Notes has not been structured to depend predominantly on the sale of the Real Estate Assets. Please consider in this regard that: (1) around 32% of the Principal Amount Outstanding of the Portfolio is composed by secured receivables; (2) all the Loans comprised in the Portfolio are amortising, so that the relevant Principal Amount Outstanding as at the Final Maturity Date will be equal to 0. The Portfolio does not comprise Loans with bullet payment of principal or payment of a large final instalment so called "maxi rata finale"; and (3) the pool of exposure has a high granularity (for further details, see the section the "The Portfolio");>>.</i></p> <p>See also "Certain risks relating to the Real Estate Assets" in the Section on "RISK FACTORS".</p>	
	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	No predominant dependence on the sale of assets (Article 20(13))	
	<p>43. Dependence of the repayment of the holders of the securitisation positions on the sale of assets securing the underlying exposures increases the liquidity risks, market risks and maturity transformation risks to which the securitisation is exposed. It also makes the credit risk of the securitisation more difficult for investors to model and assess.</p>	
	<p>44. The objective of this criterion is to ensure that the repayment of the principal balance of exposures at the contract maturity – and therefore repayment of the holders of the securitisation positions – is not intended to be predominantly reliant on the sale of assets securing the underlying exposures, unless the value of the assets is guaranteed or fully mitigated by a repurchase obligation.</p>	
	<p>45. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p>	
	<p>(a) the term 'predominant dependence' on the sale of assets securing the underlying exposures should be further interpreted:</p>	
	<p>(i) when assessing whether the repayment of the holders of the securitisation positions is or is not predominantly dependent on the sale of assets, the following three aspects should be taken into account: (i) the principal balance at contract maturity of underlying exposures that depend on the sale of assets securing those underlying exposures to repay the balance; (ii) the distribution of maturities of such exposures across the life of the transaction, which aims to reduce the risk of correlated defaults due to idiosyncratic shocks; and (iii) the granularity of the pool of exposures, which aims to promote sufficient distribution in sale dates and other characteristics that may affect the sale of the underlying exposures.</p>	
	<p>(i) no types of securitisations should be excluded ex ante from the compliance with this criterion and from the STS securitisation as long as they meet all the requirements specified in the guidance. For example, this criterion does not aim to exclude leasing transactions and interest-only residential mortgages from STS securitisation, provided they comply with the guidance provided and all other applicable STS requirements. However, it is expected that commercial real estate transactions, or securitisations where the assets are commodities (e.g. oil, grain, gold), or bonds whose maturity dates fall after the maturity date of the securitisation, would not meet these requirements, as in all these cases it is expected that the repayment is predominantly reliant on the sale of the assets, that other possible ways to repay the securitisation positions are substantially limited, and that the granularity of the portfolio is low.</p>	

<p>46. With respect to the exemption provided in the second subparagraph of Article 20(13) of Regulation (EU) 2017/2402, it should be ensured that the entity providing the guarantee or the repurchase obligation of the assets securing the underlying exposures is not an empty-shell or defaulted entity, so that it has sufficient loss absorbency to exercise the guarantee of the repurchase of the assets.</p>
<p>EBA Final non-ABCP STS Guidelines</p> <p>4.7 No Predominant dependence on the sale of assets <i>Predominant dependence on the sale of assets</i></p> <p>48. For the purposes of Article 20(13) of Regulation (EU) 2017/2402, transactions where all of the following conditions apply, at the time of origination of the securitisation in cases of amortising securitisation or during the revolving period in cases of revolving securitisation, should be considered not predominantly dependent on the sale of assets securing the underlying exposures, and therefore allowed:</p> <ul style="list-style-type: none"> (a) the contractually agreed outstanding principal balance, at contract maturity of the underlying exposures that depend on the sale of the assets securing those underlying exposures to repay the principal balance, corresponds to no more than 50% of the total initial exposure value of all securitisation positions of the securitisation; (b) the maturities of the underlying exposures referred to in point (a) are not subject to material concentrations and are sufficiently distributed across the life of the transaction; (c) the aggregate exposure value of all the underlying exposures referred to in point (a) to a single obligor does not exceed 2% of the aggregate exposure value of all underlying exposures in the securitisation. <p>49. Where there are no underlying exposures in the securitisation that depend on the sale of assets to repay their outstanding principal balance at contract maturity, the requirements in paragraph 48 should not apply.</p> <p><i>Exemption provided in the second subparagraph of Article 20(13) of Regulation (EU) 2017/2402</i></p> <p>50. The exemption referred to in the second subparagraph of Article 20(13) of Regulation (EU) 2017/2402 with regard to the repayment of holders of securitisation positions whose underlying exposures are secured by assets, the value of which is guaranteed or fully mitigated by a repurchase obligation of either the assets securing the underlying exposures or of the underlying exposures themselves by another third party or parties, the seller or the third parties should meet both of the following conditions:</p> <ul style="list-style-type: none"> (a) they are not insolvent; (b) there is no reason to believe that the entity would not be able to meet its obligations under the guarantee or the repurchase obligation.

