N92	STSS35	M	Mitigation of interest rates and currency risks explanation	For the purpose of compliance with Article 21(2) of the EU Securitisation Regulation in order to mitigate any interest rate risk connected with the Senior Notes, the Issuer has entered into a 1992 ISDA Master Agreement with the Hedging Counterparty on or about the Issue Date, together with the Schedule and the Credit Support Annex thereto and the confirmation documenting the interest rate swap transaction supplemental thereto, under which, subject to the conditions set out thereunder, the Issuer will pay to the Hedging Counterparty a fixed amount, and the Hedging Counterparty will pay to the Issuer a floating amount (for further details, see Condition 5.2 (Rates of Interest) and the section headed "Transaction Documents-Description of the Hedging Agreement"). The execution of the Hedging Agreement by the Issuer constitutes an appropriate mitigation of the interest rate risk connected with the Senior Notes for the purpose of compliance with article 21, paragraph 2, of the EU Securitisation Regulation. In addition (i) under the Warranty and Indemnity Agreement, the Originator has represented and warranted that the Receivables included in the Initial Portfolio have, and the Receivables included in each Subsequent Portfolio will have, a fixed interest rate pursuant to the relevant Consumer Loan Agreement, and (ii) the rate of interest applicable to the Mezzanine Notes and the Junior Notes will be a fixed rate pursuant to Condition 5.2 (Rates of Interest); therefore there is no interest rate risk to be mitigated with respect to the Mezzanine Notes and the Junior Notes as required by Article 21(2) of the EU Securitisation Regulation. Any payment risk arising from the mismatch between the interest rate on the Consumer Loans and the interest rate on the Notes is mitigated (i) by the Concentration Limit on the Interest Rate which shall be at least 9.5%; and (ii) with respect to (a) the Senior Notes, by the subordination of the Mezzanine Notes of each Class and the Junior Notes and the payments made by the Hedging Counterparty under the Hedging Agreement; (b) the Class B Notes, by the subordination of the Class D Notes, the Class D Notes, the Class E Notes and the Junior Notes; (c) the Class C Notes, by the subordination of the Class D Notes, the Class E Notes and the Junior Notes; (d) the Class D Notes, by the subordination of the Class E Notes and the Junior Notes; (e) the Class E Notes, by the subordination of the Junior Notes; and (f) to a lesser extent in respect of all Classes of Rated Notes, by the amounts standing to the credit of the Roto Participato Cash Reserve Account and the Payment Interruption Risk Reserve Account. Finally, there is no currency risk since (i) under the Warranty and Indemnity Agreement, the Originator has represented and warranted that the Receivables arise from Consumer Loan Agreements which are denominated in Euro, and (ii) pursuant to the Conditions, the Notes are denominated in Euro.