	<p>See "COMPLIANCE WITH STS REQUIREMENTS", §2(b):</p> <p><<(b) for the purpose of compliance with article 21(2) of the Securitisation Regulation, in order to mitigate any interest rate risk connected with the Notes, (A) the Conditions provide that the Rate of Interest on the Class A1 Notes are subject to a cap of 3.50% per annum, so that with respect to the Class A1 Notes only, if the relevant Rate of Interest is higher than 3.50% per annum, the rate of interest applicable on the Class A1 Notes shall be equal to 3.50% per annum (for further details, see Condition 5.2 (Interest - Rate of Interest)), and (B) with reference to the payment of interest on the Senior Notes, a cash reserve has been established into the Cash Reserve Account in accordance with the provisions of the Subordinated Loan Agreements and the Conditions (for further details, see section headed "Risk Factors – Interest Rate Risk"). [...]>>.</p> <p>See also the reasoning supporting the appropriateness of the mitigation of the interest rate risk through structural and financial features of the transaction, which is contained in the Risk Factor section headed "Interest rate risk".</p>	
	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	<p>Appropriate mitigation of interest-rate and currency risks (Article 21 (2))</p> <p>49. The objective of this criterion is to reduce any payment risk arising from different interest-rate and currency profiles of assets and liabilities. Mitigating or hedging interest-rate and currency risks arising in the transaction enhances the simplicity of the transaction, since it helps investors to model those risks and their impact on the credit risk of the securitisation investment.</p> <p>50. It should be clarified that hedging (through derivative instruments) is only one possible way of addressing the risks mentioned. Whichever measure is applied for the risk mitigation, it should, however, be subject to specific conditions so that it can be considered to appropriately mitigate the risks mentioned.</p> <p>51. One of these conditions aims to prohibit derivatives that do not serve the purpose of hedging interest-rate or currency risk from being included in the pool of underlying exposures or entered into by the SSPE, given that derivatives add to the complexity of the transaction and to the complexity of the risk and due diligence analysis to be carried out by the investor. Derivatives hedging interest-rate or currency risk enhance the simplicity of the transaction, since hedged transactions do not require investors to engage in the modelling of currency and interest-rate risks.</p> <p>52. To facilitate consistent interpretation of this criterion, the following aspects should be clarified:</p> <p>(a) conditions that the measures should comply with so that they can be considered to appropriately mitigate the interest-rate and currency risks;</p> <p>(b) clarification with respect to the scope of derivatives that should and should not be captured by this criterion;</p> <p>(c) clarification of the term 'common standards in international finance'.</p>	
	EBA Final non-ABCP STS Guidelines	
	<p>5.1 Appropriate mitigation of interest-rate and currency risks (Article 21(2))</p> <p>Appropriate mitigation of interest-rate and currency risks</p> <p>51. For the purposes of Article 21(2) of Regulation (EU) 2017/2402 in order for the interest-rate and currency risks arising from the securitisation to be considered 'appropriately mitigated', it should be sufficient that a hedge or mitigation is in place, on condition that it is not unusually limited with the effect that it covers a major share of the respective interest-rate or currency risks under relevant scenarios, understood from an economic perspective. Such a mitigation may also be in the form of derivatives or other mitigating measures including reserve funds, over collateralisation, excess spread or other measures.</p> <p>52. Where the appropriate mitigation of interest-rate and currency risks is carried out through derivatives, all of the following requirements should apply:</p>	

- | | |
|--|---|
| | <p>(a) the derivatives should be used only for genuine hedging of asset and liability mismatches of interest rates and currencies, and should not be used for speculative purposes;</p> <p>(b) the derivatives should be based on commonly accepted documentation, including International Swaps or Derivatives Association (ISDA) or similar established national documentation standards;</p> <p>(c) the derivative documentation should provide, in the event of the loss of sufficient creditworthiness of the counterparty below a certain level, measured either on the basis of the credit rating or otherwise, that the counterparty is subject to collateralisation requirements or makes a reasonable effort for its replacement or guarantee by another counterparty.</p> <p>53. Where the mitigation of interest-rate and currency risks referred to in Article 21(2) of Regulation (EU) 2017/2402 is carried out not through derivatives but by other risk-mitigating measures, those measures should be designed to be sufficiently robust. When such risk-mitigating measures are used to mitigate multiple risks at the same time, the disclosure required by Article 21(2) of Regulation (EU) 2017/2402 should include an explanation of how the measures hedge the interest-rate risks and currency risks on one hand, and other risks on the other hand.</p> |

	21.3. Any referenced interest payments under the securitisation assets and liabilities shall be based on generally used market interest rates, or generally used sectoral rates reflective of the cost of funds, and shall not reference complex formulae or derivatives.	
	STS criteria	
	40. Any referenced interest payments under the securitisation assets and liabilities shall be based on generally used market interest rates, or generally used sectoral rates reflective of the cost of funds and shall not reference complex formulae or derivatives.	
	Verified?	Yes
	PCS Comment	
	<p>As for <u>assets</u>:</p> <ul style="list-style-type: none"> The underlying exposures accrue interests, either at a fixed rate or based on Euribor (1m, 3m or 6m) plus a margin <p>As for <u>liabilities</u>:</p> <ul style="list-style-type: none"> All the Notes of each Class accrue interest, at an interest rate which is based on Euribor and a margin. Interest rate accruing on the Class A1 Notes is also capped at 3.5%. See Condition 5.2 (<i>Rate of Interest</i>) of the Terms and Conditions of the Notes. The excess spread is granted to the Originators in the form of a Premium payable on the Junior Notes. See TRANSACTION OVERVIEW and Condition 5.4 of the Terms and Conditions of the Notes. <p>Based on the above, PCS is prepared to verify that this criterion is satisfied.</p>	
	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	<p>Referenced interest payments (Article 21 (3))</p> <p>53. The objective of this criterion is to prevent securitisations from making reference to interest rates that cannot be observed in the commonly accepted market practice. The credit risk and cash flow analysis that investors must be able to carry out should not involve atypical, complex or complicated rates or variables that cannot be modelled on the basis of market experience and practice.</p> <p>54. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(a) the scope of the criterion (by specifying the common types and examples of interest rates captured by this criterion);</p> <p>(b) the term ‘complex formulae or derivatives’.</p>	
	EBA Final non-ABCP STS Guidelines	
	<p>5.2 Referenced interest payments (Article 21 (3))</p> <p>Referenced rates</p> <p>57. For the purposes of Article 21(3) of Regulation (EU) 2017/2402, interest rates that should be considered to be an adequate reference basis for referenced interest payments should include all of the following:</p> <p>(a) interbank rates including the Libor, Euribor and other recognised benchmarks;</p> <p>(b) rates set by monetary policy authorities, including FED funds rates and central banks’ discount rates;</p> <p>(c) sectoral rates reflective of a lender’s cost of funds, including standard variable rates and internal interest rates that directly reflect the market costs of funding of a bank or a subset of institutions, to the extent that sufficient data are provided to investors to allow them to assess the relation of the sectoral rates to other market rates.</p>	

Complex formulae or derivatives

58. For the purposes of Article 21(3) of Regulation (EU) 2017/2402, a formula should be considered to be complex when it meets the definition of an exotic instrument by the Global Association of Risk Professionals (GARP), which is a financial asset or instrument with features that make it more complex than simpler, plain vanilla, products. A complex formula or derivative should not be deemed to exist in the case of the mere use of interest-rate caps or floors.

	Article 21 - Requirements relating to standardisation	
	<p>21.4. Where an enforcement or an acceleration notice has been delivered:</p> <p>(a) no amount of cash shall be trapped in the SSPE beyond what is necessary to ensure the operational functioning of the SSPE or the orderly repayment of investors in accordance with the contractual terms of the securitisation, unless exceptional circumstances require that amount is trapped in order to be used, in the best interests of investors, for expenses in order to avoid the deterioration in the credit quality of the underlying exposures;</p>	
	STS criteria	
	<p>41. Where an enforcement or an acceleration notice has been delivered:</p> <p>(a) no amount of cash shall be trapped in the SSPE beyond what is necessary to ensure the operational functioning of the SSPE or the orderly repayment of investors in accordance with the contractual terms of the securitisation, unless exceptional circumstances require that amount is trapped in order to be used, in the best interests of investors, for expenses in order to avoid the deterioration in the credit quality of the underlying exposures;</p>	
	Verified?	Yes
	PCS Comment	
	<p>See the Post-Enforcement Priority of Payments, as set out in the Transaction Overview and in Condition 4 of the Terms and Conditions of the Notes.</p> <p>PCS notes that in a Post-Enforcement scenario, no amount of cash shall be trapped in the Issuer beyond what is necessary to ensure the payment of "Expenses" on the Expenses Account up to a Retention Amount equal to Euro 60,000.</p> <p>Expenses are defined as <<any and all documented fees, costs, expenses and taxes required to be paid to any third party creditors (other than the Noteholders and the Other Issuer Creditors) arising in connection with the Transaction and/or required to be paid (as determined in accordance with the Extension to the Corporate Services Agreement, by reference to the number of the then outstanding securitisation transaction carried out by the Issuer) in order to preserve the existence of the Issuer, to maintain it in good standing or to comply with applicable laws.>>.</p> <p>PCS is satisfied that, under the PoP, the Expenses and the other amounts payable in priority to principal on the Notes are only amounts necessary to ensure the operational functioning of the SSPE or the orderly repayment of investors.</p>	
	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	Requirements in case of enforcement or delivery of an acceleration notice (Article 21(4))	
	<p>55. The objective of this criterion is to prevent investors from being subjected to unexpected repayment profiles and to provide appropriate legal comfort regarding their enforceability, for instances where an enforcement or an acceleration notice has been delivered.</p> <p>56. STS securitisations should be such that the required investor's risk analysis and due diligence do not have to factor in complex structures of the payment priority that are difficult to model, nor should the investor be exposed to complex changes in such structures throughout the life of the transaction. Therefore, it should be ensured that junior noteholders do not have inappropriate payment preference over senior noteholders that are due and payable.</p> <p>57. In addition, taking into account that market risk on the underlying collateral constitutes an element of complexity in the risk and due diligence analysis to be carried out by investors, the objective is also to ensure that the performance of STS securitisations does not rely, due to contractual triggers, on the automatic liquidation at market price of the underlying collateral.</p> <p>58. To facilitate consistent interpretation of this criterion, the scope and operational functioning of conditions specified under letters (a), (b) and (d) of Article 21(4) should be specified further.</p>	
	EBA Final non-ABCP STS Guidelines	
	5.3 Requirements in the event of enforcement or delivery of an acceleration notice (Article 21(4))	
	Exceptional circumstances	
	<p>59. For the purposes of Article 21(4)(a) of Regulation (EU) 2017/2402, a list of 'exceptional circumstances' should, to the extent possible, be included in the transaction documentation.</p>	

60. Given the nature of 'exceptional circumstances' and in order to allow some flexibility with respect to potential unusual circumstances requiring that cash be trapped in the SSPE in the best interests of investors, where a list of 'exceptional circumstances' is included in the transaction documentation in accordance with paragraph 59, such a list should be non-exhaustive.

Amount trapped in the SSPE in the best interests of investors

61. For the purposes of Article 21(4)(a) of Regulation (EU) 2017/2402, the amount of cash to be considered as trapped in the SSPE should be that agreed by the trustee or other representative of the investors who is legally required to act in the best interests of the investors, or by the investors in accordance with the voting provisions set out in the transaction documentation.

62. For the purposes of Article 21(4)(a) of Regulation (EU) 2017/2402, it should be permissible to trap the cash in the SSPE in the form of a reserve fund for future use, as long as the use of the reserve fund is exclusively limited to the purposes set out in Article 21(4)(a) of Regulation (EU) 2017/2402 or to orderly repayment to the investors.

	Article 21 - Requirements relating to standardisation	
	21.5. Transactions which feature non-sequential priority of payments shall include triggers relating to the performance of the underlying exposures resulting in the priority of payments reverting to sequential payments in order of seniority. Such performance-related triggers shall include at least the deterioration in the credit quality of the underlying exposures below a pre-determined threshold.	
	STS criteria	
	45. Transactions which feature non-sequential priority of payments shall include triggers relating to the performance of the underlying exposures resulting in the priority of payments reverting to sequential payments in order of seniority. Such performance-related triggers shall include at least the deterioration in the credit quality of the underlying exposures below a pre-determined threshold.	
	Verified?	Yes
	PCS Comment	
	<p>The first step in analysing this criterion is to determine whether the transaction features non-sequential priorities of payment. This is not the case in this transaction since payments in respect of the Notes are made sequentially both in a pre and post enforcement scenario.</p> <p>Therefore, the above requirement is satisfied.</p>	
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>	
	<p>Non-sequential priority of payments (Article 21(5))</p> <p>59. The objective of this criterion is to ensure that non-sequential (pro rata) amortisation should be used only in conjunction with clearly specified contractual triggers that determine the switch of the amortisation scheme to a sequential priority, safeguarding the transaction from the possibility that credit enhancement is too quickly amortised as the credit quality of the transaction deteriorates, thereby exposing senior investors to a decreasing amount of credit enhancement.</p> <p>60. To facilitate consistent interpretation of this criterion, a non-exhaustive list of examples of performance-related triggers that may be included is provided in the guidance.</p>	
	EBA Final non-ABCP STS Guidelines	
	<p>5.4 Non-sequential priority of payments (Article 21(5))</p> <p>Performance-related triggers</p> <p>66. For the purposes of Article 21(5) of Regulation (EU) 2017/2402, the triggers related to the deterioration in the credit quality of the underlying exposures may include the following:</p> <p>(a) with regard to underlying exposures for which a regulatory expected loss (EL) can be determined in accordance with Regulation (EU) 575/2013 or other relevant EU regulation, cumulative losses that are higher than a certain percentage of the regulatory one-year EL on the underlying exposures and the weighted average life of the transaction;</p> <p>(b) cumulative non-matured defaults that are higher than a certain percentage of the sum of the outstanding nominal amount of tranche held by the investors and the tranches that are subordinated to them;</p> <p>(c) the weighted average credit quality in the portfolio decreasing below a given pre-specified level or the concentration of exposures in high credit risk (probability of default) buckets increasing above a pre-specified level.</p>

	46. The transaction documentation shall include appropriate early amortisation provisions or triggers for termination of the revolving period where the securitisation is a revolving securitisation, including at least the following:	
	Verified?	Yes
	PCS Comment	
	This provision applies to transactions with a revolving period. This transaction does not contemplate a revolving period and, therefore, this requirement does not apply.	
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>	
	Early amortisation provisions/triggers for termination of the revolving period (Article 21 (6))	
	61. The objective of this criterion is to ensure that, in the presence of a revolving period mechanism, investors are sufficiently protected from the risk that principal amounts may not be fully repaid. In all such transactions, irrespective of the nature of the revolving mechanism, investors should be protected by a minimum set of early amortisation triggers or triggers for the termination of the revolving period that should be included in the transaction documentation. 62. In order to facilitate the consistent interpretation of this criterion, interactions of this criterion with the criterion under Article 21(7)(b) with respect to the insolvency-related event with respect to the servicer should be further clarified.	
	EBA Final non-ABCP STS Guidelines	
	5.5 Early amortisation provisions/triggers for termination of the revolving period (Article 21 (6))	
	<i>Insolvency-related event with regard to the servicer</i>	
	67. For the purposes of Article 21(6)(b) of Regulation (EU) 2017/2402, an insolvency-related event with respect to the servicer should lead to both of the following: (a) it should enable the replacement of the servicer in order to ensure continuation of the servicing; (b) it should trigger the termination of the revolving period.

	21.8. The servicer shall have expertise in servicing exposures of a similar nature to those securitised and shall have well documented and adequate policies, procedures and risk management controls relating to the servicing of exposures.	
	STS criteria	
	54. The servicer shall have expertise in servicing exposures of a similar nature to those securitised	
	Verified?	Yes
	PCS Comment	
	<p>See §2(h) of section “COMPLIANCE WITH STS REQUIREMENTS” and in particular the statement that:</p> <p><i><<(h) for the purpose of compliance with article 21(8) of the Securitisation Regulation, under the Servicing Agreement, each of the Servicers has represented and warranted that it has experience in managing exposures of a similar nature to the Receivables and has established well-documented and adequate risk management policies, procedures and controls relating to the management of such exposures in accordance with Article 21(8) of the Securitisation Regulation and in accordance with the EBA Guidelines. In addition, pursuant to the Servicing Agreement, the Back-Up Servicer and any Successor Servicer shall, inter alia, have a long lasting expertise in servicing exposures of a similar nature to those securitised for and has well-documented and adequate policies, procedures and risk-management controls relating to the servicing of exposures, in accordance with article 21(8) of the Securitisation Regulation and the EBA Guidelines on STS Criteria (for further details, see the sections headed “Description of the Servicing Agreement”);>>.</i></p> <p>It is also noted that both Banca Carige and BML are banks authorised in Italy and subject to the supervision of the Bank of Italy.</p>	
	EBA Final non-ABCP STS Guidelines – statements on <i>background and rationale</i>	
	<p>Expertise of the Servicer (Article 21 (8))</p> <p>65. The objective of this criterion is to ensure that all the conditions are in place for the proper functioning of the servicing function, taking into account the crucial importance of servicing in securitisation and the central nature of this function within any securitisation transaction.</p> <p>66. To facilitate consistent interpretation of this criterion, the following aspects should be further clarified:</p> <p>(a) criteria for determining the expertise of the servicer;</p> <p>(b) criteria for determining well-documented and adequate policies, procedures and risk management controls of the servicer.</p> <p>67. The criteria for the expertise of the servicer should correspond to those for the expertise of the originator or the original lender. Newly established entities should be allowed to perform the tasks of servicing, as long as the back-up servicer has the appropriate experience. It is expected that information on the assessment of the expertise is provided in sufficient detail in the STS notification.</p>	
	EBA Final non-ABCP STS Guidelines	
	<p>5.8 Expertise of the servicer (Article 21 (8))</p> <p>Criteria for determining the expertise of the servicer</p> <p>68. For the purposes of determining whether a servicer has expertise in servicing exposures of a similar nature to those securitised in accordance with Article 21(8) of Regulation (EU) 2017/2402, both of the following should apply:</p> <p>(a) the members of the management body of the servicer and the senior staff, other than members of the management body, responsible for servicing exposures of a similar nature to those securitised should have adequate knowledge and skills in the servicing of exposures similar to those securitised;</p> <p>(b) any of the following principles on the quality of the expertise should be taken into account in the determination of the expertise:</p> <p>(i) the role and duties of the members of the management body and the senior staff and the required capabilities should be adequate;</p> <p>(ii) the experience of the members of the management body and the senior staff gained in previous positions, education and training should be sufficient;</p>	

(iii) the involvement of the members of the management body and the senior staff within the governance structure of the function of servicing the exposures should be appropriate;

(iv) in the case of a prudentially regulated entity, the regulatory authorisations or permissions held by the entity should be deemed relevant to the servicing of similar exposures to those securitised.

69. A servicer should be deemed to have the required expertise where either of the following applies:

(a) the business of the entity, or of the consolidated group, to which the entity belongs, for accounting or prudential purposes, has included the servicing of exposures of a similar nature to those securitised, for at least five years;

(b) where the requirement referred to in point (a) is not met, the servicer should be deemed to have the required expertise where they comply with both of the following:

(i) at least two of the members of its management body have relevant professional experience in the servicing of exposures of a similar nature to those securitised, at personal level, of at least five years;

(ii) senior staff, other than members of the management body, who are responsible for managing the entity's servicing of exposures of a similar nature to those securitised, have relevant professional experience in the servicing of exposures of a similar nature to those securitised, at a personal level, of at least five years;

(iii) the servicing function of the entity is backed by the back-up servicer compliant with point (a).

70. For the purpose of demonstrating the number of years of professional experience, the relevant expertise should be disclosed in sufficient detail and in accordance with the applicable confidentiality requirements to permit investors to carry out their obligations under Article 5(3)(c) of Regulation (EU) 2017/2402.

Exposures of similar nature

71. For the purposes of Article 21(8) of Regulation (EU) 2017/2402, interpretation of the term 'exposures of similar nature' should follow the interpretation provided in paragraph 23 above.

	<p>See “<i>Rules of the Organisation of the Noteholders</i>” included as an Exhibit 1 to the Terms and Conditions of the Notes.</p> <p>(a) the method for calling meetings; as for method: Article 7 (<i>Notices</i>) and Article 12 (<i>Notice following adjournment</i>).</p> <p>(b) the maximum timeframe for setting up a meeting: Article 7 (<i>Notices</i>); Article 10 (<i>Adjournment for lack of quorum</i>); Article 11 (<i>Adjourned Meeting</i>) and Article 12 (<i>Notice following adjournment</i>).</p> <p>(c) the required quorum: Article 9 (<i>Quorum</i>) and definition of “Relevant Fraction”.</p> <p>(d) the minimum threshold of votes to validate such a decision, with clear differentiation between the minimum thresholds for each type of decision; Article 9 (<i>Quorum</i>) and definition of “Relevant Fraction”.</p> <p>(e) where applicable, a location for the meetings which should be in the EU: Article 7 (<i>Notices</i>) and Article 12 (<i>Notice following adjournment</i>).</p> <p>Although the wording of the Regulation as to what constitutes the “facilitation of timely resolution of conflicts” is quite vague, the EBA Guidelines have helpfully set out the five minimum requirements that the documents should contain to meet this criterion.</p> <p><i>PCS has reviewed the underlying documents (particularly, the Rules of the Organisation of the Noteholders) to ascertain that all the five requirements above are indeed present.</i></p>	
	EBA Final non-ABCP STS Guidelines – statements on background and rationale	
	Resolution of conflicts between different classes of investors	
	70. The objective of this criterion is to help ensure clarity for securitisation noteholders of their rights and ability to control and enforce on the underlying credit claims or receivables. This should make the decision-making process more effective, for instance in circumstances where enforcement rights on the underlying assets are being exercised.	
	71. To facilitate consistent interpretation of this criterion, the term ‘clear provisions that facilitate the timely resolution of conflicts between different classes of investors’ should be further interpreted.	
	EBA Final non-ABCP STS Guidelines	
	5.8 Resolution of conflicts between different classes of investors (Article 20 (10))	
	<i>Clear provisions facilitating the timely resolution of conflicts between different classes of investors</i>	
	73. For the purposes of Article 21(10) of Regulation (EU) 2017/2402, provisions of the transaction documentation that ‘facilitate the timely resolution of conflicts between different classes of investors’, should include provisions with respect to all of the following:	
	(a) the method for calling meetings or arranging conference calls;	
	(b) the maximum timeframe for setting up a meeting or conference call;	
	(c) the required quorum;	
	(d) the minimum threshold of votes to validate such a decision, with clear differentiation between the minimum thresholds for each type of decision;	
	(e) where applicable, a location for the meetings which should be in the Union.	

	<p>74. For the purposes of Article 21(10) of Regulation (EU) 2017/2402, where mandatory statutory provisions exist in the applicable jurisdiction that set out how conflicts between investors have to be resolved, the transaction documentation may refer to these provisions.</p>

	EBA Final non-ABCP STS Guidelines	
	6.2 Verification of a sample of the underlying exposures (Article 22 (2))	

Sample of the underlying exposures subject to external verification

78. For the purposes of Article 22(2) of Regulation (EU) 2017/2402, the underlying exposures that should be subject to verification prior to the issuance should be a representative sample of the provisional portfolio from which the securitised pool is extracted and which is in a reasonably final form before issuance.

Party executing the verification

79. For the purposes of Article 22(2) of Regulation (EU) 2017/2402, an appropriate and independent party should be deemed to be a party that meets both of the following conditions:

- (a) it has the experience and capability to carry out the verification;
- (b) it is none of the following:
 - (i) a credit rating agency;
 - (ii) a third party verifying STS compliance in accordance with Article 28 of Regulation (EU) 2017/2402;
 - (iii) an entity affiliated to the originator.

Scope of the verification

80. For the purposes of Article 22(2) of Regulation (EU) 2017/2402, the verification to be carried out based on the representative sample, applying a confidence level of at least 95%, should include both of the following:

- (a) verification of the compliance of the underlying exposures in the provisional portfolio with the eligibility criteria that are able to be tested prior to issuance;
- (b) verification of the fact that the data disclosed to investors in any formal offering document in respect of the underlying exposures is accurate.

Confirmation of the verification

81. For the purposes of Article 22(2) of Regulation (EU) 2017/2402, confirmation that this verification has occurred and that no significant adverse findings have been found should be disclosed.

	Available information related to the environmental performance	
	<p>84. This requirement should be applicable only if the information on the energy performance certificates for the assets financed by the underlying exposures is available to the originator, sponsor or the SSPE and captured in its internal database or IT systems. Where information is available only for a proportion of the underlying exposures, the requirement should apply only in respect of the proportion of the underlying exposures for which information is available.</p>

	Banca Carige is the "Reporting Entity": see this statement in the Transaction Overview:	
	<<Reporting Entity	
	<i>Under the Interc Creditor Agreement, each of the Issuer and the Originators has agreed that Banca Carige is designated and will act as Reporting Entity, pursuant to and for the purposes of article 7(2) of the Securitisation Regulation. In such capacity as Reporting Entity, Banca Carige shall fulfil the information requirements pursuant to points (a), (b), (c), (d), (e), (f) and (g) of the first subparagraph of article 7(1) of the Securitisation Regulation by making available the relevant information:</i>	
	<i>(a) until the Data Repository (as defined below) is appointed by the Reporting Entity, on the website of European DataWarehouse (being as at the date of this Prospectus https://eurodw.eu/; for the avoidance of doubt, such website does not constitute part of this Prospectus) (the "Temporary Website"); and</i>	
	<i>(b) after the Data Repository (as defined below) is appointed by the Reporting Entity, on the Data Repository (as defined below).</i>	
	<i>"Data Repository" means the securitisation repository authorized by ESMA and enrolled in the register held by it pursuant to article 10 of the Securitisation Regulation appointed in respect of the Securitisation.>>.</i>

Definitions:

“AUP”: the agreed upon procedures through which an external firm verifies certain aspects of the asset pool.

“COMI”: centre of main interest – broadly, the legal jurisdiction where the insolvency of the seller of assets will be primarily determined.

“Issuer Notification”: the notification provided by the originator or sponsor pursuant to article 27 of the STS Regulation.

“Jurisdiction List”: the list of jurisdictions where it has been determined that severe clawback provisions do not apply.

“Legal Opinion”: an opinion signed by a law firm qualified in the relevant jurisdiction and acting for the originator or the arranger where the law firm sets out the reasons why, in its opinion and subject to customary assumptions and qualifications, the assets are transferred in such a way as to meet the STS Criterion for “true sale” or the same type of opinion for prior sales together with an opinion on the enforceability of the underlying assets.

“Marketing Documents”: Documents prepared by or on behalf of the originator and used in the marketing of the transaction with potential investors.

“Model”: a liability cash flow model which precisely represents the contractual relationship between the underlying exposures and the payments flowing between the originator, sponsor, investors, other third parties and the SSPE.

“PoP”: the priority of payments.

“Prospectus/Deal Sheet”: the prospectus, or for a deal where no prospectus needs to be drawn up, the deal sheet envisaged by article 7.1(c) of the STS Regulation.

“Prospectus Regulation”: the Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC.

“Transaction Document”: a document entered into in relation to the transaction binding on one or more parties connected to the transaction.
